RE: Notice of Proposed County Ordinance which may Affect Fishing Rights

The King County Code requires the Department of Development and Environmental Services ("DDES") to notify you of any departmental action which may affect your treaty fishing rights including "development of wetlands, stream and river banks, lakeshore habitat of water bodies or development directly or indirectly affecting anadromous bearing water bodies." Such actions encompass the adoption of ordinances. To satisfy this requirement, DDES is hereby notifying you of the following:

Adoption and amendment of the 2006 edition of the International Building and Fire Codes and the 2006 Uniform Plumbing Code.

It is expected that this ordinance will be transmitted to the King County Council around April 6, 2007. The Council will review and consider the proposed ordinance as part of the public legislative process.

By sending this notice, DDES is in no way making any claims as to whether the above-described ordinance will, in fact, have any affect upon your tribe's fishing rights. In satisfying the notice requirement, the department has chosen to be over-inclusive rather than under-inclusive in selecting proposed ordinances to report.

Sincerely,

Harry Reinert  
Special Projects Manager
