In any subcontracts for the programs, activities and services under their Contract, the Contractor shall include the requirement that the Subcontractor provide to persons with disabilities access to programs, activities and services provided under the Contract, as required by the disability access laws as defined by KCC 12.16; that the Subcontractor shall not discriminate against persons with disabilities in providing the Work under the Contract; and that the Subcontractor shall provide that the County is a third party beneficiary to that required provision.

- I. Sanctions for Violations - Any violation of the mandatory requirements of the provisions of this Section shall be a material breach of Contract, for which the Contractor may be subject to damages, withholding payment and any other sanctions provided for by Contract and by applicable law.

7.2 Requirements of King County Living Wage Ordinance

In accordance with King County Ordinance 17909, as a condition of award for contracts for services with an initial or amended value of \$100,000 or more, the Contractor agrees that it shall pay and require all Subcontractors to pay a living wage as described in the ordinance, to employees for each hour the employee performs a Measurable Amount of Work on this Contract. The requirements of the ordinance, including payment schedules, are detailed at <http://www.kingcounty.gov/operations/procurement/Resources/ordinance-17909.aspx>.

Violations of this requirement may result in disqualification of the Contractor from bidding on or being awarded a County contract for up to two years; contractual remedies including, but not limited to, liquidated damages and/or termination of the Contract; remedial action as set forth in public rule; and other civil remedies and sanctions allowed by law.

SECTION 8 CLAIMS AND APPEALS / DISPUTE RESOLUTION

8.1 Claims and Appeals

The Contractor shall address claims for additional time or compensation under the Contract in writing to the Project Manager within ten (10) Days of the date in which the Contractor knows or should know of the basis for the claim. Claims shall be accompanied by supporting documentation and citation to applicable provisions in the Contract documents. The County reserves the right to request additional documentation necessary to adequately review the claim. No claim by the Contractor shall be allowed if asserted after final payment under this Contract. The Project Manager shall ordinarily respond to the Contractor in writing with a decision issued jointly, but absent such written response, the claim shall be deemed denied upon the tenth (10th) Day following receipt by the Project Manager of the claim, or requested additional documentation, whichever is later.

In the event the Contractor disagrees with the determination of the Project Manager, the Contractor shall, within five (5) Days of the date of such determination, appeal the determination in writing to the Procurement and Contract Services Section Manager. Such written notice of appeal shall include all information necessary to substantiate the appeal. The Procurement and Contract Services Section Manager shall review the appeal and make a determination in writing, which shall be final. Appeal to the Procurement and Contract Services Section Manager on claims for additional time or compensation shall be a condition precedent to litigation.

At all times, the Contractor shall proceed diligently with the performance of the Contract and in accordance with the direction of the Project Manager. Failure to comply precisely with the time deadlines under this Section 8.1 as to any claim and appeal shall operate as a waiver and release of that claim and appeal and an acknowledgment of prejudice to the County.

8.2 Mediation and Arbitration

If a dispute arises out of or relates to this Contract, or the breach thereof, including any Contractor claim, that is not resolved through the required claims and appeal process set forth in Section 8.1, the parties may, upon mutual agreement, endeavor to settle the dispute in an amicable manner by mediation or other agreed form of alternative dispute resolution process prior to commencing litigation.

8.3 Applicable Law and Forum

This Contract shall be governed by and construed according to the laws of the State of Washington. Any claim or suit between the parties arising out of this Contract may only be filed and prosecuted in King County Superior Court or U.S. District for the Western District of Washington, in Seattle.

SECTION 9 TERMINATION

9.1 Termination for Convenience/Default/Non-Appropriation

A. Termination for Convenience

This Contract may be terminated by the County without cause, in whole or in part, upon providing the Contractor ten (10) Days' advance written notice of the termination. If the Contract is terminated pursuant to this Section 9.1.A, the County will be liable only for payment in accordance with the terms of this Contract for Work performed and Accepted prior to the effective date of termination.

B. Termination for Default

If the Contractor does not perform the Work, or the Contractor fails to perform in the manner called for in the Contract, or if the Contractor fails to comply with any material provisions of the Contract, the County may terminate this Contract, in whole or in part, for default as follows:

1. A "notice to cure" shall be served on the Contractor by certified or registered first class mail in accordance with Section 2.10. The Contractor shall have ten (10) Days from the date of receipt to cure the default or provide the County with a detailed written plan for review and acceptance, which indicates the time and methods needed to bring the Work into compliance and cure the default.
2. If the Contractor has not cured the default or the plan to cure the default is not acceptable to the County, the County may terminate the Contract by serving a "notice of termination" in accordance with Section 2.10 setting forth the manner in which the Contractor is in default and the effective date of termination.
3. The Contractor shall only be paid for Work performed and Accepted less any damages to the County caused by or arising from such default. All termination payment requests are subject to an analysis of cost or price by the County to verify compliance with the Contract, applicable laws and regulations.
4. The termination of this Contract shall in no way relieve the Contractor from any of its obligations under this Contract nor limit the rights and remedies of the County hereunder in any manner.

C. Termination for Non-Appropriation

1. If expected or actual funding is withdrawn, reduced or limited in any way prior to [Final Acceptance and/or Completion of the Project], the County may, upon written notice to the Contractor, terminate this Contract in whole or in part for lack of appropriation. Such termination shall be in addition to the County's rights to terminate for convenience or default. In the event of termination under this section the following shall apply:

- a. Subject to subsection b., the County will be liable only for payment in accordance with the terms of this Contract for Work performed prior to the effective date of termination;
 - b. Payment, if any, associated with such termination shall not exceed the appropriation for the biennium in which termination occurs; and
 - c. The Contractor shall be released from any obligation to provide further Work under the Contract affected by the termination.
2. Notwithstanding subsection 1., funding of this Contract beyond the current biennium is conditional upon the appropriation by the County Council of sufficient funds to support the Work described in this Contract. Otherwise, the Contract shall terminate on December 31 of the current biennium.

SECTION 10 MISCELLANEOUS

10.1 Other Public Agency Orders

Other federal, state, county and local entities may utilize the terms and conditions established by this Contract if agreeable to all parties. The County does not accept any responsibility or involvement in the purchase orders or contracts issued by other public agencies.

10.2 Assignment

Neither party shall assign any interest, obligation or benefit under or in this Contract or transfer any interest in the same, whether by assignment or novation, without prior written consent of the other party. If assignment is approved, this Contract shall be binding upon and inure to the benefit of the successors of the assigning party. This provision shall not prevent Contractor from pledging any proceeds from this Contract as security to a lender so long as King County Policy Fin10-1 (AP), section 6.1.3 is followed. If an assignment is approved, it shall be effective upon the posting of all required bonds, securities and the like by the assignee and the written agreement by assignee to assume and be responsible for the obligations and liabilities of the Contract, known and unknown, and applicable law.

10.3 Force Majeure

The term "force majeure" shall include, without limitation by the following enumeration: acts of nature, acts of civil or military authorities, terrorism, fire, accidents, shutdowns for purpose of emergency repairs, industrial, civil or public disturbances, causing the inability to perform the requirements of this Contract. If any party is rendered unable, wholly or in part, by a force majeure event to perform or comply with any obligation or condition of this Contract, upon giving notice and reasonably full particulars to the other party, such obligation or condition shall be suspended only for the time and to the extent commercially practicable to restore normal operations. In the event the Contractor ceases to be excused pursuant to this provision, then the County shall be entitled to

exercise any remedies otherwise provided for in this Contract, including termination for default.

10.4 Recycled Products Policy

Contractors able to supply products containing recycled and environmentally preferable materials that meet performance requirements are encouraged to offer them in bids and proposals.

The Contractor shall use recycled paper for all printed and photocopied documents related to the submission of this solicitation and fulfillment of the Contract and shall, whenever practicable, use both sides of the paper.

10.6 No Third Party Beneficiary

This Contract is for the sole and exclusive benefit of the County and the Contractor and shall not create a contractual relationship with, or cause of action in favor of, any third parties.

10.7 Severability

Whenever possible, each provision of this Contract shall be interpreted to be effective and valid under applicable law. If any provision is found to be invalid, illegal or unenforceable, then such provision or portion thereof shall be modified to the extent necessary to render it legal, valid and enforceable and have the intent and economic effect as close as possible to the invalid, illegal and unenforceable provision.

10.8 Non-Waiver of Breach

No action or failure to act by the County shall constitute a waiver of any right or duty afforded to the County under the Contract; nor shall any such action or failure to act by the County constitute an approval of, or acquiescence in, any breach hereunder, except as may be specifically stated by the County in writing.

KING COUNTY

INDEPENDENT ASSESSMENT OF WEST POINT TREATMENT PLANT

SCOPE OF WORK

This scope of work sets forth the tasks, milestones and costs that make up the work AECOM will perform to complete the independent evaluation of the February 9, 2017 incident at the West Point Treatment Plant that resulted in flooding the Plant and the release of combined flows of stormwater and wastewater into the Puget Sound.

The Project is based on an independent investigative team reviewing key elements of the event, which may include components such as interviews of staff involved in the daily operations of the plant, review of processes, procedures, training, maintenance records and other efforts necessary to conduct a thorough and complete inquiry to ascertain identifiable causes contributing to the failure.

The County's objectives are for an independent evaluation and analysis of, and reporting on:

- the flooding of the plant that occurred during the event, including flooding volume, sources, facility damage, threats to staff safety, and implications for facility operations and design
- the causes or contributing factors to the event, including but not limited to the weather, volumes of the combined flows of wastewater and storm water, failures and causes of such failures of equipment or systems, including but not limited to electrical, any wastewater treatment division operational protocol, procedure or practice, and any staff training, decisions and actions of the on-site crew during or leading up to the event
- a description and evaluation of the wastewater treatment division's immediate and subsequent responses to the event, including communications after the event to stakeholders and the public and internal reporting and tracking processes
- an evaluation of how the flooding of the plant could have been averted
- an evaluation of the plant's power systems, both leading to the plant, and within the plant, with any recommendations for opportunities to strengthen system redundancy and avoid power disruptions or abnormalities that may require emergency crew response
- a description of the environmental impacts from the discharge of untreated or minimally treated wastewater and storm water, including impacts related to wastewater bacteria, as well as metals and other toxins, associated with the event

- a description of the public health impacts resulting from the event
- recommendations of appropriate preventive approaches, strategies, practices or systems to avoid recurrence of extended suspensions of full operation of the wastewater treatment at the plant, consistent with the plant's National Pollutant Discharge Elimination System ("NPDES") permit and state and federal laws
- an evaluation of methods to relieve flow volumes at the plant during future heavy storm periods, including, but not limited to, flow diversion, infiltration/inflow control, increased system storage or green storm water infrastructure opportunities, or any other appropriate means
- a description and an evaluation of the wastewater treatment division's lessons learned from the event that will help avoid future extended suspension of full operation of the wastewater treatment at the plant, consistent with the plant's NPDES permit and state and federal laws
- a review of prior occasions at the plant involving effluent discharge pump shutdowns or operational interruptions over the past three years, describing the cause of each event, the outcome, whether any facility damages resulted, whether pump replacement or repair was required and whether corrective action was taken to avoid future such events
- any other findings or analysis the AECOM deems relevant or necessary for the council and the public to understand the causes and effectiveness of the response to the event and how to prevent a similar event in the future

AECOM's key team leaders for this Project are:

Nick Cooper, PhD, PE – Technical Director
Donald Champenois, Project Manager
