20 **EFFECT:** *The Department of Adult and Juvenile Detention does not currently charge*  
21 *fees for persons who are searching for work, going to school, or receiving treatment*  
22 *because the program currently does not accept these persons. Nevertheless, if the*  
23 *programs were expanded, these individuals would be charged a fee. The amendment*  
24 *would eliminate fees for these individuals in the future if the program is expanded.*  
25 *The actual revenue from these fees would likely be minimal, and like the Medical Co-*  
26 *pay, difficult to collect. In addition, like the elimination of these fees would be in*  
27 *keeping with the County ESJI policies, because the fees have a negative impact on*  
28 *persons of color and those who are financially disadvantaged.*
