SUBJECT

Public Records Disclosure Update

SUMMARY

This briefing is a follow-up to the briefing presented at the committee's April 12 meeting (2011-B0065) concerning the Executive's 2010 Annual Report on Public Record Requests (Legistar No. 2011-RPT0049). This briefing addresses other county agency reports on their responses to public records disclosure requests and their implementation of the requirements contained in Ordinance 16679.

BACKGROUND

Ordinance 16679, adopted by the Council on 12 October 2009, amended chapter 2.12 of the county code ("Maintenance of Permanent Records") in response to the Washington Attorney General's model rules and comments on public records compliance (WAC 44-14). Chapter 2.12 governs the procedures for county agencies to follow in responding to public record requests.

Required Reports on Responses to Public Record Requests

Section 2.12.300 of the county code, which was added by Ordinance 16679, provides in part:

A.1. No later than April 1 of each year, the public records officer of each county agency¹ shall submit to the county council a report on the agency's performance in responding to public record requests during the preceding calendar year. The report shall include, at a minimum, a listing of all requests

¹ "Agency" is defined in section 2.12.005 of the county code to comprise the executive branch, the legislative branch, the department of public safety, the department of assessments, the office of the prosecuting attorney, the department of elections, the forecast council and office of economic and financial analysis, the board of appeals, and the personnel board. Superior Court and District Court are explicitly excluded from the definition of agency.

that either were closed during the preceding calendar or remained open at the end of the preceding calendar year, including, for each request:

- a. the name of the requestor;
- b. a summary of the request;
- c. the date the request was received; and
- d. the date the request was closed, if it has been closed.

Litigation Reports Required of the Prosecuting Attorney

Section 27(B) of Ordinance 16679 (codified as KCC § 2.12.300(B)) requires the Prosecuting Attorney to report, on January 15 and July 15 of each year, on all pending lawsuits alleging that the county has violated RCW Chapter 42.56 (the state public records act), including the name of the case, the court in which it was filed, the date on which it was filed, the case number, a brief summary of the claims made against the county, and the current case status.

Required Reports on Implementation of Ordinance 16679

Section 28 of Ordinance 16679 required each county agency to submit a report by 16 July 2010 describing “the steps the public records officer has taken to implement this ordinance, including, but not limited to, the requirements in sections 20.A and 21.D.1 of this ordinance.”

Section 20.A (codified as KCC § 2.12.230(A)) provides:

Each agency shall appoint a public records officer and shall identify the officer in a way reasonably calculated to provide notice to the public, including posting, at the agency's public service counters, if any, and on its website, the officer's name, office address, telephone number, fax number and email address. Each agency shall include on its website home page a link to the web page on which the agency provides this contact information and instructions on how to make a public record request.

Section 21.D.1 (codified as KCC § 2.12.240(D)(1)) provides:

A person wishing to inspect or copy public records of an agency is encouraged to make the request in writing on the agency's request form, which shall be created and maintained by the agency's public records officer and made available on the agency's website. The agency request form shall:

- a. recite that inspection of records is free, provide the per-page charge for standard photocopies and indicate that the requestor may inspect the records, receive a copy of the records or inspect the records first and then select records to copy;
- b. prompt the requestor to provide contact information including name, phone number, mailing address and email address if available;

- c. prompt the requestor to identify the public records adequately for the public records officer or designee to locate the records; and
- d. prompt the requestor to provide the date and time of day of the request.

COMPLIANCE WITH ORDINANCE 16679

The following tables summarize agency compliance with these provisions of Ordinance 16679. The reports that have been submitted are attached to this staff report.

Litigation Reports Required of Prosecuting Attorney

The Prosecuting Attorney has submitted the required reports, which are attached to this staff report.

Implementation of Sections 20.A and 21.D.1 of Ordinance 16679

The following table summarizes agency compliance with sections 20.A and 21.D.1 of Ordinance 16679, to the extent that it could be determined from a review of each agency’s website:

	ID of Public Records Officer	Home page link	Request form
Assessor	No	No	Not on web site.
Board of Appeals *	No	No	Not on web site.
Elections	Yes, except for phone number and email address (requester is directed to mail or fax request, and request form allows email option).	Link to "Reference and Resources".	Yes, but does not mention that inspection per se is free of charge.
Executive Branch	Yes, except for fax number.	Link to "Records and certificates", but additional link to get to public record request info was broken as of April 25.	Yes, and meets ordinance requirements.
Legislative Branch	Yes, except for fax number.	Link to "Public records officer"	Not on web site.
OEFA *	No	No	Not on web site.
PAO	Yes, except for email address, but request form allows email option.	Link to "Contact Us".	Yes, and meets ordinance requirements.
Personnel Board*	No web site.	No web site.	No web site.
Sheriff	Yes, except for fax number and email address, but request form allows online request.	Link to "Public Disclosure"	Yes, and mentions that first nine pages of copies are free, but does not explicitly state that inspection is free of charge.

*Responses to requests to these agencies are coordinated by the Council Clerk.

POSSIBLE CODE AMENDMENTS

The committee may wish to consider whether the county code should be amended to:

1. Require tracking of compliance with (a) the requirement of an initial response within five days after a public record request is received and (b) the last date on which documents were provided or made available to the requester (if that date is different from the date on which the request is administratively closed);
2. Prescribe the wording of the home page link to the web page containing information for making public record requests (e.g., to include the words "public record requests");

3. Require tracking of the cost of responding to public record requests;
4. Respond to any concerns that might be identified by agency public records officers.

NEXT STEPS

Council staff could:

1. Conduct further analysis of the agency reports on public record request responses (e.g., review of response times, recognizing, however, that a number of factors can affect response times) ;
2. Consult with agency public records officers about (a) any compliance issues that have been identified; (b) whether any amendments to the county code are indicated; and (c) the feasibility of tracking the cost of responding to public record requests;
3. Conduct any further research or analysis directed by the committee; and
4. Report back to the committee at its next meeting.

20.D.1	<p>A person wishing to inspect or copy public records of an agency is encouraged to make the request in writing on the agency's request form, which shall be created and maintained by the agency's public records officer and made available on the agency's website. The agency request form shall:</p> <ol style="list-style-type: none"> a. recite that inspection of records is free, provide the per-page charge for standard photocopies and indicate that the requestor may inspect the records, receive a copy of the records or inspect the records first and then select records to copy; b. prompt the requestor to provide contact information including name, phone number, mailing address and email address if available; c. prompt the requestor to identify the public records adequately for the public records officer or designee to locate the records; and d. prompt the requestor to provide the date and time of day of the request. 	Implemented	The Executive Branch has a public records request form available on its website which includes all of the criteria required. We are currently working at the department level to ensure each department has their form available on their department's website.

Summary of additional implementation actions in reporting period

In addition to implementing sections 20.A. and 20.D.1 of Ordinance 16679 as noted on the previous page, the Executive Branch Public Records Officer initiated an update to the Public Records Act Procedures, an Executive Administrative Policy: Document Code No.: INF 17-2-3 (AEP). This policy, which updated and superseded [INF 17-2-2 \(AEP\)](#) to incorporate specific concepts and language of Ordinance 16679, became effective on April 1, 2010.

The updated Public Records Act Procedures also established within each Executive Branch department a leadership-level position called a “Management Sponsor” to provide a consistent level of accountability and authority in all Executive Branch departments.

Additionally, the Public Records Officer, working in coordination with the Public Records Committee and legal counsel, issued a guidance document to promote consistency in copy charges across all County agencies.

Finally, to supplement public records training that is offered to staff groups and public records coordinators, the Public Records Officer developed and presented tailored trainings to Human Resources Professionals, both at a departmental level and via the *HR Forum*, a regular meeting of Executive Branch human resources professionals from across all Executive Branch departments.

These efforts and the ongoing work of the Executive’s Public Records program are aimed at providing the fullest assistance to requesters; providing education and training to ensure that public records are protected from damage and disorganization and are promptly produced for inspection and copying upon request.

Matter Name	Court where case filed	Cause Number and Date Filed	Summary of Claims and Status
Yousoufian, Armen v. Office of Ron Sims, King County Executive, et al.	King County Superior Court	00-2-09581-3SEA Filed March 30, 2000	Claim is that King County improperly delayed and denied production of studies and other records related to the construction of local athletic stadiums. The current issue before the Supreme Court is whether the trial court on remand abused its discretion in determining the per day penalty. We are awaiting a decision from the Supreme Court following a September 15, 2009 rehearing.
Tobin, Bill and Tobin, Susan vs. Stephanie Warden and King County	Snohomish County Superior Court	07-2-06020-9 Filed July 19, 2007	The Tobins allege that the King County Department of Development and Environmental Services was not timely and withheld records in response to their public records request for records relating to complaints of code violations on their property and another property on Vashon Island. The trial court dismissed the case based on the applicable statute of limitations. The Tobins appealed and the case is currently pending in Division I, with briefing completed and oral arguments to be scheduled.
Harley H. Hoppe & Associates, Inc. v. King County	King County Superior Court	08-2-21130-4 SEA Filed June 23, 2008	Harley H. Hoppe and Associates, a taxpayer representative, sued the King County Assessor seeking disclosure of a Washington State Department of revenue property tax ratio audit.
