PREAMBLE:

The merging of the office of strategic planning and performance management and the office of management and budget into the office of performance, strategy and budget will integrate the strategy, performance and budget functions within the department of executive services.

The newly configured office will allow for better alignment between budgeting, performance management, and strategic planning resulting in effective implementation of the recently adopted King County Strategic Plan.

The newly configured office will facilitate effective collaboration and planning across systems, agencies and governments.

The business development and contract compliance unit, which develops, promotes, and establishes inclusiveness in King County contracts and administers the King County apprenticeship program, is functionally aligned with the work of the department of executive services.

Shifting the business development and contract compliance unit from the existing office of strategic planning and performance management to the department of executive services integrates its work with the overall procurement and contracting functions of the finance and business operations divisions.

The historic preservation program ensures that the county's historic and archaeological resources are preserved for future generations.

Shifting the historic preservation unit from the existing office of strategic planning and performance management to the department of natural resources and parks provides better alignment with the existing functions of the director's office.

These organizational changes are consistent with the adopted King County Strategic Plan by improving customer service through co-location of similar functions.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. Ordinance 15378, Section 6, and K.C.C. 1.36.060 are each hereby amended to read as follows:

This chapter shall be implemented in phases to minimize cost. The county shall continue to use the previous crown logo on existing items until these are replaced in the usual course of county business, unless replacement with the new logo is either minimal in cost or is necessary for public health and safety purposes such as uniform identification for King County law enforcement officers. The executive shall coordinate with separately elected officials and branches of government to encourage implementation of this chapter in all county agencies. The office of ((~~management~~)) performance, strategy and budget shall submit semiannual reports to the council through 2009 on actual expenditures related to the implementation of this chapter. The reports should be submitted beginning September 29, 2006, with the subsequent report due March 30, 2007, and every six months thereafter. Eleven copies of each report shall be filed with the clerk of the council for distribution to all councilmembers.

SECTION 2. Ordinance 11980, Section 3 as amended, and K.C.C. 2.10.010 are each hereby amended to read as follows:

King County shall develop an effective performance management and accountability system designed to enhance government accountability, transparency, service performance and resource allocation. The performance management and accountability system shall be comprised of strategic and business planning at countywide, system, department and agency levels that effectively uses performance measurement to support continuous organizational evaluation and improvement. There is consensus among county leadership that the performance management and accountability system effectively aligns collaborative efforts towards common county goals while respecting the needs of individual agencies to pursue organizational goals, and separately

elected officials' obligation to deliver on their commitments to the public.

A. The purpose of creating and implementing a countywide performance management and accountability system shall be to promote a culture of accountability within King County government and will:

1. Engage the public in the development of countywide priorities as part of the development of a countywide strategic plan;
2. Demonstrate to the public and its decision makers the county's achievement in meeting its prioritized goals;
3. Increase the ability of county managers and staff to improve county management and customer service delivery and assess program effectiveness; and
4. Assist county elected leaders in making policy and budget decisions.

In order for the performance management and accountability system to be successful it is the intent of King County that the system shall use strategic business planning to develop high-level strategic plans for the entire county government and for each individual county agency, executive department and office that are directly related to the executive proposed county budget. The office of ~~((strategic planning and))~~ performance ~~((management))~~, strategy and budget will provide leadership in and coordination of countywide performance management and measurement. It is the intent that the countywide performance management and accountability system be developed and implemented in a fiscally responsible manner.

B. The King County performance management and accountability system should be guided by the following guiding principles:

1. The public and elected leaders are engaged to develop countywide prioritized goals and align services to those goals;
2. King County publicly reports on how well it is meeting its performance goals;
3. Performance measures are directly linked to policy and resource allocation decisions;
4. Performance measurement is used by managers for strategic planning, program evaluation,

operational improvements and budgeting; and

5. Performance measures are not to be used in a punitive manner but are used to support continuous organizational evaluation and improvement in collaboration with the workforce.

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise:

A. "Accountability" means a process to set priorities, measure performance, and inspire the workforce to improve the overall performance and customer service of county government. It should also identify strengths, weaknesses, opportunities and challenges, both internal and external, that will either advance or impede the execution of the plan. A strategic plan should include prioritized strategies and actions that describe how goals will be achieved given the projected opportunities and challenges. The strategic plan should also include a monitoring plan that describes, tracks and evaluates key outcomes to be achieved and high-level performance measures relevant to the stated goals.
