STAFF REPORT

AGENDA ITEM: 6 **DATE:** March 10, 2009
PROPOSED ORDINANCE 2009-0135 **PREPARED BY:** Clifton Curry

SUBJECT: AN ORDINANCE authorizing the county executive to execute interlocal agreements between King County and the cities of Black Diamond, Carnation, Des Moines, Issaquah, Lake Forest Park and Snoqualmie for fire investigations services.

SUMMARY: The King County Sheriff's Office provides law enforcement services to unincorporated King County and, through contracts, to cities, Metro Transit, King County Airport, and school districts. The sheriff provides contract police services for cities and other governmental entities that allow the contracting agency to specify levels of service. In 2008, the county transferred responsibility for the investigation of fires from the county's Department of Development and Environmental Services (DDES) to the King County Sheriff's Office.

This ordinance, if approved, will allow the sheriff's office to provide fire investigation services to the cities of Black Diamond, Carnation, Des Moines, Issaquah, Lake Forest Park, and Snoqualmie. King County has provided fire investigation services to cities for many years under contract through DDES. Under King County Ordinance 15921, authority for the investigation of fires and the Fire Investigation Unit were transferred from DDES to the sheriff's office effective January 1, 2008. This ordinance authorizes the executive to enter into interlocal agreements, identical for each city, to continue the provision of fire investigation services under the King County Sheriff's Office.

Background. The investigation of “origins, causes, circumstances and extent of loss from fires” is the responsibility of trained fire investigators, who can make determinations whether fires are the result of accidental or other causes, or are deliberately set, and are criminal arson. Therefore, the investigations of fires can lead to criminal prosecution requiring that investigators be trained in law enforcement investigation. Many arson investigators are law enforcement personnel. In 2007, the council moved fire investigative staff from DDES’ Office of the Fire Marshal and moved these personnel to the sheriff’s office. The Fire Investigation Unit (FIU), part of the sheriff’s Criminal Investigation Division, conducts comprehensive fire investigations to determine the origin and cause of fires and criminal investigation of those fires determined to be arson. In 2007, the unit investigated 424 fires, of which 202 were determined to be arson fires. The closure rate of the 202 fires determined to be arson was 25 percent—a closure rate approximately 10 percent higher than the national average for closed arson fires.

The unit is directly responsible for fire investigations throughout unincorporated King County and also has historically provided investigative services to cities under contract. This proposed Ordinance authorizes the extension of fire investigative services to the cities of Black Diamond, Carnation, Des Moines, Issaquah, Lake Forest Park, and Snoqualmie. These contracts provide for at least one county fire investigator to be available in an "on-call" status 24 hours every day to respond to requests for fire investigation in contract cities. On scene, fire investigators provide scene security, obtain search warrants, conduct origin and cause investigations, photograph and sketch scenes, collect evidence, and conduct interviews. Criminal investigation includes all work that is necessary for the identification, apprehension and prosecution of those responsible for committing the crime of arson. The unit also investigates associated crimes which are perpetrated in the commission of an arson fire. These investigations include coordination with local, state and federal law enforcement agencies within the State of Washington and nationwide. As part of their responsibilities, the investigators assist the King County Prosecutor's Office in all criminal proceedings and participate in courtroom testimony and depositions rendering expert opinions.

These contracts provide for reimbursement according to established formulae based on workload and the cost of the unit. The methodology is consistent with that used in previous DDES fire investigation contracts. The methodology covers all associated costs, which are totally recoverable by King County and is estimated to generate about \$30,000 in annual revenues for the county's General Fund.

KING COUNTY COUNCIL

2009-135

February 17, 2009

The Honorable Dow Constantine
Chair, King County Council
Room 1200
COURTHOUSE

Dear Councilmember Constantine:

The enclosed ordinance, if approved, will allow the Sheriff's Office to provide fire investigations services to the cities of Black Diamond, Carnation, Des Moines, Issaquah, Lake Forest Park, and Snoqualmie. King County has provided fire investigations services to cities for many years under contract through the Department of Development and Environmental Services (DDES). Under King County Ordinance 15921, authority for the investigation of fires and the Fire Investigations Unit were transferred from DDES to the Sheriff's Office effective January 1, 2008. This ordinance authorizes the executive to enter into interlocal agreements, identical for each city, to continue the provision of fire investigation services under the King County Sheriff's Office.

The Fire Investigation Unit (FIU) conducts comprehensive fire investigations to determine the origin and cause of fires and criminal investigation of those fires determined to be arson. In 2007, the unit investigated 424 fires, of which 202 were determined to be arson fires. The closure rate of the 202 fires determined to be arson was 25 percent—a closure rate approximately 10 percent higher than the national average for closed arson fires.

These contracts provide for at least one county fire investigator to be available in an "on-call" status 24 hours every day to respond to requests for fire investigation in contract cities. On scene, fire investigators provide scene security, obtain search warrants, conduct origin and cause investigations, photograph and sketch scenes, collect evidence, and conduct interviews. They also conduct criminal follow-up investigations and assist the King County Prosecutor's Office in all criminal proceedings.

These contracts provide for reimbursement according to established formulae based on workload and the cost of the unit. The methodology is consistent with that used in previous DDES fire investigations contracts. The methodology covers all associated costs, which are totally recoverable by King County.

Sharing fire investigations service is of considerable benefit to all citizens in terms of both cost and public safety. By sharing the unit, costs are distributed among multiple jurisdictions that must provide the service. This is a more cost-effective approach than maintaining individual units. The Fire Investigations Unit works collaboratively in the region with fire departments, regional fire authorities, city police departments, and other agencies to ensure that the most efficient and cost effective fire investigations are being provided to contract customers and the residents of King County.

Should you or any of your staff have questions concerning this legislation, please contact Captain Shawn Ledford, Contract Services, King County Sheriff's Office, at 206-296-4183.

FISCAL NOTE

Ordinance/Motion No. 00-

Title: Fire Investigations Unit Contract

Affected Agency and/or Agencies: King County Sheriff's Office

Note Prepared By: Jason King

Note Reviewed By: Kate Davis

Impact of the above legislation on the fiscal affairs of King County is estimated to be:

These contracts are agreements between the King County Sheriff's Office (KCSO) and various cities within King County for fire investigation services as stand-alone contracts. The contracts are necessitated from the transfer of the County's fire investigators from Department of Development and Environmental Services (DDES) to the KCSO.

The revenue assumption uses the existing agreement methodology and replaces DDES costs with KCSO specific costs. The revenue supports a unit that was established in the KCSO's 2008 budget and requires no new appropriation to implement. The total revenue in this fiscal note reflects the sum of the stand-alone contracts (cities that do not contract for other police services with the KCSO).
