The Honorable Dave Upthegrove
Chair, King County Council
Room 1200
C O U R T H O U S E

Dear Councilmember Upthegrove:

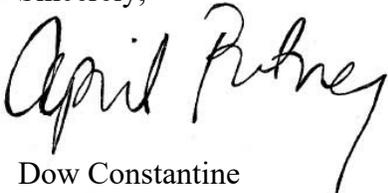

This letter transmits a proposed Ordinance that, if enacted, will enable King County to continue to provide radio subscriber services to customers outside of King County government. These radio subscriber services ensure that emergency communications are handled seamlessly, so first responders within King County can continue to provide a safe and welcoming community where everyone can thrive.

Over the past 34 years, the King County Emergency Radio Communications Division has been providing user agencies with policies and procedures related to planning, engineering, installation, transferring, maintenance, and administration support for radio subscriber services, providing critical public safety service to external agencies. This proposed Ordinance will enable the continuity of public safety services provided by the Emergency Radio Communications Division.

Thank you for your consideration of this proposed Ordinance. This important legislation will ensure the functionality and operability of King County's emergency radio system.

If your staff have any questions, please contact Tommy Lee, IT Manager, King County Information Technology, at 206-263-8758.

Sincerely,

 for

Dow Constantine

King County Executive

Enclosure

The Honorable Dave Upthegrove
