7 STATEMENT OF FACTS:

8 1. On November 19, 2001, the King County council adopted Ordinance
9 14263 at the request of the King County noxious weed board to raise the
10 noxious weed control program assessment in order to expand noxious
11 weed control services as authorized in RCW 17.10.240.

12 2. Since November 19, 2001, the costs of providing noxious weed control
13 services have risen substantially.

14 3. The King County noxious weed control board resolved on May 16,
15 2007, that the noxious weed control program assessment must be
16 increased to provide the services necessary to educate the public and to
17 identify and control both terrestrial and aquatic noxious weed infestations.

18 4. The King County noxious weed board has submitted its 2008 budget
19 for noxious weed control to the King County council, and based on this
20 budget an increase in the noxious weed control program assessment is
21 warranted on all property not classified as forest land from one dollar and
22 fifty cents to two dollars and ten cents per parcel, and from nine cents to
23 fifteen cents in the per acre fee, and on property classified as forest land,
24 from fifteen cents to twenty-one cents per parcel, and from nine-tenths of
25 a cent to one and one-half cents in the per acre fee, in order to meet the
26 rising costs of providing necessary noxious weed control services.

27 5. Lands owned by the federal government or by federally recognized
28 tribes or members of such tribes that are located within the historical
29 boundaries of a reservation shall not be assessed for the noxious weed
30 control program.

31 6. It is in the public interest, and is necessary for the protection of health,
32 safety and welfare for the residents of King County that the necessary
33 costs of providing noxious weed control program services continue to be
34 paid, and that such costs continue to be charged against those parcels
35 benefiting from these services.

36 7. The King County noxious weed control board has petitioned the King
37 County council to increase the noxious weed control program assessment,
38 and the King County council finds that the requested increase in
39 assessment is necessary and justified.

40 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

42 control program assessments.
