

TRANSFER PLAN REVIEW UPDATE

Regional Policy Committee

August 14, 2013

King County

Department of Natural Resources and Parks

Solid Waste Division

Review Process Overview

- Review transfer system alternatives and resulting impacts to cost, service, and the environment
- The review will inform any necessary changes to the current plans for the Factoria, South County, and Northeast recycling and transfer station projects
- Workshops will be held in July, August and September, and will be open to all interested parties including MSWMAC, SWAC, city staff, business partners and interested citizens
- MSWMAC and SWAC will provide feedback and recommendations
- SWD will provide updates to MSWMAC and SWAC during normally scheduled meetings, and provide briefings to others such as the Regional Policy Committee and Sound Cities Association

Workshop 1 Feedback

- Compaction is essential
- Self-haul service should be provided, but consider limited hours or sites
- Recycling is important from a service and environmental perspective
- Refine the presentation of travel time
- Provide more time for discussion and feedback at the end of the workshop

Workshop 2

- Transfer system relationship to waste conversion technologies and waste-to-energy
- Transfer station storage capacity
- Transfer station construction cost drivers
- Review transfer system alternatives
 - Preliminary cost information
