8 PREAMBLE:

9 King County is made up of expansive bodies of water that touch a  
10 growing number of communities and employment centers. Years ago, a  
11 mosquito fleet of small passenger ferries was used to move people and  
12 goods throughout the region. In recent years, as traffic congestion has  
13 become an increasing problem, the idea of again looking to passenger  
14 ferries as a viable transportation option has become more attractive.  
15 As the population of the Puget Sound region continues to grow, so will the  
16 pressure on our transportation system. By expanding the set of  
17 transportation choices to include passenger ferries, King County can

18           prepare for continued population and economic growth and address the  
19           quality of life issues related to managing traffic congestion and its impact  
20           on our environment. The passenger ferry needs are described more  
21           extensively in the operations, capital and finance plan for the King County  
22           Ferry District as prepared by the IBI Group for the Ferry District  
23           Governing Board.

24           Pursuant to chapter 36.54 RCW, the metropolitan King County council  
25           unanimously created the countywide King County Ferry District through  
26           Ordinance 15739 in April 2007 with the intent of providing passenger  
27           ferry service to various parts of the county.

28           The King County Ferry District intends to contract with King County to  
29           have King County provide, manage and operate marine transportation  
30           services on behalf of the ferry district. Such services are likely to include  
31           operations and maintenance activities as well as undertaking capital  
32           improvements.

33           Separate funds are required for the King County marine division operating  
34           and capital programs. This is necessary to provide for the receipt of  
35           revenues and the disbursement of expenditures for the provision,  
36           management, administration, maintenance and operation of passenger  
37           ferry services by King County as envisioned by planning documents  
38           developed for the Ferry District and as may be provided for in agreements  
39           between King County and the King County Ferry District.

40           BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

41            NEW SECTION. SECTION 1. There is hereby added to K.C.C. chapter 4.08 a
