**FIRST AMENDMENT TO AGREEMENT  
REGARDING 148<sup>TH</sup> AVE SE AT LARSEN LAKE FLOOD MITIGATION PROJECT  
BETWEEN THE KING COUNTY FLOOD CONTROL ZONE DISTRICT AND THE CITY OF BELLEVUE**

THIS AMENDMENT NO. 1 to the Agreement Regarding the 148<sup>th</sup> Ave SE at Larsen Lake Flood Mitigation Project ("Amendment No. 1") is entered into on the last date signed below, by and between the CITY OF BELLEVUE, a Washington municipal corporation ("City"), and KING COUNTY FLOOD CONTROL ZONE DISTRICT, a quasi-municipal corporation of the State of Washington ("District") (collectively, the "Parties").

**RECITALS**

- A. Pursuant to FCD Resolution FCD2022-04, the Parties entered into an Agreement regarding the 148<sup>TH</sup> AVE SE AT LARSEN LAKE FLOOD MITIGATION PROJECT ("Agreement") effective March 27, 2022.
- B. The Agreement authorized the City to initiate preliminary design to progress toward construction of best drainage treatments and resilient design to reduce or eliminate roadway flooding on 148<sup>th</sup> Avenue SE, between SE 8<sup>th</sup> Street and Main Street. The Agreement covers work necessary to complete the preliminary design of a selected alternative, including but not limited to, City project management, consultant project management, surveying, site assessment and data collection, coordination with other agencies franchise utilities and stakeholders, hydrologic and hydraulic modeling, environmental documentation, permit coordination, public involvement/outreach, engineering reports, preliminary/conceptual design, and cost estimate (the "Project").
- C. The Project is located between SE 8<sup>th</sup> Street and Main Street, adjacent to Lake Hills Greenbelt as depicted in Exhibit A to the Agreement.
- D. As set out in the Agreement, the District agreed to reimburse the City for its actual costs incurred in completing the tasks described in the Agreement up to a maximum allowable reimbursement amount of \$400,000. Since the Agreement's execution, the City identified increased costs necessary to perform the scope of work set out in the Agreement. The City has determined that the maximum allowable reimbursement amount authorized by the Agreement will be insufficient to reimburse the City for its estimated actual costs incurred to effectuate the Project.
- E. The City presented the District with a revised estimate of project costs and associated request for an increase in funding for the Project by \$138,500.
- F. The District adopted Resolution FCD2023-06 on July 11, 2023, authorizing a continued partnership with the City for the Project, and increasing funding for the Project by \$138,500 for a new total Project budget of \$538,500 (including all monies paid prior to the adoption of Resolution FCD2023-06).
- G. The parties desire to amend the Agreement to incorporate the additional funding allocation and associated terms.

**AMENDMENT**

NOW THEREFORE, in consideration of the mutual interest, desire, and promises of the parties and other good and valuable consideration, the Parties agree as follows:

Recitals Incorporated. All recitals above are hereby incorporated in and ratified as part of this Amendment No. 1.

Amendment. Section 3.3, Maximum Reimbursement for City Costs and Expenses, of the Agreement is amended to increase the maximum reimbursement for City costs and expenses from \$400,000 to \$538,500, which amount is intended to compensate the City for those reasonable City costs and expenses for the Project described in the Agreement, as amended. This new total maximum reimbursement amount applies to all costs and expenses paid to the City prior to this Amendment, as well as work subsequent thereto.

Amendment. Section 4.5 of the Agreement is hereby stricken from the Agreement. Remaining Provisions. Except as specifically amended by this Amendment No. 1, all remaining provisions of the Agreement shall remain in full force and effect.

IN WITNESS WHEREOF the Parties have executed this Amendment No. 1, which shall become effective on the last date signed below.
