

Proposed Motion 2024-0214:

Electric Vehicle Charger Installation Plan for Rural and Unincorporated Urban Areas of King County

- The “Jump Start” ordinance (Ordinance 19052) passed by the Council in 2020 aimed to accelerate the adoption of electric vehicles (EVs) in King County.
- Goals included installing 125 EV chargers at County-owned park and rides and 150 chargers at County facilities by 2030.
- In 2022, the Council asked the Executive to report on progress toward these goals by transmitting an Electric Vehicle Charger Installation Plan for Rural and Unincorporated Urban Areas of King County.
- Proposed Motion 2024-0214 would acknowledge receipt of the Electric Vehicle Charger Installation Plan for Rural and Unincorporated Urban Areas of King County.
