## I Executive Summary

This Six-Year Capital Facilities Plan (the "Plan") has been prepared by the Kent School District (the "District") as the organization's capital facilities planning document, in compliance with the requirements of Washington's Growth Management Act, King County Code K.C.C. 21A.43 and Cities of Kent, Covington, Renton, Auburn, Black Diamond, Maple Valley, and SeaTac. This annual Plan update was prepared using data available in the spring of 2015 for the 2014-2015 school year.

This Plan is consistent with prior long-term capital facilities plans adopted by the Kent School District. This Plan is not intended to be the sole planning document for all of the District's needs. The District may prepare interim and periodic Long Range Capital Facilities Plans consistent with Board Policies, taking into account a longer or shorter time period, other factors and trends in the use of facilities, and other needs of the District as may be required.

Prior Capital Facilities Plans of the Kent School District have been adopted by Metropolitan King County Council and Cities of Kent, Covington, Auburn and Renton and included in the Capital Facilities Plan element of the Comprehensive Plans of each jurisdiction. This Plan has also been submitted to cities of Black Diamond, Maple Valley, and SeaTac for their information and inclusion in their Comprehensive Plans.

In order for impact fees to be collected in the unincorporated areas of Kent School District, the Metropolitan King County Council must adopt this Plan and a fee-implementing ordinance for the District. For impact fees to be collected in the incorporated portions of the District, the cities of Kent, Covington, Renton and Auburn must also adopt this Plan and their own school impact fee ordinances.

This Capital Facilities Plan establishes a standard of service in order to ascertain current and future capacity. While the State Superintendent of Public Instruction establishes square footage guidelines for capacity, those guidelines do not account for local program needs in the District. The Growth Management Act, King County and City codes and ordinances authorize the District to make adjustments to the standard of service based on specific needs for students of the District.

This Plan includes the standard of service as established by Kent School District. Program capacity is based on an average capacity and updated to reflect changes to special programs served in each building. Portables in the capacity calculation use the same standard of service as the permanent facilities.

(continued)

## I Executive Summary (continued)

The capacity of each school in the District is calculated based on the District standard of service and the existing inventory of permanent facilities. The District's program capacity of permanent facilities reflects program changes and the state's mandated reduction of class size to meet the standard of service for Kent School District. Portables provide additional transitional capacity.

Kent School District is the fourth largest district in the state. Enrollment is electronically reported monthly to the Office of the Superintendent of Public Instruction ("OSPI") on Form P-223. Although funding apportionment is based on Annual Average Full Time Equivalent (AAFTE), enrollment on October 1 is a widely recognized "snapshot in time" that is used to report the District's enrollment for the year as reported to OSPI.

The Board of Directors approved Full Day Kindergarten ("FDK") for all Elementary Schools in 2011-12 and FDK projections are used to forecast Kindergarten enrollment in future years.

The District received authorization from the Office of Superintendent of Public Instruction to temporarily re-open the former Kent Elementary School at 317 Fourth Ave South in Kent. This facility will be used to house the kindergarten and early child education classes for both Kent and Neely-O'Brien Elementary Schools to alleviate overcrowding at those schools. This building re-opened in fall 2014 as the Kent Valley Early Learning Center.

The District's standard of service, enrollment history and projections, and use of transitional facilities are reviewed in detail in various sections of this Plan. The District plans to continue to satisfy concurrency requirements through the transitional use of portables.

A financing plan is included in Section VIII which demonstrates the District's ability to implement this Plan. Pursuant to the requirements of the Growth Management Act, this Plan will be updated annually with changes in the impact fee schedules adjusted accordingly.

## II Six - Year Enrollment Projection

For capital facilities planning, enrollment growth projections are based on cohort survival and student yield from documented residential construction projected over the next six years. (See Table 2, page 8) The student generation factor is the basis for the growth projections from new developments. (See Page 5)

King County live births and the District's relational percentage average were used to determine the number of kindergartners entering the system. (See Table 1, page 7) 8.98% of 24,514 King County live births in 2010 is projected for 2,202 students expected in Kindergarten for October 1, 2015. This is an decrease of 543 live births in King County over the previous year. (See Table 2, page 8)

Full Day Kindergarten ("FDK") programs at all 28 elementary schools require an adjustment to the Kindergarten forecast for projecting FDK at 1.0 FTE for capital facilities planning. P-223 Reports will continue to include FDK students at 1.0 for twelve schools with FDK funded by state apportionment, and all other kindergarten students will be reported at .50 FTE for state funding in 2014-2015.

Early Childhood Education students (also identified as "ECE"), "Preschool Inclusive Education ("IE") students are forecast and reported to OSPI separately on Form P-223H for Special Education Enrollment. Capacity is reserved to serve students in the ECE programs at elementary schools.

The first grade population of Kent School District is traditionally 2-3% larger than the kindergarten population due to growth and transfers to the District from private kindergartens. Cohort survival method uses historical enrollment data to forecast the number of students projected for the following year. Projections for October 1, 2015-2020 are from OSPI Report 1049 – Determination of Projected Enrollments.

Within practical limits, the District has kept abreast of proposed developments. The District will continue to track new development activity to determine impact to schools. Information on new residential developments and the completion of these proposed developments in all jurisdictions will be considered in the District's future analysis of growth projections.

The Kent School District serves eight permitting jurisdictions: unincorporated King County, the cities of Kent, Covington, Renton, and Auburn and smaller portions of the cities of SeaTac, Black Diamond, and Maple Valley

(Continued)

## II Six - Year Enrollment Projection (Continued)

### STUDENT GENERATION FACTOR

"Student Factor" is defined by King County code as "the number derived by a school district to describe how many students of each grade span are expected to be generated by a dwelling unit" based on district records of average actual student generated rates for developments completed within the last ten years.

Following these guidelines, the student generation rate for Kent School District is as follows:

Single Family	Elementary	.257	
	Middle School	.070	
	Senior High	<u>.138</u>	
	Total		.465
Multi-Family	Elementary	.111	
	Middle School	.022	
	Senior High	<u>.039</u>	
	Total		.172

The student generation factor is based on a survey of 3,867 single family dwelling units and 966 multi-family dwelling units with no adjustment for occupancy rates. Please refer to Appendix E on Page 36 of the Capital Facilities Plan for details of the Student Generation Factor survey.

In preparing the 2015-2016 to 2020-2021 Capital Facilities Plan the District contracted with Davis Demographics and Planning (DDP) of Riverside California, a noted expert in demographic studies for school districts, to analyze and prepare the student generation factor. DDP used a larger sample of single family residences than the district did in previous plans and included both "garden" and "urban style" apartments in the calculation for multi-family residences.

Urban style apartments typically have four stories, a central lobby and entrance, elevator access to all floors and have a central corridor with apartments on each side. These apartments have little or no surface street parking, with parking located beneath the building, retail may or may not be included with the building. If there is retail it will generally be located on the first floor. These apartments seldom have swimming pools and do not have playgrounds for children.

(Continued)

## II Six - Year Enrollment Projection *(Continued)*

Garden style apartments will have very little studio apartments and will have more three bedroom apartments than the urban style and in theory generate more students enrolled in school. These apartments will also have lawns, club houses, swimming pools and places for children to play.

The District felt that it is important to include both styles of apartments for the student generation factor. Though it is anticipated that few students will come from the urban style, they are now part of the mix in Kent and thus should be included in mix of multi-family housing units.

-----------------------------	--------	--------	--------	--------	--------	--------	--------

<sup>1</sup> Kindergarten enrollment projection for 2015 is based on Kent SD percentage of live births in King County five years previous.

<sup>2</sup> Kindergarten projection is calculated by using the District's previous year percentage of King County births five years earlier compared to actual kindergarten enrollment in the previous year. (Excludes ECE - Early Childhood Education preschoolers)

<sup>3</sup> Headcount Projections for 2015 - 2020 from OSPI Report 1049 - Determination of Projected Enrollments

<sup>4</sup> Oct. 2014 P223 Headcount is 26,724 & FTE 25,888.84. Full Headcount with ECE Preschool & Running Start students = 28,090

<b>G R O W T H P R O J E C T I O N S - Adjustments for current economic factors</b>
---

For facilities planning purposes, this six-year enrollment projection anticipates conservative enrollment growth from new development currently in some phase of planning or construction in the district.

### III Current Kent School District "Standard of Service"

In order to determine the capacity of facilities in a school district, King County Code 21A.06 references a "standard of service" that each school district must establish in order to ascertain its overall capacity. The standard of service identifies the program year, the class size, the number of classrooms, students and programs of special need, and other factors determined by the district which would best serve the student population.

This Plan includes the standard of service as established by Kent School District. The District has identified schools with significant special needs programs as "impact" schools and the standard of service targets a lower class size at those facilities. Portables included in the capacity calculation use the same standard of service as the permanent facilities. (See Appendix A, B & C)

The standard of service defined herein will continue to evolve in the future. Kent School District is continuing a long-term strategic planning process combined with review of changes to capacity and standard of service. This process will affect various aspects of the District's standard of service and future changes will be reflected in future capital facilities plans.

#### Current Standards of Service for Elementary Students

Class size for Kindergarten is planned for an average of 23 or fewer students.  
 Class size for grades 1 - 3 is planned for an average of 23 or fewer students.  
 Class size for grades 4 - 6 is planned for an average of 27 or fewer students.

Class size for Kindergarten and grades 1 and 2, for schools that qualify for high poverty funding (18 elementary schools for 2015-16) is planned for an average of 20 or fewer students.

All elementary schools meet the criteria required to provide full day kindergarten programs (FDK = Full Day Kindergarten) with the second half of the day funded by state apportionment or the Educational Programs and Operations Levy. Twelve schools with FDK Programs have state apportionment funding.

Some special programs require specialized classroom space and the program capacity of some of the buildings housing these programs is reduced. Some students, for example, leave their regular classroom for a short period of time to receive instruction in special programs and space must be allocated to serve these programs.

Some students have scheduled time in a computer lab. Students may also be provided music instruction and physical education in a separate classroom or facility.

Some identified students will also be provided educational opportunities in classrooms for special programs such as those designated as follows:

- English Language Learners (E L L)
- Education for Disadvantaged Students (Title I) – Federal Program
- Learning Assisted Programs (LAP) – State Program
- Highly Capable Students-State Program
- Reading, Math or Science Labs
- Dual Language Programs in 4 elementary schools

Inclusive Education Service for Elementary and Secondary students with disabilities may be provided in a separate or self-contained classroom sometimes with a capacity of 10-15 depending on the program:

- Early Childhood Education (ECE) -3-4 yr. old students with disabilities
- Tiered Intervention in Inclusive Education Support Center Programs
- Integrated Programs & Resource Rooms (for special remedial assistance)
- Self-contained Inclusive Education Support Center Programs (SC)
- School Adjustment Programs for students with behavioral disorders (SA)
- Adaptive Support Center for Mild, Moderate & Severe Disabilities (ASC-DD)
- Speech & Language Therapy & Programs for Hearing Impaired students
- Occupational & Physical Therapy Programs (OT/PT)
- The Outreach Program (TOP) for 18-21 year old secondary students

Some newer buildings have been constructed to accommodate most of these programs; some older buildings have been modified, and in some circumstances, these modifications reduce the classroom capacity of the buildings. When programs change, program capacity is updated to reflect the change in program and capacity.

### Current Standards of Service for Secondary Students

The standards of service outlined below reflect only those programs and educational opportunities provided to secondary students which directly affect the capacity of the school buildings.

Class size for grades 7 – 8 is planned for an average of 28.6 or fewer students.  
Class size for grades 9 – 12 is planned for an average of 30.6 or fewer students.

Similar to Inclusive Education Programs listed above, many other secondary programs require specialized classroom space which can reduce the program capacity of the permanent school buildings.

Identified secondary students will also be provided other educational opportunities in classrooms for programs designated as follows:

Computer, Multi-Media & Technology Labs & Programs  
 Technology Academy at Kent-Meridian High School & Mill Creek Middle School  
 Science Programs & Labs – Biology, Chemistry, Physics, Oceanography, Astronomy, Meteorology, Marine Biology, General Science, etc.  
 English Language Learners (E L L)  
 Music Programs – Band, Orchestra, Chorus, Jazz Band, etc.  
 Art Programs – Painting, Design, Drawing, Ceramics, Pottery, Photography, etc.  
 Theater Arts – Drama, Stage Tech, etc.  
 Journalism and Yearbook Classes  
 Highly Capable (Honors or Gifted) and Advanced Placement Programs  
 International Baccalaureate (“I B”) Program  
 JROTC - Junior Reserve Officers Training Corps

#### Career & Technical Education Programs (CTE - Vocational Education)

Family & Consumer Science – Culinary Arts, Sewing, Careers w/Children/Educ., etc.  
 Child Development Preschool and Daycare Programs  
 Health & Human Services – Sports Medicine, Sign Language, Cosmetology, etc.  
 Business Education – Word Processing, Accounting, Business Law & Math, Marketing, Economics, Web Design, DECA, FBLA (Future Business Leaders).  
 Technical & Industry – Woodworking, Cabinet Making, Building Trades, Metals, Automotive & Manufacturing Technology, Welding, Drafting, Drawing, CAD (Computer-aided Design), Electronics, Engineering & Design, Aviation, ASL, etc.  
 Graphic & Commercial Arts, Media, Photography, Theater & Stage, Ag & Horticulture.

Kent Phoenix Academy – Performance Learning Center, Gateway, Virtual High School & Kent Success program with evening classes for credit retrieval.

#### Space or Classroom Utilization

As a result of scheduling conflicts for student programs, the need for specialized rooms for certain programs, and the need for teachers to have a work space during their planning periods, it is not possible to achieve 100% utilization of regular teaching stations at secondary schools. Based on the analysis of actual utilization of classrooms, the District has determined that the standard utilization rate is 85% for secondary schools. Program capacity at elementary schools reflects 100% utilization at the elementary level.

## IV Inventory and Capacity of Existing Schools

Currently, the District has permanent program capacity to house 27,489 students and transitional (portable) capacity to house 2,539. This capacity is based on the District's Standard of Service as set forth in Section III. Included in this Plan is an inventory of the District's schools by type, address and current capacity. (See *Table 3 on Page 13*). The ratio between permanent capacity and portable capacity is 96.6%-3.4%.

The program capacity is periodically updated for changes in programs, additional classrooms and new schools. Program capacity has been updated in this Plan to reflect program changes implemented in the Fall of 2014.

For the 2014-15 school year and beyond the state has mandated lower class sizes in 18 elementary schools that are classified as high poverty. The new class size in grades K-1 and 2 will be 20 students for every teacher.

Calculation of Elementary, Middle School and Senior High School capacities are set forth in Appendices A, B and C. A map of existing schools is included on Page 14.

For clarification, the following is a brief description of some of the non-traditional programs for students in Kent School District:

Kent Mountain View Academy serves Grades 3 – 12 with transition, choice and home school assistance programs. It is located in the former Grandview School in the western part of the district in Des Moines. This school was originally designed as an elementary school and is included in the elementary capacity for this Plan.

Kent Phoenix Academy is a non-traditional high school which opened in Fall 2007 in the renovated site and building that formerly served Sequoia Middle School. Kent Phoenix Academy has four special programs including the Performance Learning Center, Gateway, Virtual High School and Kent Success.

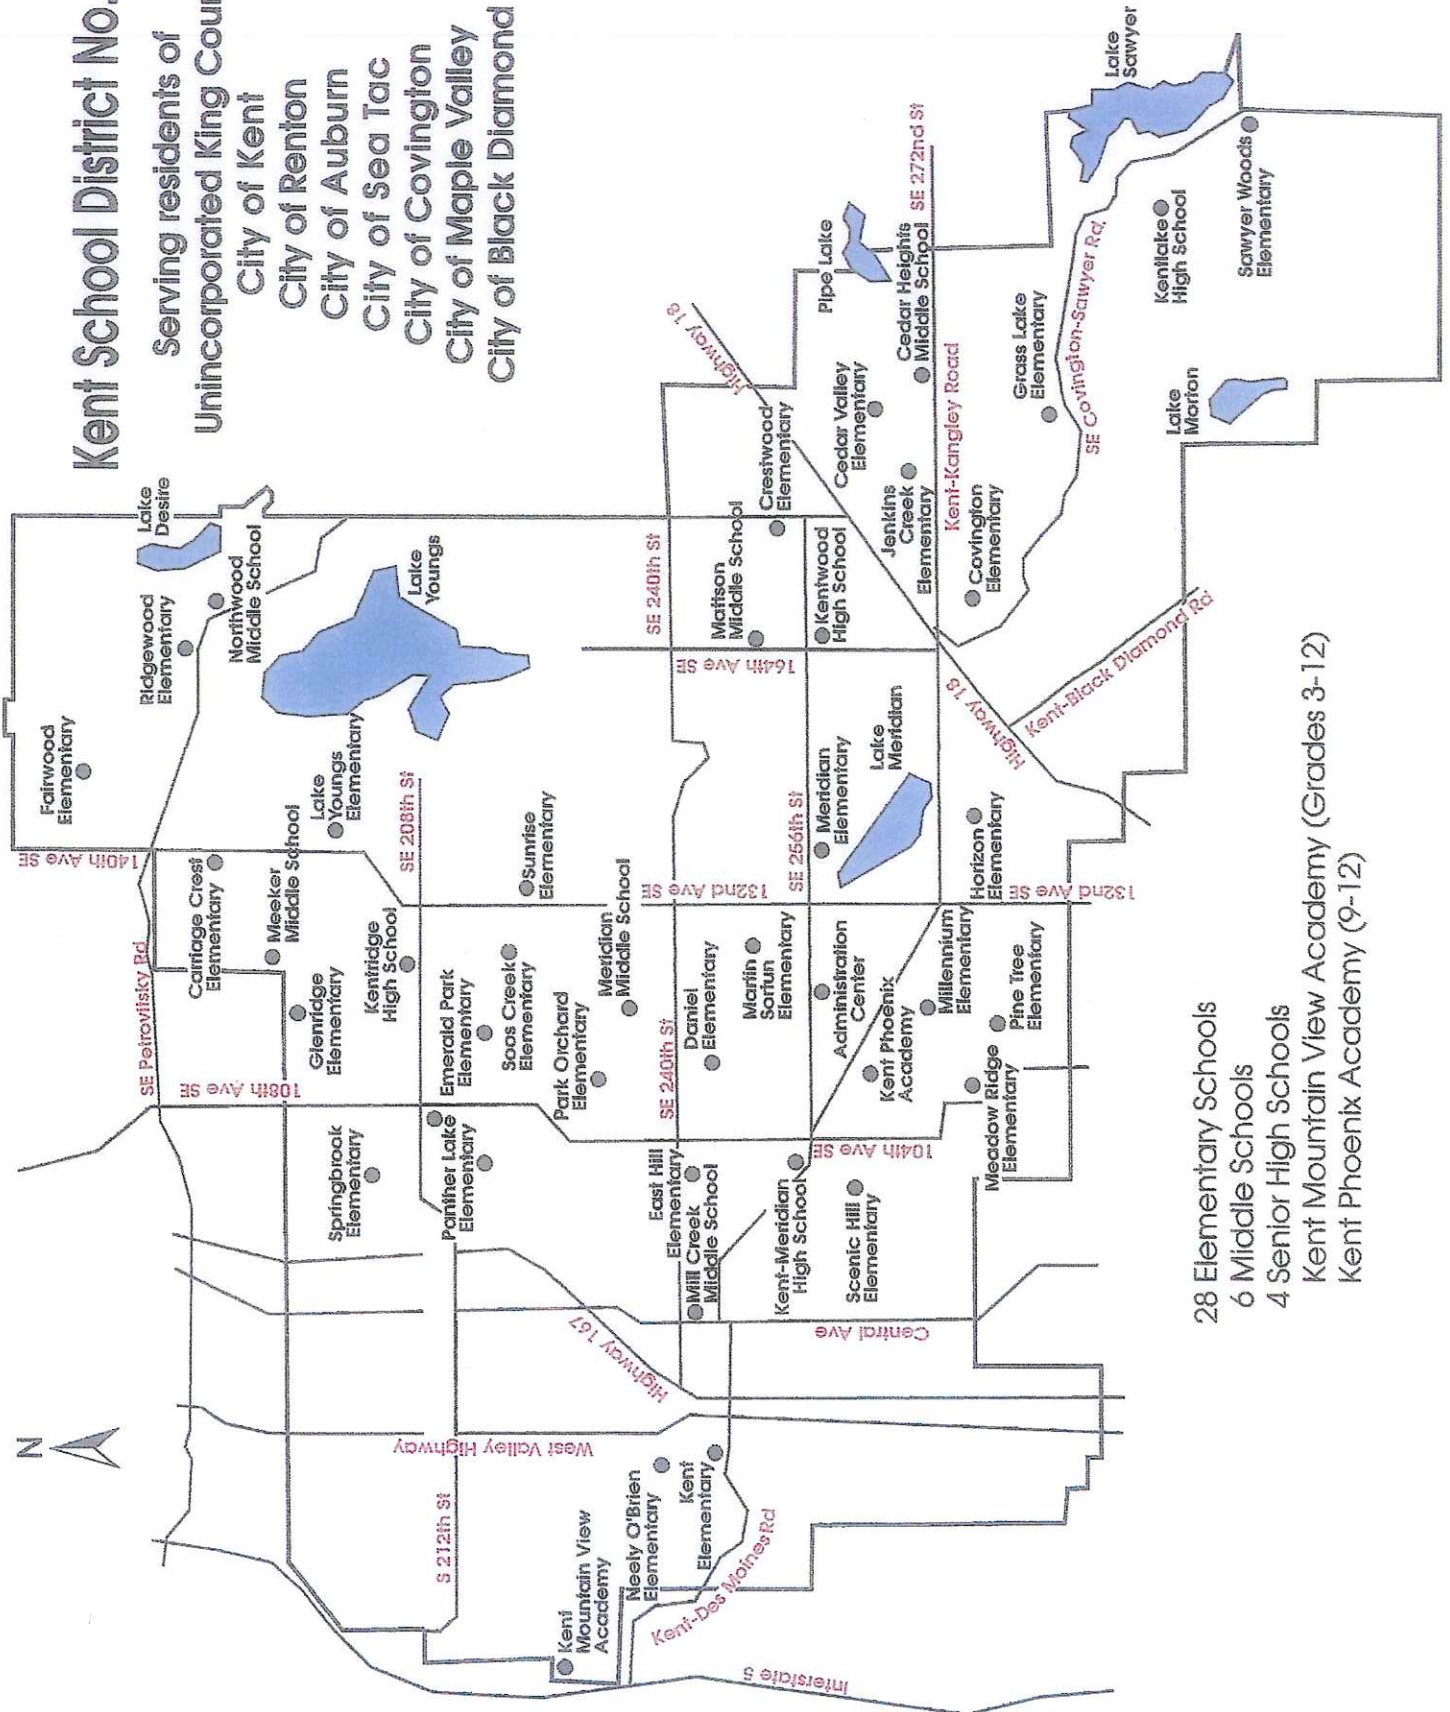

iGrad - In partnership with Green River College, Kent School District has pioneered the Individualized Graduation and Degree Program or "iGrad". iGrad offers a second chance to students age 16-21 who have dropped out of high school and want to earn a high school diploma. iGrad is not included in this Capital Facilities Plan because it is served in leased space at the Kent Hill Plaza Shopping Center. Over the past two years, enrollment in the iGrad program has averaged over 300 students.

# Kent School District No. 415

Serving residents of  
 Unincorporated King County  
 City of Kent  
 City of Renton  
 City of Auburn  
 City of Sea Tac  
 City of Covington  
 City of Maple Valley  
 City of Black Diamond

- 28 Elementary Schools
- 6 Middle Schools
- 4 Senior High Schools
- Kent Mountain View Academy (Grades 3-12)
- Kent Phoenix Academy (9-12)

## V Six-Year Planning and Construction Plan

At the time of preparation of this Plan in spring of 2015, the following projects to increase capacity are in the planning phase in Kent School District:

- Planning is in progress for a replacement school for Covington Elementary School in 2018 or beyond. The project is pending satisfactory financial resources to fund the project.
- Planning is in progress for additional classroom space for Neely-O'Brien Elementary School. This addition will add approximately 25% to building capacity and is expected to come online in fall of 2019 pending satisfactory financial resources to fund the project.
- Enrollment projections reflect future need for additional capacity at the elementary school level. Future facility and site needs are reflected in this Plan.
- Some funding for lease or purchase of additional portables may be provided by impact fees as needed. Sites are based on need for additional capacity.

As a critical component of capital facilities planning, county and city planners and decision-makers are encouraged to consider safe walking conditions for all students when reviewing applications and design plans for new roads and developments. This should include sidewalks for pedestrian safety to and from school and bus stops as well as bus pull-outs and turn-arounds for school buses.

Included in this Plan is an inventory of potential projects and sites identified by the District which are potentially acceptable site alternatives in the future. *(See Table 4 on Page 16 & Site map on Page 17)*

Voter approved bond issues have included funding for the purchase of sites for some of these and future schools, and the sites acquired to date are included in this Plan. Some funding is secured for purchase of additional sites but some may be funded with impact fees as needed. Not all undeveloped properties meet current school construction requirements and some property may be traded or sold to meet future facility needs. The Board of Directors has started the process to sell surplus property in the spring of 2015.

2006 voter approval of \$106M bond issue for capital improvement included the construction funding for a new elementary school, replacement of Panther Lake Elementary, and classroom additions to high schools. Some impact fees have been utilized for those projects.

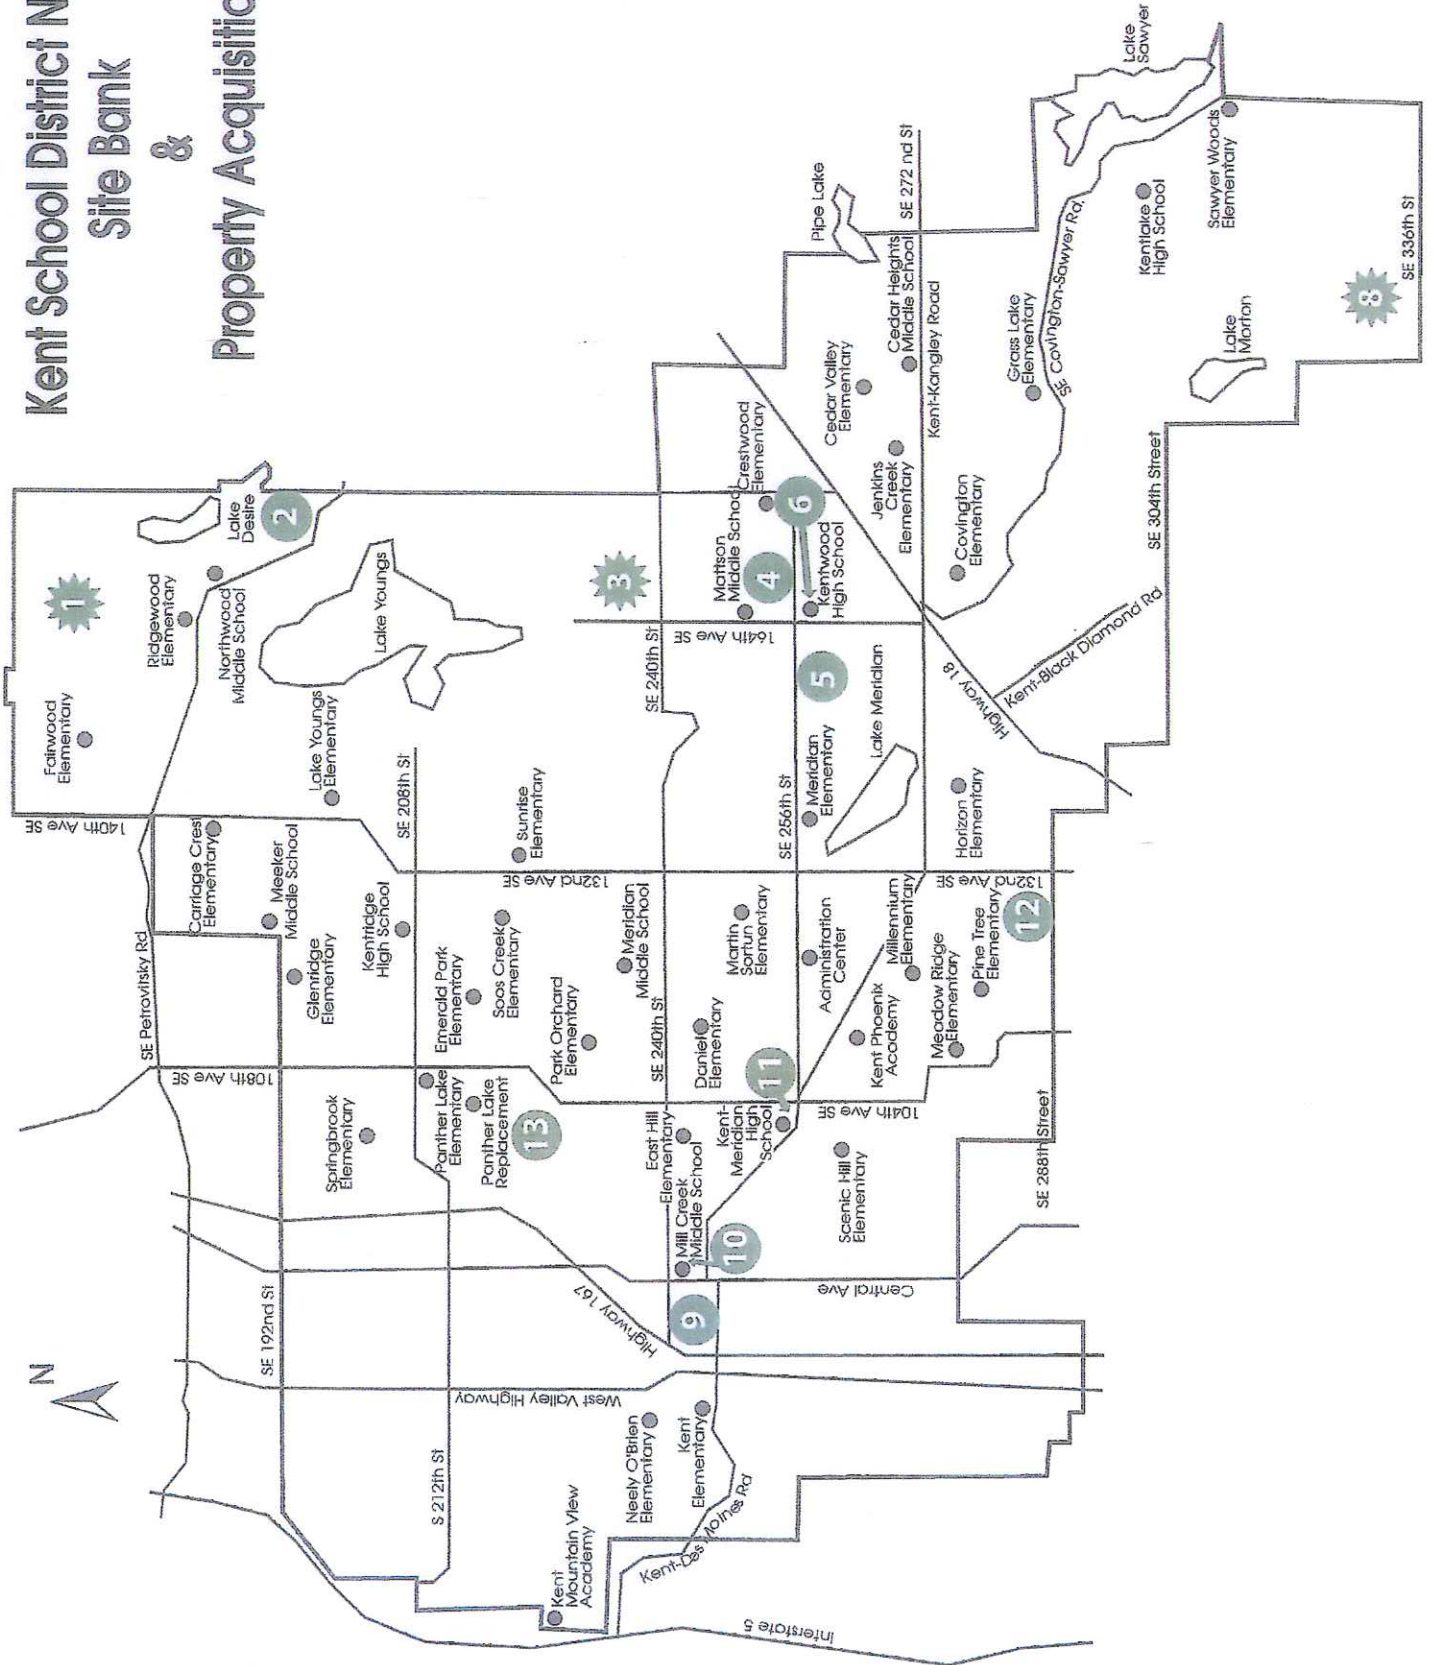

In March 2013 the Board of Directors reallocated the funding for the new elementary school to capital projects for safety and security.

The Board will continue annual review of standard of service and those decisions will be reflected in the each update of the Capital Facilities Plan.

## VI Portable Classrooms

The Plan references use of portable as interim or transitional capacity and facilities.

Currently, the District utilizes portables to house students in excess of permanent capacity and for program purposes at some school locations. *(Please see Appendices A B C D)*

Based on enrollment projections, implementation of full day kindergarten programs, program capacity and the need for additional permanent capacity, the District anticipates the need to purchase or lease additional portables during the next six-year period.

During the time period covered by this Plan, the District does not anticipate that all of the District's portables will be replaced by permanent facilities. During the useful life of some of the portables, the school-age population may decline in some communities and increase in others, and these portables provide the flexibility to accommodate the immediate needs of the community.

Portables may be used as interim or transitional facilities:

1. To prevent overbuilding or overcrowding of permanent school facilities.
2. To cover the gap between the time of demand for increased capacity and completion of permanent school facilities to meet that demand.
3. To meet unique program requirements.

Portables currently in the District's inventory are continually evaluated resulting in some being improved and some replaced.

The Plan projects that the District will use portables to accommodate interim housing needs for the next six years and beyond. The use of portables, their impacts on permanent facilities, life cycle and operational costs, and the interrelationship between portables, emerging technologies and educational restructuring will continue to be examined.

## VII Projected Six-Year Classroom Capacity

As stated in Section IV, the program capacity study is periodically updated for changes in special programs and reflects class size fluctuations, grade level splits, etc. As shown in the Inventory and Capacity chart in Table 3 on Page 13, the program capacity is also reflected in the capacity and enrollment comparison charts. *(See Tables 5 & 5 A-B-C on pages 20-23)*

Enrollment is electronically reported to OSPI on Form P-223 on a monthly basis and funding apportionment is based on Annual Average FTE (AAFTE). The first school day of October is widely recognized as the enrollment "snapshot in time" to report enrollment for the year.

Kent School District continues to be the fourth largest district in the state of Washington. P-223 Headcount for October 2014 was 26,724 with kindergarten students counted at 1.0 and excluding ECE and college-only Running Start students. A full headcount of all students enrolled in October 2014 totals 28,090 which includes ECE and college-only Running Start students.

In October there were 826 students in 11<sup>th</sup> and 12<sup>th</sup> grade participating in the Running Start program at different colleges and receiving credits toward both high school and college graduation. 459 of these students attended classes only at the college ("college-only") and are excluded from FTE and headcount for capacity and enrollment comparisons. Kent School District has one of the highest Running Start program participation rates in the state.

Based on the enrollment forecasts, permanent facility inventory and capacity, current standard of service, portable capacity, and future additional classroom space, the District plans to continue to satisfy concurrency requirements through the transitional use of portables. *(See Table 5 and Tables 5 A-B-C on Pages 20-23)*

This does not mean that some schools will not experience overcrowding. There may be a need for additional portables and/or new schools to accommodate growth within the District. New schools may be designed to accommodate placement of future portables. School attendance area changes, limited and costly movement of relocatables, zoning changes, market conditions, and educational restructuring will all play a major role in addressing overcrowding and underutilization of facilities in different parts of the District.

------------------------------	---	---	---	---	---	---	---

No Classroom Portables required at this time. Some Portables used for classroom and program purposes.

<sup>1</sup> Capacity is based on standard of service for programs provided and is updated periodically to reflect program changes.

<sup>2</sup> Kent Phoenix Academy opened in Fall 2007 serving grades 9 - 12 with four special programs.

<sup>3</sup> Actual October Enrollment with Projections from OSPI Report 1049 - Determination of Projected Enrollments.

<sup>4</sup> High School capacity meets concurrency requirements and no impact fees are collected for high schools.

## VIII Finance Plan

The finance plan shown on *Table 6* demonstrates how the Kent School District plans to finance improvements for the years 2015-16 through 2020-21. The financing components include secured and unsecured funding and impact fees. The plan is based on voter approval of future bond issues, collection of impact fees under the State Growth Management Act and voluntary mitigation fees paid pursuant to State Environmental Policy Act.

In February 2006, voters approved a \$106 million bond issue that included funds for replacement of Panther Lake Elementary School with increased capacity, as well as construction of a new Elementary School to accommodate growth. The new Panther Lake Elementary School replaced the previous Panther Lake Elementary in Fall of 2009.

The bond issue also funded Phase II of the renovation for Mill Creek Middle School and renovation of Sequoia Middle School for reconfiguration as a non-traditional high school, Kent Phoenix Academy, which opened in September 2007.

2006 construction funding also provided for additional classrooms at Kentlake High School and two projects at Kent-Meridian HS. The projects at Kent-Meridian provide additional capacity with several new classrooms and gymnasium space. The projects at K-M are completed and the new Main Gym added capacity for two more PE classrooms. Some impact fees were utilized for new construction that increased capacity.

Originally, the district designated \$16 million of the 2006 bond authorization toward the construction of an additional elementary school, identified as Elementary #31 in previous Plans. Due to a change in circumstances, the Board of Directors reallocated the \$16 million for capital projects for safety and security.

Replacement of Covington Elementary School in 2018-19 or beyond will increase capacity of their current school by approximately 16%. Some impact fees will be utilized as part of the Finance Plan.

A building addition is also planned to provide approximately 25% additional classroom capacity at Neely-O'Brien Elementary School in 2019-20. Some impact fees will be utilized as part of the Finance Plan.

The Finance Plan includes new portables to be purchased or leased to provide additional capacity and some may be funded from impact fees.

Enrollment projections reflect future need for additional capacity at the elementary level and unfunded facility needs will be reviewed in the future and reported in annual updates

## VIII Finance Plan

of the Capital Facilities Plan. No impact fees are requested for secondary schools in this Plan.

For the Six-Year Finance Plan, costs of future schools are based on estimates from Kent School District Facilities Department. Please see pages 26-27 for a summary of the cost basis.

KENT SCHOOL DISTRICT No. 415

\* F = Funded U = Unfunded

NOTES:

<sup>1</sup> Based on estimates of actual or future construction costs from Facilities Department. (See Page 26 for Cost Basis Summary)

<sup>2</sup> The District anticipates receiving some State Funding Construction Assistance for some projects.

<sup>3</sup> Facility needs are pending review. Some of these projects may be funded with impact fees.

<sup>4</sup> Cost of portables based on current cost and adjusted for inflation for future years.

<sup>5</sup> Fees in this column are based on amount of fees collected to date and estimated fees on future units.

### VIII Finance Plan - Cost Basis Summary

For impact fee calculations, construction costs are based on cost of the last elementary school, adjusted for inflation, and projected cost of the next elementary school.

Elementary School	Cost	Projected Cost
Cost of Panther Lake Elementary Replacement (Opened in Fall 2009)	\$26,700,000	
Projected cost - Covington Elementary Replacement (Projected to open in 2018)		\$35,025,000
Projected cost of Neely-O'Brien Addition (Projected to open in 2018)		\$15,500,000
Elementary Cost based on Covington Elementary Replacement		\$35,025,000

#### Site Acquisition Cost

The site acquisition cost is based on an average cost of sites purchased or built on within the last ten years. Please see Table 7 on page 28 for a list of site acquisition costs and averages.

**KENT SCHOOL DISTRICT No. 415**  
**Site Acquisitions & Costs**

			0.172		
				C ⇒	<u>\$31.45</u>

**State Funding Assistance Credit per Multi-Family Residence (formerly "State Match")**

Formula:  $\text{Area Cost Allowance} \times \text{SPI Square Feet per student} \times \text{Funding Assistance \%} \times \text{Student Factor}$

	Area Cost Allowance	SPI Sq. Ft. / Student	Equalization %	Student Factor	
D 1 (Elementary)	\$200.40	90	0.5747	0.111	\$1,150.55
D 2 (Middle School)	\$200.40	117	0	0.022	\$0
D 3 (Senior High)	\$200.40	130	0	0.039	\$0
				D ⇒	<u>\$1,150.55</u>

**Tax Credit per Multi-Family Residence Unit**

Average MF Residential Assessed Value	\$114,153		
Current Debt Service Rate / \$1,000	\$1.41		
Current Bond Interest Rate	3.68%		
Years Amortized (10 Years)	10	TC ⇒	\$1,386.90

**Developer Provided Facility Credit**

Facility / Site Value	Dwelling Units	
0	0	FC ⇒ 0

**Fee Recap**

A = Site Acquisition per Multi-Family Unit	\$585.21	
B = Permanent Facility Cost per MF Unit	\$6,246.36	
C = Temporary Facility Cost per MF Unit	\$31.45	
Subtotal		\$6,863.02
D = State Match Credit per MF Unit	\$1,150.55	
TC = Tax Credit per MF Unit	\$1,386.90	
Subtotal		<u>-\$2,537.45</u>
Total Unfunded Need		\$4,325.57
50% Developer Fee Obligation		\$2,163
FC = Facility Credit (if applicable)		0
Net Fee Obligation per Residential Unit - Multi-family		<u>\$2,163</u>

## IX Summary of Changes to April 2015 Capital Facilities Plan

The Capital Facilities Plan (the "Plan") is updated annually based on previous Plans in effect since 1993. The primary changes from the April 2014 Plan are summarized here.

Changes to capacity continue to reflect fluctuations in class size as well as program changes. Changes in portables or transitional capacity reflect use, lease or purchase, sale, surplus and/or movement between facilities.

The student headcount enrollment forecast is updated annually. All Elementary schools now have Full Day Kindergarten so six-year Kindergarten projections were previously modified to meet the requirements for Full Day Kindergarten programs at all Elementary schools.

The district expects to receive some State Funding Assistance (formerly called "state matching funds") for projects in this Plan and tax credit factors are updated annually. Unfunded site and facility needs will be reviewed in the future.

Due to the decrease in the student generation factor for both single family and multi-family housing the District is reducing the impact fees for both classes. For single family housing the fee will be \$4,990 from \$5,486 a decrease of \$496 or 9%. For multi-family the fee will be \$2,163 from \$3,378 a decrease of \$1,215 or 36%.

Changes to Impact Fee Calculation Factors include:

ITEM	Grade/Type	FROM	TO	Comments
Student Generation Factor	Elem	0.484	0.257	
Single Family (SF)	MS	0.129	0.070	
	SH	0.249	0.138	
	Total	0.866	0.465	- .401
Student Generation Factor	Elem	0.324	0.111	
Multi-Family (MF)	MS	0.066	0.022	
	SH	0.118	0.039	
	Total	0.522	0.172	- .350
State Funding Assistance Ratios ("State Match")		58.14%	57.47%	Per OSPI Website
Area Cost Allowance (former Boeckh Index)		\$200.40	\$200.40	Per OSPI Website
Average Assessed Valuation (AV)	SF	\$245,871	\$288,605	Puget Sound ESD
AV - Average of Condominiums & Apts.	MF	\$87,880	\$114,153	Puget Sound ESD
Debt Service Capital Levy Rate / \$1000		\$1.68	\$1.41	Per King Co. Assessor Report
General Obligation Bond Interest Rate		4.04%	4.68%	Bloomberg Bond Buyer Index
Impact Fee - Single Family	SF	\$5,486	\$4,990	Decrease of \$496 or 9%
Impact Fee - Multi-Family	MF	\$3,378	\$2,163	Decrease of \$1,215 or 36%

<sup>1</sup> Elementary classroom capacity is based on average of 24; 20-22 in K-3 & 29 in Grades 4-6. Includes adjustments for class size reduction or special program changes.  
<sup>2</sup> Kent School District Standard of Service reserves some rooms for pull-out programs. ie. 20 Total = 16 Standard + 1 Computer Lab + 1 Music + 1 Integrated Program classroom.  
<sup>3</sup> All elementary schools have Full Day Kindergarten - 12 FDK programs are State-funded. FTE reports Kind @ .5 & SF-FDK @ 1.0 - P223 Headcount reports Kindergarten @ 1.0.  
<sup>4</sup> Elementary schools have 100% space utilization rate with no adjustments for part-time use of classrooms. Counts exclude ECE Preschoolers & space is reserved for ECE classrooms.  
<sup>5</sup> Elementary Schools in bold type are classified as High Poverty and class size in grades K-1 is 20:1

<sup>1</sup> Use of additional portable for classrooms or special programs is based on need and fluctuations of enrollment at each school.

<sup>2</sup> Full Day Kindergarten at all Elementary schools will increase the need for portables at the elementary level until permanent capacity can be provided.

<sup>3</sup> Although portables are utilized for a wide variety of purposes, new construction and boundary adjustments are timed to minimize the requirement for relocatables.
