PRELIMINARY REPORT:

The Department of Natural Resources & Parks, Water and Land Resources Division Report on item no. E05CT070 was received by the Examiner on March 14, 2006.

PUBLIC HEARING:

After reviewing the report and examining available information on file with the application, the Examiner conducted a public hearing on the application as follows:

The hearing on item no. E05CT070 was opened by the Examiner at 1:38 p.m., March 22, 2006, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington, and closed at 1:43 p.m.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

FINDINGS, CONCLUSIONS & RECOMMENDATION: Having reviewed the record in this matter, the Examiner now makes and enters the following:

FINDINGS:

Vashon, WA 98070

Property location: Same as above

PBRS categories requested: **Open space resources**

Buffer to public land

Categories recommended: **Open space resources**
Aquifer protection area
Buffer to public land
Significant wildlife or salmonid habitat

Parcel no. 142202-9071
Total acreage: 4.40
Requested for PBRS: 3.66
Recommended PBRS: 1.60*

COMMENT: *Without implementation of the approved restoration plan, only 1.60 acres would be eligible to enroll in PBRS; with implementation, all or part of the additional area may be restored and enrolled.

STR: SW 14-22-02

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the March 22, 2006, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the King County Council.

The following changes were made to the staff report at hearing:

- A. Page 1, section 5, recommended PBRS acreage should be 1.60 rather than 2.89.
- B. Page 1, comment section – the last line should read “portion of it may be restored and enrolled.”
- C. Page 5, Additional surface water quality buffer section – the last line should be changed to read “as prescribed by the resource restoration plan is greater than ~~1.5~~ 2 (3 points) or 3 (5 points) times that required.”

3. Timely application was made to King County for current use valuation of the subject property to begin in 2007. Notice of the application was given as required by law.
4. The property contains priority open space resources and is eligible for a total award of 13 points under the King County Public Benefit Rating System. The resulting current use value therefore would be 40% of market value for 1.60 acres of the property.
5. Credit may be awarded administratively for each of the following categories based on approval and implementation of a resource restoration plan as stated in Finding 6 below and satisfaction of the following criteria:
 - A. Surface water quality buffer area category if a buffer of greater than 80 feet is provided to the small pond near the southwest corner of the property.
 - B. Watershed protection area category if no less than an additional 15% of the property is reforested, adding more than 0.24 acres of forest cover.
 - C. Additional surface water quality buffer category if the buffer replanted is greater than 2 (3 points) or 3 (5 points) times that required.

Credit for each of these categories would increase the total point award with the current use valuation for the enrolled portion of the property being adjusted accordingly.

6. Credit may be awarded administratively for the resource restoration category subject to Applicant submission of a resource restoration plan by August 1, 2006, and subsequent approval and commencement of implementation by September 1, 2006. If credit is awarded for this category, the total point award would increase by 5 points with the current use valuation adjusted accordingly, and the enrolled acreage could be increased as noted.

CONCLUSION:

1. Approval of current use valuation of 40% of market value for 1.60 acres of the property pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, as amended, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

RECOMMENDATION:

APPROVE current use valuation of 40% of market value for 1.60 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the March 22, 2006, public hearing, and the following additional conditions of approval:

1. Award points may be added administratively for the surface water quality buffer area, watershed protection area and/or the additional surface water quality buffer categories as stated in Finding

no. 5 above, with the current use valuation for the enrolled portion of the property being adjusted accordingly.

2. Credit for the resource restoration category may be added administratively as stated in Finding no. 6 above. Credit for this category would increase the total point award by 5 points with the current use valuation for the enrolled portion of the property adjusted accordingly, and the enrolled acreage could be increased as noted.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED this 3rd day of April, 2006.
