

INTERLOCAL AGREEMENT BETWEEN THE WEST LAKE SAMMAMISH FLOOD CONTROL ZONE DISTRICT, KING COUNTY, BELLEVUE AND REDMOND TO ABOLISH THE WEST LAKE SAMMAMISH FLOOD CONTROL ZONE DISTRICT

This Agreement is made and entered into by the West Lake Sammamish Flood Control Zone District ("District"), the City of Bellevue, hereinafter referred to as "Bellevue," the City of Redmond, hereinafter referred to as "Redmond," and King County, Washington, hereinafter referred to as "King County," collectively known as the "Parties," for the purposes of providing for the transfer of District responsibilities and assets, and any storm water related real property interests held by King County within the boundaries of the District, to Bellevue and Redmond as a result of the process of abolishing the District.

WHEREAS, RCW 86.15 provides for the creation of flood control zone districts by county legislative authorities, and

WHEREAS, the District was formed in April 1963 through adoption of Resolution 25759 by the King County Board of Commissioners (Exhibit One), and

WHEREAS, when originally created, most of the area within the District was in unincorporated King County and, hence, under the political jurisdiction of King County, and

WHEREAS, the County Council of King County constitutes the board of supervisors of the District per RCW 86.15.050, and

WHEREAS, in November 1964, through Resolution 28921 (Exhibit Two), the District assessed a fee of \$300 per developed acre for developing properties within the District that did not provide for storm water trunk lines (those storm water pipes that convey storm water from the perimeter of a platted property to the natural watercourse), and

WHEREAS, the development fees collected by the District were placed in a fund managed by the King County treasurer, and the funds were used to further the purposes of the District, including the construction and maintenance of a number of storm water control facilities, and

WHEREAS, since the creation of the District, Bellevue and Redmond have annexed all of the area within the District, and

WHEREAS, Bellevue and Redmond have storm water management regulations and programs that address storm water conveyance and have financing mechanisms to fund the programs, and

WHEREAS, the original purposes for which the District was established can now be satisfied by the storm water programs of Bellevue and Redmond, and

WHEREAS, the storm water programs of Bellevue and Redmond render the continued existence of the District unnecessary and potentially duplicative of the services and facilities provided by the programs of Bellevue and Redmond, and

WHEREAS, the Parties desire that as a result of the process of abolishing the District all of the responsibilities of the District and all of its facilities, funds, and property interests be transferred to either Bellevue or Redmond; and

WHEREAS, the Parties agree that any storm water related real property interests that may be held in name by King County within the District's boundaries should also be transferred to either Bellevue or Redmond, depending upon which city jurisdiction such real property interest is located; and

WHEREAS, the Parties agree that any documentation that may be in the possession of King County related to the storm water facilities and real property interests owned by the District, or in the name of King County within the boundaries of the District, should be transferred to the city jurisdiction within which such facility or property interest is located; and

WHEREAS, pursuant to RCW 39.34, the Interlocal Cooperation Act, the Parties are each authorized to enter into an agreement for cooperative action;

NOW THEREFORE, the Parties agree to the following:

I. Purpose

The purpose of this Agreement is to provide for the transfer of District responsibilities and assets to Bellevue and Redmond, as a result of the process of abolishing the District. Bellevue is to receive ownership of those facilities and title to those real property interests within its jurisdiction and Redmond is to receive ownership of those facilities and title to those property interests within its jurisdiction. Any currently remaining District funds are to be disbursed as hereinafter set forth. Any storm water related real property interests or facilities held in the name of King County within the boundaries of the District are also to be transferred to Bellevue or Redmond by King County.

II. Administration

The Parties hereby agree that all District obligations and responsibilities for operation, and maintenance of storm water facilities shall be assumed by the jurisdiction, either Bellevue or Redmond, within which the facility is located. In order to efficiently accomplish the transfer of assets held by the District, and any real property interests held in the name of King County, to Bellevue and Redmond, the Parties agree to each appoint one representative to a Project Management Team (PMT) composed of one King County staff member designated by the Division Manager of the King County Water and Land Resources Division, one member for the District designated by the Engineer for the District, one Bellevue staff member designated by the Director of the Bellevue Utilities Department, and one Redmond staff member designated by the Redmond City Engineer. The PMT will use consensus to reach agreement concerning administrative matters. In the event that the PMT cannot reach consensus on an issue, the issue will be forwarded to the appointing managers and District engineer for resolution.

III. Process for Abolishing the District

Pursuant to RCW 86.15.200, the King County Council will consider adopting an ordinance that will abolish the District and provide for the distribution of its assets. Before adopting such an ordinance, the King County Council will conduct a public hearing, notice of which shall be given as provided by RCW 36.32.120 (7).

IV. Transfer of District Facilities and Property Interests

Contingent upon the approval of an ordinance by the King County Council abolishing the District and providing for the distribution of its assets, the following terms shall govern the transfer of the facilities and real property interests owned by the District:

- A. Within 30 days of the effective date of the King County Council Ordinance abolishing the District, all facilities owned by the District, including the facilities identified and described in Exhibit Three, shall be and are hereby transferred to the city jurisdiction, either Bellevue and Redmond, within which the facility is located; and within the 30 day timeframe deeds transferring title to the real property interests

ATTACHMENT A

- owned by the District, including the real property interests identified and described in Exhibit Four, shall be delivered to the city jurisdiction, either Bellevue and Redmond, within which the real property interest is located, as grantees, as authorized by the King County Council.
- B. Any and all District facilities and real property interests located within Bellevue shall be transferred to Bellevue, and Bellevue agrees to accept ownership of such facilities and real property interests.
- C. Any and all District facilities and real property interests located within Redmond shall be transferred to Redmond, and Redmond agrees to accept ownership of such facilities and real property interests.
- D. Exhibit Three, attached to this Agreement and made a part hereof, provides a list of known District facilities located within Bellevue and Redmond. The Parties acknowledge that Exhibit Three is not nor is it intended to be a comprehensive and complete inventory of District facilities, but was prepared by King County staff members according to the information on District facilities interests available to them. By including Exhibit Three as an attachment to this Agreement, the Parties do not intend to condition or qualify the terms governing the transfer of District facilities and real property interests contained in Paragraphs A., B., C., E., F., G., and H. of this Article.
- E. Exhibit Four, attached to this Agreement and made a part hereof, provides a list of known District real property interests, and platted areas where real property interests may have been granted to or dedicated to the District, that are located within Bellevue and Redmond. The Parties acknowledge that Exhibit Four is not nor is it intended to be a comprehensive and complete inventory of District real property interests, but was prepared by King County staff members according to the information on District real property interests available to them. By including Exhibit Four as an attachment to this Agreement, the Parties do not intend to condition or qualify the terms governing the transfer of District facilities and real property interests contained in Paragraphs A., B., C., D., F., G., and H. of this Article.
- F. Nothing contractual herein shall require Bellevue or Redmond to operate or maintain any particular facility acquired pursuant to the Agreement. Once a facility has been

ATTACHMENT A

transferred to Bellevue or Redmond such party shall have complete discretion with regard to the management and operation of such facility.

- G. Exhibit Five, attached to this Agreement and made a part hereof, represents the form of the Quitclaim deed whereby the District and King County will each transfer ownership of their respectively owned real property interests associated with storm water drainage facilities and uses located within the boundaries of the District to the city jurisdiction, either Bellevue or Redmond, within which the real property interest is located.
- H. Exhibit Six, attached to this Agreement and made a part hereof, contains a legal description of the District boundaries.

V. Disbursement of Funds

Contingent upon the approval of an ordinance by the King County Council abolishing the District and providing for the distribution of its assets, the following terms shall govern the disbursement of the operating funds of the District:

- A. Upon abolishment of the District, all remaining operating funds of the District shall be disbursed to the Parties as follows:
 - 1. All outstanding expenses, invoices and claims of the District, including costs of maintenance incurred by King County for maintenance performed on District facilities, shall be paid out first to King County from the District operating fund. As of April 25, 2006, the District operating fund amounts to \$328,296.
 - 2. Fifty percent of the remaining funds shall be paid to Bellevue to be used for surface water management operations and maintenance expenditures, and in accordance with Paragraph V.B. below
 - 3. Fifty percent of the remaining funds shall be paid to Redmond to be used for surface water management operations and maintenance expenditures, and in accordance with Paragraph V.B. below.
- B. As of June 7, 2006, King County intends to deduct \$17,093 from Bellevue's share of District operating funds and \$47,027 from Redmond's share of District operating funds to cover previously incurred costs of maintaining and repairing District

facilities within the respective cities. King County agrees that it shall notify Bellevue and Redmond of any additional funds related to expenses, invoices or claims that it intends to deduct from the total of District operating funds as referred to in A.1. above at least thirty (30) days prior to the abolishment of the District.

VI. Transfer of Real Property Interests Held in the Name of King County and Documentation of District Facilities

The obligations of the terms of this Article VI. are contingent upon the approval of an ordinance by the King County Council abolishing the District.

- A. After the effective date of the ordinance authorizing such transfer, King County shall transfer and hereby transfers to Bellevue or Redmond ownership of any storm water drainage related facilities or real property interests located within the boundaries of the District that may be in King County's name to Bellevue or Redmond, as located within each jurisdiction. Bellevue and Redmond hereby agree to accept ownership of such facilities. After the effective date of the ordinance authorizing such transfer, King County shall transfer to Bellevue or Redmond, as located within each jurisdiction, title to any storm drainage real property interests located within the boundaries of the District that may be in King County's name. Bellevue and Redmond shall accept title to such real property interests.
- B. Upon abolishment of the District, King County Water and Land Resources Division on behalf of the District shall provide to Bellevue and to Redmond copies of the documentation it possesses regarding ongoing operation and maintenance of District facilities and real property interests, or those for which title is held in King County's name, for the facilities and real property interests located within each jurisdiction. Each city shall retain such documentation for a period of not less than seven (7) years and shall consult with King County prior to destruction. The terms of this Paragraph shall survive termination of this Agreement.

VII. Effectiveness, Duration, Termination and Amendment

- A. This Agreement shall become effective upon signature by the last party hereto and shall remain in effect until the completion of transfer to Bellevue and Redmond of all responsibilities, funds, facilities and property interests of the District and those storm water related real property interests within the boundaries of the District held in the name of King County.
- B. This Agreement may be amended, altered, clarified, or extended only by the written agreement of the Parties hereto.
- C. This Agreement is not assignable by any Party, either in whole or in part.
- D. This Agreement is the complete expression of the terms hereto and any oral or written representations or understandings not incorporated herein are excluded. The Parties recognize that time is of the essence in the performance of the provisions of this agreement. Waiver of any default shall not be deemed to be waiver of any subsequent default. Waiver of breach of any provision of this Agreement shall not be deemed to be a waiver of any other or subsequent breach and shall not be construed to be a modification of the terms of the Agreement unless stated to be such through written approval by the Parties which shall be attached to the original Agreement.
- E. Nothing herein shall be construed as obligating the Parties to expend money in excess of appropriations authorized by law and administratively allocated for this work.

VIII. Counterparts

This Agreement may be executed in counterparts.

IX. Indemnification and Hold Harmless

King County shall incur no liability for any District facility or real property interest, or King County held storm water related real property interest within the boundaries of the District, that are located within Bellevue city limits or within Redmond city limits, after the District has been abolished. Each of the Parties shall protect, defend, indemnify, and save harmless the other Parties and each of them, their officers, officials, employees, and agents, while acting within the scope of their employment as such, from any and all costs,

ATTACHMENT A

claims, judgments, and/or awards of damages, arising out of, or in any way resulting from, each of the Parties' own negligent acts or omissions. Each of the Parties agrees that its obligations under this subparagraph extend to any claim, demand, and/or cause of action brought by, or on behalf of, any of its employees or agents. For this purpose, each of the Parties, by mutual negotiation, hereby waives, with respect to the other Parties only, any immunity that would otherwise be available against such claims under the Industrial Insurance provisions of Title 51 RCW. In the event that any of the Parties incurs any judgment, award, and/or cost arising therefrom, including attorneys' fees, to enforce the provisions of this Article, all such fees, expenses, and costs shall be recoverable from the responsible Party to the extent of that Party's fault. The terms of this section shall survive termination of this Agreement.

IN WITNESS WHEREOF, the Parties hereto have executed this agreement effective as of the date of the last signature below.

RESOLUTION NO. 25759

WHEREAS, there has been presented to the Board of County Commissioners of King County, Washington, requests for the formation of a district to improve the flood control and drainage facilities in a large area on the West Side of Lake Sammamish, and an engineering study has shown that improvement of the flood control and drainage facilities is vitally needed, and

WHEREAS, the engineering studies indicate that a comprehensive system of drainage pipes, catch basins, manholes, and outfall facilities are necessary to control storm water flow, and to prevent damage to property in the proposed zone district, and

WHEREAS, the said engineering studies indicate that the formation of a Flood Control District Zone is necessary to contend with the above mentioned drainage problems and will be conducive to the public health, convenience and welfare, now, therefore,

BE IT RESOLVED by the Board of County Commissioners of King County, Washington that the West Lake Sammamish Flood Control Zone District be and is hereby declared to be formed and the boundaries of this District be declared as follows:

EXHIBIT B

R E S O L U T I O N

No. 28921

WHEREAS, it has been made to appear to the satisfaction of the Board that certain incipient problems exist relating to the drainage of surface waters within the area of King County; lying within the West Lake Sammamish Flood Control Zone District, and

WHEREAS, the West Lake Sammamish Flood Control Zone District was formed on the 29th day of April, 1963 by resolution of the Board of King County Commissioners, Resolution No. 25759; and

WHEREAS, there has been determined to be a need for the construction of storm drainage trunk lines within the boundaries of the District to serve the present and foreseeable needs of the District to accomplish the objectives of the District; and

WHEREAS, it has been made to appear, from the state of development of the properties lying within the District, that much development will proceed within the foreseeable future; and

WHEREAS, it has been made to appear that this future development will place heavy burdens upon the storm drainage trunk lines as constructed; and

WHEREAS, it has been made to appear that the construction of the storm drainage trunk lines must be constructed to a specifications to provide capacity to accommodate the drainage from the properties of the District in their fully-developed state,

NOW, THEREFORE,

BE IT RESOLVED by the Board of County Commissioners of King County, Washington that the future acceptance of plats to property lying within the boundaries of the District shall be made conditioned upon the meeting of the following requirements by the plattor:

1. In addition to meeting the requirement that the upstream developer obtain from the downstream owners appropriate easements and releases relating to drainage, each upstream owner is hereby required to do the following as a requirement and condition precedent to plat approval:

(a) Provide for the construction of drainage facilities adequate to convey all surface waters to the point of entrance into the natural watercourse or existing drainage facilities in which they now flow. The adequacy of the facilities will be measured by an estimated projection of the runoff anticipated to prevail within the natural drainage basin after the land has been fully developed to its highest and best uses; wherever, in the judgment of the County Engineer, the drainage plan proposed by the plat as constructed will result in the overburdening of the natural watercourse, provision for the improvement of the natural watercourse to the point of discharge will be required as a condition precedent to plat approval or, in the alternative,

(b) Make a payment to the District of an amount equal to \$300.00 per acre to be developed at the time the plat is filed. This payment will then excuse the developer from the requirement to provide for trunk line storm drainage from the perimeter of the platted property to the natural watercourse.

BE IT FURTHER RESOLVED that the granting of building permits on undeveloped unplatted land which has not been made the subject of paragraph 1 (a) or (b) of this resolution shall be conditional upon compliance thereof.
