PART IV. GOALS, OUTCOMES, AND POST PROJECT ASSESSMENT

(see Important Dates in Part I and Post Project Assessment in Attachment 4)

A. Financial Assistance Water Quality Project Goals: One or more of the selected following goals apply to this project:

- Severe Public Health Hazard or Public Health Emergency eliminated.
- Designated beneficial uses will be restored or protected, 303(d)-Listed water bodies restored to water quality standards, and healthy waters prevented from being degraded.
- Regulatory compliance with a consent decree, compliance orders, TMDL or waste load allocation achieved.

B. Water Quality Project Outcomes: The following are quantitative results anticipated from the project.

1. Increased capacity of the siphon from 60 mgd to 125 mgd.
2. Reduction in CSO events and its volumes at the Ballard Regulator Station.
3. Reduction in CSO events and its volumes at the 11th Ave Regulator Station.

C. Environmental Mitigation: Yes No If Yes, list the environmental mitigation measures:

PART V. SCOPE OF WORK

Task 1 - Project Administration/Management

- A. The RECIPIENT will administer the project. Responsibilities will include, but not be limited to: maintenance of project records; submittal of payment vouchers, fiscal forms, and progress reports; compliance with applicable procurement, contracting, and interlocal agreement requirements; attainment of all required permits, licenses, easements, or property rights necessary for the project; and submittal of required performance items.
- B. The RECIPIENT agrees to track Recovery Funds separately from Base Revolving Funds where applicable.
- C. The RECIPIENT will manage the project. Efforts will include: conducting, coordinating, and scheduling project activities and assuring quality control. Every effort will be made to maintain effective communication with the RECIPIENT's designees; the DEPARTMENT; all affected local, state, or federal jurisdictions; and any interested individuals or groups. The RECIPIENT will carry out this project in accordance with any completion dates outlined in this agreement.

Required Performance:

1. Effective administration and management of this project.
2. Timely submittal of all required performance items, progress reports, and financial vouchers.

Task 2 - Ballard Siphon Construction Contract

- A. The RECIPIENT will supplement the Ballard Siphon with a separate pipe and line the existing pipes with new pipes. The separate pipe will be placed in a tunnel deep under the bed of Salmon Bay. The two lining pipes will be inserted into the existing wood-stave pipes. Structures associated with the three pipes will also be constructed. The pipes, structures and their construction are discussed in more detail below.
- B. The RECIPIENT will install a new separate pipe. The separate pipe will be about 7 feet in diameter. It will be placed within an approximately 7 to 12-foot diameter tunnel. The tunnel will be about 2000 feet long. It will be constructed between two vertical shafts that will be sunk on land: one at the north end of the tunnel, next to the Ballard Regulator, and one at the south end at a location south of West Commodore Way. The north shaft will be about 30 feet in diameter and 140 feet deep. The south shaft will be about 70 feet in diameter and 100 feet deep. These depths will place the tunnel well below the bed of Salmon Bay. Consequently no in-water construction will take place.
- C. The RECIPIENT will insert new linings into the existing siphons. The two new lining pipes will each be about 30 inches in diameter and will line the full length of both existing pipes. The method by which they will be inserted into the existing pipes is known as "sliplining." To conduct the sliplining, a pit will be excavated down to the existing pipes next to the Ballard Regulator. Then a segment of the pipes will be removed and sliplining equipment will be placed in the pit. Pulling rods will then be run through the existing pipes to the location of the existing structure on the south end of the siphon. Equipment on the south end will then use the rods to pull the new pipe through the existing pipe. The equipment in the pit will fuse pipe segments together one after the other as the pipe is pulled. The existing pipes will be sliplined

one at a time.

- D. The RECIPIENT will construct new access and flow regulation structures. An addition to the Ballard Regulator will be constructed that will house new flow pipes. On the south side, new manholes and a regulating structure will be constructed underground at the shaft site to control flows into the North Interceptor.

Required Performance:

Quarterly reports are due 15 days following the end of the quarter being reported. Payment requests will not be processed without a current Progress Report.

At a minimum, all Progress Reports must contain a comparison of actual accomplishments to the objectives established for the period, the reasons for delay if established objectives were not met, analysis and explanation of any cost overruns, and any additional pertinent information specified in this agreement. Even if no progress has occurred a progress report must still be submitted.

The RECIPIENT will also report in writing to the DEPARTMENT any problems, delays, or adverse conditions which will materially affect its ability to meet PROJECT objectives or time schedules. This disclosure will be accompanied by a statement of the action taken or proposed and any assistance needed from the DEPARTMENT to resolve the situation.

REPRESENTATIONS AND WARRANTIES

The RECIPIENT represents and warrants to the DEPARTMENT as follows:

A. Existence; Authority.

It is a duly formed and legally existing municipal corporation or political subdivision of the state of Washington or a federally recognized Indian tribe. It has full corporate power and authority to execute, deliver, and perform all of its obligations under this AGREEMENT and to undertake the PROJECT identified herein.

B. Application; Material Information.

All information and materials submitted by the RECIPIENT to the DEPARTMENT in connection with its LOAN application were, when made, and are, as of the date the RECIPIENT executes this AGREEMENT, true and correct. There is no material adverse information relating to the RECIPIENT, the PROJECT, the LOAN, or this AGREEMENT known to the RECIPIENT which has not been disclosed in writing to the DEPARTMENT.

C. Litigation; Authority.

No litigation is now pending or, to the RECIPIENT'S knowledge, threatened, seeking to restrain, or enjoin:

- (i) the execution of this AGREEMENT; or
- (ii) the fixing or collection of the revenues, rates, and charges or the formation of the ULID and the levy and collection of ULID Assessments therein pledged to pay the principal of and interest on the LOAN (for revenue secured lien obligations); or
- (iii) the levy and collection of the taxes pledged to pay the principal of and interest on the LOAN (for general obligation-secured loans and general obligation payable from special-assessment-secured loans); or
- (iii) in any manner questioning the proceedings and authority under which the AGREEMENT, the LOAN, or the PROJECT are authorized. Neither the corporate existence or boundaries of the RECIPIENT nor the title of its present officers to their respective offices is being contested. No authority or proceeding for the execution of this AGREEMENT has been repealed, revoked, or rescinded.

D. Not an Excess Indebtedness

For LOANS secured with a general obligation pledge or a general obligation pledge on special assessments: The RECIPIENT agrees that this AGREEMENT and the LOAN to be made do not create an indebtedness of the RECIPIENT in excess of any constitutional or statutory limitations.

E. Due Regard

For LOANS secured with a Revenue Obligation: The RECIPIENT has exercised due regard for Maintenance and Operation Expense and the debt service requirements of the Senior Lien Obligations and any other outstanding obligations pledging the Gross Revenue of the Utility, and it has not obligated itself to set aside and pay into the Loan Fund a greater amount of the Gross Revenue of the Utility than, in its judgment, will be available over and above such Maintenance and Operation Expense and those debt service requirements.

SEWER-USER FEE ORDINANCES AND USER-CHARGE SYSTEM

Sewer-Use Ordinance or Resolution

If not already in existence, the RECIPIENT will adopt and will enforce a sewer-use ordinance or resolution. The sewer use ordinance must include provisions to: 1) prohibit the introduction of toxic or hazardous wastes into the RECIPIENT's sewer system; 2) prohibit inflow of stormwater; 3) require that new sewers and connections be properly designed and constructed; and 4) require all existing and future residents to connect to the sewer system. Such ordinance or resolution will be submitted to the DEPARTMENT upon request by the DEPARTMENT.

User-Charge System

The RECIPIENT certifies that it has the legal authority to establish and implement a wastewater treatment user-charge system and will adopt a system of wastewater treatment user-charges to assure that each recipient of the water pollution control facility will pay its proportionate share of the cost of operation and maintenance, including replacement during the design life of the PROJECT.

In addition, the RECIPIENT will regularly evaluate the user-charge system, at least annually, to ensure the system provides adequate revenues necessary to operate and maintain the water pollution control facility, to establish a reserve to pay for replacement, and to repay the LOAN.

SIGNAGE

All site-specific projects must have a sign of sufficient size to be seen from nearby roadways acknowledging department financial assistance and left in place throughout the life of the project or facility. Department logos must be on all signs and documents. Logos will be provided as needed

SMALL BUSINESS IN RURAL AREAS (FOR FEDERALLY FUNDED PROJECTS)

If a contract is awarded by the RECIPIENT under this AGREEMENT, the RECIPIENT is also required to utilize the following affirmative steps:

1. Place Small Business in Rural Areas (SBRAs) on solicitation lists.
2. Make sure the SBRAs are solicited whenever there are potential sources.
3. Divide total requirements, when economically feasible, into small tasks or quantities to permit maximum participation by SBRAs.
4. Establish delivery schedules, where requirements of work will permit, which could encourage participation by SBRAs.
5. Use the services of the Small Business Administration and the Minority Business Development Agency of the U.S. Department of Commerce, as appropriate.
6. Require the contractor to comply with the affirmative steps outlined above.

The negotiated "Fair Share Percentage" for the SBRAs is one-half of one percent.

There is no formal reporting requirement for SBRAs at this time; however, it is highly recommended that the RECIPIENT keep records of SBRA participation.

TERMINATION AND DEFAULT; REMEDIES

A. Termination and Default Events

1. For Insufficient DEPARTMENT or RECIPIENT Funds. This AGREEMENT may be terminated by the DEPARTMENT for insufficient DEPARTMENT or RECIPIENT funds.
2. For Failure to Commence Work. This AGREEMENT may be terminated by the DEPARTMENT for failure of the RECIPIENT to commence PROJECT work.
3. Past Due Payments. The RECIPIENT will be in default of its obligations under this AGREEMENT when any LOAN repayment becomes 60 days past due.
4. Other Cause. The obligation of the DEPARTMENT to the RECIPIENT is contingent upon satisfactory performance in full by the RECIPIENT of all of its obligations under this AGREEMENT. The RECIPIENT will be in default of its obligations under this AGREEMENT if, in the opinion of the DEPARTMENT, the RECIPIENT has unjustifiably failed to perform any obligation required of it by this AGREEMENT including, but not limited to, the PROJECT Schedule contained in Section IV-E.

B. Procedures for Termination

If this AGREEMENT is terminated prior to PROJECT completion, the DEPARTMENT will provide to the RECIPIENT a written notice of termination at least five working days prior to the effective date of termination (the "Termination Date"). The written notice of termination by the DEPARTMENT will specify the Termination Date and, when applicable, the date by which the RECIPIENT must repay any outstanding balance of the LOAN and all accrued interest (the "Termination Payment Date").

C. Termination and Default Remedies

1. No Further Payments. On and after the Termination Date, or in the event of a default event, the DEPARTMENT may, in its sole discretion, withdraw the LOAN and make no further payments under this AGREEMENT.
2. Repayment Demand. In response to a termination event, except in the circumstances described in Section VII-A-1, or in response to a default event, the DEPARTMENT may in its sole discretion demand that the RECIPIENT repay the outstanding balance of the LOAN Amount and all accrued interest.
3. Interest after Repayment Demand. From the time that the DEPARTMENT demands repayment of funds, amounts owed by the RECIPIENT to the DEPARTMENT will accrue additional interest at the rate of one percent per month, or fraction thereof.
4. Accelerate Repayments. In the event of a default, the DEPARTMENT may in its sole discretion declare the principal of and interest on the LOAN immediately due and payable, subject to the prior lien and charge of any outstanding Senior Lien Obligations upon the Net Revenue. Repayments not made immediately upon such acceleration will incur Late Charges.
5. Late Charges. All amounts due to the DEPARTMENT and not paid by the RECIPIENT by the Termination Payment Date or after acceleration following a default event, as applicable, will incur Late Charges.
6. Intercept State Funds. In the event of a default event and in accordance with RCW 90.50A.060, "Defaults," any state funds otherwise due to the RECIPIENT may, in the DEPARTMENT's sole discretion, be withheld and applied to the repayment of the LOAN.

7. Property to DEPARTMENT. In the event of a default event and at the option of the DEPARTMENT, any property (equipment and land) acquired under this AGREEMENT may, in the DEPARTMENT's sole discretion, become the DEPARTMENT's property. In that circumstance, the RECIPIENT's liability to repay money will be reduced by an amount reflecting the fair value of such property.
8. Documents and Materials. If this AGREEMENT is terminated, all finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT will, at the option of the DEPARTMENT, become DEPARTMENT property. The RECIPIENT will be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.
9. Collection and Enforcement Actions. In the event of a default event, the state of Washington reserves the right to take any actions it deems necessary to collect the amounts due, or to become due, or to enforce the performance and observance of any obligation by the RECIPIENT, under this AGREEMENT.
10. Fees and Expenses. In any action to enforce the provisions of this AGREEMENT, reasonable fees and expenses of attorneys and other reasonable expenses (including, without limitation, the reasonably allocated costs of legal staff) will be awarded to the prevailing party as that term is defined in RCW 4.84.330, "Actions on contract or lease . . .—Waiver prohibited."
11. Damages. Notwithstanding the DEPARTMENT's exercise of any or all of the termination or default remedies provided in this AGREEMENT, the RECIPIENT will not be relieved of any liability to the DEPARTMENT for damages sustained by the DEPARTMENT and/or the state of Washington because of any breach of this AGREEMENT by the RECIPIENT. The DEPARTMENT may withhold payments for the purpose of setoff until such time as the exact amount of damages due the DEPARTMENT from the RECIPIENT is determined.

WATER QUALITY MONITORING

Quality Assurance Project Plan (QAPP):

Prior to initiating water quality monitoring activities, the RECIPIENT must prepare a Quality Assurance Project Plan (QAPP). The QAPP must follow the DEPARTMENT's "Guidelines for Preparing Quality Assurance Project Plans for Environmental Studies," (Ecology Publication No. 04-03-030). The RECIPIENT may also reference the "Technical Guidance for Assessing the Quality of Aquatic Environments," revised February 1994 (Ecology Publication No. 91-78).

K. TERMINATION

1. For Cause. The obligation of the DEPARTMENT to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of the DEPARTMENT, to perform any obligation required of it by this agreement, the DEPARTMENT may refuse to pay any further funds there under and/or terminate this agreement by giving written notice of termination.

A written notice of termination shall be given at least five working days prior to the effective date

of termination. In that event, all finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, and reports or other materials prepared by the RECIPIENT under this agreement, at the option of the DEPARTMENT, shall become Department property and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Despite the above, the RECIPIENT shall not be relieved of any liability to the DEPARTMENT for damages sustained by the DEPARTMENT and/or the State of Washington because of any breach of agreement by the RECIPIENT. The DEPARTMENT may withhold payments for the purpose of setoff until such time as the exact amount of damages due the DEPARTMENT from the RECIPIENT is determined.

2. Insufficient Funds. The obligation of the DEPARTMENT to make payments is contingent on the availability of state and federal funds through legislative appropriation and state allotment. When this agreement crosses over state fiscal years the obligation of the DEPARTMENT is contingent upon the appropriation of funds during the next fiscal year. The failure to appropriate or allot such funds shall be good cause to terminate this agreement as provided in paragraph K.1 above.

When this agreement crosses the RECIPIENT's fiscal year, the obligation of the RECIPIENT to continue or complete the project described herein shall be contingent upon appropriation of funds by the RECIPIENT's governing body; provided, however, that nothing contained herein shall preclude the DEPARTMENT from demanding repayment of ALL funds paid to the RECIPIENT in accordance with Section O herein.

3. Failure to Commence Work. In the event the RECIPIENT fails to commence work on the project funded herein within four months after the effective date of this agreement, or by any date agreed upon in writing for commencement of work, the DEPARTMENT reserves the right to terminate this agreement.

L. WAIVER

Waiver of any RECIPIENT default is not a waiver of any subsequent default. Waiver of a breach of any provision of this agreement is not a waiver of any subsequent breach and will not be construed as a modification of the terms of this agreement unless stated as such in writing by the authorized representative of the DEPARTMENT.

M. PROPERTY RIGHTS

1. Copyrights and Patents. When the RECIPIENT creates any copyrightable materials or invents any patentable property, the RECIPIENT may copyright or patent the same but the DEPARTMENT retains a royalty-free, nonexclusive and irrevocable license to reproduce, publish, recover or otherwise use the material(s) or property and to authorize others to use the same for federal, state or local government purposes. Where federal funding is involved, the federal government may have a proprietary interest in patent rights to any inventions that are developed by the RECIPIENT as provided in 35 U.S.C. 200-212.
2. Publications. When the RECIPIENT or persons employed by the RECIPIENT use or publish information of the DEPARTMENT; present papers, lectures, or seminars involving information supplied by the DEPARTMENT; use logos, reports, maps or other data, in printed reports, signs, brochures, pamphlets, etc., appropriate credit shall be given to the DEPARTMENT.

3. Tangible Property Rights. The DEPARTMENT's current edition of "Administrative Requirements for Ecology Grants and Loans", Part V, shall control the use and disposition of all real and personal property purchased wholly or in part with funds furnished by the DEPARTMENT in the absence of state, federal statute(s), regulation(s), or policy(s) to the contrary or upon specific instructions with respect thereto in the Scope of Work.
4. Personal Property Furnished by the DEPARTMENT. When the DEPARTMENT provides personal property directly to the RECIPIENT for use in performance of the project, it shall be returned to the B-4 DEPARTMENT prior to final payment by the DEPARTMENT. If said property is lost, stolen or damaged while in the RECIPIENT's possession, the DEPARTMENT shall be reimbursed in cash or by setoff by the RECIPIENT for the fair market value of such property.
5. Acquisition Projects. The following provisions shall apply if the project covered by this agreement includes funds for the acquisition of land or facilities:
 - a. Prior to disbursement of funds provided for in this agreement, the RECIPIENT shall establish that the cost of land/or facilities is fair and reasonable.
 - b. The RECIPIENT shall provide satisfactory evidence of title or ability to acquire title for each parcel prior to disbursement of funds provided by this agreement. Such evidence may include title insurance policies, Torrens certificates, or abstracts, and attorney's opinions establishing that the land is free from any impediment, lien, or claim which would impair the uses contemplated by this agreement.
6. Conversions. Regardless of the contract termination date shown on the cover sheet, the RECIPIENT shall not at any time convert any equipment, property or facility acquired or developed pursuant to this agreement to uses other than those for which assistance was originally approved without prior written approval of the DEPARTMENT. Such approval may be conditioned upon payment to the DEPARTMENT of that portion of the proceeds of the sale, lease or other conversion or encumbrance which monies granted pursuant to this agreement bear to the total acquisition, purchase or construction costs of such property.

N. SUSTAINABLE PRODUCTS

In order to sustain Washington's natural resources and ecosystems, the RECIPIENT is encouraged to implement sustainable practices where and when possible. These practices include use of clean energy, and purchase and use of sustainably produced products (e.g., recycled paper). For more information, see <http://www.ecy.wa.gov/sustainability/>.

O. RECOVERY OF PAYMENTS TO RECIPIENT

The right of the RECIPIENT to retain monies paid to it as reimbursement payments is contingent upon satisfactory performance of this agreement including the satisfactory completion of the project described in the Scope of Work. In the event the RECIPIENT fails, for any reason, to perform obligations required of it by this agreement, the RECIPIENT may, at the DEPARTMENT's sole discretion, be required to repay to the DEPARTMENT all grant/loan funds disbursed to the RECIPIENT for those parts of the project that are rendered worthless in the opinion of the DEPARTMENT by such failure to perform. Interest shall accrue at the rate of twelve percent (12%) per year from the time the DEPARTMENT demands repayment of funds. If payments have been discontinued by the DEPARTMENT due to insufficient funds as in Section K.2 above, the RECIPIENT shall not be obligated to repay monies which had been paid to the

RECIPIENT prior to such termination. Any property acquired under this agreement, at the option of the DEPARTMENT, may become the DEPARTMENT'S property and the RECIPIENT'S liability to repay monies shall be reduced by an amount reflecting the fair value of such property.

P. PROJECT APPROVAL

The extent and character of all work and services to be performed under this agreement by the RECIPIENT shall be subject to the review and approval of the DEPARTMENT through the Project Officer or other designated official to whom the RECIPIENT shall report and be responsible. In the event there is a dispute with regard to the extent and character of the work to be done, the determination of the Project Officer or other designated official as to the extent and character of the work to be done shall govern. The RECIPIENT shall have the right to appeal decisions as provided for below.

Q. DISPUTES

Except as otherwise provided in this agreement, any dispute concerning a question of fact arising under this agreement which is not disposed of in writing shall be decided by the Project Officer or other designated official who shall provide a written statement of decision to the RECIPIENT. The decision of the Project Officer or other designated official shall be final and conclusive unless, within thirty days from the date of receipt of such statement, the RECIPIENT mails or otherwise furnishes to the Director of the DEPARTMENT a written appeal. In connection with appeal of any proceeding under this clause, the RECIPIENT shall have the opportunity to be heard and to offer evidence in support of this appeal. The decision of the Director or duly authorized

representative for the determination of such appeals shall be final and conclusive. Appeals from the Director's determination shall be brought in the Superior Court of Thurston County. Review of the decision of the Director will not be sought before either the Pollution Control Hearings Board or the Shoreline Hearings Board. Pending final decision of dispute hereunder, the RECIPIENT shall proceed diligently with the performance of this agreement and in accordance with the decision rendered.

R. CONFLICT OF INTEREST

No officer, member, agent, or employee of either party to this agreement who exercises any function or responsibility in the review, approval, or carrying out of this agreement, shall participate in any decision which affects his/her personal interest or the interest of any corporation, partnership or association in which he/she is, directly or indirectly interested; nor shall he/she have any personal or pecuniary interest, direct or indirect, in this agreement or the proceeds thereof.

S. INDEMNIFICATION

1. The DEPARTMENT shall in no way be held responsible for payment of salaries, consultant's fees, and other costs related to the project described herein, except as provided in the Scope of Work.
2. To the extent that the Constitution and laws of the State of Washington permit, each party shall indemnify and hold the other harmless from and against any liability for any or all injuries to persons or property arising from the negligent act or omission of that party or that party's agents or employees arising out of this agreement.

T. GOVERNING LAW

This agreement shall be governed by the laws of the State of Washington.

U. SEVERABILITY

If any provision of this agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this agreement which can be given effect without the invalid provision, and to this end the provisions of this agreement are declared to be severable.

V. PRECEDENCE

In the event of inconsistency in this agreement, unless otherwise provided herein, the inconsistency shall be resolved by giving precedence in the following order: (a) applicable Federal and State statutes and regulations; (b) Scope of Work; (c) Special Terms and Conditions; (d) Any terms incorporated herein by reference including the "Administrative Requirements for Ecology Grants and Loans"; and (e) the General Terms and Conditions.
