Ordinance

Proposed No. 2017-0232.1

Sponsors McDermott and Kohl-Welles

1 AN ORDINANCE providing for the submission to the
2 qualified electors of King County at a special election to be
3 held in King County on November 7, 2017, a proposition
4 authorizing a property tax levy in excess of the levy
5 limitations contained in chapter 84.55 RCW for a
6 consecutive six-year period at a rate of not more than 12
7 cents per one thousand dollars of assessed valuation in the
8 first year, and limiting annual levy increases to three
9 percent in the five succeeding years, all for the purpose of
10 supporting veterans and military servicemembers and their
11 respective families; seniors and their caregivers; and
12 vulnerable populations in King County by funding capital
13 facilities and regional health and human services to
14 promote housing stability, healthy living, financial stability,
15 social engagement and health and human services system
16 improvements and system access; providing for limited
17 mitigation of prorationing of metropolitan park districts
18 and fire districts levies to the extent the prorationing was

19 caused solely by this levy; directing proposal of a transition
20 plan and an implementation plan for the veterans, seniors
21 and human services levy; and directing proposal of an
22 ordinance to create an oversight board or boards,
23 contingent upon voter approval of the levy.

24 STATEMENT OF FACTS:

- 25 1. In 2005, the metropolitan King County council passed Ordinance
26 15279, placing a six-year veterans and human services levy on the ballot
27 for a special election. King County residents voted for the veterans and
28 human services levy with a nearly fifty-eight percent approval to fund
29 services for veterans and their families, military personnel and their
30 families and other individuals and families in need across King County.
31 In 2011, the metropolitan King County council passed Ordinance 17072,
32 placing a renewal of the veterans and human services levy on the ballot for
33 a special election. King County residents voted for the renewal with a
34 nearly sixty-nine percent approval rate.
- 35 2. Since the veterans and human services levy's 2011 renewal, the current
36 veterans and human services levy has served more than one hundred and
37 eighty-three thousand clients, more than thirty thousand of whom have
38 been veterans, military servicemembers or their families.
- 39 3. The current veterans and human service levy's accomplishments in
40 pursuit of its goal to reduce homelessness include: awarding proceeds to
41 build seven hundred forty-six units of affordable housing; gaining or

42 maintaining housing for more than three thousand two hundred persons;
43 reaching more than seven thousand one hundred clients through outreach
44 and mobile services and then connecting them to housing, medical or
45 behavioral health services; and convening a network of partners to house
46 more than eight hundred-fifty homeless veterans during a focused housing
47 initiative in 2015.

48 4. The current veterans and human services levy's accomplishments in
49 pursuit of its goal to reduce emergency medical and criminal justice
50 system involvement include engaging more than three thousand eight
51 hundred incarcerated or formerly incarcerated veterans, parents, or persons
52 at high risk of recidivism with reentry case planning, supportive services,
53 or connections to housing or healthcare. A levy funded database and
54 housing placement program for high utilizers of public service calculated
55 that since 2012, supportive housing placements achieved estimated cost
56 offsets of seven million dollars that otherwise would have been incurred to
57 incarcerate or hospitalize the high utilizers who received housing.

58 5. The current veterans and human services levy's accomplishments in its
59 goal to increase self-sufficiency for veterans, military personnel, their
60 families and other individuals and families in need include the King
61 County veterans program serving more than twelve thousand veterans and
62 family members; screening more than twelve thousand seven hundred
63 mothers for behavioral health conditions at integrated community health
64 centers; providing civil legal case assessments for more than one thousand

65 one hundred veterans, more than three hundred of which resulted in
66 successful resolution and more than five hundred of which resulted to
67 referrals to outside counsel and provision of more than fifteen thousand
68 four hundred hours of posttraumatic stress disorder counseling to more
69 than one thousand two hundred veterans or their spouses and children.

70 6. The current veterans and human services levy will expire at the end of
71 2017. In light of this levy's accomplishments for King County's residents
72 and acknowledging the veterans and human services levy's importance to
73 maintaining basic health and human services for veterans and vulnerable
74 populations, the current levy's regional health and human services for
75 King County's veterans and vulnerable populations merit continuation.

76 7. The veterans and human services levy has provided an increasingly
77 large share of King County's funding for essential basic human services as
78 the general fund's structural deficit reduces the portion of the general fund
79 available to support human services.

80 8. Recognizing the changing landscape of regional veterans and human
81 services needs and funding since the 2011 renewal of the veterans and
82 human services levy, the metropolitan King County council directed the
83 executive to produce two reports to inform deliberations about renewal of
84 the current veterans and human services levy. Executive staff combined
85 the findings of staff research and community input from thirty-four in-
86 person engagement meetings and two online surveys, totaling seven
87 hundred and forty-two responses in seven languages, to compose and

88 present the reports. The metropolitan King County council approved the
89 first report in Motion 14822 and accepted and approved the second report
90 in Motion 14823. The reports provided information, analysis, and
91 recommendations to inform deliberations about a potentially renewed or
92 replaced veterans and human services levy.

93 9. In addition to confirming the ongoing need to support the veterans and
94 vulnerable populations eligible to receive support within the current
95 veterans and human services levy, the report approved by the council
96 Motion 14822 provides evidence that some populations and issues not
97 supported within the current veterans and human services levy now merit
98 consideration for support from the replacement levy proposed in this
99 ordinance. Those populations and issues include supporting seniors and
100 healthy aging; supporting survivors of traumatic experiences that include
101 sexual assault, domestic violence, human trafficking and sexual
102 exploitation as well as services to prevent those types of trauma; support
103 for refugees; support for low-income residents of rural communities and
104 improved health and human services delivery in rural communities;
105 support for civil legal services for persons with low-income; and support
106 for persons with disabilities and their caregivers.

107 10. From 2010 to 2015, the number of King County veterans living below
108 the federal poverty level increased by forty-three percent to a total of eight
109 thousand two hundred ninety-nine, even as the overall population of
110 veterans in King County has fallen to an estimated 2015 level of one

111 hundred twelve thousand eight hundred veterans.

112 11. Nationally, an average of twenty veterans commit suicide every day.

113 On average, only six of the twenty veterans committing suicide every day

114 are enrolled in U.S. Department of Veterans Affairs services. The

115 remaining majority are not receiving federal veterans services.

116 12. As of January 2017, an estimated two thousand one hundred two

117 veterans were homeless in King County. Despite a strong partnership with

118 the U.S. Department of Veterans Affairs, the Washington Department of

119 Veterans Affairs and a network of local housing and service providers

120 who together house an average of forty homeless veterans in King County

121 per month, the number of homeless veterans increases by a net average

122 monthly inflow of sixty-six newly homeless veterans. If sustained for a

123 year, this monthly rate of growth would generate seven hundred and

124 twenty newly homeless veterans per year.

125 13. Eight percent of King County residents live in rural communities.

126 King County's rural residents consistently report difficulty in accessing the

127 network of federal, state, county and philanthropically funded health and

128 human services. Travelling to urban centers to seek services is difficult or

129 impractical for many persons from rural communities who require health

130 and human services.

131 14. At least fourteen thousand persons experience domestic violence each

132 year in King County. Survivors of domestic violence experience

133 disproportionately high rates of homelessness and experience an average

134 of more than nineteen civil legal problems, more than twice the average
135 experienced by the general low-income population.

136 15. Approximately three to five hundred youth are sexually exploited
137 within King County each year. Commercial sexual exploitation of
138 children remains a poorly understood yet urgent challenge for King
139 County residents to confront.

140 16. More than one hundred thousand persons with intellectual or
141 development disabilities live in Washington. More than seventy percent
142 of persons with a disability live with a family caregiver, and twenty-three
143 percent of those family caregivers are aged sixty or older with an
144 additional thirty-five percent aged forty-one or older.

145 17. Eighteen percent of King County residents are aged sixty or older, a
146 number that will increase to twenty-five percent of the county population
147 by 2040. As seniors make up an increasing percentage of King County's
148 population, funding for senior services is not keeping pace. Funding
149 through the federal Older Americans Act, as well as state and county
150 funding for seniors, is falling. Philanthropic funding for seniors is also
151 waning. The result is a trend toward reduced senior funding just as King
152 County's population of seniors is increasing.

153 18. Seventy-eight percent of persons sixty or older has one or more
154 chronic health conditions. Thirty-five percent are women living alone.
155 Nine percent are living in poverty. Race and place-based
156 disproportionalities unevenly distribute these conditions and risk factors

157 across King County.

158 19. Elder abuse is a growing challenge. The King County prosecuting
159 attorney's office reported more than seven thousand allegations of abuse
160 and neglect of seniors in King County in 2015.

161 20. The responsibility to care for vulnerable seniors impacts all
162 generations. One-third of today's King County residents who are sixty-
163 five or older will need some form of long-term care service or support in
164 the future. That work will in many cases require assistance from unpaid
165 caregivers, including spouses, adult children and acquaintances.

166 21. Seniors, many of whose incomes are fixed, find it increasingly
167 difficult to afford to live in the King County communities they helped
168 nurture and build as housing costs increase dramatically.

169 22. Lesbian, gay, bisexual, transgender and queer seniors in King County
170 are at extreme risk of the health-harming effects of social isolation and
171 poverty, with nearly one quarter of lesbian, gay, bisexual, transgender and
172 queer seniors in King County living below two hundred percent of the
173 federal poverty level, forty-five percent living alone and sixty-eight
174 percent reporting having experienced three or more incidents of
175 victimization or discrimination.

176 23. Adults aged sixty-five and older comprised eighty percent of the more
177 than two thousand people who were hospitalized for falls in King County
178 between 2008 and 2012. The rate of death of seniors hospitalized for falls
179 is more than seven times the county average. In 2015, more than fifteen

180 percent of King County emergency medical services' call responses were
181 for seniors who had fallen.

182 24. Actual and perceived social isolation are both associated with
183 increased risk for premature death. The influence of social isolation on
184 the risk of death is comparable with risk factors for mortality such as
185 smoking. Social isolation's influence on risk of premature death exceeds
186 that of physical inactivity and obesity. Adults seventy-five and older who
187 are lonely, socially isolated and inactive have a mortality rate of fifty-three
188 percent compared to a mortality rate of thirty percent among their age
189 peers who are not lonely, inactive, or socially isolated.

190 25. Since its inception in 2006 and through its renewal in 2011, the
191 veterans and human services levy has served hundreds of thousands of
192 veterans, military personnel, their families and other individuals and
193 families in need. In addition to the veterans and human services levy's
194 achievements, changed conditions and newly emerging needs present
195 additional opportunities to set the conditions for persons in King County
196 to fulfill their potential. Given the levy's track record of success and the
197 additional need within the community, it is appropriate to ask the voters to
198 replace the current veterans and human services levy with the veterans,
199 seniors and human services levy provided for in this ordinance.

200 26. In 2010, the county enacted Ordinance 16857, establishing the King
201 County Strategic Plan. In 2015, the county council passed Motion 14317
202 updating and revising King County's vision, mission, guiding principles

203 and goals. Included within the county's goals are improving the health and
204 well-being of all people in King County, increasing access to quality
205 housing that is affordable to all, implementing alternatives to divert people
206 from the criminal justice system, and ensuring that county government
207 operates efficiently and effectively and is accountable to the public. The
208 county's guiding principles command that pursuit of the county goals
209 should address the root causes of inequities to provide equal access for all;
210 engage with partners, stakeholders and public and private organizations to
211 achieve goals; align funding, policy and operational goals of King County
212 government; and provide effective, efficient local governance and services
213 to unincorporated areas.

214 27. In 2016, the council adopted implementation plans for the best starts
215 for kids levy and the mental illness and drug dependency sales tax
216 renewal. Both plans expressed the council's and the executive's intent to
217 design, implement and evaluate strategies that are outcomes-oriented. It is
218 the county's intent that the veterans, seniors and human services levy
219 provided for in this ordinance, if approved by voters, shall have an
220 outcomes-orientation that appropriately aligns with the plans for the best
221 starts for kids levy and the mental illness and drug dependency sales tax.

222 28. King County actively engages in equity and social justice efforts to
223 eliminate racially disparate health and human services outcomes in King
224 County, and this priority shall guide the council and the executive in the
225 process of designing, administering, and evaluating the policies and

226 programs related to the veterans, seniors and human services levy, if
227 approved by voters.

228 29. It is the intent of the county that over the course of the six year levy
229 the majority of levy proceeds expended to build capital facilities under
230 authority of this ordinance shall be for very low-income households,
231 which are households whose total income is no higher than thirty percent
232 of the median income level for the county as defined by the United States
233 Department of Housing and Urban Development or its successor agency.

234 Specific very low-income levels vary according to household size.

235 30. It is the intent of the county that the transition plan required in section
236 7.A. of this ordinance provide a mechanism to continue, without
237 interruption, currently funded regional health and human services to
238 veterans, military servicemembers and their families, and other persons in
239 King County; to provide substantial investments in housing stability early
240 in the levy term; and to engage in planning activities until the new
241 implementation plan required by section 7.B. of this ordinance is fully
242 developed and enacted and related procurement processes are complete.

243 31. It is the intent of the county that the implementation plan required by
244 section 7.B. of this ordinance limit administrative expenses to five percent
245 of levy proceeds, the same limitation present in the existing veterans and
246 human services levy.

247 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

248 **SECTION 1. Definitions.** The definitions in this section apply throughout this

249 ordinance unless the context clearly requires otherwise.

250 A. "Caregiver" means a person who, without pay, cares for or supervises another
251 person who requires such care or supervision due to disability, chronic illness or, in the
252 case of a senior, age-related decline. Government-provided benefits or financial
253 assistance provided directly to a person for being a caregiver are not considered pay
254 within this definition.

255 B. "Levy" means the levy of regular property taxes for the specific purposes and
256 term provided in this ordinance and authorized by the electorate in accordance with state
257 law.

258 C. "Levy proceeds" means the principal amount of moneys raised by the levy and
259 any interest earnings on the moneys.

260 D. "Limit factor" for purposes of calculating the levy limitations in RCW
261 84.55.010, means one hundred three percent.

262 E. "Military servicemember" means a person who is a current member of the
263 United States Army, Navy, Marines, Air Force or Coast Guard in the national guard,
264 active duty or reserve component of that military branch.

265 F. "Regional health and human services" means a wide range of services,
266 programs, operations and capital facilities that promote outcomes relating to healthy
267 living, housing stability, financial stability, social engagement, service system
268 improvement and service system access to meet basic human needs and promote healthy
269 living and communities including, but not limited to:

270 1. Services, programs, operations and capital facilities that promote housing
271 stability or that contribute to making homelessness rare, brief and one-time by creating

272 housing, preserving or modifying existing housing or supporting persons in gaining or
273 maintaining housing;

274 2. Health care and health promotion services, operations and programs that
275 encourage healthy lifestyles and wellness, promote healthy aging, support recovery, and
276 improve physical and behavioral health for individuals and families;

277 3. Services, programs, operations and capital facilities that promote social
278 engagement and community building for individuals and groups in culturally,
279 geographically, economically or linguistically isolated communities and for others
280 experiencing or at risk of social isolation and its health-harming effects;

281 4. Services and programs that promote financial stability or financial mobility,
282 including access to, preparation for and assistance in gaining or maintaining employment,
283 income, education and financial literacy;

284 5. Services and programs that promote and support diversion away from the
285 criminal justice system and services and programs that promote and support criminal
286 justice system-linked services that assist individuals and their families in preventing,
287 mitigating or recovering from the effects of their involvement with the criminal justice
288 system, including services that promote restorative justice or reentry to society after
289 incarceration; and

290 6. Services, programs, operations and capital facilities that improve or expand
291 the delivery of health and human services, improve health and human services system
292 access and navigability, reduce or prevent the disparate or traumatic effects of systems
293 upon vulnerable populations, build the capacity and support the operations of health and
294 human services providers to serve their clients and communities, or build the capacity of

295 communities to partner with King County.

296 G. "Senior" means a person who is at least fifty-five years old.

297 H. "Veteran" means a person who has served in the United States Army, Navy,
298 Marines, Air Force or Coast Guard in the national guard, active duty or reserve
299 component of that branch of the military.

300 I. "Vulnerable population" means persons or communities who are susceptible to
301 reduced health, housing, financial, or social stability outcomes because of current
302 experience of or historical exposure to trauma, violence, poverty, isolation, bias, racism,
303 stigma, discrimination, disability or chronic illness. Examples of vulnerable populations
304 include, but are not limited to, survivors of domestic violence; survivors of sexual
305 assault; survivors of human trafficking; survivors of sexual exploitation; persons with a
306 disability; family caregivers for persons with a disability; refugees; low-income residents
307 of rural communities; persons living in poverty; persons at risk of or experiencing
308 homelessness; persons reentering society from criminal justice system involvement and
309 persons at risk of criminal justice system involvement due to disproportionate practices of
310 enforcement, mental illness or substance use disorders.

311 **SECTION 2. Levy submittal.** To provide necessary moneys for the provision of
312 regional health and human services to King County's veterans and their families, military
313 servicemembers and their families, seniors and their caregivers and vulnerable
314 populations, and for limiting the impact of this levy on metropolitan park districts and
315 fire districts due to pro-rationing mandated under RCW 84.52.010, the county council
316 shall submit to the qualified electors of the county a proposition to replace an expiring
317 levy and authorize a regular property tax levy in excess of the levy limitation contained in

318 chapter 84.55 RCW for six consecutive years, at a rate not to exceed twelve cents per one
319 thousand dollars of assessed value in the first year and collections commencing in 2018,
320 with the 2018 levy amount serving as the base for annual increases limited by the limit
321 factor.

322 SECTION 3. Deposit of levy proceeds. The levy proceeds shall be deposited in
323 a special revenue fund, which fund shall be created by ordinance.

324 SECTION 4. Eligible expenditures.

325 A. If approved by the qualified electors of the county, except for two hundred
326 thousand dollars of each year's levy proceeds reserved for the purposes set forth in
327 subsection B. of this section, all levy proceeds shall be divided into three equal parts and
328 used for the following purposes:

329 1. One third of those proceeds shall be used to plan, provide, administer and
330 evaluate a wide range of regional health and human services and capital facilities for
331 veterans and military servicemembers and their respective families. In this levy's first
332 year, at least fifty percent of the proceeds described in this subsection shall be used to
333 fund capital facilities and regional health and human services that promote housing
334 stability for veterans and military servicemembers and their respective families. In
335 subsequent years, at least twenty-five percent of the proceeds described in this subsection
336 shall be used to fund capital facilities and regional health and human services that
337 promote housing stability for veterans and military servicemembers and their respective
338 families;

339 2. One third of those proceeds shall be used to plan, provide, administer and
340 evaluate a wide range of regional health and human services and capital facilities for

341 seniors and their caregivers and to promote healthy aging in King County. In this levy's
342 first year, at least fifty percent of the proceeds described in this subsection shall be used
343 to fund capital facilities and regional health and human services that promote housing
344 stability for seniors. In subsequent years, at least twenty-five percent of the proceeds
345 described in this subsection shall be used to fund capital facilities and regional health and
346 human services that promote housing stability for seniors; and

347 3. One third of those proceeds shall be used to plan, provide, administer and
348 evaluate a wide range of regional health and human services and capital facilities for
349 vulnerable populations. In this levy's first year, at least fifty percent of the proceeds
350 described in this subsection shall be used to fund capital facilities and regional health and
351 human services that promote housing stability for vulnerable populations. In subsequent
352 years, at least twenty-five percent of the proceeds described in this subsection shall be
353 used to fund capital facilities and regional health and human services that promote
354 housing stability for vulnerable populations.

355 B. Of the levy proceeds annually reserved in subsection A. of this section, the
356 county council may by ordinance authorize the expenditure of those levy proceeds to
357 reduce the levy's impact on metropolitan park districts and fire districts to the extent their
358 levies may be pro-rationed as mandated by RCW 84.52.010 and to the extent the
359 prorationing was caused solely by this levy. Metropolitan park districts and fire districts
360 shall use any moneys received under authority of this subsection B. to fund within their
361 districts regional health and human services for veterans and military servicemembers
362 and their respective families, seniors and their caregivers, and vulnerable populations.

363 C. In the last year of the levy, any reserved levy proceeds not disbursed as

364 authorized in subsection B. of this section shall be divided in thirds and one third
365 expended for each of the purposes set forth in subsection A.1. through 3. of this section.

366 **SECTION 5. Call for special election.** In accordance with RCW 29A.04.321,
367 the King County council hereby calls for a special election to be held in conjunction with
368 the general election on November 7, 2017, to consider a proposition authorizing a regular
369 property tax levy for the purposes described in this ordinance. The King County director
370 of elections shall cause notice to be given of this ordinance in accordance with the state
371 constitution and general law and to submit to the qualified electors of the county, at the
372 said special county election, the proposition hereinafter set forth. The clerk of the council
373 shall certify that proposition to the director of elections in substantially the following
374 form, with such additions, deletions or modifications as may be required for the
375 proposition listed below by the prosecuting attorney:

376 PROPOSITION___; The King County Council has passed Ordinance
377 _____ concerning funding for veterans, seniors, and vulnerable
378 populations. If approved, this proposition would replace an expiring levy
379 and fund capital facilities and regional health and human services for
380 veterans and military servicemembers and their respective families,
381 seniors and their caregivers, and vulnerable populations, including
382 domestic violence survivors and persons with disabilities. It would
383 authorize King County to levy an additional property tax for six years
384 beginning in 2018 at a rate of \$0.12 per \$1,000 of assessed valuation, the
385 2018 levy amount being the base for subsequent annual increases of up to
386 3%.

387 Should this proposition be:

388 Approved? _____

389 Rejected? _____

390 **SECTION 6. Governance.**

391 A. No later than August 23, 2017, the executive shall develop and transmit a plan
392 for council review and approval by ordinance to create and prescribe the composition and
393 duties of a board or boards to provide oversight of the expenditure of the proceeds
394 described in section 4.A. of this ordinance. The creation of the board or boards shall be
395 contingent upon voter approval of the ballot proposition described in section 5 of this
396 ordinance.

397 B. The board or boards shall be charged to oversee the distribution of levy
398 proceeds consistent with section 4 of this ordinance and to report annually to the
399 executive and council on the fiscal and performance management of the levy. The plan
400 may describe additional matters on which the board or boards are empowered to provide
401 advice to the executive and county council.

402 C. The proposed ordinance required by this section may be combined with the
403 proposed ordinance required by section 7.A. of this ordinance.

404 **SECTION 7. Implementation planning.**

405 A. No later than August 23, 2017, the executive shall transmit for council review
406 and approval by ordinance a proposed transition plan for the veterans, seniors and human
407 services levy. The proposed transition plan shall describe how, contingent upon voter
408 approval of the ballot proposition described in section 5 of this ordinance, proceeds from
409 first year of the veterans, seniors and human services levy would fund accomplishment of

410 the following tasks:

411 1. The transition plan shall propose a recommended course of action that would
412 minimize service discontinuity for veterans and military servicemembers and their
413 respective families and other individuals and families in need during the transition
414 between the veterans and human services levy and the veterans, seniors and human
415 services levy;

416 2. The transition plan shall propose any new staffing and planning activities
417 required to plan for and administer the veterans, seniors and human services levy until the
418 implementation plan required in subsection 7.B. of this ordinance is enacted and
419 procured; and

420 3. The transition plan shall propose a plan for of the portion of veterans, seniors
421 and human services first-year proceeds required in subsections 4.A.1. through 3. of this
422 ordinance to fund capital facilities and regional and human services that promote housing
423 stability for veterans, seniors and vulnerable populations.

424 B. Contingent upon voter approval of the ballot proposition described in section 5
425 of this ordinance and no later than March 16, 2018, the executive shall transmit an
426 implementation plan for the veterans, seniors and human services levy for council review
427 and adoption by ordinance. The implementation plan shall describe the expenditure of
428 levy proceeds to achieve outcomes related to healthy living, housing stability, financial
429 stability, social engagement, service system improvement and service system access for
430 veterans and military servicemembers and their respective families, seniors and their
431 caregivers and vulnerable populations, consistent with the eligible expenditures described
432 in section 4 of this ordinance.

433 **SECTION 8. Ratification.** Certification of the proposition by the clerk of the
434 county council to the director of elections in accordance with law before the general
435 election on November 7, 2017, and any other act consistent with the authority and before
436 the effective date of this ordinance are hereby ratified and confirmed.

437 **SECTION 9. Severability.** If any provision of this ordinance or its application to
438 any person or circumstance is held invalid, the remainder of the ordinance or the
439 application of the provision to other persons or circumstances is not affected.
