- Housing Development Consortium, EQD Affinity Group (Committee), Design Process Subgroup Member, Participation during 2010

King County Council District: District 1

Please explain why you feel you are the most qualified candidate for this board/commission appointment.

I am a dedicated, hardworking individual that values our county resources. I have worked on many projects that were subject to local, state and national historic requirements that have each brought their own challenges. I have learned from a functional, hands on perspective how to apply the Secretary of the Interior's Standards to many building types. Working with non-profit boards and committees has allowed me to hone my ability to hear a multitude of opinions, gauge differing viewpoints, and come to solid decisions. This allows many views to be heard and brought forward, expanding and contributing to the counties' quality of life. I feel I would bring a well-rounded, positive presence to the commission and look forward to serving and furthering the commissions' goals and objectives.

How did you learn of this opportunity? I contacted Julie Koler, listed on the commission website as the contact person, via e-mail and asked if there were any openings and how I might apply and/or get involved.

 Seattle, WA 98104-3271

Poppi S. Handy, AIA, LEED® AP

Associate Principal

As an Associate Principal, Poppi has worked extensively with nonprofit housing providers to create affordable, sustainable projects. Although her work spans many different building types, the common thread of sustainability ties them together. Whether rehabilitating an existing historic building into affordable housing or designing a new building to house a childcare center and regional non-profit offices, providing thoughtful, conscientious design is a priority. She believes all building types and all socio-economic classes should benefit from healthier buildings and a healthier planet.
