General Notes	
	<p>The Room Data Sheets (RDS) have been developed based on conceptual understandings of the project. Consequently, they (the RDS) are anticipated to be modified as the design is advanced, and a better understanding of the various technologies is understood by County personnel.</p>
	<p>Multiple entries in a "Finishes" spreadsheet cell typically indicates multiple acceptable finishes: For example, a W5, W7, in the "Finishes," "Walls" cell indicates either W5 or W7 is acceptable.</p> <p>Multiple entries in all other cells typically indicates additive components or features. For example, under "Openings," "Accessories," an entry of AC4, AC5, indicates both would apply.</p>
