

# FISCAL NOTE

## Executive Proposed Supplemental

**Ordinance/Motion: 2017 Omnibus**

**Title: Reappropriation for Flood Capital**

**Requesting Agency: KING COUNTY FLOOD CONTROL  
CONTRACT(EN\_A56100)**

The Water and Land Resources Division (WLRD) contracts with the King County Flood District to implement their capital program, for which the County Council grants appropriation under operating fund (1561). Unlike the County's capital funds, prior appropriation is not automatically carried over from the previous biennium and must be manually reappropriated through the supplemental budget process. This action reappropriates the remaining appropriation from the Flood District's 2016 capital program.
