Executive Summary

After two decades of planning and construction, Link light rail service is coming to Capitol Hill and the University of Washington’s Husky Stadium in early 2016. This new service will give riders a reliable 8-minute trip—avoiding freeway and surface-street traffic—between the University District and downtown Seattle.

Over three phases of outreach, starting in November 2014, Metro Transit has worked in partnership with Sound Transit to engage the public in shaping a set of bus service changes that would take effect shortly after the new Link service begins. These changes are intended to address problems that riders experience with bus service today and to create better connections for riders in the future.

For Phase 1, Metro and Sound Transit started with a clean slate, asking members of the public to share how they were currently using transit, what was working for them, what wasn’t working, and what they would like to see improved.

We used the feedback gathered during this phase to create two alternative network concepts that showcased possibilities for the future. Alternative 1 emphasized a more frequent, consolidated, and grid-like system, while Alternative 2 focused on maintaining existing geographic coverage while providing connections to the new light rail service. Both alternatives featured opportunities to connect with Link light rail and reduced duplications of service between buses and light rail.

During Phase 2 of outreach in March 2015, we showed riders and community members the two concepts and asked what they liked and what raised concerns for them in each alternative. We used this feedback to create one proposed set of changes that we shared with the public in a final round of public outreach (Phase 3) in May.

Over the nine months of outreach for the project, **we received 16,000 comments** from the general public, a panel of vested transit riders, key institutions, and community groups. This feedback helped transit planners understand how people are using our service today, how they’d like to use it in the future, and what’s most important to riders as we work to balance how they use service today with the changes they want to see in the future.

Who helped shape the recommended service changes

- **Inter-agency team** – Metro convened an inter-agency working group that included representatives from Sound Transit, the Seattle Department of Transportation, the University of Washington, and Seattle Children’s Hospital. This group met throughout the engagement process to reflect on public feedback, participate in the design of service concepts and proposals, and collaborate to engage the public in providing feedback.

- **Sounding Board** – We recruited a community advisory group made up of 21 people who use transit in the project area. The board’s purpose was to advise Metro and Sound Transit service planners on bus change concepts and proposals and on the outreach process. This group met 10 times between January and July of 2015. They wrote a recommendation, included in this report, that reflects their consensus on the recommended service changes.
- **Eastside Community Advisory Group** – Once it became clear that changes to service along the State Route 520 corridor might be part of the process, we pulled together a selected group of transit riders and jurisdiction representatives who live and use transit along that corridor. They met two times, before and after the second phase of outreach, to advise Metro and Sound Transit service planners on the concepts they were considering and on the outreach process. Metro chose to not move forward with significant changes to SR-520 routes, so the group did not meet again before or after Phase 3.
- **General public** – We invited current riders of potentially affected Metro and Sound Transit service—residents, students, and employees who travel in the project area—to serve on the Link Connections Sounding Board and provide feedback via online surveys and at face-to-face outreach events during each phase of outreach.
- **Stakeholders** – We invited more than 80 businesses, institutions, business and community groups, and organizations serving underrepresented populations to provide representatives to serve on the Sounding Board. We also encouraged them to provide feedback and spread the word about opportunities to provide feedback during all three phases of outreach. We also briefed stakeholders—at their request or ours—throughout the project area.

Timeline

- **November 2014: Phase 1** of public outreach. We hold Community Conversations with the public and begin recruiting members for the Sounding Board.
- December 2014: Sounding Board member selection.
- January to July 2015: Sounding Board met 10 times.
- March and April 2015: Eastside Community Advisory Group met two times.
- **March 2015: Phase 2** of public outreach. We shared two alternative concepts with the public and gather feedback.
- April 2015: Service planners refined the concepts and developed a single proposed set of changes.

- **May 2015: Phase 3** of public outreach. We shared the proposed set of changes with the public and collected their feedback.
- June to July 2015: Metro prepared the service change ordinance, including this public engagement report.
- Late August to October 2015: the King County Council considers the service change ordinance.

How we notified people about opportunities to participate and helped them understand what was being considered

Unless otherwise noted below, Metro did the following at each phase of outreach to announce and promote participation,

- Joint news releases (Metro, Sound Transit, Seattle Department of Transportation)
- Joint social media (Metro, Sound Transit, Seattle Department of Transportation) – #Bus2Link on Twitter, Instagram, and Facebook
- Project website: www.kingcounty.gov/metro/LinkConnections
- Information sheets and phone lines in 12 non-English languages
- “Talk with Ted” videos (Phase 3 only)
- Street teams and information tables
- Email notifications to route and project subscribers and stakeholders
- Echo notifications – e.g. U Pass holders, Commute Trip Reduction-affected employers, Seattle Department of Neighborhood’s News You Can Use
- Posters at high-use bus stops
- Posters and rack cards on buses and mailed to community centers, libraries, and schools

Summary of what we did, what we heard by phase

Phase 1 – November 2014

What’s working, what’s not, what could be improved

People reached

- Website views: 9,400+
- Social media: 28,000+
- Street teams, information tables: 2,000+
- Rack cards, posters: 7,500+
- E-notifications: 27,000+
- Stakeholders notified: 80+
- Mailing: 30+

Participants

- Online survey responses: 4,000+
- Community conversations: 80+
- Phone/email: 5+
- Sounding Board applicants: 140+

What we heard

Where people go, or where they would like to go

- Destinations in the project area mentioned more than 100 times include the University of Washington and University of Washington Medical Center, the University District, Ballard, Fremont, Green Lake, Northgate, First Hill, downtown Seattle, Capitol Hill, and South Lake Union.
- Requested east-west connection improvements reflected in the current recommendation include connections between Lake City and Northgate; Sand Point and Green Lake via 65th Avenue NE; northeast Seattle, Fremont, and Queen Anne; northeast Seattle and Ballard; and Capitol Hill, Ballard, and Fremont.

How transit options work now

- A majority of people told us their transit options work ok.
- Most use transit for work or school and said they would like to use transit more for other trip purposes if service were more reliable, frequent, and available at nights/on weekends.
- The top three complaints about current service were:
 1. It takes too long
 2. It's overcrowded
 3. It's unreliable

What's most important when choosing transit

- How long the trip takes
- Reliability of service
- The perception that the more transfers riders make, the less reliable the trip will be

Acceptable tradeoffs

The top three things people said would make transfers more acceptable were:

1. Buses/trains arriving on time
2. Only having to wait 5 minutes or less for the next bus or train
3. Good shelter from the weather at the transfer stop

More than 60 percent said they would be willing to spend 10-15 minutes getting to frequent transit service.

Phase 2 – March 2015

Likes and concerns about Alternatives 1 and 2

People reached

- Website views: 25,500+
- Social media: 32,000+
- Street teams, information tables: 2,000+
- Rack cards, posters: 25,000+
- E-notifications: 35,000+
- Stakeholders notified: 80+
- Mailing: 30+

Participants

- Online survey responses: 6,000+
- Public meetings, briefings: 200+
- Phone/email: 60+

What we heard

In north Seattle, our final recommendation reflects several things most liked about Alternative 1:

- The frequency of the network (ranked number 1).
- Frequent/all-day service from the new University of Washington station to University Village shopping center and Children’s Hospital.
- More reliable travel times between northeast Seattle and Capitol Hill.
- New east-west service connecting Sand Point, Windermere, View Ridge, Wedgwood, Ravenna, Roosevelt, Green Lake, Wallingford, and Fremont.

The box most frequently checked among concerns about Alternative 1 indicated that the respondent believed the benefits of the alternative would outweigh any concerns he or she had about it. The second most-frequent choice was concern about having to travel farther during the day and on weekends to reach consolidated service on 25th Avenue NE, 35th Avenue NE, Roosevelt Way NE, and Sand Point Way.

The top two concerns expressed about Alternative 2, which preserved more of the current network’s geographic coverage, were that it lacked frequent service and would mean longer wait times for people connecting between very-frequent light rail service and infrequent bus service.

Given that nearly half of survey respondents said they would use transit more if Alternative 1 were implemented, and Phase 1 survey results indicated that people are willing to walk 10-15 minutes to reach frequent transit service, the final recommendation for change in north Seattle is fairly consistent with what was proposed in Alternative 1, with some additions to address concerns we heard during our outreach.

In Capitol Hill and the Central Area, participants preferred Alternative 1 for frequency (ranked number one), a frequent/all-day connection between Madison Valley, Capitol Hill, South Lake Union, and the Seattle Center, and a new direct connection from Madison Park to the Capitol Hill light rail station. However, they were concerned about having less service along the Pike Street/Pine Street corridor; a loss of one-seat rides between the top of Capitol Hill and the University District; and a loss of one-seat rides to downtown Seattle or the Capitol Hill Station from Montlake.

Similarly, the top likes about Alternative 2 indicate that participants liked that this alternative kept more service on the Pike Street/Pine Street corridor and that it left things more like the way they are today, but their top concerns about it included its lack of service frequency and the lack of reliable service on Route 8.

Neither alternative promised much change in how people use transit service, so the final set of recommended changes keeps or includes some of the things people told us they wanted: more-reliable and frequent service; preserving much of the existing transit network; some new connections the public told us were most important to them; and making transfers as seamless as possible where changes are being made to better connect communities to light rail and provide more-reliable service.

Phase 3 – May 2015

One proposed network: can people accept it?

People reached

- Website views: 24,000+
- Social media: 35,500+
- Street teams, information tables: 4,500+
- Rack cards, posters: 20,000+
- E-notifications: 21,000+
- Stakeholders notified: 80+
- Mailing: 30+

Participants

- Online survey responses: 1,900+
- Public meetings, briefings: 100+
- Phone/email: 120+

During this phase of outreach, we heard from fewer people—mostly those who had the most concerns about what we were proposing. Our notifications reached fewer people because we had narrowed our set of changes to a smaller number of routes. In addition, Sound Transit did its own outreach to riders of routes 540, 542, and 545 for the changes it was considering.

While we had a similar number of website views to those in past rounds of outreach, participation in the online survey and at meetings was lower. On the other hand, we

received twice as many phone and email inquiries. Key concerns expressed in all channels of public input were:

- **DART Route 941 and deletion of Route 71** – Proposed Route 941 wouldn't operate long enough throughout the day or wouldn't operate frequently enough; the loss of connection to the University District, and confusion about how DART service works.
- **Deletion of Route 72 and revision of Route 73** – Concerns about transferring between buses and Link light rail at the Montlake Triangle, and about loss of weekend service on Route 73.
- **Revised Route 16 and associated changes to routes 31, 32, 26, and 26X** – Residents east of Wallingford Avenue N and south of N 40th Street expressed concerns about having to walk farther to reach service on Stone Way N for a slightly slower trip, or uphill to N 40th Street for a faster trip to reach direct bus service into downtown. Residents of Kirkwood Place N were concerned about an increase in bus frequency along their narrow street.
- **Combining and revising routes 28 and 28X** – Riders using this service to reach Fremont and South Lake Union would have a longer walk or a two-bus trip to make this connection.
- **Deletion of Route 43** – Those traveling to/from the Montlake neighborhood and destinations north of E Aloha Street, where 23rd Avenue E becomes 24th Avenue E, face a two-seat ride to downtown.
- **Revision of Route 12** – Residents who live near or on 19th Avenue E, including those who live at two large senior housing communities, expressed concerns about losing their direct bus connection to E Madison Street.
- **Route 11** – This proposal cuts Madison Park off from downtown Seattle and from easy access to light rail.

The following section summarizes results from our online survey on key features of the proposal.

- **On creating new all-day connections to the University of Washington Station** – 61 percent said they would use transit the same or more; 15 percent said they might not use this service, but could accept the changes; 24 percent said they wouldn't use the service and could not accept the changes.
- **On increasing all-day frequency** – 68 percent said they would use transit the same or more; 13 percent said they might not take advantage of the change, but could accept it; 19 percent said they wouldn't take advantage and could not accept the change.

- **On improving reliability by replacing all-day bus service with connections to light rail** – 51 percent said they would use transit the same or more; 26 percent said they might not take advantage of the new connections, but could accept the change; 23 percent said they would not take advantage of the new connections and could not accept the change.
- **On additional late night/weekend service** – 57 percent said they would use transit the same or more; 38 percent said they might not take advantage of the new service but could accept the change; 5 percent said they wouldn't take advantage of it and could not accept the change.
- **On changes to routes 16, 26, and 26X** – 52 percent said they would use transit the same or more; 32 percent said they might not take advantage of the changes but could accept them; 16 percent said they wouldn't take advantage of the changes and could not accept them.
- **On improving reliability by splitting Route 8** – 61 percent said they think this change should be made; 17 percent said they don't think it should be made, but could accept it; 23 percent said they don't think this change should be made and they could not accept it.
- **On improving reliability by splitting Route 48** – 57 percent said they think this change should be made; 15 percent said they don't think this change should be made, but could accept it; 27 percent said they don't think this change should be made and they could not accept it.
- **On providing frequent, all-day connections to the Capitol Hill Station** – 67 percent said they would use transit the same or more; 20 percent said they might not take advantage of it, but could accept the change; 12 percent said they wouldn't take advantage of it and could not accept the change.
- **On a water-to-water Route 11** – 44 percent said they would use transit the same or more; 39 percent said they might not take advantage of the change, but could accept it; 17 percent said they wouldn't take advantage of it and could not accept it.
- **On changing Route 12** – 65 percent said they would use transit the same or more; 20 percent said they might not take advantage of the change, but could accept it; 16 percent said they wouldn't take advantage of it and could not accept it.

Adjustments made to the recommendation

The final recommended set of changes forwarded to the King County Executive incorporates adjustments, detailed below, made in response to concerns heard during the last phase of outreach.

- **New Route 78** – This new route was designed in response to community concerns about the loss of Route 71 and its proposed replacement by DART Route 941 (Phase 3). The new route will provide a longer span of service (from 6 a.m. to 10 p.m.), operate every 30 minutes (instead of hourly), and provide a direct connection into the University District.
- **Keeping Route 12 as-is** – Given the populations served by this historic route and the concerns expressed by its users, we are not proposing any changes to this route at this time.
- **Routes 8 and 11** – A water-to-water Route 11 received more negative than positive feedback. In order to address the desire for Madison Park and Madison Valley residents to have convenient access to the Capitol Hill Station, continue to have a direct connection to downtown Seattle, and provide former Route 43 riders with frequent connections for bus-to-bus and bus-to-Link service, we are recommending that both routes operate along Madison between 24th Avenue E and 19th Avenue E.
- **Splitting Route 8 at the Mount Baker Transit Center** – If these changes are adopted, Route 8 would be split at the Mount Baker Transit Center in response to community preference.

This report documents our outreach goals, approach, and activities; who we engaged, how many we reached, and how many participated; and summaries of what we heard during each phase of our Link Connections outreach.

Outreach Plan and Activities

Overview – goals, timeline

In the first quarter of 2016, Sound Transit will open Link light rail stations on Capitol Hill and next to the University of Washington's Husky Stadium. As we integrate this new asset into Seattle's transportation system, King County Metro Transit and Sound Transit are considering changes to bus service that would complement the new light rail system, creating a multi-modal transit network that provides efficient, convenient, and reliable service.

Metro, in partnership with Sound Transit, has coordinated with the Seattle Department of Transportation, the University of Washington, and Seattle Children's Hospital to engage people who may be affected by service changes related to this integration of bus and new light rail service.

Our outreach was intended to proactively engage the public in helping us shape the final Metro service change proposal that will be transmitted to the King County Council for approval in fall 2015, and the final amended service implementation plan that will be submitted to the Sound Transit board at roughly the same time.

Our outreach had three phases; all are summarized in this report.

Engagement goals

Our intent was to design an engagement process in which...

- The public and key stakeholders are able to help shape the final service change proposal as well as the public outreach process itself.
- A sounding board (community advisory group) whose membership reflects those who will be affected by the changes helps shape what we share with the public and how we share it at each stage of public input.
- We coordinate with partner agencies in a way that is seamless to stakeholders and the public, so participants know how decisions are made and how their involvement shapes those decisions.
- All communities are engaged in a manner that promotes and fosters trust.
- We are responsive and accountable to the public.
- We ensure that the public has access to understandable, accurate, and transparent information.
- We demonstrate and reflect back how public input shapes our service planning and outreach at each phase.

Timeline

- **November 2014: Phase 1** of public outreach. We held Community Conversations with key stakeholders and began recruiting members for the Sounding Board.
- December 2014: Sounding Board member selection.
- January to July 2015: Sounding Board met 10 times.
- March and April 2015: Eastside Community Advisory Group met two times.
- **March 2015: Phase 2** of public outreach. We shared two alternative concepts with the public and gathered feedback
- April 2015: Service planners refined the concepts and developed a single proposed set of changes.
- **May 2015: Phase 3** of public outreach. We shared the proposed set of changes with the public and collected their feedback
- June to July 2015: Metro prepared the service change ordinance, including this public engagement report.
- Late August to October 2015: the King County Council considers the service change ordinance.

Phase 1 outreach – Nov. 5-Dec. 5, 2014

Outreach goals

- Introduce the public and stakeholders to the planning process for changing bus service to integrate with light rail service to Capitol Hill and Husky Stadium.
- Hear from the public about how they are using transit service today—what’s working, what isn’t, and what they’d like to see improved—as well as what’s most important to them about integrating bus and light rail service.
- Recruit a sounding board whose membership reflects those who will be affected by the changes being considered.

We spoke with about 6,000 people during this phase of outreach, and more than 4,000 gave us direct feedback.

Phase 2 outreach – March 5-31, 2015

Goals:

- Engage existing and future riders in imagining how they would use service in two alternative network concepts in northeast Seattle, Capitol Hill, and along the SR-520 corridor.
- Create multiple meaningful channels for people to share what benefits and tradeoffs they perceive in the two network concepts in a way that will help us create one network proposal to share with, and get feedback from, the public in May.

We spoke with about 8,000 people during this phase of outreach, and more than 6,000 gave us direct feedback.

Phase 3 outreach – May 11-31, 2015

Goals:

- Reflect back how a final proposal was shaped with public input.
- Understand the level of acceptance of these changes and how people's transit use would be affected if this proposal were to be adopted.

We spoke with about 8,000 people during this phase of outreach, and more than 6,000 gave us direct feedback.

Notifications – how we let people know they could participate

Website content

We created a Have a Say website (<http://www.kingcounty.gov/metro/LinkConnections>) with information about Link Connections planning process and how to participate. For each phase of outreach, this site included a calendar of upcoming outreach events, information about what was being asked of the public or the proposals for which we were seeking input; a way to sign up to receive email or text updates on the project; links to the online survey; and details about the Sounding Board. The site also had links to the Metro Matters blog, Metro's Facebook page, and other social media outlets with related content. Contact information was provided in English and Spanish, and project information was provided in 12 languages.

During Phase 1, the website...

- Was viewed 9,400 times.

- Included an application to serve on the Sounding Board.

During Phase 2, the website...

- Was viewed more than 25,500 times.
- Included information about two network alternatives – by area (in the form of static peak, all-day, and frequency maps); by route (in the form of individual route information sheets); and by interactive map.
- Included a summary of public feedback from Phase 1 and technical information used to develop the alternative concepts.
- Added a “latest news” information box where blog posts were used to respond to frequently asked questions throughout the outreach period.

During Phase 3, the website...

- Was viewed more than 24,000 times.
- Included information about one proposed network – by area (in the form of area summary handouts for northeast Seattle and Capitol Hill and static peak, all-day, and frequency maps), by route (in the form of individual route information sheets), and by interactive map.
- Included a summary of public feedback from Phase 2 and videos featuring Metro Transit Planner Ted Day explaining how the proposal responded to feedback received in Phase 2.

Media and social media

At the start of our outreach and throughout each phase, Metro used joint news releases with partner agencies and key social media channels Twitter and Facebook to encourage public participation in shaping the service changes. Metro, Sound Transit and others got the word out and shared feedback using the hashtag #Bus2Link.

Phase 1

- Metro and Sound Transit sent a joint news release (www.kingcounty.gov/transportation/kcdot/NewsCenter/NewsReleases/2014/November/nr141106_LinkConnections.aspx) to area news outlets, ethnic media, and community blogs.
- Facebook: We posted information on the Metro and Have-a-Say Facebook pages before each of the five Community Conversation meetings. These Facebook pages have 2,570 and 507 followers, respectively.

- Twitter: Metro tweets alerted more than 25,000 followers about these meetings and the opportunities to serve on the sounding board or share feedback and ideas through the online survey.

Phase 2

- A joint news release by King County Executive Dow Constantine, Seattle Mayor Ed Murray, and Sound Transit ([Linked up: Transit agencies working together on bus changes as Link expands to Husky Stadium](#)) announced the next phase of open houses for Link Connections outreach and the availability of online content for public review. The release also announced upcoming changes to bus service in the downtown Seattle Transit Tunnel and Metro’s coordination with the City of Seattle to keep traffic moving for buses and cars through these changes.
- Facebook and Twitter: Metro reached nearly 29,000 Twitter followers and 3,077 Facebook fans on its Metro and Have a Say pages.
- Leveraging these channels and teaming up with our partners, we were able to reach tens of thousands of additional followers. Key among them were followers of @UW (+80,000), Sound Transit (+17,900), the Seattle Transit Blog (+11,000), and the Seattle Department of Transportation (+24,500).

Reminders to participate throughout the outreach period

King County Metro
@kcmetrobus

There are a few more days to give feedback on our proposed [#Bus2Link](#) changes [ow.ly/Nz99u](#) [#CapitolHill](#) [#UW](#)

Proposed Routes Near Montlake Triangle

What will change when Link comes to Capitol Hill and the UW?
Help us improve connections between buses and light rail when new Link service begins

Starting in 2016, Sound Transit's University Link light rail extension will connect the University District with Capitol Hill, downtown Seattle, Rainier Valley, and Sea-Tac Airport. Metro and Sound Transit are thinking about ways to connect the new light rail service with buses to make an efficient network of service.

The Link extension will add two stations: one on Capitol Hill, at Broadway and E. John Street, and one at the University of Washington's Husky Stadium. Light rail will offer an eight-minute trip between the University of Washington and

Sound Transit, jseattle, Seattle Transit Blog and 3 others

Posters

During each phase of outreach, we put up Rider Alert posters with a project description and an invitation to participate at stops in the project area that average 200 or more daily boardings. The exact stops and number of posters varied from phase to phase as the geographic area of the project expanded and contracted, depending on the routes being considered for change.

Take-away cards on buses and in customer kiosks

For each phase of outreach, we printed cards for bus drivers to put on buses going through the project area. These cards were also placed in customer kiosks at the University of Washington student union building, the University Bookstore, and Seattle Central College.

Cards printed and distributed:

- Phase 1 – 7, 500
- Phase 2 – 25,000 (included Eastside routes)
- Phase 3 – 20,000

Subscriber notifications

At the start of each phase of outreach and as a reminder towards the end of each phase, we sent an email or text message with a description of the project and an invitation to participate to 25,332 subscribers of service alerts for bus routes that serve the project area. Tracking data show that this notification had an open rate of 32 percent and a click rate of 5 percent.

- Phase 1: 54 routes, 25,332 recipients, 32% open rate, 5% click rate
- Phase 2: 54 routes and Link Connections project list, 35,783 recipients, 31% open rate, 9% click rate
- Phase 3: 32 routes and Link Connections project list, 19,501 recipients, 28% open rate, 11% click rate

Sound Transit Rider Panel notification

Notifications went out to 2,055 members of Sound Transit's SoundWaves rider panel during the first weeks of phases 1 and 2. They included information about the project, upcoming meetings, and the survey. In phase 3, Sound Transit's notification directed their riders to their own website for details about their proposed changes and opportunities to give them feedback. (SoundWaves is an online community where riders can get information and share experiences, opinions, and preferences through surveys.)

Community partner email

At the start of each phase of outreach, we sent an email to more than 80 community-based organizations and stakeholder groups in the project area. The email included a description of the project, an invitation to participate, and a request to help spread the word, with attachments that stakeholders could use to let people know about opportunities to participate and/or engage their constituents in providing feedback in their own way. For example, during Phase 1, we provided a fill-in questionnaire and poster encouraging stakeholders to ask the survey questions at an upcoming meeting.

Echo emails to stakeholder lists

Several stakeholder organizations forwarded our initial notification to their lists. Those we are aware of include:

- Seattle Department of Neighborhoods' northeast Seattle edition of News You Can Use
- Commute Trip Reduction-affected employers in the project area
- ORCA Passport customers
- U-PASS holders
- Seattle Children's Hospital employees

- University of Washington Medical Center employees
- Eastlake Community Council's e-news
- Ravenna Community Association's e-news

Mailing

At the start of each phase of outreach, we mailed a cover letter, poster, and take-away cards to key locations such as libraries, schools, senior centers, health and social service organizations, and community centers in the project area.

Feedback methods – how people shared their opinions

Sounding Board and Eastside Community Advisory Group

During Phase 1 of outreach, we recruited community members to serve on the project's Sounding Board, whose purpose was to advise Metro and Sound Transit on the project's service change concepts and proposals as well as on our community outreach process.

We invited stakeholders and members of the public to apply to serve on the Sounding Board, via either online or printed applications. We received more than 140 completed applications and selected 24 applicants who, as a group, reflected the diversity of the population that would be affected by the changes under consideration. In particular, we were seeking people who rode—and were interested in—transit, and were involved in their communities.

Because we the geographic scope of the changes had not been finalized at the start of the process, we selected applicants who travel in and out of northeast Seattle and Capitol Hill on any of the routes identified in tiers 1 through 4 of the [University Link Extension Planning Background Information Report](#) finalized by Metro service planners in January 2015. See Appendix F: Community Advisory Groups for a list of Sounding Board members.

The Sounding Board began meeting in January. At its early meetings, the board provided reflection and feedback on what we heard during the first phase of outreach, the two alternative concepts we took out for public comment in the second phase of outreach, and on our outreach plan.

After developing the alternative concepts we would be taking out for the second phase of outreach, we formed the Eastside Community Advisory Group to complement the Sounding Board. This group was made up of former members of Eastside sounding boards, Transit Advisory Commission members, and Sound Transit Citizen Oversight Committee members, as well as Eastside jurisdictions affected by the concepts. This group met once before the start of Phase 2 outreach to provide feedback on the

concepts we would be taking out. See Appendix F: Community Advisory Groups for a list of advisory group members.)

Members of both advisory groups helped us spread the word about our outreach, attended our outreach events, and listened along with us during the second phase of outreach. Both groups met after the conclusion of Phase 2 to help us interpret the feedback we received and advise us on moving from concepts to a proposal for our third round of outreach.

Since Metro elected to pull back on any Eastside changes for the proposal we shared with the public in May, we did not reconvene the Eastside Community Advisory Group.

The Sounding Board met several times in June to help us reflect on the feedback we received and advise us on what changes should be part of Metro's recommendation to the King County Council. Their process concluded in July, when they came to consensus on their own recommendations regarding the change (see Sounding Board Recommendation, page 33.)

Approach to feedback by phase

During Phase 1, we wanted to have a conversation with members of the public about how they use transit service today—what's working and what isn't—as well as what's most important to them about bus and light rail integration, and what they'd like to see improved. We wanted to listen with an open mind, without preconceived bus change concepts on the table. We felt it was important to create welcoming and open space for sharing and let participants shape the conversation. Using a set of open-ended questions as our guide, we provided online and face-to-face opportunities for people to share their thoughts with us.

During Phase 2, we wanted to hear from people what they liked or were concerned about with each alternative, and how they would use each alternative to get around. We weren't looking for people to pick one alternative or the other, but rather to tell us the features of each that were most important to them.

We used lists of key features of each alternative (informed by feedback from the Sounding Board and Eastside Community Advisory Group) in both the online questionnaire and in face-to-face meetings and asked people to indicate what they liked and what most concerned them about each alternative. We limited the number of things a person could choose to help ensure we were hearing what was most important or most concerning about each alternative.

We broke information up into four areas – North Seattle (including northeast, northwest, and routes serving SR-522); Capitol Hill and Central Area (including Montlake, Madison Valley, and Madison Park); the Eastside (including routes that serve SR-520); and Eastlake and South Lake Union.

Feedback gathering activities

Street teams and information tables

Staff members distributed take-away cards to people at bus stops and information tables during each outreach phase. The following street team and information table events were promoted on Metro’s website and via social media.

Phase 1 street teams and information tables – reached 2,000+

Staff members asked people about how they’re using transit today and what they’d like to see improved.

Date (2014)	Time	Location
Nov. 6	2:30-5:30 p.m.	Bus stops on Campus Parkway and Brooklyn Avenue NE
Nov. 6	2:30-5:30 p.m.	Bus stops on Stevens Way NE (on University of Washington campus)
Nov. 12	3-6 p.m.	Downtown Seattle Transit Tunnel Westlake Station, Bay A
Nov. 13	3-6 p.m.	Fourth Avenue and Pike Street, eastbound bus stop
Nov. 18	7-9 a.m.	Downtown Seattle Transit Tunnel International District Station, Bay A
Nov. 18	10 a.m.-1 p.m.	Seattle Central College information table
Nov. 19	10-1 p.m.	University of Washington Medical Center information table

Phase 2 street teams and information tables – reached 2,000 +

Staff members answered questions about the two alternatives and took notes on people’s reactions, documenting what things people seemed to like and what their concerns they expressed. They encouraged people to go online, study the alternatives, and complete the survey.

Date (2015)	Time	Location
March 12	1 to 3:30 p.m.	Seattle University information table,
March 12	2:30 to 5:30 p.m.	Bus stops on NE Campus Parkway and Brooklyn Avenue NE
March 12	2:30 to 5:30 p.m.	Bus stops on Stevens Way NE (on UW campus)
March 17	3 to 6 p.m.	Intersection of Fourth Avenue and Pike Street
March 17	3 to 6 p.m.	Overlake Transit Center,
March 18	11:30 a.m. to 1 p.m.	Microsoft
March 19	11 a.m. to 2 p.m.	Seattle Central College
March 18	3 to 6 p.m.	Downtown Seattle Transit Tunnel at Westlake Station,

Date (2015)	Time	Location
		Bay A
March 18	7 to 9 a.m.	Downtown Seattle Transit Tunnel at International District Station, Bay A
March 18	7 to 9 a.m.	Kirkland Transit Center
March 19	7 to 9 a.m.	Redmond Transit Center
March 24	10 a.m. to 1 p.m.	University of Washington Medical Center
March 30	11 a.m. to 2 p.m.	University of Washington Husky Union Building,

Phase 3 street teams and information tables – 4,500+

Staff members explained the proposed changes and asked for feedback on how these changes would affect their use of transit.

Date (2015)	Time	Location
May 12	2:30 to 5:30 p.m.	Bus stops on NE Campus Parkway and Brooklyn Avenue NE
May 12	3 to 6 p.m.	Intersection of Fourth Avenue and Pike Street
May 13	2:30 to 5:30 p.m.	Bus stops on Stevens Way NE (on UW campus)
May 13	12 to 2 p.m.	UW Husky Union Building information table
May 16	--	University Street Fair information table
May 17	--	Capitol Hill Farmers Market information table
May 20	11 a.m. to 2 p.m.	Seattle Central College information table
May 26	3 to 6 p.m.	Downtown Seattle Transit Tunnel at University Station, Bay A
May 27	10 a.m. to 1 p.m.	University of Washington Medical Center information table
May 27	7 to 9 a.m.	Downtown Seattle Transit Tunnel at Westlake Station, Bay A

Online surveys

We used online surveys to collect feedback in all three phases of outreach. This was the primary way members of the public shared their input to shape the final proposal. At all face-to-face outreach events, participants were encouraged to go online and complete the online survey.

- Phase 1 – 4,087 completed online surveys
- Phase 2 - 6,484 completed online surveys
- Phase 3 – 1,900 completed online surveys

Public meetings

In Phase 1, a total of 80 people joined us across five public meetings (see details below). We publicized the meetings on our poster and promoted them on our website

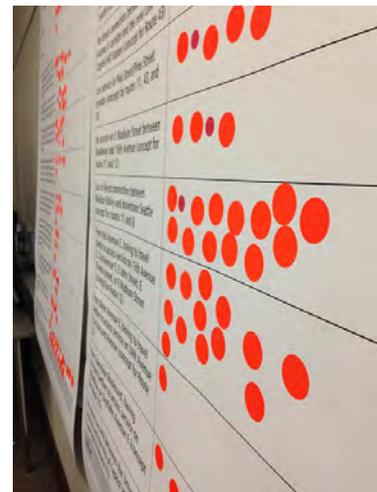

and via social media. Each meeting started with a brief introduction by project staff members. Participants then broke into small groups to discuss a set of questions for an hour or more.

Phase 1 public meetings

Date (2014)	Time	Meeting Location
Nov. 13	6-8 p.m.	Ravenna-Eckstein Community Center
Nov. 17	12-1 p.m.	Seattle University Brown Bag Lunch
Nov. 17	6-8 p.m.	Seattle First Baptist Church
Nov. 20	11:30-1:30 p.m.	University of Washington
Nov. 25	6:30-8:30 p.m.	Lake City Court (Multi-lingual event)

In Phase 2, a total of 100 people joined us across three public meetings (details below), which were publicized on our poster and promoted on our website and via social media.

The meetings were structured as open houses with stations dedicated to each alternative, Link light rail stations and service, Seattle Department of Transportation-related information, and Metro’s Long Range Planning effort. Lists of things to like or things to be concerned about were posted around the room and each participant was given 10 sticky dots to apply to these lists as they wished.

Phase 2 public meetings

Date (2015)	Time	Meeting Location
March 19	6 - 8 p.m.	Seattle University
March 25	6 - 8 p.m.	Bellevue City Hall
March 26	6 - 8 p.m.	University Heights Center

In phase three, a total of 30 people joined us at two Metro-hosted open houses and two Sound Transit-hosted open houses. Stations were set up by geographic area – northeast Seattle, Capitol Hill, and Eastside. Each station had assigned staff members and blank easels for writing down questions, comments, ideas, and concerns.

At the two Metro-hosted meetings, Sound

Transit outreach staff members were available to share information about the Capitol Hill and University of Washington stations, and Seattle Department of Transportation staff members were available to share information and answer questions about things like Seattle’s Proposition 1 investments and transit master plan projects that are (or will be) underway in the project areas.

Phase 3 public meetings

Date (2015)	Time	Location	Host
May 19	6 - 8 p.m.	Kirkland City Hall	Sound Transit
May 20	6 - 8 p.m.	Capitol Hill (Seattle Academy of Arts and Sciences)	Metro
May 26	6 - 8 p.m.	Redmond City Hall	Sound Transit
May 27	6 - 8 p.m.	Northeast Seattle (University Christian Church)	Metro

Stakeholder briefings

Metro and Sound Transit partnered to reach out to key stakeholders. In Phase 1, the goal was to invite them to apply to serve on the Sounding Board. In phases 2 and 3, it was to brief them on the changes being considered and invite them to participate in providing feedback.

In Phase 1, we invited stakeholders to host their own conversation and send us the results (we provided them with a fill-in survey). In phases 2 and 3, we invited all stakeholders to have us attend their meetings, and we proactively sought to brief neighborhood district councils, jurisdictions or groups with jurisdictional representatives, chambers of commerce or business associations, and groups serving seniors or people with disabilities. Not all groups we approached were able to take us up on our offer to brief them. The following tables document the briefings we did during the second two phases.

Phase 2

Date (2015)	Briefing
March 3	Redmond City Council
March 5	Northeast District Council
March 6	Seashore Forum
March 13	Eastside Transportation Partnership
March 17	League of Women Voters Transportation Committee
March 18	Madison Valley Merchants’ Association/East District Council
March 19	Seattle Commission for People with DisAbilities
March 24	Capitol Hill Chamber of Commerce
March 26	North County Mobility Coalition

Phase 3

Date (2015)	Briefing
April 29	Maple Leaf Community Council
May 4	Madison Park Community Council
May 5	SDOT's Madison BRT Madison Capitol Hill/Central Area Segment briefing
May 5	SDOT's Madison BRT Madrona Community Council briefing
May 6	SDOT's Madison BRT Project open house
May 7	Northeast District Council
May 12	SDOT's Madison BRT 12th Avenue Stewards briefing
May 14	Central District Council
May 18	University of Washington Transportation Committee
May 18	Fremont Community Council
May 18	SDOT's Roosevelt High Capacity Transit meeting in South Lake Union
May 19	Transit Advisory Commission
May 19	King County Mobility Coalition
May 19	League of Women Voters Transportation Committee
May 19	SDOT's Roosevelt High Capacity Transit meeting in the University District
May 20	Madison Valley Merchants/East District Community Council
May 28	North County Mobility Coalition
May 28	Chinese Information Service Center (in Mandarin and Cantonese)
June 1	First Hill Improvement Association
June 10	Ballard District Council/Crown Hill Merchants' Association
July 3	Seashore Forum
July 6	Central Area Chamber of Commerce

Phone calls, emails, letters

Phase 1: We received 5 emails, phone calls, and letters. People who were unable to make it to our outreach events provided feedback on what they would like to see improved as a result of this project.

Phase 2: We received 60 emails, phone calls, and letters. People called to ask questions about the two alternative concepts, to request information in print, and/or to provide their feedback on the concepts. All received responses, by email, phone, or mail, to thank them for contacting us, reflect back what we heard, and/or answer their questions.

Phase 3: We received 120 emails, phone calls, and letters. People called to ask questions about the proposed changes, to request information in print, and/or to provide their feedback on the proposal. All received responses, by email, phone, or mail, to thank them for contacting us, reflect back what we heard, and/or answer their questions.

After each phase of outreach ended, we continued to receive phone calls, emails, and letters. Those contacts are not counted in the totals listed in this report, but they are all documented in Appendix D: Emails, Phone Calls, and Letters Received.

Equity and Social Justice

Given the diversity of Metro's bus riding population, our community engagement must ensure that all voices are reflected in the decision-making process. Our data do not indicate that any non-English languages are spoken in high enough numbers in the project area to justify the expense of fully translating all project materials. But after conversations with the University of Washington, Seattle Department of Neighborhoods, and Seattle Housing Authority, we translated some project information into Tier 1 and 2 languages as identified in the King County's Executive Order on Translation. We have established voice message lines and provided a handout that is available online and in print in the following languages:

- Amharic
- Arabic
- Chinese - Mandarin
- Korean
- Oromo
- Punjabi
- Russian
- Somali
- Spanish
- Tigrinyan
- Ukrainian
- Vietnamese

In all of our outreach phases, when emailing stakeholders we emphasized the availability of these materials and phone lines and encouraged them to pass this information along to constituents they serve who are not proficient in English.

During Phase 1, we held a multi-lingual community conversation at Lake City Court, with interpreters in Arabic, Chinese, Oromo, Tigrinyan, Amharic, and Russian available. This event was advertised to residents in all 11 languages. While turnout was low, we gathered good feedback from participants and interpreters about the important issues facing these populations.

During Phase 3, we presented to 50 seniors served by the Sunshine Garden Club at the Chinese Information Service Center (see sign-in sheet in Appendix G: Public Meeting Sign-in and Comment Sheets).

Sounding Board Recommendation

Executive Summary

The extension of Link light rail to Capitol Hill and the University of Washington stations was an opportunity for King County Metro Transit and Sound Transit to redesign transit service not only in the areas near the stations but also for neighboring districts. Metro, in particular, looked to leverage the fast, frequent, and reliable Link service to free resources that would otherwise duplicate that service and apply them to create a more frequent and intelligible network of connecting routes. The Link Connections Sounding Board was tasked to evaluate that redesigned network and its refinements via a six-month process. This report contains the Board's observations and recommendations regarding the proposed restructure.

The Board largely favors changes that create a network of increased frequency and reliability while retaining connections between neighborhoods and commercial centers served by the current network and in some cases creating new connections. Most regular commuters' routes will be unaffected under these revisions and some will benefit from more convenient or more frequent service. The proposed network sometimes requires transfers for trips that were once one-seat rides; the Board feels that the benefits from improved frequency and reliability outweigh the inconvenience of losing some direct routes. However, the trade-off means that facilitating transfers will be of utmost importance; the Board has recommendations for changes to infrastructure and customer information to improve the transfer experience, some of which require partnership with other organizations.

While current riders make the best of the system we have now, there are many who can't or choose not to ride due to infrequent, unreliable buses; there is no place east of I-5 and north of NE 45th St with frequent service. With the current lack of frequency, transit riders make a significant time commitment when they travel other than established commute routes, especially if they have to transfer; it best serves people who can elect to use a car for spontaneous or infrequent trips.

The proposed changes double service along major corridors in Northeast Seattle, including NE 65th St, 25th Ave NE, and 35th Ave NE, increase frequency throughout the project area, and make transferring easier. With this restructure, the Sounding Board expects spontaneous and less common trips to be easier, improving access for transit-dependent populations without diminishing the peak network. Additionally, and importantly, the proposal provides access to the regional transit system without requiring users to go downtown.

The Board acknowledges the work of the planners in the transit agencies and the contributions of the many affected municipalities, employers, community groups, and individuals that brought this proposal forward. It particularly recognizes the extensive effort to inform the public of the opportunity represented by the Link extension and to gather, evaluate, and respond to public input in the final design.

Vision

The Sounding Board strongly supports Metro's efforts to create a more intelligible, frequent transit network in coordination with the opening of Link light rail stations on Capitol Hill and at the University of Washington. We appreciate Metro planners' creative responses to community feedback. Strengthened by Seattle's Proposition 1 funding, Metro's final restructuring proposal delivers more reliability and frequency, enabling more people both to commute and take spontaneous trips without the need of a car. At the same time, we believe it respects existing transit patterns, so that it offers individuals more options without causing unnecessary disruption to their established routines.

King County and the City of Seattle are experiencing rapid population growth, adding more people who need to move around our already congested region. Our roadways are constrained by geography; to keep this region moving, King County wants to encourage people who currently drive to ride transit. Convenient and reliable mass transportation is one way to do that.

An effective transit network must be intelligible, frequent, and reliable. Riders need to be able to see clearly how to get from one point to another, so they feel comfortable using transit for more than their regular commute. Transfers need to make sense and involve minimal wait times; with a frequent system, transfer opportunities expand the realm of destinations. Likewise, riders need to have confidence that buses will arrive as scheduled in order to depend on them to travel to appointments, pick up children from childcare, get to a theater before the curtain goes up, and make myriad other trips that require predictable travel times and reliable service. Our transit system needs to get people where they need to go, when they need to get there, with reasonable speed and reliability.

We believe this restructure is a good step toward achieving the system we need.

We encourage Metro to continue to pursue this course, identifying opportunities for fresh approaches that better serve transit riders.

Public Process

In November 2014, King County Metro Transit and its interagency partners began public outreach regarding transit revisions in response to the extension of Link light rail to Capitol Hill and the station at Husky Stadium. The first phase of outreach used a wide array of notification methods to elicit public comments from multiple audiences, with approximately 6000 responses.

Those responses fed into two alternatives for U-Link transit revisions, which were again presented to the public for comment through multiple means in March, 2015. The Link Connections Sounding Board also evaluated the two alternatives. Metro and others evaluated more than 6,000 responses from the public as well as input from the

Sounding Board to shape a revised alternative. That alternative was offered for public comment in May, 2015. Comments from this additional public outreach further modified the alternative to address outstanding concerns. The result is the proposed ordinance going forward.

North and Northeast Seattle

Though the Metro project area included both Capitol Hill and Northeast Seattle, the northeast easily sees the most dramatic restructure. Where transit in Capitol Hill was already marked by a network of frequent service, Metro is proposing unprecedented service levels for NE Seattle. The changes brought about by the proposed restructure would dramatically reshape transit use patterns in the areas north of the Ship Canal. Connections to the downtown core would become more reliable by having riders transfer to Link to head downtown instead of having passengers ride often-delayed Routes 71, 72, or 73 directly to and from downtown. The service hours now spent traveling downtown would be reallocated to creating a frequent transit grid in places that have never seen more than half-hourly service. Along with consolidating service onto fewer streets, these changes open up a number of new possibilities to run errands, visit the mall, and get to work via bus. We believe that both existing riders and new riders will be excited about the new options the proposal gives them for travel north of the Ship Canal.

Certainly Metro is taking a risk in re-orienting the bus network around the Link station at Husky Stadium. The loss of one-seat rides downtown (such as on Routes 71, 72, and 73) is going to be controversial and acceptance of the transfer to Link at Husky Stadium hinges on making the transfer experience at Montlake as frictionless as possible. In order to realize the full benefits of light rail to the UW, we believe that a number of issues should be addressed. They include things such as improved transit access to the station area and investments in real-time information and wayfinding. There are other small areas where the board feels other mitigating changes are warranted. Overall, we believe the current proposal does a good job of preserving existing transit connections while increasing system intelligibility and frequency.

Montlake Triangle

Until Northgate Link opens in 2021, the focus of the proposed northeast network will be the Link station at Husky Stadium. Correspondingly, the biggest hurdle in attracting people to ride Link is the transit and transfer experience surrounding the Montlake Triangle. As the station is sited far away from the amenities of the main campus, we urge the University and Sound Transit to provide sufficient facilities for waste, so the increased foot traffic doesn't negatively impact the station environment. Since the station is located at the southeast edge of campus rather than central campus; it will be very convenient for riders during events at the stadium and for patients and staff of the medical center, but less so for destinations on the main UW campus. A great many riders using this station will be going to and from campus itself or the bus lines that run through it.

The transfer experience in this part of Northeast Seattle is awkward; congestion on Montlake Boulevard coupled with a lack of bus-only lanes in this area require that riders inbound from the northeast disembark on Stevens Way and walk to the station down Rainier Vista and across the pedestrian overpass. The University will be adding a new set of stops at Mason Road, adjacent to Rainier Vista, but this still leaves a more than five minute walk to the station. We feel that it is important to route buses to stop as close to the station as possible, since the walk to transfer will still eat up time for the thousands of commuters, visitors, and other riders expected to use it each day.

Ideally, Metro would be able to shorten the transfer walking distances by running buses in both directions along Montlake Boulevard in front of the station. While this is practical in the northbound direction, southbound Montlake Boulevard is so heavily congested that Metro cannot depend on it for southbound travel to the station. For this reason, the Sounding Board strongly supports efforts of Metro and interagency partners such as WSDOT, SDOT, and the University of Washington to incorporate a southbound bus-only lane along Montlake Boulevard. As it is now, the traffic configuration prioritizes inefficient single occupancy vehicles above higher-capacity, more space-efficient buses. A move such as this would allow buses to drop passengers much closer to the station, and would shave five minutes off of transfers from these bus routes.

Metro has made other necessary improvements to the triangle transfer area which were within its purview; stops on Pacific St were moved closer to the station, improving access for riders of Routes 48, 271, ST 540, ST 541, and ST 542. A new stop southbound on Montlake Blvd NE between NE Pacific Pl and NE Pacific St will be convenient for riders boarding outbound Routes 44 and 45. A new stop northbound on Montlake Blvd near the station will facilitate transfers to outbound Route 78 and to and from Route 65.

Neighborhoods North of the Ship Canal and East of 20th Ave NE

The neighborhoods in Northeast Seattle such as Ravenna, Wedgwood, Sand Point, and Laurelhurst experience some of the greatest changes of any area under the proposed network. Service levels along most north-south corridors are dramatically improved to 15 minutes or better and new east-west connections to Green Lake, Fremont, and South Lake Union are provided along NE 65th St. Some of these service hours come from deletion of Routes 71 and 25, changes that we know will be controversial. That the changes in this area are so bold is not without reason. Even when Link is extended to Northgate in 2021, transferring onto Link at Husky Stadium to get Downtown or to Capitol Hill will remain an attractive option for riders in many of these neighborhoods. The proposed network reflects this fact though even larger reductions in travel times downtown would be possible if a more direct path south on Montlake Blvd were a reliable option.

Route 65: Frequency improvements on all days of operation effectively double the number of trips on this route. In addition its path of travel near the station at Husky Stadium is revised. Southbound, it travels as now via Pend Oreille Rd and Stevens Way

through UW campus. Then it loops back south via 15th Ave NE and east via NE Pacific St and NE Pacific Pl to stop northbound on Montlake Blvd NE near the station entrance. Its northbound routing continues north from there onto NE 45th Street, Sand Point Way NE, and its current routing. Signage and announcements should make it clear that people who prefer not to walk to the station from Stevens Way and those boarding from the station have a short walk from and to the bus stop.

Route 372: The route will add Saturday and Sunday service as well as later evening service until approximately midnight, seven days a week. This extended service will operate at least every half hour. Weekday morning and midday frequency is improved as well.

Route 78: This route replaces portions of Route 71 in the Wedgwood and View Ridge neighborhoods in response to community feedback. We feel it is unfortunate that it duplicates already frequent service along Sand Point Way between 47th Ave and 65th St, while failing to reconnect the Ravenna and Bryant neighborhoods with the University District. Daily, About 450 riders (20% of ridership) on Route 71 board on the segment along NE 65th St and roughly 25% of riders on southbound trips get off between 65th and 15th Ave and Campus Parkway. However, we appreciate that both Route 78 and revised Route 73 serve Children’s Hospital. It also restores half-hour service to portions of Laurelhurst.

Routes 64/76/74: All of these peak-only routes receive more trips to help offset the loss of one seat rides downtown. In addition, Route 64 is revised to serve South Lake Union and First Hill while bypassing the downtown core. Route 76 receives more trips to make up for the losses from Route 64. NE 65th not only retains its entire peak network, but sees off-peak service doubled via new Route 16. Route 74 also receives more trips in the morning and afternoon.

Neighborhoods East of I-5 and West of 20th Ave NE

The Board believes that the U District, Roosevelt, Maple Leaf, and Northgate neighborhoods are well served by the current proposal. The deletion of Route 72 and the revision of Route 73 are likely to be controversial as they will no longer provide one-seat rides to downtown. But we believe that the transit experience from these neighborhoods to the major destinations of the downtown core, Northgate, and along University Way will in many instances improve. While one-seat ride travel time between NE 65th St and the downtown core is substantially slower via revised Route 16, it is replaced with very frequent (6-8 minute) service to and from the Montlake Triangle. Travel times to the downtown core are unlikely to be significantly reduced due to the station location at Husky Stadium and the transfer time penalty, but reliability should improve substantially particularly for “reverse peak” trips from downtown where buses currently cannot take advantage of the I-5 express lanes. Travel times and reliability to and from Capitol Hill are significantly improved. In addition, east-west connections are improved by adding frequency and a new connection to Roosevelt, Ravenna, and Sand Point along NE 65th St. We strongly support Metro’s proposed changes in these areas.

Route 48/45: The proposal splits the current Route 48 in the U-District at 45th and 15th Ave with overlap down to the Montlake Triangle. The northern portion is renumbered Route 45 and has improved frequency on Sundays from half-hourly to every 15 minutes. The split does require a transfer for riders who want to continue south of the Ship Canal but the Board believes that increased reliability gained by splitting the route better serves the majority of ridership. We also feel that Metro missed an opportunity by removing the proposed through-routing of Route 45 with Route 271. This through-routing would have provided a valuable cross-lake connection to employment centers in on the eastside where many residents of these neighborhoods work.

Route 66: The proposal turns Route 66 into a peak-only route connecting Maple Leaf and Northgate to South Lake Union, Downtown, and First Hill. Potential downsides to this change are crush-loads on the peak-only trips and disconnecting Eastlake and the Denny Triangle from Roosevelt and Maple Leaf. However, there was little negative public comment regarding these revisions during the outreach phase.

Route 67: This route gets 15 minute or better service between Northgate and the Montlake Triangle. In addition the routing is revised from running on 5th Ave NE to running along Roosevelt Way through Maple Leaf before switching over to use University Way south of Ravenna Blvd. The Board concurs with Metro that the new routing is desirable as it connects the retail hearts of each neighborhood. The Board also believes that adding a stop at NE 40th St. and University Way would facilitate transfers to routes a block east at 15th Ave NE.

Route 70: Keeping Route 70 on its current routing provides a good complement to U-Link and ensures that residents of Eastlake have access to grocery stores in the U District while students in the U District still have direct access to residences, jobs, and businesses in Eastlake and South Lake Union.

Route 72: The deletion of this route is offset by the revision to Route 73 from the U District north through Roosevelt and Maple Leaf. However, the current proposal cuts off Maple Leaf from direct service to Lake City. Having Sound Transit Route 522 stop at 80th and Lake City Way could mitigate the disconnection and also provide one seat rides downtown for parts of Maple Leaf at off-peak times.

Routes 73: The new Route 73 routing solves three problems that were brought to Metro's attention during public comment: hills between Roosevelt and 15th Ave NE in Maple Leaf that reduce transit accessibility, lack of service on the Roosevelt and 12th Ave couplet in the U District, and loss of direct service between Pinehurst and neighborhoods to the south. This routing provides a good complement to Route 67 and combines with it to provide very frequent service from UW station to the west side of campus and points north. Direct one-seat rides to downtown via this route would disappear as it would be through-routed with Route 78. The Sounding Board regretted the lack of weekend service on this route pair but failed to reach a consensus as to what solution was favored.

Neighborhoods North of Lake Union and West of I-5

The sounding board wholeheartedly supports the changes Metro is proposing for Wallingford, Green Lake, Fremont, and East Ballard. Changes in these areas are small and are mostly in the form of additional service frequency and span thanks to both Proposition 1 funding and service hours being re-allocated due to Link opening. The route changes proposed in this area are generally responses to rider feedback and supported by public comments in the outreach process. There are only a few route-level comments to make in this area:

Route 16: This route becomes a backbone of frequent all-day travel connecting many neighborhoods north of Lake Union and the Ship Canal with downtown and South Lake Union. It is revised to run along NE 65th St from Green Lake all the way to Sand Point and is taken off Aurora in order to pass through the center of Fremont before continuing along Dexter Ave into South Lake Union and onto the downtown core. Service levels along the new routing are improved to 15 minutes or more every weekday from early morning until 10 pm and from 9 am to 10 pm on weekends.

East-west service along NE 65th St was identified as a priority during the Seattle Transit Master Plan process and strongly supported by feedback from surveys during the outreach phase of Link Connections. There are certainly riders in Wallingford, particularly those who ride from near the QFC, along Meridian Ave N, and in the Tangletown area, who will experience longer trips to downtown by an estimated 7 to 10 minutes. For others along the route, fast alternatives are provided by Route 26X or the E line. This routing is likely to reduce reliability due to Fremont bridge openings during off-peak hours and weekends. Despite these drawbacks, the sounding board believes that the revised Route 16 is a good idea in its current form.

Route 26/26X: This route is extended northwards from its current terminus at Ravenna Blvd and Green Lake Way along the current Route 16 path north to North Seattle College and then directly to the Northgate Transit Center via N 92nd St and First Ave NE rather than north to Northgate Way and east to 5th Ave NE. Also, the route will follow its express routing along Aurora and onto N 40th St in Wallingford. These changes are necessary due to revisions to Route 16. The Board believes that while a few folks will be inconvenienced, the faster travel times to the transit hubs at Northgate and Downtown will draw ridership and improve reliability issues caused by the Fremont bridge.

Route 28X/28: Shifting this route onto Aurora (its current express path) is a response to rider feedback and while it does bypass the heart of Fremont, the revised routing along NW 39th St leaves less than ¼ of a mile walk to reach downtown Fremont. Reliability is improved by avoiding the Fremont Bridge.

Capitol Hill

The two primary areas slated for restructuring - NE Seattle and Capitol Hill - differ in fundamental ways. While the proposed restructure in NE Seattle is a radical structural change - leveraging Sound Transit's investment to provide unprecedented frequency and network legibility - the Capitol Hill restructure mostly represents a difference of degree rather than kind. It is a delicate compromise that reduces redundancy and increases frequency while also retaining more of the legacy network in response to public feedback.

The Sounding Board acknowledges and appreciates the difficulty of responding adequately to mixed and often conflicting public feedback, and we support the current proposal as the best compromise that can be achieved for this restructure. The proposed network preserves current endpoints for most routes while changing their intermediate pathways, increasing access to Capitol Hill Station while preserving one-seat rides for key constituencies.

Route 8¹: PM peak congestion on Denny Way significantly degrades basic mobility for Route 8 riders on a daily basis, even in far away neighborhoods such as Judkins Park and Rainier Beach. Though a major rethinking of the Denny corridor is the only hope for transit reliability, the Sounding Board strongly supports the proposal to split Route 8 at Mount Baker TC and use Proposition 1 funds to increase layover time. If significant improvements to Denny can be achieved, we support the original proposal for a frequent crosstown route serving Lower Queen Anne, Capitol Hill, and Madison Park.

Routes 9/60: Though the Sounding Board also recognizes the necessarily limited scope of any restructure, we are disappointed that Routes 9 and 60 were not included in this proposal. We believe that the resulting partial restructure unnecessarily duplicates service hours between the Rainier Valley, Beacon Hill, and Capitol Hill, and also between Capitol Hill Station and Downtown Seattle. As an alternative, we are supportive of the Seattle Transit Master Plan's vision to reinvest these service hours in a new crosstown trolley route serving the U District, Capitol Hill, Beacon Hill, and Othello, with a shift from Broadway to 12th Avenue as capital funding allows for new trolley wire to be installed.

Routes 11/43¹: The proposal reroutes Route 11 to Capitol Hill Station via the Route 43 pathway, and deletes Route 43. The Sounding Board appreciates the boldness and network legibility of the original proposal for a crosstown Route 8 between Uptown, South Lake Union, Capitol Hill, and Madison Park, but given the intractable unreliability of Denny Way and the negative feedback received from Madison Park residents, we understand and support Metro's revision to the current proposal. This proposal represents the best compromise, providing Madison Park access to Link, preserving the

¹ At the time of the Sounding Board's writing of this report, Metro was considering a different option for Routes 8 and 11 than is in the final recommendation.

highest ridership portion of Route 43 on Thomas/John/Olive, and preserving a one-seat ride to Downtown for current Route 11 riders in Madison Valley and Madison Park.

Though most former Route 43 riders will enjoy enhanced connections, riders along 24th Ave E are likely to be moderately inconvenienced. Backtracking to UW Station, even when faster, will be both unintuitive and susceptible to Montlake congestion. For these riders, improving the reliability and passenger experience of transfers is the key to making this network concept function. We are particularly concerned about transfers between Routes 8, 11, and 48 at the intersection of 23rd Ave E and E John. We urge Metro to frequently assess the performance and reliability of these routes in the year following U-Link opening, and we urge Metro to work with SDOT to leverage planned investments in the corridor to add pedestrian-activated signals, curb ramps, lighting, wayfinding signage, and any other amenities that would improve the passenger experience.

The Sounding Board acknowledges the loss of service on Madison between 19th and 24th. Though inconsistent with both Madison BRT and with intelligible Madison corridor service, we feel it is an acceptable tradeoff to achieve other needed network improvements. Current Route 11 riders who board between 20th and 24th will have short walks to 19th Avenue (Route 12), E Thomas St (Route 11), or E Union St (Route 2), none of which exceed ¼ mile.

Given the common pathway that will be shared on Route 8 and Route 11 between MLK/Madison and Olive/Summit, the Sounding Board strongly recommends scheduling these routes for even 15-minute headways along their shared corridor on evenings and weekends.

Route 12: Though the Sounding Board generally supported the previous concept to delete Route 12 on 19th Avenue and shift Route 49 to Madison Street, we support the current proposal to leave Route 12 unchanged. Though the 19th Avenue tail chronically underperforms, we acknowledge its legacy value for Capitol Hill residents, and we also acknowledge that retaining the current Route 12 allows Madison to retain frequent service, allows Route 11 to connect to Capitol Hill Station, retains trolley service on Madison in the expectation of eventual BRT, and adequately mitigates the loss of Route 43.

Route 25: The Sounding Board supports the deletion of this route. One of us, a regular Route 25 rider, acknowledged that it is one of the most underused routes in the system. Current riders along Fuhrman and Boyer will be required to go to 24th Ave E, Eastlake Ave E, or Harvard Ave E to reach the U District and to Eastlake or Harvard to reach the downtown core. With a short walk, restored Route 47 will serve riders near Lakeview/Belmont. Users along the Laurelhurst loop, an admittedly small number, will be required to walk to the new Route 78 or to Sand Point Way NE, but will also enjoy double the frequency. Also, like most others in Northeast Seattle, riders to and from Laurelhurst must transfer at UW Station to continue to the downtown core.

Route 49: The Sounding Board supports retention of Route 49 between the U District, North Broadway, and Capitol Hill Station. However, we feel that continued Route 49 service to Pike/Pike is excessive given the retention of Route 10 along its current pathway. We acknowledge that Metro received comments about both overserving and underserving Pike/Pine, but we feel that 7.5 minute combined evening frequencies between Downtown and Broadway/Pine are excessive, especially given inadequate 30 minute evening and weekend frequency on Route 8. We urge Metro to look at reinvesting service hours from Routes 9, 49, and 60 in order to boost evening and weekend service on Route 8 to frequent levels.

Other Areas

Other areas are impacted to some degree by changes more directly related to Northeast Seattle and Capitol Hill. The areas west of I-5 are discussed above. Except as noted, the Board endorses these changes.

Eastside: Sound Transit will create new Route 541 for 12 to 15 weekday peak trips between Overlake and Campus Parkway in the University District. Some Route 545 trips will be converted to Route 542 weekday peak trips which will operate between Bear Creek P&R and the University area. Route 540 will have revised routing via Houghton P&R and I-405 for faster trips, alternating with Metro Route 277. As mentioned elsewhere, some stops in the Montlake Triangle will be moved to be closer to the U-Link station at Husky Stadium.

South Lake Union: The more-frequent Route 16 will operate on Dexter, closer to employment locations in South Lake Union. Revised routing of routes 26 and 28 on Aurora Avenue moves them further from those locations along with their through-route partners routes 131 and 132, but reliability of these pairs should improve by avoiding the Fremont Bridge. Route 64 will change to serve Fairview Ave N in South Lake Union and Route 66 will become a peak-only route also revised to serve South Lake Union. In addition, Route 70 will begin later operations weekday and Saturday evenings and gain all-day service on Sundays. Route 8 will have added midday weekday trips and may experience greater reliability from having been split from its southern portion (new Route 38.) Absent infrastructure changes to further improve reliability (discussed elsewhere), Route 8 could benefit from further frequency additions, especially in the evenings.

Southeast Seattle: This area benefits most from the revisions to routes 8 and 48. The southern portions of these routes should see reliability improvements by being split from their northern portions. For Route 8, the split is at Mount Baker, with Route 38 covering the southern portion. For Route 48, the split is in the University area, with the northern portion renumbered Route 45. Route 48 also sees greater frequency in the mornings and middays, seven days a week. Both splits require a transfer for certain riders: those continuing past Mount Baker (8 and 38) and the U District (45 and 48.)

Overall recommendations

As we've noted above, many routes in this proposal are hindered by infrastructure challenges. Additionally, there are some areas where we believe the system might run more effectively with changes in the distribution of service hours. With such a large restructuring, we also recognize the importance of evaluating its efficacy and maintaining the flexibility to adjust service as needed.

Infrastructure

Metro cannot solve infrastructure issues alone. We urge Metro and its partner agencies and institutions, including Sound Transit, SDOT, WSDOT, Seattle Police Department, and the University of Washington to work together to reconfigure roads, reposition transit stops, and address the other issues that prevent the network from performing as effectively as it could.

In particular, we recommend the following infrastructure improvements:

Wayfinding and Real-Time Transit Information: As described previously, the Montlake Triangle will become a critical transit hub as riders transfer to and from the light rail station at Husky Stadium. Because there are four separate outbound bus stops for different routes on or opposite the triangle itself, and more on Stevens Way, extensive wayfinding signage is needed throughout the area. This should consist of real-time bus arrival displays at the station and each of these stops to provide a comprehensive view of stop locations, arrival times, and destinations for each bus and train. Essentially, Montlake Triangle should be treated as a single, multi-bay transit center, with area and Sound Transit station maps replicated at each bus stop in the Montlake Triangle. Additional wayfinding signage should direct people to the pedestrian overpass as a means to avoid street-level intersections. During the first few weeks after the restructure, Metro and Sound Transit should provide even more extensive guidance to help riders navigate the system.

Though transfers at the Capitol Hill station are closer together, wayfinding signage and real-time transit information will also be crucial there. Additionally, wayfinding and real-time transit information should be provided at other busy or confusing transfer points, such as 23rd & John, University Way, and Campus Parkway.

We also encourage Metro to emphasize Link stations on headsigns for all routes either terminating at or passing through a Link station (e.g. "UW Link Station, via Green Lake" for Route 45, and "Madison Park, via Capitol Hill Station" for Route 11). This is especially important for Route 48, as traveling north to the UW station to catch a train south to downtown is counterintuitive.

Montlake Blvd Southbound Transit Lanes: Because buses cannot travel reliably on southbound Montlake, routes have been designed to go through the UW campus, which creates longer walking paths for transfers to the light rail station and can cause confusion. While serving the UW campus will continue to be a priority, a southbound

bus-only lane on Montlake Blvd would make direct, more intuitive routing possible where appropriate.

Denny Way Reconfiguration: Congestion on Denny Way makes Route 8 notoriously unreliable. Increasing frequency on Route 8 will not be truly effective until the bus is able to travel Denny Way at predictable speeds. We understand that Metro and SDOT are currently studying possible remedies for Denny Way, and we encourage them to find a solution as soon as possible. In the meantime, we'd welcome incremental improvements to help ease the painful situation for Route 8 riders.

Enforcement: SDOT has been adding bus-only lanes to city streets in a laudable effort to provide priority to transit. However, not all drivers honor the posted restrictions. SPD, partnering with SDOT and Metro, needs to enforce bus-only lanes throughout the city.

Sound Transit Route 522 stop on Lake City Way: The deletion of Route 72 in the current proposal disconnects the Roosevelt area from Lake City and removes a reasonably fast one-seat ride downtown. Adding a stop for ST Route 522 on Lake City Way between 15th Ave NE and NE 80th Street could mitigate both shortcomings at minimal expense. The Sounding Board strongly urges Sound Transit to add this stop.

Metro Route 67 stop at NE 40th Street & NE University Way NE: Adding a stop at NE 40th Street & NE University Way NE would facilitate transfer to east-west buses to and from campus and north-south routes on 15th NE.

Distribution of service hours

Generally, we are pleased with the way the service hours have been distributed. Greater frequency throughout the system should make it more accessible to more people. Additionally, the greater frequency in evening and weekend service on many routes will provide more flexibility to people who are choosing whether to drive or take transit to evening and weekend activities. However, there are a few areas we believe service hours could be redistributed more effectively:

Shifting Hours from Route 49 to Route 8: Route 8 should have more frequency on evenings and weekends. Meanwhile, Route 49 provides frequent service that largely duplicates the light rail service, as it runs from Pike/Pine to Broadway to the U District. We believe it would be appropriate to shift some service hours from Route 49 to Route 8.

Redundant Service on Pike/Pine: Currently, many riders rely on buses on Pike and Pine to travel from Capitol Hill to Downtown. With the new light rail station on Capitol Hill, most of those riders will find it more convenient to take the train. The Sounding Board believes the proposal provides excessive service on Pike/Pine, and encourages Metro to monitor those routes for opportunities to shift service hours to other corridors.

Evaluating the Restructure

We are glad that Metro recognized the opportunity afforded by the University Link light rail extension to re-envision service in Northeast Seattle and Capitol Hill. The high-capacity, fast connection to downtown allows more efficient transfer opportunities and frees up service hours to benefit other corridors. The resulting system, as proposed, is by far more logical and more useful than our current system.

Metro's proposal includes bold and significant changes to the network. While we believe Metro's planners have carefully considered the impacts of these changes, it's impossible to predict exactly what will happen. Additionally, riders will need some time to adapt, and their eventual traffic patterns may not be immediately apparent. Therefore, we encourage Metro to closely monitor ridership levels throughout the system periodically over the next few years.

Though Metro regularly monitors operations and ridership after its service revisions, a large system change warrants more comprehensive evaluation. King County should devote resources to assessment, including surveys designed to capture the ridership behavior of the same individuals before and after the changes. Given the scope of the changes, Metro will need to be prepared to adjust service levels as warranted, especially in areas of overcrowding. Immediately after implementation, if there are capacity issues with Link light rail trains during non-peak times, Metro and Sound Transit should add train capacity or provide additional bus capacity to meet this demand. Additionally, Metro should perform a more thorough administrative review of the changes in this proposal one year after they're implemented, when ridership data should be clearer.

Sounding Board Process

This project generated a lot of impassioned feedback from community members and stakeholders, and it was the Sounding Board's job to help prioritize this feedback. We deliberated over the possible negative impacts of the new system, but on balance feel that the new structure will positively impact the great majority of riders. Though some neighborhoods were unhappy with the last public proposal, we tried to balance their concerns against those who didn't speak out, and advocate for a fair and useful system. Unfortunately, this does not mean that every person served by the network is better off, but it does mean that the new allocation of resources creates a better system for the great majority of users. Indeed, though one of our Sounding Board members is a regular rider of Route 25, proposed for deletion, she still acknowledges that the resources given to that route are under-utilized, and are better-used to bolster areas with more demand.

In fact, setting aside certain necessary investments outside the scope of this particular transit plan, the biggest criticism we can levy against the restructuring process is that it took such a huge event to trigger it. Our project area was limited to Northeast Seattle, Capitol Hill, and certain adjacent areas, but we had no difficulty thinking of areas across the city and the county that would benefit from such a process. The difficulty of a transit

system that stretches as far back as ours does is that it was amended and appended bit by bit as different needs arose, but infrequently with the opportunity to redesign the system as a whole. During this process, the planners at Metro were given free rein to redesign the network from scratch, and as a result, the product reflects current needs rather than past patterns. We would encourage Metro to apply similar methods to restructures of this scope to expand the area accessible by frequent transit.

Public Feedback Summaries by Phase

Phase 1

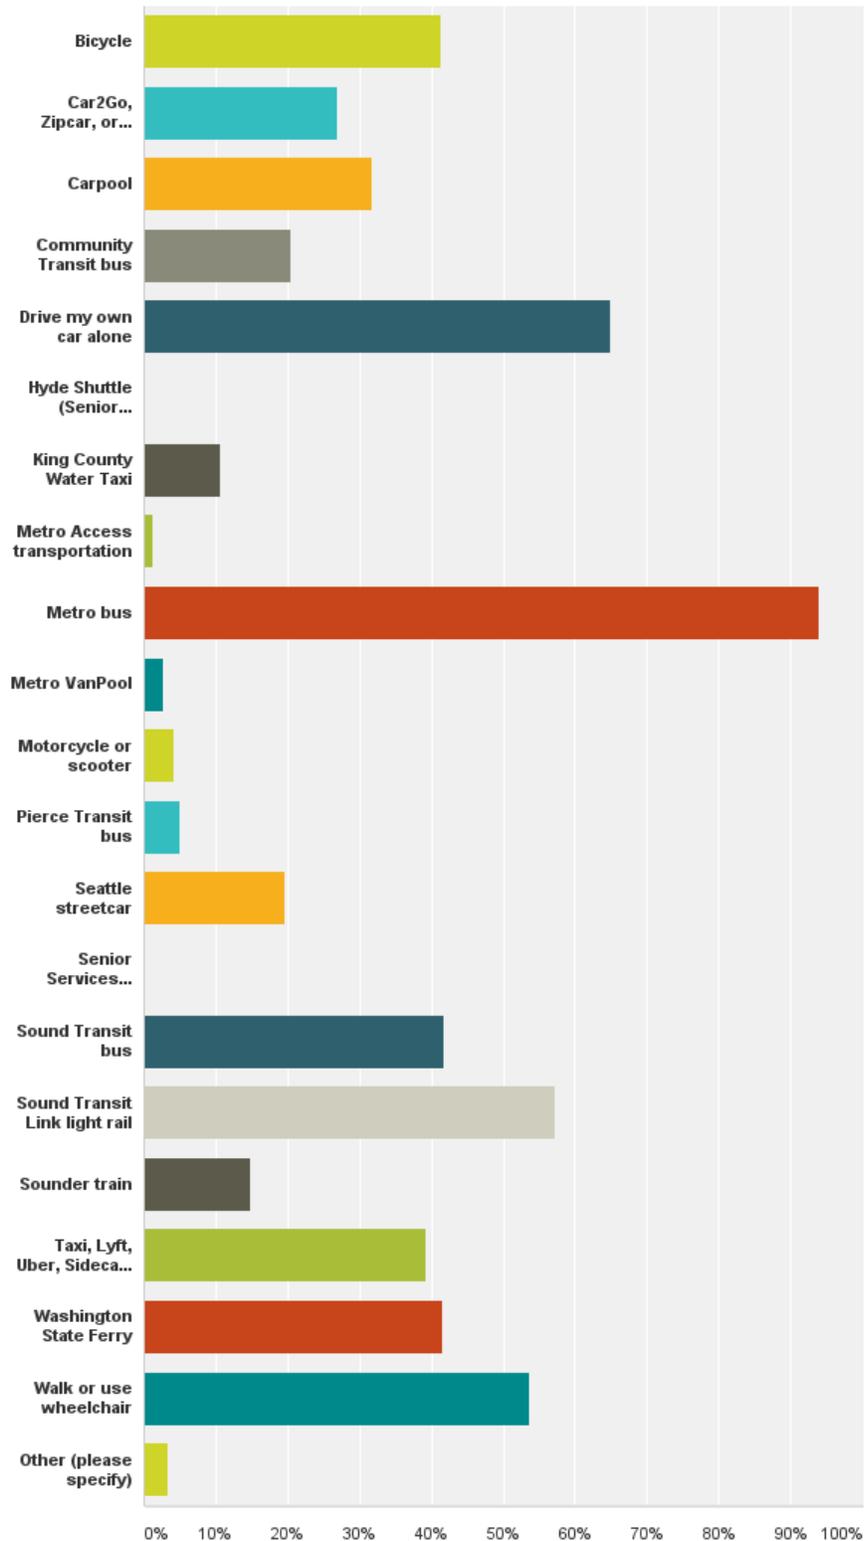

Who we heard from

At the end of the comment period, we had heard from about 6,000 people through our online survey, community conversations, street team events, information tables, phone lines, and email.

Participants told us they use many modes to get around, as reflected in the chart below. Those who choose transit over driving do so for many reasons. For example, one respondent to our survey lives in a dense urban environment (Capitol Hill), has little to no parking available for a personal vehicle, has close proximity to groceries and amenities, and is centrally located to reach work downtown. Most respondents said they use transit to commute to work and school. Many said they would prefer to use transit more for other trip purposes if the service was more reliable, frequent, and available at night and on weekends.

Q1 What types of transportation do you use now, or have you used in the past? (select all that apply)

Answered: 4,082 Skipped: 5

King County Metro Transit

Participants said they use the following bus routes to travel from many points outside the project area to many points within it, as well as to travel within the project area. The chart below shows a response count by route, from most- to least-chosen.

If you ride the bus, or have in the past, please indicate which of the following route(s) you use or have used.

What we heard

Question: Where do you go, or where would you like to go, using transit?

We're mapping specific destinations and neighborhoods noted in people's answers to this open-ended question in a Google map (<http://bit.ly/1BA6wgu>). Coding these responses is resource intensive, so as of this report's publication date the map shows only about half of the survey responses. It includes destinations people told us were significant (such as cultural, religious, low-income, senior, and social-service locations or parks), and should be included in the analysis of service needs. It also includes destinations or corridors identified as needing service in the evening, late at night, early in the morning, or on weekends. A legend for the symbols found on the map follows:

- Green Star = more than 100 mentions
- Blue Diamond = 50-100 mentions
- Gold Square = 15-50 mentions
- Red Circle = 1-15 mentions

When viewing the map, click on a symbol to learn more about the characteristics of each destination (e.g. whether it was indicated as a destination of cultural significance, or specific businesses or cross streets that were bunched together into one symbol).

Some key themes that came up consistently in answers to this question were:

- People come from around the Puget Sound area to the University of Washington. We heard from people in Pierce and Snohomish counties as well as the far reaches of King County who make this trek daily using—and transferring between—several different modes of transportation. As it becomes less affordable for students and staff members to live in the University District and surrounding neighborhoods, many are commuting from the south part of King County and Pierce County to work and go to school. We heard concerns that the more transfers we impose on those coming from these areas, the more burden we are putting on low-income populations, who suffer disproportionate impacts of unpredictable service and long travel times.
- People would like to see better east-west service, including service between the following locations:
 - Lake City and Northgate
 - Sand Point and Greenlake via 65th Avenue NE
 - Northeast Seattle and Ballard through the heart of “The Ave” (University Way NE) instead of through the south or north end
 - Northeast Seattle and Queen Anne
 - Northeast Seattle and Fremont
 - Capitol Hill and Ballard
 - Capitol Hill and Fremont
 - Capitol Hill and West Seattle

- People offered ideas for frequent and reliable service down 25th Avenue NE to connect with Link light rail.
- Many people are excited about Link connecting them to Capitol Hill, downtown Seattle, Rainier Valley, and Sea-Tac Airport.
- Areas and travel patterns that people don't want planners to lose sight of include...
 - North Capitol Hill and Montlake communities to/from downtown Seattle and the University District
 - Coming from the south (southeast Seattle and Beacon Hill) to the south part of Capitol Hill, Yesler Terrace, and First Hill hospitals (Harborview, Swedish on First Hill and Cherry Hill, Virginia Mason, and the Polyclinic on Madison Street)
 - Eastlake community to/from downtown Seattle and University District/northeast Seattle
 - Madison Valley to/from downtown Seattle and the University District
 - Other north-south corridors of Capitol Hill—Bellevue/Summit/Belmont, 15th Avenue and 19th Avenue on Capitol Hill
 - Various northeast neighborhoods like Wedgewood, View Ridge, and Laurelhurst connecting to the University District
- Some expressed a desire for better service to the Sand Point corridor connecting riders to Magnuson Park, NOAA, and Children's Hospital.

Question: How do the transit options you use work for you? Do they get you where you want to go?

A majority of those who responded to this question said their current transit options do work for them. The top three complaints expressed about current service were that it takes too long, buses are overcrowded, and the schedule is unreliable. Because of these experiences, a number of people said they prefer direct routes because transfers increase travel time.

People expressed a desire for increased service frequency, especially outside peak times. They also want improved network connectivity, east-west connectivity, and diagonal/cross-town connections in Seattle. There is excitement and a belief that the coming light rail service will improve transit overall in the affected communities and beyond.

Some people really like their current routes and don't want them changed. These include riders of routes 68, 74, 75, and 271.

Others miss routes that have been cut, including routes 45, 46, and 48X, because of the faster service they provided to connect Queen Anne, Ballard, Greenwood, southeast Seattle, and the Central Area with the University of Washington. People in the Leschi, Central Area, and Yesler communities would like the all-day, evening, and weekend service that was lost when Route 27 was scaled back to peak-only service last September to be restored. Riders in the Summit/Belmont area of Capitol Hill expressed desire for a return of Route 47, which connected them to downtown all day and at night.

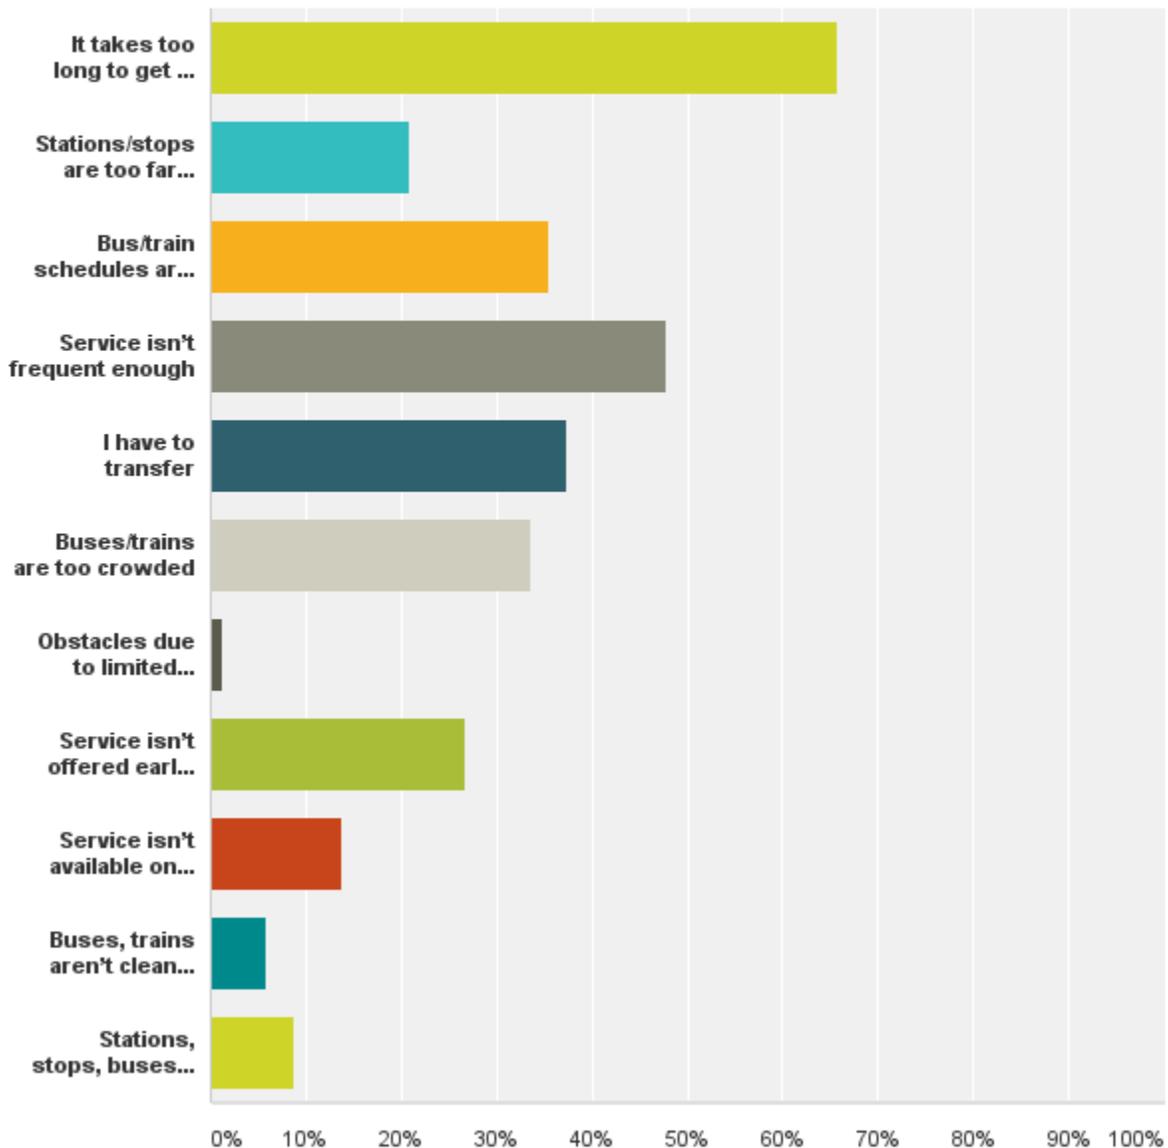

Question: What's most important to you when riding transit?

We asked what prevents people from using transit, what would make them use transit more, and what's most important to them about using transit. The length of time the trip takes and the reliability of the trip time were clearly the most important concerns. The more people have to transfer, the less reliable they perceive their trips to be, especially if service is not frequent. We heard countless stories from people about their transfer experiences. If one leg of a trip runs late and a rider misses a connecting trip, and it's a half-hour wait for the next trip, transit can become too unpredictable and inconvenient. If service were more frequent and reliable, people told us, they would find transfers more acceptable.

Feedback from immigrant communities suggests that many immigrants are used to relying on a service network that is less complex and comes more frequently. Several people talked about how in their native countries, they never used any "system" to plan a trip. They could walk to a bus stop, wait no longer than 15 minutes, and make connections to other modes and services at major transfer points throughout their cities. They would find our bus service easier if it operated in more of a grid and service were frequent enough to not require the use of a schedule. The service would also be easier to use if wayfinding signs were in multiple languages, particularly at major inter-modal transfer points and where people need to know how to get to a key activity center.

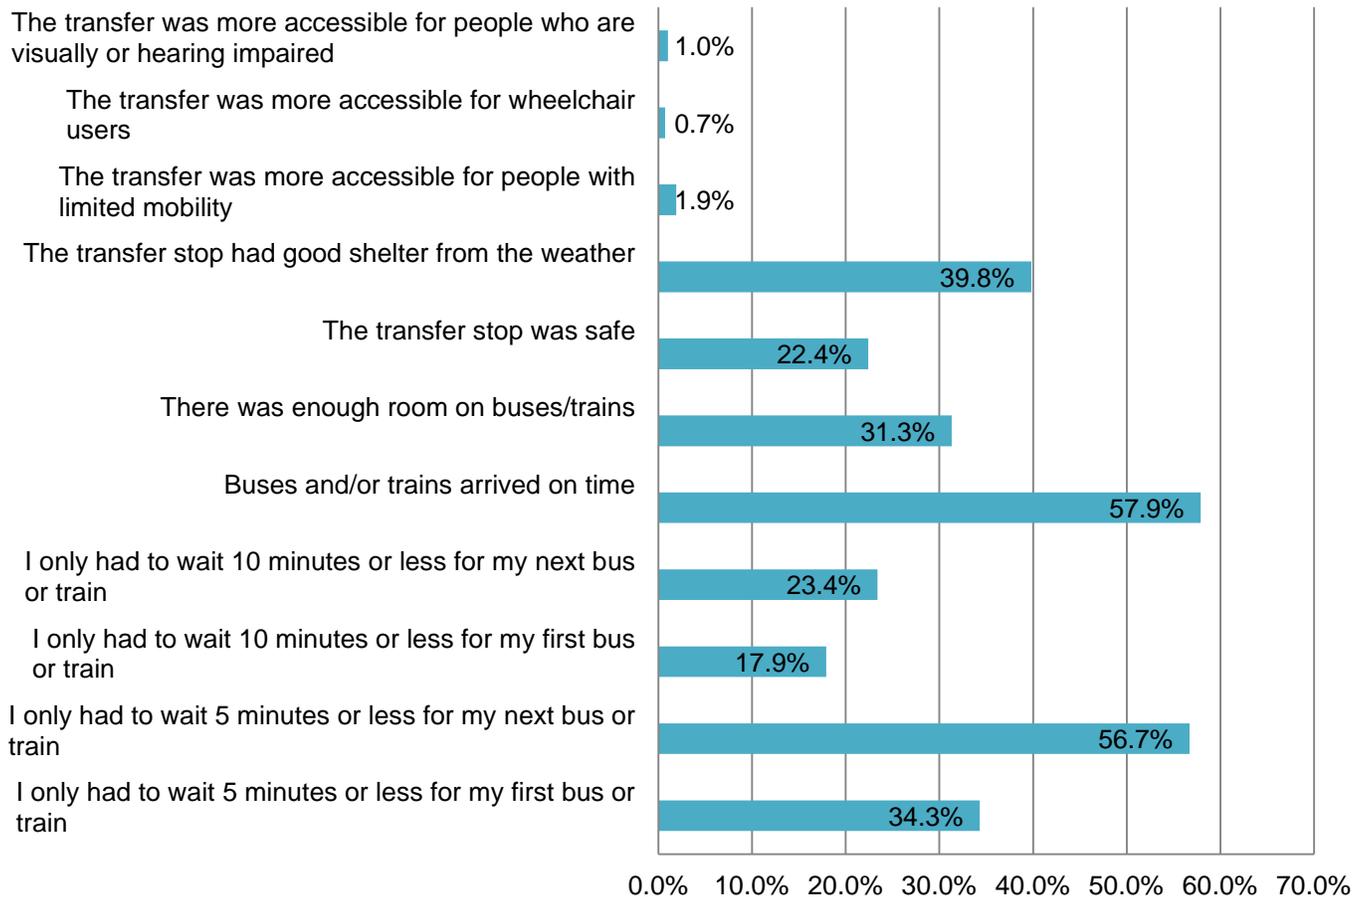

Q6 What are the top three things that prevent you from using public transportation, or make it difficult for you to use it? (choose up to 3)

Answered: 3,751 Skipped: 336

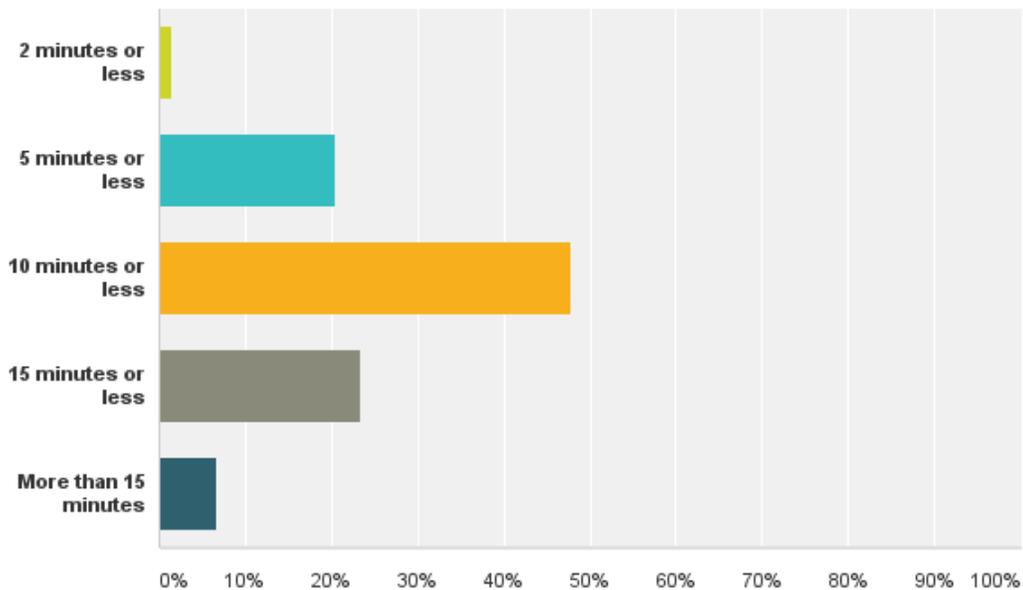

The next chart shows survey responses about which factors would make the person more willing to transfer. The chart after that shows how many minutes respondents said they would be willing to spend getting to very-frequent (i.e., every 10 minutes or less) service. This second chart also reflects what we heard from people in face-to-face conversations.

**A more-efficient network of service that connects more people to more places may require more transfers. What would make transfers more acceptable to you?
I would be willing to transfer if (choose up to 3):**

Q10 How many minutes would you be willing to spend getting to transit (walking, biking, or some other mode) that offered very frequent transit service (i.e., service that comes every 10 minutes or less)?

Answered: 3,783 Skipped: 304

Other

Many respondents understood the connection between reliable and fast bus service and bus priority investments. Where people advocated for more-frequent service on major corridors, they also advocated for bus priority transit investments, such as transit-only lanes and transit signal priority improvements.

Phase Two

Who we heard from

At the end of the comment period, we had heard from more than 8,000 people through our online survey, public meetings, street team events, information tables, phone lines, and email.

Participants live all over the Puget Sound region, with South King County (including all areas south of the project area, such as southeast Seattle and West Seattle) at the top of the list.

Question: What city or neighborhood do you live in?

City or Neighborhood	Count	Percentage
South King County	830	13%
Central Capitol Hill	703	11%
Northwest King County	555	9%
North Capitol Hill	280	4%
Central District	271	4%

A majority (57 percent) of survey respondents said they ride the bus five or more times per week.

Q5 How often do you ride transit?

Answered: 5,752 Skipped: 732

What we heard

In general

Not surprisingly, we heard enthusiasm for increased frequency and a desire not to give up other rider amenities (coverage, one-seat rides, etc.) to get it. Most people were able to imagine using service more and connecting to new places with some of the new concepts and increased frequencies offered in Alternative 1. Some failed to see how they would benefit from a connection to Link light rail, for one or more of the following reasons.

- They think connection should wait until light rail is extended farther to the University District, Roosevelt, and Northgate.
- They don't live near one of the new Link light rail stations.
- They have shaped their lives around the current bus service that is available to them, and it's hard for them to imagine how it could be better.

Some expressed confusion about the passage of Seattle's transportation Proposition 1 last November, saying they thought its passage meant that their bus service would, in their words, "be saved." Both alternatives showed some amount of change, including

deletion of routes. They felt they had been misled into believing their bus service would remain the same if Proposition 1 passed.

Given that both alternatives would require some amount of transferring to Link light rail, people wanted more detail about those transfer environments. They wondered where their buses would drop them off and how easy it would be to reach the light rail stations. (During outreach Phase 2 we developed a map showing the Montlake Triangle, stop locations, and which buses would serve those stops in Alternative 1.)

There was skepticism that a single, high-frequency route on some corridors would even be possible, given the roadways they would be operating on. Denny Way and southbound Montlake Boulevard NE were the two pathways people were most concerned about. They felt that in order for Alternative 1 to be successful, there would have to be more bus priority treatments on these roads.

We also heard confusion from participants about why neither alternative seemed to be in line with the City of Seattle's Madison Bus Rapid Transit Project and the Roosevelt to Downtown High Capacity Transit Project. We were encouraged to present a proposal that better integrates the various agencies' efforts in these neighborhoods.

North Seattle concepts

Key themes expressed via all outreach activities include:

- Enthusiasm for concept of a revised Route 16 that would provide an all-day connection between Sand Point, Wedgwood, Roosevelt, Green Lake, Wallingford, Fremont, and downtown Seattle.
- Strong preference for frequent, all-day service connecting the UW Link light rail station, University Village, and Seattle Children's Hospital. And, a request that this type of service be extended all the way up to Magnuson Park.
- Desire for improved connections between northeast Seattle neighborhoods and South Lake Union.
- Retention of direct service from Roosevelt and NE 45th Street to Eastlake, South Lake Union, and downtown Seattle – especially for UW Medicine and Seattle Children's patients and employees traveling to facilities in South Lake Union.
- Concern from View Ridge and Windermere residents (Route 71 riders) who, during the midday, would have to travel farther to access frequent north-south service to downtown or have to transfer twice from two buses to Link light rail to get downtown if they were unwilling or able to get to frequent north-south service.
- Desire to keep service on the Roosevelt Way NE and 11th Avenue NE couplet to take advantage of bus priority improvements the City of Seattle is making there and the dense housing being constructed along this corridor that is designed to encourage use of transit.
- Concern from Pinehurst and Maple Leaf communities about having to travel farther to access all-day transit on Roosevelt Way NE – for some in areas where there are no sidewalks.

- Desire from Jackson Park residents to keep a direct connection to the University District.
- Strong preference to maintain current peak services providing connections between northeast Seattle neighborhoods and downtown Seattle.
- Interest from the Laurelhurst community in having a frequent shuttle service through their community to connect riders to Link light rail at the University of Washington’s Husky Stadium.

We received two formal letters during this outreach period from the Seattle Parks Foundation Board and Seattle Children’s Hospital. The Parks Foundation strongly supports a revised Route 16 that would provide great connections to two major parks. Seattle Children’s Hospital strongly supports increased service at all times of day to their location to serve their diverse employee base and patients coming to the hospital from throughout the region. Seattle Children’s had a strong preference for the concept to extend Route 255 past the light rail station to the hospital providing a long-overdue and much needed direct connection for Eastside employees and patients to the hospital.

Sixty-eight percent (3,804) of all survey respondents said they would like to give us feedback on concepts for north Seattle. We asked survey respondents to tell us what they liked and what concerned them most about alternatives 1 and 2. We provided a list of elements and a space for respondents to add other issues we did not list. The following charts show the results for both alternatives, including coded responses to “other (please specify).”

Question: What do you like most about Alternative 1 in north Seattle?

Response	Count
In general, the frequency of service in this network concept	1541
Frequent, all-day service between the new University of Washington Link station, University Village, and Seattle Children’s Hospital (concept for Routes 65, 75, and 255)	1075
Improved frequency between the University District and northeast Seattle neighborhoods, including Wedgwood, Ravenna, Maple Leaf, Lake City, and Sand Point (concepts for route 65, 67, 75, and 372X)	920
Faster, more reliable travel times between Capitol Hill and NE Seattle	860
New direct connection between Ballard, Greenwood, Green Lake, the new University of Washington Station, and the Eastside (concept for through-routing routes 45 and 271)	856
New, frequent, direct connection between Sand Point, Wedgwood, Ravenna, Roosevelt, Green Lake, and Wallingford (concept for Route 16)	811
Keeping peak service between northeast Seattle neighborhoods and downtown Seattle (concept for routes 73, 74, 76, 77, and 312)	663

Response	Count
Frequent, all-day service between Northgate, Maple Leaf, Roosevelt, the University District, and the new University of Washington Link station (concept for Route 67)	618
Frequent, all-day service between the new University of Washington Station and University Way/The Ave (concept for routes 45, 48, 67, and 271)	593
Frequent, all-day service between the Eastside and Seattle Children’s Hospital (concept for Route 255)	552
Faster connection between east Green Lake, Wallingford, and downtown Seattle (concept for Route 26X)	523
New weekend service between Lake City, Ravenna, and the University District (concept for Route 372X)	401
New connection between Wallingford and Fremont (concept for Route 16)	362
New, direct peak-period connection between South Lake Union and northeast Seattle neighborhoods (concept for routes 64X and 66X)	358
Frequent, all-day service between the University District, Overlake, downtown Redmond, and Bear Creek Park and Ride (concept for Route 542)	347
Nothing	259
More direct service between Green Lake and Northgate (concept for Route 16)	258
Everything	257
Keeping peak service between Maple Leaf (on 5th Avenue NE and 15th Avenue NE) and downtown Seattle (concepts for routes 66, 77, and 373)	217
The new route for Route 8	7
More consolidated service that eliminates duplication	6
Increased weekend service	6
Better service to SeaTac Airport	5
Efficient transit system	4
Routes taken off the University of Washington campus and routed near light rail stations	3

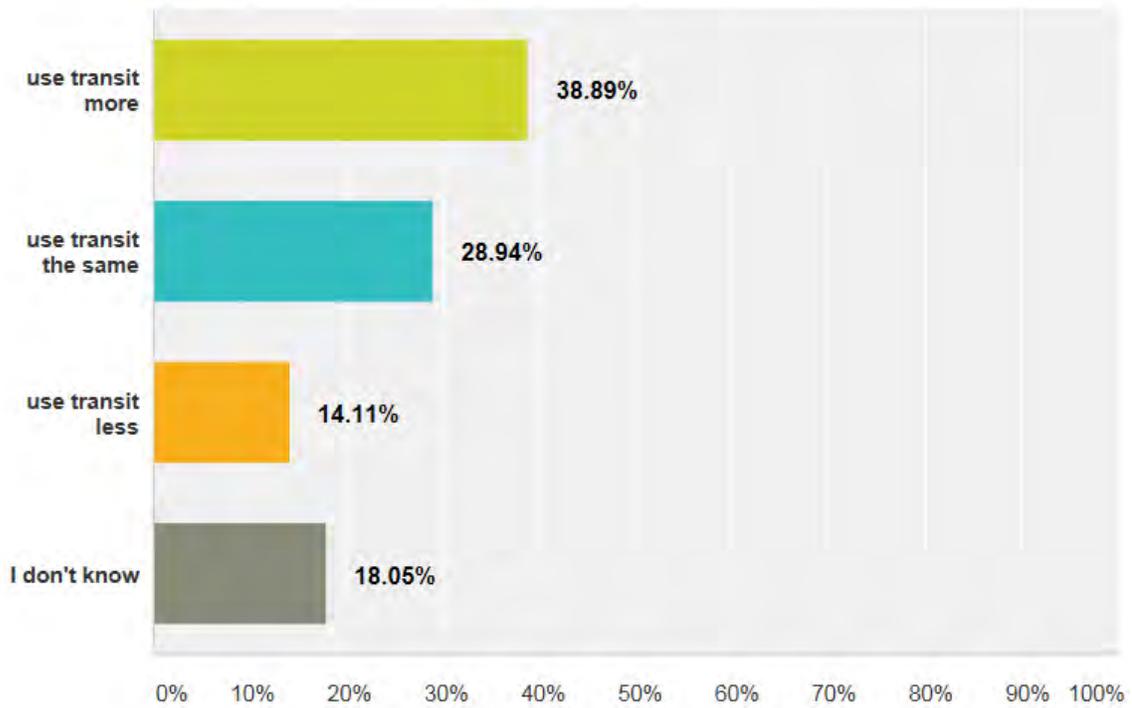

Question: What concerns you the most about Alternative 1 in north Seattle?

Response	Count
The benefits outweigh any concerns I might have	806
From NE 75th Street, NE 55th Street, and 40th Avenue NE, having to travel farther to access service during off-peak times (concepts for routes 71, 16, 65, and 75)	360
From 15th Avenue NE, having to travel farther to access service on Roosevelt Way NE (concept for routes 73 and 67)	321
In View Ridge and Windermere, having to travel farther to access service on 35th Avenue NE, Sand Point Way, or NE 65th Street during off-peak times (concepts for routes 71, 72, 16, 65, and 75)	250

Response	Count
No direct service between College Way N/Meridian Ave N and Wallingford and Green Lake (concept for routes 16 and 26X)	244
Slower connection to downtown Seattle from Stone Way (concept for Route 16)	229
No direct connection between Lake City and Ravenna (concept for Route 72)	209
In Laurelhurst, having to travel farther to access service on Sand Point Way (concept for Route 25)	187
From 5th Avenue NE, having to travel farther to access service on Roosevelt Way NE (concept for routes 66 and 67)	176
From 11th Avenue NE/Roosevelt Way NE, having to travel farther to access service on University Way NE (concept to consolidate service on University Way/The Ave with routes 48 and 67)	155
Everything	134
I am concerned about losing routes	92
This alternative increases distance between stops	91
This alternative will increase commute times	74
This alternatives increases transfers	66
I am concerned about the proposed changes to route 43	65
This alternative should consider outlying communities (Bothell, Woodinville, Kingsgate, Pinehurst, etc.)	59
I am concerned about the proposed changes to ST 545	54
This alternative should increase service from Seattle to the Eastside	47
I am concerned about the reduction in off-peak service	47
This alternative does not have enough east-west connections	46
This alternative does not provide direct service between Madison Park and Downtown Seattle (Route 11)	37
I am concerned this will increase traffic congestion	33
This alternative reduces geographical coverage of service	27
This alternative should increase service to Magnuson Park (Route 255)	21
This alternative worsens service between downtown Seattle and the University of Washington	19
I am concerned this will increase cost of trips	15
Transfer from bus to Link should be on the same block	13
I am concerned about disability access in underserved corridors	13
This alternative does not improve service to NW Seattle	11
I am concerned about the cost of this alternative	4
I am concerned about the loss of trolley service	4

How would your use of transit be affected if Alternative 1 were implemented in north Seattle? I would ...

Answered: 2,764 Skipped: 3,720

Question: What do you like most about Alternative 2 in north Seattle?

Response	Count
Frequent, all-day service between the University District and the new University of Washington Link station (concept for routes 43, 44, 48, 70, and 271)	952
Frequent, all-day service between Northgate, Maple Leaf, Roosevelt, the University District, and downtown Seattle (concept for Route 73)	643
Nothing	513
Keeps service to Montlake	407
Keeps service on 19th Avenue E	393
New, direct connection between Sand Point, Wedgwood, Ravenna, and Roosevelt (concept for Route 71)	383
Direct service between Laurelhurst, University Village, and the new University of Washington Link station (concept for Route 62)	341
New weekend service between Lake City, Ravenna, and the University District (concept for Route 372X)	328
Keeps frequent all-day service on 11th Avenue NE/Roosevelt Avenue NE in the University District (concept for Route 48)	294
More direct service between Green Lake and Northgate (concept for Route 16)	290
All-day service between Shoreline, Jackson Park, and the University District (concept for Route 373X)	268
All-Day service on NE 75th Street, 40th Avenue NE, and NE 55th Street (Concept for Route 68)	192
Keeps service to Laurelhurst	180
Everything	154
Keeps bus Routes 64, 65, 252, 255, 257, 545	75
Unsure	34
Provides a broader transportation network	21
Increases overall convenience	16
Requires fewer transfers	13
More frequent service on Route 74	5
Provides easy access to new Light Rail	4
Safety	2
Has the potential to reduce traffic congestion	2
Route 542 doesn't deviate into Overlake Transit Center	2
Overall increased frequency	2
Creates Route 541	2

Response	Count
Consolidates Routes 26/26x/28/28x	1

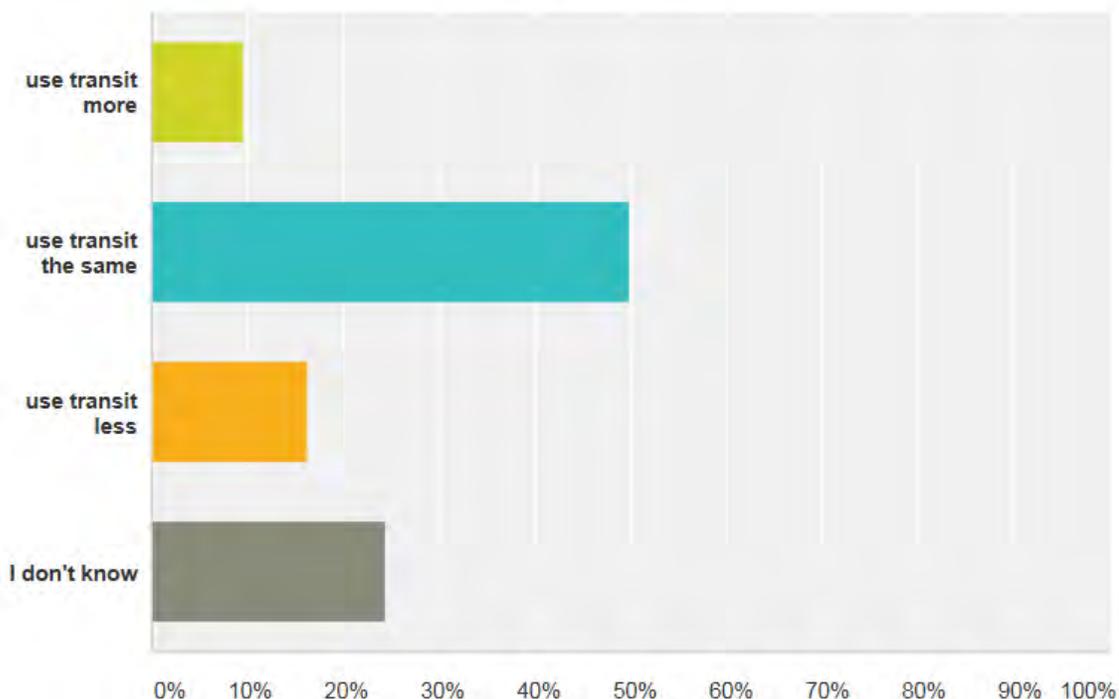

Question: What concerns you the most about Alternative 2 in north Seattle?

Response	Count
Lack of frequent service	1182
Longer wait times for people connecting between very frequent light rail service and bus service that runs every 30 minutes (concepts for routes 25, 65, 68, and 75)	1073
No direct connection between Lake City and Ravenna (concept for Route 72)	186
In Maple Leaf, having to travel farther to access all-day service on Roosevelt Way NE (concept for routes 66X, 67, and 73)	181
The benefits outweigh any concerns I might have	172
Everything	163
No direct service between College Way N/Meridian Avenue N and Green Lake and Wallingford (concept for Route 16)	162
Not enough change with this alternative (does not provide improvements to the system)	57
Proposed changes to Route 71	21
Deletion of Route 242	19
Proposed changes to Route 43	19
Will increase the need for transfers	19
Traffic congestion along bus routes	15
No direct access to Seattle Children's Hospital	13
Longer commute times	11
No direct access to Light rail UW Station from northeast Seattle	10
Inconvenient bus access for elderly/disabled	9
Proposed changes to Route 48	9
Not enough improvement to east-west connections	7
Unsure	7
Deletion of Route 73	6
Reduction in bus service on Capitol Hill	6
Deletion of Route 30	5
Nothing	5
Poor night/weekend bus service	5
Deletion of Route 66	4

Response	Count
Distances from bus stops to light rail are too far	4
I will be forced to drive more often	4
Not enough parking at Park and Rides	4
Removes frequent service from 15th Ave NE corridor	4
No direct connection from North Seattle residential neighborhoods to South Lake Union	3
Proposed changes to Route 8	3
Safety	3
Bus route configuration in the U District is very confusing	2
Increased distance between bus stops	2
No direct route to downtown Seattle	2
Poor service from Northgate to UW Medical Center	2
Proposed changes to Route 30	2
Proposed changes to Route 74	2
No direct service between Bryant neighborhood and Seattle Center	1
No south County connections (Renton, Kent, etc.)	1

How would your use of transit be affected if Alternative 2 were implemented in north Seattle? I would ...

Answered: 2,452 Skipped: 4,032

Capitol Hill and Central Area concepts

Key themes expressed via all outreach activities include:

- No clear preference for Alternative 1 or Alternative 2 in terms of how it would affect people's use of transit. It seemed as though neither alternative really hit the mark for riders.
- Confusion about service along the Madison Street corridor – why wouldn't we plan with the City of Seattle's Madison Bus Rapid Transit project in mind? Desire for continuous service all along Madison Street, especially the 23rd Avenue to 17th Avenue stretch that is home to Safeway, Trader Joe's, dense housing, and other important destinations.
- Desire to keep service on 19th Avenue, providing service to important destinations including schools, a business district, the County Doctor Clinic, and newly built dense housing.
- Concern about so much and so many services operating along Broadway with Link light rail and streetcar service soon to be up and running, along with providing frequent service on multiple routes, bike lanes, and cars – is this too much along this corridor?

- Concern about loss of service on the Pike/Pine corridor and a desire to make sure there is enough service operating along this heavily used corridor to handle the ridership.
- Interest in putting service on 12th Avenue – something neither alternative offered.
- Route 43 was our most commented on route with people wanting to maintain an easy and fast trip to downtown Seattle and the University District from the top of Capitol Hill.
- Desire to maintain connections from the Central Area to destinations served by Route 8 today.
- Desire to maintain direct service to downtown Seattle from Madison Park and Madison Valley without having to transfer to Link light rail.
- Concern about the loss of Route 25 to the Boyer/Fuhrman avenues segment of the route – requiring riders to travel farther to access service on Eastlake Avenue E or 24th Avenue E in Montlake.

One Madison Park resident worked hard to assemble input from fellow community members and offer an “Alternative 3” for consideration. This alternative featured a revised Route 11 operating along Madison, a Route 8 that was split at 23rd and Jackson, and other concepts not illustrated in either Alternative 1 or Alternative 2.

A total of 1,887 (42%) survey respondents said they would like to give feedback on concepts on Capitol Hill and in the Central Area. We asked survey respondents to indicate things they liked and things that concerned them most about alternatives 1 and 2. We provided a list of elements and a space for respondents to add other things we did not list. The following charts show the results for both alternatives, including coded responses to “other (please specify).”

Question: What do you like most about Alternative 1 in Capitol Hill and the Central Area?

Response	Response Count
Improved frequency of all-day service connecting Madison Valley, Capitol Hill, Denny Regrade, South Lake Union, and Seattle Center (concept for Route 8)	708
In general, the frequency of service in this network concept	620
Faster, more reliable travel times between Capitol Hill and northeast Seattle	546
Increased frequency between southeast Seattle, the Central Area, the University of Washington, and the University District (concept for Route 48)	514
Improved, frequent all-day service along Madison Street between Broadway and downtown Seattle (concept for Route 49)	483
New, direct connection between Madison Valley, E John Street, and Link light rail at the new Capitol Hill Station (concept for Route 8)	481
Keeps a direct connection between the Central Area – along Martin Luther King, Jr. Way – and Link light rail at the new Capitol Hill Station (concept for Route 38)	380
New connection between north Capitol Hill and Madison/Marion corridor (Concept for Route 49)	332

New direct connection between Rainier Freeway Station, First Hill hospitals, Seattle Central College, and Group Health on 15th Avenue (concept for Route 9X)	240
Nothing	208
Everything	161
In general, access to light rail	7
Simplicity of fewer routes at higher frequencies	3
Sound transit route: Changing 545 to peak-only and 542 to be all-day.	2
Faster frequency of the 70 bus	1

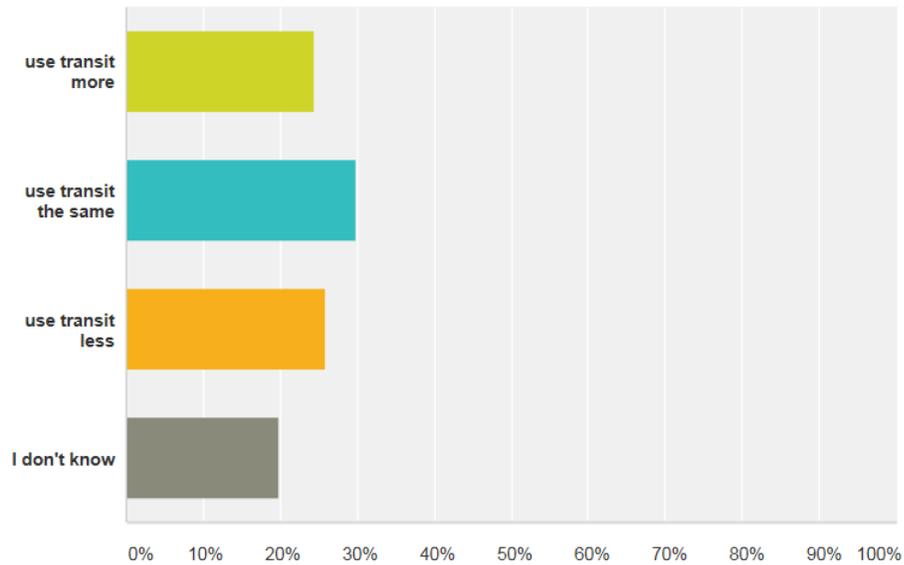

Question: What concerns you the most about Alternative 1 for Capitol Hill and the Central Area?

Response	Response Count
Less service in Pike Street/Pine Street corridor (concept for routes 11, 43, and 49)	621
No direct service between the University District and the top of Capitol Hill (concept for Route 43)	609
No direct connection between the 24th Avenue E corridor and the new Link Capitol Hill Station (concept for Route 43)	439
Loss of direct connection between Madison Valley and downtown Seattle (concept for routes 11 and 8)	434
Loss of direct connection between the 24th Avenue E corridor and downtown Seattle (concept for Route 43)	420
From 19th Avenue E, having to travel farther to access service on 15th Avenue E, 23rd Avenue E, E John Street, E Thomas Street, or E Madison Street (concept for Route 12)	354
No service on E Madison Street between Broadway and 16th Avenue (concept for routes 11 and 12)	328
The benefits outweigh any concerns I might have	257
From Boyer Avenue E, having to travel farther to access service on 24th Avenue E or Harvard Avenue (concept for Route 25)	110
From Lakeview Boulevard, having to travel farther to access service on Broadway or Eastlake Avenue E (concept for Route 25)	100
Everything	76
Deletion of Route 43	37
Proposed changes to Route 8	24
Impact for elderly or disabled (concerns with transfers, further distance to stops, lack of access to medical centers.)	21
Proposed changes to Route 12	14
Increased need to transfer	12
Proposed changes to Route 545 removes direct connection to downtown Seattle from Redmond outside of peak times	11
Further distance to stop (bus and light rail)	17
Deletion of Route 48	8
Deletion of Route 11	7
Longer travel time	6
Deletion of Route 25	6

No service improvements for Madison Park	6
Eliminating service to some areas is not an improvement	5
Loss of direct service to Capitol Hill Group Health Complex	5
Not enough service to South Lake Union	5
Proposed changes to Route 38	5
Buses will be stuck in traffic congestion	6
Lack of east side connectivity	4
This alternative does not provide service from north Capitol Hill to Downtown Seattle	4
Increases my need to drive	3
Concern about capacity of Link to absorb all types and large quantity of commuters	3
Unsure	6
Does not get enough riders to the light rail stations efficiently	3
Lack of connection between north Capitol Hill and light rail stations	3
Lack of service on 12th Ave	3
Loss of service to east Capitol Hill	3
Montlake/Portage Bay communities do not have easy access to new light rail station	3
People who don't live on major roads have less access	3
Safety	2
Lack of service areas	2
Increase in travel time for commuters from Renton using downtown as a hub	2
Losing bus from top of Capitol Hill to Montlake	2
Losing Montlake freeway station	2
Loss of downtown service for Summit riders	2
No restoration of Route 27	2
Overall, reduces transit options too much	2
Proposed changes Route 48	2
Transfers to light rail and other lines but be timed correctly/efficiently.	2
Does not improve evening/weekend bus service	1
Express service/service with transfers is not a substitute for local service	1
Increase the number of bus stops in densely populated areas	1
Lack of connection between the University District and Capitol Hill	1
Maintain Route 9X service to Rainier Valley/Beach	1
Does not address need for additional service in peak/commuter hours	1
No direct connections from Central District to First Hill medical centers	1
Quicker connection within Capitol Hill to South End and other parts of Seattle	1
Reduction of Route 66 Express	1
Route 8 and Route 38 could overlap on John to make this proposed transfer easier	1
Route 9X not expanded to include evenings and weekends	1
Separate Route 48 and Route 67 like you did with the 48-45 and previously with the 43-44, 49-7	1

How would your use of transit be affected if Alternative 1 were implemented on Capitol Hill and in the Central Area? I would ...

Answered: 1,473 Skipped: 5,011

Question: What do you like most about Alternative 2 on Capitol Hill and in the Central Area?

Response	Response Count
Keeps more service in the Pike/Pine corridor (concept for routes 10, 11, 43, and 49)	648
Keeps a direct connection to downtown Seattle from 24th Avenue E and the top of Capitol Hill (concept for Route 43)	558
Provides connection to the new Link Capitol Hill Station from 24th Avenue E (concept for Route 43)	496
Keeps a direct connection to downtown Seattle from Madison Valley (concept for Route 11)	436
Keeps service on 19th Avenue E (concept for Route 12)	326
Connection between Link light rail at the new University of Washington Station and Boyer Avenue E, Furhman Avenue E, and Lakeview Boulevard E (concept for Route 25)	262
Nothing	185
Everything	101
This alternative does not alter Route 8	4
This alternative does not require travelling farther between stops	4
This alternative maintains eastside connectivity (Route 545)	4
This alternative keeps Route 48 service to Greenlake	3
This alternative maintains connections to the U District	3

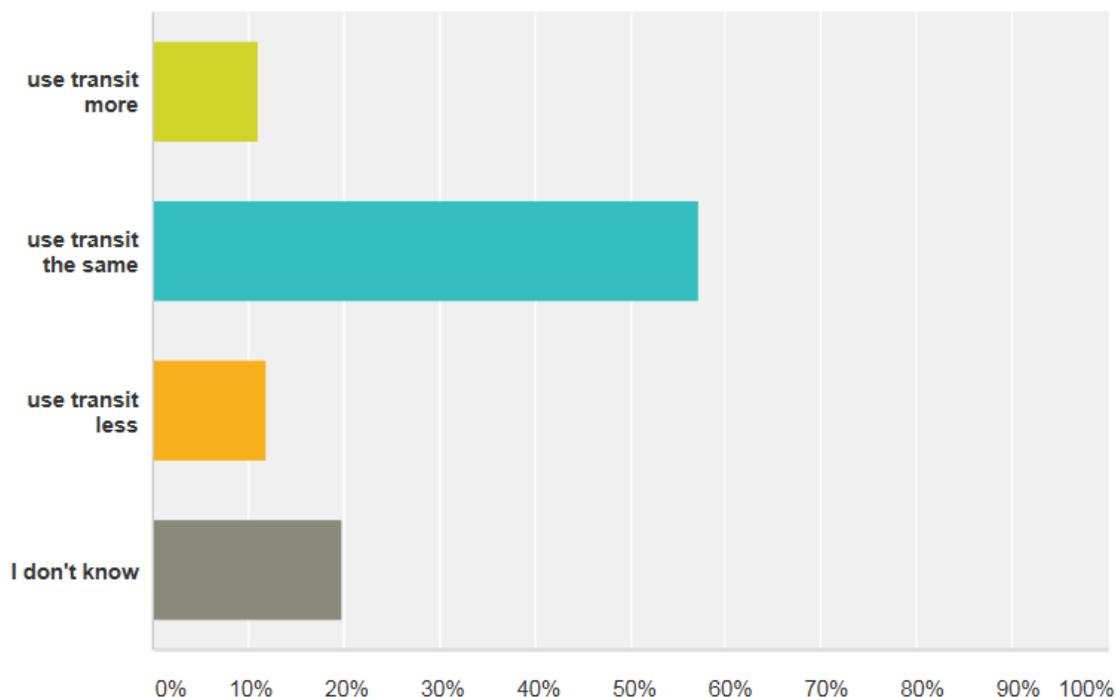

This alternative maintains connections to SR 520	1
This alternative will require fewer transfers	1

What concerns you the most about Alternative 2 on Capitol Hill and in the Central Area?

Response	Response Count
In general, the lack of frequent service in this network	703
Continued lack of reliable service on Route 8	517
No connection to Link light rail from Madison Valley	308
The benefits of Alternative 2 outweigh any concerns I might have	239
Everything	92
I am concerned this alternative does not make any significant changes to existing service	41
I do not understand why Alt 2 provides "no connection to Link light rail from Madison Valley." The map shows that Route 8 would stay as is, leading to Broadway and John	9
I am concerned about station locations	7
I am concerned about the changes to Route 48	7
This alternative does not address congestion on key routes	6
This alternative does not serve North Capitol Hill	5
I am concerned about the loss of off-peak service	5
I am concerned about the changes to ST 545	4
This alternative does not provide connections to/from the Central District	4
This alternative increases commute time	4
This alternative should connect the Central District to Downtown Seattle	3
This alternative does not improve service to First Hill	2

Eastside

Key themes expressed via all outreach activities:

- “We love our 545 and just want more of it!” – it’s overcrowded
- Why make us transfer during non-peak times instead of during peak times only? That would make more sense.
- Lack of understanding about how Link light rail will work and the potential benefits. Once explained, an excitement and willingness to try.
- Questions about the transfer environment.
- “You have been out to get us before and now you are using this as an excuse to do it again” – routes 277, 242, and others that were candidates for cuts during the service reduction planning

We received two formal letters from stakeholders with a vested interest in Eastside changes. Microsoft and Seattle Children’s Hospital weighed in on these changes. Microsoft expressed concerns about how these changes would or would not improve overcrowding, meet ridership demands outside of the peak, and benefit their

employees. Seattle Children’s Hospital strongly supported the concept to revise Route 255 in Alternative 1 that would have provided a frequent, all-day connection between the Eastside and the hospital for patients and employees.

A total of 1,375 (34%) survey respondents said they would like to give feedback on concepts for the Eastside. We asked survey respondents to indicate things they liked and things that concerned them most about alternatives 1 and 2. We provided a list of elements and a space for respondents to add other things we did not list. The following charts show the results for both alternatives, including coded responses to “other (please specify).”

Question: What do you like most about Alternative 1 on the Eastside?

Response	Response Count
More direct service during peak shoulders (on either side of peak periods) from Redmond to downtown Seattle to help address overcrowding (concept for Route 545)	385
Direct connection between downtown Kirkland, the University of Washington, Link light rail at the new University of Washington Station, University Village, and Seattle Children’s Hospital (concept for Route 255)	367
Improved night and weekend service between Eastgate, Bellevue, and the University District (concept for Route 271)	316
Increased midday service between Redmond, the University of Washington, the UW Medical Center, and the University District (concept for Route 542)	291
More reliable travel times between Redmond and the south end of downtown Seattle, via a connection to Link light rail (concept for Route 542)	269
Faster service between Redmond and Seattle Children’s Hospital via a transfer to frequent bus service at Husky Stadium (concepts for routes 65, 255, 542, and 545)	267
New direct connection between Eastgate, Bellevue, Ballard, Greenwood, and Green Lake (concept for through-routing routes 45 and 271)	267
More service across Lake Washington from downtown Kirkland (concept for routes 255 and 256)	264
Improved service frequency between Bothell, Kenmore, Lake City, and the University District (concept for Route 372)	210
Keeps direct connection between downtown Kirkland and downtown Seattle during peak commute times (concept for Route 255X)	199
New, direct connections between South Lake Union, Woodinville, Totem Lake, and Kirkland (concept for Route 311)	138
New direct service from Bear Creek Park-and-Ride to the University of Washington and Link light rail at the new University of Washington station (concept for Route 542)	135
More peak period service across Lake Washington from the Woodinville Park-and-Ride, Brickyard Park-and-Ride, and Totem Lake Freeway Station (concept for Route 311)	112
Nothing	111
Increased all-day service to Issaquah Highlands (concept for Route 207)	93
Everything	80
Increased, peak-only service across Lake Washington from Houghton Park-and-Ride (concept for Route 540)	77

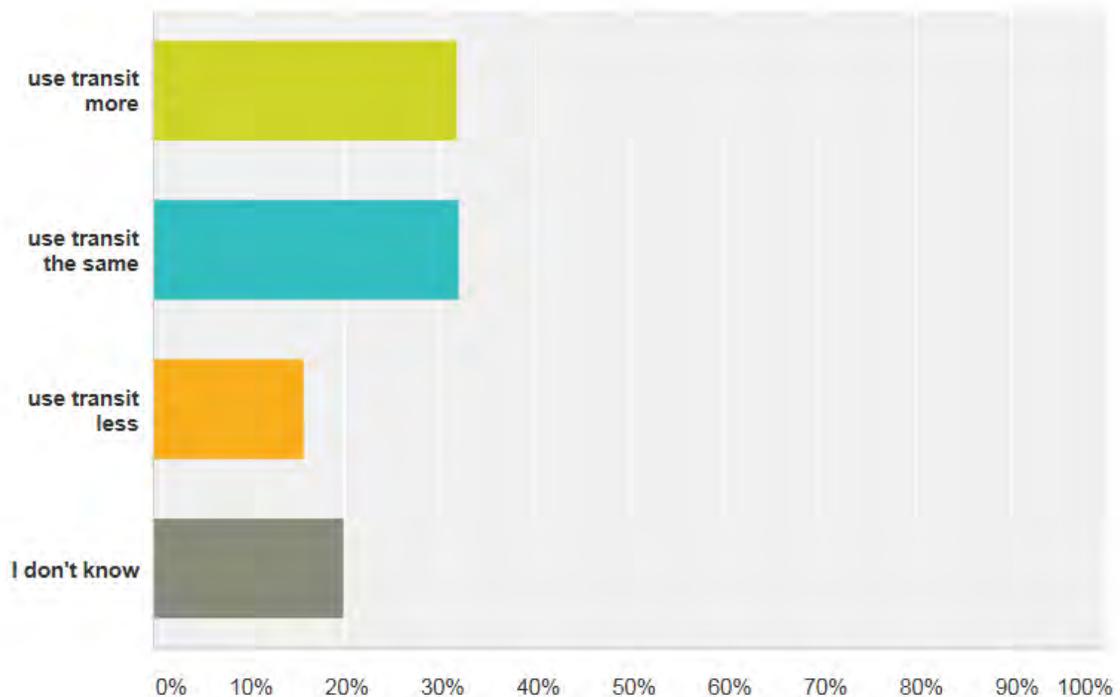

Question: What concerns you the most about Alternative 1 on the Eastside?

Response	Response Count
Bus-light rail transfer required to travel between Redmond and downtown Seattle during weekday off-peak hours (concept for Route 545)	320
Bus-light rail transfer required on weekends between Redmond and downtown Seattle (concept for Route 545)	229
Transfer required between Link light rail and bus service during off-peak commute times between Kirkland and downtown Seattle (Concept for Route 255)	168
No direct connection between Woodinville and the University District (concept for Route 372)	120
Transfer required to get between neighborhoods north of Totem Lake and downtown Seattle (Concept for routes 277 and 255)	115
Loss of direct service to the center of the University District and the UW campus from South Kirkland (Concept for Route 540)	113
Transfer required between Issaquah and downtown Bellevue and the University District outside of peak commute times (concept for Route 271)	111
No direct connection between Overlake and neighborhoods north of the University District (concept for Route 242)	95
Reduced service frequency between Issaquah and the Eastgate Park-and-Ride (concept for Routes 207 and 271)	81
Results in more transfers on my commute	26
Potential increase in commute times	24
Deletion of Route 252	15
Consolidation of routes will lead to overcrowding on buses	13
Deletion of Route 257	12
Transfers to U-Link must be close to the LINK station (for ease of travel and mobility/accessibility concerns).	9
Alternative 1 will cause me to drive more instead of using transit	6

Eastlake and South Lake Union

Key themes expressed via all outreach activities:

- A desire for Eastlake residents and businesses to have more local service through their community.
- A desire to keep a direct connection between Eastlake and “the heart” of the University District – not just the south end of the University District as provided in Alternative 1.
- A strong preference for increased service on Route 8.

A total of 767 (20%) survey respondents said they would like to give feedback on concepts for Eastlake and South Lake Union. We asked survey respondents to indicate things they liked and things that concerned them most about alternatives 1 and 2. We provided a list of elements and a space for respondents to add other things we did not list. The following charts show the results for both alternatives, including coded responses to “other (please specify).”

Question: What do you like most about Alternative 1 in Eastlake and South Lake Union?

Response	Response Count
----------	----------------

Improved frequency between South Lake Union, Seattle Center, and Capitol Hill (Concept for Route 8)	329
More-frequent service during peak commute times between Eastlake, South Lake Union, the south end of the University District, the University of Washington, the UW Medical Center, and Link light rail at the new University of Washington Station (concept for Route 70)	320
Faster, more direct commuter connections between Maple Leaf, Green Lake, and South Lake Union via I-5 (Concept for Route 66)	161
New direct connection between South Lake Union and Madison Valley (Concept for Route 8)	127
Faster, more direct commuter connections between Wedgwood, Ravenna, and South Lake Union via I-5 (Concept for Route 64)	121
New, direct connections between South Lake Union, Woodinville, Totem Lake, and Kirkland (concept for Route 311)	72

Phase 3

Who we heard from

At the end of this outreach period, we had spoken with more than 6,500 people about the proposed changes via our online survey (more than 1,900 responses), public meetings, stakeholder briefings, information tables and street teams, and phone calls and emails.

In our online survey, we heard from participants who live in the following geographic areas (ordered from largest to smallest number of participants):

- Northeast Seattle neighborhoods – 610
- Central Seattle neighborhoods – 568
- Northwest Seattle neighborhoods – 466
- Eastside neighborhoods – 110
- North of Seattle in King County – 54
- Southeast Seattle neighborhoods – 36

- Southeast King County – 29
- Southwest Seattle neighborhoods – 27
- Southwest King County – 20
- Pierce County – 13
- Snohomish County – 9
- Kitsap County – 3
- Thurston County – 3

Ninety six percent of survey respondents use transit. If a survey respondent indicated that they ride the bus, we asked what route(s) they ride. Participants were asked to check all that apply. Here is a list of routes in order from most checked to least checked – with “other (please specify)” listed last.

Response	Percentage	Count
43	28%	522
48	28%	516
71	28%	505
73	24%	435
72	23%	424
8	20%	366

242	2%	35
238	0%	6
Other (please specify)	27%	492

Eleven percent of survey responders who chose to answer the question indicated they have some kind of disability. Nearly a quarter of survey responders indicate they do not have access to a car.

Is it worth mentioning that during this round of outreach that we had fewer survey responses than in past rounds – even with the same amount of notifications and visits to our website.

There are several factors we think are cause for this – the size and scope of the project area and routes affected was narrowed down from phase two; Sound Transit collected feedback on its route proposals via their own online survey as opposed to Metro collecting it on their behalf; and more than sixty percent of people who participated in phases 2 and 3 indicated they saw how public feedback shaped what was being proposed. To the latter point, people may have felt their views were reflected in the final proposal or perceived that a decision had already been made and thought it wouldn't be worthwhile to share their views at this stage.

We also experienced an increase in the number of phone calls and emails during this phase of outreach. As this was the “last call” for feedback, while the participation rates were lower, the comments tended to be hyper-focused on things people were most concerned or upset about.

What we heard

Overall, we continued to hear support for the increases in frequency and span (routes serving Children's Hospital, Fremont, Route 49), improvements to the reliability of routes (routes 8 and 48), and the new connections being provided in the proposed network (revised Route 16, new connections to South Lake Union). Our survey was broken into sections. Survey responders had the choice to give us feedback about proposed changes in North Seattle and/or proposed changes in the Capitol Hill/Central Area. At the end of each section, we asked whether the responder had anything else to share, such as ideas to make the proposal better. After theming these responses, in north Seattle, overall support for the proposal was at the top of the list. In Capitol Hill/Central Area, overall support for the proposal came in second place. An example of a comment that demonstrates general support for the proposal is noted at right.

Key hotspots that stand out from open-ended survey data, phone calls, emails, and meeting attendees include the following:

“I want to thank Metro for taking advantage of the upcoming Link service to the UW to restructure routes in northeast Seattle. In particular, I think the restructured 73, 67, and 16 look great. They reach popular destinations and do so more frequently and efficiently than before. My wife and I are excited about being able to take the 16 from Roosevelt over to Green Lake, Wallingford, Fremont, Or Queen Anne, and to do so without waiting for infrequent buses. I also look forward to options for returning home to the Roosevelt neighborhood from work downtown after 6:30 pm without having to take the slow, non-express 73 or 72 or 71. Instead I can take Link to UW and transfer to the frequent route 67. Great work! I want to thank Metro for making some big changes in NE Seattle to make transit more frequent, logical, and fast.”

- Email from Andrew Gardner

In Northeast Seattle

- **DART Route 941 and deletion of Route 71** – Route 71 riders in View Ridge, Windermere, and Bryant neighborhoods expressed doubt about the DART Route 941 being an adequate replacement for their all-day service connecting them to downtown Seattle. In particular, the span and frequency of the service being less than they have today on Route 71 and the loss of a direct connection into the U District. There was confusion about how DART service works and, after explanation, several people thought this would be a good fit for their community.
- Associated with the proposed DART Route 941 is the **deletion of Route 25 in Laurelhurst**. Several residents in Laurelhurst continue to advocate for an increase to service on Route 25, the Laurelhurst Community Council continues to express an interest in a shuttle service to connect them to Link light rail, and some residents thought the Route 941 fit the bill of providing the shuttle connection to Link.
- **Deletion of Route 72 and revision to Route 73** – Some riders continue to express concern about transferring between buses and Link light rail at the Montlake Triangle. Route 72 riders who would be using Route 372X for all-day connections to downtown would be dropped off and picked up on Stevens Way. Several riders advocated for Metro to figure out a way to route the 372X along Montlake, instead of through campus. They offered ideas for using the parking lot north of the Link station to route buses out of the “Montlake mess” and provide riders a direct connection to the station.
- For residents in Jackson Park, while relieved to see some form of Route 73 offered in the proposal, were concerned about lack of weekend service for the route. In addition, there was confusion about where transfers would be made to connect with Link light rail and concerns about a long walk distance.

In northwest Seattle

- **Revised Route 16 and associated changes to routes 31, 32, 26, 26X** – We heard primarily from residents east of Wallingford Ave N and south of N 40th Street who were concerned about having to walk farther to access service on Stone Way for a slightly slower trip or uphill to N 40th St for a faster trip to access direct bus service into downtown. While a few residents appreciated the new connections they would have with Routes 31/32 providing east-west options, others felt the combined frequency of buses coming every 15 minutes through their neighborhood was too much service. Overall, people we heard from feel there is significant development of dense housing happening here that needs to be adequately served by bus service into downtown.
- We also heard from a group of residents who live along Kirkwood PI N and are concerned about the proposed increase in frequency on Route 16. They have

been advocating for Metro to move Route 16 off their street for over a year. They used this third phase of outreach to make their concerns known again by writing a letter and attending our Northeast Seattle public meeting in force. In their letter, accompanied by approximately 75 signatures, and at the meeting, they shared their concerns about how their street is too narrow to accommodate buses and how the noise of the bus service degrades their quality of life. Some have experienced buses side-swiping their cars, others experience their windows or houses shaking when buses pass by and are concerned about damage to their foundations.

- In addition, we heard from residents of several senior housing communities along Meridian Ave North and at University House, another senior housing community, at Stone Way and N 44th Street. On initial approach, most thought we were proposing to delete Route 16. After conversation with staff most were reassured to learn they could continue to get to a majority of their current destinations on either Route 16 or a revised Route 26X. There were some who remain concerned about the loss of direct service to Polyclinic Northgate and businesses along NE Northgate Way, like Target. We met with residents at University House in person to explain the changes and hear their concerns. While they will continue to have access to downtown Seattle via Route 16, residents at this location will have to walk farther or take 2-3 buses to access points North – which they get to today on the current Route 16. This will be a hardship for most residents.
- **Combining and revising routes 28 and 28X** – We received a letter of concern from the Ballard District Council and Crown Hill Merchants' Association about changes proposed for routes 28 and 28X. They perceive these changes will make it harder for their residents to access Fremont and South Lake Union – growing employment centers. We also received several emails from riders expressing a similar concern. This connection would still be served by Route 40, which would mean a longer walk or a 2-bus trip to make this connection if these changes are adopted. We briefed the Ballard District Council and Crown Hill Merchants' Association at their June meeting where we were able to answer their questions and explain the proposal in full. While the group remained concerned about the loss of direct connection for 28 riders to Fremont, they expressed appreciation for more express trips to downtown and more reliable service and an increase in frequency (especially on Sunday) on Route 45.

In Capitol Hill and the Central Area

- **Deletion of Route 43** – Route 43 was the most commented on route individually and at the top of the list of concerns in the open-ended survey responses. In particular, those traveling to/from the Montlake neighborhood and destinations north of Aloha, where 23rd Avenue becomes 24th Avenue who face a two-seat ride to downtown. Easy access to transit is compounded for the Montlake/Boyer area of Capitol Hill with the loss of Route 25. This is a very low ridership route so

we did not hear from Route 25 riders in a large quantity, but their concerns should be noted.

- **Revision of Route 12** – Residents who live near or on 19th Avenue, including those who live at two, large senior housing communities, expressed concerns their loss of direct bus connection to Madison. They rely on this route to get them to grocery stores like Madison Market and Trader Joe's, as well as to First Hill hospitals for work and medical appointments. This route was the second most commented on route in the open-ended survey responses for this area.
- **Route 11** – We received very mixed feedback on a Route 11 that would operate water-to-water. At a briefing of and in correspondence with Madison Park residents, we heard complaints about how this proposal cut them off from the central business district in downtown Seattle and easy light rail access. We also heard more strongly from Madison Park and Madison Valley people who preferred the concept for a combined Route 8 and 11 offered in Alternative 1 of phase 2 outreach – emphasizing the desire for these communities to connect with light rail on Capitol Hill.

In the online survey, we emphasized key features of the proposed network and asked respondents whether they would take advantage of these features to use transit more, the same, or whether they wouldn't take advantage of these features but could or could not accept these changes. For this report, we are focusing on questions and answers that relate to things riders have expressed strong interest in – either positive or negative. (Find the complete set of questions asked and responses in Appendix C: Online survey Questions – Phase 3, page 156, and Appendix J: Survey Responses (Phase 3), page 1781.)

In the phase three survey, we said and asked:

What we heard people want

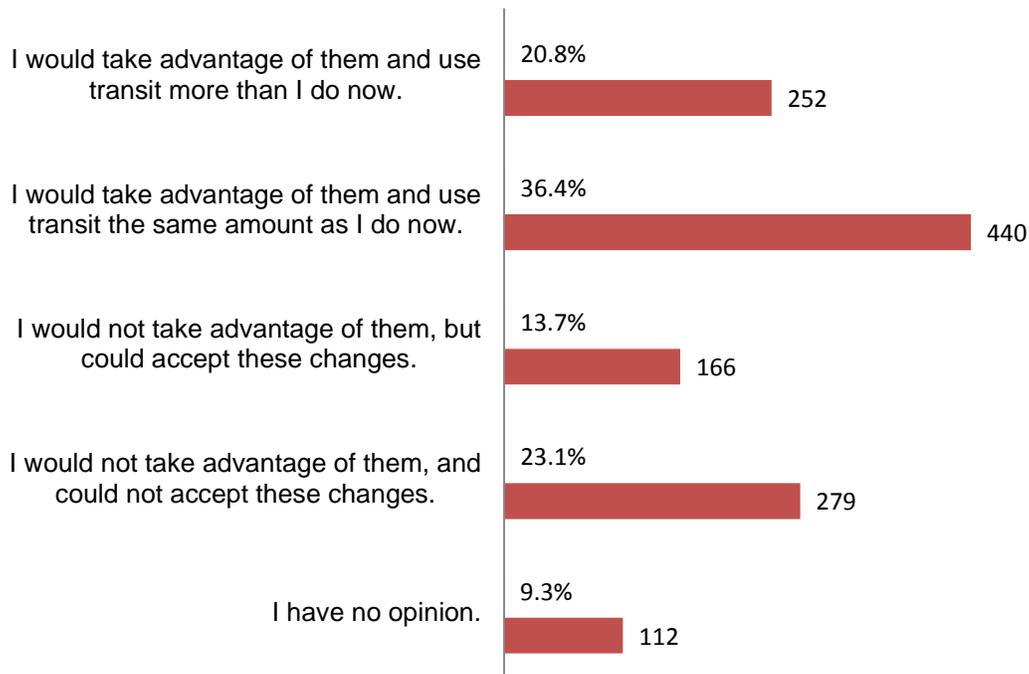

Convenient all-day connections to the new Link University of Washington Station at Husky Stadium.

What's in the proposal

- Service every 8 minutes or better between the heart of the University District and the University of Washington Station on five all-day routes (44, 45, 48, 67, and 271).
- Route 65 (which goes down 35th Avenue NE) and new DART Route 941 (serving View Ridge, Wedgwood, and Laurelhurst) would serve stops on Montlake Boulevard, near the new Link station.
- Routes 31, 32, 65, 73, 75, 372X, and 373 would serve stops on Stevens Way on the University of Washington campus.
- Routes 44, 45, 48, 65, 67, and 271 would serve stops on NE Pacific Street.

- Metro is working with the Seattle Department of Transportation and other partners to establish bus stops near the new light rail stations that will make connecting between buses and light rail as convenient as possible.
- Routes 44, 45, and 67 will start near the University of Washington Station, which will help them leave on time and make connecting between buses and light rail more reliable.

How would these proposed changes, designed to make convenient, all-day connections to the University of Washington Link station, affect you?

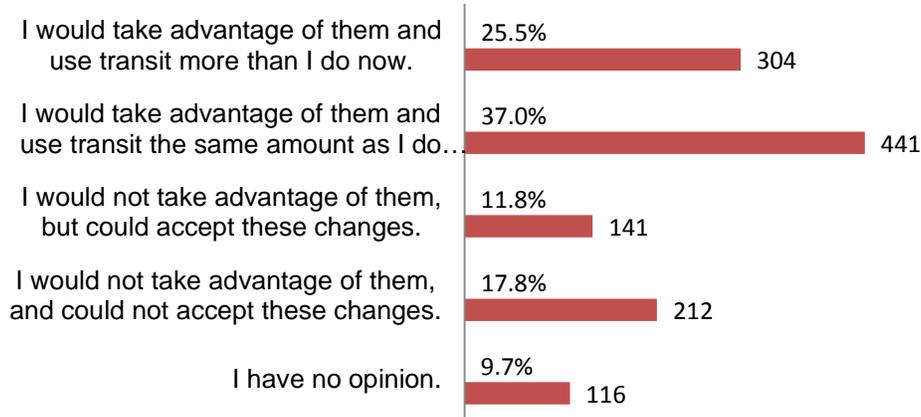

What we heard people want

- Frequent, all-day service.
- Convenient transfers.

What's in the proposal

Improved frequency on routes 16, 44, 48, 49, 65, 67, 70, 73, 75, and 372X.

How would these improvements in frequency affect you?

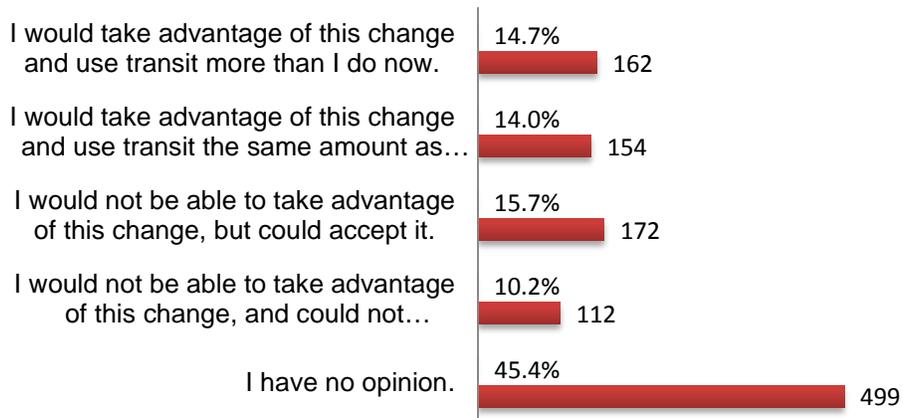

What we heard people want

Better east-west connections.

What's in the proposal

- New connection between Sand Point, View Ridge, Ravenna, Roosevelt, Green Lake, Wallingford, and Fremont (revised Route 16).
- Improved frequency on routes 44 and 75.

How would the proposed change to the Route 16 affect you?

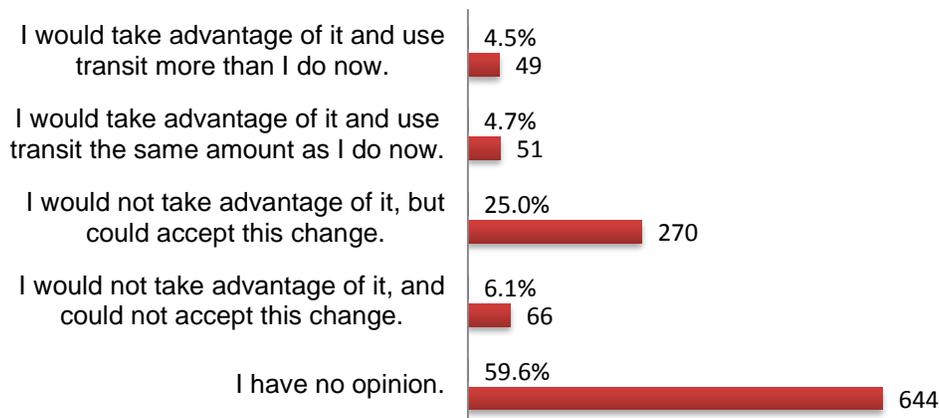

What we heard people want

- Connection between Laurelhurst and the University of Washington Link station.
- Fewer transfers for those unable to get to frequent north-south service on 35th Avenue NE and Sand Point Way, as provided in Metro's earlier Alternative 1 network concept.

What's in the proposal?

New DART Route 941 would provide an all-day connection to the University of Washington Station serving View Ridge, Windermere, Wedgwood, and Laurelhurst. Flexible service would be provided in the View Ridge and Laurelhurst areas, so residents of those areas could reserve a pick up or ask to be dropped off closer to their homes than the nearest regular stop.

How would a new DART Route 941 affect your use of transit?

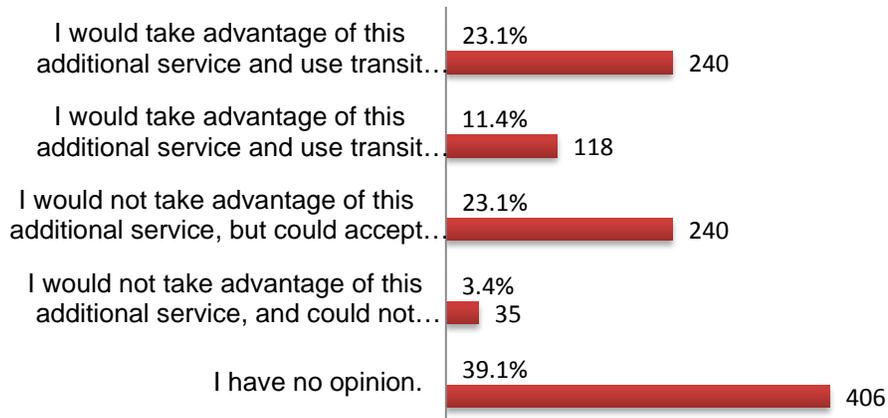

What we heard people want

More late-night and weekend service.

What's in the proposal?

More late-night and weekend service on routes 67, 70, and 372X.

How would this addition of late night and weekend service affect your use of transit?

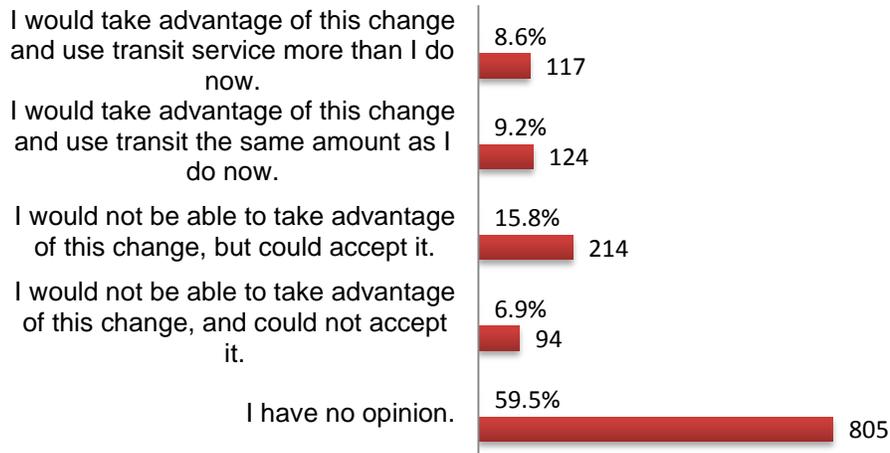

What we heard people want

- Better east-west connections.
- Direct connection between Madison Park, Madison Valley, and downtown Seattle.
- The Alternative 1 concept for three different routes serving Madison was confusing and did not take advantage of Seattle's efforts to provide bus rapid transit improvements along the corridor.

What's in the proposal

Revised Route 11 would provide continuous service on Madison Street between Madison Park and downtown Seattle. It would be the only route operating on the Madison corridor, and would have service levels close to those of bus rapid transit.

How would a revised Route 11 affect you?

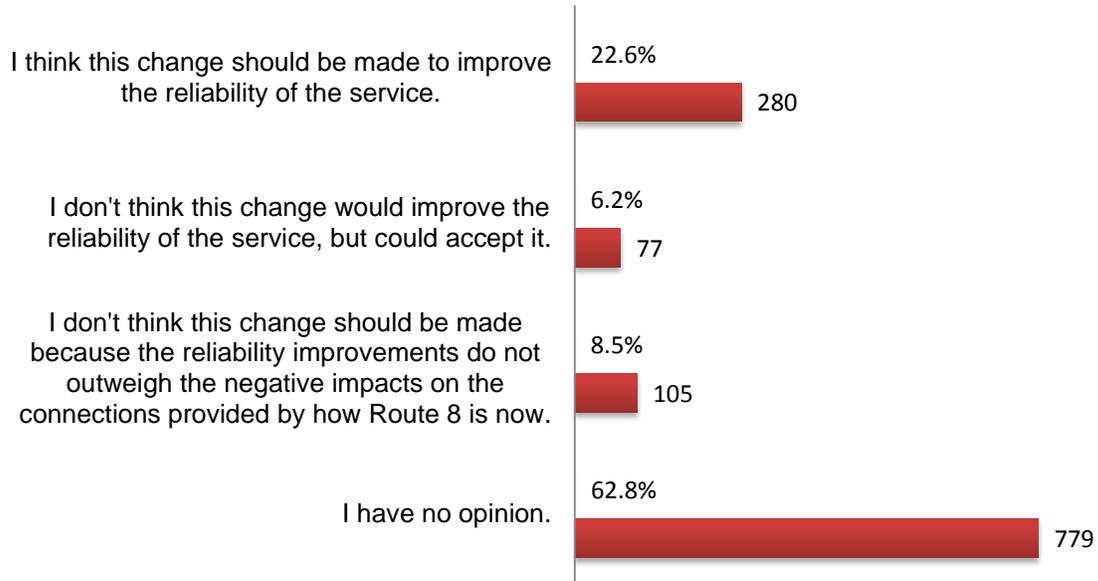

What we heard people want

Reliable service.

What's in the proposal?

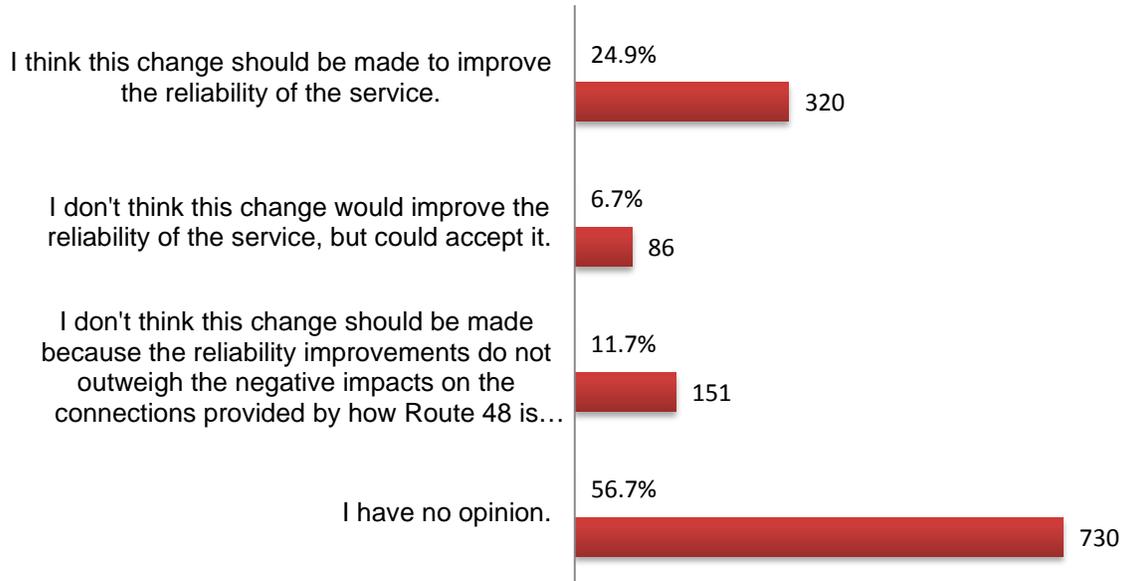

- Splitting Route 8 into two routes (Route 8 would continue to provide service between 23rd Avenue S/S Jackson Street and lower Queen Anne, while new Route 38 would operate along the southern part of the route between Rainier Beach and 23rd Avenue S/S Jackson Street). Each route would operate independently, with no through-routing.
- Splitting Route 48 into two routes (new Route 45 would serve the north part of the route, keeping Route 48 to serve the south part of the route). Each route would be operated independently, with no through-routing.

What do you think about the proposal to split Route 8?

In the survey, we also asked where people would prefer the Route 8 to be split – 23rd and Jackson or at the Mount Baker Transit Center. While 13% of survey respondents selected 23rd and Jackson and 12% selected Mount Baker Transit Center, the rest had no opinion. In face-to-face outreach opportunities, we continually heard about riders' preference to split the route at the transit center to provide connections to Link light rail at the south end and more bus routes (routes 7, 9X, 14, 48).

What do you think about the proposal to split Route 48?

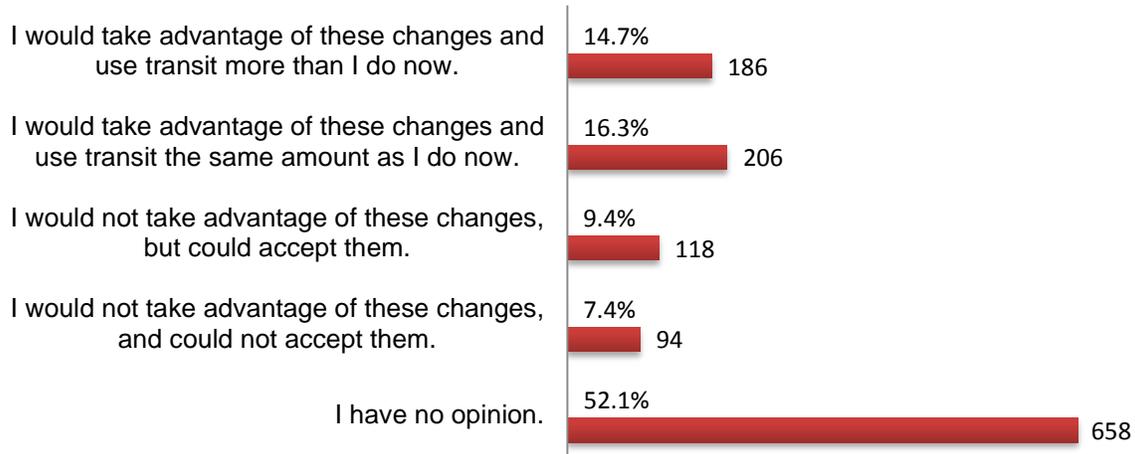

What we heard people want

- Fast and easy connection between the top of Capitol Hill and the University District.
- Fast and easy connection between the top of Capitol Hill and downtown Seattle.
- Service on 19th Avenue E.

What's in the proposal

- Improved frequency on routes 8, 11, and 48.
- Frequent connection to light rail at Capitol Hill Station on routes 8 and 12.
- Revised Route 12 would provide service on 19th Avenue E between E Galer Street and E Thomas Street into downtown, past the Capitol Hill Station.

How would your use of transit be affected if Route 12 were revised and frequency were improved on route 8, 11, and 48?

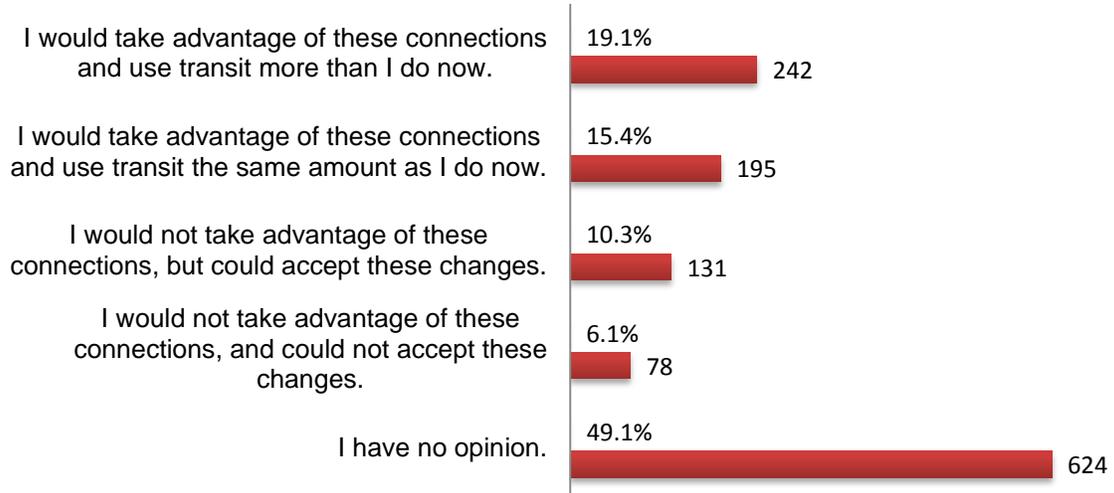

What we heard people want

Convenient, all-day connections to light rail at the Capitol Hill Station.

What's in the proposal

- Routes 8 and 12 would provide frequent east-west service on E John Street, E Thomas Street, and E Olive Way for the Central Area, Madison Valley, and Capitol Hill.
- Routes 9 and 49 and the First Hill Streetcar would provide frequent north-south service on Broadway E for access to Seattle Central College, Seattle University, north Capitol Hill, Capitol Hill, First Hill, and Yesler Terrace.

How will your use of transit be affected by proposed frequent, all-day connections to the Capitol Hill Station?

Measures of Success

We identified a number of goals for our engagement process that we designed our process to achieve (see “goals” in the Overview section). To this end, we asked a series of questions in the online survey of each phase of outreach to collect feedback on our outreach process. We also received feedback about our outreach through other channels – emails, at meetings, etc. This section looks at how we measured our success and how we did at achieving these goals.

Did the public see how they shaped the final service change proposal?

As we progressed through each phase of outreach, we worked to demonstrate how public input shaped what we were asking for feedback on. We asked survey responders who participated in previous phases of outreach whether they saw how public feedback shaped what we shared with the public.

In phase two outreach, there were approximately 670 survey responders who indicated they had participated in phase one. Thirty percent saw how feedback helped shaped some of the ideas being considered. Twenty seven percent did not. And, forty three percent weren’t sure.

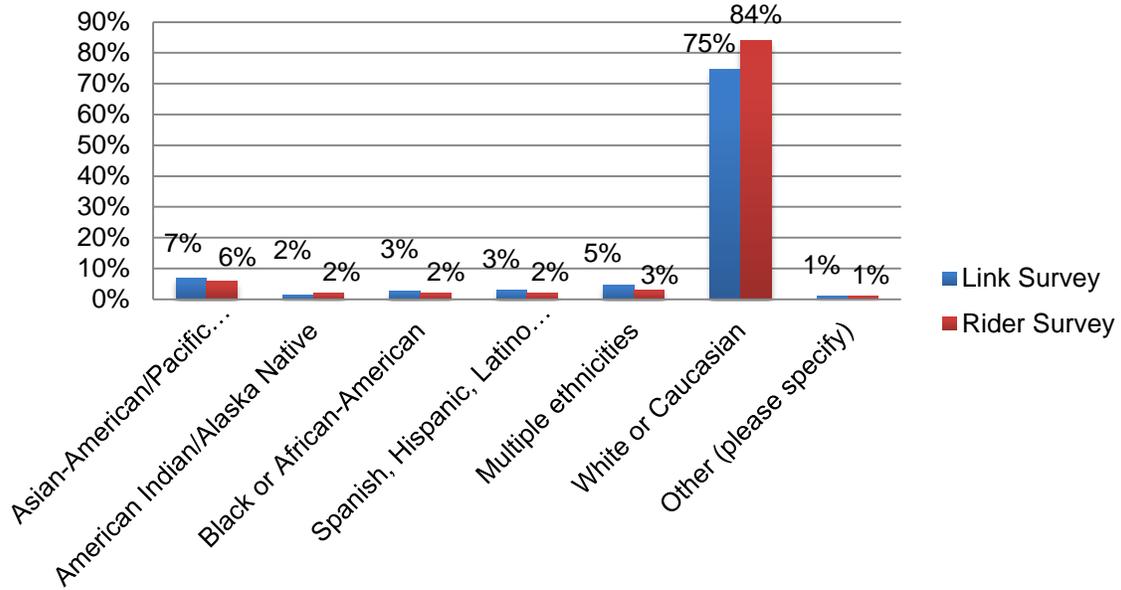

We worked to improve our communications to show how public feedback shaped what was being proposed in phase three of outreach. We created a unique video series we called, “Talks with Ted,” where he walked through the proposal and how it was shaped by what we heard in phase two. We added language for each section of our survey to indicate what we had heard from the public and what we were proposing that responded to that.

In phase three, approximately 410 survey responders indicated they had participated in phase two outreach. **Sixty five percent saw how public feedback shaped what we were proposing.** Fifteen percent did not. Twenty percent weren’t sure.

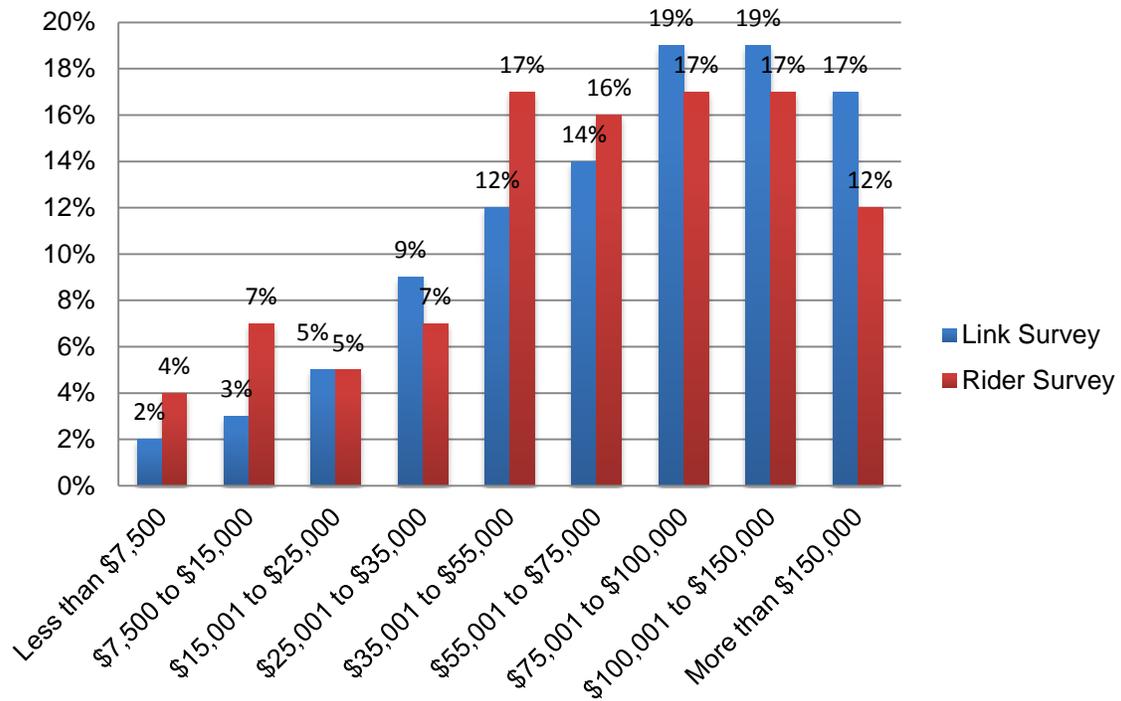

Did we engage participants who are reflective of our ridership in the project area?

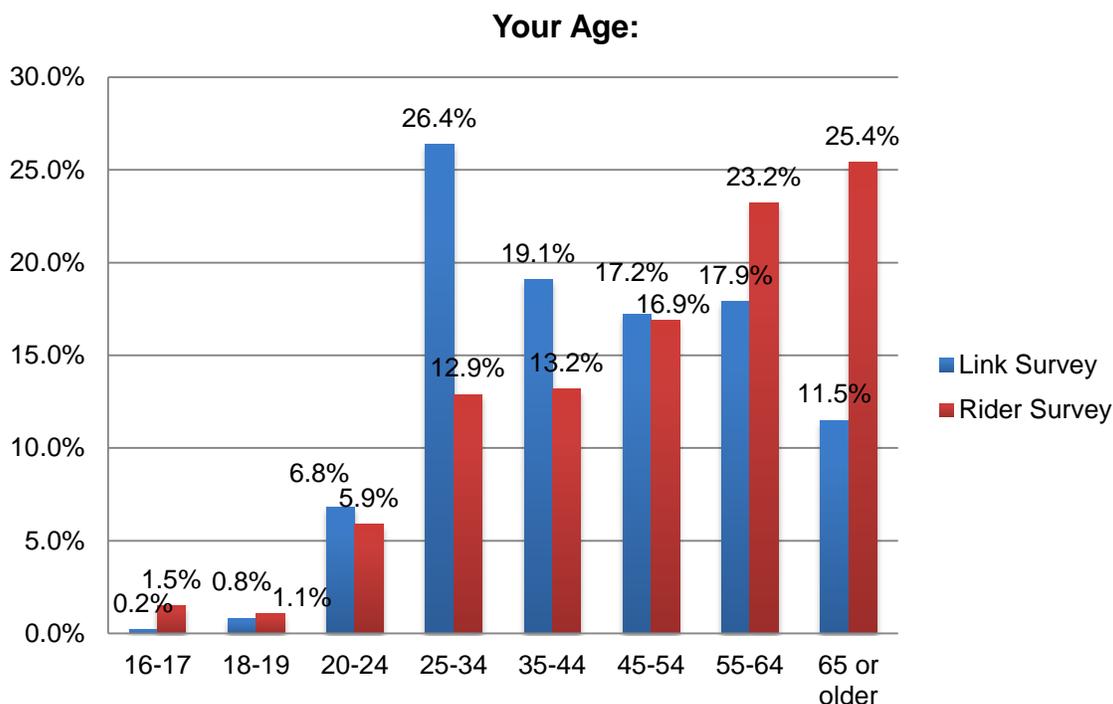

We asked a series of demographic questions in our online survey in phases two and three to help us assure we were hearing from a group of people who are reflective of Metro ridership. The following charts compare the demographic information collected in our phase three survey with demographic information collected in Metro’s most recent rider survey for the zip codes included in the project area. Please note the numbers from Metro’s rider survey comprise a small sample size.

Do you consider yourself...

What is your annual household income?

On the whole in phase three, our online survey participants have a generally consistent makeup in ethnicity and annual household income to our ridership in the project area. However, we had a greater participation rate among young adults and less of a participation rate among people 55 and older compared to our ridership. This stresses the importance of our work to facilitate public meetings and meet face-to-face with our riders where they are so we can hear from those who may not participate in online engagement for a variety of reasons.

Do participants feel their participation will result in better decisions?

In each phase of outreach we asked in our online survey whether participants agreed that taking the time to share their feedback would result in better decisions being made. Here are the results:

- Phase 1 – More than 80 percent strongly or somewhat agreed
- Phase 2 – Nearly 80 percent strongly or somewhat agreed
- Phase 3 – More than 70 percent strongly or somewhat agreed

Did participants benefit from access to understandable, accurate, and transparent information?

In each phase of outreach we asked questions about whether people felt welcome to provide feedback and whether they felt they had enough time to provide meaningful feedback; and, in phases two and three, what resources they used to understand what we were asking for feedback on, and whether those resources were helpful.

In Phase 1

- Nearly 90 percent of respondents strongly or somewhat agreed that the notice, advertisement, and/or invitation to learn more and share thoughts about Metro's Link Connections project was clear and welcoming.
- More than 80 percent of respondents felt they were given enough time to provide meaningful feedback.

In Phase 2

- Ninety three percent of respondents strongly or somewhat agreed that the notice, advertisement, and/or invitation to learn more and share thoughts about Metro's Link Connections project was clear and welcoming.
- The top three resources participants used to learn about the alternatives were Metro's website (81%), information shared via the news media or neighborhood blog (18%), and Sound Transit's website (18%). When asked whether the resources the respondent used to learn about the alternatives helped them understand the concepts, 80 percent said, "Yes," seven percent said, "No," and 12 percent said, "I don't know."
- Seventy eight percent of respondents felt they were given enough time to provide meaningful feedback.

In Phase 3

- Eighty eight percent of respondents strongly or somewhat agreed that the notice, advertisement, and/or invitation to learn more and share thoughts about Metro's Link Connections project was clear and welcoming.
- The top three resources participants used to learn about the alternatives were Metro's website (90%), Sound Transit's website (23%), and information shared via the news media or neighborhood blog (19%). When asked whether the resources the respondent used to learn about the alternatives helped them understand the concepts, eighty six percent said, "Yes," 7 percent said, "No," and 7 percent said, "I don't know."
- Seventy six percent of respondents felt they were given enough time to provide meaningful feedback.

Other feedback about our outreach process

We provided an open-ended question in our surveys allowing people to provide additional feedback about our outreach. This feedback was used to improve our effectiveness and be responsive to the public.

Some examples of how we used this feedback were:

- **Our Phase 2 survey**—for some our survey was too long; for others, they ran into trouble filling out the survey on their mobile devices; some people ended up losing their input and starting over. Others gave up and called to complain and express their views over the phone. We investigated the issues people reported completing the survey and made some changes to how it was formatted during the course of the outreach. We let people know what we learned, what we did, and how they could still give us input in a [blog post](#) published and emailed to project email list subscribers.
- **In Phase 2... People told us to use video**—Several people thought a general overview of the concepts provided in the form of a video would have been helpful. Reading through text on a website only appeals to certain types of learners. We need to do a better job providing information for all types of learners. So during phase 3 we listened and used “Talks with Ted” – a series of videos to describe what was in the proposed changes and how it responded to people’s feedback – to provide a different way to absorb the information. These videos were well-received by the public.
- **In Phase 3... complaints about our survey** – Some people complained that our survey in phase three didn’t allow them to give feedback in the way they wanted. We sent a reminder to route subscribers and our project list in the final week of the public comment period. In this reminder, we walked through all the ways people could provide input – including skipping through the survey questions until participants get to the place in the survey where we provided a way to comment about a route or set of routes and emailing or calling us directly – emphasizing that all channels are equally valid.
- Regardless of how people felt about what we were proposing, we received a clear message that they want to see the results of their feedback and how we reflect this in the changes we put forth. By phase three, we built text into each survey question to demonstrate how public feedback shaped what was being proposed – helping pave the way for the highest number of people (more than sixty percent) reporting that they could see how public input shaped what we were proposing.

There were numerous other comments about Metro and our outreach – from to whom we reached out to our survey. These comments will help us learn and continue to improve our communications and engagement efforts moving forward.

Appendix A: Online Survey Questions – Phase 1

Link Connections Survey

What will change when Link comes to Capitol Hill and the UW?

Help us improve connections between buses and light rail when Link service is extended

Starting in 2016, Sound Transit's University Link light rail extension will connect Capitol Hill and the University District with downtown Seattle, Rainier Valley, and Sea-Tac Airport.

Metro and Sound Transit are thinking about ways to connect the new light rail service with buses to make an efficient network of service in these areas. Please share how you use bus service today, what works well, what you'd like to see change, and what your priorities are. Your input will help shape the future of transit in these areas.

We estimate this survey will take about 10 minutes to complete.

How you use transit

1. What types of transportation do you use now, or have you used in the past? (select all that apply)

- Bicycle
- Car2Go, Zipcar, or similar private car sharing service
- Carpool
- Community Transit bus
- Drive my own car alone
- Hyde Shuttle (Senior Services)
- King County Water Taxi
- Metro Access transportation
- Metro bus
- Metro VanPool
- Motorcycle or scooter
- Pierce Transit bus
- Seattle streetcar
- Senior Services Volunteer Transportation
- Sound Transit bus
- Sound Transit Link light rail
- Sounder train
- Taxi, Lyft, Uber, Sidecar, or other similar service
- Washington State Ferry
- Walk or use wheelchair
- Other (please specify)

2. If you ride the bus, or have in the past, please indicate which of the following route(s) you use or have used.

- | | | |
|--------------------------------|---------------------------------|--|
| <input type="checkbox"/> 1 | <input type="checkbox"/> 48 | <input type="checkbox"/> 242 |
| <input type="checkbox"/> 2 | <input type="checkbox"/> 49 | <input type="checkbox"/> 252 |
| <input type="checkbox"/> 3 | <input type="checkbox"/> 60 | <input type="checkbox"/> 255 |
| <input type="checkbox"/> 4 | <input type="checkbox"/> 64X | <input type="checkbox"/> 257 |
| <input type="checkbox"/> 8 | <input type="checkbox"/> 65 | <input type="checkbox"/> 271 |
| <input type="checkbox"/> 9 | <input type="checkbox"/> 66 | <input type="checkbox"/> 277 |
| <input type="checkbox"/> 10 | <input type="checkbox"/> 67 | <input type="checkbox"/> 311 |
| <input type="checkbox"/> 11 | <input type="checkbox"/> 68 | <input type="checkbox"/> 316 |
| <input type="checkbox"/> 12 | <input type="checkbox"/> 70 | <input type="checkbox"/> 372 |
| <input type="checkbox"/> 13 | <input type="checkbox"/> 71/71X | <input type="checkbox"/> 373 |
| <input type="checkbox"/> 14 | <input type="checkbox"/> 72/72X | <input type="checkbox"/> ST 512 |
| <input type="checkbox"/> 16 | <input type="checkbox"/> 73/73X | <input type="checkbox"/> ST 540 |
| <input type="checkbox"/> 25 | <input type="checkbox"/> 74 | <input type="checkbox"/> ST 542 |
| <input type="checkbox"/> 26/28 | <input type="checkbox"/> 75 | <input type="checkbox"/> ST 545 |
| <input type="checkbox"/> 27 | <input type="checkbox"/> 76 | <input type="checkbox"/> ST 555 |
| <input type="checkbox"/> 30 | <input type="checkbox"/> 77 | <input type="checkbox"/> ST 556 |
| <input type="checkbox"/> 31 | <input type="checkbox"/> 106 | <input type="checkbox"/> ST 586 |
| <input type="checkbox"/> 32 | <input type="checkbox"/> 107 | <input type="checkbox"/> None of these |
| <input type="checkbox"/> 43 | <input type="checkbox"/> 167 | |
| <input type="checkbox"/> 44 | <input type="checkbox"/> 197 | |

3. Where do you currently go on transit, or where would you like to be able to go on transit? List specific names and/or addresses.

4. Are there any significant destinations such as cultural, religious, low-income, senior, social service locations or parks that we should include as we analyze service needs?

How transit works for you

5. How do the transit options you use work for you? Do they get you where you want to go?

6. What are the top three things that prevent you from using public transportation, or make it difficult for you to use it? (choose up to 3)

- It takes too long to get to my destination
- Stations/stops are too far away from my home, work, school, etc.
- Bus/train schedules are not reliable
- Service isn't frequent enough
- I have to transfer
- Buses/trains are too crowded
- Obstacles due to limited mobility or disability
- Service isn't offered early enough/late enough
- Service isn't available on weekends
- Buses, trains aren't clean or comfortable
- Stations, stops, buses, or trains aren't safe

Why?

7. Are there particular corridors or places that need service in the evenings, on weekends, very early in the morning, or late at night?

Tradeoffs

Information about how people use the transit system, where they want to go, and riders' priorities helps us plan a convenient and efficient transit system.

Limited resources sometimes mean tradeoffs—like reducing the number of stops in order to improve speed and reliability. It's important for Metro and Sound Transit to know what features are top priorities for our riders.

8. What is most important to you when deciding whether to take the bus? (choose up to 3)

- How fast I can get to my destination
- Whether the bus will come on time
- How far the bus stop is from my home/destination
- How long, or during what parts of the day, service is offered
- How traffic congestion will affect travel time
- Parking availability/cost if I drive
- Cost
- Environmental impact
- How comfortable the trip is
- Whether a transfer is required

9. What would cause you to ride transit more? (choose your top 5)

- If it took less time to get to my destination
- If stations/stops were closer to my home/work/school
- If it were the less expensive transportation option
- If travel times were more reliable
- If it ran more often
- If I didn't have to transfer
- If stations/stops were safer
- If buses/trains were cleaner/nicer
- If it ran later/earlier
- If it ran on weekends
- If seats were more comfortable
- If it offered reliable WiFi access

10. How many minutes would you be willing to spend getting to transit (walking, biking, or some other mode) that offered very frequent transit service (i.e., service that comes every 10 minutes or less)?

- 2 minutes or less
- 5 minutes or less
- 10 minutes or less
- 15 minutes or less
- More than 15 minutes

11. A more-efficient network of service that connects more people to more places may require more transfers. What would make transfers more acceptable to you?

I would be willing to transfer if (choose up to 3):

- I only had to wait 5 minutes or less for my first bus or train
- I only had to wait 5 minutes or less for my next bus or train
- I only had to wait 10 minutes or less for my first bus or train
- I only had to wait 10 minutes or less for my next bus or train
- Buses and/or trains arrived on time
- There was enough room on buses/trains
- The transfer stop was safe
- The transfer stop had good shelter from the weather
- The transfer was more accessible for people with limited mobility
- The transfer was more accessible for wheelchair users
- The transfer was more accessible for people who are visually or hearing impaired

How would you like to receive updates

Please let us know what are the best ways to stay in touch with you about this project and let you know about future opportunities to help Metro plan service.

12. I would like to receive updates by email.

Yes

No

Enter email address

13. I would like my community organization to receive updates by email. The organization's name and email address are:

Organization:

Email Address:

14. I would like to receive updates by visiting your website (www.kingcounty.gov/Metro/LinkConnections).

Yes

No

15. I would like to receive updates in some other way (please specify):

Feedback about our outreach (optional)

The following questions are optional. Your answers will help us improve the way we engage members of the community as we make decisions about transit service.

16. How did you hear about the opportunity to participate in the Link Connections project? (check all that apply)

- News media or neighborhood blog
- Metro Matters blog
- Metro or King County website
- Metro email or text alert
- Advertisement on/in bus
- Poster at my bus stop
- Handout given to me at a transit center or community event
- Twitter
- Facebook
- Friend
- Employer
- An organization I'm involved with

Other (please specify):

17. The notice, advertisement, and/or invitation to learn more and share your thoughts about Metro's Link Connections project was clear and welcoming.

- Strongly agree
- Somewhat agree
- Somewhat disagree
- Strongly disagree
- No opinion

18. From the time you were notified, were you given enough time to provide meaningful feedback in this phase of Metro's Link Connections planning process?

- Yes
- No
- I don't know

19. I believe that taking the time to share my views will result in better decisions being made about service changes once Link service is extended to the UW.

- Strongly agree
- Somewhat agree
- Somewhat disagree
- Strongly disagree
- No opinion

20. Please share any additional feedback you have about our outreach process.

Appendix B: Online Survey Questions – Phase 2

Welcome

Metro and Sound Transit have developed two alternative concepts for how bus service could be integrated with light rail. These concepts include new and improved connections and changes to make bus service more efficient, reliable, and easy to use. In this survey, we're asking you to think about how you might use the alternative concepts, what you like and dislike, and your ideas to make each alternative better. You'll be able to give us feedback about both alternatives by area and/or by route. Your input will help shape a proposal, which we'll share for public comments in May before making a recommendation to the King County Council and the Sound Transit Board. They will then make decisions about how to change bus service after Link service begins in Capitol Hill and the University District. We hope you've taken some time to explore the alternatives on our project website before completing this survey. **Friendly warning:** depending on which sections you choose to complete, this survey might take you longer than 15 minutes.

1. What city or neighborhood do you live in? (check one)

- | | | |
|--|--|---|
| <input type="radio"/> Bellevue | <input type="radio"/> Kingsgate | <input type="radio"/> Roosevelt |
| <input type="radio"/> Bryant | <input type="radio"/> Kirkland | <input type="radio"/> Sand Point |

| <input type="checkbox"/> 48 | <input type="checkbox"/> 238 | |
| <input type="checkbox"/> 49 | <input type="checkbox"/> 242 | |
| <input type="checkbox"/> Other (please specify) | | |

5. How often do you ride transit?

- 5 or more times per week
- 3-4 times per week
- 1-2 times per week
- Less than once per week

Your feedback on the bus change concepts being considered

Metro and Sound Transit have developed two alternative concepts for how transit could be coordinated with light rail. These concepts include new and improved connections and changes to make transit more efficient, reliable, and easy to use.

- The goal of **Alternative 1** is to create a consolidated, frequent network of service.
- **Alternative 2** involves more modest changes. This concept assumes that riders will switch to Link light rail only where it will make their travel times significantly shorter, but it still responds to likely future shifts in the transit market.

Both concepts...

- Are designed using Metro's Service Guidelines and public input from our first round of outreach last November.
- Aim to provide more reliable trip times for bus riders with a transfer to Link light rail, which will provide congestion-free trips (Capitol Hill-downtown Seattle in four minutes; Husky Stadium-downtown Seattle in eight minutes, and Capitol Hill-University of Washington in four minutes).
- Assume the same bus hour resources as we have on the streets today (for example, they do not take into account added investments by the City of Seattle that will begin in June and September 2015).

Alternative 1

- Consolidates service into fewer routes on major streets where ridership is highest, for more productivity and efficiency.
- Provides service frequencies of 15 minutes or better in all places where service remains. (Currently, most routes in northeast Seattle come every 30 minutes.) Increased frequency means less wait time when catching a bus or transferring between services, and a more dependable travel time.
- Offers more new connections between destinations we've heard are important to you.
- Concentrates riders at fewer transfer points, allowing us to focus resources on amenities at these locations.
- Takes the uncertainty and pre-planning out of choosing to ride. Riders would know where to go to catch the bus and would not have to worry about when the bus is coming.
- Riders in some areas would have to travel farther to reach transit.

Alternative 2

- Maintains more geographic coverage. For the most part, riders could reach transit the same way they do today, without having to travel farther.
- Offers a choice to riders between having a one-seat ride between major destinations or transferring.
- Provides less-frequent service than Alternative 1, with longer wait times for transfers.
- Offers some new connections between destinations we've heard are important to you.

If you haven't already taken the time to study how these alternative concepts would affect your area or route, please do so on our [project website](#).

6. Would you like to give us feedback on changes being considered for north Seattle (including neighborhoods in northeast and northwest Seattle)?

- Yes
- No

7. What do you like most about the Alternative 1 concept in north Seattle? (choose up to 10)

- Everything
- Nothing
- In general, the frequency of service in this network concept
- New, frequent, direct connection between Sand Point, Wedgwood, Ravenna, Roosevelt, Green Lake, and Wallingford (concept for Route 16)
- Improved frequency between the University District and northeast Seattle neighborhoods, including Wedgwood, Ravenna, Maple Leaf, Lake City, and Sand Point (concepts for route 65, 67, 75, and 372X)
- New weekend service between Lake City, Ravenna, and the University District (concept for Route 372X)
- New direct connection between Ballard, Greenwood, Green Lake, the new University of Washington Station, and the Eastside (concept for through-routing routes 45 and 271)
- Faster connection between east Green Lake, Wallingford, and downtown Seattle (concept for Route 26X)
- New connection between Wallingford and Fremont (concept for Route 16)
- New, direct peak-period connection between South Lake Union and northeast Seattle neighborhoods (concept for routes 64X and 66X)
- Frequent, all-day service between the new University of Washington Link station, University Village, and Seattle Children's Hospital (concept for Routes 65, 75, and 255)
- Frequent, all-day service between the Eastside and Seattle Children's Hospital (concept for Route 255)
- Frequent, all-day service between the new University of Washington Station and University Way/The Ave (concept for routes 45, 48, 67, and 271)
- Frequent, all-day service between Northgate, Maple Leaf, Roosevelt, the University District, and the new University of Washington Link station (concept for Route 67)
- More direct service between Green Lake and Northgate (concept for Route 16)
- Keeping peak service between northeast Seattle neighborhoods and downtown Seattle (concept for routes 73, 74, 76, 77, and 312)
- Keeping peak service between Maple Leaf (on 5th Avenue NE and 15th Avenue NE) and downtown Seattle (concepts for routes 66, 77, and 373)
- Frequent, all-day service between the University District, Overlake, downtown Redmond, and Bear Creek Park and Ride (concept for Route 542)
- Faster, more reliable travel times between Capitol Hill and NE Seattle
- Other (please specify)

Your feedback on north Seattle concepts, continued

8. What concerns you the most about the alternative 1 concept in north Seattle? (choose up to five)

- Everything
- The benefits outweigh any concerns I might have
- Slower connection to downtown Seattle from Stone Way (concept for Route 16)
- No direct connection between Lake City and Ravenna (concept for Route 72)
- From 5th Avenue NE, having to travel farther to access service on Roosevelt Way NE (concept for routes 66 and 67)
- From 15th Avenue NE, having to travel farther to access service on Roosevelt Way NE (concept for routes 73 and 67)
- From from 11th Avenue NE/Roosevelt Way NE, having to travel farther to access service on University Way NE (concept to consolidate service on University Way/The Ave with routes 48 and 67)
- In Laurelhurst, having to travel farther to access service on Sand Point Way (concept for Route 25)
- No direct service between College Way N/Meridian Ave N and Wallingford and Green Lake (concept for routes 16 and 26X)
- In View Ridge and Windermere, having to travel farther to access service on 35th Avenue NE, Sand Point Way, or NE 65th Street during off-peak times (concepts for routes 71, 72, 16, 65, and 75)
- From NE 75th Street, NE 55th Street, and 40th Avenue NE, having to travel farther to access service during off-peak times (concepts for routes 71, 16, 65, and 75)
- Other (please specify)

Your feedback on north Seattle concepts, continued

9. How would your use of transit be affected if Alternative 1 were implemented in north Seattle?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

10. How would you improve Alternative 1 in north Seattle – keeping in mind that the goal of this network concept is to have a consolidated, frequent network of service?

Your feedback on north Seattle concepts, continued

Alternative 2

11. What do you like most about Alternative 2 in north Seattle? (choose up to seven)

- Everything
- Nothing
- New, direct connection between Sand Point, Wedgwood, Ravenna, and Roosevelt (concept for Route 71)
- Frequent, all-day service between the University District and the new University of Washington Link station (concept for routes 43, 44, 48, 70, and 271)
- Frequent, all-day service between Northgate, Maple Leaf, Roosevelt, the University District, and downtown Seattle (concept for Route 73)
- More direct service between Green Lake and Northgate (concept for Route 16)
- Direct service between Laurelhurst, University Village, and the new University of Washington Link station (concept for Route 62)
- All-day service between Shoreline, Jackson Park, and the University District (concept for Route 373X)
- New weekend service between Lake City, Ravenna, and the University District (concept for Route 372X)
- Keeps frequent all-day service on 11th Avenue NE/Roosevelt Avenue NE in the University District (concept for Route 48)
- All-Day service on NE 75th Street, 40th Avenue NE, and NE 55th Street (Concept for Route 68)
- Keeps service to Laurelhurst
- Keeps service to Montlake
- Keeps service on 19th Avenue E (Capitol Hill)
- Other (please specify)

12. What concerns you the most about Alternative 2 in north Seattle? (choose up to five)

- Everything
- The benefits outweigh any concerns I might have
- No direct service between College Way N/Meridian Avenue N and Green Lake and Wallingford (concept for Route 16).
- No direct connection between Lake City and Ravenna (concept for Route 72)
- In Maple Leaf, having to travel farther to access all-day service on Roosevelt Way NE (concept for routes 66X, 67, and 73)
- Longer wait times for people connecting between very frequent light rail service and bus service that runs every 30 minutes (concepts for routes 25, 65, 68, and 75)
- In general, the lack of frequent service in this network concept
- Other (please specify)

Your feedback on north Seattle concepts, continued

13. How would your use of transit be affected if Alternative 2 were implemented in north Seattle?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

14. How would you improve Alternative 2 in north Seattle – keeping in mind that the goal of this network concept is to keep more coverage while still taking advantage of connections with new light rail service?

Capitol Hill and Central Area

15. Would you like to give us feedback on changes being considered for the Capitol Hill and Central Area, including Montlake and Madison Valley?

Yes

No

Your feedback on Capitol Hill and Central Area concepts

Alternative 1

16. What do you like most about Alternative 1 on Capitol Hill and in the Central Area? (choose up to five)

- Everything
- Nothing
- Improved frequency of all-day service connecting Madison Valley, Capitol Hill, Denny Regrade, South Lake Union, and Seattle Center (concept for Route 8)
- Improved, frequent all-day service along Madison Street between Broadway and downtown Seattle (concept for Route 49)
- New, direct connection between Madison Valley, E John Street, and Link light rail at the new Capitol Hill Station (concept for Route 8)
- Keeps a direct connection between the Central Area – along Martin Luther King, Jr. Way – and Link light rail at the new Capitol Hill Station (concept for Route 38)
- Increased frequency between southeast Seattle, the Central Area, the University of Washington, and the University District (concept for Route 48)
- New direct connection between Rainier Freeway Station, First Hill hospitals, Seattle Central College, and Group Health on 15th Avenue (concept for Route 9X)
- New connection between north Capitol Hill and Madison/Marion corridor (Concept for Route 49)
- Faster, more reliable travel times between Capitol Hill and northeast Seattle
- In general, the frequency of service in this network concept
- Other (please specify)

17. What concerns you the most about Alternative 1 on Capitol Hill and in the Central Area? (choose up to five)

- Everything
- The benefits outweigh any concerns I might have
- Loss of direct connection between the 24th Avenue E corridor and downtown Seattle (concept for Route 43)
- No direct connection between the 24th Avenue E corridor and the new Link Capitol Hill Station (concept for Route 43)
- Less service in Pike Street/Pine Street corridor (concept for routes 11, 43, and 49)
- No service on E Madison Street between Broadway and 16th Avenue (concept for routes 11 and 12)
- Loss of direct connection between Madison Valley and downtown Seattle (concept for routes 11 and 8)
- From 19th Avenue E, having to travel farther to access service on 15th Avenue E, 23rd Avenue E, E John Street, E Thomas Street, or E Madison Street (concept for Route 12)
- From Boyer Avenue E, having to travel farther to access service on 24th Avenue E or Harvard Avenue (concept for Route 25)
- From Lakeview Boulevard, having to travel farther to access service on Broadway or Eastlake Avenue E (concept for Route 25)
- No direct service between the University District and the top of Capitol Hill (concept for Route 43)
- Other (please specify)

Your feedback on Capitol Hill and Central Area concepts, continued

18. How would your use of transit be affected if Alternative 1 were implemented on Capitol Hill and in the Central Area?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

19. How would you improve Alternative 1 on Capitol Hill and in the Central Area – keeping in mind that the goal of this network concept is to have a consolidated, frequent network of service?

Your feedback on Capitol Hill and Central Area concepts, continued

Alternative 2

20. What do you like most about Alternative 2 on Capitol Hill and in the Central Area? (choose up to four)

- Everything
- Nothing
- Connection between Link light rail at the new University of Washington Station and Boyer Avenue E, Furhman Avenue E, and Lakeview Boulevard E (concept for Route 25)
- Keeps service on 19th Avenue E (concept for Route 12)
- Keeps more service in the Pike/Pine corridor (concept for routes 10, 11, 43, and 49)
- Keeps a direct connection to downtown Seattle from 24th Avenue E and the top of Capitol Hill (concept for Route 43)
- Provides connection to the new Link Capitol Hill Station from 24th Avenue E (concept for Route 43)
- Keeps a direct connection to downtown Seattle from Madison Valley (concept for Route 11)
- Other (please specify)

21. What concerns you the most about Alternative 2 on Capitol Hill and in the Central Area? (choose up to two)

- Everything
- The benefits of Alternative 2 outweigh any concerns I might have
- No connection to Link light rail from Madison Valley
- Continued lack of reliable service on Route 8
- In general, the lack of frequent service in this network
- Other (please specify)

Your feedback on Capitol Hill and Central Area concepts, continued

22. How would your use of transit be affected if Alternative 2 were implemented on Capitol Hill and in the Central Area?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

23. How would you improve Alternative 2 on Capitol Hill and in the Central Area – keeping in mind that the goal of this network is to keep more coverage while still taking advantage of connections with new light rail service?

Eastside

24. Would you like to give us feedback on changes being considered for the Eastside, including service that travels on State Route 520 and State Route 522?

Yes

No

Your feedback on Eastside concepts

Alternative 1

25. What do you like most about Alternative 1 on the Eastside? (choose up to 10)

- Everything
- Nothing
- Improved night and weekend service between Eastgate, Bellevue, and the University District (concept for Route 271)
- New direct connection between Eastgate, Bellevue, Ballard, Greenwood, and Green Lake (concept for through-routing routes 45 and 271)
- Increased all-day service to Issaquah Highlands (concept for Route 207)
- More direct service during peak shoulders (on either side of peak periods) from Redmond to downtown Seattle to help address overcrowding (concept for Route 545)
- More reliable travel times between Redmond and the south end of downtown Seattle, via a connection to Link light rail (concept for Route 542)
- Increased midday service between Redmond, the University of Washington, the UW Medical Center, and the University District (concept for Route 542)
- Faster service between Redmond and Seattle Children’s Hospital via a transfer to frequent bus service at Husky Stadium (concepts for routes 65, 255, 542, and 545)
- More service across Lake Washington from downtown Kirkland (concept for routes 255 and 256)
- Direct connection between downtown Kirkland, the University of Washington, Link light rail at the new University of Washington Station, University Village, and Seattle Children’s Hospital (concept for Route 255)
- Keeps direct connection between downtown Kirkland and downtown Seattle during peak commute times (concept for Route 255X)
- Increased, peak-only service across Lake Washington from Houghton Park-and-Ride (concept for Route 540)
- New, direct connections between South Lake Union, Woodinville, Totem Lake, and Kirkland (concept for Route 311)
- New direct service from Bear Creek Park-and-Ride to the University of Washington and Link light rail at the new University of Washington station (concept for Route 542)
- More peak period service across Lake Washington from the Woodinville Park-and-Ride, Brickyard Park-and-Ride, and Totem Lake Freeway Station (concept for Route 311)
- Improved service frequency between Bothell, Kenmore, Lake City, and the University District (concept for Route 372)
- Other (please specify)

26. What concerns you the most about Alternative 1 on the Eastside? (choose up to five)

- Transfer required between Issaquah and downtown Bellevue and the University District outside of peak commute times (concept for Route 271)
- Bus-light rail transfer required to travel between Redmond and downtown Seattle during weekday off-peak hours (concept for Route 545)
- Bus-light rail transfer required on weekends between Redmond and downtown Seattle (concept for Route 545)
- Loss of direct service to the center of the University District and the UW campus from South Kirkland (Concept for Route 540)
- Transfer required between Link light rail and bus service during off-peak commute times between Kirkland and downtown Seattle (Concept for Route 255)
- Transfer required to get between neighborhoods north of Totem Lake and downtown Seattle (Concept for routes 277 and 255)
- Reduced service frequency between Issaquah and the Eastgate Park-and-Ride (concept for Routes 207 and 271)
- No direct connection between Woodinville and the University District (concept for Route 372)
- No direct connection between Overlake and neighborhoods north of the University District (concept for Route 242)
- Other (please specify)

Your feedback on Eastside concepts, continued

27. How would your use of transit be affected if Alternative 1 were implemented on the Eastside?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

28. How would you improve Alternative 1 on the Eastside – keeping in mind that the goal of this network is to have a consolidated, frequent network of service?

Your feedback on Eastside concepts, continued

Alternative 2

29. What do you like most about Alternative 2 on the Eastside? (choose up to five)

- Everything
- Nothing
- Keeps weekday midday direct service between Redmond and downtown Seattle (Concept for Route 545)
- Keeps weekday evening and night service between Redmond and downtown Seattle (Concept for Route 545)
- Keeps weekend direct service between Redmond and downtown Seattle (Concept for Route 545)
- New Route 541 provides increased peak service to the new Link University of Washington Station via Overlake Village
- Maintains direct service to the center of the University District and the UW campus from South Kirkland (Concept for Route 540)
- Route 255 keeps all-day direct service to downtown Seattle on weekdays
- Route 255 keeps weekend direct service to downtown Seattle.
- Route 311 keeps direct service to downtown Seattle without deviating to the University of Washington
- Keeps existing routes 252 and 257
- Keeps all-day service on Route 271 from Issaquah to the University of Washington
- Other (please specify)

30. What concerns you most about Alternative 2 on the Eastside? (choose up to four)

- Everything
- The benefits outweigh any concerns I might have
- It does not take advantage of the investment in Link light rail service to better distribute bus resources
- No new weekend service to the new Link University of Washington station
- No direct service from Bear Creek to the University of Washington
- Turn-back trips on Route 545 at the Overlake Transit Center
- No frequent all-day connection between downtown Kirkland and UW Link light rail station
- Less frequent bus service on Route 271 on nights and Saturdays
- No new direct service from State Route 520 to Children's Hospital
- Other (please specify)

Your feedback on Eastside concepts, continued

31. How would your use of transit be affected if Alternative 2 were implemented on the Eastside?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

32. How would you improve Alternative 2 on the Eastside – keeping in mind that the goal of this network is to keep more coverage while still taking advantage of connections with new light rail service?

Eastlake and South Lake Union

33. Would you like to give us feedback on changes being considered for Eastlake and South Lake Union?

- Yes
- No

Your feedback on Eastlake and South Lake Union concepts

Alternative 1

34. What do you like most about Alternative 1 in Eastlake and South Lake Union? (choose up to four)

- Everything
- Nothing
- Faster, more direct commuter connections between Maple Leaf, Green Lake, and South Lake Union via I-5 (Concept for Route 66)
- Faster, more direct commuter connections between Wedgwood, Ravenna, and South Lake Union via I-5 (Concept for Route 64)
- New, direct connections between South Lake Union, Woodinville, Totem Lake, and Kirkland (concept for Route 311)
- More-frequent service during peak commute times between Eastlake, South Lake Union, the south end of the University District, the University of Washington, the UW Medical Center, and Link light rail at the new University of Washington Station (concept for Route 70)
- Improved frequency between South Lake Union, Seattle Center, and Capitol Hill (Concept for Route 8)
- New direct connection between South Lake Union and Madison Valley (Concept for Route 8)
- Other (please specify)

35. What concerns you the most about Alternative 1 in Eastlake and South Lake Union? (choose up to three)

- Everything
- The benefits outweigh any concerns I might have
- Loss of direct connection between Eastlake and the heart of the University District (concept for routes 66X and 70)
- No direct connection to neighborhoods north of the University District during off-peak hours (concept for Route 66X)
- From Boyer Avenue E, having to travel farther to access service on 24th Avenue E or Harvard Avenue (concept for Route 25)
- From Lakeview Boulevard, having to travel farther to access service on Broadway or Eastlake Avenue E (concept for Route 25)
- Other (please specify)

Your feedback on Eastlake and South Lake Union concepts, continued

36. How would your use of transit be affected if Alternative 1 were implemented in Eastlake and South Lake Union?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

37. How would you improve Alternative 1 in Eastlake and South Lake Union – keeping in mind the goal of this network concept is to have a consolidated, frequent network of service?

Your feedback on Eastlake and South Lake Union concepts, continued

Alternative 2

38. What do you like most about Alternative 2 in Eastlake and South Lake Union?

39. What concerns you the most about Alternative 2 in Eastlake and South Lake Union?

Your feedback on Eastlake and South Lake Union concepts, continued

40. How would your use of transit be affected if Alternative 2 were implemented in Eastlake and South Lake Union?

- I would use transit more
- I would use transit the same
- I would use transit less
- I don't know

Why?

41. How would you improve Alternative 2 in Eastlake and South Lake Union – keeping in mind that the goal of this network concept is to keep more coverage while still taking advantage of connections with new light rail service?

Feedback – Final Thoughts

42. Would you like to provide feedback on a specific route or routes?

Yes

No

Your feedback on a specific route or routes

43. What route(s) would you like to give us feedback about? (check all that apply)

Other (please specify)

44. What would you like to tell us about this route or these routes?

Demographics and household information (optional)

45. How many persons, including yourself, live in your household?

- 1
- 2
- 3
- 4
- 5 or more

46. How many persons in your household, including yourself, ride the bus at least once per week?

- 0
- 1
- 2
- 3
- 4
- 5 or more

47. Your age:

- 15 or younger
- 16-17
- 18-19
- 20-24
- 25-34
- 35-44
- 45-54
- 55-64
- 65 or older
- I would rather not say

Demographics and household information (optional), continued

48. If you have a disability, please indicate what kind. (check all that apply)

- Mobility
- Vision
- Hearing
- Cognitive
- I would rather not share
- Not applicable
- Other (please specify)

49. Do you consider yourself... (check all that apply)

- Asian-American/Pacific Islander
- American Indian/Alaska Native
- Black or African-American
- Spanish, Hispanic, Latino (Mexican, Mexican American, Chicano, or Latino)
- Multiple ethnicities
- White or Caucasian
- I would rather not say
- Other (please specify)

50. What is the primary language you speak at home?

- Amharic
- Arabic
- Chinese (Mandarin, Cantonese, etc.)
- English
- Korean
- Oromo
- Russian
- Spanish
- Somali
- Tagalog
- Tigrinya
- Ukrainian
- Vietnamese
- I would rather not say
- Other (please specify)

Demographics and household information (optional), continued

51. How many cars or trucks, in working condition, do you have available for personal use?

- 0
- 1
- 2
- 3
- 4 or more

52. What is your annual household income?

- Less than \$7,500
- \$7,500 to \$15,000
- \$15,001 to \$25,000
- \$25,001 to \$35,000
- \$35,001 to \$55,000
- \$55,001 to \$75,000
- \$75,001 to \$100,000
- \$100,001 to \$150,000
- More than \$150,000
- I don't know
- I would rather not say

Your feedback about the outreach process

53. How did you hear about Metro and Sound Transit’s Link Connections project? (check all that apply)

- News media or neighborhood blog
- Metro Matters blog
- Sound Transit blog
- Metro or King County website
- Sound Transit website
- Metro email or text alert
- Sound Transit email or text alert
- Advertisement on/in bus
- Poster at a bus stop
- Handout given to me at a transit center or community event
- Twitter
- Facebook
- Friend
- Employer
- An organization I’m involved with
- Other (please specify)

54. The notice, advertisement, and/or invitation to learn more and share your thoughts about Metro and Sound Transit’s bus change concepts was clear and welcoming.

- Strongly agree
- Somewhat agree
- Somewhat disagree
- Strongly disagree

55. What resources did you use to understand the bus change concepts that Metro and Sound Transit are considering? (check all that apply)

- Metro’s website
- Sound Transit’s website
- Metro Matters blog
- Sound Transit’s blog
- Attended one or more of Metro and Sound Transit’s public meetings
- Spoke with staff members at an information table or community event
- Attended a presentation by staff members at a meeting hosted by another group
- Information shared via a Sounding Board member
- Information shared via the news media or neighborhood blog
- Other (please specify)

Your feedback about the outreach process, continued

56. Did these resources help you understand the change concepts being considered and how these changes would affect you?

- Yes
- No
- I don't know

Why?

57. From the time you were notified, were you given enough time to provide meaningful feedback in Metro's and/or Sound Transit's decision-making processes?

- Yes
- No
- I don't know

58. Did you participate in the first round of public outreach about the Link Connections project last November?

- Yes
- No
- I don't know

Participation last November

59. Do you see how your feedback helped shape some of the ideas being considered?

- Yes
- No
- I don't know

Why?

Your feedback about the outreach process, continued

60. I believe that taking the time to share my views will result in better decisions about bus changes that will be made following the start of Link light rail service to Capitol Hill and the University of Washington's Husky Stadium.

- Strongly agree
- Somewhat agree
- Somewhat disagree
- Strongly disagree
- No opinion

61. Please share any additional feedback you have about our outreach process.

Thank you

62. We're moving to more electronic notification to keep people informed about Metro's service planning. If you use email and would like to stay informed about next steps in this decision-making process, as well as future opportunities to participate in decision-making, please provide us with the information listed below.

Appendix C: Online survey Questions – Phase 3

Link Connections Survey - Phase 3

Welcome

In March, Metro and Sound Transit received public feedback on two alternative concepts for how bus service could integrate with new Link light rail service to Capitol Hill and the University of Washington's Husky Stadium.

We took that feedback into consideration as we put together the current set of proposed bus service changes. Metro's proposal is designed to create a more reliable, frequent, and easy-to-use network that emphasizes connections to new Link service. Buses on most routes would come at least every 15 minutes, making connections more convenient.

The proposal also aims to take advantage of the fast, reliable service that Link light rail will provide to downtown Seattle, the University of Washington, Capitol Hill, and other destinations to address longstanding problems like late or overcrowded buses in northeast Seattle and Capitol Hill.

In this survey, please tell us what you like, what you can accept, and what you can't accept about Metro's proposed changes. We'd also like to know how these changes will affect your use of transit. You'll be able to give us feedback about the proposal by area and/or by route.

Your input will help shape Metro's final recommendation to the King County Council, which will make decisions this fall about how to change bus service after Link service begins early next year.

If you haven't already, please explore the proposal on our project website before taking this survey.

To learn about/comment on Sound Transit's proposal, visit: www.soundtransit.org/LinkConnections.

Friendly warning: depending on which sections you choose to complete, this survey might take you longer than 15 minutes.

Accessibility accommodation: to request this survey in an alternative format or language other than English, please call 206-477-3835 or email deanna.martin@kingcounty.gov

4. How often do you ride transit?

- 5 or more times a week
- 3-4 times a week
- 1-2 times a week
- Less than once a week

Your feedback on Metro's bus change proposal

Summary of Metro's proposal

The proposed changes would create a more reliable, frequent, and simplified grid network that emphasizes connections to Link light rail at the new University of Washington and Capitol Hill stations. Buses on most routes would come at least every 15 minutes, making connections more convenient. Very frequent service — buses every 8 minutes or better — would connect the University District with Husky Stadium on five all-day routes (44, 45, 48, 67, and 271). Two routes (8 and 48) that currently face traffic delays would be split into shorter routes to improve their reliability.

The proposal assumes a restructure of existing Metro resources to make these changes, which means we can't add frequency or make new connections without deleting some routes or changing the pathways of existing routes. The exception is service that is being added with funds from the City of Seattle after voter approval of Proposition One last November. These changes are designed to reduce crowding, improve reliability, and improve service frequency on Metro routes that serve Seattle.

Frequency improvements

- Improved frequency on 14 all-day routes: 8, 10, 11, 12, 16, 44, 48, 49, 65, 67, 70, 73, 75, and 372X.
- 12-minute or better all-day weekday frequency on five corridors connecting to Link light rail: East John/East Thomas Street (Route 8), NE 45th Street (Route 44), University Way NE (routes 45 and 67), 23rd Avenue E (Route 48), Broadway/10th Avenue E (Route 49).
- Added trips on four peak-only routes, including routes 64X, 74X, 76, and 316.

Night, weekend improvements

- New weekend service on three routes, including 67, 70, and 372X.
- New late-night service on weekdays on four routes, including 12, 67, 70, and 372X.

New connections

- Sand Point, View Ridge, Ravenna, Roosevelt, Wallingford, and Fremont (revised Route 16).
- Madison Park, Madison Valley, First Hill, the Seattle Central Public Library, and the downtown Seattle waterfront (revised Route 11).
- University Village and the Husky Stadium Link station (revised Route 65).
- Northgate, Maple Leaf, and the University of Washington Medical Center (revised Route 67).
- Wedgwood, Ravenna, Roosevelt, South Lake Union, and First Hill (revised Route 64X).
- Northgate, Maple Leaf, Green Lake, South Lake Union, and First Hill (Route 66).

If you haven't already, please review how this proposal would affect your area or route on our [project website](#).

5. Would you like to give us feedback on changes being considered for north Seattle (including neighborhoods in northeast and northwest Seattle)?

- Yes
- No

Your feedback on the north Seattle proposal

What we heard people want

Convenient all-day connections to the new Link University of Washington Station at Husky Stadium.

What's in the proposal

- Service every 8 minutes or better between the heart of the University District and the University of Washington Station on five all-day routes (44, 45, 48, 67, and 271).
- Route 65 (which goes down 35th Avenue NE) and new DART Route 941 (serving View Ridge, Wedgwood, and Laurelhurst) would serve stops on Montlake Boulevard, near the new Link station.
- Routes 31, 32, 65, 73, 75, 372X, and 373 would serve stops on Stevens Way on the University of Washington campus.
- Routes 44, 45, 48, 65, 67, and 271 would serve stops on NE Pacific Street.
- Metro is working with the Seattle Department of Transportation and other partners to establish bus stops near the new light rail stations that will make connecting between buses and light rail as convenient as possible.
- Routes 44, 45, and 67 will start near the University of Washington Station, which will help them leave on time and make connecting between buses and light rail more reliable.

6. How would these proposed changes, designed to make convenient, all-day connections to the University of Washington Link station, affect your use of transit?

- I would take advantage of them and use transit more than I do now.
- I would take advantage of them and use transit the same amount as I do now.
- I would not take advantage of them, but could accept these changes.
- I would not take advantage of them, and could not accept these changes.
- I have no opinion.

Your feedback on the north Seattle proposal, continued

What we heard people want

- Frequent, all-day service.
- Convenient transfers.

What's in the proposal

Improved frequency on routes 16, 44, 48, 49, 65, 67, 70, 73, 75, and 372X.

7. How would these improvements in frequency affect you?

- I would take advantage of them and use transit more than I do now.
- I would take advantage of them and use transit the same amount as I do now.
- I would not take advantage of them, but could accept these changes.
- I would not take advantage of them, and could not accept these changes.
- I have no opinion.

Your feedback on the north Seattle proposal, continued

What we heard people want

Reliable service.

What's in the proposal

- Replacement of complicated and unreliable all-day bus service between NE Seattle and downtown Seattle with frequent connections to Link light rail at the University of Washington Station
- Splitting Route 48 into two routes (new Route 45 to serve the north part of the route, keeping Route 48 to serve the south part of the route). Each route would be operated independently.
- Operating Route 67 independently (with no through-routing, in which the same bus serves two different routes).
- Routes 31 and 32 will be connected via through-routing with a single route (75) instead of two routes (65 and 75).

8. How would the proposal to replace all-day bus service between NE Seattle and downtown Seattle with connections to light rail affect you?

- I would take advantage of these connections and use transit more than I do now.
- I would take advantage of these connections and use transit the same amount as I do now.
- I would not take advantage of these connections, but could accept these changes.
- I would not take advantage of these connections, and could not accept these changes.
- I have no opinion.

9. What do you think about the splitting of Route 48?

- I think this change should be made to improve the reliability of the service.
- I don't think this change would improve the reliability of the service, but could accept it.
- I don't think this change should be made because the reliability improvements do not outweigh the negative impacts on the connections provided along the entire pathway of current Route 48.
- I have no opinion.

10. What do you think about the proposal to operate Route 65 independently and through-route routes 31 and 32 with Route 75 only?

- I think this change should be made to improve the reliability of the service.
- I don't think this change would improve the reliability of the service, but could accept it.
- I don't think this change should be made because the reliability improvements do not outweigh the negative impacts on the connections provided by the way these routes are through-routed now.
- I have no opinion.

What we heard people want

Better east-west connections.

What's in the proposal

- New connection between Sand Point, View Ridge, Ravenna, Roosevelt, Green Lake, Wallingford, and Fremont (revised Route 16).
- Improved frequency on routes 44 and 75.

11. How would the proposed change to the Route 16 affect you?

- I would take advantage of this change and use transit more than I do now.
- I would take advantage of this change and use transit the same amount as I do now.
- I would not be able to take advantage of this change, but could accept it.
- I would not be able to take advantage of this change, and could not accept it.
- I have no opinion.

12. How would improved frequency on routes 44 and 75 affect you?

- I would take advantage of this improvement and use transit more than I do now.
- I would take advantage of this improvement and use transit the same amount as I do now.
- I would not take advantage of this improvement, but could accept it.
- I would not take advantage of this improvement, and could not accept it.
- I have no opinion.

What we heard people want

- All-day service on Roosevelt Way NE/11th Avenue NE in the University District.
- All-day service on 15th Avenue NE in Pinehurst and Maple Leaf.
- All-day connection between Jackson Park and the University District.

What's in the proposal

Revised Route 73 would provide all-day service on 15th Avenue NE between NE 145th Street and NE 65th Street, and on Roosevelt Way NE/11th Avenue NE/12th Avenue NE between NE 65th Street and NE Campus Parkway.

13. How will the proposal to revise Route 73 affect you?

- I would take advantage of this change and use transit more than I do now.
- I would take advantage of this change and use transit the same amount as I do now.
- I would not take advantage of this change, but could accept it.
- I would not take advantage of this change, and could not accept it.

What we heard people want

- Connection between Laurelhurst and the University of Washington Link station.
- Fewer transfers for those unable to get to frequent north-south service on 35th Avenue NE and Sand Point Way, as provided in Metro's earlier Alternative 1 network concept.

What's in the proposal?

New DART Route 941 would provide an all-day connection to the University of Washington Station serving View Ridge, Windermere, Wedgwood, and Laurelhurst. Flexible service would be provided in the View Ridge and Laurelhurst areas, so residents of those areas could reserve a pick up or ask to be dropped off closer to their homes than the nearest regular stop.

14. How would a new DART Route 941 affect your use of transit?

- I would take advantage of it and use transit more than I do now.
- I would take advantage of it and use transit the same amount as I do now.
- I would not take advantage of it, but could accept this change.
- I would not take advantage of it, and could not accept this change.
- I have no opinion.

Your feedback on the north Seattle proposal, continued

What we heard people want

New connections to South Lake Union, University Village, and the University of Washington Medical Center.

What's in the proposal

- New connection between Wedgwood, Ravenna, Roosevelt, South Lake Union, and First Hill (revised Route 64X).
- New connection between Northgate, Maple Leaf, Green Lake, South Lake Union, and First Hill (Route 66).
- New connection between University Village and light rail at the University of Washington Station (revised Route 65).
- New connection between Northgate, Maple Leaf, and the University of Washington Medical Center (revised Route 67).

15. How would a new connection between Wedgwood, Ravenna, Roosevelt, South Lake Union, and First Hill affect your use of transit?

- I would take advantage of it and use transit more than I do now.
- I would take advantage of it and use transit the same amount as I do now.
- I would not take advantage of it, but could accept this change.
- I would not take advantage of it, and could not accept this change.
- I have no opinion.

16. How would your use of transit be affected by a new connection between Northgate, Maple Leaf, Green Lake, South Lake Union, and First Hill?

- I would take advantage of this new connection and use transit more than I do now.
- I would take advantage of this new connection and use transit the same amount as I do now.
- I would not take advantage of this new connection, but could accept it.
- I would not take advantage of this new connection, and could not accept it.
- I have no opinion.

17. How would your use of transit be affected by a new connection between University Village and light rail at University of Washington Station?

- I would take advantage of this new connection and use transit more than I do now.
- I would take advantage of this new connection and use transit the same amount as I do now.
- I would not take advantage of this new connection, but could accept it.
- I would not take advantage of this new connection, and could not accept it.
- I have no opinion.

18. How would your use of transit be affected by a new connection between Northgate, Maple Leaf, and the University of Washington Medical Center?

- I would take advantage of this new connection and use transit more than I do now.
- I would take advantage of this new connection and use transit the same amount as I do now.
- I would not take advantage of this new connection, but could accept it.
- I would not take advantage of this new connection, and could not accept it.
- I have no opinion.

What we heard people want

- More service connecting Eastlake with downtown Seattle and the University District.
- Direct connection from Eastlake into the heart of the University District.

What's in the proposal

The routing of Route 70 would remain unchanged. Service after 7 p.m. and on Sundays would be increased to every 15 minutes. The span of service would improve to operate between 6 am and 1 am weekdays, Saturday, and Sunday.

19. How would your use of transit be affected by increases to the frequency and span of Route 70?

- I would take advantage of this new connection and use transit more than I do now.
- I would take advantage of this new connection and use transit the same amount as I do now.
- I would not take advantage of this new connection, but could accept it.
- I would not take advantage of this new connection, and could not accept it.
- I have no opinion.

What we heard people want

More late-night and weekend service.

What's in the proposal?

More late-night and weekend service on routes 67, 70, and 372X.

20. How would this addition of late night and weekend service affect your use of transit?

- I would take advantage of this additional service and use transit more than I do now.
- I would take advantage of this additional service and use transit the same amount as I do now.
- I would not take advantage of this additional service, but could accept these changes.
- I would not take advantage of this additional service, and could not accept these changes.
- I have no opinion.

What we heard people want

- New connections between Fremont/Wallingford and northeast Seattle.
- Faster connection between Wallingford and downtown Seattle.

What's in the proposal

- A new east-west connection between Sand Point and Green Lake on Route 16 (via Ravenna on NE 65th Street).
- Route 26X will provide faster trips than current Route 26 because it will use Aurora Avenue instead of surface streets in Fremont and the Westlake area.

21. How would these changes to routes 26, 26X, and 16 affect your use of transit?

- I would take advantage of this additional service and use transit more than I do now.
- I would take advantage of this additional service and use transit the same amount as I do now.
- I would not take advantage of this additional service, but could accept these changes.
- I would not take advantage of this additional service, and could not accept these changes.
- I have no opinion.

22. Do you have anything else you'd like to share about the proposed changes in north Seattle, such as ideas you have for making this proposal better at serving the mobility needs of your community?

Capitol Hill and Central Area

23. Would you like to give us feedback on changes being considered for Capitol Hill and the Central Area, including Montlake, Madison Park, and Madison Valley?

- Yes
- No

Your feedback on the Capitol Hill and Central Area proposal

What we heard people want

Frequent, all-day service.

What's in the proposal?

Improved frequency on routes 8, 10, 11, 12, 48, and 49.

24. How would these frequency improvements affect you?

- I would take advantage of them and use transit more than I do now.
- I would take advantage of them and use transit the same amount as I do now.
- I would not be able to take advantage of them, but could accept these changes.
- I would not be able to take advantage of them, and could not accept these changes.
- I have no opinion.

What we heard people want

- Better east-west connections.
- Direct connection between Madison Park, Madison Valley, and downtown Seattle.
- The Alternative 1 concept for three different routes serving Madison was confusing and did not take advantage of Seattle's efforts to provide bus rapid transit improvements along the corridor.

What's in the proposal

Revised Route 11 would provide continuous service on Madison Street between Madison Park and downtown Seattle. It would be the only route operating on the Madison corridor, and would have service levels close to those of bus rapid transit.

25. How would a revised Route 11 affect your use of transit?

- I would take advantage of this change and use transit service more than I do now.
- I would take advantage of this change and use transit the same amount as I do now.
- I would not be able to take advantage of this change, but could accept it.
- I would not be able to take advantage of this change, and could not accept it.
- I have no opinion.

What we heard people want

Reliable service.

What's in the proposal?

- Splitting Route 8 into two routes (Route 8 would continue to provide service between 23rd Avenue S/S Jackson Street and lower Queen Anne, while new Route 38 would operate along the southern part of the route between Rainier Beach and 23rd Avenue S/S Jackson Street). Each route would operate independently, with no through-routing.
- Splitting Route 48 into two routes (new Route 45 would serve the north part of the route, keeping Route 48 to serve the south part of the route). Each route would be operated independently, with no through-routing.

26. What do you think about the proposal to split Route 8?

- I think this change should be made to improve the reliability of the service.
- I don't think this change would improve the reliability of the service, but could accept it.
- I don't think this change should be made because the reliability improvements do not outweigh the negative impacts on the connections provided by the way these routes are through-routed now.
- I have no opinion.

27. If Metro splits Route 8 into two routes, where would you prefer the split to occur?

- 23rd Avenue S and S Jackson Street (currently proposed)
- Mount Baker Transit Center
- No opinion

Other (please specify)

28. What do you think about the proposal to split Route 48?

- I think this change should be made to improve the reliability of the service.
- I don't think this change would improve the reliability of the service, but could accept it.
- I don't think this change should be made because the reliability improvements do not outweigh the negative impacts on the connections provided by the way these routes are through-routed now.
- I have no opinion.

What we heard people want

Convenient, all-day connections to light rail at the Capitol Hill Station.

What's in the proposal

- Routes 8 and 12 would provide frequent east-west service on E John Street, E Thomas Street, and E Olive Way for the Central Area, Madison Valley, and Capitol Hill.
- Routes 9 and 49 and the First Hill Streetcar would provide frequent north-south service on Broadway E for access to Seattle Central College, Seattle University, north Capitol Hill, Capitol Hill, First Hill, and Yesler Terrace.

29. How would your use of transit be affected by proposed frequent, all-day connections to the Capitol Hill Station?

- I would take advantage of these connections and use transit more than I do now.
- I would take advantage of these connections and use transit the same amount as I do now.
- I would not take advantage of these connections, but could accept these changes.
- I would not take advantage of these connections, and could not accept these changes.
- I have no opinion.

What we heard people want

- Fast and easy connection between the top of Capitol Hill and the University District.
- Fast and easy connection between the top of Capitol Hill and downtown Seattle.
- Service on 19th Avenue E.

What's in the proposal

- Improved frequency on routes 8, 11, and 48.
- Frequent connection to light rail at Capitol Hill Station on routes 8 and 12.
- Revised Route 12 would provide service on 19th Avenue E between E Galer Street and E Thomas Street into downtown, past the Capitol Hill Station.

30. How would your use of transit be affected if Route 12 were revised and frequency were improved on routes 8, 11, and 48?

- I would take advantage of these changes and use transit more than I do now.
- I would take advantage of these changes and use transit the same amount as I do now.
- I would not take advantage of these changes, but could accept them.
- I would not take advantage of these changes, and could not accept them.
- I have no opinion.

What we heard people want

Frequent and adequate service along the Pike/Pine corridor to accommodate ridership demand.

What's in the proposal?

- Routes 10, 12, 47, and 49 would all serve the Pike/Pine corridor, and together they would provide service at least every 10 minutes.
- New late-night service on Route 12.

31. How would your use of transit be affected if this level of service were provided along the Pike/Pine corridor?

- I would take advantage of this service and use transit more than I do now.
- I would take advantage of this service and use transit the same amount as I do now.
- I would not take advantage of this service, but could accept these changes.
- I would not take advantage of this service, and could not accept these changes.
- I have no opinion.

32. Do you have anything else to share with us about Metro's proposal for Capitol Hill and Central Area bus service, such as ideas for how to make the proposal better meet the mobility needs of your community?

Feedback – Final Thoughts

33. Would you like to provide feedback on a specific route or routes?

- Yes
- No

34. What route(s) would you like to give us feedback about? (check all that apply)

Your feedback about the outreach process

44. How did you hear about Metro and Sound Transit's Link Connections project? (check all that apply)

- News media or neighborhood blog
- Metro Matters blog
- Sound Transit blog
- Metro or King County website
- Sound Transit website
- Metro email or text alert
- Sound Transit email or text alert
- Advertisement on/in bus
- Poster at a bus stop
- Handout given to me at a transit center or community event
- Twitter
- Facebook
- Friend
- Employer
- An organization I'm involved with
- Other (please specify)

45. The notice, advertisement, and/or invitation to learn more and share your thoughts about Metro and Sound Transit's bus change concepts was clear and welcoming.

- Strongly agree
- Somewhat agree
- Somewhat disagree
- Strongly disagree

46. What resources did you use to understand the bus service changes that Metro and Sound Transit are proposing? (check all that apply)

- Metro website
- Sound Transit website
- Metro Matters blog
- Sound Transit blog
- Attended one or more Metro and/or Sound Transit public meeting(s)
- Spoke with staff members at an information table or community event
- Attended a presentation by staff members at a meeting hosted by another group
- Information shared by a Sounding Board member
- Information shared via the news media or neighborhood blog
- Other (please specify)

47. Did these resources help you understand the proposal being considered and how these changes would affect you?

- Yes
- No
- I don't know

Why?

48. From the time you were notified, were you given enough time to provide meaningful feedback in Metro's and/or Sound Transit's decision-making processes?

- Yes
- No
- I don't know

49. Did you participate in the second round of public outreach about the Link Connections project in March?

- Yes
- No
- I don't know

Participation last March

50. Regardless of how you feel about the proposed changes, do you see how public feedback helped shape this proposal?

- Yes
- No
- I don't know

Why?

Your feedback about the outreach process, continued

51. I believe that taking the time to share my views will result in better decisions about bus changes that will be made after Link light rail begins service to Capitol Hill and the University of Washington's Husky Stadium.

- Strongly agree
- Somewhat agree
- Somewhat disagree
- Strongly disagree
- No opinion

52. Please share any additional feedback you have about our outreach process.

Thank you

53. We're moving to more electronic notification to keep people informed about Metro's service planning. If you use email and would like to stay informed about next steps in this decision-making process, as well as future opportunities to participate in decision-making, please provide us with the information listed below.

Appendix D: Emails, Phone Calls, and Letters Received

This appendix includes contacts that came in after the official close of each outreach phase. Comments received after the close of one outreach phase and before the start of the next outreach phase are included as part of the previous phase.

Phone numbers, email addresses, and mailing addresses have been removed and replaced with asterisks (***).

Phase 1

Received between Nov. 5, 2014 and March 4, 2015

No.	Date	Content
1	Nov 10, 2014 7:25 PM	<p>My usual commute</p> <p>I have done the Metro 197 in the past. I can not drive to Federal way from Sumner each morning.</p> <p>And catching the bus at UWMC in the evening is standing room only. Not an option to stand to Federal Way. And Federal Way is one of the most dangerous transit centers in the system. There is always police activity at Federal Way.</p> <p>There is no way to leave UWMC at 16:15 and catch a 71,72,73 in time to make it downtown to King Street Station at catch the train leaving at 5:12PM to get to Sumner at 5:45PM. And the 71,72,73 are all crowded and standing room only. I have tried many many many times. I am usually on the 5:42pm sounder departing Seattle arriving in Sumner at 6:18PM</p> <p>My day is walk out of my house at 0600am</p> <p>Catch the 6:17AM sounder leaving Sumner</p> <p>Arrive Seattle 6:57am</p> <p>Walk into bus tunnel at International district</p> <p>Catch the 71.72.73 at 07:07AM They leave every ten minutes.</p> <p>Arrive 41st and University Way 7:27ish</p> <p>Walk over to 15th to catch anything coming down 15th.</p> <p>Usually make it into UWMC at 0740AM</p> <p>This is only if all connection are made.</p> <p>Then I leave UWMC at 1615pm walk to Montlake Freeway Station, Which is not ADA accessible I might add.</p> <p>Wait at Montlake Freeway for MEtro 255 or Sound Transit 545 Express to get to</p>

2	Nov 11, 2014 12:51 AM	<p>Hi, With the light rail coming, and repaving plans for Roosevelt Way NE in 2015, I would love to see dedicated bus lanes/BRT considered for Roosevelt Way. I wrote this blog post about the repaving project, which contains plenty of space for a bus-only lane: http://www.seattlebikeblog.com/2014/09/02/salomon-safety-changes-need-to-be-part-of-roosevelt-repaving-project/I'm looking at it from a safety perspective (Roosevelt is unsafe to cross with two general purpose travel lanes; removing one lane in a road diet could be used to speed up bus transit on the corridor).However, there are potentially many benefits to be had with a bus-only lane. Typically, when Roosevelt is backed up, it's from the I-5 on-ramps and University Bridge crossings. Buses bypassing this congestion could be a very attractive option for travelers. I'll be get the 60% plans for the Roosevelt Repaving Project from Seattle Dept of Transportation today, and meet with them on Wednesday to discuss bike-related changes to the corridor. **I would love to know what Metro's thoughts are regarding the corridor. I'd be happy to schedule a meeting to discuss in person, as well.** One thing not mentioned in the above blog post is that Roosevelt is prescribed a dedicated rail or bus line in Seattle's Transit Master Plan (on page 34):http://www.seattle.gov/transportation/docs/tmp/final/TMPFinalSummaryReportandAppendices.pdf We also have a walk planned for tomorrow where we'll chat with businesses along Roosevelt; the current and future bus situation will be part of the discussion.</p>
3	Nov 12, 2014 10:33 PM	<p>I won't be able to make it to any of the bus reorg outreach events, bur have the following suggestions as a frequent Northgate transit center user:</p> <ul style="list-style-type: none"> - Routes 67, 68 and 75 all run on the uw campus, so running them either on Pacific instead or putting stops near Stevens Way NE and Rainier Vista could provide a fairly frequent (though perhaps not super fast) access to the UW station along existing routes. - Adding clear signage that these buses stop at or near the UW station would be useful. - Rerouting the 41 from downtown via I-5 to UW station via Roosevelt could be useful in 2019 if it is indeed removed from the tunnel at that time. <p>Thanks,</p> <p>Charles</p>

No.	Date	Content
		<p>Jeff Munnoch, DECM Community Outreach Director Sound Transit 401 S. Jackson St. Seattle, WA 98104</p> <p>RE: Transit Connections to UW LINK Station from Northeast Seattle</p> <p>Dear Mr. Desmond and Mr. Munnoch: On behalf of the Ravenna-Bryant Community Association (RBCA), we would like to offer a few comments with respect to our desire to have strong transit connection to the future University of Washington (Husky Stadium) LINK station from Northeast Seattle neighborhoods.</p> <p>While we are interested in strong connections to both this station and the future Roosevelt Station, the University of Washington Station is planned to open no later than 2016, five or six years earlier than the Roosevelt Station. We understand that transit planning for the UW Station is within Metro's service planning horizon, while potential service planning to address the Roosevelt Station is not. We will have similar interest in planning for transit access to the Roosevelt station at the appropriate time.</p> <p>With respect to the University of Washington Stadium Station access planning, we are very interested in supporting frequent, direct transit access to the station, especially during the period of time when the Husky Stadium Station and the Roosevelt Station open (2016-2021). At present, transit access between Downtown Seattle and Ravenna-Bryant can be characterized as marginal, at best, especially during non-peak commute times, as summarized below (and as noted in the referenced Attachment "Off-Peak Commute Times"):</p> <p>Peak Service:</p> <ul style="list-style-type: none">• #76 bus serves the northern portion of Ravenna-Bryant; a valued link to downtown that generally provides excellent transit service, assuming seats are available.• #74 bus serves the southern portion of Ravenna-Bryant, which provides "express" service, after winding through the U-District for 15-20 minutes, with 30-minute headways even during the peak hours. <p>Non-Peak Service:</p> <ul style="list-style-type: none">• For that portion of the neighborhood in proximity to the #71 bus, there is an approximately 45-55 minute travel time to downtown (depending on the time of day and origin/destination within Ravenna-Bryant), generally with 30 minute headways.• For that portion of the neighborhood in proximity to the #30 bus, a transfer in the U-district is required, with at least one-hour travel time to and from downtown with 30-minute headways. <p>We hope that Sound Transit, Metro, and the City of Seattle will look at the opening of Husky Stadium Station as an opportunity to connect Northeast Seattle residents with 8-10 minute travel times to and from downtown, with 6-minute headways 18-hours a day, every day. Roosevelt and Ravenna-Bryant are two of the North Seattle neighborhoods with latent demand for solid transit service, if the service existed that was reasonably time competitive to driving.</p> <p>We believe the opening of the North Link to Husky Stadium should provide the impetus to re-configure the transit service for North Seattle, and we hope to work with you to do so in</p>

No.	Date	Content
		<p>order to increase transit's appeal, and therefore its use, in Northeast Seattle. Finally, we believe that creating a strong bus-train connection at the station is consistent with Sound Transit's System Access Policy, adopted in March of this year, which emphasizes Sound Transit's interest in working with partner agencies and jurisdictions to maximize pedestrian, bike, and transit access to new transit stations.</p> <p>Thank you very much for your consideration.</p> <p>Sincerely, Tony Provine President, Ravenna-Bryant Community Association Cc: Tom Rasmussen, Seattle City Council, Transportation Committee Chair Larry Phillips, King County Council, Transportation, Economy & Environment Committee Chair Rod Dembowski, King County Council, Regional Transit Committee Chair Marshall Foster, Seattle DPD, Planning Director Peter Hahn, Seattle Department of Transportation Director Victor Obeso, King County Metro, Service Development Manager Attachment: Off-Peak Commute Times Sent via e-mail</p>
5	Nov 13, 2014 8:19 PM	<p>October 5, 2013</p> <p>Mr. Kevin Desmond, General Manager King County Metro 201 S Jackson St, Room 415 Seattle, WA 98104-3856</p> <p>Mr. Jeff Munnoch, DECM Community Outreach Director Sound Transit 401 S. Jackson St. Seattle, WA 98104</p> <p>RE: Transit Connection to UW HUSKY STADIUM LINK Station from Northeast Seattle</p> <p>Dear Mr. Desmond and Mr. Munnoch:</p> <p>On behalf of the Ravenna-Bryant Community Association (RBCA), I would like to offer comments with respect to our desire to have a reliable, direct transit connection to the future University of Washington (Husky Stadium) LINK station from Northeast Seattle neighborhoods. This letter builds upon the content of our November 4, 2013 letter to you.</p> <p>Recently, we were very encouraged to learn of County Executive Constantine's executive order intended to improve cooperation between King County Metro and Sound Transit, and believe that our desire for an effective transit connection to the LINK station is in complete alignment with that policy direction. Recognizing that Metro's funding situation is in flux, we believe that a direct connection to the Husky Stadium LINK station could be made in a revenue-neutral manner. The 372 and the 74 bus routes would be the two most obvious existing bus lines to re-route to the station. Regardless of the exact strategy, the goal is to achieve frequent, direct, reliable route(s) from our neighborhood and others in Northeast Seattle to the station, with the most seamless connection possible given the limitations of the station design and peak-hour southbound congestion along Montlake Boulevard.</p> <p>While there are many current transit riders in our neighborhood, we believe that the opening of Husky Stadium LINK Station will uncover massive latent demand for rapid transit if a direct, efficient connection to the stadium can be created. We would be happy to work with you on any stakeholder outreach that may be needed to support this effort.</p>

6	Nov 13, 2014 8:35 PM	<p>STREET TEAM NOTES: WESTLAKE STATION - BAY A</p> <p>What routes do people ride: 41, 71, 72, 73, 74, 78, 77, 316</p> <p>Places they regularly visit: Northgate, U District, neighborhoods north of the U District (tails of routes 71, 72, 73), Roosevelt, I-5/65th Street Park and Ride How does transit work for them? Generally transit seems to work for the riders I spoke with. During the PM peak while I was at Westlake, some buses were packed and riders had to wait for another. Perhaps this could be considered as a barrier to transit. Some riders asked about Link capacity as it is hoped that this will help resolve the bus overcrowding.</p> <p>Important cultural or otherwise significant destinations: None that were mentioned by any of the riders I spoke with. Particular corridors or places that need service outside peak commute times: One rider commented on the confusing operation of the 71-72-73 along the Eastlake/Fairview corridor. To her, this is a key corridor that isn't well served at present by the current 71-72-73 and also the 70, which doesn't operate enough.</p> <p>RE transfers: A few of the riders I spoke with aren't keen on a transfer to Link at Husky Station while others are willing to consider if there's a travel advantage. Some riders would prefer to transfer at the U-District Station now under construction at 43rd/Brooklyn, but don't realize that this is coming later with the Northgate extension. How could transit be improved? Didn't ask this, although most riders I spoke with seem to be positive about the Link extension and view it as an overall improvement.</p>
7	Nov 13, 2014 8:46 PM	<p>STREET TEAM NOTES: STEVENS WAY on CAMPUS</p> <p>Routes people ride: 75, 31/32, 68, 545</p> <p>Places they regularly visit: Wedgewood, U Village, Seattle Children's Hospital, UW, UWMC, Roosevelt, Northgate, the Ave, Magnuson Park, eastside</p> <p>How does transit work? Most riders I spoke with felt the service works well and they don't want it changed - especially true of 68 and 75 riders. One Seattle Children's employee travels from the Eastside to Children's every day for work and she has to transfer on campus from a 545 to the 75. She wishes for a more direct connection to Children's. People traveling to Fremont and Magnolia via the 31/32 appreciate not having to go into downtown to get to/from the UW, but I heard several people say they miss Route 45, which was deleted during the Sept 2012 restructure when RR C and D Lines were implemented. Most people I spoke with experience some level of overcrowding on their service, but they also are getting on where they will have a seat.</p> <p>Important cultural or otherwise significant destinations: None were mentioned</p>

No.	Date	Content
		<p>Corridors that need service outside the peak commute times: U Village, the Ave, and hospital workers at Seattle Children's and UWMC need increased service at night and on weekends</p> <p>How could transit be improved: An east-west connection that takes people to the center of the Ave. Several people expressed frustration with service that takes them to the south end of the Ave and they have to transfer or walk to get to the heart of the business district. "Don't fix what isn't broken" - especially true for 68 riders. Increased service to deal with capacity issues</p>
8	Nov 13, 2014 8:55 PM	<p>STREET TEAM NOTES: CAMPUS PARKWAY & BROOKLYN</p> <p>Routes people ride: 372, 72, routes that go to North Capitol Hill</p> <p>Places people regularly visit: Wedgewood, SeaTac Airport, Ballard</p> <p>How does transit work? 26 is very slow; one person mentioned not liking the audio stop announcements</p> <p>RE Transfers: Several people would prefer service closer to them, rather than service that would come more often; more shelters and protection from the weather is needed to make transfers for acceptable.</p> <p>How could transit be improved? Better East-West connections between Wedgewood and Ballard; better connections between bus and South Lake Union Streetcar</p>
9	Nov 19, 2014 5:30 PM	<p>Hi DeAnna, It was great to see you last night. I love it when worlds intersect. Thanks for your willingness to do a little probing to find this data for me. I've included one of the messages I had from the study below, in case it's of any use. As you can see, the study was sponsored by the US DOT in cooperation with PSRC, WSDOT, and King County. I assume all those partners got the data, but have no idea where it lives. I've had no luck accessing the rsgsurvey.com site. Thanks for any help you can give me, either uncovering the data or pointing me in the direction of someone who might have it. best, brie ***</p>
10	Nov 19, 2014 5:45 PM	<p>Here are some notes that I took while at the Seattle Central College information table. We spoke to 40-50 folks over our 3+ hours at the table.</p> <ul style="list-style-type: none"> • One customer complained about too many buses operating early. She rides routes 1, 36, 40 and 60 regularly. • One customer requested cheaper fares/subsidies for students and families. • One customer requested that RapidRide operate more frequently during the Owl periods. • Two customers ride Routes 3 and 4 and transfer on Broadway. The both noted that they experienced long waits for Route 9 to reach the college and were excited that the Streetcar will provide a frequent connection. • One customer rides Route 106 from Skyway and would like more frequent service. • One customer noted that it was difficult to reach South Lake Union from Capitol Hill. • One customer would like to have more Orca card re-value stations. • One customer requested more security and fare inspectors on Link Light Rail. • One customer requested more bike storage on Link. • One customer requested that WiFi and Cell phone reception be provided in the

tunnels.		
11	Nov 19, 2014 9:50 PM	<p>STREET TEAM NOTES: PIKE & 4th AVE STREET TEAM</p> <p>**I worked 4th & Pike yesterday afternoon with Melony. We encountered all sorts of folks, of course. Miscellaneous notes from my experience about approaches that worked, and some comments:</p> <p>1) Lots of people were receptive to filling out the online survey once I explained that buses are likely to change with Link, but we don't know how yet and would like to understand where/how they travel.</p> <p>2) I tried to catch anyone who didn't outright shoo me away. I even approached people who were plugged into earphones and most unplugged to listen. In that location in particular, I think it helped to start with "I'm from Metro..." even while wearing the garb. One woman told me she's developed a shield there b/c there are so many solicitors or unstable people who approach waiting bus riders. I also "invited" them to fill out an "online survey." The word "invite" was received positively, and saying "online" before the word survey quickly assured them that I wasn't asking them to do it right then.</p> <p>3) I was not asked for a single paper survey or sounding board application. Everyone who listened to me seemed able to use the internet, regardless of their age, language or ability/disability.</p> <p>4) A few people seemed confident their bus couldn't possibly change because it's the only bus that goes where they're going. Best example was Rt 11 to Madison Pk. When I suggested that some neighborhoods might involve transferring between Link and a bus, some of these people perked up, but others scoffed. I hope we'll have a clear messaging technique to get the attention of these doubters ("bus restructure deniers?").</p> <p>**</p> <p>6) Another good reason for being on the street every once in a while – In talking to a rider about potential transfers between Link and a bus, I realized that this rider wasn't using his ORCA card to its potential. He didn't know it could be used on other systems like Link, which he uses now; that it gave transfer credit; that it could hold E-purse to supplement his current 1-zone off peak pass when a ride costs more or when he forgets to load his pass; and that he could load it at a grocery store in his neighborhood (he's been going to the tunnel b/c he doesn't like to transact \$ on the internet). He reacted as though his world had completely opened up with all this news. I think I made his day! (smiley face) . So we need to keep up our ORCA messages for everyone, but especially while talking about more transferring and about low-income ORCA cards. Both users and distributors need to understand this. Melony kindly took our bag, as I was headed to an evening event. She won't be at KSC today, but can bring it back early next week. Handwarmers appreciated! We split one pair.**</p>
12	Nov 25, 2014 8:52 PM	<p>Yes, hi, DeAnna, I found your name and number on the Metro website for the Transit Advisory planning committee or whatever it's called... Anyway, I've been wanting to call Metro and ask them about something. I take the car now. But, years ago when I used to take the bus - I work on Eastlake and I live in West Seattle - I remember there was one bus, one of the 70's, that stopped on Eastlake one evening and I got on going home from work and it actually went non-stop all the way to West Seattle. Well, I mean I shouldn't say non-stop, it stopped at certain points along the way, but it was like an express bus. It stopped downtown and you didn't have to get off the bus and wait downtown and take another bus to West Seattle. If you stayed on the bus - it was either one of the 70's? I can't remember the number of it now to be honest because it was like in the early nineties and um I just stayed on that one bus from Eastlake all the way to West Seattle. So I'm calling to ask if there's any plan in the works in the near future to have something like that where a bus would be like - I guess the closest thing to it would be like an express bus that would maybe connect West Seattle all the way to the University of Washington you know with stopping</p>

No.	Date	Content
		points along the way. Not like it's non-stop. But, you don't have to board a second bus is what I'm trying to get at so I'm hoping that there's something like that maybe... where if you live in West Seattle, you can just board one bus to get through town, through Eastlake, and all the way up through the University of Washington. So, call me back. And, if you're not the right person to talk to, please point me in the right direction, I'd appreciate it. So my name is Donna and you can call me at work during days of my work. My work is ***. And, if you get my voice mail, it's perfectly fine to leave a message. Thank you. Hope to hear from you soon, bye bye.
13	Feb 7, 2015 12:44 AM	Dear Ms Martin, As senior citizens living in Laurelhurst we are rapidly approaching the age where we will need transit service to UW Village shopping center, the UW business district, and the new light rail station. Metro bus 25 is no answer with its infrequent service and limited routing. Looped, frequent shuttle van service could be ideal and vans could more easily negotiate the hills rather than large buses. Please consider these needs in the Laurelhurst area as you consider transit improvements. Robert E. Center
14	Feb 9, 2015 8:21 PM	<p>This is to urge Metro to provide reliable and frequent Metro service from Northeast Seattle to connect with the new light rail stations at the UW and in the University District in a way that does NOT require transfers or lost time meandering through the UW campus.</p> <p>I live on 35th Ave NE and 47th St., and work in the University District. I was extremely inconvenienced last year when Metro discontinued the route (# 25 or 30... not sure) that linked Mary Gates Memorial Drive to the University District by going up directly on the viaduct along NE 45th. All routes now go through the UW campus and require a transfer into order to get back to NE 45th.</p> <p>If routes stay the same there will be NO efficient timely service between Northeast Seattle (e.g., Mary Gates Memorial Way) and either of the two new stations.</p> <p>I would highly recommend reinstating a route that goes directly up the viaduct along NE 45th to link to the University District station, as well as another route that goes along Montlake to link to the UW station (the #25 used to do this, but unfortunately that route was also eliminated years ago).</p> <p>Thank you, Angela Notari Syverson</p>
15	Feb 10, 2015 5:27 PM	<p>SINCE BECOMING VISUALLY IMPAIRED AND HAVING TO GIVE UP MY DRIVER'S LICENSE, I HAVE BECOME DEPENDENT ON METRO SERVICE FOR DOCTOR'S VISITS, DOWNTOWN SHOPPING, THEATER ETC. I STRONGLY SUPPORT A LOOPED, FREQUENT SHUTTLE APPROACH ALONG THE NORTHEAST SEATTLE CORRIDOR AND DOWNTOWN.</p> <p>THANKS, STEVE DASSEL</p>
16	Feb 13, 2015 8:00 PM	<p>Thank you for requesting input on service between Laurelhurst and the light rail. We would very much appreciate a link between Laurelhurst and the in-progress light rail station in the University District or along Montlake by the stadium. My husband and I try to take public transportation to the airport, which means currently that we avoid flights on the weekend because there is no bus service from our neighborhood. Sometimes we return on light rail to downtown, transfer to a bus that goes to the University District, and then walk home (down the Viaduct and up the big hill toward Lake Washington). It makes a tiring trip with a roller bag, and we are senior citizens. When we are going downtown (and not to the airport), if there is no convenient Laurelhurst bus (these run mainly during rush hour and not on weekends) we get a ride to the U-District, and then take a bus downtown. We're excited about the possibility of light rail coming closer by. We hope there might be a shuttle</p>

No.	Date	Content
		in our future, such as the Harborview shuttle that runs between the U-District and Harborview Hospital. Thank you. Sincerely Joan Vesper ***
17	Feb 13, 2015 8:07 PM	How will the new tax revenue approved on Nov. 2014 by Seattle voters be used?
18	Feb 13, 2015 8:17 PM	<p>15 minute headway is not very frequent service. I like the frequent network approach, but 15 minutes is a long wait.</p> <p>I was hoping for the stadium station to become a transfer mode for the NE area (Wedgewood, View Ridge, Sand Point), alternative 1 does not provide direct access to the station. Made route 65 go south on Montlake as well even during rush hour it takes about 10 minutes to go from U-Village to stadium station which is still faster than doing the loop over the campus and during non-congregated time remaining the 65 on Montlake south would be an amazing improvement for setting to downtown, Capitol Hill, and the eastside.</p> <p>By routing 65 over campus your are missing this opportunity. Additionally, one way service is confusing.</p> <p>in general, I think you should put some more emphasis an improving connections to the new link stations. The presentation of Alternative 1 on 2/4/15 appeared very much bus centric, with Link Connections being almost as after thought.</p>

Phase 2

Received between March 5 and May 11, 2015

No.	Date	Content
19	Mar 10, 2015 4:01 PM	<p>Deanna,</p> <p>I received an e-mail asking for input on the two proposed plans of bus service with the soon to be UW link connection. I am one of the many commuters to UW from Tacoma and am wondering how either plan would affect the 586-express bus from Tacoma to UW?</p> <p>Thank you for your time, Lia Wetzstein</p>
20	Mar 10, 2015 4:07 PM	<p>I am confused by the maps to the proposed changes to route # 372. For alternative proposal #2 the map shows that route #372 would serve the Light Rail Station at Husky Stadium but it is not clear on the map for alternative #1 that route #372 would do so. I use route # 72 to go downtown from Ravenna Avenue and NE 92nd but Metro is proposing to delete route #72 on both alternatives. If alternative #1 is adopted and route # 372 does not go to the Light Rail Station how am I suppose to go downtown since there are no other routes from my stop that go downtown. And don't tell me to transfer to another bus in the University District because that would be stupid and would take me much longer to get to my destination. I can handle a transfer to the Light Rail at Husky Stadium but not transferring to another bus in the University District. Besides my taxes are going up to support Metro and for that I would expect to continue to receive the same service I have today because that is what was promised on the ballot issue. Jack Papegaay ----- From: Jack Papegaay [mailto:***] Sent: Friday, March 06, 2015 1:19 PM To: Martin, DeAnna Subject: Re: Proposed Changes to routes #72 and # 372 DeAnna, Thanks for your</p>

No.	Date	Content
		<p>reply but I have 2 concerns with the proposal to eliminate the #72 and replace it with the #372. One concern is that when the # 372 comes by my stop at NE 92nd and Ravenna Avenue it is on many occasions already standing room and I have to wonder that when the # 72 is gone how are those passengers from that route my stop suppose to get on when the bus is already full. And after NE 92nd there are more stops along the way. Good luck to those people who want to catch the bus and there is no room. The other concern is having to get off at Stevens Way and then having to walk an estimated 5 minute walk to the Light Rail Station. Now that may not sound like that is a long way but for passengers who have difficulties walking or who are elderly that is a long walk and especially in our normal fall and winter weather in the rain, wind and cold. So why can't the # 372 go down Montlake Blvd to the Light Rail station and then go through the UW Campus. The Light Rail is fine but Metro is taking away a direct route to downtown on the #72 and replacing with a transfer point and adding a 5 minutes walk. I would call that a poor exchange and not user and customer friendly. I feel very strongly that Metro needs to re-evaluate this and especially considering that the # 372 is already crowded when the UW is in session and now you want to add all of the # 72 passengers. Good luck with that and then adding a 5 minute walk on top of that. I will repeat again that is not a good idea and poor planning by Metro. Pass my concerns on to the appropriate people at Metro. Jack Papegaay</p>
21	Mar 10, 2015 4:08 PM	<p>Hello,</p> <p>I've been traveling the 31 & 32 (formally the 30 & 31) from 40th and Stone Way to and from UW for 3 1/2 years. I was looking at Link Connection Alternative 1, and I think it's a mistake to move the 31/32 further south to 35th and Wallingford. Despite 31/32's somewhat frequent delays, the routes provide consistent, quick service to/from UW.</p> <p>There are many rentals and apartments (and growing) near Stone Way where many UW students and staff live. Some of these riders would walk down to 35th but many people would walk up to catch the 44. As I'm sure you're aware, the 44 almost always packed, and its ridership will only increase due to the continued apartment boom in Ballard. Due to its routing and number of stops, my commute would not only increase by the distance needed to walk but also the length of the bus ride.</p> <p>As you continue to plan Link Connections, please remember the many transit riders that live between 99 and Stone Way.</p> <p>Thank you, Stacey Wedlake</p>
22	Mar 10, 2015 4:09 PM	<p>Hi Deanna, I like some of the Alternative 1 options – the only reservation I have is that when I work late if I get the last or near-last 542 from Redmond to U-District that I will miss the last LINK and need to take a cab from U-District to Broadway/John. Where can I find the update LINK schedule? If the last LINK runs at midnight from U-District I'll probably be okay; but if last train is at 11:15p I'll almost certainly miss it on the 542. Regards,-Tyler Szabo</p>
23	Mar 10, 2015 4:10 PM	<p>will route 75 go all the way to the University light rail station?</p>
24	Mar 10, 2015 4:12 PM	<p>Hi,</p> <p>I was just looking at the Metro Link alternatives map here: http://metro.kingcounty.gov/programs-projects/link-connections/alternatives.html#maps</p> <p>While Alternative 1 looks reasonable, I must *highly* recommend that Alternative 2 be</p>

No.	Date	Content
		<p>changed to remove buses from the 12th Ave NE Greenway: http://www.seattle.gov/transportation/12thavegreenway.htm</p> <p>Buses do not belong on the Greenway, which is designed for slower speeds and people walking/biking. The northern part of the Greenway is narrow and has speed humps, but that same treatment can't be applied to parts south of NE 47th until Metro removes bus service from the Greenway.</p> <p>The roadway in question is 12th Ave NE between NE 45th and NE 47th St.</p> <p>Please ensure that is part of both alternative plans.</p> <p>Thank you,</p> <p>Andres Salomon</p> <p>Seattle Neighborhood Greenways</p>
25	Mar 10, 2015 4:14 PM	<p>Dear Ms. Martin,</p> <p>Congratulations, to you and the whole team you are the contact for, on a detailed, well thought through and well explained pair of proposals for the bus restructuring around the next phase of Link light rail. On the whole I am strongly supportive of option 1, though I do have a few specific concerns. First of all, the good things. The overall approach of consolidating service and pruning some lines in exchange for greater frequency and legibility of others makes good sense, and I've seen this work well in Vancouver, where there are fewer one-seat rides than with the current Seattle system, but an overall easier to use and faster bus network. I am also glad to see proposals to split the 8 and 48, which should have happened long ago to address reliability issues. Personally I'll lose a useful one-seat ride to Green Lake and Greenwood as a result, but I can easily see the reliability improvement making up for that. On a similar note, I encourage the team to look at removing the odd deviation the former 8 / future 38 takes, jogging from MLK to 23rd and back. That has always struck me as sacrificing several minutes of travel time and legibility of the route to a one-seat ride for a handful of people, and the easiest time to remove it would seem to be when you are making large-scale changes already. My main concern with this package is the deletion of the 12. For most of Madison St there will be reasonable alternatives, but for the 19th Ave stretch there don't seem to be. For able-bodied passengers who aren't carrying too much, walking over to the 10 is not prohibitive, but that bus is already often standing room only, and sometimes has to turn passengers away due to overcrowding, so if it's to take on former 12 (and 11) passengers it will need a significant increase in frequency, which hasn't been proposed. My real concern, though, is for the mobility impaired and times when people do need to carry a lot, because the hills between the current 12 terminus with a wheelchair user, or someone who walks with a frame, and try to get to 15th or 23rd Ave from there with them. Finally, I hope you are coordinating with Pronto Cycle Share, to have plenty of bike docks available at both stations when they open. There are a lot of people who live or work between ½ a mile and a mile from each station, which is an ideal distance for the utility of bike shares - it's further than people usually want to walk but cycling is likely to be quicker than the bus at that range, and everyone who cycles instead of taking the bus helps keep the busses efficient by taking one more short term boarding-disembarking pair out of the system.</p> <p>Yours, Eldan Goldenberg</p>

26	Mar 10, 2015 5:22 PM	<p>I am looking at the two different alternatives for transit planning.</p> <p>Alternative one says it would eliminate route 48 and talks about a new line from U district to Loyal Heights. What are the riders supposed to do who currently take 48 from South Seattle to univ district? There seems to be no plan in alternative one to provide a bus route for them. Am I misunderstanding something? Too many people commute everyday to write off this population.</p> <p>Please clarify.</p> <p>Thanks Rory Murphy</p>
27	Mar 10, 2015 5:25 PM	<p>Light rail does nothing for me. I am an 80 year old who uses route 71 most often to go downtown, to the U district, also to church and library as needed.</p> <p>Your survey is confusing.</p> <p>There seems to be little thought given to how the elderly and other unemployed folks get around.</p> <p>I voted myself higher taxes to improve transit, not take it away.</p> <p>Husky Stadium is not in the U district - it is out of the way, except for UW students and football fans.</p> <p>I must have Alternative 2 in order not to have to drive everywhere and to retain my current way of life. I hope to stay in my home for a long time yet</p> <p>I tried to fill out the survey.</p> <p>Please consider the "old folks."</p>
28	Mar 10, 2015 6:53 PM	<p>Hi, my name is Madeline Marine and I'm looking at these link connections alternatives for the new Husky Stadium. So I'm looking at what the alternatives are and it's just a narrative, it doesn't say how it actually changes. One is more, one is less but I don't see how it actually changes the route so I'm obviously missing something. ***</p>
29	Mar 13, 2015 9:15 PM	<p>DeAnna,</p> <p>This is Redge Newbeck again, ***. Sorry I have another question. We just in Seattle - I think late last year - we funded an institutional levy in Seattle sales tax levy - such that we could - restore some of the service that was cut from Metro service system wide.</p> <p>So were these plans made before or after that and how does that impact increase, which is going to be going into effect relate to this? Is this in addition to that, will that change be made on top? Because I got one comment back from somebody saying that these alternates were made before the levy for Seattle. Question is, what does the levy with Seattle have to do with this. Is this going to be - is the levy going to be put on on top of this - is this already included in the proposals. Would like to be able to give this gentleman an answer back. I'd appreciate that.</p> <p>Again, this is Reg Newbeck, *** - thank you for spending all the time on the phone with me - that was really great - I appreciated that. I hope that you understand where I'm coming from as in trying to project and being able to function in some manner shape or form in the</p>

No.	Date	Content
		<p>environment. I expect change but change shouldn't be such that people are put out of their way because of it.</p> <p>Thank you, bye.</p> <p>-----</p> <p>From: Reg Newbeck [mailto:***] Sent: Thursday, March 12, 2015 6:49 PM To: Martin, DeAnna Subject: My Summary View of the Metro Changes</p> <p>DeAnna,</p> <p>This posted from me on the Seattle Transit Blog as well as Nextdoor on Wednesday and here are some added comments from today.</p> <p>More has come up relative to the elderly and handicapped and to the least I'm thoroughly disgusted with the CAVALIER answers on the blog and I know it doesn't represent Metro, but the surely think they are speaking for Metro. People on the blog told them to take a cab to get to Group Health after the 43 is dropped! I can't believe that this is ADA complaint either!</p> <p>I am going to try to come up with a third alternative that does not play games by playing one service area against another. It is amazing read comments that the 38 riders will have access to shopping on E. Madison from 23rd to Broadway and then be told that if you used the 11 go find another place to do you shopping or make the transfers.-----</p> <p>[Blog comment]</p> <p>I would like to pass on a comment from a poster on Nextdoor Madison Park, which really sums up the problem with Alternative one for all routes "The proposals are head spinning."</p> <p>A number of others are in total disbelief that this will actually happen and it is less than a year away. We've gotten a lot of comments and most people don't understand the complexity of the change, nor the impact on their normal routines like work, shopping and getting from point A to B, which will totally change. It's really easy for some to tell people to change the pattern and even places that they shop. It's also really easy to tell people to walk some or and/or to wait for buses in unfriendly parts of town. Others have thrown in the towel and said that they going to drive rather than deal with transfer and walking!</p> <p>Yes, some people will benefit from these changes, but the cavalier attitude toward those who will be hurt will not benefit anyone especially if Metro or the County come asking for money again as they most likely will! This change is going to take a massive sales effort and in my view, it's gotten off to a very bad start to say they least! In addition, the confusion of the added funding from Proposition One doesn't help the credibility of the City of Seattle, Metro or King County! The talk about SDOT's BRT just added to the confusion and uncertainty of what's going on.</p> <p>In reality these changes are draconian and greater than those proposed by Metro last year and much harder to stomach due to complex relationship of the pieces which the website does a poor job of relating! Not everyone has the time or expertise to devote to becoming an expert on way the changes will impact their lives which they surely will, since almost</p>

No.	Date	Content
		<p>everyone is impacted for the good or bad!</p> <p>I really hope that Metro is really giving us two alternatives for each of the routes listed and that this is not a done deal which some have expressed to me! So far I haven't really seen openness for alternatives and if that be the case, then Metro should be honest with us!</p> <p>Change is hard, but it can be forced down our thoughts or it can be made palatable, so which will it be?</p>
30	Mar 13, 2015 9:17 PM	<p>DeAnna,</p> <p>I'm thinking that we know each other from Washington Ceasefire! Hope you are doing well. I saw your name on the Metro website and thought I would drop you a line and say hello. The reason I was on the website was because I heard that the #25 bus was being considered for elimination! Horrors! That is my bus! If possible I would love to talk to you about this concept which I think is Alternative 1. And I'm sure my community council (Roanoke Park/Portage Bay) would be interested in some sort of community meeting maybe with Montlake! Anyway, it is good to reconnect with you.</p> <p>Best wishes, Sandy Kraus</p>
31	Mar 13, 2015 9:19 PM	<p>Hi Deanna,</p> <p>I'm moving to Downtown Redmond this month and learned the U-Link service change proposal could impact my planned bus commute on Route 545. I wasn't able to find any information about the travel time impacts of the proposed changes for Eastside riders. Can you please provide that information? Thanks!</p> <p>Leah Zoppi</p>
32	Mar 13, 2015 9:21 PM	<p>Hi Deanna, I am having trouble understanding the description below. There is no 38 in the mix. Maybe there is an attempt to a reference to the 48. I do not believe that there is an area that can be described as between E. John and Broadway. Current description that I am trying to understand is below: Alternative 1 • East of E John Street, use Route 8 to reach Link light rail. • Between Broadway and E John Street, use Route 38 to reach Link light rail. • West of Broadway, use Route 10. Alternative 2 • No change.</p>
33	Mar 16, 2015 5:38 PM	<p>Hi - I live in North Ravenna and I ride the bus. I think you need to repurpose a couple buses directly to the light rail station. I don't see that on the maps I looked at. That station needs to serve commuters directly all week long.</p> <p>I don't see how most of NE Seattle commuters benefit from the current plans. We need a simple connection from light rail to a bus that goes up 25th Ave NE and/or connects to other buses to Laurelhurst and north. Asking riders to walk up to campus is not terrible but of course you will lose riders. We need to make light rail a hub ... not assume that UW is the hub. It's too far and those buses too slow winding through campus. The UW stadium is the logical drop point for most NE riders to head up Montlake to go north (all the way to Bothell really) or NE (Wedgwood). No one will want to slog out of the U-District or Roosevelt stations.</p> <p>From what I can read from the maps you are assuming most will walk from Stevens way to the stadium and vice versa. That's too optimistic. Some will, most will not. More people become bus riders if they could get out across the street from the station. That's new ridership potential for bus/light rail if you make the stop easily accessible.</p>

No.	Date	Content
		<p>From what I can tell from the map, most bus lines continue to fan out to the NW from the UW stadium station along Pacific. But those all end up the same place all the U-District / Downtown buses already go. Why not take one or more of the 70's buses that all go from downtown to U-District? Pull a couple off the run from downtown and have them start at the light rail station with similar terminus routes in NE Seattle. But running up Montlake instead? This increases coverage with no real losses (the remaining 70s still hit U-District). Routes like the 372 except have it stop by the station (not up on campus).</p> <p>Have a few run along Pacific and up Montlake and then either Sand Point or 25th Ave NE make sense to me. Benefit UW Med Center AND pick up light rail riders.</p> <p>Tom Sterling</p> <p>Cell: ***</p>
34	Mar 16, 2015 8:50 PM	<p>The route I use the most is 255 from convention center station to downtown Kirkland (heading east anytime between 9:30am and 11am, and back anytime between 4pm and 9pm). I prefer alternative 1 even though it means more transfers since it'll make it easier for me to get from the convention center station to bars in greenwood/maple leaf.</p> <p>Can 255 end at ulink and become (slightly) more frequent? Brining it down to 10 minute headways (morning-11am and 4-8pm) would make the added transfer much less painful.</p> <p>Thanks for listening and for taking on bug changes in alternative 1!</p> <p>-Nish</p>
35	Mar 17, 2015 4:06 PM	<p>[Emailed as follow up to a phone call from Mayor Mary Jane Goss.] Dear Mayor Goss, Sorry for the delay in getting back to you. We spoke last week about your request to have more information about how the alternative concepts Metro and Sound Transit are considering will affect Lake Forest Park bus service. You asked for a copy of the powerpoint Jeremy Fichter used at Seashore. I've cc'd him on this email. Jeremy, can you please send Mayor Goss a copy of the presentation? To recap, the only changes that would affect Lake Forest Park are the ideas for Route 372X. In both alternatives, this route would get more service. Here's a link to a route info sheet to describe the concept for the route, which is the same in both alternatives: http://metro.kingcounty.gov/programs-projects/link-connections/pdf/372x-info-03-15.pdf For your friend who takes the 372 and connects to service in Bellevue, she will continue to be able to do this under both alternatives. Route 535 provides a direct connection between UW Bothell campus and downtown Bellevue. You also had questions about park and ride facilities. I have cc'd Steve Cahan, Metro's park and ride person, who would be a good resource for you as you figure out how to invest your city resources to increase parking options for residents to connect to bus service. Please let me know if there is anything else I can help with. Best wishes, DeAnna</p>
36	Mar 19, 2015 4:44 PM	<p>What about the effect Light Rail will have on inbound and outbound CT Commuter Routes into the U-District like the 860 that I personally take?</p> <p>David Copsey</p>
37	Mar 19, 2015 4:47 PM	<p>Hi Deanna,</p> <p>I've been wondering: once the Capitol Hill/Husky Stadium stretch of light rail opens, will bus routes such as the 41 continue to travel through the tunnel, or come up to street level?</p>

No.	Date	Content
		<p>Thanks,</p> <p>John Brookes</p>
38	Mar 19, 2015 4:57 PM	<p>Jeremy: Thank you for your presentation yesterday at the Madison Valley meeting. I appreciated that you took a genuine interest in peoples' ideas, concerns, and suggestions. As promised I wanted to share with you the Briefing Memo the CTCC (Central Transit Community Coalition) put together last year for meetings with the County Executive and Metro and subsequently with King County Councilmembers during the time of the proposals for major cuts in our service. It outlines a number of the needs along transit routes in our area of focus that were threatened last year by the proposed service cuts. Since Metro's current planning potentially impacts service on 19th Avenue E by proposing to remove Route 12, I want to draw your attention to page 3 of the memo which describes some of the needs along 19th:Country Doctor Community Clinic - Provided care at its 19th Avenue and E Republican Street site to more than 10,000 patients in 2013 from throughout King County and beyond: 28% from Capitol Hill/Central Area; 44% from other parts of Seattle; 21% from King County (outside Seattle city limits); 7% from outside the county (primarily Snohomish and Kitsap counties). The clinic is open Tu, W, Th 9-9 and M, Fr 9-5. Access by Route #12 is important for both patients and staff. Schools – Stevens, St Joseph's and Holy Names Academy are reached by the #12. In addition over 20% of the Seattle Academy of Arts and Sciences student population lives in the zip codes served by Route #12 where it is proposed to be cut, including zip codes 98112 and 98122. Businesses and Residents – There is a growing business and residential community along 19th, including a new 40-unit apartment building, 19th and Mercer, promoting their location on Route #12 and attracting younger residents without cars. _____ As you can see, the loss of service along 19th Avenue E will have a negative impact on important community services which rely on the long-established transit service. The Briefing Memo as a whole gives you an insight into needs along other routes in our area of focus that were threatened by last years proposed service cuts. In our March briefings last year we also raised the concern we discussed yesterday about the bus signage on interlined routes (see the mention on the page after Page 6 of the memo). I look forward to following-up with you about that concern and the ideas we were discussing yesterday to get your thoughts and suggestions. Please let me know if you have any questions. I have also cc: Linda McVeigh, Executive Director of Country Doctor Community Clinic on this email if you would like to reach out to her. Thank you, Anne Knight ***</p>
39	Mar 19, 2015 5:00 PM	<p>[3/12/15] Deanna, I am finding the information difficult to understand.</p> <p>Is it possible for you to make a presentation to the Wallingford Community Council Board?</p> <p>We meet the first Wednesday of each month from 7:15 to 9 at the Good Shepherd Center, Sunnyside Ave N and N 50th.</p> <p>Gregory Hill Architect</p> <p>----</p> <p>[3/17/15] DeAnna,</p>

No.	Date	Content
		<p>Our first interest will be the changes to the following routes: 16 26 26E 31 44</p> <p>Gregory Hill Architect</p>
40	Mar 19, 2015 6:18 PM	<p>[3/18] The survey "Your bus may change when Link opens: learn more, participate now" forwarded by UW Transportation Services was not really applicable for my response, but I thought I needed to give some input. Light Link Rail doesn't meet my needs as a UW employee even when it eventually goes up to Lynnwood. The main reason is the UW station near Husky Stadium is too far from my work location. I would need bus connections from the Stevens Way campus loop to and from the stadium station. Without the bus service to/from the Stevens Way campus loop, the time to walk to the station would be too time consuming. It seems the station location was selected more for sports fans rather than employees and students. Debra Wolf----[3/19] Hi DeAnna, Thank you for your response and help. That would most likely work if it came frequently (10-15). Cheers, Debbie</p>
41	Mar 19, 2015 7:16 PM	<p>Hi Deanna,</p> <p>My name is Dorothy, nickname Duffy, last name Park. I'm calling on Monday the 16th a little before 4 o'clock and I have been looking at...well you came to our League of Women Voters meeting and I went in November to community input regarding the proposed changes that will be possibly coming for...I live in Sand Point on Sand Point Way. And I'm trying to figure out how to figure out how to look at these two alternatives and how they would affect what/how I currently use Metro, and I have some questions because I'm having a little difficulty trying to figure out if either alternative does, for what I use it for currently. So I'm wondering if there were somebody who could spend some time on your end looking at the map and my end and then telling me kind of, you know, really what/how it would work under the two alternatives. And I have some kind of dumb questions too, also, which I can't get the answer to off of the internet, like will the alternatives use the transfer stations at Campus Parkway, and get on the , you know, express lanes and go into the bus tunnels and do that kind of thing under the proposed changes. SO, I just have lots of questions and was hoping someone could help me. My home number is area code ***. I am home this afternoon for about an hour and will be home tomorrow in the morning. Ok, thank you DeAnna. I appreciate your helping with this. Bye.</p>
42	Mar 19, 2015 7:18 PM	<p>Please make sure there is adequate bus or shuttle service to the new light rail station in the University area. Smaller and/ or more frequent connections are needed to provide transportation to the Laurelhurst/ NE Seattle area. Luanne Mills</p>
43	Mar 24, 2015 8:20 PM	<p>When Montlake Blvd southbound is clogged all the way back to U Village or beyond, is ST arranging for a shuttle from north UW parking lot so the many potential riders from NE Seattle can access the train??</p> <p>~ Jean</p> <p>from iphone</p> <p>***</p>
44	Mar 24, 2015	<p>We like Alternative 1 because that 255 bus would get us much closer to Husky sports</p>

No.	Date	Content
	8:23 PM	<p>events than it does now. BUT: we also want to get to 255's current downtown-tunnel stops AT NON-PEAK HOURS at University St (for Benaroya Hall) and at the 2 stops south of there for sports events. New Route 256 won't help us AT ALL, off-peak. We can't tell from your proposed routes and interactive maps whether we could get to the 3 southernmost tunnel stops on light rail, after transferring from the 255 at the new UW station, WITHOUT ANOTHER LIGHT-RAIL TRANSFER INSIDE THE TUNNEL, which would KILL any time advantage of going by light rail from UW to our destination.. The interactive map makes it look like the orange light-rail line from UW stops at the Convention Center entrance to the tunnel, and might need a second transfer to connect to the other tunnel stops shown by the green light-rail line when I click "Central LLR stations (existing)". Please clarify the proposed Alternative 1 light-rail routes/connections for downtown. Thank you, John and Beth McCaslin, frequent 255 riders</p>
45	Mar 24, 2015 8:23 PM	<p>Deanna,</p> <p>In some of the PDF's that show changes to bus routes under the two proposals for Link connections, some cells show a red dash. For example: http://metro.kingcounty.gov/programs-projects/link-connections/pdf/545-info-03-15.pdf</p> <p>I'm not sure what the red dash means. Could you explain?</p> <p>Thank you Deanna! greg r.</p>
46	Mar 24, 2015 8:25 PM	<p>Ms. Martin</p> <p>I moved to Laurelhurst from the Northgate area and was shocked to find that to get downtown on the bus went from 10 to 15 minutes to 60 minutes.</p> <p>I also frequently use the bus to go to Seattle Center which also takes 40 to 60 minutes. It is very confusing to know which 75 bus is the one going to Seattle Center becoming a 32. As Seattle continues to increase its population it is very important to make sure our transportation options grow with it. To Adequately use light rail we need to be able to reach it.</p> <p>Thank you.</p> <p>Sincerely, Linda A. Luiten</p>
47	Mar 24, 2015 8:29 PM	<p>It is vital to make sure that the elderly and physically handicapped have transportation within walking distance of their homes.</p> <p>I am used to taking an hour to get downtown, and it doesn't bother me. I build that hour into my schedule and enjoy either watching the people and the landscape or reading. I love riding the bus.</p> <p>If #71 is eliminated, I will have to drive and park, since I am ten blocks away from 65th NE. I am 80 years old.</p> <p>I just hope I live long enough to enjoy safewr driving and the end of road construction in the areas I drive through when a bus does not get me where I need to go.</p> <p>Judith Hance</p>

		NE Seattle
48	Mar 25, 2015 3:51 PM	<p>Hi DeAnna, I normally take the 255 from the South Kirkland P&R to the International District and back every day for work, and am trying to understand how my route would change with the proposed alternatives. It seems to me that I would instead be taking the new 256 route, which is only offered during "peak hours," but I can't seem to find any information about what the actual time frames are when these peak hours would occur. From when to when will this route be available each morning and each night? What about on weekends? And if my work schedule doesn't match up with the peak hours schedule, what would my alternative all-day route be that would get me between these two stops? Thank you very much! KRISTINA BIRKEL</p>
49	Mar 25, 2015 3:53 PM	<p>DeAnna, A neighbor of mine posed a question about buses stopping at the Montlake Flyer Stop. Do you have any information about this? She was not only interested in know if the #25 will continue to stop there along Montlake Blvd but also if Eastside buses will be using the Montlake Flyer stop or will the Montlake Flyer Stop be shut down. Thanks. Sandy</p>
50	Mar 25, 2015 4:36 PM	<p>Hello Deanna, I've looked at and the 311 bus proposal. I'm astounded that you find this to be a good solution. Frankly, I'm furious. I take and have been taking the 311 bus to my job in Westlake for the last three years coming and going from the Brickyard PNR. I actually had to begin taking one bus earlier in the morning to avoid sardine like quarters on the 6:29am bus and the same with the 4:08pm at night. I now take the 6:12am out of Brickyard PNR which is still very full and the 3:48pm at night. Going home it takes me an hour, coming to work 30 minutes. What you are proposing is preposterous. Not only will I be giving up an express bus but I'll have to transfer, walk to the link from the bus stop, wait for the link and then go clear out of my way to South Lake Union and then onto Westlake. You're adding at least 30-40 more minutes onto my commute. I would have to get up even earlier to get work on time because of this ridiculous idea. Sound Transit and Metro want people to take the bus and the light rail but you're penalizing Eastsider's for working in Seattle. Bad enough they are now tolling 405 and then you add insult to injury by creating an even longer commute? Are you kidding me? I will fight this idea to the end. I plan to hold a meeting with printouts on my bus with all the other riders encouraging them to speak up and be heard. I will also go to the local news channels 4,5,7 & 13 and have them do a ride along and see the proposed route to get my point across. I will advocate for this not to be affected. It's bad enough the 311 stops running after the morning commute and the first bus out of downtown Seattle is not until 3:30pm. The 255 may as well be the slow boat to China with all the stops it makes as it snakes completely through Kirkland. We have no good alternatives, stop taking away what we have just because you don't commute with us. Regards,</p>

		Debbie Sullivan
51	Mar 25, 2015 4:59 PM	I support Laurelhurst Community Club’s proposal. Our current every 60 minutes with no night or weekend transit is a real problem. Thank you. Kate Hemer ***
52	Mar 25, 2015 5:03 PM	<p>Greetings,</p> <p>Thank you for the opportunity to comment on future bus route possibilities for the UW Laurelhurst neighborhood.</p> <p>I live in Laurelhurst and work both at UW and downtown. I would take the #25 to work every day if it were possible. Right now the frequency (hourly) of the route precludes my doing this. The bus schedule doesn't allow me to get to & from work as required by my job and still be able to meet my children when their school bus drops them off.</p> <p>In addition, I need to be able to take the bus on weekends (as I'm a physician who frequently works on weekends) but this hasn't been possible since the weekend routes were eliminated.</p> <p>When we first moved to the neighborhood, the #25 ran every 30 minutes during the daytime and also had Saturday/Sunday service. I wish that this frequency could be restored.</p> <p>I read on your website that, although changes are being made to improve the #25 schedule reliability, no increase in frequency or restoration of weekends is planned. Given the new UW station becoming available in 2016, this seems very short sighted. If there were increased frequency of the #25, I believe that many in the Laurelhurst neighborhood would use the #25 on a daily basis, especially if it ties into the new UW rail station.</p> <p>If the UW station is going to connect to First Hill and downtown, maybe consideration could be given to shortening the #25 route (to connect to the UW station and other key routes with more frequent service running to & from Laurelhurst/Children's Hospital?)</p> <p>Given the 'Montlake Mess' (that will be worsening with the 520 bridge changes), anything that gets Laurelhurst residents out of their cars and using transit would be enormously helpful.</p> <p>Thank you for all of the great work that you are doing. The UW, Northgate and other stations are all exciting and wonderful projects that I anticipate using in the future. We moved to Seattle from Austin Texas 2 years ago and I am very impressed by the Seattle transit system.</p> <p>BTW, Austin frequently looks to Seattle as a model transportation system that it aspires to become someday. Unfortunately, they are late to the game and it is always more difficult/expensive to develop comprehensive transit systems as time goes by. We are very fortunate to have such a great system in Seattle as well as an agency that solicits the rider's opinions as it moves forward.</p> <p>Thank you so much for consideration of these comments.</p> <p>Sincerely, Charlotte H. Smith MD</p>
53	Mar 25, 2015 8:47 PM	After spending 30 minutes on your survey http://metro.kingcounty.gov/programs-projects/link-connections/have-a-say.html - after adding my inputs and pressing the final "next" it didn't appear to submit anything but just returned me to the first page – and as I

No.	Date	Content
		<p>paged through, all my comments were removed. So not trying that again. Maybe there is a larger issue with the survey? Maybe my inputs were recorded – can't tell – but here is a summary of the feedback I have provided as it relates to the proposed medications for bus service 255 (and the proposed 256). • Both the proposed 255 and 256 routes need to be all-day every day. • There are 2 core hubs – downtown Seattle (workers and nightlife) and UDistrict (students and nightlife). There should be direct connections to both, all day• Making the 256 only operate in peak hours means that outside of that – people have to now a) change to link light rail and b) take longer getting to downtown It is not just people who work downtown, Monday to Friday, that want to go directly to downtown</p> <ul style="list-style-type: none"> • Weekend Hours of operation need to extend. The current 255 has the last bus leave Seattle at ~11pm on Sat and Sun – most nightlife activities are nowhere near over by then. This has been a red flag for years. This needs to b fixed Make the 255 and 256 routes all day, every day and with extended hours of operation over the weekend. This will be a win for everyone and still provides links to light rail for use when wanting to Capital Hill Please can this feedback be shared with whomever (since I couldn't get survey responses submitted) - Thanks
54	Mar 26, 2015 5:48 PM	<p>I strongly suggest to split #8 bus route into two individual route.</p> <p>As we know current #8 often delayed because the long distance.</p> <p>I suggest to create a new route #88 running between the [Cap Hill Link Station] and [Seattle Center] based on the current #8.</p> <p>This short distance bus can be just use 2 bus car for the whole day --it could be as frequent as every 10 min or 15 min.</p> <p>This new #88 will connect to Cap Hill core business/South Lake Union./Lower QA with connect to Ballard and downtown.</p> <p>This would be link for 4 busiest business area of Seattle--it could make shopping more easier and easy for tourists.</p> <p>#8 after wards can still run from [Cap Hill Link Station] to [Rainer Beach].</p> <p>Please consider.</p> <p>thank you much. Julien</p>
55	Mar 26, 2015 8:47 PM	<p>Hi Deanna, I'm on the Board of Park Commissioners, and very interested in commenting on the Alternative plans. I went to the UW Medical Center today, based on the posted schedule, but was told you had the table there yesterday. Can you tell me other dates to talk to someone? The Board will likely want to make comments as a whole. I have a board meeting tomorrow, the 26th, and unable to go to the community meeting.Thanks, Diana Kincaid---</p> <p>[3/26/15] Hi DeAnna,Thanks for getting back to me so quickly. There is a strong possibility the Park Board will want to comment as a body. What is the deadline for comment, and where should we send our letter? Those are the two most pressing questions, since we have our meeting this evening. Yes, it would be helpful to speak with a service planner. When would one be available? Thanks for your help, Diana ----</p> <p>Diana called Ted Day and indicated that the Park Board is really excited about the prospect of frequent service to their two most congested and parking restricted parks of Green Lake and Magnuson Park. She indicated they especially loved the changes to Route 16 in</p>

No.	Date	Content
		<p>Alternative One and the increased frequency of Route 75 in Alternative One. She also indicated that there will be continued low-income residential growth at Magnuson Park and that Alternative One would be quite beneficial to this future population. She did raise the concern about the access to Link at the Montlake Triangle not being the best and was hopeful the future might lead to improvements there.</p>
56	Mar 27, 2015 7:29 PM	<p>Lewis called DeAnna to discuss the proposed plans. He told her he moved to Jackson Park to have the 73 service and does not drive. He indicated that route 73 lets him travel everywhere at all times.</p> <p>He expressed concern that if the 73 goes away, he would have to transfer to get to places like the International Film Festival and Specialty Store, and added that it is too difficult to transfer when carrying groceries. He commented that he thought this route would be safe because Seattle got funding. He added that there are a couple of senior housing facilities between 135th to 115th along the 73 route. It will be too hard for them to go farther to access transit. He noted that if he misses the 77, he can still catch the 73 on weekdays. It's always crowded. He expressed interest in more buses going to Jackson Park – especially on Sunday. He indicated that he would be satisfied If route 373 came in both directions and with direct service direct service, and does not want to have to take a bus to link to get to downtown Seattle.</p>
57	Mar 27, 2015 9:33 PM	<p>I'm an Eastside Resident and a choice bus rider who generally walks 0.7 miles to the Yarrow Point (92nd Ave) Freeway station. The changes in Alternative 1 would make bus service dramatically less attractive me, particularly evenings and weekends, and cause me to reduce my transit use. The Alternative 1 changes eviscerate bus service for Eastside riders from Redmond, Overlake, West Bellevue and the Points communities, and Kirkland who rely on SR-520 bus service to access downtown Seattle evenings, weekends, and mid-day weekdays. They would waste the investments that have just been made in the SR-520 project with new bus stations and HOV lanes. Today we have two 7 day/week, 18 hour/day bus routes linking the Eastside with downtown Seattle. Metro 255 from Totem Lake, Kirkland, S. Kirkland P&R, and the Points to downtown Seattle, and Sound Transit 545 from Redmond, Overlake, and the Points to downtown Seattle. The vast, vast majority of riders are headed to or from downtown Seattle, especially at off-peak times. The U-District is primarily a weekday daytime travel generator. Sound Transit already proved this by the many years they tried to create demand for ST 540 which once ran 7 days/week all day and is now only a peak period Mon-Friday route. The transfer conditions at UW Husky station are poor. Montlake Blvd is often congested and unreliable and Montlake Bridge openings are frequent, especially on weekends. The two proposed replacement buses would stop in different places Eastbound, so a rider can't wait in one place for both bus routes. These changes eviscerate our bus service, and use some Eastside service hours to create more bus service inside Seattle. During off-peak periods, today the buses reach downtown Seattle before transferring riders would be reaching the Link platform at UW Husky stadium. The travel time from Montlake to downtown Seattle is only about 6-8 minutes. The buses heading toward Pacific St or Montlake Blvd will have multiple traffic lights, potential Montlake Bridge opening and Montlake Blvd congestion, before they even drop off riders on NE Pacific St or Montlake Blvd – and that's not even thinking about what happens on football game days. If there were to be a "forced transfer" at UW Husky, there should have been a direct connection between SR-520 and the Husky stadium lot, or dedicated lanes on a bridge that doesn't open. Yet both of these alternatives haven't been provided, instead relying on ancient, congest infrastructure that is over capacity and a bottleneck – I mean the Montlake Bridge and Montlake Blvd. Redirecting our Eastside bus routes which take us to downtown Seattle to serve other parts of Seattle where we don't want to go simply guts Eastside bus service without giving Eastsiders anything in return. Metro and Sound Transit should retain frequent all-day 7-day/week bus service for SR-520</p>

No.	Date	Content
		<p>service direct to downtown Seattle. Retain the frequency, service hours, and span of service as provided today on Metro-255 and Sound Transit-545. Weekend or evening U-District riders can easily enough transfer to Link at Westlake and be in the U-District in 8 minutes. If Metro and Sound Transit want to improve connectivity at UW-Husky, they should require WS-DOT to retain the full function of the current Montlake Freeway stations, by building a facility as nice as the ones at Evergreen Point and 92nd Ave, for Montlake, which would be a short reliable walk to connect to Link. That's a better choice than truncating our buses. Sincerely YoursCarl Stork</p>
58	Mar 30, 2015 6:36 PM	<p>Good Morning Deanna:</p> <p>I attended last night's meeting at University Heights, and wanted to extend my thanks to everybody involved. As a new-ish part-time Metro driver and a lifelong North Seattle resident, I really appreciate all the outreach efforts that are being made.</p> <p>One thing that percolated up through my brain overnight that I did not think to say to anybody yesterday (nor commented in the survey) was that while I strongly support Alternative 1, perhaps more thought needs to be given to the underlying geography/terrain. Particularly in the East-West directions, Seattle has some ... pedestrian- and bicycle-unfriendly hills. When considering the walksheds for a the major restructuring that Alt1 is, these hills need to be given some consideration.</p> <p>Again, thanks, Michael Andersson</p> <p><***></p>
59	Mar 30, 2015 6:36 PM	<p>I recommend Alternative One, since I understand it maximizes connectivity with light rail, and thus the light rail ridership count.John NilesSeattle***</p>
60	Mar 30, 2015 6:37 PM	<p>Yes. Couldn't even get off the first page upon entering my answers.</p> <p>Also, this is WAAAY too long and complicated. This is my second attempt and I paged through the survey to see if you edited it in any way and you didn't.</p> <p>There is NO clear explanation of what you are trying to accomplish. The maps are even more confusing.</p> <p>Please don't send me this again without cleaning up the content as well.</p> <p>Laurine Fabrick ***</p>
61	Mar 30, 2015 6:38 PM	<p>Dear Ms. Martin,</p> <p>I tried to express my opinions regarding the two proposals using the survey link. In case they were not received, I am sending this note to reiterate what I said.</p> <p>I am opposed to Plan One. I could live with Plan Two as long as you retain the trolleys. I use the 43, 12, 11 and 2. The 12 is the route I use most often. It is a great route!! It serves three hospitals, The Country Doctor on 19th, Seattle University, the Hearing, Speech and Deafness Center, numerous high schools, Town Hall, Seattle Art Museum, Central Library, the Federal Court House and the list goes on and on.</p> <p>I am a disabled senior and cannot walk up and down the hills of Downtown Seattle. I'm not</p>

No.	Date	Content
		<p>alone. The trolley is always full. It serves a wide variety of individuals and families who have no other means of transportation. Parents take their children to the clinics by means of the trolleys. The blind and deaf use it all the time.</p> <p>Your current service also does not address the serious lack of public transportation in the Aurora area where senior housing has been built. You need to improve service to all areas where SHAG Housing exists and where low income families live.</p> <p>The list of problems which your proposed changes creates goes on and on.</p> <p>One final point on the trolleys. They don't create the kind of pollution that diesel buses create. They are very effective on the steep hills and they are an icon of Old Seattle. Don't remove them. We will all lose in the long run.</p> <p>Sincerely,</p> <p>Jo Ann Gabrielson</p>
62	Mar 30, 2015 6:40 PM	<p>[3/27/15] Thank you for the prompt response. I also tried to fill out the online survey on my phone but it may have stopped before the final "next" button.***[3/27/15] I looked over the 2 alternatives for NE Seattle and I didnt see what seems like an major gap in both plans: better connecting Ravenna and Bryant (denser and more pedestrian oriented neighborhoods) to the new light rail station. A frequent route going down 25th to the new station would seem an obvious solution. Michael Jacobson ***</p>
63	Mar 31, 2015 3:03 PM	<p>Attached and pasted below are comments from Laurelhurst on the Link Connection Alternatives. Thank you for considering our views.</p> <p>Colleen and Jeannie LCC March 31, 2015 DeAnna Martin, Community Relations Planner King County Department of Transportation King Street Center 201 S Jackson St Seattle, WA 98104</p> <p>Re: Link Connection Alternatives Comments</p> <p>Dear Ms. Martin, and the Metro and Sound Transit Sounding Board,</p> <p>The Laurelhurst Community Club (LCC) commends the efforts of both King County Metro and Sound Transit to plan for the optimal connectivity between the two transit modes.</p> <p>The new Light Rail at the University of Washington Stadium Station and the Capital Hill Station service will be operative in the next 18 months, and LCC supports plans to establish effective routes to encourage residents both north and south of the Ship Canal to use more transit. Traffic from commuters forced to use SOV's for transportation has resulted in increasing gridlock, especially around the Montlake Interchange where the new Light Rail Station is located. Currently, cars are heavily used in this corridor due to limited and slow options on the current Metro transit route #25.</p> <p>LCC representative, Colleen McAleer, attended two of the Metro and Sound Transit Sounding Board meetings held in January and reported back on the process. LCC further</p>

No.	Date	Content
		<p>analyzed the two proposed service model alternatives offered to support connections when the Light Rail is operational.</p> <p>LCC recommends that the Sounding Board adopt Alternative #2 as the option that would best serve the needs for transit users in northeast Seattle, and for our neighborhood. It offers a wider range of routes, stops are located closer to residents which reduces the walking distances to "catch a bus", to a through route, or to Light Rail.</p> <p>Trading off the wait times (which are longer) in Alternative #2, vs # 1 is still more beneficial, especially for bicycle passengers, seniors, students and lower income families who will benefit from more convenient, "one seat" rides, and offers access to more direct routes. In addition, the new east/west service (#16) proposed is a much needed component of this plan, and offers a service which has not yet been provided. This will connect the Seattle Parks & Recreation offerings at Magnuson Park and Greenlake, reducing the need for SOV on the city's crowded cross roads.</p> <p>Alternative # 2 retains the bus route in the Laurelhurst neighborhood, converting it to #62. This offers an excellent option of a much quicker connection to the Light Rail Station by running the route directly on Montlake Boulevard, shortening the ride time by 2/3rds. This improvement in more direct, quicker service to Light Rail will be an effective enticement to encourage more use of transit for employees, and residents near to this new route.</p> <p>There is one point of concern is that this new service is planned to cease at 6:00pm, with no weekends and holidays offered. This may cause this route to fail, as riders will probably not be able to get that last ride before 6:00pm. It also eliminates a viable transit option for weekend recreational activities and airport rides that are not 6am-6:00pm. LCC requests that the length of service be extended to match that of the Light Rail operating service to maximize its appeal, and usage to make this a viable new route for Metro.</p> <p>We do not support Alternative #1. While it seems to offer more frequent service, the trade off to eliminate existing routes, and requiring further distances to transit stops is not beneficial to the riders who need transit service the most.</p> <p>LCC again requests consideration of operating a continuous shuttle route that would connect the new Light Rail with stops at the University Village, Laurelhurst, Seattle Children's Hospital, the Center for Spiritual Living, and Magnuson Park. It would be very effective to offer service along the Montlake Blvd (or ideally, inside the excess space inside the E-1 lot of the University of Washington), on to NE 45 St, stop inside Laurelhurst, and along then to Sandpoint Way NE, and looping back after Magnuson Park/NOAA facility, tying these routes into a 20 minute shuttle run. It would operate as long as the Light Rail Station does, and offer reliable and quick one-seat access to rapid transit. This route would be a viable incentive to employees, residents and recreational users along this NE Seattle corridor.</p> <p>LCC asks that the Sounding Board consider this as an option for NE Seattle connectivity to the Light Rail Station.</p> <p>Thank you for considering the views and recommendations of the Laurelhurst Community Club, and please contact us if we can provide any addition information that will result in more transit connectivity and incentivize more transit users.</p> <p>Sincerely,</p>

64	Mar 31, 2015 6:01 PM	<p>Please reconsider what you're doing with routes around the new UW station. As it stands, the connection hub remains on the east side of the University, at NE Campus Pkwy and University Way. This removes the benefits that the Link Connection offers to NE Seattle. There should be more direct connections to the Link station at Husky stadium. Consider at least the express routes coming from the East side of I5. Why not leverage the connection at the stadium by routing the 74 along Sand Point Way and Monklake directly to the rail connection? The same should be true of the 75; instead of sending the 75 up through the University to get to Campus Parkway, send it along Montlake to the Link connection at UW stadium. Routing the 75 along Montlake would also give students bus access to the gymnasium and the parking surrounding that area. It would also DRAMATICALLY lower commute times for the Sand Point corridor to Downtown Seattle, by connection to the new Link station. For someone coming from the Sand Point area, it takes an hour or more to get to downtown, and the new maps don't change it because there is still no access to the Link connection at UW stadium. We still have to take the 30 or 75 to the Campus Parkway hub, and wait for a 71/2/3 transfer to downtown. It baffles me how the Link station remains unusable to those in NE Seattle, cut off from all bus routes and stranding anyone at the Campus Parkway hub. Please open up access to the station to the Sand Point corridor by routing at least the 75 along Montlake instead of sending the 75 through the UW campus.</p>
65	Mar 31, 2015 7:02 PM	<p>My name is Watcom Kluger (sp?) and I live in Montlake and I just found your phone number and name on the Metro King County web regarding Metro bus service changes for next year and I would like to let you know, and maybe you can pass it on, that everybody in my family would not like Alternative 1 because it cuts out buses 25 and 43 and these are the buses we depend on to go everywhere from downtown to University of Washington as well as farther on to airport. It is too far for us elderly people to walk from here to Husky Stadium - that would be the answer I guess for Alternative 1 so we hope to continue the same service with Alternative 2 and hopefully not reduce the bus times too much. My number is ***. Thank you very much.</p>
66	Mar 31, 2015 7:13 PM	<p>Hello, this is Renada Pinch and I am calling to say that I'm very upset about the idea of eliminating the 43 or other buses that are on the chopping block. Elders can walk to or bicycle to damn light rail which in my opinion is a dysfunction to begin with, hasn't gotten up and running, and is taking to damn long and is costing too much. Buses are the only vehicle that elders or people who cannot ride bicycles have. This is a hair brained idea. And I've been using that 43 bus, and the 48 bus, the 25 bus, all the buses that are in this area - And there's no reason for this to be going on. It's one thing for the city to relax the cap restrictions and ruin everyone's views and make elders seem like they should just go away or something.</p> <p>But this is just ridiculous and I oppose the idea. My name is Renada Pinch and I am at ***. Thank you.</p>
67	Mar 31, 2015 9:58 PM	<p>The link from Columbia City station to bus 97 during these two days was perfectly handled.</p> <p>I lost no time the first day and counted on it the next.</p> <p>Thanks.</p>
68	Apr 1, 2015 3:13 PM	<p>Hi Deanna, I wasn't able to properly express my concerns in the survey, so I thought I would email you more clear information. I commute with my bike on Route 255. Looking at the possible changes (I have already had to change from the cancelled route 265), I am</p>

No.	Date	Content
		<p>wondering how I will get to work with my bike. Looking at the alternatives, I don't think there'd be room for me and my bike on the University Light Rail to downtown (and back). The 'new' route 256 only runs during peak times, and as I catch the bus at 6am to go downtown and return at about 3:30pm, I would not be able to use this alternative. Note: Since this information has been released, I have been monitoring how many people get on the 255 in Kirkland and how many get off at the Montlake Freeway station. After a couple weeks I have seen not one person get off here that boarded in Kirkland. Two people have boarded on hwy520 to get off at this station, but any bus going along 520 could do this transfer. The 255 bus is packed to standing capacity most of the times it runs with people all going downtown, diverting everyone to transfer in the University District would add time and hassle to the commuters. I have been a loyal bus rider for years, even biking further and further to avoid driving into Seattle, but as my options become more difficult and time consuming, I will have to re-think my commute to downtown. Light rail to the east side would be great (that can accommodate bikes). Thanks for taking the time to read my input! Sincerely, Dina Leviten</p>
69	Apr 1, 2015 3:15 PM	<p>Hello Deanna, It was a pleasure to meet you at the Link Connections open house last Thursday. I am a Wallingford resident who frequently uses Metro transit and wanted to share with you some thoughts about the proposed service changes.</p> <p>Alternative 1 does provide more frequent service downtown via the upgraded 16 and 26X routes. I would also make use of the revised 255 to get to/from Kirkland.</p> <p>However there is still a gap in service to get from Fremont or Wallingford to University Heights as none of the 26/31/32 routes go far enough east or north, and the 16 goes too far north. The routing funnels everything into the southern U District which leaves these neighborhoods disconnected. Would it be possible to take one of the 31 or 32 north along 15th Ave NE to provide a direct route?</p> <p>Also, I fail to understand why there is no bus transfer to Link from Wallingford. The 31/32 go via Stevens Way which is a quarter mile away from the station. I expect to travel to the airport with bags and a small child. Am I supposed to traverse the UW campus to get to the station? What if I were disabled or otherwise mobility impaired? How is this fair for these passengers, versus those on the routes that go directly to the station via Pacific? Perhaps one of the 31 or 32 could be routed along Pacific to address this gap.</p> <p>I hope you consider this feedback and consider some small adjustments that will make Alternative 1 a good solution for all Wallingford residents.</p> <p>- Mark Foltz</p>
70	Apr 1, 2015 3:16 PM	<p>Hello! I would like to start by saying thank you for all of your efforts on this project. It is an exciting time for public transit in Seattle, and I am excited to see Metro build upon the new Link backbone. I live in Eastlake, and I applaud the recognition that the 70 requires more reliability, frequency, and peak rides. With all of the development in South Lake Union, this route is in very high demand, and it appears that Metro is investing in improving this route in many ways. For that, I am very thankful. One thing to consider, though, is whether it really is beneficial to remove any other bus lines from serving Eastlake. Without the 66 or 25, Eastlake is entirely dependent on the 70. Unfortunately, the 70 is at the mercy of the Mercer mess and is regularly at risk of getting caught up in that traffic. As a result, it can be unreliable in addition to being very crowded. The 66 skirts that heavy traffic by traveling on Eastlake Avenue. This helps to ensure some level of service even when traffic is a mess in SLU. In addition, it relieves some of the pressure on the route since many Fred Hutch</p>

No.	Date	Content
		<p>employees and other downtown employees can ride the 66 as opposed to those workers heading to SLU. In general, I support Alternative 1, which I believe takes a bolder step to building a serious transportation network in the city. But I would ask that you reconsider whether that alternative requires forsaking Eastlake Ave as a route that can provide reliable and timely service.Thanks! Eric</p>
71	Apr 1, 2015 3:20 PM	<p>Hi Ms. Evans, I attended Thursday evening "open house" at University Heights to look at and comment on the two alternative proposals for bus route changes to coincide with the opening of the Montlake Link Station. I live in Lake City and regularly use the bus routes that start or come through Lake City to get to the University, the University District retail core, the Roosevelt area, Wedgewood, Green Lake, the NorthGate area, and north Capitol Hill. I spoke with you very briefly before I left the open house and got your card. I do like some aspects of both the alternative plans, specifically the increase in frequency of the 75 and 65, and the added days of service for the 372. These changes will make service to the campus and the south part of the University District retail core better. But they do not totally replace the service that will be lost with elimination of the Route 72 bus. So I want to voice my concern about the loss of "one" bus access from Lake City to the Roosevelt, west Ravenna, and north University District.I am now retired and would like to use the bus service as much as possible. I regularly go into the Roosevelt District to get my haircut, eat at the Sunlight Cafe, go to scarecrow video and the University Branch library. I normally use the Route #72 to do this as it stops at both NE 65th Ave and Ravenna Avenue. I can also use 65th Avenue as a transfer point to the Route #48 to go to Green Lake and the Routes 66/67 to go to Northgate. (It appears that in the Alternative #1 the Route 48 would be replaced by a rearranged Route #16). This weekend I had an opportunity to sound out a few folks who work in Lake City and who I know take bus #72 to get home, they live along the current route mostly from 80th to the north part of the University District. A few had filled out the survey on bus rerouting alternatives. Most knew that the route 72 was to be cancelled, but assumed that the city would replace this route. I'm not sure why they think this. I've suggested to all of them that they fill out your survey. But given what I've found out I wonder why no open house on the two proposed alternatives was scheduled for the Lake City/Northeast Seattle area to make it easier for those residents to comment on the two alternatives. I know folks in the Wedgewood/View Ridge area will be affected by changes in the Route #71, so it seems like an obvious place to hold a comment meeting.Believing that I need to not just complain, but to propose solutions please consider implementing one of the following changes in the final draft alternative plan1. Change the route of the #372 bus. Under both of the current rerouting proposals you got a lot of service going to the east side of the U of W campus.Change the route of the #372 to go up Lake City Way and then turn south on 15th Ave NE. This would take the bus through the east Roosevelt area and down past the west side of the campus. The bus would then go directly to the new Montlake Station, turn around and head back north on !5th Ave. Or 2. Keep and revise Route # 72. Run the #72 on its current route to NE 65th St, from there have it turn west on NE 65th and then south on Roosevelt heading downtown. Increase the service on this route to every 15 minutes during peak-rider periods during the work week.In addition, I am concerned about the loss of bus service to the Group Health area of Capitol Hill. I would rather ride a bus that takes a little longer but gets me very near Group Health CH, than take what I'm imagining will be a very congested light rail service coming out of the District and then have to walk 5 blocks to Group Health. Thanks for the chance to propose specific changes to the emerging NE Seattle transit revision plan that would, I think, improve service particularly to non-students. Tom Reynolds</p>
72	Apr 1, 2015 3:35 PM	<p>Dear Ms. Martin:I have lived on the west side of Laurelhurst (east side of Talaris) since 1971. Traffic and parking have increased exponentially since then.I would use a local bus which circled through the neighborhood and went to the Un Village, the University of Wash, the Un District. If is circled up to the Metropolitan Market, and the strip from Katterman's to</p>

No.	Date	Content
		<p>City Peoples, it would also be helpful, especially as we get older. I just went though 8 months of not driving because of shingles in one eye and sever light intolerance; luckily my husband was able to take over - lots of folks who want to stay in their homes might not be so lucky.The other problem we experience is parking on our block (42nd Ave NE) during Husky Football games. My fear is that people will park on our block daily and walk over to catch light rail. Because of the bus route, parking is now only allowed on one side of the street (heading south), and there is no extra room for cars - lots of homes have 2 cars, and many do not have drive ways in front or alley access in back (the alley only goes about 2/3 of the way because of the geography . Seattle Children's Hospital works to keep employees from parking on our street, but it still occurs at the northern end of the block.It would be nice to have some later bus service, if coupled with rapid bus service to downtown.We have attended the Sea Symphony on Thurs evening since Benaroya Hall opened. It now takes 1 hour minimum to get through the University District or over Montlake and downtown for dinner by 5:30pm, before the Symphony. Not acceptable. Next year we are going to try Saturday evenings, which might be just as bad. If bus service is convenient and runs after performances, that could be a welcome alternative.Thank you for asking for input. You may use what I wrote but I prefer to remain anonymous to anything in print or which circulates (we are the older generation!!!).**</p>
73	Apr 1, 2015 3:36 PM	<p>Deannal thought there was a dedicated email address to send email comments regarding the proposed March 2016 service change. Warren----- Forwarded message ----- From: Warren Yee <***> Date: Tue, Mar 31, 2015 at 11:30 AM Subject: March 2016 service change comments To: jack.whisner@kingcounty.gov, ted.day@kingcounty.gov</p> <p>Would one of you forward this this to Jeremy (don't have his email address). good luck on developing the final proposal thanks - WarrenThese are my comments on the proposed March 2016 service change proposals: General Comments:-----NEED TO PUSH ORCA Cards, if you are forcing people to transfer between a KC Metro bus and LINK light rail. Perhaps, a free card blitz (no \$5 fee) prior to service change. Route 12: Alternative 1 only-----To continue service to Interlaken Park is to extend (reroute) Rt. 60 to Interlaken Park. There would be no transit service on 19th Ave E between Madison St and E. John St, but Rt. 60 would serve the portion north of E. John St. Operate every 20 minutes peak, 30 minutes off peak. However, no weekend night service (since Rt. 60 does not provide that now).Route 16:-----I would assume Route 16 would return back to Ferry Terminal terminal once AWV project is complete (late 2017 ???)Route 25:-----Delete as proposed. Route 47 could be extended on weekday daytime to service portions of Rt. 25. (see Route 47). There should be a peak hour route serving Laurelhurst neighborhood (Route 275 could, if it uses 40 foot coaches).Route 26/26X:-----Though Rt 26 local will be using the express routing, will Rt 26 make all stops along Aurora Ave N or make only the express stops along Aurora? In the AM peak, not all trips need to start at Northgate. Some AM trips could start from Green Lake instead (existing terminal). Route 28/28X:----- Though Rt 28 local will be using the (almost) express routing, will Rt 28 make all stops along Aurora Ave N or make only the express stops along Aurora? In the AM peak, not all trips need to start at Broadview. Some AM trips could start from Whittler Heights/Careek Park instead (existing terminal).Both 26X/28X:-----Being off the Fremont Bridge and Fremont itself, the 131/132 thru-route should work better (not subject to bridge opening delays). However, with no Fremont, wonder how ridership will be on these two routes?Route 45:-----Prefer that KC Metro maintain service to the corner of NE 65th St and 15th Ave NE for Roosevelt HS service for students. Can reroute via Cowen Park and University Way or stay on 15th Ave NE (NORTHBOUND only). Southbound needs to be</p>

No.	Date	Content
		<p>on University Way so riders along University Way can take either Routes 45 and 67 to access LINK station at Husky Stadium.Route 47 (Not part of the original proposal): Assumes Route 25 is deleted (adding night service if route 43 is deleted)----- -----During weekday daytime, extend Rt 47 via Belmont Ave E, then Lakeview Blvd to existing Rt. 25 route to Husky Stadium Station. every 30 minutes peak and 60 minutes off peak (meaning every other coach turns back at Summit midday). Would have to use Diesel buses weekday daytime. Could switch over to trolley buses weeknights, and definitely use trolleys weekends (assume no motorization). Might look at adding night service, if Route 43 is deleted, since this route would be the only route to/from downtown.Route 60 (Not part of the original proposal): Assumes Route 12 is deleted----- -----Reroute northern terminal from Broadway District to Interlaken Park via E. John St/E. Thomas St. then 19th Ave E to existing Route 12 terminal. There is plenty of service along Broadway (Routes 38, 49) and this reroute will maintain direct First Hill-Interlaken Park service (though weekday night service may end slightly earlier than existing Rt 12 service and no weekend night service).Route 71: alternative 2 only-----If the Route 16 (alternative 1 option) does not go through, perhaps look at extending Rt 71 to Green Lake and thru routing it with Route 26 local instead. Route 73:-----Alternative 1 - Instead of operating via Ravenna Blvd NE to Green Lake P&R, operate via Cowen Pl/15th Ave NE to NE 82th St. (Maple Leaf). This would maintain one seat ride service to South Maple Leaf riders. Alternative 2 - Please renumber from 73 to 78 instead. This is so riders know that Route 78 does not operate to Jackson Park nor operate along 15th Ave NE. Keeping it as Route 73 will confuse riders. Route 76:-----Operate express routing via Roosevelt Way NE/11th Ave NE couplet (like the former Rt 79 routing) using the NE 42nd St express lane exit. This would at least continue service along the Roosevelt Way NE/11th Ave NE corridor between NE 42nd and NE 65th StS (though only peak hour), and maintain some U. Dist - Wedgwood (along NE 65th St) direct service (though not quite along University Way, the center of U-Dist).Route 207:-----Operating to Issaquah Highlands already duplicates Route 554 (which has 30 minutes peak and 20 minute weekday midday service). Realistically, service planning needs to do a comprehensive redo of local Issaquah service (Rts. 200, 208, 269 and proposed 207) to provide better service there and reducing duplication. Route 235: Assumes alternative 1 (and route 255 terminating at Totem Lake)-----Staff's proposal would have 235 take over the 255 between Totem Lake and Brickyard. However the 255 travels along 124th Ave NE, which has a limited draw area, due to regional electrical transmission wires along the west side of the street. Proposed that Rt 235 would take over the routing of Rt. 236 between Totem Lake and Brickyard, since there is more housing around the 236 routing and Rt. 235 operates more frequently and later at nights.Route 236 (not part of the original proposal, connected to Route 235 proposal): Assumes alternative 1 (and route 255 terminating at Totem Lake)-----This would be rerouted to operate on 124th Ave NE, instead of NE 132nd St/132nd Ave NE/NE 143rd St/119th AVE NE, since the current routing has more housing and is best served by Rt. 235 instead, with more frequent service and later evening service.Routes 252 and 257:----- -----I don't think this proposal will fly, only because in order to get to downtown, would require TWO transfers from the Kingsgate/Queensgate neighborhoods (one transfer at the Totem Lake Freeway Station, then another at Husky Stadium LINK Station). Two transfers is asking a bit too much from riders. Might look into reducing # of trips (and some deleted trips can be used to fund more 311 trips).Route 255: (would be 275 under alternative 1)----- -----To make sure that riders know this route no longer goes to Downtown Seattle (Alternative 1), I suggest this route be renumbered to 275 instead. 275 was a former Metro route that almost followed the 255 prior to ST 540 operating. The 255 would be used in place for the peak only 256. Have concerns of the Montlake Blvd routing outbound on weekdays, due to frequent traffic backups. Perhaps going through the campus (weekdays) will be much better (may take a bit longer, but would not be subject to time variability, like</p>

No.	Date	Content
		<p>SB Montlake Blvd would). Would add more ridership with stops on campus. Yes, to provide continuity with the weekend routing (staying on Montlake Blvd), weekday routing would operate around the Pacific Triangle (operate via NE Pacific Pl), thus the same stop would be used for all 275 trips (at NE Pacific Pl and Montlake Blvd SB).Kingsgate P&R should still be served directly on weekdays. Also, instead of operating on NE 45th St to Children's Hosp, look at operating via 25th Ave NE, then NE 55th St, then 40th Ave NE, to Childrens Hospital. This would provide E-W service on NE 55th St for a 15 block segment (thus no need for Route 68, Alternative 2, and Route 30). If using 40 foot coaches, look at extending route into Laurelhurst during peak hours only (select trips). Route 275 does not operate on Opening Day of Boating Season (see Route 256, see 255 below).Route 256: (would be 255 under alternative 1)-----If adopted, should just keep the 255 number (the 255 proposal in alternative 1 will be renumbered something else). All riders associate 255 as route to downtown. No need to use a new number. Both Routes 255/275 would be in one timetable. Also, with the 255/275 reorganization and the deletion of the 260, Juanita Riders are left with either no express nor local one seat service to Downtown Seattle. A possible extension to Juanita in the peak direction only? Also, Route 255 (256) will need to operate on the first Saturday in May. Opening day of Boating season forces the closure of Montlake Bridge forces a long detour to access the Husky Stadium LINK station (275). Better to just operate directly to downtown Seattle that day. Route 311:-----Though this proposal is related to the 252 and 257, I would go ahead and go with the proposal to serve Husky Stadium Station/UW and South Lake Union (but not as many trips, as the 252 and 257 would remain). There is serious doubts about using Mercer St as your routing. Where are going to be the stops and if they are in bus pullouts (aka bus traps), and with the heavy traffic on Mercer, I have serious doubts about using Mercer. Know that you are trying to serve the Gates Foundation area. For Downtown riders, those using Woodinville P&R have the 522 and those using Kingsgate P&R/Totem Lake will have the 252/257.Route 372:----- --Definitely need a local version and an express version of this route for rush hour service. With new local service added, the current express service could use less stops. No Stops between 25th Ave NE/NE 47th St and Lake City Way/NE 120th St except at 110th, 98th and 65th sts (one possible example).With the deletion of the Woodinville P&R, will there be enough space at the remaining P&Rs to accommodate? May need to maintain the Woodinville portion, if the 311 (alternative 1) proposal does not go thru. Route 373:----- Add express stop at 15th Ave NE and NE 75th St to make up loss of the Rt 68 (and 73). Some other additional stops may be needed with the loss of the 73 north of NE 80th St.Routes 542 and 545 (assuming alternative 1):-----For the first Saturday in MAY (Opening Day of Boating Season, forcing the closure of Montlake Bridge). Operate both Routes 542 and 545 every 30 minutes (instead of just operating 542 every 15 minutes). Detour would take too much time to access Husky Stadium Station, might as well go directly to Downtown Seattle on the bus instead.That is all</p>
74	Apr 1, 2015 3:39 PM	<p>Hi DeAnna -- I want to thank you and the others from Metro for hosting last night's public comment event at U Heights. There were helpful "listeners" from Metro who encouraged those attending to submit input and suggestions, which I and many others did. I would like to list the 3 suggestions/comments I made last evening as a person who resides in the Northeast Seattle Sand Point/Magnuson Park/View Ridge service area, as I feel the Two Alternatives which have been presented for service in our area for getting riders to downtown Seattle actually substantially reduces the service we presently have by requiring more transfers (2 transfers under Proposed Route 71 under Alternative 2) or a transfer with a long walk of at least 5 minutes plus additional time to get into the UW Link Light Rail station and to a connecting train (Proposed Route 75 under both Alternatives 1 & 2). The only option we would have for avoiding these two scenarios would be to take Route 74, which is only proposed to operate during Peak Periods during both Alternative, as it currently does -- hence, no mid-day or evening service. The 3 suggestions I made are as follows: 1) Make Route 74 an All-Day two-way service route. This route serves Sand</p>

No.	Date	Content
		<p>Point, Magnuson Park, View Ridge, Ravenna & U District riders very well and would offer extremely good service for getting downtown and back for these populations. In the evening after NOAA closes, the Route 74 could end at and turn around in the entrance to Magnuson Park at NE 65th St and Sand Point Way NE (instead of at NOAA), at least giving folks who live between NE 65th & NE 74th Street a safe, do-able walk home. 2) Make Route 75 a "looped" drop-off to the U Link Light Rail Station (similar to that proposed for Route 68 under Alternative 2). This would eliminate the transfer of getting off at Stevens Way with at least a 5 minute walk to the station and at least another 5 minutes to get to the platform for a train downtown. Yes, the train boasts an 8 minute ride to downtown, but a 10 plus minute transfer to take advantage of this 8 minute ride is really poor service! Under the two proposed Alternatives, I understand the Route 75 is being looked at as a "connector" to routes 31 & 32, but I'm confident Metro can successfully figure out how to have Route 75 offer a "looped" drop-off at the Light Rail Station and still connect to these routes. 3) Combine Alternative 2 Route 16 with Alternative 1 Route 73. This would at least offer riders who wished to go downtown the option of getting off Route 16 at Roosevelt Way NE and transferring to Route 73 for a reasonable ride to downtown time-wise rather than being forced to stay on the Route 16 for what would be a ridiculously long ride to downtown (most likely a 75 minute or more trip -- best guess from Metro folks last night). *I wish to make one additional comment: I understand and appreciate that Metro Planner Jack has a "lot on his plate" and has his own vision of what will and won't work within constraints Metro has to deal with in planning for future change. However, I wish to state that in my recent contact with Jack (both via phone and last evening), he appears to "push" his own agenda instead of being open to the suggestions and concerns of riders. The other planners present at the public in-put event last evening were very open to suggestions being made and encouraged ideas and input for consideration in this next "go-round" of planning. Thank you, DeAnna, for your hard work and responsiveness on behalf of Metro customers and also hope you'll be able to thank the planner in the blue shirt last evening (the young man I mentioned to you -- I think his name is Jeremy?) for encouraging me to give my input (he wrote down my suggestion for the "looped" stop at the U Link Light Rail Station for Route 75). I do hope I'll be available to attend the next community session in May -- I'll be watching for information regarding it. Take good care & enjoy your weekend. Dorothy "Duffy" Clarke PS -- If possible I would really appreciate an acknowledgement that you received this input from me -- thanks very much.</p>
75	Apr 1, 2015 3:45 PM	<p>I gave some more personal feedback through the survey but I wanted to add that as the Pinehurst Community Council president I have seen a lot of concern about the current Alternative 1 design in our neighborhood.</p> <p>People seem to generally support the faster and more frequent network that you're trying to create but feel like our neighborhood is largely being left out. The benefits stop at Maple Leaf. Our service seems to be getting worse and we are losing connections to Link in the process. This is especially true as you get further north along 15th Ave NE where much of our density, lower incomes, and SHA senior housing reside.</p> <p>There has been a relatively positive response to ideas like this:</p> <p>http://seattletransitblog.com/2015/03/15/pinehurst-bus-suggestions-for-alternative-one/</p> <p>But we are also not set on any one solution. We just want to make sure that our neighborhood can continue to get where we need to and there seems to be a lot of excitement to get to the UW and Link Light Rail especially.</p> <p>Thanks,</p>

76	Apr 1, 2015 3:47 PM	Ms. Martin, I have completed the survey but wanted to email regarding service between Totem Lake Freeway station & UW. This is my commute 5 days a week. In the am, I take 252 or 257 to Evergreen point & transfer to a bus going to the U. In the evenings I either take a bus to Montlake Freeway station or Evergreen Point from the U & transfer to 252, 257, or 311. In the mornings, most days I am standing on the 252 or 257. Same for evenings. Also the 311 is frequently stuffed to capacity in the evenings, especially if it's a regular sized bus. I am VERY concerned that increasing the # of runs on the 311 will not offset the loss of the 252 or 257. There are always lines of people waiting to board the 252 or 257 at Kingsgate P & R. That P & R fills early. I'm not sure there will be enough room in the park & rides or on the platform at 405 & 128th for the number of people seeking to get to Seattle from places along those routes. Also, I don't see how the 311 can be increased enough on its own to meet the demand of all the riders in our area. That said, it would be AWESOME to have the 311 as RapidRide.Thanks.
77	Apr 3, 2015 4:04 PM	<p>Re: Alternative concepts for service changes related to opening of University Link</p> <p>Dear Mike and Matt,</p> <p>I am writing to comment on the alternative concepts for changing Sound Transit and Metro service after U Link begins serving Capitol Hill and the University of Washington as have been proposed by Sound Transit and Metro Transit. We have several concerns related to the service concepts that are proposed. As group our comments orient around the theme that any changes made to commuting along the SR520 corridor should either improve upon today's commuting convenience and flexibility or, at a minimum, maintain a similar level of convenience to what commuters experience today. After review of the alternatives our specific comments include:</p> <ol style="list-style-type: none"> 1. Connections at Husky Stadium - It is our understanding that riders transferring between Link and buses (such as Route 542) at Husky Stadium will need to walk about four to five minutes between the Link station and bus stops on NE Pacific St. This distance will necessitate too long a walk for a major transfer point and will add to the overall travel times of riders forced to transfer between Link and buses. Please work to reduce the walking distance transferring riders need to walk and make this transfer as convenient as possible. 2. Span of Service of Route 545 - In Alternative 1, Route 545 service would only exist during peak periods (5:00 – 10:30 a.m. and 2:30 p.m. – 6:30 p.m.). Restricting service to these hours would allow most Microsoft employees who commute on Route 545 to continue doing so, but a significant number of employees commute home later than 6:30 p.m. Ridership on two Connector routes that serve similar markets as Route 545 (Capitol Hill and Belltown) have strong ridership after 6:30 p.m. Extending service on Route 545 an additional hour to 7:30 p.m. would ensure that more Microsoft commuters would be served. 3. Convenience of Route 542 – When Link opens, many riders traveling between Capitol Hill and the Microsoft campus in the morning will take Link to Husky Stadium and then transfer to Route 542. With a long transfer distance and only 15 minute frequency on Route 542, this transfer will not be very convenient. In the future when the SR-520 flyer stops are closed, riders will not be able to use Route 545 from Montlake, so Route 542 ridership will grow even more. Please consider two improvements to make 542 more convenient. First, improve frequency to make transfers between Route 542, Link, and local routes more convenient and to decrease overall travel times. Second, send Route 542 through Overlake Transit Center for afternoon trips in the westbound direction, as Route

No.	Date	Content
		<p>545 does today, to improve convenience for Microsoft riders.</p> <p>Thank you for your consideration of these comments. If you have any questions, please contact me at ***.</p> <p>Sincerely,</p> <p>Jim Stanton Senior Community Affairs Manager, AICP</p> <p>Microsoft Real Estate and Facilities</p>
78	Apr 3, 2015 7:06 PM	<p>Yes, I'm calling about the survey. My name is Joanne Gabrielson. My phone number is ***. I reside in Kirkland but I take public transit in Seattle, especially Route 12, the trolley lines, and I'm making a huge pitch for you to keep the trolley lines as they exist today. They are incredibly popular with all sorts of people and they are an iconic representation of Seattle. I feel that the 12, 11, there are so many of these lines that are so useful and I as a disabled senior using it during the mid-day, really really love the trolley service. It's non-polluting, it's got all sorts of advantages. IF you wish to call me back, I tried to fill out the survey. I don't know, because I use a tablet, I don't know if it went through, so I have been unable to attend meetings because of my age and disability, because they are in the evenings. Anyway, this is just to let you know, if you want more opinion from me, I would be really unhappy if...it's not that I'm opposed to light rail, I just don't think it will serve the public the way the trolleys do. Take care, and if you wish, give me a call back and I'll try to not play phone tag. Bye bye.</p>
79	Apr 6, 2015 9:35 PM	<p>Dear Ms. Martin,</p> <p>I send comments regarding future Metro transit service. Living in Laurelhurst, I use route 25 for occasional trips downtown. A bus stop is close to my house, making it easy for me to time one of the twelve daily outbound trips. However, the return trips are so limited in number that I usually take one of the 70's to the U District, then walk home. As a senior, I am fortunate enough to still easily walk but I now that my mobility may become more limited as I age further. When my husband and I want to go to a downtown event, then use one of the 70 bus routes.</p> <p>We are looking forward to having the light rail station at husky Stadium opening in a year. As is currently routed, we can use the 25 to get to campus, from where it will be a fairly easy walk to the station. However, we see two major drawbacks to effectively using the 25 as our link to the light rail. One is that makes just 12 round trips, weekdays only. The other is the distance between the campus bus stop and the station, too far to carry luggage for the airport.</p> <p>As you gather and process public comments , I hope that you will consider neighborhood access to the Husky Stadium light rail station.</p> <p>Sincerely, Donna Shhy</p>
80	Apr 6, 2015 11:05 PM	<p>Ms. Martin, I didn't think I could be adversely affected by the Metro changes associated with Capital Hill streetcar because I live n Magnolia. But if Alt 1 is implemented, I will have one heck of a time getting to Dr appts on First Hill and Madison St.</p> <p>Metro needs to keep route 12 during the day because there are plenty of older folks who live in Magnolia, Queen Anne, Ballard, etc. who aren't as mobile as they would like to be,</p>

No.	Date	Content
		<p>and don't need to spend additional time and money trying to get to an appt on pill hill.</p> <p>Thanks, Martha Tofferi</p>
81	Apr 6, 2015 11:31 PM	<p>I think that the current route 11 should be maintained, with direct-to-downtown routing.</p> <p>Donald F Padelford Seattle</p>
82	Apr 6, 2015 11:31 PM	<p>I am looking at the two alternatives regarding bus routes and frequencies when light rail comes to the UW. I am disappointed to see it looks as if Route 68 will no longer exist under either alternative. Reason stated is duplicate route. I personally do not see duplication as I travel from 25th Ave NE (near U-Village) to the Northgate Transit Center (I am not alone this bus). As far as I can tell, the only other route that will get me there is the 75 with a longer walk to catch and a much longer drive to the Transit Center. I do not see this as a viable option and would have to get into my car. I already take two buses. What will be my options under these alternatives for the route I need to travel? I believe light rail will eventually link to Northgate. I am hoping that Route 68 can be preserved at least until that segment is open. Please pass my concerns on to all appropriate parties. Thank you, Catherine Lander</p>
83	Apr 6, 2015 11:32 PM	<p>Hello, Deanna – am just getting back in town and was unable to attend any of the community meetings.</p> <p>I want to voice my opinion for the on-going continuance of route 12. I take that bus to work, Monday through Friday, between 7:30am and 8am.</p> <p>I get on at 19th and E Mercer and am fortunate enough to get a seat. By the time the bus picks up on Madison between 19th and 20th, there is standing room only.</p> <p>This bus runs approximately every 10 minutes in the early morning hours and is packed. I'm not sure what the criteria is for canceling a route, but I fail to see the reasoning to cancel this bus, at least during the early AM hours, as it is very used.</p> <p>I also see that route 43 may be discontinued, so where would the riders on route 12 and 43 go for transit? I walk four blocks now to get to the route 12 bus. If I were forced to walk any further, I would opt to drive singularly in my vehicle to work each day. I absolutely love taking the bus to work as it is fast, convenient and environmentally friendly.</p> <p>Thank you for your consideration,</p> <p>Charlene N. Hutchinson</p> <p>Executive Assistant</p> <p>***</p>
84	Apr 6, 2015 11:33 PM	<p>Hi DeAnna,</p> <p>I tried to take the survey that was advertised at my bus stop, but the survey said it was closed.</p> <p>I vote for alternative #2. Route 43 is such a useful route that covers a wide variety of locations and types of riders. Keep it! (Just my 2¢)</p>

No.	Date	Content
		Thanks, Dan
85	Apr 7, 2015 3:49 PM	This is regarding the Link Connections project. I would like to receive a survey & schedules of everything that is going. Thanks.
86	Apr 7, 2015 3:56 PM	Have someone call me about what should be done about the buses when Link takes over in 2016. I also have other questions and concerns that can be discussed when we talk.
87	Apr 7, 2015 4:01 PM	I would like to receive a survey and a call. I would like to talk to a real person. Thank you.
88	Apr 7, 2015 4:02 PM	When will route 27 start running all day? Please give a call. Thanks.
89	Apr 7, 2015 4:10 PM	I would like to receive a survey copy of Metro buses, not Link. I would like to send my comments and concerns about the buses. Looks like the buses will be going away when Link comes to town and nobody seems to be concerned about the buses - but I am! You guys are concerned about Link - I'm concerned about the buses. This is my life we are talking about and I need to express my opinion. Thank you.
90	Apr 7, 2015 4:12 PM	What changes will the changes be for route 43? Please call me with this information. Thanks.
91	Apr 7, 2015 4:14 PM	<p>Hello Jeremy and Victor-</p> <p>Thank you for the opportunity to participate in the U-Link Integration meetings. Please find the letter attached formalizing Seattle Children's input regarding U-Link Integration.</p> <p>Best,</p> <p>Jamie Cheney ----</p> <p>Victor Obeso & Jeremey Fichter King County Metro Transit I Service Planning King Street Station</p> <p>201 S. Jackson St. Seattle, WA 98104</p> <p>RE: U-Link is as promising as the "last mile" connection is strong</p> <p>Dear Victor & Jeremy:</p> <p>Seattle Children's Hospital looks forward to Link Light Rail service at UW Station in early 2016. We have eagerly participated in the U-Link Integration team and very much appreciated the inclusive and transparent process facilitated by Metro.</p> <p>Seattle Children's Hospital lies 1.5 miles beyond Link's UW Station. As such, Link's potential to attract Seattle Children's employees, patients and visitors depends upon the strength of the "last mile" connection. In our case, U-Link is only as promising as the "last mile" connection is strong. Metro Transit's service, speed, and reliability on the Montlake-Sand Point Way corridor is critical to access Seattle Children's Hospital - a destination of regional value and a major worksite. It is with this in mind that we formally and respectfully submit our input here.</p>

No.	Date	Content
		<p>Regional Access for Acute Care. Seattle Children's Hospital is the destination for the region's most seriously ill children. More than 1,000 patients receive care at Children's each day. For patients, their families and visitors, frequent reliable service along the Montlake- Sand Point Way corridor is critical for ensuring they have convenient, affordable access from South King County to NE Seattle, and all points in between.</p> <p>Major Employer and Investments in Trip Reduction. Children's is a major institution with more than 5,000 employees. We are a regional worksite attracting employees from all over the County.. Children's has a commitment to reduce drive alone commuting to just 30% by 2030 and has made significant investments in ORCA Passport, Transit Now, and a host of innovative programs such as a \$4 daily commute bonus for employees who ride transit instead of driving alone to work. 19% of our workforce relies on transit. Frequent, reliable service along the Montlake- Sand Point Way corridor supports our significant private investments and further growth in transit mode share.</p> <p>The below comments are related to specific elements of Alternative 1 and Alternative 2.</p> <p>Support for Eastside Connection; Route 255. This route is a valuable and productive connection between the Eastside and NE Seattle and serves a latent employee market at Children's. We welcome a discussion on how Children's can support a bus turnaround near the hospital and or</p> <p>encourage the route to extend to Magnuson Park and simultaneously serve a growing market there.</p> <p>In addition to adding Eastside connectivity, Route 255 is the only route in Alternative 1 that would run directly to UW Station from the north via Montlake and Sand Point Way. Not only would this create a critical link for Children's employees and visitors but it would improve access for University Village's thousands of daily employees and customers as well as surrounding residents.</p> <p>SOOT is currently studying an HOV lane for southbound Montlake and Seattle Children's is eager to support such a measure as long as there is transit service on the corridor to utilize it.</p> <p>Maintain Roosevelt Way & NE 45th Street Connectivity to SLU and Downtown. Alternatives 1 and 2 route transit service to UW Station and reduce service along Roosevelt Way to Downtown. This results in a major gap in service between Roosevelt Way and NE 45th and the northeastern portion of downtown near Convention Place Station (Link will not serve this station). Children's has</p> <p>350 staff members in administrative offices at 43rd and Roosevelt Way as well as more than 1,000</p> <p>Children's Research Institute employees in buildings near Convention Place Station. Many of these employees have inter-facility travel needs between these areas and a significant number of employees rely on this corridor to commute to work. Seattle Children's urges Metro to maintain a north-south corridor from NE 45th Street to downtown via Eastlake Avenue.</p> <p>Support for Route 16 on NE 651 St. The proposed changes to Route 16 will greatly improve east</p>

No.	Date	Content
		<p>west travel in North Seattle which is challenging today. Seattle Children's has 700 employees at our</p> <p>70th and Sand Point Facility. Many of them would benefit from this change when U-Link opens and many more will benefit from this route once North Link opens as it will provide a direct connection to Roosevelt Station. Seattle Children's supports this proposal and would be willing to help find layover space or turn around solutions if needed.</p> <p>Support for Route 65 on Montlake. All day 15 minute service along the Montlake- Sand Point Way corridor supports reliable "last mile" service, especially when combined with 15 minute service provided by route 255.</p> <p>The combined headways of route 65 and 255 would achieve frequent service along the Montlake Sand Point Way corridor thereby creating a strong "last mile" connection to Children's. This connection would support affordable convenient access to acute health care and to thousands of jobs.</p> <p>Best regards, Jamie Cheney</p>
92	Apr 7, 2015 4:17 PM	I live in Capitol Hill and was wondering how the light rail is going to affect my livelihood. If route 43 were to get cut I'm not sure how I will get around. I'm a senior citizen & need to be sure how to get around if this change were to occur. Please give me a call. Thanks.
93	Apr 7, 2015 4:20 PM	I ride route 12 from Lakewood to get to work. I hear there's talk that it will go away. Is this true? I'm concerned and would like a call for confirmation. Please call me at your convenience. Thanks.
94	Apr 9, 2015 5:51 PM	<p>It appears I'm too late to contribute to the online survey, but as a frequent rider of line 12, I am much more inclined to voice support for Option 2.</p> <p>On option 1, I am concerned about the lack of connections from East Capitol Hill and Madison Park to downtown.</p> <p>Respectfully, Holly Salewski</p>
95	Apr 9, 2015 5:52 PM	I saw that you may be deleting Route 43, which is the main bus that I use. And the one lots of other people use too. The Link Light Rail between Capitol Hill and the U District won't do what the 43 does, for lots of us who live in between the planned Link Light Rail stops. We'd end up having to take two buses to get downtown, one to get to the University stop (or Capitol Hill stop) and then the Link Light Rail to downtown. As I get older I'm going to depend on the buses more. Please don't make it more difficult.
96	Apr 9, 2015 8:08 PM	<p>I've been giving a lot of thought to the two proposals for new bus routing as the apply to the Wallingford area. I think the most important thing to be kept in mind, and this actually applies city wide, is all the new construction of apartment houses, in our case along Stone Way between 45th and 34th and on 45th though Wallingford. You can see the city wide impact at this website: www.seattleinprogress.com. It is particularly amazing in South Lake Union and west Capitol Hill. They are going to need a lot more bus service than we've talked about up till now.</p> <p>But back to Wallingford. The more I think about it the more I am convinced that it is not a good idea to be switching the 26 and 16 routeings. First, the current 16 tends to serve folks</p>

No.	Date	Content
		<p>north of Wallingford. By the time they get to Wallingford they deserve to have their travails over with, to get on Aurora and go. The reroute at NSCC to miss Northgate Way will improve reliability. But (changing its number to 26 and) sending it wandering through east Wallingford before it gets onto Aurora is not helpful. (I often pick up the 16 at Ravenna, changing from the 48 - I don't see many of the people on the bus when I get on get off in Wallingford.)</p> <p>Sending the new 16 off east along 65th only accomplishes giving the route something else to do so you don't have to couple it with the 131 and send it way down south. Anyone who gets on the bus on 65th headed west is going to change buses in Roosevelt for an express to downtown. A more useful thing to do with the 26 is to continue its route a little north into the Green Lake shopping district and have it loop around PCC before it heads back south. When the Roosevelt Light Rail station opens it might make sense for it to head on over there, but that is a few years away.</p> <p>Another important reason to not mess with the 26 and 16 is to keep the 31 and 32 headed down Stone Way. Right now that gives a 15 minute headway (roughly) along this street with all its apartments. It would be reasonable to expect that some of these new apartment dwellers are also students at UW so it will be valuable for that destination.</p> <p>You also need to be looking at the proposal from SDOT to make 45th and 50th a one-way couplet with 45th going east and 50th going west, from Fremont N to 15th NE. This will require moving half the electric bus wiring on 45th up to 50th. I think it is going to be very difficult to make a bus run work with that much distance between the go and return legs. You might want to talk to SDOT about a dedicated reverse bus lane on 45th.</p> <p>--</p> <p>Mike Ruby</p> <p>Envirometrics, Inc.</p> <p>***</p> <p>***</p>
97	Apr 13, 2015 9:10 PM	<p>Dear Ms. Martin, As a regular weekday commuter from Madison Park to First Hill, I'm greatly concerned about future plans for our one-and-only option for public transportation to downtown Seattle. As it currently stands, for workers, the schedule to downtown areas is barely sufficient. The route currently is most reliable in departure times from it's starting point at 42nd and Lynn - yet with its 15-20 minute frequency, at its peak, missing one bus results in the need to seek other transport options, like personal car or Car2Go or Uber, defeating the purpose of public transit. The evening commute from downtown to Madison Park is currently unpredictable, unreliable and time consuming. Many times, it's a really poor option. Much of this problem has to do with the #11 route and traffic patterns. One either has to try to catch the downtown bus before 5 or patiently wait until around 6. That's a 2 hour variable in terms of what time I can reach home after work! So Metro has my support in working for greater efficiencies that lead to more frequent, reliable bus service to and from Madison Park, that are viable for commuting workers, young families and the elderly, many of whom live in Madison Park without cars. I've always wondered why there isn't a shuttle bus service running from Pine and Broadway down to Madison Park. That way, the route is shorter, less impacted by downtown traffic snarls and can run more frequent, shorter runs. Many buses come to the Pine and Broadway area, which already run much more frequently than the #11 (in the usual evening commute, I regularly see</p>

No.	Date	Content
		<p>several #43, 49, and #10 buses pass by before one #11 ever shows up!). If there was a way to get from Capitol Hill down to Madison Park, it would seem to me to solve the problems I've outlined. Good luck. And I'll be watching for the new proposal in early May. Regards, Kay Branz ***</p>
98	Apr 13, 2015 10:39 PM	<p>Hello,I have been reading the exchanges on the "Next Door" site about the bus route alternatives being considered for implementation when the Broadway Transit Center opens. Please do not break up the #8 bus route. Reasons: 1. The #8 route itself is not impacted by the TC opening, other than the fact that more riders might take it to transfer at the Center. 2. Service for the #8 is delayed due to traffic on Denny, so breaking it up will not help, but rather will make the route even longer. 3. Adding service for the #8 will help because buses won't leave riders waiting at stops and car drivers will be more likely to take the bus.4. It's my understanding that service will / might be enhanced with the changes being made due to the recent tax increase.5. I do not believe the community knows about this in general. Only a small portion of the population sees the online bulletin board and that is the *only* place I heard about this change - not on buses or at bus stops.6. I do not feel safe adding a transfer and waiting at one of these bus stops late at night. The last thing I'll say is that I *love* Seattle buses. I'm now 60 and have been riding them since I was a little girl. One reason I purchased the house I have was because of the great bus service as I drive less and less. I am sincerely hoping that you see that this change just does not make sense. Maybe reevaluate this particular decision once the Transit Center is open? Thank you. Jill Fluvog</p>
99	Apr 13, 2015 11:37 PM	<p>Deanna - I checked out the transit options for when link light rail makes it to husky stadium but I was not able to fill out the survey in time and I just wanted to contact someone at metro and express my deep disappointment at the first alternative for bus service to my neighborhood, northeast seattle. I am not a uw or downtown commuter metro customer. I am an all day everyday metro customer that depends on metro to get me everywhere I need to go. I feel that the first alternative for transit service totally alienates customers like me in the maple leaf neighborhood. second of all, link light rail service will not be available anywhere near my neighborhood for years. I am confused about why link light rail service to husky stadium is being used as an excuse to once again try to hack bus service in my neighborhood. I voted to raise the sales tax to keep my bus service so I do not appreciate any plans to cut service in my neighborhood, theoretical or not, especially after the current increase in fares. I also do not think that light rail to husky stadium will really affect the way people take the bus to and from the university district to my neighborhood and farther north. I have observed university students for years, with their subsidized bus passes, that are too lazy to walk from Ravenna to 45th street. Cutting the 72 and the 73 through that neighborhood will be a burden on a lot of people, but even more for people like me that live closer to northgate than the university district. I would like to clearly state that I want the level of bus service in my neighborhood to be maintained. I spend at least 15 hours a week riding metro to get to my jobs in downtown Seattle and Bellevue. Adding hours of walking time to my already hectic work schedule feels like just another way King County is dismissing the needs of hard working people like me that have to work seven days a week just to make ends meet. I am aware of Seattle City Council's increase in bus service and how it will affect my neighborhood. I feel that that is a better solution for my neighborhood especially for those people in my neighborhood with limited mobility that would not be able to walk as far as I can. I was also wondering if there has been any talk of adding a RapidRide line to northeast Seattle. I take the B line in Bellevue semi-regularly and would love to see a RapidRide on 15th ave NE. Thank you for your time. Nicole Bloam ***</p>
100	Apr 20, 2015 7:49 PM	<p>Dear King County Metro, The Seattle Board of Park Commissioners appreciates the opportunity to comment on the king County Metro's proposal for improved transit service to our park system, made possible by the opening of the Capitol Hill and University Sound Transit stations in early</p>

No.	Date	Content
		<p>2016. In particular, we commend the proposals that improve service to the areas that have been underserved, and your attention to connecting many communities to our high-demand regional parks. It is consistent with our stated values: access, opportunity and sustainability.</p> <p>Provide Frequent and Reliable Service to our Parks</p> <p>As you have identified, providing reliable and frequent transit service promotes ridership. Our parks serve as destinations to numerous citizens and more frequent transit service will facilitate access to parks for all members of our community, and particularly those residents without access to other options. By intervals, Metro greatly increases the likelihood that transit will be used by those members of the community who most need access to parks.</p> <p>Connecting Communities to Parks</p> <p>Route 16, running from Sandpoint Way to the Fremont neighborhood, connects many communities directly to two unique, regional parks: Green Lake and Magnuson. These are two of the most popular and heavily-used parks in our city. The planned, all-day route, including Saturdays, running every 10 minutes would provide an important east-west connection in the northend. Additionally, Magnuson Park hosts a number of business partners and Solid Ground housing. It is scheduled to add 350 more residents in workforce housing in 2018. Many of the park residents do not own car, and the lack of transit service to downtown and other communities has been a challenge. Magnuson Park has the most programmed events throughout the year, and businesses and non-profits reside in the buildings in this former naval base. Supporting Healthy People and Diverse Communities</p> <p>North Seattle has a number of diverse communities that would be well-served by increased service on Route 75, which provides service to Northgate Community Center, Lake City, Matthews Beach, Magnuson and the University of Washington. We strongly support the Race and Social Justice Initiative, and providing better access to parks, and park programs. Additionally, there is a significant senior population, and easy access to programs that foster health and longevity can play an important role in supporting their independence without the need to drive.</p> <p>Parks should be accessible to everyone in our community and we appreciate the opportunity to work with Metro to fulfill that promise, In 2014, Seattle citizens chose to provide a long-term, sustainable funding by voting for the Seattle Park District, which will create new opportunities to experience and enjoy our parks. With Metro's providing frequent, reliable transit access to our regional open space destinations, we can help ensure that Seattle's parks are easily accessible to everyone in our community. Thank you for the opportunity to comment on your proposed service changes. WE look forward to continue to work with you as this conversation continues.</p> <p>Sincerely, Board of Park Commissioners Tom Tierney cc: Mayor Ed Murray Seattle City Council members King County Council members</p>
101	Apr 22, 2015 9:35 PM	<p>Deena called to say she hopes the 71 is not deleted. She lives at 65th and 21st and is completely dependent on the bus. She says a lot of her neighbors are older and don't have cars. Walking on 65th to service elsewhere is hard because it is steep and has a lot of hills. She was unaware of the concept of Route 16 in alternative network 1 that would have provided frequent service along 65th. Once explained, she said that didn't sound too bad. But, she wanted to make sure it would use the same stops on 65th that the 71 does today. She would like a phone call when the May proposal is out so she can comment on it.</p>
102	Apr 24, 2015 4:02 PM	<p>Hello Deanna,</p> <p>I, along with a number of my neighbors who are regular metro riders, are concerned about the possible discontinuation of the 43. Can you tell me who are the members of the sounding board and their contact information?</p>

105	Apr 24, 2015 5:41 PM	Hello DeAnna, I write mostly to introduce myself, but I would like, if you're willing, to start a dialog with you, the Community Relations Planner for Metro Link Connections. I've been a long time Metro user, for the past decade while living in Madison Park. I've watched the construction of the Capitol Hill and Husky Stadium light rail stations with much interest. I look forward to using them when they come online next year. A reliable eight minutes between those two will sure beat #43! I have reviewed your Link Connections web site, talked with Reg Newbeck to get his perspective, and look forward to reviewing your updated proposal, which I understand will be made public on May 11th. I've also read the 2012 Seattle Transit Master Plan, read the November 2014 Madison Corridor Bus Rapid Transit Plan presentation, and look forward to attending their open house on May 6th. I'm interested in helping improve Seattle's public transportation over the coming years. Most of my questions should just wait until your proposal is made public next month. But I do have one question that may be worth raising now. It is about the coordination of the Metro Link Connections effort with SDOT/Metro's planning for the Madison Corridor BRT. Perhaps I've missed it, but I don't see the BRT mentioned on Link Connections web site, and I don't see your Link Connections effort mentioned on the BRT site. Shouldn't they be? Of course I'm interested in bus service to Madison Park. Link Connections will likely influence #11 (or the new #8, if Alternative 1 is adopted). So would a Madison BRT to 23rd. How does the Madison Corridor BRT affect your planning? Thanks, Jim Stearns ***
106	Apr 24, 2015 6:59 PM	Spoke with a woman who lives north of 65th in Ravenna. She takes the 71 or the 72 - especially the service that runs later and more frequently. She works in retail and travels to South Center, downtown, and Bellevue Square for work. She says walking to 15th is too hard, especially after having been on her feet all day. She catches service somewhere between 65th to 75th. Having to walk another 2 miles in inclement weather can ruin your day. She says people who work in retail don't get out of their jobs in the malls until 10 or 10:30. So late night service is really important to her and others who work in restaurants and service industries who can't afford cars. They need service on the weekends, too, because of work schedules. She saw the sign at her bus stop so she called. She would like to be called when the proposal is available to have someone explain it to her and provide comment. She does not go online or do email.
107	Apr 24, 2015 9:28 PM	Please do not eliminate the 43 bus! I ride it downtown from the stop at Boyer and 23rd ave east. From what I can gather, your proposed alternatives for me would all require a transfer, a longer route and possibly a transfer to the trolley or light rail, which would require a separate fare. Thank you, Kit Bakke
108	Apr 24, 2015 9:54 PM	The #11 bus is my lifeline to areas outside of Madison Park, including doctor's appointments, grocery shopping, and commute to downtown Seattle. I am 87 years old, do not drive, and rely on the availability of the Madison bus route. This area houses many retired people who, like myself, rely on the easy access to #11. Complaints are common regarding the over-abundance of cars in the downtown area so we do not understand why Metro insists on altering bus routes which makes it more difficult for riders to commute, not only for older citizens but also for those who are employed but cannot afford downtown

		parking fees.To someone willing to take my comments, I thank you. Kathryn Lafean ***
109	Apr 24, 2015 10:00 PM	<p>Hi Deanna,</p> <p>I live on Capitol Hill, I missed the survey period for transit options in this neighborhood. I am hoping I can share my opinion via email to you. While I have concerns about both alternative 1 and alternative 2, I would like to put a vote in for ALTERNATIVE 2.</p> <p>I live on 17th Ave E, one house in from E. Thomas. The 43 bus route is about five steps from my front door. I take this route to go downtown, my daughter takes it to visit her friends in Montlake, and I take it to commute to the main campus of UW. We take the 43 to Broadway, to downtown for work and for entertainment. While on the bus, I see older people and people with small children who are going to Group Health Hospital, or to the library in Montlake. I see high school kids commuting, I see people going to UW or to SCCC. In the evenings, I see students from UW heading to Capitol Hill for night life. And-- with the 43, all this can be accomplished on one bus. No transfers, no waiting in the dark, in the rain. No need to walk up or down a steep hill (15th E to Broadway and 15th E to 23 E are VERY steep hills). No need to walk by unsafe areas at night. PLEASE SAVE THE 43!</p> <p>In general, what concerns me about both options for this part of Capitol Hill are:</p> <ul style="list-style-type: none"> -access to stops near Group Health, 15th Ave E, 19th -23rd/Bway bus transfers means a long walk on a significant grade, or having to take several buses -no benefit of time savings -when I head to the University District, it is always beyond where the light rail stop is--I don't want to have to take a bus to light rail, to walk to another bus to get where I want to go--when I now can take ONE BUS. <p>Please don't cut off this part of Capitol Hill/Montlake from transit options. If there were more light rail stops in between Broadway and Husky Stadium, I could see the rationale for reducing/eliminating buses, but connecting those two points does provide enough service for the needs of this part of Capitol Hill--15th Ave E and 19th Ave E are growing in density--please don't make us all schlep down to Broadway or up to 23rd Ave E to take public transportation.</p> <p>Thank you, Connie Chaplan</p>
110	Apr 28, 2015 4:42 PM	<p>Hello, I have been reading the exchanges on the "Next Door" site about the bus route alternatives being considered for implementation when the Broadway Transit Center opens. 114	May 13, 2015 6:49 PM	<p>Hi Deanna,</p> <p>I wanted to reach out to you to inquire about King County Metro route 242. It was recently brought to my attention (as well as a number of other daily commuters here at MS) that route 242 appears to (again) be on the chopping block, with the changes that are being proposed to occur after the University Link Extension opens.</p> <p>The proximity to route 242 was a key reason that I purchased a new property in the north east part of Green lake roughly 1 year ago, and it seems that route 242 is consistently showing up on cut lists related to budgets, and now this – even though the route really seems to be a pretty heavily relied upon commuter route between Northgate/GreenLake and Redmond.</p> <p>Over the past decade, I've supported levies and tax increases to fund King County Metro, so I'm really interested to better understand why this route seems in jeopardy and what the other alternatives exist for my daily commute. I'm aware of the 542, but unfortunately, it would increase my end-to-end commute time by more than 50% and I would likely consider driving again.</p> <p>Thanks in advance, Jason Wohlgemuth</p>
115	May 13, 2015 6:50 PM	<p>I have tried to find a way to fill out a survey on the Metro changes and the website to which I was sent in today's email does not work, so I have sent the following to you as well as another address I found on the website: I would like to answer your survey on Metro route changes after Link comes to Capitol Hill etc., however am unable to get to a survey page. Please send me a link. I have circled through the website clicking on "survey" several times. Absent a survey form, I will say that the 11 Madison bus is our only way to get to the true "downtown", (speaking for those of us who live east of 23rd Ave. and cannot climb the hill) so sending it straight down Madison and avoiding downtown just creates a hardship. Also, none of this presentation was very easy to follow - Thank you - Sally Richardson</p>
116	May 13, 2015 6:51 PM	<p>Hello DeAnna,</p> <p>I reviewed the notification alert and related links* to this new cycle of metro proposals and it appears that bus 11 would go from Park Shore at the lake all the way through downtown to the waterfront with increased frequency. Is this correct?</p> <p>*http://metro.kingcounty.gov/programs-projects/link-connections/pdf/011-info-05-15.pdf</p> <p>Thank you, Jason Hudgins Human Resources Director</p>
117	May 13, 2015 6:54 PM	<p>IS IT CORRECT THERE WOULD NO LONGER BE SERVICE BETWEEN UW Medical Center and Downtown(25 and 43 deleted)? thanks..</p>
118	May 13, 2015 6:56 PM	<p>Hi DeAnna, Thank you very much for sharing the early update for feedback. I'm attaching the meeting minutes which include the questions from the audience and the scanned sign in sheets so you have good documentation of community participation. While there was</p>

No.	Date	Content
		<p>excellent turn out, the demographics were quite singular. I received feedback on our social media to that effect too. I think we have three major life-stage based scenarios for transit from Madison Park and two key scenarios for transit to Madison Park. Of these five market segments for transit, only one of them was fully represented at the meeting. From Madison Park Scenarios: 1. Students getting to local schools like McGilvra Elementary from the farthest reaches of the attendance area, to more distant middle and high schools. For grades 2-12 and beyond, students do rely on transit for the long distance segments of their routes. Taking the 11 for some is fine, for middle and high school, transferring to the 48 line is key. 2. Working age adults from 18-65 years old need to get to and from work with reliable trip times. This market is best served by connecting to Link light rail to quickly get to startup companies in Pioneer Square, government jobs near there, and to the biggest employer in Seattle, the University of Washington. Link also can get people quickly to transfers to the east side without getting bogged down in Montlake traffic jams. Future light rail on I-90 would be best served also by quick bus service to the CHS station. 3. The retiree demographic you clearly heard from loud and clear that they want one seat rides from Madison Park to Nordstroms, Macy's and the arts. Oddly, what they did not mention so much is that your new proposal would serve their trips to First Hill medical centers with a one seat ride. This is a key scenario for the elderly demographic that is not served well by the current 11 route that goes down the Pike/Pine corridor. The new water-to-water route along Madison would actually serve their doctor visit and grocery shopping scenario (esp with the new Whole Foods Market coming in at Broadway and Madison) far better than they have it today. To Madison Park Scenarios: 1. Most employees of Madison Park businesses take transit to and from work. Since most of our jobs are in the housekeeping and food service sectors, most of these employees have to travel quite far, relying on light rail and busses to the south. Bus service to the CHS may serve many of our lower income workers more reliably with consistent trip times to areas rich with potential staffers. 2. Summer tourism. Since Madison Park is a beach town, the population triples throughout the summer months. Many people come to our beach by transit from all over Seattle. A quick hop to/from the CHS may be a best way to serve the tourism market. Thanks again.-- Bob Edmiston Madison Park Community Council fill-in note taker.</p>
119	May 14, 2015 11:34 PM	<p>DeAnna, The information contained in the email below was very useful and encouraging! I am personally very excited to hear about the increased frequency of the route 44. I wanted to provide additional feedback in case it is of any use. Currently, it takes me about 45-60 minutes to get from my home in Ballard (NW 64th St and 22nd Ave NW) to work at the UW (I get off at 15th Ave NE and NE 42nd St). My current options are the following:- Route 44: Walk 10 blocks (about 12 minutes) in the soupy rain to Market street to catch the 44, ride for about 30 minutes, and then walk 5 minutes to my building. The 44 comes every 15 minutes or so. I love long walks, I hike and ride my bike regularly, but walking 10 blocks in the frequent rain leaves me looking rather unprofessional by the time I get to work so this is not ideal but is currently my preferred option.- Route 40 to Route 32: Walk 2 blocks (much better!) to 65th and 24th and take the 40 for 15-20 min to Fremont where I transfer to the 31 or 32 and ride for another 15-20 minutes to the u-district and then walk 5 minutes to my building. The walking distance is better in this option but the stress of transferring (Will I find another seat? Will I catch the transfer? Etc.) and added total time make this this option not very ideal. I have two ideas/requests for consideration, understanding that Metro has to balance a lot of competing interests. 44X Route I used to live down town and LOVED the 71X, 72X, and 73X for their rapid service between downtown and the u-district. I wish there was an equivalent for the 44 from perhaps 8th street in Ballard on through to the U-district starting again on university way. I understand and appreciate that this route picks up a lot of people in the Wallingford area, but it just seems that it should not take 50 minutes to get from Ballard to the U-district every morning. Increase Access Points Along 24th Ave NW and/or 20th Ave NW Another option that would be worth considering is having a bus run down 24th (as the 40 currently does) or 20th (not sure if a bus currently goes along this</p>

No.	Date	Content
		<p>busy road) stopping at 65th-ish and 60th-ish and hang a left on Market (rather than going down Leary) along the same path as the 44 all the way to the u-district. Such a route would not likely decrease my ride time but it would prevent a big chunk of people from having to schlep through the rain so much. The area these routes serve – north of market, south of 65th, west of 14th, and east of 24th - is experience unbelievable growth and increased density (condos, townhouses, apartments, etc. are all replacing single family homes faster than anyone can count), so increasing service to this area seems absolutely critical! Thank you for taking the time to listen to my feedback and thank you for all the work you do. Adam</p>
120	May 15, 2015 7:16 PM	<p>I would like to answer your survey on Metro route changes after Link comes to Capitol Hill etc., however am unable to get to a survey page. Please send me a link. I have circled through the website clicking on “survey” several times.</p> <p>Absent a survey form, I will say that the 11 Madison bus is our only way to get to the true “downtown”, (speaking for those of us who live east of 23rd Ave.) so sending it straight down Madison and avoiding downtown just creates a hardship.</p> <p>Also, none of this presentation was very easy to follow -</p> <p>Thank you - Sally Richardson</p>
121	May 15, 2015 8:16 PM	<p>Hello DeAnna, I have viewed the proposed changes (Alternative 1) for my bus routes and am really disturbed. At this time the #9 is a short walk from home to go south. I really don't want to have to transfer from the #49 to get the #9. Please keep the start of the run at Aloha/Roy. And I definitely do not want to walk north or transfer from Madison to get downtown from the 49. It's absurd to have to transfer to get to the downtown core from Capitol Hill. Please don't delete the Pine/Pike section of the current route. I'd rather wait a few minutes than have to go out of my way to do the things I used to do with ease. Metro has been serving me well, but if these changes are made my bus riding future looks worse. And I have to say, I probably won't take advantage of this expanded Link service through Capitol Hill. It's wonderful to use to get from downtown to the airport, but for me it is superfluous. Hopefully, I will still be able to ride Metro with the same convenience I do now. I saw no information on an Alternative 2, but if it will keep the #9 and #49 routes as they are now, then that option gets my vote. Thank you, Susan Beardsley***</p>
122	May 15, 2015 9:12 PM	<p>Hi Deanna, I'd like to make a suggestion about splitting Route 8 into 8/38. Currently service through the central district, especially along MLK, is very sparse. I totally understand the idea behind separating the #8 into North and South. But this suggestion does nothing to increase service through the CD. I think this tweak could: I suggest instead of turning the 8 around at 23rd and Jackson, it should continue to the Mt Baker transit station before reversing. Benefits: 1. Increased service on MLK through the CD. 2. More logical place to begin/end/wait #8 at the transit center. 3. Faster connection Southbound to Link (and airport) than backhauling to Capitol Hill, then South, thereby adding 7 or 8 more rail stations to the trip. 4. Faster connection to Cap Hill and Seattle Center for northbound riders in the CD, instead of 38/transfer/8. I think the overlap of 8+38 between Mt Baker and Jackson adds a bit of needed frequency and redundancy with very little additional time lost to the 8's reversal. This short stretch is not the part that now makes the #8 late through Rainier Valley. MLK in the CD needs MORE service, not chopping up. This would do that and cost almost nothing. Please consider overlapping the 8+38 between Jackson and Mt Baker transit station. Thanks Jim Stennett ***</p>
123	May 18, 2015 11:10 PM	<p>Good morning Deanna,</p> <p>I got an email about new change proposals and I saw 542 listed as one of the routes that might be affected. Can you tell me where I would find information detailing what the</p>

No.	Date	Content
		<p>changes would be for this route?</p> <p>Thank you,</p> <p>Tim Abney UWMC Teleservices Support Line ***</p>
124	May 18, 2015 11:11 PM	<p>Dear Ryan and DeAnna, I must say I dislike the websites for both sound transit and metro. I can't find what I want. I get these emails with a link "for sound transit proposals" or "metro's proposals" I click on this link. I get the homepage. Then I get pages and pages of blah blah blah....All I want to know is what is going to happen to MY bus route. This is why I am turning to you. I suspect I will not be happy. I suspect this route will change so dramatically that I won't be able to easily get to work anymore. But I don't know because I can't find a simple route map that will tell me exactly how, why, and when my route will be destroyed. (oops I meant to say changed - J) or what I could do after the change.Can you help me. I live in the Roosevelt neighborhood. I catch the # 66 to work at the corner of Roosevelt and 75th. When do I need to quit my job? Thanks Best Wishes, Jean Barce Data Coordinator IISWOG Data Operations****The information in this email is confidential and may be legally privileged. It is intended solely for the addressee. Excluding email postmasters, the sender and the recipient(s), access to this email by anyone else is unauthorized."</p>
125	May 18, 2015 11:17 PM	<p>Dear Deanna,</p> <p>I want to thank Metro for taking advantage of the upcoming Link service to the UW to restructure routes in northeast Seattle.</p> <p>In particular, I think the restructured 73, 67, and 16 look great. They reach popular destinations and do so more frequently and efficiently than before.</p> <p>My wife and I are excited about being able to take the 16 from Roosevelt over to Green Lake, Wallingford, Fremont, Or Queen Anne, and to do so without waiting for infrequent buses.</p> <p>I also look forward to options for returning home to the Roosevelt neighborhood from work downtown after 6:30 pm without having to take the slow, non-express 73 or 72 or 71. Instead I can take Link to UW and transfer to the frequent route 67.</p> <p>Great work! I want to thank Metro for making some big changes in NE Seattle to make transit more frequent, logical, and fast.</p> <p>Regards, Andrew Gardner</p>
126	May 18, 2015 11:29 PM	<p>Greetings, I don't know if my comments are timely regarding bus service for when Link arrives to the U District, but wanted to add my comment re: Bus Route 28.I favor alternative 2--I don't see the relevance of this route to Link. I usually ride the 28X, and the changes would result in longer trips, and slower service. The times I use the 28--weekends or later in the evening--the roads are clear enough that the trip time is pretty good, so converting it to a 28x ride wouldn't seem a significant improvement.That said, I'd support any change to begin the 28x at 105th rather than 145th.If you do eliminate the 28, I'd emphasize the importance of adequate frequency during the a.m. peak. The 28x is often at standing capacity at Market Street; if 28 local riders going to South Lake Union had to take the 28 local and transfer at Leary Way NW, there may not be space for everyone beginning at Market Street. Thanks, Newell Aldrich</p>

127	May 18, 2015 11:31 PM	<p>I saw the latest proposal from Metro on the revisions of routes in NE Seattle when Link Light Rail starts operating to Husky Stadium and like the original proposal I see that route 72 is being deleted. That route provides direct service from where I live near NE 92nd and Lake City Way to downtown Seattle. Under the original proposal route 72 would be replaced by route 372 and we would have to transfer to Link Light rail at Husky Stadium.</p> <p>I don't have a problem with transferring to Link Light Rail but instead of routing the 372 down Montlake Boulevard to the light rail station the plan was to route the 372 onto the UW Campus and we would have to get off the bus and then walk at Metro's estimate 5 minutes to catch the light rail. At that time I wrote to Metro and said that was a bunch of BS and I made the same comment on the survey. I say BS because there is no reason why the 372 can't go down directly to the light rail station.</p> <p>Why is Metro forcing passengers who now have a direct route to downtown Seattle without transferring and making them walk at least 5 minutes across the UW campus which means worse service and yet the people in Seattle voted to increase their taxes to provide improvement in Metro bus service but instead we get the shaft from Metro with this change. What a bunch of BS.</p> <p>I will say it again and I will put it in capitol letters so that Metro can understand it.</p> <p>ROUTE THE 372 DOWN MONTLAKE BOULEVARD TO THE LINK LIGHT RAIL STATION AND DON'T FORCE PASSENGERS TO WALK 5 MINUTES ACROSS THE UW CAMPUS. OUR TAXES ARE BEING INCREASED TO SUPPORT METRO AND THIS IS NOT WHAT I VOTE FOR. LAKE CITY AND NE SEATTLE ARE GETTING THE SHAFT FROM METRO. I WILL ALSO WRITE MY KING COUNTY COUNCIL REPRESENTATIVE TO MAKE MY FEELINGS KNOWN AND I WILL TRY TO BE AT THE PUBLIC HEARING TO VOICE MY DISCONTENT WITH THIS PROPOSAL.</p> <p>Jack Papegaay</p>
128	May 18, 2015 11:33 PM	<p>The "all day" terminology implies that service will be provided all day long, at the reported proposed frequencies. This is misleading, since I believe the intent was to express "every day" service.</p>
129	May 18, 2015 11:34 PM	<p>I simply can't tell what these changes would mean. There are no maps. How would I get from NE 65th and 40th NE to the Husky station if the 71 is eliminated? Your webpage is impenetrable. The 16 is not the way I want to get downtown. Chuck Taylor Seattle</p>
130	May 18, 2015 11:35 PM	<p>Metro recently released a video of Ted Day explaining how changes to Capitol Hill will have "almost the same service levels"... but I do not understand how the 12 having "almost the same service levels as the 43"</p> <p>actually MEANS anything. Does the 12 go down 23rd, through Montlake, to the U-district? No. So what is the point of saying such a thing? Metro is planning on cutting service to all those who live & work along this route; it doesn't matter that the 12 is going to be fine!</p>
131	May 18, 2015 11:36 PM	<p>Hi Deanna,</p> <p>Thanks for your update of new proposal for changes to bus service in early 2016! May I confirm any survey in different language, including Chinese? Thanks in advance!</p> <p>Andes Kong Center Coordinator, Sunshine Garden Chinese Senior Community Center</p>

132	May 18, 2015 11:37 PM	<p>If new routes are implemented, please explain proposed service to Madison Valley/Madison Park. The current Route 11 serves this area well and those of us who are residents want to make absolutely sure there will be bus service to our homes if changes are made to Route 11.</p> <p>Please confirm.</p> <p>Thank you, Erica</p>
133	May 18, 2015 11:38 PM	<p>Hello,</p> <p>I wanted to write to parlay my comments on changes to bus service as part of Metro's upcoming restructuring, regarding University Link.</p> <p>For the most part, the second draft plan released this week looks pretty livable. My greatest concern, however, are the changes to routes 11 and 12. I feel as though moving route 11 to the Madison/Marion couplet is an unwise decision, for the following reasons:</p> <ol style="list-style-type: none"> 1. The easy connection for Madison valley riders to the retail core, and to the transit tunnel is lost, and no reliability is gained for the 11 in the process. 2. The loss of electric trolleybus service on Madison and that area of First Hil is a large detriment. This couplet is not suited to diesel coaches. Trolleybuses should be used, even in the interim time before the possibility of Madison BRT. 3. Pike street will be well served with the 11 as it is now, and overserved with the 12. Additionally, a 'short 12' just seems like a short 43, but doesn't serve montlake. <p>Thank you for passing my comments along. All the best,</p> <p>Matthew Gemmill North Seattle</p>
134	May 27, 2015 7:30 PM	<p>Are you still taking feedback on the prided changes to this route?</p>
135	May 27, 2015 7:34 PM	<p>Hi there.</p> <p>Just want to point out that the 545 is awesome route. As you know, it is very heavily used.</p> <p>I have heard the the route will be changed when light rail opens to UW, and may not go all the way into downtown Seattle. The assumption is that riders will exit at Montlake and take light rail into Seattle.</p> <p>That will add about 15 - 30 minutes to my commute. I currently get off at Stewart and Yale. I guess that most of the commuters will have extra time and transfers added. I hope you'll consider keeping this route during commute hours.</p> <p>Thank you,</p>

136	May 27, 2015 7:36 PM	<p>Dear Metro,</p> <p>I read in the seattle times paper that route 4 will be cut off at 21st & jefferson during construction on 23rd Ave.</p> <p>A simple solution would be to use regular dissel busses to run along mlk, turn left on jackson st, then right on 23rd</p> <p>and continue on 23rd to jefferson, and turn left on continue on regular route. Lots of people like me have doctor</p> <p>appointments at the 1600 Jefferson building, and route 4 gets me and many other people there without paying for</p> <p>parking. So do all you can to make this solution happen. You have a great bus system in our city, so keep route 4</p> <p>going to make it easier for all of us that use route # 4. Thank You, and have a great day.</p> <p>Chris Robel (Route 4 Bus Rider).</p>
137	May 27, 2015 7:39 PM	<p>Ms Martin- The advantages of the current # 11 bus route on Pine and Pike down town are:1. This is the long established current route that riders have adjusted their work and homes to.2. There is an ideal transfer point to light rail at Nordstrom's on Pine Street.3. No bus to bus transfer is needed to access Nordstrom's and Macy's etc.- The disadvantages of the proposed # 11 bus route on Madison and Marion down town are:1. A bus to bus transfer is needed to access Nordstrom's and Macy's2. The light rail stops are further and may involve a bus transfer.3. Both Madison and Marion are very steep West of I 5. Going up or down steep slopes is difficult for old folks with poor balance. (There are many old people in Madison Park who have difficulty exiting a bus on level ground)- An advantage of the proposed Madison and Marion route.is better access to Swedish Hospital.In Summary: The current #11 route is better than the proposed changed route.Please retain the current #11 route.Thanks Eric Feigl MDPhysiology Dept. University of Washington ***</p>
138	May 27, 2015 7:42 PM	<p>"Talk with Ted" video online comments</p> <p>Talk with Ted Day: Link Connections all day service in the northeast MrSquareart 5 days ago "good !!!!!" SeaFlute1 4 days ago "Then why is the 372 an acceptable replacement for the 68?!? At NE 95th, the stop for the 372 is 0.6 miles away with a change in elevation of ~ 250 feet. For route 73, NE 15th is only 5-6 blocks (0.3 miles) away from Roosevelt and MUCH flatter. The most direct route from the 68 stop to the 372 stop includes walking up/down a steep slope through the woods and ~130 stairs. Good for cardio, but a poor choice for crime/safety at night. In addition, there is no side walk along the busy traffic of Ravenna at the 372 bus stop, which is awful on a dark rainy night." Corrin Marie Callahan Adams Shared on Google+ · 3 days ago</p> <p>Talk with Ted Day: Link Connections on Capitol Hill Marcia Arliss 5 days ago "You mentioned the 10, 12, 48, etc but left out the 11? You have a apartment complex on 17 Ave & Madison of senior citizens & most of us use the 11..What's happening with the 11?"</p>

No.	Date	Content
		<p>Harry Ross 4 days ago "I am also interested in hearing about what happens to the 11. On your map, it looks there is a route that has a straight shot from Madison Park all the way down Madison to Downtown."</p>
139	May 27, 2015 7:44 PM	<p>Ms Martin People in View Ridge/ Hawthorne Hills now have a direct connection to the U District via route 71; with your proposal, we will have to transfer to get there. We also have an efficient connection to the Downtown LINK tunnel. With your proposal, we will have to wind through Green Lake and Fremont, which will take longer. Would it not be possible to alternate the new route 16 buses so some take the proposed new route and some take the current route 71, turning south on 15th and continuing through the U District to the new Husky Stadium Station? Until the Roosevelt Station is completed, we are left with a reduced level of transit service. I have supported every transit proposal to date and wholeheartedly encouraged my friends to do the same. If a direct route to the U District is lost, I don't feel enthusiastic in supporting any future transit taxes. I have lived in Switzerland and have seen well designed public transit. I know that Seattle must continue to expand and enhance infrastructure to meet the demand of the growing city. I have given up my driver's license and am committed entirely to public transportation. I am wondering if I should plan to obtain a new driver's license and car - both are totally against my core values. But, as a retired citizen, less comfortable transit options are not interesting. Please comment on the option of alternating route 16 between the currently planned circuitous route to downtown and a routing through the U District to the new Husky LINK station. Sincerely Robert Kirby</p>
140	May 27, 2015 7:47 PM	<p>Hi Deanna! I'm writing to say hello. And ... related to your job duties, I have a some comments about the UW Link location and Metro routes. I don't know if you've joined, but Nextdoor (Udistrict, NE Seattle) is having a very lively discussion about the plans. https://neudistrict.nextdoor.com After looking over both the alternatives, these are my comments. I know the UW has the transportational gravitational pull of a star, but there are other places and destinations we residents (who are not necessarily students or staff at the UW) would like to enjoy via public transportation. The strongest gap I see in service is that the #30 may be cut out. We really need an east-west line across 55th Street that can get us over the hill at 17th Ave NE to the Ave that runs non-peak times (peak hours are covered by the 74) and weekends (when the 74 doesn't run). I understand this is often a low volume trip, but smaller buses do exist and I know Metro has a few, such as the DART line written into the plans already. In the current proposal – a revised Route 16 would operate along 65th every 15 minutes all day and on the weekends. This is a new east-west connection to connect with Greenlake, Wallingford, and Fremont that we have heard strong support for. I realize this doesn't take you to the heart of the U District. So the option there would be take a revised 372 operating every 15 minutes or better throughout the day and weekends down 25th Ave NE. While you would go through campus, it would get you to Campus Parkway and the Ave easily. Another concern some have raised on Nextdoor that I also share is the limited routes on 25th Ave NE. The alternatives leave just the 373, when before we also had the 68. The 68 also goes to Northgate, which is great for us to get to meet-ups in the Northgate library and stores and services in the area. In the current proposal – there would be a lot of service added to the 372 and a few more stops through your neighborhood. I mentioned above how often it would operate. You're right the one-seat ride to Northgate would be affected. But, the you could continue to make this trip in the same amount of time or better with a transfer. One option would be take the 372 north to Lake City and transfer to the 75 or 41 – all these routes would have 15 minute frequency so the wait time between buses is low. Another option would be to take the 372 through campus and transfer to the 67 on the Ave. Similarly these routes would operate every 10-15 minutes making for a quick transfer. A third question is why are there no buses going directly to the Light Rail? If I</p>

No.	Date	Content
		<p>am laden with bags and heading to the airport I think my best routes now (if it is running) would be the 373, and then a hike over the footbridge to the LR station. Shouldn't there be buses that go straight to the LR for those going downtown or to the airport? When I get off the ferries on the islands the buses are waiting right there in front. Can that be part of this? There are two main issues with connecting directly to light rail... 1) Most of our riders are going to the UW (20-30,000 people a day) and we need to continue to serve this market even though not all of you want to go there. 2) Stevens Way through campus offers a better travel time than Montlake Blvd southbound. We will not be able to operate service reliably if we operate it along Montlake Blvd. If we could get transit priority there, things would change – but, this work is millions of dollars and unfunded at this time – so we're working with what we've got. In our proposal – routes 65 and 941 would operate past the front door of Link light rail, but I don't think these routes serve your particular neighborhood. Whew, this is a lot, but I wanted to summarize to the best of my abilities what we've been hashing out. [Back to the personal] When can you share a cuppa tea? John John Perkins Keep the Change***W e're the ones who make a brighter day, so let's start ... ~ Jackson & Richie</p>
141	May 27, 2015 7:48 PM	<p>I strongly opposed the proposed deletion of Route 25. It allows the Montlake neighborhood to get East - to our Eastlake bus service - and West - to the University Link station and bus transit hub. Route 25 is one of the few routes that serves the residences between the two north south corridors of Eastlake and 23rd/24th and the University. It also gets us to U Village and Children's Hospital. That there is plenty of north south service, and precious little East-West transit! Tyler</p>
142	May 27, 2015 7:50 PM	<p>Hi Ted & everyone. First, I want to say that I really appreciate you taking the time to provide me with a detailed reply with data supporting your position. However, I want to provide you with a bit more information from my perspective... since, if route 242 is discontinued, King County metro will lose me as a daily commuting customer, and will (potentially) lose my future support as a registered King County voter and taxpayer. I'm comfortable providing you with my home address (**) and my work address (Microsoft Studio F, ***) since it helps to illustrate just how much of an impact this change has on my daily commute. Here are my options for the morning leaving early enough to dodge traffic: 1) 20 minutes – Driving – Commute time ~20 minutes w/no traffic. 2) 32 minutes – Route 242 – 27 minute bus ride, 5 minutes total walking. 3) 49 minutes – Route 542 – 27 minute bus ride, 22 minutes total walking. 4) >60 minutes – Microsoft Connector -- >45min bus ride (to Commons), >20 minutes total walking. Due to both my home and work locations, I think I fall into the camp of having a "pretty sweet deal" with the 242. It provides me with a fairly stress free commute, taking only 10 minutes or so longer than driving. In the afternoon, the advantages are stronger due to the bus-only lanes on 520, which always beats driving single occupant. And it is effectively free (for me) since Microsoft provides employees with ORCA cards. Route 542 is an option, but it is an increase of more than 50% to my commute time versus the 242. It is hard to justify and would likely push me to drive, adjusting my work hours even earlier to dodge traffic in the afternoon, or organize a carpool. The Connector isn't really a viable option. While it sounds attractive (and I rode this for over 3 years daily when I lived in Duvall, WA so I have direct experience with this), it has two primary downsides. First, the stops for Green Lake are even further away than the Green Lake P&R. Second, these routes are typically packed and require hard reservations, which aren't compatible with my work schedule which requires a bit of flexibility for my evening commute. The only upside of the Connector is that it has a stop at our "Commons Transit Center" which is much closer to my office than OTC, but unfortunately it stops at OTC first which adds 10 minutes of commute time completely negating the upside. I chose to commute via the 242 because it is free (with the MS provided ORCA card), is better for the environment (versus driving a single-occupant vehicle), provides a flexible time-table, and</p>

		<p>saves me time commuting versus driving (when factoring in the evening commute).When searching for housing in North Seattle early last year, I actually studied the bus routes to purchase a property with optimal access to bus routes. If this route is cut completely, my commute times will increase by more than 50% if I choose to continue to take public transit.The aspect of this that I struggle with the most, is that it seems like the Link Connections effort is being used an excuse to cut the route, even though the new light rail stations don't provide any viable public transit to Overlake, and the route was previously proposed for deletion but seemed to be saved by the passing of last year's Prop 1.Has any consideration been giving to reducing frequency or decreasing hours of operation instead of cutting the route completely?Thanks again,Jason</p> <p>[5/12/15] I'm adding Ted to this email since I noticed some updated proposals from Metro and Sound Transit that were released today, along with some videos that were posted where Ted discussed some of the changes that are under consideration. I'd really appreciate a reply from one or both of you with some insight into why the 242 is impacted. I'm also adding a few other parties that commute daily on the 242 who I believe would also be interested to understand the reasoning behind the proposed deletion of route 242.Thanks, Jason</p> <p>[4/14/15] Hi Deanna,I wanted to reach out to you to inquire about King County Metro route 242. It was recently brought to my attention (as well as a number of other daily commuters here at MS) that route 242 appears to (again) be on the chopping block, with the changes that are being proposed to occur after the University Link Extension opens.The proximity to route 242 was a key reason that I purchased a new property in the north east part of Green lake roughly 1 year ago, and it seems that route 242 is consistently showing up on cut lists related to budgets, and now this – even though the route really seems to be a pretty heavily relied upon commuter route between Northgate/GreenLake and Redmond.Over the past decade, I've supported levies and tax increases to fund King County Metro, so I'm really interested to better understand why this route seems in jeopardy and what the other alternatives exist for my daily commute. I'm aware of the 542, but unfortunately, it would increase my end-to-end commute time by more than 50% and I would likely consider driving again.Thanks in advance, Jason Wohlgemuth</p>
143	May 28, 2015 6:37 PM	<p>Hi DeAnna,</p> <p>Please let me know if it is a possibility to still have a bus that will stop within a block or 2, both to and from, that will either go downtown to the King Street Station or to Kent. The Trip Planner is inaccurate because the 71, 72, 73 do not get that close. Looking at a map, it is 4 blocks, not 2 – and the direct path is closed for construction now.</p> <p>We recently relocated to this building and it's been a challenge to get the right schedule that works for me. Right now, I am taking the 158 to 197 to 45th and Roosevelt. That seems to work well getting to work. Going home, I am taking the 66 to downtown to catch the Sounder.</p> <p>I understand the changes for the 71,72,73, but shouldn't something be closer for us as more UW departments are moving off campus to buildings around the UW Tower?</p> <p>Carolyn Drebert</p> <p>Procurement Card Services</p> <p>***</p>
144	May 28, 2015 6:42 PM	<p>Re: 5/12/15 "New proposal for changes to bus service" The Ballard District Council learned of these proposals on the eve of our regular monthly</p>

No.	Date	Content
		<p>meeting. These comments are based on a discussion which we held on May 13.</p> <p>PROCEDURAL: Because we are not to be served by Link we are disconcerted to see proposed changes to three Ballard bus routes noted in this letter. The implied connection to LINK service deterred many from parsing the proposal. References to sounding boards and outreach undertaken in March are obscure -- we are unaware of any efforts to solicit the opinions of riders and others in Ballard. We recommend providing neighborhoods more time to respond to these proposals, especially those which were not consulted in their development. We recommend (more) candid and informative subject lines and headlines. Please include the East Ballard Community Association and the Crown Hill Neighbors and Crown Hill Business Association in your efforts to provide meaningful input to these and other changes to Route 28. Their omission from your process is troubling.</p> <p>COMMENTS ON BALLARD ROUTE CHANGES: ROUTE 28 is to be realigned, abandoning its service to commercial Fremont and South Lake Union. Commuters will find their rides lengthened due to the proposed reduction of service and consequent need for connections. Are there origin/destination data showing how many riders will be affected by this change? Route 28 does not and would not serve any light rail stations other than Downtown, so its inclusion in this set of proposals is odd and inconsistent with your subject line. ROUTE 44 is to enjoy increased service. This was promised in connection with last year's Proposition 1, is clearly needed, and should be implemented regardless of the timing of the commencement of Link service to North Seattle. ROUTES 45 would replace our portion of Route 48. There are two distinct aspects of this change: 1. Severing of direct (one seat ride) to areas from the University District to Mt. Baker; 2. Reduction of service during evening hours. As to the first, we are aware of the idea that decoupling long routes should improve reliability. We are curious as to whether the experience of prior decouplings has confirmed this notion, specifically as to former Route 75 configuration. Are there origin/destination data showing how many riders use both ends of the service? We commend the proposed overlap between Routes 45 and 48, which will ease transfer by eliminating the need to walk between the two lines for those who use both. As to the second, we are surprised and dismayed that reductions of service are proposed after Ballard voters supported last year's Proposition 1. This wasn't what we were led to expect. Many portions of Ballard have lost all or substantially all bus service in recent years. We hoped this would be reversed, rather than continued.</p> <p>Your proposed changes are presented following a process which seems not to have involved anyone from this area, and we are most displeased.</p> <p>Kirk Robbins, President Ballard District Council</p>
145	May 28, 2015 6:44 PM	<p>Dear Community Relations Planner, Deanna Martin:</p> <p>Regarding the proposed revisions of route 12 as posted at <http://metro.kingcounty.gov/programs-projects/link-connections/pdf/012-info-05-15.pdf>, could Metro please consider adding a stop or two in the Montlake neighborhood at the proposed route end/start? Or, if not, could there still be a version of route 43 going along 24th Ave E but perhaps to E Madison to 4th & Pike downtown? A stop for the proposed revised route 12 at Boyer E & 24th Ave E OR a revised version of route 43 would maintain service that I have found crucial to my getting around town by the current route 43. I have no car and have made efforts to not use car share programs lately in favor of watching my budget as well as it avoiding an extravagance and unnecessary car addition to the heavy Seattle traffic when the Metro has been meeting my transportation needs well. I have relied on Route 43 for many years to travel many times per week from the Montlake neighborhood to downtown Seattle -and sometimes just as far as the Capitol Hill neighborhood to access businesses, friends, and unique parks there. Currently, I reside near Boyer E & 24th Ave E and am employed at a downtown retail store. I frequently need to leave downtown Seattle in the evenings and have appreciated being able to access bus stops from downtown to right within my Montlake neighborhood from the bus so that I don't</p>

No.	Date	Content
		<p>have very far at all to walk in the dark. Additionally, I sometimes rely on the 5:53am bus 43 at Boyer E & 24th Ave E to make it to a local, Capitol Hill yoga studio for an early-morning practice that helps me get to work downtown totally alert, ready, and warmed up for the lifting and other physical demands of the job. Bus 43 has been amazing for me to be able to get safely and reliably from home to work and vice versa; having to make the steep walk from 26th Ave E to 19th Ave E & Galer E to attain access to a potential commute downtown via revised route 12 looks hectic, not as safe, and not as conducive for me to arrive in an orderly fashion to work. Please consider adding stops and times to the proposed revisions to continue servicing the Montlake neighborhood to downtown commute. Thank you. Sincerely, Alicia Watras *** P.S. I also use bus number 31 to access Magnolia and businesses there and the lack of service later in the days and the total lack of service on Sunday has made some of my planning and planning with fellow bus-commuting friends extremely difficult. I would use bus 31 in the evenings and on Sunday if it was available.</p>
<p>146</p>	<p>May 28, 2015 6:46 PM</p>	<p>Subject: Proposed changes to bus routes.....</p> <p>.....actually DELETED routes.</p> <p>I work at an elementary school in the northeast part of the city. Would you PLEASE do a 'trip planner' for me once routes #43 and #71 have been deleted!!!!</p> <p>I live at 316 13th Ave E. and my school is at 7047 50th Ave NE. For years I've been able to take the #43 to the U-District and then the #71.....on a good day it's an hour each way! What do you have for me once the proposed changes/deletions take effect?</p> <p>P.S. Also, do any of Metros administrators EVERY ride a bus, like maybe commute to their jobs or maybe during a sporting event? Just curious!</p> <p>Rod Brown ***</p>
<p>147</p>	<p>May 28, 2015 7:22 PM</p>	<p>NOTES FROM UWMC INFO TABLE</p> <p>Yesterday I was at the UW Medical Center at an Info Table between 10:00 a.m. and 1:15 p.m. It was by far the best info table I've been to as it was located in a very busy place by elevators and a bathroom. So there was a steady stream of people coming by and interacting with me. In general, there was tremendous excitement and anticipation of Link Light Rail. The Regional commuters were very excited to have Link as a fast and frequent connection to downtown Seattle. The local commuters really liked the improved frequency of all the routes from NE Seattle coming to the hospital. Here are some specific items:</p> <ul style="list-style-type: none"> • Several riders from South King County really liked the Link extension and would either access it in Tukwila/Sea-Tac or by way of Sounder at King Street Station. • A Redmond rider liked that Route 542 would be extended and have additional trips on Route 541. • A couple Route 48 riders liked the additional frequency, felt it was OK to lose Route 43 so long as Route 48 ran more often. They also LOVED the fact that trips would start in the U. District instead of in Ballard, they said "it was about time!" • A Route 372 rider from Bothell loved the 15-minute midday service. • One Route 277 rider from Houghton was excited that Route 540 would now serve Houghton as well. • One current Route 540 rider who walks to South Kirkland P&R did not like the revision to no longer serve South Kirkland P&R. • An Issaquah rider likes Route 556, will look into using Link and Route 554 during off-peak times. • Route 31 rider really loves the connection. • Several non-riders from West Seattle thought having Link would make transit more competitive with driving than it currently is and is willing to try the bus+Link (so we might actually see improved ridership on some of our West Seattle-CBD routes as a result of Link Light Rail) • A Route 67 rider liked the

No.	Date	Content
		increased frequency to 15-minutes and provided the quote of the day saying that “it doesn’t get any better than that” (than having service every 15-minutes).• A Shoreline rider would like a faster connection to the U. District. • A Magnolia resident would like a faster connection to the U. District and a new connection to Ballard. Basically, it was a love fest for transit at the UW Medical Center. Link Light Rail will be a huge boon for employees as it will be frequent and fast. Many employees work shifts that start or end at hours outside of the normal peak periods and they would benefit from the high frequency Link at most times of the day and should benefit from many of our bus route frequency increases.
148	May 28, 2015 7:47 PM	From: Nextdoor Green Lake <***>Date: Fri, May 15, 2015 at 1:29 PMSubject: Upcoming bus route changesTo: *** susan jorgenson, Green Lake Hi- I would like to make everyone aware of the proposed bus route changes in our neighborhood. In particular I'm very concerned about the 16 route that runs along Meridian and Woodlawn. The proposal is to run more big busses more frequently. I understand that people like the idea of more transit options and that traffic in our neighborhood has gotten worse but these buses are big, loud and fast. Some of us had signed a petition asking Metro to consider moving the route to a more bus appropriate street and got a pretty unsatisfactory answer (like we'll just get rid of street parking or worse widen the street because our tiny little lots don't really need a front lawn). But no consideration for the noise or alternative routes. There is a meeting Monday night if you want to hear more / voice any concerns. There's more information on their sight- http://metro.kingcounty.gov/programs-pro... Fill out the survey- http://metro.kingcounty.gov/programs-pro... 149	May 29, 2015 6:32 PM	You appear to have left the Route 255 off the list of changed routes and the interactive map, where currently it does not exit SR-520 and head north on Montlake. FYI - MHS
150	May 29, 2015 6:42 PM	Two quick pieces of feedback:1) In this email, the links to proposed changes summaries don't work. It looks like the intranet links got pasted in by mistake instead of the correct URLs.2) Having said that, I've seen decent summaries of the proposals on a few blogs, and I like what I see. It feels more like a balanced network than either of the previously presented options.Eldan Goldenberg ***
151	May 29, 2015 6:43 PM	Hi DeAnna,I have tried to keep up with postings about plan proposals and the one point that many have mentioned and with which I strongly concur is having the 8 and 38 connect at the Mt Baker Transit Center. The major reason is that it's safer. I will not transfer at 23rd and Jackson outside of core daytime hours. Thank you.Jill Fluvog
152	May 29, 2015 6:53 PM	Thank you for an opportunity for input regarding the transportation needs and changes in public transportation for Northeast Seattle to the Eastside, especially Kirkland. The current plan for NE Seattle to access Kirkland does NOT include inclusion in the 520 design. Long term access to route 255, such as implementing the alt. 1 concept to route with rail and terminate at Children's Hospital is greatly needed. Why will NE Seattle continue to bus downtown before accessing a bus to Kirkland? Elizabeth Spencer Steffa
153	May 29, 2015 7:26 PM	Deanna, Am I reading this right that changes to the 252, 257 & 311 are no longer being considered? Pretty ridiculous to run these buses right past the U district Link station & on into downtown creating a duplication of service. Wasteful on several levels. Extremely disappointed changes to these routes have disappeared into the ether.

No.	Date	Content
		<p>proposal the fastest and most convenient passage between the UW and the East Side remains taking the #11 to 23rd E. and transferring to the #48 or #43 to the University of Washington and Eastside locations, but the lack of a connection to Link Light Rail reduces commute options in the proposed reroute.</p> <p>Residents living in Madison Park and all residents using the present #11 will lose direct access to the Light Rail under the current Metro proposal. Passengers will no longer be able to go, without an additional inconvenient transfer, to the International District, the sports stadiums, the airport and, by next year, to Husky Stadium. As you know, there are no Light Rail Stations on E. Madison. After 2018 passengers will also lose easy access, without transferring, to the central area of the University District and to Northgate as well as all future expansion stations of the Light Rail. Having to haul luggage from E. Madison 5 blocks to the closest Light Rail Station will discourage most transit users living along the entire corridor of the existing route of the #11 from using Light Rail to get to SeaTac. The alternative of transferring to another bus at E. Madison and 3rd Ave. to reach the Light Rail Station at 4th and Pine is no less daunting.</p> <p>3. Impact on People Employed in The Madison Park neighborhoods There are hundreds of workers who depend on the #11 to get to their places of employment in the Madison Park neighborhood. Employees of businesses, retirement centers and residents in the Madison Park neighborhoods include housekeeping, food service and retail business personnel. They use the #11 to get to work here. Many of them presently have direct connections going east/west in the Pike/Pine Corridor. Others are able to use the Light Rail from the south end of Seattle and make a direct connection at the current #11 stop without transferring to a bus on 3rd Ave. or walking 5 or 6 blocks, often in inclement weather. Both alternatives under the Metro proposal will take more valuable time from the workers than is the case with the current route of the #11.</p> <p>4. Relationship of the Metro Proposal to the City's Proposed Rapid Ride The City of Seattle is actively studying the construction and operation of frequent and rapid service on exactly the same route as Metro's proposed new route of the #11, up and down E. Madison. Other than passengers getting on and off the bus at intermediate stops of the #11, the Rapid Ride Trolley Bus will serve all E. Madison passenger traffic in a better way than the proposal to change the route of the #11. A Rapid Ride Trolley Bus rather than a #11 will be the obvious choice of passengers between the Coleman Ferry Dock and at least 23rd E. and E. Madison. (The City is considering expanding the service route of the Rapid Ride Bus so that it operates to the Martin Luther King Way and Madison Park.)The Madison Park Community Council recognizes that there are benefits to Metro's proposed changes in the #11 bus.</p> <p>Here are the ones we considered:Benefits of the Proposal</p> <ol style="list-style-type: none"> 1. There would be direct access to and from the Swedish Medical Complex, Virginia Mason Medical Center, the Poly Clinic and other medical offices on First Hill. 2. The proposed route change would be an advantage to those who work in the professional and governmental employment core of downtown, and those who work in the healthcare profession on First Hill. Madison Park has a disproportionate number of doctors, lawyers and other professionals who work at destinations served by Madison St. 3. The Metro proposal includes providing more frequent bus service for Madison Park passengers. In peak travel hours, the #11 already provides the same level of service at peak hours. The same is not the case in non-peak hours and late at night. Current off-peak service on the #11 has much longer intervals between buses. However, by simply increasing the number of buses on the current #11 route during non-peak and late night hours the same result could be achieved. An additional bus every 15 minutes on Madison St. will not increase traffic in the Pike/Pine corridor because they would not be on the Pike/Pine corridor. 4. There would be direct access to any new stores along E. Madison west of 16th such as the new Whole Foods. 5. Direct access to the Coleman Ferry Dock.If the Madison BRT

No.	Date	Content
		<p>moves forward, many of the benefits of a #11 reroute will be well served by a transfer to BRT at the future Martin Luther King Jr Way and E Madison St transfer station. In this way, the #11 and BRT can complement each other in serving residents and visitors along the entire east-west corridor.</p> <p>During our 5/27/2015 annual meeting, we had a very well attended turnout to hear more about the Madison BRT from Maria Koengeter, and to have a community discussion about the #11 bus route. During our lively discussion about the Route 11 reroute proposal, we received a good deal of feedback that can be summarized as follows:</p> <ol style="list-style-type: none"> 1. The people present overwhelmingly expressed desire to keep the 11 bus route on its current route, regardless of what happens with Madison BRT. 2. One resident of 42nd Ave E expressed that he did not like the sound of busses "roaring down his street." Because of the noise factor inside his home, he expressed that he would not like increased #11 bus service frequency. Here, the root cause of the reason to oppose frequency is due to the loud diesel busses, not the frequency of the bus. A different resident of 42nd Ave E, at our last meeting, resisted increased bus frequency because a bus had run over her dog. Peace and quiet on the residential streets of Madison Park is a core value of our neighborhood that we seek to improve. So, noise and safety were the two reasons given for resisting more frequent service. 3. Transit riders who were present expressed reasons why they would prefer more frequent service. These fell into the following categories: a. Due to the unreliability of the current #11 schedule, often run late, making it difficult to get to appointments on time. Low frequency exacerbates this problem. b. Coming home from a dinner or a show downtown on the #11 bus is problematic because riders have to wait for very long times downtown in conditions that do not feel safe or welcoming. c. For commuters, having frequent service means being able to reliably get to work on time. 4. When put to a vote, 14 people present expressed desire for more frequent service and about twice that number opposed more frequent service. People were unanimous about wanting to keep the current #11 alignment. When it came to frequency, this particular audience was not unanimity with regards to whether the meeting attendees wanted increased frequency or not. We hope we have made our reasoning clear to you. The disadvantages to our community far out way the advantages of the Metro proposal to change the #11 bus route. We urge Metro to leave the route of the #11 as is, and keep the lines of communication open with us about frequency as we move forward. <p>Sincerely, The Madison Park Community Council Gene Brandzel Immediate Past President</p>
155	May 29, 2015 9:29 PM	<p>Her main concern about the restoration of Route 47 is that the service ends at 7 pm. The route became useless when it was severed from the Route 14, especially after 10 pm - and, that's when ridership fell. She felt it was insensitive to be told to walk to Pike/Pine to reach service when Metro was doing the service reduction outreach and talking about deleting the route. Her suggestion is that Metro take one of the many routes that go up/down the Pike/Pine corridor and instead of reinstating Route 47 have it do the loop down Bellevue and back on Summit - this could be done with routes 10, 11, 43, or 49. She'd also like a bus that goes directly to the airport to be put back - it's too far to walk to the airport from the Link light rail station. And, she misses bus service along the waterfront and would like that restored as well. She would like to serve on a transit advisory commission.</p>
156	May 29, 2015 10:27 PM	<p>Hi Deanna, I have been a route 33 rider for almost 20 years until the bus that went from Olsen-Meyers Park and Ride to the University District was cancelled last year. At that time the bus ride became impossible. The C line went in which took me on a meandering way through the Alaska Junction and on to Downtown where I had to transfer to a 70 bus to come North. With the Marijuana law being passed, there is no more monitoring of the bus stops at all with blue smoke at most of them (especially downtown). I have had people's</p>

No.	Date	Content
		<p>crotch in my face, had to listen to some girl talk about dancing on the table naked, and had coke and booze spilled all over me by a vomiting drunk person on these new routes. The 21 bus that goes right by my house was not reliable at all and did not come at 5:00 am when I had to leave. And getting home on it was another nightmare with overcrowding to the point of having to stand most of the time. I am 63 this year and I don't stand for long periods like I used to be able to. I have finally accepted the fact that I have to drive to work. I park in Wallingford and either walk in or take the bus from there. It's a long commute and the gas is expensive, but I no longer get sick so often. I get home in a peaceful frame of mind, and my back and legs are not killing me. But it is a 2 seater car and I don't know anyone who would want to car pool with me that early. My question is this: What are you doing for the People in West Seattle? There were many of us displaced by the elimination of the #33 express bus. How about a bus from the Olsen-Meyer Park and Ride to the Light Rail on Capital Hill? Or how about re-establishing the #33? I can't believe that you guys still think that the Changes made last year are working. And the new adjustments you are making only help Those who are already close to the University. What about the rest of us? Thank you, Kathryn Kathryn Henne Fiscal Specialist UW, School of Social Work ***</p>
157	May 29, 2015 10:28 PM	<p>Dear Deanna,</p> <p>I am having some trouble figuring out whether the current route 26 will be changed or eliminated when the University station light rail comes on line in March 2016.</p> <p>I can see changes to 26X, but I can't see what the plans are for the 26.</p> <p>Would you clarify this for me, please?</p> <p>With thanks,</p> <p>Sally Sally Sibson COUGHLINPORTERLUNDEEN STRUCTURAL CIVIL SEISMIC ENGINEERING ***</p>
158	Jun 1, 2015 9:28 PM	<p>I realize ridership is low but it used to be better when it came up Delmar – there were 2 routes – one on Furman and the other up by Roanoke Park. For those people who live on No. Capital Hill – it provided excellent service downtown and was much faster than the 49. It also went down Stewart which made for an easier access to streets north of Stewart. I especially enjoyed the fast transit to town. Ridership declined with reduction in service. Again, most of us have no use for the Link. Nancy Wessenberg</p>
159	Jun 1, 2015 9:33 PM	<p>Hello. I've been reading about proposed changes in Capitol Hill/Central District bus service, and I'm writing to express concern over the deletion of Route 43.</p> <p>I live at 23rd and Madison, and I currently take the 43 or 48 to the UWMC area every weekday and at least one weekend day. The increased midday and weekend service would largely compensate for the loss of the 43 during the daytime, but I go home at 10:30 or 11 p.m. At that time of night, the buses already run unpredictably late, and I count on being able to catch the 43 if the 48 isn't showing up. I am concerned that I and others would frequently end up waiting outdoors for long periods at night. If you must delete Route 43, please consider augmenting Route 48 service at night as well as during the day.</p> <p>Thank you for all your outreach efforts.</p> <p>Evvie Vincow</p>

No.	Date	Content
160	Jun 1, 2015 9:34 PM	<p>Dear Deanna,</p> <p>I just got wind that King County/Metro/Sound Transit is proposing to delete numerous bus routes in the inner city of Seattle. I understand that the rationale for this is the Link Light Rail is now connecting Downtown to Capitol Hill to University District. This rationale completely misses the point of light rail, which is to provide regional access for large numbers of people to urban centers not provide reliable connection within the city. The light rail stations are miles apart and are not accessible for daily trips within the city.</p> <p>Of particular concern to me is the deletion of bus route 43, which connects the University District to Downtown via Montlake and Capitol Hill. This eliminates any bus routes that go downtown via 23rd/24th and strands Montlake without any direct access to downtown Seattle. Montlake is one of the largest inner city neighborhoods, and it provides a huge tax base for the city and county. Further, I regularly ride this bus and it is always full. I would love to ride light rail, however, the stops are just too far dispersed to be of any benefit for inner city connections. It is absurd that Metro and Sound Transit are cutting this much used and needed service.</p> <p>Sincerely, Max Blume</p>
161	Jun 1, 2015 9:36 PM	<p>I am so very disappointed that you would cut route 43. 43 runs north and south through Seattle, but provides no direct way to get downtown from Montlake, a very central part of Seattle. What's more, the goal of living in town is to have it be easy to get downtown. You'd be making it remarkably more difficult to do so. The light rail is much too far from almost all of Montlake and not a remotely reasonable way to commute. You'd be leaving that as the only direct connection to downtown. As someone who lives in town and doesn't have a car because they rely on public transportation, how should I get to work? It is hard to fathom that I live less than four miles from my office and yet it would take two buses and well over an hour to get to work. Particularly when you think of the higher property taxes I pay. What in the world are those for, then? I understand you're trying to do your best with limited funds, but I feel a great disservice. Seattle's public transportation prioritizes those commuting from the suburbs and not those living in town, despite the fact that we often pay higher taxes to do so. It should be easy to get from every major neighborhood of Seattle to downtown, if not every other major neighborhood. The proposed changes are a serious blow to that. I have always presumed that the goal of public transportation was to keep cars off the road. If you remove route 43, you will force me to get a car. No other option is viable. As a taxpayer living in Montlake, I am outraged at this proposal to cut off basic bus service from a main thoroughfare to downtown. Sincerely, Melissa Blume</p>
162	Jun 1, 2015 9:38 PM	<p>Hello,</p> <p>I am very excited to see the plans to extend the light rail to UW as well as farther south. However, I have a concern. Parking, I think, will remain a deterrent to riding the light rail if it is significantly expanding, especially at the south stations.</p> <p>Many people I know who commute from south Seattle (myself included) to UW and who live near the current light rail stops (including Kent, Des Moines, and Federal Way) are often not able to use the light rail because there is shockingly inadequate parking. The airport stop has no parking, and many of the commuters I know are unable to get a ride to and from the bus stop. Many people I know have driven to the Tukwila light rail station, intending to use the light rail on the weekend even, but found no parking and unreliable connecting buses and so drove up to Seattle.</p> <p>I would personally prefer to use the light rail, as it is not restricted to "typical" commuting</p>

No.	Date	Content
		<p>times and would allow me to study up at UW later in the evening, without the stress of missing the last run at 6pm (like the sounder, 197, etc.). I cannot currently use the light rail because there is no parking at Tukwila or Seatac, and I can't get a ride to and from the airport regularly.</p> <p>My concern is that the usability of the new light rail additions will not be greatly improved without addressing the issues of inadequate park & ride parking spaces at the light rail stops, especially considering how many UW students do commute. I was wondering if there were currently plans to improve this, and what those might be.</p> <p>Sincerely,</p> <p>Mackenzie Lofthus Commuting UW student</p>
163	Jun 1, 2015 9:44 PM	<p>Hi Deanna,I live near 24th and Harrison (bus stop at Republican and 23rd) and rely on Metro for my day-to-day travel. I recently took the phase 3 survey and provided comments on the proposed Capitol Hill changes. Unfortunately, I read the “Link Connections Public Engagement Summary Phase Two Outreach” document after I completed the survey and wasn’t able to respond to the survey with the document in mind. I have additional comments below. Would you let me know the best way to add my comments – take the survey again or another method?Thanks in advance for your help,CelesteHere’s my comment: Despite more survey respondents (see below) being concerned about reducing service and deleting route 43 compared to route 11, route 43 is being deleted and route 11 has an increase in service. While there is overlap in people who responded – I was one who was concerned about the 43 and 11 – I’m confused about why the 43 is being deleted and the 11 has an increase in service. I understand that a Madison Park community member gathered his/her neighbors together to identify an alternative 3. I appreciate the advocacy, but don’t understand how those concerned citizen voices outweighed the voices of those in the survey. Has Metro considered an Alternative 4 – the #11 and #43 remain in service and the service hours are adjusted according to use so that neither area loses service to downtown and to the top of Capitol Hill?Concerns about 43 (Alternative 1)609 concerned about no direct service between U District and Capitol Hill (43)439 concerned about no direct connection between 24th Ave E and Capitol Hill Link Station (43)420 concerned about loss of direct connection between the 24th Ave E corridor and downtown Seattle (43)Concerns about 11 (Alternative 1)439 concerned about loss of direct connection between Madison Valley and downtown Seattle (11)Likes about 43 (Alternative 2)648 like keeping more service in the Pike/Pine corridor (10, 11, 43, 49)558 like keeping a direct connection to downtown Seattle from 24th Ave E and top of Capitol Hill (43)496 like provides connection to the new Link Capitol Hill Station from 24th Ave E (43)Likes about 11 (Alternative 2)648 like keeping more service in the Pike/Pine corridor (10, 11, 43, 49)436 like keeping a direction connection to downtown Seattle from Madison Valley (11) Celeste Chung, MSW, MPH, MCHES Program Coordinator External Affairs and Community Benefit Seattle Children's ***</p>
164	Jun 1, 2015 9:46 PM	<p>Dear Ms. Martin,</p> <p>OH I can not even tell you how sad I am to loose the #25 bus service...The older we get and the more we want to be out of our cars the less service...boo hoo...Can you rethink this route...</p> <p>Thank you sooooo much, Sally Welch</p>
165	Jun 1, 2015	<p>I'm writing to express my strong opposition to the proposed changes to the routes that</p>

No.	Date	Content
	9:48 PM	<p>currently serve Wallingford. First, I don't understand why these changes are being proposed for 2016, when only the Husky Stadium Link station will be open. As far as I can tell, the U District, Roosevelt and Northgate stations will not be opening until 2021. Why is it necessary to change routes that do not operate near Husky Stadium now? Those of us in "west Wallingford" (Meridian Ave N. to Stone Way N.) currently have frequent, direct access to Green Lake, North Seattle College and Northgate TC. The proposed routing for the revised Rte. 26/26X will require people from west Wallingford to travel the 8-15 blocks to Latona Ave NE to catch the Rte.26/26X. Seniors and people with mobility issues would likely have to ride the Rte. 44 to transfer to the Rte. 26/26X. Whether walking or travelling by bus, this would add a significant amount of travel time, especially given the notorious schedule variability of the Rte. 44. The proposed jog over to N. 65th St. (and I-5, per the map, but more likely to the Link station?), and then back to the Green Lake routing would also increase travel time. With the proposed routing on the north end of the revised Rte. 16, I could conceivably take my dog to the off-leash park at Magnuson, but probably would drive. I find it hard to believe that there would be many riders on NE 65th St. east of Roosevelt Way, or perhaps the U District. Those of us on the current Rte. 16 also have frequent, direct service to downtown Seattle. The proposed revision, via N. 34th St., Fremont Ave. N. and Dexter Ave N. will most likely add a significant amount of travel time. I don't see that the increased headways will be of any benefit in either direction. While the proposed Rte 26/26X will take over the more direct routing of the current Rte. 16 to downtown, it operates about half as often. Riding the revised route from Wallingford to downtown will also require the walk or bus transfer to Latona Ave NE, or a walk to N. 40th St. and Stone Way N. There is no bus service to that stop from "west Wallingford", so people with mobility limitations will only have the option of riding to Latona Ave NE to do a bus transfer. The only other option for travel to downtown Seattle is Rapid Ride at N. 46th St. and Aurora Ave. N. – a 10-block walk from Meridian Ave. N., and a significant uphill grade to the bus zone regardless of distance. Again, a significant barrier for seniors and people with disabilities. It seems that the proposed routing revisions are likely to increase costs for Access Transportation, for people who are no longer able to reach a nearby bus stop. As currently scheduled, the Rte. 26 is clearly inefficient. It is not uncommon to see not one, but two, buses laying over at the northern terminal near Green Lake Way and Ravenna Blvd. Please explain why the Rte. 26 wouldn't be the one you would choose to operate across NE 65th St. to the Link Station and beyond, when buses are already laying over so close to NE 65th St. In case some of us wanted to take our dogs to the off-leash park . . .</p>
166	Jun 1, 2015 9:50 PM	<p>Deanna,</p> <p>Good morning. I live on Beacon Hill and am a fan of the Link Light Rail! However, I am very frustrated by the times the light rail has to stop to wait for the platform to clear of buses when we are going through downtown Seattle – literally every time I take light rail through downtown we have to stop multiple times! Light rail is not fast enough through downtown and is frustratingly slow with the stops.</p> <p>What is being done to expedite light rail through downtown stops where there are also buses?</p> <p>Also, is more parking being built next to light rail stops? It seems like only the stop with adequate parking is Int Blvd and there could be a lot more users – taking drivers off the road – if there was actually parking at the stops!!</p> <p>Thank you! Jesse</p>

167	Jun 1, 2015 9:54 PM	<p>Dear DeAnna Martin, In view of the recent changes in bus stops on 3rd Ave between Pine and Pike, and next year's route changes due to the extension of the Link Rail, I have the following suggestions. On the inbound Metro routes #7 and #36, extend the last stops from 3rd Ave to the layovers stops on Virginia St between 4th and 5th Avenues. In doing so, route service is extended and the stops are closer to the northbound South Lake Union streetcar stop at the intersection of Virginia St and Westlake Ave. Also, many new residential and office towers will soon come on line nearby and changing the #7 and #36 layover stop to a first outbound stop will add to patron service. Metro #70 will gain significant ridership when routes # 71 and # 72 are eliminated and #73 no longer headed to and from downtown Seattle via the bus tunnel. Adding more frequency to Metro #70 and continuing on into late hours will likely be over burden particularly into the evening hours during sporting and other events in downtown Seattle. My suggestions for route #70 is to change the route from a trolley bus to an alternate fuel bus as the latter runs more efficiently time wise. Route #70, southbound stops should be extended to the Union Station stop at 5th and Jackson to connect with Link to SEATAC and Seattle's First Hill Street car line. North bound, the stop on north side of Jackson at 5th for route #70 will best serve former riders from former routes 71,72,and 73. The current #70 layover at 3rd and Main could be relocated to the NW corner of 8th and King to share with Metro #99 or layover spots switched. Sincerely,Ron King Cascade Neighborhood Neighborhood</p>
168	Jun 1, 2015 9:56 PM	<p>At this time I am able to go from my neighborhood to downtown on one fare. I can also get a transfer if I need to take another bus to reach my destination.</p> <p>My question is with the elimination of rout 71 and a connector bus 941 to the University light rail tunnel would I then need to buy another ticket to continue down town. Also then would I have to buy another ticket if I was to transfer to another bus?</p> <p>Second item: I would attend one of the forums but I have a hearing problem. In large crowds, even if the speaker uses a microphone I miss to many words to understand what was said.</p> <p>So at this time I would like to make a statement, one fare on all king county buses and light rail combined. Portland, Oregon Tri metro, one fare will take you all over and you can buy a day pass also.</p> <p>John Davies ***</p>
169	Jun 1, 2015 10:01 PM	<p>Dear Ms Martin, I'd like to comment on the Metro's proposal. First of all, it is great news that Metro is going to increase the overall service. Here is my comment regarding the service in my home area, namely the Laurelhurst neighborhood. I'd like to argue that implementing the following changes to your proposal will have a highly beneficial effects on the ridership around that area: 1. Do not delete route 25. 2. Make the 25 line more frequent. 3. Re-route 25 so that it connects to a light rail station. You might be aware of the scientific literature showing a high correlation between the ridership and the frequency of service. Just to name one among many, the paper below (Chen et al, 2011) shows that "demand follows supply" and not the other way round. Over the past years you have been constantly decreasing the frequency of the 25, so that (as the literature suggests) the ridership became very low. Please, follow the science and return the level of service for this route to the level where it was many years ago, namely at least every 30 minutes, and the demand will follow, as was the case in the past. This effect would be even stronger, if the line connects to the light rail, as many people from the neighborhood work in downtown. Currently, due to the low level of service, those people use other modes of transportation. This won't change with introducing a DART service in the area. Thank you for the</p>

		consideration. Sincerely, Hana Sevcikova University of Washington & Puget Sound Regional Council *** Chen C., Varley D., Chen J.: What Affects Transit Ridership? A Dynamic Analysis involving Multiple Factors, Lags and Asymmetric Behaviour. (2011) Urban Studies, Vol. 48(9), 1893-1908.
170	Jun 1, 2015 10:05 PM	<p>Hi Deanna, I have filled out your survey about the bus schedule changes several times but I also wanted to write to you directly with my concerns with taking the 66 and the 67 off of 5th Ave NE. First of all, it's really difficult to figure out exactly where the re-purposed 66 is going to be making stops, and what the schedule for it will be. I don't think it's going to be running often enough to be useful to get up to the Northgate Transit Center. I would like to propose that you split the difference in the re-purposed route 67 between Roosevelt and 5th Ave NE. Half of the buses should run down 5th Ave NE and the other half down Roosevelt. That way the entire neighborhood has access to buses to the UW Stadium light rail station. Here are my concerns:</p> <ol style="list-style-type: none"> 1. For people living west of 5th Ave NE, it's too far to walk over to Roosevelt to catch a bus. I for one have a mobility problem. I've had four hip replacements and am currently getting around on crutches because of a knee problem that is also going to require surgery. Not everyone in Seattle can walk easily or ride a bike. Believe me, no one wishes my situation were different more than I do. I work at the University of Washington, so the 66 and 67 are perfect for me. 2. By removing the 66 and 67 off of 5th Ave NE you have made it equally hard to get to the Northgate Transit Center. The other bus that I use frequently is the 41, so you are making it impossible to get there. 3. I'm assuming that you know that the light rail will be coming to Northgate in 2021. Are you planning on rerouting all the changed bus routes so that they go to Northgate instead of the UW Stadium? That's only six years away, so I would assume you'll start planning those route changes soon. Also, PLEASE RESTORE SERVICE TO THE NORTHGATE TRANSIT CENTER FROM 5TH AVE NE SO IT'S EASY TO GET THERE!!!! As I stated in point #1, not every one can walk or bike. 4. Roosevelt is already really backed up and congested because of the bike lane that SDOT installed. There is no where for the bus to pull over, so that street is going to be one big bottleneck with buses running every eight minutes, more than it is now. Also there are a lot of people that cross Roosevelt to get to the new Maple Leaf park so hopefully you are factoring the large number of pedestrians into the mix of your new plan for the re-purposed route 67. Thus my suggestion that you split the bus route into two, one down Roosevelt and the other down 5th Ave NE. 5. I'm totally confused about the SDOT High-Capacity Transit study that they are proposing from the Northgate Transit Center, down 5th Ave NE, east on NE 80th and then down Roosevelt. The website is www.seattle.gov/transportation/roosesvelthct.htm. The flyer is making it sound like it will be rubber-tired or rail, so does that mean that they want to put a street car down 5th Ave NE? Does SDOT know that Metro is moving the bus lines off of 5th Ave NE? Do they know that the light rail will be running to Northgate in six years? What kind of high capacity transit is SDOT going to be putting down 5th Ave NE? 6. Do you people from Metro, SDOT and Sound Transit even talk to each other? I go to all the Sound Transit meetings for the Light rail project from the U-District to Northgate and I appreciate how transparent they are about project plans. I never see representatives from Metro or SDOT there at the Sound Transit meetings, and there are plenty of questions asked by the attendees that really are for Metro and SDOT. In fact, at the last Maple Leaf neighborhood community meeting (not a Sound Transit meeting) I had to tell an SDOT employee about plans that Sound Transit has made for the Northgate light rail station foot and bicycle bridge across I-5 because he hadn't heard about them. 7. I voted for the increase in taxes for Metro just so you wouldn't take away bus service from 5th Ave NE. I will think twice before voting for any tax increase for SDOT or Metro in the future since I'm loosing bus service. Thank you for taking the time to read my feedback about the changing bus routes in Maple Leaf. I realize that I come across as very frustrated, but hopefully by writing to you there will be a reconsideration in the plans for bus service in the Maple Leaf Neighborhood. Thank you, Ann Testroet

171	Jun 1, 2015 10:13 PM	<p>Hello,I am writing about Metro's new alternative for service once University Link opens. Overall, I am in favor of it as I was alternative 1 before. I filled out the survey but wanted to write a letter as well. Two major points stick out:First, the through-route between the 48 and 67 was broken. This is*very* disappointing because the 48/67 pairing was one of the best things about Alt 1 for the Central District. I understand that the 48 is difficult to deal with given the bottleneck at Montlake. However, the current proposal means that we lose access to all north-side destinations like Roosevelt and Green Lake without a transfer in what will become the heavily-congested area of Pacific Street. If the through-route can't be kept, please at least make the turnaround closer to 65th until Roosevelt Station opens. The 48 in the current proposal would be fine...if Roosevelt and Northgate Stations were open. I was very happy to see a straight shot up to Northgate in the original Alt 1; please give that back to us, or at least let us keep going to Roosevelt for the time being.Second, please put the 11 back to the way it is now. I know that Seattle DOT really wants a Madison water-to-water route but rerouting the 11 and deleting the 43 means that the Central District loses access to Pike/Pine's corridor and the Convention Center without either going via the very-congested downtown transfer point, walking up the steep hill after getting off the 545, or a three-bus route when coming from 23rd. David Lawson wrote a very good proposal in Seattle Transit Blog(http://seattletransitblog.com/2015/05/14/how-metro-should-revise-alt-3/) that I think strikes a great compromise and that has gotten a lot of favorable comments. If and when Madison BRT becomes a reality, it can be the water-to-water route but please leave the 11 alone for now.Finally, one minor point: The 8, as proposed, turns around at 23rd and Jackson. It would be awesome if the 8 could serve Garfield High School, like was proposed back during the service cut days. That would give the western Central District direct access to another cross-town route and students would have more service choices besides the overloaded 48.I really don't envy your task in these proposals and thank you for all the work you do.Sincerely,Wes Mills ***</p>
172	Jun 1, 2015 10:17 PM	<p>Hello,I live by the 26 bus stop at 35th and Wallingford and it appears that you will be deleting this stop. This is the only bus stop in this area and a lot of people use this stop including elderly. We would really appreciate if you didn't get rid of the stop. What is the best way for the people that live around this stop to voice their opinion so you don't get a billion emails. That online survey is ridiculous and takes too much time and half the time times out before I can finish commenting. The removal of this stop will cause a lot of individuals trouble getting to work in South Lake Union and downtown.Heather</p>
173	Jun 1, 2015 10:23 PM	<p>Hi DeAnna, Tristan and Jeremy,</p> <p>As part of our Green Lake In Motion project, I went to the Hearthstone Senior Living building to try and encourage the residents to participate in our project. Many questions and comments came up about the proposed service changes associated with the opening of U-Link next year.</p> <p>I encouraged the residents to give feedback online and also said I would pass along what I heard to you. There were about 12-15 attendees.</p> <p>I heard 3 specific comments and have copied Donna Leggett who work at the Hearthstone to make sure I captured what people said.</p> <p>1) The distance to the new 26X routing near their building is too far to walk. The residents currently have a pair of stops right at the back of their building and they expressed concern about walking the extra distance with mobility issues. All agreed with this comment.</p> <p>2) They are concerned that the 16 no longer goes to the north end of the mall/target/banks and doesn't serve the medical offices (polyclinic, northwest hospital, etc). They have</p>

No.	Date	Content
		<p>concerns about walking from the transit center to the mall. All agreed with this comment.</p> <p>3) There was a request to bring the bus onto the Northgate mall property to get people closer to the entrance.</p> <p>Donna – Please let me know if I missed anything.</p> <p>Sincerely, Sunny</p> <p>Sunny Knott, Transportation Planner Market Development Group King County Metro Transit</p>
174	Jun 1, 2015 10:27 PM	<p>Hi DeAnna,I wanted to make sure you saw this response from Charlotte about ULink connections I hope the Alternative Services outreach (and all your other many projects) are going well!SaraFrom: Charlotte H. Smith [mailto:***] Sent: Friday, May 22, 2015 8:43 PMTo: Colling, SaraSubject: Re: Laurelhurst Bus Rt. 25 suggestions/wish listSara,Thanks for your response (and sorry for my delayed response). The closest stop for Route 75 would require > 1.5 miles of walking up some very steep hills. This is impractical in business attire and carrying all of my medical supplies/records. It would also add approximately 25-30 minutes (in addition to the actual bus ride) to my daily commute (not to mention walking in rain or other adverse weather conditions). All of this makes the #75 impossible (based upon time demands of my work schedule and need to pick up my children from their bus stop after school). This is why I really miss the previous schedule for the #25. Thanks again for receiving my feedback and all of your work.Charlotte Charlotte H. Smith MD -----Original Message-----From: Colling, Sara <Sara.Colling@kingcounty.gov>To: chsmithmd <***>Sent: Tue, Mar 24, 2015 3:29 pmSubject: RE: Laurelhurst Bus Rt. 25 suggestions/wish listHi Charlotte, Thanks very much for your feedback. We will share your comment that Route 25 service should be more frequent and should run on weekends. You may have seen within Alternative 1 that Route 75 would run every 15 minutes on Sand Point Way. Would you be willing to go to Sand Point Way for more frequent service? Metro and Sound Transit want to create a system that will get a majority of people where they want to go. We documented your feedback for planners to take into consideration and we will share a third set of changes in May. Thanks, Sara CollingCommunity Relations ConsultantKing County Department of Transportation(206) 477-0504 From: Charlotte H. Smith [mailto:***] Sent: Saturday, March 21, 2015 5:04 PMTo: Martin, DeAnnaSubject: Laurelhurst Bus Rt. 25 suggestions/wish list Greetings,Thank you for the opportunity to comment on future bus route possibilities for the UW Laurelhurst neighborhood. I live in Laurelhurst and work both at UW and downtown. I would take the #25 to work every day if it were possible. Right now the frequency (hourly) of the route precludes my doing this. The bus schedule doesn't allow me to get to & from work as required by my job and still be able to meet my children when their school bus drops them off. In addition, I need to be able to take the bus on weekends (as I'm a physician who frequently works on weekends) but this hasn't been possible since the weekend routes were eliminated. When we first moved to the neighborhood, the #25 ran every 30 minutes during the daytime and also had Saturday/Sunday service. I wish that this frequency could be restored. I read on your website that, although changes are being made to improve the #25 schedule reliability, no increase in frequency or restoration of weekends is planned. Given the new UW station becoming available in 2016, this seems very short sighted. If there were increased frequency of the #25, I believe that many in the Laurelhurst neighborhood would use the #25 on a daily basis, especially if it ties into the new UW rail station. If the UW station is going to connect to First Hill and downtown, maybe consideration could be given to shortening the #25 route (to connect to the UW</p>

No.	Date	Content
		<p>station and other key routes with more frequent service running to & from Laurelhurst/Children's Hospital?) Given the 'Montlake Mess' (that will be worsening with the 520 bridge changes), anything that gets Laurelhurst residents out of their cars and using transit would be enormously helpful. Thank you for all of the great work that you are doing. The UW, Northgate and other stations are all exciting and wonderful projects that I anticipate using in the future. We moved to Seattle from Austin Texas 2 years ago and I am very impressed by the Seattle transit system. BTW, Austin frequently looks to Seattle as a model transportation system that it aspires to become someday. Unfortunately, they are late to the game and it is always more difficult/expensive to develop comprehensive transit systems as time goes by. We are very fortunate to have such a great system in Seattle as well as an agency that solicits the rider's opinions as it moves forward. Thank you so much for consideration of these comments.Sincerely, Charlotte H. Smith MD</p>
175	Jun 1, 2015 10:28 PM	<p>Ms. Martin Below are my comments and suggestions regarding the proposed changes to Route 16.Concerns:The proposed east-west route on 65th and the connection to downtown via the Meridian-Kirkwood-Woodlawn “bottleneck” and Fremont-Dexter route is poorly conceived, inefficient, unreliable, and degrades the residential quality of our neighborhoods. Please consider the following:1. The intended goal of linking neighborhoods and parks with light rail (via 65th route) is only partially achieved (i.e., route east to Sand Point is good idea), but fails in providing direct accessibility west and south to Green Lake and Lower Woodland parks, arguably the most popular recreation facilities in the city (e.g., walking, running, swimming, ball fields, golf, tennis, rowing, and picnic). The proposed route south of Ravenna on Woodlawn, Meridian, Kirkwood veers away and uphill from the parks which reduces walkability, especially for anyone carrying sports gear or a picnic. Because there is not direct bus service, parking in east Green Lake and Lower Woodland parks is overloaded and spills into the adjoining side streets increasing congestion and aggravating parking for residents. 2. Routing the bus through the Woodlawn, Meridian, Kirkwood neighborhood is a traffic “bottleneck” because these residential streets are too narrow and are not designed to support safe two-way traffic and high-frequency transit with large-heavy-buses. During peak hours it will be very difficult to maintain schedules and uniform traffic flow because the narrow corridor (i.e., 24-ft wide on Meridian, Kirkwood) only allows one-way traffic. Buses facing oncoming traffic must stop, or pull out at an intersection, to allow safe two-way passage. This problem will only get worse with the proposed 7-15 service frequency during peak hours. Today’s transit (bus size and frequency) has simply out-grown the capacity of our little street.3. Elimination of the Aurora portion of the route effectively eliminates efficient and fast connectivity to downtown for the southeast Greenlake/TangleTown neighborhood. Travel time for downtown commutes will be increased due to the slower route on Dexter or commuters with need to transfer to the 26X; wasting time and losing the one-route commute.4. The proposed route and increase in transit frequency will exacerbate the ongoing problems concerning excessive noise, traffic congestion, house shaking, and road safety in the Woodlawn, Meridian, Kirkwood neighborhood. Last December 72 members of this neighborhood submitted a signed a petition asking Metro to consider options to reduce bus impacts. Clearly, Metro has not listened to neighborhood concerns and has ignored public input. Solution:Change the proposed routes 16 and 26 as follows: a) connect the proposed 65th and Ravenna segment of Route 16 to Fremont and Dexter via East Green Lake Way and Stone Way, and b) connect the proposed Route 26X from Ravenna to downtown via Latona, 56th, Merridan, and Wallingford streets. This would:• link the transit network (i.e., Route 16) to the parks on level-wide roads that are suited for bus transit and easy/safe access to parks, • provide efficient, reliable, and faster connectivity to downtown for the majority of commuters in the highest density areas including Southeast Greenlake/TangleTown and Wallinford, and • reduce safety hazards in the “bottleneck” and greatly improve the residential quality of the Woodlawn, Meridian, Kirkwood neighborhoods.Thank you for your interest and considerationDouglas Martin</p>

176	Jun 1, 2015 10:29 PM	<p>I must say, "changes" is extremely vague.</p> <p>Why aren't planned eliminations of surface transit modes explained?</p> <p>Are eliminations of surface choices intended to juice ST ridership numbers, which is extremely important to ST mucky-mucks?</p> <p>Thank you.</p>
177	Jun 1, 2015 10:30 PM	<p>Hello Deanna,</p> <p>I noticed that the metro system is proposing a deletion of the 35th AVE and Wallingford Ave stops along the 26 bus route. I think that the metro system is unaware of how this is going prohibitively affect the Wallingford community. Many, many people utilize these stops and new apartment buildings are under construction in the neighborhood which will bring in new users. I think the city is being short sighted in their plans to remove such stops from the 26 bus route. Please consider revising such plans.</p> <p>Best, Heather</p>
178	Jun 1, 2015 10:37 PM	<p>I reviewed the proposed route changes for buses 16, 26, 31 and 32. Under the proposed changes, those of us who live South of 40th Street in the neighborhood of Wallingford Ave. will no longer have access to a direct bus to downtown. We need to walk to Stone Way to catch Bus 16 or take 31/32/ to Fremont and switch to 16 or 28. I hope you will keep 26 on Wallingford Ave. Thank you. Maryam Borghey ----- Forwarded Message -----From: Maryam Borghey <***>To: "deanna.martin@kingcounty.gov" <deanna.martin@kingcounty.gov> Sent: Wednesday, May 27, 2015 10:14 PMSubject: Bus Route 26- Change of Stops on Wallingford Ave. and 35th StreetDear Deanna: Today, I read about the proposed change of bus stops for Route 26 along Wallingford Ave. and 35th Street. Does the proposed changes mean that the Bus Route 26 will no longer serve all Wallingford Ave. and all 35th Street? I live on Wallingford Avenue/37th Street. If bus 26 no longer stops anywhere on Wallingford Ave. then how can I take the bus to downtown for work and return home? The stops on Wallingford Ave. are extremely convenient for residents who live within 3-4 blocks of the stops and commute downtown for work. If the stops are closed how can we go downtown for work or commute to other locations? the bus route 16 on Stone Way/40th is not a convenient stop for those living East of Wallingford Ave. Also, please explain what the opening of the Capitol Hill light rail has to do with bus 26 route in Wallingford and our commute to downtown, Fremont, etc.? Please keep route 26 on Wallingford Ave. Thank you.Maryam Borghey I hope you will reconsider the closure of all stops on Wallingford Ave.</p>
179	Jun 2, 2015 6:58 PM	<p>Hi! METRO Staff!</p> <p>I need to protest the eliminating of the METRO Route 72 in the North East area of Seattle!</p> <p>Virginia Gunby ***</p>
180	Jun 2, 2015 7:01 PM	<p>Deanna,I don't understand what the green boxes mean in the tables summarizing the planned/proposed changes. For example, the #25 has empty green boxes. What does that mean? Many of us have provided feedback related to that route. It was cut severely 2 years ago so that it only runs M-F and about once/hour. There is no other bus access within >1.5 miles and many of us relied upon this route to get to work/class at UW or downtown. The severe cut in service frequency & lack of Sat./Sun. service has forced most of us into our cars because it is too infrequent to be functional.Given the new U-Link connection at</p>

No.	Date	Content
		<p>UW, if there were going to be cuts, wouldn't it make more sense to increase the frequency of connections to the U-Link and cut the length of the route (so it doesn't go all the way downtown?) if the #25 were more frequent and ran on weekends, connecting to the U-Link (allowing easy access to downtown, airport, etc., I would use the route every day. I feel certain others in Laurelhurst feel the same way. Also, if this isn't done, it will discourage all of us using the U-link to go downtown, airport, etc. because there is no parking at UW. Charlotte H. Smith M.D.</p>
<p>181</p>	<p>Jun 2, 2015 10:04 PM</p>	<p>From: Loy S [mailto:***] Sent: Tuesday, June 02, 2015 11:55 AM To: Martin, DeAnna; Cc: ***, ***, Dennis Galvin; Catherine Weatbrook; Jody Grage; joewert; ***, Tom Friedman; ***, ***, Rasmussen, Tom; Phillips, Larry Cc: John Otto; Peterson, Cassandra A; kris conway; Property Manager</p> <p>Subject: Fwd: BUS SERVICE CHANGES IN BALLARD</p> <p>Hello,</p> <p>I am writing on behalf of the Crown Hill Business Association to further support the specific comments of the Ballard District Council (message below) and the request to be included in your efforts to provide meaningful input to changes in service that impact our neighborhoods.</p> <p>Among other things, these organizations provide a venue for sharing information with business owners and concerned citizens in our communities; we make time on our agendas, invite the appropriate representatives to our meetings, and promote open discussion. Additionally, we share information on our website and other social media sites.</p> <p>This is a request to include us early on in your communication plans and notices of upcoming meetings so that we may keep our members informed as early as possible, thereby promoting participation and allowing time for meaningful discussion and comment. In return, we commit to sharing feedback from those discussions with the appropriate leadership/representatives.</p> <p>Sincerely, Loy Suderman, President Crown Hill Business Association</p>
<p>182</p>	<p>Jun 3, 2015 6:16 PM</p>	<p>One of the big problems for people when the Rail lines were added to the South was that busses were eliminated making it difficult for people to get to the transit stations. I am very worried about North Capital Hill having the same problem. The Link Light Rail has no impact on our access to the city. The 25 used to be wonderful with frequent stops and it ran up to Roanoke and alternated with a run on Fuhrman. That ended and then the 25 was eliminated first on Sundays and then on weekends and often ran only every hour. The 49 has been our main bus to get to downtown, Capital Hill or to the University District where you can transfer to other busses. Even with that they eliminated stops. We were lucky as the bus stops at Miller both ways but some folks further North have longer distances to walk. In the AM and PM the bus is full of students from Seattle Central and work sites. The 43 or 48 is not convenient for us and we never use it so I can't speak for people there. It is important to continue the busses. They are more efficient than trolleys or rail. Thank you, Nancy Wessenberg ***</p>
<p>183</p>	<p>Jun 3, 2015 6:18 PM</p>	<p>I realize ridership is low but it used to be better when it came up Delmar – there were 2 routes – one on Furman and the other up by Roanoke Park. For those people who live on No. Capital Hill – it provided excellent service downtown and was much faster than the 49.</p>

No.	Date	Content
		<p>It also went down Stewart which made for an easier access to streets north of Stewart. I especially enjoyed the fast transit to town. Ridership declined with reduction in service.</p> <p>Again, most of us have no use for the Link.</p> <p>Nancy Wessenberg</p>
184	Jun 3, 2015 9:42 PM	<p>Deanna -- During dinner with a neighbor this last weekend we realized that ending Route 71 will be a real hardship for her. Here's the story: She's single, 70 years of age and requires a cane for stability to walk distances. She's been living in her house here on the 6200 block of 30th Ave NE for more than 30 years. She now uses the #71, a half block distant, to take her to and from work at the University Bookstore. She works retail hours, including well into the evening. Her financial situation is such that she works because she needs the income. The loss of that route come March means that she may have to stop working. Which, in turn, jeopardizes her ability to stay in her home. The distance she will need to walk to get to the #65 at both ends of her commute is simply too great. Killing off the #71 is premature at this point. When you can shuttle people via NE 65th St to light rail at Roosevelt 6 years from now, that will be a different story. As it stands the #65 is a poor substitute. Have you got a solution for her? Sincerely, Blake Rambach</p>
185	Jun 3, 2015 9:47 PM	<p>Jeremy (and a cc to Maria),</p> <p>Reg Newbeck asked me to send you links to two route Google Maps we came up with after you two talked yesterday.</p> <p>The first is based upon Reg's latest proposal, but 12 is modified to take into account the concern you expressed yesterday over adequate bus service for western Madison.</p> <p>The second also starts with Reg's proposal, but is modified to incorporate your idea of an 11 route that passes Capitol Hill Station and continues on to Pine/Pike.</p> <p>Current 11, Revised 12, 11X:</p> <ul style="list-style-type: none"> • A modification intended to address Jeremy Fichter's concern over adequate bus service for western Madison. • Keep the 11 as-is. • 12 revised to go past CHS, then south on Broadway, then to west Madison. • Add an 11X express water-to-water on Madison. <p>11CHS, Current 12, 11X:</p> <ul style="list-style-type: none"> • A modification based upon one of the ideas Jeremy Fichter mentioned to Reg yesterday: • Keep 11 heading to Pine/Pike, but use Thomas/John/Olive/Bellevue as route in order to go by the light rail's Capitol Hill Station. • Keep 12 on its current wired route: 19th to Broadway. Not the Pine/Pike destination Metro proposed for 12 in May. • Add an 11X express water-to-water on Madison. <p>Reg, Bob Edmiston, Lindy Wishard and I are going to talk them over tonight.</p> <p>No concrete proposal yet. We just wanted to let you know that we're working on it.</p> <p>Thanks, Jim</p>
186	Jun 3, 2015 9:49 PM	<p>[5/14/15] Hi, DeAnna, Thanks for your response. It would be downtown or the Greenlake area. Of course one issue now is that that bus is often late. Since it's happened over the</p>

No.	Date	Content
		<p>years, it doesn't seem to be a driver or specific wheelchair issue. And my office is the address in my signature line. It's actually in Mariners Square at N. 34th & Burke Ave N. When I take the bus, I am usually going from the Puget Ridge area of West Seattle to my office. I'll add that I appreciate that we have the 125 and that if I have enough time and energy (and if the field I have to cross is not too muddy), I can walk the 1/2 mile to the 120.</p> <p>[5/12/15] Dear Ms. Martin:>> Although I was delighted to hear about the increased frequency of service on some routes, one change really dismays me. We will lose service at the N.35th St & Wallingford Ave stop. I am a nurse practitioner, and I have some low-income clients with disabilities who use that stop. When I take the bus, I also use it, as I have a disability and usually can't walk all the way to 40th St.>> I started to fill out the survey, but there was no way to report the above kind of information. Since I don't live in the Wallingford area, few of the items applied to me.>> Thank-you for considering my comments.>> Sincerely,>> Kathy Wilmering>>> --> Kathy Wilmering, MSW ARNP BC> SeaChange Psychotherapy Services Inc> 1900 N Northlake Way Ste 127> Seattle WA 98103-9051> 206-632-9522> www.kwilmering.com>--Kathy Wilmering, MSW ARNP BC SeaChange Psychotherapy Services Inc***</p>
187	Jun 5, 2015 7:05 PM	<p>Deannal apologize for my input being a few days late. I only learned of the proposed changes to Route 12 yesterday. I am very concerned and distressed regarding the route change proposed for the #12 bus - taking it off of Madison Avenue. A Seattle/Kig County taxpayer for 41 years, for over 38 years I have taken that bus from my home on Capitol Hill (formerly 18th Ave E & E Roy, now 16th Ave E & E Highland) to/from my employment in the south end of downtown. And for the past 3 years my son has taken it to/from O'Dea high school on First Hill. The proposed change provides for more "nighttime" frequency, but eliminates direct service from Capitol Hill to Seattle University, First Hill hospitals, O'Dea high school and central and south downtown. The proposed route change will put us both in a car for several trips a day. I have watched in amusement as Metro's financial projections change every month and have doubts about the quality of that planning. And now wonder about the planning that went into this proposed elimination of direct service from Capitol Hill to all those dense areas I mentioned before. I voted for the the "emergency" city-only funding of bus routes. And now am hoping to avoid the elimination of my bus service. Should that occur, I can assure you that I will never again vote for any such funding. Please do not change the route of the #12 bus. Thank you. Bill Wolak</p>
188	Jun 12, 2015 7:38 PM	<p>Please don't delete routes and decrease service to communities that rely on it. I take the 242 between my office in Redmond and my home in Northgate, after moving from territory served by the always standing-room-only 566 and 567. When you delete routes, there is an overreliance on the buses that take people to those hub stations, creating a ripple effect of crowding and delays. And without increasing coach sizes, you're right back to taking seats away from 10-20 people in lurching, stop-and-go traffic. New routes and larger coaches ease congestion. Removing routes ruins people's commutes.</p> <p>Thank you,</p> <p>Brick George Seattle, WA</p>
189	Jun 12, 2015 7:41 PM	<p>To Whom It May Concern: It seems to make absolutely no sense that after 7pm, all three major bus routes running from downtown to the U District and NE Seattle take Fairview/Eastlake instead of I-5. The transit ramp is still open, why not maintain at least one express line to U District? It's simply ridiculous that hoards of commuters and students must endure a string of stops that maybe release 10-15 passengers total between Denny and Campus. This seemingly adds up to 20 needless extra minutes to commutes that may already be miserable enough due to hot, crowded conditions and an often late vehicle. Is there something I'm not informed of here? Why is it necessary to run some of the most</p>

No.	Date	Content
		<p>heavily-used routes in Seattle through a neighborhood (Eastlake) that is already served by two other easily accessible lines (66, 70)? Apologies if this is not the proper forum in which to address this dissatisfaction -- just voicing my opinion over an issue that I'm sure has already been raised by many other Metro users.Sincerely,Alex Hartway</p>
190	Jun 13, 2015 12:01 AM	<p>Lewis is concerned about lack of weekend service on the proposed Route 73. While he's appreciative that this route would continue to connect him to the U District and downtown via Link during the weekdays, it is not an adequate replacement for the service his neighborhood has today. He lives at 15th Ave NE and 135th. We talked about his options for getting down to Wallingford and 45th on the weekends where he visits family and friends. He could transfer to the 26 at Northgate to get there. He does not like transferring. There is a senior housing facility called the Brookdale of Northgate at 120th on 15th Ave NE that will also be impacted by this proposal. It's too long for them to walk to Northgate. Transfers also put a burden on him and his mobility-impaired neighbors using transit for all their activities, including grocery shopping. He feels they are paying to not have their service changed because we've approved Prop 1 and it was promised that his service wouldn't be cut.</p>
191	Jun 17, 2015 10:30 PM	<p>Her son helped her go on the internet to comment, but I was too late too late.</p> <p>Today she can catch the 16 right in front of her house and it gets her to the grocery store in Green Lake at 70th and Woodlawn. For her to get to the coop, she thinks she would have to go over to the transit center, take a bus to the U District, then transfer to the new 16.</p> <p>She lives at N 107th and Meridian. She's talked to people at the bus stop who didn't realize there was going to be a change. She sees a lot of students use this route, too. This will hurt a lot of people. The 16 on Woodlawn also serves the Hearthstone. They would be affected. It seems like a lot of people would be affected by this.</p> <p>She was unaware of the new routing proposed for Route 26X. This would work okay for her, but would add the inconvenience of a transfer or walking really far to 92nd to catch the southbound 26. She was glad to hear this is an option.</p> <p>She suggests that shelters be put at 92nd because it really needs it, especially with all the college students using the bus service there.</p>
192	Jul 1, 2015 8:52 PM	<p>Please don't change the 540 route and take away south Kirkland park and ride from its route. There are many medical workers, doctors, nurses pharmacists that take this route from the south Kirkland park and ride to UW. Students, researchers also take this bus from south Kirkland park and ride to the UW. I don't understand why you would take it from a newly refurbished park and ride and give it to Houghton park and ride. There are so many people that ride the 540 from south Kirkland park and ride to UW. The loss of 540 will be a really devastating one! Please either replace a UW direct route or do not remove south Kirkland park and ride from 540!!!</p>
193	Jul 1, 2015 8:56 PM	<p>To Whom It May Concern: It seems to make absolutely no sense that after 7pm, all three major bus routes running from downtown to the U District and NE Seattle take Fairview/Eastlake instead of I-5. 		<p>what the Metro Decides someone will be unhappy.</p> <p>Since making changes and potential suggestions would be based off of ridership data, population in specific areas and traffic patterns I would be happy to take a look at data and try to have a positive discussion with you and everyone working on the route changes.</p> <p>Thanks again!</p> <p>Happy July 4th!</p> <p>-Josh</p> <p>Thanks Joshua F. Cohen, CPA ***</p>
<p>198</p>	<p>Jul 13, 2015 10:47 PM</p>	<p>Ms. Martin,</p> <p>I am opposed to the proposed changes to the Route 11. The changes would eliminate the direct link to downtown Seattle and the East Madison link to grocery stores for Madison Park residents. The changes would increase commute times to say the least. I use metro for all my transportation and not all people in Madison Park have access to a car which it seems Metro is assuming in doing these changes. The message from Metro seems to be if you don't like the service just drive. Our tax dollars are paying for these services, did Metro forget that you work for us?</p> <p>Kerry Phillips ***</p> <p>Sent from my iPad</p>
<p>199</p>	<p>Jul 13, 2015 10:48 PM</p>	<p>Dear Ms. Martin,I would like to express my thoughts -- rather, plea to make a revision -- to a particular aspect of the latest Link Connections restructure proposal. Overall the restructure will be a huge positive for Seattle. I was fully in favor of the original Alternative 1, which was bold and thought-provoking. I attended a public outreach session and made comments in favor of Alt. 1 via a survey.But when the most recent proposal was released, I was disappointed how scaled back the changes were to Capitol Hill. Even more disappointing was the scaling back of evening and weekend service improvements, especially with the 8 between Capitol Hill and Seattle Center, where I live and work. 30 minute frequency makes the 8 not a frequent route, according to Jarrett Walker, of whom I am an avid fan, and is a regular consultant for KC Metro: http://www.humantransit.org/2011/12/how-frequent-is-freedom.html. I often work late, and I can't rely on the 8 in the evening when it drops to 30 minute frequencies. The same applies for Sundays, when the 8 is just not a viable means of transportation since I can't rely on it being there when I need it.I know the comment period has closed. I did express my thoughts through the most recent Link Connections survey. But after seeing yet another 8pm crush loaded 8 pass by on Denny Way last night, I feel the need to speak out again, in a more personal manner. The proposal for the 8, as it stands, is just not acceptable for the needs of the neighborhoods it connects.The 8 is the only direct connection between the two fastest growing neighborhoods in Seattle. It currently carries more riders than other routes which will receive better frequencies and spans of service in the restructure. For example, the 10 to Volunteer Park has only half the weekday ridership of the current 8 route (10316 vs 4708) and less than a third the Sunday ridership (4025 vs 1222) according to Metro's own literature: http://metro.kingcounty.gov/programs-projects/link-connections/pdf/current-routes.pdf, yet it</p>

No.	Date	Content
		<p>is slated to receive 15 minute evening and Sunday service. Even if you take into consideration the 8 will split in half, the majority of ridership is on the Denny Way / Madison half of the route, so ridership alone on this corridor justifies more evening and weekend service. With the current strong demand for service on this corridor, and with the explosive growth on both Capitol Hill and in SLU, with thousands of new housing units added every year, the current proposal is preposterous. I hope your planners are able to take this into consideration when publishing a final proposal for the KC Council to approve. Evening and Weekend service are essential to a high-quality transit system and a modern urban fabric. Thank you, Gabe ***</p>
200	Jul 13, 2015 10:51 PM	<p>[6/24/15] Thank you, DeAnna, for your quick response. Route 26 looks like an option. My only concern is that it only comes every 30 minutes vs. every 15 minutes. Please pass this comment on as well. Thanks, Patti</p> <p>[6/23/15] Dear Ms. Martin, I have heard rumors that bus route #16 will no longer travel on Aurora to get to downtown from Green Lake, instead traveling an arduous route through Fremont and along Lake Union. I live at Green Lake and the #16 is my route to get to downtown. Adding 20-30 minutes to my commute sounds awful. I am writing to ask that this decision be seriously reconsidered. Thank you, Patti Pritchard</p>
201	Jul 13, 2015 10:54 PM	<p>[7/12/15] Dear Deanna Thank you for the detailed reply to my email regarding metro route 26. The proposal is to remove from lower Wallingford the 26--a bus that currently takes us downtown--and replace it with a bus that will necessitate a transfer for downtown commuters. Ironically, the proposed 31/32 will travel more often--every 15 minutes in both directions on Wallingford Avenue, and when one factors in two-way travel, this means a bus rumbling by every 7 minutes---and yet nothing that carries riders downtown??? The construction cranes bringing new, dense housing to lower Wallingford are evident to all. We are currently struggling to absorb the impacts of a huge population growth. Many of these new Wallingford-ites will have downtown jobs. Requiring them to transfer will mean fewer will choose a bus ride to their jobs. Instead, they will clog the roads with their cars---one more neighborhood headache the loss of the 26 will create. I simply don't believe those of us in lower Wallingford will see improvements with the new routes. To the contrary, we are losing service. But we will gain increased noise from the frequent run of the 31/32 which won't take us downtown like our current bus, and we will add more auto traffic. I hope you can understand my frustration with this proposal. And honestly, if you eliminate the 26, I'd hope the proposed 31/32 be eliminated, as well. I'd rather have a quieter street and walk the half mile to a direct downtown bus than deal with the hassle of not-always-reliable transferring. I hope this plan will be reconsidered. Thank you again for your response. Sincerely, Haley Land</p> <p>[5/30/15] Dear Deanna, >> I'm a loyal and regular route 26 rider. The changes being proposed to my route--if I understand them--will harm the quality and functionality of lower Wallingford. Moreover, with the explosion of housing under construction on 35th, the demand for a convenient, direct, non-transfer downtown route will only increase over the current demand. >> I know this cannot be your intention, but it seems like this is a proposal for unlivability. More cars, tighter parking and more cynical griping about the indifference of the public sector. >> This is a great neighborhood. A big reason why is our local 26 service. >> Thank you. I hope you will reconsider and send me good news. >> Sincerely > Haley Land > ***</p>
202	Jul 13, 2015 10:57 PM	<p>I plead with you not to drop the bus #16 route on Woodlawn Ave. My husband and I choose to live at Green Lake Village partially because the bus 16 route was located there. We do not have a car and use bus 16 to get to downtown and to the the Northgate Mall. For us it is our major mode of transportation.</p> <p>Cindy and David Ginger ***</p>

203	Jul 13, 2015 11:00 PM	<p>Hello Ms. Martin,I'm a regular bus 16 rider. I live in North Seattle, and take bus 16 to and from my place of work in downtown Seattle. I'm concerned about the proposed route change to the #16 bus route; I currently have a 30-40 minute commute via the existing 16 route. It seems to me that diverting its southbound route through Fremont, and avoiding Aurora, would add a good 15-20 minutes to my daily commute, resulting in a ride that can be up to an hour long.I, and other commuters, rely on route 16 to get downtown in a reasonable amount of time. I ask that you re-consider the route change, as this will put a substantial time burden on commuters living in North Seattle. Thank you for your time,-- Ann ***</p>
204	Jul 13, 2015 11:02 PM	<p>-----Original Message----- From: *** Sent: Monday, June 22, 2015 1:25 PM To: Martin, DeAnna Subject: #16 bus route</p> <p>Hello. My name is Ryan Casey and I am a UW law student who lives in Greenlake. I ride the #16 bus often when I go downtown, and I'm troubled to learn that the route may be discontinued. I understand the #26 bus exists too, but that the frequency of this bus would decrease significantly.</p> <p>This would be an unfortunate and negative disruption for me and countless others, and I hope metro will re-consider.</p> <p>Thank you, Ryan Casey Sent from my iPhone</p>
205	Jul 13, 2015 11:03 PM	<p>The proposed service reduction of Route 16 and elimination of service to Northgate Mall and to UW Medicine will be a serious blow to my wife and me, who are senior citizens living at Green Lake and use the bus frequently. We also use this particular route to go downtown and attend shows and movies. We were not aware of these cuts until today and thus missed the formal comment period. Please reconsider the service changes to Route #16. It will be a hardship for many of us retirees and seniors and others living on low and fixed incomes. The nearest station for the coming Light Link is at Roosevelt and 65th which is quite far for many of us to traverse especially in bad weather and late at night. Thank you for your consideration. Sincerely Munir Cheryan***</p>
206	Jul 13, 2015 11:06 PM	<p>Hello Deanna,</p> <p>I recently moved to Seattle and must say this is a great city! With beautiful scenery, several activities and a great culture it's no wonder Seattle is one of the fastest growing cities in the states. With that being said, I have heavily rely on public transportation since moving here particularly Bus #16. I live in Green Lake and it's my main method of transportation whether to go to/from work, get fresh products from the Pike Market or buy some house goods from North Gate mall.</p> <p>With the cancellation of these routes several people such as myself will be inconvenienced and severely hindered. I thought a major cities such as Seattle had great public transportation and from what I hear it once did. Please help us improve our public transportation not diminish it. By keeping the routes, there will be less people using automobiles which in turn will not only improve traffic in the city but help with climate control. Please consider keeping the routes for Bus #16.</p> <p>Thank you and hope you have a great rest of your day!</p>

207	Jul 13, 2015 11:09 PM	<p>Professional man here. Daily rider of route 8. I like alternate 1 that improves travel times to south lake Union from the dense capitol hill where many amazon employees live.</p> <p>Please fix the eight.</p>
208	Jul 13, 2015 11:10 PM	<p>Hello, there. I am writing to say if I understand the proposed changes to route 11 correctly, the new route will prevent easy access from Madison Park to the downtown core and the Pike/Pine corridor, both places that are increasingly difficult and/or expensive to park in. This would be bad news for me and my neighbors... please let me know if there's anything I can do to help keep this from happening. Thanks! Karin-- Karin Snelson***</p>
209	Jul 13, 2015 11:12 PM	<p>Dear Ms. Martin:</p> <p>I heard that the city was considering closing several stops on the 26 bus along Wallingford when the light rail in Capitol Hill opens. I am emailing you to ask you to please NOT close these stops.</p> <p>I depend on this bus route to get to my office down in Pioneer Square. If I had to take the light rail, it would add a substantial amount of time to my commute since getting to the station is not convenient for me. . It would also be very difficult for me to visit my significant other who lives in Belltown without this bus. I would probably have to buy a bike in addition to my monthly pass and hope my bike does not get stolen. I would want to move out of Wallingford but I know I would nto be able to afford to live in areas like Capitol Hill that have better transportation servicing</p> <p>Please do not close the stops for bust 26 along Wallingford! I depend on this bus!</p> <p>Thank you, Dana Lee</p>
210	Jul 13, 2015 11:22 PM	<p>Hi Deanna,</p> <p>I was out of town during much of the comment period, but I was stunned to see Bus 43 omitted.</p> <p>Anyone living between 12th Ave and 19th Ave relies on that bus to get to North Downtown and the U-District. Since Capitol Hill is the densest neighborhood in the PNW that's a LOT of people. As you know we have standing-only buses quite frequently as it is.</p> <p>Now, if there was a light rail station on 15th Ave or 19th Ave it would be one thing (Capitol Hill should have more than one)... if the route terminated at 45th & Brooklyn in 2016 it would be another thing. However, this is not the case. Bus 43 is not duplication-- at least not yet. It's vitally needed.</p> <p>Thanks. Erik</p>
211	Jul 14, 2015 10:19 PM	<p>Hi please keep the route 71 because that is the only bus that takes me to and from work from were I live by Greenlake.Thanks. ***</p>

No.	Date	Content
212	Jul 14, 2015 10:20 PM	<p>Dear Ms. Martin (Metro Community Relations Planner)</p> <p>My father, Paul Easton (age 98), is a long-time resident of University House at 44th & Stone Way, and this e-mail is on his behalf. I commute from Canada (Vancouver area) via Quick Shuttle (a private cross-border carrier) between Seattle & Vancouver, to support his & our family's needs.</p> <p>My connection from the Seattle Center meeting with Quick Shuttle has always been reasonably convenient to #16 line, though it is a several block walk (including luggage) to the current northbound stop at the Pink Elephant car wash. I also use this #16 line for Downtown needs. This is a very heavily used bus line - for good reasons, based on its most useful route from West Seattle - Downtown - Seattle Center - Wallingford - Northgate.</p> <p>Based on what I understand about the proposed changes for June 2016 to move it over to Fremont and via Dexter, rather than Aurora Ave, this would leave a major gap in service to this current route covering the Aurora corridor - the most major N/S corridor in Seattle other than the freeway! The extra time issue would also be significant, adding much unnecessary time to a more direct and well-used route.</p> <p>The increasing density of the Wallingford neighborhood (2 more huge apt. complexes currently rising within 6 blocks) and the majority of downtown & Northgate commuters and seniors needing effective transit services (a prominent public priority in Seattle), make the need for this current route even greater!</p> <p>Other route additions or adjustments to address the needs of the Fremont & Dexter corridors must be made - but not at the expense of the current highly used and effective #16 Route!</p> <p>Thank you very much for your re-consideration of the proposed changes to the #16 line.</p> <p>Paul B. Easton and Christine Collison</p>
213	Jul 14, 2015 10:23 PM	<p>RE: Proposed deletions of 71-72-73 bus service I am writing to express concerns about dropping these routes. I was involved the last time these were proposed to be cut (a few years ago). I was happy to find that last time these cuts were not carried out. But I am surprised they are back. And surprised that they are back because of the impending arrival of light rail at Husky Stadium. Husky Stadium is nowhere near these bus routes. These buses make essential connections between the University District and other residential/workplaces within the city limits. These districts will not be served by light rail. For example, my daughter travels on the 72 to high school. Proposed changes mean that she will need to take three buses to get to school (Nathan Hale). I do not believe appropriate concerns for the ways these bus routes are used within NE Seattle are being considered. The University District is an Urban Village. Lake City is an Urban Village. It is simply not acceptable that a route connecting these two centers (the 72) be dropped when these areas are growing rapidly and need connections. Light rail is not doing that. Furthermore, the amount of development in the University District is astonishing, much of it being constructed without parking. We should be EXPANDING bus service to the U District to serve these new residents, not eliminating it. Please reconsider and take a look at the importance of the 71, 72, and 73 to local residents and people who work in the U District. Jim Hanford***</p>
214	Jul 14, 2015 10:24 PM	<p>I wrote just over a year ago and my family attended two comment meetings to protest the planned cuts to the 71-72-73 buses along University Way. I remain dumbfounded that, after winning major new funding, Metro plans to continue with these cuts. How the can city</p>

No.	Date	Content
		<p>radically reduce and practically eliminate service (except for the partial rerouting of the 67) on one of the major NE transportation corridors at time when density in the neighborhood is exploding, much of it with no provisions for parking??? Moreover, the proposed rider alternatives provide no meaningful connections to the north other than to Northgate. There will now be no reasonable connections between the University District and Lake City and the University District and Wedgewood. My (disabled) daughter depends upon the 72 or the 71+65 to reach her public high school (Nathan Hale). In the absence of this service, we are told that she should walk one mile down/up a very steep hill to access the 372. This is not a viable alternative. Many people who live in this neighborhood have selected it because of the transportation options that have , for decades, been available here., both to downtown and to north Seattle. Last year, the proposed deletions were offered with the explanation that the issue was funding. Now that more funding is in place, the reason is the imminent opening of the Husky Stadium light rail station. Light rail service between Husky stadium and downtown in no way compensates for these proposed route deletions. I sincerely hope that Metro will reconsider. Sincerely, Linda Nash ***</p>
215	Jul 14, 2015 10:26 PM	<p>Hi Kevin, We have been working with your staff since March this year and had several meeting with them, telecoms and emails. We have gone through three iterations of Metro plans and have proposed our own for the 11 E Madison. I'm writing to you directly to express my concern about the proposal for the 11 E Madison in March 2016 and you can view my blog post about the proposal here http://madisonvalley.org/news/we-get-faster-service-on-the-11-and-then-it-goes-away.html#disqus_thread. I honestly believe that the proposal to move the 11 to East John/Thomas does not work for the Madison/Pine corridor from 24th Ave East to Broadway. Yes people can transfer or walk 2 to 8 blocks, but I don't believe that Metro can ask the blind, deaf or seniors living in retirement homes along Madison to walk/transfer on East Thomas/John to given limited access to East Madison at 16th via the 12. Yes, people can look for alternatives for the places they frequent on Madison today, but many of these places listed don't have available alternatives like in the case of places or worship! In some cases people will have to drive there cars or take taxis instead of using transit. Yes, I fully understand the desire to get the 11 to go to the Broadway Light Rail station, but that is not a reason to remove continuous service on East Madison. This is even harder to understand given that we will be getting 15 minute bus service this September, only to have the bus moved in March 2016 off of East Madison. We look forward to talking to you and/or your staff to further discuss the alternatives we have proposed for the 11 E Madison. I also ask the latest proposal go through a public discussion period similar to the previous proposals and should be done before it goes to the King County Council. Reg Newbeck***</p>
216	Jul 14, 2015 10:27 PM	<p>Ms. Martin</p> <p>I am one of those voters who supported transit in the recent election. I understand the revisions have been in the works for some time, but I have seen no information on my bus or route until very recently regarding changes to my service, and apparently the period for input has passed. This is upsetting.</p> <p>I am a judge for the King County District Court, and I ride the #12 to work every day. I get on at 19th and Galer and off at 5th and Madison and walk to work at the Courthouse. The revision to the #12 route is definitely far less convenient for me and certainly not a service improvement. This bus is always standing room only into downtown and out of it during the rush hours. I cannot believe there was public support for this change from the users of this bus.</p> <p>I see that the new route will connect with the light rail station on the hill, but that is a frivolous concern given the service that the bus provides. Very few will ride the 12 to</p>

No.	Date	Content
		<p>connect with the Link on their daily commute. The current #12 route is the only one that really serves Capitol Hill and the southern end of downtown. The revision will force me into a two-bus ride and significantly extend my commute time. Furthermore, if the trolley service is maintained, and it seems it will be, why build a completely new trolley system for the John St. route? I don't think this has been well-considered. I am very disappointed, and I know many others who are as well. It it set in stone?</p> <p>Thank you for your attention to this. If there is any way I can have further input and help to change the plan, I would appreciate you letting me know.</p> <p>Art Chapman</p>
217	Jul 14, 2015 10:29 PM	<p>Its been recently brought to my attention the there are possible plans to change Route 11 and no longer have it travel down Madison. If this is true please don't do this. My wife and I both ride the 11 daily to get to and from work, and to get to the Southern Parts of Capitol Hill. Its vital to us and others. Please reconsider moving the 11 bus route.Thanks,-andrew puh1</p>
218	Jul 22, 2015 9:02 PM	<p>Dear DeAnna Martin:</p> <p>I am disabled and use the 71 bus. Please don't change or discontinue the route.</p> <p>Thank you, Mari Rodriguez</p>
219	Jul 22, 2015 9:05 PM	<p>Deanna,</p> <p>I am wondering if any bus service is planned to run on 25th Ave NE to the new Husky station? (I live at 27th Ave NE and NE 65th Street.) I did not see it that information on the website.</p> <p>-- delia</p>
220	Jul 22, 2015 9:14 PM	<p>Hello Ms. Martin,</p> <p>My name is Tara Kearns and I am the Life Enrichment Director at University House Wallingford Retirement Community. We are located right along the #16 bus line on Stone Way and our residents frequent this bus route, whether it's to doctor's appointments, the symphony, or other outings. We are interested in knowing more about the cuts being made and whether or not there is anything we can do to change that. We got your name from a local concerned citizen who is putting the word out about these changes.</p> <p>Would you be willing to come and speak to our community and answer questions at your earliest convenience? If so, here are some dates and times that would work for us and I'm hoping there might be one that works for you!</p> <p>Monday, July 20th @ 7:30 pm Tuesday, July 21st @ 1:30 pm Thursday, July 23rd @ 7:30 pm Wednesday, July 29th @ 10:30 am</p> <p>Thank you very much for your time and I look forward to hearing from you,</p> <p>Tara Kearns Life Enrichment Director</p>

221	Jul 23, 2015 11:02 PM	I understand there is currently a proposed service change that would change the route of the number 11 bus from Madison and 24 Ave E and Broadway.I could go on and on, but flatly, I think it would be an awful idea.Tally my vote in the no column. Sincerely,Chase
222	Jul 23, 2015 11:08 PM	All riders need bus 11 to remain on current route!!! Even the bus drivers have voiced same opinion!
223	Aug 3, 2015 7:46 PM	Dear Honorable Sir/Madam: I am filing this as a complaint letter against King County Metro Transportation We represent the people of Seattle King County and the City of Seattle Central District Community at large: It has been call to our attention that The Bus 11 Madison Street transportation will be pulled off there Madison Route! The public is outrages and cannot afford to see this bus disappear as it is a big part to there survival and and stability! This bus 11 Madison has helped then in keeping a safe lifestyle as it is a "mobile part of this community." At this present time our "Neighborhood is under attack" by all the unwanted development that has transpired, and has not been presented to this community in a proper manner! As it stands now "Our community is being over built on parcels of land that is lessen or too small for their desired projects and/or building plans, "wherein they are far too large and not enough parking has been made available for the good of the public use! And may we add that most these giant building project are 5 to six stories high and are far off the track of keeping a family neighborhoods in tack! We are told: that we can expect 2,000 people more people in this area inside of two years, and may I say that most of them will not be riding bikes as our neighborhood entails more seniors and middle age people. Most of schools are not being used: due to the fact that these developers are building bachelor and one bedroom apartments, not many three bedrooms are in there plans that means disappearance of family housing will not be the works! We plead for you help! We need it now! Buss 1 must stay on tack as the route is set now! We must keep a safe mobile neighborhood as it is now! The bus 11 Madison will set us back and crime will increase we must protect the neighborhood as we have voted for you comments as stated that: you will help and protect the rights of your citizens and keep them free from harm! We are holding YOU to do as you promised us, and we do appreciate you for all the good that you can do for us, by helping to make sure that "Madison Bus 11 stay on Track" for our good environmental needs and we need to support SAFEWAY STORE, TRADERJOES, CO-OP, THE HOSPITALS, THE COMMUNITY BUSINESSES, and we need to stay self-sufficient. Most of all we thank you for keeping us with a good mobile life style. Sincerely, DeCharlene Williams Central Area Chamber of Commerce Executive director (125 memberships strong) Filed in Chamber's citizen complaint log (7/25/15)
224	Aug 5, 2015	Hello Deanna,

No.	Date	Content
	10:18 PM	<p>As a 73 year old Madison Park resident, I want to express my dismay at the proposed changes to the #11 bus route after Sept 2015. I'm sure you are aware that I am among many, many seniors in the Madison Park neighborhood who rely on this bus to get to First Hill for doctor appointments, physical therapy, etc. The changes would require untenable walks to transfer to the next bus to take us to our destination. Please reconsider and take care of your senior citizens!</p> <p>Margaret Carter</p>
225	Aug 5, 2015 10:19 PM	<p>Hi Deanna, I hope you have some influence over proposed changes to the #11 bus route between downtown and Madison Park in the fall of 2015. I am not able to walk easily to other busses to make transfers and like the route that the #11 has had for the past several years, at least. Please keep the route the same! Thanks, Jeanne Hunt</p>
226	Aug 5, 2015 10:25 PM	<p>I was shocked to learn that your agency is proposing to eliminate Metro route #71 effective in 2016. I hadn't gotten this information until last Sunday; this was just after I had gotten my shingles vaccination at the Rite Aid pharmacy on NE 85th and 35th Ave NE, and then took the 71 bus back to my View Ridge neighborhood. I use this route to get so many places both in this neighborhood, the University District, and linking to the Northgate Polyclinic, Swedish Hospital, and on and on.</p> <p>My bus driver gave me the news; I spent hours yesterday on my computer, and my dialup (slow) connection, to try to follow all of the details referenced in the attached file. I couldn't find any good alternative for the extensive services provided to folks in my and surrounding neighborhoods by the #71 route; I can find various partial "fixes", but loss of the sturdy 71 route will be a real shock to lots of folks; they just don't know it yet. Just wanted you to know my assessment even though I'm submitting it after your deadline that I was not aware of.</p> <p>I'm copying this to the editor of the PCC Natural Market's Newsletter so that she can share the info in whatever way she chooses; this is a great way to get the word out to members of our cooperative. Members who frequent the View Ridge store will be impacted for sure.</p> <p>Jo Ann McMillan live near ne 65 and 44 bus stop</p>
227	Aug 5, 2015 10:26 PM	<p>Hi DeAnna,</p> <p>Is Seattle Metro planning to discontinue route 73 service on weekends after the UW light rail service starts? The proposed plan seems to imply this, but that would leave the 15th Ave NE corridor completely unserved on weekends.</p> <p>Thanks. Diana</p>
228	Aug 5, 2015 10:32 PM	<p>Kevin Desmond, Victor Obeso, Jeremy Fichter, Ted Day & DeAnna Martin King County Metro Transit / Service Planning King Street Station 201 S. Jackson St. Seattle, WA 98104 RE: U-Link Integration Plan 3A</p> <p>Dear Kevin, Victor, Jeremy, Ted and DeAnna: Thank you for leading the effort to integrate rail and bus service in the U Link Integration process. Seattle Children's strongly supports the latest proposal. Jeremy, DeAnna and Ted have done an excellent job of leading an inclusive and thorough engagement process while looking to maximize the potential of the new light rail stations. As you know, Link light rail's fast, reliable, regional access is only as promising to Children's as the last mile connection is strong. The proposed plan has</p>

No.	Date	Content
		<p>improvements we recognize and support as strengthening the last mile between UW Station and Children’s Hospital:• Route 65’s live-loop reroute will pick up passengers closer to Link at a highly visible, easily accessible new stop on Montlake. • Route 65’s 10-minute headways from 6 am to 9 am will result in competitive travel times and a convenient transfer for employees heading to the hospital via Link (while providing the same benefits to commuters heading south to Link). • Route 65’s minor reroute from Sand Point Way to 45th and 40th will result in a safer, more pleasant and accessible bus stop. The sum of the three improvements above creates a last mile connection that is proximate, frequent and convenient. Children’s embarked on a planning process in 2014 to run private shuttles to the light rail station; however, if the proposed Route 65 improvements are approved by Council, Children’s Transportation Department would recommend to our senior leadership that our planned shuttle services are duplicative in the Montlake-Sand Point Way corridor and therefore should not be implemented. We will eagerly follow and await Council’s decision. Other Improvements Children’s SupportsChildren’s also supports the general move to more frequent all day service in Northeast Seattle. • The increased frequency of the 75 will be a big improvement for people travelling between the U District and Northgate. It also strengthens and improves Routes 31 and 32 by making these through routes more predictable and useful. • To reflect this improvement on the 75, we encourage Metro to consider simplifying these route names. Perhaps, “Route 75” is no longer needed and these could simply be called “Routes 31 and 32” to ensure riders know where their buses are ultimately heading and encourage more cross town ridership. Today the destination noted on the bus does not reflect these routes’ full potential (Northgate, Magnuson Park, Children’s Hospital). Bus stop signs do not either. Limiting the routes destination to “U-District” limits riders’ understanding of Metro’s ability to get to major destinations just beyond the U-district. • Other innovations such as Route 16 connecting Green Lake to Magnuson will awaken latent transit markets that have big growth potential, especially once light rail opens at 65th and Roosevelt. Children’s is actively working to help meet Metro’s needs for a layover spot near Magnuson to support this route.Near-term Future OpportunityAn opportunity unaddressed in the plan is the lack of new connections to the Eastside. Children’s would still like to see more Eastside routes connect to the U District, especially if Route 271 continues to bypass potential transfer opportunities at Evergreen Pt. Hopefully, an Eastside outreach process can move forward quickly as the opportunity of light rail opening at UW Station seems like the best possible time to build new bus connections from the U District to the Eastside. Overall, the plan is a significant move forward for the region and addresses Children’s core concern about creating better access to UW Station. Thank you for the chance to work with the U Link Integration team. We look forward to working together on future initiatives. Best regards, Jamie Cheney Director of Transportation Cc: Todd Johnson, Seattle Children’s Edna Shim, Seattle Children’s</p>
229	Aug 7, 2015 4:38 PM	<p>Please keep the current routing for bus line # 11. The proposed routing looks like the # 8. I like being able to choose between them for my needs.</p> <p>Thank you. Robert Smith</p>
230	Aug 7, 2015 10:56 PM	<p>Hi DeAnna & Jeremy,I recently saw a post on NextDoor by Reg Newbeck about Metro’s most recent idea for the 11 (following the current 43 route from downtown to 23rd via Bellevue, Olive Way, and John). My understanding is that the 8 and 12 routing would remain essentially unchanged from today. I’m sure you’ve already heard Reg’s opinion, but wanted to share my own take.I like this new proposal for the 11. It maintains direct service between Madison Park and Downtown while also connecting to the Link station on Capitol Hill. It removes only a handful of one-seat ride destinations along Madison between 15th and 25th, many of which are still reachable (albeit with a transfer) via the 12.Most</p>

No.	Date	Content
		<p>importantly, though, this routing does a great job of maintaining frequent service along the John/Thomas corridor from Denny & Olive Way all the way to Madison Valley (in combination with the 8), intersecting with the frequent corridor along 23rd (the 48). This resolves my major criticism of the previous proposal which failed to provide direct connections between frequent services, a critical mistake in developing a frequent but transfer-dependent network. Another upside to this new proposal is that there will be service along the corridor that isn't affected by the traffic disaster that is Denny Way. I recently started a new job near Denny & Western, and have found that walking from there all the way to 23rd & John is often faster than riding the 8 in the evening. The new proposal helps to alleviate those impacts for riders on Capitol Hill trying to travel to or from the light rail station. Separately, I've heard from sounding board members that during most of the week the 8 and 11 won't be scheduled to provide even headways along the John/Thomas corridor. Given the different ridership demand along the routes (and the lack of reliability on the 8) I suppose this is inevitable, and the planned service levels are still fairly frequent. However, I'd like to request that Metro seriously consider scheduling even headways in the corridor during evenings, nights, and weekends when frequency on the 8 and 11 are reduced and trip times are more reliable. Thanks,-- David</p>

Summary of Eastside public feedback during Phase 2

(See following pages.)

Link Connections Phase 2 Eastside Public Feedback Summary

How were people notified –

- Transit alerts to route subscribers
- Rider alerts at bus stops, on coaches
- Take-away card on coaches
- Street teams at Kirkland, Overlake, Redmond Transit Centers
- Info table at Microsoft campus

How did people share their feedback –

- Online survey
- Public meeting at Bellevue City Hall
- Phone, email

Who participated –

- From online survey - "What city or neighborhood do you live in?"
 - 230 – Kirkland
 - 168 – Redmond
 - 137 – Bellevue
 - 104 – Other Eastside
 - 81 – Woodinville
 - 75 – Kingsgate
 - 77 – Issaquah
- From online survey – "What routes do you ride?"
 - 19% or 1,118 – use Route 545
 - 10% or 569 – use Route 255
 - 9% or 500 – use Route 542
 - 8% or 489 – use Route 271
 - 7% or 432 – use Route 372X
 - 4% or 207 – use Route 373X
 - 3% or 151 – use Route 242
 - 3% or 147 – use Route 311
 - 3% or 146 – use Route 252
 - 2% or 116 – use Route 257
 - 1% or 71 – use Route 277
 - 1% or 59 – use Route 235
 - <1% or 44 – Route 238
- At public meeting – approximately 15 attendees
- From the online survey – "Would you like to give us feedback on changes being considered for the Eastside...?" – 34% or 1,391 said, "Yes."

Link Connections Phase 2
 Eastside Public Feedback Summary – contd.

What they said –

What do you like most about Alternative 1 on the Eastside?

Total responses = 3581

Response	Response Percent	Response Count
More direct service during peak shoulders (on either side of peak periods) from Redmond to downtown Seattle to help address overcrowding (concept for Route 545)	11%	385
Direct connection between downtown Kirkland, the University of Washington, Link light rail at the new University of Washington Station, University Village, and Seattle Children’s Hospital (concept for Route 255)	10%	367
Improved night and weekend service between Eastgate, Bellevue, and the University District (concept for Route 271)	9%	316
Increased midday service between Redmond, the University of Washington, the UW Medical Center, and the University District (concept for Route 542)	8%	291
More reliable travel times between Redmond and the south end of downtown Seattle, via a connection to Link light rail (concept for Route 542)	8%	269
Faster service between Redmond and Seattle Children’s Hospital via a transfer to frequent bus service at Husky Stadium (concepts for routes 65, 255, 542, and 545)	7%	267
New direct connection between Eastgate, Bellevue, Ballard, Greenwood, and Green Lake (concept for through-routing routes 45 and 271)	7%	267
More service across Lake Washington from downtown Kirkland (concept for routes 255 and 256)	7%	264
Improved service frequency between Bothell, Kenmore, Lake City, and the University District (concept for Route 372)	6%	210
Keeps direct connection between downtown Kirkland and downtown Seattle during peak commute times (concept for Route 255X)	6%	199
New, direct connections between South Lake Union, Woodinville, Totem Lake, and Kirkland (concept for Route 311)	4%	138
New direct service from Bear Creek Park-and-Ride to the University of Washington and Link light rail at the new University of Washington station (concept for Route 542)	4%	135

Link Connections Phase 2
 Eastside Public Feedback Summary – contd.

More peak period service across Lake Washington from the Woodinville Park-and-Ride, Brickyard Park-and-Ride, and Totem Lake Freeway Station (concept for Route 311)	3%	112
Nothing	3%	111
Increased all-day service to Issaquah Highlands (concept for Route 207)	3%	93
Everything	2%	80
Increased, peak-only service across Lake Washington from Houghton Park-and-Ride (concept for Route 540)	2%	77

What concerns you the most about Alternative 1 on the Eastside?

Total responses = 1508

Response	Response Percent	Response Count
Bus-light rail transfer required to travel between Redmond and downtown Seattle during weekday off-peak hours (concept for Route 545)	21%	320
Bus-light rail transfer required on weekends between Redmond and downtown Seattle (concept for Route 545)	15%	229
Transfer required between Link light rail and bus service during off-peak commute times between Kirkland and downtown Seattle (Concept for Route 255)	11%	168
No direct connection between Woodinville and the University District (concept for Route 372)	8%	120
Transfer required to get between neighborhoods north of Totem Lake and downtown Seattle (Concept for routes 277 and 255)	8%	115
Loss of direct service to the center of the University District and the UW campus from South Kirkland (Concept for Route 540)	7%	113
Transfer required between Issaquah and downtown Bellevue and the University District outside of peak commute times (concept for Route 271)	7%	111
No direct connection between Overlake and neighborhoods north of the University District (concept for Route 242)	6%	95
Reduced service frequency between Issaquah and the Eastgate Park-and-Ride (concept for Routes 207 and 271)	5%	81
Results in more transfers on my commute	2%	26
Potential increase in commute times	2%	24
Deletion of Route 252	1%	15
Consolidation of routes will lead to overcrowding on buses	1%	13
Deletion of Route 257	1%	12

Link Connections Phase 2
 Eastside Public Feedback Summary – contd.

Transfers to U-Link must be close to the LINK station (for ease of travel and mobility/accessibility concerns).	1%	9
---	----	---

What do you like most about Alternative 2 on the Eastside?

Total responses = 1970

Response	Response Percent	Response Count
Keeps weekday evening and night service between Redmond and downtown Seattle (Concept for Route 545)	16%	310
Keeps weekday midday direct service between Redmond and downtown Seattle (Concept for Route 545)	15%	305
Keeps weekend direct service between Redmond and downtown Seattle (Concept for Route 545)	13%	252
Route 255 keeps all-day direct service to downtown Seattle on weekdays	10%	197
Nothing	9%	180
Route 255 keeps weekend direct service to downtown Seattle.	9%	173
Keeps all-day service on Route 271 from Issaquah to the University of Washington	7%	137
Maintains direct service to the center of the University District and the UW campus from South Kirkland (Concept for Route 540)	5%	99
Route 311 keeps direct service to downtown Seattle without deviating to the University of Washington	4%	87
New Route 541 provides increased peak service to the new Link University of Washington Station via Overlake Village	4%	84
Keeps existing routes 252 and 257	4%	78
Everything	3%	51

What concerns you most about Alternative 2 on the Eastside?

Total responses = 1331

Response	Response Percent	Response Count
It does not take advantage of the investment in Link light rail service to better distribute bus resources	22%	294
No new weekend service to the new Link University of Washington station	15%	204
Less frequent bus service on Route 271 on nights and Saturdays	11%	140
No new direct service from State Route 520 to Children’s Hospital	10%	135
No frequent all-day connection between downtown Kirkland and UW Link light rail station	10%	129

Link Connections Phase 2 Eastside Public Feedback Summary – contd.

The benefits outweigh any concerns I might have	10%	128
Turn-back trips on Route 545 at the Overlake Transit Center	9%	115
No direct service from Bear Creek to the University of Washington	5%	71
Everything	5%	67
Deletion of Route 242	1%	11

Other themes

- “We love our 545 and just want more of it!” – it’s overcrowded
- Why make us transfer during non-peak times instead of during peak times only? That would make more sense.
- Lack of understanding about how Light rail will work and the potential benefits. Once explained, an excitement and willingness to try.
- Questions about the transfer environment
- “You have been out to get us before and now you are using this as an excuse to do it again” – routes 277, 242, and others that were candidates for cuts during the service reduction planning

Feedback from stakeholders

- Microsoft sent a letter (see attached)
- Seattle Children’s sent a letter (see attached)

Comment Sheet

Link Connections Sounding Board
Wednesday, April 29, 2015
6:30 – 8:30 p.m.

Thank you for attending this meeting. Your comments will be reviewed by members of the project team. You may leave the completed Comment Sheet at the meeting, or mail it to the address on the back of this form.

- ① Why ~~do~~ not take 8 to Mount Baker Station - and begin the 38 there? Why turn it around at 23rd + Jackson? -
- ② How did you decide to turn the 48 at 45th rather than 50th? What will be the effect on 48 productivity? Is 50th getting back to University and having so many turns on and off of 45th seems ~~awkward~~ clumsy. It is currently one of the most productive routes.

To receive project updates, please fill out your name and address.

Appendix H: Survey Responses (Phase 1)

Q1 What types of transportation do you use now, or have you used in the past? (select all that apply)

Answered: 4,082 Skipped: 5

Answer Choices	Responses	
Bicycle	41.43%	1,691
Car2Go, Zipcar, or similar private car sharing service	26.97%	1,101
Carpool	31.80%	1,298
Community Transit bus	20.46%	835
Drive my own car alone	64.87%	2,648
Hyde Shuttle (Senior Services)	0.20%	8
King County Water Taxi	10.56%	431
Metro Access transportation	1.15%	47
Metro bus	93.90%	3,833
Metro VanPool	2.62%	107
Motorcycle or scooter	4.19%	171
Pierce Transit bus	4.92%	201
Seattle streetcar	19.60%	800
Senior Services Volunteer Transportation	0.07%	3
Sound Transit bus	41.77%	1,705
Sound Transit Link light rail	57.30%	2,339
Souder train	14.75%	602
Taxi, Lyft, Uber, Sidecar, or other similar service	39.27%	1,603
Washington State Ferry	41.62%	1,699
Walk or use wheelchair	53.67%	2,191
Other (please specify)	3.33%	136
Total Respondents: 4,082		

#	Other (please specify)	Date
1	I ride the 41 bus A LOT!! It's not on the list below.	12/3/2014 10:29 AM
2	Parking Shuttle SCCA Shuttle	12/3/2014 8:30 AM
3	Take a bus to University District or Lake City then have spouse pick up. The buses that take me directly home in View Ridge takes 40 minutes to/from Downtown Seattle.	12/2/2014 8:29 PM

4	Community Transit vanpool	12/2/2014 11:17 AM
5	Seattle Childrens shuttle.	12/1/2014 7:48 PM
6	Seattle Children's shuttle to downtown	12/1/2014 5:38 PM
7	seattle childrens shuttle	12/1/2014 5:13 PM
8	shuttle provided by my employer	12/1/2014 4:20 PM
9	Private shuttle by employer	12/1/2014 3:43 PM
10	Seattle Children's Shuttle	12/1/2014 3:21 PM
11	Seattle Children's Shuttle Bus	12/1/2014 3:18 PM
12	Seattle Children's Shuttle	12/1/2014 3:14 PM
13	Seattle children's hospital shuttle	12/1/2014 3:06 PM
14	Pronto cycle share program.	12/1/2014 2:55 PM
15	Employee shuttle	11/28/2014 2:43 PM
16	Seattle Children's Employee shuttle	11/26/2014 3:06 PM
17	Amtrak	11/26/2014 10:26 AM
18	Health Sciences Express	11/26/2014 6:08 AM
19	get a ride from a friend with a car	11/25/2014 4:26 PM
20	Children's Green Line Shuttle	11/25/2014 1:57 PM
21	Seattle Children's Shuttle	11/25/2014 12:23 PM
22	Light rail to town and bus then to the U district	11/25/2014 12:20 PM
23	Seattle Children's Shuttle Service from Metpark West to Hospital	11/25/2014 11:03 AM
24	Community Transit Van Pool	11/25/2014 10:39 AM
25	Seattle children's hospital shuttle	11/25/2014 10:14 AM
26	Seattle Children's shuttle	11/25/2014 10:01 AM
27	Seattle Children's shuttle	11/25/2014 9:54 AM
28	I would love to bus and/or use the lightrail to go to work (Seattle Children's Hospital) but it is inconvenient for me at this time, when lightrail opens up - I would deifinitely take this advantage	11/25/2014 9:49 AM
29	My partner's car	11/24/2014 6:25 PM
30	Kitsap Transit Bus	11/24/2014 11:08 AM
31	Community Transit vanpool	11/22/2014 1:26 AM
32	Mostly I take the bus or walk. I drive my own car infrequently.	11/21/2014 8:45 PM
33	Kitsap Transit; IC transit (Thurston co.); Skagit Transit	11/21/2014 3:15 AM
34	Vanpool	11/20/2014 9:29 PM
35	Company shuttle	11/20/2014 11:08 AM

37	Seattle Monorail	11/20/2014 10:24 AM
38	Walking :)	11/19/2014 3:44 PM
39	Run	11/18/2014 9:11 PM
40	Employer-operated shuttle bus	11/18/2014 7:27 PM

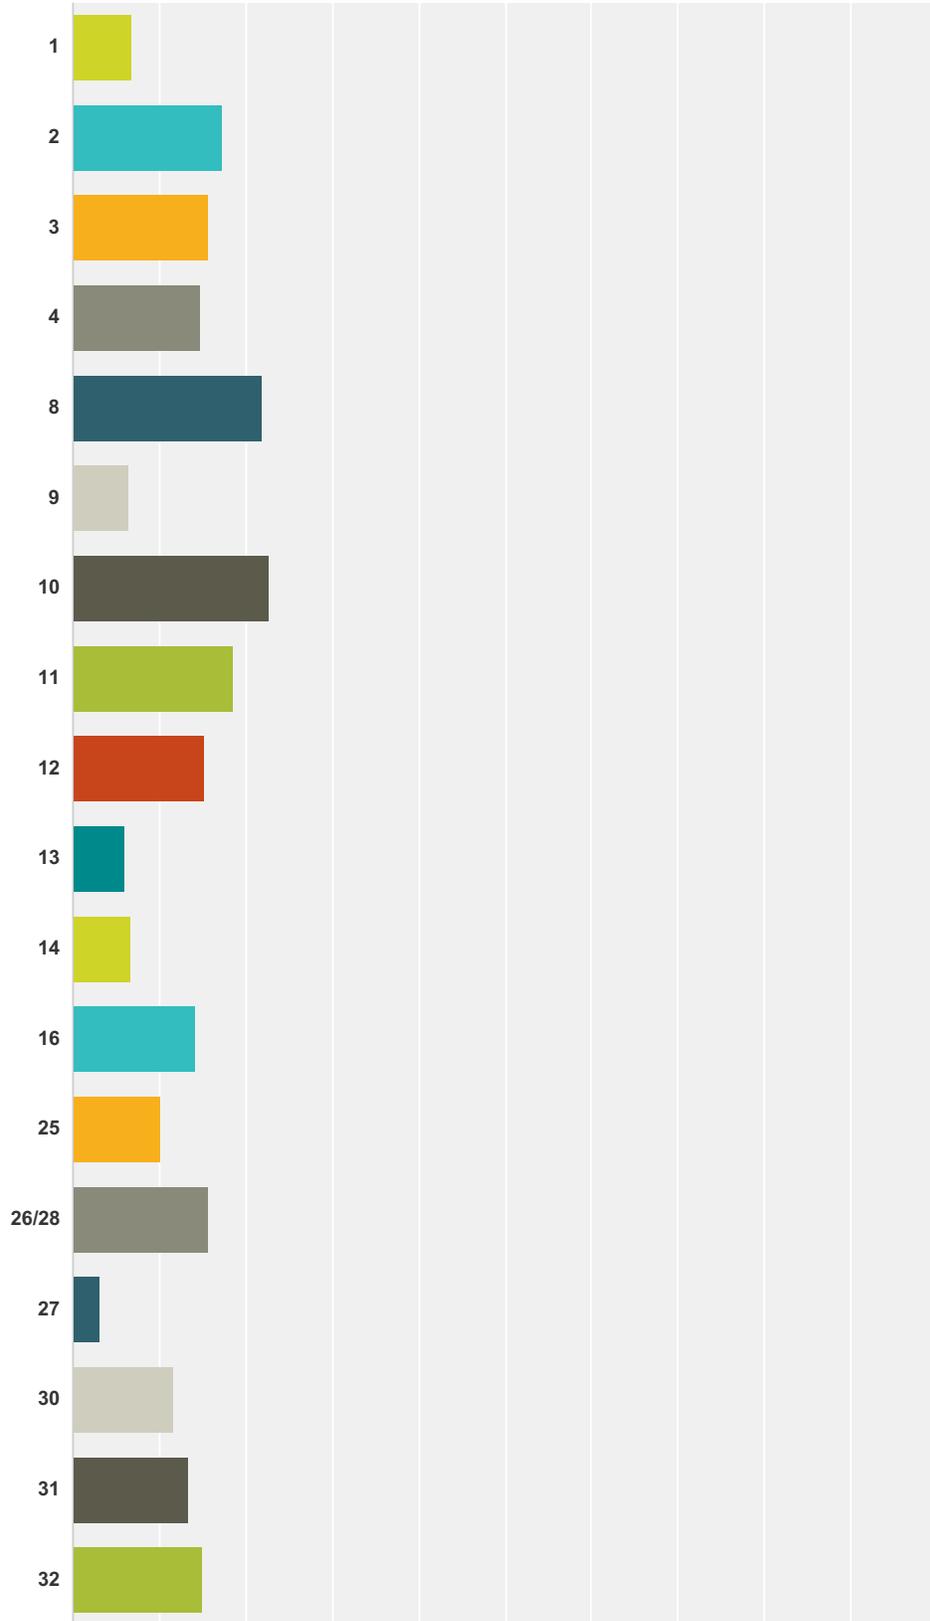

41	UW/Harborview/SLU location shuttle bus	11/18/2014 11:13 AM
42	Kitsap Transit vanpool	11/18/2014 8:14 AM
43	Kitsap bus	11/18/2014 7:10 AM
44	walking, hitchhiking daily	11/18/2014 5:48 AM
45	Kitsap Transit	11/18/2014 4:57 AM
46	kitsap transit	11/17/2014 9:03 PM
47	Island County Vanpool	11/17/2014 4:17 PM
48	E-line bus	11/17/2014 3:12 PM
49	UW Health Sciences Express	11/17/2014 2:10 PM
50	Scooooooter (the manual foot kind)	11/17/2014 2:04 PM
51	Community Transit vanpool	11/17/2014 1:58 PM
52	Kitsap Transit Vanpool	11/17/2014 1:58 PM
53	UWMC to HMC shuttle	11/17/2014 1:35 PM
54	UWMC Shuttle to SLU	11/17/2014 1:31 PM
55	Monorail	11/17/2014 1:19 PM
56	UW Shuttles	11/17/2014 12:50 PM
57	bike: pronto bike share, not own bike	11/17/2014 12:40 PM
58	University of Washington Shuttle service	11/17/2014 12:26 PM
59	Community Transit vanpool	11/17/2014 12:18 PM
60	Health Sciences shuttle between UWMC and HMC.	11/17/2014 12:17 PM
61	Harborview shuttle (Health Sciences Express) between campus and Harborview)	11/17/2014 12:14 PM
62	dial a ride service on campus from upper campus to athletic dept venues	11/17/2014 12:14 PM
63	kayak	11/17/2014 12:09 PM
64	Scooter	11/17/2014 11:34 AM
65	Drive my car to the park and ride.	11/17/2014 11:22 AM
66	Also use Snohomish Transit, which isn't lasted above.	11/16/2014 8:52 PM
67	Shuttle Express	11/15/2014 2:15 PM
68	RapidRide, bike share	11/13/2014 3:02 PM
69	Have carpooled across 520 bridge, but decades ago. State Ferry rarely, usually about a round trip a year. Pierce Transit very rarely. Water taxi is on my "to do" list for when I have a bike destination in W. Seattle.	11/13/2014 2:09 PM
70	Pronto bike share	11/13/2014 11:33 AM
71	Microsoft Connector	11/13/2014 9:48 AM
72	why are walk and use wheel chair even on the same line?	11/12/2014 4:35 PM
73	Uber	11/12/2014 1:25 PM
74	Pronto!	11/12/2014 9:36 AM
75	PRONTO BIKE SHARE	11/11/2014 9:10 PM
76	motorcyclist	11/11/2014 6:41 PM
77	Company-provided shuttle bus	11/11/2014 3:40 PM

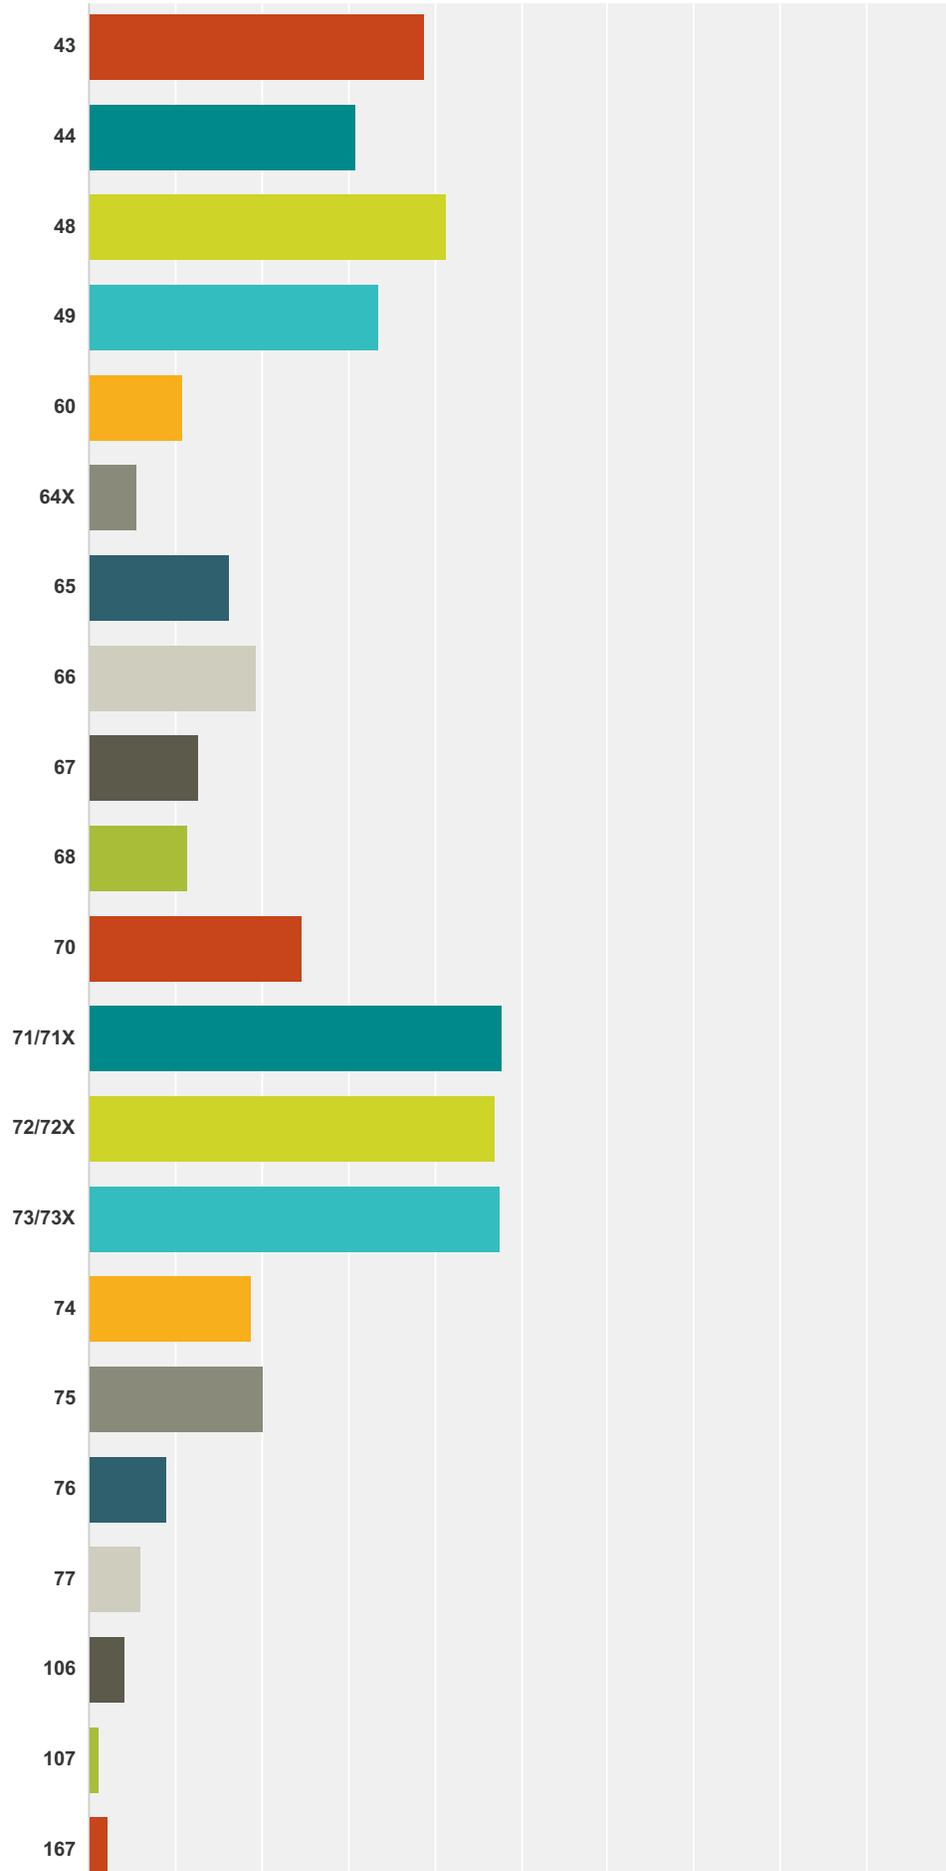

78	Monorail	11/11/2014 11:10 AM
79	I try at all possible costs to avoid SOV.	11/10/2014 10:24 PM
80	Borrowing a car from a friend.	11/10/2014 8:21 PM
81	Employer Shuttle	11/10/2014 5:02 PM
82	Uber, Pronto Bike Share	11/10/2014 1:59 PM
83	Pronto bikeshare	11/10/2014 1:38 PM
84	I have recently been using Pronto bikes to speed up my errands.	11/10/2014 12:56 PM
85	marked "drive my own car" because I have in the past. But I gave up my car three years ago, and drive a Zipcar just once a year to take the cats to the vet. So I hesitated to even mark "drive my own car." Just FYI.	11/10/2014 11:58 AM
86	Except Metro STUPIDLY canceled Route 47 so now I have NO WAY to easily get anywhere -- having to LUG HEAVY items 1/2 mile or so to a bus stop that is practically already downtown. so now I primary walk to work and ride 43 home and then walk forever to get home in THE DARK, on unsafe streets -- a mugging a block from where I live 2 weeks ago	11/10/2014 11:00 AM
87	Community Transit #405 and Metro Transit #5 Bus.	11/10/2014 10:51 AM
88	I ride the 41 bus. It's not on your list in question 2.	11/10/2014 10:47 AM
89	Walk most of day.	11/10/2014 10:47 AM
90	Children's Hospital shuttles	11/10/2014 10:05 AM
91	bike share	11/10/2014 9:41 AM
92	Kitsap Transit bus	11/10/2014 8:31 AM
93	Skateboard	11/10/2014 8:06 AM
94	VanShare from King steet station to Cherry Hill campus	11/10/2014 8:00 AM
95	Don't know what community transit bus is	11/10/2014 6:42 AM
96	I fly on my broomstick. But only Oct. 31.	11/10/2014 12:16 AM
97	Boat	11/10/2014 12:09 AM
98	Monorail	11/9/2014 10:14 PM
99	Rapid ride	11/9/2014 7:26 PM
100	Hopelink	11/9/2014 3:40 PM
101	Monorail	11/9/2014 3:13 PM
102	Friends who can help when needed in emergency. I don't own a car, so I depend completely on the options checked above.	11/9/2014 9:48 AM
103	metro vanshare	11/8/2014 9:28 PM
104	Amtrak	11/8/2014 2:04 PM
105	Work vehicles	11/8/2014 11:46 AM
106	no public transit should be allowed	11/7/2014 9:38 PM
107	Pronto	11/7/2014 7:17 PM
108	Bikeshare, once...	11/7/2014 5:33 PM
109	Pronto Bike Share	11/7/2014 4:30 PM
110	Amtrak	11/7/2014 4:21 PM
111	My primary mode of commuting is by bicycle (95% of the time). I use transit, then a private vehicle when work responsibilities or commute issues or weather keep me off my bike. I won't ride in snow or ice, for instance.	11/7/2014 4:14 PM

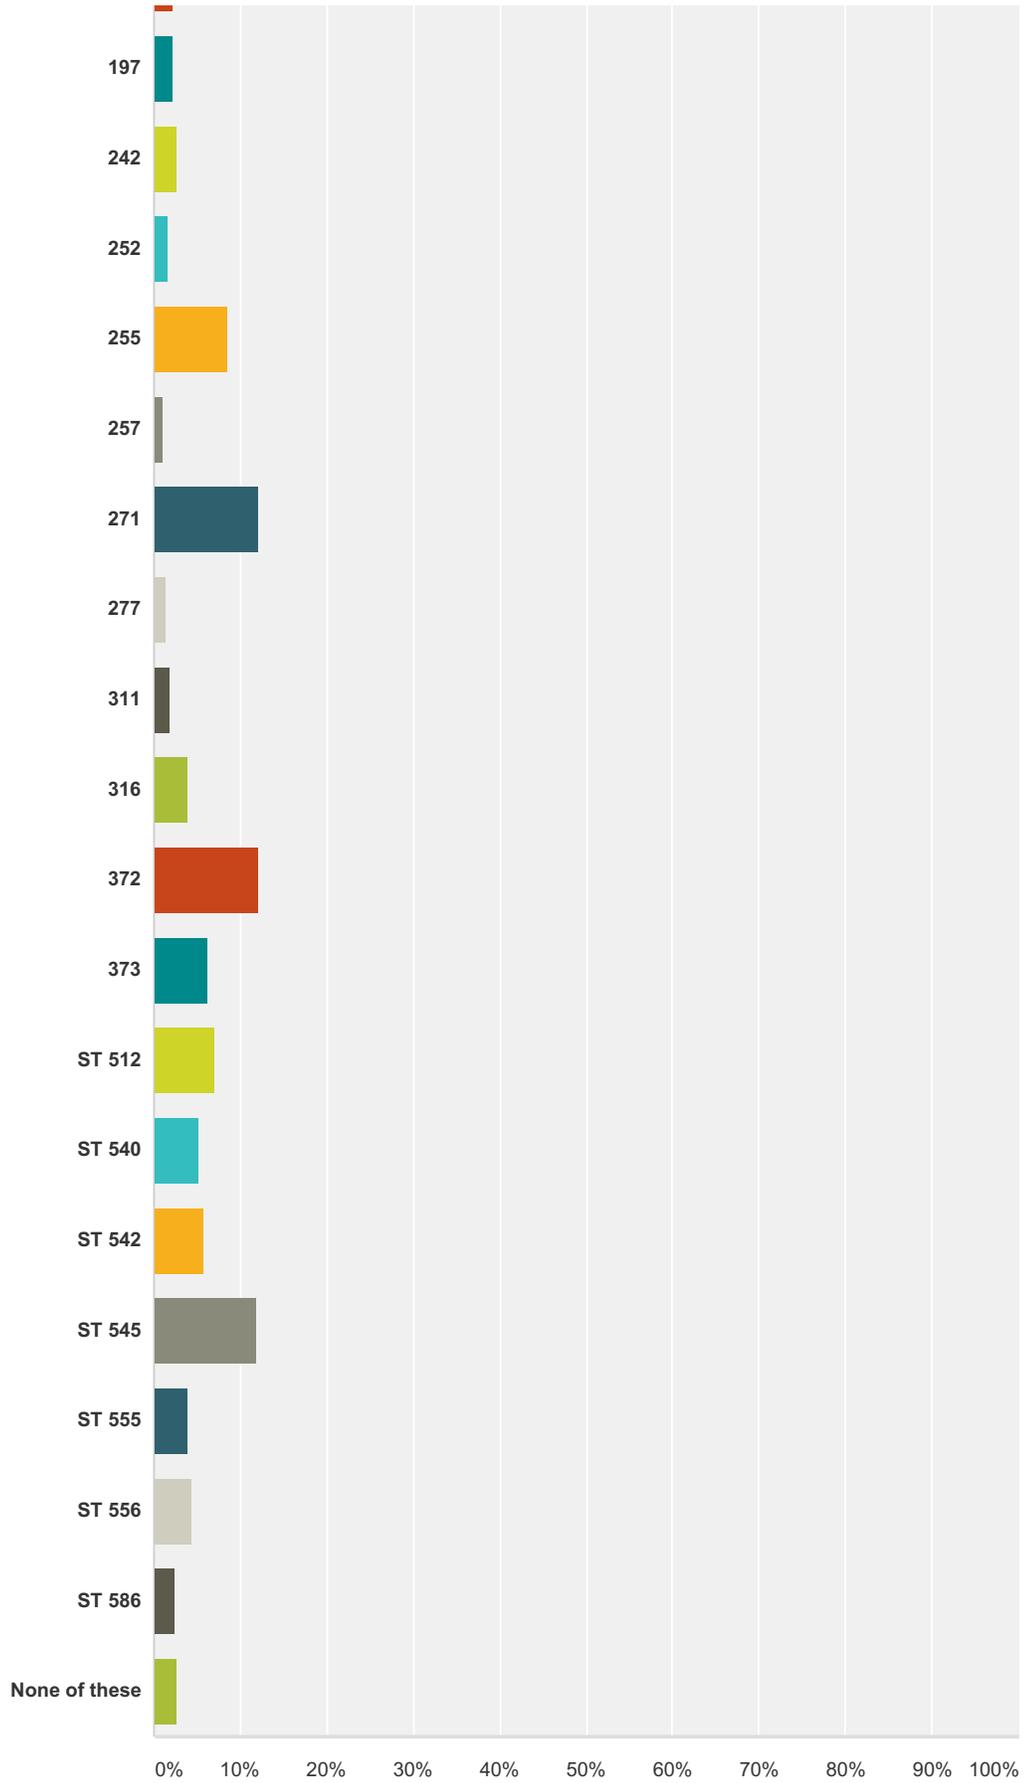

112	Pronto	11/7/2014 2:01 PM
113	Slept as my desk during a snow storm. Thanks Mayor Nickels	11/7/2014 1:08 PM
114	and UW Shuttle	11/7/2014 12:28 PM
115	Bike share	11/7/2014 11:58 AM
116	Bicycle = Pronto, bike share.	11/7/2014 10:24 AM
117	Route 47 when it was available, please bring it back.....	11/7/2014 9:49 AM
118	Rapid Ride D&E	11/7/2014 9:43 AM
119	Amtrak	11/7/2014 9:19 AM
120	I don't use all of these modes *regularly*, but I have used them at some point. My regular modes for commuting are Metro bus, biking, and walking (Capitol Hill to downtown).	11/7/2014 8:33 AM
121	Pronto	11/7/2014 8:16 AM
122	Lite rail from rainierbeach to tunnel express bus to UW(71x, ect)	11/7/2014 8:12 AM
123	Accept offers of rides from neighbors or family	11/7/2014 8:07 AM
124	Pronto, bikeshare	11/7/2014 7:47 AM
125	Pronto cycle share. I did not select bicycle option since I don't own my own bike.	11/7/2014 7:36 AM
126	Pronto cycle share. I don't have my own bike so I did not select the bicycle option.	11/7/2014 7:32 AM
127	UW/VA shuttle	11/6/2014 8:54 PM
128	rental car	11/6/2014 5:24 PM
129	Intercity Transit	11/6/2014 4:55 PM
130	combination of methods	11/6/2014 4:50 PM

Q3 Where do you currently go on transit, or where would you like to be able to go on transit? List specific names and/or addresses.

Answered: 3,652 Skipped: 435

#	Responses	Date
1	I currently travel daily from downtown to Green Lake. I also periodically travel from Green Lake to the airport.	12/5/2014 4:07 PM
2	Downtown Seattle, Greenlake/Northgate, Ballard, UW, Seattle Children's, Bellevue, Kirkland, Shoreline	12/4/2014 9:55 PM
3	I would like to go down Summit Avenue where the 47/14 used to run. Summit Avenue and Mercer Summit Avenue and Harrison Street to Spring Street and 5th Avenue, The Seattle Public Library Downtown branch University Village from Summit and Olive Northgate Mall Southcenter Mall Target, Toys R Us, Jamba Juice along Tukwilla Boulevard	12/4/2014 7:01 PM
4	Currently, I take the bus to work and back home. I live in Lake City and work near U Village. It would be nice to quickly get downtown or get to the airport from either of these places.	12/4/2014 3:33 PM
5	to Seattell Children's from Capitol Hill, or to the airport from Capitol Hill	12/4/2014 3:24 PM
6	Roosevelt and 45th	12/4/2014 2:20 PM
7	1900 9th ave 5121 24th ave NE University Village University Way (from 50th/24th ave)	12/4/2014 2:13 PM
8	I also use route 41.	12/4/2014 12:47 PM
9	I live in Columbia City. Getting from my area of Columbia City to the UW takes a long time. It would be great to have the 48 come more often. With the shortening of the 48 it takes too long to transfer from light rail to the 48 because it doesn't come often enough. Also, the 50 does not come often enough for the amount of people who want to use it. Also it is usually too small and people are left behind because of being too full. And the bus line that the 50 replaced was more helpful than the 50.	12/4/2014 12:40 PM
10	mainly to downtown and capitol hill a route that goes directly from CAPITOL HILL TO BALLARD!!!!	12/4/2014 12:13 PM
11	Magnolia, Seattle Children's Hospital, Downtown, Capitol Hill	12/4/2014 11:41 AM
12	work	12/4/2014 11:39 AM
13	Downtown, to the U-District. I would like to go to Capitol Hill, Ballard, Northgate	12/4/2014 10:49 AM
14	Seattle Children's, North Seattle Community College, Northgate Mall, Fremont area, Wallingford area, Ballard area, Downtown, International District, Sports Stadium, airport, Swedish First Hill and Cherry Hill, U district	12/4/2014 10:38 AM
15	Currently, I travel from the Sand Point Way region to the University District area. In the future, I would like continued service to the University District area (Seattle Children's Hospital admin building on 4300 and Roosevelt) as well as service to Seattle Children's Hospital (4800 Sand Point Way). As the hospital continues to expand and grow, more patients, families and staff will be traveling to and from the hospital. The more access to public transportation will reduce the number of individuals driving alone in their cars as well as provide more healthcare access to patients and families.	12/4/2014 9:11 AM
16	I transit downtown to Met Park West, I transit to Seattle Central Community College and lastly, I transit to Northgate Transit Center	12/4/2014 8:06 AM
17	Internatiional blvd link light rail or seatac link light rail	12/4/2014 7:42 AM
18	King Street Station 45th and I-5 45th and Roosevelt	12/4/2014 7:38 AM
19	Seatac Airport; North Lynnwood (Community Transit); Aurora Village Shopping Ctr (CT & Metro); Seattle Children's Hosp (work).	12/4/2014 6:50 AM
20	Seattle Children's Hospital 4800 Sandpoint Way NE	12/3/2014 9:18 PM

21	Seattle Children's Hospital - Sand Point Campus, Seattle Children's Research Institute, Seatac Airport, Downtown Seattle, South Seattle (Skyway), Renton, Madrona neighborhood, Southcenter, Central District - Garfield High School	12/3/2014 4:53 PM
22	Work at UW Medical Center and UW Tower on 45th and Brooklyn Ave N Travel through Downtown Seattle Live on Vashon Island	12/3/2014 2:42 PM
23	Northgate to Downtown -- Metro #41 Northgate to the airport	12/3/2014 2:02 PM
24	Home (35th Ave NE and NE 85th Street), University of Washington, Downtown Seattle, Ballard, Fremont, Greenlake	12/3/2014 1:43 PM

33	Downtown, Northgate, Seattle Center, Magnolia, Ballard, Sea-Tac airport,	12/3/2014 9:33 AM
34	Daily from my home to work and back; often to other neighborhoods in the city - Fremont, Ballard, U District, and Phinney Ridge.	12/3/2014 9:09 AM
35	Ballard	12/3/2014 8:46 AM
36	Would like to be able to go from Monlake/520 to/from Seattle Childrens. Currently I take 3 buses or shuttle/walk/bus in order to get from Kirkland to Seattle childrens.	12/3/2014 8:30 AM
37	Kirkland, downtown Seattle, Seattle Children's, downtown Bellevue	12/3/2014 8:29 AM
38	I commute to Children's Hospital. I go downtown, to Northgate Mall, and sometimes to Capital Hill for shopping and restaurants.	12/3/2014 8:19 AM
39	Medical Dental Building, various downtown locales, Northgate	12/3/2014 8:01 AM
40	Childrens hospital and eastlake. Would prefer more connetions to cities up north such as Edmonds, and northgate.	12/3/2014 3:54 AM
41	Capital hill, virginia mason medical center and swedish medical center,	12/2/2014 11:07 PM
42	sandpoint to light rail station	12/2/2014 10:54 PM
43	I live in NE Seattle, and do a lot of travelling in NE Seattle. I travel to/from University Avenue a lot. Also I go to Broadway and downtown Seattle. I enjoy going to Magnuson Park, and right now, it is a 2-bus trip. I go to Wallingford and Ballard sometimes.	12/2/2014 8:31 PM
44	I live 3 blocks north of View Ridge Elementary, 8.5 miles from downtown Seattle, yet it takes me 40 minutes to commute there for work. It takes me 12 minutes in a car. I would like to bike commute a couple of days a week from work to home. I take my bike on the bus in the morning but there is no bus that can get me to downtown Seattle by 6AM. I have tried biking to Lake City Way and 20th to take the bus 312 but due to hills, I get all sweaty by the time I get to the bus stop. I have no time in the morning to shower. I have tried biking downhill to Montlake Bridge to catch a bus on 520, but in the winter it's so dark that I do not feel safe. I also catch the bus from downtown Seattle to Government Street and 34th for a class. To go home, I take the 31 to get as close as I can to View Ridge then call my husband for a ride. It takes over an hour.	12/2/2014 8:29 PM

45	I use the bus and Seattle children's shuttle to get to work. I would like to be able to take the buses everywhere but they do not run on time and make my commute more than twice as long.	12/2/2014 7:25 PM
46	Upcoming UW transit center - Seattle Children's Hospital Upcoming UW transit center - Bellevue (Yarrow's Point or South Kirkland P&R)	12/2/2014 6:47 PM

111	45th and roosevelt from woodinville	12/2/2014 7:21 AM
112	home to shoreline @ 145th and 15th Ave NE work at 4300 Roosevelt Way NE and Seattle Children's Hospital downtown - near Westlake; lower Queen Anne (Queen Anne and 1st) Northgate - near any of the park and rides University area - near 45th and Univ; University village	12/2/2014 7:20 AM
113	University District, Downtown Seattle (Convention Center), Seattle Children's Hospital, Husky Stadium	12/2/2014 7:20 AM
114	Seatac airport, Seattle Children's Hospital, downtown Seatte--Pike/Pine and 5th, Safeco field, Group Health--Northgate, NE 125th and Lake City Way, Ravenna and E Green Lake Way N, On The Boards, Taproot Theatre.	12/2/2014 7:11 AM
115	I currently go to work at Seattle Childrens and back home (Lake City).	12/2/2014 7:09 AM
116	My current commute: Metro Bus 197 from Star Lake Park & Ride to 45th and Roosevelt, then back again This is enabled by the fact that my employer, Seattle Children's, has an office building at 45th and Roosevelt, where I am currently stationed...if I am stationed at the Hospital, this is not nearly as convenient... So... It would be nice to have better options closer to Children's Hospital. I don't know that Husky Stadium is significantly closer than 45th and 15th, for example, so light rail may not answer. It might mean better bus service from the UW down the 45th St. viaduct and on to Children's...	12/2/2014 7:06 AM

131	From my home on Fairview Ave (catch bus at Eastlake & Lynn) to my workplace at 5th & Cherry in downtown Seattle. Also the return trip in the afternoon.	12/1/2014 9:39 PM
132	I have only tried using the bus system to go to work at Seattle Children's Hospital (4800 Sand point way NE, Seattle, WA). I have used the light rail to come back from the airport (home is 167 11th Ave, Seattle, WA 98122 and the airport is SeaTac). I try to use the light rail to go to the airport, but it doesn't run very early in the morning or over night. I HATE HATE HATE using the buses on the weekend because if one bus is running late, I miss my connection and I have to change buses 2-3 times to get to work on a Saturday or Sunday and the next bus doesn't come for 30 minutes. 30 MINUTES! I would like a direct route from capitol hill somewhere, possibly by Seattle U somewhere, that goes up somewhere close to the hospital or at least to somewhere near UW where I can only take one connection instead of 2-3.	12/1/2014 9:09 PM
133	Everett 98204 to Seattle Children's Hospital	12/1/2014 8:26 PM
134	4300 Roosevelt Ave, Seattle U District to Cap Hill or Downtown	12/1/2014 8:19 PM

157	Fremont, Interbay, Capitol Hill, Ballard,	12/1/2014 5:07 PM
158	Sand Point, University District, Northgate, Ballard, Fremont, Greenlake, Greenwood, Wallingford, Downtown, Lake Forrest Park	12/1/2014 5:06 PM
159	From Westlake Station to the NE 65th st/roosevelt way ne stop, and from 65th/roosevelt to northgate.	12/1/2014 5:02 PM
160	I currently use transit to go to work. But I would like transit that connects through the U district, capitol hill and downtown.	12/1/2014 4:49 PM
161	Work, downtown	12/1/2014 4:40 PM
162	Eastlake Seattle Children's Hospital UW Medical Center Downtown Capitol Hill to Eastlake	12/1/2014 4:39 PM
163	From Eastlake: Downtown Seattle, University District, Roosevelt District, Northgate; I would like to be able to go to Seattle Center, Capitol Hill, Washington Park Arboretum, Airport, Sodo, University Village	12/1/2014 4:36 PM
164	Home (19th and Thomas in Capitol Hill), work (SCH), SEATAC airport, downtown Seattle	12/1/2014 4:36 PM
165	Downtown Yesler (Odessa Brown Children's Clinic)	12/1/2014 4:34 PM
166	Renton to/from 45th/Roosevelt and Seattle Children's hospital.	12/1/2014 4:29 PM
167	University Ave or Roosevelt and 50th.	12/1/2014 4:28 PM
168	Downtown business district Eastlake & Lynn University of Washington	12/1/2014 4:27 PM
169	University of Washington 1616 Eastlake Ave Seattle WA Seattle Children's Hospital	12/1/2014 4:21 PM
170	i use metro bus to get from the north end of cap hill (volunteer park/interlaken park area) to downtown & vice versa quite frequently. i occasionally go from same area of cap hill to seattle children's hospital. the # of buses that serve SCH area is limited and always requires a transfer in the U district, which is not the safest of neighborhoods for a single lady to navigate in the dark.	12/1/2014 4:20 PM
171	Downtown Seattle	12/1/2014 4:20 PM
172	Downtown Seattle	12/1/2014 4:17 PM
173	Downtown from Wedgwood. 71 and 71 Express Sometimes light rail from airport to bus tunnel, then 71 home. 14 block walk to bus stop. Hard with suitcase. Need park and ride.	12/1/2014 4:16 PM
174	NORTHGATE TO UNIVERSITY DISTRICT 45th & Roosevelt	12/1/2014 4:14 PM
175	Seattle Children's Hospital from Capitol Hill	12/1/2014 4:14 PM
176	Seattle children's	12/1/2014 4:13 PM
177	Seattle Children's Hospital Capitol Hill (Pike/pine) Downtown (norstrom) Greenlake Fremont bars Wallingford - 45th street	12/1/2014 4:12 PM
178	5th and Jackson 18th and Jackson 9th and stewart convention station international station 3rd and pine	12/1/2014 4:08 PM
179	Shoreline - 175th and 15th to Seattle Children's Hospital	12/1/2014 4:02 PM
180	Seatac, Downtown, UWMC	12/1/2014 4:00 PM
181	From Madison Valley to Seattle Children's Hospital, directly.	12/1/2014 3:58 PM
182	Between fremont, downtown denny triangle, hutch, and UW hospital	12/1/2014 3:58 PM
183	university district, matthews beach, wedgewood, fremont, wallingford, queen anne, capitol hill, south lake union, downtown, sodo	12/1/2014 3:57 PM
184	Seattle Children's Hospital for work from Mill Creek	12/1/2014 3:56 PM
185	Seattle Children's Hospital Downtown Seattle - ACT Theatre, Downtown library, Pike Place Market, water front Seattle Center - Bagley Wright Theatre, Key Arena	12/1/2014 3:53 PM
186	From Matthews Beach neighborhood Typical go to: UW, U District, U Village, Downtown/Bell Town, N-gate Park & Ride, Seattle Center. (sometimes on ST 522 from Lake City to Downtown) Want to go to: Airport, Capitol Hill, Bolt Bus stop, AmTrak station.	12/1/2014 3:49 PM

187	I typically go downtown Seattle or to Bellevue. I very much wish that Bellevue access were better all around, but particularly from Northgate area. I also think the access to West Seattle should be improved.	12/1/2014 3:47 PM
188	Seattle Children's Hospital (work) Century Link Field/Safeco Sea-Tac Airport Capitol Hill	12/1/2014 3:45 PM
189	From Greenwood (97th and Greenwood Ave) to Roosevelt and 42nd on the 355. Then connect to a shuttle to Seattle Children's. More bus service to Seattle Children's would be helpful. Expanding 355 route times.	12/1/2014 3:43 PM
190	Seattle Children's Hospital Downtown Bothell	12/1/2014 3:43 PM
191	Work in downtown Seattle from NE Seattle	12/1/2014 3:41 PM
192	719 19th Ave to 1900 9th Ave 719 19th Ave to Seattle Children's Hospital	12/1/2014 3:38 PM
193	From my house (NE 90th st, seattle) to daycare at fred hutchinson center (Fairview) and then to work (1900 9th avenue, seattle))	12/1/2014 3:38 PM
194	Mukilteo, UW, Seattle Children's Hospital	12/1/2014 3:38 PM
195	Seattle Children's Hospital, 4800 Sand Point Way NE, Seattle, WA 98105	12/1/2014 3:36 PM
196	17725 Hall Rd (in Bothell) to Seattle Children's Hospital to SeaTac airport	12/1/2014 3:35 PM
197	When using Metro, I travel from Downtown Seattle to the University District. My husband and I commute together a majority of time and I sometimes have to take a bus from SCR1 to UW and this can take about 1 hour from the time I leave my buidling the time I actually get on a bus a few blocks away. I would actually like to have a bus that a) shows up in time, b) is not full and c) actually STOPS at the bus stop. Or, I will take a Metro south to King Street Station to catch the Sounder Train to go to Everett. When using Sound Trasit, I travel from Everett to Downtown Seattle and then back to home.	12/1/2014 3:34 PM
198	Rt 183 to 197 in the morning, vice-versa at night.	12/1/2014 3:34 PM
199	From NE Seattle to Smith Tower downtown.	12/1/2014 3:34 PM
200	Queen Anne-> Seattle Children's Hospital (2848 13th Ave W), the 32 is not reliable.	12/1/2014 3:33 PM
201	Children's Hospital University of Washington Ballard Fremont	12/1/2014 3:32 PM
202	closer to Queen Anne to get to Seattle Children's Hospital	12/1/2014 3:32 PM
203	South Lake Union (I work in West 8 building, 8th and Virginia) NE 65th St and 27th Ave NE (near home) NE 55th St and 27th Ave NE (near home) The Seattle Aquarium Woodland Park Zoo University of Washington Capitol Hill (son goes to school at Summit and Pike) Central District (Bikeworks, near Rainier and S. Hudson) Magnuson Park ... and lots more	12/1/2014 3:30 PM
204	Seattle Children's Hospital; Capital Hill; Downtown; University District	12/1/2014 3:30 PM
205	Downtown to fremont to capital hill	12/1/2014 3:30 PM
206	West Seattle Junction UW Medical Center Northgate Airport Anacortes	12/1/2014 3:28 PM
207	Greenlake and 60th, Roosevelt and 70th, 1900 9th Ave NE, 3rd and Union	12/1/2014 3:26 PM
208	Seattle Children's Hospital Downtown Seattle	12/1/2014 3:26 PM
209	University District (42nd NE and 8th) to Seattle Children's Research Institute (1900 9th Avenue Seattle)	12/1/2014 3:26 PM
210	I live on 115th and Sand Point Way, I go to University District (43rd and Roosevelt) for work. I like to be able to get downtown and to Capitol Hill from work quickly for when I meet up with friends.	12/1/2014 3:25 PM
211	At NE 95th Street West-East/East-West Sandpoint Way NE to NE 35th Ave NE. There are not enough good East-West Metro Routes in the Northeast Seattle	12/1/2014 3:25 PM
212	Downtown, work, airport, the different neighborhoods around Seattle.	12/1/2014 3:25 PM
213	125th and Lake City to 50th and Sandpoint (Seattle Children's Hospital)	12/1/2014 3:25 PM
214	I would like to be able to get to the University Village in fewer than three transfers if possible. I work at the Seattle Children's Autism Center.	12/1/2014 3:25 PM
215	Capitol Hill, Queen Anne, Fremont, Ballard, SODO, Central District, Madison, University District, Ravenna, Maple Leaf, South Lake Union, West Seattle, Georgetown, Downtown, Belltown	12/1/2014 3:24 PM

216	Seattle Children's Capitol Hill Wallingford Downtown/Belltown Fremont Madison	12/1/2014 3:24 PM
217	Roosevelt neighborhood, U District, Downtown, Ballard	12/1/2014 3:23 PM
218	1. DRIVE TO SOUTHWORTH FERRY (GOTTA PAY PARKING) 2. RIDE FERRY TO FAUNTLEROY TERMINAL 3. RIDE EITHER THE RAPID RIDE (C) OR 116 TO DOWNTOWN SEATTLE (SENECA ST OR MADISON ST) 4. RIDE THE 255 BUS TOWARDS KIRKLAND 5. RIDE EITHER THE 235 OR 234 TO BELLEVUE (RIGHT OUTSIDE WORK) 1. AFTER WORK I RIDE THE 235/234 TO KIRKLAND P&R THEN THE 255 TO SEATTLE, GET OFF PIONEER SQUARE AND RUN TO MAKE THE 4:30PM WATER TAXI TO VASHON ISLAND. IF I MISS IT, I WAIT TIL 5:30 OR 6:30PM, DEPENDING ON WHEN I GET OFF WORK FOR THE NEXT ONE. FROM VASHON, I HOP ON THE NEXT FERRY HEADED TO SOUTHWORTH, THEN I DRIVE HOME... 1. WOULD LIKE A ROUTE TO BELLEVUE WITH LESS STEPS	12/1/2014 3:23 PM
219	bagley and 40th Seattle Children's Hospital UW UWMC Swedish First Hill 36th and Meridian Ave N	12/1/2014 3:23 PM
220	50th and Meridian University District West Seattle Magnolia Ballard	12/1/2014 3:23 PM
221	Capitol Hill, Downtown, Fremont, Greenlake, Ballard	12/1/2014 3:22 PM
222	I use the #75 to get to and from work at Seattle Children's Hospital. I would like a direct route via Sand Point Way NE to downtown Seattle without having to transfer. As of now, you have to take a lengthy detour through the University Ave. neighborhood to get downtown. It takes too long to use reguarly. A direct bus line to downtown Seattle via Sand Point Way could curb I-5 traffic substantially.	12/1/2014 3:21 PM
223	Sandpoint Way NE and NE 70th St	12/1/2014 3:21 PM
224	Durland Ave. NE, Seattle, WA 98125 1100 Olive Way, Seattle, WA 98101 4800 Sand Point Way NE, Seattle, WA 98105	12/1/2014 3:20 PM
225	Seattle Children's Hospital	12/1/2014 3:20 PM
226	I commute daily from Capitol Hill to Laurelhust Seattle Children's campus and back... distance of about 10 miles but it takes over an hour on a good day... if I'm lucky... to actually get to my destination one way.	12/1/2014 3:18 PM
227	Northgate Park and Ride to Seattle Childrens Hospital	12/1/2014 3:17 PM
228	Stone Way and 40th to/from Children's Hospital, downtown, Seatac airport, U district, seattle center	12/1/2014 3:17 PM
229	Northgate P&R, 125th & Roosevelt, 43rd & Roosevelt, 95th & Lake City Way, Seattle Center, Westlake Center	12/1/2014 3:16 PM
230	I currently commute from Kenmore/Bothell to downtown Seattle - specifically Olive Way.	12/1/2014 3:16 PM
231	work, downtown	12/1/2014 3:16 PM
232	Seattle Children's Hospital for work	12/1/2014 3:15 PM
233	Seattle children's hospital	12/1/2014 3:15 PM
234	Seattle Children's Hospital, Ballard, Downtown, Capitol Hill, Fremont	12/1/2014 3:14 PM
235	Seattle Children's University of Washington Downtown Seattle Aloha and 23rd Ave E	12/1/2014 3:14 PM
236	UW campus	12/1/2014 3:14 PM
237	I use the bus to go to work at Seattle Children's Hospital on Sand Point Way. I go to the Wedgwood neighborhood, around the intersection of 35th Ave and 80th street. I'd like to be able to access the Pike Place Market and Fremont from North Seattle.	12/1/2014 3:13 PM
238	Convention place bus stop. capitol hill all stops on broadway. university Ave	12/1/2014 3:13 PM
239	Seattle Children's Hospital, Northgate park n' ride, airport, downtown, North Sand Point Way, sporting events in SoDo, Husky Stadium	12/1/2014 3:13 PM
240	Seattle Childrens Hospital- Sand Point Way Quest Field/Safeco Downtown Seattle Fremont, Ballard, Green Lake Captiol Hill	12/1/2014 3:13 PM
241	from sand point way/ University Village up the 45th street viaduct	12/1/2014 3:12 PM
242	Ballard, I would love to be able to get to Ballard. From University Ave to 15th and Market on one bus. University Ave to West Seattle on one bus (Alaska Junction to/and Morgan Junction). Get more east/west routes in general.	12/1/2014 3:11 PM
243	U District, NW 64th and 11th, 107th and Phinney, Capitol Hill, Downtown, First Hill, Fremont, Downtown Ballard	12/1/2014 3:11 PM

244	From Greenwood to the U District, from the U District to Downtown or Laurelhurst, from Northgate to the airport, from laurerlhurst to ballard/fremont/wallingford. I would love to take a bus from Greenwood to Laurelhurst at night, but there are no options, so I have to drive to work.	12/1/2014 3:11 PM
245	Federal Way to UDistrict	12/1/2014 3:11 PM
246	U District from Bellevue or Seattle	12/1/2014 3:11 PM
247	Downtown Seattle, Downtown Bellevue, West Seattle, Capitol Hill, UW Health Sciences Building, Seattle Children's Hospital (Laurelhurst campus), Green Lake (southeast/park n ride side)	12/1/2014 3:10 PM
248	To and from Eastlake to the new UW lightrail station.	12/1/2014 3:10 PM
249	Seattle Children's Hospital, Laurelhurst and the NE in general. Would like a line direct from Northgate to Fremont.	12/1/2014 3:10 PM
250	Seattle Children's Hospital - 4800 Sand Point Way NE AND 6901 Sand Point Way NE	12/1/2014 3:10 PM
251	to the airport downtown, Ballard 65th and Roosevelt	12/1/2014 3:09 PM
252	East/West is incredibly difficult, and it would be awesome if that were improved.	12/1/2014 3:09 PM
253	27th Ave NE and NE 62 St, Seattle 8th Ave and Virginia, Seattle	12/1/2014 3:09 PM
254	From Northgateway and 19th ave NE to Seattle Children's	12/1/2014 3:09 PM
255	From Capitol Hill to Billard/Fremont without connecting downtown or in the U District.	12/1/2014 3:09 PM
256	I would like to be able to get from North Seattle to Capital Hill more easily. I would like to be able to get from North Seattle to Federal Way more easily. Issaquah, Green Lake, Fremont, Ballard, Queen Ann, Capitol Hill, Downtown, University of Washington	12/1/2014 3:08 PM
257	Seattle Children's Hospital 6901 Sand Point Way NE, Seattle, WA Downtown Seattle Fred Meyer Lake City Way NE, Seattle University of Washington Medical Center	12/1/2014 3:08 PM
258	Northgate Lake City	12/1/2014 3:08 PM
259	Westlake Station, SeaTac	12/1/2014 3:08 PM
260	Seatac airport to Childrens hospital . The new link lite rail will be useful especially if it is not a transfer downtown	12/1/2014 3:08 PM
261	Ballard, 6000 24th Ave NW	12/1/2014 3:08 PM
262	I currently travel between 18th & E Republican on Capitol Hill and Seattle Children's Hospital (4800 Sand Point Way NE) to get to work. I would like to be able to go from Seattle Children's Hospital directly to University Way NE and 43rd Ave NE (US post office, University Bookstore, Bartells, Chase bank all within a block). I use a walker, so the direct connection is valuable to me.	12/1/2014 3:07 PM
263	It would be wonderful to take 1 direct bus from U district to Queen Anne Ave	12/1/2014 3:07 PM
264	Downtown UW campus U-District Ballard Children's Hospital	12/1/2014 3:07 PM
265	4300 Roosevelt	12/1/2014 3:07 PM
266	Seattle Chindren's Hospital UW Downtown Garfield High School: 400 23rd Ave, Seattle, WA 98122 Raisbeck Aviation High School: 9229 East Marginal Way S, Tukwila, WA 98108	12/1/2014 3:06 PM
267	commute to Seattle Children's hospial from Mercer island. I used to take the 205 untilit was canceled. Now take the 550 to hospial shuttle. also use 550 to go downtown evenings and weekends and bus to seattle center	12/1/2014 3:06 PM
268	Seattle Children's Hospial University of Washington Downtown Seattle Northgate Mall	12/1/2014 3:06 PM
269	Auburn, downtown seattle.	12/1/2014 3:06 PM
270	Seattle Childrens and downtown Seattle	12/1/2014 3:06 PM
271	to airport from Greenlake NE. too capitol hill from Greenlake NE. Currently, go downtown to 2nd and union.	12/1/2014 3:05 PM
272	Seattle Children's Hospital 45th Street and Stone Ave, Seattle Downtown Seattle Fremont Ballard Husky Stadium	12/1/2014 3:05 PM
273	NE 75th St near 35th Ave and First Hill (Harborview Medical Center).	12/1/2014 3:05 PM
274	University District, Northgate area, downtown, Capitol Hill, Fremont, Wallingford, Ballard	12/1/2014 3:05 PM

275	Work - 8th and Virginia School - UW Seattle campus	12/1/2014 3:05 PM
276	I commute to work at Seattle Children's Hospital, both the main campus and the Roosevelt Commons building at 4300 Roosevelt Way NE I use routes 71, 76, 30, 66 and 67 depending on my schedule. I also use all of these routes for getting around town for shopping, errands and entertainment.	12/1/2014 3:04 PM
277	NE 65th Street and 49th Avenue NE Seatac Airport Office at S. Lake Union (2001 8th Avenue) Capitol Hill (Brodway and Olive, Melrose Triangle) Seattle Children's Hospital	12/1/2014 3:04 PM
278	From/To University District (specifically 43rd and Roosvelt) from Ballard/Magnolia, Seattle Children's Hospital, Downtown Seattle, South Lake Union, Northwest Hospital, SeaTac Airport, King Street Amtrack Station,	12/1/2014 3:04 PM
279	From Seattle to Bothell and from Shoreline to University of Washington	12/1/2014 3:04 PM
280	employer - Seattle Children's Hospital is primary destination	12/1/2014 3:04 PM
281	Seattle Childrens Downtown Seattle Bellevue Kirkland Capitol Hill University District Fremont Queen Anne (Upper/Lower/ All sides) Greenlake Northgate Central District Ballard Golden Gardens Park/Beach West Seattle/Alki South lake Union Eastlake SouthCenter Mall IKEA	12/1/2014 3:03 PM

283	For my daily commute, I take the 556 from the Issaquah Transit Center and get off on 15th & 42nd. I LOVE that I don't have to transfer.	12/1/2014 3:03 PM
284	Work - Seattle Children's Hospital or Univeristy of WA Medical Center. (and Home again) Northgate Transfer Center	12/1/2014 3:03 PM
285	work - roosevelt and DT home - loyal heights downtown seattle - stadiums captiol hill- all over	12/1/2014 3:03 PM
286	Home 409 23rd Ave S, Seattle Work 4300 Roosevelt Way NE Downtown Seattle International District	12/1/2014 3:03 PM
287	Currently go to/from Wedgwood/View Ridge area to and/or from U District, Fremont, Wallingford, Seattle Children's Hospital, Ballard, downtown - LOTS of going downtown to connect w/other transit lines	12/1/2014 3:02 PM
288	Currently go from stone way and 40th to Seattle Children's. Would like to go from East Green Lake to Seattle Childrens. Go from Tangletown/Green Lake to 3rd/Pike. Would like to go from Green Lake to 9th/Olive.	12/1/2014 3:02 PM
289	Century Link field Sand Point (work) Eastlake Kenmore Park and Ride Georgetown	12/1/2014 3:02 PM
290	Magnuson Park or at least to Seattle Children's Hospital on Sand Point Way NE, without having to trasfer 3x.	12/1/2014 3:02 PM
291	Seattle Children's Hospital	12/1/2014 3:02 PM
292	The 28 used to stop through my neighborhood on 3rd Ave near 107th and those routes got cut. It is extremely inconvenient to have to find several other busses to take since that one no longer goes far enough when I grocery shop coming home from work.	12/1/2014 3:01 PM
293	Shoreline/North Seattle, Downtown (Westlake, Denny Triangle, Convention Center), Northgate, Lake City, Wedgwood	12/1/2014 3:01 PM
294	Downtown, King County Courthouse, 70th & Sandpoint, Capitol Hill, Wallingford, U District. I would like more options from Wallingford to 70th & Sandpoint area. I would like an option from 70 & Sandpoint to Capitol Hill.	12/1/2014 3:01 PM
295	Seattle Children's Hospital	12/1/2014 3:01 PM
296	University of Washington Medical Center Seattle Children's Downtown Mount Baker Transit Center for Light Rail	12/1/2014 3:01 PM
297	Tacoma Dome to UW District	12/1/2014 3:01 PM
298	24th and Republican to Seattle Children's Hospital 24th and Republican to Douglass Truth Library 24th and Republican to Lower Queen Anne 24th and Republican to Downtown Seattle Capitol Hill 24th and Republican to Mt Baker Station to Seatac I use the 43, 48, and 8 most frequently - these bus routes are great and get me most places I need to go. Most challenging is getting to work at Seattle Children's. I have to transfer - some days the wait time is short and some days the wait time is long.	12/1/2014 3:00 PM
299	Lynnwood. Montlake Overpass over 520 Redmond (sp. Bear Creek P&R)	12/1/2014 3:00 PM
300	I currently travel downtown and up to Queen Anne at the intersection of 5th and Mercer. I also go to the airport frequently.	12/1/2014 3:00 PM

301	Tacoma Dome Station, U District, Downtown Seattle, South Lake Union	12/1/2014 3:00 PM
302	Downtown Seattle Childrens Hospital Ballard University of Washington	12/1/2014 3:00 PM
303	Go to West Seattle - The Junction - from Redmond and vice versa without it taking all day. Go on one bus all the way from Redmond Transit Center to Seattle Children's Hospital	12/1/2014 2:59 PM
304	I often go from Capitol to U district, Greenlake, & Queen Anne. Would like to see easier transit options to U district/Seattle Children's Hospital, & Greenlake area.	12/1/2014 2:59 PM
305	Capital Hill Downtown via Madison St #12 or via #43 to retail corridor Seattle Children's Hospital Wedgwood neighborhood University District/UW North Seattle Madison Park Belltown via #8	12/1/2014 2:59 PM
306	My most recent routes are from North Beach Elementary school to the main UW campus (route 48) and from North Beach Elementary school to downtown (routes 18x or 40). I also use the 43 to go from UW to downtown (2001 8th Ave). I would like to have better daytime and weekend access from North Beach to downtown.	12/1/2014 2:59 PM
307	University Way NE & NE 43rd	12/1/2014 2:59 PM
308	To & From Work; Lake City to Seattle Children's Hospital. I'd like to be able to take public transportation from my home in Brier, but the route is not well supported.	12/1/2014 2:59 PM
309	Seattle Children's Hospital Magnolia Downtown Seattle South Downtown Greenlake Eastside North Seattle	12/1/2014 2:58 PM
310	Seattle Children's Hospital, Downtown.	12/1/2014 2:58 PM
311	Seattle Children's Hospital. Northgate Transit Center. 105th (Northgate) and Greenwood.	12/1/2014 2:58 PM
312	Seattle Childrens Hospital, UW, UVillage, Capitol hill, International District, SCCA.	12/1/2014 2:56 PM
313	Federal Way Transit	12/1/2014 2:56 PM
314	West Seattle and Seattle Children's	12/1/2014 2:56 PM
315	Renton to U District and back	12/1/2014 2:56 PM
316	I would like to be able to go from Capitol Hill (15th Ave and John intersection) directly to Montlake Ave/ University Village without having to transfer busses on the UW campus.	12/1/2014 2:55 PM
317	I take the 348 from Shoreline (Aurora and 185th) to Seattle Children's Hospital I also take the E Line from Shoreline to Downtown Seattle to attend games at Century Link Field	12/1/2014 2:55 PM
318	Bellevue Ave East and Denny to 4801 Sand Point Way NE Bellevue Ave East and Denny to Roosevelt and 45th	12/1/2014 2:55 PM
319	1900 ninth avenue, seattle 1959 NE pacific street, seattle	12/1/2014 2:55 PM
320	Whittier Heights/70th and 10th to University Hospital and to Downtown (3rd and Virginia) and to Westlake (Whole Foods) I would like to be able to go Whittier Heights to Capitol Hill.	12/1/2014 2:55 PM
321	Bellevue to UW Med Center Bellevue to Seattle Children's Hospital	12/1/2014 2:55 PM
322	Lynnwood transit center to UW	12/1/2014 2:55 PM

326	Children's Hospital, UW Hospital, Mill Creek Urgent Care facility, Safeway, QFC on Capital Hill.	12/1/2014 2:54 PM
327	Northgate P&R Shoreline P&R	12/1/2014 2:54 PM
328	Current;y go to: Children's hopsital Would like to go to: University Village Ballard Fremont Queen Ann Sea-Tac	12/1/2014 2:54 PM
329	Seattle Children's Resaearch Institute Seattle Children's Hospital	12/1/2014 2:54 PM
330	South lake union Downtown Seattle Lower Queen Anne	12/1/2014 2:53 PM
331	I go almost everywhere on transit. I use the bus to socialize, shop, for business and community meetings. Weekly I use it to get to SODO, downtown retail core, University District, Broadway area and then to the meetings around King County. Sometimes service seems scant in Laurelhurst, and residential areas of the suburbs.	12/1/2014 12:27 AM

332	To and from west Seattle Around west Seattle	11/30/2014 11:35 PM
333	Seattle childrens hospital, university village, northgate mall, uw medical center, 1900 9th ave, Seattle, wa 98101.	11/30/2014 10:51 PM
334	I would like to go to Snoqualmie Falls	11/30/2014 10:22 PM
335	Downtown Seattle, Sea-Tac Airport	11/30/2014 9:17 PM
336	1604 ne 50th Seattle 5710 22nd Avenue nw	11/30/2014 2:57 PM
337	Downtown on Pine St (shopping complexes/Macy's), Capitol Hill, U District, International District, Pioneer Square, Southcenter Mall, U Village Mall (this is very difficult to reach from anywhere in Seattle - takes several transfers), Northgate Mall, Ikea (again, several transfers and almost 2 hours - no direct service on Sundays).	11/30/2014 1:27 PM
338	Lake City to Downtown, or Lake City to Redmond	11/30/2014 10:45 AM
339	westlake	11/30/2014 10:34 AM
340	U district, U ville, Cap Hill, West Seattle, West Lake, Lake City, Bellevue	11/30/2014 10:26 AM
341	Downtown, north Seattle college	11/30/2014 8:41 AM
342	Seattle Children's Hospital	11/29/2014 11:59 PM
343	Seattle Children's Hospital	11/29/2014 12:14 PM
344	University Village Downtown Seattle SeaTac Airport	11/28/2014 10:38 PM
345	UW Seattle, Fremont, Queen Anne, downtown waterfront, Ballard, Wallingford, Seatac Airport,	11/28/2014 6:47 PM
346	Wallingford, Capital Hill, downtown, U-Dist	11/28/2014 5:59 PM
347	From eastside to downtown seattle, park and rides to work. WWhen the light rail opens at UW, I would love to have a bus that would connect from there to Seattle Childrens. Right now you must go further up onto campus to catch a connecting bus from that area.	11/28/2014 2:43 PM
348	Work Downtown SeaTac Airport	11/28/2014 2:12 PM
349	Seattle Children's Hospital, Edmonds, Ballard, SPU	11/28/2014 1:38 PM
350	Seattle Children's hospital Downtown Northgate Kenmore	11/28/2014 1:15 PM
351	70th & Sand Point Way, 15th NW and NW Market (Ballard), downtown Seattle, Seatac airport, Seattle Center, Ballard High area (15th NW & NW 65th)	11/28/2014 12:50 PM
352	Easier connection to the light rail from Fremont/UW area/Laurelhurst. More bus or transport routes that get to Seattle Children's hospital.	11/28/2014 12:01 PM
353	Occasionally I take the bus from Lynnwood area to downtown when shopping downtown, etc. I really, really wish I could commute by light rail from the northend by any means that would not increase my commute time so much. I do not use mass transit because it will increase my commute from ~ 35-60 min to a solid 90 minutes because of transfers.	11/28/2014 11:58 AM
354	U of Washington campus 145th and Lake City Way NE	11/28/2014 11:47 AM
355	From my home in mt baker to work at seattle childrens and back	11/28/2014 10:52 AM
356	Seattle Children's Hospital	11/28/2014 10:33 AM
357	Seattle Childrens Hospital, Northgate, Downtown, University District, Fremont, Ballard, Queen Anne, Wallingford	11/28/2014 4:42 AM
358	I use transit almost exclusively to get around seattle, from downtown to greenwood. I commute daily to Seattle Children's Hospital and would love continued service to there. I was particularly disappointed when the 30 line was severely reduced since I depended on it to get to Seattle Children's.	11/27/2014 11:56 PM
359	Downtown: Pike Place Market, International District/Uwajimaya, Seatac airport, Fremont- Theo, Bellevue TC, Northgate Mall, Capitol Hill/Cal Anderson Park, Washington Park Arboretum/Japanese Gardens, South lake Union, Seattle Center	11/27/2014 10:50 AM
360	Commuting: between the Eastside (Redmond - Redmond Transit Center or Bear Creek Park & Ride) and Seattle Children's Hospital Campus (North of UW).	11/27/2014 6:11 AM

373	8th ave nw and nw 65th st uwmc (1959 ne pacific st) seatac airport downtown (3rd and Pine) Greenwood Library(N 85th st and Greenwood Ave N)	11/26/2014 3:01 PM
374	Ballard to Downtown Seattle then walk to SLU. Ballard to Georgetown. Ballard to airport. faster routes to the eastside.	11/26/2014 2:48 PM
375	From 19th and Madison to downtown (10/11/12/43); From 19th and Madison to Seattle Children's Hospital; Capitol Hill to Ballard/Fremont. I'd like to be able to go from Capitol Hill to Seattle Children's Hospital on the bus in a quicker fashion (it takes 45-60 minutes to get to/from work).	11/26/2014 2:21 PM
376	Work airport cap hill to wedgwood	11/26/2014 2:03 PM
377	I avoid ridding public transit. It's dangerous!	11/26/2014 1:24 PM
378	Wedgwood. South Lake Union. Green Lake.	11/26/2014 1:20 PM
379	Central District to/from Downtown Central District to/from University District Central District to/from Airport Other areas I go to frome either Central District or University District: North Seattle, Wallingford, Ballard/Magnolia	11/26/2014 1:16 PM
380	700 Pike St, Seattle, WA 98101 8600 20th Ave NE, Seattle, WA 98115	11/26/2014 12:58 PM
381	UW Seattle, Downtown, Fremont, Ballard, and Greenlake	11/26/2014 12:54 PM
382	UW. Sea tac .	11/26/2014 12:53 PM
383	I currently live in the Lake City neighborhood. On multiple days throughout the week, I take the bus to Northgate, Wallingford, Ballard/Fremont, The U-District, Capitol Hill, and Downtown. I also take the light rail from Downtown to Mt. Baker Station on a weekly basis. Additionally, my husband commutes to the Microsoft Campus via bus which requires him to take a bus from Lake City to the U-District and transfer to a Redmond-bound bus in the Montlake area. Some specific names and intersections of locations include: Northgate Mall Asian Counseling Referral Services University of Washington Medical Center (U-District Campus) Microsoft Campus 14352 Lake City Way NE 4509 Midvale Ave N Seattle 1701 Broadway Seattle	11/26/2014 12:44 PM
384	Downtown, Capitol Hill, U-District, Sea-tac, West Seattle, Ballard(could use some improvements)	11/26/2014 12:44 PM

385	I commute from my home at 612 North 4th Street in Tacoma, 98403 to the National Archives offices at 6125 Sand Point Way NE 98115 on a daily basis, Monday-Friday, for work.	11/26/2014 11:07 AM
386	UW/SPU areas. An easier route from ballard to queen anne/spu area	11/26/2014 11:04 AM
387	airport to downtown. would love to be able to go to capitol hill/u district/ballard on lightrail.	11/26/2014 10:34 AM
388	Greenwood and 117th to 1900 ninth Ave (355, 5, or E lines) I also frequently go to Seattle Children's Hospital using the 355 and then transferring to a SCH Shuttle. To use public transport on nights/weekends/holidays requires several transfers and is not time effective for this location. It is difficult to get from the north to the University District or Capital Hill without multiple transfers It would be great to be able to use an express service to get downtown from the north area west of Northgate. I would definitely take transit more often if it didn't take twice as long because of so many transfers and disappearing buses.	11/26/2014 10:28 AM
389	Downtown Seattle U of Washington campus, stadium, arena Northgate Ballard Sea-Tac airport	11/26/2014 10:26 AM
390	Seattle Children's Hospital, University of Washington Medical Center, Harborview Medical Center, Theo Chocolate (3400 Phinney Ave N), Roosevelt Way Northeast & NE 65th St.	11/26/2014 10:24 AM
391	I go to the Kent station, King Street Station, Kent station, and I would like to be able to get all the way to children's hospital taking one bus from the Kent Station	11/26/2014 9:27 AM
392	Currently go Northgate to UW campus most often. Sometimes between Wedgewood - 35th and 55th and campus. Would be great to have direct access to Wedgewood - 35th and 55th from Shoreline or Northgate. Would like direct access to Campus from west of the freeway in Shoreline near Meridian and 145th.	11/26/2014 8:31 AM
393	Seattle Children's Hospital	11/26/2014 8:23 AM
394	International District station, SeaTac airport	11/26/2014 7:49 AM
395	Seattle Children's Hospital,	11/26/2014 7:49 AM
396	Bellevue, Seattle, U District	11/26/2014 7:43 AM
397	Seattle Children's Hospital, downtown Capitol Hill, downtown Seattle (Pike/4th area).	11/26/2014 7:28 AM
398	Rainier Beach Station, Capital Hill - Shopping District (Mishu, Vajra, QFC on Broadway), Downtown, University District (Seattle Children's Roosevelt Commons.) I live by the Rainier Beach Station and spend most of my time on Capital Hill and I work at Seattle Children's on Roosevelt and 43rd.	11/26/2014 7:15 AM
399	OTHELLO STATION	11/26/2014 6:44 AM
400	Northgate Transcit Center, UW Seattle/Bothell Campus, Downtown Seattle, Northgate Mall	11/26/2014 6:08 AM
401	Seattle Children's Hospital Northgate Transit center	11/26/2014 3:16 AM
402	Childrens' hospital	11/26/2014 1:52 AM
403	Would like: From u-district to Boeing Renton in 55 minutes or so. From the ave to the u-village I take it to ballard, downtown, Fremont, I used to be able to take the 30 from the ave to Seattle Center or to gasworks Then I take the 512:to Everett to catch hockey! As Seattle s team move to Kent!	11/25/2014 11:56 PM
404	Bus stop nearby	11/25/2014 11:34 PM
405	Work- Hot Cakes Molten Chocolate Cakery Home- 803 E Denny Way 98122	11/25/2014 10:45 PM
406	Downtown, Roosevelt, Northgate, Sea-Tac	11/25/2014 7:09 PM
407	Seattle Center Macy's Chinatown Safeco University District Capitol Hill Central District (Jackson and Yesler) Rainier Bus Station Bellevue Square Evergreen Point	11/25/2014 6:37 PM
408	I do not currently utilize transit, but heavily relied on it when I needed it. I have stopped using it when it become more expensive and time-consuming (thing 3 times as long) to use public transit than to drive. I'm currently more interesting in transit being a tool for the people who need it, including homeless youth. Connection between shelters would be of particular use (specifically between the Orion Center, ROOTS and The Landing). Especially so during the hours they are utilized and when it is most dangerous to be outside and in the elements.	11/25/2014 6:30 PM
409	Every station on the University Way and 15th St NE NE 40th St & 7th ave NE NE 45th St & 7th ave NE	11/25/2014 6:28 PM
410	University District (University Way, 15th Ave NE, Campus Parkway, NE 50th St., NE 45th St.) Downtown (Bus Tunnel, Denny Way, Mercer, Seattle Center) International District & SoDo Capital Hill (10th, Broadway, Pike & Pine)	11/25/2014 6:26 PM

411	Every weekday I go from Broadway and Roy to Rainier and South Walker on the 9 Express. I would like to be able to get from the Co-Op on 16th and Madison to a few blocks from my home on Broadway and Roy with out taking two busses.	11/25/2014 5:45 PM
412	Carpool or drive by myself. I would take the light rail if it comes to UW.	11/25/2014 5:21 PM
413	Seattle Children's Hospital Renton Park and Ride	11/25/2014 5:10 PM
414	Downtown Seattle, Belltown, Laurelhurst, U District, Capitol Hill, Ballard, Fremont, Bellevue	11/25/2014 4:44 PM
415	I currently use transit for just about everything, but mostly to go to and from work (U District to Westlake). I also use it to go to the airport.	11/25/2014 4:26 PM
416	Downtown Seattle to work (NE Seattle). Downtown Seattle to airport.	11/25/2014 4:22 PM
417	University District Ballard Fremont Discovery Park Golden Gardens Greenlake Georgetown Capitol Hill Central District Madison Park Magnuson Park U-Village North Seattle Community College Seattle Central Volunteer Park Tangletown Gasworks Park South Lake Union Park Kubota Gardens Rainier Beach The 2100 Building International District Uwajimaya Food Center Wing Luke Museum	11/25/2014 4:15 PM
418	I currently travel from Seattle Children's Hospital to Blaine St and 4th Ave W. I also travel from 3rd and Pike to Seattle Children's. I would like to be able to travel from Seattle Children's to Woodland Park Zoo.	11/25/2014 3:51 PM
419	Bellevue to downtown Seattle. Bellevue to West Seattle.	11/25/2014 3:32 PM
420	To and from Auburn parking garage/train station or Federal Way Park and Ride. Would really like some way to take the light rail and then hookup with a train to Auburn. Is this going to be possible at all with the light rail?	11/25/2014 3:03 PM
421	Seattle Children's Hospital Pike Place Market University of Washington Medical Center UW Law School 43rd and Roosevelt Downtown Seattle generally, many destinations Century Link Field SeaTac Airport Downtown Bellevue Downtown Kirkland Woodinville wine country	11/25/2014 2:56 PM
422	60th & Latona Av to 3rd & Madison St	11/25/2014 2:49 PM
423	Currently go to Seattle Children's Hospital and downtown.	11/25/2014 2:40 PM
424	Bellevue Square, seattle Convention Center, Mukilteo Ferry, SeaTac Airport, Portland, OR, Burlington, WA,	11/25/2014 2:33 PM
425	WOrk (Seattle childrens hospital_ Downtown Seattle Airport	11/25/2014 2:20 PM

441	I live on East hill Kent, and work in downtown (near Convention place station). I drive to Tukwila station to take the sounder (Kent station is closer but there not enough parking spaces at Kent station). After arriving at King station, I cross the street in the tunnel at International District station, and hop on any bus going north (cannot use Light rail because it does not stop at convention place station. Occasionally, to meet friends who reside in U district I take the bus (any 70s) after work.	11/25/2014 12:38 PM
442	Lynnwood Transit Center to University Area	11/25/2014 12:36 PM
443	I go from Wallingford to the University of Washington. Would like to be able to go to the airport	11/25/2014 12:33 PM
444	4800 Sandpoint Way NE	11/25/2014 12:26 PM
445	From shoreline (bothell way) to downtown or from the northgate tc to downtown for work.	11/25/2014 12:24 PM
446	I would like to use light rail and shuttles to get to work	11/25/2014 12:23 PM
447	Northgate	11/25/2014 12:20 PM
448	Work, shopping at Northgate downtown, to the airport, to the udistrict	11/25/2014 12:16 PM
449	Seattle Children's Hospital Kent Station Pike Place Market Capitol Hill	11/25/2014 12:14 PM
450	Seattle Children's Hospital, Northgate Mall, Ballard, U district,	11/25/2014 11:34 AM
451	Bellevue Transit Center Issaquah Transit Center Seattle Children's Hospital	11/25/2014 11:33 AM
452	I commute to work at UW from West Seattle (Admiral/60th). It takes at least one hour and 2-3 buses for my commute to work, and at least 1.5 hours and 2-3 buses for my commute home. I wish there were better transit options down Admiral after the 56 stops running besides the 50. It adds so much extra time to come back to West Seattle from downtown at night through the Alaska Junction when the 50 hardly runs (and/or is late). I've started using Car2Go more from either downtown or the Alaska Junction to get home because of the wait times for a 50. In an ideal world the light rail would extend to West Seattle (Alki) so that I could take that all the way to UW once the track through Capitol Hill is completed. For now, I am very much looking forward to being able to get on the light rail from downtown without having to worry about making bus connections, and I think the commute time will be about the same.	11/25/2014 11:30 AM
453	From 25th and 55th (or 25th and 65th) in the Udistrict to downtown (Convention Place); from 25th and 65th/55th to North Seattle College (would like to be able to go, and come home! Currently, this is not really feasible.) Also, from Convention Place to North Seattle College or Northgate TC.	11/25/2014 11:30 AM
454	Stadium, airport, Seattle children's hospital	11/25/2014 11:25 AM
455	I live in Lynnwood right now. I frequently make trips from here to the Lynnwood Transit Center, from there to the Aurora Transit Center. Then I take the E Line down Aurora to 85th street and take the 48 west to 15th. Also going from Aurora Transit Center to downtown. I usually take the E Line, but it takes a very long time.	11/25/2014 11:23 AM
456	A major destination in every major Seattle neighborhood (eg, Capitol Hill, Queen Anne, downtown, Belltown, south lake union, etc).	11/25/2014 11:22 AM
457	Seattle Children's Hospital University of Washington Medical Center Lake City	11/25/2014 11:20 AM

461	Seattle Children's	11/25/2014 10:59 AM
462	Seattle Children's Hospital Sound Transit light rail- from Seatac to Downtown Seattle (would be great to add connections to the eastside (Bellevue, Kirkland, Woodinville)	11/25/2014 10:57 AM
463	From Linden Ave N and N 77th Street to Seattle Children's Hospital	11/25/2014 10:55 AM
464	Downtown Seattle Children's	11/25/2014 10:55 AM

465	I currently mainly go between my transportation hub (Ravenna/65th St Park & Ride) to downtown, Northgate, and Seattle Children's Hospital. I occasionally go to Capitol Hill (various locations), the International District (various locations), SeaTac airport, Bremerton and Bainbridge Island (via ferry). I can't drive, so all of my getting around is via transit. I'd like to be able to visit my parents in Enumclaw via transit so I don't have to have someone drive me each way. Approx ten years ago (before several rounds of route cuts), the Ballard-to-Enumclaw trip by bus took five hours and was impractical. Also, better connections between I-5 corridor Park & Rides would be fantastic.	11/25/2014 10:42 AM
466	Downtown core, Seattle center area, Capital hill - olive/broadway , Pike/Pine Corridor; 19th & 15th St between Mercer & Madison. Ballard, Fremont	11/25/2014 10:39 AM
467	I would like to take one bus to go directly from Capitol Hill (Denny Way & Bellevue Ave E) to Fremont (Fremont Ave N & N 34th St). Right now my daily commute requires that I take two different busses.	11/25/2014 10:39 AM
468	I currently go from my home on the corner of North 40th Street and Ashworth, to my work at Seattle Children's Hospital at 4800 Sand Point Way NE. I use the 31/32 bus which changes to the 75. This is VERY easy and handy for me!!	11/25/2014 10:36 AM
469	I would love possibilities of direct-access routes between major neighborhood hubs. Ballard, Queen Anne, Sodo, Wedgewood/Sandpoint.	11/25/2014 10:36 AM
470	King Street Station to catch the sound commuter train to the south.	11/25/2014 10:36 AM
471	I go to my job Seattle Children's Hospital, downtown, to UW Meany Hall performances, Greenlake, to the Airport (To have a couple of express trips to airport on light rail would be genius!) Ballard	11/25/2014 10:31 AM
472	Ballard	11/25/2014 10:31 AM
473	University Village Roosevelt area (near Whole Foods) Greenwood and 85th 85th and 8th NW Ballard Library Golden Gardens Park Green Lake UW main campus 5th & Jefferson downtown 8th & Virginia downtown 12th & Pike on Capitol Hill Puget Sound Blood Center - main office on Madison St and research center on Eastlake downtown sports stadiums	11/25/2014 10:29 AM
474	tukwila link light rail station Husky stadium	11/25/2014 10:27 AM
475	I commute between northeast Seattle to Seattle Children's Hospital, University of Washington, and downtown to the Seattle Children's research institute. It would be nice to have increased access to downtown from northeast Seattle, especially on nights and weekends, via the light rail that doesn't take 45 minutes.	11/25/2014 10:26 AM
476	From Des Moines to Down town Seattle and catch the shuttle to Children's hospital. Kent Des Moines Park & ride to downtown Children's Hospital Shuttle to Main Campus at 4800 SandPoint Way	11/25/2014 10:24 AM
477	Currently: Work and home. I would like to be able to easily go: To doctor appts, area attractions such as DT Seattle, aquarium, zoo, Issaquah Salmon days, other festivals etc.	11/25/2014 10:24 AM
478	Currently go to work. I'd love to be able to get downtown easier from Edmonds on the weekends.	11/25/2014 10:22 AM
479	Since I don't own a car, everywhere!	11/25/2014 10:21 AM
480	Auburn train station to King Street Station. Will love it when I can transfer to the light rail and make it to UW Station or University Station	11/25/2014 10:21 AM
481	To and from work (medina to u district), to and from downtown, to and from the airport.	11/25/2014 10:18 AM
482	Seattle Childrens Hospital 4800 Sand Point Way NE	11/25/2014 10:16 AM
483	would like to go from University of Washington station (Husky stadium) to Childrens Hospital and to 70th and Sandpoint by frequent bus especially non-rush hours.	11/25/2014 10:15 AM
484	Airport Link light rail station Seattle children's hospital Downtown	11/25/2014 10:14 AM
485	Seattle Children's Research Institute 2319 Boyer Ave E CenturyLink Stadium Capitol Hill - Trader Joes, 15th Ave Safeway, Pike/Pine Corridor Seattle Children's Hospital Airport 1st Ave & Hanford Downtown Retail Core	11/25/2014 10:09 AM
486	I go to work (8th Ave and Virginia), I go to the Stadium district (Pioneer Square) and I go to and from Downtown Shopping areas (Pike and Pine between 3rd and 7th). I live in Capitol Hill near Top Pot Doughnuts and would like to be able to get to these destinations more easily, the 47 route served many of these needs and I would like to see it restored, primarily during morning and afternoon commute hours. Significantly reduced off-peak service is quite acceptable.	11/25/2014 10:08 AM
487	I mainly ride the bus or light rail to go work at Seattle Childrens Hospital, main campus	11/25/2014 10:08 AM

488	Seattle Children's Hospital Alaska Junction neighborhood, West Seattle Alki Beach, West Seattle Capital Hill 15th Ave- Ballard/Interbay	11/25/2014 10:07 AM
489	I currently go from Mt Baker to Capitol Hill, U-district, Downtown, Northgate, Ballard, Greenlake, and Lake City.	11/25/2014 10:05 AM
490	I bus from Northgate to work @ Seattle Childrens Hospital & from Northgate to downtown Seattle for Sounders, night out & such.	11/25/2014 10:03 AM
491	Edmonds P&R Mountlake Terrace P&R Ash Way P&R Lynnwood Transit Center Northgate P&R	11/25/2014 10:02 AM
492	Current: Airport Work (Children's Hospital) Ideal Downtown Northgate Ballard Fremont	11/25/2014 10:02 AM
493	from home, downtown (9th & Virginia) to work (Seattle Children's), Capital Hill, Airport, U Distric	11/25/2014 10:01 AM
494	Northgate Park and Ride to downtown (8th and Virginia) 65th Park and Ride to downtown (8th and Virginia)	11/25/2014 10:01 AM
495	1900 Ninth Ave, Seattle University of Washington 1729 Harvard Ave, Seattle, WA 98122	11/25/2014 10:00 AM
496	Work at Seattle Children's Hospital in Seattle and Bellevue at the Overlake Medical Tower; home at 35th and Wallingford in Seattle; Capital Hill for dining out and cocktails - 15th ave and the Pike/Pine corridor; Downtown for art and shopping;	11/25/2014 10:00 AM
497	Seattle Children's Hospital	11/25/2014 9:56 AM
498	Downtown, Seattle Children's Hospital (and admin offices at 70th & Sand Point), Wallingford, Mt. Baker	11/25/2014 9:54 AM
499	Mountlake Terrace Transit Center. University District (45th and Roosevelt). South Lake Union (Stewart & Yale). Century Link Field.	11/25/2014 9:54 AM
500	To work in downtown to the airport capitol hill	11/25/2014 9:54 AM
501	Down town, greenlake, roosevelt, ravenna, north seattle, northgate	11/25/2014 9:54 AM
502	Work (Seattle Children's Hospital) Downtown Seattle Airport Northgate Transit Center Greenwood Neighborhood (101st & Fremont Ave N) Georgetown	11/25/2014 9:53 AM
503	From Ballard (74th and 28th NW) to Children's hospital and from Ballard to downtown Seattle.	11/25/2014 9:53 AM
504	I currently go from Bellevue (92nd avenue stop 271) to the University of Washington (45th stop), and I would like there to be a more direct transit route from overlake transit center to UW that runs later/more hours than the current one (542). I also go from Overlake transit to Downtown seattle on the 545.	11/25/2014 9:50 AM
505	West Seattle, Capitol Hill,. First Hill, University District, Laurelhurst, Ballard, Fremont,	11/25/2014 9:49 AM
506	I would like a bus route in front of my house which is on S 124th St. Our community would love to have a bus line there but there is none at this time. Address is 12258 48th Avenue South Tukwila, WA 98178	11/25/2014 9:49 AM
507	I would love more direct, fast transit from Ballard/Fremont to UW/Sandpoint! The east/west transit is always difficult.	11/25/2014 9:49 AM
508	Currently commute to/from work. Would like to go to community events (theater, movies, museum) and still find a bus that runs late for the trip home.	11/25/2014 9:47 AM
509	west seattle to downtown then Seattle Childrens or SCH to burien transit center	11/25/2014 9:47 AM
510	I go from Swedish Cherry Hill from Downtown and then go from downtown on a Shuttle to Seattle Children's. I would love if there was ONE bus from First Hill and/or Cherry Hill to Seattle Children's. Hopefully the lightrail will do that without issues.	11/25/2014 9:46 AM
511	Seattle Children's, University of Washington, Husky Stadium, Capitol Hill, Downtown	11/25/2014 9:46 AM
512	Northgate to downtown and Seattle Children's areas (including u-district)	11/25/2014 9:46 AM
513	worksite--4300 Roosevelt Way NE	11/25/2014 9:46 AM
514	Ballard to/from U-District, Ballard to/from Seattle Children's Hospital, Ballard to/from downtown, Ballard to/from Sea-Tac	11/25/2014 9:45 AM
515	from the Kent Park N Ride to 46th and Leary Way in Ballard. From Home to work and back again.	11/25/2014 9:14 AM
516	Downtown, U village shopping center, pioneer square, train station,	11/24/2014 10:57 PM
517	Downtown Capitol Hill Lake City I would like to go to SODO Arena Sports gym.	11/24/2014 10:27 PM

518	Velocity Dance Center, Dance Underground, University Avenue	11/24/2014 10:02 PM
519	The transit system in the Seattle area is pretty useful in my limited experience. The light rail will be a very large improvement to the system (I've spent 5 years using BART in SF and it is incredibly important piece of their transit system). Reorganizing and implementing bus hubs around where the light rail will stop is key in maximizing the usefulness of the public system for the public. Syncing up bus stops with light rail stops would be awesome. Allowing people to hop on a bus, get to the lightrail, then take the lightrail that would run every 10-30min (based on peak times) to another part of the city extremely quickly. Wifi on buses/rail Have the whole system under one payment method (ie clipper in SF works fantastically) Have monthly/yearly unlimited passes that are payable in full up front. Make the light rail, bus, ferry, and airport systems seamless.	11/24/2014 9:23 PM
520	Downtown (6th and University) Capitol Hill (varies, Pike and Broadway central) Ballard	11/24/2014 9:14 PM
521	From Wedgwood to the UW Stadium light rail station.	11/24/2014 8:24 PM
522	Bartell Drugs 600 1st Ave N 5716 NE 60th Street 1909 13th Ave West Sea Tac Airport Seattle Public Library Burien Public Library Northgate Shopping Center Thornton Creek Complex University of Washington Physicians at Northgate	11/24/2014 8:22 PM
523	9th and John in Southlake Union, Madison and 14th on Capitol Hill, Mt. Baker Transit Station, S. 12th ave and S Judkins	11/24/2014 6:44 PM
524	I currently go from U-district to Ballard or Cap Hill. I would really love to be able to get from Ballard to Cap Hill directly. I would also love to have more direct transit from U-District to Beacon Hill.	11/24/2014 6:25 PM
525	Wedgewood/UW Campus, U Village, Downtown Seattle, Northgate	11/24/2014 6:06 PM
526	Primarily to work at 1918 8th ave, 97105. Also use light rail to get to the airport. Sometimes use bus to get to downtown or capitol hill (neumos area).	11/24/2014 5:32 PM
527	King Street Station	11/24/2014 3:39 PM
528	West Seattle to Light rail station UW Stadium to Northgate	11/24/2014 3:13 PM
529	All over Seattle and King County	11/24/2014 3:00 PM
530	wedgwood to UWMC or to downtown multiple locations, including pioneer square	11/24/2014 2:53 PM
531	Downtown, university district, NW 46th & Phinney Ave N (stop nearest home), ballard, Bellevue, airport	11/24/2014 2:25 PM
532	Eastside Kirkland/kenmore to UWMC	11/24/2014 2:25 PM
533	Currently go: Maple Leaf to UW. Maple Leaf to downtown or to SeaTac. Would like to be able to travel more easily from Maple Leaf to Capitol Hill, Greenlake, Ballard, Fremont, and S. Lake Union.	11/24/2014 2:16 PM
534	Beacon Hill Link Transit	11/24/2014 12:41 PM
535	UW, U district, downtown, Northgate, SODO, airport	11/24/2014 12:04 PM
536	I currently go to UW, Downtown Seattle, Capitol Hill, Belltown, Seattle Center, and Ballard.	11/24/2014 10:34 AM
537	Frequently used routes include UW to/from Fremont, UW to/from Downtown, UW to/from Ballard.	11/24/2014 10:32 AM
538	West Seattle (admiral, Alaska Junction, Westwood Village), Southcenter Mall, 401 Broadway, 1959 Pacific, downtown Seattle, downtown Everett, downtown Tacoma, 521 Wall Street, 3411 S. Alaska, West Seattle water taxi dock (both sides), University district businesses, Northgate Mall,	11/24/2014 10:25 AM
539	Currently usually travel between work and home, home 15th Ave NE & NE 130th St (approx), and work 6th Ave and Valley St. Occasionally will also use transit to travel downtown on a weekend or to the University District.	11/24/2014 10:13 AM
540	I go to UW daily	11/24/2014 9:34 AM
541	FROM THE UW MEDICAL CENTER TO TACOMA, FROM UW MEDICAL CENTER TO DOWNTOWN SEATTLE, FROM TACOMA TO THE UW MEDICAL CENTER, FROM DOWNTON SEATTLE TO TACOMA, FROM THE UW MEDICAL CENTER TO GROUP HEALTH, CAPITOL HILL	11/24/2014 9:32 AM
542	NE 45th and Brooklyn NE 19th E and Republican Westlake Center SeaTac Airport Seattle Central Library WA Ferry Terminals in Seattle and Bainbridge Island	11/24/2014 9:08 AM

543	Currently: 4th and University, 8th W. and McGraw, SIFF Cinema at Uptown, Egyptian Theatre, Harvard Exit Theatre, Virginia Mason Medical Center, Downtown Transit Center in Bellevue, Kent Station, 43rd and University Way NE, Pacific Place Would like to be able to go via transit: Winco grocery store in Kent, Carbinitos on Central Avenue in Kent	11/24/2014 8:59 AM
544	From Green Lake/Tangletown area to downtown, capital hill, Magnuson Park, Ballard Community Center, Shoreline. I wish there was a better way to get out to Magnuson Park. I end up walking as much as I am on the bus because the bus from Green Lake doesn't go very close to the park.	11/24/2014 8:30 AM
545	Mostly I use it to get to my job at the UW. I would like to use it to go to church on Sunday from Maple Leaf area to 6556 35th Ave NE. I would also like to be able to shop on occasion to University Village or Northgate. But, the 68 which is the best bus for me and getting to all these locals does not run past 6:00pm in the evening or on Sundays.	11/24/2014 8:27 AM
546	From 412 Broadway in First Hill to the U District, 50th and 9th Ave NE. I travel between these locations 5 days a week, but I also travel everywhere on the bus, between First Hill/Capital Hill, Downtown, Fremont, Ballard, Columbia City, Mt Baker, the U District, West Seattle, Georgetown and sometimes Bellevue and Issaquah.	11/24/2014 8:25 AM
547	I want to be able to go to all neighborhoods via transit. Right now, I primarily travel between Capitol Hill (where I live) and - Beacon Hill (Jefferson Park along 15th) - Seattle Children's Hospital - University District - Queen Anne Hill (along W Galer St) - Ballard - Wallingford - Ravenna - North Seattle (near the NS community college, but really it should be easy to get everywhere in N Seattle) - Downtown Seattle - West Seattle (this should be better connected to the rest of the city) - Other cities like Tacoma, Olympia, Bellingham, etc.	11/24/2014 8:04 AM
548	work and shopping	11/23/2014 9:25 PM
549	Ballard. Fremont. Wallingford. South Lake Union. Seattle Retail Core. Pioneer Square.	11/23/2014 9:12 PM
550	All of downtown Seattle, numerous locations on Capital Hill, Northgate area, Wallingford shopping area, Seattle First Baptist Church and medical bldgs on First Hill, Bellevue TC, University District shopping area.	11/23/2014 7:33 PM
551	University of Washington, Seattle campus Lake City Way & NE 120th St Taylor Ave N & Valley St.	11/23/2014 7:20 PM
552	-South Seattle -Airport -Shopping Centers -Redmond and Bellevue	11/23/2014 3:49 PM
553	University of Washington, Airport, Pike's market, trader joes on madison and roosevelet, Solid Ground, downtown.	11/23/2014 1:59 PM
554	Puyallup to Seattle and U of WA in Seattle.	11/23/2014 11:14 AM
555	from Wallingford close to I5 and 45th st to Swedish First Hill medical center	11/23/2014 9:19 AM
556	U district Downtown Seattle Downtown Renton Would like easy transit to Bellevue and Tacoma	11/23/2014 7:53 AM
557	Downtown Seattle Bremerton	11/23/2014 2:15 AM
558	* Bellevue Ave and Belmont in Capitol Hill. * 45th and Brooklyn in the U District. * Etruria and 3rd near Fremont. * Airport * various other neighborhoods for recreation: Ballard, Belltown, Queen Anne, Georgetown, SoDo, Downtown, etc.	11/22/2014 9:39 PM
559	I currently go downtown westlake station on the 74, Queen Anne/U District/Sandpoint 32/31/75, Downtown/Capitol Hill 71,72,73,49, Wedgewood Library 65, Ravenna 15th and 65 NE 66 I would like to go everywhere in the great Seattle Metro/ King and Snohmish County on bus. I rely on the bus for my transportation because I do not drive. I would like to see more #74 bus routes. Maybe getting a direct route between Downtown and Sandpoint Way by passing the U District. Maybe the #74 can replace the #30. The #74 is a very popular route and its to crowded getting on it from Westlake Station. Travel is extremely congested. We need to improve quickly our public transportation system. Thank you	11/22/2014 6:49 PM
560	from west seattle 8633 12th ave sw to swedish medical center first hill work 12 hr shifts from 0700 to 1930.	11/22/2014 6:03 PM
561	Mostly between downtown and the U -district.	11/22/2014 1:17 PM
562	Renton, Tukwila, Seattle neighborhoods (cap hill, beacon hill, Wallingford, Fremont, Ballard)	11/22/2014 12:57 PM
563	Green lake Ballard Seattle Center Northgate Mall Fremont	11/22/2014 12:35 PM
564	Seattle Metropolitan Tower, City Hall, City Council Hearings and shopping. We have no shopping in Leschi and without the #27, I shop online.	11/22/2014 8:32 AM
565	I mainly go back and forth to work from first hill (Boren and Madison) to university village. I have to take 2 buses to get there and would like a faster one bus option.	11/22/2014 8:03 AM

566	Work @U W almost daily & to the airport as needed. Try to use bus if I am going downtown for anything	11/22/2014 2:15 AM
567	downtown Everett (Snohomish Co. campus) Mariners baseball games (Safeco Field) Sea-Tac airport	11/22/2014 1:26 AM
568	Work Downtown Seattle at 6th & University. Take the bus to get there. The bus riding experience these days is extremely unpleasant. Terrible roads in Seattle and gross overcrowded buses.	11/21/2014 8:45 PM
569	Between Wallingford & downtown, ideally avoiding catching buses on 3rd avenue after dark Between Wallingford & Ballard Between Wallingford & Magnuson Park/Sand Point Would like to go between Wallingford & Bothell/UW Bothell in less than 90 minutes Between Wallingford & SeaTac Seattle/U District to Bellevue & Redmond (in less than 90 minutes)	11/21/2014 7:57 PM
570	University of Washington - Seattle Holy Ground Community Church	11/21/2014 7:21 PM
571	UWMC, UW main campus, Harborview Medical Center, VA Medical Center, airport, Westlake, Pioneer Square, Safeco Field. I would like to be able to get to Northgate Transit Center but this requires multiple transfers	11/21/2014 7:08 PM
572	IMA at the University of Washington, Seattle WA 1730 Minor Ave, Seattle WA SEATAC airport	11/21/2014 6:44 PM
573	Downtown Seattle. UW campus Bellevue Square Capital Hill	11/21/2014 5:08 PM
574	Easy efficient access from Lynnwood transit center or downtown Seattle to the University Village shopping area, instead of having to transfer 2-3 buses. There is no one bus route from downtown direct to U village.	11/21/2014 3:57 PM
575	I ride the Link light rail about four days a week from the Rainier Beach station to the University station. A day or two a week I take Metro bus route 143 from the Renton Transit Center to 4th Avenue and Union Street in downtown Seattle. If there was more parking available, I would take the Link light rail wherever I could. It is a wonderful, fast, safe, clean, easy option for commuting in Seattle.	11/21/2014 3:53 PM
576	West Seattle Airport	11/21/2014 3:37 PM
577	UW or downtown	11/21/2014 2:39 PM
578	Home/Lynnwood to downtown Seattle, Northgate area, and Sea-Tac Airport.	11/21/2014 2:33 PM
579	From SE Kent (SE 256th St and 146th Ave SE) to the university district in Seattle.	11/21/2014 2:13 PM
580	Currently; Anywhere Downtown Seattle I don't own a car so Public transportation is the only way I get around. No specific place but the ability to move east/west/north/south in a timely manner. Perhaps a tighter grid. Often there are time that I can't go to an event of home of a friend because there is no bus close and the available bus service will take over 2 hours.	11/21/2014 1:51 PM
581	rento and bellevue	11/21/2014 1:21 PM
582	Tacoma to Lake City	11/21/2014 12:54 PM
583	Greenlake, downtown, rainier beach, kent	11/21/2014 11:47 AM
584	I travel between Int'l District/Chinatown and Brooklyn Ave. & Campus Parkway as well as stops along University Blvd in the University District.	11/21/2014 11:30 AM
585	I would like to go to Renton with a faster route. It usually takes me 45mins-1hour to get there but it would be great if there was a faster route.	11/21/2014 10:49 AM
586	To work at Seattle Childrens Hospital on Sandpoint way and Swedish Medical Center on First Hill off Boren and Madison.	11/21/2014 10:41 AM
587	From Everett Station to the University (201/202 & 860, or 532 & 880). Would like schedule of ET buses to accommodate going from home to Everett Station.	11/21/2014 10:30 AM
588	University of Washington, Seattle Art Museum, Cicada Bridal, All over University District, Wedgewood, greenwood, ballard, capitol hill, Downtown, and lake city neighborhoods. I travel at least once a week to Olympia through Tacoma using public transit. I also make trips to La Conner, Mount Vernon, Burlington, and Bellingham. To start, I'd Love to be able to take one electric train to all of those places, if not a train that runs from Portland through Olympia, Tacoma, and other cities to Seattle and onward all the way to Bellingham through Mount Vernon, and other cities along the way. To suggest connections beyond those I think would be ambitious at this time given our current rate of change, however I could say more.	11/21/2014 9:47 AM
589	1301 2nd Ave, Seattle, WA	11/21/2014 9:43 AM

590	I travel 5x/week from north capital hill (10th Ave E & E Miller St) to pioneer square (2nd & Jackson) and from 2nd & Jackson to 2600 Eastlake Ave E	11/21/2014 9:40 AM
591	North Seattle to UW Campus & Shoreline to UW Campus (both routes regularly)	11/21/2014 9:24 AM
592	I go from U District to: 1. Kenmore (work daily - taking 372) 2. Downtown Seattle 3. Fremont area 4. Queen Anne/Seattle Center 5. Sandpoint - Cascade Bicycle Club 6. Visit family in Kent once a month.	11/21/2014 9:13 AM
593	University village Tukwila link light rail station	11/21/2014 8:48 AM
594	Jackson Fed Bldg	11/21/2014 8:31 AM
595	Harborview medical center, ballard, u district, redmond, Woodinville, Duvall	11/21/2014 8:19 AM
596	Commute to Bellevue transit center and downtown Seattle. Would like a direct route to Seattle Center.	11/21/2014 6:18 AM
597	Would like to be able to ride directly from the Northgate Transit Center to Capital Hill (x7/week). Would also like the Rapid Ride (C?) terminating at QFC on Holman Road to continue on to Northgate, or at least make the return loop to Crown Hill *via* Greenwood Avenue and Holman Road. (Continue to Greenwood ave. at top of the hill).	11/21/2014 3:15 AM
598	Russian Community Center Seattle Public Library University District Home Washington Ferry Northgate Mall	11/20/2014 11:59 PM
599	University of Washington, Beacon Hill	11/20/2014 10:06 PM
600	Lynnwood Transit Center 16th & John St	11/20/2014 10:05 PM

602	currently go: riverside residences tuk intl blvd & s 112th rt 124 renton highlands: route 105 & former route 909. Lamb of God church& p&r rte 41 Westlake Center: too many routes to list! Pacific Science Center: rt 3&4 would like to go: carkeek park: near beach Richmond Beach park	11/20/2014 9:57 PM
603	Everywhere: Work: Amazon.com / SLU Ballard: Old Ballard neighborhood Capitol Hill: Broadway/Pike-Pine, Further north on Broadway U-District: The Ave, University Village Mall West Seattle: Main business district Ali: Alki beach Queen Anne and LQA Parks	11/20/2014 9:54 PM
604	I currently live at East Green Lake and travel often to the UW campus/U-district, using mostly the 48, but also the 67, and the 542 during rush hour when the 48 often has standing room only. I also go downtown on either the 16 or the 26, and at times on the 66. Occasionally on the 316 if it is early morning. Also take the 16 to Northgate occasionally, and the 48 to Loyal Heights/Ballard. I wish there was service from here over the freeway along 75th, and service along 65th all the way to Green Lake Elementary, continuing straight instead of turning on Ravenna.	11/20/2014 9:40 PM
605	currently go from wallingford to downtown and back. would like to be able to go to wallingford to capitol hill and back faster	11/20/2014 9:40 PM
606	South Everett, Shoreline, Bellevue, Redmond, downtown Seattle, University District	11/20/2014 9:29 PM
607	I go from the Tacoma Dome to the Univ. of WA (Schmitz Hall). I take ST 586, unless the traffic is bad and then I take the ST train and one of the 71/72/73 express buses (often standing room only).	11/20/2014 9:27 PM
608	I go to downtown, North Seattle Community College, Capital Hill.	11/20/2014 8:27 PM
609	Lynnwood Park and Ride to 12th and Madison for work. Occasionally social to Seattle Center	11/20/2014 7:37 PM
610	Seatac airport. Capitol/first hill. UW medical center, Seattle Cancer Care Alliance	11/20/2014 6:13 PM
611	downtown, wedgwood, udistrict	11/20/2014 5:30 PM
612	I currently go between the U-District and Redmond (Microsoft building 37), Downtown Seattle, Belltown (the Rendevous), Capitol Hill (Scratch Deli on 12th Ave), Tacoma (Tacoma Comedy Club), downtown Bellevue, Renton, Eastlake, South Lake Union, and Enatai Beach Park when it's warm.	11/20/2014 5:26 PM
613	Eastlake, Downtown, Bellevue, Capitol Hill, First Hill, International District, Waterfront, West Seattle, Beacon Hill, Fremont, Ballard, Northgate, Ravenna, Greenlake, U District, Wallingford.	11/20/2014 5:03 PM
614	EVERYWHERE!!!! I don't have a car for a reason!	11/20/2014 4:52 PM
615	I mostly go between 46th & Fremont and 45th & University (that's my commute). I also go from 46th & Fremont to downtown, capitol hill (all areas), and Beacon Hill.	11/20/2014 4:37 PM

616	I currently go Downtown/Seattle Center and back home to Capitol Hill. I work downtown but I like to go to other neighborhoods such as the U District and Belltown. I would love to be able to have a more direct trip from Capitol Hill to Ballard.	11/20/2014 4:34 PM
617	Colman Dock Ferry	11/20/2014 4:24 PM

620	Commute from NE Seattle to Lakewood/Tacoma	11/20/2014 3:34 PM
621	DT, Queen Anne & Capital Hill	11/20/2014 3:25 PM
622	Broadway and Jefferson, Seattle Eastmont Park & Ride, Everett	11/20/2014 3:18 PM
623	Downtown, Northgate Mall & various medical centers, Ballard, Fremont and University District.	11/20/2014 3:14 PM
624	I would like to see more Service On The Route 101 and soon. I would like the Route 280 restarted.	11/20/2014 2:35 PM
625	Currently: Downtown Seattle, various places Showare Center Kent Xfinity Arena Everett Swedish Medical Center, First Hill	11/20/2014 2:15 PM
626	I live on Capitol Hill and mostly use transit to get to my two jobs, one at Harborview (325 9th Ave), and one in the University District (4740B University Way NE).	11/20/2014 1:51 PM
627	Home (800 block of NW 64th St) Work (suzzallo library) Downtown (pike place market, pioneer square) SeaTac airport	11/20/2014 1:44 PM
628	School, Home (Halladay and 4th), South Mercer Island, Downtown Seattle, Northgate, Captiol Hill	11/20/2014 12:24 PM
629	Home (Auburn), work (UW), other (Seattle, Renton)	11/20/2014 12:19 PM
630	UW Medical Center/University District, Shoreline Park & Ride, Downtown Seattle, Seattle Center, Downtown Bellevue, Bellevue Transit Center, SeaTac Airport, Northgate	11/20/2014 12:08 PM
631	I go to an office near Pioneer Square Monday through Friday and it takes me longer to get there than people taking the buss from Bellevue or Edmonds. My ride is only 6 miles and takes at least 40 min. Many people from the neighborhoods along Sandpoint drive to avoid all the waiting for connections and or travel time. I would like to see a route directly to the city center via Sandpoint Way, Montlake, and 520 to the city center that does not go through the UW campus and Montlake during the work week. Or, I would like to see a bus travelling Sandpoint Way that goes directly to the Husky Light Rail Station before going through the campus. A park and ride lot at Magnuson Park serving NE Seattle neighborhoods would be a good idea also. Hopefully you install bike lockers at the Husky Stadium light rail station.	11/20/2014 11:34 AM
632	downtown central library, Northgate, University of Washington, Goodwill on 137th, Value Village (Crown Hill), Wallingford Senior Center, movie theatres, Tacoma Glass Museum, Bothell, Seattle Art Museum, Capitol Hill	11/20/2014 11:16 AM
633	I typically go downtown Seattle. My wife commutes to Bellevue (108th) from Ravenna 4 days/wk. Her 243 bus was cancelled...terrible decision on Metro's part. She is forced to wait in the rain, transfer, and then stand on the bus. Terrible, terrible service to a major destination. What are your thinking!??? When UW light rail opens, how are your going to feed...there is no parking there. Buses will need to funnel through 25th or over Montlake Bridge to get to it. Will there be bus lanes on 25th??? There should be.	11/20/2014 11:16 AM
634	I go to school at UW and visit other campuses namely UW medical center, harborview, south lake union.	11/20/2014 11:16 AM
635	I live in Wedgwood. My routes are: Wedgwood to Redmond and back Redmond to downtown Seattle and back Downtown Seattle to home Downtown Seattle to Redmond Wedgwood to airport and back	11/20/2014 11:08 AM

640	Wedgwood to UW, round trip.	11/20/2014 10:19 AM
641	to a sounders game	11/20/2014 10:19 AM
642	downtown, Madrona Neighborhood, Airport	11/20/2014 10:06 AM
643	Downtown University of Washington SEATAC Ballard Queen Anne Ferry Terminal Century Link Key Arena SoDo Northgate GreenLake Greenwood Phinney Ridge	11/20/2014 10:05 AM
644	I currently go to UW (Upper Campus and the academic buildings all along the cut along Pacific as well as up University Way as far as 55th), Capitol Hill (Gage Academy of Art and all along Broadway), Downtown (All along Westlake Ave. and everywhere from Blanchard to Marion between the waterfront and 9th Avenue), and to Manchester via the Bremerton Ferry and the Port Orchard foot ferry. I used to go to the VA Hospital a lot in Beacon Hill, as I work with some researchers there. I would like to be able to go to Alki, Greenwood, and Mercer Island more easily, as we've been thinking about buying a house those places, and downtown Bellevue would be nice to connect the two areas.	11/20/2014 9:48 AM
645	Get off at Pike and 2nd Ave, then go to the tunnel for bus #71, then take any or 271 to the office	11/20/2014 9:48 AM
646	UW SEA-tac airport Capitol Hill	11/20/2014 9:47 AM
647	Between UW and Bonney Lake, UW to Century Link/Safeco, UW to downtown, UW to Tacoma	11/20/2014 9:45 AM
648	South Lake Union! Ballard!	11/20/2014 9:45 AM
649	Currently go: Bryant neighborhood / home (5000 block of 37th Ave NE), work downtown Seattle 1011 Western Avenue, occasional trips to SeaTac airport, dentist in Tangletown of Greenlake area, barber in Wallingford, up to restaurants and stores on Capitol hill or medical appointments from downtown. Would like to go: Georgetown area, from home to work without having to go thru University District.	11/20/2014 9:36 AM
650	521 27th Ave to the University of Washington SeaTac Airport from 521 27th Ave. 8564 Greenwood Ave N. to 521 27th Ave 222 Yale Ave N. from 521 27th Ave 860 Terry Ave N. from 521 27th Ave	11/20/2014 9:06 AM
651	Downtown, University District, Capitol Hill	11/20/2014 8:39 AM

666	Lake City, eastgate, SeaTac	11/19/2014 8:43 PM
667	right know i currently go back and forth from lakecity to kent and back around the city.	11/19/2014 7:45 PM
668	I currently go to Downtown Seattle or the University of Washington. I hope one day there will be a bus connecting to Oregon and Canada. Also, a direct bus route connecting South Seattle to West Seattle would be good.	11/19/2014 7:35 PM
669	Seatac Link Light Rail Station	11/19/2014 5:32 PM
670	501, from Tacoma to where I live in southeast Federal Way, before Weyerhauser at the 28th Ave SOUTH and South 368th st intersection. I also use this if possible when going to the airport and transfer to 574 Sound Transit to the airport. The cutbacks on the 501 have been a terrible blow, I also take ST 577/578 seattle bus to downtown from Federal Way Transit center. I have transferred to then go to the UW Farmers market on weekends. I also have taken a connection to go to other places when I have gotten off the express ST 577/578. I am saddened still that there is no help for Federal Way residents. As many of us who live in King County, Federal Way, this should be improved. I cannot go anymore to work southbound to Tacoma General Hospital because of the unavailability of busses at the earlier hours and the time it takes to get there. I used to take 1 1/2 hours previously to get to work and back home too. This cut in to my life activities outside of work. This is not possible anymore with 501 starting so late in the day and ending so early in the evening. I'm from Bklyn,NYC and appreciate mass transit and look forward to getting around in the future with more ease.	11/19/2014 5:26 PM
671	Redmond	11/19/2014 5:23 PM
672	I go to UWMC.	11/19/2014 5:16 PM
673	I use king county metro to go from my home ine Lauralhurst 3901 NE 45th st. to northgate mall and transit center, Ballard/NW market all the way down to the locks, UW Campus, Downtown pike area/Westlake and the ferry terminal. I use the link to get from downtown to the airport regularly.	11/19/2014 5:15 PM
674	From Montlake to Ballard, From Montlake to the University of Washington, From Montlake to Beacon Hill, From Montlake to Downtown and back, From Montlake to Capitol Hill and back From the University of Washington to Capitol Hill and back From the University of Washington to Laurelhurst	11/19/2014 5:12 PM
675	UW, Downtown, Capitol Hill, Ballard	11/19/2014 5:08 PM
676	University of Washington, Northgate Mall, downtown	11/19/2014 5:07 PM
677	Downtown, UDistrict (42&15th),	11/19/2014 5:01 PM
678	Allover the "Eastside" like Bellevue, Redmond and Kirkland--possibly Bothell/Woodinville and Kenmore.	11/19/2014 4:29 PM
679	airport, downtown, university village, seattle center	11/19/2014 4:23 PM
680	I work at 747 Broadway	11/19/2014 4:16 PM
681	Downtown, Columbia City, Seward Park, Seattle Center, Airport, University of Washington	11/19/2014 4:08 PM
682	I go from the View Ridge Neighborhood (6556 46th Ave NE) to the UW Medical School. Right now there is not a way to do this by bus that takes less than 40 minutes (including walking to and from the bus). Since it takes me 15 minutes to ride my bike, I ride my bike.	11/19/2014 3:56 PM
683	UW, 65th and 35th Avenue, Northgate, Downtown, Airport, UDistrict, Capitol Hill	11/19/2014 3:50 PM
684	University of Washington, Northgate Transit Center, Westlake Station. I would like to be able to go from Northgate to Capitol Hill in under an hour, but it's impossible.	11/19/2014 3:46 PM
685	Seatac airport UW Tacoma 5521 28th Ave NE, Seattle UW Seattle campus Downtown Seattle/Intl District Northgate Polyclinic Madison	11/19/2014 3:44 PM
686	Bellevue, downtown, Capitol Hill, Lynnwood.	11/19/2014 3:41 PM
687	Westlake University Way Queen Anne/Mercer	11/19/2014 3:30 PM
688	7743 22nd Ave NE (Ravenna neighborhood, Seattle) 1191 Second Ave (downtown Seattle) Seattle Center/SIFF Uptown Cinema Shilshole Marina	11/19/2014 3:28 PM

689	My daily commute is Green Lake->Downtown on the #316/#76/#77. For errands, shopping, eating, drinking, visiting friends, recreating, and general life I either ride my bike, take buses, or combine the two to/from nearby neighborhoods. Most visited are commercial areas of U District, Northgate, Fremont, Ballard, Greenwood, Capitol Hill, Downtown. I would go to Lake City more often if buses connected better (e.g. #48->#72 from Green Lake Community Center to downtown Lake City). These trips are usually evenings and weekends. Every Tuesday evening I play soccer somewhere in the region (e.g. Marymoor Park in Redmond, Valley Ridge park in SeaTac, Georgetown, Capitol Hill, West Seattle). I almost always need my bike for first/last mile to make this trip work, especially getting home late in the evening.	11/19/2014 3:24 PM
690	I primarily use transit to commute from home in West Seattle to work at UWMC. I would love it if there were a direct route from West Seattle to UWMC. I currently have to transfer downtown and it adds a fair amount of time to my commute. Also, there are huge apartment/condo buildings being built in West Seattle at the Junction area, and I am very concerned about being able to continue to take the bus once residents move in. The current bus service from the Junction to downtown (via the C line bus) is barely adequate at present and people ALWAYS have to stand on that bus and it is always packed to full capacity. It is a bit of a deterrent. I would love it if there was a good route (meaning no transfers) from the Junction in West Seattle to the airport.	11/19/2014 3:09 PM
691	To & from Lake Tapps (Sumner) to Seattle. I would love the Sounder to run on the weekends and/or extend the link further south past the airport.	11/19/2014 2:45 PM
692	Alaska Junction in West Seattle, downtown, and the U of W to work	11/19/2014 2:32 PM
693	Columbia city/Beacon Hill to the University of Washington	11/19/2014 2:28 PM
694	University Of Washington, Greenwood and 85th st, Downtown Seattle, Capitol Hill, Northgate, Lake City.	11/19/2014 2:21 PM
695	Currently go between Capitol hill and downtown a lot. Lots of options with 11, 43, 49, and 10. Recommendations: Better transport between SLU and Capitol Hill. Route 8 runs too infrequently, especially on weekends. A lot of sports teams, gyms, recreational facilities have locations in SODO or Georgetown; routes to get people from Cap Hill to these locations that run at night would be great. I think it'd be great to have better transport between Capitol Hill and airport (as proposed in this expansion).	11/19/2014 1:37 PM
696	I travel between downtown Seattle and the Northgate TC using transit. I would like to travel easily from Northgate TC to the University District, Capitol Hill or Ballard.	11/19/2014 1:18 PM
697	Kent Station	11/19/2014 1:11 PM
698	14th and Jefferson to various stops downtown/queen anne and vice-versa. I would like to get from Jefferson and 15th or 23rd to the UW campus, with a stop on Madison.	11/19/2014 12:55 PM
699	From Downtown Seattle (Westlake Center) to UW Medical Center	11/19/2014 12:52 PM
700	Downtown Ravenna Bryant Wedgwood U-district Roosevelt Greenlake Ballard Capitol Hill Sand Point	11/19/2014 12:49 PM
701	UW/U-District Downtown Seattle (esp. Pioneer Square & Int'l District-Chinatown) (occasionally) U-Village, Capitol Hill (Broadway)	11/19/2014 12:49 PM
702	Downtown Renton	11/19/2014 12:48 PM
703	12220 se 61st st, Bellevue. 8002 43rd ave NE Seattle.	11/19/2014 12:38 PM
704	University of WA Seattle, main campus (HUB/Stevens Way) 526 Pelly Avenue North Renton 98507 4959 Purdue Avenue NE seattle 98105 downtown Seattle 155 Mercer St, Seattle Reperatory Theater	11/19/2014 12:18 PM
705	University of Washington Downtown Seattle Kent Station Transit Center Tukwila Light Rail Station Kent DesMoines Park & Ride South Renton Park & Ride Federal Way Transit Center Southcenter Mall Greenlake Park & Ride	11/19/2014 12:05 PM
706	I typically go downtown on transit, so the tunnel stops at the Convention Place Center, University Street Station, Westlake Station, Pioneer Square, and International District. Sometimes, I'll also go to the Fremont Sunday market by bus depending on timing.	11/19/2014 11:47 AM
707	South Tacoma/ Parkland around 112th st E and Pacific ave to UW	11/19/2014 11:34 AM
708	Daily: NE Seattle to Downtown Seattle (Pioneer Square) Occasionally: NE Seattle to the airport I would like to take the train to Capitol Hill on the weekends.	11/19/2014 11:33 AM
709	More secure bicycle parking by transit centers!! I would ride my bike far more often, but I am worried it will be stolen during the day.	11/19/2014 11:32 AM

710	Wedgwood to downtown/stadiums. I would like to be able to go between Wedgwood and Northgate without having to go via Lake City. There is also no efficient way to get downtown because the route of the 71 is so long.	11/19/2014 11:20 AM
711	DOWNTOWN UWMC U DISTRICT NORTHGATE MALL 23RD AVE S AND S JACKSON ST TRADER JOE'S AT MADISON ST ROOSEVELT NEIGHBORHOOD GREENLAKE WOODLAND PARK ZOO	11/19/2014 11:15 AM
712	Downtown to and from U-District, SeaTac, Greenwood, Ballard	11/19/2014 11:10 AM
713	I would like to be able to connect from the Woodinville park & ride to a bus which goes north on Highway 9 and stops at Snohomish park & ride.	11/19/2014 11:09 AM
714	I currently go by transit from Redmond (161st Ave) to the UW and vice versa. I would like to be able to go directly from the University of Washington to Sammamish library (228th Ave) in one bus.	11/19/2014 10:56 AM
715	Capital Hill Broadway area First Hill Swedish Medical Centers University District UW Central District 23rd and Union or 23rd and Yesler	11/19/2014 10:55 AM
716	I usually use transit to go to south Seattle, like Columbia City or Genesee area	11/19/2014 10:54 AM

735	12728 SE 254 Ct, Kent to University of Washington Currently catch bus at Kent/Des Moines park and ride to UW - would like more convenient (read: timely) way to get to work Would like more convenient public transit from home (12728 address) to other locations in Kent	11/19/2014 9:24 AM

736	I go to my work at UW Tower (4333 Brooklyn Ave NE, Seattle) Would like to be able to get from Wedgwood around 35th Ave more easily by bus to work. The 65 is long and circuitous and I still have to walk a lot to get to bus and then when I get off I have to walk a lot. Therefore, I prefer to drive most the way look for free parking and then either walk or talk the bus into work. More frequent service to downtown would be nice. The 70 series seems to be a haven for the street people to shuttle back and forth between UW and downtown.	11/19/2014 9:13 AM
737	University of WA, 526 Pelly Avenue N Renton 98057 4959 Purdue Ave Ne Seattle 98105 downtown Seattle	11/19/2014 9:06 AM

757	Currently: Downtown Seattle, Capitol Hill, Ballard/Fremont/Wallingford, U-District Future: ...Metro meets my needs; other places are either outside the service area or unfeasible (like the mountains for skiing and hiking)	11/18/2014 9:04 PM
758	65th NE and NE Ravenna Blvd	11/18/2014 8:57 PM
759	Wedgwood, Fremont, Ballard, U District, Downtown Seattle	11/18/2014 8:55 PM
760	Seattle University from South Beacon Hill	11/18/2014 8:46 PM
761	Like to go to Tukwila. Currently, go downtown, to the U District, use to take the bus to Juanita Dr in Kenmore. Previously would commute to Everett from Kenmore. Often go to Ballard on market st or down 15th.	11/18/2014 8:35 PM
762	I currently use the bus to get from 35th and 88th, home, to UW, and also to get to downtown. I'd like to get from 35th and 88th to the new light rail station at the UW. I think it would be great if a bus route was created that would run down 35th, straight to the light rail station at the UW.	11/18/2014 8:24 PM

763	I hate that it takes about an hour to get from Capitol Hill to Ballard.	11/18/2014 8:20 PM
764	Work, downtown, airport, Ballard	11/18/2014 7:57 PM
765	Home - near Lake City Way NE and 115th Fred Meyer's - Lake City Way and 130-something Pike Place Market UW Medical Center The Ave / University Way University Book Store Pacific Place The Triple Door movie theaters downtown, Thorton Creek, Harvard Market and the Egyptian Northgate Mall/Transit Center 50th and Stone Way (Wallingford) Bastyr Clinic on Stone Way (Fremont) Group Health Clinic near Northgate Group Health Medical Center (15th on Capitol Hill) Elliott Bay Book Company	11/18/2014 7:51 PM
766	I would like faster/more reliable transit between downtown and UW. I would like faster transit to capitol hill. I would like more consistent service between Burien and downtown.	11/18/2014 7:50 PM
767	I go to children's hospital, totem lake TC, downtown Kirkland, Bellevue , south park , & Columbia city.	11/18/2014 7:44 PM
768	I use transit for a majority of my non-work related trips. I ride the bus all over Seattle to meet friends, to go shopping, or to cultural events. Most of my trips are around central Seattle (Capitol Hill, SLU, Downtown, Central District) or the U District, with occasional trips to other neighborhoods such as Greenwood, Ballard, or Sodo.	11/18/2014 7:27 PM
769	Uw Bellevue Downtown Crown hill Ballard Kirkland Issaquah Redmond Bothell Auburn Renton	11/18/2014 6:57 PM
770	UW-Eagleson Hall Capitol Hill (15th and Republican, Pine and Broadway, Bellevue and Olive) Madison Valley (25th and Madison) Fremont (34th and Fremont, 40th and Fremont) Ballard (Market and 20th) Matthews Beach (46th Ave NE and NE 97th St) Green Lake (Ashworth and 85th) Eastlake (Eastlake and Hamlin)	11/18/2014 6:44 PM
771	NE 65th St & 9th Ave NE UWMC UW NE Campus Parkway Downtown Seattle - 809 Olive Way NE 55th St & 40th Ave NE	11/18/2014 6:41 PM
772	Downtown Seattle (Westlake Center), Downtown Tacoma (Tacoma Dome), The Center for Wooden Boats (SLU), Columbia City, Sea-Tac Airport, Queen Anne & Mercer, 24th & Galer, University Village, U District (15th & 43rd, University & 47th), UW campus (Stevens Way), Ravenna Park, Greenwood	11/18/2014 6:27 PM
773	I currently take the bus from NE 85th St and 35th Ave NE to Jane Addams Middle School.	11/18/2014 6:24 PM
774	Most frequently, West Seattle, Fremont, Ballard, Queen Anne, downtown, First Hill, U-District, and surrounding areas. Sometimes further north, occasionally Bainbridge. Most recently I am interested in an easier route between downtown/UDist and the area between Lake City Way and 35th NE along 95th (after 6pm).	11/18/2014 6:20 PM
775	Group Health campus University of Washington 24th Avenue E & E Lynn	11/18/2014 6:14 PM
776	Live in Capitol Hill and work downtown, toward Pioneer Square, so I go to those places on transit a lot. I'm excited to be able to get to the UDistrict more easily via transit, and eventually Northgate and the Eastside. I work with several local philanthropic organizations, so often go to the Gates Foundation or the Raikes Foundation, and would love to be able to get to those more easily on transit. I'd like to see better connections between Capitol Hill and Beacon Hill on transit - light rail between the two is a long detour, and the streetcar and bus lanes peter out before they make it to Beacon Hill.	11/18/2014 6:12 PM
777	Not sure why #7 and #36 didn't show up on your list above for Question #2, but those are the bus lines I most frequently have or do use. I would like to be able to go to West Seattle from Columbia City.	11/18/2014 5:49 PM
778	To/from Capitol Hill & the University District, to/from capitol hill & the airport, to/from Capitol Hill & Northgate, to/from the University District & Ballard, to/from Downtown & Capitol Hill. More frequent or more extensive transit schedules will increase ridership- as the convenience of transit increases, people will be more likely to use it. I very much enjoy the convenience of being able to take transit to and from work, or to and from the airport. If it were more convenient, I would probably use transit for a lot of my errands, excursions, nights out, etc.	11/18/2014 5:46 PM
779	Greenlake to UW. UW to Queen Anne, Fremont, Ballard. Greenlake to Queen Anne. Greenlake to Downtown	11/18/2014 5:46 PM
780	University District: 1100 NE 45th St., Downtown Capitol Hill Fremont Wallingford Polyclinic Madison (904 7th Ave) Polyclinic Northgate (11011 Meridian Ave. N) PCC Viewridge (40th & 60th) Greenlake SEATAC	11/18/2014 5:45 PM
781	Kingsgate park and ride, u-district (UWMC), south kirkland park and ride, Kenmore park and ride, Seattle Center	11/18/2014 5:27 PM
782	downtown, north seattle, airport I also coach Special Olympics and transit is very important to the athletes (adults) being able to get to practice and to events.	11/18/2014 5:24 PM
783	Regularly: Capitol Hill, Microsoft, Safeco Field (during Baseball season), Downton Seattle, Seattle Center/Lower Queen Anne On Occasion: Ballard, Downtown Bellevue, Downtown Redmond, Fremont	11/18/2014 5:12 PM
784	South Lake Union, UW, Stadiums, Airport, Ballard	11/18/2014 4:59 PM

785	Currently go: Georgetown-Downtown Georgetown-Downtown-Capitol Hill/Ballard/University District I wish getting to Ballard was easier- it was better before Rapid Ride. Going East-West is always a pain on the bus system AND on my bike, which is frustrating.	11/18/2014 4:39 PM
786	UW	11/18/2014 4:35 PM
787	Currently, I take the bus from 3rd and Bell downtown to 4245 roosevelt way in the U-district 4 days a week for work. I also use the bus to get from downtown to ballard, queen ann, fremont, capital hill and other surrounding neighborhoods. I will also take the bus to the east side when visiting friends in Kirkland and wine tasting in Woodenville. One place that I would like to have better bus access to would be Pro Sports Club Willows location in Redmond.	11/18/2014 4:32 PM
788	Northgate Mall, Eastlake Ave & Lynn, 15th Ave & Republican, Madison & 17th, Broadway & Roy, Broadway & Pike, 6832 36th Ave NE, Ballard Ave & NW Market St, Discovery Park, Denny & Westlake	11/18/2014 4:28 PM
789	Northeast Seattle - Wedgwood, Northgate Down town Seattle, Seattle Center, Harborview Hospital, Capital Hill, Group Health Coop Hospital	11/18/2014 4:19 PM
790	I typically go from UW to various locations around Seattle/the Puget Sound region for interviews (cities like Kirkland, Redmond, etc). Lately, I've been traveling from UW to Pioneer Square on a weekly basis using buses 7x. I would love to have a bus that travels directly from UW to Issaquah -- currently, I end up needing to transfer 2-3 times to make a trip.	11/18/2014 4:11 PM
791	Downtown to Capitol Hill. Capitol Hill to U-District. Downtown to Northgate/Wedgewood/Greenlake. Downtown/Capitol Hill to Seward Park/Rainier Valley.	11/18/2014 4:09 PM
792	Federal way transit	11/18/2014 3:52 PM
793	Orting, WA (home) UW Tower, Seattle, WA (work)	11/18/2014 3:50 PM
794	West Seattle and Tacoma	11/18/2014 3:40 PM
795	It would be really nice to have a bus that goes down 25th ave NE all the way to the Montlake cut (for buses going east, downtown, etc.) and to connect to the new light rail station rather than only turning up to go to UW campus	11/18/2014 3:30 PM
796	Bothell, Woodinville, Rainier, Seattle, SeaTac, Bellevue, Kirkland, Ballard, Snohomish, and other points North, South, East and West in these areas.	11/18/2014 3:24 PM
797	I go from Fremont to Sand Point for work, and they just cut down the 30's service to rush hours only, which is too bad because I just needed it today (and many other days)! I usually use the 75 now, but have to walk further. Sometimes I take the 65 to get to work events in Wedgwood. I also use the bus to get downtown, go to grad school at UW (31 & 32), and sometimes to go to Ballard.	11/18/2014 3:22 PM
798	from the Tacoma Dome to the UDistrict (UW - Seattle Campus). I usually get off on 15th Ave NE and NE 43rd St in Seattle.	11/18/2014 3:14 PM
799	15th Ave. NE & NE 125th St. 125th St. and Lake City Way 48th Ave. NE & NE 70th St. 4333 Brooklyn Ave. NE University St. bus tunnel stop South Lake Union - Amazon area Northgate Transit Center Edmonds Community College North Seattle Community College SeaTac airport	11/18/2014 3:12 PM
800	118/119 to Vashon Ferry, then 116 to downtown, then 71X, 72X, or 73X to U District then reverse after work to downtown, then Vashon Water Taxi on commute home. Twice weekly I use C Line from Fauntleroy to downtown, then 26/28 or 40 to Fremont, then back downtown and water taxi back to Vashon. I would love to have a Fauntleroy to airport option again. I also use C Line/D Line to lower Queen Anne for doctor's appointments.	11/18/2014 2:24 PM
801	Mostly commute to work downtown from Beacon Hill. Would like to go on transit anywhere where parking is bad (many places, esp. downtown, cap. hill, u-district...) Would like easier transit to community colleges to take night classes. Or community center exercise and other classes.	11/18/2014 2:17 PM
802	School (UW-Seattle) and work (Harborview campus)	11/18/2014 2:05 PM
803	From home (Tacoma) to work from work to doctor appointments from work to downtown Seattle From work to home From downtown to home from work to the Eastside	11/18/2014 1:57 PM
804	Downtown, capitol hill, university district, northgate	11/18/2014 1:55 PM
805	UW Tower (4333 Brooklyn, Seattle) to Downtown Bellevue (10575 NE 12th Place)	11/18/2014 1:53 PM
806	Going to the University District and downtown is easiest from where I live in Capitol Hill. I wish it was easier to get to South Lake Union and Fremont from Cap Hill.	11/18/2014 1:38 PM

807	From Bainbridge Ferry to the UW and back. Also, from UW to Capital Hill	11/18/2014 1:38 PM
808	Bothell, UW, Downtown Seattle, First Hill, Bellevue	11/18/2014 1:35 PM
809	UW, Ballard, Fremont, Airport, Downtown, Capitol Hill, Eastlake, Central District, Bellevue/Redmond, Georgetown, West Seattle	11/18/2014 1:32 PM
810	The main useage is on the 41 at the Northgate transit center to downtown Westlake station. From there I transfer to either 1,2,24, 33 or D line up to Queen Anne Ave or Elliott Ave W. And reverse on my work days, Monday-Friday.	11/18/2014 1:31 PM
811	UW from Tacoma	11/18/2014 1:25 PM
812	I just moved to Fremont area and take the 28 or 40 to and from my workplace on 4th and Union every day. I have or would like to take the bus from my residence to Pike Place, Westlake Mall, Northgate Mall, Bellevue Square, and central Capitol Hill.	11/18/2014 1:17 PM
813	Magnolia	11/18/2014 1:11 PM
814	I go to Lauralhurst from the University of Washington. It's unfortunate because the house that I'm trying to go to only has bus transportation that goes down 45th and around Lauralhurst first, before reaching the park Belvoir Place near the house I'm trying to get to.	11/18/2014 1:09 PM
815	Downtown Seattle: 4th and Union Aurora Village Transit Center	11/18/2014 1:07 PM
816	University of Washington, Seattle campus, where I work. Downtown Seattle Airport Seattle Center	11/18/2014 1:02 PM
817	Currently: Work & home (within downtown Seattle), Southlake Union, Queen Anne, Fremont, Ballard, Tukwila, Kent, Northgate (not easily), U District (not easily), U Village (not easily) Would like to go to: Capitol Hill, Northgate (more easily), U District (more easily), U Village (more easily)	11/18/2014 12:54 PM
818	Work - 1325 Fourth Ave, Seattle 98101 Home - 4224 Beach Dr SW, Seattle 98116 Alaska Airlines Arena - 3910 Montlake, Seattle Key Arena	11/18/2014 12:52 PM
819	I basically take the bus between Kent and downtown Seattle and then the Sounder train back to Kent. I do not use the Link Light Rail but I would like to if you only provided some/more parking around the stations which you choose not to do. I've never seen a more worthless light rail system. When I travel to other parts of the country they offer parking so people can drive partially into the city and then transfer over to their light rail system. Here you took away what parking was available along the MLK stations so I can't drive there and then switch to light rail. You probably lost far more revenue than if you would have provided parking. Why not use those empty lots as pay lots and let folks pay for using them if they choose?	11/18/2014 12:48 PM
820	I go to work downtown and to Columbia City on the 7. Loved the 7X but you took that away.	11/18/2014 12:41 PM
821	Home to work, work to home, safeco fird	11/18/2014 12:40 PM
822	I currently take the bus to and from the University of Washington campus. On the weekends, I would like to be able to go from 5000 25th Ave. Seattle, WA to Downtown Seattle Tunnel Station. Currently there is only one bus that runs in my area on the weekends and it starts around 9 am and stops around 5 pm, giving me a very limited amount of time to go anywhere. Or I'd have to take two buses.	11/18/2014 12:21 PM
823	University of Washington Downtown Seattle Capitol Hill Redmond Kirkland Bellevue Everett Edmonds Fremont North gate Lake City	11/18/2014 12:20 PM
824	st Mark's cathedral, Bright Water school, Boyer Children's Clinic, UWMC, airport, shopping downtown, PCC fremont, PCC Greenlake, Seattle Waldorf School, University Village, Discovery Park, Magnuson Park, 1818 Westlake Ave North businesses	11/18/2014 12:19 PM
825	Between the u district and downtown mainly	11/18/2014 12:18 PM
826	I currently use the Metro bus lines to get from home (lauralhurst area) to work (University of Washington), and occasionally from home to downtown or to the international district. Getting downtown and to the international distract often takes a very long time by bus. A light rail to get to these locations would be very valuable to me.	11/18/2014 12:09 PM
827	Bear Creek Park & Ride to SR520 Montlake station	11/18/2014 12:03 PM
828	University of Washington, Downtown, Ballard, Fremont, Lower Queen Anne, Central District, Olympia	11/18/2014 12:00 PM
829	UW, downtown, northgate, ballard, SeaTac.	11/18/2014 11:56 AM
830	Mountlake Terrace to Downtown. Mountlake Terrace to Airport.	11/18/2014 11:55 AM

831	To work at the UW main campus, also use buses to go downtown, or to get to U District to transfer to buses going to other locations like Pioneer Square	11/18/2014 11:52 AM
832	home work puyallup/tacoma Everett	11/18/2014 11:52 AM
833	I use transit to commute to work in Pioneer Square (#12) and to school at UW (#43, 49, 70's). I would like to use transit to travel to other neighborhoods but I find service is not dependable: buses do not run frequently outside of rush hours, stop running too early and are often late (when it's cold this is a huge deterrent). I often end up driving my own car when I'd rather be busing. I often visit Beacon Hill, Ballard and Columbia City.	11/18/2014 11:45 AM
834	Between the U-District (4333 Brooklyn Ave NE, 4545 15th Ave NE) and Downtown (925 4th Ave, 1308 5th Ave, 1483 Alaskan Way), Seattle Center (200 2nd Ave N) and the Stadiums (800 Occidental Ave S).	11/18/2014 11:40 AM
835	Between Capitol Hill and U-District	11/18/2014 11:38 AM
836	I currently take the bus every work day from the Mountlake Terrace Transit Center to downtown (9th & Stewart). Then I WALK from downtown to South Lake Union where my UW Medicine Advancement office is located. It's easier to walk than wait for the shuttle to arrive, and I enjoy the exercise. However, I hope that some day a bus will go straight from the Mountlake Terrace Transit Center to the South Lake Union neighborhood where thousands of Amazon employees work. My office address is 850 Republican Street.	11/18/2014 11:28 AM
837	Colman dock ferry terminal, University of Washington Medical Center, 9544 Sand Point Way NE	11/18/2014 11:27 AM
838	I currently ride to Pioneer Square via the Metro bus. I would like to be able to take the bus or light rail to Capitol Hill.	11/18/2014 11:25 AM
839	Most frequently: Broadway and Mercer to NE Campus Parkway on the 49 (and reverse) Broadway and Republican to Pine and 5th downtown on the 49 (and reverse, 49 from Convention Center to Broadway and Mercer) Olive and Bellevue to Seattle Center on the 8	11/18/2014 11:24 AM
840	I live on the west slope of Queen Anne near 12th and McGraw and have NO good options for taking the bus to UWMC. If I walk 4 blocks up hill, I can catch the #1 bus, if it's running, all the way downtown, then I have to change and take yet another bus to UWMC, taking about 1 1/2 hours. My other option is to walk down hill to 15th Ave, (in the dark) and again, catch a bus to Ballard, and change again to get to UWMC, again taking 1 and 1/2 hours. If I returned this way, it is equivalent to a 15 storyvertical walk to get home.....tough after a long day on my feet. What about a bus between Queen Anne and the new Capital Hill light Rail station?	11/18/2014 11:13 AM
841	othelo and MLKing station	11/18/2014 11:07 AM
842	University of Washington, Seattle Campus (UW Medical center and Health Sciences) Harborview Columbia City Goodwill on Dearborn Magnuson Park Beacon Hill Park	11/18/2014 11:02 AM
843	Downtown, 2301 Fifth Ave., Suite 600 Seattle, WA 98121, SEATAC airport	11/18/2014 10:58 AM
844	I currently use transit to travel from my work in the UW Tower to downtown destinations during the work day such as dr. appts. or shopping. I do not commute due to the number of legs required from my home in south Seattle to work. I would like to commute again and think this will become feasible once light rail connects with the UW Tower. The trip from home to the rail station will still be really inefficient and slow, though, which is a disappointment. Also HUGELY DISAPPOINTING is lack of parking near rail stations. I would use it now if there were parking opportunities.	11/18/2014 10:58 AM
845	My house, Seward Park, South Seattle via 48 and 7 bus. Light rail station is far from my house so it's easier to bus. Or I can take the 50 bus and transfer to the lightrail Capitol Hill (Broadway) Please make the #9 bus operate on a limited weekend schedule!!	11/18/2014 10:58 AM
846	I currently go to the University of Washington (all over campus). I would like to be able to get to the Husky Stadium by bus.	11/18/2014 10:55 AM
847	University of Washington, Fauntleroy ferry terminal, Down town seattle	11/18/2014 10:53 AM
848	I currently go to the University of Washington and home in the Central District mostly. I would like more direct public transportation to the Capitol Hill area, Northgate and West Seattle from the CD.	11/18/2014 10:51 AM
849	Downtown: 4th and Pike Federal Way Transit Center UW Campus - Tacoma UW Campus - Bothell	11/18/2014 10:42 AM
850	Currently travel from U-District to downtown on Metro Bus; and often from downtown to the airport on Link Light Rail.	11/18/2014 10:41 AM
851	route 271..... many of .UWMC employee had to give up riding a bus because time. would you consider time schedule change about 10min? Weekdays on 1925 pm to 1935pm?	11/18/2014 10:36 AM

852	University of Washington Downtown Airport	11/18/2014 10:33 AM
853	Lake City to UW Med Center for work UW Med Center to Lake City UW Med Center to Fremont Fremont to Lake City Lake City to Ballard Ballard to Lake City Lake City to U District U District to Lake City Lake City to Columbia City Columbia City to Lake City	11/18/2014 10:30 AM
854	You didn't list it in the list of routes, but I take the ST 510 from the Everett Transit Center to Seattle and then either the 64 or the 3/4 up to Harborview Medical Center.	11/18/2014 10:30 AM
855	i DRIVE FROM SHORELINE TO THE GREENLAKE PARK AND RIDE. FROM THERE I TAKE BUS 542 TO UWMC. GOING HOME I CATCH A 48 OR 542 BACK TO THE CAR. OFTEN I AM MISSING THE BUS AND I DRIVE ALL THE WAY IN. I ALSO LIKE CT871 BUT IN THE AFTERNOON IT IS A 20 MINUTE DELAY BEFORE IT ARRIVES AND IT IS VERY SLOW GETTING THROUGH THE U DISTRICT TO I-5, AND THEN THE FREEWAY IS TERRIBLY SLOW!!	11/18/2014 10:29 AM
856	University of Washington Downtown Seattle South Lake Union Capital Hill North Seattle Lake City (11027 Exeter Avenue NE)	11/18/2014 10:23 AM
857	I use transit to come home from work and to go to sporting events.	11/18/2014 10:11 AM
858	north Capitol Hill (Volunteer Park area), IMA building, UW tower, downtown	11/18/2014 10:07 AM
859	I would like to be able to go from Belltown to Capitol Hill sans transfer. I would like to go from Capitol Hill to Kirkland Transit Center w/o having to go downtown. I would like to be able to go from Capitol Hill to the University District quickly and/or without having to go downtown. I would like to go from Capitol Hill to Ballard and West Seattle quickly. I would like to be able to go from Capitol Hill to Ravenna quickly.	11/18/2014 10:04 AM
860	University of Washington campus. Safeco/Century Link fields. University Village. 232 1st Avenue West 1205 NE 65th Street 711 N 35th St 400 N 35th St 1818 18th Ave 2328 E Madison St	11/18/2014 9:59 AM
861	Capitol Hill / 15th Ave E to UWMC Capitol Hill / 15th Ave E to downtown Seattle UWMC to main UW Campus	11/18/2014 9:55 AM
862	Seattle Center (theaters, especially)	11/18/2014 9:51 AM
863	I currently commute from West Seattle to the UW, so take the 21 into downtown and then transfer to the 43. My commute currently take 1-1.5 hours, so if linking to the light rail somewhere along the way would make this commute shorter, that would be fantastic. I would also like to be able to take the light rail to the airport (from West Seattle).	11/18/2014 9:49 AM
864	I go from my home in Ballard at 918 NW 59th St to the UW campus. I would like to be able take the bus from Capitol Hill to my home in Ballard in the evening.	11/18/2014 9:48 AM
865	1. University of Washington, Seattle Campus 2. Downtown Seattle 3. Queen Anne Avenue and West McGraw Street	11/18/2014 9:48 AM
866	From UW Campus to NE 70th street and NE 35th Ave.	11/18/2014 9:47 AM
867	I travel using public transportation all over for work and in my free time.	11/18/2014 9:45 AM
868	Wallingford, Ballard, Northgate, Queen Anne, Downtown	11/18/2014 9:43 AM
869	University of Washington Century Link Field 4th and Blanchard 80th and 27th AVE NE Northgate Mall University Village Wallingford Ballard	11/18/2014 9:42 AM
870	NE Pacific St & 15th Avenue MLK and Marion Pine and 10th Avenue Pike and 6th Union and Broadway	11/18/2014 9:41 AM
871	Kent city hall. Ballard, Greenwood, the U-district, Downtown.	11/18/2014 9:33 AM
872	Downtown, University District, First Hill, Capitol Hill, Beacon Hill, Mount Baker, Sea-Tac airport	11/18/2014 9:31 AM
873	I travel from Ash Way P & R or Terrace P&R to the University District for classes in the evening. It would be nice to be able to travel to McCollum P&R or Mariner P&R directly after 1800 from the U-District. Those stops are within walking distance of my home and would reduce my dependency on my vehicle to travel and park. In the future I will be commuting from the Tacoma/Olympia area to the UW-Seattle and UW-Bothell in the weekday evenings.	11/18/2014 9:28 AM

874	Lower Queen Anne & Laurelhurst (Seattle Children's), Laurelhurst (Seattle Children's) & Victory Heights/Northgate, Lower Queen Anne & Northgate/Victory Heights. In general, for me to want to use the bus system almost all the time, There needs to be more direct routes from east to west/vice versa. It's fairly easy to get North to South in this city, but not W to E, or East to West. And especially not South West to North East!! More routes, in general. The Rapid Ride lines are a great idea, and a great investment to more reliable, on time public transit. Thank you!	11/18/2014 9:27 AM
875	From Eastlake Avenue to University of Washington From Eastlake Avenue to Pike Place From Eastlake Avenue to Ballard/Fremont From Eastlake Avenue to Queen Anne	11/18/2014 9:13 AM
876	Would like one bus from U-District to Kent. Currently take bus into Downtown Seattle and Renton and Kent.	11/18/2014 9:12 AM
877	University of Washington, Wedgewood, Sea-Tac Airport	11/18/2014 9:11 AM
878	I go to work on transit. I am anxious for the Link to come to Northgate so I can take that to the UW.	11/18/2014 9:10 AM
879	Commute on Metro from Wallingford to Downtown Seattle 5 days a week. Use the bus on weekends occasionally to shop in University Village and University District.	11/18/2014 9:09 AM
880	Between work and home. Would like to be able to go from home to airport.	11/18/2014 9:04 AM
881	To work: 750 Republican St., Seattle, WA 98109 To Home: 14025 49th Ave W., Edmonds, WA 98026	11/18/2014 9:03 AM
882	I would like it to be easier to get to Georgetown and Boeing Field.	11/18/2014 9:02 AM
883	Laurelhurst to downtown Laurelhurst to Capitol Hill Laurelhurst to South Lake Union Laurelhurst to downtown Bellevue Laurelhurst to Lower Queen Anne/northern Belltown	11/18/2014 8:59 AM
884	Mill Creek to UW Marysville to UW UW to South Lake Union (Fred Hutchinson, Seattle Cancer Care Alliance) Everett to Century Link Field	11/18/2014 8:57 AM
885	Green lake, Ballard, UW, downtown, Capitol hill	11/18/2014 8:54 AM
886	UW for work (carpool) rare trips to downtown Seattle (bus)	11/18/2014 8:53 AM
887	UW Campus Downtown Seattle Downtown Bellevue	11/18/2014 8:49 AM
888	25th ave and 55th stone ave and 85th I would like to see there be more work on getting some east to west routes. If I want to get to my mother in laws, 92nd and 35th ave in wedgewood from north green lake (midvale ave), I have to take the 48 and then a connection in some way, either from the UW or from 15th ave. I think that making a 15 minute driveable rout become 57 min bus trip provides no incentives for commuters to use the metro. I'm sure this is not the only scenario of its kind either.	11/18/2014 8:44 AM
889	University of Washington, Northgate region, Roosevelt Way	11/18/2014 8:41 AM
890	I go from the Tacoma Dome to the University District and then back, Monday through Friday for work. Once in a I take the 590 on the weekends to Seattle	11/18/2014 8:40 AM
891	4129 SW 106th St., Seattle 98146 University of Washington Medical Center California Junction, West Seattle Rainier Valley Downtown Seattle Harborview Seattle University Seattle Center Children's Medical Center Alki Beach	11/18/2014 8:38 AM
892	Currently take transit from Pioneer Square to UW Would like to take transit from Colman Dock to UW	11/18/2014 8:35 AM
893	UW to downtown Ballard, UW to 15th NW & 65th Ballard, UW to downtown Seattle, UW to 113 Dexter Ave N. Seattle, Marysville to UW (I live on Camano Island, and driving to Marysville and taking the 821 is the only bus route that makes sense time-wise.	11/18/2014 8:33 AM
894	UW, downtown seattle ballard	11/18/2014 8:29 AM
895	Mostly I go downtown (on the 66). Sometimes, I bus to Fremont. I would like faster service to the airport and more east and west options. From where I live I usually have to go way south to then go north to get where I actually want to be.	11/18/2014 8:25 AM
896	I go to work at harborview and where i live in lower queen anne, I travel often to redmond to visit family, I go to ballard often for shopping and dinner, also Bellvue square mall, I use the bus to also just go downtown a lot	11/18/2014 8:18 AM
897	Sea Tac	11/18/2014 8:17 AM
898	UWMC Roosevelt Clinics, Madison valley, Wedgwood, View Ridge, Sand Point,	11/18/2014 8:14 AM
899	To and from Colman dock on the Seattle waterfront	11/18/2014 8:14 AM

900	University of Washington, Seatac Airport, Seattle Center, Downtown Seattle, Seattle Ferry Terminal	11/18/2014 8:08 AM
901	University of Washington (I work at UW) Redmond (I live in Redmond) Downtown Seattle Sea-Tac airport	11/18/2014 7:54 AM
902	alki to university of washington medical center, and back	11/18/2014 7:54 AM
903	I take transit from my residence in downtown Renton to my workplace at the University of Washington Medical Center.	11/18/2014 7:52 AM
904	I go to work, downtown seattle. my childs school. I would like transportation to be everywhere so it easier for everyone to get around.	11/18/2014 7:48 AM
905	20105 SE 344th St Auburn, 98092 University of Washington 4333 Brooklyn Ave NE 98195 Auburn Transit Station	11/18/2014 7:45 AM
906	Ferry to UW	11/18/2014 7:44 AM
907	From Tacoma Dome station to UWMC and vice versa.	11/18/2014 7:36 AM
908	I go between UW Medical Center and home at 8125 50th Ave S Seattle WA 98118	11/18/2014 7:30 AM
909	1201 3rd Ave (downtown)	11/18/2014 7:28 AM
910	UW main campus and Harborview	11/18/2014 7:12 AM
911	WSF(Bainbridge) to UWMC	11/18/2014 7:10 AM
912	Issaquah Highlands Park N Ride and UW 15th Street UW and downtown Seattle (bus tunnel) UW and SeaTac airport UW and Bellevue Transit Center	11/18/2014 7:02 AM
913	Haller Lake area - N 130th & Meridian Ave N to / from University District - 45th & Roosevelt Ave NE	11/18/2014 6:56 AM

918	UW Law School, Coleman Dock Ferry Terminal, UW Medical Center, Pill Hill	11/18/2014 4:57 AM
919	capitol hill (15th & John neighborhood) to everywhere	11/18/2014 2:38 AM
920	UW	11/18/2014 2:23 AM
921	Eastlake, U-District, Downtown Seattle, Capitol Hill, Montlake, Roosevelt, Overlake, Downtown Bellevue, Northgate, Lake City, West Seattle, Education Hill, Sammamish, Duvall, Carnation, Tacoma	11/18/2014 1:49 AM
922	UW Campus, UW Husky Stadium, UW IMA center, WAC, Campus Parkway, Roosevelt and 45th, up and down 45th street past Greek Row, more routes that shuttle around the campus.	11/17/2014 11:36 PM
923	U district or Bellevue Square	11/17/2014 11:34 PM
924	University of Washington Ferry station	11/17/2014 11:33 PM
925	Mostly between Des Moines and University District. In particular, the Kent-Des Moines P&R and 15th and NE Campus Parkway	11/17/2014 11:23 PM
926	I take the bus to the University of Washington, U-District, and Downtown.	11/17/2014 11:20 PM
927	work (UW), downtown, SeaTac	11/17/2014 11:16 PM
928	University of Washington to downtown Bellevue, Laurelhurst, Capitol Hill	11/17/2014 11:01 PM
929	University of Washington Seattle Art Museum Ballard Farmer's Market Capitol Hill - Pike/Pine, north Capitol Hill, Capitol Hill Branch Library Central District - 23rd and Union, 23rd and Marion, 23rd and Yesler Frye Art Museum University Branch Library	11/17/2014 11:00 PM
930	UW area; downtown Seattle; Capitol Hill; Greenwood; Phinney Ridge; SeaTac.	11/17/2014 10:52 PM

931	I currently go from the north tip of Greenlake to the U District, and from the UW I go downtown or to Capitol Hill. I would like to see better bus/bike connectivity, so I can easily get down Aurora Ave to bike routes like the Burke Gilman trail	11/17/2014 10:50 PM
932	University of Washington-Seattle Mariner Park and Ride	11/17/2014 10:41 PM
933	Shoreline, UW, Downtown, International District, Beacon Hill, Renton	11/17/2014 10:39 PM
934	-downtown Seattle -Seattle Pacific University -I would like to be able to go from UW to main st in Bothell on more than just weekdays. Since the 372 only runs during the week and when UW is in session, I can only go home on Fridays otherwise it takes me twice as long via 2 routes	11/17/2014 10:36 PM
935	Go to: UW Campus 6th and Virginia Would like: Convenient Fremont-Capitol Hill and Ballard-Capitol Hill routes	11/17/2014 10:31 PM
936	bellevue south kirkland university district	11/17/2014 10:27 PM
937	I go from 23rd Ave E and Aloha (about .5 mile from home)) to 15th and 43rd at the UW campus, about .5 miles to building my UW classes are held.	11/17/2014 10:22 PM
938	I currently go from 36th/55th street NE via the Children's hospital to the UW campus. This bus route is key to my traveling around on a day to day basis, without it I would struggle to get to University as it is too long of a walk to make every day, particularly with a busy schedule. I also use the 70 buses to get to and from the city center. Bus 30 goes a similar route to 65 and therefore I get it to go to the University Village.	11/17/2014 10:15 PM
939	Downtown Seattle, International District, University Village, Pike Place	11/17/2014 10:06 PM
940	UW, Greenlake, Pacific Place, Westlake Center, South Lake Union, Capitol Hill, Beacon Hill, Georgetown, Discovery Park, Magnuson Park, the International District, Fremont, Volunteer Park	11/17/2014 10:03 PM
941	Greenwood, UW, Ravenna, capital hill	11/17/2014 10:02 PM
942	I bus from where I live in West Seattle (near the Alaska Junction) to the University of Washington School of Medicine (1959 NE Pacific St).	11/17/2014 10:01 PM
943	Univeristy of Washington, IKEA Renton, MEOW Cat Rescue in Kirkland, Blick Art Supplies. It would be nice if there were buses from the west side of UW campus that ran to the Uvillage on weekends and at late hours.	11/17/2014 10:01 PM
944	Downtown Seattle for business lunches, etc. Airport - SeaTac Pill Hill - Medical area Ballard - Sunset Hall - It has been extremely detrimental to have the No 61 bus cancelled. I'm 61 and in good health but as I get older, the lack of this bus may make it impossible for me to take a bus to work since I need to walk a mile to get to a bus that will take me to the University. All of these options do me no good if I have to walk for a mile at the end (or beginning) of the trip.	11/17/2014 10:00 PM
945	I currently go to University of Washington from Issaquah Transit Center, or Eastgate Park and Ride	11/17/2014 10:00 PM
946	UW, Pine & Broadway, Greenlake, Pike Place	11/17/2014 9:59 PM
947	Bellevue transit center, preferably go on transit on 106th and 4th in bellevue	11/17/2014 9:44 PM
948	Between South Federal Way and the University of Washington	11/17/2014 9:44 PM
949	University of Washington SEATAC Airport Rainier Valley & Orcas	11/17/2014 9:35 PM
950	I would love to be able to take a bus (sound transit, metro or something!) to and from UWMC to Totem Lake transit center! Currently the # 277 can get me to work in the morning (have to be at work by 7am) but I would have to make multiple bus changes and waits to get home when I leave work at 1945hrs in the evening....and some buses with connections cannot get me home till 9.30pm! (And after a 12hr shift you will agree that I am tired and weary and I just want to get home not to mention that one would probably be tired and personal safety parameters may be weakened a little!! So for my family's peace of mind and mine too I just ride my car and pay the toll on SR520 in a single occupancy vehicle! No, a vanpool/carpool is not an option for me as my work schedule is unpredictable and my hours are unpredictable! Thank you for asking!	11/17/2014 9:33 PM
951	university of washington medical center harborview medical center VA hospital downtown transit centers (king station, Westlake)	11/17/2014 9:32 PM
952	I currently commute from the Broadview/Bitterlake area to the UWMC. I often travel to Burien on the weekends (116th St and between 1st and 4th Ave.) I intend to move to the South Seattle/South King County area (not sure which neighborhood exactly later on and might plan to either use the light rail (plus another bus if necessary) or a one seat bus commute. I like to bus to Discovery Park or to Ballard in my spare time during the summer .	11/17/2014 9:29 PM
953	work on first hill at swedish medical center, paramount theater, downtown Would like to go from home to airport	11/17/2014 9:28 PM

954	West Seattle, Downtown Seattle, University District	11/17/2014 9:26 PM
955	4055 8th Ave NE Seattle, WA 98105 30621 127th PI SE Auburn, WA 98092 1806 NE 26th PI Renton, WA 98056 340 Index PI SE Renton, WA 98056 Discovery Park, U-District, Downtown Seattle, Seattle waterfront, Seattle Center	11/17/2014 9:23 PM
956	Currently go: University District Downtown Fremont/Wallingford	11/17/2014 9:20 PM
957	From Renton (the transit center) to University of Washington	11/17/2014 9:18 PM
958	aurora village transit center u village northgate transit center	11/17/2014 9:18 PM
959	Currently: Downtown, SLU, Capitol Hill, Central District Would like to go more easily to: Discovery Park, Golden Gardens, Magnusen Park, Gasworks Park, anywhere West of Eastlake, Mount Baker, First Hill Polyclinic.	11/17/2014 9:14 PM
960	I currently go back and forth between the U District and Downtown. I would like to be able to take the bus to Capitol Hill, Fremont, and Ballard more easily.	11/17/2014 9:12 PM
961	Seattle Municipal Tower, SeaTac Airport, CenturyLink Field, Safeco Field, Coleman Dock, Husky Stadium.	11/17/2014 9:09 PM
962	University of Washington Seattle	11/17/2014 9:08 PM
963	I take the 530 pm ferry from bainbridge island, I walk up to the tunnel or 4th ave- catch a bus to 520/montlake..on clear days I walk to the medical center. on raining days I catch any bus to the medical center, like the 43-mostly I walk. Return - I walk to montlake/520 any bus to downtown- then I walk to the 845am ferry...can't make the 755am boat. because I am traveling at the classic commute times the bus choices are many....except sunday and when the bridge is closed. I work night shift because the bus service doesn't work for the day commute coming back to downtown after I get off work at 730pm- in order to catch the 810pm boat...i had to wait at the dock until the 9pm boat. I hope the light rail will run often -after the classic commute times- then I could catch my ferry and work day shift.	11/17/2014 9:03 PM
964	The University of Washington.	11/17/2014 8:59 PM
965	U- district seattle 45th and university way seattle Tacoma some station Lakewood P&R 512	11/17/2014 8:59 PM
966	I would like to go from 45th pl and university view pl to the University of Washington Medical Center. There needs to be a bus that goes north and south from 45pl to 35th ave NE.	11/17/2014 8:56 PM
967	I currently use transit to get to work and school on capital hill from sunset hill (Ballard). I would like to be able to get to different hospital for work/school such as Northwest and the VA more easily.	11/17/2014 8:48 PM
968	Downtown Ballard Capital Hill UDistrict Wallingford	11/17/2014 8:42 PM
969	Downtown UW Home (85th & 1st NE) Capitol Hill Greenlake Ballard	11/17/2014 8:39 PM
970	When I don't walk or bike to my destinations in the U-District, I primarily use the bus to commute from the Ravenna area to NE 40th Street. I also travel frequently between the U-District and any of the five downtown tunnel stations to access Colman Dock, City Hall, Benaroya Hall, Pacific Place, etc.	11/17/2014 8:37 PM
971	Uw	11/17/2014 8:37 PM
972	Downtown UW Home (85th & 1st NE) Capitol Hill Fremont/Ballard	11/17/2014 8:31 PM
973	Between University District, Wallingford, and Capitol Hill.	11/17/2014 8:26 PM
974	University of Washington Seattle Campus Downtown Bellevue, Kirkland, Redmond	11/17/2014 8:20 PM
975	University of Washington (everyday, all day) from Capitol Hill to Queen Anne from Capitol Hill to the International District	11/17/2014 8:18 PM
976	Pike's Place, Northgate, 14020 Aurora Ave N., King's Way, Bolt Bus	11/17/2014 8:13 PM
977	UW campus, Capitol Hill (Broadway), Pioneer Square, Westlake Center, Amtrak Station, Greenlake, Mercer Island, (anywhere I can't walk to)	11/17/2014 8:12 PM
978	I take the bus to go to work on the weekends . I go to work at the University of Washington Medical center.	11/17/2014 8:00 PM
979	UWMC, Harborview, Downtown/Pike place, 4245 Roosevelt way	11/17/2014 7:59 PM
980	I primarily go between U District, downtown Bellevue, downtown Seattle, and Northgate. I would like a bus to go from my parent's Renton Highlands home (near the 4th street QFC) to a light rail station, as the park and ride in Southcenter is overcrowded and a bit far of a drive.	11/17/2014 7:57 PM

981	University District, Seattle Center, Century Link Field, Sea-Tac	11/17/2014 7:54 PM

991	University of Washington Campus Center for Pediatric Dentistry Downtown Seattle Federal Way	11/17/2014 7:17 PM
992	University of Washington Medical Center then home in Rainier Valley	11/17/2014 7:16 PM
993	I would like to go to Downtown Seattle, Downtown Redmond, Woodinville, and University of Washington.	11/17/2014 7:14 PM
994	downtown seattle, northgate, seatac airport, wallingford	11/17/2014 7:14 PM
995	Kirkland, Redmond, Capitol Hill, University District, Northgate	11/17/2014 7:08 PM
996	The University of Washington Westlake Center/Pike Place Market Coleman dock	11/17/2014 7:05 PM
997	Seattle Central Community College Seattle Center	11/17/2014 7:01 PM
998	University of Washington Seattle campus	11/17/2014 6:56 PM
999	Ballard, Wedgwood, Shoreline, Lake Forest Park, Sand Point, View Ridge, Capitol Hill, U district, Belltown, Downtown, SODO, Georgetown, West Seattle, Kirkland, Bellevue, Renton, South Lake Union, Fremont.	11/17/2014 6:46 PM
1000	Aurora Ave (for E Line), along University Way, to Northgate	11/17/2014 6:43 PM
1001	VA Hospital University of Washington Downtown-Westlake Center South Lake Union (Fred Hutchinson Cancer Research Center, Brave Horse Tavern, UW-SLU Campus)	11/17/2014 6:36 PM
1002	School (UW) and home (143&15th Ave NE)	11/17/2014 6:34 PM
1003	Greenwood Ave. and 85th to U district, Downtown, Sea-Tac and Redmond	11/17/2014 6:32 PM
1004	Northgate Mall, Alderwood, Capitol Hill, Broadway, International District, Beacon Hill, Columbia City, Rainier Beach	11/17/2014 6:31 PM
1005	Work	11/17/2014 6:22 PM
1006	I currently go to Sound Mental Health in Captiol Hill on 27th and Madison..... Here is address 2719 E. Madison Ave Seattle, 98112 every Monday from home on Lake City Way.	11/17/2014 6:19 PM
1007	Currently: to and from University District, Wallingford and Downtown	11/17/2014 6:09 PM
1008	Green Lake Community Center University Village NE Pacific and 15th Ave NE NE 45th St and 15th Ave NE Sea-Tac Airport Overlake Transit Center	11/17/2014 6:06 PM
1009	From University of Washington to these locations: Roosevelt/56th, 25th/Blakely, 23rd/65th	11/17/2014 5:58 PM
1010	Carkek park, u district, broadview	11/17/2014 5:55 PM
1011	University of Washington Pride Foundation Capitol Hill Pike Place Market Ballard Farmer's Market	11/17/2014 5:53 PM
1012	To UW, North campus To Seattle Center (Warren and Roy) To SeaTac	11/17/2014 5:50 PM
1013	Between home and work (downtown Seattle to University of WA) and my gym on Mercer Island (route 550) and UW	11/17/2014 5:44 PM

1014	SeaTac Airport, Capitol Hill, UW, Ballard, Fremont	11/17/2014 5:36 PM
1015	I currently go from Kent-James st park and ride to UW, through Southcenter on the 150. I used to use the light rail from the Seatac Airport when I could get a ride there in the morning, but now I can't as there is such limited parking. I have in the past used the Kent-Des Moines Park and Ride. I have also tried to go from UW to Des Moines.	11/17/2014 5:34 PM
1016	downtown, capitol hill, u district, ballard, queen anne, georgetown but it's difficult, west seattle	11/17/2014 5:31 PM
1017	mountlake terrace p and ride to u district	11/17/2014 5:29 PM
1018	I currently go downtown on transit to various place (due to parking restrictions). I would like to be able to go to Broadway and Pike from my house.	11/17/2014 5:28 PM
1019	Kentstation, International District, King Street, University Ave	11/17/2014 5:22 PM
1020	Between home (Northgate Transit Center) and work/school (UW Seattle campus), between home (Northgate Transit Center) and downtown Seattle (Convention Place or Westlake Center), and eventually (when I move early next year) between Beverly Park Road & Mukilteo Speedway and the UW Seattle campus.	11/17/2014 5:21 PM
1021	University of Washington Bena Roya Hall	11/17/2014 5:20 PM
1022	Between Ballard, Fremont, Wallingford, and University of Washington. My daily commute is between 406 N 46th ST and University of Washington.	11/17/2014 5:18 PM
1023	13330 20th Ave NE University of Washington Medical Center Microsoft--Bellevue Bravern Building	11/17/2014 5:15 PM
1024	UW, Seattle U	11/17/2014 5:10 PM
1025	I currently use the transit most often to travel to the Seattle Public Library University Branch. I also frequently go to the cinema at both the Northgate Mall and downtown at Pacific Place. I've also used the bus multiple times to get to CenturyLink to see the Sounders.	11/17/2014 5:08 PM
1026	Work	11/17/2014 5:07 PM
1027	North Bend... I would like to ST 556 to bypass Bellevue Way and the South Bellevue Transit Center. The traffic is horrible and hardly anyone uses that park and ride.	11/17/2014 5:07 PM
1028	Corner of NE 75th St & Sandpoint Way NE to/from UW campus I take daily (sometimes multiple times a day). 582 NE 75th St, Seattle, WA 98115 Seattle Tacoma International Airport. Downtown seattle transit tunnel Fremont neighborhood Wedgewood neighborhood Northgate mall	11/17/2014 5:05 PM
1029	Beacon hill link light rail, 15th ave and pearl st, uw campus	11/17/2014 5:05 PM
1030	From NW 32nd Ave and NW 67th St to downtown From downtown to NW 32nd Ave and NW 67th St From NW 32nd Ave and NW 67th St to Capitol Hill From Capitol Hill to NW 32nd Ave and NW 67th St From NW 32nd Ave and NW 67th St to Airport From Airport to NW 32nd Ave and NW 67th St	11/17/2014 5:00 PM
1031	Capitol hill, U-district, Ballard, downtown Seattle.	11/17/2014 5:00 PM
1032	NE 135th & 39th Ave NE 9709 3rd Ave NE Northeast branch of Seattle Public Library University district, including University bookstore U.W. Edmundson Pavilion PCC View Ridge airport Lake Forest Park mall downtown Carkeek Park Discovery Park	11/17/2014 4:57 PM
1033	Eastgate Park & Ride Downtown Seattle Sea-Tac Airport	11/17/2014 4:57 PM
1034	When the Link Light Rail runs all the way to the University of Washington, I would like to use it daily. In the morning, I would like to take Metro Bus # 50 from Seward Park Ave. S. & S. Othello to the Link Light Rail Othello Station, and then take Link Light Rail to the University of Washington Husky Stadium Station. Then I would need to walk to my office at 909 NE Boat St. (unless there is a bus). This would occur in reverse going home. The # 50 Metro Bus would need to run every 15 minutes during peak hours to make this work (it doesn't run that often now). A less attractive alternative would be to take the # 9 Express or the # 7 Express from Rainier Ave. & S. Othello to the Link Light Rail Mount Baker Station, cross the street and transfer to the Link Light Rail, and take that to the University of Washington.	11/17/2014 4:54 PM
1035	Currently: Airport, downtown Seattle, Vashon Island, Fremont, Tacoma, Bothell, Belltown.	11/17/2014 4:53 PM
1036	I regularly go from my home near 18th and Howell to the University of Washington, Airport Way & Massachusetts (I would like a more direct route than what currently exists), various downtown locations, SeaTac airport	11/17/2014 4:52 PM
1037	University of Washington Sumner federal way	11/17/2014 4:51 PM

1038	Vashon Island (via water taxi and Fauntleroy ferry) University tower (4330 Brooklyn ave NE)	11/17/2014 4:51 PM
1039	1191 Second Ave. (Second and Seneca)	11/17/2014 4:51 PM
1040	Federal Way to UWMC	11/17/2014 4:50 PM
1041	Airport.	11/17/2014 4:49 PM
1042	McMahon Hall, University of Washington Seattle Intersection of 100th St. and 132nd Ave. in Kirkland WA University of Washington Bothell	11/17/2014 4:48 PM
1043	Second and Seneca; Husky Stadium	11/17/2014 4:48 PM
1044	UW Seattle, Downtown, Chinatown, Garfield High School, Capital Hill, Broadway, Southcenter, Northgate	11/17/2014 4:47 PM
1045	Madison Park to UW	11/17/2014 4:43 PM
1046	Currently live in U District. I use the bus to go to and from campus, use public transportation to go out to ballard, fremont, capitol hill.	11/17/2014 4:41 PM
1047	Montlake Terrace park and ride to UWMC.	11/17/2014 4:39 PM
1048	I go to the UW campus, but it would be nice to be able to walk 10 mins or so from campus and get on a train to downtown Seattle. I don't want to have to go out of my way in the dark or in the cold to get to downtown easily.	11/17/2014 4:35 PM
1049	UW, downtown, capital hill, chinatown/international district, belltown	11/17/2014 4:31 PM
1050	I live in Ballard, so I'd love to see the lightrail reach there. But also Northgate is important too	11/17/2014 4:28 PM
1051	I would love Light Rail in Ballard. I would like for reduced service to be reinstated on the 40. It should be easier to get from Ballard to the South.	11/17/2014 4:26 PM
1052	Currently - downtown Seattle, Bellevue, U-district, Northgate	11/17/2014 4:24 PM
1053	I currently take the 355 from 85th and wallingford (which requires me to drive from where I live to the bust stop) to the 45th st freeway stop and try and catch a bus to the U district, since Metro cut the 48 express and the frequencies of the 48. I now have to transfer, whereas before I did not have to. I would like for the 48 X to be brought back, as well as increased frequencies of the 48, because it is a HIGH traffic bus for UW employees and students, and has been awful this quarter due to constant delays, crowding, and it simply takes too long as a route. Thank you!	11/17/2014 4:22 PM
1054	Downtown, Capitol Hill, Sea-Tac Airport, University Village, Ballard	11/17/2014 4:22 PM
1055	UW District, Downtown, UVillage	11/17/2014 4:22 PM
1056	University of Washington International District	11/17/2014 4:21 PM
1057	I would like to be able to take Sounder into Seattle from the Mukilteo Ferry on the weekends	11/17/2014 4:17 PM
1058	T/From Redmond Transit Center to/from UW Tower & 4545 NE 45th St.	11/17/2014 4:17 PM
1059	Federal Way Transit Center	11/17/2014 4:15 PM
1060	Downtown Seattle, Capitol Hill, U District, Ravenna	11/17/2014 4:13 PM
1061	Canon; 818 12th Ave; 1101 Madison; 837 N 34th St; 1407 N 42nd St; King Street Station; Airport; Seattle Center; SIFF Cinema Uptown Feedback Lounge (West Seattle, late bus needed); West Seattle Theater; Fisherman's Terminal	11/17/2014 4:10 PM
1062	I go to the University of Washington, the Woodland Park Zoo, downtown Ballard, Swedish Hospital on First Hill and Cherry Hill, Children's Hospital, Harborview, Kent Station, Lake City Way and 125th, Westlake Center, Greenlake park, and Broadway most often on transit. I'd like to have more efficient transport from the University District to Kent Station outside of rush hour.	11/17/2014 4:09 PM
1063	I go to UW I live in Rainier Beach, I would like to get there by one bus.	11/17/2014 4:09 PM
1064	West Lake Center, University of Washington, Woodinville Park and Ride, International District	11/17/2014 4:09 PM
1065	work, grocery shopping, downtown to shop and attend theater productions and catch the ferry, go to Magnuson park to attend theater productions and book sales, get to friends homes - Capital Hill and Shoreline. Shopping at Bellevue Square, Woodinville, Alderwood Mall, Crossroads Mall, South Center and just visiting different neighborhoods of Seattle about once or twice a year. I use transit for everything because I do not own a car.	11/17/2014 4:08 PM

1066	Capitol Hill, Montlake, Downtown, U District, Wedgewood, Wallingford, Ballard, First Hill, View Ridge	11/17/2014 4:07 PM
1067	Currently- UW campus, work (Harborview), social activities Desired- There are no routes in north Seattle running east-west north of the 44. This would be very helpful!	11/17/2014 4:07 PM
1068	Health Sciences Bldg, UW 116 Fairview Ave N Benaroya Hall Seattle Center	11/17/2014 4:07 PM
1069	From Campus to Lynnwood Park and Ride after 11pm	11/17/2014 4:05 PM
1070	University District, Downtown Seattle, International District, Mukilteo, SeaTac,	11/17/2014 4:05 PM
1071	I would like to be able to go to 4233 7th Ave NE, 98105, which is on 43rd and 7th in the u district. I would like to be able to go to any large grocery store (Safeway on 50th and university, U village grocery stores) from the above address. I would like to be able to go to the UW IMA from the above address. Getting to and from Golden Gardens in Ballard from UW is always a challenge. University way King Street Sounder station Tukwila Sounder station Kent Sounder station Kentridge High school Across UW Campus Montlake Northgate U Village Downtown Fremont Capitol Hill Fairwood (Renton)	11/17/2014 4:02 PM
1072	Currently, use it to commute to and from work, take it to downtown Seattle and Eastlake from work. Would like more reliable and quick transportation to east/west direction of Seattle.	11/17/2014 4:01 PM
1073	Montlake Market to Airport. Montlake Market to Downtown. Montlake Market to Capital Hill. Montlake Market to Wallingford. Montlake Market to Greenlake. Montlake Market to Harborview Medical Center.	11/17/2014 4:00 PM
1074	Use transit to get from U-District to Ballard, Fremont, Downtown, and Capitol Hill.	11/17/2014 4:00 PM
1075	Bailey-Boushay House Seattle First Baptist Church Volunteer Park Greenwood Senior Center Pacific Place, Downtown Regal Meridian 16 Theater, Downtown Judson Park Retirement Home, Des Moines SeaTac Airport Amtrak Station Northgate Waterfront, Downtown Pike Place Market, Downtown Seattle Public Library (Downtown, Capitol Hill)	11/17/2014 3:59 PM
1076	Burien transit center, Ambaum Ave (Burien), University of Washington (University street), 74th and Sand Point Way.	11/17/2014 3:58 PM
1077	I usually travel from View Ridge neighborhood (where I live) to the U District, or sometimes to downtown. I would like to be able to travel within a reasonable amount of time to the airport, without driving and parking there.	11/17/2014 3:56 PM
1078	I commute to Olympia in a vanpool leaving from Greenlake P&R. Would like to see more express buses connecting to South Sound (either directly, or with Sound Transit) from other areas besides downtown.	11/17/2014 3:55 PM
1079	go to University of Washington. and back home at SE Renton.	11/17/2014 3:53 PM
1080	Currently when I take transit, I usually go between the U-District and Ballard, or Ballard and Downtown Seattle, or the U-District and Capital Hill	11/17/2014 3:53 PM
1081	I travel from my home in Mount Baker to and from my office at the University of Washington main campus.	11/17/2014 3:53 PM
1082	University of Washington (HUB and Campus Parkway stops) 110th and Sandpoint Way NE Mary Gates Drive and 45th St NE Various downtown locations SeaTac	11/17/2014 3:51 PM
1083	Lake City, UW, Northgate	11/17/2014 3:50 PM
1084	I currently go between the Issaquah Transit Center and the University of Washington, and sometimes to Bellevue Transit Center.	11/17/2014 3:50 PM
1085	Downtown Seattle, Magnolia	11/17/2014 3:50 PM
1086	I would like to ride the bus and especially the light rail. There is NO parking at the Tukwila station for swing shift. When I get there at 1300 the lot is full. I live in Maple Valley and there is no bus service at night. I get off at 2330. I see that there is a reserved lot for day shift at the station, why not swing shift?	11/17/2014 3:49 PM
1087	4333 Brooklyn Ave NE, Seattle / 98195-9504 2204 Fairmount Ave SW, Seattle / 98126	11/17/2014 3:48 PM
1088	UW SeaTac airport Westlake Broadway and Roy	11/17/2014 3:47 PM
1089	Puyallup and the University of Washington Mountlake Terrace and the University of Washington	11/17/2014 3:47 PM
1090	I mostly commute from Ballard on the 44. I'd like to be able to have link light rail connect Ballard to U-District or to downtown.	11/17/2014 3:46 PM

1091	I currently get on at NE 45th St and Thackeray Pl for the #44 and get off at Pacific Street by UW Medical Center in the mornings. In the afternoons, I take the #44 back to NE 45th St and Latona Ave. Currently, it takes me about 10 minutes to walk to the 44 that goes to the U-District. It would be nice if the service could be expanded to include streets on Latona in the 50ish range (such as Latona and NE 53rd St).	11/17/2014 3:45 PM
1092	Bright Horizons Daycare, Longacres	11/17/2014 3:44 PM
1093	University of Washington medical center, 740 Bellevue Ave E (used to take and LOVE the 47 bus which was cut recently), 850 Republican Street	11/17/2014 3:44 PM
1094	1300 First Ave, Seattle 98101	11/17/2014 3:42 PM
1095	Fremont Ave to University District Campus Parkway stop, Fremont to downtown, Queen Anne (Mercer and 5th) to both locations, too. I am also looking longterm to move out of Seattle, either to Tacoma or Everett and would like to be able to commute to UW from either place.	11/17/2014 3:41 PM
1096	3917 University Way, NE, Seattle, WA Downtown Sea-Tac Airport Beacon Hill	11/17/2014 3:40 PM
1097	from Lynnwood to UW and back.	11/17/2014 3:39 PM
1098	From Maple Leaf to UW and sometimes to SEATAC airport. I use the bus if I have to go downtown.	11/17/2014 3:37 PM
1099	Downtown, Northgate, Queen Anne, Fremont	11/17/2014 3:35 PM
1100	University of Washington North Seattle / Lake City Shoreline Woodland Park Zoo downtown Seattle Center Fremont Greenwood (70th at Greenwood/Phinney)	11/17/2014 3:34 PM
1101	Greenwood Downtown Seattle center south lake union	11/17/2014 3:34 PM
1102	I typically go from Issaquah to UW, and I occasionally go from UW to Downtown, and Downtown to Beacon Hill,	11/17/2014 3:33 PM
1103	Northgate and Capital Hill, basically. And Downtown.	11/17/2014 3:32 PM
1104	UW, Maple Leaf, Queen Anne, Wedgwood, U Village, Pinehurst, Ravenna, Greenwood	11/17/2014 3:31 PM
1105	Downtown Seattle Central District University District Queen Anne Southcenter	11/17/2014 3:30 PM
1106	I currently go between 1601 5th Ave, Seattle, WA and 4120 Burke Ave N, Seattle, WA most often. I would like to be able to go between the Wallingford area and Capitol Hill with no transfer (if all 44's turned into 43's this would be easy.)	11/17/2014 3:28 PM
1107	UW Medical center, Central district, downtown, Queen Anne	11/17/2014 3:28 PM
1108	SEA/ TAC Airport UW Campus Wallingford Ballard Capitol Hill Downtown U Village Queen Anne	11/17/2014 3:27 PM
1109	I mostly travel to/from the U district. I commute on the 48 several times a day!	11/17/2014 3:27 PM
1110	Currently, I take the Metro Bus 373 to and from work (I live in Shoreline and work at the University of Washington). I also have taken the E line from Shoreline to downtown Seattle. I try to use buses for almost all my transportation, except for local jaunts to the grocery store and long trips to Portland, Oregon, to visit family.	11/17/2014 3:26 PM
1111	I would like to be able to go from Leschi (MLK/Norman St.) to the UW, with my final destination at University Ave/40th.	11/17/2014 3:25 PM
1112	Downtown, home	11/17/2014 3:23 PM
1113	Downtown Seattle, SeaTac, Tukwila, Kent	11/17/2014 3:23 PM
1114	University of Washington, Seattle (2nd & Pike), Target (Northgate), Lynnwood I would like to be able to commute to Bellevue from Shoreline P & R I do know that there is a bus that runs during the peak hours but they are inconvenient for me.	11/17/2014 3:22 PM
1115	U District, downtown, airport, Capitol Hill, Northgate	11/17/2014 3:18 PM
1116	University of Washington Group Health Capitol Hill & Northgate Downtown Seattle	11/17/2014 3:17 PM
1117	Would like to be able to reach Sammamish from Redmond (around 228th Ave NE and 8th Ave NE), currently use transit between Redmond Transit Center and UW (15th Ave NE and 40th Ave NE).	11/17/2014 3:16 PM
1118	Seatac airport, capitol hill	11/17/2014 3:13 PM
1119	Mercer Island park and ride to University of Washington - no direct route University district to northgate	11/17/2014 3:12 PM

1120	From central district to UW seattle	11/17/2014 3:12 PM
1121	I go to the UW campus from the south kirkland park and ride (SKP&R). I use route 540 usually, but when it doesn't run during the day I use 271 to the montlake freeway station, then transfer to the 255 to the SKP&R.	11/17/2014 3:11 PM
1122	Airport, downtown. University of Washington	11/17/2014 3:11 PM
1123	I use Metro bus from Greenwood neighborhood, (Greenwood/N. 85th), to UWMC via #48, to downtown via #5, for most part. #5/44 to Ballard.	11/17/2014 3:10 PM
1124	I drive daily from West Seattle to the UW Campus for work because there are no easy transfer options by bus: from: SW 35th St and Monroe (south) West Seattle to: UW (and back!) Ideally, I would like a bus from the intersection above strait to the link lite rail in Beacon Hill both to get to UW (north) and to travel to Seatac airport	11/17/2014 3:10 PM
1125	Green Lake UW Main Campus Downtown	11/17/2014 3:10 PM
1126	2220 N. 77th Street Seattle, WA 98103 1820 4th Ave Seattle, WA 98101	11/17/2014 3:09 PM
1127	Lower Queen Anne/Key Arena, UWMC, Harborview, Seattle Children's	11/17/2014 3:09 PM
1128	Work (1st and Marion) Home (30th and Cherry) Friends (all over Cap Hill) Doctor (Columbia City) Doctor (Greenwood) School (UW)	11/17/2014 3:08 PM
1129	University of Washington Medical Center, Tacoma Dome Station, and Lakewood, WA	11/17/2014 3:08 PM
1130	I go from the University of Washington to Downtown Seattle, Capitol Hill, Fremont, Ballard, the International District, Everett, and Marysville.	11/17/2014 3:08 PM
1131	U District (UW Tower), Harborview Medical Center, Downtown Ballard, Captiol Hill (Pike/Pine and Broadway), Central District, Group Health Capitol Hill, Downtown Seattle (the market area, the stadium area), SeaTac airport, the train station, Magnusson park, Discovery Park, Golden Gardens.	11/17/2014 3:07 PM
1132	University of Washington NOAA/PMEL	11/17/2014 3:07 PM
1133	Century Link field, for Sounders games. Airport Downtown Seattle Northgate Capitol Hill Ballard George Town	11/17/2014 3:06 PM
1134	Bellevue Square Mall area Seahawk Stadium Downtown Seattle (mainly shopping area) Lake Union area	11/17/2014 3:06 PM
1135	UW Tower (4333 Brooklyn Ave NE, Seattle); Sea-Tac Airport; home (in North Greenwood)	11/17/2014 3:04 PM
1136	UVillage, Downtown (Library & Museums)	11/17/2014 3:04 PM
1137	Currently: Downtown to UW via Metro UW to Phinney via Metro Future: Downtown to UW via Link Light rail UW to Roosevelt via Link Light rail	11/17/2014 3:03 PM
1138	UW - Health Sciences Building	11/17/2014 3:03 PM
1139	Everywhere in the U-District to Downtown, or to Northgate. Also West to Phinney and Discovery Park/Alki Beach.	11/17/2014 3:02 PM
1140	I would like to get from Auburn Station in Auburn, WA to Seattle campus, and from Seattle campus to Auburn Station in Auburn, WA.	11/17/2014 3:02 PM
1141	University of Washington, Seattle Bellevue, WA Downtown, Seattle Renton, WA	11/17/2014 3:01 PM
1142	NW Market Street, University District	11/17/2014 3:00 PM
1143	Harborview Medical Center.	11/17/2014 2:59 PM
1144	The Purple Dot and Bush Garden in the International District. Neumos in Capital Hill. Greenwood Abe between 70th and 85th streets	11/17/2014 2:59 PM
1145	Downtown Seattle, International District, Beacon Hill, University of Washington, Downtown Bellevue, Downtown Issaquah, Downtown Sammamish Highlands, Northgate, Interbay Golf Course, Downtown Fremont, Downtown Ballard, Capitol Hill (Center of the restaurant/bar district)	11/17/2014 2:58 PM
1146	University of Washington, South Lake Union University of Washington Medical Campus, 19th Ave NE & NE Northgate Way, 18th Ave NE & NE 75th Street, 148th Ave NE & 15th Ave NE	11/17/2014 2:58 PM
1147	Airport from Wedgwood. (Rte 71 to light rail to airport) Would like to go: More direct routes east-west across N. Seattle, i.e. Wedgwood to Ballard.	11/17/2014 2:58 PM
1148	My primary transit commutes include Wallingford (Sunnyside & 40th) to/from the UW campus, Wallingford to/from Downtown, Wallingford to/from Fremont, Wallingford to/from Ballard, and Wallingford to/from SeaTAC.	11/17/2014 2:57 PM

1149	University of Washington Wizards of the Coast (Lind Ave in Renton) Greenwood Ave N. and 100th street Market Street in Ballard 901 Boren Ave SeaTac	11/17/2014 2:57 PM
1150	to University of Washington and to Auburn sounder station	11/17/2014 2:56 PM
1151	I go Downtown to the airport to Fremont to Ballard to Queen Anne Capitol Hill Northgate	11/17/2014 2:55 PM
1152	UW and 80th and Ravenna	11/17/2014 2:55 PM
1153	Downtown Seattle, Edmonds, Mountlake Terrace, Northgate and Lynnwood park & ride locations. Would like to be able to go from U District to the Edmonds Park & Ride after 5:30 p.m. on weekdays	11/17/2014 2:54 PM
1154	Currently: Ballard, Fremont, U-District, Sand Point, Downtown, Seattle Center Would like to go: Same as above, add Greenlake.	11/17/2014 2:54 PM
1155	I've taken bus from U-District to the Seattle Premium Outlet before. Currently a friend of mine asked me how to take buses there because she couldn't find any information by searching on Google Map. I wonder is it because the route was cut? It'll be great to go there by taking the bus since many students don't have a car and would still like to visit!	11/17/2014 2:52 PM
1156	University District: 45th St and 15th Ave NE Jackson Park golf course: 135th St and 15th Ave NE Northgate Park and Ride	11/17/2014 2:52 PM
1157	downtown bellevue to 520/montlake 520/montlake to downtown seattle	11/17/2014 2:51 PM
1158	Lower Queen Anne/Seattle Center to the Udistrict Belltown to the Udistrict	11/17/2014 2:51 PM
1159	I would like to be able to easily commute between the U District, Downtown, and Sea-Tac more easily.	11/17/2014 2:50 PM
1160	Seattle Ferry Terminal, University of Washington	11/17/2014 2:48 PM
1161	University of Washington Chinatown / International District Area Little Saigon Area SIFF Cinema Uptown SIFF Cinema Egyptian Ballard Locks Discovery Park Downtown Seattle Waterfront Olympic Sculpture Park Seattle Central College North Seattle College (difficult to get to via transit - needs additional service) South Seattle College (difficult to get to via transit - needs additional service)	11/17/2014 2:47 PM
1162	Magnolia Village 98199, University of Washington 98105, Ballard Core 98107, Fremont, Upper Queen Anne, Lower Queen Anne, Belltown, Interbay, South Lake Union, North Downtown, South Downtown, Pioneer Square, Intl Dist, Green Lake.	11/17/2014 2:46 PM
1163	Loyal heights-- U district U district-- fremont	11/17/2014 2:46 PM
1164	I live in Seward Park area. Most days I bike when I can. To take the bus I have to take the 50 to Rainier and transfer to 7 or 9 to MBTC and then take the 48. Often I will drive to 23rd and park and take the 48 into the U. I would love to be able to take a bus straight to the U or at least a bus all the way to the Mt Baker Transit Center. So I live 2 plus miles from a light rail stop and it has to be easier to take just one bus to the light rail.	11/17/2014 2:43 PM
1165	To campus from Sandpoint Way. To Sandpoint Way from campus. To campus from Tacoma Dome Station. To Tacoma Dome from campus. Would like to see extended ST 586 schedules to Tacoma (ie later than 6:30pm) as this would enable me to utilize this route more.	11/17/2014 2:43 PM
1166	I wish there was a better route to get from upper Queen Anne to Udistrict	11/17/2014 2:42 PM
1167	first hill (Harborview), 5th and Seneca, UWMC, Northgate mall area	11/17/2014 2:41 PM
1168	Broadview, Bellevue, Downtown	11/17/2014 2:41 PM
1169	55th and 15th Ave NE The University of Washington Downtown Seattle Capital hill Russian Cultural Center Aria Ballroom in Redmond University Village The UW Intramural Activities Building Queen Anne Hill	11/17/2014 2:40 PM
1170	University of WA Medical Center 815 Mercer St., Seattle Sea-Tac airport 137 NW 84th St. (home) 1201 3rd Ave., Seattle Seattle Center	11/17/2014 2:40 PM
1171	UW airport pikes market symphony	11/17/2014 2:40 PM
1172	Wsdot, shoreline. University of Washington 7701 del ridge way sw, 98106	11/17/2014 2:40 PM
1173	University of Washington, Seattle Campus.	11/17/2014 2:40 PM

1174	University District to/from Downtown	11/17/2014 2:38 PM
1175	University of Washington, school of social work. washington state ferry terminal.	11/17/2014 2:38 PM
1176	downtown uw campus	11/17/2014 2:38 PM
1177	45th and University Way	11/17/2014 2:38 PM
1178	Stevens way & Okanogan Ln 25th ave ne & ne blakeley st	11/17/2014 2:37 PM
1179	Mainly go to down town and Bellevue.	11/17/2014 2:36 PM
1180	Metro transit busses are my main mode of transit. I would like to go everywhere on them.	11/17/2014 2:36 PM
1181	none	11/17/2014 2:35 PM
1182	Between Shoreline and UW/Capitol Hill/Central District	11/17/2014 2:33 PM
1183	currently to work from the Northgate P & R. Having been riding Metro transit for about the last 25 years.	11/17/2014 2:32 PM
1184	UW Medical center 9500 Rainier Avenue S Seattle, WA 98118 Capital Hill	11/17/2014 2:32 PM
1185	Capitol Hill, University District, Downtown, Othello, Eastside,	11/17/2014 2:31 PM
1186	From the University District to Everett & to downtown Seattle	11/17/2014 2:31 PM
1187	I think there should be an east/west running bus on 45th connecting U-Village to the rest of the U district and potentially over to fremont or ballard.	11/17/2014 2:30 PM
1188	Belltown to the University District	11/17/2014 2:30 PM
1189	mainly I travel between UW and Cap Hill (Olive & Summit)	11/17/2014 2:29 PM
1190	Currently commute via bus from: Renton Transit Center to University of Washington, or Issaquah Transit Center to UW Would prefer to go from Maple Valley Park and Ride to University of Washington, but too many transfers/takes too long now, so I drive part of the way	11/17/2014 2:29 PM
1191	To work from Fremont to South Lake Union, to visit friends in the Central District and Capitol Hill	11/17/2014 2:29 PM
1192	sand point to the university district and back, from sand point to tukwila/Des Moines or south center, sand point to northgate, sand point to downtown, to Ballard, Capitol hill. I live near Magnusen Park and take the bus pretty much everywhere I need to go if I can.	11/17/2014 2:28 PM
1193	Northgate Transit Center and the University of Washington	11/17/2014 2:28 PM
1194	Commute between Bothell park-and-ride and UW Seattle main campus. Use bus and light rail to get from Bothell park-and-ride to Sea-Tac airport. Use 70/71/72/73 to go between UW campus and downtown. Use 68 to get from UW campus to PacMed Northgate.	11/17/2014 2:27 PM
1195	University of Washington 2121 26th ave s, seattle Downtown	11/17/2014 2:27 PM
1196	UW, Capitol Hill, Downtown, First Hill, International District, Fremont, Northgate,	11/17/2014 2:27 PM
1197	Factoria, Northgate, DT, Capitol Hill	11/17/2014 2:25 PM
1198	University of Washington - Seattle Campus (NE Campus Parkway), Ballard Ave NW & 22nd Ave NW, Downtown Seattle (6th Ave & Lenora; Pike Place; 5th Ave & Virginia), Green Lake (East Green Lake Drive N)	11/17/2014 2:23 PM
1199	I currently use transit to go between the UW, Seattle campus and my home in Lynnwood. I often go from the UW to Fremont, Ballard, or Capitol Hill. Or between Fremont and Downton.	11/17/2014 2:23 PM
1200	15th Ave NE and 100 st.	11/17/2014 2:23 PM
1201	You listed community transit busses, then did not list their 800 line numbers. I use 821 and 855. Please fix your form to be accurate.	11/17/2014 2:23 PM
1202	Downtown (4th and Union) Fremont	11/17/2014 2:23 PM
1203	Volunteer Park, Pike Place Market, Seattle University	11/17/2014 2:22 PM
1204	UW Airport	11/17/2014 2:20 PM

1205	Currently: Round-trip just about daily between my home on Capitol Hill and my office at UW Round-trip often between my home on Capitol Hill and downtown Occasionally between U-District and Greenwood & 85th I use transit as often as is possible/convenient because driving in Seattle is increasingly intolerable. It would be desirable if buses had more lane preferences on wider roadways, instead of getting caught in the same traffic as cars.	11/17/2014 2:19 PM
1206	from home to work at UW Med Center	11/17/2014 2:18 PM
1207	University of Washington, Northgate Mall, downtown/International district/Pike Place Market, and home (3420 Burke Ave. N).	11/17/2014 2:17 PM
1208	The University of Washington, Seattle Would like to go from 34th & Fremont Ave to Capitol Hill	11/17/2014 2:17 PM
1209	Capitol Hill, Pike Place, SeaTac Airport	11/17/2014 2:17 PM
1210	Currently I mostly use Metro transit to go from Capitol Hill to downtown and from Capitol Hill to the U district. Occasionally I take transit (light rail) to the airport. I would love more and faster transit options to get to Ballard and Fremont from Capitol Hill.	11/17/2014 2:16 PM
1211	Downtown, UW, Ravenna, Fremont, Wallingford, Ballard, Northgate	11/17/2014 2:16 PM
1212	Most importantly, we would like to be able to get home in northeast Seattle (NE 80th St & 25th Ave NE) from downtown AT NIGHT--the 72 bus only runs hourly (and is always crowded), and the 372 stops running early--the lack of FREQUENT EVENING TRANSPORTATION to our area greatly limits what we do for evening activities. This includes good connections from the University light rail station to the area of NE 80th & 25th NE.	11/17/2014 2:15 PM
1213	University of Washington Capital Hill Downtown Wallingford Fremont Ballard	11/17/2014 2:14 PM
1214	U of W Medical Research in South Lake Union on 9th and Harrison, then home to 16th Ave NE and NE 77th St	11/17/2014 2:14 PM
1215	UW, Lake City, Seattle Public Library, Seattle Municipal Court, Northgate Mall.	11/17/2014 2:13 PM
1216	From Wedgewood (65th NE and 35th Ave NE) to Downtown (2211 Elliott Ave)	11/17/2014 2:12 PM
1217	Jackson Park Golf Course to University of Washington Medical Center Jackson Park Golf Course to Lake City Library Jackson Park Golf Course to Meadowbrook Community Center Jackson Park Golf Course to Helene Madison Pool Jackson Park Golf Course to Northgate Mall or Community Center and return trips	11/17/2014 2:11 PM
1218	I currently go from 1922 42nd Avenue E to Padelford Hall on UW campus and back on weekdays for work. I also sometimes go from Padelford Hall to Richard Hugo House (1634 11th Avenue) to teach community education classes after work.	11/17/2014 2:11 PM
1219	Mercer Island,	11/17/2014 2:10 PM
1220	UW Campus to Downtown Seattle or Bellevue/Redmond UW Campus to Airport	11/17/2014 2:10 PM
1221	Between Wedgewood district and: Downtown (Harborview Medical Center), International District, U-district, Bellevue	11/17/2014 2:09 PM
1222	summit & university UW campus seattle central library uwajimaya in international district greenlake playground woodland park zoo st marks cathedral volunteer park madison beach park pioneer square	11/17/2014 2:09 PM
1223	Lynnwood, Pike place, Chinatown	11/17/2014 2:08 PM
1224	I do not go anywhere on transit currently. I would love to take mass transit to work, however it takes longer to get to and from work via bus then it does to drive. I currently like near SW Sylvan Heights drive & SW Orchard in West Seattle. I work at UW (45th Ave NE & 15th Ave).	11/17/2014 2:07 PM
1225	Work - UW Health Sciences, Home - Rainier Valley, downtown Seattle, Fremont, Ballard, West Seattle, Beacon Hill, Capitol Hill, First Hill, Northgate, Ravenna, Seattle Center, Rainier Beach, Seward Park	11/17/2014 2:07 PM
1226	From Capitol Hill to the Udistrict	11/17/2014 2:07 PM
1227	I live on Vashon and I commute in the morning by car, then bus, then water taxi, then bus again. In the evenings, I take a vanpool back to the island and then bus, followed by car to get home. This commute from where I live on Vashon currently takes 2 hours each way! Since Vashon has many commuters, it is hoped that the new light rail might reduce the commute time and make for an easier and more seamless journey for many of us. I would like to be able to take light rail from the West Seattle dock at Fauntleroy AND the water taxi dock downtown (Pier 55) to the U-District. It would be great if this travel was fast and efficient without lots of stops along the way. If the journey takes too long, it won't be much of an improvement.	11/17/2014 2:06 PM

1228	Phinney Ridge to downtown and back Phinney Ridge to University of Washington and back Magnolia to University of Washington and back Magnolia to downtown and back	11/17/2014 2:06 PM
1229	Harborview Medical Center University of Washington Medical Center University of Washington - Upper campus University Ave near UW University Village Seattle Children's Hospital Sandpoint - Magnuson Park Lake City & 125th St Downtown Seattle Stadiums First Hill Northgate Transit Center Pinehurst & 117th Ave	11/17/2014 2:05 PM
1230	Downtown, wedgewood, seatac, pike place, international district, north gate, Bellevue	11/17/2014 2:05 PM
1231	To/from Mercer Island Park and Ride To/from Bellevue To from Downtown	11/17/2014 2:05 PM
1232	Harborview hospital, the airport, UW campus, Ballard locks	11/17/2014 2:05 PM
1233	I drive from West Seattle because there is not a good alternative for me and my school age daughter to get to work/school. She goes to school near my work in the U-District/Sandpoint area. She can't get a reasonable priced bus pass and my bus pass is subsidized. So we drive from West Seattle (Delridge ave/SW Holden St) to Sandpoint area, then I drop my daughter off at school by children's hospital. Then I park my car and take a bus on to the UW campus. It would be a lot easier if we could both take a bus directly to the U-District/Sandpoint area from West Seattle and back again without having to transfer a bunch of times.	11/17/2014 2:04 PM
1234	South-eastern Ballard <--> University of Washington School of Medicine	11/17/2014 2:04 PM
1235	University of Washington from any of the tunnel stations or from magnolia	11/17/2014 2:04 PM
1236	I currently go from Broadway to University District. U was like to be able to go from skyway to University district.	11/17/2014 2:04 PM
1237	Meridian Ave N and N 122nd Street 11th Ave NE and Campus Pkwy 45th Street and 11th Ave NE Northgate P&R Northgate Way and 1st Ave NE Meridian Ave N and Northgate Way	11/17/2014 2:04 PM
1238	travel between home and work, sometimes to appointments, meetings and lunch	11/17/2014 2:04 PM
1239	I go to work in Everett. I'd like to go downtown and capitol hill.	11/17/2014 2:04 PM
1240	getting to and from work	11/17/2014 2:03 PM
1241	University of Washington, North Capitol Hill 19th&John, Westlake Station, Mercer Island, Redmond Transit Center,	11/17/2014 2:03 PM
1242	I primarily go from Capitol Hill (Harrison and 10th) to downtown (6th and Blanchard), from downtown (same location) to the U-district, and from the U-district to Capitol Hill. I also do the reverse of all of these routes. I sometimes also take the bus from the U-District to Mary Gates Way (U-Village Area).	11/17/2014 2:02 PM
1243	Wedgwood, Ravenna, Roosevelt, University District, Downtown (University Street, Westlake, International District), Capitol Hill, Ballard, Fremont, Queen Anne, Issaquah, Redmond, Everett	11/17/2014 2:02 PM
1244	My most frequent route is to and from Madison Park and the UW.	11/17/2014 2:01 PM
1245	Burien to UW (RT); Burien to downtown Seattle (RT)	11/17/2014 2:01 PM
1246	Colman Ferry to UWMC/Health Sciences UWMC to Medical-Dental Building	11/17/2014 2:01 PM
1247	I currently go downtown, queen anne, ballard, capitol hill, greenlake , south lake union, freemont. I would like to go to golden gardens and my work in Bellevue (across from crossroads mall) more easily	11/17/2014 2:00 PM
1248	Downtown Shopping, Northgate Mall UWMC, UW, University Tower on 45th Swedish Medical Center University Village Seattle Center	11/17/2014 2:00 PM
1249	My usual commute is from Tacoma Dome to U-District.	11/17/2014 2:00 PM
1250	I go between uw and the tacoma dome, the school and international district or the school and the shopping center northeast of campus or southwest in queen anne. Those are all places I usually have to do business or ways I get home.	11/17/2014 2:00 PM
1251	Kenmore park and ride to Harborview medical center Northgate transit center to Northwest Hospital and medical center Kenmore park and ride to UW Tower	11/17/2014 2:00 PM
1252	I go from: West Seattle to UW Medical Center UW Medical Center to West Seattle West Seattle to UW South Lake Union UW South Lake Union to West Seattle I'd like to be able to go directly from UW Medical Center to downtown (and vice versa) without having to transfer, walk half a mile, or take a local route that takes 35+ minutes. I'd like to be able to go directly from SLU to Queen Anne.	11/17/2014 1:59 PM

1253	Everywhere. Most often: 427 30th Ave to/from 4101 15 th Avenue NE Seattle, W 427 30th Ave to/from 192 Nickerson St #100, Seattle, WA 98109 427 30th Ave to/from 125 16th Ave E	11/17/2014 1:59 PM
1254	Monroe to Evergreen Point (CT 424); Evergreen Point to UW (Metro 277 or ST 540, 542, or 556), to 15th NE & NE 42nd; Montlake to Monroe (CT 424). (In the past, I've taken any one of a number of Metro or ST buses from the UW to Montlake, but these days I walk to Montlake. Also in the past I've gotten off the CT 424 at Montlake and taken a 43, 44, or 48 bus to the UW, but I haven't done that for awhile.) A direct CT to UW route would be really nice, but, with CT's current financial situation, I don't see that happening.	11/17/2014 1:58 PM
1255	Downtown Seattle near ferry terminal for the ferries to Bainbridge or Bremerton (Colman Dock)	11/17/2014 1:58 PM
1256	15th Ave NE & NE Campus Pkwy University Street Tunnel Station Issaquah Transit Center Issaquah Highlands Park & Ride	11/17/2014 1:58 PM
1257	I currently commute mainly from Ravenna (ne 57th st and 27th ave ne) to the UW and downtown. I'd love more efficient routes from Ravenna to both Northgate Mall and to Capitol Hill (Broadway, Pike, Pine) or downtown Ballard.	11/17/2014 1:57 PM
1258	Light rail connecting downtown Seattle with Bellevue and Everett.	11/17/2014 1:57 PM
1259	8320 Lake City Way NE, University of Washington.	11/17/2014 1:57 PM
1260	Downtown, Chinatown, Fremont, Wallingford, Capital Hill, Belltown, Beacon Hill, University District, SODO, Northgate, Greenlake, Ravenna, Wedgewood, Central District, Pike Place, Pioneer Square	11/17/2014 1:56 PM
1261	University of Washington, Green Lake, Northgate, Lake City, Bellevue, Renton, Seatac, Capitol Hill, Downtown	11/17/2014 1:56 PM
1262	I currently go to Downtown Seattle, University of Washington, University Way Ave and Tacoma	11/17/2014 1:56 PM
1263	Federal way	11/17/2014 1:55 PM
1264	From Federal Way transit to University of Washington Medical Center	11/17/2014 1:55 PM
1265	I would like to be able to go between Northgate and Capitol Hill and Belltown and Capitol Hill and Capitol Hill and Ballard	11/17/2014 1:54 PM
1266	UWMC 1959 Pacific Ave NE Harborview 325 9th Ave Lynnwood Park and Ride SCCA 825 Eastlake Ave E 45th & University Way	11/17/2014 1:53 PM
1267	University of Washington Seattle Campus Seattle Center Sea Tac Airport	11/17/2014 1:53 PM
1268	Seattle Downtown International District Northgate Airport	11/17/2014 1:53 PM
1269	Current-Tacoma Dome to U District. Would like an express bus from Lacey-Seattle and U District.	11/17/2014 1:53 PM
1270	ASh-Way Park n Ride Lynnwood P-R CT 880 CT 821 CT 855 CT 860	11/17/2014 1:53 PM
1271	I currently drive my car and park it on the street and then catch either 67 or 68. I would like not to do this. But there are no parking available by 7 am at the Northgate park in ride.	11/17/2014 1:52 PM
1272	I travel from lower Queen Anne to the University district and back to Queen Anne for my job.	11/17/2014 1:52 PM
1273	University of Washington, Bellevue Square, downtown Seattle and the waterfront, Fauntleroy ferry station	11/17/2014 1:52 PM
1274	I currently go from home (Juanita/Kirkland) to work (UW-Seattle) and back again. I would very much like to have more public transit options on the Eastside and more options to go over/around the lake during non-peak times.	11/17/2014 1:51 PM
1275	To work and back	11/17/2014 1:51 PM
1276	University of Washington - Seattle campus (near Red Square) University of Washington - Football stadium and Hec Ed Pavilion Northgate Mall University Village Group Health - Northgate Puget Sound Plaza Westlake Center Burke Museum Qwest Field Ballard Locks Woodland Park Zoo University of Washington - Bothell Campus University of Washington - Tacoma Campus	11/17/2014 1:50 PM

1278	UW Health Sciences Building (Pacific Ave) Broadway E and Pike/Pine UW Medicine in South Lake Union NE 65th St and 25th Ave NE Children's Hospital Main UW campus (Molecular Engineering and Sciences) Fremont Ave and 42nd St	11/17/2014 1:50 PM
1279	UW	11/17/2014 1:50 PM

1280	1959 NE Pacific St, 2301 5th Ave, 124 Bellevue Ave E, 601 Summit Ave E, 757 Bellevue Ave E, 3407 Gilman Ave W, 2401 NW Market St, 5500 Phinney Ave N, 5000 University Way NE, 12735 42nd Ave NE, 1400 E Prospect St, 602 19th Ave E, 1000 Minor Ave, 4918 Rainier Ave S, 800 Occidental Ave S, 1036 S Jackson St, 501 23rd Ave, 3230 Eastlake Ave E, 1618 E Calhoun St, 2401 24th Ave E, 860 Terry Ave N, 2043 Eastlake Ave E	11/17/2014 1:49 PM
1281	I typically commute from my home at 10th Ave E & Harrison St to: *The University of Washington *Pioneer Square *Mukilteo (which involves taking 1-2 busses to the Sounder train). I recently tried to commute from my home to 21st & Union, and found that the closest busstop was a good walk from my destination. It would be nice to be able to get there faster.	11/17/2014 1:49 PM
1282	Currently: University of Washington Seattle Campus, Capitol Hill, Fremont, Ballard, Green Lake, Pioneer Square, Downtown Would like: NW Seattle on one bus (takes 2-3 from Ravenna), Columbia City, Airport, pretty much all around the city on a train/light rail (it's so much faster!)	11/17/2014 1:49 PM
1283	Between the University of Washington, the Ferry, and the Burien shopping center.	11/17/2014 1:49 PM
1284	Mercer Island, Bellevue, all over Seattle	11/17/2014 1:49 PM
1285	I currently go from South Seattle using Sound Transit Light Rail to downtown Seattle's International District Station, then I catch a 70's bus (usually 71-73 express comes along) to the UW, campus parkway.	11/17/2014 1:48 PM
1286	I would like to be able to quickly get from the 25th Ave NE and NE 60th St to several locations, including: the airport, the train station and Northgate mall.	11/17/2014 1:48 PM
1287	I usually go from the Othello light rail station to 45th St and University Way	11/17/2014 1:47 PM
1288	University of Washington, Downtown, EastSide	11/17/2014 1:47 PM
1289	Downtown seattle. (I want to use it to go to the airport, also).	11/17/2014 1:47 PM
1290	Seatac Airport Pike Place Westlake Shopping Center Seattle Science Center Northgate Mall	11/17/2014 1:47 PM
1291	Current: From Ballard to U district/UW, Ballard to Fremont, Fremont to UW, Ballard to Downtown (Pike and 3rd) Want: Ballard to UW express	11/17/2014 1:46 PM
1292	I go to school at UW Seattle campus, I used to go to work in Downtown Fremont, I commute to Capitol Hill through downtown for choir practice, I commute to Northgate for a lot of things, and I often visit friends in Ballard. I live in Wedgwood.	11/17/2014 1:45 PM
1293	University village University of Washington Issaquah Washington (South Lake Sammamish)	11/17/2014 1:45 PM
1294	Tacoma to the University. I would use the Link once it's in, to go to Northgate Mall and maybe on occasion downtown Seattle.	11/17/2014 1:45 PM
1295	165th and 5th NE University of Washington Northgate Transit Center Downtown Bus Tunnel Market Street, Ballard 15th ave, Capitol Hill	11/17/2014 1:43 PM
1296	U district north gate	11/17/2014 1:43 PM
1297	I currently go to Downtown from the University of Washington, usually to Westlake Center, where I connect with the Link Light Rail to get to SeaTac.	11/17/2014 1:42 PM
1298	Sumner Sounder Station and University of Washington Medical Center (NE Pacific St)	11/17/2014 1:42 PM
1299	I would like better transit from King Station to Lake Union	11/17/2014 1:41 PM
1300	23rd Ave E & Aloha on Capitol Hill to/from University of Washington 15th Ave E & Prospect on Capitol Hill to/from Downtown Seattle 19th Ave E & Prospect on Capitol Hill to/from Downtown Seattle	11/17/2014 1:41 PM
1301	13th Ave East & East Denny Way 15th Ave NE & NE Campus Parkway UW IMA 1101 Madison Street Ballard neighborhood Central District Downtown bus tunnel Seattle Arboretum South Lake Union	11/17/2014 1:41 PM
1302	Phinney Ridge, U District, Pike/Pine Corridor, airport, Westlake	11/17/2014 1:41 PM
1303	Seattle to Edmonds ferry, North Aurora area to UW.	11/17/2014 1:41 PM

1304	I go to work and school at UW on the bus daily. When I need to go downtown I can take the 72 or 73. It'll be nice to have an easier/more convenient way (i.e. that doesn't involve transferring in the U District or downtown) to get to Capitol Hill and places south of the International District like Georgetown, SODO, the airport, etc, I'm looking forward to the light rail for that - I can someday take it from the Northgate or Roosevelt station to wherever I want on that line. I'd also like to have an easier way to get to Ballard or Greenwood, or basically anywhere on the west side of I-5, because right now I feel like I pretty much can only drive (or in theory I could bike, but the hills are tough for me and I don't really feel safe without bike lanes).	11/17/2014 1:40 PM
1305	university of Washington Medical Center	11/17/2014 1:40 PM
1306	1107 NE 45th Street, Seattle 2407 E Ward Street, Seattle Downtown Seattle SeaTac Airport Northgate Mall	11/17/2014 1:40 PM
1307	UW Med Center, Sea/Tac Airport	11/17/2014 1:40 PM
1308	6500 35th Ave NE, 6500 12th Ave NE, 8000 25th Ave NE, Northgate Transit, School of Social Work, HUB, Medical Center	11/17/2014 1:39 PM
1309	University of Washington Seattle Campus, 809 Fairview Pl N, Northgate Mall, 35th Ave NE and NE 65th St, University Village, Seatac Airport, Westlake Center	11/17/2014 1:39 PM
1310	University of Washington Ballard Wallingford Fremont Downtown Capitol Hill --- take too long to visit family in Des Moines	11/17/2014 1:39 PM
1311	Around the UDistrict, between campus and downtown, and around Green Lake	11/17/2014 1:39 PM
1312	Twin Lakes to 45th & Roosevelt -- University of Washington	11/17/2014 1:39 PM
1313	I live in between Fremont/Ballard, along routes 28 and 40. I commute via bike to school and work at UW's main campus. If I am going elsewhere in the city besides home (downtown, Capitol Hill) for events and meetings, I take the bus about half of the time, and bike the other half of the time. If I am trying to get home late at night after evening events, I ride my bike about half of the time and take a taxi or get a ride from a friend the other half of the time.	11/17/2014 1:38 PM
1314	From Mariner Park & Ride to South Lake Union without having to go all the way downtown & transfer to come back/north to SLU. I'd even be willing to drive to Mountlake Terrace Park & Ride in order to take a direct route to SLU.	11/17/2014 1:37 PM
1315	I use public transit to go to all neighborhoods in Seattle (I do not drive or belong to a car sharing service). I would like to be able to better access destinations in the outskirts and suburbs.	11/17/2014 1:37 PM
1316	I would like to be able to go to Mt. Vernon and Bellingham. I currently mostly go between the UDistrict (UW) and the Leschi neighborhood during the week and to Everett on SoundTransit or Sounder Rail on the weekends connecting to SKAT for Mt. Vernon.	11/17/2014 1:37 PM
1317	I would like to see later and more routes between the Edmonds area and the University District. I would also like to see a more direct route between Eastlake and the Seattle Center/Space Needle. I also go on transit between the University District and Eastlake/Downtown seattle.	11/17/2014 1:37 PM
1318	Harborview medical center, University of Washington Medical center, 12th and Pike	11/17/2014 1:37 PM
1319	University of Washington Downtown Seatac Airport	11/17/2014 1:37 PM
1320	Capitol Hill to U District (Minor and Union to UW Tower)	11/17/2014 1:36 PM
1321	Currently go to work, to the hairdresser, to Group Health, downtown to the theatre, downtown to dinner	11/17/2014 1:36 PM
1322	Tukwila International Blvd Light rail link Mount Baker 48 Downtown 255; 43 520 - 255 to downtown sometimes express buses to Burien Park and Ride to downtown and connect to bus to University and return trip	11/17/2014 1:35 PM
1323	Mercer Island	11/17/2014 1:35 PM
1324	148th st sw Burien WA 98166	11/17/2014 1:34 PM
1325	I go between my house in Fremont, UW campus, downtown, and West Seattle.	11/17/2014 1:33 PM
1326	East-West in north districts (Ballard, Wallingford, Laurelhurst) without changing buses in the U District	11/17/2014 1:33 PM
1327	To and from work and downtown.	11/17/2014 1:33 PM
1328	Mercer Island Park and Ride Transit Tunnel Station University of Washington	11/17/2014 1:33 PM

1329	I currently commute to the U District for work every day from the Ravenna/Wedgewood area. I also use the bus to go out to dinner or meet friends on Capitol Hill.	11/17/2014 1:32 PM
1330	Downtown, Capitol Hill, U District, Fremont; Ballard is difficult to get to by transit.	11/17/2014 1:32 PM
1331	I live in the U-district, so there. I'd like to go Downtown, Capital Hill, Wallingford, Fremont, Ballard, Queen Anne, South Lake Union...	11/17/2014 1:32 PM
1332	UW - main campus UW - UW Tower UW - IMA (Intramural Athletics Building) @ 3924 Montlake Blvd NE UW Medical Center Harborview Medical Center Northgate Transit Center Northgate Mall 15th NE and 135th	11/17/2014 1:32 PM
1333	Would like more service to Central District, Columbia City, etc from north Seattle. Right now it takes so long, that it is usually easier not to go.	11/17/2014 1:32 PM
1334	I mainly use transit to go from home in Shoreline to school on UW campus. Also I frequently travel to Northgate from Shoreline and UW Campus both regularly. I also use the buses to do downtown for doctor appointments.	11/17/2014 1:32 PM
1335	UW Health Sciences Building 1959 NE Pacific Street, downtown retail core, Safeco Stadium, Queen Anne, Interbay P-Patch	11/17/2014 1:31 PM
1336	Getting between university village and the university way NE around 50th or 55th by bus would be very nice, right now there are no busses	11/17/2014 1:31 PM
1337	University District to downtown Seattle	11/17/2014 1:31 PM
1338	I don't. I live near SeaTac and am considering light rail when it is available to the UW	11/17/2014 1:31 PM
1339	Northgate	11/17/2014 1:31 PM
1340	University of Washington Downtown the market, shopping district Capitol Hill, near 16th and Group Health I would like to be able to go directly from Capitol Hill to West Seattle Delridge area I would love to have an express bus from Capitol Hill to the University of Washington	11/17/2014 1:30 PM
1341	Coleman Ferry Terminal to UW Stadium Light Rail Terminal (west side of UW campus). Hope you have frequent runs that correspond to Bainbridge ferry arrival and departure times. If so, it would be saving either my car or motorcycle from the roadways. Plus I'd get a little more walking done.	11/17/2014 1:30 PM
1342	Pike Place Market, University of Washington, Lincoln park, Alki Beach, Golden Gardens.	11/17/2014 1:30 PM
1343	I live on Capital Hill. I use Metro to go downtown; to the U District; UWMC and Harborview. I also have used the light rail to get to the airport. I would anticipate using light rail more if my buses connected better (more frequently) and faster.	11/17/2014 1:29 PM
1344	Gold Gym Redmond Mountlake Terrace High School Microsoft	11/17/2014 1:29 PM
1345	Sandpoint	11/17/2014 1:29 PM
1346	University District to Capitol Hill, University District to Colman Dock	11/17/2014 1:29 PM
1347	From swedish cherry hill to Capitol Hill station	11/17/2014 1:29 PM
1348	I currently go to work on the transit, which is from Madison valley area to UW Tower (45th and brooklyn). I go to Downtown Seattle and Northgate as well.	11/17/2014 1:28 PM
1349	Mostly between home near 23rd & Madison to/from the UW. I also sometimes go downtown or to the Seattle Center, usually from home, sometimes from the UW. I sometimes take the bus to the Mt Baker TC & thence to/from the airport (if traveling by air).	11/17/2014 1:28 PM
1350	145th and 26th, UWMC, HMC	11/17/2014 1:28 PM
1351	Popular destinations- parks can be hard to get to. Can't really think of specific examples. Also, I wish 197 would run more frequently (Fed Way to U District.) No matter what time I ride the 197 it is ALWAYS extremely full, like standing space only.	11/17/2014 1:27 PM
1352	Renton to University of Washington	11/17/2014 1:27 PM
1353	Fremont bridge area <-> 14th and Yesler-ish (commute) Pike/Pine around 12th (the ice cream vortex of Molly Moon's and Bluebird and Old School and Cupcake Royale, Broadway farmers market, High 5 Pie, the place where the Seattle humane society van parks sometimes on Sundays)	11/17/2014 1:27 PM
1354	from Kenmore P&R to UW Medical Center. Sometimes I ride the bus from UWMC or Kenmore to downtown for meetings. On weekends, I sometimes take the bus (route 522) from Kenmore to downtown Seattle.	11/17/2014 1:27 PM

1355	From my home in Wedgwood (and then home again): to work at UW-Seattle, to SEA-TAC airport, to downtown Seattle/Westlake, to downtown Seattle/Seattle Center, to Stadium District for Century Link and Safeco Field games, to downtown Tacoma/UW-Tacoma, to Bellevue Square, to Woodinville wineries	11/17/2014 1:26 PM
1356	West Seattle to UW...without it taking longer than I can drive it myself.	11/17/2014 1:26 PM
1357	Direct commuter bus from EVERETT STATION to the UW District. I currently have to take at least 6 buses daily to get to work then back home.	11/17/2014 1:26 PM
1358	Fremont/Phinney Ridge, University District, South Lake Union	11/17/2014 1:26 PM
1359	to/from Kirkland (North Rose Hill) to UW every weekday	11/17/2014 1:26 PM
1360	U District, Capitol Hill, Downtown, Rainier Valley, Tacoma, Airport	11/17/2014 1:26 PM
1361	All over Capitol Hill, all over downtown Seattle, all over Northgate, Ballard, Old Ballard, the U District, University Village, Lower Queen Anne, Leschi, Rainier Valley, the Central District, Beacon Hill	11/17/2014 1:25 PM
1362	UW med center airport Harborview NWKC dialysis units (capital hill)	11/17/2014 1:25 PM
1363	The 44 bus route is my primary commuter route - the station on 46th and Fremont is within 5 blocks of my home, and the dropoff on 15th and 40th st near campus is two blocks from my workplace. Beyond commuting needs, I primarily use transit for various destinations downtown, Capitol Hill or Fremont.	11/17/2014 1:25 PM
1364	UW-Seattle Hugo House I'd like to go to Sea-Tac	11/17/2014 1:25 PM
1365	University of Washington, Downtown Seattle, Sea-Tac Airport	11/17/2014 1:25 PM
1366	I catch the bus (68 or 372) to work most days. I live north of the university village (29th NE and NE 52nd) and at this point it is 2 buses for me to get to most other places so I don't often catch the bus besides to get to work at the University of Washington. I think that the 30/74 corridor should have buses that go downtown all the time, not just during commuting hours, since right now I always have to change buses on university way, whether its to go to Ballard (44) or downtown (71/72/73). One thing that frustrated me about the reorganization of the bus lines a few years ago is that the printed schedules included transfers as though they were part of the same route (IE listing the 30 and 71/72/73 on the same route even though you need to switch buses). There is a huge difference between catching one bus to get somewhere and making a transfer, when it comes to how long the trip takes, since any delay on the first bus can cause you to miss the listed transfer and adds 20 or more min to the time. This should be considered when assigning routes.	11/17/2014 1:24 PM
1367	I'm a student and use transit to get me from campus to all surrounding areas and major neighborhoods, such as Capitol Hill, Ballard, Fremont, Downtown, SeaTac, Tacoma, etc.	11/17/2014 1:24 PM
1368	I got to Capitol Hill, Downtown, U-village, Ballard and Wallingford	11/17/2014 1:24 PM
1369	I miss the old 27, that connected First Hill to Fremont to Ballard. That was the most convenient bus for 90% of my errands, and fairly reliable. The 27/33 shift means I have to take two buses to get to Fremont or Ballard, and often end up waiting downtown for some time for the 26 or 28. My current main routes are: -Central District (23rd and Yesler) to the University of Washington -14th and Yesler to downtown -14th and Yesler to Fremont (PCC/Google) -14th and Yesler to Ballard (Market Street Shoes, etc) -14th and Yesler to SLU (Whole Foods, food trucks) -14th and Yesler to Capitol Hill (Polyclinic Madison) -14th and Yesler to downtown Bellevue/Bellevue TC (doctor visits)	11/17/2014 1:23 PM
1370	From either 3175 NE 85th street Seattle 8014 16th AVE NE Seattle University of Washington Campus	11/17/2014 1:23 PM
1371	4245 Roosevelt Way NE, 12th and John, and Broadway.	11/17/2014 1:23 PM
1372	Wedgewood to UW Seattle; Wedgewood to downtown, Wedgewood to SeaTac airport	11/17/2014 1:23 PM
1373	University of Washington Century Link Field Safeco Field	11/17/2014 1:23 PM
1374	Between Ballard and the UDistrict	11/17/2014 1:23 PM
1375	My most frequent transit trips are: * Between Campus Parkway and downtown Seattle, using 71/72/73/74 * Between Campus Parkway and Seattle-Tacoma International Airport, using 71/72/73/74 and light rail * Between Campus Parkway and Seattle Center, using 32 or 71/72/73/74 and 1/2/13 * Between Campus Parkway and the intersection of Northeast 65th Street and 12th Avenue Northeast, using 48 or 71/72/73 I would like to be able to: * Use route 48 on Sundays with a frequency of less than 30 minutes * Use 71/72/73/74 with even better frequency and less overcrowding * Use 71/72/73 express trips on Sundays to get between Campus Parkway and downtown more quickly * Get between Campus Parkway and Seattle Center more easily than the current 32, which provides a 35-minute trip with a 30 minute frequency. * Get between Campus Parkway and Seattle-Tacoma International Airport more quickly	11/17/2014 1:22 PM

1376	University of Washington, Greenwood Ave and 85th, Evanston Ave North and 85th, Northgate Mall, Northgate 24 Hour Fitness, Downtown, Downtown 24 Hour Fitness, Capitol Hill,	11/17/2014 1:22 PM

1401	University district (ave) Eastlake South lake union capitol hill ballard fremont	11/17/2014 1:15 PM
1402	Currently: University of Washington, downtown, Ballard, Wallingford, Northgate Want: SEATAC airport (more directly)	11/17/2014 1:15 PM
1403	home - Redmond 1200 6th Ave, Seattle 210 South Hudson St. 405 Westlake Ave	11/17/2014 1:15 PM
1404	University District, University Medical Center, Capitol Hill, Downtown	11/17/2014 1:15 PM

1405	I came back from an international vacation and used Link Light Rail from SeaTac to downtown, then 2 different Metro buses to get to my neighborhood. I could not have done this without wheeled suitcases! There was no easy way for me to get a cab from downtown at the last Link Light Rail stop. It would have been better if I could have taken 1 bus from downtown to my neighborhood. I waited quite a while for connecting buses (on a Sunday). I do not even consider going north via Metro Transit (I leave near the intersection of 35th and 95th, northeast Seattle), partly because of the current detour off 35th for the culvert construction and partly because of the sporadic schedule. Currently I use transit to get to work (at UW) and little else. Often when I use my car, it is for shopping trips where carrying the volume I buy would simply not be practical on a bus. Typical destinations to shop include: Fred Meyer at 127th and 35th Ave NE, Costco (either 205th/Aurora or 4th Ave S, depending on other errands and which direction they are in from my house), QFC or Rite Aid (35th & 85th - walking distance), or NE Branch Library (a little too far to be comfortable walking distance), or less frequently Northgate Mall.	11/17/2014 1:14 PM
1406	I currently go from 23rd & Aloha to the University Hospital stop twice every work day. Sometimes I go from my home on Aloha to downtown on the 12. Or from home to my dentist in Madison Valley.	11/17/2014 1:14 PM
1407	SeaTac airport U district Laurelhurst Downtown	11/17/2014 1:13 PM
1408	Downtown from the U District.	11/17/2014 1:13 PM
1409	University District Downtown	11/17/2014 1:12 PM
1410	I currently go to the University of Washington, the Fred Hutchinson Cancer Research Center, or to downtown Seattle. Going from North Capitol Hill (i.e. near Group Health) to Eastlake is difficult, and usually I either walk or take two buses.	11/17/2014 1:12 PM
1411	Transit between home and work - 3654 Courtland Pl S to Seattle Cancer Care Alliance	11/17/2014 1:12 PM
1412	West Seattle to University District (direct is preferred)	11/17/2014 1:12 PM
1413	I go to Capitol Hill, University District on a daily basis. Greenwood one to two times per week.	11/17/2014 1:11 PM
1414	University of Washington, South Kirkland park and ride, Mercer Island, Downtown Bellevue, South Seattle, downtown Seattle, Seattle Center, Greenlake, Ballard, Fremont, Magnuson Park	11/17/2014 1:11 PM
1415	Would like to have options to travel north (Marysville and beyond) on public transit. Currently buses rarely travel to Marysville (during specific hours) and no service farther north.	11/17/2014 1:11 PM
1416	Market and 6th Ave	11/17/2014 1:11 PM
1417	I commute from Tacoma, WA to Bellevue, WA for work via vanpool, or buss/buss & Sounder. I commute from Bellevue to the University of Washington via bus for school during the work week. I commute from the University of Washington to Tacoma home via bus, or into downtown Seattle/downtown Bellevue for social events, group meetings, activities, etc. Not related to the Link connecting to the U-District, but I would like to see a direct route from Tacoma, WA to Bellevue, WA, even if it was only a few times in the morning commute hours and a few times in the evening commute hours.	11/17/2014 1:10 PM
1418	Rein Haus on Capital Hill, Earls on the Ave, The Red Door in Fremont, University of Washington Seattle campus,	11/17/2014 1:10 PM
1419	Downtown, SeaTac Airport	11/17/2014 1:10 PM
1420	Between Sumner sound transit station and the University of Washington	11/17/2014 1:10 PM
1421	I like being able to feel like I can travel most places by transit or the light rail. It is really the only way I travel to work and appointments, events, etc. I like to be able to visit friends in the Seward park area and I thought that was a bus 50 that I used to transfer but I do not see it on the list! I definitely depend on getting to NE 85th and NW 85th areas all the way down to Columbia City or even the airport. As well as busing around from University District, to Capitol Hill or Central District, and downtown.	11/17/2014 1:09 PM
1422	currently go: downtown seattle, UW, bremerston, the airport, park and rides, home, south lake union, capitol hill, pioneer square, belltown, queen anne, ballard, wallingford, fremont, redmond, to class, columbia city, tacoma want to go on transit: more residential areas, bonney lake, clover park technical college in lakewood	11/17/2014 1:09 PM
1423	University of Washington Cherry Hill Swedish Medical Seattle Art Museum	11/17/2014 1:09 PM
1424	Work in the University District, home to Kirkland. Downtown Seattle.	11/17/2014 1:09 PM
1425	University District Sandpoint Capitol Hill Ballard Fremont Northgate Lynnwood Beacon Hill Eastlake Downtown Seatac Airport	11/17/2014 1:08 PM
1426	south lake union	11/17/2014 1:08 PM

1427	U-District, Capitol Hill, Sea-Tac, Fremont, Ballard, Queen Anne, Downtown.	11/17/2014 1:08 PM
1428	Seats Chinatown. U district	11/17/2014 1:08 PM
1429	11th & 45th to go back to Northgate Transit	11/17/2014 1:08 PM
1430	Harborview Medical Center, University of Washington Seattle, Downtown Seattle	11/17/2014 1:07 PM
1431	UW to Wallingford, Ballard to Capitol Hill (very hard by bus), UW to Capitol Hill, Ballard to Downtown	11/17/2014 1:07 PM
1432	University of Washington, Downtown Seattle, Ballard, Fremont, Capitol Hill, Greenwood, Wallingford	11/17/2014 1:07 PM
1433	home - work renton - uw	11/17/2014 1:07 PM
1434	UW	11/17/2014 1:07 PM
1435	Northlake Way and Boat St; NE Campus Parkway and Brooklyn	11/17/2014 1:07 PM
1436	University of Washington, The EMP museum, Museum of History and Industry. I'd like to be able to more easily get to south lake union.	11/17/2014 1:06 PM
1437	UW, Capital Hill Group Health, Northgate, Lake City Fred Meyer, Downtown	11/17/2014 1:06 PM
1438	I bus from Belltown (via the Downtown Transit Tunnel) to the UW campus (Savery Hall); Once the Light Rail station opens by the stadium, I plan to take Link to campus (for work and for games) every day.	11/17/2014 1:06 PM
1439	14027 Lake City Way NE, University of Washington-Seattle, 90th and Stone	11/17/2014 1:06 PM
1440	I transit to downtown, 65th and roosevelt, and northgate. I would like an easier way to get to capitol hill from the u district	11/17/2014 1:06 PM
1441	Currently from NE86 TH : UW, U-District, Capitol Hill, Wallingford, Downtown Seattle-South Lake Union, Greenwood, Shoreline, Lake Forest Park, and Edmonds	11/17/2014 1:05 PM
1442	I need to be able to quickly get from the University of Washington Medical Center (1959 NE Pacific St.) to any other neighborhood and downtown. Right now, I use major routes that run North-South in order to get from my home in Maple Leaf to the University, the Northgate Mall, and Downtown.	11/17/2014 1:05 PM
1443	1. Aurora Village to University of Washington for work commute 2. Univ of WA to Northgate (library, errands) after work 3. Northgate to Aurora Village (home) 4. Univ of WA to downtown (for errands) during or after work 5. Northgate to downtown for shopping or events 6. Univ of WA to MLT park-n-ride 7. Edmonds park-n-ride to Univ of WA	11/17/2014 1:05 PM
1444	Ashworth Ave N and 155th St Green Lake P&R UWMC Harborview Medical Center Downtown	11/17/2014 1:05 PM
1445	Capitol Hill (pike-pine corridor area) UW Medical Center Wallingford Fremont Ballard SeaTac Airport	11/17/2014 1:05 PM
1446	Mostly I just ride link light rail to the airport; Also take the bus from Capitol Hill to Downtown or Queen Anne, or the University District - Also return via bus on these routes	11/17/2014 1:05 PM
1447	University of Washington, Space Needle	11/17/2014 1:05 PM
1448	Maple Leaf neighborhood	11/17/2014 1:05 PM
1449	Downtown Seattle, Capitol Hill, U District, nearly all stations currently linked by Light Rail, and all public parks	11/17/2014 1:04 PM
1450	The University of Washington to Sumner station.	11/17/2014 1:04 PM
1451	home to University of Washington	11/17/2014 1:04 PM
1452	UW Medical Center	11/17/2014 1:04 PM
1453	renton transit center	11/17/2014 1:04 PM
1454	Downtown Seattle Tacoma Everett Lynnwood Edmonds	11/17/2014 1:03 PM
1455	University of Washington, Northgate Mall, Seattle Convention Center, AMC Theatre, Barnes and Nobel	11/17/2014 1:03 PM
1456	U Village, Fremont, Ballard, SODO, Downtown, Northgate, Capitol Hill, Queen Anne's Hill	11/17/2014 1:03 PM
1457	U district, Downtown, Fremont, Ballard, Wallingford, Wedgewood, Capital Hill	11/17/2014 1:03 PM
1458	University of Washington; West Seattle/Admiral District; downtown Seattle	11/17/2014 1:03 PM

1459	From Seattle Ferry to UW Hospital, Capitol Hill, Belltown (2nd & Bell), or Ballard (Market St). Or from UW Hospital to Capitol Hill, Ballard (Market St.), Belltown (2nd & Bell), or Seattle Ferry terminal.	11/17/2014 1:02 PM
1460	university way and NE 50th st	11/17/2014 1:02 PM
1461	I currently work in Lacey, Washington. I would very much appreciate rapid transit or light rail that connects up the Olympia/Lacey area with Seattle. Currently, the commute times for public transit are too great to be practical.	11/17/2014 1:02 PM
1462	15th Ave E & E John St Eastlake Ave E & E Mercer St UW Seattle campus University Village Green Lake	11/17/2014 1:02 PM
1463	I go to University of Washington and return to my house in North Green Lake. I have also taken the bus to Fremont and Ballard, as well as to Pioneer Square in downtown.	11/17/2014 1:02 PM
1464	Downtown Renton (home) Renton TC Bellevue TC 263 Dayton Ave SE Renton WA	11/17/2014 1:01 PM
1465	Downtown Seattle, University District, Puyallup	11/17/2014 1:01 PM
1466	Capitol Hill, Downtown Seattle, Seatac airport	11/17/2014 1:01 PM
1467	Work (U-district) Medical & dental appointments (downtown & Polyclinic Madison office) Social events (Cap Hill, downtown, Queen Anne, Fremont, Greenlake)	11/17/2014 1:00 PM
1468	My primary commute is northgate to UW	11/17/2014 1:00 PM
1469	UW, downtown, Capitol Hill	11/17/2014 1:00 PM
1470	I go to and From Yesler Terrace and UW-Seattle	11/17/2014 12:59 PM
1471	Between the U district and downtown U district / Capitol Hill U district / Bothell, Kenmore U district / Bellevue	11/17/2014 12:59 PM
1472	Downtown, capital hill, burien, and SeaTac	11/17/2014 12:59 PM
1473	Primarily from Northgate to UW for work.	11/17/2014 12:59 PM
1474	Everywhere, I don't have a car. Specifically, to/from these locations: airport, home (NE Seattle), work (University District), Ballard, Fremont, Downtown Seattle, Queen Anne, Bellevue, Redmond, Kirkland.	11/17/2014 12:58 PM
1475	I commute from the kent/federal way area to the university of Washington almost every day. More consistent busses in the afternoon would make my commute easier as I must wait over an hour for the busses sometimes due to the times the classes are over at UW.	11/17/2014 12:58 PM
1476	Capitol Hill, Fremont, Northgate, Queen Anne, Central, Bellview, Bellmont	11/17/2014 12:58 PM
1477	West Seattle to Downtown, but I'd like to be able to go to U-District faster.	11/17/2014 12:58 PM
1478	UW, downtown, Capitol Hill	11/17/2014 12:58 PM
1479	Downtown, bellevue, lynwood, northgate, udistrict, Fremont, ballard, Capitol hill.	11/17/2014 12:58 PM
1480	Currently commute from Tacoma to U District daily	11/17/2014 12:57 PM
1481	Work at the University of Washington, the U District, Greenlake, downtown Seattle, Capitol Hill, Fremont, Ballard, Wallingford	11/17/2014 12:57 PM
1482	Downtown, U district, international district	11/17/2014 12:57 PM
1483	UW Tower 15th Ave NE and NE Pacific St Seattle Center 1st & Pike	11/17/2014 12:57 PM
1484	Currently go to: UW Law School (Gates Hall)	11/17/2014 12:57 PM
1485	UW campus - Campus Parkway/Brooklyn Ave.	11/17/2014 12:57 PM
1486	Downtown Seattle	11/17/2014 12:57 PM
1487	Mukilteo Shoreline Northgate U-District Capitol Hill Downtown	11/17/2014 12:56 PM
1488	Bear Creek Park and Ride 15th and Roxbury (White Center) University Street Tunnel Station 15th and 45th Streets	11/17/2014 12:56 PM
1489	From Roosevelt to downtown	11/17/2014 12:56 PM
1490	University of Washington	11/17/2014 12:56 PM
1491	Redmond to University of Washington	11/17/2014 12:56 PM

1492	Tukwila Link to Downtown Seattle then Metro or Sound Transit to Montlake Freeway Station. I would prefer to have an express bus from the downtown tunnel to University of Washington Medical Center. Like the 255 which has no stops after leaving the tunnel.	11/17/2014 12:55 PM
1493	University of Washington, downtown	11/17/2014 12:55 PM
1494	Metro currently serves my transit needs very well (when I don't bike or walk). With the new light rail transit station opening on Capitol Hill, however, it would be good to have good service to that station. Also, I have found that bus access to the Amtrak train station is not particularly good.	11/17/2014 12:55 PM
1495	Wallingford--Downtown, Wallingford--U District--Capitol Hill, Wallingford-->Anywhere in Seattle	11/17/2014 12:55 PM
1496	Downtown, Greenlake, UW Campus, Capitol Hill, U District	11/17/2014 12:55 PM
1497	Doctors, School	11/17/2014 12:55 PM
1498	I currently use transit to go to UW and generally to downtown. I would like there to be more options to go east/west in the city and also to go between the north seattle neighborhoods without going through downtown (Crown Hill to Discovery Park, U-District to Golden Gardens)	11/17/2014 12:55 PM
1499	Downtown Seattle Center	11/17/2014 12:55 PM
1500	UW, Downtown, Ferry terminal downtown, Westlake Center Downtown, Fisherman's terminal, Northgate	11/17/2014 12:55 PM
1501	I get on the bus at 5th AVE and 155th st, or on I-5 and 145th St freeway station.	11/17/2014 12:54 PM
1502	Currently travel from Kirkland to Seattle, specifically intersection of 124th ave ne and ne 108th pl, and university district.	11/17/2014 12:54 PM
1503	Downtown Seattle/tunnel stations UW Medical Center	11/17/2014 12:54 PM
1504	UW, downtown	11/17/2014 12:54 PM
1505	Currently, I use transit to reach anywhere in the downtown vicinity. I would like to be able to conveniently reach South Lake Union and Capital Hill.	11/17/2014 12:54 PM
1506	Shoreline /Ballinger Way to UW	11/17/2014 12:54 PM
1507	I would like more service on the 542.	11/17/2014 12:54 PM
1508	I am currently a commuter student who commutes from Burien to the University of Washington - Seattle campus. I would like to have a transit route that only includes using one form of transit to get to the University of Washington. Currently, I take the 121 and either the 71, 72, or 73 to get to the University of Washington. Other times I take the Sound Transit Link Light Rail from the Tukwila station to the tunnel stations, and then again board the 71, 72, or 73 bus to the UW. It would be very convenient and helpful to have one bus to get to the University of Washington, or to be able to use the light rail all the way to the UW.	11/17/2014 12:53 PM
1509	Mt Baker in Seattle to UW, downtown, Harborview	11/17/2014 12:53 PM
1510	Between Monroe and University of Washington Medical Center	11/17/2014 12:53 PM
1511	Kirkland Transit Center to University of Washington Medical Center Kirkland Transit Center to South Lake Union (Westlake and Denny)	11/17/2014 12:53 PM
1512	use to go to work 5 days a week	11/17/2014 12:53 PM
1513	I like to use buses and the LINK train to get to and from the airport, and currently I usually have to take two buses and the train. (I live at Radford Court Apartments, 6303 NE Radford Dr, Seattle, 98115.) I also prefer to use buses to go to/from Capitol Hill. I really hope that a Sand Point-serving bus will connect from the UW LINK station, as this would make travel to the airport and Capitol Hill much easier.	11/17/2014 12:52 PM
1514	I currently go to UW campus from Lake City in NE Seattle, so I take the 372 often. I also sometimes travel between north University District (50th and 15th) and Capitol Hill (Pine and 10th), so the 49 works well for this. I work in Bellevue, so I take the 372 from Lake City to campus, then the 271 to Bellevue Transit Center. I used to take the 243, and I liked it. I still had to take two buses to get to Bellevue, but it was a shorter and more comfortable commute. I would like more service to NE Seattle, above 125th St. Cuts to the 312 and 306 service have made morning commutes very hard for my husband, who travels to Capitol Hill in the mornings. Buses are always full, riders are left stranded, and traffic is a nightmare.	11/17/2014 12:52 PM
1515	I currently go between UWMC and 20th and E Cherry. I also use it to go from 20th and E Cherry to Harborview Medical Center. I would like to be able to take transit from 20th and Cherry directly to Broadway and Pine.	11/17/2014 12:52 PM

1516	Issaquah transit center, downtown Bellevue, Udistrict, Fremont, Gasworks Park, Seattle Center, the airport, whidbey island,	11/17/2014 12:52 PM
1517	I currently use transit from my house (Evanston and 42nd) to and from UW Seattle, to and from the airport, to and from downtown. I would like to see more bus routes that service the more residential areas, such as north ballard.	11/17/2014 12:52 PM
1518	UW	11/17/2014 12:52 PM
1519	University of Washington Downtown - Pioneer Square Shoreline/Lake Forest Park Northgate	11/17/2014 12:52 PM
1520	15th Ave E and Aloha to Harborview Hospital, U District, and downtown	11/17/2014 12:52 PM
1521	Home - 12th and 55th NE Greenlake Washington Park Arboretum Kubota Gardens Seward Park Alki Beach Lincoln Park Discovery Park Seattle Center Unviersity of Washington Medical Center Harborview Medical Center Seattle VA (Beacon Hill) Swedish Hospital - Cherry Hill Northwest Hospital	11/17/2014 12:51 PM
1522	To and from work, to downtown Seattle, to HMC, to First Hill for MD appts. Routes not listed above that I use--E RapidRide, 5	11/17/2014 12:51 PM
1523	UW Downtown Capitol Hill Ballard West Seattle Georgetown SeaTac Airport	11/17/2014 12:51 PM
1524	Sammamish to the University of Washington and back	11/17/2014 12:51 PM
1525	Work, airport, downtown, Seward Park	11/17/2014 12:50 PM
1526	West Magnolia - Home 39th Avenue West and W Barrett St. Downtown Retail Core - 5th and Plne Metro HQ - 2nd and Jackson Swedish Hospital - Ballard Swedish Hospital - First Hill Polyclinic - 9th and Madison Orthopaedic Physicians - Broadway and Jefferson Seattle Public Library - Downtown 5th and Madison South Lake Union - 9th and Mercer University Way and NE 45th Gasworks Park Government Way W. and W Dravus Street 805 4th AVenue N	11/17/2014 12:50 PM
1527	Daily between Greenwood and UW and back. Frequent trips via shuttle or bus to work appointments at UW Med Center, Harborview, and SCCA. Occasional trip to Northgate and downtown from the U District.	11/17/2014 12:50 PM
1528	Currently go: Downtown Seattle, University District (UW) Would like to go (or occasionally go): Capitol Hill (15th & John, up the Pike/Pine corridor, down the Madison corridor, and down Broadway in particular); downtown Ballard and Fremont (no easy way to get there quickly); downtown West Seattle (e.g., California & Alaska, near Bakery Nouveau)	11/17/2014 12:50 PM
1529	Currently, I primarily use the 586 to go to the UW medical center on campus. I often use the 71/72/73 to go the Westlake center to catch the 594 on 2nd and Stewart. When I go to capitol hill, I usually go to E Pike and 12th.	11/17/2014 12:50 PM
1530	Main Seattle campus of the University of Washington Downtown Airport Occasional special events that take me north or south	11/17/2014 12:50 PM
1531	Issaquah Transit Center Bellevue Transit Center	11/17/2014 12:50 PM
1532	Kent station	11/17/2014 12:50 PM
1533	Udistrict, downtown Seattle, Tacoma, Northgate, Aurora	11/17/2014 12:50 PM
1534	To visit family, and to go downtown from UW.	11/17/2014 12:50 PM
1535	From home near Metropolitan Market in Laurelhurst to Downtown and airport.	11/17/2014 12:50 PM
1536	University of Washington	11/17/2014 12:50 PM
1537	Home, to school, to work, to downtown.	11/17/2014 12:50 PM
1538	University of Washington (Seattle campus) Downtown Seattle	11/17/2014 12:49 PM
1539	work from Ravenna/Roosevelt to: the U-district, to downtown, Seattle Center	11/17/2014 12:49 PM
1540	I currently go from Shoreline to UW Seattle Campus, and also from Shoreline to Capital Hill and downtown Seattle.	11/17/2014 12:49 PM
1541	University of Washington-IMA, Greenlake, Pioneer Square, Greenwood & 87th, AXIS Pioneer Square, Starbucks HQ, WithinSODO, DT Ballard	11/17/2014 12:49 PM
1542	I currently go to University of Washington and home	11/17/2014 12:49 PM

1543	Ash Way part and ride	11/17/2014 12:49 PM
1544	U-district to downtown and back	11/17/2014 12:49 PM
1545	NOAA/PMEL on Sand Point Way UW Seattle campus Westlake Center Eastlake & Lynn Broadway & Pine North Seattle Community College campus SeaTac airport Discovery Park Seattle Center - McCaw Hall UVillage (25th & Blakleley) Northgate Mall	11/17/2014 12:48 PM
1546	UW Tower 1215 Dexter Ave N 6th & Pine	11/17/2014 12:48 PM
1547	QA to UW or downtown	11/17/2014 12:48 PM
1548	Renton Transit center	11/17/2014 12:48 PM
1549	International District Tunnel	11/17/2014 12:47 PM
1550	Currently travel from Bellevue to U District (271) and U District to Seattle Children's.	11/17/2014 12:47 PM
1551	U-District (45th St.), Downtown Seattle, NE 75th St and 15th Ave NE, Northgate	11/17/2014 12:47 PM
1552	I often travel between UW and Wallingford or Fremont, between Wallingford and Capital Hill, between UW and Capital Hill, between Wallingford and Downtown, between Wallingford and Ballard, between Wallingford and Queen Anne	11/17/2014 12:47 PM
1553	Between Ballard/Fremont/Wallingford and UW; between Wallingford/Fremont and downtown/Capitol Hill.	11/17/2014 12:47 PM
1554	Stevens Way & Okanagan way 2901 NE Blakeley St	11/17/2014 12:47 PM
1555	UW Campus Bellevue Downtown Seattle Lynnwood	11/17/2014 12:47 PM
1556	northgate uw downtown shoreline	11/17/2014 12:47 PM
1557	I use the buses to go downtown, to go to airport, the Amtrak station near century link, northgate mall, head to Bellevue, and the Fremont area	11/17/2014 12:46 PM
1558	Maple Valley, Bellevue, Downtown Seattle, Redmond, University District, Seattle Waterfront, Renton	11/17/2014 12:46 PM
1559	Currently, main travel to Wedgwood and University of Washington. Would like more direct downtown linkage from UW/U-district to downtown.	11/17/2014 12:46 PM
1560	Lake Stevens Transit center, Lynnwood Transit center, and Mariner Park and Ride.	11/17/2014 12:46 PM
1561	University of Washington	11/17/2014 12:46 PM
1562	Currently go from Mercer Island to the U-District	11/17/2014 12:46 PM
1563	UW Downtown	11/17/2014 12:46 PM
1564	Shoreline, airport, downtown Seattle, University of Washington	11/17/2014 12:46 PM
1565	All over Capitol Hill, particularly Seattle U, Swedish, Polyclinic (on Broadway and on Spring/Seneca), downtown usu betw 3 & 4th and James & Union, stadiums, airport, Cottage Lake, Woodinville Library, Country Village in Bothell, Kenmore P&R, Northgate Mall, Redmond Town Ctr, Totem Lake Mall, Kingsgate P&R, Brickyard P&R, Seattle Center, Pike Place Market, Waterfront, Kenmore Jr High, Inglemoor High, Arrowhead Elementary	11/17/2014 12:45 PM
1566	From the Lynnwood Transit Center to the University of Washington mostly. The bus schedules are pretty good, although during quarters (except Summer), the buses are very full from Lynnwood. More frequent trips would help there. I would like to see more connections between Lynnwood and 145th or 175th. Also, I frequently (at least weekly) drive from Lynnwood P&R or Mountlake Terrace P&R to the Lake Forest Park Center (Third Place Books mostly). It would be great better connections to there. As it is, it looks like it would be 2 or more transfers and then walking. I would most definitely take transit if the bus schedules were more direct and somewhat more frequent to LFP. I realize that encompasses two separate transit companies, so may not be a viable option. However, I bet LFP would be for it!	11/17/2014 12:45 PM
1567	The entire city should be navigable by public transportation.	11/17/2014 12:45 PM
1568	I go from Dexter Ave to Fremont to catch at bus to the U-District. I take the bus downtown from Dexter. I would like to go from Fremont to Capitol Hill without having to transfer buses.	11/17/2014 12:45 PM
1569	I go between the U District, downtown, Northgate, and Lakewood primarily.	11/17/2014 12:45 PM
1570	To UWMC	11/17/2014 12:45 PM

1571	The west side of Capitol Hill - It would be great to get the 47 back, as well as better options for going north towards UW from Bellevue or Summit Aves, without having to walk all the way up to Broadway or down to Eastlake. A bus directly connecting Capitol Hill and Fremont via Westlake or Dexter	11/17/2014 12:44 PM
1572	I typically go from Capitol Hill to the U District or Capitol Hill to downtown. Or, from Capitol Hill to the airport.	11/17/2014 12:44 PM
1573	University of Washington Downtown Seattle Center Airport	11/17/2014 12:44 PM
1574	University District (45th and University Way) The HUB, University of Washington Westlake Center, Downtown 65th Ave NE and 25th Ave NE Wallingford QFC	11/17/2014 12:44 PM
1575	University of Washington Seattle campus (south end)	11/17/2014 12:44 PM
1576	I go from Lake City to the University of Washington and back. Sometimes I go downtown from Lake City and back.	11/17/2014 12:44 PM
1577	University of Washington (Seattle) South Center Kent Station	11/17/2014 12:44 PM
1578	At downtown Seattle transit tunnel.	11/17/2014 12:44 PM
1579	I leave from Interlaken at 19th E and Galer to go to First Hill using the 12.	11/17/2014 12:44 PM
1580	Capitol Hill UW	11/17/2014 12:44 PM
1581	From Greenlake to U-district, downtown, Capitol Hill, First Hill, Madrona, Fremont, Ballard, Queen Anne, South Lake Union	11/17/2014 12:43 PM
1582	I currently go to the University District and Downtown. I would like a bus route from Greenlake to Capitol hill.	11/17/2014 12:43 PM
1583	UW, Capitol Hill, Bellevue, Downtown Seattle	11/17/2014 12:43 PM
1584	I go to Pikes Place Market, Northgate Mall, The University of Washington,	11/17/2014 12:43 PM
1585	UW Bothell, UW Seattle, Kenmore Park and Ride, Bothell Park and Ride	11/17/2014 12:43 PM
1586	UW Tower, Downtown, Airport	11/17/2014 12:43 PM
1587	Sometimes I take metro home, when I don't drive to work.	11/17/2014 12:42 PM
1588	UW to maple leaf/northgate; Ballard; Shilshole; UW to Shoreline, Costco Aurora transit center; UW to downtown Edmonds; Everett, Snohomish; Mukilteo; Camano Island; Mt. Vernon; La Conner....	11/17/2014 12:42 PM
1589	Sea-Tac Airport, Seattle Opera House, Seattle Center, Ballard neighborhood, South Lake Union, downtown, Columbia City.	11/17/2014 12:42 PM
1590	Catch Bus #7 on Rainier & Alaska. Transfer to Bus #48 at Mt. Baker Transit Center. Arrive at destination (UW Medical Center)	11/17/2014 12:42 PM
1591	Current Routes: Kingston-Edmonds Ferry Edmonds-Seattle Sounder Seattle-SeaTAc by light rail Desired Route: Edmonds to UW Campus	11/17/2014 12:42 PM
1592	From Seward Park to the University of Washington	11/17/2014 12:42 PM
1593	UW	11/17/2014 12:42 PM
1594	Downtown Seattle, Burien, Queen Anne	11/17/2014 12:42 PM
1595	South Renton Park and Ride	11/17/2014 12:41 PM
1596	Currently: capitol hill, u district, downtown, ballard. Would love to be able to get to Shilshole Bay Marina/Golden Gardens on the bus.	11/17/2014 12:41 PM
1597	Campus to downtown, campus to pioneer square, west greenlake/phinney ridge to downtown, west greenlake/phinney ridge to campus	11/17/2014 12:41 PM
1598	Tukwila international Boulevard station University of Washington	11/17/2014 12:41 PM
1599	University of Washington Medical Center Fred Hutchinson Cancer Research Center Pike Place Market University Village	11/17/2014 12:41 PM
1600	From 55th and Brooklyn to UWMC. Two to three times/yr, I'll take one of the 70 buses from 55th and University Way to the downtown tunnel and take Light Rail to the airport.	11/17/2014 12:41 PM

1601	I travel from Renton to the U-District. I live near Fairwood, and drive to the Renton Transit Center to take the 167 to work. It is currently very convenient for commuting to the University of Washington and should be maintained as is. The two things that could make it even more convenient is having the correct size bus every day, and not having to commute to the Renton Transit Center!	11/17/2014 12:40 PM
1602	UW Medical Center, Upper Queen Anne, Pacific Place, ID Light Rail Station, Downtown Seattle, Zandu Comics, LA Fitness Ballard, Lincoln Square Mall, Redmond P&R, Microsoft Campus.	11/17/2014 12:40 PM
1603	For my daily commute, I regularly travel by bus from 15th & 228th in Bothell to Garfield & Stevens at the University of Washington (via a connection at UW-Bothell). Several times per year, I also travel from Bothell to SeaTac airport by a combination of bus and link light rail.	11/17/2014 12:40 PM
1604	I currently use transit to go from Shoreline to the University of Washington Monday through Friday.	11/17/2014 12:40 PM
1605	Admiral District (West Seattle) Downtown bus tunnel Capital Hill University Medical Center (Montlake)	11/17/2014 12:40 PM
1606	University of Washington, University Village, downtown, Harborview, Seattle Children's	11/17/2014 12:40 PM
1607	Green lake, South Lake Union, U-District	11/17/2014 12:40 PM
1608	Northgate Costco at 200th in Shoreline Airport Capitol Hill University of Washington	11/17/2014 12:40 PM
1609	I would like to go East to West easier.	11/17/2014 12:40 PM
1610	Nordstrom	11/17/2014 12:40 PM
1611	From/To Green Lake (Ravenna & Woodlawn) to UWMC From/To Green Lake (Ravenna & Woodlawn) to SeaTac From/To Green Lake (Ravenna & Woodlawn) to Aurora Street From/To Green Lake (Ravenna & Woodlawn) to Downtown: Seattle Symphony and Seattle Center I'd like to take public transit to the Seattle Center	11/17/2014 12:39 PM
1612	23rd & Jackson to Seattle Center--the 8 has been great. The 4 is good too. 23rd & Jackson to Capital Hill--8 is good. 48 to and from work without needing to transfer is great (23rd & Jackson to UW Medical Center)	11/17/2014 12:39 PM
1613	University of Washington Medical Center	11/17/2014 12:39 PM
1614	University of Washington; Pioneer Square; St. Mark's Cathedral; Ballard!	11/17/2014 12:39 PM
1615	West Seattle, South Seattle College Route 125	11/17/2014 12:39 PM
1616	Star Lake P&R, Federal Way	11/17/2014 12:39 PM
1617	Capital Hill and U District	11/17/2014 12:39 PM
1618	To/from Lake City to UW. To/from Lake City to downtown Seattle. Would like to be able to go direct from Lake City to Greenwood/Broadview/Phinney areas. In general, north-south transit is fine, while east-west transit is horrible (multiple transfers, long, roundabout routes).	11/17/2014 12:38 PM
1619	I'd like to be able to go from Mercer Island to the UW with more options than 2 buses per day in either direction other than from park and ride.	11/17/2014 12:38 PM
1620	Capital hill, downtown, fremond/ballard	11/17/2014 12:38 PM
1621	North Seattle to the UW district via 145th Ave. The 304 is an express downtown, but a stop at the 45th Ave freeway station would be welcome.	11/17/2014 12:37 PM
1622	I go to and from school at the University of Washington health sciences. I also commute to hospitals on pill hill such as Swedish Cherry Hill and Harborview. I would like to be able to go to capitol hill through a more direct bus route; and to these hospitals through a route that does not go through downtown.	11/17/2014 12:37 PM
1623	UW (Campus Pkwy, UW Tower) Broadway Market Pike Place Westlake	11/17/2014 12:37 PM
1624	Magnuson Park University of Washington Northgate Downtown (bus tunnel) Wedgwood Mathews Beach Seattle Pacific University	11/17/2014 12:37 PM
1625	I currently go to 9th and Republican in South lake Union. I live in Capitol Hill (Olive Way and Harvard Avenue E)	11/17/2014 12:37 PM
1626	U District (45th and Brooklyn)	11/17/2014 12:36 PM
1627	University of Washington Medical Center 1959 NE Pacific St. Kitsap Forest Theater in Bremerton (via car ferry)	11/17/2014 12:36 PM
1628	campus to downtown campus to South Lake Union campus to Capital Hill	11/17/2014 12:36 PM

1629	Lake City to UW Lake City to Seatac Airport (bus downtown, then link to airport) Would like get to airport on link from UW	11/17/2014 12:36 PM
1630	would like to go to the Airport from the University District	11/17/2014 12:36 PM
1631	All the downtown transit stations, especially Westlake tunnel station. Stone Way and 45th. University of Washington. Kirkland Transit Center.	11/17/2014 12:36 PM
1632	International district	11/17/2014 12:36 PM
1633	UWMC	11/17/2014 12:36 PM
1634	UW medical center, Fremont, downtown seattle, belltown, water front	11/17/2014 12:35 PM
1635	Univeristy of Washington	11/17/2014 12:35 PM
1636	UWMC - 1959 Pacific Ave 2016 S. Bayview St. Capital Hill Downtown West Seattle	11/17/2014 12:35 PM
1637	Currently Go/want to go: Lake City & NE 125th St. to UW or downtown (5-6x a week roundtrip) via 372, 72, 41, 522 UW to Capitol Hill, Summit St & East Olive Way (1x a week roundtrip) via 43, 49 UW to downtown (2x a month), 71-73 68th Ave (ravenna) from UW or downtown (monthly roundtrip) via 68, 71	11/17/2014 12:34 PM
1638	I only use transit for going to work at the UW Medical Center from my home in NE Seattle. I would like to be able to get to Seattle Center, Capital Hill, downtown, Wallingford, Ballard, and First Hill on transit, but now it is too cumbersome--too many bus changes and waits. Taking a bus to the opera, ballet or theater in Seattle Center in the evening would be terrific. That place is a mess of traffic and parking, but way too hard for us to get to by bus right now.	11/17/2014 12:34 PM
1639	3515 NE 60th Street to UW health sciences building 3515 NE 60th Street to downtown Do not like to go downtown on Sunday or when express buses are not running between downtown and the University District. Do not like to take transit during rush hour between University District and downtown as there are no places to sit.	11/17/2014 12:34 PM
1640	Work--1410 NE Campus Parkway and the airport.	11/17/2014 12:34 PM
1641	95th Ave NE Downtown Seattle Stevens Way	11/17/2014 12:34 PM
1642	I would like a direct route from the UW Medical Center to go up Phinney/Greenwood Aves. I currently have to transfer from the 5 to the 44.	11/17/2014 12:34 PM
1643	I travel from Ballard to the University District for work, the U District to Capitol Hill, Ballard to Belltown, Ballard to Fremont and downtown. I would like to see direct routes (no transfers!) from Ballard (15th and Market) to Capitol Hill (Broadway and Pike/Pine) and Queen Anne (McGraw and 6th vicinity) to U District (45th and University). I would also like to be able to easily and dependably get to the airport with the light rail.	11/17/2014 12:33 PM
1644	University of Washington Medical School. Downtown. Airport.	11/17/2014 12:33 PM
1645	U district Ballard Northgate Kirkland Redmond S. Lake Union Downtown Seattle	11/17/2014 12:33 PM
1646	I currently commute from Tacoma to the UW on route 586. I previously commuted on route 44 from Fremont to UW. I've used several different 70s routes to reach downtown from the UW (typically to visit SPL or to catch a connecting route 590/594 back to Tacoma). I travel to Seattle's First Baptist church in Capitol Hill from the UW once or twice a week and have used route 43 and 49, predominantly. I've used the other selected routes only rarely, but thought it important to include them. I see that route 5 (or 5X) and route 358 are not included in the above list, but I used those routes in 2010-2011 when commuting from Fremont to Belltown.	11/17/2014 12:32 PM
1647	toand from home in lynnwood and work in the U district	11/17/2014 12:32 PM
1648	UW 1959 NE Pacific ST Seattle, WA 98195 Hlth Sci Bldg K-wing NE 82 St. & 20th Ave NE Seattle, WA 98115 It would be nice to take a bus to the Roosevelt light rail station and then ride the train to UW if it is faster than taking the bus all the way.	11/17/2014 12:32 PM
1649	university of washington downtown seattle greenwood & 85th	11/17/2014 12:32 PM
1650	Currently go from Shoreline 145th to work in the U District, occasionally go from home to Downtown.	11/17/2014 12:32 PM
1651	I don't use transit at all any more because the system is such a nightmare. I'd rather drive my own car and pay for parking wherever I go.	11/17/2014 12:32 PM
1652	4300 Roosevelt Way 4032 50th Ave S 3rd and Pike	11/17/2014 12:31 PM
1653	Mercer Island to U district via transfer at downtown bus tunnel. (for work commute). Mercer island to light rail.	11/17/2014 12:31 PM

1654	Lynnwood to U-District	11/17/2014 12:31 PM
1655	Either Kennydale freeway station or Newport Hills Park & Ride on I-405.	11/17/2014 12:31 PM
1656	Federal Way Transit Center to University of Washington	11/17/2014 12:31 PM
1657	I live in Upper Rainier Beach/Skyway (~59th and Eastwood, a blocks south of Bangor) and work at University of Washington. It takes about 1.5 -1.75 hours or more and 3 different buses/trains to get between the two. There should be some express routes connecting south seattle with UW, and better accessibility to the light rail for neighborhoods in residential Rainier Beach/Skyway if the South Seattle and UW are to be better connected. (Right now the light rail is relatively far from many residential areas, stops are far from one another, and there are no park and rides at light rail stations.)	11/17/2014 12:30 PM
1658	University District, West Seattle, Tacoma, Olympia	11/17/2014 12:30 PM
1659	I commute to UW's South Lake Union campus from NE Seattle. Because this requires two buses it takes at least 60 minutes each leg. It takes 15 minutes by car, so I stopped taking the bus after using the bus for 20 years. Please have some express buses from the Lake City area stop at SLU!	11/17/2014 12:30 PM
1660	University of Washington - UW Tower	11/17/2014 12:30 PM
1661	I live near Magnuson Park and most often commute to the University of Washington campus and Greenlake Park.	11/17/2014 12:30 PM
1662	UW Medical Center/Health Services Building Downtown West Seattle: Alki, Alaska Junction Columbia City	11/17/2014 12:29 PM
1663	Mostly to the University of Washington. But also: -Capitol Hill -Bellevue -Redmond -Magnuson Park -Jefferson Playfield	11/17/2014 12:29 PM
1664	currently home/work round trip 372 Kenmore; work to doctor (group health Northgate); work to downtown for evening events.	11/17/2014 12:29 PM
1665	I currently use transit daily to commute to my home in Columbia City (Rainier and Ferdinand). I also use transit to get to downtown (Westlake and Pioneer Square), the ID (various locations), and Capitol Hill (Broadway corridor) regularly. I use transit to get to other parts of Seattle infrequently.	11/17/2014 12:29 PM
1666	I live in West Seattle Alaska Junction area and commute to University of Washington Medical Center and also use Metro to get downtown Seattle. Occasionally I use different routes downtown and walk part of my commute for exercise.	11/17/2014 12:29 PM
1667	Wedgewood to UW. UW to Group Health Capitol Hill. UW to downtown. UW to Group Health Northgate.	11/17/2014 12:29 PM
1668	Current: University of Washington, Downtown Would like: Discovery Park, Golden Gardens Park	11/17/2014 12:29 PM
1669	I currently go to the UW, Greenlake, Northgate, and Downtown Seattle. Sometimes I travel to Ballard and Capitol Hill, but that is a bit more rare. It would be great if the Light Rail went all the way up to Northgate, that would save a lot of traffic on the freeway.	11/17/2014 12:28 PM
1670	I live in Kirkland and work at University of Washington Medical Center. Sometimes I go downtown Seattle for shopping on the weekends. During the week, I catch the 277 buss from the Houghton Park and Ride. Sometimes, I catch the 255 or 540 from the South Kirkland Park and Ride.	11/17/2014 12:28 PM
1671	I use the bus to go to work at the UW. I also use the bus to shop in downtown Seattle. There are not enough cross town bus routes to go to Northgate, Wallingford, Madison Park, etc. If there is a bus, you have to wait forever because you always miss them.	11/17/2014 12:28 PM
1672	Issaquah, SeaTac Airport, Downtown Seattle, Lake Union area Seattle, Redmond	11/17/2014 12:28 PM
1673	uw school of law uw health sciences seattle childrens hospital sand point seattle childrens research institute at 9th and stewart	11/17/2014 12:28 PM
1674	Currently go from Children's Hospital to UW, Downtown, Bellevue, Northgate.	11/17/2014 12:28 PM
1675	From home: 2300 48th Ave SW, Seattle, WA 98116 To work: 1107 NE 45th St, Seattle, WA 98105	11/17/2014 12:28 PM
1676	UW Seattle Campus	11/17/2014 12:28 PM
1677	Central District Capitol Hill UW Downtown Ballard Fremont	11/17/2014 12:28 PM
1678	Bryant UW Greenlake	11/17/2014 12:28 PM
1679	From Tacoma Dome station to UW Seattle campus then return at the end of my shift.	11/17/2014 12:27 PM

1680	From Bothell/Kenmore to University of Washington Seattle Campus or I drive and catch the bus in Ravenna area.	11/17/2014 12:27 PM
1681	127TH ST/15NE SEATTLE	11/17/2014 12:27 PM
1682	Phinney Ridge (65th & Phinney) UW Tower Northgate Mall Greenlake central business district	11/17/2014 12:27 PM
1683	Greenlake Park & Ride to/from Harborview Medical Center (daily)	11/17/2014 12:26 PM
1684	University of Washington	11/17/2014 12:26 PM
1685	Mainly I need to get from downtown (King Street Station) to the UW.	11/17/2014 12:26 PM
1686	I travel from Beacon Hill via downtown Seattle to the University District for work. This includes a walk (or, if the weather is bad, sometimes the #36 bus) to the Beacon Hill Light Rail station then a transfer to a bus downtown. Door to door it takes me an hour in the morning and can take up to an hour and a half in the evening due to traffic heading into downtown and that the 71/2/3 expresses take Eastlake. I would love to not have to transfer downtown or to take a bus into downtown after work. The new Husky Stadium station for light rail is great. I plan to take light rail from Beacon Hill to the new station and then reverse that for my commute home. My primary concern once the new station at Husky Stadium opens is how to get from the station to UW tower. I am really hoping for a shuttle as the walk can take me about 30 minutes.	11/17/2014 12:25 PM
1687	I don't currently use transit because it's not fast/efficient enough to ensure I can pick my child up from after-school care on time. However, when she is older and when Link is available from the U District and at Northgate (fairly near my house), I will use it more often for travel to and from Northgate and UW and also to and from Northgate and SeaTac airport.	11/17/2014 12:25 PM
1688	To UWMC and Seattle	11/17/2014 12:25 PM
1689	North seattle (145th st NE and 30th Ave NE) to the U-District (4245 Roosevelt Way NE)	11/17/2014 12:25 PM
1690	Belltown - 3rd and virginia or 3rd and bell stop. West seattle - roxbury and 15th stop	11/17/2014 12:25 PM
1691	Highlands Park & Ride UWMC	11/17/2014 12:25 PM
1692	To and from work mostly.	11/17/2014 12:25 PM
1693	University of Washington Downtown shopping area Seattle Center	11/17/2014 12:25 PM
1694	I would like to be able to go from South Lake Union/Eastlake directly to Capitol Hill instead of transferring.	11/17/2014 12:24 PM
1695	James and 5th arriving on the 413 community transit and going home from the same location on 413 community transit. the problem is I work at the Pat Steele building and only the 3 and the 4 go up and down the hill. These buses are crowded and slow. I am happy to get off another community transit bus downtown anywhere and take a bus or rail that is faster and less crowded to get to my final destination work, and the reverse going home. my commut is approx 20 min just going up and down the hill each way that works out to 40 mins a day and this works out to 3.33 hours per week.	11/17/2014 12:24 PM
1696	I live in the Admiral District in West Seattle. I would like to be able to get downtown efficiently and then efficiently onto Link to get to the U District.	11/17/2014 12:24 PM
1697	Edmonds P&R	11/17/2014 12:24 PM
1698	Downtown Seattle, University District Roosevelt Way Tukwila Transit Center Mountbaker Station	11/17/2014 12:24 PM
1699	currently go to UW campus, downtown Seattle, Airport, Century Link Field	11/17/2014 12:24 PM
1700	I live on Capitol Hill and many of my friends live on the Hill, so I take the bus to-from home, my friends' homes, and work. I work in the U-district and at Children's. Until recently, I worked at South-Lake Union full-time. Now I just go to South-Lake Union occasionally for work-related meetings. I also used to work at Harborview. Now I just go there occasionally for work-related meetings, as well. I spend most of my time on Capitol Hill, the U-district, Downtown, and First Hill. I take the bus and walk in these areas. If I go outside of them, I drive.	11/17/2014 12:23 PM
1701	I use it for going from 56th Ave W & 224th St, Mountlake Terrace, to the University of Washington. I would like more reliable way to go from 56th & 224th to downtown Seattle. I would also like more Community Transit routes on Sundays and holidays.	11/17/2014 12:23 PM

1702	Most often: east side of capitol hill (17th & John; home) to UW (work). Also common: - east side of capitol hill (17th & John; home) to downtown - east side of capitol hill (17th & John; home) to south lake union - south lake union to UW - UW to Wallingford (along 45th) - east side of capitol hill (17th & John; home) to/from Wallingford (along 45th) - east side of capitol hill (17th & John; home) to/from lower Fremont - lower Fremont to/from UW - east side of capitol hill (17th & John; home) to/from the airport I'd like better connectivity to Ballard. I like the single seat 43/44 ride from Capitol Hill to Ballard or Wallingford late night and weekends; I'd like that to be regular.	11/17/2014 12:23 PM
1703	Columbia City, Downtown Seattle, University of Washington, Fremont, Westlake, Ballard, Lower Queen Anne, Capitol Hill, Magnolia	11/17/2014 12:23 PM
1704	Commute from Tacoma. Traffic on I5 is so horrible I am often late to meetings or spend forever commuting home. Would like a train route I.e. sounder to link or link all the way to tacoma.	11/17/2014 12:23 PM
1705	Kent des moines p&R Downtown seattle Burien Capitol Hill University of Washington	11/17/2014 12:23 PM
1706	North Ballard (70th and 15th)	11/17/2014 12:23 PM
1707	Redmond to U-District. Redmond to downtown seattle. U-district to Northgate. U-district to Seattle Ferry Terminal. Redmond to Kirkland?Juanita.	11/17/2014 12:22 PM
1708	I would like my bus to arrive for my commute. Currently the reader board on the dorm by the bus stop on NE Campus parkway will state the bus is 2 minutes away, it will then state the bus is there (it is not) and then state is has left the stop 2 minutes ago. However, that bus had never come and it is often 20 minutes before the next one comes. How is it possible the reader board can say the bus has arrived when it never did?	11/17/2014 12:21 PM
1709	King county Metro transit from 40th and 166th ave south to seatac link light rail. Link light rail to china town/internation district tunnel stop china town/international district stop to brooklyn ave ne and campus parkway stop brooklyn ave ne and campus parkway to the HUB	11/17/2014 12:21 PM
1710	From Kenmore to work at the UW. ST 522 to downtown, and then Light Rail to the airport. Sometimes take busses from the UW to downtown during the workday.	11/17/2014 12:21 PM
1711	Cap Hill, Fremont, Downtown. I'd like to be able to go to Queen Anne/Seattle Center without going downtown.	11/17/2014 12:21 PM
1712	From 8th & Madison to UW (and vice versa)	11/17/2014 12:21 PM
1713	I usually go to work (UWMC) and or downtown. I use the light rail for the airport.	11/17/2014 12:21 PM
1714	South Seattle, U-District, Northgate	11/17/2014 12:21 PM
1715	I currently go from work (UW) to home (Capitol Hill) and to Green Lake. I would like to be able to go to Green Lake - Captiol Hill (via Broadway) without transferring. I also go downtown from UW and from Capitol Hill (Broadway).	11/17/2014 12:20 PM
1716	I go between 2205 N 36th St 98103 and Dexter & Mercer. I go between 2205 N 36th St 98103 and 45th & Latona. I go between Dexter & Mercer and downtown. I would like to go between 2205 N 36th St 98103 and the UW Link Light Rail station. (I would like the 26 to connect to the UW Link Light Rail station.)	11/17/2014 12:20 PM
1717	Downtown, Broadway on Capitol Hill, Northgate transit center, downtown Ballard along Market street, 15thNW & NW85th	11/17/2014 12:20 PM
1718	Cherry Street Martin L King Jr. Way downtown Seattle Northgate Mall Southcenter Mall Sand Point UVillage	11/17/2014 12:20 PM
1719	I currently commute from the Eastgate Park and Ride to 15th and Pacific via ST 556. Prior to that, I commuted from Mercer Island Village (south end shopping center) to Stevens Way and Garfield Way on Metro's 205. The 205 was canceled. I now drive my car several times a week as well, since it is a 20 minute drive to the Eastgate Park and Ride. There is no parking at the Mercer Island Park and Ride by the time I arrive after dropping children off at school.	11/17/2014 12:20 PM
1720	I go between the Egyptian Theater to the UW Tower. That serves me well. I don't mind having to walk a few blocks on either end.	11/17/2014 12:20 PM
1721	From NE Seattle/Lake City to UW, downtown, airport, Century Link Field.	11/17/2014 12:20 PM

1722	University of Washington main Seattle Campus. Cal Anderson Park, Capitol Hill. Broadway and Pine St. 45th st and Wallingford Ave. 5th Ave and 158th st (Shoreline) Seattle Center EMP Downtown Transit Tunnel - Convention Place Station (Light Rail/bus connection to Airport) Sea Tac Airport Greenwood Ave and 65th St (Phinney Ridge) 22nd Ave NW and NW Market St. Leary Way and NW 45th St N 36th St and Fremont Ave N W Dravus St and 16th ave W Airport Way S and S Doris St SW Alaska St and 42nd ave sw W dayton St and Edmonds Way (Edmonds)	11/17/2014 12:19 PM
1723	From Fremont (Roxy's) to Roosevelt Commons Building. I'd like a little shorter walk from the bus than bay #4 at UW to RCB. Sometimes also from 36th and Fremont to Mary Gates Hall on campus. Sometimes 36th and Fremont to I take the 49 from Bus Bay #4 at UW campus to Capitol Hill I also take the bus downtown from 36th and Fremont to Pike Place Market. I sometimes take the 40 from Roxy's to Fred Meyer. I would love to be able to get from Fremont (Roxy's) to Capitol Hill (Broadway and Aloha) without needing to transfer at the University.	11/17/2014 12:19 PM
1724	West Seattle to U-District	11/17/2014 12:19 PM
1725	I normally ride Community Transit #871 between Mountlake Terrace and the UW. If I need to go downtown Seattle I take a Community transit bus to Seattle, then a Metro back to the UW (71, 72 or 73).	11/17/2014 12:19 PM
1726	University of Washington (work) Downtown to 5th Avenue Theater, ACT theater Ballard and Greenwood	11/17/2014 12:19 PM
1727	13014 7th Ave. S., Burien, 98168	11/17/2014 12:19 PM
1728	University of Washington Medical Center Seattle Children's Hospital Discovery Park Volunteer Park Seattle City Center Golden Gardens Northgate Mall Carkeek Park University of Washington Bothell campus Harbor View Medical Center	11/17/2014 12:18 PM
1729	From Harborview Medical Center to 7722 11th Avenue NW Seattle From University of Washington Medical Center to 7722 11th Avenue NW Seattle From 7722 11th Avenue NW Seattle to Sea-Tac airport From UWMC or HMC to 6318 Linden Avenue N Seattle From 7722 11th Avenue NW Seattle to Harborview Medical Center From 7722 11th Avenue NW Seattle to UWMC I would like to take a train to downtown Kirkland, Bellevue, Redmond, and Issaquah. I would like to take train from my house to the airport. I would like to more easily get to Alki, the central part of "downtown" West Seattle, and to the ferry terminal in West Seattle. I would like to have light rail go to the Edmonds ferry terminal. I would like the light rail to go to Alderwood Mall area.	11/17/2014 12:18 PM
1730	to and from U District to downtown Seattle; 45th St NE & Brooklyn Ave NE to 3rd Ave to and from South Everett to U District; 112th P&R to 45th St NE & Brooklyn Ave NE; Eastmont P&R to 45th St NE & Brooklyn Ave NE; Lynnwood Transit center to 45th St NE & Brooklyn Ave NE and reverse	11/17/2014 12:18 PM
1731	UWMC Belltown Westlake SCCA Downtown Kirkland Downtown Renton Renton Landing Mt. Baker Columbia City Group Health Capitol Hill	11/17/2014 12:18 PM
1732	Maple Leaf neighborhood (NE 100th St and Roosevelt) to UWMC or Greenlake Park N Ride to UWMC. Northgate to downtown.	11/17/2014 12:18 PM
1733	Currently go from Kent Des Moines Park and Ride to U District on bus 197 but have to stand in line for 45 minutes in the am to get a seat on bus to 1959 NE Pacific St. I also take the Sound Transit 566/567 to Bellevue Transit Center and catch either Metro 271 or Sound Transit 566 to U District to 1959 NE Pacific Street. Other times, I park at the Tukwila Light Rail Station, and catch the 48 from the Mount Baker station to the U District	11/17/2014 12:18 PM
1734	Currently go: Wedgwood to UW campus (Stevens Way) => 65 Wedgwood to downtown => 30 or 74 UW to Green Lake => 48 --- Would like to be able to go: Wedgwood to Green Lake (w/o transfer)	11/17/2014 12:18 PM
1735	Safeco field Century link SAM Blocks near SAM	11/17/2014 12:18 PM
1736	Mariner Park and Ride to University District Everett Station to University District Everett to SeaTac	11/17/2014 12:18 PM
1737	SeaTac airport, downtown Seattle, UW Seattle campus	11/17/2014 12:18 PM
1738	My home. 600 East Olive Street, Seattle, WA 98122	11/17/2014 12:18 PM
1739	University of Washington Medical Center N. 183rd Street Shoreline, WA 98133 & Ashworth Ave N.	11/17/2014 12:17 PM
1740	University of Washington Medical Center at 1959 NE Pacific Street	11/17/2014 12:17 PM
1741	Mountlake Terrace Transit Center to Harborview Medical Center, daily round trip.	11/17/2014 12:17 PM
1742	Northgate Mall to Wedgewood (lakecity way)	11/17/2014 12:17 PM
1743	Home (Lake city way and NE 95th) to UW Campus. UW Campus to Sea-Tac airport Home (Lake city way and NE 95th) to downtown Home (Lake city way and NE 95th) to Sea-Tac airport	11/17/2014 12:17 PM

1744	23rd and UW 23rd and downtown (3rd and Pike) UW and Fremont	11/17/2014 12:17 PM
1745	UW, Downtown Seattle, Lake City Way	11/17/2014 12:17 PM
1746	UW to Capitol Hill to Downtown	11/17/2014 12:17 PM
1747	From the Tacoma Dome to the HUB at UW	11/17/2014 12:17 PM
1748	Work transportation from Downtown Seattle (Westlake station) to U District. (45th & Brooklyn)	11/17/2014 12:17 PM
1749	Currently: from Central District (20th and Cherry) to downtown Seattle, UW, Fremont (36th and Fremont Ave N), airport I would like to be able to take ONE bus from the Central District (near 20th and Cherry) to north Capitol Hill (10th and Prospect).	11/17/2014 12:16 PM
1750	I would like to be able to go to Ballard a little easier.	11/17/2014 12:16 PM
1751	Primarily to and from home (Summit Ave E & E Republican) and work (4225 Roosevelt Way NE); I also use transit to access all points of the greater 'downtown' area from Queen Anne through Sodo and on to the airport via Link and RapidRide.	11/17/2014 12:16 PM
1752	29th Ave NE and NE 68th St Greenlake Park N 64th St and Linden Ave N Wallingford Center	11/17/2014 12:16 PM
1753	university district	11/17/2014 12:16 PM
1754	I currently take transit to and from home (bus stop at either Green Lake P&R or ~Latona at 64th) and the UW (either 42nd and 15th Ave or West Campus Childcare Center). I also occasionally go to/from home to downtown or from the UW to downtown.	11/17/2014 12:16 PM
1755	Redmond TC to UW	11/17/2014 12:16 PM
1756	Currently, Tacoma Dome Bus Station to University of Washington Medical Center Ideally: Port Orchard, Washington to University of Washington Medical Center	11/17/2014 12:16 PM
1757	Work - Downtown - University of Washington - Northgate Mall	11/17/2014 12:16 PM
1758	UW (university way and 41st) Lake City Way and 125th NE IMA at UW 65th and 15th Ave NE	11/17/2014 12:16 PM
1759	Would like to go between First Hill Boren & Seneca & South Lake Union.	11/17/2014 12:16 PM
1760	better options from east hill kent / fairwood / panther lake area to s. renton park and ride and / or light rail station(s)	11/17/2014 12:16 PM
1761	UW, downtown Seattle, northgate	11/17/2014 12:16 PM
1762	From Kirkland to UW	11/17/2014 12:16 PM
1763	Downtown (Westlake, University Street, and International District are the most common stops I get on or off), Northgate, central Fremont, central Ballard, Capitol Hill, Greenwood commercial area (85th and Greenwood Ave), Seattle Center	11/17/2014 12:15 PM
1764	I use light rail to go downtown on the weekends, or to Seatac if I am travelling. If I am unable to drive to the UW to work due to weather events, I walk to the light rail station at Othello and take it to the tunnel and wait for an express bus to the U. This is suboptimal for daily use because it takes twice as long and there is no seating available on the express buses. It would be much better if the express buses had a stop on Roosevelt before they turn onto Campus Parkway.	11/17/2014 12:15 PM
1765	Currently go: Eastlake to/from downtown and the University District Would like to go: Between Eastlake and Capitol Hill (Broadway), Between Eastlake and Fremont/Ballard	11/17/2014 12:15 PM
1766	Downtown, Capital Hill, Magnolia, Queen Anne both upper and lower, U District, Bellevue Mall, Northgate Mall	11/17/2014 12:15 PM
1767	Downtown retail core (Fourth and Pike) to University of Washington Medical Center; University of Washington Medical Center to Wedgwood (35th Avenue NE and NE 80th).	11/17/2014 12:15 PM
1768	1959 NE Pacific St, Seattle 98195 Century Link Field Safeco Field Kirkland	11/17/2014 12:15 PM
1769	northgate transit center, UW Med Center, Downtown, West Seattle, Capitol Hill	11/17/2014 12:15 PM
1770	From the Athletic Department area to UW Tower and The Ave (which I know is coming in future station openings).	11/17/2014 12:15 PM

1771	Home 6724 55th Ave South, Seattle WA 98118 University of Washington Medicla Center 1959 NE Pacific St, Seattle WA 98195	11/17/2014 12:15 PM
1772	West seattle to University of Washington without a transfer	11/17/2014 12:15 PM
1773	Would like to be able to reach more places on Sundays, like North Bend and Renton IKEA. University Village is very awkward to get to from downtown.	11/17/2014 12:14 PM
1774	Maple Leaf neighborhood(5th Ave. & 88th NE), Fremont, Green Lake, Downtown (Westlake Transit Center area), Ballard (NW Market & Ballard Ave.), Mount Baker neighborhood, Capitol Hill neighborhood (Pike & Broadway)	11/17/2014 12:14 PM
1775	University of WA Medical Center, 1959 NE Pacific Street, Seattle, WA Northgate Mall, Northgate Transit Center Downtown Seattle, WA	11/17/2014 12:14 PM
1776	Meradian and 185th	11/17/2014 12:14 PM
1777	UW Campus Harborview Hospital Mukiltio (for Whidbey ferry)	11/17/2014 12:14 PM
1778	Currently go to: Downtown Seattle, Capitol Hill, University District, Wallingford, Ballard, Crown Hill, Queen Anne, Seattle Center, Georgetown, SODO, Renton, Beacon Hill, NewHolly, Columbia City, West Seattle. Would like better access to E. Marginal Way & Hudson.	11/17/2014 12:14 PM
1779	I use mass transit to come to football games and for coming to and from work from Marysville, WA to Seattle University Dist.	11/17/2014 12:14 PM
1780	Currently: Fremont to UW, to downtown, to Seattle Center, to SeaTac; UW to Roosevelt; UW downtown	11/17/2014 12:14 PM
1781	I go from 45th and Wallingford to Dexter and Denny and back every day. I also go from Belltown (Dexter/Denny) to campus, and from Wallingford to campus and back.	11/17/2014 12:14 PM
1782	I usually travel between Fremont and U District but frequent downtown, cap hill, ballard and northgate	11/17/2014 12:14 PM
1783	My usual transit is Tacoma to Westlake via 590/594, SLUT to Mercer. However, I have utilized ST 586 to UWMC.	11/17/2014 12:14 PM
1784	UW Lakeside School Northgate airport	11/17/2014 12:14 PM
1785	Wedgwood	11/17/2014 12:14 PM
1786	SeaTac to downtown	11/17/2014 12:14 PM
1787	Ballard, the UW Tower, Ballard to Capitol Hill,	11/17/2014 12:13 PM
1788	Primarily, I go from Capitol Hill to the U-District. I occasionally use transit to get from Capitol Hill to North Seattle (Fremont, Phinney Ridge), but for the most part the transfers are too unreliable to do so unless I'm willing to have my trip take anywhere from 30 minutes to an hour and a half. I take transit to Ballard approximately once a year, since it's such a nightmare to get there from Capitol Hill, but to be fair it's a nightmare by car as well. Going from the U-District to Phinney Ridge is also a pain.	11/17/2014 12:13 PM
1789	I only occasionally use Metro buses; however, as a Metro van pool rider and back-up driver, I rely on the vanpool to get me from the Washington State ferry terminal to the University of Washington campus. It would be nice, though, to have access to an expedient way to commute to the UW from the ferry terminal area, and not have to depend on the van all the time.	11/17/2014 12:13 PM
1790	Broadway & Thomas to 9th & Cherry or to Broadway & Terrace, 12th & John to lower Queen Anne. Would like to be able to go from Broadway & Thomas to 14th & Yesler, but looks like First Hill street car will help with that.	11/17/2014 12:13 PM
1791	Currently go U. Dist., Downtown, Seattle Center, First Hill, Capitol Hill I'd like to be able to go directly from Northgate to Seattle Center (express) & Northgate directly to Downtown Kirkland, and Downtown Edmonds on one bus (not 3 buses)	11/17/2014 12:13 PM
1792	to work: start at 4th st and Nile Ave. in Renton off work: start at 45 st and University Way in Seattle	11/17/2014 12:13 PM
1793	Airport, home, Northgate mall, Downtown Seattle, Capitol Hill, U-Village, International District/Events/Sports Games	11/17/2014 12:13 PM
1794	The University District, downtown Seattle, and the international district.	11/17/2014 12:13 PM
1795	Bryant, Laurelhurst, Windermere, Northgate, UW, Montlake, Capitol Hill, downtown Seattle, SEA Airport	11/17/2014 12:12 PM
1796	From Capitol Hill to UW (upper and lower campus), Pike Place Market(return trip), downtown Ballard, West Seattle Junction, Alki and Lincoln Park, SeaTac, Beacon Hill (Traveler's Thali House and VA), lower Queen Anne (SIFF/Seattle Center), SPU, and Columbia City.	11/17/2014 12:12 PM

1797	Currently Kenmore to UW, Totem Lake to UW, Woodinville to UW Would like to go from Roy, WA to UW as I will be moving there.	11/17/2014 12:12 PM
1798	4333 Brooklyn Ave NE Seattle Ash Way Park & Ride So Everett Freeway Station Everett Mall Kent Station New Beginnings Christian Fellowship Church 24 Hour Fitness ~ Various Locations Group Health ~ Various Locations Alderwood Mall South Center Various Locations	11/17/2014 12:12 PM
1799	I drive to a park and ride in South Kirkland and take a ST540 to the Universtiy District and then the University's SLU shuttle to work at SLU, 960 Republican Street. Sometimes I take the 255 either to or from downtown and if going to SLU from downtown i take the streetcar. It would be great if there was a direct Metro or ST route from the eastside of Lake Washington (Redmond, Kirkland and/or Bellevue) to SLU without having to transfer.	11/17/2014 12:12 PM
1800	I currently go downtown, to capitol hill, and to the u-district. I usually walk downtown if I'm not in a huge hurry, because walking from 15th and Pine is almost faster than the bus. I also have to wait forever for a 10 or 11, no matter what the schedule says--and when they get there, they're packed to the gills. That isn't too objectionable on the 10, but the 11 is frequently packed to the gills with loud people drinking malt liquor. No thanks. As for where I'd like to go, I think it should be easier to get to Seattle Center and Northgate from downtown/cap hill.	11/17/2014 12:12 PM
1801	Fremont-U District Fremont-Downtown Fremont-Capitol Hill U District-Downtown U District-Capitol Hill Fremont-Ballard U District-Ballard	11/17/2014 12:12 PM
1802	To work at UWMC, to downtown Seattle, to the James Orien center, Seattle Center, U Village, Ballard, Redmond	11/17/2014 12:12 PM
1803	Ballard, UW Medical Center, Century Link Field, Downtown Seattle, SeaTac Airport, Northgate Mall	11/17/2014 12:12 PM
1804	Mainly, commuting to work between 15th Ave on Capitol Hill and South Lake Union at Republican.	11/17/2014 12:12 PM
1805	Ballard, Fremont, Wallingford, Greenlake, Greenwood, U-District, Downtown, Eastlake, Capitol Hill, International District	11/17/2014 12:12 PM
1806	Home (n/ Lynnwood)to work, work (UW) to downtown, home (N. Lynnwood) to downtown and return	11/17/2014 12:12 PM
1807	Wedgewood - 75th NE and 35th Ave NE University district including U Village Central down town SeaTac Group Health Capital Hill	11/17/2014 12:12 PM
1808	From Everett tp the UW. From UW to Downtown Seattle. From UW to Redmond.	11/17/2014 12:12 PM
1809	Downtown Bellevue, Downtown Seattle, Google in Fremont	11/17/2014 12:12 PM
1810	to the UW, downtown, northgate mall, u village, first hill, capital hill	11/17/2014 12:12 PM
1811	Burien Transit Center	11/17/2014 12:12 PM
1812	Kirkland Transit to 15th st NE	11/17/2014 12:12 PM
1813	work (uw)	11/17/2014 12:12 PM
1814	I currently and would like to continue commuting between between: SOUTH BELLEVUE PARK & RIDE / FACTORIA / WOODRIDGE ELEMENTARY SCHOOL and 15TH AVE. NE & NE PACIFIC ST. / 45TH & CAMPUS PARKWAY in the U-DISTRICT	11/17/2014 12:11 PM
1815	UW South Lake Union University of Washington Capitol Hill - Broadway & E. John Street Fremont - N 36th St & Phinney Ave N SeaTac Airport	11/17/2014 12:11 PM
1816	Airport, University of Washington Medical Center, Delridge Way SW, VA Hospital, Downtown Seattle, Bellevue Square	11/17/2014 12:11 PM
1817	My current destinations are between NE 155th St and Meridian Ave NE in Shoreline, and the UW Tower on the corner of NE 45th and Brooklyn Ave NE in the University District. I also occasionally travel to downtown Seattle (the transit tunnel, Westlake stop).	11/17/2014 12:11 PM
1818	I mostly go from Capitol Hill (15th & John) to the UWMC and back via route 43. I also go from that same intersection to downtown & back, and Queen Anne and back (routes 43, 10, 8). It would be great if there were a route that went from Capitol Hill (12th Ave) to the International District, and possibly to Pioneer Square, since the streetcar is taking an ungodly long time to finish.	11/17/2014 12:11 PM
1819	15300 Bothell Way	11/17/2014 12:11 PM
1820	work (University of Washington, Bagley Hall); home (8916 132nd Place SE, Newcastle, WA 98059); South Bellevue Transit Center; Eastgate Transit Center; Newport Hills Transit Center; downtown Seattle for games!	11/17/2014 12:11 PM

1821	I currently use transit to get to work and back (from Sand Point Way NE and NE 74th St to the University of Washington campus).	11/17/2014 12:11 PM
1822	I mostly use transit to get to work at UW, and to go to downtown Seattle. I would love it if there were more east/west routes, e.g. service between Capitol Hill and Ballard and/or Fremont.	11/17/2014 12:11 PM
1823	I currently go to U-district, downtown, Stadium district, airport.	11/17/2014 12:11 PM
1824	Work and Home	11/17/2014 12:11 PM
1825	I currently go to work, other neighborhoods. I would like to be able to go from the U-District to Fremont and Ballard more easily.	11/17/2014 12:11 PM
1826	Garfield park and Stevenson way 35th st and 70th I'd like to get off right in front of the uwmc	11/17/2014 12:11 PM
1827	Ballard, U District, Downtown and Capitol Hill	11/17/2014 12:11 PM
1828	11th and 45th St NE, and Broadway and Pine, primarily	11/17/2014 12:11 PM
1829	Columbia City to downtown, U district, stadium district.	11/17/2014 12:11 PM
1830	From Coleman Dock to University Way and 41st st.	11/17/2014 12:11 PM
1831	I currently drive to the Issaquah Transit Center from Snoqualmie, WA. I take the 556 to the University District each day for work.	11/17/2014 12:11 PM
1832	U district to Cap Hill	11/17/2014 12:11 PM
1833	UW Health Sciences Building, NE 45th & 15th Ave NE, University Village, NE 80th & 20th Ave NE, NE 80th and 15th Ave NE, UW Medicine - South Lake Union, Benaroya Hall, Seattle Center	11/17/2014 12:10 PM
1834	UW, Seattle campus	11/17/2014 12:10 PM
1835	UW Sea-Tac Airport	11/17/2014 12:10 PM
1836	* Lynnwood P&R to University of Wa Medical Center. * Want a more efficient bus route to/from Northgate P&R and Lynnwood P&R	11/17/2014 12:10 PM
1837	University of Washington medical Center, Northgate Mall area, Downtown Westlake Center, Capitol Hill Broadway area, University Village, Seattle Center, Whole Foods on Roosevelt.	11/17/2014 12:10 PM
1838	Primarily travel to work at Udist from home in Columbia City, but often go into downtown from home on weekends. Would go to Capitol Hill more often lightrail expands.	11/17/2014 12:10 PM
1839	I'd like rapid ride on Rt 202/Red-Wood Rd in Redmond, perhaps from Woodinville, connecting to Redmond Transit Cener	11/17/2014 12:10 PM
1840	UW UWMC	11/17/2014 12:10 PM
1841	West Seattle, Downtown, U District	11/17/2014 12:10 PM
1842	South Kirkland Park and Ride. Downtown, anywhere 342 N 57th street (home)	11/17/2014 12:10 PM
1843	McCollum P&R (Everett) UW (Seattle Campus) Northgate P&R	11/17/2014 12:10 PM
1844	To UW campus, Steven Way. To downtown Kirkland	11/17/2014 12:10 PM
1845	Nowhere, as it is not convenient. If it were possible, I would take a bus from 28th Ave West & Ruffner to the University of Washington, getting off at either 15th Ave NE & 41st St or NE 41st & University Way NE.	11/17/2014 12:09 PM
1846	Univ. of Wa., downtown and the airport	11/17/2014 12:09 PM
1847	UW Seattle Center Downtown Ballard West Seattle East Side (Redmond, Kirkland, Bellevue) Discovery Park North Gate Tacoma	11/17/2014 12:09 PM
1848	Downtown Seattle, U-district, Everett Events Center, Downtown Tacoma, Marymoor park, Robinswood Park, SeaTac Airport, University of Washington, Pike Street Market	11/17/2014 12:09 PM
1849	University of Washington; Downtown Seattle; Seattle Center; Sea-Tac airport; Greenlake; Magnuson Park; First Hill; Ballard; Ingraham High School	11/17/2014 12:09 PM

1850	I currently commute from Lake Forest Park (NE 195th St and 35th Ave NE) to the University of Washington and South Lake Union. Our service has been severely limited recently, which makes it nearly impossible to commute to/from work by bus.	11/17/2014 12:09 PM
1851	Downtown CenturyLink Field West Seattle	11/17/2014 12:09 PM
1852	Work, at UW Tower, 4333 Brooklyn Ave NE. Sometimes take transit to various places Capitol Hill or downtown (for leisure purposes) from UW Tower.	11/17/2014 12:09 PM
1853	ballard to u district ballard to downtwon/seatac u district to downtown u district to sea tac downtown to first hill	11/17/2014 12:09 PM
1854	North Lake Union to South Lake Union and Downtown for work, and to connect with Link Light Rail to the airport.	11/17/2014 12:09 PM
1855	Ambaum and 116th in North Burien. Prior Metro Bus 133 stop! Commute North Burien to UW Hospital.	11/17/2014 12:09 PM
1856	7320 Earl Ave NW (residence) to UW Tower; 7320 Earl Ave NW (residence) to Seattle Center; UW Tower to UW Tacoma	11/17/2014 12:09 PM
1857	From Downtown International Station to UW Johnson Hall.	11/17/2014 12:09 PM
1858	Would like to get more efficiently from Ballard to UW Medical Center	11/17/2014 12:09 PM
1859	1959 ne pacific st 9th ave @ republican Fred Hutch 7038 20th place ne seatac airport greenwood and nw 85th st Harborview pike place market golden gardens (would be great) discovery (would be great)	11/17/2014 12:08 PM
1860	Currently go: Home (4040 26th Ave SW), UW (3720 15th Ave NE), downtown (tunnels). Would like to go: A faster/easier route between downtown and University Village would be nice.	11/17/2014 12:08 PM
1861	Campus parkway in U-district 15th Ave and Lake City way	11/17/2014 12:08 PM
1862	down town (Chinook building on fifth ave) Ravenna neighborhood 21Ave NE U district (45th)	11/17/2014 12:08 PM
1863	Redmond transit center UW Tower Seattle West Lake Seattle Airport Seatac Evergreen Point P&R South Kirland P&R	11/17/2014 12:08 PM
1864	Work - UW Medical Center - Downtown Seattle - Capitol Hill	11/17/2014 12:08 PM
1865	University Tower	11/17/2014 12:08 PM
1866	UWMC, HMC, Downtown	11/17/2014 12:08 PM
1867	Downtown shopping, SeaTac, the Stadiums & UW campus	11/17/2014 12:08 PM
1868	Kent to Seattle/Seattle to Kent (Sounder & Metro) currently	11/17/2014 12:08 PM
1869	Home - MLK South and South Massachuttes Work/UW - 3720 15th Ave NE, Foege South Building weekends - varied	11/17/2014 12:07 PM
1870	From Central District to University Disitric, Queen Anne, Downtown. Anything else, any trips further out take over an hour on the bus, so I rarely use Metro for any other trips.	11/17/2014 12:07 PM
1871	UW, Cowen Park, intersection of 25th Ave NE and NE 55th St., 1035 NE 94th St.	11/17/2014 12:07 PM
1872	To work @ UW and back home at the Renton Transit Center.	11/17/2014 12:07 PM
1873	University of Washington (to work) downtown Seattle eventually will take the Sounder to SeaTac	11/17/2014 12:07 PM
1874	Sumner to King street, then bus tunnel to the UW medical center.	11/17/2014 12:07 PM
1875	3720 15th Ave NE, Seattle, WA 98105 Fremont Ave and N Motor PL.	11/17/2014 12:06 PM
1876	Everywhere. And my bus wasn't listed above: the number 36. I would love an east/west bus on Orcas or Graham that connects Beacon Hill with Hillman and Columbia City.	11/17/2014 12:06 PM
1877	Eastside, North Seattle, Downtown, International District, U-District	11/17/2014 12:06 PM
1878	Thorndyke Ave W & W Lynn St	11/17/2014 12:06 PM
1879	Home: 3531 NW 60th St University of Washington HUB Sweet Pea Cottage Preschool: 2011 First Ave North Seattle Center (various locations) various downtown locations Seatac airport	11/17/2014 12:05 PM
1880	Currently go to work in the U-district.	11/17/2014 12:05 PM

1881	UW Tower - Brooklyn & 45th.	11/17/2014 12:05 PM
1882	Everett - SLU	11/17/2014 12:05 PM
1883	SeaTac Airport from Stadium station	11/17/2014 12:04 PM
1884	Ballard to Downtown, Stadiums	11/17/2014 12:00 PM
1885	I live in the Northeast section of town...in the Windermere neighborhood. I would like to be able to easily catch a bus and go downtown...easily and have it take a reasonable amount of time.	11/17/2014 11:39 AM
1886	Chinatown / Pioneer Square	11/17/2014 11:34 AM
1887	UW Tower, Seattle Center, Prefontaine & Yelser/3rd, Pioneer Square, Capitol Hill (Broadway, 17th & Madison, Volunteer Park, 15th Ave business district, Pike/Pine), Georgetown, South Park, Alaska Junction, Admiral Junction, Alki, Lincoln Park, 35th SW & SW Henderson, Morgan Junction, Fremont business district, Lower QA, Whole Foods Westlake, Ballard business district.	11/17/2014 11:28 AM
1888	I live in Klahanie (Issaquah), and travel to the University Transportation Center on campus daily. I also use transit to go to recreational activities in Seattle, which is varied in destination. If I need to go into Seattle, I tend to use transit.	11/17/2014 11:22 AM
1889	Connect the Central District (23rd and Yesler) to Capitol Hill, Queen Anne, and more buses to downtown	11/17/2014 11:19 AM
1890	Current travel on transit: University Tunnel Station A 80th & 15th Ave. NE Northgate Transit Station 2400 N 65th St. Would like: More direct route between 2400 N 65th St. and 80th & 15th Ave. NE	11/17/2014 11:03 AM
1891	Would love to go to Tacoma. Downtown Tacoma to Downtown Seattle faster service would be amazing.	11/17/2014 11:00 AM
1892	Would like a faster way from North Seattle to Capitol Hill, the airport, etc/	11/17/2014 10:45 AM
1893	Downtown, Capitol Hill, everywhere! I would like better transit to some of the outer areas, like West Seattle and Redmond.	11/17/2014 10:18 AM
1894	University of Washington Medical Center, Safeway on 15th Ave, Harborview Medical Center, SeaTac, my home near the Dick's on Broadway.	11/17/2014 8:57 AM
1895	I currently travel the most between Ballard and the UW Seattle Campus, and between Maple Leaf and the UW Seattle campus. It would be nice to be able to go between Ballard and other neighborhoods on one bus, like Capitol Hill, because now it currently takes about an hour via two buses. There is also no easy way to get to Phinney Ridge/Greenlake from Ballard and those neighborhoods are close by.	11/17/2014 8:54 AM
1896	Downtown Seattle	11/17/2014 8:28 AM
1897	Swedish first hill, north Edmonds/Lynnwood	11/17/2014 8:18 AM
1898	Summit and Olive Way to 4th and Jackson	11/16/2014 9:11 PM
1899	1. My church, CSL, 5801 Sand Point Way 2. Friends on Whidbey Island, using #'s 11, 512, 113 and WSF 3, My fav grocery store, PCC Fremont, 11,26/28 or 40 4. See Friends in SE Bellevue	11/16/2014 8:52 PM
1900	Currently go from 1823 Terry Ave. to University District (Gould Hall) almost every day.	11/16/2014 7:53 PM
1901	I would like a better route from North Greenwood (134th and Greenwood) to the Capital Hill neighborhood.	11/16/2014 7:05 PM
1902	UW, westlake centre, alderwood mall lynnwood, northgate mall	11/16/2014 7:04 PM
1903	I do not understand this question. "go on transit" ?	11/16/2014 7:01 PM
1904	1600 7th ave , seattle ballard avenue, seattle center, capitol hill (broadway, pike/pine corridor, 15th e) wallingford center. whole foods, roosevelt	11/16/2014 6:52 PM
1905	First Hill; Madison & Boren Lake City; Lake City Way & 137th ST NE Lake City; Lake City Way NE & 137th ST NE Fremont/Ballard; NW 8TH AVE & 45TH ST NW	11/16/2014 4:08 PM
1906	I use transit to go everywhere in the region that is not within walking distance.	11/16/2014 2:45 PM
1907	Seattle Central College	11/16/2014 2:17 PM
1908	Work (downtown at 4th and Pike) Home (29th Ave NE & NE 60th St.) airport	11/16/2014 11:09 AM
1909	I would like to be able to go to all of the Seattle neighborhoods, easily and in a timely manner, meaning not having to transfer or use multiple methods.	11/16/2014 10:59 AM

1910	I want to be able to go to 8 oz burger & Garage Billards, both on Capitol Hill. Will be easy when the street car finally starts.	11/16/2014 10:31 AM
1911	Ballard, Capitol Hill, financial district, downtown	11/16/2014 10:30 AM
1912	Northgate Mall & Westfield Shopping Center	11/16/2014 9:33 AM
1913	Downtown, Seatac airport, Ballard	11/16/2014 8:10 AM
1914	Downtown Seattle Seattle Center for ballet and opera and Rep Theater Olympic Sculpture Park Capital Hill restaurants and movie theaters and Seattle Central CC	11/15/2014 10:52 PM
1915	Downtown Seattle Airport	11/15/2014 6:15 PM
1916	23rd and John to denny and boren 23rd and John to airport 23rd and John to Westlake	11/15/2014 5:34 PM
1917	UW Tower 45th and Brooklyn First and Pike Seattle Center	11/15/2014 3:10 PM
1918	UW/U-district Greenwood Downtown Sea-Tac Airport	11/15/2014 2:15 PM
1919	Current Destinations: Home (Capital Hill) Work (King Street Center - 201 S. Jackson St.) School (University of Washington) Downtown Seattle Activities Would like to have better connections between Capital Hill and Fremont, Ballard Would like to be able to take light rail from Capital Hill to Airport (instead of transferring with luggage from bus to light rail)	11/15/2014 11:40 AM
1920	Currently: home to work and back: 7717 16th ave NE and 424 2nd Ave West between work and downtown: 424 2nd ave west and downtown (ex. Macy's) Between work and capitol hill: 424 2nd Ave West and 1108 16th Ave E I would like to be able to take transit more easily/faster between my home (7717 15th Ave NE) and the airport. I've avoided it because it would just take much too long and express buses to the downtown tunnels to catch the light rail have very limited hours. It's a shame that the light rail between downtown and the airport takes a good 45 minutes. I actually found the old express buses (93?) to have been a much more efficient way to get between downtown and the airport. They took more like 20 min from downtown.	11/15/2014 10:53 AM
1921	UW hospital Downtown ferry terminal	11/15/2014 10:23 AM
1922	From Ravenna to light rail	11/15/2014 10:13 AM
1923	Currently to work, meetings, friends and family	11/15/2014 8:39 AM
1924	Daily: Downtown - 705 2nd Ave Other: U District - the Ave, UW Waterfront Activities Center, UWMC on Roosevelt Capitol Hill - various areas including Broadway & Pine Fremont Greenwood - 85th and N Greenwood, and further south if there was more access than just the #5 Lake City Wy and NE 125th Magnuson - can't get there by bus now but would like to Ballard - 24th and Market - would like to be able to go to Shilshole	11/15/2014 8:33 AM
1925	Beacon hill - 12th and Atlantic St	11/15/2014 8:31 AM
1926	Currently use Dearborn and Rainier mostly, looking forward to the streetcar on jackson and Rainier. Central downtown, capitol hill pine/pike/broadway, westlake streetcar, too many to name.	11/15/2014 7:39 AM
1927	U-district, Montlake, Downtown, supermarkets	11/14/2014 11:44 PM
1928	University of Washington (academic campus) Husky Stadium Century Link Stadium	11/14/2014 11:03 PM
1929	My main transit commute is to go to work from Kingsgate Park and Ride to UW	11/14/2014 8:45 PM
1930	Wallingford and Udist to Sodo. Specifically I take the 71, 72, 73 or 74 from 40th and 7th to the tunnel, then light rail to sodo stop. Occasionally downtown or wallingford to issaquah.	11/14/2014 7:08 PM
1931	4056 9th ave ne Broadway market Pratt fine arts Tacoma 10th and commerce station Tacoma dome station Seatac airport Pike place market Town hall Seattle uw campus Theater district Tacoma Pacific place Volunteer park	11/14/2014 6:30 PM
1932	Currently I commute from Wallingford to downtown when the weather is bad, instead of biking. I use the university express routes. They are a little ways away from my house but I don't mind, because once a bus comes it is very fast to downtown. I was trying to think whether I would like to be able to ride the bus for social outings to other parts of the city, but I think it would be too complicated logistically, because I am only familiar with my daily route. I also would not like to walk out of my way to a bus stop or wait at a bus stop especially at night.	11/14/2014 5:58 PM

1933	Many addresses in UDistrict and UW main campus; UW Hospital campus; many addresses downtown including Seattle Public Library; Seattle Children's Hospital; Meadowbrook Community Center; Northgate Mall; Safeco Field; Qwest Field; Bellevue Square Mall and surrounding area; North Seattle Community College; Roosevelt High School; Magnuson Park;	11/14/2014 5:07 PM
1934	University & Downtown	11/14/2014 4:55 PM
1935	Downtown, Belltown, Seattle Center, University District, Fremont, Seatac.	11/14/2014 4:25 PM
1936	Work, downtown Seattle 1200 5th ave Resturants/bars- Capitol Hill, Ballard, Fremont	11/14/2014 4:08 PM
1937	(15th & Marion) (4th & Pine), Wallingford, Ballard, Northgate, Woodinville, First Hill	11/14/2014 2:57 PM
1938	UW	11/14/2014 2:23 PM
1939	Downtown, Capitol Hill, airport	11/14/2014 2:19 PM
1940	I ride from Phinney to Downtown Seattle and back.	11/14/2014 12:25 PM
1941	Capitol Hill, Columbia City, West Seattle, Central District	11/14/2014 11:45 AM
1942	Commute from NE 60th St and 25th Ave NE to Westlake Tunnel. Would LOVE to have a bus line like the 68 provide easy access to UW Light Rail Station without having significant walking commute through UW campus to get from 68 to light rail. Also, perhaps a bus line that runs down 25th Ave NE/Montlake beyond UW, into Montlake/Capitol Hill/First Hill neighborhoods via 24th Ave E/23rd Ave E. I would use this frequently, especially as CH/FH neighborhoods continue development.	11/14/2014 11:22 AM
1943	from home to work. kenmore to the u-dist. also from home to the airport.	11/14/2014 11:10 AM
1944	Currently I travel mostly to the ID, downtown in general, especially the retail core, Broadway and Pike/Pine corridor on Capitol Hill, the U District (mainly the Ave up to 52nd and down 45th to Wallingford), Fremont in general, Swedish First Hill and Cherry Hill, and the Carolyn Downs clinic at 21st & Yesler. Sometimes I travel to the Totem Lake area, Northgate, Vashon Island and downtown Bellevue, but those don't seem relevant to this survey.	11/14/2014 10:59 AM
1945	Summit Ave E and Bellevue Ave E- I used the 47 route quite frequently in the mornings and afternoons around 4 pm to and from work- It has been cut so now I walk or take my car to work.	11/14/2014 10:56 AM
1946	Meadowbrook Pool, University Village, Pacific Place, Pike Place Market, Benaroya Hall, Seatac Airport, South Lake Union, Ballard	11/14/2014 10:56 AM
1947	Overlake Transit Center / Microsoft Main Campus Bellevue Transit Center Downtown Redmond - City Hall Husky Stadium Westlake Mall Safeco Field / CenturyLink stadium Northgate Mall	11/14/2014 10:55 AM
1948	University of Washington, Dusty Strings in Fremont, Westlake Center, 826 Seattle	11/14/2014 10:52 AM
1949	Ravenna, UW, Capitol Hill, Downtown	11/14/2014 10:50 AM
1950	airport downtown	11/14/2014 10:47 AM
1951	Ballard, U-District, Capitol Hill, Sodo, Pioneer Square, West Seattle	11/14/2014 10:46 AM
1952	Downtown core, 3rd and Columbia. U Village, Greenlake.	11/14/2014 10:46 AM
1953	Work in redmond Downtown	11/14/2014 10:45 AM
1954	Capitol Hill, downtown (including Civic Core)	11/14/2014 10:41 AM
1955	Yesler and 32nd Ave. S. Jackson S. and 30th Ave. S. 23rd Ave. and Yesler 23rd Ave. and Jackson S. Campus Parkway and 41st Ave. NE 15th Ave. NE and Campus Parkway Union and 3rd Ave. Pike and 3rd Ave. Queen Anne and Mercer 1st Ave. N and Republican	11/14/2014 9:39 AM
1956	Northgate transit Center; 515 Minor Ave Minor and James Medical Building	11/14/2014 9:33 AM
1957	105th and Lake City Way (522) Convention Place or Westlake Station	11/14/2014 9:27 AM
1958	Redmond, UW, Montlake, Green Lake, Airport, Columbia City, Seward Park, Madison Park, Northgate	11/14/2014 9:06 AM
1959	Capitol hill to bellevue transit center.	11/14/2014 9:06 AM
1960	Downtown, U District, Capitol Hill, Ballard, Phinney Ridge	11/14/2014 7:48 AM

1961	Seattle central college, north beacon hill, Kirkland/ juanita, UW, downtown, ballard, west seattle, lake forest park, Snohomish cty	11/14/2014 7:30 AM
1962	U Dist Northgate Downtown Fremont Greenwood Ballard Capitol Hill SeaTac Intn'l Aiport Greenlake Wallingford	11/14/2014 7:02 AM
1963	I live on Summit Ave E and heartbroken you took away the 47.	11/14/2014 2:34 AM
1964	I travel between the central district (23rd Ave) and pioneer square for work every day. I often travel to the rainier valley, fremont, the U-District, Wallingford, Roosevelt, West Seattle, downtown, queen anne, cap hill and beltown. I drive to Kent a few times a month to visit parents.	11/14/2014 12:25 AM
1965	(For the above question, you're missing buses! I ride the D line and it's not on there. Is this survey old?) I'd like better east-west travel in Seattle, and better travel between Ballard and Beacon Hill.	11/13/2014 11:45 PM
1966	Seattle Central College	11/13/2014 11:37 PM
1967	would like to be able to get from Greenwood to Wedgwood	11/13/2014 11:02 PM
1968	Airport, Ferry terminals 4500 15th Ave. NE Lake City Community Center Phinney Ridge Community Center Seattle Center	11/13/2014 10:54 PM
1969	Tukwila Park and Ride (150) to Downtown (71x, 72x, 73x) to University of Washington	11/13/2014 10:03 PM
1970	Downtown, green lake, Greenwood, airport, capital hill, u.district, Magnusson, rainier/Columbia city	11/13/2014 7:25 PM
1971	Bellevue Transit Center, Capitol Hill, Downtown Seattle, Montlake, U District	11/13/2014 7:14 PM
1972	Ballard, Fremont, Microsoft, Lincoln square	11/13/2014 6:43 PM
1973	Capitol Hill, downtoen, Fremont, Ballard, Northgate, Redmond	11/13/2014 6:19 PM
1974	Edmonds to university district. It would be great if there could be a connector bus or something to the u-district light rail station so you don't have to walk all the way through campus or down by the hospital if you are on a bus that drops you off of 15/the middle of campus.	11/13/2014 5:55 PM
1975	Currently - Roosevelt high school To/From Downtown Seattle Would like a good (and frequent) bus connection between roosevelt high school and the new UW light rail station.	11/13/2014 5:55 PM
1976	Between work and home.	11/13/2014 5:52 PM
1977	UW Campus, Downtown Core, Fremont,	11/13/2014 5:38 PM
1978	University of Washington 41st and University Street, Convention Center Bay	11/13/2014 4:52 PM
1979	Pike Place 2nd ave in Belltown (Belltown has poor service to and from University District) Broadway (Cap Hill in general) 65th and 35th in Wedgwood 42nd and 9th in University District UW School of Law	11/13/2014 4:18 PM
1980	I would like greater flexibility reaching downtown Seattle (e.g. Westlake Park, Pacific Place, downtown library) during off-peak hours. I often use the Light Rail to get to/from SeaTac but currently do not use it if I am landing after 9 pm because the wait for the bus from Westlake to NE Seattle is too long AND I once had my carry-all stolen (smart phone, wallet & laptop) while waiting without being vigilant. I would probably start using public transportation to reach Capitol Hill destinations (1126 19th Ave E; the business district along Broadway; Seattle University). I would love an easy commute to Seattle Urban Academy (3800 South Othello Street) - again, needing more bus service linking me to the Light Rail).	11/13/2014 3:53 PM
1981	Downtown, Capitol Hill, U District, First Hill	11/13/2014 3:28 PM
1982	From NE 45th St & Mary Gates Memorial Dr NE to Downtown/University Station	11/13/2014 3:27 PM
1983	Greenlake. Northgate Mall. Everett P&R.	11/13/2014 3:23 PM
1984	Childrens Hospital SE entrance, Pioneer Sq, SeaTac	11/13/2014 3:20 PM
1985	Downtown Fremont Ballard	11/13/2014 3:14 PM
1986	downtown Seattle, Phantom Lake Elementary School, Northgate Mall, home (near UW),	11/13/2014 3:02 PM
1987	Microsoft Campus Stone Way and 38th University Village 15th and John SEATAC Phinney and 36th Denny and Melrose Broadway and Pine 9th and Virginia	11/13/2014 2:52 PM
1988	4th and University	11/13/2014 2:38 PM
1989	University of Washington Medical Center Lake City Way and 137th St. 3rd and Pike St.	11/13/2014 2:32 PM

1990	Downtown, Capitol Hill, Beacon Hill, SODO U District, Wedgwood.	11/13/2014 2:21 PM
1991	Currently go to downtown SEA and the UW campus. I would like to be able to get to Pike Place and Shoreline easier.	11/13/2014 2:20 PM
1992	Above are more frequently used (373, ST512 less so). Currently use transit as a backup to bicycling; from around Green Lake-Roosevelt to central and south Capitol Hill, Atlanticl, Downtown, Columbia City, Wedgwood, (and Shoreline, Edmonds infrequently).	11/13/2014 2:09 PM
1993	Montlake to downtown Seattle. Montlake to factoria	11/13/2014 2:07 PM
1994	I would like to go from Capitol hill to Fremont/Wallingford without changing busses downtown.	11/13/2014 1:56 PM
1995	Issaquah Highlands to downtown Seattle, stadiums. Wish I could take rail to work in Redmond	11/13/2014 1:40 PM
1996	Currently I use transit primarily to commute to work and look forward light rail making that easier. I also look forward to being able to use light rail from the University District to SeaTac to visit my parents.	11/13/2014 1:39 PM
1997	I ride from Capitol Hill to the Seattle Center, downtown, and the University District. So grateful for good bus service to all of these areas!	11/13/2014 1:36 PM
1998	Greenwood, Pioneer Square	11/13/2014 1:32 PM
1999	Cap hill (broadway & mercer, pine & Bellevue, pine & 12th) Downtown (westlake station to get on light rail, and downtown bus tunnel)	11/13/2014 1:24 PM
2000	15th ave e to 4th and Vine	11/13/2014 1:14 PM
2001	UW, Stone Gardens Ballard, seatac, 22nd Ave W and Dravus, 3rd Ave NW and 90th, Seattle Center	11/13/2014 1:11 PM
2002	I would like to be able to get from my home in Bryant to the airport.	11/13/2014 1:10 PM
2003	Pier 69 in downtown, airport, main downtown area, ID, near 19th and Prospect, Ballard/Phinney Ridge, Columbia City	11/13/2014 1:01 PM
2004	Broadway and Columbia, Beacon Hill (The bus I ride most is not listed above - 36), Madison Park, U district, Downtown, Ballard Where I would like to go depends very much on whether or not I can continue to afford to live in Seattle. I live and work in Seattle, but due to greed, my rent has gone up triple digits for the last several years. Because I do not know where I will be able to afford housing, I do not know which bus routes will be most useful to me in the future. Probably the ones getting cut that go further out. I predict that the high rent residents of Seattle do not use transit much, so pobaly ridership will go down as people who now use transit move to areas that can no longer be served due to lack of funding.	11/13/2014 12:55 PM
2005	1000 Bellevue Place E, Seattle 705 2nd Ave, Seattle CenturyLink Field Safeco Field University District Ballard Queen Anne Downtown	11/13/2014 12:53 PM
2006	I travel from Brickyard Park and Ride or alternative Bothell area park and ride to 4245 Roosevelt Way NE. Transit can get me to within 6 blocks of this destination, but there are fewer and fewer buses heading from the Eastside (transferring at Evergreen Point) to the U-district. Those buses that do go the the U-district from Evergreen Point tend to be standing room only, which is a pain for me since I am pregnant.	11/13/2014 12:33 PM
2007	from issaquah highlands to capital hill by swedish. if they could have a route that went directly to and from this area maybe with one stop at eastgate park and ride. Most nurses work 12 hr shifts so need to be at work by 0655 and leave around 7:30 to 7:45. You would get a lot of riders from the east valleys snoqualamie north bend and fall city areas. If we drive ourseleves we can leave our house at 6:20 in the am and get to work on time. and get home by 8 or 810 pm	11/13/2014 12:29 PM
2008	Currently: Swedish Medical Center, First Hill and Cherry Hill Campus Downtown Seattle (Westlake/ Pikes Place) Space Needle	11/13/2014 12:27 PM
2009	Seattle Center Magnolia Fremont Ballard	11/13/2014 12:15 PM
2010	From Lynnwood Transit Center to downtown Seattle - 4th and Stewart From 6th & Olive to Lynnwood Transit Center. Prefer: From Lynnwood Transit Center to downtown Seattle - 4th & Blanchard (in front of the Cinerama Theater) and back.	11/13/2014 11:51 AM
2011	U District to Ballard U District to First Hill	11/13/2014 11:33 AM

2012	Downtown Bus Tunnel, University of Washington, University District, Capitol Hill, Wedgewood, Ravenna, and connect with the Routes 44 and 48 to Ballard and Greenwood. I live in Lake City. I would like to see more regular evening and Sunday service. It is easy to get to events Downtown or on Capitol Hill but much more difficult to get home because service frequency drops to every half hour after 8 o'clock. I can't really attend a late movie on Capitol Hill during the annual film festival because when I get out it may take me 2 hours to get home. If we go to the Mariners game we have to leave by 10PM to insure we can get a bus home at a reasonable time. We can't really take the bus to church, because the 65 runs only every half hour on Sunday and it is the only bus that runs north and south on 35th ave NE.	11/13/2014 11:09 AM
2013	Downtown 1015 3rd Avenue Library 2602 Third Avenue 1900 Third Avenue King County Offices Clink Exhibition Center U Village U District	11/13/2014 11:00 AM

2044	Mainly from Ravenna to downtown near Westlake. I'd love for it to get easier to go West to Greenlake, Phinney Ridge, and Ballard.	11/12/2014 9:27 PM
2045	I live on Capitol Hill and I go downtown, to the airport, to Phinney Ridge, to Beacon Hill.	11/12/2014 9:16 PM
2046	Seattle central Greenlake community center Ravenna - 15th ave ne and 65th st U district - 45th st and the ave Northgate mall Columbia city farmers market Central district - union and 20th ave Madrona - 34th ave and union Ballard - golden gardens and market st	11/12/2014 9:05 PM
2047	N, S, E, W always in seattle; rarely Eastside; rarely West Seattle, rarely Snohomish.	11/12/2014 8:46 PM
2048	I want routes to go by the bus stop near the corner of Ravenna Blvd NE and NE 54th to and from: 1.Downtown 2.Safeco Field 3.SeaTac Airport 4.Husky Stadium 5.Northgate 6.Downtown Bellevue 7.Shoreline 8.Lake City/Bothell 9.Seattle Center 10. The International District 11.Ballard 12.Woodland Park Zoo 13.Fremont including 4250 Fremont Ave N 14.Greenlake Village PCC, 450 N.E. 71st St. 15.Metropolitan Market, 5250 40th Ave NE , 16, Central Market, 15505 Westminster Way N, Shoreline, WA 98133	11/12/2014 8:44 PM
2049	N. 190th and Meridian Ave. N. 9242 M.L. King Jr. Way S.	11/12/2014 8:42 PM
2050	Ballard University of Washington	11/12/2014 7:53 PM
2051	I use transit to access all parts of Seattle and the east side. I work from home so I don't have regular trips I make. I would like a better connections to East Lake, Ballard and Wallingford.	11/12/2014 5:56 PM
2052	Downtown from Greenlake	11/12/2014 5:52 PM
2053	Downtown, Uptown and Capitol Hill	11/12/2014 5:46 PM
2054	From airport to Seattle University. Airport to UW. International District to Capitol Hill to UW.	11/12/2014 5:41 PM
2055	Alaska Street Junction, Downtown Seattle, Downtown Bremerton via Ferry	11/12/2014 5:25 PM
2056	I usually go from Columbia City - on South Dawson Street - to Seattle Central College, Capitol Hill, Downtown, Chinatown, and Ballard. I would like to be able to go on transit to South Center Mall.	11/12/2014 5:07 PM
2057	to school in bothell, to volunteer places around the u-dist, to downtown seattle	11/12/2014 5:04 PM
2058	Capitol Hill	11/12/2014 4:38 PM
2059	downtown	11/12/2014 4:35 PM
2060	downtown, SLU, Ballard, Fremont, U Dist, Greenlake, Greenwood, Central dist, capital hill, west seattle, and every other neighborhood in the city	11/12/2014 4:27 PM
2061	Lake City Fred Meyer, NOAA Sand Point, Colman Dock (downtown), Sea-Tac Airport, First Hill, Northgate Transit Center, University District	11/12/2014 4:24 PM

2062	First Hill Express 193 every day	11/12/2014 4:23 PM
2063	15th and Market St. in Ballard Ballard Ave and Market St. 10th ave E and Miller St. Broadway and Pine St. CAPITOL HILL TO BALLARD on one bus would be amazing!	11/12/2014 4:18 PM
2064	Would like better, quicker access to Ballard and West Seattle from Capitol Hill	11/12/2014 4:17 PM
2065	I go down town into the bus tunnel. I go to the U district and campus. I go to Lake forest park. I go north and south on 35th Ave NE. I would like to be able to go along NE 65th from 35th ave NE to Greenlake (currently have to change at 15th Ave NE). Most of all I would like to have a bus going south on 35th Ave NE and along Montlake Blvd to the Husky light rail station.	11/12/2014 4:04 PM
2066	Seattle Central College 1701 Broadway Seattle, WA 98122 4823 south morgan street	11/12/2014 3:59 PM
2067	University of Washington Seattle campus, medical center University of Washington Bothell campus Sons of Norway Hall, Bothell Capitol Hill, Century Ballroom, Seattle Central College, Velocity Dance, Russian Center(on 19th), Dance Underground (on 14th) Ballard, Salmon Bay Eagles, Ballard Elks Downtown, Train Station, Ferry Terminal, Airport Northgate Mall area, shopping, North Seattle College, medical/dental buildings south of the mall Greenwood, 103rd/Greenwood/Holman Rd North out Aurora, big box stores	11/12/2014 3:58 PM
2068	I go to Pioneer Square on the 41 from 5th & 125th. . I'd like to be able to get to Lower Queen Anne (Mercer & 3rd) from Northgate also.	11/12/2014 3:51 PM
2069	C line. Seattle to Tacoma	11/12/2014 3:44 PM
2070	downtown Seattle, University District, First Hill, Capitol Hill, Ballard, Fremont, Bellevue, Kirkland	11/12/2014 3:36 PM
2071	right now, from beacon hill to capitol hill and back, on weekdays. Hudson and 15th, to 11th and Pike. It is a good service, but is almost always running late, and has huge gaps in bus times after about 7pm.	11/12/2014 3:35 PM
2072	Edmonds Community College, Husky Stadium, Safeco/Century Link, Airport, Ballard Public Library, Fremont Library	11/12/2014 3:29 PM
2073	Queen Anne Ballard Downtown International District	11/12/2014 3:26 PM
2074	CenturyLink field, UW Stadium, UW the Ave, Broadway area, 12th Ave area, 23rd & Union, 18th and Union	11/12/2014 3:20 PM
2075	Lane & 26th, Queen Anne Ave & Roy, Capitol Hill area, Jackson & 12th, Jackson & 6th, Union & 18th, Madison & 16th	11/12/2014 3:05 PM
2076	2100 Building University of Washington Westlake Station	11/12/2014 3:05 PM
2077	I currently go to work and school, Seattle Central College and then back home again in Eastlake. Occasionally I go from either to downtown or up to the University district. It would be wonderful to be able to get to Queen Anne/Westlake from Eastlake without going all the way downtown.	11/12/2014 2:57 PM
2078	Airport,downtown	11/12/2014 2:54 PM
2079	I'd like to be able to get to downtown from Sand Point Way NE and NE 95th Street on one bus and in a reasonable amount of time.	11/12/2014 2:54 PM
2080	From Laurelhurst to downtown and to the U dist. From Laurelhurst to Ballard. And from Laurelhurst to Capital Hill	11/12/2014 2:50 PM
2081	Downtown Capitol Hill Ballard University District Stadium District Sea-Tac airport Fremont	11/12/2014 2:50 PM
2082	downtown Seattle, Seattle Center, University District, and Ballard/Fremont are the most common destinations I make by transit.	11/12/2014 2:49 PM
2083	work: 5303 Shilshole Ave NW Seattle-WA 98107	11/12/2014 2:46 PM
2084	U-District, UW campus, UW medical center, Fremont, Seattle Center, downtown	11/12/2014 2:33 PM
2085	1 st ave to 1101 madison tower #12 BUS	11/12/2014 2:31 PM

2086	I commute via transit from my home in the New Holly Development to Seattle College campuses at 21st & Jackson, Pine & Broadway, College Way N & N 97th, and 6000 16th Ave SW. I can do the commute via transit, but getting to the South Seattle College campus and North Seattle College Campus takes 90+ min. each way which is too long a commute if I have to do it more than once a month. I'd like to be able to get to West Seattle & Burien from South Seattle via transit without having to go into downtown Seattle first. My husband would like to be able to get from South Seattle to South Lake Union via transit in under 45 minutes (currently 20-30 min. via single-occupancy vehicle or 75+ min. via transit). I occasionally need to pick up a sick kid at Asa Mercer Middle School; this can take over an hour from my office at 21st & Jackson because the 2 bus lines (50 & 60) that run by the school only run every 20 or 30 min., making it difficult to catch either of those buses when transferring from other lines.	11/12/2014 2:30 PM
2087	Tacoma Mall The Commons in Federal Way Seattle Central Community College Space Needle University of Washington	11/12/2014 2:28 PM
2088	South Lake Union, Seatac airport, Kenmore, downtown Fremont, Eastlake and Louisa, Magnusson park	11/12/2014 2:05 PM
2089	I travel by transit to very many destinations--it is my primary means of transportation.	11/12/2014 2:02 PM
2090	downtown, capitol hill, central district, Wallingford, Fremont, Queen Anne	11/12/2014 1:41 PM
2091	Kent Station Valley Medical Center	11/12/2014 1:37 PM
2092	Othello to Stadiums	11/12/2014 1:25 PM
2093	Seattle Central College, University of Washington, South Seattle College, North Seattle College	11/12/2014 1:24 PM
2094	more buses from downtown to captial hill	11/12/2014 1:17 PM
2095	Lake City Way & NE 125th St, Matthews Beach (Sand Point Wy & NE 95th St.), Jackson Park (15th Ave NE & NE 137th St), Fremont Ave N & NE 34th St, U District (15th Ave NE & NE 45th St), U Village (Montlake Blvd & NE 45th St), Starline Barbershop (NE 55th St & 35th Ave NE), Queen Anne Ave N & Howe St	11/12/2014 1:16 PM
2096	Madrona (34th & E. Union) to Fremont (Fremont Ave & N. 34th St) Madrona (34th & E. Union) to Seattle Center (Pacific Science Center; Key Arena) Madrona (34th & E. Union) to Seattle Central Public Library Fremont (Fremont Ave & N. 34th St) to University of Washington (Kane Hall, HUB) Madrona (34th & E. Union) to University of Washington (Kane Hall, HUB)	11/12/2014 1:11 PM
2097	Capitol Hill to downtown and back	11/12/2014 1:10 PM
2098	CBD, Kenmore, U-District, Beacon Hill, First Hill, Capitol Hill, North Seattle	11/12/2014 1:02 PM
2099	Here and there	11/12/2014 1:01 PM
2100	Currently use transit to commute to work downtown from Beacon Hill. I used to use the bus and HAPPILY switched to Link. Now I use LINK anytime I go downtown and I will go to movies/gym/work/airport etc, knowing that I can use LINK to go there. When LINK goes to Cap Hill and the U dist, I will use it to go to events/see friends on Cap Hill and I will go to U Village (currently I avoid it or i drive there) but i will use LINK going forward.	11/12/2014 12:56 PM
2101	Roosevelt Way NE and NE 88th St. 5th Ave NE and NE 88th St. 15th Ave NE and NE 88th St.	11/12/2014 12:38 PM
2102	Seattle downtown, Sea-Tac airport, university Village, Roosevelt Blvd, northpark, seattle Center	11/12/2014 12:37 PM
2103	Downtown, Ballard, Fremont	11/12/2014 12:36 PM
2104	I work on the Eastside and don't use transit that much as the time it takes to get to the Eastside is three times longer than driving. Specially Bear Creek Park and Ride or the Overlake Transit Center.	11/12/2014 12:35 PM
2105	Eastside for work.	11/12/2014 12:34 PM
2106	Ferry Terminals, Queen Anne, Ballard, Gasworks, University Village	11/12/2014 12:27 PM
2107	I would like to take transit to go snowboarding @ snoqualmie 1001 Route 906, Snoqualmie Pass, WA 98068	11/12/2014 12:25 PM
2108	To work	11/12/2014 12:25 PM
2109	I currently go to these locations most often: Bellevue ave E and E thomas st, Seattle Central community College, 1505 westlake ave North, Northgate Mall I would like to be able to go to West Seattle, travel around bainbridge island, and get better bus access to Ballard/ entire west side of seattle.	11/12/2014 12:18 PM

2110	I use the 255 from Seattle to Kirkland and vice versa. I also use the 14 to go the international district bus stop, from 25th ave. I would love the Light Rail to come all the way up to 25th ave. This would save me time as compared to transferring buses.	11/12/2014 12:10 PM
2111	Capitol Hill Downtown International District Ballard Queen Anne	11/12/2014 12:03 PM
2112	Getting north of the canals in Seattle (U-district, Wallingford, Husky Stadium) from Beacon Hill via light rail/bus. I also commute from Beacon Hill to Kent, WA Monday through Friday and any improvements to the current system of riding light rail to Seatac and getting to Kent would be huge for the REI, Amazon, etc. Employees that live in Seattle/West Seattle and commute south.	11/12/2014 11:54 AM
2113	Northgate, Southgate, Ballard, Ikea, airport, community theatres in outlying areas (Edmonds, Redmond, etc), Wallingford, U District, Fremont	11/12/2014 11:48 AM
2114	beacon hill, downtown, capitol hill	11/12/2014 11:48 AM
2115	I'd like to go to SeaTac. I'd like to go downtown to court and public service buildings. I'd like to go to First Hill-- 1200 University and Swedish Hospital. I'd like to have a quick afternoon route home. I'd like to go to the Seattle Center. I'd like to go to the Zoo and Aquarium. I'd like to go to the Ferry Docks.	11/12/2014 11:41 AM
2116	Capitol Hill to/from University District Capitol Hill to/from Madrona Capitol Hill to/from West Seattle -- would love more efficient connections here! Eastlake to/from University District Capitol Hill to/from lower Queen Anne Capitol Hill to/from upper Queen Anne Capitol Hill to/from downtown Capitol Hill to/from International District	11/12/2014 11:36 AM
2117	Laurelhurst neighborhood, International District, Downtown	11/12/2014 11:32 AM
2118	4872 Rainier Ave S to 1634 11th Ave 4872 Rainier Ave S to 1100 NE Campus Pkwy 4872 Rainier Ave S to 705 5th Ave S	11/12/2014 11:31 AM
2119	First hill Capitol Hill Beacon hill Downtown	11/12/2014 11:25 AM
2120	I am a graduate student at the UW who lives on the outskirts of Capitol Hill (near Seattle University). I would like for there to be a bus along 12th Avenue, especially one that takes you from the International District to SCCC/the new Light Rail Station.	11/12/2014 11:16 AM
2121	Seatac to seattle	11/12/2014 11:13 AM
2122	I would like to go from Federal Way to Capital Hill without long transfers, especially during winter. Or Tukwila Light Rail to UW would be nice so there wouldn't be transfers or traffic delays.	11/12/2014 11:12 AM
2123	I currently ride either Metro 312 or ST 522 from Lake City (NE 137th St.) to downtown, then walk from there to where I work at Swedish Cherry Hill. I would like to see frequency of buses increase on that route, since buses are often standing room only (especially the ones in the afternoon commute from downtown back to Lake City). I would also be able to connect by bus from Lake City to the Link Light Rail in the University District once that service starts. It would be good to have the option of taking a bus from Lake City to the airport, arriving early enough to be able to make those flights that leave at 6:00 am or so.	11/12/2014 11:10 AM
2124	I travel from Kent to Capitol Hill, I used to take the Sounder Train connecting to route 211 but parking has become an issue at Kent Station and the 211 has been discontinued. Next best route is 193 all the way to Swedish Cherry Hill, or I have to take a bus to 4th & Jackson then walk to take the 3 or 4. I'd love another Cap Hill route that runs from 4th & Jackson up to Cap Hill.	11/12/2014 11:03 AM
2125	Airport	11/12/2014 11:00 AM
2126	Downtown, U District, South Seattle (Colombia City)	11/12/2014 10:51 AM
2127	Kingsgate Park & Ride to Harborview Medical Center Kingsgate Park & Ride to University of Washington 148th St., Redmond to University of Washington	11/12/2014 10:44 AM
2128	Stadiums, airport, downtown	11/12/2014 10:37 AM
2129	U district.	11/12/2014 10:31 AM
2130	Westlake Center, Capitol Hill and Beacon Hill	11/12/2014 10:13 AM
2131	Pacific Tower (Beacon Hill PacMed Building) University of Washington Harborview	11/12/2014 10:09 AM
2132	Atlas Chiropractic and QFC near Union & Broadway	11/12/2014 10:07 AM
2133	1211 East Alder St- Youth Services Center	11/12/2014 9:58 AM

2134	Capitol Hill: 15th & Reublican area, 10th & Boston, Broadway & Pike; Greenlake: 65th & Roosevelt, 74th & Aurora; Wallingford Center; International District/Union Station; Downtown: Nearly everywhere south of Bell, North of Dearborn, West of I-5 Georgetown: 1st Ave S & Lucile St Interbay: 15th & Garfield Edmonds: 236th St SW & SR99 West Seattle Water Taxi: Downtown side doesn't have any bus connection	11/12/2014 9:45 AM
2135	Downtown (2nd Ave and Cherry), Central District (23rd and Cherry), Casa Latina (317 17th Ave. S Seattle), Discovery Park, Olympic Sculpture Park, W Market and Ballard, University Way NE and NE 45th, Pacific Ave. in Tacoma, the Bloedel Reserve on Bainbridge, Martin Luther King Jr. and Union, Broadway and Pike, 35th and Cherry.	11/12/2014 9:43 AM
2136	Marion and 3rd	11/12/2014 9:36 AM
2137	14th Ave W Seattle WA 98119 4311 11th Ave NE Seattle WA 98195 UW Medical Center HMC Center Seattle Downtown 4311 11th Ave NE to Queen Anne	11/12/2014 9:36 AM
2138	Currently go via transit to the UW for school, and 5th and Madsion to my job Downtown. I would like to be able to use transit to get everywhere quicker than i do now.	11/12/2014 9:36 AM
2139	Downtown, Ballard, UW	11/12/2014 9:26 AM
2140	Currently go from SE 240th St and Maple Valley-Black Diamond Rd to 2nd Ave and James St every day. When I go back to school to UW. It would be great to have the link right rail	11/12/2014 9:08 AM
2141	work, airport, downtown, capitol hill, columbia city	11/12/2014 8:53 AM
2142	I go everyone on transit.	11/12/2014 8:47 AM
2143	Work 3rd and columbia	11/12/2014 8:45 AM
2144	SCCC	11/12/2014 8:44 AM
2145	Usually within the Seattle Downtown, Capitol Hill and Madison Park areas. I am excited for the link to give me the option to get to other areas of Seattle in 2016.	11/12/2014 8:39 AM
2146	I go from Latona and 44th to 2nd and Seneca.	11/12/2014 8:33 AM
2147	Work DSHS 1700 E Cherry ST Seattle, shopping (various locations), appointments (various locations)	11/12/2014 8:30 AM
2148	I go to school, the Doctor's office, Harborview Hospital, The Museum of Flight, Sea-Tac Airport. And to Issaquah to visit family.	11/12/2014 8:30 AM
2149	I go from my home in west seattle to down town seattle for work.	11/12/2014 7:51 AM
2150	short commutes from Capitol Hill to: Beacon Hill, Queen Anne, Ballard without having to go downtown. For children who rely on Metro, we need routes that go from Eastlake up to Capitol Hill and down to Montlake - linking, for example, TOPS, Stevens & the Montlake & Miller community centers.	11/12/2014 7:46 AM
2151	I'd like to be able to get to Wallingford and Fremont on transit. Everywhere else I can get to pretty easy.	11/12/2014 7:41 AM
2152	would like to go ballard to capitol hill	11/12/2014 7:41 AM
2153	I go downtown via Metro bus riding the #50 and #7 (from Columbia City) I use the north/south Light Rail line. I ride #9 Metro Bus everyday to Seattle Central College and back (I live at the corner of 50th Ave S and Genesee)	11/12/2014 7:34 AM
2154	Downtown, South Lake Union, Cap Hill, Columbia City, Beacon Hill, Wedgwood	11/12/2014 7:24 AM
2155	no where	11/12/2014 7:00 AM
2156	I would like to be able to go from Auburn to Seattle Central College in under an hour. Right now, it would take over an hour and a half and a few transfers.	11/12/2014 6:45 AM
2157	U District, U Village, Montlake, Central District, First Hill	11/12/2014 3:48 AM
2158	I currently go from Fremont to Seattle Central College usually by motorcycle (year-round) occasionally by bus. Twice per week I go from Fremont to UW usual by bicycle. About once per week I drive or bus to Ballard (downtown, Locks, or Golden Gardens) from Fremont for fun. I would like to go from UW Medical Center to Harborview by rail or street car. It that were available then I would bicycle to UW and take the light rail south. Or a bike path was made along Westlake then I would cycle from Fremont along westlake to the street car.	11/12/2014 2:02 AM
2159	Ballard, Market St and Ballard Ave area West Seattle, Alaska Junction, Findlay and 44th	11/12/2014 1:58 AM
2160	1221 1st ave kerry park alki beach	11/12/2014 1:17 AM

2161	2nd and cherry, maddison and 15th, 2nd and Madison,	11/12/2014 1:07 AM
2162	downtown, southcenter, chinatown, UW, northgate,	11/12/2014 1:04 AM
2163	From Ferry terminal to Seattle Central, and back. A route that takes me directly would be safer than having to walk from the bus tunnel to the ferry late at night. From Ferry terminal to Univ. of Wash., and back. From Ferry terminal to Ballard	11/12/2014 12:09 AM
2164	School at Seattle central, would like easier access from Fremont to capitol hill.	11/12/2014 12:07 AM
2165	Seattle central college Microsoft Downtown Seattle South center Kent	11/12/2014 12:03 AM
2166	Everywhere! Mostly downtown (downtown corridor @ Pike/Pine), South Lake Union, Pioneer Square, Bellevue and Issaquah. Take bus and car now but would prefer to take bus more often as traffic is slow and bus is less stressful	11/11/2014 11:58 PM
2167	Downtown, Northgate Mall, U District, are all places I currently go/have gone. I'd like easier access to places like Everett, Bellingham, and even North Seattle... It takes a long time to commute.	11/11/2014 11:52 PM
2168	west magnolia, seattle central college, S. Jackson and 12th	11/11/2014 11:52 PM
2169	Georgetown, capitol hill, beacon hill, university district, delridge, international district, central district	11/11/2014 11:43 PM
2170	University district Capitol Hill Downtown	11/11/2014 11:23 PM
2171	Currently from NE Seattle to Downtown Would like to go from NE Seattle to First Hill and to SeaTac airport Would like to go from NE seattle to Queen Anne, Univ Village, UW area, Capitol Hill	11/11/2014 10:59 PM
2172	Group Health on Capitol Hill 500 9th Ave N 333 Boren Ave N 201 Elliott Ave N	11/11/2014 10:17 PM
2173	Downtown	11/11/2014 9:41 PM
2174	North City, Shoreline, Downtown Seattle, Columbia City, Capitol Hill, Fremont, Northgate, Costco	11/11/2014 9:31 PM
2175	Fremont Belltown Pioneer square	11/11/2014 9:29 PM
2176	downtownseattle issaquah capitol hill university district u village ravenna roosevelt green lake	11/11/2014 9:10 PM
2177	NE Seattle to downtown Bellevue - work commute mostly. I occasionally use other Metro and ST routes go to various places.	11/11/2014 9:09 PM
2178	Seatac Airport, downtown Seattle/Westlake Station, and University Ave/NE 50th.	11/11/2014 9:05 PM
2179	Mostly Downtown. Specifically my commute takes me from 30th Ave NE & NE 87th St, to 1st Ave S & S Lander, via bus, with one transfer downtown. Would like to be able to go to the University UW Station Link directly, when it opens. Other destinations include Fremont, Ballard, Wallingford, Green Lake.	11/11/2014 8:24 PM
2180	To work and back. Use Light Rail for airport	11/11/2014 8:16 PM
2181	University of Washington medical center, downtown, northgate, greenlake, seatac airport, university of washington	11/11/2014 8:10 PM
2182	Home (Capitol Hill) Airport Downtown Queen Anne UW Garfield High School Stadiums	11/11/2014 7:59 PM
2183	Downtown Coleman Dock Belltown Westlake Center	11/11/2014 7:47 PM
2184	town hall, downtown, airport, UW, Husky games, capitol hill, fremont,	11/11/2014 7:46 PM
2185	I come from Bellevue to Capital Hill (Seattle Central College) every morning and I go to the University District a lot, or sometimes I come from Bellevue and go to University District. (mostly Bellevue to capital hill). I would like to be able to go from Bellevue straight to Capitol hill, or possibly Bellevue to UW to Capitol hill. Having to take the 550 to downtown and come to capitol hill I find it inconvenient that I have to take to 49 to get to capita hill and then UW because there is only one bus that goes to both and it doesnt come as often as I would like.	11/11/2014 7:16 PM
2186	Georgetown (Airport Way S & Vale St.) from downtown and a connection between Georgetown and Capitol Hill	11/11/2014 6:42 PM
2187	I live in Rainier Beach, but would like better routes to West Seattle, Capitol Hill, Queen Anne (lower and upper), Fremont, and Ballard.	11/11/2014 6:41 PM
2188	Magnolia Belltown Sea-Tac Airport Seattle Waterfront	11/11/2014 5:34 PM
2189	Group Health, Downtown Seattle, International District, University of Washington, University District, SeaTac airport, Kirkland	11/11/2014 5:31 PM

2190	Harborview medical center Fremont Abbey performing arts center Roosevelt Way NE & 125th Ave 2330 W Commodore Way 1602 15th Ave W	11/11/2014 5:13 PM
2191	I would like it to be easier to get from Wallingford / U District to Capitol Hill and Ballard and Northgate.	11/11/2014 4:34 PM
2192	work, would love to take it for shopping or other uses	11/11/2014 4:29 PM
2193	Capitol Hill>Downtown Capitol Hill>Airport Capitol Hill>Fremont Capitol Hill>Ballard	11/11/2014 4:13 PM
2194	Home - 38th Ave NE and NE 48 ST to downtown - 3rd and University	11/11/2014 3:57 PM
2195	King County Courthouse CenturyLink Field Sea-Tac Airport	11/11/2014 3:56 PM
2196	Maple Leaf (98th and Roosevelt) to Downtown and back. Maple Leaf to Cal Anderson Park and back. Northgate to Downtown and back.	11/11/2014 3:52 PM
2197	currently to : Everett to Seattle; Seattle to Bellevue; Downtown to U District, Downtown to Sandpoint; Downtown to Green Lake; First Hill to Downtown; International District to Pioneer Square; Downtown to Northgate; Snohomish to Downtown Seattle Like to go: International District to First Hill;	11/11/2014 3:46 PM
2198	SLU (Dexter & Mercer) to UW Downtown to Capital Hill	11/11/2014 3:45 PM
2199	I travel everywhere by transit. The main areas include Maple Leaf, Ballard, Fremont, Downtown, University District, and Capital Hill	11/11/2014 3:36 PM
2200	Work on First Hill Downtown Seattle from Capitol Hill Queen Anne from Capitol Hill SeaTac Airport	11/11/2014 3:30 PM
2201	Tacoma Dome Station to Swedish Cherry Hill daily	11/11/2014 3:25 PM
2202	Bus to Capitol Hill from the Rainier Valley. And bus to the University District from the Rainier Valley.	11/11/2014 3:20 PM
2203	Down 35th to the new stadium light rail station to connect to downtown. There should be excellent bus connections from ne Seattle to the new station. Also, need nus connection down sandpoint way to the new station. These buses would ideally run every 15 minutes to encourage use of the new station.	11/11/2014 3:19 PM
2204	From intersection NE 65th St and 15th Ave NE to Seattle Central CC.	11/11/2014 3:19 PM
2205	NE 65th Street and 15th Avenue NE to/from Pioneer Square Tunnel station	11/11/2014 3:10 PM
2206	Easier route to downtown ferries from NE Seattle Route from NE Seattle to Husky Stadium Light Rail, UW IMA, UW HEC Ed, etc.	11/11/2014 3:09 PM
2207	Dexter Ave N (all blocks) Totem Lake Transit Center	11/11/2014 3:08 PM
2208	rainier and dearborn to madison and 20th ; rainier and dearborn to pacific towers; rainier and dearborn to Broadway and pike	11/11/2014 3:05 PM
2209	Capitol Hill, UW, Ballard, Fremont, International District	11/11/2014 2:23 PM
2210	I live on first hill and ride various capitol hill routes and busses to the u-district. many routes that use Broadway as the primary street	11/11/2014 1:57 PM
2211	I would like to be able to go from Pike/Pine on Capitol Hill to Ballard Ave more easily. I also want to be able to go directly from Pike/Pine on Capitol Hill to University Village, and then up 35th Ave NE.	11/11/2014 1:46 PM
2212	Greenlake to eastlake. Eastlake to capitol hill. Capitol Hill to greenlake.	11/11/2014 1:43 PM
2213	To Eastlake from Queen Anne. To Golden Gardens. Downtown and Capitol hill	11/11/2014 1:39 PM
2214	Live in First Hill, and I take the bus FROM downtown back up the Hill. I frequent SoDo/the stadiums year-round, and I'm not completely sure of a direct route from First Hill to the stadiums, but that would be helpful. Getting from Capitol Hill to Ballard seems almost impossible by bus. When I lived in Tacoma & would take the train, getting from the train station up to Swedish/VM/Harborview required walking from King St to 5th & James - and it seems like since the hospitals are in that same area, and many people commute from outside of Seattle, it would make sense to have a bus that goes up the hill? Perhaps the new trolley system will help that, but probably not as much as what's needed.	11/11/2014 1:38 PM
2215	From home - 629 12th Ave. E. 98102 To work - 1100 2nd. Ave. 98101	11/11/2014 1:34 PM

2216	Direct bus from Issaquah-Pine Lake to Seatac Bus that connects from Issaquah P&R to South Bellevue P&R More bus lines from Seattle downtown to Fremont district Bus service in Sammamish Plateau during non commuting times	11/11/2014 1:30 PM
2217	5th and Jefferson to 710 9th Ave. Would like to go to the U-District from Capitol Hill by light rail.	11/11/2014 1:30 PM
2218	FHCRC (Fairview Ave. or Eastlake Ave.) to UW Medical Center/Husky Stadium	11/11/2014 1:27 PM
2219	Better/easier/faster connections from Capitol Hill to Fremont, Wallingford, and Ballard	11/11/2014 1:24 PM
2220	Between home and work. 10560 41st PI NE Seattle, WA 98125 and 1000 2nd Avenue, Seattle, WA 98104. I would like there to be later Route 64s to downtown and back.	11/11/2014 1:24 PM
2221	Downtown, Capitol Hill, University of Washington. I would like to be able to get to Fremont/Ballard more efficiently.	11/11/2014 1:11 PM
2222	I live on Capitol Hill, and generally go downtown (good bus service), to the U-District (good bus service), to West Seattle - 5645 21st Ave SW (takes a long time), and to central Ballard/Market Street area (takes awhile).	11/11/2014 1:09 PM
2223	Downtown seattle. I'd like to easier get to get transit to Issaquah Highlands and redmond.	11/11/2014 1:02 PM
2224	To work and home (Auburn WA), the grocery store	11/11/2014 12:53 PM
2225	Roundtrip from West Seattle to Downtown Seattle. Also from West Seattle to SouthLake Union and Eastlake neighborhoods.	11/11/2014 12:40 PM
2226	Kent East Hill to U District	11/11/2014 12:37 PM
2227	Downtown	11/11/2014 12:31 PM
2228	Downtown, Fremont, Ballard, University District, Airport, West Seattle, Capitol Hill, Central District. Would like to have more cross-town routes/busses; more route that go on diagonal routes across the city (i.e. Fremont to Capitol Hill).	11/11/2014 12:26 PM
2229	I go downtown for work and occasionally Ballard to visit friends. I live in the Central District. I would love to be able to go to Capitol Hill from downtown and the Central District. Or be able to go directly to the Central District from Ballard without having to transfer downtown.	11/11/2014 12:18 PM
2230	Seattle central college, downtown corridor (work), UW campus, U-district (home)	11/11/2014 12:14 PM
2231	TOPS school (Boylston & Roanoke) to downtown Seattle (9th and Stewart)	11/11/2014 12:08 PM
2232	Bear creek park and ride to 8th and virgina downtown to u district like to go downtown to capital hill	11/11/2014 12:06 PM
2233	- 1201 Third Avenue (Downtown) - Montlake Freeway Station area - University District (43rd/University Wy) - Broadway/John - Houghton Center (68th NE/6th S, Kirkland)	11/11/2014 11:57 AM
2234	Greenlake, Downtown, Stadiums, Seattle Center, Beaches, Parks, Waterfront, Pike Place Market, Olympic National Park	11/11/2014 11:53 AM
2235	To the Seattle CBD.	11/11/2014 11:50 AM
2236	I currently get off Light Rail at Westlake Station, and ride the bus up the hill to Seattle Central College. Then in the evening I go down the hill to Westlake again. The buses are typically very full with students, so I have been looking at alternative ways of getting to the college. I believe there is a bus that goes from the Sodo Station to the Convention Center station, which would avoid the crowded, standing room only bus from downtown, then I could walk the rest of the way.	11/11/2014 11:46 AM
2237	from Wallingford to downtown seattle to First hill. From Lower queen anne (pacific Science Center) to Downtown seattle 3rd and Pike to First hill (harborview hospital) From First hill (Virginia Mason hospital to lower queen anne (1st and Queen anne Ave). *Bay street and Denny way would be a convenient stop.	11/11/2014 11:43 AM
2238	1100 2nd Ave, 98101 1400 E Mercer St, 98112 12th & Pike	11/11/2014 11:42 AM
2239	Seattle Central College; Gold Gym (Republican & Broadway);	11/11/2014 11:36 AM
2240	I currently go to Madrona, Rainier Valley, and Downtown.	11/11/2014 11:28 AM
2241	Downtown (Macy's, Pike place market), Seneca &Minor, Madison & Boren, yesler comm center, university & 45th, 23rd & Olive (YMCA).	11/11/2014 11:27 AM
2242	Volunteer Park West Seattle Renton Highlands Burien	11/11/2014 11:23 AM

2243	Capitol Hill U District, airport Shore line.	11/11/2014 11:21 AM
2244	Cal Anderson Park Space Needle Columbia City Light Rail Station	11/11/2014 11:20 AM
2245	from Montlake to downtown Seattle. I would like to go from Montlake to the Eastside-Bellevue/Redmond	11/11/2014 11:18 AM
2246	To the Seattle CBD.	11/11/2014 11:11 AM
2247	Downtown Seattle. Wish a bus went to my parent's house at 19506 75th Ave NE Kenmore,WA.	11/11/2014 11:10 AM
2248	I currently travel between Capitol Hill, South Lake Union, Downtown, Pioneer Square, and the U District. The bus I use most often, the 8, is majority of the time too full in the mornings, and so often passes stops by making it not dependable as a method for transportation when I have time constraints. This happens in the major commute times in the morning and the afternoon. I would like to be able to more conveniently go from Capitol Hill to Fremont/Ballard.	11/11/2014 11:03 AM
2249	I currently do a lot of downtown/Capitol Hill/U District, partly because that's easy so I've found shops and parks in these neighborhoods. I'd like to get to Fremont and Ballard more easily, as I have friends there, but the crosstown connections are tiring on a cold wet day. Getting to the Seattle Center/SLU from Broadway is also less predictable than I'd like it to be.	11/11/2014 10:53 AM
2250	Pike and 4th.	11/11/2014 10:53 AM
2251	I go to Magnuson park, Ravenna, Ballard, east queen Anne, downtown, south lake union, north gate, lake city way. I would like better access to the light rail, to the airport, to southseattle like beacon hill, Columbia city, burien.	11/11/2014 10:35 AM
2252	Everett Transit Center to first Seattle Stop - Stewart St and Yale, then Last Seattle Stop - 9th and Howell or Olive and Terry to Everett Transit Center	11/11/2014 10:27 AM
2253	Sammamish Hills Park & Ride Rainier Frwy Station University Station	11/11/2014 10:24 AM
2254	Roosevelt, Capitol Hill, Downtown, Columbia City, Fremont, Ballard, U-District	11/11/2014 10:20 AM
2255	No needs right now. Live on Capitol Hill by 15th and Galer. Would love for the #10 to connect to the future Broadway & John Capitol Hill LINK stop.	11/11/2014 10:10 AM
2256	I currently go from the greenlake area to down town seattle, or the university district to down town seattle. I would like to be able to get to West Seattle and Ballard easier	11/11/2014 10:09 AM
2257	Capitol Hill to Downtown Seattle Downtown Seattle to Westwood Village When Northgate phase is complete will use to go from Capitol Hill to Northgate.	11/11/2014 10:06 AM
2258	Most frequently - Broadway and Olive to Denny and 1st Also from Capitol Hill to Overlake Transit Center or to 36th and Raymond in West Seattle.	11/11/2014 10:06 AM
2259	I commute from Tacoma to Seattle M-F	11/11/2014 9:56 AM
2260	I currently take the bus from Kirkland (Houghton) to Fremont; from Fremont to Seattle University; and from Seattle U to Kirkland or from Fremont to Kirkland (these all involve two different buses).	11/11/2014 9:50 AM
2261	downtown, capital hill, South Lake Union, International District	11/11/2014 9:46 AM
2262	North Greenwood/Broadview (105th and Greenwood) to downtown, Fremont, Ballard and Ravenna Downtown to Ravenna Ravenna to North Greenwood - I would if I could, but the number of transfers make Car2Go much more appealing even though it costs more Downtown to Capitol Hill (usually by foot) Downtown to Rainier Valley (Rainier and Walden) and back North Greenwood to SeaTac airport and back	11/11/2014 9:32 AM
2263	My primary trip is between my home near Volunteer Park to my job downtown near the Convention Center. Places that I would like to go more easily on transit: International District, West Seattle, Ballard	11/11/2014 9:25 AM
2264	airport, downtown, more east/west routes in the north end	11/11/2014 9:16 AM
2265	UW Bellevue	11/11/2014 9:10 AM
2266	Currently from 65th street to Denny Way on Rapid Ride E Would like express from Shoreline to downtown - like the old 377	11/11/2014 9:08 AM
2267	Downtown, Capital Hill, Ballard, airport	11/11/2014 9:05 AM
2268	I use transit primarily to and from work. I would much rather use transit to get downtown and back on the weekends, as well as to and from Pioneer Square / CenturyLink field. I would LOVE to take transit to the airport.	11/11/2014 9:04 AM

2269	7400 Sand Point way during standard commuting hours	11/11/2014 9:02 AM
2270	1616 Eastlake Ave E	11/11/2014 8:52 AM
2271	Swedish Hospital, 2nd and Spring, Madison and Boren, 45th and Fremont, airport, train station	11/11/2014 8:41 AM
2272	I would like more crosstown connections. On the NW side, there are crosstown buses on 85th and Market, but nothing in between for ~2 miles. A 65th from end to end (diverting n or south around GL) bus would be great. It would increase access to the new Link stop in Roosevelt. Increasing feeder routes to LINK should be a priority. After Link opens in Roosevelt, the 64 and 76 continuing downtown doesn't any sense divert one of them to N65th and NW 65th.	11/11/2014 8:37 AM
2273	seattle to udist for fun Tacoma to seattle for work	11/11/2014 8:27 AM
2274	I go from 125th NE & 15th Ave NE to DT Seattle. I would like to go from 125 NE & 15th Ave NE to South Lake Union (ie, Fred Hutchinson).	11/11/2014 8:06 AM
2275	Currently: Rainier & Holly on the 7 and 9 bus routes Broadway & Columbia on the 7 and 9 bus routes Link Light Rail from Seatac Airport to Westlake Would like to go: Link Light Rail to U District, Mercer Island, Bellevue, South Center, Renton Landing, Queen Anne (hardest neighborhood to get to/from in Seattle)	11/11/2014 8:06 AM
2276	Seattle Children's Hospital, Downtown Seattle, Capitol Hill	11/11/2014 7:56 AM
2277	Virginia Mason Hospital Benaroya Hall Pike Place Market Pacific Place Town Hall Seattle Center Seattle Public Library 1101 Madison SeaTac Airport	11/11/2014 7:49 AM
2278	Downtown University Village	11/11/2014 7:49 AM
2279	- Capitol Hill to/from the Eastside - SLU to/from Eastside - Downtown/First Hill/Capitol Hill (North Broadway area)	11/11/2014 7:44 AM
2280	UW Medical Center U Village Downtown Ballard Northwest Hospital	11/11/2014 7:08 AM
2281	2nd And Marion, 12th and Pike, NE 65th St and 29th Ave NE	11/10/2014 11:20 PM
2282	City target, amazon hq	11/10/2014 10:25 PM
2283	Northgate P&R U District seattle downtown Capitol Hill Eastgate P&R Bellevue downtown International District belltown	11/10/2014 10:24 PM
2284	40th St NE and 2nd Ave NE to 3rd and Union and back Keystone and N 51st to 3rd and Union and back	11/10/2014 9:16 PM
2285	Between Capitol Hill and the VA hospital in Beacon Hill.	11/10/2014 9:05 PM
2286	Live in Capitol Hill, work Downtown. Hang out and/or shop in (roughly in order of time spent) Ballard, Wallingford, U District, Fremont, Columbia City, West Seattle, Northgate.	11/10/2014 8:21 PM
2287	To/from Lynnwood Transit Center. I would like to more easily be able to get from South Lake Union (i.e Fred Hutchinson) to downtown Seattle.	11/10/2014 8:15 PM
2288	I ride the bus to work everyday either using the 8 or 43 (going from Cap Hill to Belltown). Sometimes I take the bus to Ballard from Cap Hill. I would like to have a direct bus route to U Village from Cap Hill	11/10/2014 8:14 PM
2289	Greenwood to the University of Washington University of Washington to Downtown Greenwood to Bellevue Greenwood to SeaTac Airport Greenwood to Central District	11/10/2014 8:08 PM
2290	Downtown and the U district from Capitol Hill	11/10/2014 7:28 PM
2291	Seatac airport 8th & Virginia (downtown Seattle) 17th Ave NE & NE 75th St	11/10/2014 7:24 PM
2292	Currently go from 95th and Lake City Way to 6th and Union. Return trip is 4th and University to 95th and LCW. When Link Rail is at Husky Stadium would like to go from 105th and Sand Point Way or 35th NE and 105th to UW Link Rail Station.	11/10/2014 7:17 PM
2293	Seattle Central College (Pine and Broadway)	11/10/2014 7:16 PM
2294	University District, Downtown, Northgate, Puyallup, Tacoma, Ballard, First Hill, Capitol Hill, International District	11/10/2014 6:53 PM
2295	Seneca & 3rd, downtown Seattle Wallingford & 45th, wallingford Seattle Everett transit on Smith Ave 45th & 9th, u-district Seattle Pine & Broadway, capitol hill Seattle 2026 S 308th St, Federal Way Downtown Tacoma to Downtown Everett Western and Virginia, downtown Seattle	11/10/2014 6:50 PM

2296	home to work and back. Queen Anne hill is home and work is the University of Washington. Please bring back the 45 route. Since that was cancelled, I have to drive to work because the transfers are not efficient.	11/10/2014 6:29 PM
2297	I would like to be able to go to the University Village by bus, which is out of the way in capitol hill.	11/10/2014 6:24 PM
2298	University Way and 41st University Way and 43rd University Way and 45th	11/10/2014 6:16 PM
2299	Currently go from Central District to Downtown. I would like to travel more easily from Central District to Ballard/Fremont/North Queen Anne.	11/10/2014 6:09 PM
2300	I'd like to be able to get good bus access to N Beacon Hill ... Specifically Pac Med Tower	11/10/2014 6:01 PM
2301	From Rainier & Dearborn to Capitol Hill on the weekends and evenings!	11/10/2014 5:58 PM
2302	I can't wait to get downtown from UW in 6 minutes! The places I currently go using transit: UDistrict, Downtown, the airport. Places I would like to go, but they suffer from terrible service: Greenwood, Fremont, Wallingford, Ballard, Columbia City, Seward Park.	11/10/2014 5:56 PM
2303	I would like to go directly east on NE 45th St viaduct from U District to Laurelhurst without having to go through the UW campus.	11/10/2014 5:44 PM
2304	I would like to be able to get across town, i.e. Ballard (via 15th and Interbay) to Capitol Hill (Pike/Pine corridor) without changing buses. Currently the 32 gets very crowded during weekday afternoons. More frequent buses would be appreciated.	11/10/2014 5:43 PM
2305	From Ravenna to downtown Seattle From Ballard to Ravenna	11/10/2014 5:31 PM
2306	I currently go from Leschi to downtown. It would be great to have a station in Madrona/Madison Valley	11/10/2014 5:30 PM
2307	Fremont, Ballard, Downtown, and UW. No specific addresses because I go all over the place.	11/10/2014 5:25 PM
2308	bellevue city hall, u village, the ave u district, pike/pine & broadway, fremont brewing, naked city, smarty pants (georgetown), chucks cd, chucks 85th, northgate mall, westlake mall, seatac airport, shilshole marina, my house (cherry & MLK)	11/10/2014 5:22 PM
2309	West end of Mercer Street & Seattle Childrens Hospital	11/10/2014 5:10 PM
2310	Madison Valley to Downtown	11/10/2014 5:10 PM
2311	Capitol Hill , Madison Park, Lakewood and Seward Park	11/10/2014 5:08 PM
2312	901 5th Ave, Seattle SeaTac Airport University Village Melrose & Denny	11/10/2014 5:03 PM
2313	Seattle Children's Hospital, downtown, SeaTac, Greenwood, Ballard, Columbia City	11/10/2014 5:02 PM
2314	First Hill Swedish Hospital, Rainier Ave So, Renton landing	11/10/2014 4:59 PM
2315	Currently I go to work at 7th and Union on public transit. I use Car2Go when I need to get to the WeWork offices that are in Southlake Union. I would like to see a transit system that would go from 15th and Pine down to 500 Yale Ave N, Seattle, WA 98109.	11/10/2014 4:53 PM
2316	I usually take transit between Cap Hill and Queen Anne, Downtown, and the U District. Most other cases, I drive or uber. Easy connection between Capital Hill and Ballard/Fremont would be ideal.	11/10/2014 4:52 PM
2317	Would like to go from: Lower Queen Anne to Cal Anderson Park area with ease	11/10/2014 4:50 PM
2318	home (belltown) to work (SLU) home (belltown) to downtown / seatac / capitol hill	11/10/2014 4:47 PM
2319	Home Pacific Science Center Downtown Ballard U District Georgetown	11/10/2014 4:45 PM
2320	I commute from 20th and Lake City Way to the starbucks center in SODO everyday. I would LOVE a more efficient way to get there. I would also love a better connection to the neighborhoods west of us, like Ballard, Fremont, or Greenwood.	11/10/2014 4:34 PM
2321	Ballard, Queen Anne, Sea-Tac!!!	11/10/2014 4:34 PM
2322	Seattle Center University District Downtown Seattle Green Lake area Group Health on Capitol Hill Northeast branch of Seattle Public Library I'd like to be able to take the number 25 directly to the University District (University Bookstore, Bartells) via the viaduct by University Village rather than going through the UW, where it duplicates other routes serving the campus.	11/10/2014 4:31 PM

2323	Found trip from Seattle Street and California in West Seattle, to University of Washington Health Sciences Buildings. Also, once per week, round trip from Seattle St and California in West Seattle to FHCRC on 1100 Fairview Ave.	11/10/2014 4:28 PM
2324	#2 is my main bus. It takes me from 18th & Union to Town Hall, Benaroya, and Seattle Center. It also takes me to the Link Light rail University Station. #43 takes me to the University #8 takes me to REI and Seattle Center	11/10/2014 4:26 PM
2325	U village, U district (the ave), Wedgwood, N wedgwood, downtown Seattle, downtown retail district, Colman dock, Safeco field/centurylink field, Amtrak king street station	11/10/2014 4:25 PM
2326	Capitol Hill (home) ----> U-district (work) Capitol Hill (home) ----> Sea-Tac (airport) Capitol Hill (home) ----> Ballard (fun)	11/10/2014 4:23 PM
2327	Seattle Municipal Tower Safeco Century Link Husky Stadium Downtown Seattle West Seattle - Highpoint, Alaska Junction	11/10/2014 4:17 PM
2328	Currently - Capitol Hill, Downtown, UW, Would like to go - Gas Works Park, Alki, Bellevue, Ikea	11/10/2014 4:09 PM
2329	downtown seattle, university district, ballard, northgate,south park,georgetown,airport	11/10/2014 4:05 PM
2330	Northgate Transit Center to downtown, and also to 2100 24th Ave. S Also from 2100 24th Ave. S to Downtown, which takes a long time on the 7.	11/10/2014 4:04 PM
2331	From Eastlake to downtown. Being carless, it is difficult to get around on the weekends or home. I have lived in larger cities where public transportation was much easier (Los Angeles, Chicago).	11/10/2014 4:01 PM
2332	I go from Northgate to downtown Seattle Mondays-Fridays for work and get home after I am done with my 9-5. From downtown Seattle, I also often take the bus to Queen Anne, Capitol Hill or Belltown for afterwork activities.	11/10/2014 4:01 PM
2333	I would like to start taking the bus from NE Seattle along 25th Ave NE to Bellevue Transit Center again, for work. I used to ride the Metro 243 bus to work until it was discontinued in September 2014.	11/10/2014 3:57 PM
2334	Lake City way & 125th st, Boren & Madison, 4th & Madison, 2nd & Marian, WA State Convention Center, Seattle Waterfront/Pike Place Market	11/10/2014 3:53 PM
2335	Green Lake, Downtown, Capital Hill	11/10/2014 3:51 PM
2336	Eastlake Ave E and E Lynn St 50th Ave S and S Dawson St Rainier Ave S and S Edmunds St	11/10/2014 3:48 PM
2337	I currently go: Between Fremont and Sand Point, Sand Point and downtown, Sand Point and Capitol Hill (12th and Pine area), Fremont and Capitol Hill, Fremont and Wallingford, Fremont and Ballard, Fremont and downtown, Fremont and Seattle Center. I would like to be able to go more easily and quickly on transit between Fremont and Capitol Hill, Fremont and Queen Anne, Fremont and West Seattle.	11/10/2014 3:47 PM
2338	Pioneer Square, University District,	11/10/2014 3:45 PM
2339	Currently travel from West Seattle Alaska/California junction to UW Medical Center Would LOVE it if there was a direct route from near West Seattle junction to near the UWMC. As often as the C line comes, it is still almost always standing room only, which is becoming a deterrent. This will be more of a problem as all the new high-rise apartment buildings become available for rent (several are under construction at present) Would love to be able to take light rail from West Seattle to the airport. I have done it by transferring downtown but that was very inconvenient and I won't likely do it again.	11/10/2014 3:44 PM
2340	I go all over the county on metro. I go from capitol hill to the DT/SODO/Northgate/Greenlake/LCW/Shoreline/Rainier valley/Bellevue/Lynnwood/SEATAC I would like to be able to get to West Seattle/Bothell-Chateau ST Michelle	11/10/2014 3:37 PM
2341	Northgate, Belltown	11/10/2014 3:31 PM
2342	Work: University of Washington Medical Center Other: Downtown Seattle, Ballard, Wallingford, Lynnwood, Edmonds.	11/10/2014 3:25 PM
2343	Airport, University of Washington Medical Center, Harborview Medical Center, Downtown, Ballard	11/10/2014 3:23 PM
2344	Between Capitol Hill and: -Fremont -Ballard -Georgetown -Beacon Hill -Downtown -U District -Shoreline - Lynnwood -Marysville -Bellevue -Redmond	11/10/2014 3:20 PM
2345	EMP Museum, downtown	11/10/2014 3:16 PM
2346	Currently: 15th Ave E corridor, downtown, U District, Maple Leaf, Interbay, Bellevue. Would like: Green Lake, Fremont Center, Wallingford, Gilman Dr W, Golden Gardens Park.	11/10/2014 3:11 PM

2347	I would like to travel from Queen Anne to Capitol Hill after midnight. I would also like to travel between Capitol Hill and Georgetown without a transfer. An express light rail car from Westlake to the Airport would be amazing.	11/10/2014 3:00 PM
2348	Work (Bellevue Transit Center), Home (Capitol Hill), Downtown Seattle, SeaTac Airport, Seattle Center	11/10/2014 2:57 PM
2349	Downtown to Lake Forest Park or Mountlake Terrace	11/10/2014 2:56 PM
2350	Northgate P&R and downtown transit tunnel. FYI - 41 is not listed in question 2.	11/10/2014 2:55 PM
2351	Bellevue, UW, Northgate, Downtown Seattle	11/10/2014 2:55 PM
2352	Everywhere	11/10/2014 2:53 PM
2353	Downtown seattle from Capitol Hill and first hill, also first hill to university dist.	11/10/2014 2:51 PM
2354	Currently going to: Downtown (First and Seneca) Sand Point (Sandpoint Way NE & 74th) U-District (the Ave) Would like faster and more frequent transit to the above locations, plus: Lynnwood- would like better connection between CommTrans and Metro Roosevelt/Ravenna- a bus that goes from Sand Point Way up to 65th Ballard- a fast route from downtown Ballard to Sand Point Way, preferably not snaking through the entire U-District Fremont- a fast route from Sand Point to Fremont, preferably not snaking through the entire U-District Capitol Hill- a route that goes from Sand Point to Capitol Hill via the Montlake Bridge	11/10/2014 2:49 PM
2355	I go to work on public transit.	11/10/2014 2:47 PM
2356	International District / Leschi / Judkins Park area	11/10/2014 2:47 PM
2357	Downtown Seattle Shopping District Issaquah highlands Quicker service to REnton or Kent would be nice First Hill/Capitol Hill	11/10/2014 2:45 PM
2358	Union Station 511 East Roy Street, Seattle, WA 98102	11/10/2014 2:42 PM
2359	I currently go to work at 5th and Denny, and get home to 12th and Denny. I also go to Magnuson Dog Park and to Pike Place Market and the Downtown Target regularly.	11/10/2014 2:38 PM
2360	Seattle Airport	11/10/2014 2:34 PM
2361	14812, Main Street, Bellevue WA 98007 University of Washington, Seattle, WA Renton Highlands, Renton, WA	11/10/2014 2:31 PM
2362	35th Ave NE & NE 65th St to 5th Ave & Pike St Downtown Seattle Tunnel Pioneer Square Station to 40th Ave NE & NE 65th St	11/10/2014 2:27 PM
2363	Seattle - Tacoma For a light rail or sounder train to go from Tacoma Dome to Downtown Seattle (Westlake area)	11/10/2014 2:23 PM
2364	I live on Queen Anne, so most of those routes are my main bus routes. Something from downtown Seattle to the Puyallup fairgrounds that runs at night so you could stay for a concert.	11/10/2014 2:19 PM
2365	Greenlake - Aurora and 76th street Greenlake Drive opposite Zeek's Pizza	11/10/2014 2:18 PM
2366	I go to work at Seattle Central, to my son's daycare at Rainier and Genesee, and home to Beacon Hill on transit daily. I also like to take transit to downtown Seattle, to the stadiums. to the ID, to Columbia City, and to the airport.	11/10/2014 2:16 PM
2367	Between Burien and Downtown Seattle.	11/10/2014 2:16 PM
2368	Increased access/ more reliable access from north seattle to downtown (everett, Lake Stevens)	11/10/2014 2:14 PM
2369	Downtown, the stadiums,	11/10/2014 2:14 PM
2370	Union Street Downtown Seattle	11/10/2014 2:11 PM
2371	Currently go: Between Capitol Hill and downtown, Seattle Center, the International District, SeaTac Airport Where I would *like* to be able to go on transit: between E Pine & 12th-15th and McCaw Hall without a transfer or a scary walk in the dark at night, along 12th Ave E between Cherry and E John, between Capitol Hill and Redmond without a transfer	11/10/2014 2:09 PM
2372	To Downtown from Northgate Transit Center or 100th and 15 Ave Ne	11/10/2014 2:09 PM
2373	Link to Seatac	11/10/2014 2:05 PM
2374	Maple Leaf to Downtown & back	11/10/2014 2:05 PM
2375	Capitol Hill/Broadway 500 Wall St. Green Lake (Would like) 317 Marion St	11/10/2014 2:04 PM

2376	SEATAC, various areas of Seattle (Capitol Hill, Belltown, First Hill, Queen Anne, etc.). It is challenging to go east from the Pike area (via walking or biking, due to hills). Connecting the light rail would be great.	11/10/2014 2:04 PM
2377	Currently go from Capitol Hill to Downtown and back.	11/10/2014 2:04 PM
2378	First Hill Downtown Lake City University District Queen Anne	11/10/2014 2:02 PM
2379	23rd and East Union, Seattle, WA and Broadway and Pine Streets	11/10/2014 2:02 PM
2380	Seattle Central College University of Washington International District Downtown Seattle, West Seattle, Bellevue, Federal Way South Center Seattle-Tacoma Airport Bremerton	11/10/2014 2:01 PM
2381	Northgate Transit Center to First Hill (Harborview Medical Center) Northgate Transit Center to Downtown Seattle (roundtrip) Northgate Transit Center to University District (45th & Roosevelt) Northgate Transit Center to University District (University of Washington Medical Center/HUB)	11/10/2014 2:01 PM
2382	Downtown, First Hill	11/10/2014 2:01 PM
2383	I bus daily back and forth from Capitol Hill to View Ridge area. I bus from downtown to Capitol Hill. From Capitol Hill to the U-District. Bus from Capitol Hill to West Seattle. From Capitol Hill to Madison Park. From Capitol Hill to Green Lake . From Capitol Hill to Phinney area.	11/10/2014 2:00 PM
2384	From home (1526 3rd Ave, in Seattle) to Work (1801 Broadway. Roundtrip From home to Pike Market Clinic 1930 Post Alley. Roundtrip From Home to Bartell's and Metropolitan Market at 101 Mercer Way. Roundtrip. From Home to 2820 Northup Way. Roundtrip,	11/10/2014 2:00 PM
2385	Current: Ballard, Capitol Hill, U-District, Sea-Tac Future: Same as above plus Georgetown, Sodo, Beacon Hill, Seward Park, Crown Hill, North Ballard, Greenlake, Greenwood, Fremont. Westlake, Eastlake, Pioneer Square, West Seattle, South Park.	11/10/2014 1:59 PM
2386	Seattle Central College Pac Med building Pike Place Market CenturyLink stadium MOHAI Amazon campus	11/10/2014 1:58 PM
2387	Green Lake Park; SeaTac airport; downtown (for link light rail connection or to other destinations including 2nd&Madison or 3rd&Pine)	11/10/2014 1:57 PM
2388	I take Metro #9X along Rainier Ave and Cloverdale	11/10/2014 1:57 PM
2389	- From Meadowbrook (110th and 31st Ave NE) to downtown/Denny Triangle (Virginia and 8th) & back - From Ravenna park & ride at 65th & I-5 to downtown/Denny Triangle (Virginia and 8th) & back	11/10/2014 1:56 PM
2390	Dexter Ave and Denny Way, and 85th St. and Greenlake.	11/10/2014 1:54 PM
2391	Pike Place Market	11/10/2014 1:50 PM
2392	I take Bus #9X on Rainer Aver corner Cloverdale streets	11/10/2014 1:49 PM
2393	Woodinville, @ 195th st	11/10/2014 1:48 PM
2394	Columbia City/ Rainier Vista Neighborhood Seattle University Capitol Hill/ Pike Pine Business District Belltown Neighborhood N. 50th & Meridian Ave N. (Good Shepard Center)	11/10/2014 1:42 PM
2395	Would like better service between N. Capitol Hill & Garfield for the many students who currently have to make the long walk to 23d or make early morning transfers. Would like faster east-west transit between Capitol Hill and Seattle Center area (currently faster to walk or bike) I currently use transit between N. Capitol Hill to downtown and U Dist.	11/10/2014 1:38 PM
2396	Capitol hill (broadway and john) - Downtown (3rd and columbia) - U District - Ballard - Wallingford	11/10/2014 1:37 PM
2397	For work, I commute from Capitol Hill to SoDo (1st Ave S and Utah Ave S). I have to take 3 buses to get there (including work shuttle), my in-city commute takes me more than an hour door-to-door. If I don't take the shuttle, I have to walk 15 minutes from the Light Rail Stadium Station. I'd like to see a SB bus from downtown/Capitol Hill to SoDo running down 1st Ave S.	11/10/2014 1:37 PM
2398	I go to currently: Capitol Hill, Thomas & Boylston (home) University District, 43rd & Roosevelt (work) Downtown (shopping, dining, recreation) SODO (stadiums) Lower Queen Anne (McCaw Hall et al) Some connections from Capitol Hill could be improved. Difficult to get to SODO, Fremont, Green Lake, Ballard at most times of day.	11/10/2014 1:37 PM
2399	I travel to work in Downtown Seattle (Pioneer Square) from Overlake Transit Center	11/10/2014 1:37 PM
2400	522 N 85th ST UW Tower UW Main Campus Seattle Central College Youngstown Cultural Arts Center 674 S Orcas St	11/10/2014 1:34 PM

2401	From Tacoma Dome Station to Downtown Seattle (7 + Pike) I would like to be able to go to the northend of Seattle on occassion and would use the light rail.	11/10/2014 1:34 PM
2402	I currently go most often to my job downtown, at 1st and Spring. I also frequently bus to/from the U District, Greenlake, and Lower Queen Anne.	11/10/2014 1:27 PM
2403	I currently go: Seattle Central College, Downtown, Stadium District and airport.	11/10/2014 1:25 PM
2404	Magnolia, Ballard, Greenlake, UW District, Roosevelt Neighborhood, Capitol Hill, First Hill, Downtown, Queen Anne, Pioneer Square, and West Seattle. I visit all of those neighborhoods frequently and in a variety of locations.	11/10/2014 1:23 PM
2405	125th & 15th Northgate transit center Greenlakw park and ride	11/10/2014 1:23 PM
2406	Seattle-->Bellevue and back, would LOVE a direct Light Rail train for this obviously very popular route.	11/10/2014 1:21 PM
2407	I travel daily to Magnuson Park in NE Seattle at Sand Point Way and 74th Street. I also travel to Capitol Hill- along Broadway and down Olive Way.	11/10/2014 1:17 PM
2408	West Seattle - 16th & Myrtle	11/10/2014 1:17 PM
2409	I go from Northeast Seattle (Sand Point) to Queen Anne (SPU) and Downtown (Seattle Central College)	11/10/2014 1:15 PM
2410	West Seattle - near South Seattle College, Capitol Hill - Seattle Central College, White Center, Burien, Downtown Seattle	11/10/2014 1:14 PM
2411	Commute between work and home. If there were more direct routes between capitol hill and ballard for example than I would use it for normal getting around town.	11/10/2014 1:12 PM
2412	Downtown (bus transfer usually at 3rd and Pine) to/from the U district (the Ave & 45th)	11/10/2014 1:08 PM
2413	University Bookstore, Uwajimaya, downtown retail core, Madison Park.	11/10/2014 1:07 PM
2414	Where I Currently Go: Capitol Hill->U District Where I Would Like To Go: Capitol Hill -> Georgetown	11/10/2014 1:05 PM
2415	I work at Overlake and live on Capitol Hill. Otherwise: Downtown, U-District, Fremont, Ballard, Queen Anne, Georgetown, and other Seattle neighborhoods.	11/10/2014 1:03 PM
2416	Airport, Work (Brooklyn and NE 45th), Home (10th and Republican), Ferry Terminal, Downtown, REI, Seattle Center,	11/10/2014 1:01 PM
2417	VA Puget Sound Seattle, Green River Community College in Auburn are my two main destinations.	11/10/2014 1:01 PM
2418	downtown university area west seattle-admiral area	11/10/2014 1:00 PM
2419	7525 SE 24th Street, Mercer Island, WA Downtown Seattle	11/10/2014 1:00 PM
2420	Currently: airport, downtown, UW, Ballard, Queen Anne, First Hill (Swedish - work) Would like: faster connection between Capitol Hill and Ballard.	11/10/2014 12:59 PM
2421	Pike Place, Seattle Public Library, Seattle Central Community College, all businesses on Broadway, the Ave, and Roosevelt way.	11/10/2014 12:56 PM
2422	Currently use metro bus to go from Eastlake to Capitol hill/First hill. Would like to go from Capitol Hill/Eastlake/University area to Ballard/Fremont	11/10/2014 12:53 PM
2423	I usually take the 41 to Convention Place Station.	11/10/2014 12:52 PM
2424	Capitol Hill (home), Downtown, International District, Belltown (work)	11/10/2014 12:51 PM
2425	Downtown, Lake City. Pinehurst, Everywhere	11/10/2014 12:50 PM
2426	I currently commute between 77th & Lake City way to the Columbia Tower downtown.	11/10/2014 12:50 PM
2427	12th Ave E & E Harrison 15th Ave E & E Harrison 12th Ave E & E John 12th Ave & E Pine St 1st Ave S & Yesler Wy 1st Ave S & S Main 1st Ave S & S King	11/10/2014 12:49 PM
2428	Currently go from Green Lake to Lower Queen Anne and Green Lake down to the stadiums Would like to be able to go from Green Lake to Capitol Hill	11/10/2014 12:46 PM
2429	I would like a continuous bus link between U-Village/Children's and the new Husky Stadium light rail station.	11/10/2014 12:41 PM
2430	Ballard High School, University of Washington Seattle Campus, Downtown Seattle, SeaTac Airport, Northgate Mall, Tacoma Dome, University of Washington Bothell Campus, Lake City Fred Meyer, West Seattle Junction	11/10/2014 12:38 PM

2431	999 Third Avenue, Seattle, WA 98104	11/10/2014 12:36 PM
2432	U-District Capitol Hill Downtown Seattle Lynnwood	11/10/2014 12:36 PM
2433	Downtown UW Pioneer Square	11/10/2014 12:34 PM
2434	I currently commute from Kent Station to Seattle Central College. I would like an easier way to get from the King Street Station to SCC. I would also like it if it were easier to use transit to get to and from the stadiums for games.	11/10/2014 12:32 PM
2435	I would like to be able to get easily from Northgate to the VA on Beacon Hill. Looking forward to using the light rail to get from Northgate downtown in a few years.	11/10/2014 12:30 PM
2436	Currently go: Miller Playfield, Burien TC, Seattle Library, Green Lake, Seattle Center (Memorial Stadium), Century Link Stadium, Madrona Grocery Outlet.	11/10/2014 12:24 PM
2437	Everett, WA Park and Rides: Mountlake Terrace, Lynnwood, Ash Way, Mariner, South Everett Freeway Station, Everett Station Downtown Seattle: 5th & Marion	11/10/2014 12:24 PM
2438	West Seattle to Downtown; West Seattle to Central District	11/10/2014 12:24 PM
2439	I travel between downtown and capital hill several times a day. The bus service is generally great, whether I head up pike, Madison, or Seneca/union.	11/10/2014 12:23 PM
2440	I would like to be able to more easily travel from Lake City to Aurora Boulevard.	11/10/2014 12:23 PM
2441	Northgate, Queen Anne, Belltown, University District, Greenlake, Shoreline, Stadiums, Train station	11/10/2014 12:22 PM
2442	From E. Olive St and 23rd Ave to 15th Ave NE and NE Campus Parkway (this is my daily commute on the 48). I also use the 11 occasionally to get to meetings and events downtown).	11/10/2014 12:17 PM
2443	Currently: University of Washington Would like to go: More direct routing between Renton and the University of Washington/Downtown Seattle	11/10/2014 12:15 PM
2444	Link Light Rail Town Hall Downtown retail core Benaroyal Hall Seattle Center	11/10/2014 12:13 PM
2445	Seattle Central CC University Street Tunnel Station Tacoma Dome Station Rainier Ave Freeway Station	11/10/2014 12:11 PM
2446	airport	11/10/2014 12:11 PM
2447	West Seattle, White Center, Delridge, Westwood, Capitol Hill, Downtown Seattle	11/10/2014 12:10 PM
2448	Currently go: UWMC, HMC, SCCA Like to go more easily: SCCA, airport	11/10/2014 12:10 PM
2449	- capitol hill, near 12th and madison - seaward park, near 50th	11/10/2014 12:09 PM
2450	Wallingford, the U-district, Capitol Hill, Ballard, Ravenna, Maple leaf, Downtown	11/10/2014 12:05 PM
2451	Currently: Kitsap County, Ballard/Fremont, Downtown Like to go: University Village, top of Queen Anne, more access to Capitol Hill	11/10/2014 12:04 PM
2452	Downtown Seattle to the NOAA campus on Sand Point Way NE.	11/10/2014 12:04 PM
2453	I currently go downtown. I would like to go to ballard.	11/10/2014 11:59 AM
2454	10th & Newton to Seattle Central College. I'd like to have a stop at the new Capitol Hill station.	11/10/2014 11:59 AM
2455	Downtown seattle, Capitol Hill, Bellevue	11/10/2014 11:59 AM
2456	From S. Capitol Hill (15th & Union) to Admiral District in West Seattle (50th & Waite) From S. Capitol Hill (15th & Union) to Crown Hill (1811 NW 95th St, Seattle) From S. Capitol Hill (15th & Union) to University District (15th NE & NE 45th) From S. Capitol Hill (15th & Union) to Thornton Creek area, Seattle (7541 44th Ave NE) From S. Capitol Hill (15th & Union) to Redmond (17132 NE 80th St Redmond)	11/10/2014 11:58 AM
2457	Direct route from Capitol Hill to the International District.	11/10/2014 11:58 AM
2458	I go between 12th & John and the International District for work. I can't wait for the Streetcar to open, as I have to transfer currently when it's not really that far to go. The streetcar will be direct and will probably cut my travel time in half in the mornings and after work.	11/10/2014 11:57 AM
2459	2930 Wetmore Ave, Everett 902 SE North Bend Way, North Bend University of Washington Downtown Fremont Capitol Hill	11/10/2014 11:56 AM

2460	From home on NE 60th Street & 25th Ave NE to the International District Bus Tunnel and vice versa. I would love to have an easy way to get from 60th & 25th to Husky Stadium once the station there is open. I'm very much looking forward to getting to and from the airport with the Light Rail.	11/10/2014 11:54 AM
2461	Capitol hill to Ballard.	11/10/2014 11:53 AM
2462	I would like to go to work in downtown Seattle. I currently live in Bryant.	11/10/2014 11:52 AM
2463	From: 54 St & Latona or From: 65th St Park and Ride To: International District Tunnel	11/10/2014 11:52 AM
2464	Sometimes I bus from Wallingford to Capitol Hill or Downtown.	11/10/2014 11:51 AM
2465	Rainier Beach (57th Ave S & Rainier), Downtown Seattle (Seattle Municipal Tower), Seattle Center (East side), Fremont, Capitol Hill (Seattle Central College), University District (UW), Green Lake (Bathhouse Theatre)	11/10/2014 11:50 AM
2466	Cherry & 19th	11/10/2014 11:49 AM
2467	home to work, entertainment and shopping - the bus is my primary method of transit. I split my time living on Dexter Ave N and in Wedgwood and commute to Capitol Hill each day.	11/10/2014 11:46 AM
2468	Currently commute from Seatac to downtown Seattle. Would like more options to take public transit to UW district, north seattle, burien, etc. without as many lengthy transfers.	11/10/2014 11:46 AM
2469	to and from downtown seattle and Capitol Hill/Central District/Madison Valley	11/10/2014 11:46 AM
2470	6000 24th Ave NW 1000 Dexter Ave N Corner of E Denny Way and E Olive Way 707 E Pine St 1622 N 45th St	11/10/2014 11:45 AM
2471	work on pill hill. airport. fremont. northgate. rainier ave. etc.	11/10/2014 11:45 AM
2472	Work in the International District, Home to Beacon Hill (previously Capitol Hill), downtown, the airport	11/10/2014 11:44 AM
2473	102 n. 136th Street 1701 Broadway (Seattle Central College)	11/10/2014 11:43 AM
2474	supermarket, work place, bars/restaurants, clubs (live music), visit friends, library	11/10/2014 11:42 AM
2475	Seattle University, 901 12th Avenue Seattle, WA 98122 University of Washington 1406 East Alder Street Seattle, WA 98122 Seattle Public Library - Central Library Seattle Public Library - Capitol Hill Branch Seattle Public Library - Montlake Branch King Street Center, 201 S Jackson St Seattle, WA 98104 Southeast Everett Freeway Station, I-5 & 112th Everett, WA 98208 McCollum Park Park & Ride, 128th St & Dumas Road Mill Creek, WA	11/10/2014 11:41 AM
2476	What would be of BIG benefit to our local community is to have two additional regular bus routes, as follows: 1. A bus route loop that goes from 51st Avenue South in Auburn, WA to 320th/Peasley Canyon Road, to Pacific Highway in Federal Way, up to South 288th, and then back to 51st Avenue again. Reasons: A. It would serve the community who work and shop in Federal Way, and enable them to go to connecting transit stations in Federal Way. In addition, it would enable access for the large low-income neighborhood in this community, who need inexpensive travel to local grocery stores and jobs in Federal Way. Without this transit, the poor in our area essentially live in a food desert. B. It would serve high school students in the community who must get to part-time jobs in Federal Way. These students would also be able to take a connecting bus on Pacific Highway to Highline Community College for their Running Start classes. It would help reduce teens driving in the area, and reduce accidents that teens are prone to have. C. It would reduce--at least in half--the time it takes to go from Auburn (Lakeland area) to Federal Way. D. The combination above would increase economic opportunities and increase revenue for the county. 2. A bus route loop that goes from 51st Avenue South in Auburn to 320th/Peasley Canyon Road, then east to Auburn close to the train station, and then to Auburn Way in Auburn, WA. It would then go North on Auburn Way to 272nd and then to Military Road, close to the Star Lake Park and Ride. Reasons: A. It would serve the community who work and shop in Auburn, and enable them to use transit stations in Auburn. Ditto regarding the need for this service for the large low-income neighborhood in this community. B. It would enable residents to go to retail in the Auburn Outlet/Supermall area for jobs and shopping, thereby increasing economic opportunities for businesses and residents alike. This would in turn increase revenue for the county overall. 3. It would also be very, very nice if light rail extended down to Federal Way, because, after all, we are paying for it through our taxes.	11/10/2014 11:38 AM
2477	work & play	11/10/2014 11:36 AM
2478	Work, downtown	11/10/2014 11:36 AM
2479	downtown seattle to work between 15th and 80th, airport, northgate	11/10/2014 11:34 AM
2480	Downtown Capitol Hill University District University Village Seattle Center Green Lake	11/10/2014 11:33 AM

2481	Downtown Library, Townhall (8th & Seneca) Benaroya Hall, Seattle Center, Richmond Beach, University District (50th & University), Ballard (east/west connections are very frustrating & time consuming!), West Seattle (Lincoln Park), Burien	11/10/2014 11:29 AM
2482	ballard	11/10/2014 11:28 AM
2483	downtown	11/10/2014 11:28 AM
2484	I also ride the 5 regularly (it is not an option above). I live on the north end of Beacon Hill and commute to Wallingford for work.	11/10/2014 11:27 AM
2485	Issaquah Transit Center to South Lake Union.	11/10/2014 11:27 AM
2486	Woodland Park Zoo Northgate Mall Sea-Tac Airport University of Washington Alki Beach Madison Beach	11/10/2014 11:23 AM
2487	400 Boylston Ave 815 Western Ave 5901 Phinney Ave N	11/10/2014 11:19 AM
2488	Currently: Kirkland (Kingsgate Park and Ride) to Downtown Seattle, then to Ballard. Currently the bus works well for me, and I'm fortunate to live and work very close to the bus stops I use.	11/10/2014 11:19 AM
2489	Primarily to work at 6th & Union, also CenturyLink Field, and the airport.	11/10/2014 11:19 AM
2490	Downtown Seattle, Queen Anne Hill (1902 5th Ave N.), Vashon Island	11/10/2014 11:18 AM
2491	University of Washington Seattle Center Downtown Airport	11/10/2014 11:18 AM
2492	SeaTac Airport Husky Stadium Downtown Seattle Greenlake	11/10/2014 11:17 AM
2493	6411 9th Ave NE to/from 925 Fourth Ave 6411 9th Ave NE to/from 325 9th Ave (Harborview Medical Center) 6411 9th Ave NE to/from 201 16th Ave E (Group Health Capital Hill	11/10/2014 11:17 AM
2494	Work (Downtown Bellevue, Downtown Seattle) Home (98008) UW	11/10/2014 11:17 AM
2495	My regular commute is from Northeast Seattle (NE 85th & 15th Ave NE) to Downtown Seattle, but I also take transit to the airport, to sporting events and sometimes to Downtown Bellevue.	11/10/2014 11:14 AM
2496	615 Ave E to Columbia tower	11/10/2014 11:12 AM
2497	Ballard. Capitol Hill. Airport. I'd like to get to West Seattle easier.	11/10/2014 11:10 AM
2498	University of Washington, Seattle Central Library, downtown Federal Building, Sea-Tac Airport	11/10/2014 11:09 AM
2499	I'd love to go between Wallingford (Green Lake Way and Aurora Ave) and Fremont (N 34th St and Fremont Ave). Transit options today suck. Walk 10 min to catch a once-in-20min bus, ride it for 5 min and walk 10 min again. Or simply walk it.	11/10/2014 11:08 AM
2500	UW Campus (health sciences building) Airport (Seatac)	11/10/2014 11:06 AM
2501	UWMC; Harborview; Capitol Hill; Queen Anne Hill; Wallingford; Fremont; Downtown Seattle; Edmonds; UW Campus; City Parks - Washington Arboretum, Elliott Bay, Lake Washington Boulevard.	11/10/2014 11:05 AM
2502	From Madison Park to Downtown, to Ballard, to Fremont From Bell Town to Madison Park	11/10/2014 11:05 AM
2503	Seattle Center Capitol Hill (all) Mt Baker Transit Center Columbia City (all) CenturyLink and Safeco University of Washington	11/10/2014 11:04 AM
2504	I primarily travel between my house in Wallingford and Downtown. I think having a transit station near UW would be helpful because there is a lot to do around the U-District, including U-Village.	11/10/2014 11:02 AM
2505	From Cap Hill to Ballard (want to go), Cap Hill to downtown (daily now), Cap Hill to SeaTac Airport (want to go)	11/10/2014 11:02 AM
2506	Currently: downtown from Capitol Hill (43) Would like: Pioneer Square, Ballard, Green Lake without any transfers	11/10/2014 11:01 AM
2507	ROUTE 47. I WANT ROUTE 47 BACK! I like won't use the Broadway line b/c how do you expect me to get there from Melrose. LUG a suitcase up 5 VERY STEEP blocks?	11/10/2014 11:00 AM
2508	EMP, Science Center, Key Arena, Space Needle, Century Link, Safeco Field, Sea-Tac Airport, Northgate mall, Zoo, Aquarium, Ferris Wheel, Gas Works Park, Alki Beach	11/10/2014 10:58 AM
2509	I go from Madison Park to Pioneer Square.	11/10/2014 10:58 AM
2510	Pioneer Square Northgate Mall	11/10/2014 10:58 AM

2511	Northgate P&R to downtown for work	11/10/2014 10:56 AM
2512	Capital Hill to Sculpture Park. Currently go from Capital Hill to downtown since no bus goes that way from Capital Hill.	11/10/2014 10:56 AM
2513	It's my main mode of transportation, so...lots of places? Home in north Capitol Hill (near 15th and Republican), work downtown (3rd and Columbia), partner's home in the Central District (23rd and Spring), social things in the U-District (45th and Thackeray, 50th and Roosevelt), Fremont (near around Fremont Brewing, v. difficult for me to get to at the moment). I'd like more/faster options to get to South Seattle; I have a friend in Hillman City and it takes an incredibly long time to bus to her house. We like going to Georgetown, but only do it when we can borrow a car because it's difficult or takes a long time to get there by transit.	11/10/2014 10:54 AM
2514	To work Capitol Hill to downtown. Capitol Hill to Fremont Capitol Hill to Wallingford Capitol Hill to U-dist Capitol Hill to Ballard Capitol Hill to White Center Golden Gardens Park, Alki beach and other beaches Port Townsend	11/10/2014 10:54 AM
2515	601 Union Street, Seattle, 98101	11/10/2014 10:54 AM
2516	King County Library System Service Center, 960 Newport Way NW, Issaquah, WA 98027 University of Washington Wishes: More convenient paths to Ballard or West Seattle	11/10/2014 10:53 AM
2517	home to work	11/10/2014 10:52 AM
2518	Greenlake/Tangletown, Belltown (3rd and Broad), Downtown (4th and Pike), University Village, Capitol Hill (Pike and 12th)	11/10/2014 10:52 AM
2519	Edmonds to Downtown Seattle (Virginia and 6th). Edmonds to Capitol Hill. (Broadway and Olive) Edmonds to Port Townsend. Downtown Seattle to Olympia. Westin Building 2001 6th Ave, Seattle 98121 (government offices) to 1011 Plum Street SE Olympia 98504 (Dept. of Commerce government offices)	11/10/2014 10:51 AM
2520	I currently go between Northgate Transit Center and Pioneer square. I take transit from Pioneer Square and Westlake Center.	11/10/2014 10:51 AM
2521	Matthews Beach Downtown Seattle	11/10/2014 10:51 AM
2522	Mainly between home (near Group Health on Capitol Hill) and work (Pioneer Square). I also use the bus between home and UW.	11/10/2014 10:50 AM
2523	University of Washington Kirkland Bellevue Bainbridge Island West Seattle CenturyLink Field Safeco Field	11/10/2014 10:50 AM
2524	85th and greenwood downtown (3rd and pine, 3rd and bell) would like to be able to get to QA easier from the north, I have to go downtown and then back up to get there- also getting back is difficult because you need to get the other side of Aurora, and with all the construction there is no where safe to cross would like to be able to get to 45th and meridian or close by in wallingford. the only bus that goes through greenwood is the 5, so it takes longer to get to wallingford than downtown even though its much closer	11/10/2014 10:49 AM
2525	Between 5209 36th AVE NE and UW, between 5209 36th AVE NE and Providence Mt St Vincent in West Seattle, between 5209 36th AVE NE and West seattle YMCA, and the Madison & 23rd YMCA between 5209 36th AVE NE and Fauntleroy ferry, between 5209 36th AVE NE and Seattle Center, between 5209 36th AVE NE and Magnuson Park, between 5209 36th AVE NE and UW IMA, between 5209 36th AVE NE and University Village, between 5209 36th AVE NE and downtown Bellevue, between 5209 36th AVE NE and Roosevelt Ave & 52nd, between 5209 36th AVE NE and downtown seattle between 5209 36th ave NE and Alki & Beach drive	11/10/2014 10:48 AM
2526	Columbia Tower, 701 5th Ave 98104 Home, 1720 E Denny Way 98122 The central business area on 15th Ave in Capitol Hill. Currently served by the 10 bus. The central business area on 19th Ave in Capitol Hill. Currently served by the 12 bus. When the Capitol Hill link station opens, I'd like to be able to more easily get around the hill and the central district from there without having to wait more than 10 minutes for a bus.	11/10/2014 10:47 AM
2527	Current: Northgate Transit Center. Desired: Lake City Way and 125th St. But need a parking option there.	11/10/2014 10:47 AM
2528	My Work (2nd & Cherry, Pioneer Square) My Home (27th & Roy, Capitol hill/Madison) Visit friends (Hillman City) Appointments (downtown)	11/10/2014 10:47 AM
2529	Also use the D, 17, 18, and 40. Would like to be able to go from downtown to Children's Hospital area without changing buses, and with a transit time of less than an hour.	11/10/2014 10:46 AM
2530	16040 NE 103 St., Redmond 1011 Plum Street SE, Olympia 2001 6th Ave., Seattle 5449 Ballard Ave NW, Seattle 201 16th Ave E, Seattle 15809 Bear Creek Pkwy, Redmond 575 Bellevue Square, Bellevue	11/10/2014 10:46 AM
2531	From home to work. Would like to get from home to the Link in order to take Link down town	11/10/2014 10:45 AM

2532	I commute to work in downtown Kirkland by way of the 255. I also go visit friends who live on Capitol Hill and in Rainier Valley also by the 255 with connections to other buses. I want there to be buses connecting Kirkland and Capitol Hill and Kirkland and South Seattle. It would also be nice to have bus service comparable to the 410/510/512 on I-405 connecting Everett to Bellevue.	11/10/2014 10:44 AM
2533	work - home - seattle dt	11/10/2014 10:44 AM
2534	I would like to be able to go from Eastlake to Belltown on one route! I currently take the 66 or 70 downtown, and have to walk 8 blocks, take a rapid ride, or take a #1-4 west to get even close to 1st and Bell, where I work. I also bus throughout the U-District and down to CenturyLink Field occasionally, and take the light rail to the airport.	11/10/2014 10:42 AM
2535	Currently go primarily from Magnolia/interbay area downtown and back. Would LOVE better service (e.g., rail - and not in 15 years) and connection throughout the city from this area. Maybe an express connection to the UW and downtown lightrail stops?	11/10/2014 10:42 AM
2536	I take the 535 from Lynnwood Transit Center to Bothell almost daily. I take the 511 or 512 from Lynnwood Transit Center to downtown Seattle 4 or 5 times a year.	11/10/2014 10:42 AM
2537	Currently: Work (720 3rd Ave, Seattle, WA 98104) Home (Pinehurst, Seattle, WA 98125) Doctor (Bellevue, WA 98005) Future: To as many places as possible!	11/10/2014 10:41 AM
2538	Current 1027 Bellevue Court to/from 1200 NE Campus Parkway 1200 NE Campus Parkway to/from 15 Nickerson 15 Nickerson to 414 NE 72nd Would like: 1000 N 50th - Greenlake Lower Woodlands Park 1027 Bellevue Ct to/from 10049 College Way N. (with less than 3 transfers) Alki Beach	11/10/2014 10:37 AM
2539	Capitol Hill to Wallingford/Greenlake, Wallingford to downtown, wallingford to SLU	11/10/2014 10:37 AM
2540	I use the bus to travel between Capitol Hill, Downtown, the U-District, and Queen Anne, mostly. I often take the Light Rail to and from the airport.	11/10/2014 10:36 AM
2541	I currently go to and from work, to downtown and on errand runs. I primarily use the bus to go to downtown, Capitol Hill and Ballard. I would LOVE!!!!!! if you added routes to University Village!!! EVERY EMPLOYEE in University Village would love it if you had more transportation options available to us to and from our shopping center, it's very inconvenient to have to go through the University of Washington to get to work every day. I love taking public transportation, but it's just not feasible for me to go from Capitol Hill to U Village in under 45 minutes, when I could walk there with a few minutes more. Please please PLEASE add new routes to University Village, it's desperately needed, especially around the holidays when employees have to park off site. Thanks!	11/10/2014 10:34 AM
2542	7th & Pike - Convention Center SeaTac Airport	11/10/2014 10:34 AM
2543	I used to take the bus, but the number of transfers and the time it takes has reduced my ability to use it from lower Magnolia to Swedish Hospital in Capitol Hill. It takes me nearly an hour on the bus to get to work.	11/10/2014 10:34 AM
2544	NE 145th + 15 Ave NE to Downtown Like to see more express travel from north side (Mountlake Terrace, Edmonds, shoreline)	11/10/2014 10:33 AM
2545	Pioneer Square station	11/10/2014 10:33 AM
2546	Fremont, Ballard.	11/10/2014 10:33 AM
2547	Westlake Center, University of Washington, Ash Way Park & Ride, Lynnwood Park & Ride	11/10/2014 10:32 AM
2548	I go to work on transit, but I have to walk a lot and it takes almost as long as if I walked the whole way. So I would like transit to go from the north part of Capitol Hill to the Pioneer Square area. I would also like transit from north Capitol Hill to Madison Market (Central Coop). I would also like transit from north Capitol Hill to the Central District, for instance, Moonlight Cafe, the Neighbor Lady, ethiopian restaurants, Samarya Center yoga, etc. I would take transit to SODO and Northgate on occasion if I could get there without transferring.	11/10/2014 10:30 AM
2549	I currently commute between Capitol Hill and Kirkland/Bellevue/Redmond on a daily basis. I love the addition of the bus only lane on 520, but very much look forward to the i-90 light rail.	11/10/2014 10:30 AM
2550	1011 Western Ave 916 13th Ave University of Washington Alki Beach Pony Gold's Gym on Broadway Pioneer Square	11/10/2014 10:29 AM
2551	From Capitol Hill to Downtown, U District, Fremont, Ballard, Greenwood, Northgate, SoDo. The biggest thing right now is there is just no convenient way to get to Ballard/Fremont from Capitol Hill	11/10/2014 10:27 AM
2552	2501 Elliot Ave, Seattle, WA 4272 Fremont Ave N, Seattle, WA 1100 19th Ave E, Seattle, WA 5752 25th Ave NE, Seattle, WA	11/10/2014 10:27 AM

2553	6447 NE 153rd ST, Kenmore to 701 5th Ave 6447 NE 153rs ST, Kenmore to Seatac airport	11/10/2014 10:24 AM
2554	Currently go to: University of Washington. North Beacon Hill. Downtown Seattle. Tukwila. Fremont. Sand Point Way. Central District.	11/10/2014 10:24 AM
2555	Capitol Hill, Fremont, Ballard, SLU, Downtown, U Dist, Wallingford, Bellevue, Redmond, Sodo, West Seattle, all over.	11/10/2014 10:22 AM
2556	Capitol Hill Downtown	11/10/2014 10:21 AM
2557	Bear Creek P&R -> Downtown Seattle	11/10/2014 10:21 AM
2558	Ballard/Market Street to Downtown to First Hill (medical centers) and back First Hill and Capitol Hill to the University of Washington University of Washington to Ballard/Market Street	11/10/2014 10:20 AM
2559	Greenwood to Downtown and back for work. Often Ballard/LQA on the D line, as well as Capitol Hill. A much better (more regular service) option for east-west to Capitol Hill from downtown/SLU/LQA is a must. A route from Cap Hill to North Seattle (Wallingford/Phinney/Greenwood/etc.) without having to go down to 23rd to catch the 48 would also be a dream of mine.	11/10/2014 10:20 AM
2560	To my home on Eastlake Ave E, Downtown Seattle, Bellevue	11/10/2014 10:20 AM
2561	Capitol hill	11/10/2014 10:20 AM
2562	The airport	11/10/2014 10:19 AM
2563	Pioneer Square Woodlawn and Ravenna Stadiums/SODO Downtown Seattle	11/10/2014 10:18 AM
2564	2621 E Aloha St, Seattle 1904 3rd Ave, Seattle Seattle Public Library, Central Branch SeaTac Airport Pine and 11th Ave E, Seattle Snoqualmie Pass and several exits along I-90 Bellevue Square University Village	11/10/2014 10:17 AM
2565	Wallingford to Capitol Hill	11/10/2014 10:17 AM
2566	Right now I work on 12th and S weller in the ID. If I took public transportation I would need to take 2 buses and a light rail to get to work. It would be best if I could transfer onto the light rail downtown and get off on 12th and S Jackson. This would significantly cut down my commute and make public transportation an option for me again.	11/10/2014 10:16 AM
2567	My current destinations: Madison and 5th Pine and Summit 12th and Madison Cal Anderson Park 12th and E John Where I would like to go: Columbia Center (701 5th Ave) from Capitol Hill 12th and E Howell from Columbia Center	11/10/2014 10:15 AM
2568	I would like the light rail to go to Fremont and Ballard - perhaps loop back after U Dist. over to Ballard, Fremont, Queen Anne to Westlake and south again? That way, most of Seattle would have access to the light rail further reducing street traffic.	11/10/2014 10:14 AM
2569	Downtown to University Village Downtown to Edmonds ferry at non-commute hours Bainbridge Island to Kingston after 8pm, or on weekends Capitol Hill to University Village / Northgate directly (i.e. not transferring buses) Magnolia, Ballard to Capitol hill without transferring downtown.	11/10/2014 10:14 AM
2570	Capitol Hill to Downtown and vice versa Capitol Hill and Downtown to University District Capitol Hill to Rainier Beach Community Center Downtown to Airport	11/10/2014 10:13 AM
2571	from Sandpoint way to the UW, to Downtown Seattle and Downtown Bellevue. Capital hill on occassion.	11/10/2014 10:13 AM
2572	Lake City Way and NE 85th Street to downtown 2nd Avenue and Marion Street	11/10/2014 10:11 AM
2573	Airport, Downtown, Ravenna area	11/10/2014 10:10 AM
2574	I got downtown either the retail core near Nordstroms or the other side near Columbia Tower	11/10/2014 10:10 AM
2575	Prospect and 10th Ave E to 4th and Pine 4th and Pike to Broadway and Pine	11/10/2014 10:09 AM
2576	Harvard Market QFC, Ballard/Market Street area, Fremont market, Ravenna/Roosevelt, the Ave, Broadway/John, Volunteer Park, Madison Beach, Alki Beach, International District/Uwajimaya, the stadiums, Seatac airport,	11/10/2014 10:08 AM
2577	Issaquah Park and Ride, Bellevue Transit Center, Jefferson Park	11/10/2014 10:08 AM
2578	Downtown Seattle (convention place) and to Kent	11/10/2014 10:07 AM
2579	I would like to have a better option to go from Ballard to Capitol Hill. Better options to/from the stadiums. I usually go Ballard > Fremont, Ballard > Pioneer square, Ballard > Downtown	11/10/2014 10:07 AM

2580	SeaTac Airport Rainier Ave S and S Dearborn Downtown Seattle Business District Alaskan Way at Ferry Terminal University Business District predominantly 45th Ave NE at 11th Ave NE and Roosevelt Way NE Lake City Way NE and 15th Ave NE Northgate Transit Center NE Northgate Way and Roosevelt Ave NE N 145th and 15th Ave NE	11/10/2014 10:06 AM
2581	Pioneer square tunnell station, UW MAIN CAMPUS, husky stadium, 75th and roosevelt, sand point way and windermere road	11/10/2014 10:06 AM
2582	From West Seattle to downtown and back. I'd like to be able to get from West Seattle to Beacon Hill easier though!	11/10/2014 10:06 AM
2583	Home 5301 Ravenna Ave NE, to work 4300 Roosevelt Way NE; work 4300 ROS way NE to Capital Hill 1100 19th Ave E and Union/23rd St and MLK/Aspen st work 4300 ROS way NE to downtown Benaroya, Westlake	11/10/2014 10:05 AM
2584	Seattle University campus (from downtown Seattle), Delridge neighborhood in SW Seattle	11/10/2014 10:05 AM
2585	West Seattle to Downtown	11/10/2014 10:05 AM
2586	Currently, I mostly go between Capitol Hill and downtown with occasional trips to Pioneer Square, the International District and the U District. I would go to Fremont and Ballard more often if there was a faster route between those neighborhoods and Capitol Hill.	11/10/2014 10:04 AM
2587	Northgate Transit Center/Mall to Downtown Seattle and back. Northgate Transit Center/Mall to Bellevue Square and back. Northgate Transit Center to Ballard. Northgate Transit Center to University District and back.	11/10/2014 10:04 AM
2588	West seattle to downtown and back.	11/10/2014 10:04 AM
2589	Downtown (Westlake area); Pike Place Market; University District, Pioneer Square. I would like it to be easier to get to Ballard, Fremont, and Discovery Park from Capitol Hill. And by easier I mean never having to change buses or transportation mode.	11/10/2014 10:03 AM
2590	From the ferry terminal to the bus tunnel to Husky stadium (and on non-game days, it would be nice to take the same method to University Village). From 3rd Avenue to 130th & Aurora on the E Line.	11/10/2014 10:03 AM
2591	Currently: Fremont to Downtown Seattle and vice versa. Downtown Seattle to Capitol Hill. Capitol Hill to Fremont and vice versa.	11/10/2014 10:02 AM
2592	Currently go: Pioneer Square from Capitol Hill; Ballard from Capitol Hill	11/10/2014 10:02 AM
2593	Downtown Seattle, Seatac, Capital Hill, Greenlake, Northgate Mall	11/10/2014 10:01 AM
2594	I go from Mid-Beacon Hill to the University District and back.	11/10/2014 10:01 AM
2595	to and from the Eastlake Neighborhood in Seattle to Downtown Seattle. To and from the Eastlake Neighborhood in Seattle to SeaTac Airport	11/10/2014 10:01 AM
2596	Downtown Seattle, Ballard, Bellevue, Kirkland, UW, Ferry Terminals	11/10/2014 10:00 AM
2597	Downtown, airport, Green lake	11/10/2014 10:00 AM
2598	Northgate Transit/Downtown	11/10/2014 10:00 AM
2599	Northgate	11/10/2014 10:00 AM
2600	Montlake Flyer Station to/from Overlake Transit Center Montlake Flyer Station to/from Downtown Bellevue Montlake Flyer Station to/from Downtown Seattle Downtown Seattle to/from SeaTac Airport	11/10/2014 9:59 AM
2601	Currently go downtown from Phinney/Ballard Soon will be going from Northgate to downtown Would like to be able to get to U District by train (not bus) faster	11/10/2014 9:58 AM
2602	I currently go to NW Market St and Ballard Ave, California Ave SW and SW Findlay, 3rd and Pike, Broadway and Pine, Fremont Ave and 32nd, 58th and Phinney Ave. I would like to be able to go to the South Lake Union area around the MOHAI and Fremont from Lower Queen Anne more directly.	11/10/2014 9:57 AM
2603	Downtown, Belltown	11/10/2014 9:57 AM
2604	Kenmore/Bothell	11/10/2014 9:57 AM
2605	I would love to be able to go to/from Capitol Hill easily on the LINK to Beacon Hill, SeaTac, Downtown, U-District. Someday it would be great to be able to take the LINK to the eastside.	11/10/2014 9:56 AM

2606	Northgate Park and Ride to 45 and Roosevelt and back. any of the 71-73x buses from the U District to Downtown Seattle for Meetings (otherwise I would have to drive) U-District to Renton (kennydale) to commute. 45 AVE and 11th U-District to Issaquah to commute. University Way and 15th	11/10/2014 9:55 AM
2607	7511 31st Ave NE to downtown Seattle for daily work and occasional leisure (baseball, football games). Also, use transit for trips to-and-from Sea-Tac airport.	11/10/2014 9:55 AM
2608	I would love easier access to/from West Seattle (Alaska Junction and up/down Delridge), between Queen Anne (Seattle Repertory Theatre) and Capitol Hill (I'd love to integrate the Link in my commute from South Seattle to The Rep), and to from/first hill (less milk runs, what about an express to/from Seattle University?)	11/10/2014 9:54 AM
2609	n/a	11/10/2014 9:54 AM
2610	To and from work, use the 312 or 522	11/10/2014 9:54 AM
2611	UW campus SPU campus Fremont Downtown Seattle SeaTac Seattle Center UVillage	11/10/2014 9:53 AM
2612	Maple Leaf Northgate 1501 E. Madison St. NE 75th St and Roosevelt NE 65th and Roosevelt	11/10/2014 9:53 AM
2613	Would like to go from Eastlake to Fremont, Ballard	11/10/2014 9:51 AM
2614	In between Ballard / rest of Seattle.	11/10/2014 9:50 AM
2615	faster route from Greenlake to Downtown faster route from Green lake to Capital Hill Better transit to University Village	11/10/2014 9:41 AM
2616	from capitol hill to SOUTH downtown, without having to transfer or wait for another bus or light rail would be great	11/10/2014 9:40 AM
2617	Downtown Seattle, U-District, University Village Shopping Center, Greenlake area, Fremont, Ballard, Northgate, Lake City, Maple Leaf park, Magnuson park	11/10/2014 9:38 AM
2618	Currently commute from Ballard to U Dist on most days via the 15 express and the 44.	11/10/2014 9:38 AM
2619	Fauntleroy and SW Alaska Streets, Admiral Way, Alki/Harbor Avenue	11/10/2014 9:38 AM
2620	Capitol Hill, Wallingford, Northgate, Park 140 (Bellevue), CLINK	11/10/2014 9:37 AM
2621	I go from Fremont, generally to downtown Seattle (3rd and Madison). I also take buses to Seattle Center, Ballard, and variety of other places as needed.	11/10/2014 9:36 AM
2622	I commute from Kingsgate p&r to Swedish hospital daily. I also take the bus from Totem Lake Freeway stop to the Seatac airport frequently. It would be nice for me if there was a first hill express bus from kingsgate P&R or Totem lake freeway stop.	11/10/2014 9:33 AM
2623	Laurelhurst to downtown CBD	11/10/2014 9:27 AM
2624	Usually E Roy St and 25th Ave E to Downtown (1st and Spring), usually use the 12 bus route. Would like convenient transfer between the new Link stations and bus routes serving the Montlake/24th Ave E/23rd Ave E corridor (43 and 48 bus routes).	11/10/2014 9:23 AM
2625	I would like to go from South Kirkland Park and ride to Cherry Hill Campus of Swedish.	11/10/2014 9:23 AM
2626	700 cherry to harborview 700 cherry to uwmc 700 cherry to discovery park 700 cherry to northgate	11/10/2014 9:21 AM
2627	1. Downtown Seattle 2. Harborview Medical Center - place of employment 325 Ninth Avenue / Seattle 98104 3. Seattle Center	11/10/2014 9:16 AM
2628	downtown seattle (either 5th and Jefferson or 9th and Howell) to and from capitol hill (16th and Pine) to catch my Community transit commuter bus to Snohomish county.	11/10/2014 9:11 AM
2629	Downtown, S Capitol Hill, University District, Fremont, Queen Anne, Mt. Baker, Airport	11/10/2014 9:11 AM

2651	8123 ne 156th pl Kenmore Washington 98028 to 5300 Tallman Ave. N.W. Seattle Wa.98107	11/10/2014 8:16 AM
2652	Usually, between work and home. Sometimes for special events.	11/10/2014 8:16 AM
2653	Pine and Bellevue; Bellevue & Olive (near city market), Pike & 4th, Pine & Belmont, anything around there. Plus stuff that take you out to UW like the 43 or 49.	11/10/2014 8:13 AM
2654	You didn't list the 7 or the 36 above. I take the 7 almost daily, but have to connect to the 70s to get to UW. It's a 45 minute commute to go 6 miles. I would like Rainier Valley to be connected to Capitol Hill in the evenings and weekends. We need to improve connections for folks who lives in Southeast Seattle and Capitol Hill, UW. With the light rail opening to connect Cap Hill and UW, the 9 needs to have expanded service to connect to the Cap Hill light rail. Along Rainier Ave from McClellan to Jackson, there is no 1 bus that anybody can take after 7pm weekdays or on the weekends to get to Capitol Hill. Capitol Hill is a cultural center, has a farmer's market on the weekends, art galleries, restaurants and other night club opportunities. We should connect Rainier Valley with those awesome resources. Nevermind the fact that if you are a Seattle Central College student living in Rainier Valley you can't stay late after class to eat dinner with friends or join a weekend study group because there are no buses that go up there. It's really a shame already. I've been complaining about this to Metro for years.	11/10/2014 8:08 AM
2655	Swedish Medical Center Cherry Hill 500 17th Ave. Seattle, WA 98112	11/10/2014 8:06 AM
2656	Sammamish to Downtown Seattle then to Ballard.	11/10/2014 8:06 AM
2657	I go from ash way park and ride to 5th & jefferson then take to 3/4 to jefferson & 17th	11/10/2014 8:02 AM
2658	houghton park and ride, but the 265 was cut and there is no more direct bus line from the eastside service Virginia Mason, Swedish First Hill/Cherry Hill and Harbor View, so not I have to commute even longer over Kingsgate	11/10/2014 8:00 AM
2659	From King street station to Swedish/Cherry Hill campus.	11/10/2014 8:00 AM
2660	Everyday for work I commute back and forth from Olympic Hills to downtown (1911 2nd Ave) . I also use public transit to transport my wife and I to Sounders games (season ticket holders) and Seahawks at CenturyLink Field.	11/10/2014 7:59 AM

2661	lake stevens to swedish cherry hill	11/10/2014 7:58 AM
2662	Seattle Center.	11/10/2014 7:57 AM
2663	Lynnwood park and ride to Swedish First hill (747 Broadway)	11/10/2014 7:56 AM
2664	Currently go: downtown, Westlake. Like to go: Queen Anne, Capitol Hill	11/10/2014 7:52 AM
2665	Columbia City Broadway and Pike Pioneer Square Westlake Center Seattle Center Downtown Bellevue	11/10/2014 7:47 AM
2666	Sand Point to UW	11/10/2014 7:45 AM
2667	Live in Madison Park, go downtown and to seattle Center. Would like to go to University Village more easily, Northgate.al	11/10/2014 7:40 AM
2668	1) Downtown 2) SeaTac 3) Bryant neighborhood 4) Wedgwood neighborhood 5) Seattle Children's Hospital 6) University of Washington 7) Seattle Center I would like to take tranist everywhere within the City of Seattle. I'd like to leave my car at home as much as possible.	11/10/2014 7:35 AM
2669	Downtown udistrict airport	11/10/2014 7:22 AM
2670	Commute to work Occasional use for big festivals at Seattle center-shuttles from Northgate. I really wish there was one express bus or train that connected the north end of Seattle to the airport without switching downtown or stopping everywhere.	11/10/2014 6:42 AM
2671	I currently use transit to get to Downtown Seattle, Stadiums, Sea-Tac and doctor's appointments on First Hill.. I would like to use it more for UW & Capital Hill areas.	11/10/2014 5:44 AM
2672	35th AVE NE and 65th ST NE, University Way and Campus Parkway	11/10/2014 5:29 AM
2673	Seattle Center 1101 Madison Nordstrom Tower King Co Municipal Bldg	11/10/2014 3:59 AM
2674	Anywhere and everywhere in the city.	11/10/2014 2:26 AM
2675	Microsoft bainbridge Downtown Cap hill Sodo I district.	11/10/2014 1:22 AM
2676	Downtown Seattle, Lake City, Nothgate, University of Washington, Seahawks Stadium, Seattle Center, International District, Bothell, Pinehurst, Mapleleaf, Wastlake, Gasworks Park, Seattle Ferry landing.	11/10/2014 1:09 AM
2677	Home in Pioneer Square Haircut in Greenwood Girlfriend in the Udistrict Sister's on Capital Hill Group Health on Capital Hill Trader Joes in the Udistrict Apple Store in Bellevue Square Mall Tacoma Dome station/Gig Harbor Park & Ride to visit my parents Seatac Airport Columbia City & Othello to shop/see movies Being able to get to university village without a death march would be nice	11/10/2014 1:00 AM
2678	Seattle Boulderling Project, Georgetown (Airport Way & Vine St, for example. The Tin Hat in N Ballard, Magnusen Park, Seward Park, Kubota Gardens, UW Arboretum (along Lake Washington Dr, say, the Japanese Garden), Olympic Sculpture Park (without steep hill descent/ascent), Seattle Aquarium, African American Art Museum, Frye Museum, Volunteer Park (Asian Art Museum, Conservatory), Washington Hall (including when events end, ex: 9:30 pm), Woodland Park Zoo, INScape building	11/10/2014 12:52 AM
2679	places that have many trees with squirrels	11/10/2014 12:41 AM
2680	First of all, why did you leave out Route 41 in the preceding checklist? I'd like to go to WSU in Puyallup, but that is currently delusional. The bus from South Jackson Street to NE 15th and 115th NE took 2 hours, which means it officially sucks. Nothing from NE 15th & 115th NE to Kent/Auburn, but I don't know my friend's address. There were so many times I couldn't find a reasonable bus to take,	11/10/2014 12:16 AM
2681	Everett, Edmonds, Mukilteo, Lynnwood, Seattle -Downtown, UW, Northgate, Ballard, Mill Creek, Marysville, Kingston, Bothell, Bellevue, Portland, SeaTac, Anacortes, Eastern WA, Monroe, Redmond, Renton, North Bend.	11/10/2014 12:09 AM
2682	lake city way	11/9/2014 11:46 PM
2683	Bellevue Redmond Pike Market Pacific Place Seattle Center Westlake Plaza	11/9/2014 11:34 PM
2684	Schoo (Greenlake) to home (Queen Anne Hill) via Belltown, occasionally from home to Ballard, Femont, Capitol Hill, Northgate, or the U District (or even Shoreline once).	11/9/2014 10:59 PM
2685	Seatac Airport, Bellevue Library, Bellevue Transit Center, Bellevue Sq, Downtown Seattle (all tunnel stops), University of Washington, Downtown Fremont, Downtown Ballard, Downtown Kirkland, Totem Lake Mall,	11/9/2014 10:34 PM
2686	47! From home to work	11/9/2014 10:14 PM

2687	- Pike/Pine (currently use Olive & Terry stop) to downtown Everett (used to use Wetmore & Wall stop, now use Broadway & 34th) - Pike/Pine to U District - Pike/Pine to King Street Station / 5th & Jackson (BOLT bus connection) - Pike/Pine to SeaTac Airport	11/9/2014 10:04 PM
2688	I would like to be able to go from Seattle Pacific University or Ballard (24th/80th NW) to Bellevue (Wilburton Park and Ride)	11/9/2014 9:28 PM
2689	I go downtown. I would like to go from Broadway & John to the Seattle Art Museum and Pioneer Square by bus without having to transfer.	11/9/2014 9:05 PM
2690	Redmond, downtown, capitol hill	11/9/2014 9:03 PM
2691	South Lake Union Capitol Hill Downtown U-district / U-village Airport	11/9/2014 8:21 PM
2692	Uw tower Group health capitol hill	11/9/2014 8:14 PM
2693	I currently go downtown from Wallingford and North Fremont. I also go east/west between UW and Ballard. I would like to be able to go from Fremont/North Fremont/Wallingford to Capital Hill more easily without transferring.	11/9/2014 7:26 PM
2694	1110 112th Ave NE, Bellevue, WA 1420 5th Ave, Seattle WA 2nd & Seneca, Seattle WA SeaTac Airport Downtown Fremont Ballard	11/9/2014 7:18 PM
2695	I commute to work five days a week, riding the 43 or 48 roundtrip from my home on Capitol Hill (19th & Denny Way) to my office on UW campus. I like to take the express buses (71, 72, 73) from UW campus to downtown. I also sometimes take the 32 from UW campus to lower Queen Anne to visit my son. I take the 10, 11, or 43 from downtown to my home on Capitol Hill. I would love to be able to take a bus from Capitol Hill to Fremont without having to transfer downtown. I also would like a faster option between Capitol Hill and Queen Anne (the 8 is infrequent and very unreliable). Also, there should be better transit options between Capitol Hill and Ballard. These two neighborhoods are very popular, and I've talked with many people who lament there are no direct buses between the two neighborhoods.	11/9/2014 7:07 PM
2696	I go to U-district from Redmond - I'd love to see the local Redmond TC routes (248) get a frequency boost.	11/9/2014 6:46 PM
2697	From Squire Park SeaTac airport From Squire Park to downtown From Capitol Hill to Seattle Center From Squire Park to Seattle Center From Squire Park or Capital Hill to UW	11/9/2014 6:44 PM
2698	Northgate neighborhood North Seattle College Chuck's Hop Shop Ballard U-District	11/9/2014 6:39 PM
2699	My main bus is the 159. I've noticed since the 161 was cancelled that my 159 is fifteen to thirty minutes late getting into Seattle every morning. (People assumed that 161 and other south-end riders didn't have cars and wouldn't switch to that option when their busses were cancelled, but that was patently not true.) That means I'll have to change to catch my bus at 5:23 in the morning instead of 5:53 in the morning to get to work on time at 8:00 a.m. The Southeast Sound is not well served by Metro. Specific addresses are 26608 188th Avenue SE, Covington, WA 98042, to 901 12th Avenue, Seattle, WA 98122.	11/9/2014 6:14 PM
2700	West Seattle, Bellevue College, Queen Anne, downtown Seattle	11/9/2014 5:45 PM
2701	Downtown Seattle, Cherry Hill, Crown Hill, University District, Green Lake, Sea Tac airport, Seattle Center	11/9/2014 5:43 PM
2702	Puget Sound VA Medical Center Downtown Seattle Ballard University District Ravenna Wedgewood View Ridge Queen Anne Capitol Hill International District Columbia City	11/9/2014 5:32 PM
2703	Seattle Central College Univ. of Washington 8th ave NW and NW 95th st	11/9/2014 5:27 PM
2704	End destination: 7th and Stewart	11/9/2014 5:16 PM
2705	All over the place---I live in Rainier Beach, I work in U District, I have friends in Boulevard Park & Central District, I climb in Beacon Hill, I eat all over town ...	11/9/2014 4:09 PM
2706	Currently: Volunteer Park, Seattle Public Library, Pike Place Market, Sea-Tac airport, UW main campus, University Village. Would like to go: Capitol Hill to South Lake Union. (#8 service unattractive due to congestion, lack of reliability, overcrowding.) Capitol Hill to West Seattle, Ballard. (Transit usually not time-competitive for these trips.) Future: Volunteer Park to Capitol Hill Link station.	11/9/2014 4:07 PM
2707	From 2011 to present = work. Previous to car purchase bus was only form of transportation, so used to go everywhere.	11/9/2014 3:51 PM
2708	Currently go :from Northgate to downtown, from Aurora and 105th to downtown. Would like to see improved east-west routes besides the 48.	11/9/2014 3:42 PM

2709	13341 15th Ave NE (HOME) UW Medical Center (Main Hospital) , often during off-peak hours and/or weekends Harborview Medical Center, often during off-peak hours UW Roosevelt Clinic (4245 and 4225 Roosevelt Way NE), often during off-peak hours Northgate Transit Center, including late evening hours 9500 Roosevelt Way NE during evening hours All Metro bus stops close to tunnel stations All of the bus tunnel stations NE 125th St & Lake City Way NE Lake City Way NE & 20th Ave NE during off-peak hours Both freeway stations at 145th Ave NE 21127 1st Ave W, Bothell, WA -- on Sunday evenings NE 125th St & 15th Ave NE NE 145th St & 15th Ave NE NE 175th St & 12th Ave NE 1602 15th Ave W in the late and/or weekend evenings 859 NE Northgate Way Central Market in Shoreline (not sure of address) James St & 1st Ave NE 65th St. & Roosevelt Way NE in the late evenings Social services locations (see below)	11/9/2014 3:40 PM
2710	From Kenmore to Ballard, Fremont, Greenwood and Wedgwood neighborhoods (without having to transfer Downtown) - UW station would make an excellent bus transfer spot (until more subway lines are built!!!) to Greenwood, Wallingford, Fremont and Ballard.	11/9/2014 3:29 PM
2711	I regularly take transit to Downtown, Beacon Hill, First Hill, University District and Maple Leaf	11/9/2014 3:13 PM
2712	Currently go: Pike/Pine, 7th and Stewart, International District, North Capitol Hill (E Highland Dr. & 19th Ave), Wedgwood (35th & 81st), Columbia City, Seattle Center, airport Would like to go: Georgetown	11/9/2014 3:00 PM
2713	Downtown Seattle. Bellevue. Redmond. I would like to be able to go neighborhood to neighborhood from Capitol Hill. I share a car with my wife and the only thing that is hard is trying to go places other than downtown.	11/9/2014 2:28 PM
2714	Downtown Madison Park/Valley Eastlake Capitol Hill Mulkiteo ferry	11/9/2014 2:09 PM
2715	I live in West Seattle, go to Capital Hill and North Gate TC to work. Would like good connects from UW light rail station to North Gate especially.	11/9/2014 1:49 PM
2716	I currently walk to work because it would take more time to get there by bus. Going from 16th Ave E and E. Highland st to 1100 Eastlake Ave E. Would love to see a bus running East West in the Northern part of capital hill. I take 66 (or sometimes 70 if 66 is very delayed) bus from Eastlake and Aloha to 11th and 50th (Univ District) regularly. And then I take either 43, 48 or 49 back to 16th Ave E and E. Highland at about 9 pm. Its great having all 3 stop at a single stop (15th and 43rd) so I can take whatever comes next. Also take #10 (or 19) from 15th Ave E to Westlake Center.	11/9/2014 1:16 PM
2717	Downtown and Capitol Hill and Lower Queen Anne. I'd really like to see better/more crosstown service. I'd take the 8 a lot more if it weren't so crowded and ran more frequently.	11/9/2014 12:55 PM
2718	U District to Downtown, to Ballard (Market St.), to Magnolia (not good service), to Queen Anne, to Greenwood, to Capitol Hill (Broadway, Pike/Pine), to International District, to Northgate, to downtown Bellevue, to downtown Kirkland.	11/9/2014 11:55 AM
2719	Pioneer Square, Bellevue, Seattle Central College, Ballard Safeway D Line stop, Westlake, UVillage	11/9/2014 11:14 AM
2720	home (CD) to work (UW) home (CD) to Downtown/SLU home (CD) to Capitol Hill home (CD) to Sea-Tac airport work (UW) to downtown/SLU would like more direct service to southern end of downtown / Chinatown	11/9/2014 10:37 AM
2721	Capitol Hill, First Hill, International District, Downtown Seattle, University District, Fremont, Lower Queen Anne/Seattle Center, Ballard, Georgetown, Crown Hill, Ravenna, Wallingford, Green Lake, Bryant, Greenwood, Phinney Ridge, Beacon Hill, Columbia City, Madison Valley, Madison Park, Arboretum	11/9/2014 10:22 AM
2722	Seattle Art Museum, UW Campus, Pike Market, SeaTac, NW Harvest, International District, Northgate Transit Center (for Group Health NGT), Washington St Ferry, REI, Hyundai on Aurora at 140th	11/9/2014 10:09 AM
2723	South Lake Union Downtown Fremont Ballard	11/9/2014 9:59 AM
2724	NW Market and Leary, Woodland Park Zoo, Husky Stadium, Fremont Ave and 34th, Cal Anderson Park, Harrison and Broadway, SAM, Pioneer Square, Safeco & Centurylink,	11/9/2014 9:56 AM
2725	I travel from the northeast Magnolia area to downtown and north Seattle (north of the Ship Canal) most of the time. Routes 33, 31, 10, 11, 40, 43, 44, 49 are crucial, as is Route 65, as well as all the University routes I can pick up via the #31 on Campus Parkway (71-75) both to shop and visit the bookstore, theaters, and the University Bookstore.. I also depend on Routes 3 and 4 to get to Swedish Cherry Hill, and to other physicians on Pill Hill. I use Routes 10, 11, and 43 to do my banking and the majority of my shopping (at Central Co-op, 16th and Madison). I use Route 10 to go to the Seattle Asian Art Museum; it is my main Capitol Hill route. I use Route 49 to visit restaurants, stores, the Post Office, and friends. I use Routes 10, 11, and 49 to attend movies and art events, especially at night. I use Route 11 to attend meetings of a professional association, and believe this line is badly underserved; buses are usually crowded. I use the C line from Downtown to visit a friend in the Fauntleroy area. I would like a far more efficient way of getting from Magnolia to Ballard or shops on Aurora or Route 99, and back without huge waits.	11/9/2014 9:48 AM

2726	Magnolia Hill, 34th and McGraw. Ballard, 3rd and 46th, near the 44 line. Cap Hill/Montlake, 25th and Ward. University District/Ravanna, 100th and Ravenna. Montlake, 24th and Boyer. North Bend Library	11/9/2014 9:45 AM
2727	Current: SeaTac airport, ID, Ballard Future: West Seattle, Lake Washington, Bellevue	11/9/2014 9:36 AM
2728	5th & Pike Streets 3rd & Union NE 45th & University Way N	11/9/2014 9:25 AM
2729	Mukilteo City Hall, University of Washington, Group Health Capitol Hill.	11/9/2014 9:24 AM
2730	Currently, downtown, airport, beacon hill, u district, belltown, Seattle center. I'd love easier access to upper Queen Anne, Ballard, Fremont, south lake union.	11/9/2014 9:24 AM
2731	I would like the ability to go as many places as possible with minimal transfers. This is why I am so very very excited for the light rail expansion. I plan on using it very frequently.	11/9/2014 9:20 AM
2732	Currently from North Beacon Hill to Madison Valley, downtown, SoDo, SeaTac airport. Would like to be able to go to U Village also.	11/9/2014 8:54 AM
2733	Bellevue transit center Seattle center Volunteer park University Avenue Wallingford West Seattle	11/9/2014 8:48 AM
2734	I have two main routes. 1 - to work at Garfield High School from the Mt Baker Station. 2 - Mt Baker Station to downtown	11/9/2014 8:35 AM
2735	Newport hill park and ride on exit9 of highway 405	11/9/2014 8:14 AM
2736	work in pioneer square chinatown, first hill, so do, central area for other things	11/9/2014 8:04 AM
2737	Dwtown, Lower Queen Anne, the U-District	11/9/2014 6:34 AM
2738	Home (70th and Sand Point Way NE) to Harborview Medical Center and back. Northgate. University Village.	11/9/2014 3:59 AM
2739	S. Lake Union, Ballard	11/9/2014 3:07 AM
2740	From Aurora Village to downtown Seattle, U-District and Captol Hill.	11/9/2014 1:45 AM
2741	15th AVE E and E Republican 19th AVE E and E Mercer 16th AVE E and E Thomas 23th AVE E and E Republican	11/9/2014 1:11 AM
2742	University of Washington, 2500 65th St. NE, Bellevue Transit Center, South Lake Union (e.g. Amazon campus)	11/9/2014 12:38 AM
2743	Wall st & Elliott ave. 25th and Madison st. Chinatown. UW.	11/9/2014 12:15 AM
2744	Capital Hill and Kirkland late at night. The 255 bus should have longer hours during Friday and Saturday nights. Doesn't make it easy having to leave early from work to catch the bus home.	11/9/2014 12:07 AM
2745	Montlake 520 to downtown Up 23rd to Madison	11/8/2014 10:44 PM
2746	Capitol hill, Fremont, Ballard,	11/8/2014 10:43 PM
2747	Downtown Bellevue, UW, Downtown Seattle, Lake City, Northgate, Bel-Red Rd, Aurora, Green Lake, Greenwood, Eastlake	11/8/2014 10:35 PM
2748	University of Washington 10th and Prospect	11/8/2014 10:33 PM
2749	Capitol Hill, Downtown, University of Washington, Airport, and Madison Park	11/8/2014 10:30 PM
2750	Pacific Place, Capital Hill	11/8/2014 10:25 PM
2751	Pike market and pioneer square	11/8/2014 10:20 PM
2752	The 7 and 7X are not listed above. We need more and faster service from Columbia/Hillman City to downtown seattle. The 7x was a life and time saver no lease bring it back. And while you are at it, can anything we can do to make riding the bus in the southend safer!	11/8/2014 10:15 PM
2753	NOAA campus (7600 Sand Point Way NE) - Would like better off-peak service, which went away when the 30 was cut Greenwood (85th St and Greenwood Ave N) University District/University of Washington (NE 45th St and 15th Ave NE) Rose Hill (NE 85th St and 132nd Ave NE) Downtown Redmond (Redmond Transit Center) Duvall (Woodinville-Duvall Rd and HWY 203) Seatac Airport Downtown Seattle (Westlake Transit Tunnel Station)	11/8/2014 9:48 PM
2754	I walk to Mt Baker light rail, or to the #8, #48, #7, #9 at the transit center, going northbound. I often return home via the #14, which stops a few blocks from my house. I do not have a vehicle, I get around by foot or transit.	11/8/2014 9:45 PM
2755	capitol hill, north seattle	11/8/2014 9:42 PM

2756	University of Washington Medical Center, downtown Seattle,	11/8/2014 9:38 PM
2757	northgate, u-village, ballard, fremont, downtown, Georgetown, sodo	11/8/2014 9:28 PM
2758	Light rail to Southcenter Better access to Seattle Children's	11/8/2014 9:02 PM
2759	University of Washington	11/8/2014 8:28 PM
2760	currently use transit to go from Capitol hill to downtown. Occasionally use it to go to Harborview. Currently I do not use the bus often because I am disabled. I cannot stand for very long and few stops have benches. Also, everyplace I need to go seems to require several blocks of walking on each end, which is not something I can do most of the time.	11/8/2014 8:05 PM
2761	University of Washington and third ave downtown	11/8/2014 7:45 PM
2762	Downtown Seattle	11/8/2014 7:30 PM
2763	University of Washington Medical Center Harborview Medical Center VA Puget Sound Medical Center Seatac Airport Eastlake	11/8/2014 7:23 PM
2764	2nd Ave & Bell St, Broadway E & E John St, Pike St & 11th Ave E, 24th Ave NW & NW 60th St, University of Washington, Seattle Central Community College, Pike Place Market, Museum of History and Industry, Bullitt Center, Northgate Mall, Seatac Airport, 19th Ave E & E Mercer St	11/8/2014 7:22 PM
2765	From Capitol Hill to Queen Anne	11/8/2014 7:12 PM
2766	I would like more parking at the Tukwila LLR station so I could drive there, then take the train to the Cap. Hill station. Then I could probably bike to work easily, though getting back to the station after midnight on my swing shift job probably wouldn't work, now that I think about it! You'll need to expand the hours of the train. I work at 1616 Eastlake so a bus that goes from the station down to eastlake would be nice. Also, having more security on the train is essential. i've heard of too many robberies as it goes through the Central District. In these hard economic times, it's only going to get worse.	11/8/2014 7:07 PM
2767	Wedgwood/NE97th and 35th Ave to Downtown/5th and Pine for work	11/8/2014 7:00 PM
2768	I would like to get to the Husky Stadium light rail station on a bus from my Olympic Hills neighborhood.	11/8/2014 6:58 PM
2769	Currently most often from Capitol Hill to: Downtown International District Seatac Airport Northgate Would like a quicker/easier route to: Ballard University Village Wallingford	11/8/2014 6:34 PM
2770	downtown, stadiums, u district, airport, bellevue, mukilteo, everett, olympia.	11/8/2014 6:23 PM
2771	UW SeaKtac Mercer Island Queen Ann Hill Sea Center	11/8/2014 6:16 PM
2772	UW/Ballard	11/8/2014 6:10 PM
2773	University of Washington from Queen Anne	11/8/2014 6:02 PM
2774	would like to go to airport on transit	11/8/2014 5:56 PM
2775	downtown core Montlake SR520 stop	11/8/2014 5:26 PM
2776	Capitol Hill, downtown, Redmond, Seattle Center. Would really like improved transit to University Village	11/8/2014 5:24 PM
2777	From home near the 65th P&R to University tunnel station downtown Seattle for work. From downtown to the airport on link light rail. Occasionally from downtown to Capitol Hill. Excited for the station to open near me to take the train directly to the airport. I wish there were better cross town options, such as from QA to Capitol Hill, from Roosevelt/Ravenna to Ballard.	11/8/2014 5:19 PM
2778	My usual trips are from Capitol Hill to downtown and back. Typically I leave from around either Broadway or 15th and Republican St	11/8/2014 5:17 PM
2779	All over Seattle from Ballard to Columbia City	11/8/2014 4:49 PM
2780	Cap hill to Fremont for work. The light rail to airport is the best! To the waterfront (piers) would be nice.	11/8/2014 4:32 PM
2781	I currently go to work in Redmond and Kenmore by bus. Also, use transit for non work destinations in Capital Hill, Downtown, Ballard, Fremont, Wallingford, U-district, Central District, Columbia City. Would like to have much quicker ride times (light rail) to Fremont, Wallingford, and especially Ballard. Currently it is much quicker to drive to Ballard than ride the bus.	11/8/2014 4:29 PM
2782	Between Edmonds, Mountlake Terrace and Aurora village to downtown Seattle.	11/8/2014 4:29 PM

2791	Downtown (Aspira) to Capitol Hill (10th avenue and john, 15th and john), Downtown to SoDo (1st and lander), Downtown to Fremont (34th avenue)	11/8/2014 3:03 PM
2792	I go from downtown to capitol hill usually nd sometimes north to northgate	11/8/2014 3:02 PM
2793	Downtown Seattle, Capitol Hill, 15th and Pine, 15th and John, Volunteer Park, UW	11/8/2014 3:00 PM
2794	I would like to be able to reliably and quickly get between neighborhood centers without having to loop through Downtown and it taking 2 to 3 times longer than driving or biking. Busing form 23rd and Cherry, 15th and Republican, or Madison Valley to downtown can take almost as long as walking, especially during rush hour. Busing from Pratt Park to Volunteer Park (traveling north/south through the Central District or Capitol Hill) you'd be better off walking. You'd have to walk most of the distance getting to and from the bus stops anyways. We need access that connects the inner neighborhood centers with short travel times and frequent service. Connecting North Beacon Hill, North Rainier Valley, Columbia City, Mt. Baker, Little Saigon, Seattle U, the CD, Madison Valley, Capitol Hill, North Capitol Hill, U District, South Wallingford, North Wallingford, Greenlake, Fremont, Phinney, Ballard, Queen Anne, West Lake, South Lake Union, and SODO.	11/8/2014 2:50 PM
2795	Pretty much literally everywhere in the city?	11/8/2014 2:45 PM
2796	University of Washington, SEATAC airport	11/8/2014 2:17 PM
2797	University of Washington Downtown (various destinations in Pike/Pine/Union area) Ferry terminal Airport	11/8/2014 2:17 PM
2798	from CapHill (summit & olive) to downtown core, or Belltown, or transfer to Ballard also, Uber to Westlake, LINK light rail to airport and same in reverse I'd like to able to light rail from CapHill direct to airport! I will also streetcar from CapHill to Intl District/Pioneer Square and Univ Village when streetcar service begins!	11/8/2014 2:07 PM
2799	Fremont Wallingford Downtown Capitol Hill University District Stadium Downtown Bellevue Microsoft Campus	11/8/2014 2:04 PM
2800	I would like to be able to go from downtown to UW near Husky Stadium and Arena so I can go to basketball games with more evening and frequent service, and then back to connect with ride to West Seattle.	11/8/2014 1:46 PM
2801	From Capitol Hill I usually go downtown or I go to the University District on transit. ... What would be really great is a bus that circles the neighborhoods surrounding Lake Union - e.g., Capitol Hill, U District, Wallingford, Fremont, maybe Ballard, then Queen Anne/Uptown, Belltown, Downtown, and back to Capitol Hill. This would prevent having to take two buses to Fremont, for example, which is a disincentive to using the bus. ... Some other areas I would like to be able to get to easily: Green Lake, Roosevelt District, U Village, Golden Gardens.	11/8/2014 1:28 PM
2802	I currently go to Downtown, U-District, Queen Anne, LQA, Cap Hill, Northgate, SLU, Sandpoint, Downtown, Fremont, Bellevue, Crossroads, Factoria, Somerset, Redmond, Bothell, North Rainier, and Issaquah.	11/8/2014 1:15 PM
2803	NE seattle (Sand Point at 70th) to SOUTH LAKE UNION! (without going downtown or through UW to transfer...) South Lake UNION needs to be a destination coming from the northeast. Currently to go 6 miles from NE seattle/sand point, it's 45 minutes with a transfer. TToo many buses land at UW or downtown. I hope that with UW having its own rail station, this will free up the NE Seattle bus system to connect at hubs OTHER than UW.	11/8/2014 1:15 PM
2804	Transit is primary mode of transit as I do not have a car so I use it to go everywhere.	11/8/2014 1:13 PM
2805	Ballard, Downtown, University District, Sea-Tac Airport	11/8/2014 1:13 PM

2806	I go Kirkland, west Seattle, northgate. I would love to go to federal way, Northgate, Mont lake terrace , and downtown Bellevue.	11/8/2014 1:02 PM
2807	A big gap in service is the service along 10th Avenue, north of Aloha street. I am in my 70s and cannot easily walk the 3/4 of a mile from E. Blaine to Aloha/Roy. My only bus connection to downtown is the old 7 (now 49). The service to this part of Capital Hill has been unfairly ignored because we are away from the transit HUB on Broadway. The result is we have next to no coverage. I have lived in the same home for 45 years and have always taken the bus to downtown for shopping and doctor appointments. It is becoming increasingly difficult with the reduction in stops and the reduction in service along this stretch.	11/8/2014 12:32 PM
2808	2401 Utah Ave. South	11/8/2014 12:26 PM
2809	capitol hill, lower queen anne, fremont, Bellevue, u district, downtown	11/8/2014 12:20 PM
2810	1) Seattle Central Community College 2) SeaTac Airport 3)Mount Baker 4) Burien	11/8/2014 12:06 PM
2811	Fremont from First Hill / Would be nice for something from lower First Hill to Capitol Hill. Or some direct from the area to Fremont	11/8/2014 11:59 AM
2812	Work, at NOAA's Western Regional Center and downtown.	11/8/2014 11:54 AM
2813	I used to be able to go downtown on Route 47 (which you carefully left out of your survey), especially since it ran right in front of my building. I used it to shop and do errands on Pike and Pine, as well as get to places like the Seattle Art Museum. Now that you have cut the 47, I have to hike up to Broadway with my guide dog, to get a bus to get downtown. since I'm blind, this not only means a trek at all hours and weather conditions, it, it also means I have to learn new routes - not only which buses go where, but how to get from bus stops to my destination, and where to get buses back home. My guide dog doesn't read, so he can't help until we've both been able to learn new routes. It never ceases to amaze me how little people - including bus drivers - know about how to get around the city on foot and/or taking more than one route to get there.	11/8/2014 11:51 AM
2814	Seatac, Capitol Hill (all parts), any bus near 13th E/Harrison E, downtown shopping core, downtown gvt bldgs, Ballard, UW, Belltown, 2nd/Vine, Colman Pool/Lincoln Park	11/8/2014 11:48 AM
2815	Downtown, King Street Stn., Bellevue	11/8/2014 11:48 AM
2816	University Book Store in U District 95th and Aurora on the E Rapid Ride NW 85th and 15th Ave NW NW 85th and Fremont SeaTac airport	11/8/2014 11:46 AM
2817	Work, airport, grocery store, friends houses, shopping downtown, I wish I could take the bus to the uvillage it doesn't always have the safest service	11/8/2014 11:18 AM
2818	First avenue Sodo near waterfront, Pier 36 is greatly lacking transit options. I have to walk about a mile to catch a bus. I'd really like to see 1st Ave service restored. Connections between Kingsgate/Brickyard P&Rs to Bothell are very poor. Using bus takes an hour to go 4.5 miles from my home, only slightly faster than walking that distance. 520 buses make it painful to ride during rush hour, as they get stuck in traffic, esp. the 405N on ramp. It's much faster to drive from Seattle to Kirkland using I90. Reroutes to bypass this on-ramp should be implemented, although ideally HOV options should be implemented.	11/8/2014 10:43 AM
2819	Home (92nd/Lake City Way), work (UW), Downtown/Capitol Hill, Fremont, Ballard, Wedgwood	11/8/2014 10:40 AM
2820	VA Medical Center Beacon Hill Capitol Hill Library UW Medical Center Northshore Senior Center Bothell Sno-Isle Library Mill Creek	11/8/2014 10:21 AM
2821	I go to from: Capitol Hill (home) Belltown (work) Downtown Stadium District (Sounders FC season ticket holder) University District Ballard Sea-Tac airport And very occasionally, Bellevue.	11/8/2014 10:17 AM
2822	South lake Union, mercer and terry, 49th and wAllingford ave, seatac airport	11/8/2014 10:17 AM
2823	Sea-Tac Airport, downtown Seattle, UW	11/8/2014 10:14 AM
2824	Redmond Capitol Hill Downtown	11/8/2014 10:11 AM
2825	Currently I go to the UW or Ballard with transit. Occasionally I take buses from downtown to Capitol Hill and vice versa. In the future I would love to be able to take a light rail-esque train to Ballard or the UW. I would also love to be able to take a bus from downtown Seattle to Ballard (and vice versa) that is faster than the 40 or the Rapid Ride. The 17 and 18 are great, but only run at certain times during the day. A great and fast bus route to Ballard from downtown could run on the same route map as the 17 and 18, but stop at more frequent stops (such as some of the Rapid Ride stops).	11/8/2014 9:51 AM

2826	3rd and pike. Sullivan st sw. 15th e and aloha. 10th Ave e and prospect. Lower woodlands park. Eastlake and lynn st	11/8/2014 9:42 AM
2827	Seattle International Hostel 520 S King Metro's Central Base 1333 Airport Way S. 7551 Ravenna Ave NE 2205 NE 65th Woodland Park Zoo N 55th & Phinney Ave N.	11/8/2014 9:22 AM
2828	Downtown, International District, University District, Fremont, Ballard, Lower Queen Anne.	11/8/2014 9:08 AM
2829	6th & Seneca	11/8/2014 9:02 AM
2830	I go from the central district to queen anne. I love the 8 and hope it gets even better.	11/8/2014 8:59 AM

2856	on 15th Ave NE and NE 196th Street in Shoreline	11/7/2014 11:51 PM
2857	Living around Madison & 22nd, I go to Bellevue (Bellevue Transit Center) for my daily work commute. Downtown / Broadway / International District on the weekends. I would love to be able to get to Bellevue more easily. In the mornings at least, it's MUCH quicker for me to drive to work than take the bus, which is frustrating (in the evenings it seems to be about the same). I've been looking to move out of my apartment to elsewhere in Seattle, perhaps in this same neighborhood, perhaps not... and when exploring the latter option, my bus commute to Bellevue has proven to be quite the limiting factor. Many places I look seem to make my bus commute worse!	11/7/2014 11:49 PM
2858	Pioneer Square, Fremont, Ballard, Georgetown, West Seattle/Alki Beach, Capitol Hill	11/7/2014 11:10 PM
2859	There should be a route between Sea-Tac Airport Station and Tacoma/Lakewood that does not also stop along every Park & Ride on I-5. This fails to take advantage of the HOV lane and slows trips considerably. Also, service between Olympia and Seattle should be daily. Specifically, the last northbound 592 should depart Olympia at 7:35, to allow for the first Grays Harbor Transit bus from Aberdeen to connect to the 592 (currently, the last bus of the morning departs about 15 minutes before the GHT bus arrives at the Olympia Transit Center).	11/7/2014 11:08 PM
2860	From Ravenna to everywhere in Seattle (I don't drive). I'd like it to be easier to get to the Seattle Center (one bus) and Fremont, particularly in the evenings. I wish the Sounder would make more runs to the Puyallup Fair.	11/7/2014 11:05 PM
2861	West Seattle Junction	11/7/2014 10:53 PM
2862	I live on Capitol Hill and go to Westlake Center and the airport. Would like to go to U Village more. Work in SLU.	11/7/2014 10:41 PM
2863	Everywhere	11/7/2014 10:33 PM
2864	Bus stop on the intersection of Lake Washington Blvd & Madison St. Downtown Seattle (Rainer Square) Space Needle The new link rail station that will open on Broadway The new station at UW	11/7/2014 10:25 PM
2865	U District to Downtown Seattle, Wallingford, Capitol Hill, Northgate, Rainier Valley, Bellevue, Seattle Center	11/7/2014 9:55 PM
2866	Downtown Capitol Hill Ballard	11/7/2014 9:50 PM
2867	Downtown Seattle, Capitol Hill, Northgate, Redmond/Education Hill, Boeing Field, Southcenter, Downtown Bellevue, Issaquah, SeaTac Airport	11/7/2014 9:46 PM
2868	Downtown Seattle and the Central District and the Seattle Center 5 days a week	11/7/2014 9:43 PM
2869	All locations should only be accessible by private car.	11/7/2014 9:38 PM
2870	Queen Anne to Madison Park Madison Park to Ballard Madison Park to Fremont Queen Anne to University district Seattle to Olympia	11/7/2014 9:28 PM
2871	I mainly go from/to Meadowbrook and 701 5th Avenue in Seattle. Also from Meadowbrook to First Hill (medical clinics), and occasionally from 701 5th Avenue in Seattle to First Hill. I wish the ST522 stopped at Lake City Way and NE 110th Street.	11/7/2014 9:22 PM
2872	Downtown King street station 15th and pine Broadway and pike Capital hill branch library Uw campus Ballard (market and Leary) 45th and Wallingford South lake union Airport	11/7/2014 9:01 PM
2873	Downtown library, Capitol hill, U-district, U-village, Wallingford, Ballard, Costco in SODO	11/7/2014 8:55 PM
2874	work: ravenna/bryant - 201 s jackson street various others	11/7/2014 8:45 PM
2875	From kenmore to kirkland, woodinville, lynnwood, bothell, north green lake, downtown, to seatac airport, capitol hill, ballard, greenwood. The main problem with getting to these places now is that it is inefficient and takes a long time.	11/7/2014 8:44 PM
2876	Denny triangle; neighborhood around 1730 minor ave	11/7/2014 8:43 PM
2877	Cap Hill - > UDistrict -> Redmond and back	11/7/2014 8:28 PM
2878	downtown seattle, downtown bellevue, overlake	11/7/2014 8:19 PM
2879	I take transit to downtown, Seattle Center, Capitol Hill, University Village, SeaTac Airport, Pioneer Square and waterfront area. My starting point is usually where I live, Judkins Park area.	11/7/2014 8:18 PM

2880	522 or 312 from Lake Forest Park (SR 522 and Ballinger to Downtown Seattle). The only issue is the traffic along Lake City south of 145th. No bus only lane, which puts the bus in traffic. There is an ever increasing amount of traffic on Lake City. Mountlake Terrace Park and Ride to Downtown Seattle. I would like Stewart Street exit to have bus/carpool lane or to route these busses on the Pike exit. Taking these busses is very painful and long. It's actually insane to sit parked on the freeway with all the car trying to exit Stewart. Please change this.	11/7/2014 8:05 PM
2881	University Bookstore, University Way NE University Village Magnolia Village	11/7/2014 8:01 PM
2882	I currently travel from my home on 35th ave NE and 92nd st to my work downtown at 801 2nd ave. I mostly use the northgate park and ride to get there because the bus that runs near my house is very unreliable. I would like to ride from my house into downtown more easily.	11/7/2014 7:59 PM
2883	u of w downtown lake city	11/7/2014 7:20 PM
2884	I go from capitol hill to downtown, seattle center mostly. Usually I walk one way and bus the other. I take the light rail to the airport 4-5 times a year, and light rail around town when it goes where I need I take cabs home from downtown if it is late...waiting for the bus is scary I wish I could take transit to and from home on Capital hill and work in Bothell..it is currently impossible given the parameters I deal with and I doubt there will be much change before I retire. I wish I could get the university village from capitol hill via transit	11/7/2014 7:17 PM
2885	For work: Kenmore P&R For other: downtown, UW, International district, beacon hill, columbia city, the airport Where I would like to go if it were fast and frequent: ballard, fremont, west seattle, lake city, northgate	11/7/2014 7:17 PM
2886	Everywhere	11/7/2014 7:15 PM
2887	u district downtown international district ballard fremont queen anne airport	11/7/2014 7:10 PM
2888	I commute daily from Columbia City to my office in Northgate. Better Coordination with the Route bus and the Columbia City Light Rink would be greatly appreciated. And Rainier Avenue needs some kind of express from downtown at commuter hours. You've taken them away all express options down Rainier except the Route 9 from Broadway. That corridor is one of the heaviest used areas for Metro.	11/7/2014 6:46 PM
2889	Work, downtown Seattle, U District. I would like to be able to go from my home in Bellevue (east of downtown Bellevue) to downtown Seattle and/or the University District.	11/7/2014 6:46 PM
2890	I go to and from work at the Univ of Washington. I usually commute via bus 167 from Renton. Traveling on the east side I also use bus 556 if I get a ride (friend drops me off at Eastgate). I use Bus 75 to go from UW to Children's hospital for meetings. Future - interesting if could go from Renton to light link rail. I live near Renton technical college.	11/7/2014 6:42 PM
2891	I would like to go from Sand Point Way/65th NE directly to UW Stadium light rail station, bypassing U-District. There are a lot of commuters in View Ridge/Sand Point that would like to use light rail to get downtown for work, but will not use light rail in 2016, due to current bus routes.	11/7/2014 6:40 PM
2892	Queen Anne to Capitol Hill	11/7/2014 6:21 PM
2893	Mostly View Ridge to downtown and back. Would like View Ridge to UW light rail, and View Ridge to Redmond (Microsoft).	11/7/2014 6:18 PM
2894	North Seattle, Ballard, Bellevue, Downtown, U District	11/7/2014 6:02 PM
2895	University Village, Downtown, U District, First Hill	11/7/2014 6:01 PM
2896	Downtown, Seattle Center, Ballard, Fremont, University District, Capitol Hill, Swedish Medical Center on Cherry Hill	11/7/2014 5:57 PM
2897	Ballard kent Renton west Seattle	11/7/2014 5:50 PM
2898	When the 47 was cancelled, my (and a huge group of people in one of the fastest growing neighborhoods in Seattle) main source of reliable and dependable transportation for work and play was taken away from me. This is such a shame, as many elderly, blind and disabled people live along this 47 route are now without a bus system that supports them, and the 43 and 49 are neither reliable nor close for someone who lives at Bellevue and Roy. I also think that it's crazy that there is not a route from North Capitol Hill that does not go to the main financial/office district of downtown where we're all trying to commute to! I live in Capitol Hill for the convenience/central location, but have to take 2 buses and 45 min to get to work at Madison St and Western Ave. Crazy. MY IDEAL: Bring the 47 route back (same stops as before on Summit and Bellevue), but extend the route to go South on 1st, 2nd or 3rd ave (1st would be my preference) and then return the same way (with stops on 1st at Madison), so we can get home from work. BONUS: If there was an easy way to get to Ballard (maybe via Westlake) from Capitol Hill, that would be incredible!	11/7/2014 5:47 PM

2899	Home is Bellevue, between Olive and Pine. [here, you will know my entire life by the journeys I take.] Work, BTC, from home: 545 -(montlake, upstairs or downstairs)-> 271 / 555. There is a fellowship of people who have to do this double-decker OBA-juggling -- others are managing the 255 / 540 split, or the 545 / 542 split. I prefer this route over the 550 because I have a 0-min walk to the first bus, the buses are more frequent, it's faster, I don't have to enter the tunnel (no cell coverage, bad air, dark), at no point do I have to walk downhill or deal with a stoplight (knee problems, impatience@Boren/Pine) Gym, 36th and Fremont, from work: 271 --(15th)--> 31 / 32. When 84th ave isn't a standstill (and it's really mysterious when it does clog up; it's also really mysterious why there is an expensive planter in the middle of the road instead of a bus lane or a bike lane), this trip works out really well. But because 84th is so unreliable, at least in summers, I've actually stopped going to this gym. "Small businesses of Fremont suffer due to Medina congestion" Home from Work: 555 --(any 520 stop)--> 545 / 255. See previous about the unpredictable clogs in Medina. Before the huge planter and median of the 84th ave entrance to 520 was installed, the 271 was the sure bet for the first leg. Singing, Crown Hill / Greenwood: Pronto/10/11/43/49 (3rd / pine) -> 5 / D / 40 These are irrelevant to the UW LINK considerations EXCEPT to underscore that LINK will not be useful in my getting downtown due to a lack of station in SW Cap hill. Thus, please retain something like the 10 / 47. Where would I like to go? U district (there are a lot of dance classes in the u district that just aren't worth going to because it takes 40 min to get home): I'll assume that there are good feeder buses from the Ave towards the stadium.	11/7/2014 5:33 PM
2900	SeaTac, University District, Downtown. I would like the Link Light Rail to go from my home in SeaTac all the way to UW (my school). It would really change a lot for me.	11/7/2014 5:31 PM
2901	811 E howe Downtown U-district I go pretty much everywhere on the bus, so it could be a really long list	11/7/2014 5:17 PM
2902	From 25th Ave NE and NE 55th St. I go to: Capitol Hill - St. Mark's Cathedral, Broadway, Pike/Pine corridor Century Link Field and Pioneer Square Pike place market, Paramount theater, Benaroya hall Fremont and Ballard	11/7/2014 5:15 PM
2903	I commute daily on ST 594/590 to UW Tacoma from the Bus Way stop on the corner of Royal Brougham and back. I'd love to take the Sounder, but there are no times when normal people are going to Tacoma or leaving Tacoma available.	11/7/2014 5:14 PM
2904	Microsoft / One Microsoft Way, Redmond, WA 98052 / ST 545 Downtown Seattle / Westlake / 49 or 43 Whole Foods / Denny & Westlake / 8 UW / 49	11/7/2014 5:11 PM
2905	View Ridge (NE 65th St and 40th Ave NE) Downtown Northgate	11/7/2014 5:10 PM
2906	Currently: Tacoma (594) Capitol Hill (Broadway and Republican) to Link at Westlake Link from Westlake to International District Link from Westlake to Beacon Hill Future: Streetcar from Broadway at Capitol Hill Station to International District Link from Capitol Hill Station to International District Link from Capitol Hill Station to UW to University Village Link from Capitol Hill Station to Northgate Mall Future Wishful Thinking: Link from Capitol Hill Station to Tacoma Link to everywhere	11/7/2014 5:08 PM
2907	Currently I live in North Capitol Hill. I would like to be able to get downtown to work for 6am. The 47 was cut and now I am stuck walking or biking. Both the 43 and 49 run too early (get to downtown at 530am) or too late (get to downtown at 615) at this time in the morning.	11/7/2014 5:07 PM
2908	From home (11th Ave E and Denny) to work Northgate Mall	11/7/2014 5:03 PM
2909	West First Hill to Lower Queen Anne; West First Hill to Broadway shopping center; West First Hill to UW; West First Hill to Westlake Mall; West First Hill to Group Health 15th & John. For west first hill 725 9th Avenue (9th & Columbia)	11/7/2014 4:58 PM
2910	I currently travel between Northgate and downtown Seattle. I would like faster service between north Greenwood (north of 105th Street) and downtown Seattle.	11/7/2014 4:58 PM
2911	Everywhere	11/7/2014 4:53 PM
2912	Eastlake to downtown Seattle. Eastlake to Seattle Center, Fremont and Ballard	11/7/2014 4:52 PM
2913	From the Admiral District in West Seattle (SW Admiral Way and California Ave SW) to the University of Washington Seattle campus.	11/7/2014 4:46 PM
2914	I sold my car. I go ALL around the city on transit especially, green lake, downtown, capital hill, first hill, queen anne, and magnolia	11/7/2014 4:45 PM
2915	Listed by most frequent to least frequent: My home: 2512 E Madison St, 98112 My Work: 500 4th Ave, 98104 UW Pavilion Pool Green Lake Madison Park Ballard Sea-Tac Airport	11/7/2014 4:30 PM
2916	I go where I need to- grocery stores, downtown, to friends' houses, etc.	11/7/2014 4:30 PM

2917	Westlake Center, University of Washington, Seattle Public Library, Seattle Central College	11/7/2014 4:27 PM
2918	UW IMA (Husky Stadium) Seatac Downtown (benaroya area) Capitol Hill 85th/Greenwood Downtown Ballard	11/7/2014 4:26 PM
2919	Downtown, UW, light rail Mt Baker station	11/7/2014 4:21 PM
2920	Madison Park Husky Stadium Pill Hill Benaroya Hall Downtown Seattle	11/7/2014 4:16 PM
2921	Green Lake Park & Ride, Bellevue Transit Center, Northgate Transit Center, Downtown Bus Tunnel, University of Washington on "the ave"	11/7/2014 4:14 PM
2922	From West Queen Anne to SLU without going through downtown	11/7/2014 4:12 PM
2923	I commute from Cap Hill to the NE Seattle, View Ridge, everyday for work. I use the #43 or #49 and the #71 everyday! I use buses to get from downtown to Cap Hill often and in the evenings after the theater. I use the bus to get to my doctor on First Hill.	11/7/2014 4:11 PM
2924	Downtown Seattle, Belltown, University District, Fremont, Greenwood, Bellevue, Redmond, Kirkland, Renton, Rainier Beach, SODO, Columbia City, Madison Park, Mount Baker	11/7/2014 4:11 PM
2925	virginia mason hospital pike place market	11/7/2014 4:11 PM
2926	Downtown, Safeco Field, Pioneer Square area; airport	11/7/2014 4:10 PM
2927	Beacon Hill to Downtown, Beacon Hill to Capitol Hill	11/7/2014 4:10 PM
2928	Sports stadia downtown	11/7/2014 4:08 PM
2929	UW campus Seattle to Downtown Seattle. UW Campus to Lake Stevens WA.	11/7/2014 4:05 PM
2930	Capitol hill, ballard, Fremont, downtown, uw	11/7/2014 4:04 PM
2931	I currently go to the International District, South Lake Union (Dexter and Denny), 21st and James, The University of Washington, Link Light Rail downtown station.	11/7/2014 4:02 PM
2932	Capitol Hill Downtown Seattle Bellevue	11/7/2014 3:57 PM
2933	Work (Harborview and UWMC) Downtown Seattle Center University District airport	11/7/2014 3:52 PM
2934	Madrona 34/Union, UW campus, Broadway on Capitol Hill, SCCC, Pike Place Market	11/7/2014 3:50 PM
2935	University of Washington The Airport Downtown Safeco Field	11/7/2014 3:48 PM
2936	Northgate, UW, Downtown Seattle, Capital Hill, SODO, Bellevue, Alderwood, Ballard, Fremont, Kirkland, Redmond, Greenlake, Seattle Center	11/7/2014 3:46 PM
2937	Pier 50/water taxi Seattle Central College North Seattle College South Seattle College University of Washington Seattle-Tacoma International Airport King Street Station West Seattle/Juction Fauntleroy Ferry Terminal On Vashon Island to/from ferry terminal	11/7/2014 3:38 PM
2938	Home (3408 NE 65th St.) to: -Downtown -Colman Dock and Water Taxi -University District -Seacrest Park (via Water Taxi) -Alki Beach (shuttle from Water Taxi) -Admiral & California (shuttle from Water Taxi) Would like to go to Ballard	11/7/2014 3:38 PM
2939	Ballard-Capitol Hill; Ballard-University District; Downtown Seattle-Capitol Hill; Downtown Seattle-University District; Downtown Seattle-Ballard	11/7/2014 3:38 PM
2940	I currently take the 65 from 40th Ave and NE 55th St. to the UW Medical Center (Garfield lane), and back. I also take the 74x downtown (when it runs, which is rare and only rush hour). I usually have to take the 71 instead on 65th to downtown. I would like to go downtown, south lake union, and/or capitol hill and back at any hour to my neighborhood in NE seattle (Bryant), without being forced to transfer in the U. District. Obviously a metro service would be preferred.	11/7/2014 3:38 PM
2941	University of Washington, would like an option to go from 35th ave S & Massachusetts to UW	11/7/2014 3:32 PM
2942	7th and Olive, 12th and Aloha, restaurants in Capitol Hill and downtown	11/7/2014 3:30 PM
2943	I would like to be able to get from somewhere near lake city way and NE 85th street to Ballard more easily. It currently takes much more than an hour to bus over there (Cafe MOX, Swedish hospital, for example). I bus up to lake city from around 85th street a lot, and down toward the university (taking the 72 mostly).	11/7/2014 3:27 PM

2944	Downtown, SLU (Amazon campus), Maple Leaf (95th/15th, 95th/Roosevelt), Northgate, U-District, Queen Anne Hill	11/7/2014 3:25 PM
2945	go now: UW, Central District, Capitol Hill, occasionally downtown. would like to go more: volunteer park, ballard direct from capitol hill, an easier route connecting southeast and northwest capitol hill.	11/7/2014 3:24 PM
2946	Mercer Island, Bellevue, Seattle, North Seattle.	11/7/2014 3:18 PM
2947	Downtown Seattle, Seattle Pacific University, Everett, Tacoma, Sea Tac Airport, Fairwood, Renton Highlands, Bellevue Transit Center, Renton Transit Center, University District, Marymoor Park, Overlake Transit Center	11/7/2014 3:17 PM
2948	Downtown Redmond to Downtown Seattle	11/7/2014 3:13 PM
2949	Madrona, Downtown, Central District, International District, SoDo, Seattle Center, University District, Capitol Hill, Kirkland CBD, Juanita Drive in Kirkland (Big Finn Hill, Bastyr)	11/7/2014 3:11 PM
2950	I primarily go from north capitol hill to pioneer square and from pioneer square to TOPS school on Eastlake Ave E.	11/7/2014 3:06 PM
2951	Faster trip downtown during non-peak hours	11/7/2014 3:06 PM
2952	U-dist, dwntn., wallingford, lake city, issaquah, bellevue	11/7/2014 3:01 PM
2953	1310 Minor Ave to Husky Stadium 1310 Minor Ave to Sea-Tac Airport 1310 Minor Ave to Key Arena 1310 Minor Ave to Greenlake Park 1310 Minor Ave to Miller Community Center	11/7/2014 3:00 PM
2954	Downtown Seattle Green Lake Community Center Group Health Capitol Hill Group Health Northgate Northgate Mall University Village Mall University Bookstore University YMCA Wallingford Center Seattle Center Fremont N & N 34th Roosevelt NE & NE 90th	11/7/2014 2:54 PM
2955	Currently: Downtown, U-District, Central District, Greenwood, SODO, Ballard, Fremont, Lower Queen Anne, Capitol Hill. Specifically, all of downtown, all of U-District, Starbucks corporate in SODO, Ballard Farmer's market, 35th in Fremont, Space Needle/Seattle Center, along Broadway and 12th/Pike, 85th & Greenwood	11/7/2014 2:43 PM
2956	I often use transit to get from Lower Queen Anne or Downtown Seattle to Capitol Hill or Columbia City. I would greatly appreciate more reliable or frequent options to get from Columbia City/Mount Baker area to West Seattle.	11/7/2014 2:41 PM
2957	UW, downtown, airport, capitol hill, Ballard, downtown Bellevue	11/7/2014 2:36 PM
2958	Downtown Seattle. SeaTac Airport.	11/7/2014 2:36 PM
2959	Downtown Seattle (including Belltown and Pioneer Square), South Lake Union, First Hill, Fremont, Ballard, UW, Bellevue, Queen Anne (upper and lower), Interbay.	11/7/2014 2:32 PM
2960	Pill Hill UW Seattle Childrens Northwest Hospital Downtown/ pike place Market South Lake Union	11/7/2014 2:32 PM
2961	downtown Seattle, 4th & Marion to/from home on 53rd NE & 65th NE once SEATAC light rail to 74 to 53rd NE & 65th NE	11/7/2014 2:32 PM
2962	2305 S. Norman St, Seattle WA 3958 S. Lucile St, Seattle WA 360 Corporate Dr S Tukwila WA 506 29th Ave Seattle WA 1602 15th Ave W, Seattle, WA 23rd and Jackson Seattle WA S. Edmunds and Rainer Ave Seattle WA Olive and Broadway Seattle WA Ames Lake, Redmond WA	11/7/2014 2:31 PM
2963	Shoreline Library Aurora Village Edmonds Community College	11/7/2014 2:29 PM
2964	currently 35th av ne & N 65th St to Tunnel Stations currently 35th av ne & N 65th st to 8th and Stewart St currently 35th av ne & N 55th st to Tunnel Stations	11/7/2014 2:21 PM
2965	Home (Mukilteo), University of Washinton, downtown,	11/7/2014 2:19 PM
2966	More bus options that connect to Seattle Children's Hospital	11/7/2014 2:18 PM
2967	6th & Pike	11/7/2014 2:17 PM
2968	I would like to be able to go everywhere on transit.	11/7/2014 2:06 PM
2969	All over the city... and occasionally outside the city... Bellevue, Tacoma, Everett, Puyallup Fair	11/7/2014 2:01 PM
2970	Capitol Hill from Tukwila. Tukwila to Capitol Hill.	11/7/2014 2:00 PM
2971	seatac, downtown stations, udist, intl and central dists, cap hill, south lake union, wsea, sodo, south seattle, sumner	11/7/2014 1:59 PM

2972	I use transit to commute to work from the U-district or Roosevelt as well as to go to various destinations including Bellevue, Mangnisun park, Northgate, Ballard, etc.. One current problem in NE seattle is poor cross-connectivity between Ballard and Ravenna/Greenlake/Rosevelt.	11/7/2014 1:50 PM
2973	Pioneer Square, Ballard, Fremont, U-district	11/7/2014 1:49 PM
2974	Seahawks and Mariners games	11/7/2014 1:41 PM
2975	I take a vanpool from Maple Valley to UW. I'd like to see light rail from the East side to UW and from the North to UW.	11/7/2014 1:34 PM
2976	Primarily between Downtown Bellevue and (in this order of use): 1. Overlake (microsoft) 2. Downtown Seattle 3. South lake union 4. UDistrict 5. Greenlake 6. Fremont 7. Airport	11/7/2014 1:30 PM
2977	I go downtown on Transit and would like easier access to Capitol Hill from North Seattle.	11/7/2014 1:30 PM
2978	I currently go to UW and Downtown. I'd like to be able to go to South Lake Union or the east side without having to transfer many times and having it take well over an hour.	11/7/2014 1:30 PM
2979	Madison and Western Ave Mercer and 19th Mercer and 15th	11/7/2014 1:24 PM
2980	Between Downtown and E. Madison St.; Better reliable and fast transit to U-District, Ballard, Columbia City, Georgetown, etc. I don't venture to these neighborhoods from Capitol Hill often because of bus scheduling, unreliability, and the amount of time it takes to get there.	11/7/2014 1:23 PM
2981	This is where I go d/t: Nordstrom, WAC, SPL, The Market U District: UW campus, U Book Store Where I'd like to go U Village	11/7/2014 1:22 PM
2982	Capitol Hill (Cal Anderson Park area), UW, Greenwood, Downtown	11/7/2014 1:22 PM
2983	1036 S Jackson St, Seattle, WA 98104 339 Burnett Ave S, Renton WA 98057 310 Third Ave NE, Issaquah WA 98027 21412 98th Ave S, Kent WA 98031 5050 8th Ave NE, Seattle, WA 98105	11/7/2014 1:20 PM
2984	Downtown Seattle, Bellevue, Sea-Tac Airport, Kirkland, Redmond, Ballard, University District, Capitol Hill, Lake City Ballard	11/7/2014 1:20 PM
2985	Ballard Capitol Hill UW Downtown Ravenna Seward Park Shoreline	11/7/2014 1:15 PM
2986	Looking for reasonable connection between home and airport. Efficient service between home and work (home: Greenwood Ave N & Holman Road, work: UW Medical Center on Pacific Street/UW.	11/7/2014 1:09 PM
2987	Market Street Ballard, Kirkland center, Issaquah, The Junction in west seattle, 2nd and Wall in Belltown. 1001 4th ave Seattle, Holman road QFC, Southcenter mall, Airport, The commens at Federal way, Maple Valley, Covington medical center, Cystal Mountian Resort, Stevens Pass ski resort, Ash way park and ride, Millcreek town center, Bellsquare mall (More late night please), Madison and Broadway, Broadway and Denny, Fishermans Terminal, Verticle world, Fremont, Lake Smamish, Hiking trails in the foothills like mount si, Kent Station, The Landing in Renton.	11/7/2014 1:08 PM
2988	Currently go from 509 NW 43rd St. to Union Station	11/7/2014 1:07 PM
2989	I commute from my condo near Othello Station to University street via Link.	11/7/2014 1:03 PM
2990	Everywhere - too many to list	11/7/2014 1:00 PM
2991	U-District, north UW Campus (Gates Hall), Northgate, Downtown	11/7/2014 12:57 PM
2992	You left off the 47 line above. It served many disabled,people who cannot walk up the hill. Please restore it.	11/7/2014 12:52 PM
2993	Downtown (Pike/Pine Corridor), Wallingford, U District, Capitol Hill/Broadway, Central District (MLK & E Cherry), International District A list of addresses would be ridiculous -- I don't own a car, I take transit virtually EVERYWHERE	11/7/2014 12:50 PM
2994	Downtown, University District, Ballard, Lower Queen Anne, Safeco Field, Sea-Tac International Airport.	11/7/2014 12:45 PM
2995	Currently to work to the King County Administration Building In the future, when light rail is available in the University District, I would like bus connections to the light rail from home	11/7/2014 12:45 PM
2996	11620 110th Ave NE, Kirkland to Microsoft Redmond Campus and back 11620 110th Ave NE, Kirkland to 231 NE 92nd St, Seattle and back 231 NE 92nd St, Seattle to Microsoft Redmond Campus and back 231 NE 92nd St, Seattle to downtown Seattle and back 231 NE 92nd St, Seattle to Capitol Hill and back 231 NE 92nd St, Seattle to 2366 Eastlake Ave E, Seattle and back	11/7/2014 12:42 PM

2997	I go to my office in downtown Seattle. I would like to be able to have better East-West connections as well as better feeder lines to major transit centers.	11/7/2014 12:41 PM
2998	Better service coverage to NW Seattle area like Sunset would be great.	11/7/2014 12:40 PM
2999	work, bars, lunch, weekend getaway (ferry)	11/7/2014 12:40 PM
3000	University of Washington, North Beacon Hill, Capitol Hill, Downtown, Ballard, and West Seattle (Camp Long, Alki Beach, White Center).	11/7/2014 12:39 PM
3001	Whole Foods at South Lake Union 85th & Greenwood Eastlake waterfront Ballard Ave.	11/7/2014 12:38 PM
3002	Downtown Seattle, Seattle Center	11/7/2014 12:37 PM
3003	West Seattle, Downtown, U district, Ballard, Fremont, Bellevue, Mt. Baker Neighborhood in Seattle, In a nutshell, all over	11/7/2014 12:34 PM
3004	UW Medcial Center U District 19th & Thomas Downtown Seattle Center	11/7/2014 12:33 PM
3005	I have no set schedule. I take transit when I need to travel farther than walking distance, there is a more or less direct route, and I don't have a load to carry.	11/7/2014 12:29 PM
3006	Harborview Medical Center, UW Campus, Ravenna neighborhood, downtown Bellevue	11/7/2014 12:28 PM
3007	University Congregational church, 16th Ave., Northeast and North East 45th, Seattle Seattle municipal Tower, 700 5th Avenue, Seattle St. Mark's on Capitol Hill 1026 ne 65th Street, Seattle	11/7/2014 12:21 PM
3008	Currently: From Edmonds Way in Edmonds to 405 Olive Way, Seattle. From Mountlake Terrace Freeway Station to 405 Olive Wy, Seattle. From Aurora Village Transit Center to 405 Olive Wy, Seattle. From Westlake Center to Broadway & Denny. From Westlake Center to 12th Ave E & E Pine St. From Westlake Center to SeaTac Airport.	11/7/2014 12:19 PM
3009	Mainly between 56th & Roosevelt and Pine & Broadway. Campus Parkway and Convention Place are common. Often get off the bus at the north end of the Ave.	11/7/2014 12:18 PM
3010	To work in downtown seattle, to school at UW, and home at 49th and Phinney.	11/7/2014 12:17 PM
3011	I currently do not use transit. The bus systems in Auburn, where I live, and Tacoma, where I work, are terribly sporadic, unreliable, inconsistent, and poorly linked with one another. Specifically, I'd like to be able to efficiently get from the Lakeland Hills neighborhood in Auburn (I can walk to anywhere in the neighborhood; the Sunset Park Park&Ride is a good spot) to the Old Town neighborhood of Tacoma (McCarver & N 30th St) for work, and to downtown Seattle for recreational opportunities on the weekend.	11/7/2014 12:14 PM
3012	Magnuson Park 401 Pike. 2404 NW 80th St Holy Names Academy Montlake	11/7/2014 12:13 PM
3013	19th E. & E. Thomas 6th & Pine Broadway & E. Pine Broadway & E. John	11/7/2014 12:12 PM
3014	I would like more service to Market/Leary in Ballard	11/7/2014 12:09 PM
3015	Northgate to Capitol Hill; 5th Ave in Northgate to Downtown; 12th/Madison to Queen Anne/Mercer; Downtown to Rainier Valley (on Rainier Avenue); Rainier/Edmunds to Downtown/Convention Pl/Capitol Hill; Judkins Park to Downtown; Northgate to U-Dist; Northgate to Redmond; Northgate to SODO	11/7/2014 12:02 PM
3016	Seattle center, amazon, Broadway	11/7/2014 12:00 PM
3017	Ballard, Fremont, Wallingford, Green Lake, Greenwood, Phinney, University District, Roosevelt, Maple Leaf, Ravenna, University Village, Bryant, Sand Point, Eastlake, Capitol Hill, South Lake Union, Belltown, Downtown, First Hill, SoDo, Mount Baker	11/7/2014 11:58 AM
3018	University of Washington Hospital Desert Industries federal way ILDS Church	11/7/2014 11:55 AM
3019	Downtown (Westlake Center)	11/7/2014 11:55 AM
3020	1) Up the hill to my doctors and the hospitals on First Hill. 2) Downtown Seattle for shopping, the theater, meeting friends at the Seattle Center.	11/7/2014 11:54 AM
3021	Where regularly go on transit is the University of Washington Medical Center. Where I would like to be able to go is Northgate Mall, UW, and downtown Seattle.	11/7/2014 11:53 AM
3022	Rainier Valley to Capitol Hill Rainier Valley to Queen Anne Downtown	11/7/2014 11:53 AM
3023	downtown Seattle, airport, downtown Bellevue, University of Washington	11/7/2014 11:52 AM

3024	Currently: Capitol Hill to South Lake Union, Lower Queen Anne, Seattle Center, downtown/Westlake Center Would Like: Capitol Hill to Fremont Ave, Wallingford (Stone Ave), University Village Mall	11/7/2014 11:49 AM
3025	I use transit regularly to travel from NE Seattle to downtown. I would like to have more frequent connections (especially weekends) from NE Seattle to easily reach Greenlake, Northgate, Magnuson Park, University Village and Lake City Way & 125th NE.	11/7/2014 11:45 AM
3026	All of these are from Capitol Hill Frequently go to: Downtown University district Would love to be able to get to upper Queen Anne easier Would love to get lower Queen Anne easier Would love to get to Ballard easier Would love to get to Fremont easier Would love to get to Wallingford easier	11/7/2014 11:44 AM
3027	work, airport, different neighborhoods I was excited about the U link until just now when I learned that the stop would be at the Stadium. That's almost 100% useless to me	11/7/2014 11:40 AM
3028	Would like more frequent service: >Eastern Wallingford to Husky Stadium Link >Eastern Wallingford to U-District Transit Nodes >Ballard to U-Village (without having to transfer at Campus Pkwy or walk at 45th and 15th) >Express service that becomes express starting in Wallingford and serving Downtown >U-District to Lake City	11/7/2014 11:38 AM
3029	1111 E Union St 925 4th Ave I would also like to be able to go from Capitol Hill to Ballard/Fremont on transit without having to transfer downtown.	11/7/2014 11:38 AM
3030	Downtown Bothell & Woodinville	11/7/2014 11:37 AM
3031	Northgate Mall, International District from Capitol Hill without going Downtown	11/7/2014 11:23 AM
3032	downtown, capitol hill	11/7/2014 11:20 AM
3033	From Ravenna directly to the new transit station to get downtown. 74 is terrible, in terms of speed, headways and crowding.	11/7/2014 11:17 AM
3034	19th Ave and E Madison St. (Lawrence Lofts apartments) Marion St. & 2nd Ave. West Lake Mall Pacific Place Mall Southcenter Mall U Village	11/7/2014 11:13 AM
3035	Medical Dental Bldg 509 Olive home 2613 Boyer Ave E Seattle University Exchange Bldg 821 2nd Ave	11/7/2014 11:13 AM
3036	The bus is my primary mode of transit, so I go LOTS of places in these neighborhoods, too many to name: Capitol Hill, downtown, UW and the U District, Fremont, Ballard, Wallingford, Central District. I would love for it to be easier to get from Capitol Hill or the Central District to West Seattle, Greenwood and Greenlake. It's possible right now but takes over an hour and sometimes requires transfers, and if you miss your transfer you might be looking at 1.5 hours on the bus for what could have been a 15 minute drive. At which point I usually give up and just don't go to those neighborhoods or see my friends who live there. I don't even consider going places like Phinney Ridge, Magnuson Park or Tangletown because it's just too hard to get there on the bus.	11/7/2014 11:11 AM
3037	to/from work. South Seattle (Othello Station) to Downtown Seattle	11/7/2014 11:10 AM
3038	capitol hill to ballard/fremont/queen anne/renton/georgetown/sodo	11/7/2014 11:08 AM
3039	redmond, ballard, bellevue, UW.	11/7/2014 11:04 AM
3040	On weekdays: I take the 10/11 to and from downtown (3rd/pine and 4th/pike) from 12th Ave and E Pine St. Occassionally, I'll walk to Pine and Broadway and catch either the 10/11/49 to downtown. DT I usually transfer to the 26/28/40 to fremont. When heading to the airport: I'll either take the 2/10/11/12/49 to downtown and catch the light rail.	11/7/2014 11:00 AM
3041	UW: Mary Gates Hall Moore Annex Parrington Hall Music Building	11/7/2014 11:00 AM
3042	downtown Seattle, Montlake, UW, South Lake Union, Seattle Center, Sea-Tac Airport	11/7/2014 10:57 AM
3043	home: NE 60th St near Sandpoint Way NE work: 419 Occidental Way S school: 15300 Meridian Ave N (Shoreline) other school: 3400 E Harrison St U district: NE 50th St and University Way (on weekends)	11/7/2014 10:56 AM
3044	Currently go: North end of broadway to 6th and stewart Want to Go: capitol hill to fremont, capitol hill to ballard, capitol hill to south lake union	11/7/2014 10:55 AM
3045	Downtown, Qwest Field	11/7/2014 10:52 AM
3046	Northgate Mall Columbia City Theater, Columbia City Ballard's market street broadway, capitol hill. West Seattle's delridge playfield international district's shopping area Gazzam lake preserve on Bainbridge Manorcare health services, Tacoma	11/7/2014 10:51 AM

3047	Downtown, Central District, Capitol Hill, International District It would be nice to have better service connecting Capitol Hill (Pike/Pine area specifically) and the Central District, especially at night/weekends.	11/7/2014 10:49 AM
3048	From Shoreline to the University From Shoreline to downtown From the University to downtown From Shoreline to the airport From the University to the airport	11/7/2014 10:47 AM
3049	From my home near 17th and Madison to downtown and the University District (NE 45th and 15th NE). From U-district to Seattle Center (SIFF theater Uptown and KOMO Plaza building)	11/7/2014 10:46 AM
3050	I currently use the bus to go the Columbia City/South Seattle, downtown, Ballard and Capitol Hill. I wish I could easily get to South Seattle College from South Seattle.	11/7/2014 10:44 AM
3051	Belmont and Thomas, Capitol Hill, Seattle 165th and Bothell Way, Lake Forest Park UW & U-District Ballard Fremont Columbia City Hillman City Leschi CD	11/7/2014 10:42 AM
3052	Uw Greenlake 6th and Holman Downtown	11/7/2014 10:40 AM
3053	bellevue & thomas (used to take the 14, when it ran all the way to the ID)...where I caught a shuttle to go to the Starbucks HQ in Sodo (work). When the 14 became the 47, I would take it to 3rd & pine and then switch to the 21. my normal commute time to go approx 3 miles, takes 2 buses and about 45 minutes....	11/7/2014 10:39 AM
3054	I usually start on Capitol Hill and travel all over the region on transit. One route I would especially like to see an easier trip to make is Capitol Hill (Broadway and Pine area) to SLU- the streetcar is okay, but it ends too early to be able to spend a night out in SLU and get back to Capitol Hill. Traveling to/from Ballard from/to anywhere south is a big pain. I avoid anything to do with West Seattle because of how difficult it is to get around over there.	11/7/2014 10:38 AM
3055	Seattle Center, Macy's, Pike Place Market, Ferry Terminal (to Bainbridge and Bremerton).	11/7/2014 10:38 AM
3056	Bellevue, Downtown, U-District, International District, Seatac Airport, Ballard, Fremont	11/7/2014 10:36 AM
3057	I currently go (and would like to have faster service) between Ballard and Downtown and between Ballard and the University of Washington.	11/7/2014 10:35 AM
3058	King County Courthouse. King Street Station. City Center Building. Group Health main campus.	11/7/2014 10:34 AM
3059	Othello station (Link), Van Asselt playground, downtown seattle (3rd and pike area), capital hill (Seattle Central College).	11/7/2014 10:32 AM
3060	I want a connection from the I-5 corridor bus (511/512) to university district destinations and to Northgate Mall.	11/7/2014 10:31 AM
3061	From capitol hill to downtown mostly	11/7/2014 10:30 AM
3062	Sunset hill. my only way to get there is riding the 17x a few times a day in the evening, on weekdays. I do not work standard commuter hours, so I cannot get home without a 20 minute walk, or driving. On the weekend, there is no way to get to ballard, or downtown easily without another 20 minute walk to the 40. you note the 40 is overcrowded. Bringing back the 17 will not only help those people that live in sunset hill have some way of using the bus again, but will alleviate the 40 from the people that walk to use that alternative as well.	11/7/2014 10:29 AM
3063	2500 Franklin Ave E, 6600 Roosevelt Way NE, 3003 75th St NE, 2445 3rd Ave S, 7201 Beacon Ave S	11/7/2014 10:26 AM
3064	Commute to Westlake Plaza from Cap Hill Cap Hill to UW	11/7/2014 10:25 AM
3065	I've also use the C/D bus lines. I use the bus primarily to visit friends or family, or explore other neighborhoods. In heavy rain, I'll take the bus from my work downtown, to my neighborhood on First Hill.	11/7/2014 10:24 AM
3066	Capitol Hill to Boeing Renton plant. Currently it's a 2 transfer ride. The east side is relatively well connected to the plant via the ST560 and ST565, but the Seattle side buses (101, 106) connect to the Renton Transit center which adds an extra transfer. The F line helped a bit, but it's still not enough. Taking the link to Tukwila, then the F line is NOT reasonable either. There are tens of thousands employees there that are not being well served by transit.	11/7/2014 10:22 AM
3067	I frequently go between Capitol Hill (near Seattle U) and Downtown, Columbia City, Queen Anne, University District. This is for several destinations, not to one specific location. I often need to go between the Rainier/Graham stop and either Seattle U or Downtown. Would like more options that make this commute under 45 minutes (possible to Seattle U using the 9X, but only certain times of the day; transit to downtown requires a 9X to Mt Baker station and a transfer to Link - again, only realistic certain times/days)	11/7/2014 10:16 AM
3068	Live on Beacon Hill near Beacon Hill Station. Commute to work in Pioneer Square via Link. Occasional post work trips to Issaquah via 545, but the return trip is difficult. Take Rapid Ride to Ballard on occasion. Will be much more willing to take transit to Capitol Hill once link extension opens.	11/7/2014 10:08 AM

3069	Currently: Century Link Field, Seattle Center, Downtown corridor (around Pike Place) Like to go: Light Rail to Ballard, Fremont, West Seattle. Preferably turn Rapid Ride E to light rail. A new Rapid Ride or Light Rail to replace route 5 in Phinney Ridge	11/7/2014 10:04 AM
3070	Georgetown, South Park,ballard	11/7/2014 10:04 AM
3071	I would like the 47 line to be reinstated. It was incredibly useful, especially during rush hour. I'm now forced to use the 8 route which arrives is often late and always overcrowded.	11/7/2014 10:01 AM
3072	Give more priority to transit all across the city and I'd take it more than I do now	11/7/2014 9:59 AM
3073	Interbay	11/7/2014 9:57 AM
3074	Woodinville, Downtown Seattle, University District.	11/7/2014 9:57 AM
3075	Gould Hall,	11/7/2014 9:56 AM
3076	Queen Anne Christian Church, Jazz Night School (MLK and Graham), UW, Holy Rosary Church	11/7/2014 9:55 AM
3077	Capitol Hill - east (15th/19th/Miller Park) Capitol Hill - west (Broadway) Central Area Madrona UW/U District Downtown Seattle Center	11/7/2014 9:54 AM
3078	You didn't list the 47BUS. I live on Capitol Hill - I would like to go to: The stadiums, Fremont, Ballard, Georgetown	11/7/2014 9:54 AM
3079	Lakeside School 14500 1st age NE Grand children 13900 Northwood Rd NW Salmon Bay School Thornton Creek school 7743 43rd NE Group Health Northgate Clinic 100 N e Northgate Mall 5th A e NE Shoreline Unitarian Church 14724 1st Ave NE Crest Theater65th & Meridian Shoreline PO aurora and 145 Lake Forest park Lakeside Boathouse 68 in Kenmore Central Market 155 and Westminster Seats. Airport Seatac Wash Group health downtown Clinic -5th and John Greenlake	11/7/2014 9:51 AM
3080	Starbucks Center SODO, 2401 Utah ave S, Seattle WA 98134 500 Belmont Ave E, Seattle Target, downtown Seattle Pacific Place, Downtown SEattle Ballard Airport	11/7/2014 9:49 AM
3081	Virginia Mason Medical Center, Green Lake Community Center, Phinney Ridge Neighborhood Association	11/7/2014 9:49 AM
3082	CenturyLink Field South Kirkland P&R Woodinville P&R NE 85th & 154th NE, Redmond	11/7/2014 9:46 AM
3083	Belltown (5th and Wall St.), 3rd and Pike/Pine, 12th and Pine, 15th and E. John-- all from 23rd/Yesler area	11/7/2014 9:44 AM
3084	I currently go to work in Bothell in the Canyon Park development. The weak links in my route: 1) Crossing Wallingford to get the the freeway stop. Either more frequent E-W bus service, or even better, safer bike routes would be greatly appreciated. 2) The 535 which serves the 405 stop near Canyon Park is a 30-minute route - it would be great if it became a 15-minute route. Service on the RR E to downtown is overall great - but on my personal wish list - 3) Extending the RR E to the International District instead of stopping somewhere indistinct in the middle of downtown	11/7/2014 9:43 AM
3085	The bus cuts were very detrimental to a huge portion of capital hill (the 47 being cut).	11/7/2014 9:43 AM
3086	I primarily move between (in almost all combinations): -- corner of 14th Ave and Howell (just East of Cal Anderson Park) -- VA Medical Center on Beacon Hill -- UW medical Center -- Harborview Medical Center -- Steven's Elementary School on Capitol Hill	11/7/2014 9:41 AM
3087	Northgate, Downtown, Capitol Hill, Ballard, Crown Hill, Golden Gardens, Fremont	11/7/2014 9:41 AM
3088	from NE Seattle to Ballard From NE Seattle to First Hill From NE Seattle to DT	11/7/2014 9:39 AM
3089	Swedish First Hill McCaw Hall Capitol Hill Pike/Pike corridor Pacific Place mall Harvard Exit theater Egyptian theater SIFF Uptown theater 509 Olive Way Swedish Cherry Hill Majestic Bay theater Exit Space dance studio Polyclinic Madison tower Seattle Art Museum	11/7/2014 9:37 AM
3090	Madison park to Downtown Seattle currently. I'd love to be able to criss-cross Seattle with one or 2 seat rides (3 seats ok sometimes) on frequently (every 10 min maximum, 6 AM - 9 PM) scheduled and gridded routes.	11/7/2014 9:34 AM
3091	Beacon Hill, Rainier Valley, Volunteer Park, Ballard, Northgate, Capitol Hill, Tacoma and Olympia, Bainbridge Island	11/7/2014 9:32 AM
3092	Commute between Bryant neighborhood & VA Medical Center (Beacon Hill), Harborview, & UW South Lake Union facilities; occasionally to Fred Hutch & Puget Sound Blood Center (Eastlake facility).	11/7/2014 9:32 AM

3093	University of Washington 4518 University Way -- work Orting, WA (Pierce County) -- home Sumner, WA (Pierce County) -- travel there from home Downtown Seattle Broadway and John Ferry Terminal King Street Station Seattle Center University Village Virginia Mason main campus Ballard Farmers Market Seatac Airport Downtown Tacoma Downtown Puyallup (from Orting)	11/7/2014 9:30 AM
3094	pretty much everywhere! I go to work(UW) and home(Rainier View area,) downtown, Chinatown Seattle Center, etc.	11/7/2014 9:30 AM
3095	Currently: Madison Valley to Downtown Via bus Downtown to Mount Baker via light rail Capitol Hill to downtown via bus Downtown to Ballard via bus Would like to be able to go from Mount Baker to Capitol Hill via central district by light rail. Would like to be able to go Capitol Hill to Ballard via light rail!	11/7/2014 9:28 AM
3096	I currently go to the University district on transit. I drive and park near a bus stop and 23rd Ave and take the 48 or sometimes the 43. I live on Beacon Hill and THERE IS NO DIRECT ROUTE TO THE U-DISTRICT. I would have to do bus-train-bus-walk to get to work from my house to get to work. It takes 1 hour 15 minutes one way!! Therefore I have to drive and park at a bus stop. My commute is very complicated!	11/7/2014 9:27 AM
3097	I do most of my trips by transit.	11/7/2014 9:24 AM
3098	Wallingford, University District, South Seattle, Downtown	11/7/2014 9:22 AM
3099	Northgate Redmond University District Mill Creek Bellevue Kirkland Madrona Park	11/7/2014 9:21 AM
3100	I currently commute from West Seattle to Downtown and regularly take buses to Capitol Hill. It would be great to have better transit access to destinations such as Discovery Park, Sea-Tac airport, Washington Park Arboretum, and Greenlake. More connections to recreational facilities such as parks would eliminate the need for driving to these locations.	11/7/2014 9:20 AM
3101	nowhere	11/7/2014 9:20 AM
3102	Currently go by transit: Northgate Transit Center Convention Place Transit Center Westlake Transit Center SeaTac Light Rail Transit Center 90th & Aurora for Rapid Ride E 145th & Aurora	11/7/2014 9:19 AM
3103	Madison and 20th Ave E UW Downtown Would like to be able to get to Greenlake/Wallingford/Phinney easier from Capitol Hill	11/7/2014 9:19 AM
3104	University of Washington. Downtown. Home (5400 Ivanhoe PL NE).	11/7/2014 9:17 AM
3105	First Hill, Capitol Hill, Downtown Seattle, Kent, Auburn	11/7/2014 9:16 AM
3106	From downtown to Capitol Hill. From Capitol Hill to the U District. I would like a bus that takes me directly from Capitol Hill to Ballard, Fremont, Wallingford, and West Seattle.	11/7/2014 9:11 AM
3107	I go from Magnolia to Fremont. I would like to be able to go to Ballard or Capitol Hill more easily.	11/7/2014 9:11 AM
3108	15th & E John St - Mercer & Queen Anne Ave Mercer & Queen Anne Ave - Mercer & Westlake Town Hall Seattle Pike/Pine corridor	11/7/2014 9:10 AM
3109	I love route #8 to Capitol Hill -- thanks! I'm a Group Health patient and live in North Belltown, so this route works well for me. I'd like to be able to get to Capitol Hill (Broadway, 12th Avenue Corridor, and 15th Avenue) from the ID Transit Station on one mode/route, without having to transfer. I'd like to be able to get to the ID Transit Station from Third Avenue & Cedar on more than one route (#14) without having to transfer to Downtown Seattle Transit Tunnel at either Westlake or Pioneer Square. Would be great if the RapidRide C Line went all the way to IDS. I'd like to be able to get to Lake Union from North Belltown on either First Avenue & Cedar or Third Avenue & Cedar without having to transfer, though would be willing to transfer to the Seattle Street car if the connection is direct. Capitol Hill (Broadway, 12th Avenue Corridor, and 15th Avenue) from the ID Transit Station on one mode/route, without having to transfer. I'd also like to have all day weekday and weekend service on Route 99 into North Belltown near Western & Vine and Alaskan Way & Broad Street. - Pike Place Market: Please reopen Route 99 stop at First Avenue & Pike Street. Too long a walk from First & University or Lenora, especially for elderly and disabled. More frequent local SB service on Fifth Avenue from North Belltown into the downtown corridor.	11/7/2014 9:08 AM
3110	Central District to Downtown. Would like to increase options to do so on weekends and more frequent service on weekdays between 5:00-6:00pm.	11/7/2014 9:05 AM
3111	Currently: Madison Valley, SLU, and Downtown Future: Ballard, West Seattle, Fremont, U-District	11/7/2014 9:04 AM
3112	Don't know the numbers just get on the bus. from Capitol Hill to Downtown - all the time for market, movie, dr. etc.	11/7/2014 9:03 AM
3113	Work, friends, social	11/7/2014 9:02 AM

3114	To and from Greenwood to Downtown (Daily) To and from Greenwood to the U District (Daily) Direct connection to and from Greenwood - Ballard (Desired)	11/7/2014 9:02 AM
3115	Downtown Seattle University District Northgate area	11/7/2014 8:57 AM
3116	Queen Anne, Fremont, Old Redmond Rd, Downtown, SeaTac	11/7/2014 8:57 AM
3117	I go from Ballard to the UDistrict; UDistrict to Ballard; Ballard to Downtown; Downtown to Ballard; UDistrict to Downtown; Downtown to UDistrict. I would like to more easily and efficiently travel to the same location above, as well as to Capital Hill and the Eastside.	11/7/2014 8:55 AM
3118	I live at 2211 NE 54th St, 98105. I go to downtown Seattle and to Capital Hill - Madison Ave. I try to go to East Madison to the Japanese garden in the Arboretum, - but it's very difficult (two buses, long walk uphill on way back	11/7/2014 8:54 AM
3119	Lower Queen anne to Capitol Hill, ballard, Fremont, downtown	11/7/2014 8:54 AM
3120	North Capitol Hill, downtown, seattle children's hospital, northgate, airport, ferry terminal	11/7/2014 8:54 AM
3121	Airport	11/7/2014 8:53 AM
3122	Would like easy access from Beacon Hill and Downtown to Husky sporting events; would like easy access from ID to Capitol Hill; would like easy access from Downtown (South of Pike corridor) to Capitol Hill	11/7/2014 8:52 AM
3123	My main travels of current are roundtrips from Sammamish to the UW via Redmond; from Issaquah Highlands or Issaquah P&R to the UW or Downtown Seattle; from South Kirkland P&R to the UW or Downtown Seattle; from Beacon Hill to Downtown Seattle; from Beacon Hill to SeaTac Airport; from the UW to Downtown Seattle; and the UW to Fremont/Wallingford/Laurelhurst. The Link Light Rail will fill in my need to go from Beacon Hill to the UW. I would like to see the Issaquah Highlands to First Hill route restored (this bus was full when I was taking it so I was puzzled why this route was deleted this year).	11/7/2014 8:50 AM
3124	Go to the airport, the stadiums, Columbia City. Would like to get all the way to Capitol Hill, U Village.	11/7/2014 8:50 AM
3125	Ballard to downtown. West Seattle to downtown. U District to downtown. Ballard to U District. Downtown to Tacoma. Ballard to Beacon Hill.	11/7/2014 8:50 AM
3126	University of Washington Green Lake Downtown Ballard Downtown Seattle Capitol Hill	11/7/2014 8:50 AM
3127	Currently go- 1st and Marion, Francis and 36th; would like to go- Broadway and Pine	11/7/2014 8:49 AM
3128	Microsoft campus Seattle central library Downtown Bellevue (Bellevue Square, Bellevue library, Bellevue Arts Museum) First Hill UW medical center SeaTac Airport	11/7/2014 8:48 AM
3129	Currently I get off the 71, 72, or 73 bus at 45th and Univ Way in the morning. Then walk down to 45th and 11th Ave in the U District. I'm looking forward to being able to get off at the Link Light Rail station at 43rd and 12th St. in the U District. It's going to make my commute to work a little easier not to have to ride a crowded bus every morning.	11/7/2014 8:46 AM
3130	I would like a direct transit line from Capitol Hill to Ballard that is fast.	11/7/2014 8:46 AM
3131	Rainier Beach, Columbia City, University District, Downtown, International District	11/7/2014 8:44 AM
3132	Downtown and the airport.	11/7/2014 8:43 AM
3133	To downtown Seattle or to capital hill	11/7/2014 8:42 AM
3134	from home - via 65th street (#64 / #76) to north seattle near Denny. currently 64 totally ignores workers who are employed north or near Denny by shooting pass the Denny stop. Currently have to walk back track many blocks. Note that FAcbook, Group Health, Amazone, Fred Hutch, Swedish, etc. all have offices and staff at the who then anchor from the Denny stop.	11/7/2014 8:40 AM
3135	University Ave Downtown, Pioneer Square My parent's house near Magnuson park I wish there were more cross town connections to places like queen anne, fremont and ballard	11/7/2014 8:39 AM
3136	Currently go - Downtown and areas in NE Seattle	11/7/2014 8:38 AM
3137	Microsoft Campus SeaTac Airport	11/7/2014 8:36 AM
3138	Seattle Community College Downtown Seattle Coscto Everett Federal Way Queen Anne	11/7/2014 8:35 AM
3139	west seattle	11/7/2014 8:35 AM
3140	Capitol Hill (19th & 23rd, north of John/Thomas), downtown (1st & Spring), soccer fields, U-District, Ballard	11/7/2014 8:33 AM

3141	I usually commute from Capitol Hill to work downtown. I would like to see more options to efficiently get from Capitol Hill to Queen Anne, Fremont and Ballard without making a transfer downtown, or sitting in traffic while trying to get through South Lake Union. This is a major hole in the transit system.	11/7/2014 8:32 AM
3142	U District, Roosevelt , Maple Leaf	11/7/2014 8:32 AM
3143	UW, Downtown, Queen Anne, Ballard, Fremont, Wallingford, U-District, South Lake Union	11/7/2014 8:31 AM
3144	I use the bus system to go to work.	11/7/2014 8:30 AM
3145	Everywhere, literally	11/7/2014 8:30 AM
3146	Downtown Seattle Center - would like an easier connection from Ravenna	11/7/2014 8:29 AM
3147	NE Seattle/Downtown NE Seattle/Bellevue NE Seattle/Cap. Hill	11/7/2014 8:28 AM
3148	I currently do not use transit because it takes the same amount of time (often less) from 38Th SW and Admiral to the U District by car than it does to change in downtown for a much slower 43 bus. I would like to be able to go from the corner above to UWMC and/or 45th and 12th in the U District.	11/7/2014 8:26 AM
3149	I use it to get from east queen anne to sodo in the evenings. Unfortunately there isn't a route that goes all the way to century link. So I take the E line mostly and 26/28 home which is way more convenient.	11/7/2014 8:26 AM
3150	312 Ne 81st St (home) 3rd and Columbia UW Tower Northgate TC 65th & Roosevelt Group Health Cap Hill QFC on Broadway Bear Creek P&R Lacey, WA Amtrak station Discovery Park Pacific Science Center Adobe in Fremont JoAnn Fabric in Ballard MacPherson's Leather in I-District Costco Home Depot	11/7/2014 8:25 AM
3151	to work (from Roy & Broadway) at the Russell Center at 1301 2nd Ave. sometimes i take it to the airport (from Roy & Broadway)	11/7/2014 8:24 AM
3152	Now: downtown Seattle (Westlake Center, Pike Place Market), Seattle Center, U-District, Bellevue Transit Center, Overlake Transit Center, Lynnwood Transit Center Would like to: Pier 70, International District/train station from Capitol Hill without connecting through downtown, more direct/efficient transport to Ballard	11/7/2014 8:24 AM
3153	I live in the Seward Park/Lakewood neighborhood, which is currently only serviced by Route 50, terminating in West Seattle. Previously the 34X was the bus I used to get to my job downtown before it was eliminated in 2012. Since then, it's become increasingly difficult to get to downtown and other central business districts (Sea Center, Capitol Hill, anywhere in North Seattle). SE Seattle has long been neglected in terms of transit, and I'm disappointed to see the 50 left off the list of benefiting from the recently passed Prop. 1. Specifically, I'd like an express route to be reinstated that delivers the SE Seattle area (particularly Seward Park, Lakewood, Genesee) directly to downtown. I'd like to know if there are other neighborhoods within Seattle that do not have a direct link to downtown.	11/7/2014 8:23 AM
3154	I go downtown from West Seattle Would like to more easily access work on the south end of Capitol Hill - I walk from 2nd and Seneca. West Seattle - west of California Ave, south of Admiral Seattle Center. U district. Columbia City.	11/7/2014 8:22 AM
3155	Downtown Renton, S Renton P&R, Renton Landing; downtown seattle, capitol hill, university district, mt baker, columbia city	11/7/2014 8:22 AM
3156	Why is the #7 and # 50 not listed?	11/7/2014 8:22 AM
3157	I currently live in Shoreline and work at the UW. I use 373. But I've been a bus rider for many years and rode many routes (I don't remember them all, so in question #2 I just selected the ones that came to mind.	11/7/2014 8:20 AM
3158	LaurelHurst/Uvillage area to downtown and to Ballard	11/7/2014 8:19 AM
3159	I commute to downtown Bellevue from the University District on Metro buses. I also use Metro to go to Capitol Hill to visit friends. I think I can get to most places via transit but I wish it could be more frequent, especially during evening hours.	11/7/2014 8:18 AM
3160	Ravenna (35th and 65th) to Downtown and vis versa. Downtown to Wallingford (45th and Latona). I'd like to be able to go from Ravenna to Greenwood (85th and Greenwood).	11/7/2014 8:18 AM
3161	I want an east west route from GreenLake Park and ride to Ballard.	11/7/2014 8:18 AM
3162	Generally travel to: Downtown Bellevue, Eastlake, Ballard, Queen Anne, Downtown, Capitol Hill, Roosevelt, Wallingford Would like to see better cross-town connections (Capitol Hill/Eastlake to Ballard or QA, for example)	11/7/2014 8:16 AM

3163	Capitol Hill to Ballard/Fremont! We need a direct bus. There are no direct routes from say, Broadway and John to Market and 15th and Fremont and 35th. A direct link to Shoreline and Greenwood from Capitol Hill would be great, too. (Greenwood and 85th), or Capitol Hill to Northgate and Aurora. That would make my life so much easier.	11/7/2014 8:15 AM
3164	downtown, stadiums, international district, tacoma, cal anderson park, volunteer park, los tinos restaurant, u district, northgate, south center. lynnwood	11/7/2014 8:15 AM
3165	Downtown Seattle U-District Lake City Ballard Capitol Hill Federal Center South Green Lake First Hill	11/7/2014 8:14 AM
3166	NW Market St and 22nd Ave NW, Madison and Lake Washington Blvd E, S Michigan St and Corson Ave S	11/7/2014 8:12 AM
3167	South Seattle (107) to U District via lite rail and express bus or 43 or 49	11/7/2014 8:12 AM
3168	Ballard, University District, Downtown Seattle, Canyon Park, Green Lake, Wallingford, Fremont, Capitol Hill, Phinney Ridge	11/7/2014 8:12 AM
3169	UW 130th & Aurora Ballard 145th & Greenwood Cornish College of the Arts Downtown SeaTac Airport Everett Bothell	11/7/2014 8:11 AM
3170	Downtown Seattle, The Airport, 65th and Roosevelt (Pies and Pints)	11/7/2014 8:08 AM
3171	Currently go to Jackson St/18th Ave via #14. Would like to use #27 to go to Yesler and 19th so I don't have to walk up a very steep hill on 31st Ave. I'd like to go the the Broadway District north of Union St. & Broadway. 3 blocks of walking is max for me.	11/7/2014 8:07 AM
3172	Work commute from 23rd/Thomas to 45th Ave NE/ Roosevelt Ave NE I use the 43 a lot to get from 23rd/Thomas to Broadway and downtown. Also use the 11 to get from 23rd/Thomas to Broadway and downtown Would really be awesome to have the Rapid Ride from 23rd/Thomas down to the waterfront. Madison seriously needs that transit route.	11/7/2014 8:04 AM
3173	Currently: commute to work from Capitol Hill to Belltown; travel to medical appts at UWMC, UW Roosevelt, SCCA, Ballard, North Capitol Hill and Roosevelt neighborhood; do grocery and other shopping at Capitol Hill QFC, Safeway, Central Co-op and Trader Joes; travel to visit local friends/family in Bothell, Edmonds and Everett; go sightseeing on light rail (great views!). I look forward to easier transportation from Capitol Hill to U District.	11/7/2014 8:02 AM
3174	The University of Washington Bothell and UW Seattle. Living on Capitol Hill	11/7/2014 8:02 AM
3175	I go on the 125 and 10 Broadway and walk to Broadway & Madison for work. Late in the workday I go to catch the # 2 on the street by the First Baptist Church and VM. I go downtown to 3rd & Pike where I catch the 120, 125, or 131 to my neighborhood, again. I am a bus commuter for work during the week.	11/7/2014 8:00 AM
3176	UW HUB Downtown Macy's Pike Market Seatac airport Group health capitol hill 9th and Stewart, seattle	11/7/2014 7:57 AM
3177	15th ave E and republican thomas st (to UW) John st (to downtown) Broadway and Pine Broadway and Roy (to downtown) Broadway and Mercer (to UW)	11/7/2014 7:57 AM
3178	Seattle Public Library, Fiske Genealogical Library, Seattle Genealogical Society, Grocery Outlet on 28th Ave., SeaTac Airport, Costco on 4th Ave. S, All Pilgrims Church on Broadway, Seattle Opera, King Street Station, etc.	11/7/2014 7:56 AM
3179	UW campus Pend Oreille x Stevens Way	11/7/2014 7:56 AM
3180	FROM Lake Forest Park TO Airport; TO Downtown; TO Univ of Wash; TO Northgate Mall, TO Alderwood Mall, TO Bellevue, TO Kirkland	11/7/2014 7:54 AM
3181	2nd and Marion Ne 65st and 29th ace ne Factoria	11/7/2014 7:54 AM
3182	Downtown, Safeco	11/7/2014 7:54 AM
3183	I travel primarily from to Capitol Hill home to my Downtown job, and also across town to the UDistrict, Wallingford, and Ballard.	11/7/2014 7:51 AM
3184	Downtown, airport, University of Washington	11/7/2014 7:50 AM
3185	Downtown, SoDo, Ballard, U District, Fremont	11/7/2014 7:49 AM
3186	Currently go to work (223 yale ave n), home (1700 summit ave), UW, trader joes on Madison, my parents house 1623 39th ave. I would like to be able to easily visit friends in Fremont, and greenlake, more reliable/faster service to my parents house (on the #2). In general, more busses that go from Capitol Hill across the city, to West Seattle or Fremont, without having to transfer busses.	11/7/2014 7:47 AM

3187	UW Tower, 4333 Brooklyn. Home, 3815 Woodland Park Ave N. Downtown Seattle	11/7/2014 7:47 AM
3188	UW, first hill, downtown	11/7/2014 7:46 AM
3189	I go from Ballard (65th & 15th) to the UW (Mary gates hall); downtown (hotels for conferences); Seattle Center. I go from Ballard to Capitol Hill (Oliver & Belmont) or Greenwood (85th & greenwood).	11/7/2014 7:44 AM
3190	Pike Place Market U District Farmer's Market 85th & Greenwood Seattle Center theaters	11/7/2014 7:38 AM
3191	Downtown, Queen Anne, Capitol Hill, Rainier Beach, Columbia City	11/7/2014 7:38 AM
3192	University of Washington	11/7/2014 7:38 AM
3193	Currently: 12th & John to downtown; Broadway & Republican to downtown; 12th & Madison to 1st & Madison. Would like to be able to get from 12th & John area to Pioneer Square area. Would like to get to Ballard and West Seattle from 12th & John area.	11/7/2014 7:36 AM
3194	E. Madison and 19th to downtown. Also downtown to other downtown destinations and to the airport.	11/7/2014 7:36 AM
3195	2611 NE 125th St.	11/7/2014 7:34 AM
3196	E. Madison st and 19th Capitol hill to downtown shopping district, downtown to airport.	11/7/2014 7:32 AM
3197	downtown, airport, university district, university village, northgate, downtown belleveue, downtown redmond, all over capitol hill	11/7/2014 7:32 AM
3198	I usually ride the bus to go between Capitol Hill and Downtown. Occasionally I will take the bus to other surrounding neighborhoods from Capitol Hill such as Belltown, Madison Park or Queen Anne, but otherwise I will drive or take a taxi/uber.	11/7/2014 7:30 AM
3199	Downtown Seattle to Capitol Hill Group Health Campus	11/7/2014 7:27 AM
3200	I live on Capitol Hill, near the Capitol Hill Library, and I bus to Columbia Center (4th & Columbia). I would like to make this 2-mile commute on one bus, but, instead, I have to transfer at Westlake Station.	11/7/2014 7:26 AM
3201	Red Square (UW Campus) Gasworks Park	11/7/2014 7:25 AM
3202	university of washington to work 4245 Roosevelt Way NE from Tacoma WA 1825 South Stevens St from U Of W to Downtown Seattle to catch Sounder Train	11/7/2014 7:19 AM
3203	i currently go between Capitol Hill and south lake Union, or to seatac. I would like to be able to go from Broadway in Capitol Hill to Ballard ave more directly. Connecting through the U district takes far too long.	11/7/2014 7:19 AM
3204	Madison Valley Downtown U-District	11/7/2014 7:19 AM
3205	I mostly go from Capitol Hill to the University District, Downtown, Queen Anne, and a few other places. I would like for it to be easier to get to Georgetown, Ballard, and West Seattle. I feel like all three of these places are fairly isolated, transit-wise, mostly thanks to their geographical locations.	11/7/2014 7:12 AM
3206	Downtown, Ravenna, Greenlake, Ballard, University District	11/7/2014 7:12 AM
3207	Downtown Seattle Seatac Airport	11/7/2014 7:09 AM
3208	Downtown to work - Chinook Building Stadiums Nordstrom/ other downtown shopping Gates Foundation UVillage Partners work - NE Northlake by Gasworks Raikes Foundation - also close to Gasworks Beacon Hill to visit friends Would like better access to Belltown and SLU via transit If we're going north of the cut, or south to Mount Baker/Seward Park we usually drive.	11/7/2014 7:08 AM
3209	35th & 90th to Downtown Downtown to Capitol Hill Downtown to Magnuson Park I also regularly take the 41 from Downtown to Northgate Park and Ride I would like to be able to easily get from Wedgwood to Northgate, and Wedgwood to Magnuson Park.	11/7/2014 6:56 AM
3210	Downtown, airport, UW, Ballard, Kirkland	11/7/2014 6:56 AM
3211	Airport link has been incredibly valuable. An easy transfer to light rail from Madrona/CD to downtown, U district, Northgate, Fremont/Ballard. Currently, getting across town takes a considerable amount of time.	11/7/2014 6:55 AM
3212	Factoria. Mostly I would like to quickly go from one neighborhood to another	11/7/2014 6:50 AM
3213	217 22nd Ave. E Seattle Central Community College University of Washington Medical Center	11/7/2014 6:49 AM

3214	From capitol hill to so do and back. Capitol hill to downtown and queen Anne. Would like capitol hill to south lake Union and Ballard and fremont . would like capitol hill to beacon hill direct. And to Matson park. More service to u district. To Roosevelt.	11/7/2014 6:48 AM
3215	University District (UW Tower on Brooklyn & 45th) and Lake City Way & 115th.	11/7/2014 6:46 AM
3216	Kent/Des moines park and ride Downtown UW medical center Kent Station	11/7/2014 6:45 AM
3217	Mostly between home (36th Ave NE @ 50th) and work (Elliott Ave @ Wall St)	11/7/2014 6:40 AM
3218	Downtown Bellevue, Seattle, seatac	11/7/2014 6:33 AM
3219	My regular work commute is between 338 16th Ave E, Seattle and 1055 S Grady Way, Renton. I regularly take the routes 10 or 43 to downtown Westlake Station and transfer to/from the Route 101. The Route 101 should be revised to connect to Link light rail at the Rainier Beach station rather than traveling all the way into downtown Seattle the route should travel to/from the Rainier Beach Station via MLK. On the Capitol Hill end most of the bus routes that I take also serve riders that would not make sense to revise service to tie into new Light Rail stations such as the High Schools in Pike Pine corridor. The Route 43 since it serves Capitol Hill and UDistrict should be considered to be revised to be broken up into feeder routes that transfer to Light Rail.	11/7/2014 6:21 AM
3220	Home- Wedgwood Work- Seattle central college Shopping- downtown Seattle	11/7/2014 6:21 AM
3221	Seattle Childrens Hospital, Convention Place Station, Westlake Station	11/7/2014 6:19 AM
3222	all over Seattle and the greater Puget sound region - Roosevelt to Downtown and back, Northgate, the University of Washington, Sand Point, Wedgewood, Wallingford, Ballard, Renton, Kent, Auburn, Federal Way, Bonney Lake, Tacoma, Everett, Lynwood.....etc.	11/7/2014 6:14 AM
3223	From CD to downtown and back. Occasionally U district.	11/7/2014 6:12 AM
3224	To. Othello and Martin Luther King	11/7/2014 6:08 AM
3225	Coleman dock to Health Sciences bldg UW	11/7/2014 6:06 AM
3226	seattle public library downtown green lake community center university ymca university bookstore fremont n & n 34th roosevelt ne & ne 90th northgate mall university village mall group health capitol hill seattle center	11/7/2014 6:00 AM
3227	work, visit mom in nursing home, sisters house, downtown	11/7/2014 5:50 AM
3228	University Village Downtown (Westlake bus tunnel station) NW Market & Ballard Ave 8323 Jones Ave. NW 12920 SE 38th St, Bellevue University of WA, Red Sq. SeaTac Airport 18025 29th Ave NE, Lake Forest Park 2402 5th Ave. W, Seattle	11/7/2014 5:48 AM
3229	I also use the 347/348 to go to Northgate Transit center and the 41 to go downtown. I go to the U District and South Lake Union mostly.	11/7/2014 5:12 AM
3230	From: Bothell P/R, Brickyard P/R, South Bellevue P/R, or Newport Hills P/R to SeaTac Airport or Downtown Seattle.	11/7/2014 1:07 AM
3231	From 38th ave & 98th st NE to downtown, like the Triple Door/Benaroya; to Seattle Center; to Belltown; and to the airport. I haven't bused downtown since I moved here but it looks like it would take over an hour. I used to live close to the #5 bus line, which was great.	11/7/2014 12:42 AM
3232	Varies	11/7/2014 12:39 AM
3233	North Capitol Hill (Broadway & Roy) to downtown Bellevue Transit Center North Capitol Hill (Broadway & Roy) to downtown Seattle	11/7/2014 12:16 AM
3234	Sand Point (home), convention center, sammamish, downtown waterfront / Pioneer Square	11/6/2014 11:56 PM
3235	I would love a more efficient way to get from Downtown Seattle to Bellevue, Tacoma, Olympia. I currently bus from my home in Capitol Hill to anywhere the buses/lightrail take me!! This has been my favorite city for public transportation!	11/6/2014 11:55 PM
3236	Central District- 23rd and Yesler, 23rd and Cherry, MLK and Cherry Queen Anne- Galer and Queen Anne Ave N. Downtown International District Rainier Valley	11/6/2014 11:53 PM
3237	I currently mostly use the bus to go to Northgate mall, where I work. I also take the bus to musical events in the downtown and south Lake Union areas. During the summer, I use it to get to a variety of parks, such as Magnuson, Matthews Beach, Denny Blaine, and Golden Gardens. For Golden Gardens, I would appreciate a bus running directly to it, like the 46 used to do, but more frequently.	11/6/2014 11:44 PM

3238	U-district, downtown, capital Hill, Sea-Tac airport, Northgate, Bellevue mall, South Center, Seward park	11/6/2014 11:41 PM
3239	I commute almost exclusively via public transit. I live on the 4900 block of S Ferdinand St. in Seattle and when I was employed I traveled to the 700 block of E Pike St. I travel to Capitol Hill, Downtown, West Seattle, and Wallingford frequently.	11/6/2014 11:41 PM
3240	UW, Fred Hutch, Westlake Terminal	11/6/2014 11:36 PM
3241	Downtown, UDistrict, First Hill (bus), SeaTac (link rail)	11/6/2014 11:25 PM
3242	Wallingford QFC University of Washington Pike and Broadway Downtown Seattle	11/6/2014 11:19 PM
3243	To work to get groceries.	11/6/2014 11:19 PM
3244	15th ave NE or Lake city way and NE 80th street to NE 125th and lake city way, fremont, or downtown From 25th ave NE & NE 80th to university village, grocery stores on 35th ave NE, Roosevelt & NE 65th street, fremont, or downtown	11/6/2014 11:10 PM
3245	Mostly between 1201 Third Avenue and the intersection of 23rd Ave E and E Aloha	11/6/2014 11:09 PM
3246	Google Kirkland Google Seattle Capitol Hill (pike/pine) Elliott Bay Marina South Lake Union	11/6/2014 11:06 PM
3247	A bus connection once again between Rainier Beach and Tukwila.	11/6/2014 10:55 PM
3248	From home (Ann Arbor Ave and University Circle) to the UW; from the UW to Seatac; from home to Seatac; from home to downtown.	11/6/2014 10:53 PM
3249	Carkeek Park 19350 Firlands Way North Golden Gardens Seattle Central College Downtown Seattle U-District 10510 Stone Ave N 16047 Ashworth Ave N 14052 30th Ave NE 1545 NW 57th St	11/6/2014 10:36 PM
3250	SeaTac airport, downtown Seattle, U-District, West Seattle, Issaquah	11/6/2014 10:32 PM
3251	Overlake Transit Center Broadway on Capitol Hill Central Cinema on First Hill Lake Union Crew on Westlake Ave	11/6/2014 10:27 PM
3252	I travel daily from First Hill to the Microsoft Campus in Redmond, WA. I occasionally take the Link Rail from downtown to the airport. The 545 is great in the AM to get from the Hill to Redmond, but terrible for the return trip. It needs to stop on the Hill instead of just downtown.	11/6/2014 10:26 PM
3253	Airport, city center, Seatac	11/6/2014 10:23 PM
3254	work, downtown Bellevue, BTC downtown seattle, e.g. Pike Place market University district. Capitol Hill Fremont Ballard	11/6/2014 10:22 PM

3307	Seattle Children's Research Institute (9th and Stewart), Seattle Children's Hospital (4800 Sand Point Way NE), Polyclinic Broadway, Polyclinic Madison, NW Harvest Food Bank (8th and Cherry), Downtown shopping area (Nordstrom, Macy's, etc), University of Washington, SeaTac airport, Swedish Cherry Hill Hospital, St. Joseph Church, St. James Cathedral, baseball and football stadiums.	11/6/2014 7:39 PM
3308	Downtown Seattle; UW Seattle Campus; Capital Hill	11/6/2014 7:39 PM
3309	Downtown Seattle - 5th and Columbia University District Ballard Lake City Bothell Northgate Edmonds	11/6/2014 7:39 PM
3310	Downtown.	11/6/2014 7:37 PM
3311	Madrona to Downtown Would like to be able to go from Madrona to light rail station via bus.	11/6/2014 7:36 PM
3312	Downtown (2nd & Columbia) University District (50th St & 11th Ave NE)	11/6/2014 7:34 PM
3313	Downtown , mount baker, Madrona, Capitol Hill, airport, id	11/6/2014 7:31 PM
3314	UW, Downtown, Group Health on 15th street Cap hill, Swedish hospital, the zoo, Golden Gardens, West Seattle, Northgate Mall, Southgate Mall, Bellevue Square. the airport, Int'l district, the Public Market, Madison Park, Japanese Gardens, Arboretum	11/6/2014 7:29 PM
3315	Downtown First Hill ID Georgetown Interbay Queen Anne Wallingford Alki Beach Golden Gardens Park Marysville MallAnywhere seniors and children gather.	11/6/2014 7:26 PM
3316	Kirkland Fremont Downtown Belltown Ballard Upper Queen Anne Capitol Hill (Pike/Pine)	11/6/2014 7:23 PM
3317	40th and whitman to airport and downtown and uw	11/6/2014 7:20 PM

3318	Currently: work (Pioneer Square); church; U District farmer's market & shopping; downtown Seattle; Ballard. I would like to be able to take transit to the University Village - in less than an hour since I can drive there in 8 minutes. I would also like to be able to get to the Seattle Center more easily. I loathe light rail - it is SLOW (especially to the airport) and creates ponderous back-ups in the tunnel.	11/6/2014 7:14 PM
3319	I currently use a bicycle in conjunction with transit to commute between my home in Montlake and work in north Bellevue (NE 24th St & Northup Way). I also use transit to reach grocery stores in Capitol Hill and the University District, and to get to the airport. I would like for it to be easier to travel from south of the canal to the northeast Seattle neighborhoods without having to transfer in the University District. I would like to see better service between South Seattle and other parts of the city, such as Capitol Hill and the University District. To make sure LINK can provide that, there should be better feeder bus service to LINK on the south side. There are jobs being added in Bellevue and Redmond all the time, and a housing explosion in various neighborhoods. Add express service from Capitol Hill/Central District and Ballard/Fremont to the Eastside, or improve inter-neighborhood connections so these commuters can better reach express routes without having to go downtown.	11/6/2014 7:12 PM
3320	Tacoma home, Northgate work, Capitol Hill home, Seattle Center, SeaTac Airport, U District.	11/6/2014 7:11 PM
3321	Downtown, 3rd & Columbia First hill, Swedish Cherry Hill Ballard 15th/Market Capitol Hill, Broadway	11/6/2014 7:11 PM
3322	2700 NE 55th Street	11/6/2014 7:09 PM
3323	Downtown, University District, Northgate, West Seattle, Ballard, Fremont, Wedgwood, Wallingford, in short, all parts of the city.	11/6/2014 7:05 PM
3324	Downtown and the UW Airport only occasionally Islands and Olympics on ferries Would sometimes (nights and bad weather especially) like the 15 to be reinstated.	11/6/2014 7:04 PM
3325	I live in Wallingford and work in the U District. I tend to travel to Ballard, Queen Anne, Fremont, Pill Hill, Capitol Hill, and downtown.	11/6/2014 7:03 PM
3326	SEATAC, Redmond, Edmonds, Washington State Convention Center	11/6/2014 6:59 PM
3327	I commute from View Ridge to 1st Ave S and Edgar Martinez. I would like easier ways to get to Capitol Hill, South Lake Union and Queen Anne via transit.	11/6/2014 6:57 PM
3328	mostly from cap hill to downtown i also go from cap hill to u district and north seattle	11/6/2014 6:56 PM
3329	Pioneer square	11/6/2014 6:51 PM
3330	I go to the U-District using the 31. Occasionally, I'll take the D Line to the 44 if I have to. I use the 33 to go downtown or to Fort Lawton and cross the locks into Ballard. I also take the D Line, to the C Line, to the Admiral District in West Seattle.	11/6/2014 6:50 PM
3331	Capitol Hill light rail station International district - 5th and Jackson Westlake South lake union	11/6/2014 6:50 PM
3332	nw 24th and 70th (Ballard), U District, Capitol Hill, Downtown, Westlake Center, International District, Airport, Wallingford (45th st), Woodland Park Zoo. Northgate mall transfer center.	11/6/2014 6:40 PM
3333	Currently go go Group Health on Capitol Hill, Northgate, downtown	11/6/2014 6:38 PM
3334	1541 NW 52nd St 1501 N 45th St 4515 16th Ave NE Woodland Park Zoo Group Health Northgate Group Health Capital Hill Ravenna Eckstein Community Center	11/6/2014 6:36 PM
3335	Work in the U district. Downtown.	11/6/2014 6:36 PM
3336	From Northeast Seattle (one mile east of Northgate Mall) to the University of Washington Medical Center	11/6/2014 6:35 PM
3337	University of Washington Downtown Seattle (3rd and Pike, for example) Victory Heights Neighborhood	11/6/2014 6:32 PM
3338	I live in the U-District (4700 12th Ave NE) and do not own a car and travel to and from Kirkland to church on Sunday morning, to Christ Church Kirkland. On Tuesday evenings I go to Kirkland for home church group, at 12636 94th Avenue NE, Kirkland 98034, and on Wednesday evenings I attend a ballet class in Kirkland at International Ballet Theater. Occasionally I have reason to travel to downtown Seattle using 71/72/73. I also travel to fabric stores in Ballard, mainly JoAnn Fabric and Craft Stores, and to Northgate to Pacific Fabric & Crafts.	11/6/2014 6:31 PM
3339	Downtown, Broadway, Pike/Pine, Group Health, Overlake, Redmond, Bellevue, U District, Fremont, Ballard, ID, Stadiums	11/6/2014 6:29 PM

3340	I go from (1) Fremont to University District, (2) Fremont to Ballard, (3) Fremont to Downtown Seattle. Once in a while, I go from (4) Fremont to Greenlake and (5) Fremont to Northgate.	11/6/2014 6:27 PM
3341	Bellevue College, Shoreline Library, Kent Station, Showare Center, Xfinity Arena, Olympia Airport. Tacoma Art Museum, MOHAI, Seattle Center.	11/6/2014 6:26 PM
3342	Downton Seattle. First Hill, Madison and Boren. Capitol Hill	11/6/2014 6:26 PM
3343	Sand point to Redmond via montlake. Lately I've been driving alone or carpooling with my husband because the bus is too slow. When I take the bus I either grab the 75 at my house and transfer to the 542 in the u district, or drive to the green lake park for the 542, or ride my bike to montlake for the 545.	11/6/2014 6:22 PM
3344	Downtown, north gate, and I would like to be able to go to uvillage shopping center on one bus or on a couple of frequent busses.	11/6/2014 6:19 PM
3345	To and from work To and from cultural events (theater, music) To and from social activities (dinner with friends, visiting) To and from medical and dental appointments Well, everything.	11/6/2014 6:12 PM
3346	commute downtown	11/6/2014 6:11 PM
3347	1501 E Madison St Seattle SeaTac Airport	11/6/2014 6:10 PM
3348	University bookstore Douglas truth library	11/6/2014 6:08 PM
3349	SEATAC Airport UW Seattle Downtown Capitol Hill VA Hospital Columbia City	11/6/2014 6:03 PM
3350	I would like to take light rail up to 145th & I-5. I use the 346, E, 304 and 301	11/6/2014 6:01 PM
3351	Bus 47!! Bring the 47 back! Downtown Queen Anne Georgetown Capitol Hill Are my major destinations Need a light rail corridor that goes sodo to Georgetown and points south and/ or better, faster more reliable bus service.	11/6/2014 5:58 PM
3352	Downtown generally 2nd and Bell Western and Elliott Leary and Vernon Alaskan and Marion or 1st and Marion	11/6/2014 5:57 PM
3353	Downtown Seattle Shilshole Bay Marina Ballard Fremont Northgate Mall University District Greenlake	11/6/2014 5:55 PM
3354	1500 6 Av S, Seattle, WA University of Washington Lower Queen Anne Capitol Hill Downtown Seattle SODO Bellevue	11/6/2014 5:53 PM
3355	Currently, I only use buses to go downtown and back. Usually, I drive to near 15th NE and 65th. (I live on 46th NE near 97th, so that's 3 miles away.) It's too slow to take the #75 bus to the U. District and then transfer to a 71, 72, or 73. Currently, I also occasionally take the 75 from near my house to the UW and back. In earlier years, I've taken the 75 to get to UW and the University Village area. For many years before that, I had no car so took buses everywhere, including to the eastside for occasional work, to the airport, etc. etc. I'd love to have the #75 (or another bus from the NE 97th St stop on Sand Pt. Way) go directly to the new Link station from Sand Point Way, and bypass the UW campus. That way, I'd be able to go downtown more easily and often, and on to the airport if necessary. I'd also truly love to have one bus that would take me from SPW & 97th to North Cap. Hill - preferably to 19th and Crescent. I make that trip every week on Thursday mornings. I also wish there were a quick and easy way to get from SPW & NE 97th to Seward Park! (I can dream....)	11/6/2014 5:51 PM
3356	Queen Anne to Fremont/U District is not well served after business hours. Admiral District in West Seattle to Columbia City, or anywhere for that matter is difficult. The 8 is always packed during rush hour. Please increase the number of buses.	11/6/2014 5:51 PM
3357	UW Seattle Center Downtown--theatres, restaurants, shopping, museum Group Health Cooperative 15th Ave E for restaurants, shopping Madison Park for restaurants Madison Ave for grocery stores Broadway for restaurants Pike/Pine corridor for restaurants, shopping, films	11/6/2014 5:49 PM
3358	I go between 47th Street NE & Roosevelt to downtown (4th Avenue & Pike). I go between Phinney Ave N and 47th Street NE & Roosevelt.	11/6/2014 5:47 PM
3359	Capitol Hill University Ave/UW campus downtown south end (city Hall/pioneer Square) Downtown north end (shopping district) Ballard farmers market Central district Cultural organizations Seattle Center	11/6/2014 5:46 PM
3360	Daily commute from Bonney Lake to UW Tower, 5 days a week.	11/6/2014 5:46 PM
3361	Downtown Alki Discovery Park Broadway Pike/Pine Columbia City Airport Redmond Downtown	11/6/2014 5:46 PM
3362	I travel from Harvard and Prospect to the downtown area. I travel from Harvard and Prospect to the Polyclinic. I travel from Harvard and Prospect to Pioneer Square I travel from Pioneer Square to Seattle Center	11/6/2014 5:41 PM

3363	I travel to/from Wallingford avenue, Fremont (near the bridge), Downtown (Westlake, ID, Pike Place), Capitol Hill (Broadway), Wedgwood, Northgate (Mall), Ravenna, and the University District. I would like to have easier access to Lake City. I can get there from where I am located now, but it takes such a long time that I carpool there instead of taking a bus. Specifically the area where Fred Meyers is, and the area around Dick's.	11/6/2014 5:40 PM
3364	Downtown/SLU Fremont Ballard U-District/Ravenna	11/6/2014 5:40 PM
3365	Currently I go to the airport, downtown, Seattle Center, and around Capitol Hill (like E-W and N-S). I would love to be able to take public transit to the stadiums and up to Fremont, Wallingford, and Greenlake.	11/6/2014 5:39 PM
3366	I travel mostly between Issaquah and downtown Seattle, specifically SLU.	11/6/2014 5:38 PM
3367	I typed so long that I timed out on my first try at this survey, so I'm NOT going to give specific addresses this time - sorry. I do not drive at all, so I use transit all the time and I go all over Northeast Seattle, University District, Roosevelt area, Ravenna, Eastlake neighborhood, parts of Capitol Hill, First Hill, most of downtown, the waterfront, Belltown, Seattle Center, parts of Queen Anne and Magnolia and Phinney Ridge. I use Northgate Mall and University Village Mall. I also go to Kenmore (dentist) and Shoreline (vet), and Redmond (to visit friends). I use transit for business, medical appointments, shopping, and pleasure.	11/6/2014 5:37 PM
3368	Capitol Hill, U-District, downtown, Northgate, South center mall, Kirkland, Bellevue, Everett, Stanwood,	11/6/2014 5:37 PM
3369	I live west of the freeway at Northgate. My trips to the U District are both to the ave (16 and 44, home by 66/67 and 16) and using the Metro # 68 from transit center to just NW of U Village to visit the dentist My trips to Capitol Hill are to Group Health Central	11/6/2014 5:36 PM
3370	Downtown Northgate Lake City Seattle Center	11/6/2014 5:36 PM
3371	SLU Westlake & Mercer Boren & Madison 8th & Virginia Jackson & 17th Yesler & 17th	11/6/2014 5:36 PM
3372	Live Downtown. Go to Upper Queen Anne, Queen anne, Ballard, Greenwood, Green Lake, Roosevelt, Wallingford, University, Northgate, UVillage, LAke City.	11/6/2014 5:35 PM
3373	[NE 24th St & 186th Ave NE], [King County International Airport], [Marymoor Park], [PCC Natural Markets, 7504 Aurora Ave N, Seattle, WA 98103], [Whole Foods Market, 1026 NE 64th St, Seattle, WA 98115], [Woodland Park, 1000 N 50th St, Seattle, WA 98103], [Woodland Park Zoo], [Gas Works Park], [Union Bay Natural Area, 3501 NE 41st St, Seattle, WA 98105], [Warren G. 3379	Washington Convention Center, Seattle Center, ACT Theater, Douglass-Truth Library, Bellevue, Seattle City Hall, Sea-Tac airport, Columbia City, University of Washington, Tacoma, 20th & Pine, Madison & MLK, Union & MLK,	11/6/2014 5:25 PM
3380	East Broadway East Madison St Harborview Hospital Downtown Seattle	11/6/2014 5:24 PM
3381	Currently -77 from NE 145th St.& 15th Ave. NE to University Street Stn - in the AM on M-F & 308 from 4th Ave. & Union St (downtown) to NE 145th St. & 20th Ave. NE in the PM on M-F - also 26 or 28 from 3rd. Ave. & Union St. to Dexter Ave N. and Mercer St. on T & Th at about 9:20 AM & 131 or 132 from Dexter Av. N. & Harrison St. on T &Th at about 11:10 AM; Occasionally I drive to Northgate Transit Center & take 41 to and from downtown Seattle University St. Stn. I would love to have more express service from NE 145th St. to & from downtown Seattle. Right now my evening commute on the 308 is the fastest trip I take as it enters the freeway at Pike St Express Lanes and exits I-5 at NE 145th St. It's great! More frequent trips, including weekends, from Northgate Transit Center to Eastside would be great!	11/6/2014 5:22 PM
3382	university of Washington Broadway on capitol hill Dicks in Wallingford Eastgate park and ride Pike place market Space needle Myrtle beach park Alki beach Roxies diner in Fremont	11/6/2014 5:22 PM

3383	Most often I go from Ballard to the UW Medical Center. I would like there to be easier ways/connections to get from Ballard to Capital Hill, from the UW Medical Center to Capital Hill and the Central District (1710 S. Jackson St), as well as from Ballard & UW Medical Center to Seatac.	11/6/2014 5:17 PM
3384	UW, Wallingford, Ballard, Benaroya Hall, Seattle Art Museum, Bellevue Arts Museum, Paramount, Northgate Mall, SeaTac Airport, Shoreline	11/6/2014 5:16 PM
3385	Downtown Seattle, SeaTac airport	11/6/2014 5:16 PM
3386	The one gap in NE Seattle that I can think of is Montlake, there is no bus that goes straight past Husky Stadium to continue either north on 25th or east on 45th.	11/6/2014 5:16 PM
3387	Capitol Hill University Distric Seattle Downtown Madison Park	11/6/2014 5:14 PM
3388	1900 Rainier Ave S 420 Belmont Ave	11/6/2014 5:13 PM
3389	Work - UW DOWNTOWN	11/6/2014 5:12 PM
3390	NE 92nd and 25th University District Fremont Downtown Lower Queen Anne Northgate Wallingford Seattle Center Capitol Hill Bellevue	11/6/2014 5:10 PM
3391	Currently: Broadway businesses from John to Roy. Pike/Pine area between Melrose Ave & 15th Ave. Microsoft via a transfer at Montlake Freeway Station (43/48 <-> 242/542/545). Pike Place Market. Sea-Tac Airport. My home near E John St & 24th Ave E. Ballard businesses near NW Market St & 22nd Ave NW (this is a difficult/long trip). Like to go: Capitol Hill & Husky Stadium Link stations. Better/faster connections to Ballard, Fremont, Northgate, Phinney Ridge.	11/6/2014 5:09 PM
3392	Normally ride 48 bus to greenlake to connect with the 16 to northgate. Also use 11 and 12 to go downtown as well as 8. Lightrail service to northgate would help connect all the areas of Seattle, as well as Ballard. Going from capital hill to ballard is the most difficult route to take on metro transit.	11/6/2014 5:09 PM
3393	Downtown Seattle Capital Hill Northgate SeaTac	11/6/2014 5:08 PM
3394	Belltown Uptown Fremont Ballard by light rail	11/6/2014 5:08 PM
3395	I live close to the. #75 route in NE Seattle. I would like to take the #75 and make a connection at the UW station, continue to downtown Seattle and from there take the bus or train to Tacoma.	11/6/2014 5:07 PM
3396	University of Washingont Downtown Seattle Seattle Center Colman Dock SeaTac Airport	11/6/2014 5:07 PM
3397	Seattle Central College Downtown shopping - 3rd and Pine is ideal Polyclinic Madison 1247 20th Avenue East 7th and Olive medical building University district Many others occasionally	11/6/2014 5:03 PM
3398	Pacific Science Center, University of Washington, 45th and 7th ave NE, Northgate, Fremont, Downtown e.g. Westlake, etc.	11/6/2014 5:02 PM

3406	UW, Seattle Center, Downtown	11/6/2014 4:56 PM
3407	Downtown, International District, U District, Redmond; I would love to be able to get around Redmond better.	11/6/2014 4:56 PM

3408	North Seattle Community College, Northgate Mall, The Ave, Greenlake, Episcopal Bookstore in Wallingford, Seattle Pacific University, University of Washington, Ballard.	11/6/2014 4:55 PM
3409	University of Washington Downtown Seattle Sea Tac Airport	11/6/2014 4:55 PM
3410	Currently go: South Lake Union, capitol hill, down town, central district, queen anne Would like it to be easier to get to Ballard, georgetown, colombia city and greenwood on transit.	11/6/2014 4:54 PM
3411	Downtown (5th and Pike) Fremont (38th and Aurora)	11/6/2014 4:54 PM
3412	19510 223rd Ave NE, Woodinville, WA 98077	11/6/2014 4:52 PM
3413	I take the bus to the Microsoft Campus for work, and I sometimes go to Downtown Bellevue afterwards.	11/6/2014 4:52 PM
3414	I'd like to go from Ballard (15th Ave NW and NW Market St) to Wallingford (45th & 1st Ave NE). And from Ballard (15th Ave NW and NW Market St) to Capitol Hill (Bellevue Ave and Olive Way).	11/6/2014 4:51 PM
3415	I need to go from the UW to the eastside, any transit stop along I405 from I90 south.	11/6/2014 4:50 PM
3416	UW, Lake City Way, Northgate Transit Center, Green Lake, 65th Street/ Greenlake Park&Ride, Magnuson Park, Golden Gardens, Seattle Center/ Space Needle, Downtown Tacoma, White Center/Burien, Southcenter Mall	11/6/2014 4:50 PM
3417	Centurylink field from Capitol Hill	11/6/2014 4:50 PM
3418	I depend on the number 12 bus to get me to my doctor's office The Country Doctor (500 on 19th Ave E). I use the number 11 regularly to get downtown to shop at Target and see my Chiropractor in the Medical Dental building. I used to be able to take the 27 to help me get home from my volunteer job at Carolyn Down Family Medical center 2101 E. Yessler Way, but now I have to use the #8 which stops on 23rd and E Yelser Way. Two blocks doesn't seem far to walk, except it is a significant grade. Not a hill a wheel chair user could navigate.	11/6/2014 4:49 PM
3419	U District, Capitol Hill, Madison Park, Madrona, University Village, Ballard, Phinney Ridge. Northgate	11/6/2014 4:48 PM
3420	I would like seamless connections from North Capitol Hill to SeaTAc	11/6/2014 4:48 PM
3421	Why isn't Route 5 listed above? My desire is to take the bus from 80th & Greenwood to 1st Hill and Capitol Hill for doctor and hospital visits. This can involve standing in the rain & wind for up to 20 minutes to make the transfer, all while feeling quite unwell. Please link us quickly & easily with Group Health, Swedish, Virginia Mason, etc. So glad the Metro initiative passed!!!	11/6/2014 4:47 PM
3422	UW, Capitol Hill, Metropolitan Park E, Fremont, Ballard, Downtown I want to keep going those places. You already took away the 47 from my house to downtown. Don't take away any more bus routes!	11/6/2014 4:47 PM
3423	Work - phinney ridge Central library downtown Home - central district Capitol hill	11/6/2014 4:47 PM
3424	Lake City - 125th and Lake City Way Wedgwood corridor - NE 35th U-District - University Way, 15th Downtown - 5th and Columbia Seattle Animal Shelter - 2061 15th Ave W The Pontedera - Hiawatha Place S and S Dearborn Street	11/6/2014 4:46 PM

3427	University of Washington, Bothell Campus	11/6/2014 4:44 PM
3428	Busses: Primarily from Capitol Hill to Downtown, but also to Fremont, Seattle Center, Madison Park Link: Colombia City and Sea-Tac Airport Sounder Train: Puyallup Water Taxi: West Seattle WSF: Olympic Peninsula	11/6/2014 4:44 PM
3429	Work, home, dentist, doctor	11/6/2014 4:42 PM
3430	Downtown, Lincoln Park, St. Stephen's Episcopal Church (Laurelhurst), Carkeek Park, Fremont PCC, Fred Meyer (Ballard), Green Lake Community Center, Jefferson Community Center, Northgate--all from Ballard (near the high school) Would like to be able to get to Edmonds, Everett, Mukilteo	11/6/2014 4:41 PM
3431	1959 NE Pacific Street NE 70th Street and 25th AVE NE 1918 8th Avenue 9th and Jefferson 850 Republican Street 4000 Fremont Avenue North 9th and Pine Ballard Ave NW and NW Market Street 45th Ave NE and University Way NE 1000 East Pike Street SeaTac Airport	11/6/2014 4:40 PM
3432	Currently, from North Beacon Hill to the ID and Downtown. Would like to commute directly to the UW and not have to change.	11/6/2014 4:38 PM
3433	University of Washington Seattle Center Downtown Seattle 12th & Cherry Pine & Broadway 40th Ave NE & NE 80th St. Google Fremont Google Kirkland Second Story Rep Theatre Seattle Musical Theatre	11/6/2014 4:38 PM

3434	downtown,queen anne,cap hill u dis	11/6/2014 4:38 PM
3435	Downtown, Capitol Hill, UW, seatac airport, west seattle, Northgate, federal way, Bellevue, Renton, Georgetown	11/6/2014 4:37 PM
3436	I would like to be able to go on 12th Avenue in Seattle on transit.	11/6/2014 4:37 PM
3437	What are the #s of the C& E lines? Why is the #5 bus not listed?!?!	11/6/2014 4:36 PM
3438	50th and University to UW light rail. UW Light rail to capital hill, downtown, airport.	11/6/2014 4:35 PM
3439	UWMC, downtown, u district, Group Health Cap Hill,	11/6/2014 4:34 PM
3440	I commute from near 85th & 20th street to Pioneer Square and back on the 312 most weekdays. Some days I take the 72/73 back when I am downtown late. Weekends indicate the 72/73 as my way to and from home, but I will use other routes over to Capitol Hill, depending on my destination- often I will go to Remedy Teas or to Broadway & Olive area. Typically the fastest way is to use the 72,73 down to University Parkway & 45th and then to transfer to the 48. This, however, is not fast. Currently, my location is not served well in the matter of NE Seattle -> N/NW Seattle routes. - I would like to transit from 85th & 20th over to Cafe Mox in Ballard - I would like to transit from 85th & 20th over to 3411 Fremont Ave N (Blue C sushi) district.	11/6/2014 4:34 PM
3441	Airport, downtown, Capitol Hill, Pinehurst, Shoreline, Ballard, Beacon Hill. Hoping direct connectivity between Beacon Hill and Capitol Hill will improve when Link comes on line.	11/6/2014 4:33 PM
3442	Auburn transit center or Puyallyp transit center. There is usually no parking available (I arrive around 7 am) so I end up driving instead.	11/6/2014 4:32 PM
3443	Northgate Mall University District North Seattle Community College Northwest Hospital Northwest Hospital Outpatient Clinic Lake City Downtown Seattle First Hill King Street Amtrak Station	11/6/2014 4:31 PM
3444	I go every morning from the U District/Ravenna to downtown - Convention Place Station. I ride the bus or the train to meetings on a regular basis throughout the downtown corridor, up to Capital and First hills, up to Greenwood and down by GeorgeTown. I take the train to the airport once a month for work.	11/6/2014 4:31 PM
3445	Currently, 18th and Aloha to Downtown (North and South) 18th and Aloha to Montlake 18th and Aloha to Kirkland or Bellevue 18th and Aloha to Seatac 18th and Aloha to Madison Park Around downtown To and from the U Like to, 18th and Aloha to Pioneer Square/SoDo 18th and Aloha to Belltown 18th and Aloha to Beacon Hill	11/6/2014 4:30 PM
3446	From 6th west & West Crockett to downtown; usually 3d and Pine or 3d and Seneca. Occasionally to Broadway and Madison	11/6/2014 4:28 PM
3447	Mostly I go from Lake City Way to downtown. I do also take the 75/65 if I go to the Udist/UVillage/Fremont. I look forward to using Link, and catching the 65/75/372 up to LCW.	11/6/2014 4:28 PM
3448	From Montlake & SR 520 to Sea-tac airport. From Montlake Freeway Station to downtown & Bellevue Square. From Montlake to downtown Seattle. From Montlake to Yarrow Point Freeway Station. From montlake to North gate.	11/6/2014 4:26 PM
3449	From Home at 85th & Evanston to Work at UWMC, 1959 NE Pacific Street I will use the new light rail station across from UWMC to go to Capital Hill and Downtown to dine and shop. When the light rail station opens at 65th & Roosevelt, I will use it to go to work.	11/6/2014 4:26 PM
3450	CenturyLink Field, parks and scenic viewpoints, Central Library, UW campus	11/6/2014 4:25 PM
3451	home to u district and/or downtown	11/6/2014 4:25 PM
3452	Between Capitol Hill, downtown, and South Lake Union.	11/6/2014 4:24 PM

3563	Downtown to Madison Park Madison Park to Airport	11/6/2014 3:45 PM
3564	N/A	11/6/2014 3:43 PM
3565	Capitol Hill to Downtown or to the UW (currently) Would like easier access to South Lake Union	11/6/2014 3:43 PM
3566	110 6th ave n 12526 Greenwood Ave Downtown in general	11/6/2014 3:43 PM
3567	From Green Lake (63 Latona Ave NE) to downtown (8th & Stewart), also from the green lake or downtown to Seatac airport	11/6/2014 3:43 PM
3568	Shoreline to UW, UW to downtown, UW back to Shoreline,	11/6/2014 3:43 PM
3569	I currently travel regularly from either Kenmore or Kirkland to DT Seattle and the airport	11/6/2014 3:43 PM
3570	from wallingford and downtown	11/6/2014 3:43 PM
3571	University of Washington, downtown Seattle, Queen Anne, downtown ferry terminal, Seatac airport	11/6/2014 3:42 PM
3572	Children's Hospital to SW corner of UW campus, UW gym.	11/6/2014 3:42 PM
3573	2nd, 3rd, 4th, and 9th & Seneca street	11/6/2014 3:41 PM
3574	University of Washington Fremont (34th Street stops) Ballard (Ballard Ave NW stops) Northgate (Transit Center/Target) West Seattle (California Ave and Alaska Ave) Benaroya Hall Town Hall International District (Station, S Jackson) Airport	11/6/2014 3:41 PM
3575	My commute is from 65th and 32nd Ave NE to 3rd and Union downtown. I would like to be able to take a bus from 65th and 35th Ave or 65th and 25th Ave to the Stadium light rail station. I wish there was a bus that went all the way down 65th from wedgewood to greenlake, then south along greenlake and up to phinney ridge or over to ballard along 50th and then market st. That is my most common driving route to get to greenlake and ballard. I would love to ride the bus instead of driving.	11/6/2014 3:41 PM
3576	Downtown/Belltown Wallingford Fremont U District Ballard Capitol Hill Airport	11/6/2014 3:41 PM
3577	Cap Hill to UW and to downtown	11/6/2014 3:41 PM
3578	Used Summit #14/#47 for 35 years along Bellevue Avenue E until September 26th when all service was cancelled. Would like this service returned. There is no comparable service to use from Bellevue Ave E and E Roy.	11/6/2014 3:40 PM
3579	Live near Northgate Park and Ride, ride daily to Swedish First Hill. Visit the University Village frequently, but have to drive as no direct bus is available from Northgate and/or First Hill. Also, husband works in Redmond and I commute via those buses often to meet him after work.	11/6/2014 3:40 PM
3580	I go to first hill capitol hill, occasionally Ballard, downtown, occasionally beacon hill , gearargetown, south park & Airport. I'd like a better route to West Seattle	11/6/2014 3:40 PM
3581	Queen Anne ave and mercer st Harborview medical center UW medical center Queen Anne ave and Boston	11/6/2014 3:40 PM
3582	Downtown and University District.	11/6/2014 3:40 PM
3583	University St. Station; 55th and University Way NE; Broadway and John St; Broadway and Roy St; Harborview Medical Center; Denny Way and Queen Anne; Denny Way and Fairview; NE 65th and 12th Ave NE; Northgate Transit Center	11/6/2014 3:39 PM

3584	Currently go: Pioneer Square, Downtown, CID, University District, Wallingford, Ballard Would like to go: More places by 1 bus (no transfer), frequent reliable service	11/6/2014 3:39 PM
3585	Work (5th and Bell, Seattle, WA) University of Washington, Seattle Campus Home (Ravenna) Friend's houses / social activities (Capitol Hill) Airport (SeaTac Airport)	11/6/2014 3:39 PM
3586	25th & Madison --> Denny & Westlake (final destination: 850 Republican) 23rd & John --> U-District John & Madison --> Downtown	11/6/2014 3:39 PM
3587	I currently use metro to get to work in downtown Seattle Monday - Friday, but I also use it to get all around Seattle because I don't have a car. I live in the Leschi neighborhood and would love to see better bus lines going up north toward Fremont and Ballard from my neighborhood or near it.	11/6/2014 3:38 PM
3588	Seattle University Northgate 65th and Roosevelt University of Washington Downtown Ballard Downtown Fremont Stadiums	11/6/2014 3:38 PM
3589	I would like to go from east QA directly to Pike.Pine corridor on Capitol Hill. I would like to go from east QA to the Bellevue or Kirkland directly.	11/6/2014 3:38 PM
3590	Woodinville park and ride, Westlake center	11/6/2014 3:38 PM
3591	church on Sundays	11/6/2014 3:38 PM
3592	I would love to be able to get from Green Lake (56th & Latona) to Capitol Hill. It currently takes over an hour to bus to Cap Hill and a mere 10 minutes to drive. This makes me sad. I currently go from 56th & Latona to Fremont, SLU, and downtown (on the 26 or the 16).	11/6/2014 3:38 PM
3593	Magnuson Park UW Harborview Faith Lutheran Church Paramount Theater	11/6/2014 3:38 PM
3594	Lower Queen Anne 2201 Westlake Ave University of Washington Campus (Red Square, and Medical Center) Downtown Seattle Fremont Ballard	11/6/2014 3:38 PM
3595	City University of Seattle UW Downtown Seatac airport Seattle ferry terminals incl. Victoria Clipper Alki Beach International District Seattle Boulderling Project Magnuson Park Northgate Mall Northgate Community College Tacoma Community College	11/6/2014 3:37 PM
3596	I live in Capitol hill and travel most frequently to SLU, downtown, Ballard, Wallingford, Queen Anne and the U district. I think Seattle metro needs a faster and more reliable way to travel between Capitol hill and Ballard, and Capitol hill to upper Queen Anne.	11/6/2014 3:37 PM
3597	I live in Capitol Hill. I currently bus to Redmond, and sometimes Bellevue. I infrequently go to the U-District and Belltown; I'd like to go to Ballard more often.	11/6/2014 3:37 PM
3598	Swedish Cherry Hill	11/6/2014 3:37 PM
3599	Downtown - 3rd and Pike	11/6/2014 3:37 PM
3600	UW Tower Lake City Way and 145th street Airport	11/6/2014 3:36 PM
3601	UW campus, Lake City, downtown Seattle, CenturyLink	11/6/2014 3:36 PM
3602	- Pike/Pine corridor on Capitol Hill - SeaTac airport - Overlake Transit Center in Redmond	11/6/2014 3:36 PM
3603	Ballard to the U District Downtown to U District	11/6/2014 3:36 PM
3604	Norton Building Key Arena Greenlake Golden Gardens Home UW	11/6/2014 3:35 PM
3605	downtown Seattle, Northgate Mall, Shoreline King County Library, Seatac Airport, Tulalip Outlet Mall, 4401 4th Ave S	11/6/2014 3:35 PM
3606	South Lake Union, Fremont, Century Link Stadium, Lake City	11/6/2014 3:35 PM
3607	From 53rd NE and Roosevelt Ave NE to 12th S and Weller.	11/6/2014 3:35 PM
3608	Ballard Library South Park Library SeaTac Airport Downtown PO Downtown Library	11/6/2014 3:35 PM
3609	We need better public transit access to bell town!!	11/6/2014 3:35 PM

3610	from downtown/First Hill to Madison Valley without transfer Seward Park Magnuson Park Carkeek Park Golden Gardens Green Lake Columbia City Rainier Beach UW main campus	11/6/2014 3:35 PM
3611	UW and U District-- would like easier connection to U Village Ballard Downtown, Pioneer Square, waterfront Seattle Center Capitol Hill Northgate	11/6/2014 3:35 PM
3612	Broadway, NW Film Forum, Egyptian Theater, Harvard Exit, cafes, art store, QFC, friends, Eliot Bay Bookstore	11/6/2014 3:35 PM
3613	Green Lake, U District, downtown, Capitol Hill, airport	11/6/2014 3:35 PM
3614	I travel to and from downtown to work (from Maple Leaf neighborhood).	11/6/2014 3:35 PM
3615	downtown, capitol hill, u district, greenback	11/6/2014 3:35 PM
3616	6002 51st Ave NE, Seattle 1420 5th Ave, Seattle	11/6/2014 3:34 PM
3617	From Princeton & 55th NE to DSTT From Princeton & 55th to University Way and 50th St. From Princeton & University way to University Village	11/6/2014 3:34 PM
3618	THE POLYCLINIC,1145 BROADWAY,SEATTLE, WA 98124	11/6/2014 3:34 PM
3619	University of Washingt Lake City Way @ NE 120th 15th NE @ NE 120th King Street Station Cap Hill neighborhood Belltonw Seattle Center	11/6/2014 3:34 PM
3620	From home (on Meridian - near North Seattle CC) to work at Capitol Hill (15th ave east) and back	11/6/2014 3:34 PM
3621	I mostly go between my home in NE Seattle, the UW and downtown. I often take the bus downtown and then the light rail from downtown to the airport and back.	11/6/2014 3:34 PM
3622	University of Washington Seattle, Downtown Seattle, Ballard.	11/6/2014 3:34 PM
3623	I go downtown from my home in the Roosevelt neighborhood. I also go to the UW campus (and back) from my home. I would LOVE to be able to take a single bus to Seattle Center. I would even more love to be able to get from my home to the VA hospital in under an hour.	11/6/2014 3:34 PM
3624	Seattle Central Community College, Convention Center, 8th Ave NE and NE 80th St.	11/6/2014 3:34 PM
3625	Downtown	11/6/2014 3:34 PM
3626	Redmond Town Center Capitol Hill	11/6/2014 3:34 PM
3627	I go from 15th & 145th to 1730 Minor Ave downtown -- via the convention center transit center	11/6/2014 3:34 PM
3628	UW meany Hall The meridian school in Wallingford All over Capitol hill Medgar Evers pool Pioneer sq Westlake Seattle center Downtown (benaroya hall) Polyclinic Madison Olympic sculpture park Aquarium Seattle art museum Main library On the boards	11/6/2014 3:33 PM
3629	Greenwood, UW, downtown, Northgate, Wallingford, Fremont, SLU, Ballard.	11/6/2014 3:33 PM
3630	Downtown Seattle Capital Hill UW Roosevelt shopping district Wedgwood shopping district	11/6/2014 3:33 PM
3631	I travel from Fremont/Ballard to Capital Hill. I am a student at Seattle University. I take the 5 or 26X from Fremont to downtown, and then transfer to the 12.	11/6/2014 3:33 PM
3632	As many places as possible!	11/6/2014 3:33 PM
3633	1701 Broadway, Seattle 98133 37th Street and Corliss Ave N	11/6/2014 3:33 PM
3634	University of Washington; Harborview Hospital, Downtown Seattle	11/6/2014 3:33 PM
3635	I currently travel from my home in Wallingford (Eastern Ave. N between 46th and 50th) and the University of Washington (where I work). I also frequently take the 26 downtown from my home and occasionally take the 71/72/73 downtown from the University if I need to go downtown from work. I am very excited to be able to take light rail from the U. District to the airport instead of driving or taking a taxi. Also to be able to take the train up to Northgate instead of driving.	11/6/2014 3:32 PM
3636	too many to list but capitol hill, beacon, downtown and west seattle are most frequent destinations. Would love to be able to get to Ballard more efficiently but since it is a pain I avoid it.	11/6/2014 3:32 PM
3637	Bellevue Transit Center Bay 5, NE 6th St & 108th Ave NE	11/6/2014 3:32 PM
3638	Work Downtown Friends UW games	11/6/2014 3:32 PM

3639	I go from Montlake Library to First Hill on Seneca and Summit Ave.	11/6/2014 3:32 PM
3640	work, home	11/6/2014 3:32 PM
3641	Downtown, Capitol Hill, U District, First Hill, Fremont, Tacoma.	11/6/2014 3:31 PM
3642	Seattle University Northgate Transit Center Shoreline Park and Rides Richmond Beach U District/U Village Downtown	11/6/2014 3:31 PM
3643	downtown Seattle from Maple Leaf neighborhood	11/6/2014 3:31 PM
3644	I would like to go to Mukilteo ferry from downtown	11/6/2014 3:31 PM
3645	Commute to NE corner of UW from Northgate & 23rd Ave. Occasional trips to SLU, downtown, and the airport.	11/6/2014 3:31 PM
3646	Harborview medical center early in the morning	11/6/2014 3:31 PM
3647	Ballard --> UW, West Seattle --> Ballard/Fremont/UW	11/6/2014 3:31 PM
3648	Downtown Magnolia Ballard U district Northgate Capitol hill Seatac airport	11/6/2014 3:29 PM
3649	I go to Capitol Hill, the U-District, Ballard, Fremont, Downtown, Intl District, West Seattle, and SeaTac most frequently.	11/6/2014 3:24 PM
3650	Home: 300 Harvard Ave E Work: 1700 Airport Way S Broadway (daily) 4th & Pike (weekly) University Way (rarely) Improved connectivity to Fremont and Ballard would be welcome.	11/6/2014 3:04 PM
3651	I go to work at Redmond City Hall. I go home near the Mercer Island Park and Ride. I go to the University of Washington Medical Center. I visit my friend at 65th and Roosevelt. I go between Redmond City Hall and downtown Seattle. I visit family on Capitol Hill at 17th and Madison. I go to medical appointments at the Swedish Hospital complex on First Hill. I go to classes at Seattle University.	11/6/2014 3:03 PM
3652	Downtown Seattle, Northgate, Downtown Redmond, Overlake, Downtown Bellevue, Columbia City, Fremont, Magnolia	11/6/2014 10:42 AM

Q4 Are there any significant destinations such as cultural, religious, low-income, senior, social service locations or parks that we should include as we analyze service needs?

Answered: 1,635 Skipped: 2,452

#	Responses	Date
1	n/a	12/4/2014 9:55 PM
2	Libraries, senior housing, grocery stores	12/4/2014 7:01 PM
3	Not that I know of.	12/4/2014 3:33 PM
4	shift changes at the hospitals - namely, Children's and UW - 7am/7pm arrivals	12/4/2014 3:24 PM
5	Ravenna Park 50th & 24th (very low income and almost no service especially for seniors)	12/4/2014 2:13 PM
6	At the moment it feels as if it was easier to move from the North of the city to downtown and the UW, than it is to get to the UW and downtown from the south of the city. There seems to be a lot more public transportation options in the north (especially park-and-rides, bus lines and how often they come.).	12/4/2014 12:40 PM
7	more bus routes to Golden Garden or Discovery Park	12/4/2014 10:38 AM
8	Seattle Children's Hospital Other major hospitals in the Seattle region	12/4/2014 9:11 AM
9	Not sure	12/3/2014 4:53 PM
10	children's hospital	12/3/2014 4:03 PM
11	Easy and economically affordable transit must be a priority for all Seattle area residents and especially for students, low income residents, the disabled and the elderly. These routes need to be connected with schools, social service agencies, food banks, employment assistance and healthcare.	12/3/2014 2:42 PM
12	na	12/3/2014 2:02 PM
13	Magnuson Park	12/3/2014 1:43 PM
14	servicing those areas!	12/3/2014 10:48 AM
15	Stops near Seattle Public Libraries Stops near Sea Mar Community Health Center Clinics (particularly in South Park Neighborhood) Stops near Green Lake (on the Phinney Ridge side of the lake)	12/3/2014 10:34 AM
16	Rainier Beach Community Center	12/3/2014 10:29 AM
17	Seattle Children's Hospital	12/3/2014 10:22 AM
18	Please tie service stops with City bicycles spots, Car2Go or Zipp Car facilities	12/3/2014 9:09 AM
19	no	12/3/2014 8:30 AM
20	Not sure.	12/3/2014 8:19 AM
21	Not for me.	12/3/2014 8:01 AM
22	Magnuson Park perhaps.	12/2/2014 8:31 PM
23	marymoor park would be nice	12/2/2014 7:25 PM
24	Public Libraries, Senior Centers, Community Centers, Medical Providers like Group Health, Universities, Public Schools, Federal/State/County/City Offices. Major shopping centers and stores. All of these which you already serve.	12/2/2014 4:58 PM
25	hospitals research facilities	12/2/2014 2:43 PM

26	magnuson park, golden garden's	12/2/2014 2:07 PM
27	unknown	12/2/2014 12:57 PM
28	No	12/2/2014 11:35 AM
29	i don't know.	12/2/2014 11:33 AM
30	Seattle childrens hospital	12/2/2014 11:08 AM
31	n/a	12/2/2014 11:06 AM
32	Work	12/2/2014 10:59 AM
33	-Frequent connections to the Burke-Gilman Trail - for combined bus-rider-walker-commuters & bus-rider-bike-rider-commuters -Connection to 520 buses to go the east side -Magnuson Park -Meadowbrook -Woodland Park - Ravenna Park -Matthews Beach -Discovery Park -Volunteer Park -The Arboretum -South Lake Union Area -Gas Works Park	12/2/2014 10:58 AM
34	New to bus rider for the last couple months. I keep finding new routes and things to ride to.	12/2/2014 10:40 AM
35	Madison Park only has one line, and so is Madrona or Madison Valley, and those buses run really long and often are late. Perhaps there's a way to incorporate other methods? I would prefer not to have to drive and utilize public transit but wouldn't want to spend 1 hour just to go into town when I can walk into town in probably less than 1 hour...	12/2/2014 10:13 AM
36	Seattle Children's Hospital	12/2/2014 9:48 AM
37	Seattle Children's Hospital	12/2/2014 9:42 AM
38	Seattle Children's Hospital. Many low-income families spend upwards of 3 hours on the bus trying to get to SCH due to limited buses/routes.	12/2/2014 9:31 AM
39	Cannot think of any at this time	12/2/2014 9:27 AM
40	Seattle Children's Hospital 4800 Sand Point Way NE, 98105	12/2/2014 9:19 AM
41	None that I can think of because I don't use the bus system to go to these. I do use it to go to the North college and to Children's Hospital	12/2/2014 9:14 AM
42	No	12/2/2014 9:13 AM
43	parks	12/2/2014 8:55 AM
44	No	12/2/2014 8:46 AM
45	Seattle Childrens Hospital, Magnuson Park, Lake City Downtown	12/2/2014 8:14 AM
46	no	12/2/2014 8:09 AM
47	Woodland Park	12/2/2014 7:59 AM
48	Hamlin Park	12/2/2014 7:54 AM
49	none noted	12/2/2014 7:29 AM
50	Stadiums--Safeco and Century Link, Benaroya, Egyptian Theater, Taproot Theater, Uptown Theater.	12/2/2014 7:11 AM
51	Interesting...it would be nice to have a bus go down the hill into some of the waterfront parks that either charge for entry by car, while those without enter for free, or offer limited parking once down the hill...Saltwater State Park in Des Moines, and Seahurst Beach in Burien come to mind...	12/2/2014 7:06 AM
52	N/A	12/2/2014 6:06 AM
53	I wish there were more bus routes that connected directly to Seattle Childrens Hospital with fewer transfers. Also, there isn't a good way to go from Fremont to the Childrens Hospital without many transfers needed.	12/2/2014 12:51 AM
54	Seattle childrens from downtown and downtown to university district	12/1/2014 10:54 PM
55	no	12/1/2014 10:34 PM
56	No	12/1/2014 10:09 PM

57	All of the churches on 125th in the Lake City neighborhood	12/1/2014 10:04 PM
58	None	12/1/2014 9:58 PM
59	Getting to a children's hospital seems to be pretty important when considering low income needs. I live by a few low income neighborhoods and I bet it's a nightmare for them if they needed to go to the hospital non-emergently, but quickly.	12/1/2014 9:09 PM
60	Parks! Golden Gardens, Discovery Park, Volunteer Park, Magnuson Park.	12/1/2014 7:19 PM
61	Group health on Capitol Hill Volunteer park U I ersity library	12/1/2014 6:37 PM
62	Meadowbrook Pool Magnuson Park	12/1/2014 6:02 PM
63	Gasworks park, Golden Gardens, Green Lake, Discovery park, Cal Anderson park, City Center.	12/1/2014 5:53 PM
64	Children's Hospital	12/1/2014 5:38 PM
65	don't know	12/1/2014 5:13 PM
66	Magnuson Park Golden Gardens SAM and Benaroya Hall Arboretum Discovery Park Woodland Park Zoo	12/1/2014 5:08 PM
67	grocery and hardware stores everywhere	12/1/2014 5:06 PM
68	Absolutely, but I don't know them. The people who are in need of additional transit options may not be aware that additions are planned, let alone have internet access, or speak english well enough to complete this survey.	12/1/2014 5:02 PM
69	Nope	12/1/2014 4:40 PM
70	Washington Park Arboretum,	12/1/2014 4:36 PM
71	Apart from the obvious aforementioned destinations, I think it is important to maintain bus service to night life destinations. While not always the prettiest of sights, I much prefer seeing drunk people taking the bus home than trying to drive. This especially helpful at night time.	12/1/2014 4:27 PM
72	Senior, low income, social services, and cultural	12/1/2014 4:20 PM
73	Parks and museums	12/1/2014 4:17 PM
74	Seattle children's UW area	12/1/2014 4:13 PM
75	N/A	12/1/2014 4:00 PM
76	Bus access from the south end of Seattle to Seattle Children's hospital, for both patients and employees	12/1/2014 3:58 PM
77	Magnuson Park - low income housing, many sports and other activities	12/1/2014 3:53 PM
78	East-West routes are under-represented in the system. For example, it is very difficult to go to Ballard or Magnolia from our Matthews Beach neighborhood.	12/1/2014 3:49 PM
79	Seattle Children's Hospital - lots of employees and families that need transportation	12/1/2014 3:43 PM
80	Seattle Children's Hospital	12/1/2014 3:38 PM
81	low-income and connecting neighborhoods to downtown seattle	12/1/2014 3:38 PM
82	Seattle Children's Hospital	12/1/2014 3:35 PM
83	Unknown	12/1/2014 3:34 PM
84	If you could get the light rail all the way down to Federal Way, I'd be happy as a clam!	12/1/2014 3:34 PM
85	Seattle Center	12/1/2014 3:32 PM
86	n/a	12/1/2014 3:32 PM
87	The Seattle Aquarium Woodland Park Zoo Seattle Art Museum (main facility and...) Sculpture Park and Myrtle Edwards Park Magnuson Park US Immigration Center Goodwill on Dearborn Alki Pt, Meekwamooks	12/1/2014 3:30 PM
88	Magnuson Park West Seattle to UW should be easier	12/1/2014 3:28 PM
89	Seattle Childrens Hospital - Patients and employees find it difficult to get here.	12/1/2014 3:26 PM
90	University district (low income)	12/1/2014 3:26 PM

91	Analyze how crowded the buses get during rush hour, its so frustrating when multiple full buses drive by when I'm just trying to get home (example the 41 going from downtown to Northgate at the end of the day)	12/1/2014 3:25 PM
92	Seattle Children's Hospital	12/1/2014 3:25 PM
93	Seattle Children's Hospital UW Med Center	12/1/2014 3:25 PM
94	All destinations are significant! How can Seattle be a metropolitan city if its people cannot get from one location to another? Why does it frequently take 45 min+ to travel a single mile? Further, there are seniors who live all over this city who have trouble getting from one place to the next - I've spoken to several who are at a loss of what to do now that so many bus routes have been cut. King County Metro Transit and Seattle's infrastructure are a joke!	12/1/2014 3:24 PM
95	Beacon Food Forest	12/1/2014 3:24 PM
96	SHOULD HAVE STOPS NEAR MORE BARS AND STRIP CLUBS...	12/1/2014 3:23 PM
97	All major downtown Seattle locations.	12/1/2014 3:21 PM
98	Seattle Children's Hospital	12/1/2014 3:21 PM
99	Yes, day care centers, before and after school care centers e.g., boys and girls club View Ridge, Thornton Creek Kids Time. A lot of parents work down-town, having bus connectivity between the stations (University district and NE Seattle) and these areas is critical to a functional seattle economy and a happy workforce.	12/1/2014 3:20 PM
100	no	12/1/2014 3:16 PM
101	Seattle Children's Hospital & link to downtown	12/1/2014 3:16 PM
102	Seattle Children's hospital	12/1/2014 3:14 PM
103	I would like to see better bus service to Golden Gardens.	12/1/2014 3:13 PM
104	More buses to UW from downtown in the evening rush hour	12/1/2014 3:13 PM
105	North Seattle near Lake City is a consistently underserved area where families and the elderly rely a great deal on public transit. It is not easy to get from this area to SoDo or to the airport. Please consider maintaining of increasing services to this area.	12/1/2014 3:13 PM
106	this may fit under cultural needs. Seattle has a vibrant entertainment and night life. we also have a high percentage of drunk drivers on the streets after dark and after midnight. Bus service really needs to be available to get the drunks safely off the roads in the evening hours. While no one loves to drive a drunk around, it's better than dead innocent people on our roads. Currently, its almost impossible to use the transit system to get anywhere late at night. If you live on the eastside, it IS impossible.	12/1/2014 3:11 PM
107	Seattle Children's	12/1/2014 3:11 PM
108	Not in my view	12/1/2014 3:11 PM
109	Safeco and Century Link fields	12/1/2014 3:10 PM
110	Mainly, incorporate low-income areas as much as possible. And obviously, I-5 exits to get people out of their cars.	12/1/2014 3:09 PM
111	Magnuson Park	12/1/2014 3:08 PM
112	The most significant destination to me not currently served by Metro Transit is Emerald Downs. I would also like better bus service in the Southcenter area, i.e., more frequent service and service that serves more of the shopping options in the Southcenter area.	12/1/2014 3:07 PM
113	seattle childrens hospital	12/1/2014 3:07 PM
114	Better east-to-west travel in North Seattle	12/1/2014 3:07 PM
115	no	12/1/2014 3:07 PM
116	better transport to seattle center from downtown	12/1/2014 3:06 PM
117	N/A	12/1/2014 3:06 PM
118	not for me	12/1/2014 3:05 PM
119	First Hill, Air Port, UW, Seattle Center.	12/1/2014 3:05 PM

120	I really wish there was a direct route on NE 75th Street that would connect Magnuson Park on Sand Point Way to Roosevelt, Greenlake and on to north Ballard.	12/1/2014 3:04 PM
121	Seattle Children's Hospital - used not only by employees but many patients and families.	12/1/2014 3:04 PM
122	Seattle Children's Hospital University District - homeless shelters, food bank, community market, university	12/1/2014 3:03 PM
123	YES - increased access to/from/near lower-income neighborhoods across the board, also increased access to areas outside of Seattle - so many ppl can't afford to live in Seattle but can afford places like Burien, Renton, Kent	12/1/2014 3:02 PM
124	You should really consider everywhere there isn't a sidewalk for safe walking to and from the busses. My complaint above is because although I could walk from the QFC stop there are no sidewalks and very few crosswalks with lights to cross/walk safely on a busy street like 3rd Ave. Especially during rush hour traffic and at night during the winter months.	12/1/2014 3:01 PM
125	Hamlin Park, Magnuson Park	12/1/2014 3:01 PM
126	Grocery stores	12/1/2014 3:01 PM
127	I support access to cultural, religious, low-income, parks/community centers and social service locaions via Metro. I'm lucky that most of these are on my bus routes.	12/1/2014 3:00 PM
128	Seattle Children's Hospital.	12/1/2014 3:00 PM
129	Century Link field. Always seems like after the games the transport options aren't robust enough - not the number of options, but the space on each option. Too few trains coming by, too few buses underground.	12/1/2014 3:00 PM
130	Yes, please be sure the buses go to the light rail linkage points	12/1/2014 3:00 PM
131	Fauntleroy Ferry and Lincoln Park from Portage Bay and from Seattle Children's Hospital Link all the wonderful Farmers markets on a special shuttle that occur on the same evening or day.	12/1/2014 2:59 PM
132	More bus routes needed through first hill. There is a lot of senior housing and bus stops are too far away from people w/ special mobility needs.	12/1/2014 2:59 PM

215	not that I know of.	11/25/2014 10:03 AM
216	I work at Seattle Children's Hospital (along with a few thousand other people) and just recently relocated to Edmonds, but lived in North Seattle for many years. It is incredibly challenging to do the across town commute to and from Children's. I wish there were more commute options from the north to Children's Hospital main campus. It truly is becoming a barrier to working there, which is unfortunate because I love my job. It seems like there are major accidents almost daily on I-5 during the morning commute which affect my drive to work. I keep leaving the house earlier and earlier and the traffic never seems to improve. Please help us northerners - I can't take it much longer! :-/	11/25/2014 10:02 AM
217	low income	11/25/2014 10:02 AM

245	Late night service needs to be restored between downtown Seattle and theAdmiral District. I used to go to concerts and events downtown at night and could return home at midnight but have not been able to do so in the last two years.	11/24/2014 10:25 AM
246	NONE	11/24/2014 9:32 AM
247	Queen Anne Lutheran Church, 8th W. and McGraw: it has no parking lot and serves a lot of seniors, provides space for several active AA and Alanon and other dependency support groups and houses homeless families for 2-week periods twice each year ... and all of these groups need affordable public transit nearby. (The 1 and 2 buses are currently nearby but they are chronically on lists for cancellation of service.) t	11/24/2014 8:59 AM
248	The Museum of History and Industry.	11/24/2014 8:27 AM
249	Yes! All of those! Lincoln Park, Discovery, Alki, Seward, the Arboretum.	11/24/2014 8:25 AM
250	Yes - the Rainier Valley should be better served and connected with the rest of the city. Beacon Hill for example, a neighborhood that is already gentrifying, has pretty poor bus service even though they are connected to downtown via the light rail. That area needs more than just the light rail stop! Please also connect to: - Parks like Discovery, Lincoln Park, etc. - Ferry Terminals like Fauntleroy, Kingston, etc.	11/24/2014 8:04 AM
251	local food banks	11/23/2014 9:25 PM
252	Yes. Golden Gardens.	11/23/2014 9:12 PM
253	Maybe, but I do not have any recommendations as of now.	11/23/2014 3:49 PM
254	n/a	11/22/2014 9:39 PM
255	Alway have stops near schools, libraries, sport fields, theatres, parks, shopping centers, sports arenas, train stations and airports.	11/22/2014 6:49 PM
256	Would also, be nice if SHAG arrowhead gardens P & R would have bus that goes into burien.	11/22/2014 6:03 PM
257	Discovery Park	11/22/2014 12:57 PM
258	Yesler is full of low income housing units. The Odessa Brown clinic on Yesler serves lower income families. The Douglass-Truth library has computers for student use; low income families do not have access to their own computers. Until the #27 was eliminated in the evening, we could attend concerts at Benaroya Hall, theater productions at 5th Ave. Theater and ACT, exhibits at SAM, the downtown library and all the possibilites at Seattle Center. We can't even get to Doubllass-Truth in the midday hours. We can take the last morning commute bus and then stand around in the cold until they open.	11/22/2014 8:32 AM
259	For cultural stuff, I just drive. Buses and bus connections are a pain. I lived in New York and Washington DC. I much prefer on demand public transport like subways or the metro.	11/21/2014 8:45 PM
260	Probably, but not for me.	11/21/2014 7:57 PM
261	an Express bus from Renton Highlands to Bellevue and Seattle	11/21/2014 5:08 PM
262	I'm sorry but all of those places should be available to bus patrons.	11/21/2014 1:51 PM

266	Pathways around UW.	11/21/2014 10:30 AM

267	It would be great to see closer connections with Food Co-ops, Museums, Public Art Institutions, Parks, and Schools, Food banks, Local Farms, Cultural Centers, Hospitals and Medical Centers, Natural Healing center... Disabled people, Senior Citizens, and Youth of all ages should be able to easily travel with public transportation to the above mentioned places. Of course transit centers and other hubs of transit connection should be close or easy to get to.	11/21/2014 9:47 AM
268	Volunteer Park, Seattle U, Swedish Hosp on First Hill, Polyclinic @ 904 7th Ave	11/21/2014 9:40 AM
269	I know feasibility studies have been done and current conditions of available buses in Kent/Covington is not BAD necessarily, but it's not as easily accessible either. But that's because there is so much sprawl to a point where..what can you do but drive, unfortunately.	11/21/2014 9:13 AM
270	none that I know of	11/21/2014 8:31 AM
271	no	11/21/2014 8:19 AM
272	Seattle Center	11/21/2014 6:18 AM
273	Worksource locations in Renton and Kent seem to be underserved by current bus routes and schedules for those routes. Difficult to make early appointments there by bus.	11/21/2014 3:15 AM
274	Libraries	11/20/2014 11:59 PM
275	None in particular	11/20/2014 10:06 PM
276	Laurelhurst service frequency has been cut back so severely (1/hr & eliminated on weekends) that it is not feasible to use for work/weekend activities. I'm not able to meet work/family obligations with such infrequent buses. If the buses ran 2/hr and weekends (as they were previously scheduled), I would ride the bus every day. Our neighborhood has many UW students, professors, workers, etc. that would use #25 if it were more frequent. It would cut down on Montlake congestion tremendously. As the 520 bridge project progresses, this will be even more critical.	11/20/2014 10:01 PM
277	King county election office: formerly served by rt 140 but the F does not. Golden Gardens Northwest Trek (pierce transit)	11/20/2014 9:57 PM
278	Lake to Lake along 65th: from Green Lake to Lake Washington/Magnuson Park. All day service from Green Lake to downtown via I-5. Both the 16 and 26 take very long, travelling through either Wallingford, Fremont, and more recently the South Lake Union neighborhood due to the high tech employment there.	11/20/2014 9:40 PM
279	I'll defer to those who are "in the know" about these!	11/20/2014 9:29 PM
280	No	11/20/2014 9:27 PM
281	na	11/20/2014 7:37 PM
282	No, create better connections between light rail and buses first, create direct routes so people do not have to transfer, improve the speed... then we can talk about the little things. you currently have route 14 running on a loop in mt baker where no one gets on or off, that's a major slow down for commuting between Mt Baker station and the Central District along the Jackson street where everyone gets on and off. the bus is slow as it is already, even without the Mt Baker loop.	11/20/2014 6:13 PM
283	community centers	11/20/2014 5:30 PM
284	Please offer more busses around downtown Seattle when there are sports games, the busses are often too crowded to even board during these times, especially to the U-district.	11/20/2014 5:26 PM
285	ALL of these locations should be considered.	11/20/2014 4:52 PM
286	Please don't cut any services to transitional housing programs for homeless folks - many of these are very deliberately placed on bus lines and without public transit they become completely isolating and don't allow people to do the tasks required to become independent.	11/20/2014 4:37 PM
287	We love to take our dog to dog parks. It would be wonderful to have those be a more visible destination.	11/20/2014 4:34 PM

380	UW! Golden Gardens!	11/18/2014 3:22 PM
381	University of Washington	11/18/2014 3:14 PM
382	Lake City has a number of service centers including a library, community center, farmer's market, playgrounds, etc. around 27th Ave. & 125th St. Right now it is connected to Northgate via the 41 bus, but it would be great to connect it to points north as the light rail is built north as well.	11/18/2014 3:12 PM

383	Vashon seniors who are mobility impaired are expected to get off the Access bus at the ferry, get themselves onto the ferry, then wait on the other side for another Access bus. The one time I used it to take my mobility-impaired mother and even more impaired friend to north Seattle, there was so much wait time between the various Access buses (and difficulty in getting them on/off the ferry), that we had only a half hour for the flower show they wanted to attend. I never took them to Seattle again for anything "fun" because it's not worth the effort. Luckily my mother's doctor is on Vashon. I don't know what seniors do who need to go into Seattle for specialists, etc. It's a terrible burden to them that the Access bus cannot take them from Vashon to their final destination--not only in fatigue and effort (if they can even manage it), but in trying to get anywhere in time. I also don't see why Access can't be treated the way VanPools and Metro buses meeting the ferry are treated and allowed to go to the front. We should try to minimize the already tiring and difficult journey for our seniors and disabled. Thanks for listening.	11/18/2014 2:24 PM
384	Com College, community centers. Grocery stores.	11/18/2014 2:17 PM
385	low-income	11/18/2014 2:05 PM

455	no	11/17/2014 9:18 PM
456	Parks! Especially in the summer, it would be really great if there were some special summer-time routes to popular but not-central destinations like Golden Gardens and Magnusen. There is some service now but it is not very frequent and sometimes ends early in the evening. It is a bit of a walk from the entrance of Magnusen to most of the park so a loop within the park would be good in that case. Parking is often tight at parks and many of the people who would like to use them (young people, babysitters, tourists) may have limited access to cars. It is also important that buses that service hospitals have stops close to the entrances and don't drop passengers at the bottom of a hill.	11/17/2014 9:14 PM
457	Direct Connections from Homes in NE Seattle to the new Link Station at Husky Stadium. Use E1 Parking lot or Mason Rd to avoid traffic on Montlake Blvd.	11/17/2014 9:09 PM
458	No	11/17/2014 9:08 PM
459	the university of washington medical center uses the shoreline conference center for many of the nursing continuing education conferences- I don't attend because the bus service is so inconvenient and the parking is horrible. That might be a place for you to consider the service.	11/17/2014 9:03 PM
460	Focus on areas with poor parking: Downtown, Capital Hill, central Ballard, Golden Gardens Park.	11/17/2014 8:42 PM

469	no	11/17/2014 7:38 PM
470	University of Washington.	11/17/2014 7:37 PM

471	Not that I'm aware of.	11/17/2014 7:36 PM
472	Not as far as I'm concerned, personally. But I believe that for other students and patrons of the transit system, most all social service locations and senior services should definitely be included.	11/17/2014 7:16 PM
473	I am not sure.	11/17/2014 7:14 PM
474	international district (downtown seattle)	11/17/2014 7:14 PM
475	University District	11/17/2014 7:08 PM
476	We need more service to the seattle ferry terminal	11/17/2014 7:05 PM
477	None come to mind.	11/17/2014 6:43 PM
478	No	11/17/2014 6:36 PM
479	Shopping	11/17/2014 6:22 PM
480	Yes.	11/17/2014 6:19 PM
481	all the city parks	11/17/2014 6:09 PM
482	Yes.	11/17/2014 6:06 PM
483	Carkeek park, the closest regularly running bus to the north side of it is about two miles away	11/17/2014 5:55 PM
484	Of course! Especially low-income and senior service locations.	11/17/2014 5:44 PM
485	Definitely food banks, schools, public libraries, shelters of all kinds--these are places people who rely on the bus for transportation need to go on a daily basis	11/17/2014 5:36 PM
486	I don't frequent any of these type of locations, so I can't say.	11/17/2014 5:21 PM
487	My nearest bus stop on the 44 route is the closest bus stop to the zoo, which makes it a convenient destination.	11/17/2014 5:18 PM
488	Community Centers and Libraries	11/17/2014 5:15 PM
489	Getting to parks and night life (avoids drunk driving) is helpful.	11/17/2014 5:05 PM
490	East african center of services jefferson comm park, va hospital	11/17/2014 5:05 PM
491	Golden Gardens	11/17/2014 5:00 PM
492	U.W. Edmundson Pavilion Carkeek Park Discovery Park	11/17/2014 4:57 PM
493	The Link Light Rail stations at Rainier Beach, Othello Station, Columbia City, and Beacon Hill all connect to significant cultural, religious, and low-income destinations. An additional Link Light Rail station should be added at S. Graham St. Additional "feeder" buses should run frequently (every 15 min. during peak hours) East and West Bound, to connect Link Light Rail stations with Rainier Ave. S., Seward Park Ave. S., Mt. Baker, and Beacon Hill. That would significantly increase ridership and make Link Light Rail a viable option for those of us living in Southeast Seattle who commute daily to the University of Washington, including students and employees.	11/17/2014 4:54 PM
494	I defer to the social service providers.	11/17/2014 4:53 PM
495	I would like to be able to go to the Queen Anne, Seattle Center area for movies, cultural events, without having to go downtown first.	11/17/2014 4:51 PM
496	no	11/17/2014 4:48 PM
497	N/A	11/17/2014 4:47 PM
498	White Center, Burien, and the International District	11/17/2014 4:43 PM
499	Maybe the ability to get to gas works park more easily if you're on the other side of the campus near sand point	11/17/2014 4:35 PM
500	Magnuson Park would be very nice for transit users if possible.	11/17/2014 4:28 PM
501	no	11/17/2014 4:21 PM

502	Hospitals, nursing homes, and schools should be included to relieve congestion and enable access to transportation for those with limited means or lack of license.	11/17/2014 4:09 PM
503	On the weekends young people go out and drink and club. The busses should run on the weekends past 2 am to accomodate them and prevent drinking and driving.	11/17/2014 4:09 PM
504	Magnuson has lost the route 30 it seems. It is difficult to attend a play and just miss a bus then have to wait 30 minutes for the 75. I just did that on November 9th just missed the 75. Dithered over walking to see if the 30 was running - no - dithered - and decided to walk home to 25th NE and NE 70th and just missed the 71 which I had forgotten was a back up back up option. It was quite a walk. Seattle Center is kind of a pain to get home from in the evening. I gave up my subscription to Book-it because I was tired of long waits and trying to figure out where stops were changed to.	11/17/2014 4:08 PM
505	Parks is a nice idea. All major theaters and similar venues.	11/17/2014 4:07 PM
506	Seattle Animal Shelter (Queen Anne) Regional Animal Services of King County (Kent, WA) Seattle Humane Society (Bellevue, WA)	11/17/2014 4:02 PM
507	Quicker access around Seattle, to and from eastside, quicker route between Redmond/Bellevue/Kirkland.	11/17/2014 4:01 PM
508	Bailey-Boushay House	11/17/2014 3:59 PM
509	Franciscan Senior Home at 15327 21st street, SW, Burien, Wa.	11/17/2014 3:58 PM
510	yes, I would hope that you would include areas where people who might rely more heavily on bus service live.	11/17/2014 3:56 PM
511	Richard Hugo House on Capital Hill (also near Cal Anderson Park) Golden Gardens/Ballard Locks	11/17/2014 3:53 PM
512	No	11/17/2014 3:49 PM
513	commuter lanes on I5 between Northgate and University of Washington	11/17/2014 3:47 PM
514	There are many senior citizens in Ballard that rely on metro transit. With the cancellation of the 61, it severely limits their transportation options to other parts of the city.	11/17/2014 3:46 PM
515	Not that I know of.	11/17/2014 3:45 PM
516	Should consider easier access to lower Capitol hill, nearest bus to me now almost 1/2 mile away either at Denny or up the hill at Broadway	11/17/2014 3:44 PM
517	Seattle Asian Art Museum in Volunteer Park	11/17/2014 3:42 PM
518	N/a	11/17/2014 3:35 PM
519	For the love of all that is good, please make it easier to travel from east to west across the city. It takes over an hour and a bus transfer to get from our place in Lake City to the Woodland Park Zoo. By car, it is a 15 minute drive!	11/17/2014 3:34 PM
520	Northgate Transit Center, First Hill, Capitol Hill, and South Lake Union.	11/17/2014 3:33 PM
521	Low-income service locations should be included, as metro is often the primary mode of transportation for low income people.	11/17/2014 3:32 PM
522	I would like more buses later in the evening in residential areas, as I visit family's homes to tutor them but many buses stop running late at night so it is difficult for me to get to these places, and then it is difficult for me to get home.	11/17/2014 3:31 PM
523	Not that I know of	11/17/2014 3:28 PM
524	Parks and schools and community centers Family planning centers Grocery stores	11/17/2014 3:27 PM
525	I'm happy with everywhere transit goes right now.	11/17/2014 3:27 PM
526	none	11/17/2014 3:23 PM
527	senior housing and churches, low income areas that can help people mobilize better	11/17/2014 3:22 PM
528	Definitely maintaining low-income access, improving east-west options	11/17/2014 3:17 PM
529	Sammamish city center	11/17/2014 3:16 PM
530	Uw gym	11/17/2014 3:12 PM

531	Bridal trails. I live in bridal trails, and my bus access is not very good, I have to go all the way to the SKP&R to get a bus, the bus closest to me, the 249, was cut back.	11/17/2014 3:11 PM
532	Husky Stadium	11/17/2014 3:09 PM
533	Easier access to SafeCo to/from Lower Queene Anne for games.	11/17/2014 3:09 PM
534	I recall hearing that the bus line to the VA hospital was going to be cut. It's imperative that our transit connects us to healthcare. I'd also like to use transit to access all the great parks we have in this area. Taking the bus to an urban hike is great!	11/17/2014 3:08 PM
535	I don't know because I am don't live in Seattle and am not familiar	11/17/2014 3:08 PM
536	Myrtl Edwards Park	11/17/2014 3:06 PM
537	Not that I'm aware of.	11/17/2014 3:06 PM
538	Local libraries, food banks	11/17/2014 3:04 PM
539	Not at this time.	11/17/2014 3:04 PM
540	Discovery Park, Alki Beach, Ravenna Park, Greenlake,	11/17/2014 3:02 PM
541	Drop-off points in downtown Bellevue, Seattle, or Tukwila could be useful but a direct or express bus would be fine, as this is a work commute for me.	11/17/2014 3:02 PM
542	Very Important: I-405 - Exit 7: There is a great need for this area to have access to bus service. There are many apartments, condominiums, houses, shops, eateries, childcare services, Seahawks Stadium, and in this area. But no bus service is available. People who do not have personal transportation, have no way to get to a bus unless they walk to Exit-9 or Exit-6 that are 1 1/2 or 2 miles away. Many buses pass on the freeway by this Exist-7. At least if there is a connecting small bus that shuttles between the Exit-7 area and Exit-9 and Exit-6 that will be greatly benefited.	11/17/2014 3:01 PM
543	No	11/17/2014 2:59 PM
544	Unsure	11/17/2014 2:59 PM
545	Greenlake park, Alki Beach, Magnuson Park, Jefferson Park, Marymoor Park	11/17/2014 2:58 PM

547	Asian Counseling and Referral Service Chinese Information and Service Center	11/17/2014 2:47 PM
548	Carkeek Park	11/17/2014 2:41 PM
549	None that I am aware of	11/17/2014 2:40 PM
550	There should be more forms of transportation available in the U-District during UW Husky football games.	11/17/2014 2:40 PM
551	No	11/17/2014 2:36 PM
552	I'm very pro transit. I mean send the busses everywhere.	11/17/2014 2:36 PM
553	none	11/17/2014 2:35 PM
554	not sure	11/17/2014 2:32 PM
555	No	11/17/2014 2:31 PM
556	Seattle Center	11/17/2014 2:31 PM
557	There needs to be better service to Madison & Minor, there are a lot of hospitals and medical services in that area. For instance, a bus that went from UW to Cap Hill and then to Madison and then downtown would be great. Another idea would be a bus that went along Bellevue on Cap Hill all the way to Madison.	11/17/2014 2:29 PM
558	Not in my opinion. I only want to go from home to work and back as quickly as possible. I rarely use transit for any other trips.	11/17/2014 2:29 PM
559	The important thing is to make sure that all parts of the city are accessible by bus	11/17/2014 2:29 PM
560	People from the North End and Eastside will want buses that get us to the light rail stops, so we can continue on to the airport.	11/17/2014 2:27 PM

561	No	11/17/2014 2:22 PM
562	No comment.	11/17/2014 2:19 PM
563	The zoo	11/17/2014 2:18 PM
564	n/a	11/17/2014 2:17 PM
565	Getting to the Seattle Center and Queen Anne from U district due to the route change takes much longer than before; it used to take about 30 minutes, but it can take as long as 50 minutes. It affects my interest in attending more cultural events happening in the Queen Anne area tremendously.	11/17/2014 2:16 PM
566	Discovery Park!	11/17/2014 2:16 PM
567	Seattle Center, Town Hall, Benaroya Hall--it would be very helpful to have better connections to and from these places (especially the first two), or at least more frequent busses from the U District northbound to NE 80th St & 25th Ave NE, again especially at night.	11/17/2014 2:15 PM
568	University of Washington Gasworks Park	11/17/2014 2:14 PM
569	No	11/17/2014 2:14 PM
570	University of Washington Medical Center - providing better 3rd shift (11:30 pm) options home	11/17/2014 2:11 PM
571	No, during the workweek, I am going to work-related conferences and meetings	11/17/2014 2:10 PM
572	International District	11/17/2014 2:09 PM
573	Yes. The East hills (overlooking 509/99) as well as the neighborhoods East of 35th Ave SW, and south of Westwood shopping center in West Seattle/Burien are severely under-covered.	11/17/2014 2:07 PM
574	Favorite south-end parks are Kubota Gardens, Seward Park, and Lakeridge Park.	11/17/2014 2:07 PM
575	None that I can think of.	11/17/2014 2:06 PM
576	I think University of Washington should have more direct routes. I know the route from Magnolia is slated to end soon but due to the unique location of Magnolia it's very hard to go anywhere easily and it would be a real loss to commuters if that route went away.	11/17/2014 2:06 PM
577	For my transit needs, no	11/17/2014 2:05 PM
578	Travel from east to west is uneven throughout the city, not the least for the north end. One cannot help noticing, additionally, that many routes make use of (very) expensive, new buses -- this despite "cutbacks" -- while the perennially busy and often crowded 44 and 43 lines frequently smell of urine; these and other trolley lines seem to operate as though part of an entirely different transit system entirely: Many drivers, conducting themselves in the most professional manner, given the conditions, are eclipsed by a few, remarkably hostile drivers who drive just a bit too aggressively, especially given the slightly dilapidated condition of these old, electric buses. It's almost enough to make one want to resume driving, just to avoid being shaken to death in the back of an oscillating turnip truck.	11/17/2014 2:04 PM
579	Not until I'm a senior (in 50 years). Then I'll be complaining how me at a young age never put down "my senior home" in this form. Then again, in 50 years, I hope there will be hover-boards and flying cars and whatnot.	11/17/2014 2:04 PM
580	South Seattle specifically Skyway. You have to take a bus just to get onto the light rail and there are no park and rides for the light rail around that area.	11/17/2014 2:04 PM
581	North Acres Park Ingraham High School	11/17/2014 2:04 PM
582	Parks - Arboretum park and Madison Park Beach	11/17/2014 2:03 PM
583	I do not feel there are any routes that I need for these reasons but support their expansion and use for others.	11/17/2014 2:02 PM
584	golden gardens	11/17/2014 2:00 PM
585	Seattle Center Seattle Water Front	11/17/2014 2:00 PM

594	no	11/17/2014 1:53 PM
595	no	11/17/2014 1:52 PM
596	In general, east-west service is much more difficult than north-south along the I-5 corridor.	11/17/2014 1:50 PM
597	There are significant difficulties travelling East-West in Seattle that isolates neighborhoods	11/17/2014 1:50 PM
598	no	11/17/2014 1:50 PM
599	Seward Park, Kubota Gardens, Lake Washington Arboretum, Rizal Park	11/17/2014 1:49 PM
600	Discovery Park, UW	11/17/2014 1:49 PM
601	Right now it is difficult to get to McCaw Hall and the Seattle Center in general via transit.	11/17/2014 1:47 PM
602	No	11/17/2014 1:47 PM
603	I'm not sure	11/17/2014 1:47 PM
604	Not any that I know about	11/17/2014 1:45 PM
605	I am not aware of any, but I am sure there are some.	11/17/2014 1:45 PM
606	St. Mark's Cathedral on 10th Ave E and St. James Cathedral at 9th and Marion (many low-income people consider attending these churches very important and so public transit access is a must)	11/17/2014 1:44 PM
607	Northgate	11/17/2014 1:43 PM
608	More seats on light rail.	11/17/2014 1:42 PM
609	Not Sure	11/17/2014 1:42 PM
610	Yes,- the University of Washington Medical Campus at South Lake Union	11/17/2014 1:41 PM
611	University of Washington	11/17/2014 1:41 PM
612	not that come to mind	11/17/2014 1:41 PM
613	Folklife Festival, UW campus Link station	11/17/2014 1:40 PM
614	Magnuson Park area to University District	11/17/2014 1:40 PM
615	No	11/17/2014 1:40 PM
616	Yes, children should ride free on weekends - Sabbat and Sunday. Any park, temple, church and cultural location, shelter, food bank, Y or other social service agency should have a good, reliable public transportation that works on weekends as well as during the work-week. Don't cut any more bus routes - what's happening in Seattle today is completely backwards!	11/17/2014 1:39 PM
617	No	11/17/2014 1:39 PM
618	HOSPITALS! I was traveling via bus from Eastlake & Mercer to the hospitals on First Hill quite a bit when I broke my leg a few years ago. The free ride area used to end just outside where all the hospitals are, and I would often see people with disabilities or physical restrictions get off the bus when the free ride area ended and try to make their way up the rest of the hill on foot/wheelchair. Now that the free ride area is gone altogether, it is disheartening to think about what all these people do to get to the hospital/services in the area.	11/17/2014 1:38 PM
619	No	11/17/2014 1:37 PM
620	The service around McCaw Hall is dismal! With the construction in that area driving and parking is a nightmare and I much prefer transit but sadly there is not much convenient access using transit.	11/17/2014 1:37 PM
621	No	11/17/2014 1:37 PM

622	No	11/17/2014 1:35 PM
623	no	11/17/2014 1:34 PM
624	Foodbanks and Libraries.	11/17/2014 1:33 PM
625	There need to be more cross-town options. It is easy to go north/south in Seattle but it is not always easy to go east/west.	11/17/2014 1:33 PM
626	No	11/17/2014 1:33 PM
627	None that I know of	11/17/2014 1:32 PM
628	UW - IMA (Intramural Athletics Building) @ 3924 Montlake Blvd NE (I normally bus commute except on days I want to go to IMA, then I drive because there is no bus service from UW Tower on Brooklyn and 45th.	11/17/2014 1:32 PM
629	The transit center (link light rail) U District location is close to a Presbyterian and Non-denominational churches. As well as others around, so I think that's pretty good. Travel between UW campus and possibly Seattle Central might be good? I rarely ever go to Cap Hill because it's so far out of my way, it would be awesome to go more frequently where there are shops and bars unique to the Hill.	11/17/2014 1:32 PM
630	none	11/17/2014 1:31 PM
631	It is NOT easy to get to the Seattle Center from the UDistrict (have to take multiple buses) It sure would be nice to have one route that ran between the 2 places	11/17/2014 1:31 PM
632	None	11/17/2014 1:31 PM
633	Please include social services and senior assistance when revising routes	11/17/2014 1:30 PM
634	Getting to the lake and the canal and to gas works would be really great for everybody. We have an amazing backyard playground right in the neighborhood so access should be simple, fare and frequent.	11/17/2014 1:29 PM
635	Magnuson COMMUNITY	11/17/2014 1:29 PM
636	Central district	11/17/2014 1:29 PM
637	I have been happy with the service, and apps like one bus away have helped a lot with wait times.	11/17/2014 1:28 PM
638	Seattle Center, UW, airport	11/17/2014 1:28 PM
639	Easier access to UW. Not everyone has classes at 8am or wants to leave that early	11/17/2014 1:27 PM
640	Yes, churches, libraries, schools/universities, gathering venues such as parks and community centers, also, timing of service should always be considered, such as sending additional buses and trains to the stadiums before/after sporting events.	11/17/2014 1:26 PM
641	none.	11/17/2014 1:26 PM
642	efficient transportation to/from UW to suburbs is important	11/17/2014 1:26 PM
643	Seward Park. There is only one bus that goes into Seward Park and that neighborhood. Also, another bus along MLK would be amazing and very useful. More local service to Lynnwood all along 99 would be useful. There are not many routes that go all along 99. They stop before getting to Lynnwood.	11/17/2014 1:25 PM
644	For me, no.	11/17/2014 1:24 PM
645	Not for me.	11/17/2014 1:24 PM
646	local live theaters.	11/17/2014 1:23 PM
647	Greenlake Park, Volunteer Park, Madison Beach Park	11/17/2014 1:22 PM
648	Yes, all of the parks I listed above, in truth most parks should be able to be accessed via public transit	11/17/2014 1:21 PM
649	Benaroya, Paramount, 5th Ave Theater, Seattle Center	11/17/2014 1:20 PM
650	Cultural Venues: Seattle Center (Opera, Ballet), Lower Queen Anne (On the Boards), University District (Meany Hall, Burke Museum, Henry Art Gallery, Ceramic Metal Arts Building (East Campus)	11/17/2014 1:20 PM
651	No	11/17/2014 1:19 PM
652	low-income	11/17/2014 1:17 PM

653	none to report	11/17/2014 1:16 PM
654	Food banks.	11/17/2014 1:16 PM
655	University of Washington Academic Campus (Seattle) Magnuson Park Nordic Heritage Museum Arboretum UW Waterfront Center	11/17/2014 1:16 PM
656	Hindu temple in Bothell	11/17/2014 1:16 PM
657	Hospitals and educational centers.	11/17/2014 1:16 PM
658	no	11/17/2014 1:15 PM
659	Downtown and SeaTac will be huge additions when this connection has been completed. Getting service by bus from either Husky Stadium or elsewhere in the U District will be critical. Bus service to sporting events (cultural?) seems quite nice - compliments on the Northgate and Husky Stadium stops for Husky games! I sometimes to go Discovery Park; this seems out of the question by bus from my neighborhood.	11/17/2014 1:14 PM
660	Access to downtown, the universities and colleges, the major parks (such as Volunteer Park) and the community centers associated with the parks, as well as the Arboretum, should be possible for all citizens, particularly handicapped, senior and low-income.	11/17/2014 1:14 PM
661	Getting to the Seattle waterfront would be nice, also West Seattle.	11/17/2014 1:13 PM
662	Chinatown.	11/17/2014 1:11 PM
663	UW Campus	11/17/2014 1:11 PM
664	The locations of events I attend are at different locations for each occasion, generally.	11/17/2014 1:10 PM
665	I DO think it is important to include service agencies that reach those populations to reach out and ask about changes in city transportation. City transportation should be running so well that most people will decide to use that instead of driving around. Libraries and parks are top priorities on my list. Those should be accessible!	11/17/2014 1:09 PM
666	Cherry Hill Swedish Medical	11/17/2014 1:09 PM

669	none	11/17/2014 1:07 PM
670	Better transit to parks would be nice!	11/17/2014 1:07 PM
671	UW	11/17/2014 1:07 PM
672	St. James Cathedral Maybe look at getting people with very limited functioning in wheel chairs into Access systems so they do not mess up the Quick Commutes. Not trying to discriminate but it can be disruptive and less efficient. Also, routes to places for people undergoing chemo and radiation, especially for people who are no longer able to drive.	11/17/2014 1:05 PM
673	St. James Cathedral is a big one. I also think being able to easily access the Sound coast (like Golden Gardens beach) would be nice.	11/17/2014 1:05 PM
674	School (UW, UWMC, HMC)	11/17/2014 1:05 PM
675	Parks would be great! It would be nice to get to Magnuson Park (near the dog park especially) easily from Capitol Hill. Gasworks park as well.	11/17/2014 1:05 PM
676	None that I can think of	11/17/2014 1:05 PM
677	no	11/17/2014 1:05 PM
678	N/A	11/17/2014 1:04 PM
679	Seattle downtown area cultural-museum, theater, Pioneer Square Seattle Center Fred Hutch/Eastlake	11/17/2014 1:03 PM
680	Gas Works Park, Kerry Park	11/17/2014 1:03 PM
681	Yes, making sure there are plenty of stops that are in the Central District or Capitol Hill areas.	11/17/2014 1:02 PM

682	The 167 only runs a few times a day and it is nearly impossible to find a seat on that bus and still it's planning on being cancelled come 2016. It is absolutely absurd for the people who live in Renton (a lower-income city say than Kirkland or Bellevue) struggle to find adequate metro transportation for our needs while we watch other buses and individuals pass by regularly and able to get home in a much more pleasant manner.	11/17/2014 1:01 PM
683	I'd love to see bus service accommodate those in need without succumbing to the NIMBY groups. For those struggling to make ends meet it means so much to not have to walk 20 minutes, or stand around outside for 20 minutes to get to their jobs. I'd gladly sacrifice my service in the Maple Leaf neighborhood to be sure there is good service in other communities that need it more.	11/17/2014 1:00 PM
684	Yes, recently, cuts were made to route 27. It doesn't operate on the weekends, and it doesn't operate between 9-3 on weekdays! This greatly affects the low income neighborhood residents who heavily rely on the 27 to take them downtown and other parts of Seattle. Please consider..	11/17/2014 12:59 PM
685	Increased quick and convenient access to the airport, museums, the theaters and symphony.	11/17/2014 12:59 PM
686	No.	11/17/2014 12:59 PM
687	None that I can think of.	11/17/2014 12:58 PM
688	It would be great to have more public transportation access to parks with significant outdoor hikes.	11/17/2014 12:58 PM
689	Decibel, Fireworks, NYE, Halloween, Gay Pride	11/17/2014 12:58 PM

746	International District	11/17/2014 12:39 PM
747	I go to city parks nearly every weekend, and always drive, because there are no buses that stop close enough (even the 75 doesn't get you near enough to the main walkway of Magnuson Park). There's no bus to the Union Bay Natural Area from Lake City, nor is there a direct bus to Discovery Park.	11/17/2014 12:38 PM
748	Green Lake to free up limited parking.	11/17/2014 12:36 PM
749	No	11/17/2014 12:36 PM
750	no	11/17/2014 12:35 PM
751	Lake city is a central location to get around from that will need to continue to be accessible as light rail develops.	11/17/2014 12:34 PM
752	You might want to have a frequent shuttle between U Village and the Husky transit station. U Village is very crowded with cars and I have mostly stopped going there because of that. But good transit would cut down on the cars and make it a more pleasant destination.	11/17/2014 12:34 PM
753	Low-income feels important.	11/17/2014 12:34 PM
754	Magnuson Park.	11/17/2014 12:33 PM
755	N/A	11/17/2014 12:32 PM
756	not aware of any	11/17/2014 12:31 PM
757	No	11/17/2014 12:31 PM
758	In general, Rainier Beach, including Upper Rainier Beach and Skyway should be better included in the transit network. People often say the area is served well by transit because of light rail. In fact, light rail serves just some spots in South Seattle since it is located along one side (MLK) and stops are very far apart. There are large residential areas in South Seattle served by only this light rail and 2-3 buses. It is not a safe area to walk or wait at transit stops when dark/late at night, yet it is often necessary to wait up to 30 minutes for a bus. These residential areas should be better connected to the network in general, including northern Seattle and the area's biggest college/university (UW). Although it's possible to get to UW now, it is not at all convenient to do so. It would be nice if there was some express routes so people didn't have to stop in every neighborhood across the entire city or go through downtown to get to such a major education site and employer.	11/17/2014 12:30 PM
759	mom lives in Burien. Difficult for her to get to Capitol Hill for doctor or Bellevue (doctor). would be good for older, seldom drivers that have to leave comfort zones so perhaps park and rides to hospitals. perhaps late night from cultural/sports to park and rides so easier to get home (usually meet someone who drove to get home).	11/17/2014 12:29 PM
760	I don't have particular need to reach these on a regular basis from the U-District.	11/17/2014 12:29 PM
761	Not for me.	11/17/2014 12:29 PM
762	UW to Museum of Flight	11/17/2014 12:29 PM
763	Being able to access parks by public transport would be useful and important (Golden Gardens, Carkeek, Gas Works, Magnusson etc.)	11/17/2014 12:29 PM
764	None that I can think of at this time	11/17/2014 12:28 PM
765	YES, bring back the buses to the fairs: Monroe, Puyallup.	11/17/2014 12:28 PM
766	State Ferry terminal Seattle, Downtown library Seattle, Pike Place Market	11/17/2014 12:28 PM
767	husky stadium century link field Safeco field downtown shopping seattle children's hospital and research institute sites	11/17/2014 12:28 PM
768	No	11/17/2014 12:28 PM
769	Greenlake	11/17/2014 12:27 PM
770	Don't have specific locations but I feel that anything to maximize the mobility of the low-income in seattle would have the most positive impact overall.	11/17/2014 12:26 PM

771	Not that impact me directly.	11/17/2014 12:26 PM
772	Please take volume of passengers and time of day into account. The bus I catch in the morning at International District station is standing room only, often full, after the very first stop. Mid route we either stop picking people up or waste time trying to cram more into an already full bus.	11/17/2014 12:25 PM
773	Working hours of hopsital personel	11/17/2014 12:25 PM
774	Definitely low income areas.	11/17/2014 12:25 PM
775	no	11/17/2014 12:25 PM
776	Not for me.	11/17/2014 12:25 PM
777	UW District	11/17/2014 12:24 PM
778	South Lake Union has changed radically in the last couple of years due to Amazon. More service is needed for all of the new workers. Right now, driving is the best way to get there even though parking is a nightmare. Bus service is "awkward" and during peak hours, you are lucky if you can actually get on a bus because they are so crowded.	11/17/2014 12:23 PM
779	University of Washington	11/17/2014 12:23 PM
780	Just get me around the god awful traffic on the I5.	11/17/2014 12:23 PM
781	Yes, of course these things should be taken into consideration, as should major work places.	11/17/2014 12:21 PM
782	I like when Seahawks game day shuttles have been offered. Would like to see those continued/expanded.	11/17/2014 12:21 PM
783	Medical Centers, such as UWMC - I have always wondered why the 7X buses from downtown don't get people over there.	11/17/2014 12:21 PM
784	The parks along Lake Washington and those on the Puget Sound would be nice to have easy bus routes to (perhaps they already exist, I usually ride my bike whenever possible.)	11/17/2014 12:20 PM
785	All major entertainment venues in the downtown and SODO areas.	11/17/2014 12:20 PM
786	You could start by putting transit back in where you took it away.	11/17/2014 12:20 PM
787	None that I can think of.	11/17/2014 12:20 PM
788	Parks, Commercial centers, Transit hubs. Woodland Park Zoo. Civic Centers (Downtown, Kent, etc)	11/17/2014 12:19 PM
789	Asian Art Museum.	11/17/2014 12:19 PM
790	better bus services to parks, such as Magnusson, Golden Gardens, Gasworks.	11/17/2014 12:19 PM
791	Any of the social services locations should be easily assessable for low-income and homeless people since it is much more difficult for them to get around. Perhaps part of city planning could be to centralize social services near transportation hubs.	11/17/2014 12:18 PM
792	any of those should be considered, as well as routing to reduce everyday general commuting by single cars	11/17/2014 12:18 PM
793	no	11/17/2014 12:18 PM
794	Not for me.	11/17/2014 12:18 PM
795	No more than was given as my answer to the previous question.	11/17/2014 12:17 PM
796	no	11/17/2014 12:17 PM
797	no	11/17/2014 12:17 PM
798	Social service locations MUST be reachable via transit to serve low income riders. However, we can get higher income citizens to buy into transit and support it by having transit go more places they want to go (museums, tourist attractions). Buses and trains are like libraries: They should serve all of us and bring us together.	11/17/2014 12:16 PM
799	Not at this point for me. So far I can access downtown fairly easily, Seattle Center is not at easy as it used to be, but that I think is mostly due to construction around that area, and Metro needing to accommodate it.	11/17/2014 12:16 PM
800	Add bus options to/from Kitsap County to UW	11/17/2014 12:16 PM
801	Light Rail service after midnight	11/17/2014 12:16 PM

802	Hospitals should be accessible by the 2 metro route - Virginia Mason.	11/17/2014 12:16 PM
803	There is not currently an easy way to get to Golden Gardens park on the bus. You can take the 48 to the end of the line, which is above the steps down to the park, but this is a very difficult walk at night (the steps are not lighted at all and it is very easy to fall) or for older people or those with mobility issues. The busses between the U district and downtown, especially on game days and during rush hours, but including random times like Sunday evenings, are always very crowded. Link is going to be amazing when it opens!	11/17/2014 12:15 PM
804	Yes! To and especially inside of Magnuson and Discovery parks and to Golden Gardens. It would be GREAT to have shuttles that go inside of Magnuson/Discovery parks in the summer because the parks are so big. For example, at Magnuson, you get dropped off on the outer edge of the park and it can be a 15-20 minute walk to different parts of it. Additionally, at Golden Gardens after like 6 pm, even in the summer, you have to walk up the 900 stairs to the 48, which is arduous. I wish there was extra, special service in the summers.	11/17/2014 12:15 PM
805	Museums, Discovery, Magnuson, Woodland, Green Lake parks, Woodland Park Zoo, Waterfront	11/17/2014 12:15 PM
806	Absolutely! But METRO probably already has those down, as the bus routes typically have been set up to accommodate access to hospitals, county service centers, etc ... That is why some routes are heavily loaded with folks one might prefer not to have sitting next to them during a commute.	11/17/2014 12:15 PM
807	none	11/17/2014 12:15 PM
808	SEA-TAC airport, Green Lake, public libraries	11/17/2014 12:14 PM

811	Magnuson Park MOHAI	11/17/2014 12:14 PM
812	The big concern that I have is that the lightrail opening on Capitol Hill will push rents even higher as it becomes an even more appealing place to live, and that anywhere else I move will have worse transit options for getting to UW.	11/17/2014 12:13 PM
813	Kirkland Perfc. Center Edmonds Center for the Arts Shoreline Community Center (& Pool)	11/17/2014 12:13 PM
814	n/a	11/17/2014 12:13 PM
815	You should run all light rail and bus lines more often, a minimum of every 15 minutes, even at off-peak hours. Over the long term, this will increase ridership and help reduce traffic congestion in the area.	11/17/2014 12:12 PM
816	VA. Right now, due to construction, almost all of the stops require a walk. There are a number of those either senior or with disabilities whose needs don't quite reach that of receiving Access services but struggle if they have to walk too far.	11/17/2014 12:12 PM
817	I don't know of any.	11/17/2014 12:12 PM
818	There are usually a lot of old or disabled people on the 10. So please don't cut the 10, because those guys need to get to Safeway!	11/17/2014 12:12 PM
819	Low income	11/17/2014 12:12 PM
820	Let me get home from work without having to deal with a #8 that is packed to the gills and more than 20 minutes late.	11/17/2014 12:12 PM
821	Yes, most of them are serviced by the Metro bus lines, but not frequently enough that it is more convenient to take the bus over driving a car alone.	11/17/2014 12:12 PM
822	Seattle Center	11/17/2014 12:12 PM
823	None	11/17/2014 12:11 PM
824	I imagine investing in routes to and from the VA, as well as Pioneer Square and Belltown (for social services and city services) would serve a wide swath of people.	11/17/2014 12:11 PM
825	no	11/17/2014 12:11 PM
826	Not that affect me personally, but I doubt that people who are using public transit to travel to low-income, senior, or social service locations are filling out this survey.	11/17/2014 12:11 PM
827	No	11/17/2014 12:11 PM

828	Not to my knowledge.	11/17/2014 12:11 PM
829	University District	11/17/2014 12:11 PM
830	for others, especially seniors and low income, access to social and senior services, Social Security office, parks, libraries, etc.	11/17/2014 12:10 PM
831	none, that I care about	11/17/2014 12:10 PM
832	Yes, they should all be included in the process.	11/17/2014 12:09 PM
833	Marymoor Park	11/17/2014 12:09 PM
834	Seattle Center; Sea-Tac airport; Greenlake; Magnuson Park	11/17/2014 12:09 PM
835	Discovery, golden gardens	11/17/2014 12:08 PM
836	Not for me	11/17/2014 12:08 PM
837	I also walk the dog on weekends taking It rail and driving or bus to parks (Discovery park, Locks, Fremont, Gasworks, South Lake Union, Waterfront, Pike Place Market	11/17/2014 12:07 PM
838	getting in and out of Ballard is a huge mess, and I avoid it at all costs. Its the same for getting to the East Side from Seattle.	11/17/2014 12:07 PM
839	Seattle Center from NE Seattle	11/17/2014 12:07 PM
840	Yes, definitely.	11/17/2014 12:07 PM
841	All of them	11/17/2014 12:07 PM
842	No	11/17/2014 12:07 PM
843	not from my perspective	11/17/2014 12:06 PM
844	I think that all of those type of locations should be included, but I don't have specifics in mind.	11/17/2014 12:05 PM
845	No.	11/17/2014 12:05 PM
846	Stadiums	11/17/2014 12:00 PM
847	I think you should consider that people who live off or near Sand Point don't have an easy way to get downtown unless they ride the express bus in the morning and evening. And even then - the express bus doesn't stop at local stops so you have to go somewhere to get the express bus. Also - it would be wonderful if those of us living in the Northeast section of the city of Seattle were able to take mass transit to the airport. If I have to drive to a location to catch the train then I need to park my car. For how long can I leave my car parked? Why would I leave my car in a parking lot in the city for a long time? I might as well drive to the airport and park my car in a safe garage.	11/17/2014 11:39 AM
848	No. You should be focusing more on getting wealthier people out of their cars rather than lower income people who are always more likely to use transit out of necessity. Providing transit access to parks or museums (for instance) doesn't make much sense. Please make decisions based on common sense rather than common emotion.	11/17/2014 11:34 AM
849	Getting to/from Alki and Admiral district in West Seattle in the evenings.	11/17/2014 11:28 AM

854	Golden Gardens and Carkeek Park.	11/17/2014 8:54 AM
855	Can't think of any	11/17/2014 8:18 AM
856	Not aware of any	11/16/2014 9:11 PM
857	Low-income and senior housing should always have reliable transit service, as these populations rely more heavily on public transit to get around than others.	11/16/2014 7:53 PM

858	I've heard rumors that a reduced fair for low-income individuals might soon be offered. I hope that research will be done as to where that population is and where they'd like to go.	11/16/2014 7:05 PM
859	all hospitals, clinics, grocery stores/	11/16/2014 6:52 PM
860	There are job centers at Sand Point that are not served well by the peak-direction-only route, 74. There are lots of riders in northeast Seattle who have a long ride to get downtown, and could potentially have a faster ride via UW Station. There will also potentially be lots of riders trying to get to First Hill Jobs from Capitol Hill Station if the connection is frequent, which the First Hill Streetcrawler is not.	11/16/2014 2:45 PM
861	Services to healthcare organizations such as hospital, medical centers or satellite offices of major healthcare organizations such as Polyclinic, Swedish, UW.	11/16/2014 10:59 AM

873	magnuson park	11/14/2014 2:19 PM
874	No	11/14/2014 12:25 PM
875	None that I am aware of.	11/14/2014 11:22 AM
876	I'd make sure that medical locations are well-served, with stops quite close by. There's little more disheartening than spending 3 hours travelling on buses for a 15-minute appointment, or having to climb steep hills to and from the bus when you're sick or injured. That said, all the other types of destinations should be served too. If we want to increase the number of carless people in the city, we need to make the buses convenient to peoples' needs.	11/14/2014 10:59 AM
877	Greenwood has a growing arts district but East-West connectivity is so poor that I don't even bother trying to get there.	11/14/2014 10:52 AM

889	Probably, but I can't think of any off the top of my head.	11/13/2014 5:55 PM
890	Nope	11/13/2014 3:27 PM

891	Zoo and hospitals	11/13/2014 3:23 PM
892	church at Phantom Lake Elementary School on Sundays, Northgate Mall, Discovery Park, arboretum,	11/13/2014 3:02 PM
893	Seattle City parks	11/13/2014 2:32 PM
894	None that comes to mind.	11/13/2014 2:21 PM
895	Getting to bike trails is important to me. We need a bike trail or an isolate bike street/path through Seattle, not just a bike lane. Cars don't respect the bike lane.	11/13/2014 2:20 PM
896	Look at further facilitating bicycle-bus travel. Look at greatly facilitating walking to access bus stops, and improving walking through transit stations. Bus stops should be located as conveniently as possible to destinations, pedestrian travel between the boarding area and the destinations should be made much more safe. The downtown bus tunnel stations do not appear to have been designed by or primarily for pedestrian transit users. The distances between surface destinations and boarding platforms appear much less than ideal.	11/13/2014 2:09 PM
897	No	11/13/2014 2:07 PM
898	The cultural and religious destinations that I have interest in have transit access and light rail will improve it.	11/13/2014 1:39 PM

952	No	11/12/2014 12:25 PM
953	There are alot of people who have to live outside of city limits (shoreline, auburn, etc) because the cost of housing can be so much high in seattle. I have co-workers who would like to be able to use public transit, but either can't get bus service that starts early enough (for them to arrive on time for work) or they would be facing a 2 hour commute.	11/12/2014 12:18 PM
954	Yes. All smaller community theatres in the region, which can tend to be in awkward transit locations. Many artists who may want to participate in these venues do not drive. The travel needs would mostly be evenings, for rehearsals and performances. Could be towards eleven pm or just a bit past. Should be safe for women. Would also be for Saturday/Sunday matinees.	11/12/2014 11:48 AM
955	none	11/12/2014 11:48 AM
956	Downtown government buildings. Libraries. Magnunsen Park	11/12/2014 11:41 AM
957	Maintaining or improving access to parks (esp. larger parks like Lincoln, Discovery, Golden Gardens, etc.) would be great.	11/12/2014 11:36 AM
958	Capitol Hill is a significant cultural location with parks that does not get nearly enough transit access from other areas. Same to UW area. Ballard is a booming residential area with parks and cultural amenities which has suffered from lack of transit and significantly overcrowded buses.	11/12/2014 11:31 AM
959	Food banks	11/12/2014 11:25 AM
960	Connecting by bus from Lake City to Link Light Rail in the University District will be important in order to have a predictable and affordable route to the airport. As stated above, it would be important for the schedule to allow passengers to get to the airport by 4:00 am for those early morning flights.	11/12/2014 11:10 AM
961	The Cap Hill link doesnt serve the area between 14th & 23rd, basically from Bailey Gatzert east to 23rd so it would be nice to have additional connector buses from those stops on 12th & 14th to allow folks to get farther into the neighborhood and not have to do so on the already crowded 3 and 4 routes.	11/12/2014 11:03 AM
962	low income. parks.	11/12/2014 11:00 AM

1036	Faster service to Ballard would be great. Has there ever been thought given to a non-stop express bus from downtown to Ballard, such as the 41 Downtown/Northgate or the 70s-x's Downtown/U District?	11/10/2014 8:21 PM
1037	The park by MOHAI/South Lake Union.	11/10/2014 8:15 PM
1038	please give priority consideration to low-income areas of the city, including south of the Central District, into Beacon Hill and beyond.	11/10/2014 8:08 PM
1039	Would like to see more connections to Seward Park and Magnuson Park. Want to make sure that the hospital and clinics on First Hill have connections easily available to seniors and low income people.	11/10/2014 7:28 PM
1040	No	11/10/2014 7:16 PM
1041	Libraries and schools	11/10/2014 6:09 PM
1042	Pac Med Tower	11/10/2014 6:01 PM
1043	Central Lutheran Church	11/10/2014 5:58 PM
1044	Shilshole/Golden Gardens park needs some kind of service for those without any other travel options.	11/10/2014 5:44 PM
1045	I'm sure that there are many locations that are not currently very well served by transportation. I personally would appreciate a bus or two that goes East/West on 85th to Golden Gardens park, especially seasonally. Late night buses from/to major nightlife areas such as Ballard and Capitol Hill would provide a safer and cheaper alternative to driving.	11/10/2014 5:43 PM
1046	Connections to the new Stadium Link light rail	11/10/2014 5:02 PM
1047	First Hill for healthcare, job related	11/10/2014 4:59 PM

1048	Not for my needs.	11/10/2014 4:52 PM
1049	not in my personal needs--but i am a young single professional who also has a car	11/10/2014 4:47 PM
1050	Downtown Seattle Center	11/10/2014 4:45 PM
1051	Not that I use	11/10/2014 4:28 PM
1052	Really make sure that busses connect easily to Light Rail. Put shelters up at key bus stops	11/10/2014 4:26 PM
1053	Magnuson park, Matthews beach, gasworks park, greenlake	11/10/2014 4:25 PM
1054	Yesler Terrace Magnussen Park	11/10/2014 4:17 PM
1055	Have stops at all the City Parks. Have more bike racks on light rail when it's going to continue to Cap Hill and UW.	11/10/2014 4:09 PM
1056	2100 24th Ave. S This is my workplace and also a major service center for youth and young adults, as well as a popular meeting space for many community groups. If I could get there more quickly and without a transfer from Northgate, I wouldn't need to drive. The Rainier Valley is underserved with transit, especially when you consider how many people live down there who do not have cars.	11/10/2014 4:04 PM
1057	None that I use	11/10/2014 3:53 PM
1058	Unknown	11/10/2014 3:48 PM
1059	Volunteer Park, Cal Anderson Park, Alki Beach,	11/10/2014 3:47 PM
1060	Seattle University, 1st Hill Medical, University of Washington.	11/10/2014 3:45 PM
1061	Arboretum	11/10/2014 3:23 PM
1062	Sunday reduced service makes it difficult to find a bus with a reasonable ride time to church. I would love to see more frequent routes in the 8-10am and 3-6pm windows of Sunday.	11/10/2014 3:11 PM
1063	N/A	11/10/2014 2:57 PM
1064	Probably too fragmented for conversations about rail	11/10/2014 2:56 PM
1065	No	11/10/2014 2:55 PM
1066	I don't think so	11/10/2014 2:53 PM
1067	Group health Capitol Hill branch access from downtown, now must take two or three buses to get there!	11/10/2014 2:51 PM
1068	Magnuson Park Carkeek Park Discovery Park Golden Gardens Alki	11/10/2014 2:49 PM
1069	Getting low-income people connected with efficient bus lines would be ideal (IE connecting S. Seattle to efficient transportation would be good)	11/10/2014 2:47 PM
1070	Hopelink Service Center locations in Shoreline, Kirkland, Redmond, Bellevue, and Carnation, King County Libraries, Seattle Center, Woodland Park Zoo, Alki Beach	11/10/2014 2:31 PM
1071	See above.	11/10/2014 2:19 PM
1072	Sno- Valley - rural people are forgotten	11/10/2014 2:14 PM
1073	I believe the bus system is not completely scheduled out for working folks. Some buses come every 10 minutes and others come every 20-30 minutes. When this is your only way of transportation the buses should either come more frequently or work within hours people get off and go to work.	11/10/2014 2:11 PM
1074	The north-side of Seattle Center: McCaw Hall, the smaller theaters, also SIFF Central Cinema and On the Boards. There's a very active performing and film arts scene there. Traffic and parking around there is terrible, but the transit options are not convenient or reliable enough to make me choose driving over transit. Now that the 12th Ave Arts Center is ready to open, there may be increased demand for transit at/near 12th Ave E at Pine.	11/10/2014 2:09 PM
1075	Senior housing ... low income housing ... education (universities / schools / colleges / etc)... parks	11/10/2014 2:02 PM
1076	Snoqualmie Fall in the Summer	11/10/2014 2:01 PM
1077	Remember those of us that commute DAILY to and from work using the bus.....and then there is NO ROOM for us to bus home when there are sports events!!!!	11/10/2014 2:00 PM
1078	Don't Know probably the standard Seattle and Bellevue landmarks.	11/10/2014 2:00 PM

1079	Yes. Any services for the low-income or elderly must have transit options. Library branches should all be within a few blocks of a transit line. As well, major tourism areas should be accessible by public transit.	11/10/2014 1:59 PM
1080	Seattle Central College South Lake Union Park	11/10/2014 1:58 PM
1081	Low income	11/10/2014 1:57 PM
1082	I don't know of any.	11/10/2014 1:54 PM
1083	Central District	11/10/2014 1:50 PM
1084	Low income	11/10/2014 1:49 PM
1085	High schools!	11/10/2014 1:38 PM
1086	In my opinion senior housing, low-income neighborhoods and social services should always be well serviced by bus routes.	11/10/2014 1:37 PM
1087	Not sure	11/10/2014 1:37 PM
1088	Youngstown Cultural Arts Center	11/10/2014 1:34 PM
1089	It is difficult to bus to Greenlake (especially the Tangletown area, for example 58th and Latona) from Capitol Hill and the University of Washington.	11/10/2014 1:27 PM
1090	More bike friendly	11/10/2014 1:23 PM
1091	Mt. Zion Baptist Church, 19th & Madison	11/10/2014 1:21 PM
1092	Magnuson Park is a major destination for many in the city and is poorly served by public transit. Many park users drive because there is insufficient bus options to the park.	11/10/2014 1:17 PM
1093	Georgetown	11/10/2014 1:05 PM
1094	Seattle Center, Ballard.	11/10/2014 1:01 PM
1095	Significant need in my family for rapid transit from Capitol Hill (14th and Pine) to VA Hospital. Many people on capitol Hill work or access services at the VA and it takes several buses and a lot of time.	11/10/2014 1:00 PM
1096	I would really like to enjoy Belltown and SLU but it's incredibly inconvenient to get there via transit and unsafe via bike from Capitol Hill. If I were to become employed in Belltown or SLU, the connections are so bad that I would have to relocate. The 8 should be converted to BRT (True BRT, not that silly Rapid Ride joke) and Denny should include a protected cycle lane westbound, because face it: no one is going to bike up Denny, but there does need to be a complimentary return network to get that cyclist back up the hill. It would also be nice if 3rd were SOV free, and no right turns could be made from Pike in downtown because the right turning cars undermine the efficiency of bus lanes. Can we just have more bikes and less cars? That would really clean things up.	11/10/2014 12:56 PM
1097	I would like it to be easier to get to Greenlake/Fremont from my neighborhood.	11/10/2014 12:50 PM
1098	All libraries, University Village (right now totally inaccessible by public transit despite the worker and student population), Carkeek Park, Denny & Melrose (predominantly elderly low-income housing right there)	11/10/2014 12:49 PM
1099	Key Arena	11/10/2014 12:46 PM
1100	Children's Hospital	11/10/2014 12:41 PM
1101	everywhere needs more	11/10/2014 12:36 PM
1102	Greenwood Senior Center Frye Art Museum Town Hall	11/10/2014 12:34 PM
1103	Just more routes where you're already going east to west.	11/10/2014 12:23 PM
1104	None that I can think of.	11/10/2014 12:15 PM
1105	Seattle Center SAM Beneroyal Hall	11/10/2014 12:13 PM
1106	Malls with parking for a park and ride option	11/10/2014 12:11 PM
1107	HMC	11/10/2014 12:10 PM
1108	Probably.	11/10/2014 11:59 AM

1109	In our area of the city, we have numerous hospitals, which should definitely be included in the analysis. There are also several senior housing facilities, with more being built all the time (17th & Pike, 17th & Madison, 17th & Howell (roughly), 23rd & Madison, etc.	11/10/2014 11:58 AM
1110	No	11/10/2014 11:58 AM
1111	Mosque at NE Northgate Way and 15th Ave NE Pinehurst Playfield	11/10/2014 11:56 AM
1112	Not that I can think of.	11/10/2014 11:54 AM
1113	Seattle Center House, Seattle Central College, UW	11/10/2014 11:50 AM
1114	Egyptian Theater	11/10/2014 11:45 AM
1115	libraries. sport stadiums. hospitals.	11/10/2014 11:45 AM
1116	Grocery stores are the life-blood of any neighborhood. More grocery stores are needed all over Seattle. Until more get zoned and built, though, transit access to existing grocery stores should be improved.	11/10/2014 11:44 AM
1117	libraries and community centers	11/10/2014 11:42 AM
1118	Yes. There is a significant low-income housing in our area that is only slightly served by the one very infrequent bus that goes from that housing area to Federal Way. If the bus route loops suggested above were implemented, it would not only serve that low income area, but the larger community as a whole.	11/10/2014 11:38 AM
1119	Parks and cultural institutions, like SAM	11/10/2014 11:36 AM
1120	senior services access.	11/10/2014 11:34 AM
1121	Not sure at this time	11/10/2014 11:29 AM
1122	not sure	11/10/2014 11:28 AM
1123	There is a park at South Lake Union.	11/10/2014 11:27 AM
1124	None that I can think of	11/10/2014 11:23 AM
1125	Nothing I can contribute here.	11/10/2014 11:19 AM
1126	Seattle Shambhala Center: 3107 E Harrison St, Seattle, WA 98112, Discovery Park	11/10/2014 11:18 AM
1127	not for me.	11/10/2014 11:14 AM
1128	Seattle Center	11/10/2014 11:10 AM
1129	Ikea (on Fourth Avenue S)	11/10/2014 11:09 AM
1130	Discovery Park	11/10/2014 11:02 AM
1131	Gasworks Park, Golden Gardens, Farmers markets (especially Ballard and CapHill)	11/10/2014 11:01 AM
1132	there is a low income at Denny and Melrose but Metro obviously doesn't care about them b/c it canceled Route 47 that stopped just behind that building on Bellevue.	11/10/2014 11:00 AM
1133	n/a	11/10/2014 10:56 AM
1134	I think faster and more reliable buses in areas where people have lower incomes (and are therefore more likely to rely on public transportation) should be a MAJOR priority. When I lived in South Seattle it took forever to get anywhere, it was very frustrating. Same when I'm travelling in the Central District now. No specific locations in mind, I just think lower income neighborhoods shouldn't be neglected the way they have been in the past. People need to get to all kinds of places, no matter where their home is!	11/10/2014 10:54 AM
1135	No	11/10/2014 10:54 AM
1136	not for me	11/10/2014 10:52 AM
1137	There is a lack of transit options for government workers that must commute from offices between Downtown Seattle and our state capitol of Olympia.	11/10/2014 10:51 AM
1138	University of Washington CenturyLink Field SafeCo Field	11/10/2014 10:50 AM

1139	All the city's libraries - including frequent service evenings and weekends All the museums All the city's parks should be accessible and Seattle Center, the zoo and the aquarium, including frequent service nights & weekends Providence Mount St Vincent in West Seattle and other large senior housing where it is likely that many staff cannot afford a car and must work early and late hours every day of the year	11/10/2014 10:48 AM
1140	Husky Stadium, UW, Children's hospital, U-village, Magnuson Park.	11/10/2014 10:46 AM
1141	N/A	11/10/2014 10:46 AM
1142	Discovery Park - it is the biggest park in the city with very limited public transit access (particularly if there are more cuts to route 33). The south side of the Ballard locks/ Fisherman's terminal.	11/10/2014 10:42 AM
1143	Alki Beach, UW IMA building	11/10/2014 10:37 AM
1144	Getting people to Lake Union Park. Traffic in that neighborhood is bad, parking is worse, and it's become a high-volume destination heritage center.	11/10/2014 10:37 AM
1145	More service to Discovery Park from downtown would be nice, I would love to go out there but it's pretty far afield for someone without a vehicle.	11/10/2014 10:34 AM
1146	Not at this time as far as I'm concerned.	11/10/2014 10:34 AM
1147	Green Lake	11/10/2014 10:33 AM
1148	Temple de Hirsch Sinai, Jewish Family Services, Samarya Center.	11/10/2014 10:30 AM
1149	Ballard brewery district, Pike/Pine. Most people in their 20's live near Capitol Hill or Fremont/Ballard/Greenlake, but there is no viable public transportation between these two pockets.	11/10/2014 10:27 AM
1150	The Seattle School of Theology and Psychology Fremont Abbey Arts Center/Church of the Apostles	11/10/2014 10:27 AM
1151	Burke-Gilman Trail to Link Light Rail	11/10/2014 10:24 AM
1152	n/a	11/10/2014 10:24 AM
1153	Connections between cap hill and Fremont/ballard are very bad. Both places have lots of service, but nothing that connects to each other.	11/10/2014 10:22 AM
1154	No	11/10/2014 10:21 AM
1155	Horizon House (senior residence) Park Shore (senior residence) On the Boards (at lower Queen Anne) Seattle Center Sculpture Park/Myrtle Edwards Park Alki (from Madison Valley or Capitol Hill)	11/10/2014 10:17 AM
1156	University Village has terrible bus service. Likewise, getting in and out of Ballard sucks.	11/10/2014 10:14 AM
1157	no	11/10/2014 10:13 AM
1158	Seattle U?	11/10/2014 10:11 AM
1159	Ravenna to downtown and Airport	11/10/2014 10:10 AM
1160	No	11/10/2014 10:09 AM
1161	Libraries	11/10/2014 10:08 AM
1162	Goodwill Industries - which qualifies as both Low-Income and social service agency	11/10/2014 10:06 AM
1163	Not for me in particular, but I support such locations being served.	11/10/2014 10:06 AM
1164	I would think most of those places are already covered. Other than reaching some more distant locations i.e. Nordic Museum and churches in that area, the bus system does a pretty good job. Very disappointed bus 30 no longer runs during the day. It is a steep hill to the U-district and my older neighbors cannot walk it. Getting to the Seattle Center is challenging.	11/10/2014 10:05 AM
1165	No.	11/10/2014 10:04 AM
1166	Discovery Park	11/10/2014 10:03 AM
1167	Not sure.	11/10/2014 10:01 AM
1168	Libraries. Especially in low-income areas. Libraries are one of the few places that students can go to study, read, relax, and use an internet connected computer without fees. I think that it's crucial to our education system that all libraries be easily (and quickly) accessible by public transportation.	11/10/2014 10:00 AM

1169	UW	11/10/2014 10:00 AM
1170	low-income	11/10/2014 9:58 AM
1171	MOHAI (South Lake Union), the waterfront, Discovery Park, and Golden Gardens need more transit options.	11/10/2014 9:57 AM
1172	To/From Volunteer Park, the Arboretum, and areas of Queen Anne and Seattle Center.	11/10/2014 9:56 AM
1173	I think it needs to be looked at economically, maybe smaller more frequent routes that express people to the light rail until the link is all the way in northgate.	11/10/2014 9:55 AM
1174	Alki Beach/Park, West Seattle Food Bank, Seattle University	11/10/2014 9:54 AM
1175	Volunteer Park	11/10/2014 9:54 AM
1176	schools, libraries, shopping areas with high volume of traffic	11/10/2014 9:41 AM
1177	The Federal Building on 2nd and Marion	11/10/2014 9:40 AM
1178	Ryther Center, 2400 NE 95th St	11/10/2014 9:38 AM
1179	I wish there were more options for getting from the U Dist to Seattle Center/lower Queen Anne locations such as the opera house and theaters.	11/10/2014 9:38 AM
1180	no	11/10/2014 9:23 AM
1181	1. Seattle Center 2. Volunteer Park	11/10/2014 9:16 AM
1182	Not for me	11/10/2014 9:11 AM
1183	Bonney Lake needs service	11/10/2014 8:48 AM
1184	Mt Baker Rowing Club and Park Town of Mt. Baker Town of Leschi Swedish Medical Center First Hill Cherry Hill Medical Center	11/10/2014 8:41 AM
1185	?	11/10/2014 8:32 AM

1187	303	11/10/2014 8:23 AM
1188	Focus on areas of activity and density	11/10/2014 8:22 AM
1189	Swedish Medical Center, Harborview Medical Center..etc.	11/10/2014 8:13 AM
1190	Connecting Wellspring and Treehouse on Rainier Ave S to Capitol Hill.	11/10/2014 8:08 AM
1191	Huh?	11/10/2014 8:06 AM
1192	It would be nice to have direct service from ash way park ride to university link station changing to ash way park ride to northgate when nortgate opens.	11/10/2014 8:02 AM
1193	yes, put the 265 back in service, the busroute was well used!!!	11/10/2014 8:00 AM
1194	Seattle Center - directly from NE Seattle	11/10/2014 7:57 AM
1195	N/A	11/10/2014 7:56 AM
1196	Discovery and Carkeek Parks	11/10/2014 7:52 AM
1197	Always make it easy for low income people to reach social services, the jail, social security offices, major hospitals, especially Harbor View. Always consider the needs of our least able people to access frequent transportation with direct routes from their neighborhoods to most used social service providers and supermarkets.	11/10/2014 7:40 AM
1198	Better access from north Seattle to Seattle Center is needed without having to take a long winding route that takes significantly longer than driving or without having to transfer. Seattle Center is a vibrant part of our city's cultural offerings - it should be better served by transit.	11/10/2014 7:35 AM
1199	The neighborhoods in between major byways like Wallingford, lake city, Ravenna, etc. There can be many blocks of walking before coming to a bus stop.	11/10/2014 6:42 AM

1200	First Hill medical stuff including Swedish Cherry Hill area	11/10/2014 5:44 AM
1201	A faster connection between the U District and Northgate/other neighborhoods to the north. Perhaps using the Freeway Station at NE 45th St with a bus that also serves downtown and Northgate.	11/10/2014 2:26 AM
1202	UW, major parks (Greenlake, Gasworks, etc.), Zoo, Aquarium, Pike Place Market, Stadiums, International District, Pioneer Square, Northgate Mall, Lake City, Georgetown.	11/10/2014 1:09 AM
1203	Museums listed above, Parks listed above, Washington Hall	11/10/2014 12:52 AM
1204	parks are good places for squirrels	11/10/2014 12:41 AM
1205	201 S Jackson St. DSHS at North Seattle Community College-If you're disabled, it's REALLY hard to get there. Note that MANY IF NOT MOST disabled people do NOT have a spiffy wheelchair but more often limp around in agony trying to catch the bus. I wish I could name more places.	11/10/2014 12:16 AM
1206	Please balance all of the potential origins and destinations without preference. Institutions that serve people who ride transit frequently should locate themselves near frequent transit lines. We need a transit network. A simple reliable fast tool for getting from place to place. Not door to door but near. Not without a little wait but a pleasant one. Not without fellow travelers but not standing packed among them for an hour on the freeway. A good system that works through awareness of its intent by making connections consistently. Offer frequency and extend access through active modes. Don't analyze what interest groups want. Analyze what a good transit system is. Then build and operate it. You seem to be getting slowly better at it. I'm optimistic.	11/10/2014 12:09 AM
1207	low income,senior,cultural	11/9/2014 11:46 PM
1208	Keep service on the 2, which services West Queen Anne and makes it easier to go to the library, Coe School, the Cemetary, and other places.	11/9/2014 10:59 PM
1209	Please consider making it as easy as possible to access parks, trailheads, and natural areas, from neighborhood parks to state/DNR land or even Forest Service trailheads. These are absolutely vital for a healthy lifestyle and for enjoying and relaxing in our beautiful natural places. So many more people would be more willing to forgo having a car in the central city if they knew they could get to opportunities for outdoor recreation via public transit.	11/9/2014 10:04 PM
1210	Seattle Art Museum. Volunteer Park	11/9/2014 9:05 PM
1211	Wherever has the highest ridership or potential ridership.	11/9/2014 8:21 PM
1212	Seattle Center Downtown Seattle Public Library Seattle Art Museum Paramount Theater Downtown retail district Pioneer Square Pike Place Market Olympic Sculpture Garden	11/9/2014 6:44 PM
1213	Sandel Park	11/9/2014 6:39 PM
1214	You should consider all of the above. There is no bus that can take me to my church. It's either drive or walk, and walking would be an hour each direction.	11/9/2014 6:14 PM
1215	Nightlife destinations	11/9/2014 5:45 PM
1216	can't think of any right now	11/9/2014 5:43 PM
1217	Better access to Green Lake would be great	11/9/2014 4:09 PM
1218	Country Doctor Clinic, 19th Ave E and E. Republican.	11/9/2014 4:07 PM
1219	Yes. Include and consider all mentioned spots that would be on any routes to be used.	11/9/2014 3:51 PM
1220	Cannot think of any at this time.	11/9/2014 3:42 PM
1221	DSHS in South Seattle and Ballard	11/9/2014 3:40 PM
1222	Streetcar should go all the way to Volunteer park cross streets, Seattle Center theaters should have evening transit	11/9/2014 3:00 PM
1223	..?	11/9/2014 2:09 PM
1224	Not for my needs, but others will .	11/9/2014 1:49 PM

1225	Volunteer Park, St. Mark's Cathedral, Group Health and the associated commercial area along 15th Ave. E., access to and through the eastern Eastlake/Portage Bay area. In general, please keep in mind that having to transfer to and from the light rail will add time and inconvenience to trips that now can be made on a single bus, which will really be a loss of usefulness for many users (and especially the mobility-impaired.) On that point, the location of the UDistrict light rail will be good for students at UW, but not good for any access to the rest of the UDistrict; we will need frequent service to other parts of the UDistrict.	11/9/2014 11:55 AM
1226	Magnuson Park! Solid Ground!	11/9/2014 11:14 AM
1227	SAM, Burke Museum, Symphony, Olympic Sculpture Park	11/9/2014 10:09 AM
1228	I need and use both Routes 31 and 65 to get to and from Seattle Audubon (35th Ave NE at 82nd) regularly and promptly. I also need good connections to the Northwest American Art Museum at 2300 S. Massachusetts Street.	11/9/2014 9:48 AM
1229	No. In fact, such things should not be considered at all. Metro/ST needs to serve the people's transportation needs, not be used as this kind of gauche urban planning tool.	11/9/2014 9:45 AM
1230	No	11/9/2014 9:36 AM
1231	Gasworks park. Hospitals.	11/9/2014 9:24 AM
1232	Seattle Opera Seattle Reperatory Theater Golden Gardens Ballard Locks	11/9/2014 8:48 AM
1233	If you truly want people to use mass transit, it must be cheaper. Right now it makes sense for people who commute to downtown because parking is so expensive BUT it is too expensive for low income people and too expensive for me to commute two miles to a job where I have free parking. Even taking light rail to downtown with my partner costs \$10. We can get all day parking for that and free parking on Sundays. The only way it makes sense now is to raise parking so that only the rich can afford to drive downtown OR lower the fares so that people leave their cars at home. I recommend lowering fares! This could be done by raising tab fees and basing them on the value of the vehicle. The more expensive the vehicle and the more vehicles, the more you would pay, placing the burden on those with more money who buy more vehicles and more expensive ones. This would also take the burden off of a gas tax which is increasingly ineffective due to increased gas mileage, less use (if we ride transit more!) and alternate fuel.	11/9/2014 8:35 AM
1234	Fares are among the nation's highest.	11/9/2014 6:34 AM
1235	Seattle Center	11/9/2014 3:07 AM
1236	None.	11/9/2014 1:45 AM
1237	U Village	11/9/2014 1:11 AM
1238	Chinatown (international district)	11/9/2014 12:15 AM
1239	Capital Hill	11/9/2014 12:07 AM
1240	No	11/8/2014 10:44 PM
1241	The entire sound end of rainier valley.	11/8/2014 10:15 PM
1242	Greenwood Senior Center, Magnuson Park	11/8/2014 9:48 PM
1243	I believe you know of them. For me, it's the library, post office, food store/market, Pike Place Market, Key Arena for Seattle Storm games, doctor offices downtown or First Hill.	11/8/2014 9:45 PM
1244	Seattle Children's	11/8/2014 9:02 PM
1245	There is a lack of travel options to places like DSHS (especially cherry hill), some of the hospitals, and most doctor's offices.	11/8/2014 8:05 PM
1246	No	11/8/2014 7:45 PM
1247	All I ever do between home and work is go to QFC 417 Broadway or 500 Mercer at this point. I'm sure when I retire (if I ever can!) I will need more places to go.	11/8/2014 7:07 PM
1248	Not for me.	11/8/2014 7:00 PM
1249	state capitol.	11/8/2014 6:23 PM
1250	SeaTac late at night	11/8/2014 6:16 PM
1251	Movies, Town hall, concert hall.	11/8/2014 5:17 PM

1252	recreational marijuana stores	11/8/2014 4:27 PM
1253	I only hope you are using all of them. You should at a minimum use the datasets that were used for Seattle's Pedestrian Master Plan, Bike Master Plan, and Transit Master Plan. You should also weight the importance of health, economic, and social inequities, especially with regards to those who are dependent on transit (poor, young, old, disabled, etc) and those who may be traveling as a family.	11/8/2014 2:50 PM
1254	n/a	11/8/2014 2:17 PM
1255	Hearing, Speech and Deafness Center	11/8/2014 2:17 PM
1256	should include service to Waterfront/Sculpture Park, easy airport access, and S. Lake Union/Seattle Center	11/8/2014 2:07 PM
1257	Nope	11/8/2014 2:04 PM
1258	Do parks really drive ridership at all? At least when compared to other things that drive demand.	11/8/2014 1:15 PM
1259	U should serve the graham street dshs office.	11/8/2014 1:02 PM
1260	A big gap in service is the service along 10th Avenue, north of Aloha street. I am in my 70s and cannot easily walk the 3/4 of a mile from E. Blaine to Aloha/Roy. My only bus connection to downtown is the old 7 (now 49). The service to this part of Capital Hill has been unfairly ignored because we are away from the transit HUB on Broadway. The result is we have next to no coverage. I have lived in the same home for 45 years and have always taken the bus to downtown for shopping and doctor appointments. It is becoming increasingly difficult with the reduction in stops and the reduction in service along this stretch.	11/8/2014 12:32 PM
1261	Not in my opinion.	11/8/2014 12:26 PM
1262	Colleges	11/8/2014 12:06 PM
1263	SAM,Frye Museum, Arboreteum, Discovery Park, Volunteers Park, buses that go to Ferries...	11/8/2014 11:51 AM
1264	Colman Pool/Lincoln Park	11/8/2014 11:48 AM
1265	Not sure	11/8/2014 10:40 AM
1266	VA Medical Center is too long a walk fromMT-36	11/8/2014 10:21 AM
1267	Cultural, low-income, senior, social service locations and parks.	11/8/2014 10:14 AM
1268	n/a	11/8/2014 9:51 AM
1269	University village and the University of Washington	11/8/2014 9:02 AM
1270	Pratt Park, Leschi Park, Garfield's performing arts center	11/8/2014 8:47 AM
1271	Communities centers throughout Southeast Seattle.	11/8/2014 8:43 AM
1272	Consider that seniors often can't wait for the bus in cold weather. Better access to online real time tracking is very important.	11/8/2014 8:35 AM
1273	right now it is hard to get from Lake Union Park to Cap hill (broadway) on transit without significant transfers.	11/8/2014 8:00 AM
1274	Jefferson Park in Beacon hill make the #8 faster, please!!	11/8/2014 7:49 AM
1275	Do not disco he route 72. Miss route 306. Sunday service in Lynneood to go to Ortodox Presbyterian Church	11/8/2014 7:48 AM
1276	Capitol Hill businesses. Encourage transit riders to come and patronize Capitol Hill businesses.	11/8/2014 7:39 AM
1277	Seattle Center Town Hall	11/8/2014 7:36 AM
1278	High Schools, middle schools, elementary schools. All park community centers. Libraries. Gasworks Park, Carkeek Park, Golden Gardens Park,	11/8/2014 7:01 AM
1279	Jewish worship & community in Maple Leaf	11/8/2014 6:50 AM
1280	South Lake Union park, International District	11/8/2014 1:33 AM

1281	I am SUPER excited for the light rail that's currently in progress / planned, and hope to one day see a really comprehensive light rail system for our region. I think anything that improves connectivity between the Eastside and Seattle would be fabulous... rush hour traffic is always such a nightmare. Anything that would help relieve congestion would be great, be it on 520, I-5, I-90, or wherever. Beyond that, improved connectivity between downtown and the Fremont / Ballard / Green Lake / Greenwood areas. Ballard always seems like such an obnoxious place to get to, even though it's not really that far away. I used to commute from Greenwood to Downtown, and that always felt more tedious	11/7/2014 11:49 PM
1282	Gasworks park, Madison Park, Alki Beach	11/7/2014 11:10 PM
1283	U Village and Magnisun Park.	11/7/2014 10:41 PM
1284	Rapid bus service to these two new stations is critical Also, dedicated bike lanes to these stations is very important.	11/7/2014 10:25 PM
1285	U District Farmers Market U District Food Bank Boys and Girls Club @ Stone & 45th Meridian Park (also Seattle Tilth HQ, P Patch, farmers market) Lower Woodland Park Greenlake Woodland Park Zoo UCDS school Blessed Sacramento church	11/7/2014 9:55 PM
1286	All of the above places should only be accessible by private car.	11/7/2014 9:38 PM
1287	Volunteer park Asian Art museum	11/7/2014 9:01 PM
1288	Not sure	11/7/2014 8:44 PM
1289	Cal anderson	11/7/2014 8:43 PM
1290	no. you need to look at what the majority needs,	11/7/2014 8:19 PM
1291	Direct transit options along Montlake Blvd that connects University Village from the new Husky Stadium station area.	11/7/2014 8:18 PM
1292	Parks, museums, event locations, colleges.	11/7/2014 7:15 PM
1293	Outside of major cities. Such as where I live, just a few blocks east of the RapidRide, we have to walk 10+ minutes to catch a bus.	11/7/2014 6:46 PM
1294	Renton technical college, Renton group health, other medical facilities, gene coulou park in Renton.	11/7/2014 6:42 PM
1295	The only thing you should include when analyzing service needs is ridership. Maximize ridership.	11/7/2014 6:02 PM
1296	Greenlake, University of Washington Arboretum	11/7/2014 5:57 PM
1297	The former ride free area should be revived.	11/7/2014 5:50 PM
1298	The stadiums/train station would be helpful. Pike Place market. The parks being built on the water near South Lake Union. Volunteer Park. Seattle Center.	11/7/2014 5:47 PM
1299	The 36 bus route in Beacon Hill is extremely important for those who live in Beacon Hill. It is basically the easiest way to get Downtown. Going down to the Othello Link Light Rail station is impossible for some of the elderly and the 36 is the only way to get around Beacon Hill and to get Downtown.	11/7/2014 5:31 PM
1300	I think for the most part you've got things covered as is	11/7/2014 5:17 PM
1301	Bus link to Stadium Link station should reach at least as far as Children's Hospital and into Ravenna- Bryant North of U Village	11/7/2014 5:15 PM
1302	West Seattle Ballard Queen Anne	11/7/2014 5:08 PM
1303	More frequent service and faster service to shopping.	11/7/2014 4:58 PM
1304	make it easier to access fremont from the north.	11/7/2014 4:45 PM
1305	Not that I can think of.	11/7/2014 4:30 PM
1306	Golden Gardens Magnusen Elliot bay trail	11/7/2014 4:26 PM
1307	All of these. Although I am not disabled or elderly, I may be soon. I have a great respect for the struggles my patients (I work in a hospital) and my elderly neighbors on First Hill experience, and how dependent they are on transit. Transit is what keeps them engaged in their communities. I would very much like you to evaluate based on demographics by census tract, and by any information you may have on disabled riders.	11/7/2014 4:14 PM

1308	You need to remember there are those WITHOUT cars and that buses are their ONLY means of transportation! DON'T let sports fans take over the buses from those of us that depend on the buses daily to GET HOME.	11/7/2014 4:11 PM
1309	Not that I can think of.	11/7/2014 4:05 PM
1310	Please consider transfers going east/west, since neither capitol hill nor the uw station have good connections.	11/7/2014 4:04 PM
1311	It is remarkably hard to travel across to the ID.	11/7/2014 4:02 PM
1312	Magnuson Park, Greenlake, Seattle Center	11/7/2014 3:46 PM
1313	Keep seniors in mind. I depend on Public Transit more and more. As I get older I drive less, and I am not going to start riding a bike again.	11/7/2014 3:38 PM
1314	University of Washington; employment centers Downtown Seattle and in U-District	11/7/2014 3:38 PM
1315	None that I know of.	11/7/2014 3:27 PM
1316	Volunteer park, Golden Gardens park, Arboretum	11/7/2014 3:24 PM
1317	from Central District to International District and SoDo (from low-income residential to inexpensive shopping)	11/7/2014 3:11 PM
1318	I like to go to Fremont and Ballard from capitol hill or downtown. I take my kids to Volunteer park, Shilshole park, the park on MLK Way	11/7/2014 3:06 PM
1319	Yes, see above question 3.	11/7/2014 2:54 PM
1320	Cross-city service between south Seattle and West Seattle appears to be rather weak, in my opinion. Also, late night service (after "last call") from Capitol Hill to south Seattle should be more frequent, as to encourage drivers to use public transit.	11/7/2014 2:41 PM
1321	We need a direct route from capitol hill to pioneer square	11/7/2014 2:33 PM
1322	Public Schools	11/7/2014 2:32 PM
1323	no	11/7/2014 2:29 PM
1324	no	11/7/2014 2:21 PM
1325	not specifically for me	11/7/2014 2:01 PM
1326	Magnisun park and the organizations there	11/7/2014 1:50 PM
1327	YMCAs, Food banks	11/7/2014 1:34 PM
1328	MOHAI	11/7/2014 1:22 PM
1329	N/A	11/7/2014 1:20 PM
1330	Hiking trails in the foothills like mount si, Crystal Mountian Resort, Stevens Pass ski resort,	11/7/2014 1:08 PM
1331	Discovery Park.	11/7/2014 1:07 PM
1332	It would be a list five miles long	11/7/2014 12:50 PM
1333	University of WA	11/7/2014 12:42 PM
1334	Anything in West Seattle.	11/7/2014 12:39 PM
1335	Benaroya Hall, Seattle Art Museum, Ferry Terminal, Seattle Center	11/7/2014 12:37 PM
1336	UW, Capitol Hill, Fremont, Ballard	11/7/2014 12:34 PM
1337	no	11/7/2014 12:28 PM
1338	All senior centers opera house (has a new name now)	11/7/2014 12:21 PM
1339	None specifically that stick out in my mind. Currently, as a King County resident, I pay taxes for Metro & Sound Transit bus service, which does not operate to or from any of my destinations. My home is poorly-served by a single peak-commute only shuttle bus operated by Pierce Transit, not King County. Service to anywhere would be welcomed.	11/7/2014 12:14 PM
1340	See the responses in question #3.	11/7/2014 11:54 AM

1341	just look at usage data. I feel like some of this shit is designed trying to catch the "coolness" factor	11/7/2014 11:40 AM
1342	Probably	11/7/2014 11:38 AM
1343	Connect from higher density residential areas to LINK stations	11/7/2014 11:17 AM
1344	Cal Anderson and Volunteer park, SAM, all the community centers in every neighborhood, ballot drop locations, cable service provider drop locations, libraries, YMCA locations.	11/7/2014 11:11 AM
1345	no	11/7/2014 11:04 AM
1346	The most efficient network is the best. See SeattleTransitBlog for suggestions!	11/7/2014 11:00 AM
1347	University District farmers market. Center for Spiritual Living on Sandpoint way on sunday mornings and for big events - they fill up our neighborhood with their overflow parking, it would be great to have more of them taking transit. Husky Stadium during games (but you knew that)	11/7/2014 10:56 AM
1348	The further from the center of the city, the more cumbersome the services are. The 60 services a much needed area, but you only have the 60 and it runs infrequently and not late into the night.	11/7/2014 10:44 AM
1349	Discovery Park Golden Gardens In the summer: Madison, Denny Blaine, Madrona, and Leschi beaches	11/7/2014 10:42 AM
1350	Magnuson Park and White Center could use more connections.	11/7/2014 10:38 AM
1351	New to seattle, so unsure	11/7/2014 10:36 AM
1352	not sure	11/7/2014 10:30 AM
1353	The string of parks and beaches on Lake Washington are not easily accessible with transit. Madrona Park is kind of accessible with the 2, but other than the Lake Washington Blvd/Seward Park Ave is not as easy to access from downtown as it should be.	11/7/2014 10:22 AM
1354	Subway options! Get out of traffic, and avoid elements. At the very least, designated transit lanes all over.	11/7/2014 10:04 AM
1355	Magneson Park/Sand Point	11/7/2014 9:58 AM
1356	Would like better access to parks not in my Capitol Hill neighborhood, such as Discovery Park.	11/7/2014 9:55 AM
1357	Miller Park / Community Center Volunteer Park Garfield Community Center Madrona Park Madrona Beach	11/7/2014 9:54 AM
1358	You should look at topography.	11/7/2014 9:54 AM
1359	Shoreline Unitarian Church Crest Theater Green Lake BeneRoyal Hall City Hall Town Hall	11/7/2014 9:51 AM
1360	No	11/7/2014 9:49 AM
1361	Green Lake, All city pools,neighborhood business centers	11/7/2014 9:49 AM
1362	Direct connection is needed from 23rd/Yesler area to Light Rail-- low income and WIC Clinic nearby especially need access to Capitol Hill's central business area. The new streetcar route does not easily connect CD neighborhood to Capitol Hill.	11/7/2014 9:44 AM
1363	Extend RR E to the International District! Driving in that area is a nightmare!! Dedicated transit lanes in crowded areas, as well, would be money well spent. Heavy-use buses should share the roads with cars as little as possible.	11/7/2014 9:43 AM
1364	I work at the VA Medical Center and take the bus there almost exclusively. It has gotten much harder since the bus stop moved further away and the #60 got even less reliable/frequent. In addition to making my commute much longer and less predictable, my patients - a huge fraction of whom rely on the bus to come to see me - began to have significantly more trouble. Many have multiple chronic health problems, and waiting a long time somewhere without a bench for a bus that comes at different times, and walking up and down the hill, can be very difficult for them. Often they are juggling work, childcare for kids, and the appointment with me, and the extra time to accommodate unreliable and slow transportation to the VA is a huge problem. Finally, often at the time of day the middle school lets out multiple buses in a row are 100% full between the VA and the light rail station, forcing those who need to be able to sit to wait sometimes 30+minutes for a 3rd bus with enough room to take them. It would mean a whole lot to a vulnerable population to have better bus service to the VA! It would also be a huge help for me, a provider working long hours but with young kids, trying to do the right thing by taking the bus but frustrated that my 6 mile commute can take over an hour. Thanks!	11/7/2014 9:41 AM
1365	Cultural - McCaw Hall, movie theaters, museums, Social service - health care facilities	11/7/2014 9:37 AM

1366	Recreational areas (beaches, community pools and parks, etc), appropriate scheduling for sports venues and July 4 and Dec 31 activities.	11/7/2014 9:34 AM
1367	Hospitals in Ballard, and Swedish Hospital on Madison and Broadway are very difficult to walk to from a bus stop. The U district buses (70,72,72,73) should run later there are lecture and other events in the evening. Golden Gardens Park in inaccessible for Seniors and handicapped.	11/7/2014 9:32 AM
1368	link lightrail needs to stop on S Graham Street to access that shopping area.	11/7/2014 9:30 AM
1369	Beacon Hill is under served.	11/7/2014 9:27 AM
1370	South Lake Union (aka bus 8) is a total nightmare. 12th Avenue is also lacking in bus service.	11/7/2014 9:24 AM
1371	Parks and other recreational activities.	11/7/2014 9:20 AM
1372	Volunteer Park Greenlake	11/7/2014 9:19 AM
1373	Yes-- you should focus on serving major employment, shopping, and residential clusters.	11/7/2014 9:17 AM
1374	Jefferson Terrace, First Hill Foodbank	11/7/2014 9:16 AM
1375	Low-income needs	11/7/2014 9:11 AM
1376	No	11/7/2014 9:11 AM
1377	Town Hall Seattle	11/7/2014 9:10 AM
1378	- Pike Place Market: Please reopen Route 99 stop at First Avenue & Pike Street. Too long a walk from First & University or Lenora, especially for elderly and disabled. - MOHAI: Direct route from North Belltown. - Seattle Central Library and retail core along Fifth Avenue. - Access to South Waterfront area from North Belltown and Lower Queen after Hwy 99 tunnel is done.	11/7/2014 9:08 AM
1379	No	11/7/2014 9:02 AM
1380	Getting from Madison Valley area up to Capitol Hill to connect better with other transit. Steep hills in Madison Valley area with long walks for Seniors and disabled make access more challenging. Buses are chronically late (11 & 8) and too long between each bus.	11/7/2014 8:57 AM
1381	No	11/7/2014 8:57 AM
1382	I'm sure there are, but not any that I use myself.	11/7/2014 8:55 AM
1383	Yes, Seattle Japanese Garden on Lake Washington Blvd, near East Madison	11/7/2014 8:54 AM
1384	Parks	11/7/2014 8:54 AM
1385	Airport	11/7/2014 8:53 AM
1386	Noon hour or mid-day buses would be a possibility as none travel at that time in Sammamish (my mother, a senior, stays with us sometimes so is stuck as she cannot drive). I find our bus fare is on the pricey side for those who must rely on transit and on a limited income but that is an ongoing issue.	11/7/2014 8:50 AM
1387	Seward Park, Golden Gardens	11/7/2014 8:50 AM
1388	Existing density and historic cores. Not potential new places, that may develop if transit goes there. Sprawl is still sprawl, even if you take a train there.	11/7/2014 8:50 AM
1389	low-income, senior, social service, parks	11/7/2014 8:44 AM
1390	Hospitals. My wife was in the hospital for several weeks. Without a car I was dependent on transit and car shares to get to my loved ones	11/7/2014 8:39 AM
1391	Miller Community Center Volunteer Park SCHOOLS!	11/7/2014 8:33 AM
1392	None that come to mind	11/7/2014 8:32 AM
1393	UW Hillel, Bryant Synagogues, Mercer Island JCC	11/7/2014 8:31 AM
1394	Discovery Park! Very difficult to get to and I was amazed when I discovered it exists in our city. Generally better east-west connection. Ballard, West Seattle, and the entire East Side are a nightmare from anywhere but downtown, so I avoid going there unless I can get a car ride.	11/7/2014 8:25 AM
1395	Seward Park, Genesee Playfield, Hillman City and Columbia City neighborhoods.	11/7/2014 8:23 AM

1396	Schools	11/7/2014 8:22 AM
1397	Bailey Boushay House (28th/Madison); Cal Anderson Park, Madison Park	11/7/2014 8:22 AM
1398	Volunteer Park all hospitals Volunteer Cemetary Church School	11/7/2014 8:22 AM
1399	University of Washington. There are a lot of workers and students that go there. While the downtown to UW connection is good, the Shoreline to UW connection could be strengthened.	11/7/2014 8:20 AM
1400	all things downtown and east west along 45st from UW to Ballard	11/7/2014 8:19 AM
1401	More connections to Discovery Park would be great.	11/7/2014 8:15 AM
1402	Golden Gardens Park (even a summer service extension), Washington Arboretum Park (be able to hop on/off busses at the many entrances/exits	11/7/2014 8:12 AM
1403	Don't know	11/7/2014 8:12 AM
1404	Bus routes that go to Olympic Sculpture Park from E. Cherry St/32nd Ave; E. Yesler Way/32nd Ave would be great!	11/7/2014 8:07 AM
1405	U District performance venues (eg Meany) Seattle waterfront: entire length (streetcar)	11/7/2014 8:02 AM
1406	I'm not aware of any that I would need access to	11/7/2014 8:02 AM
1407	I would like to visit parks.	11/7/2014 8:00 AM
1408	Volunteer Park Golden Gardens	11/7/2014 7:57 AM
1409	All locations on Capitol Hill should be within a short walk of a bus stop, service to downtown and Seattle Center should remain frequent and convenient, improve service to Madison Park	11/7/2014 7:56 AM
1410	No. I think the biggest factors in getting people like me to ride the bus more are cleanliness of the buses and frequent departures on the main routes (like the 10 bus).	11/7/2014 7:50 AM
1411	Seattle Center.	11/7/2014 7:47 AM
1412	UW	11/7/2014 7:44 AM
1413	Volunteer Park	11/7/2014 7:36 AM
1414	Not anything specific that I can think of, but all those things need to be considered.	11/7/2014 7:12 AM
1415	Parks	11/7/2014 7:09 AM
1416	Better access to Magnuson Park since there are now a myriad of recreational organizations there.	11/7/2014 6:56 AM
1417	Beacon Hill, Mount Baker, Columbia City	11/7/2014 6:56 AM
1418	Hospitals, parks, museums and libraries should be easily accessible in any city.	11/7/2014 6:55 AM
1419	Bailey Boushay House	11/7/2014 6:49 AM
1420	Volunteer park, cal Anderson park,	11/7/2014 6:48 AM
1421	no	11/7/2014 6:46 AM
1422	No	11/7/2014 6:33 AM
1423	Consider parks, schools, hospitals, as well as retail and residential populations.	11/7/2014 6:21 AM
1424	Yes, All of the Above for every citizen in the area...	11/7/2014 6:14 AM
1425	No	11/7/2014 6:08 AM
1426	yes, see above	11/7/2014 6:00 AM
1427	No.	11/7/2014 1:07 AM
1428	no-transfer weekday service from Capitol Hill to downtown Bellevue in under 40 minutes	11/7/2014 12:16 AM
1429	Seattle science center	11/6/2014 11:56 PM

1430	Golden Gardens, as I mentioned earlier. Whenever I've gone there, even not in the summer, there are almost always many people there. It would be a popular destination (especially in the summer, when the parking lot fills up quickly), and could earn Metro some revenue. I would also suggest re-routing the 16 and other buses back to the Seattle Center, due to the events that go on there throughout the year.	11/6/2014 11:44 PM
1431	More service in Renton area.	11/6/2014 11:19 PM
1432	university of Washington meany theater Magnuson park	11/6/2014 11:10 PM
1433	Senior House	11/6/2014 10:32 PM
1434	UW Ravenna Airport Pike place market U village	11/6/2014 10:26 PM
1435	Business area on 35th Avenue NE between NE 85th Street and NE 75th Street	11/6/2014 10:23 PM
1436	No, you should build a high frequency grid network, so anyone can get from anywhere to anywhere with 1 or 2 transfers. Make transfers more feasible.	11/6/2014 10:22 PM
1437	Golden Gardens Park, Shilshole Bay Marina	11/6/2014 10:20 PM
1438	Hospitals, Columbia City, Rainier Valley	11/6/2014 9:58 PM
1439	Better information for connections to Poulsbo, Pt Townsend, and Sequim	11/6/2014 9:57 PM
1440	i would go to the theatre such as 5th Ave or Paramount if I thought there were going to be a bus to return on, at night. Waiting for a bus after dark in the downtown area is scary. Not enough light, no police patrols and infrequent busses.	11/6/2014 9:56 PM
1441	not for me	11/6/2014 9:52 PM
1442	Seattle University/First Hill hospitals, especially in early morning and afternoon commute hours	11/6/2014 9:50 PM
1443	Marymoor Park	11/6/2014 9:45 PM
1444	Yes, to and from Magnuson Park north of the University District	11/6/2014 9:34 PM
1445	Magnuson Park	11/6/2014 9:27 PM
1446	VA Hospital on Beacon hill	11/6/2014 9:22 PM
1447	Not that comes to mind immediately.	11/6/2014 9:20 PM
1448	More busses running along First Hill and Cherry Hill. CUTTING THE 3 AND 4 MAKES NO SENSE. During shift change it's a mess. Not to mention the people who live in the Xherry Hill neighborhood are on their way to work when us night shit folks ate going home. All of us, employees and residents of the neighborhood, sit at the bus stop and talk about how cutting or even reducing the 3s and 4s is CRAZY! Please don't cut those lines until the the light rail is built. PLEASE!!!	11/6/2014 9:16 PM
1449	UW, downtown, Fremont,magnuson park	11/6/2014 9:07 PM
1450	probably	11/6/2014 8:54 PM
1451	East to west bussing!! Other than the 44!	11/6/2014 8:54 PM
1452	It's unclear that even the Link extensions north along the I-5 corridor will ever be of any benefit to those of us in the NorthWest. With its current meandering unpredictability and poorly placed stops, the #40 would be inefficient, if not useless, as a rail connector at Northgate. It seems like Metro should focus on improving routes which the foreseeable fixed rail will not pretend to serve, including centers of employment neither in central Seattle nor around the University.	11/6/2014 8:51 PM
1453	Always go with Senior locations, low-income locations (also offer a discount after passing a test) those are my locations of preference.	11/6/2014 8:39 PM
1454	12th Avenue between Jackson St. and Madison. (Seattle U).	11/6/2014 8:22 PM
1455	Public / city parks and resources should be a high priority, in addition to business and residential centers. But, I think Metro does a good job of picking destinations.	11/6/2014 8:19 PM
1456	Swedish Cherry Hill is a pain in the butt to get to now. Improving transit access there would be good.	11/6/2014 8:16 PM
1457	None	11/6/2014 8:15 PM
1458	Magnuson Park, Gas Works Park, Arboretum	11/6/2014 8:08 PM

1459	Volunteer Park	11/6/2014 8:08 PM
1460	Magnusson Park	11/6/2014 8:06 PM
1461	No	11/6/2014 8:06 PM
1462	South Lake Union	11/6/2014 8:05 PM
1463	Zoo, Gas Works Parks,	11/6/2014 8:02 PM
1464	Libraries, community centers and major parks are a must.	11/6/2014 8:00 PM
1465	**Routes to high employment areas such as hospitals : Swedish Neuroscience Institute, Harborview, Swedish Medical Center **downtown Fremont & its increasing population (the 28 / 26 express buses COMPLETELY bypass Downtown Fremont making them useless to many of us !!!) **neighborhoods with exploding townhouse building = many more people needing to get to work ie Fremont, Ballard, Wallingford **Green Lake **Woodland Park Zoo ** Seattle waterfront , the aquarium, the Great Wheel etc	11/6/2014 7:56 PM
1466	For me, no	11/6/2014 7:42 PM
1467	St. Joseph, St. James, as above. Food banks, social security office.	11/6/2014 7:39 PM
1468	UW Campus; Medical Centers	11/6/2014 7:39 PM
1469	Light rail stations.	11/6/2014 7:37 PM
1470	Madrona k-8 Mount baker park	11/6/2014 7:31 PM
1471	Volunteer Park, Madison Park,	11/6/2014 7:29 PM
1472	Anywhere seniors and children gather.	11/6/2014 7:26 PM
1473	University to ballard	11/6/2014 7:20 PM
1474	Better service to and from the Seattle Center would be helpful. Better access in the east-west corridor, please. Clearly, it would be helpful if people could reach any destination within the city limits in under an hour (even with connections) and with adequate shelters at stops so that when one does have to make connections, weather has less of an impact. And to achieve this, buses actually need to be on time so connection can be made.	11/6/2014 7:14 PM
1475	Boeing Field Terminal, the VA, Marymoor Park	11/6/2014 7:12 PM
1476	Seattle Center.	11/6/2014 7:11 PM
1477	Shilshole, golden gardens Hospitals	11/6/2014 7:11 PM
1478	Magnusson Park	11/6/2014 7:05 PM
1479	Safeco and CenturyLink Fields	11/6/2014 6:57 PM
1480	Not that I use regularly. I have heard that the 31 is up for removal and I'd miss it if it went away.	11/6/2014 6:50 PM
1481	Woodland Park zoo/Green Lake.	11/6/2014 6:40 PM
1482	University Congregational UCC Solid Ground Seattle Public Libraries	11/6/2014 6:36 PM
1483	Seward park. Green Lake park.	11/6/2014 6:36 PM
1484	Hospitals Libraries Universities / Colleges / High Schools	11/6/2014 6:35 PM
1485	All my transit destination needs are being met currently. Of vital importance to me is transit between my apartment and Montlake Freeway Station and route 255 between Seattle and Kirkland, and as long as the 255 keeps it's current route and goes at least to Kingsgate P&R or to Totem Lake at 1/2 hour frequency my needs are met with respect to transit between my apartment and Kirkland. Though on my return trips from Kirkland sometimes I have wished for better time coordination in transferring from 255 to my last hop back into the U-District.	11/6/2014 6:31 PM
1486	Pike Place Market Stadiums Theatres	11/6/2014 6:29 PM
1487	-	11/6/2014 6:27 PM
1488	Magnuson Park, Seward Park, Mountlake Community Center, Wing Luke Museum, Highland Ice Arena.	11/6/2014 6:26 PM

1489	I wish I could get from magnuson to green lake easily.	11/6/2014 6:22 PM
1490	Grocery stores, medical and hospital services	11/6/2014 6:12 PM
1491	Senior, because I drive rarely and usually use the bus several times a day.	11/6/2014 6:03 PM
1492	Keep the druggies off the bus and be more lenient with passengers who lost their transfer. Watching an elder be ticketed for \$150 while seeing drug addicts scurry off the bus leaving behind urine and vomit makes me sad.	11/6/2014 6:01 PM
1493	Not that I am awRe of.	11/6/2014 5:58 PM
1494	Grocery stores	11/6/2014 5:56 PM
1495	Yes. I currently have no way to get to the synagogue at NE 65th and 43rd NE, nor to the library or other synagogue at 35th NE and 68th. I have to take a bus north to Lake City, and then transfer southbound via 35th (and then walk), which is just too much time waiting out in the elements for a transfer (including at night), etc. It used to take me close to an hour or more when i used to have to do that via the buses. It would be great to have a way to get to 19th & Galer/Crescent or directly to the Seattle Hebrew Academy. Other possible destinations would be the Shoreline/LFP Community Center and the Wallingford Senior Center. Maybe even the Meadowbrook Community Center, and the Ravenna Com. Ctr. It's just too hard going crosstown via bus, even within the same neighborhood. For example, a bus going east-west up and down NE 95th from Sand Point Way to Lake City Way is badly needed.	11/6/2014 5:51 PM
1496	Are there stations between Capitol Hill and the U District? It is a rather long walk, cutting service of the 49 or 43 would be really difficult for the Montlake and Roanoke neighborhoods.	11/6/2014 5:51 PM
1497	All Downtown cultural venues Seattle Center cultural venues Volunteer Park Madison Park	11/6/2014 5:49 PM
1498	Volunteer Park Ballard locks Evening service to cultural orgs - UW campus, downtown orgs (SAM, Symphony, 5th Ave, ACT, Seattle Center facilities)	11/6/2014 5:46 PM
1499	Nope	11/6/2014 5:46 PM
1500	It would be good to be able to easily get to the airport from Capital Hill	11/6/2014 5:41 PM
1501	None of these affect me so it is not my place to say.	11/6/2014 5:40 PM
1502	Services to the hospitals as well as parks are important	11/6/2014 5:39 PM
1503	n/a	11/6/2014 5:38 PM
1504	concert and lecture venues (Benaroya Hall, Town Hall, McCaw Opera House, UW Meany Hall and Kane Hall, and the churches that host music programs - St James, St Mark's, Trinity Episcopal, Queen Anne Christian Church, University Christian Church), the public libraries, the 'live' theaters (Seattle Rep, Cornish Playhouse, 5th Avenue, Paramount) and the art museums downtown and at Volunteer park are all important cultural destinations. High-use parks for me are Greenlake, Cowen, Ravenna, Golden Gardens. Social service and medical locations (clinics, hospitals, dialysis centers) are also critical for us non-drivers.	11/6/2014 5:37 PM
1505	There are several low-income housing properties throughout Capitol Hill, people who really solely on public transit. I am one of them.	11/6/2014 5:37 PM
1506	SAAM, any of the hospitals on First and Capitol hills,	11/6/2014 5:36 PM
1507	SAM downtown, SAM Asian SAM sculpture faster access to Seattle Center	11/6/2014 5:36 PM
1508	See Above.	11/6/2014 5:35 PM
1509	Greenlake	11/6/2014 5:28 PM
1510	Asian Counseling & Referral Service, Seattle Buddhist Temple, Washington Arboretum, Woodland Park Zoo, Discovery Park, Jefferson Park Community Center	11/6/2014 5:26 PM
1511	Seattle Center, Rainier Beach Urban Farm,	11/6/2014 5:25 PM
1512	Harborview Area (especially during high winds and snow)	11/6/2014 5:24 PM

1513	Service to the Seattle Center could be improved. The Monorail is great for going to & from downtown, but what about some direct trips to the Center from other parts of the city? Also east/west travel in various areas along the north/south transit stream could be improved. Often to get from east to west in the same area means having to travel north or south first. An example is that there is no bus service that takes you from Lake City/Bothell Way at 145th to Aurora at 145th. That's the kind of east west travel option that is lacking up & down the north/south corridor.	11/6/2014 5:22 PM
1514	Golden gardens alki beach	11/6/2014 5:22 PM
1515	There is already a great deal of congestion on campus around the stadium and on Montlake. Parking is very limited and the traffic backs up quite a bit since there are not alternative routes. There needs to be a lot of thought about how to get people to and from the stadium station without creating more traffic. Especially as it will be used as a destination to go and get to the rest of the city.	11/6/2014 5:17 PM
1516	Arts locations Business districts	11/6/2014 5:10 PM
1517	Parks: Cal Anderson, Miller, Volunteer Senior: Aegis at 22nd/Madison Grocery: Safeways at 22nd/Madison and 15th/John; QFCs at Broadway/Pike, Broadway/Harrison, 15th/Republican; Trader Joe's at Madison/17th; Central Co-op at Madison/16th	11/6/2014 5:09 PM
1518	Northgate, Ballard	11/6/2014 5:09 PM
1519	Just connecting the #75 at UW station.	11/6/2014 5:07 PM
1520	Consider geography and hills. Some areas seem close, but are almost impossible to walk	11/6/2014 5:03 PM
1521	Hospitals on 1st Hill	11/6/2014 5:01 PM
1522	Magnuson Park Seattle Center When looking at these kinds of destinations, consider both the public operating hours of those places as well as hours a worker or volunteer might need to come and go, including early/late/weekends, including event venues, food banks, soup kitchens, churches/synagogues.	11/6/2014 5:00 PM
1523	Maybe should include senior citizen destination as you analyze service needs, as a high percentage of population is getting older	11/6/2014 4:58 PM
1524	Rainier Beach and Seward Park.	11/6/2014 4:56 PM
1525	Christ Episcopal Church serves community members with substantial physical handicaps. The church is a significant distance from the light rail station, so it is likely they will not be able to use that service.	11/6/2014 4:55 PM
1526	Not sure	11/6/2014 4:55 PM
1527	You should absolutely include these, but I do not use these services so cannot advise.	11/6/2014 4:54 PM
1528	N/A	11/6/2014 4:52 PM
1529	None that I can think of.	11/6/2014 4:51 PM
1530	Golden Gardens, Magnuson Park, Discovery Park, Lincoln Park	11/6/2014 4:50 PM
1531	The Country Doctor Community Health Centers. http://www.countrydoctor.org/about-us They provide service to low income people. The 27 used to stop right in front of Carolyn Downs. Currently the 12 stops right in front of the Country Doctor on 19th. Service on the 12 is slated to be cut so that it no longer serves 19th. If the 12 doesn't go down 19th, My health care needs will be compromised.	11/6/2014 4:49 PM
1532	Seattle Center, Benarroya Hall, Convention Center	11/6/2014 4:48 PM
1533	Health care facilities, as noted above: As the nation ages, practical access to medical facilities for low-income individuals becomes more & more essential.	11/6/2014 4:47 PM
1534	Low income / human services	11/6/2014 4:47 PM
1535	Volunteer Park Kubota Park Seattle Center	11/6/2014 4:44 PM
1536	Community Centers, major Parks	11/6/2014 4:41 PM
1537	Next year Seattle Community College health care programs will move into PACMED on North Beacon Hill. Existing service might not be enough as the 36 during rush hour is often packed.	11/6/2014 4:38 PM
1538	no	11/6/2014 4:38 PM
1539	Magnuson Park, Golden Gardens, Green Lake, U Village	11/6/2014 4:37 PM

1540	12th Avenue would be a good location for a north/south bus, as it is designated as a "main street" of an urban village in Seattle's comprehensive plan and it currently has no north/south service. North of S. Jackson Street 12th Avenue could be a more efficient route than Boren/Broadway. 12th Avenue has the King County Youth Services site which could be served by better bus service, as well as Seattle University	11/6/2014 4:37 PM
1541	Yes. Include health facilities as well in above listing.	11/6/2014 4:36 PM
1542	My primary focus is ease of commute, followed closely by ease of travel to grocery stores, restaurants, and other common businesses. Parks and other cultural icons are roughly third on the list, as they are not part of daily routine.	11/6/2014 4:34 PM
1543	Don't do anything to further limit service on the 73 bus that passes the Senior apartment on 15th NE and N. 115.	11/6/2014 4:33 PM
1544	I think the new bike rental stations need to be included in transit planning - lots of people (myself included) bike to bus stops or switch from a bus to a bike because a bus doesn't run at that time or exactly where I need to go or arrive when I need to arrive. I also think transit should take into consideration Car2Go and Zipcar locations because again, often I need to use a hybrid approach to getting to meetings.	11/6/2014 4:31 PM
1545	None for me.	11/6/2014 4:26 PM
1546	Yes	11/6/2014 4:23 PM
1547	It would be nice if you could transfer from the bus to lite rail w/o the penalty of another added fare, or the other way around, bus to lite rail.	11/6/2014 4:22 PM
1548	Better access to the east side of campus would be good	11/6/2014 4:21 PM
1549	none that I am aware of	11/6/2014 4:21 PM
1550	Juvenile Justice Center Alliance of People with Disabilities King Street Station Metro Transit Office on 2nd & Jackson DSHS North Seattle Community College Faith Lutheran Church on 82nd St & 18th NE Discovery Park Magnuson Park Greenlake Park Ravenna-Eckstein Community Center	11/6/2014 4:19 PM
1551	The buses that go through the U District get very crowded with students who just ride the Ave and then get off. It sometimes means there is not room for riders who need to get to work and travel farther. This also happens with Roosevelt HS students at some specific times in the mornings and afternoons. I would guess that would also be an issue with other schools. It seems like it would be more efficient to have vans for students that just travel up and back along the Ave during peak hours to leave the buses for commuters trying to get to work.	11/6/2014 4:19 PM
1552	I'm sure there are but I can't think of any that directly relate to me.	11/6/2014 4:17 PM
1553	Cal Anderson Park, 1635 11th Ave	11/6/2014 4:17 PM
1554	Seattle Center	11/6/2014 4:16 PM
1555	The University of Washington: as the largest employer in the state with 40,000 students, we need an abundance of connections there--from south end neighborhoods too, where many of us work and commute.	11/6/2014 4:14 PM
1556	Magnolia Village!!! Discovery Park Magnusson Park The Arboretum	11/6/2014 4:13 PM
1557	No	11/6/2014 4:12 PM
1558	n/a	11/6/2014 4:12 PM
1559	Magnuson Park	11/6/2014 4:11 PM
1560	Look at access to parks and playfields. Generally, in Seattle, transit access to playfields is poor	11/6/2014 4:10 PM
1561	Seattle Art Museum Seattle Center	11/6/2014 4:10 PM
1562	Definitely Northgate and the U-Village, and certainly it'd be nice to have buses pick up near the transit center that go downtown, and a non-transfer route to West Seattle at some point. In Capitol Hill, Century Ballroom, Richard Hugo House, and Elliot Bay Books should be considered.	11/6/2014 4:09 PM

1563	Taking away the 16 from the NE Northgate Way/Meridian Avenue section will deprive a LOT of elderly and infirm wheelchair users and mental health patients from getting to the hospital buildings and mental health services along Meridian. They catch the 16 on NE Northgate Way in front of the Petsmart/Target/Best Buy stores. Over the past few years services from the north side of NE Northgate Way on 5th have been reduced, with the curtailment of the 66 & 67 at the Northgate Transit Center when the old Park & Ride was converted to Hubbard Homestead Park. Taking away the 16 from that part of Northgate will only serve to increase local residents' choices. There are several large assisted elderly living buildings on 3rd NE and 5th NE and removing yet more transit choices from them is not a good idea. There are also several low income apartment complexes in this area. Stopping all these buses on the south side of the Northgate mall in the Transit Center detracts from viable transit options for those who live further north. These will be even more essential once the Light Rail eventually comes to Northgate, to ferry people to the station.	11/6/2014 4:08 PM
1564	Gas Works Park Union Bay Natural Area Ballard retail area Fremont retail area	11/6/2014 4:06 PM
1565	I am not certain.	11/6/2014 4:06 PM
1566	Concert Halls downtown and at Seattle Center	11/6/2014 4:05 PM
1567	No.	11/6/2014 4:03 PM
1568	Yes! Department of Services for the Blind (Tacoma, Olympia, and Seattle offices), Seattle Lighthouse for the Blind, TACID (Tacoma), VA Hospitals (Tacoma, Seattle), Union Gospel Mission (Seattle and Tacoma), YMCAs and Senior Centers in Seattle, Tacoma, and throughout the Puget Sound area.	11/6/2014 4:02 PM
1569	Libraries, schools, neighborhood centers, Post Offices.	11/6/2014 4:01 PM
1570	Parks, beaches, recreational areas Schools Low income offices (ie low income housing offices, public health/mental health facilities) Libraries	11/6/2014 4:01 PM
1571	Not other than included in #3	11/6/2014 3:59 PM
1572	Sure, perhaps for other, but not for me. All I care about is DUVALL <-> REDMOND <-> SEATTLE.	11/6/2014 3:59 PM
1573	Absolutely, the public schools, libraries, community centers, pools, and hospitals all need to be taken into consideration.	11/6/2014 3:59 PM
1574	Magnuson Park and other well used parks should have direct line from central source, Seattle Center, Downtown. theaters and musem	11/6/2014 3:59 PM
1575	University of Washington, downtown Westlake station, South Lake Union, Veterans Administration Hospital	11/6/2014 3:57 PM
1576	Just a simpler, less transfer-requiring system would be a dream come true! Things are too chopped up in terms of transit options to get to different areas.	11/6/2014 3:55 PM
1577	University Village / grocery stores / drug stores along Sand Point Way NE and NE 45th Street	11/6/2014 3:55 PM
1578	N/A	11/6/2014 3:53 PM
1579	North Bellevue Ave and Summit Ave on Capitol hill	11/6/2014 3:53 PM
1580	no	11/6/2014 3:52 PM
1581	ALL of them	11/6/2014 3:51 PM
1582	Seattle Center First Hill/Madison	11/6/2014 3:50 PM
1583	Seattle Center, Orchestra Hall, GasWorks Park, Discovery Park, Greenlake	11/6/2014 3:50 PM
1584	Please add more parks accessibility-museums are very easy to get to via transit currently, but parks remain very difficult/have very complex routes to take in order to reach.	11/6/2014 3:50 PM
1585	N/A	11/6/2014 3:50 PM
1586	No	11/6/2014 3:50 PM
1587	no	11/6/2014 3:50 PM
1588	How about the significant lack of parking availability on capitol hill? More buses that run later from all areas of Seattle should make it easy to get to/from Capitol Hill because there's no where to park.	11/6/2014 3:50 PM

1589	There should be more bus service at 65th and Sand Point Way NE, which serves all of Radford Court---UW's largest off-campus housing complex-- as well as over 500 new units constructed at Magnuson Park by Common Ground as transitional housing.	11/6/2014 3:49 PM
1590	Seattle Children's Hospital	11/6/2014 3:49 PM
1591	All City Parks	11/6/2014 3:49 PM
1592	none.	11/6/2014 3:48 PM
1593	many of the larger senior housing projects depend upon employees who come at all hours to work all kinds of shifts so need dependable public transit	11/6/2014 3:48 PM
1594	University, U Village, Center for Urban Horticulture	11/6/2014 3:48 PM
1595	WA Refugee services	11/6/2014 3:48 PM
1596	No	11/6/2014 3:48 PM
1597	No	11/6/2014 3:47 PM
1598	No.	11/6/2014 3:47 PM
1599	N/A	11/6/2014 3:43 PM
1600	South Lake Union	11/6/2014 3:43 PM
1601	Not sure	11/6/2014 3:43 PM
1602	nope	11/6/2014 3:43 PM
1603	Seattle Center (from NE Seattle), Magnuson Park	11/6/2014 3:42 PM
1604	No	11/6/2014 3:41 PM
1605	I wish there was a bus along 65th from 35th Ave across town to Greenlake park.	11/6/2014 3:41 PM
1606	The hospitals obviously. Working on First Hill, it is difficult for patients to get there during the day via bus, and most insurance plans do not cover University of Washington services.	11/6/2014 3:40 PM
1607	do NOT cut anything that serves first Hill or South seattle to First Hill!!!! So many patients and healthcare workers need good transit to this area as parking is unavailable/ expensive! Save the 12!! Save the 60!!!	11/6/2014 3:40 PM
1608	No thanks	11/6/2014 3:40 PM
1609	n/a	11/6/2014 3:39 PM
1610	Some parks feel a bit underserved: Golden Gardens, Magnuson Park, Discovery Park, the Arboretum, etc. Little transit service. Especially would be nice in the summer to simply be able to hop on a bus and get dropped off close by in a quick fashion without having to plan hours in advance. Magnuson Park is probably best served out of these, but the 31/32 that turn into the 75 are insanely unreliable and almost always late. Would also be nice to have more direct bus lines to Capitol Hill from North and Northwest Seattle.	11/6/2014 3:39 PM
1611	Access to parks via public transportation would be important for me.	11/6/2014 3:39 PM
1612	It would be great to have more buses that could take those without cars to destination areas such as hiking trails, parks etc.	11/6/2014 3:38 PM
1613	Access to the hospitals on First Hill	11/6/2014 3:38 PM
1614	Pike.Pine corridor on Capitol Hill (no, downtown is not close enough). Green Lake.	11/6/2014 3:38 PM
1615	No	11/6/2014 3:38 PM
1616	Churches!	11/6/2014 3:38 PM
1617	My only high priority destination is work (Microsoft Campus).	11/6/2014 3:37 PM
1618	Buses that stop at or near large parks.	11/6/2014 3:35 PM
1619	All Libraries Medical Centers	11/6/2014 3:35 PM

1620	the number 8 bus is always over-crowded and late. There should be consistent access from capitol hill to south lake union (without having to go through Westlake)	11/6/2014 3:35 PM
1621	South Seattle in general does not have enough frequent service	11/6/2014 3:35 PM
1622	Yes, Capitol Hill live and movie theaters, and other performance venues, farmers' markets, thrift stores and bookstores	11/6/2014 3:35 PM
1623	N/A	11/6/2014 3:35 PM
1624	not for me	11/6/2014 3:34 PM
1625	Grocery stores! Food is heavy, so it's important to be able to carry it home on the bus	11/6/2014 3:34 PM
1626	I appreciated the service to the Seattle Center from UW/NE Seattle. That has been cut back recently.	11/6/2014 3:34 PM
1627	Better/more service to Magnuson Park would be terrific.	11/6/2014 3:34 PM
1628	Miller community center	11/6/2014 3:33 PM
1629	No	11/6/2014 3:33 PM
1630	Temple Beth Am in Wedgwood Congregation Beth Shalom in Wedgwood	11/6/2014 3:33 PM
1631	Please think about seniors and low income housing.	11/6/2014 3:32 PM
1632	Probably, but I can't think of them.	11/6/2014 3:31 PM
1633	N/A	11/6/2014 3:24 PM
1634	Keep these types of destinations in mind but do not create an issue for service by creating route deviations.	11/6/2014 3:03 PM
1635	Yes	11/6/2014 10:42 AM

Q5 How do the transit options you use work for you? Do they get you where you want to go?

Answered: 3,372 Skipped: 715

#	Responses	Date
1	Yes. I wish the 316 ran later in the evening.	12/5/2014 4:08 PM
2	Work well for the most part. Wish there were a few more routes/fewer transfers req., also slightly more frequent routes to help limit crowds.	12/4/2014 10:00 PM
3	No, the 14 was changed to the 47, and now cancelled. I no longer use transit to get to work. I use my bicycle. I use the bus to get back up the hill. There is no transit route that is reliable between Capitol Hill and the Downtown Library.	12/4/2014 7:06 PM
4	Just getting to work and back it works ok, but getting to places after work either downtown or elsewhere in Seattle can be challenging.	12/4/2014 3:38 PM
5	most of the time, yes. I'm super excited for the new light rail expansion	12/4/2014 3:25 PM
6	With the reduction in the 30, they don't get me where I want to go outside of peak hours	12/4/2014 2:15 PM
7	Sometimes the drivers leave earlier than the scheduled departure time. This erodes confidence. Twice in the past week the 555 left from Northgate early and this is only a half hour bus. In light of the investigation that revealed bus drivers leave early in order to have time for their breaks, it makes one distrust the schedule and not think highly enough of our public transit to take it. Allow the correct amount of time for breaks while stressing the need to stick to the schedule.	12/4/2014 12:54 PM
8	I use light rail to come to work. Works great and is pretty consistent. The only problem I see is that sometimes they are much too crowded. The buses are not consistent. When I was using the buses it was really hard to get to work/study at the time I needed to. More consistency with buses might increase usage. Some bus drivers don't even stop at every bus stop every time and leave people (even kids) stranded. I have given up on the buses and use it only in case of emergency.	12/4/2014 12:47 PM
9	for the most part yes	12/4/2014 12:13 PM
10	Yes. I wish the 31 ran longer (until 8pm) so that it would cover staff getting off a 12 hour shift at Seattle Children's Hospital.	12/4/2014 11:44 AM
11	The bus is always full and running late	12/4/2014 11:41 AM
12	Yes, evening traffic is significantly worse due to the entrance backup onto Aurora.	12/4/2014 10:51 AM
13	for the most part, yes	12/4/2014 10:44 AM
14	Currently, the 74 and 30 metro buses work well for my personal commute. Again, it would be great to have additional public transportation to Seattle Children's Hospital.	12/4/2014 9:15 AM
15	yes	12/4/2014 9:13 AM
16	I am able to get where I want to go, but I dislike having to transfer. It would be great to be able to get on one transit service and arrive at my destination.	12/4/2014 8:25 AM
17	They work fine for the most part.	12/4/2014 8:08 AM
18	Great. except for minor delays.	12/4/2014 7:43 AM
19	For the most part. On weekends it's much harder, but I can usually get myself to my destination. It just tends to take 2-3times longer than a weekday.	12/4/2014 7:18 AM
20	for the most part. it would be nice, however if transfers were timed more conveniently	12/3/2014 9:21 PM
21	Most of the time. Some areas require too much time or too many transfers so I have to drive. Having a child and no direct buses in some areas make it impossible to use public transportation.	12/3/2014 4:57 PM

22	The King County water taxi is great for the cross sound commute and the light rail is great for downtown. But the afternoon bus service (71-73) from UW including the UW Tower to downtown is crowded and frequently leaves people at the curb especially at Campus Parkway. These routes are also frequently late. I'm thrilled the light rail will open from downtown to the stadium but most non patient care depts of the medical center are now located off campus so it will require reliable, frequent bus connections to make this a good option for commuting from downtown to UW/UWMC.	12/3/2014 2:52 PM
23	#41 is fast and great for my commute. The only thing wrong with it is soooo full. 3-4 times this year, there was no room to get on till the 4th bus that came buy. Most days going home there are no seats when I get on. Luckily it is usually pretty quick ride.	12/3/2014 2:05 PM
24	Work well between home (Wedgwood) and UW or Downtown, not very well for any other neighborhood (Ballard, etc.)	12/3/2014 1:46 PM
25	There are limited options for me to get to work in an efficient way. I would love increased evening bus routes. I generally only use the bus to get to Husky games and occasionally to work.	12/3/2014 1:45 PM
26	I feel that I can get North/South more readily than East/West with current options. I don't find buses convenient for getting between neighborhoods north of Seattle, especially on weekend nights (e.g., Fremont, Green Lake, Maple Leaf, Ballard)	12/3/2014 11:44 AM
27	yes but I have nearly missed the bus home several times as this is the last route	12/3/2014 10:49 AM
28	My bus is constantly filled to the brim with people. It almost becomes a safety concern when people can't move. I ride the "E Line." Sometimes the drivers don't stop at stops when there is enough room for passengers. Yes, most of my bus routes get me where I want to go.	12/3/2014 10:37 AM
29	The 41 is awesome! It allowed me to live in Maple Leaf (affordable) without a car and get to work downtown. The light rail is great. I just wish it was easier to get from the light rail stations to places a little further east like Seward Park, Hillman City and Columbia City.	12/3/2014 10:32 AM
30	They get me north to south (and vice versa) okay, but getting east to west (and vice versa) is often difficult. Getting to the airport from Wedgwood takes a significant amount of time; I would like to be able to get from Wedgwood to the airport quicker.	12/3/2014 10:24 AM
31	Fremont commute is good by bus, though not knowing in advance if a 31/32 will become a 65 or 75 is frustrating. UW commute is good too. Commute to 110th and Greenwood is not feasible by bus so I drive. Ditto others.	12/3/2014 9:52 AM
32	They work very well; however, due to budget cuts and service reductions, they now take much longer than they did in the past, which often prohibits me from using them as often as I once did.	12/3/2014 9:12 AM
33	The 75 is often not on schedule. This may be due to the the stretch between U district and Magnolia where it turns into the 31 or 32. Also, when waiting for a bus downtown from the U district I find that the busses seem to come all at once. It would be nice if the busses coming through the U district to downtown were more spread out. Also, it would be better if there were more busses more often from Northgate transit center to U district. The 75 should have a stop at the link when it opens.	12/3/2014 8:51 AM
34	I would take the bus if there was a direct route from Ballard. I don't want to transfer.	12/3/2014 8:47 AM
35	Okay, would like more frequent service from UW to Kirkland	12/3/2014 8:31 AM
36	Very difficult to get to Seattle Childrens from the UW/520 area	12/3/2014 8:31 AM
37	Yes, and I hope Metro keeps the 25 and 66 routes.	12/3/2014 8:06 AM
38	For the most part, sometime I have to wait a little too long for the bus to come however. I also have to take multiple bus routes to get where I want.	12/3/2014 3:55 AM
39	yes but the buses don't come frequently enough	12/2/2014 10:55 PM
40	Since the 76 went to the tunnel, I have given up taking the bus when I have parking available at work. Unfortunately, I only have free parking about every other month so I still take the bus. There are often delays with the 76 since it went down the tunnel. I would like to take the bus to save gas and be earth friendly but with a small child, can't afford the time and have the flexibility for the bus.	12/2/2014 8:52 PM
41	Rather yes. It gets old when I have to transfer many times, or when my trip takes an inordinately long amount of time.	12/2/2014 8:33 PM
42	yes. The most significant place is work. However I have to leave extra early bc the buses do not run on time and following their schedule...I would be late 95% of the time	12/2/2014 7:27 PM

43	Bike spots often full for transit across Lake Washington (MI to Eastgate/Issaquah; Montlake Fwy Station to S Kirkland P&R).	12/2/2014 6:50 PM
44	Yes, but sometimes the buses are too unreliable with traffic	12/2/2014 6:18 PM
45	Pretty much. But we need more busses and light rail to accommodate increased riders and for busses to stay on time. We need to get more people out of their cars. Metro should allow drivers time for bathroom breaks.	12/2/2014 5:17 PM
46	They work mostly to get me there. However, returning home is another issue. I'm uneasy walking home at night, and/or waiting for a bus at night. I love having the Link light rail to go to and from the airport! If the rest of the system ran like that, I'd be very happy. I look forward to being able to get further north!	12/2/2014 4:14 PM
47	Usually good, especially getting downtown (on E line). Crosstown is sometimes challenging outside of rush hour (I wish there were more of 355 in morning, later in the evening).	12/2/2014 3:37 PM
48	taking the bus can be inconvenient with inconsistent schedules and only 2 options to get to Seattle Children's Hospital	12/2/2014 3:27 PM
49	Yes, but not in a reliable, consistent manner	12/2/2014 3:26 PM
50	eventually The transfers are ill timed between the 75 and the 41	12/2/2014 2:46 PM
51	great	12/2/2014 2:44 PM
52	Not really. The only time I can really take the bus is to go downtown. It would be nice to have something else from West Seattle to other neighborhoods without it taking 2 hours	12/2/2014 2:16 PM
53	I really liked to take the 30 to work, otherwise I have to transfer from a 70 something and take the 65 or 75.	12/2/2014 2:12 PM
54	The transit options work great. Yes, they get me where I want to go.	12/2/2014 2:10 PM
55	I drive 99% of the time with mulitple children. Parking is cheaper than a bus ride for a family of 5.	12/2/2014 1:52 PM
56	They work well and are pretty reliable. Would like better transportation to UVillage from 23rd Ave E and E John St.	12/2/2014 1:19 PM
57	As stated earlier, there are plenty of busses to get me from the Lynnwood/Alderwood area but rarely are the parking spots available to me when I commute (after 8:00 in the am).	12/2/2014 12:59 PM
58	Yes but shuttle to and from downtown is slow especially in afternoon	12/2/2014 11:39 AM
59	Mostly, yes	12/2/2014 11:39 AM
60	yes	12/2/2014 11:34 AM
61	They are very slow. If you want people to use transit you need to make your options faster and more reliable. For years I have commuted by bus to and from the south end of West Seattle to Children's Hospital - it takes about 90 minutes each direction. Most people are not willing to give up their car for slow transit options. I do not have a car - so I have no other option. I am seriously considering purchasing a car.	12/2/2014 11:33 AM
62	scheduling is difficult when more than one bus is involved, not including different transit systems	12/2/2014 11:19 AM
63	Yes they work fine	12/2/2014 11:11 AM
64	yes, although they are not as quick as I would like.	12/2/2014 11:09 AM
65	Yes, but slowly	12/2/2014 11:07 AM
66	Terrible, one of the cities with the worst traffic due to a TERRIBLE PUBLIC TRANSPORTATION SERVICE. POLITICIANS TALK TO MUCH AND DO NOTHING TO SOLVE AN EMINENT PROBLEM	12/2/2014 11:01 AM
67	The options I've chosen work because they must, but if I had a car it would be much easier to drive. I often am not able to find adequate busses on the weekends.	12/2/2014 11:00 AM
68	They work fairly well, but bus service seems to be irregular midday, when I often need it.	12/2/2014 10:48 AM
69	I am new to bus riding but so far love it! I get to the places I need to go so far.	12/2/2014 10:46 AM
70	For the most part. If the Metro doesn't go there, then I will take a Car2Go or ZipCar. However, I would use the bus more if there were more option.	12/2/2014 10:40 AM
71	See #3. I would very much like to use Sound Transit Edmonds to Seattle more often, but there are no trains making the return trip in the afternoon that leave late enough....perhaps a 6:00pm late run.	12/2/2014 10:26 AM

72	All I can say is, it's fairly long and painful to take metro bus from Madison Valley or Madison Park area to go into town or to UW. If I were to catch 2, it doesn't go to Broadway and E John (where the new LightRail station is for Cap Hill) so I'll still have to find a way to get somewhere.	12/2/2014 10:19 AM
73	They are ok, but could be more direct	12/2/2014 10:08 AM
74	Sometimes. The only bus that goes up to my house on 21st and E James is the 3. The first bus leaves at 930am to go downtown where I work, so I usually drive or carpool instead because it is too late. Also, I have to use a Sound Transit bus to get between 3rd and Pike/Pine to my work on Boren and Olive. I have to transfer to get to work, and to get home.	12/2/2014 10:07 AM
75	The Metro 75 is often overly crowded (lots of people standing) and running late.	12/2/2014 10:02 AM
76	Fairly well. It would be more useful to have the 512 to Everett stop at I5 and NE45th st. earlier and more frequently on weekdays	12/2/2014 9:51 AM
77	The 77 route is wonderful when it shows up. However, it is overcrowded and too frequently buses are no shows. The bus service to/from Seattle Childrens' Hospital is very lacking. Often, it is faster to walk 1 mile to U village to catch a northbound bus.	12/2/2014 9:50 AM
78	To go downtown I drive to Northgate Park & Ride and catch the 41. If there was an easy connection from the 65 to downtown, I would prefer to leave from my home.	12/2/2014 9:34 AM
79	Eventually. It just takes a long time.	12/2/2014 9:32 AM
80	for the most part, not the most convenient getting downtown from my house.	12/2/2014 9:27 AM
81	Transit option works poorly to get from Capitol Hill to Seattle Children's Hospital due to lack of routes and multiple transfers required.	12/2/2014 9:25 AM
82	They work for me pretty well.	12/2/2014 9:17 AM
83	They do get me where I want to go, though some routes take a long time and need to take multiple buses	12/2/2014 9:16 AM
84	they work well	12/2/2014 9:14 AM
85	I can get where I need to go but it normally takes really long to get anywhere.	12/2/2014 9:10 AM
86	No	12/2/2014 8:56 AM
87	Yes - unacceptably slow - buses are never on time. Can be up to 30 minutes late.	12/2/2014 8:52 AM
88	The bus works but the morning buses are packed for a trip downtown or to the airport.	12/2/2014 8:52 AM
89	I am able to get by without a car but I have to sacrifice convenience, time, and often my first choice to do something if I use a car. I am often limited to a certain radius if I choose not to use my car because the Metro options don't connect a lot of destinations in between.	12/2/2014 8:45 AM
90	The 41 works very well for me.	12/2/2014 8:18 AM
91	yes. However, when the Husky's played at Century Link it was very frustrating that additional Link Light Rail trains were not operating to the Rainier Valley.	12/2/2014 8:12 AM
92	Yes	12/2/2014 8:12 AM
93	During certain times of the day (non-peak) the 30 does not run and this creates havoc getting to work by magnuson park.	12/2/2014 8:10 AM
94	I use transit for commuting to work. It works for me but the buses I take (17 & 18 primarily) are usually standing only and don't run frequently.	12/2/2014 8:04 AM
95	They work alright. I generally have to take two buses to get from my apartment by university village to work at 9th and Stewart. I'd like to be able to take the bus to the zoo but it is too long and complicated of a process to not just go in my car.	12/2/2014 8:02 AM
96	Mostly. I have to drive to get to a station, otherwise I have over a mile walk.	12/2/2014 7:56 AM
97	Would appreciate more options in NE Seattle Would appreciate better transit options from Ballard to the rest of the city	12/2/2014 7:54 AM

98	they help me get to my gym	12/2/2014 7:43 AM
99	The transit options I have work very well. At present, they get me where I need to go to catch a shuttle.	12/2/2014 7:32 AM
100	I usually have to walk several blocks to get to where I would like to go. Would be nice if a bus came all that way to Met Park West, 1100 Olive Way	12/2/2014 7:32 AM
101	They do work. However, the Lynnwood Park 'n Ride fills up SO early in the morning. The parking capacity does not match the volume of buses in/out of there.	12/2/2014 7:32 AM
102	At this moment, I am very pleased with the commute... The primary issue regarding would be access to a local Metro bus...I live at 26221 20th Ave. S. in Dwes Moines, and there does not seem to be a bus that runs North and South along 16th from Pac Hwy to Kent-Des Moines Rd., although that route would seem well-used, if in place... Rapid Ride runs up and down Pac Hwy, but the two roads diverge, and leave much of the area around 16th underserved...	12/2/2014 7:31 AM
103	generally I am able to get where I need to go for my range of locations; I tend to walk and only take one bus rather than take several buses since this saves time.	12/2/2014 7:24 AM
104	i have very few options and it adds a lot of time to my day versus driving	12/2/2014 7:23 AM
105	yes, right now works great! Thank you!	12/2/2014 7:21 AM
106	Getting to work at Children's Hospital works well--would like to keep the more frequent bus service. Taking bus to theater events in the evening does not work so well....more convenient to take my car as bus options are not scheduled at the times I need or I have to walk too far at night.	12/2/2014 7:16 AM
107	The bus is only a short walk from my house and comes pretty often. If we use alternative forms of transportation to work (at Seattle Children's) we get a commute bonus which is great.	12/2/2014 7:10 AM
108	Carpooling works for me to get to work when my partners don't have blips in their schedules. I would prefer to take the bus to work, but it's a dark and wet 2.25 miles from the Montlake Freeway Station to Seattle Children's. The connections between buses at Montlake Freeway Station to Seattle Children's are abysmal.	12/2/2014 6:59 AM
109	It is hard to get into/out of Queen Anne easily or with any speed. Bus routes are circuitous. Seattle Opera McCaw Hall is very hard to get to or home from.	12/2/2014 6:52 AM
110	Getting from Eastlake to downtown is serviced well currently. However getting from Westlake Center to Eastlake in the evening is more difficult. The 66 and 25 are rarely ontime and the Street car has this crazy change out of trains right at 6:00 when commuters are still trying to leave the Westlake area.	12/2/2014 6:39 AM
111	yes	12/1/2014 10:55 PM
112	EASY AND SAFE. yes, they do take me wherever I want to go, but just sometime they miss the schedule. However, it's good not very often that they late.	12/1/2014 10:41 PM
113	Yes	12/1/2014 10:11 PM
114	Getting to 70th and Sand Point way from home (23rd and Jackson) takes too long; I have to transfer, which really extends my commute time It generally takes 4x longer to take the bus than drive.	12/1/2014 10:08 PM
115	Within .5 miles. The times are infrequent, and buses are frequently late and packed.	12/1/2014 10:06 PM
116	Some do some don't	12/1/2014 10:06 PM
117	currently, yes	12/1/2014 9:54 PM
118	1) It would be better if more of the express busses stopped on Eastlake. So many nusees go thru the neighborhood, but make no stops. 2) For the trip out from downtown, it would be nice if the 66 and 70 stopped in the same places. In the morning I can take whichever comes first as they both stop at Lynn St. In the afternoon, I have to choose one or the other because they stops are 2 blocks apart. So I always take the 70 because it comes more often, but sometime the 66 goes past while I'm waiting. I could take the 25 too, but that is another stop again. 3) The excuse for none of the other express buses stopping on Eastlake is that it would slow them down, but the 66, which is an express, and the 70, which is not, take the same amount of time to get from Lynn St to Madison/ Marion St. So, evidently a few more stops do not make a big difference, it's really the traffic that determines the schedule. 4) the 70 has limited hours, so if I want to go downtown early in the morning (before 7) or in the evening (after 7) I have to look it up & figure it out to see if I'm going to end up in the bus tunnel or where I need to get off.	12/1/2014 9:52 PM

119	I take the shuttle directly to and from the Seattle Children's during the week, but since they don't run on the weekends then I have to take a bus or drive myself. I started taking public transit because driving down Montlake for a night shift is just a complete nightmare. I live 5.5 miles away from the hospital and to drive myself it takes 45 minutes on a weekday. If I take a bus, it always back tracks me and I end up going through the International District and then through downtown or just all over downtown instead. The bus takes me 60-90 minutes. If I take a shuttle, I have to walk 20 minutes and then it's a 30-40 minute drive from there and it picks up in front of the Tiffany's at Pacific Place Mall downtown. It just isn't very user friendly - any of these routes. And I have yet have a bus not show on time. They're usually 5-10 minutes late... which affects the connection. So, yes, eventually I get to where I want to go because eventually I end up at the hospital. But I would say no... they do not get me to where I want to go because multiple buses to go 5 miles seems superfluous. Biking... I've ridden my bike twice here and it's the scariest thing I've ever done. Non-dedicated bike lanes make it terrifying in traffic. I don't ride a bike anymore, although I would love to because it's so much healthier. Working nights is no incentive to work out after work. Maybe bigger sidewalks? How about a bike trail from cap hill to the u district?	12/1/2014 9:20 PM
120	Works but unreliable. One day it can take 20 minutes then 120 minutes the next day.	12/1/2014 8:28 PM
121	yes.	12/1/2014 8:20 PM
122	No ... too much walking up and down steep hills with orthopedic challenges (knees and ankles) -- 2 to 3 blocks of steep hills on either side of home to work commute makes using the bus challenging	12/1/2014 8:19 PM
123	They work well enough most days, but are much slower and more inconsistent than bicycling mostly due to slow transfers. Increasing bus frequency would solve this problem.	12/1/2014 7:58 PM
124	For the most part. Usually wishing there were more 49 buses.	12/1/2014 7:56 PM
125	Mostly but it would be nice to have a way to get to the hospital from downtown without have to transfer to a second bus as I currently if I take the bus all the way to work transfer twice. Once downtown and again at University and Campus.	12/1/2014 7:53 PM
126	There have been significant cuts to bus routes that I used to take to visit family in Ballard. I live in Eastlake, and to get across town (for example, to Ballard) is difficult. I also would appreciate more express bus options in Eastlake, either to go downtown or to the UW. There should be an express stop at Eastlake and Lynn Street.	12/1/2014 7:23 PM
127	They get me to the general area I want to reach. I do wish I could conveniently get to light rail to go to the airport. Having buses connect to the new light rail stations would be very helpful.	12/1/2014 7:04 PM
128	yes	12/1/2014 6:54 PM
129	I like the location of Eastlake bus service at Hamlin and Eastlake. It is not too far to walk to	12/1/2014 6:40 PM
130	in the morning, I ride bus #41 and it goes fine. In the afternoon, I always have several go past that I can't take since some are full and some don't go all the way to Lake City. If there are so many people who want to ride each one, doesn't it make sense that the fares would cover the cost of more buses?	12/1/2014 6:28 PM
131	Yes however I would love it if there was a direct connection from CApitol Hill to Seattle Children's Hospital.	12/1/2014 6:23 PM
132	I like to use public transportation to avoid parking fees. I find that the frequency of buses is too long in my area, so it means that using the bus may add up to 30-60 minutes to my commute (just waiting for the bus).	12/1/2014 6:07 PM
133	Yes, though the number 8 is overcrowded at peak times and passes passengers at stops on a regular basis.	12/1/2014 5:55 PM
134	not really at present, but with the new section of the light rail from downtown to the University of WA they will become excellent	12/1/2014 5:41 PM
135	They work great	12/1/2014 5:39 PM
136	Terrible if I need to get to airport (which is frequently), Poor to Seattle Children's. Good to University and Downtown from home.	12/1/2014 5:34 PM
137	My transit options work well	12/1/2014 5:34 PM
138	Right now I primarily use transit only to get to work, since there is a bus that runs from 100 yards from my home in Northeast Seattle to 100 yards from my job in Northeast Seattle. I used to work in Bellevue. I never used public transit then because it would have taken me three different buses and more than 5 hours to be able to do that 11 mile commute. So I always drove.	12/1/2014 5:23 PM
139	Great. Love route 75...it's the perfect route for my commute. Only big complaint is that it is unreliable in the evening.	12/1/2014 5:23 PM

140	yes	12/1/2014 5:14 PM
141	yes, mostly	12/1/2014 5:10 PM
142	On a daily basis, pretty well. Occasional trips across north Seattle take too many transfers, so I end up driving or maybe hiring a car.	12/1/2014 5:09 PM
143	More East/West commute options.	12/1/2014 5:08 PM
144	They work fine and get me where I want to go, but are not reliably on time, do not run very frequently, and are slow. Some routes have too many stops.	12/1/2014 5:03 PM
145	Not really. I don't work a 9-5 job, so my options for commuting are really limited. It's frustrating to live so close to work (6.5 mile) but not be able to bus there. I have to travel south east, which means that I have to transfer at least once during the days when I work 9-5. Most days I work 3p-1130p so I can't do anything. I also work weekends.	12/1/2014 4:58 PM
146	I use the bus- it is really hard to use two buses anywhere, often times, there are long wait periods between busses. I used to work in Bellevue and it was virtually impossible to transfer (not the actual drive time) in less than one hour because of poor connections. I had to quit the job because I couldn't make it work.	12/1/2014 4:52 PM
147	Sometimes. Other require transfers and longer waits	12/1/2014 4:40 PM
148	I have to connect to go anywhere from Eastlake except downtown, UW and Northgate, even if it's close by (like Seattle Children's or Capitol Hill)	12/1/2014 4:40 PM
149	They do but it is unfortunate that it takes 2 buses to get between Capitol Hill and Seattle Children's. It is also very difficult to get to Fremont and Ballard from Capitol Hill.	12/1/2014 4:37 PM
150	The transit options work well. The frequency is not necessarily the best there is, but when the buses are consistent and on time it is more acceptable. I can reach my destinations easily (Downtown and Eastlake) but often times I resort to walking the distance as it is faster than waiting buses with 45 minutes delays.	12/1/2014 4:33 PM
151	When I use the 167, it doesn't go past 5pm ish on weekdays. Would like other options that go directly from U district to Renton area.	12/1/2014 4:32 PM
152	Get to & from work easily (2 miles on SandPoint Way NE easy access to downtown Seattle either via 74 or quick transfer to 71, 72 73 from 75 SeaTac a little more challenging with luggage since need 2 transfers	12/1/2014 4:31 PM
153	I run into issues commuting from the U District to Children's Hospital. There are no direct routes, so I end up walking about a mile to the closest direct bus. A bus that runs from the U District down 45th to Children's and Sandpoint would be super helpful.	12/1/2014 4:30 PM
154	They could be better	12/1/2014 4:24 PM
155	from cap hill to downtown: absolutely! i love the bus options in my hood; the 10, 12, and 43 are all very convenient. from cap hill to work at SCH: much more annoying w/ the mandatory transfer in the U district.	12/1/2014 4:22 PM
156	Yes, but the transit from downtown (King Street) where the Sounder train ends to the UW is slow.	12/1/2014 4:22 PM
157	Very slow. Airport by car is usually 30 min. By rail and bus it's two hours. Nice to skip rush hours in a car though. Going crosstown by bus is hopeless. I never try.	12/1/2014 4:20 PM
158	I have limited bus options coming from Snohomish to Seattle @ 45th & Roosevelt. Would love a more direct route by bus from Snohomish. Currently if I take a bus from Snohomish, I would have to transfer to Metro at the Montlake Freeway Station which is not a safe transfer. Currently when I bus I drive to the Mariner Park & Ride in Everett, then take Community Transit 860 to 45th & Roosevelt. OR I drive to the Northgate Bus station & take the 66/67 to 45th & Roosevelt.	12/1/2014 4:19 PM
159	Yes	12/1/2014 4:18 PM
160	Have to change buses at the UW to go from Capitol Hill to Children's.	12/1/2014 4:15 PM
161	No I have to walk .7 miles. Getting from the hospital to capitol hill is very hard.	12/1/2014 4:13 PM
162	Yes	12/1/2014 4:13 PM
163	yes, but I wish they run more often.	12/1/2014 4:09 PM
164	I can get north-south or south-north fairly easily. Getting downtown is usually the easiest route from anywhere.	12/1/2014 4:04 PM
165	I'm thankful for the 65 which takes me to Seattle Children's.	12/1/2014 4:04 PM

166	Yes, but often not at times that are convenient. Will often have to use alternate transportation.	12/1/2014 4:02 PM
167	They work fine, but at night traveling from Denny Triangle to UW can be a bit of a pain because no express service	12/1/2014 4:01 PM
168	Work most of the time, but my route from Madison valley to Seattle children's is pretty inconvenient since I have to transfer. SCH is a straight 4mi shot north from Madison Valley, but there is no direct bus route	12/1/2014 4:00 PM
169	The current express bus from McCullum park and ride is walking distance from my home but is anything but express. 2hr commute lately to children's. I've since started driving because it's faster.	12/1/2014 3:59 PM
170	I want to use transit more as I age. For one-stop trips, the system works fairly well for me (e.g., for a dental appointment near U Village. For multi-stop trips I use my car, planning a "circuit" to save gas and time. Some parts of the city are relatively inaccessible from our neighborhood, esp. east-west travel.	12/1/2014 3:56 PM
171	Using the Metro to get from Downtown Seattle to UW is impossible. They busses are constantly overcrowded and even get to the point where the bus will not stop because they cannot add additional riders to the bus. When I do get on the bus, I do get where I need to go most of the time, the issue is the wait, it should not take 55-65 minutes to wait for a bus that will stop nor should I be required to take a bus south to catch a bus going to UW at an earlier stop, that is just unnecessary.	12/1/2014 3:53 PM
172	Yes, my current commute is quite convenient.	12/1/2014 3:49 PM
173	Yes. It would be nice to have more parking at Park and Rides	12/1/2014 3:49 PM
174	Generally, yes.	12/1/2014 3:47 PM
175	Pretty well. Yes	12/1/2014 3:44 PM
176	Barely. I need to use the bus to get to work from Capitol Hill to Seattle Children's Hospital. However, the bus takes an hour door to door and driving by myself, even in traffic, takes 15-25 minutes.	12/1/2014 3:43 PM
177	They get close enough. No direct route between fremont ballard and capitol hill though. I would like that.	12/1/2014 3:42 PM
178	The transit I use most often works pretty well, although it is often quite over crowded, especially recently. Adding buses to existing routes, and also adding routes, is critical to making the system work well. For getting to and from work now I can take one bus, relatively quickly, which is great. I often commute with my son since his school is near my work, and we usually take the bus to work/school and ride bikes home together. The most critical factors that make the bus usable for us are the existence of routes that are convenient (so we don't have to transfer nor walk or ride too far), and frequency of service. More frequent buses would be very helpful, but as it stands now it is still a good system.	12/1/2014 3:40 PM
179	No. I need to get from Montlake to Seattle Children's, and transit across UW adds too much time.	12/1/2014 3:40 PM
180	66 and 67 works awesome for us. except 67 doesnt work on weekends	12/1/2014 3:40 PM
181	Sometimes, there are a few transfers between 145th and Aurora and either UW or Bothell	12/1/2014 3:38 PM
182	Transit works well getting me to work. Would like to be able to get to SeaTac airport from Bothell.	12/1/2014 3:38 PM
183	Mostly, yes. I would prefer the 183 runs longer through the day (starting earlier, staying later), and on Sundays, but I realize that there are budgetary constraints.	12/1/2014 3:36 PM
184	More or less, i have called to complain before because the times listed on the website do not match up with the times the bus actually arrives. I have had to wait in the cold before several times.	12/1/2014 3:35 PM
185	I live in Wedgwood near the 71, 71X and 76 buses, which are fairly reliable and work for me as long as the places I need to get to are near their routes. This mostly means getting to and from downtown. Most other locations for me require a transfer at UW always takes way too long and significantly increases transit time compared to just driving our car.	12/1/2014 3:33 PM
186	Lightrail is the best to the airport - saves me from having to ask for rides. For late flights though it would be nice to have better bus routes home. I WOULD LIKE TO SEE MORE NO SMOKING INFORCED - IT'S CRAZY THAT PEOPLE SMOKE AT BUS STOPS. EVEN WITH SIGNS UP THEY SMOKE. NEED TO GET TICKETED OR GIVEN AREAS WHERE THEY CAN SMOKE SAYING 25 FEET AWAY FROM ENTRANCES OR BUS STOPS ISN'T CLEAR. PEOPLE NEED TO BE ONLY ALLOWED TO SMOKE IN CERTAIN AREAS NOT EVERYWHERE.	12/1/2014 3:33 PM
187	They do. I have experienced the cutting of several routes that I used previously, however. This primarily impacted my ability to go north of Lake City.	12/1/2014 3:33 PM

188	Not easily	12/1/2014 3:33 PM
189	Not easily	12/1/2014 3:33 PM
190	I love having great public transit options around the city! I bought a home specifically on the bus line to my work for this reason. Excited to have more streetcar lines around town, since they don't have to fight traffic quite the same as the busses.	12/1/2014 3:30 PM
191	They work. Will be better when Link goes to Cap Hill and U Dist. Would like fewer transfers.	12/1/2014 3:30 PM
192	The north-south transit services work pretty well though I don't like how certain bus lines have circuitous routes. For example, the 71 turns off of 40th Ave and NE 75th street and makes a rectangle through View Ridge before joining back up with 40th at NE 65th St. It is frustrating to have to do this route when it might be better served by two bus lines. I would like to see better and more direct east-west service on major streets. For example, I would like to see buses that go east-west on 55th st or 45th st (through U district, Fremont, Ballard) without making turns off of that street.	12/1/2014 3:29 PM
193	YA, BEATS DRIVING. ONLY DOWNFALL IS SOMETIMES MY LAST BUSES ARE OFF IN THEIR P/U TIMES, UNDERSTANDABLY...MAKING ME LATE FOR WORK SOMETIMES	12/1/2014 3:29 PM
194	OK-would rather have better connections between Community Transit and Metro	12/1/2014 3:29 PM
195	For the most part, services work pretty well. I like the idea of having additional transportation to/from light rail stations.	12/1/2014 3:28 PM
196	Yes, mostly although without a bike it takes me three transfers to get to the Children's Autism Center	12/1/2014 3:28 PM
197	Yes, mostly but there is only one direct route to Durland Ave NE (route 75). It would be great if 75 or another bus would be able to get from one of these stations to stops on Sand Point way.	12/1/2014 3:27 PM
198	NO - they don't get me where I want to go!! I am often forced to walk a mile or more to catch buses. When buses arrive, they're frequently late (sometimes 20-45min late!). When I can't take a direct route to my destination, I often take one bus and then walk - this is because I have little faith in the next bus arriving on time or at all and I cannot be late as a result of the inefficiencies of our transit system. I often walk in areas that are concerning and question the safety of my surroundings.	12/1/2014 3:27 PM
199	I have no huge complaints, I often wish there was a faster way to get to work (it takes me 45 minutes to get from 115th and Sand Point to 43rd and Roosevelt).	12/1/2014 3:27 PM
200	Mostly. As mentioned before, why are there no East-West routes, connecting Lake City Way and Sandpoint way at NE 95th Street?	12/1/2014 3:27 PM
201	They are good.	12/1/2014 3:27 PM
202	During commute hours, the 70s series become much more difficult to get home on	12/1/2014 3:27 PM
203	Yes, but I wish they were faster. For example, more express options would be nice and more cross town lines could help avoid painful slogs through downtown at rush hour (especially once light rail is running in North Seattle).	12/1/2014 3:25 PM
204	The buses are over crowded, mostly the 71,72,73! Yes	12/1/2014 3:25 PM
205	Yes, mostly. I find that if I plan my route, I can get to where I want to go without too much trouble or many delays. However, if I did not have access to internet or a smart phone, it would be much more difficult to plan a direct route, especially if I had to transfer.	12/1/2014 3:24 PM
206	They work pretty well as of now and get me to where I need to be (unless they are running late).	12/1/2014 3:24 PM
207	Sometimes.	12/1/2014 3:24 PM
208	They do a good job getting me to work, but nowhere else.	12/1/2014 3:23 PM
209	The transit options that I use work quite well for me. I use the metro and sound transit buses to get to and from home and work on a daily basis.	12/1/2014 3:22 PM
210	too many mode changes	12/1/2014 3:22 PM
211	I ride a work shuttle from downtown seattle to laurelhurst due to poor bus service from Captiol Hill.	12/1/2014 3:21 PM
212	Mostly. When it's snowing I do have to drive myself as the buses run so sporadically. Also, it's very unsafe w/ the street people on Lake City Way now, so I don't like to wait long between buses.	12/1/2014 3:21 PM

213	No. I work at Seattle Children's Hospital, and there is only one bus that goes to that location. Makes commuting in other ways very difficult/time consuming, when I am commuting at times before/after daylight	12/1/2014 3:21 PM
214	Yes	12/1/2014 3:19 PM
215	Very well. The neighborhoods I travel between are very well serviced.	12/1/2014 3:19 PM
216	Yes, they get me where I need to go.	12/1/2014 3:19 PM
217	I wish there were more options to Lake City Way/125th & Sand Point.	12/1/2014 3:19 PM
218	Work OK, but bus times in the morning from North Seattle to University District (and reverse in the evenings) are far between and the buses are crowded.	12/1/2014 3:17 PM
219	yes	12/1/2014 3:16 PM
220	takes 45-60 minutes for trip less then 5 miles...this is way too long.	12/1/2014 3:16 PM
221	Best bus to get to work via is about a mile from my house and comes every twenty minutes or so. If i miss one bus, i'm too far from home to go back and drive but will definitely be late taking the next bus.	12/1/2014 3:15 PM
222	They do for the most part. Getting downtown is easy, other places more complicated.	12/1/2014 3:15 PM
223	I mainly carpool and use the 75 bus to get to work. These work well for me, especially since the Hospital subsidizes more frequent 75 busses. I would love to take the light rail more often, but because it does not yet serve North Seattle, I find that I drive more often.	12/1/2014 3:15 PM
224	Yes, they work well	12/1/2014 3:15 PM
225	Good	12/1/2014 3:15 PM
226	Next year, it will take more than an hour to my daughter to go to Garfiled high School from NE Seattle; one hour and a half to go to Raisbeck aviation school in Tukwila.	12/1/2014 3:14 PM
227	They work well, except during No UW periods when most of my reasonable options disappear. Then they wholly inadequate.	12/1/2014 3:14 PM
228	Most of the time	12/1/2014 3:14 PM
229	I used to be able to take the 311 from avondale and woodinville-duvall road all the way to work in south lake union, since the route was cut, i started having to drive alone more.	12/1/2014 3:14 PM
230	They work for me mostly. Transferring takes the longest. They could reduce the number of stops to speed the bus up. I already walk 8 minutes to my first bus in the morning.	12/1/2014 3:14 PM
231	For now transit options work for me, they do get me where I need to go, until my offive moves elsewhere.	12/1/2014 3:13 PM
232	Connections to downtown are good. Not so good getting to Laurelhurst offices.	12/1/2014 3:13 PM
233	The trips from Northgate or Green Lake to Issaquah does not work very well for me. Also the trips from Northgate or Green Lake to Capitol Hill does not work well so I generally avoid that trip.	12/1/2014 3:12 PM
234	The #75 is very, very slow getting to and from work. Too many stops. #522 is very fast and convinient for getting downtown or to connect with the #75. Bike trail - Burke - Gilman is wonderful when I can bike to and from work. So nice to not have to struggle with traffic. Vanpool is efficient way to get to work most of the time.	12/1/2014 3:12 PM
235	Yes	12/1/2014 3:12 PM
236	For the most part, yes. But going east/west (in all of Seattle, esp. N Seattle) takes WAY longer than it should with very few alternative bus line options.	12/1/2014 3:12 PM
237	At present, yes.	12/1/2014 3:12 PM
238	Yes, generally. Given that I am employed at Seattle Children's Hospital, I particularly appreciate the #25.	12/1/2014 3:11 PM
239	Pretty well. sometimes the time it takes to get home from the airport is discouraging. I could be home much faster if I drive. On weekends, the bus service from downtown is scarce.	12/1/2014 3:11 PM
240	Decently well	12/1/2014 3:11 PM
241	The route is very convenient, and the 75 to the uw stops at childrens at just the right time in the morning to start day shift.	12/1/2014 3:11 PM

242	Mostly yes I am able to get to my destination via bus.	12/1/2014 3:11 PM
243	It takes two buses to get to work in the morning - 542 and the 25 - minimal time 1.25 hours one way. If a bike rider can not get his bike in the bike carrier and someone takes too much time getting on the bus or is unruly and needs to be disembarked - I miss connections in the morning. It takes three buses at night - 25, 540 and then the 542 to get home in the evening due to the lateness of the 542 coming from Green Lake. I love taking the bus when the weather is inclement even though that can take up to 3 hours in each direction due to chains and change to snow routes.	12/1/2014 3:10 PM
244	commute to/from downtown and UW is very good. Almost everywhere else, a challenge.	12/1/2014 3:10 PM
245	Between work and home works well.	12/1/2014 3:10 PM
246	For the most part. I am grateful for services such as Google Maps and One Bus Away as the buses aren't always on time.	12/1/2014 3:10 PM
247	They get me where I want to go, but it takes a really long time. If I drive, I can get to work in 20 minutes, but if I take the bus, I have to give myself an hour. It is extremely inconvenient if I have an early meeting and or if I have something scheduled after work that I need to get to, because I have to give myself an hour (sometimes more) to make sure I can get home and where I need to be on time. There also isn't a bus from Ballard to Laurelhurst, so I have to change buses. And it seems they are regularly not on time.	12/1/2014 3:10 PM
248	the limited hours of bus 586 make commuting difficult for late shifts in Seattle coming from Tacoma.	12/1/2014 3:09 PM
249	sometimes service is very limited.	12/1/2014 3:09 PM
250	I need to get to 70th & Sand Point Way NE from 23rd Ave E and Aloha. It takes me at least 2-3 transfers to get to my destination. It should be a straight shot down 24th and onto Montlake, which turns into Sand Point Way NE. Seems simple enough, but there is no direct bus line.	12/1/2014 3:09 PM
251	I have lived in other cities where public transportation was cost effective. Currently it takes too long. It is a simple calculation. I pay my nanny \$18 an hour. Add 30 minutes extra commute for bus, the cost is \$9 twice a day or \$18 a day.	12/1/2014 3:09 PM
252	Mostly	12/1/2014 3:09 PM
253	from home if I did not have light rail I could not reasonably take a transit path as it takes far too long with way too many transfers	12/1/2014 3:09 PM
254	Beautifully. Please do not cut the 71, 76, 66 or 67.	12/1/2014 3:08 PM
255	Because I am on the 75 route, it is the only option I have to get to the rest of Seattle by public transit. The 75 is pretty good during peak hours, but not so frequent off-peak (every 1/2 hour). So, I can get to most places I want to go to, but I have to be aware of the schedule to minimize waiting for the bus. There are no covered bus stops in my neighborhood, so waiting for the 75 when it is raining is not fun.	12/1/2014 3:08 PM
256	Yes	12/1/2014 3:08 PM
257	yes	12/1/2014 3:08 PM
258	Most options get me where I want to go, but I would really like the 44 to connect to Husky Stadium and to Seattle Children's Hospital. Currently there is no good route from Ballard/Wallingford to Seattle Children's Hospital without a transfer and the 44 could easily continue down to get there. I also would like the 44 to connect to Husky Stadium because that is an even easier continuation that would aid on game days and/or to the UW IMA.	12/1/2014 3:07 PM
259	65 works great	12/1/2014 3:06 PM
260	I take the #8 to work and it is VERY overcrowded and is always late on the way home from work	12/1/2014 3:06 PM
261	Pretty close.	12/1/2014 3:05 PM
262	Yes, I live in an area with multiple options.	12/1/2014 3:05 PM
263	they do but wish 48 express was still in route. I like express buses	12/1/2014 3:05 PM
264	I come from the North End. Park&Ride in Lake City, and bus (#75) to work. Can't wait for the light-rail from Lynnwood (a LOOOONG way off, I know...)	12/1/2014 3:04 PM
265	Not to the airport	12/1/2014 3:04 PM
266	Well	12/1/2014 3:04 PM

267	They work pretty well. I live in Mountlake Terrace, so I have to drive to catch a useful bus.	12/1/2014 3:04 PM
268	Yes	12/1/2014 3:04 PM
269	They get me where I want to go but not very safely.	12/1/2014 3:03 PM
270	Yes, these routes get me directly where I need to go: Routes 8, 12, 43, 48, 65, 71/71X and 75. Routes 8, 12, 43, 48 are within a short walk of where I live.	12/1/2014 3:03 PM
271	Yes, but I have to structure my workday around when the 18x is running and that is very limiting. I also can't take the bus out of my neighborhood (North Beach) on the weekend or outside of the rush hour on weekdays. This is very inconvenient!! Also, the 18 and 48 are routinely extremely crowded, which makes it less convenient and harder to use them.	12/1/2014 3:03 PM
272	I commute on the bus downtown each day or walk during nice weather. I visit friends on Cap Hill often, so use the #10 and 43 often. Every so often I go out to West Seattle.	12/1/2014 3:03 PM
273	They get me there in a very long and convoluted way most of the time. Often I cannot bus to work however as the option is so slow, or there are no options for me other than to and from work.	12/1/2014 3:03 PM
274	Yes, except for cross-town buses - to/from downtown is a lot better	12/1/2014 3:03 PM
275	Great!	12/1/2014 3:03 PM
276	Sounder Train makes my commute reliable	12/1/2014 3:03 PM
277	I primarily use Metro to get around. I'm lucky to live in Capitol Hill where I have access to groceries, etc in walking distance and are accessible by bus. Metro gets me most everywhere I want to go. It's a challenge to bus from work (Seattle Children's Hospital) and a challenge to bus East to West from where I am. I primarily go North to South and vice versa because it's the most convenient. Traveling Ballard, Fremont, and Northeast Seattle are a hassle.	12/1/2014 3:02 PM
278	Get me to work and home. The times for connections can be challenging. And the constant rotation of drivers who do not know the routes cause me to miss connections	12/1/2014 3:02 PM
279	I'm able to take a shuttle to work but often the busses downtown to capitol hill are full at peak times so I walk. I would like to see more transit options from U district/Laurelhurst & Capitol Hill to Greenlake.	12/1/2014 3:01 PM
280	reasonable in that they get me within four blocks	12/1/2014 3:01 PM
281	No, I end up driving alone because I have to take 2 buses to get to work.	12/1/2014 3:01 PM
282	slower than I would like and not often enough, but they get me there when needed.	12/1/2014 3:00 PM
283	I'd appreciate more timeliness.	12/1/2014 3:00 PM
284	yes	12/1/2014 2:59 PM
285	Yes, the 75 takes me straight to and from work.	12/1/2014 2:59 PM
286	They work fairly well, depending on timing.	12/1/2014 2:59 PM
287	Yes	12/1/2014 2:58 PM
288	Yes, they work. Other than when the busses break down, or aren't running on time.	12/1/2014 2:58 PM
289	They get me to where i need to go, but a two-hour commute of what should be no more than 45 mins makes me rethink about just driving my car again	12/1/2014 2:58 PM
290	They work great. I take Metro bus to and from work, to and from the grocery store, to and from the library, to and from running errands, everywhere. They get me everywhere I need to go right now, but the Laurelhurst routes are fewer than I'd like.	12/1/2014 2:57 PM
291	They do. It is a significant walk (20 min) to get to the 44 from Whittier Heights to the UW. It does take significantly longer than it would to drive or even bike. However in the winter, it can be difficult to safely bike when it is icy and dark.	12/1/2014 2:57 PM
292	Difficult to get from capitol hill to queen anne by bus. Buses often full by the time they get to me (8 route)	12/1/2014 2:57 PM
293	Yes, but it takes a while	12/1/2014 2:57 PM

294	My transportation options do work for me, but it is often roundabout to get to work because I have to transfer busses at the University of Washington which is the opposite direction of Seattle Children's hospital where I work.	12/1/2014 2:56 PM
295	Yes	12/1/2014 2:56 PM
296	currently it takes me almost an hour to get to work one direction. If I drive, it only takes me 20 minutes	12/1/2014 2:56 PM
297	Yes, but it takes three times longer than driving	12/1/2014 2:56 PM
298	They work well	12/1/2014 2:56 PM
299	They work well, yes they get me where I need to go.	12/1/2014 2:56 PM
300	Yes	12/1/2014 2:56 PM
301	yes but limited by time frame	12/1/2014 2:55 PM
302	I mainly take the bus to get to work, will take it every once in a while to go downtown seattle	12/1/2014 2:55 PM
303	yes	12/1/2014 2:54 PM
304	Quite well. Most of the time they get me to where I want to go. The University Village area and Sandpoint areas seem cut off from Capitol Hill and Central Area. Maybe they would not need so much parking if they were a little more transit friendly.	12/1/2014 12:28 AM
305	East, west travel via bus is terrible, I.e. Ballard to magnuson or Magnuson to North Seattle Community College. There are no good options. What should be a 1 or 2 - 30 minute bus journey takes 3 buses and 2 hours. I would love to take the bus more, but the options for times and routes are so few, I end up driving my car.	11/30/2014 10:55 PM
306	It's get's me everywhere I need and/or want to go.	11/30/2014 10:23 PM
307	Yes	11/30/2014 9:18 PM
308	yes, lty works well	11/30/2014 2:58 PM
309	Mostly, but you could really cut down on traffic if transport to malls, Ikea, etc. were available. The Northgate mall bus is dangerously crowded, and other malls/Ikea are multi-bus, multi-hour odysseys.	11/30/2014 1:37 PM
310	Not fast enough. Only if it was door to door would it be fast enough. Hate to say it, but I'm always in a hurry and I have a car and there are places to park, so I take the easiest solution.	11/30/2014 10:47 AM
311	The bus is usually not an option for me because I leave work at 10:30 at night. I use the bus when I don't have to be somewhere quickly.	11/30/2014 10:37 AM
312	They work well, yes	11/30/2014 10:28 AM
313	I am limited in where I will take the transit, due to the time transit takes to make it across the city.	11/29/2014 12:15 PM
314	For the most part, yes. Though they are highly unaccountable 75% of the time, late, etc.	11/28/2014 6:48 PM
315	they work for me	11/28/2014 6:00 PM
316	They get me where I want to go but it can require a lot of transfers or a clunky route. It seems challenging to get somewhere direct. It would be really nice to have the 75 or another bus go from the 520 ramp stops to Seattle Children's Hospital so people can easily get from the eastside to the hospital.	11/28/2014 2:45 PM
317	yes	11/28/2014 2:13 PM
318	Not really...	11/28/2014 1:16 PM
319	If I have enough time. The route 44 gets so crowded for weekday evening rush hour - some days I can't get on the bus because it's already full, and instead of arriving every 10-15 minutes, it's closer to every 20-30 because it takes extra time when it's over-full. My standard commute takes 1.25 - 1.5 hours, and it's less than 10 miles.	11/28/2014 12:53 PM
320	I have an easy commute to work from Fremont to Seattle Children's hospital; however it is challenging to get access to the light rail without using multiple modes of transportation. It is challenging to get to Capitol Hill are from fremont/ballard through the bus system. Light rail is great, but slow (when compared with cab/uver/etc). Getting to the airport remains challenging and very time consuming.	11/28/2014 12:04 PM
321	I would love to take the Sounder to the U or W Light Rail Station and then Children's Hospital would probably have shuttles running from there. I wish the Sounder ran more frequently or that we had light rail to the north end (Mukilteo/Lynnwood)	11/28/2014 11:59 AM

322	the 372 doesn't run often enough.	11/28/2014 11:48 AM
323	Very difficult to get from my home to my work-I am hopeful when the light rail goes to the UW area this will get alot better. Now I walk to the bus stop or light rail, then get off and walk to a shuttle and then finally to work. Biking has been pretty helpful but I cant always do it for a variety of reasons.	11/28/2014 10:54 AM
324	No...I live in South Sno County but work at Seattle Children's. It's difficult for me to get a good transit route to work and back. I'd love to stop driving but transit options for me double or triple my commute times.	11/28/2014 10:38 AM
325	Yes they do.	11/28/2014 6:07 AM
326	For the most part they work OK.	11/28/2014 4:43 AM
327	They do work but my bus route to work takes more than an hour to travel 5.3 miles which I can drive in 13 minutes. Since the bus is not reliably on time I take an extra early bus which adds even more time to my commute. I also commute every day of the week, not just week days and adjusting around weekend schedules add yet more time to my bus commute.	11/28/2014 12:03 AM
328	Mostly	11/27/2014 10:51 AM
329	Transit options no longer work for me because there is never enough parking at the transit centers or park and rides. Also, the bus route (Metro 25) significantly reduced the amount of trips and time it ran between the Montlake Blvd stop and Seattle Children's Hospital.	11/27/2014 9:43 AM
330	Generally, the transit options available get me to my destination, although missed transfers and late busses impede my punctuality frequently. A light rail train to the University of Washington would speed up things considerably, and would free up significant amounts of time to feasibly transfer to further destinations. Also, please consider adding OneBusAway screens to Mount Baker Transit Center (the Route 7 display boards go not by the real time but by the scheduled time, usually don't work, take too long to roll over, and list a trip for an hour in advance for some reason)	11/27/2014 12:15 AM
331	Taking the bus from Belltown to UW takes too long. No direct bus service. I drive now in a fraction of the time needed to take the bus.	11/26/2014 11:14 PM
332	Too many transfers	11/26/2014 7:38 PM
333	sometimes	11/26/2014 7:16 PM
334	Generally they do except when I need to get back to the green lake park and ride midday or early afternoon(3pm) to get kids from school.	11/26/2014 6:56 PM
335	The transit options I have are effective for some locations, but the limited routes, frequency of busses and crowdedness of transit is limiting at some times of day- particularly during commute periods.	11/26/2014 6:01 PM
336	It takes me 2-3 hours from Ballard to Capitol Hill, so it isn't a great commute time. Buses from Ballard to UW and back are dangerously full - it's hard to get off at times!	11/26/2014 4:26 PM
337	Commute transit between Cascade and downtown Seattle works great in the morning, but congestion can make it faster to walk home after work. Service to Capitol Hill is adequate.	11/26/2014 4:02 PM
338	Not easily since you split the 75 route into 2 buses, now it is inconvenient and I don't bus as much	11/26/2014 3:37 PM
339	Sometimes. Buses are packed around 8:30 am. Sometimes so full They don't stop and then I have driven instead	11/26/2014 3:29 PM
340	I use a combination of walking and buses. The bus is very crowded in the morning commute. I walk further than I have to in order to get on a less direct but less crowded and faster bus route. I have very good access to what I need to get to, but I would love if things were less crowded and faster for morning commutes.	11/26/2014 3:10 PM
341	so far so good	11/26/2014 2:52 PM
342	Fair. I find the bus takes a very long time, to get to/from Capitol Hill. It gets me very close to where I need to go though, as long as I know the transfers to take.	11/26/2014 2:22 PM
343	Eventually	11/26/2014 2:06 PM
344	No. I need my personal vehicle to get too and from work.	11/26/2014 1:27 PM
345	Busing is too hard, too slow. You have to go Downtown and transfer to get anywhere interesting. Faster and more efficient for me to ride my bike.	11/26/2014 1:21 PM
346	Great north/south, Very hard to travel West/East	11/26/2014 1:17 PM

347	They work well for the most part.	11/26/2014 12:55 PM
348	So far so good	11/26/2014 12:54 PM
349	I have been disappointed by the infrequency of bus service and how inconvenient it can be to transfer to different routes. While I am happy that there are bus routes that get me to where I need to go with minimal walking, I often have to take the bus slightly outside of rush hour times (after 7:30 PM) and I've been shocked by how infrequent bus service is during that time. The 41 only runs twice an hour after 8:00 PM and the 72 runs just once an hour. In my experience, the 41 is often quite crowded after 8:00 PM due to the limited number of buses running at that time of night and it appears that adding at least one more bus would help to ease congestion. I find it frustrating that it takes me over an hour and half to get from Mt. Baker Station to Lake City simply due to the lack of frequent bus trips.	11/26/2014 12:53 PM
350	The congestion on Denny Way makes the #8 difficult to use. I'll generally walk downtown from South Lake Union to get more bus options.	11/26/2014 12:47 PM
351	I can walk downtown and usually find a bus to my destination. The exception is Seattle Children's Hospital, which has no direct transit route to downtown.	11/26/2014 11:22 AM
352	I bike or drive from home to the Tacoma Dome Station and take the 5:44 AM 586 bus to UW. From the UW, I bike on the Burke Gilman trail to work or take the 75 or 30 Metro bus. I reverse this in the afternoon and take the 3:38 or 4:08 586 bus home. I am deeply concerned about the impact on the 586 from the opening of the UW stadium station. I have used the 586 for 5 1/2 years and rely on it.	11/26/2014 11:14 AM
353	Yes! They actually seem to be getting better.	11/26/2014 11:05 AM
354	They sometimes work. I am able to use a commuter most days for work, which is my main time on transit. However, I can't get to Capital Hill easily from my area (Greenwood or Aurora and 117th). Outside of commuter bus hours, I can't get to the U District easily either.	11/26/2014 10:37 AM
355	Metro works well except for east-west routes, i.e., to Ballard Particularly like the bus and rail connections to airport	11/26/2014 10:26 AM
356	They get me where I need to get to, but I often have a couple transfers to get to work or home	11/26/2014 9:30 AM
357	For daily commute, they do get me where I want to go and there are enough options to make it convenient from Northgate at the moment with it being noted that this will be changing and will make it much less convenient.	11/26/2014 8:38 AM
358	the bus is usually the least convenient way of getting somewhere - if the trip is short, (2 - 2.5 miles or under) unless you plan to get to the bus stop just before the bus comes, it will be quicker to simply walk to your destination. The buses are also usually late.... Oh... and why did metro institute entry at the front of the bus and exit at the back and then *refuse* to actually enforce it??? Now the bus gets even more snarled up because you *must* enter at the front to pay, but the drivers will not tell people to exit at the back. The result everyone is forced to wait for people getting of who should not even be using the front door! These aren't disabled people or cyclists either - just ordinary dummies who ignore the signs.	11/26/2014 8:27 AM
359	I use a wheelchair now, and the transfer between bus stops around the UW is challenging. Getting up to campus from UWMC is difficult for me, and this is the main place where I need to transfer to get from home to work.	11/26/2014 8:25 AM
360	The 71X, 72X, 73X, 74X work well for my commute (and other times I go downtown). However, they are too crowded. There are passengers left behind most days, especially in the evening. For other destinations, sometimes the bus options take too long or require transfers with unreliable schedules.	11/26/2014 8:09 AM
361	Yes. But it seems a waste that I need to go such a roundabout way to get from the 520 corridor up to Sandpoint Way. It would be far better and faster to go directly up Montlake Blvd rather than through UW campus.	11/26/2014 7:54 AM
362	Yes, eventually	11/26/2014 7:44 AM
363	They get me where I want to go, although at times not reliably, buses leave from stops several minutes early at times up to 10-15 minutes late which makes it difficult to predict when I need to be to the stop to get where I want to go on time.	11/26/2014 7:31 AM
364	They work okay for me, but I start work at 6:15 AM in the U District, so getting from the Light Rail to the Bus and up to the U District is cumbersome because the transfer to the Bus makes me late. I tried this for a few months before I finally started driving alone. My drive is 20 minutes, and my bus ride is nearly an hour. I'm looking forward to the light rail stop opening at University Ave. I just wish they started running earlier in the morning. (I've also run into this as a problem trying to get to the airport. I can't take the light rail to the airport most of the time, because it doesn't run early enough.)	11/26/2014 7:21 AM
365	SOMETIMES	11/26/2014 6:45 AM

366	It works pretty well. At the most all I've ever needed to take was two buses to get where I need to go and come back. So it works out very well.	11/26/2014 6:15 AM
367	Yes, I would like to have the 31 bus run longer	11/26/2014 3:17 AM
368	very poorly. If I don't do a morning commute a 45 minute ride turns in to a 2 hr connection. There are no good bus services out of Burien other than the early morning and early evening.	11/26/2014 1:54 AM
369	Sometimes. For 45th and 50th should turn into one ways and add dedicated bus lanes with physical separations + bike protected lanes. I would like to commute to Boeing Renton or Everett within 50 minutes! At 8 or 9 am and come back in a transit only lane in peak hours!	11/26/2014 12:14 AM
370	Yes, everything is fine	11/25/2014 11:35 PM
371	I usually have to take at least two buses to get anywhere. Bus service has been more reliable lately though. I use the one bus away mobile app every time I travel by bus.	11/25/2014 10:50 PM
372	Yes, more frequent busses would be nice though	11/25/2014 7:10 PM
373	They take me where I need to go, but they do not come as often as I need.	11/25/2014 6:54 PM
374	Yes, they work for me, except when buses are too crowded--they pass us by!	11/25/2014 6:38 PM
375	I have been having troubles to access some places capital hill from u district. Only 49 and 43 can take me there and they are 20 minutes wait.	11/25/2014 6:35 PM
376	They don't work for me (Fairwood in Renton to the U District). But again, I am more interested in these serving homeless young adults.	11/25/2014 6:31 PM
377	The 9 Express, 7 and 49 are the routes I take most frequently. I take the 9 twice a day to get to and from work (I live in North Capitol Hill and work in the Rainier Valley) and the 7/49 to get home if I work later than the last northbound 9 Express. I also take the 49 to get downtown and to connect to the central link light rail.	11/25/2014 6:06 PM
378	Not really.	11/25/2014 5:22 PM
379	I utilize the metro bus daily and find it quite reliable. The One Bus Away app is hard to pin accurate bus times or delays which can be confusing and frustrating.	11/25/2014 4:46 PM
380	They typically get me where I want to go, but not as quickly or directly as I'd like.	11/25/2014 4:42 PM
381	I wish the buses ran more frequently especially the 2, 8, 10, 11, 12, 32, 43, 48,	11/25/2014 4:25 PM
382	Because of a work provided shuttle - yes. Without this, getting to work on public transit is inefficient.	11/25/2014 4:23 PM
383	They work alright, but I literally moved to an area keeping in mind the transportation system. Generally, yes, they get me to the places I need to get to most. But if I need to go anywhere out of the ordinary, things get tougher.	11/25/2014 3:53 PM
384	Any time I need to travel East to West it is incredibly difficult and takes much longer than it should. If it didn't take twice as long to take the bus than drive, I would ride the metro much more.	11/25/2014 3:53 PM
385	Vanpooling is great and gets me where I want to go. The problem is that the traffic is getting worse every day. Friday's take almost two hours going home. Add a little rain and every day takes at least 1 1/2 hours.	11/25/2014 3:07 PM
386	It's cumbersome to get across town. It's hard to get from Seattle Children's Hospital to Ballard, Fremont, downtown, or Queen Anne. Buses are often late, very crowded, and multiple transfers are required. Light rail to the airport does not connect well with buses from north Seattle. Pretty much necessary to go the night before in order to take light rail from our home at Green Lake for an early flight. The reverse is also true: it's hard to connect from light rail back to the bus system to make it home any time after the evening rush hour.	11/25/2014 3:02 PM
387	For commuting they work pretty well. They do not work well for other activities.	11/25/2014 2:53 PM
388	Great, yes!	11/25/2014 2:51 PM
389	They are OK. I can get to where I need to go.	11/25/2014 2:41 PM
390	Yes, I get where I'm going. If I can't use mass transit I drive.	11/25/2014 2:37 PM
391	Ok. Sort of--often make transfers No very early connection to airport from University district	11/25/2014 2:22 PM
392	yes	11/25/2014 2:16 PM
393	Right now, just drive by myself. I get where I want to go - it takes too long (same time as vanpool).	11/25/2014 2:07 PM

394	Pretty much though the 47 used to get home but it was cancelled.	11/25/2014 2:00 PM
395	Yes, it's just the transfers that end up extending my commute that sometimes make it difficult for me to rely on public transportation to get to work on time	11/25/2014 1:43 PM
396	No.	11/25/2014 1:32 PM
397	the 41 is great for transit in the morning commute. It is terrible for afternoon rush hour. Buses are overcrowded. The 301 also is rather crowded	11/25/2014 1:14 PM
398	Its hard to get across Seattle from West to East or East West. There are a lot of options for North South but very few buses travel across especially in north seattle. I love that it is so easy to get downtown from anywhere in seattle!!!	11/25/2014 1:09 PM
399	48 is SO SLOW Yes, I can get where I need to go but it takes eons to do it	11/25/2014 1:02 PM
400	To Sand Point they do not work well. I takes too many buses, etc and too long.	11/25/2014 1:00 PM
401	Yes, although there are not enough connections from Madison Park area through the arboretum and into the university area	11/25/2014 12:57 PM
402	I appreciate the amount of bus lines and have enjoyed the lightrail when i'm in south seattle.	11/25/2014 12:55 PM
403	In general, yes, they work for me. Sundays and reduced routes make it harder. It takes me at least an hour to get across town at any point. However, I'm persistent and know a lot of routes, so it's easier for me to determine routes the times Trip Planner doesn't come through.	11/25/2014 12:54 PM
404	Fine for me. No transfers for work commute is important to me.	11/25/2014 12:52 PM
405	Options are ok, I still need a car to do a good chunk of the commute.	11/25/2014 12:38 PM
406	Works great, but have to leave early to make sure i get a parking spot at the park n ride and a seat on the bus.	11/25/2014 12:37 PM
407	I do get to where I need to go, but it involves a complicated transfer that goes out of the way of where I need to go, and through the U district which is always crowded. Most of the buses in the U district are 15+ minutes late when I need to travel, so I end up taking about an hour for a trip that should only take about half the time to make sure I can get to work on time.	11/25/2014 12:32 PM
408	Yes, they definitely do. I miss taking the light rail to work when I used to live south of Seattle (now that I live north there is no light rail and I would love if there was.)	11/25/2014 12:26 PM
409	Part of the way.	11/25/2014 12:22 PM
410	For the most part. I would like more options for destinations.	11/25/2014 12:17 PM
411	yes	11/25/2014 12:17 PM
412	They're okay. It would be better to have light rail from the Central sound on the I-90 corridor (Snoqualmie, Issaquah, Bellevue) that goes to either downtown Seattle or the U-District. My current commute is difficult. I need to carpool or drive to a transit center, take a Sound transit but to the U-District, and then take a Metro bus to Seattle Children's. And most of my Metro options to Children's are being deleted, which makes it even more difficult to get to work on time or adds time to my already long commute.	11/25/2014 11:36 AM
413	1-2	11/25/2014 11:36 AM
414	Not from my home to North Seattle College and back. They are alright for getting downtown.	11/25/2014 11:34 AM
415	I get where I need to go eventually, it just takes forever. I'm happy with the E and D Lines and I understand that the frequent stops are very helpful. It would be nice to have a second option to go from Aurora Transit Center to downtown Seattle that was speedier. Bonus points if it was easier to get from Lynnwood to 85th and 15th in Ballard.	11/25/2014 11:25 AM
416	They work well most of the time. I chose a home near the bus routes that serve my workplace.	11/25/2014 11:24 AM
417	Yes	11/25/2014 11:23 AM
418	I am able to get to where I need to go, however route frequency and convenience is not optimal. I take night classes at UW, it is a very lengthy commute for me to get home to West Seattle at 9:30pm (after class).	11/25/2014 11:13 AM
419	Getting from 70th and Sandpoint Way to Denny & Melrose takes almost an hour through current public transit options, it only takes 15-20 minutes to drive.	11/25/2014 11:08 AM

420	I am currently carpooling from Renton/Tukwila P&R to Tacoma (Pacific Lutheran University). I did not find any way to use the metro system to get there in a timely/efficient manner. I used to commute from Woodinville to Seattle CHildren's Hospital every day and had to drive alone because the bus systems were too complicated (too many transfers). I have felt that the Sounder light rail is the best way to get to downtown Seattle because you don't have to worry about transfers. It would be great if there could be more light rail routes serving the Eastside, though. Sometimes, Park and Rides do not have enough parking spaces (specifically the one on Interurban Ave in Tukwila WA which is the one I am using currently). Also, my car was broken into to along with 5 other cars in the middle of the day, which concerns me about safety.	11/25/2014 11:01 AM
421	It takes multiple buses and/or shuttles.	11/25/2014 11:00 AM
422	Sort of. It takes me over an hour to get to work. Sometimes it takes me longer to get to work on the bus than it would take me if I walked.	11/25/2014 10:58 AM
423	No. Ineffective in getting me to work.	11/25/2014 10:56 AM
424	Mostly. There are some places where transit doesn't go or the connections don't match up well so I just don't go to those places. It would be really nice if there was a way to do a day trip (there and back the same day) to Port Townsend using transit ... that sort of thing.	11/25/2014 10:49 AM
425	The transit options get me where I want to go at a significant cost—it takes 15–20 minutes to drive between Capitol Hill and Fremont, but it takes me 45–60 minutes on the bus. I'd like to see this reduced by half.	11/25/2014 10:43 AM
426	Sometimes they work depending on the time of day/day of week. Can't always get where I want to go connecting from Community Transit	11/25/2014 10:41 AM
427	They work excellently. Sometimes the 31/32 is very crowded in the late afternoon/early evening but it still works for me.	11/25/2014 10:40 AM
428	yes	11/25/2014 10:38 AM
429	I take the sounder train in from Auburn. Catch a VanShare from King Street to Seattle Childrens Hosptial.	11/25/2014 10:38 AM
430	I like van pooling. It's very convenient, now that I have a consistent schedule. Other than that, I do not use much alternate transportation. I would like to have more ability to use.	11/25/2014 10:37 AM
431	I use public transit for 90% of my trips even though my family has a car. I sacrifice time, but find it more enjoyable.	11/25/2014 10:37 AM
432	Yes, they do	11/25/2014 10:34 AM
433	Getting to Seattle Children's from my home in Cap Hill, is 2 buses. I'm 4.2 miles away! It takes me 30-45 minutes of planning time	11/25/2014 10:34 AM
434	Very limited. It would be nice to have more options, or have more frequent service.	11/25/2014 10:32 AM
435	They technically work - like I can get from place to place - but it's not easy to figure out what options to take, takes way too long to travel (like to/from Ballard and the airport on weekends - 90 minutes plus on transit!), or doesn't feel safe.	11/25/2014 10:31 AM
436	They are okay but if there was parking at the light rail stations it would be great to drive from Des Moines to a light rail station and take light rail to the new husky field location which is close to Children's Hospital	11/25/2014 10:28 AM
437	wonderfully	11/25/2014 10:28 AM
438	I get to and from work OK, but now I find that there is a de facto curfew imposed by the limited evening hours that buses run.	11/25/2014 10:27 AM
439	no. I can not easily or quickly get to the airport without a car trip downtown. ONce I do that it is easier & faster to drive to the airport.	11/25/2014 10:26 AM
440	They are ok, but there aren't as many express ways to get from Edmonds to downtown Seattle. Also, wish there was a way to get from Nortgate to downtown easier on the weekends.	11/25/2014 10:25 AM
441	Works great for my needs. Wish there were more Sounder trains from the southend. Current trains are getting crowded most days. Need better parking options as well	11/25/2014 10:22 AM
442	I used to bus to work (Seattle Children's) from a park and ride but I'd miss my 2nd bus even though I was supposed to have 8 minutes to connect. So, sometimes. Its easy to get downtown. It's easy to get to Seattle Center House.	11/25/2014 10:21 AM

443	They do, but with lots of waits and transfers	11/25/2014 10:21 AM
444	They work pretty well, though having the link light rail at UW will enable a much more convenient trip from my house to the airport and a quicker ride from Capitol Hill to my neighborhood (Montlake) as well as a nice additional option for transit between Montlake and teh SODO stadiums.	11/25/2014 10:17 AM
445	Metro bus service very poor option for me It takes too long to go from Tangletown to downtown or from Tangletown to seattle children's hospital. Therefore, I end up driving frequently.	11/25/2014 10:17 AM
446	They get me to work. It would be nice to have a direct route from Mt. Baker to Laurel Hurst.	11/25/2014 10:16 AM
447	They work well for me. When the new University station opens it will be great. My only concern is, getting from the hospital to the station off hours. The shuttles stop running at the hospital at 8pm and there is no bus to get me from the hospital to the station	11/25/2014 10:14 AM
448	Not as often as I would like, bus delays usually make planning on metro buses to get me most of the way from point A to point B very difficult and it has required building in a lot of excess time to account for delays when traveling anywhere. I have many times ended up taking an Uber car instead of a bus, simply because of the inevitable large delays in bus times.	11/25/2014 10:12 AM
449	Yes, it would be nice to have something that connected North Seattle to downtown to connect to the link system to the airport. It sucks having to get downtown to take the link system	11/25/2014 10:08 AM
450	yes I think I am lucky that Northgate is very central to what I do so yes they get me where I want to go.	11/25/2014 10:08 AM
451	most of the time, but long time in between connections. Need more service in West Seattle.	11/25/2014 10:08 AM
452	They do, but it could be better, for 11 years I used to be able to take 1 bus to work now I have to drive to the Transit Center and bus otherwise it added another 30 minutes to travel 2 miles) The direct bus option also is a very local route with stops every 1-2 blocks. If my work did not provide a shuttle downtown or to the U-District I would be very unhappy with many communitying options I have connecting with bus route.	11/25/2014 10:06 AM
453	I live south in Renton and if I take the Light Link Rail to Westlake, I then have to come out and wait for a shuttle from Seattle Children's Hospital to pick me up and then drive through morning/afternoon traffic to get me to and from the tunnel. This whole process takes me just about as long to drive on my own to work. Having the option to go from the Tukwila station all the way up to UW would be ideal and get me closer to my work area.	11/25/2014 10:05 AM
454	Not well. And no - we really need more options from the north (north of Seattle) to Seattle Children's Hospital.	11/25/2014 10:04 AM
455	Generally, yes. Primarily use for commuting to and from work.	11/25/2014 10:03 AM
456	Somewhat	11/25/2014 10:01 AM
457	I would like to be able to easily get to King Street Station from the U District	11/25/2014 10:01 AM
458	They work ok, there needs to be more coverage and run more often	11/25/2014 9:59 AM
459	Transit options I use get me to within 2 blocks of where I am going, which is acceptable.	11/25/2014 9:58 AM
460	yes	11/25/2014 9:55 AM
461	The work ok. It is much easier for me to get to work that it is for me to get home.	11/25/2014 9:54 AM
462	Daily commute is great. Getting other places can be more challenging	11/25/2014 9:54 AM
463	In order to get from my home in Ballard to Seattle Children's Hospital I have to walk for over a mile and take two emtro buses. Because of this time commitment I normally drive.	11/25/2014 9:54 AM
464	They get me where I need to go, but they are very crowded at times and very inconsistent (the 271 in particular). 545 is generally very reliable, having the signs that indicate when a bus is due is very helpful.	11/25/2014 9:52 AM
465	Van pool works great. Bus not great as it increases my communte by over an hour.	11/25/2014 9:51 AM
466	Pretty well, but I have designed my life around living in the center of the city so that I don't have transportation issues.	11/25/2014 9:51 AM
467	They work well (they are in convenient spots), but I would love for them to be more accurate/on time and faster.	11/25/2014 9:51 AM
468	They work great unless I work late. Options for ride home are much fewer and much farther in-between.	11/25/2014 9:50 AM

469	They don't work for me and they don't get me where I want to go. Not listed on the routes to choose from is the 5 and 358. In order for me to go from door to door from my house to the office, it requires 2 buses and over 60 minutes of time. The total distance is just over 3 miles. It's faster for me to walk.	11/25/2014 9:49 AM
470	3. Car - West Seattle to Swedish Cherry Hill. Bus - Swedish Cherry Hill to Pacific Place. Shuttle - Seattle Children's Shuttle from Pacific Place to SCH.	11/25/2014 9:48 AM
471	They do work and it would be great to have trolley service between Ballard and downtown Also be great if the 44 went to the UW Husky stadium light rail stadium when the station opens	11/25/2014 9:47 AM
472	Yes	11/25/2014 9:47 AM
473	It doesn't, the Sounder train and the 28 should be more connected. Many people depend on the 28 to get from the train station at 6am to get to work, leaving us to run up the flight of stairs, just to have the driver slam the door in our face when we get there. If the 28 was just 6 minutes later, I and others would not be late to work everyday.	11/25/2014 9:18 AM
474	Most often the buses get me where I need to go but I am frustrated that the U village shipping center is not better connected to transit.	11/24/2014 11:02 PM
475	Yes.	11/24/2014 10:28 PM
476	Yes, though it takes a significant amount of time.	11/24/2014 10:04 PM
477	I use mainly my feet, bike, and buses for traveling. <2 miles feet <6 miles bike <40 miles bus <300 miles carpool or drive +300 miles airplanes or boat In the Seattle area the first 3 work well with the bus/rail system only to become better with the addition of...well the light rail.	11/24/2014 9:29 PM
478	Connections to downtown are good. Connections to Capitol Hill and south Seattle are generally less useful for me.	11/24/2014 9:15 PM
479	During the day I can use transit to get where I need/want to go. After dark, I generally take a car, as it is not really safe waiting for a bus. They are less frequent in the evenings.	11/24/2014 8:28 PM
480	Yes	11/24/2014 8:25 PM
481	It's really hard to get to Beacon Hill, Georgetown, and Columbia City. I will often forego events in those neighborhoods because it takes more than an hour to get there. Queen Anne and Magnolia are only accessible by the 32, and that is way inefficient. I wish we had the old 30 route back.	11/24/2014 6:47 PM
482	They work really well for getting to and from work, but less well for visiting friends in Beacon Hill or Cap Hill.	11/24/2014 6:26 PM
483	Yes generally with one route, and maybe one additional transfer.	11/24/2014 6:09 PM
484	They service my needs.	11/24/2014 3:40 PM
485	Yes	11/24/2014 3:15 PM
486	They're OK. I eventually get there, but not always on schedule, and often with complicated coordinating and walking.	11/24/2014 3:03 PM
487	I love park and ride at Greenlake (65th and I5) I find it frustrating with peak buses operating at "peak" times that don't fit my off peak schedule.	11/24/2014 2:56 PM
488	I usually take the bus or drive most places. Taking the bus is fine when it's a single trip, but gets annoying once transfers are involved since there's sometimes a significant wait to transfer.	11/24/2014 2:31 PM
489	Yes, they do, but it is a commitment. Because I work in the north end of downtown I am currently forced to take a bus all the way into the heart of downtown and then transfer back uptown. I was hoping that with the increase of businesses into the South Lake Union area (Amazon, the Gates Foundation) that there would be some options for bringing busses from the north end directly into the north end of downtown, but this has not come to pass. I go several miles out of my way every time I take the bus because I am committed to public transportation, but I spend a lot of time hanging out at 3rd and Pine in the morning and moving back downtown every evening that I wish could be avoided (which technically I could if I was willing to ride the #16, but that bus makes so many twists and turns that I am quite literally nauseated by the time I get off of it, so I won't do it any longer, and it doesn't save a moment of time).	11/24/2014 2:21 PM
490	Not really. The transit gets me from home to work and back, but it does not support easy travel home from work at off hours nor does it really support triangulation, e.g., running an errand on the way home from work. In these cases, I typically drive alone.	11/24/2014 2:18 PM
491	70% of the time.	11/24/2014 12:41 PM

492	Yes the #65 is a good route for me to get tot he UW.	11/24/2014 12:09 PM
493	yes	11/24/2014 11:10 AM
494	They work OK. My concerns with service are as follows: 1. overcrowded buses bypassing stops as they are unable to accommodate any more passengers at peak times, especially during events like a baseball game downtown, etc. 2. buses stuck in traffic gridlock; more bus-only lanes or bus-only during rush-hour lanes where possible would certainly help. 3. safety. Many area's of the city are sketchy. I generally take the first bus I can in the 3rd & pine/pike area of downtown. The city does a piss poor job of making people feel safe in the downtown core. They need to get the gang-bangers the hell out of downtown! 4. the light rail is awesome as it moves quickly without being heavily subjected to street traffic.	11/24/2014 10:44 AM
495	They work pretty well. I take the lightrail to get downtown and catch an express bus to work, or a bus heading elsewhere if I'm not going to work. Getting to West Seattle from Burien is a hassle though so I normally drive.	11/24/2014 10:38 AM
496	They work well for the most part. The only thing that no longer works is getting home to the admiral district later at night.	11/24/2014 10:29 AM
497	YES, BUT IT'S TAKES A LONG TIME!!!! FROM UW MEDICAL CENTER TO TACOMA, AND FROM TACOMA TO THE UW MEDICAL CENTER TAKE ALMOST 2HRS.	11/24/2014 9:40 AM
498	For weekdays only	11/24/2014 9:35 AM
499	For work, I drive 2 miles to a transit station, take a Sounder to King Street Station then transfer to a buss that takes me into downtown. On the weekends (or whenever I need to be there in the evening), I have to drive from Kent to Queen Anne Hill because there are no efficient and safe means of public transportation.	11/24/2014 9:20 AM
500	I am able to use the bus and light rail to get where I need to go. Sometimes the bus is very full and it is difficult for everyone to have room to stand even after all the seats are full. I especially notice this on the 43 and 48 in the morning and evening commutes.	11/24/2014 9:10 AM
501	Mostly. I noted the exceptions earlier.	11/24/2014 8:34 AM
502	good. i like that I can put my bike on the bus when I need to. I've never not been able to get on a bus because I had my bike. I always feel like the bus is an option for me to get on if I need it. I can find a route to get me at least most of the way of where I'm trying to go.	11/24/2014 8:33 AM
503	There are not very many regular buses that go by my house, mostly just buses going on or off route go by there, at 412 Broadway. I can go nearly anywhere by taking a 3 or 4 downtown, though. Sometimes it is very time consuming to take the bus.	11/24/2014 8:31 AM
504	Because I am able to bike commute, I often bike to transit. Having buses with bike racks is key for me. On days I don't feel like biking around, it's nice to have a variety of bus options that come regularly. Without OneBusAway, I don't know if I would use the buses as much. That app takes a lot of the guesswork out of waiting for the bus.	11/24/2014 8:09 AM
505	most of the day the routes i use work well. after 6pm weekdays and all day on sundays there in lack of service in the kent area	11/23/2014 9:33 PM
506	The Metro buses usually get me where I want to go, but not always as directly or conveniently as I would like. Some areas of Seattle are not well served, so it can take me an hour and a half to get somewhere that I could reach in fifteen minutes by car. At the moment, Lower Queen Anne is difficult to reach because some buses have been rerouted. Is it really necessary to skip over that area because of road construction?	11/23/2014 7:34 PM
507	Yes, drops me off right on campus. I wish there were more routes to cut down on the lag and wait time. And in the morning, the buses are so packed, people are lined up like sardines.	11/23/2014 3:51 PM
508	Riding my bike from Ballard to the UW campus is almost always faster than taking the 44 (since I live almost a mile from the bus stop, which makes it a long walk), so I do that most time. Generally biking to campus, and then driving to do errands on the weekend works for me.	11/23/2014 2:06 PM
509	Yes they do.	11/23/2014 2:01 PM
510	Used to get to work early enough, but, now, I'm forced to carpool because of poor service from Sound Transit to Metro. Sound Transit works great. Metro connections no longer does.	11/23/2014 11:22 AM
511	They do, but usually with delays.	11/23/2014 2:15 AM
512	For the most part, I am able to get where I need. Greater frequency in service is always nice. I miss the recently deleted route 47.	11/22/2014 9:41 PM

513	They work well. They get me to where I need to go. It would be nice to have more bus routes especially at night. We need more light rail going north King county and beyond.	11/22/2014 6:59 PM
514	Bus to capitol hill is slow! The 12, 43, 49 in particular are so slow that it's often faster to walk UPHILL than wait for the bus. The buses to the u-district are better but I always go to the south side of campus, so the light rail will work much better for me.	11/22/2014 1:21 PM
515	They usually get me within a short walk to my destination. The bus arrivals can be a bit unreliable. Last year I was at the I-90 overpass stop in Beacon hill waiting for a busy to Bellevue on a weekend. It was an express bus that was supposed to come by around 7 am and although I was there over 10 minutes early I missed it because it passed earlier than what it was scheduled for. This route only comes by every hour so I was late to a job that I was scheduled for.	11/22/2014 1:01 PM
516	It depends on where I'm going. I'd love to be able to take light rail from Ballard to the airport. And light rail or train for Ballard to Mukilteo.	11/22/2014 12:42 PM
517	NOT NOW. Bring back the #27.	11/22/2014 8:33 AM
518	I would like a faster service option and would like to see a one service option instead of using two buses	11/22/2014 8:10 AM
519	As of now it works great for work or airport. There are 2 different routes I can choose from	11/22/2014 2:20 AM
520	so-so: 3 buses to Safeco Field, 4 buses to Everett for work	11/22/2014 1:41 AM
521	Yes, currently they do. I get on one bus and don't have transfer. I'd like to keep it that way.	11/21/2014 8:50 PM
522	Yes	11/21/2014 8:45 PM
523	I can't really use Metro/Sound Transit to commute to work because I live in the city (Wallingford) but commute to the suburbs (Redmond or Bothell). Feels like transit hasn't adapt to that reverse commute yet.	11/21/2014 8:01 PM
524	Yes, always in close proximity	11/21/2014 7:23 PM
525	I am lucky that most of my destinations do not require a transfer. It is surprisingly time-consuming to get from Capitol Hill to Pioneer Square as it is quite close but requires bus + bus/Light Rail. The schedule for the 49 to Pioneer Square is irregular and confusing. Looking forward to the Streetcar. Lyft or cab takes <10 minutes. Bus takes at least 30.	11/21/2014 7:09 PM
526	Usually. Going downtown from Wallingford is not easy before 10am.	11/21/2014 6:45 PM
527	some times they do and sometimes they don't.	11/21/2014 5:10 PM
528	Mostly. My main concern about the light rail is the lack of parking. I have to get a ride to and from the station. I live in south Seattle and find that the most efficient bus to get to downtown is the 143 express, which only runs Monday-Friday until about 5:30pm. Any other bus (route 101, 102, 106) can take upwards of an hour to an hour and a half to get from south Seattle to downtown Seattle. My house is 20 minutes from downtown Seattle. Somedays it is just not time effective to take the bus.	11/21/2014 4:14 PM
529	Yes, but the rapidrides are always too crowded.	11/21/2014 3:38 PM
530	Hard to get to Northgate	11/21/2014 2:41 PM
531	Yes.	11/21/2014 2:35 PM
532	Yes, mostly, but it is a long trip. I have to drive 30 minutes to a park and ride and then spend 1-1.5 hrs on the bus (one way).	11/21/2014 2:15 PM
533	Sometimes. I have to do a lot of walking. I also have to pass events. Case in point: travel from my home off 15th and 80th to West Seattle. It becomes an all day trip and almost impossible after 10pm	11/21/2014 1:56 PM
534	yes,but if I work long shift I don't get the ride on time.So i take two hours to get home from uw to renton.	11/21/2014 1:28 PM
535	Yes, but it takes a long time.	11/21/2014 12:55 PM
536	Yes it works well	11/21/2014 11:55 AM
537	As it is right now, I am able to access locations I need to go to.	11/21/2014 11:33 AM
538	Most often.	11/21/2014 10:50 AM
539	The bus is convient when there is traffic on Lake City Way from Kenmore Park n Ride to 125th st.	11/21/2014 10:42 AM

540	Okay. I have to drive to Everett Station, local bus service doesn't run early enough (closer route, 4) or often enough (further away but acceptable, 29). It takes 2 buses to get to the U District, would really prefer one. Very frequently now there is standing room only, sometimes a lot of people standing. I have seen a northbound bus turn away people because there was no more standing room. The pickups and dropoffs at the U are good for me.	11/21/2014 10:34 AM
541	The transit options I use come frequently, get me there faster than if I were to drive in many cases, and at reasonable prices. These buses (mostly) are normally full of people during my commute; during rush hour, they are packed to standing, that could be solved with a train that could carry more people in one trip than a bus. If the (proposed) electric train came as often as the buses I ride do, there would be more space on the train for all those people who drive alone in a car, less cars on the road, less oil/exhaust pollution, and more incentive to use humanity's collective knowledge of solar power to create an immensely more efficient system of movement.	11/21/2014 10:13 AM
542	Generally fairly well. The mercer corridor mess makes getting to SLU difficult, however.	11/21/2014 10:10 AM
543	Just OK. I board the 75 northbound and transfer to either the 512 or 312X from Lake City, Bus is way to crowded. I use to take the 64x but way to slow. Because of these challenges I find myself driving my car to work.	11/21/2014 9:47 AM
544	OK, but there's no quick way to get from 10th Ave E & E Miller St to The Polyclinic at 904 7th Ave. It takes 2 transfers	11/21/2014 9:43 AM
545	They work well and get me to UW Tower (work).	11/21/2014 9:25 AM
546	Yep. Sure once in a while a bus coming from downtown is late, but other than that it's dandy.	11/21/2014 9:17 AM
547	Yes mostly, I would like a shuttle from Tukwila park and ride to the Tukwila light rail station or another station between rainier beach and the Tukwila station	11/21/2014 8:50 AM
548	passable but the LINK Capitol Hill Stn. will make it even seamless	11/21/2014 8:34 AM
549	Within Seattle I can get where I need to go. The eastside is another story. Especially service to the area between Woodinville and Duvall, I have to drive b/c there isn't sufficient service to rely on	11/21/2014 8:23 AM
550	ST 555 works well, but is too crowded since Metro cuts this year. Would like express options from Meadowbrook area to Bellevue and downtown Seattle.	11/21/2014 6:26 AM
551	Mostly, yes. More frequent service to North Bend on weekends and in the evenings would be useful.	11/21/2014 3:19 AM
552	On weekends and late nights at work, it takes me 1 to 1 1/2 hours to get home. On week days it takes 30 minutes.	11/21/2014 12:02 AM
553	Community Transit to and from 4th & Pine 10 or 43 to 16th & John on CapHill	11/20/2014 10:11 PM
554	Most places I want to go.	11/20/2014 10:10 PM
555	They get me where I want to go slower than I would like.	11/20/2014 10:08 PM
556	See previous comments. The #25 would be perfect if it ran more frequently.	11/20/2014 10:05 PM
557	Transit works pretty well and generally gets me to where I want to go. But further out destinations often have service that ends too early and is too infrequent to be useful. I do not drive so I solely use transit, bicycling and walking to get around.	11/20/2014 9:56 PM
558	I use transit five days a week so yes, it does work for me and it does get my where I want to go for which I am very thankful. In my 2.5 years at UW, Seattle, I have only driven my own car twice. However the commutes times between Tacoma and Seattle are getting worse and there are more frequent standing room only episodes. For example, I often take the last 586 bus from the U. to Tacoma which comes at approx. 6:24. Due to an event at the Tacoma Dome, it took 2 hours to make it home today (11/20/14). Not sure where to put this but there must be a better way to better connect the ST train to the Seattle Link. Getting off the ST train and going up the narrow 2 staircases at either end is enough to give one a panic attack. And please, add some later ST trains from Seattle to Tacoma in the evening. The Wednesday before Thanksgiving is a terrible traffic day but I usually can't get to King Station before the last ST train leaves so am forced to take the ST 586 in bumper to bumper traffic.	11/20/2014 9:54 PM
559	They work pretty good but there is room for improvement, as indicated above. Looking forward to the opening of the Roosevelt Station in 2021. Wish there was weekend service to Golden Gardens on the 44.	11/20/2014 9:52 PM
560	Yes. The most tricky one is getting from the Eastside (East-Central Bellevue or SW Redmond) to Shoreline/Aurora Village.	11/20/2014 9:29 PM

561	The 542 is really useful to get to greenlake and U district. The 545 gets me to downtown very quickly. Transit from University District to Ravenna is not very reliable or dependable. I usually take car2go to travel to destinations north of U district.	11/20/2014 8:29 PM
562	Until they closed the stop on 5th and Marion I had a great ride and could get to work in about an hour. Now with that stop closed I would be walking either 2-3 blocks up hill which is not good of my back and knees. If I stop on 5th and Pike it take 1hr and 45 mins for me to get to work. I can get there but not efficiently .	11/20/2014 7:40 PM
563	They do but service is slow, infrequent and sometimes very long to cover short distance.	11/20/2014 6:22 PM
564	ok. more frequent service would be better, especially east west	11/20/2014 5:31 PM
565	Getting around Renton is hard so I often have my mom meet me at Fred Meyer with her car. Enatai Beach Park takes an hour or more to get to from my building in Microsoft. Getting to downtown Seattle, Eastlake, Redmond (on weekdays) or downtown Bellevue is fairly easy from the U-district.	11/20/2014 5:30 PM
566	Yes, though not always as easily as in the past. When runs are cut or changed, or stops taken out ("more efficiency") it's harder on users. One of my commutes went from approx 20 minutes end-to-end to anywhere from 40-60 minutes because it now requires a transfer (2 buses) to cover the same territory.	11/20/2014 5:01 PM
567	Yeah, for my purposes it works pretty well.	11/20/2014 4:38 PM
568	I love to walk, I often take the bus in inclement weather. It gives me time to think and gets me where I'm going.	11/20/2014 4:37 PM
569	Yes, but now that I live in Hillman City (1 mile south of Columbia City) it seems that every destination requires a transfer from one bus to another or one bus to light rail. Or a significant walk (a mile at least) to get to the one bus/light rail to get me to my destination.	11/20/2014 4:27 PM
570	They Work Fine. Ferry in Seattle should be more accesible	11/20/2014 4:25 PM
571	They are infrequent and frustrating. Missing a bus often means having to wait another half-hour.	11/20/2014 3:55 PM
572	Yes they work but sometimes there is a lot of changing buses.	11/20/2014 3:37 PM
573	Pretty good	11/20/2014 3:30 PM
574	From my home in Broadview it can be very hard to get to other places in North Seattle without transferring. This is difficult for me due to serious arthritis. I would like to see more direct connections to Ballard, UD, and Wallingford.	11/20/2014 3:18 PM
575	If I Work Past 10:45pm Nightly I Will have to take the route 106 and not get home until Real Late. I have Lost Many of Jobs Because the Route 101 does not run Late enough like the Route 106.	11/20/2014 2:40 PM
576	Adequately	11/20/2014 2:18 PM
577	Because I am so centrally located (and my bus pass is subsidized through work), routes 60 and 49 work well for me. However, I used to live in Squire Park, and had no options for north-south travel on busses. I could move east/west on the 3 or 4, but had no good options for getting up into the Capitol Hill area. I do love that I can take LINK to the airport. It's easy and such a good deal.	11/20/2014 1:55 PM
578	For the most part, yes.	11/20/2014 1:51 PM
579	Generally ok. But the route 44 sucks!	11/20/2014 1:45 PM
580	Yes, though my options are limited and take 1 1/2 to 2 hours each way.	11/20/2014 12:30 PM
581	Usually okay but they have a tendency to misalign (31/32 -> 16) and i have to wait for the next bus or usually because the interim time between the 16 is so long, walk.	11/20/2014 12:26 PM
582	Basically, yes. Weekend coverage isn't great, but workable.	11/20/2014 12:19 PM
583	For work: 121, 122, 123 to downtown then walk to the tunnel for the connection	11/20/2014 12:13 PM
584	They get me to my destination but they are very inefficient routes.	11/20/2014 11:34 AM
585	Excellent!	11/20/2014 11:20 AM
586	NO. See previous comment about cancelling the 243 to Bellevue bus.	11/20/2014 11:18 AM
587	Typically. If I am going anywhere downtown I usually need to transfer.	11/20/2014 11:18 AM

588	I am generally quite please with my transit service. Occassionally I wish that the drivers of commuter routes were consistently concerned with the maintenance of timetables. It's frustrating to have a driver with a lacksidaical approach to the schedule when you are trying to get to work on time. There could also be a more responsive system for letting riders know that accidents or breakdowns and the like have disrupted service. I have had the experience more than once of waiting for a bus that never came when if I had known there was a problem I could have made alternate transit arrangements.	11/20/2014 11:15 AM
589	Yes, for the most part.	11/20/2014 11:11 AM
590	Transit options get me to where I need to go but it often takes too long and there are too many transfers.	11/20/2014 10:35 AM
591	Yes	11/20/2014 10:25 AM
592	Yes, they work well. But my bus is significantly slower than it used to be. (Route has been changed, more student usage, heavier traffic?)	11/20/2014 10:21 AM
593	yes	11/20/2014 10:20 AM
594	Yes, but I always have to plan to be at the bus stop two arrivals early...because sometimes the bus doesn't arrive on time.	11/20/2014 10:13 AM
595	They are good to very good for me; however, the trip from downtown to the University of Washington is almost always packed with people. When I was riding the 36 bus, I also felt very uncomfortable and unsafe at times, as there are a lot of people who have hygiene problems and apparent mental health problems.	11/20/2014 9:56 AM
596	Yes. But I typically choose not to use transit if I need to transfer busses.	11/20/2014 9:49 AM
597	Much better after I got One Bus Away app - it greatly increased my willingness and ability to use transfers or alternate bus routs & schedules. The East-West bus routes I take however can be so wildly off from scheduled arrival times - up to 20 minutes late - that it makes it difficult to rely on them consistently if they are your only option. Biggest issue is having to commute thru the University District - buses will fill to standing-room plus during peak times, and in the evening, commuters that have no other options (IE route 74s) have to compete with college students and others who's destination is just the Ave, and they can take any route 70-74, for space. I've had more than one driver ask for 'volunteers' to step off the bus and wait for the next less crowded 70-74 because he/she recognized commuters that were unable to board in the evening route - which of course no one did. Should have been serving the U-District with a direct, continual-running express buses to downtown a long time ago.	11/20/2014 9:48 AM
598	They do generally, but linking to Piece Cpunty can be difficult.	11/20/2014 9:46 AM
599	I can get almost everywhere, but it usually requires a transfer between buses which is really inefficient since many routes don't run on-time (i.e. #48). In my experience other city bus systems are much quicker because transfers don't take as long as they do here.	11/20/2014 9:18 AM
600	Yes	11/20/2014 8:40 AM
601	Since the removal of route 47, I (and many others) have to walk up significant grades to get to Broadway Ave E to catch buses to get downtown. This is potentially unsafe at night when coming home from concerts, lectures etc held in the downtown area.	11/20/2014 8:00 AM
602	n/a	11/20/2014 6:35 AM
603	It is hard to get to work when I have to transfer and then walk half a mile	11/20/2014 2:16 AM
604	Yes. I'm always able to get to where I need to go, even if I have to improvise or walk a little bit.	11/20/2014 12:16 AM
605	Yes	11/20/2014 12:02 AM
606	Somewhat... The system layout is very "radial": most buses end up downtown or the u-district. While this serves some people, I don't live or work in either of places, so many trips involve a detour through a heavy-traffic area. If all routes must go through those places, transit needs to be aggressively prioritized (bus lanes on 45th, please!). Otherwise it's a slow crawl. I get around via a combination of biking & buses, mostly. The bike gets me through the traffic, until I can get a bus that's not stuck. However, only 3 people/bus can do this, so that's not a workable solution for everyone.	11/19/2014 11:42 PM
607	They work great! Yes they do.	11/19/2014 11:21 PM
608	They can get me there, but it usually takes too long. It is often faster to bike, unless there's a directly connecting route.	11/19/2014 10:38 PM

609	For the most part.	11/19/2014 10:22 PM
610	They are alright, I wish there was a direct line from Brickyard to UW, but that would be pretty hard to facilitate and would be expensive.	11/19/2014 10:05 PM
611	yes	11/19/2014 9:34 PM
612	They work pretty well. South Lake Union to downtown connections takes too long due to the bad traffic. UDistrict buses to downtown can be very crowded. I worry a bit about Link light rail going down just when I need to go to the airport - the recent weekend outage was not well publicized ahead of time.	11/19/2014 9:00 PM
613	Yes	11/19/2014 8:44 PM
614	yes the transit gets me from where i need to be from atoz all the time with out the buss system i dont know where i would be its helpful and grateful for king county buses.	11/19/2014 7:47 PM
615	They get me to places that are within a pleasant walk to my destination.	11/19/2014 7:37 PM
616	They work great.	11/19/2014 5:35 PM
617	Like I've said before if the hours are right and I want to go to Seattle via 577 /578,great! To get to the airport I still more often have to drive my car to Federal Way Transit Center at 317TH and catch the 574. Too bad when the 501 would be my first choice but does not have as many timed routes. I often also drive to the FEDERAL WAY Transit center to catch the 577/578.	11/19/2014 5:31 PM
618	Yes	11/19/2014 5:26 PM
619	Most often yes, I'm lucky to live near the UW campus which is a transportation in with access to most all places in Seattle. I often have to take two-three busses however; one to get to campus, then to downtown or ballard, and occasionally another to my destination farther into those areas.	11/19/2014 5:18 PM
620	Weekdays - the bus works fine, especially since there won't be bus cuts to the northeast routes (e.g. routes 66,67,68,71, 30 rush hour).	11/19/2014 5:13 PM
621	Yes	11/19/2014 5:13 PM
622	Yes	11/19/2014 5:09 PM
623	Getting to Ballard is a pain and it would be great to have better service. I don't use what is available now because it takes too long.	11/19/2014 5:03 PM
624	Not always because the signs are hard to understand/confusing and bus drivers are RUDE and don't know what they're talking about half of the time and the other half--they just don't care!	11/19/2014 4:32 PM
625	yes, sometimes need to transfer up to 3 buses, mainly transfer to 2 buses	11/19/2014 4:26 PM
626	I thake the 55 or C Line from west seattle and transfer to the 3 or 4	11/19/2014 4:17 PM
627	In general yes, but I would like more frequent service and more options that aren't impacted by car traffic.	11/19/2014 4:09 PM
628	As I said on the previous page, the bus is too slow for me to use for commuting and takes much too long to get to the airport, even with link light rail. So I usually ride my bike or carpool. However, the buses work well to get to downtown from the campus so if I have to get to downtown, I take the bus. Also a much better and faster way to get to the Hutch from the Med School would be great. Now I use the U-car.	11/19/2014 3:58 PM
629	Yes but they take a long time.	11/19/2014 3:52 PM
630	Not always, especially on nights and weekends. Lack of north/south routes between Montlake bridge and University Village especially problematic. Rerouting increases trip time by factor of 2 or 3. Also, getting to and from airport at night is scary because stops are not in tunnel, but on high crime area surface streets downtown. Have taken a taxi from airport in that situation even tho light rail is free for me with U Pass.	11/19/2014 3:50 PM
631	They work fine but the buses are often crowded during rush hour.	11/19/2014 3:48 PM
632	They work fairly well, though sometimes there are lots of transfers or waits to get somewhere, and my buses are often stuck in traffic.	11/19/2014 3:43 PM

633	Green Lake is very central, and good bus service is one of the main reasons I moved there 8 years ago. On the positive side I really like that the #16 doesn't detour to Seattle Center anymore. That used to be the last straw that would send me walking a mile or more to a faster bus downtown. Now I can take this bus, and if I'm going to Seattle Center it's still only a short walk from the Aurora/Denny stop. I also really appreciate the additional evening trips on the #48. On the negative side, evening service in general is still quite lacking. Attending a movie or dinner downtown is challenging to get home from because of long headways and full buses. The connection to Lake City (e.g. #48->#72 or #16->#41) is terrible so I rarely go there despite quite a few businesses I would like to patronize. Finally, the #48 gets stuck in traffic too much and reliability is terrible. This is one of my most important connections and it really needs some dedicated lanes/signals.	11/19/2014 3:34 PM
634	They work about as well as I can expect them to. My only complaint is that the routes are often 15-20 minutes late...	11/19/2014 3:34 PM
635	Yes, they get me where I want but I often have to stand on the bus and I have to transfer which adds a fair chunk of time to my commute. I live in what I consider to be a fairly main area of town (West Seattle Junction) and work in a very populated located (UWMC) so I'm a little perplexed as to why there's not a direct option between the two locations.	11/19/2014 3:13 PM
636	For the most part they get me close to where I am going. I make the most of what is available.	11/19/2014 2:52 PM
637	I love the Link but I have to drive from Lake Tapps to SeaTac. I also enjoy the Sounder but it doesn't run often enough.	11/19/2014 2:47 PM
638	They work well, but I would like to take one bus or link directly from columbia city to UW med center. Even an express bus would be appreciated. The 48 is always so packed and stops at every stop from UW to Mt Baker transit center.	11/19/2014 2:31 PM
639	The 48 goes straight to UW, but is slow. It would be useful to bring the 48X back. More options that don't transfer in downtown at night (too sketchy for a woman to be alone at night). Direct service from Greenwood to the main commercial district in Capitol hill, not just the residential area is lacking. More East-West options in the north end are also needed.	11/19/2014 2:29 PM
640	Need better transport between SLU and Capitol Hill. Route 8 runs too infrequently, especially on weekends. A lot of sports teams, gyms, recreational facilities have locations in SODO or Georgetown; routes to get people from Cap Hill to these locations that run at night would be great. Currently I can't use the bus to get where I want to go in the evenings to use these facilities.	11/19/2014 1:39 PM
641	I'm poorly connected by a infrequent bus from my home to the Northgate Transit Center. Usually, I walk 20 minutes to Northgate TC. Then I take the 41 Express to downtown Seattle. The bus is quick and easy and gets me to my office. However, it is ALWAYS packed.	11/19/2014 1:21 PM
642	I take the train to work. Taking train is convenient.	11/19/2014 1:13 PM
643	Sometimes.	11/19/2014 12:56 PM
644	I have no problem taking 71/72/73 buses between downtown and UW campus.	11/19/2014 12:54 PM
645	They work fine	11/19/2014 12:53 PM
646	Generally, though not fast enough on weekends to be worth it. Insted, I drive on weekends.	11/19/2014 12:52 PM
647	3 bus routes 107 , transfer to 167 107, Transfer to 101 or 143 107, Transfer to LRT	11/19/2014 12:50 PM
648	Light rail works great. with buses i often avoid east west connections since they take too long with traffic. I may be wrong, but a capitol hill to Ballard connection would be nice to have.	11/19/2014 12:47 PM
649	For the most part, yes. I'm looking forward to the addition of more light rail due.	11/19/2014 12:44 PM
650	For the most part they do. The 26 bus is a great bus for the green lake area to go to Fremont or Dt. Although Often times I find biking to work better than taking buses for example going to Ballard, Crown Hill, Greenwood. I find that	11/19/2014 12:40 PM
651	Yeah, they get me there. The 271 is only an issue when bridge is under construction.	11/19/2014 12:39 PM
652	They get me where I need to go, though some routes go through neighborhoods, meandering back and forth.	11/19/2014 12:23 PM
653	For the most part, I can get to downtown Seattle just fine, but in the past, getting to the Detention Center in Tacoma was difficult. Having easy transportation access that takes you all the way to the DC (since it's located outside the center of the city) would make life much easier since I do a lot of volunteer work there.	11/19/2014 11:52 AM

654	I go to school at UW. I have classes that range from 900am to-530pm. I would love to take the sounder every morning from Tacoma to seattle then take the bus up to UW. But the problem is that when I get out of class the train no longer runs by the time I get back to seattle. I could take the 586 bus (I think that is the route from UW to Tacoma) but I might as well drive since it would be stuck on the same jammed up freeway that I would be on if I were to drive myself. Plus I could sleep in during the mornings.	11/19/2014 11:46 AM
655	The only transit that works for me is getting to/from work. Public transport is completely out of the question if you have errands to do or have kids. No one has two hours to waste for a bus trip to get a kid to a soccer game or to get to a grocery store. Who can walk for blocks and blocks with more than one bag of groceries and a kid?	11/19/2014 11:37 AM
656	More secure bicycle parking by transit centers!! I would ride my bike far more often, but I am worried it will be stolen during the day.	11/19/2014 11:33 AM
657	see note above re route 71 - it is my only option for going downtown most of the time, but it takes forever to get through the U-District before it becomes an express.	11/19/2014 11:22 AM
658	MOSTLY.	11/19/2014 11:19 AM
659	71X/72X/73X get me between U-District and Downtown, but are usually very overcrowded and less frequent than they could be.	11/19/2014 11:15 AM
660	No. I need to drive quite a distance between Snohomish and Bothell to access parking and a bus-traffic is too bad in Woodinville	11/19/2014 11:13 AM
661	Transit options are somewhat useful but leave much to be desired. Metro's frequent route network usually gets me within a mile of where I need to go, even late at night, but then I have to walk, drive (car2go), or wait for another bus to complete my trip. Reliability on certain routes continues to be an issue.	11/19/2014 11:03 AM
662	I used to take the bus to Seattle from the South Everett Freeway Station, but I'd either have to stand the entire way there, or wait for two buses to leave so I'd be first in line to get a seat when the third bus arrived. Now I take the bus from Eastmont P-R, but it only comes in the A.M. and P.M. during rush hour, so if I need to leave work early (anytime in the middle of the day), I am SOL.	11/19/2014 11:01 AM
663	I am satisfied that the 542 gets me from UW to Redmond, but it is frustrating that there is no way to go from UW straight to Sammamish. Also, it is unfortunate that the 542 does not run after 6 pm!	11/19/2014 11:00 AM
664	Absolutely!!	11/19/2014 10:59 AM
665	They work, but are slow. Maintaining at least the current speed of travel is important to me.	11/19/2014 10:46 AM
666	They do but the 43 is terribly overcrowded	11/19/2014 10:46 AM
667	Usually, but not as frequently as I would wish they would.	11/19/2014 10:41 AM
668	Absolutely - the best!	11/19/2014 10:33 AM
669	good ye s	11/19/2014 10:28 AM
670	Transit goes everywhere I want to go, but it usually takes too long, especially any trips that require me to go downtown and transfer or transfer at UW to a less frequent bus. A good example is Capitol Hill to University Village.	11/19/2014 10:25 AM
671	Generally pretty well, Capitol Hill has good service to major destinations with some transfers necessary.	11/19/2014 10:22 AM
672	YES THEY DO	11/19/2014 10:15 AM
673	Yes, but often not quickly enough. It's common for me to find I have to drive instead to get where I'm going on time.	11/19/2014 10:13 AM
674	I have made them work. I get a ride (in a car) to the Beacon Hill Light Rail Station or I drive myself there and park, then I take the light rail into downtown Seattle. My previous bus route (39) that took me straight from my neighborhood to the downtown corridor was cancelled, I now must transfer no matter what to get to 6th and University. I choose to drive to the light rail station because transferring buses triples my commute time.	11/19/2014 10:06 AM
675	Yes, love the 372 express bus	11/19/2014 10:01 AM
676	Yes they work well	11/19/2014 9:46 AM
677	They are limited, but work ok.	11/19/2014 9:45 AM
678	I mostly use transit to go to work. Occaionally, to Seahawk games. Downtown shopping excursions also happen.	11/19/2014 9:31 AM

679	Not real well - I would like to be able to use public transit more often, but from my home it takes too long and service is too infrequent	11/19/2014 9:28 AM
680	Yes- the buses are crowded, however. Carpooling works well, but we'd like to not have to drive if possible.	11/19/2014 9:28 AM
681	Yes, after driving and some walking to catch the bus.	11/19/2014 9:16 AM
682	Commuting via public transit versus my own vehicle has become more difficult because of the significant cuts to bus service into and out of West Seattle. The significantly reduced number of buses (short periods in the morning and evening and nothing in between) for the 56 and 57 in particular, but also the 55, make it difficult to use public transit for those who do not have a regular work schedule but rather, need to go in later in the morning and come home later in the evening. The additional travel time to commute by alternate route makes it more likely that I will drive on those occasions. Additional challenges include the lack of schedule reliability and significant over-crowding. I have had the experience of waiting up to 45 minutes to catch the 56 or 57 from West Seattle to downtown- clearly a scheduled pick up (or sometimes two) was missed or significantly late. I have also had the experience of waiting for a bus from downtown to West Seattle that indicates an ETA to the bus stop of 2-3 minutes only to have the time suddenly change to an ETA of 35-40 minutes. In the meantime, I have passed up other bus options because I was expecting the 56 or 57 to arrive in a few minutes! Additionally, I have been passed up by buses that are so crowded there's no room to get on. It's particularly frustrating to get to the bus stop well in advance of a scheduled pick-up only to find that you cant get on and will be late for work. For routes that have been significantly reduced the use of short buses (as opposed to articulated buses) magnifies the problem.	11/19/2014 9:09 AM
683	Yes, except at night when returning from a trip. Buses from downtown Seattle to Kirkland don't run often enough.	11/19/2014 9:01 AM
684	The work ok. Better Metro bus frequency on weekends would be great. Better reliability on route 8 on Denny is a critical need	11/19/2014 8:59 AM
685	Sometimes. I regularly ride the 197 and the travel times in the morning are not ideal. They should be more spread out then they are because the 6:45 is usually at least 10 minutes late and shows up close to the 7am bus and then I am late for my 730 shift. A good split would be a 6:30 bus as oppsed to the 6:45.I have been riding this bus for 4 years and I am not alone in the issue with the buses being so crowded and very late all the time. Not a very reliable form of transport for many UW riders.	11/19/2014 8:39 AM
686	Yes, I'm able to get to work and my doctor and dentist appointments.	11/19/2014 8:38 AM
687	They work well	11/19/2014 8:34 AM
688	I can go downtown and I can get to work in the U District. Taking a bus from my house to Northgate/NCC which is only several miles away is an impossible ordeal due to the lack of convenient and timely routes and the need to make transfers that are not timed in a reasonable, usable manner.	11/19/2014 8:24 AM
689	Generally transit works pretty well during the day. I would like to see more stop consolidation. For example, there are two stops basically on the same block of Bellevue between Pine and Olive.	11/19/2014 8:10 AM
690	Not good for travelling from Wallingford to Capitol hill or u village	11/19/2014 7:44 AM
691	I use Metro when the 586 is on reduced service. Metro is pretty good for getting me downtown and on rare occasions, to North Seattle.	11/19/2014 7:41 AM
692	Yes, but it takes longer than driving. The only reason I use public transit is so I don't have to pay for parking where I am going.	11/19/2014 7:37 AM
693	Sometimes. The busses are not reliable in Seattle, by and large.	11/18/2014 11:58 PM
694	They work well but I wish there were a stop closer to my house.	11/18/2014 11:44 PM
695	They generally can get me where I need to go but are often not available when I need to get places in the morning before 7 am or on the weekends after 7 pm. Often I have to take multiple buses or have long wait times (>45 minutes) to get where I'm going in the morning, late evening/night, or weekend.	11/18/2014 11:40 PM
696	I don't take the bus to or from work because the route that run to my house don't run late enough. (Ravenna Ave NE) Cutting the 30 route to just Peak hours is major inconvenience. I relied heavy on that bus to get me home. If I were older and not able to walk up and down the hill from the Ave. I would essentially be stranded.	11/18/2014 9:23 PM
697	Service is great to downtown during rush hour but otherwise the bus is a terrible option for getting around town. Service is not frequent enough and there are no express options.	11/18/2014 9:13 PM
698	For the most part. I tend to travel on routes with frequent service, and I typically don't travel too far afield.	11/18/2014 9:11 PM

699	slow now, I'm hoping Link to UW (then the 480 will speed my trip	11/18/2014 9:00 PM
700	Downtown to U District is good, U District to Wedgwood usually good, but slow. Getting to and from Fremont and Ballard from other north end locations is painful.	11/18/2014 8:58 PM
701	Work well but just is a long commute. Transit options do get me to desired location.	11/18/2014 8:52 PM
702	They get me where I'd like to go with relative ease.	11/18/2014 8:26 PM
703	Most of the time, however the 9 and the 60 are the buses that I take the most, and they always come around the same time, which makes it difficult, and these buses don't run late enough or on the weekends for me to go to work at 7PM/11pm, forcing me to take a taxi or walk.	11/18/2014 8:23 PM
704	Bus to work and the light rail to the airport. Yes, it's great. Economical and convenient. I live near a route that runs every 10 to 15 minutes so it works.	11/18/2014 8:10 PM
705	They are pretty good for getting me from home (Lake City) to work (downtown) and regular after-work activities (U District, Wallingford). Wallingford to Lake City is a problem via bus. I use the Greenlake Park & Ride in Roosevelt in order to get to Wallingford after work and still be able to get home after my activity, but the parking runs out really quickly. I'm concerned about what I will do for parking once the Roosevelt light rail station opens us (although I can't wait!)	11/18/2014 8:00 PM
706	Yes usually. I drive from Vashon to Burien 2 days/week. My commute from Vashon to UW takes about 2 hours each way because of the transfer and slow rush hour bus speeds in downtown.	11/18/2014 7:53 PM
707	They get me to where I want slowly & inefficiently.	11/18/2014 7:49 PM
708	For the most part, transit gets me where I want to go. However, service frequency in the evenings or on Sundays could be much better.	11/18/2014 7:34 PM
709	I currently use the 43 and 48 most days and really love them to get between UW and home. When I have babysitting jobs it is trickier; sometimes the times don't work out to get from the 75 to the 43/48 when I'm going home from babysitting in Matthews Beach, or the 48 isn't as frequent late at night. It's wonderful when the 43 turns into the 44 (and vice versa) so I can see friends in Wallingford/Phinney/Ballard, but that doesn't always happen so it's hard to count on that convenience.	11/18/2014 6:46 PM
710	The current bus routes get me to where I need to go.	11/18/2014 6:42 PM
711	They mostly get me where I want to go. I also decide to go places based on whether or not the bus goes there easily. If the bus doesn't go there I don't tend to go there that much.	11/18/2014 6:31 PM
712	The 65 would go directly from my stop to Jane Addams, but it is on a long-term detour which adds about 5 minutes to the ride. It definitely gets me where I want to go.	11/18/2014 6:31 PM
713	We have a car (shared between two of us) so I only use them when they work well, otherwise I drive. I'd love to be able to take transit more, including to Ballard and West Seattle, but I'm not up for a long bus ride with transfers. In general, transit to/from Capitol Hill is good to adjoining neighborhoods, and I feel lucky to live in an area that is so well-served by transit, and is often a likely candidate to pioneer new forms of transit like bikeshare. Very excited for the streetcar and light rail to open here.	11/18/2014 6:24 PM
714	Bus route 43 is crucial for me to get around where I need to go, and it works well for me. Bus route 49 is my backup and provides needed access to Eastlake area.	11/18/2014 6:17 PM
715	Most of the time. It would be more convenient with more frequent schedules.	11/18/2014 6:15 PM
716	I live close to the University Village and work in the University District on 11th & NE 45th. There is no longer any bus service that goes straight up the viaduct. My commute has been lengthened significantly by going through campus and having to change buses. Also it's extremely inconvenient to get to SEATAC as I have to change buses twice.	11/18/2014 5:51 PM
717	For the most part - yes. I love that I can take the light rail into work almost every day!	11/18/2014 5:50 PM
718	Yeah, they work well for the most part. There are certain areas that can be tricky to get to. But I am generally satisfied with the transit options.	11/18/2014 5:49 PM
719	Yes and no. The limited times at night for most really limit my ability to stay late to work in the lab, meet up with colleagues, or have dinner in areas. I also need to drive to a park and ride that fills up quickly and often times will walk a mile or take multiple buses to get to work.	11/18/2014 5:32 PM

720	Transit to the airport is really slow - need express lines to/ from north seattle, U district, and downtown to/from airport. In addition if traveling by plane east, it's sometimes not possible to catch a bus early enough in my north seattle neighborhood to get to the airport in time for early morning flights.	11/18/2014 5:27 PM
721	See previous East-West comment	11/18/2014 4:40 PM
722	Yes! I've lived in Seattle for 2 months. I was hoping to be able to get by without a car when I moved, and that's absolutely been true.	11/18/2014 4:38 PM
723	the 49 does not run often enough, is frequently unpredictable or late. Please have the popular and crowded 49 run more often during commute hours. The 25 does not run often enough, either. There are no buses running east-west between Montlake/UWMC and Eastlake, up the hill between Boyer Avenue (Boyer children's clinic) and Roanoke/Eastlake.	11/18/2014 4:37 PM
724	Mostly, yes. I've relied on the buses for years and overall I find them reliable and convenient. I wish they'd run more often, though.	11/18/2014 4:34 PM
725	#65 gets me to and from work at the UW but is often late, too crowded and doesn't run often enough.	11/18/2014 4:20 PM
726	They certainly do! My only issue is with the overly crowded university express buses heading to downtown on the commute home after work. Way too frequently commuters and students are packed in there beyond what's safe, let alone comfortable (physically AND emotionally!). I regularly have to let one or two evening buses to downtown go by so that I don't experience claustrophobia being packed in. The drivers are great and do their best to accomodate us all, but I hope that once the light rail reaches UW, you won't drop the bus routes or their frequency. I imagine the light rail will take enough of the students/staff/faculty to allow the expresses to be reasonably full instead of overcrowded. Please allow time to see what the ridership will be after the light rail connects from downtown to UW before changing the 71X,72X, and/or 73X schedules.	11/18/2014 4:18 PM
727	The #47 route was cut so I rarely use the bus any more. I mostly walk or drive to work.	11/18/2014 4:14 PM
728	They work fairly well within Seattle, but not so well outside of Seattle. Outside of Seattle, I feel the routes are either limited, arrive infrequently, or take circuitous routes.	11/18/2014 4:12 PM
729	Yes, except when I have to transfer busses, which artificially extends commute time. "L"-shaped commutes with a transfer are the worst (eg. Capitol Hill to Ballard).	11/18/2014 4:09 PM
730	They work, but it takes forever. The downtown bus tunnel is the worst. The time (especially at the end of the day) of the commute is at least 2x what it is supposed to be per the schedule.	11/18/2014 3:52 PM
731	Usually	11/18/2014 3:43 PM
732	They work, but the commute can be long.	11/18/2014 3:41 PM
733	Most of the time. Would like light rail to go north to Bothell and Woodinville. Connection to Everett via the east side (Bellevue, Redmond, Kirkland). Buses should have priority in carpool lanes!!!!	11/18/2014 3:33 PM
734	I can commute pretty well from 125th St. & 15th Ave. to UW, but I am not able to realistically use transit to take my son to his child care in View Ridge. Especially when light rail is extended north, I hope that some route will do for 125th St. what the 65 now does for 145th St. In other words, send more buses west on 125th St. to connect our neighborhood to points east and south. In general, it is hard to use Metro to visit friends if they live east or west of us in the north of the city. Connections between South Lake Union and Northeast Seattle are awful right now and result in very long commute times for all the Amazon employees who work in my neighborhood (Olympic Hills / Lake City). Many software developers work later hours than traditional employees (10-6 or 11-7) and express northbound service from the Westlake/Fairview/Mercer area at those times would help encourage them to commute by bus. Currently my husband, who seems unwilling to leave the office before 5:45pm, takes an hour to get home because he has to make his way to Westlake Station first and then catch a 41 bus. Several other neighbors on our street work at Fred Hutch or Amazon and consistently drive to work. All the road expansion in the world will not solve the "Mercer Mess," but express bus service outside of the normal rush hour timeframes might. When I was offered a job at Edmonds Community College last year, I tried really hard to commute by bus, but it was a nightmare. What took me 15 minutes in a car was about 1.5 hours by bus. If only the 373 ran in the opposite direction, it would have been fine. I chose not to continue working there. I understand they are meant to serve a more immediate area, but bus service in general seemed very sparse and parking lots were always full.	11/18/2014 3:30 PM

735	They work...okay. There are not any express routes from east to west or vice versa, so to get to work I have to go through UW or Northgate which is frustrating when i want a direct route. I often drive, but would take the bus WAY more often if there was a quicker route. The 30 just got cut down, which sucks because I work full time and go to school full time and I have odd hours so I need to get from UW to Sandoint and back on off-peak hours. On days when I go to school (2-3 times a week), I only take the bus. I use One Bus Away and Google Maps (public transit option), but often the busses don't come hen scheduled, which is frustrating. Coming from Boston & having spent a lot of time in DC, I wish there underground transit SOOOO BAD that would not be affected by traffic! Or above-ground transit on a rail (not on the street) that also would not be affected by traffic. I think it sucks to punish the people who choose the responsible way to travel by public transit and the people who drive their cars get there just as fast. If transit was faster, more people would take it.	11/18/2014 3:28 PM
736	Great! I only have to get on one bus. It would be nice if the Sounder train from Tacoma to Seattle were more direct, but currently the train goes through Puyallup, Sumner, Auburn, Seatac before reaching downtown. If I have to connect to a link or bus Downtown it would double my commute.	11/18/2014 3:18 PM
737	Good for commute to/from work. Anything late (night classes, evening entertainment) is not very good.	11/18/2014 2:20 PM
738	It takes me 1-1.5 hours to go 11 miles. That increases to nearly 2 hours if I try to use only public transit. My transit options require many transfers, slow routes with lots of stops, or little parking (i.e. at Link stations).	11/18/2014 2:10 PM
739	For the most part. I wish I could take a bus from my home to the TDS but it's just not an option.	11/18/2014 1:59 PM
740	yes.	11/18/2014 1:57 PM
741	The 271 is my primary commute bus. I find that in the evening (5 - 6:30), buses are not consistent and it seems like they don't all run as scheduled. For some reason, it is difficult to track the 271 using OneBusAhead - it will say a 271 should be there but it does not show up.	11/18/2014 1:55 PM
742	Yes, it would be nice to have a direct, non-transfer route, rather than the need to transfer. But until then, I at least get some walking exercise done on a daily basis.	11/18/2014 1:40 PM
743	I can get where I need to go by bus... sometimes it's more or less easy and time-consuming, though.	11/18/2014 1:40 PM
744	They work well. Buses from UW in the evening are regularly packed full.	11/18/2014 1:39 PM
745	They mostly work well. I really would like a true express from Woodinville/Bothell to the UW - only a few stops at Park and Ride lots.	11/18/2014 1:37 PM
746	They accommodate work, though I also planned where I live based on how transit accommodates my work schedule.	11/18/2014 1:35 PM
747	More 586 time options would be helpful.	11/18/2014 1:27 PM
748	Don't run very often or very late in the evening	11/18/2014 1:12 PM
749	yes, but my bus is always late and very crowded	11/18/2014 1:07 PM
750	Fine, but could be better (reliability, time, & connections)	11/18/2014 12:59 PM
751	I can get where I want to go, but the frequency of the bus has been cut down a lot. This makes the buses more crowded. I don't understand on some of the routes, why the smaller buses are used when they are so crowded there isn't even standing room. It's very difficult for me to stand very long or to sit in a smelly overcrowded bus. Also - on the 37, because there are so few runs, I cannot find a morning bus and an afternoon bus that work together for me to be at work the right amount of time. I either have to stay longer at work or cut it short. I can take a 37 to work and take a 56 back, but then I have to walk longer than I am comfortable. Another comment - in the past couple of years I have been on the bus 3 times where the bus driver missed a turn or got lost going from downtown to West Seattle. I don't remember ever having that problem before.	11/18/2014 12:58 PM
752	They do get me to where I'm going but every bus and train I take these days has standing-room-only crowds both morning and night.	11/18/2014 12:51 PM
753	3/4 the time they get me there. I wish there was parking around the Rainier Beach Link so I could take that. Currently it takes two buses to get there and i'm a little over a mile away from that stop.	11/18/2014 12:42 PM
754	yes. But slow. Buses too crowded.	11/18/2014 12:41 PM
755	For the most part I can usually get around solely using the bus system. Its awesome. Any increase in routes and/or increase in frequency in times per route would only be appreciated.	11/18/2014 12:20 PM
756	Yes	11/18/2014 12:20 PM

757	Most commonly I use metro route 65 75 and 32 to get between work and home. For the most part it works well, buses are usually on time, but sometimes get very crowded. Especially during rush hour around 5:00pm. The buses on these routes that come around 5:00pm are almost always the smaller buses. It would make sense if the larger buses were used at this time since it is a highly used route at a very crowded time. The bus is packed and often turns away additional passengers multiple times a week.	11/18/2014 12:19 PM
758	Very well. Yes.	11/18/2014 12:04 PM
759	They get me to where I want to go eventually. I am lucky to live on Capitol Hill within blocks from all the lines I use to commute to work and school, but getting anywhere else is more challenging. Service is not offered late enough if I want to go out in another neighborhood. And service on the weekends is too infrequent to match with a carefree schedule. Even when I commute to school I leave 30 minutes before I need to based on the schedule because too often my scheduled bus is 10-15 minutes late and I end up being late to class or work. I still commute by bus because parking downtown and on campus is too expensive, but outside of commuting, unreliable and infrequent service are what deterrers me from busing. Also, public transit is too expensive! Especially when you have to pay separately for the various transit entities. An Orca card helps but not always. I was walking 40 minutes to and from work to save \$90/month until I became a student and loans paid for my U-Pass.	11/18/2014 11:57 AM
760	yes they work fine.	11/18/2014 11:57 AM
761	Reasonably.	11/18/2014 11:57 AM
762	Usually, though sometimes transit takes way longer than it should.	11/18/2014 11:57 AM
763	buses to U district are pretty consistent 373 is only a commuter bus so have to rely on the 73X to get to U District during non-peak hours.	11/18/2014 11:56 AM
764	For the most part, yes.	11/18/2014 11:55 AM
765	As already mentioned in my previous response, I wish there was a bus that went directly from the Mountlake Terrace Transit Center to the South Lake Union neighborhood. My UW Medicine Advancement office is located in South Lake Union at 850 Republican Street. Right now the bus takes me to the heart of downtown and then I walk. The streetcar doesn't arrive often enough. It's faster to walk to SLU than to wait for the streetcar. Going home, I walk from my SLU office to 6th and Olive to catch the bus home to the Mountlake Terrace Transit Center. I have to STAND UP in a VERY crowded bus more than half of the time! This makes me crazy and miserable.	11/18/2014 11:35 AM
766	Currently the 71/71x, 72,72x, and 73/73x all get me to where I need to go for work.	11/18/2014 11:33 AM
767	I would like a direct route from my house to downtown Seattle as I frequently travel to downtown but need to take two buses (9544 Sand Point Way NE). I take 1 bus to work and home every day and it is fantastic except that it is frequently late.	11/18/2014 11:29 AM
768	The ones I use work for my (most frequently the 49. Please never cut or reduce that route!) The 49 gets me exactly where I need to go. It is harder for me to get to places like Fremont and Ballard from where I live, though so I take Uber to those locations. And I miss the 47.	11/18/2014 11:26 AM
769	they don't. I can't use them to get to work at all.	11/18/2014 11:14 AM
770	Yes, eventually.	11/18/2014 11:07 AM
771	No.	11/18/2014 11:05 AM
772	Yes I can get where I want, most of the time. Sometimes, I can't get on the bus to UW campus because it is full.	11/18/2014 11:03 AM
773	Somewhat	11/18/2014 11:00 AM
774	Metro buses are never on time. I always have to use the previous bus when looking at the one bus away app because I know the one I want to take will never be on time. They do get me to places I need to go but NEVER on time.	11/18/2014 10:59 AM
775	Currently I only use the bus if I do not have to transfer and I sometimes drive, park and then catch the bus when possible. The bus works for me, but I feel as if the times are very odd, it's not like you can expect a bus every 10 or 15 minutes- which I find odd and inconsistent.	11/18/2014 10:58 AM
776	Yes, usually they work well. Problems occur with overcrowding on the bus or when traffic/construction slows the bus.	11/18/2014 10:44 AM
777	Good for the most part. It hard getting transit to Federal Way Transit Center mid-morning and between 1-3pm. It's very difficult getting transportation from UW Campus Seattle to UW Campus Tacoma.	11/18/2014 10:42 AM

778	OK, BUT IT COULD BE A LOT BETTER. WHEN I BOUGHT MY HOUSE IN SHORELINE THERE WAS A METRO ROUTE THAT WAS PERFECT. IT WAS DISCONTINUED SOON AFTER I MOVED (2000)	11/18/2014 10:31 AM
779	Yes. However, I would prefer it if the 64 were continuously late as it has been for the past several months.	11/18/2014 10:31 AM
780	For the most part, yes.	11/18/2014 10:25 AM
781	Its currently difficult to get from Capitol Hill to Pioneer Square.	11/18/2014 10:19 AM
782	Generally yes. Buses work well to get me from home (near Volunteer Park) to work (UW tower). However if I am going from my home to Ballard or Green Lake, I never take the bus because it takes too long. Instead, I Car2Go. Also, there currently is inadequate public transit to go from my home to IMA (I often end up walking the entire way, as the bus connections end up taking longer).	11/18/2014 10:13 AM
783	Yes	11/18/2014 10:11 AM
784	Yes, I feel lucky to be able to live in a city without needing a car. I can walk to and from work (Capitol Hill to Belltown), and if I'm lucky, there are buses that go from downtown to the hill. There are certain neighborhoods (West Seattle, Ballard) that take a frustrating amount of time to get to sometimes. I may have a new job in Sand Point soon, and I wonder how the buses are to there. I would like to get to Kirkland or Redmond easily from Capitol Hill too. I like that I can get to the airport easily now!	11/18/2014 10:07 AM
785	Generally they work well. The one area that doesn't work very well is trying to get from the Eastlake area up to Capitol Hill around 15th & John. You have to either travel to downtown and transfer, or else take the #49 then get off along Broadway and walk about a half mile.	11/18/2014 10:02 AM
786	I very much appreciate the frequency of the 43 & 48, which gets me from Capitol Hill to where I work in the University District. They also work well during snow routes	11/18/2014 9:58 AM
787	Transit options work OK, for the most part. I generally walk 20 minutes to and from the location where I catch the bus to work and get off to return home. The stop is at the bottom of the north end of Queen Anne Hill, near Seattle Pacific University. I live on the top of the hill. I'd like to have bus service between the top of the hill and the University of Washington, like the old route 45, but I understand that this route doesn't get enough riders.	11/18/2014 9:56 AM
788	East-west trips are biggest challenge (like this is news! :-). North Capital Hill to Seattle Center is difficult.	11/18/2014 9:54 AM
789	They work. My daily commute time to work is long (1-1.5 hours from West Seattle to UW, sometime longer if there's bad weather, etc.). If I drive to work, the commute is much shorter (30-40 minutes). I'd prefer to use public transportation, and would love to see a shorter commute between these two areas.	11/18/2014 9:53 AM
790	My commute to the UW campus works well because I get on early enough to get a seat but the bus is packed with people standing in the aisle by the time we get to Wallingford.	11/18/2014 9:51 AM
791	No. The buses have been running 10-25 minutes late. It is so infrequent and not dependable that I'm having to use other options.	11/18/2014 9:48 AM
792	Yes.	11/18/2014 9:47 AM
793	As long as I don't have to transfer then transit options have worked well. When transferring, delays or poor coordination between routes causes me to choose to drive.	11/18/2014 9:46 AM
794	For the most part. I walk a lot, so often wind up walking a fair amount instead of taking transit if the bus doesn't run on schedule or a transfer takes too long.	11/18/2014 9:46 AM
795	yes	11/18/2014 9:44 AM
796	Luckily, yes. But it takes about an hour for me to get to work by bus. And each bus is completely packed for the entire ride, with standing room only! I think this means we need more busses!	11/18/2014 9:38 AM
797	Yes	11/18/2014 9:32 AM
798	Yes, but many other unnecessary stops are along the way, or having to transfer busses.	11/18/2014 9:13 AM
799	They work very well as of now. I get where I need to go.	11/18/2014 9:13 AM
800	The transit options for me work fine for my current needs.	11/18/2014 9:12 AM
801	The transit I use is very convenient. The only changes I would make would be to the Park & Ride where I park.	11/18/2014 9:12 AM
802	Yes, with the exception that CT buses do not go to South Lake Union, so I have to add another route to my commute since moving to SLU from the UW campus.	11/18/2014 9:06 AM

803	Yes, but they are infrequent.	11/18/2014 9:03 AM
804	I can't use transit to get to work at my current job in northern Belltown without it taking ~80 minutes each way for what is only a ~5 mile trip. It takes multiple transfers and two 20-minute walks, which isn't practical for a commuter. Transit works well for anyone who lives and works in a strict north-south area from downtown to the university or from Ballard to downtown or West Seattle to downtown, but for anyone needing to make an east-west trip followed by a north-south trip, the links between transit lines are uncoordinated and really impractical. Seattle residents don't all live in the same two north-south east-west corridors, yet transit lines act as if they do. Transit options also don't work for me if a bus is so full that I can't ride it.	11/18/2014 9:02 AM
805	Ok, I would like a bus that runs a bit later in the morning and later in the evening	11/18/2014 9:00 AM
806	Yesterday I had to walk 2.5 miles to get to bus stops. This is likely difficult for older or disabled riders. Transit is very slow and inefficient. It took well over an hour yesterday to get from capitol hill to green lake.	11/18/2014 8:57 AM
807	work day bus ok, week end bus horrible	11/18/2014 8:55 AM
808	They get me where I want to go and they are really helpful in a pinch but I think with high volumes of commuters, less routes, you are de-incentivizing the whole process. Why take a bus when it is becoming a hassle?	11/18/2014 8:46 AM
809	They work great for now. But traffic is getting heavier, the buses are picking up and dropping off later, the earlier bus is packed to the gills. There needs to be another option that is just as convenient as the 586 express bus.	11/18/2014 8:44 AM
810	Only in the mornings. I take the 21 express from Arbor Heights, transfer to a bus going to the U District. The evenings are difficult	11/18/2014 8:43 AM
811	Pretty solid right now. Sometimes the buses aren't on schedule or the OneBusApp isn't synced up properly, which can be quite frustrating.	11/18/2014 8:43 AM
812	I get where I want to go, but the 71/72/73 to downtown are standing room only at 5:30 p.m. when I get off work, so I have to stand all the way to downtown. Also, a bus from Stanwood to UW would be helpful for me.	11/18/2014 8:36 AM
813	Bus is often overcrowded or even full. Bus does not serve the ferry terminal.	11/18/2014 8:36 AM
814	yes, but it takes too long	11/18/2014 8:30 AM
815	For the most part. I get frustrated because going east/west from Ravenna to Wallingford/Fremont/Ballard/Magnuson Park can be really challenging. Usually I just drive.	11/18/2014 8:27 AM
816	They get me there, but often not very effectively	11/18/2014 8:21 AM
817	for the most part they do, on occasion i will use an alternate form of transportation such as lyft or car2go if the busses are running late though	11/18/2014 8:21 AM
818	Spectacular	11/18/2014 8:18 AM
819	I use Community Transit the most - prefer their services/drivers, but wish the schedules were more frequent	11/18/2014 8:16 AM
820	Yes, but it may take 30 min or longer to get from one neighborhood to the next	11/18/2014 8:15 AM
821	Getting to the airport on public transport starting in the University District will help a lot.	11/18/2014 8:11 AM
822	They work well and yes I get where I want to go.	11/18/2014 7:57 AM
823	Transit comes too infrequently and is consistently overcrowded./	11/18/2014 7:56 AM
824	yes	11/18/2014 7:56 AM
825	I must drive to a transit center - no bus service even though I am in King County. Parking fills up early at the Auburn transit center and forces would be riders to drive. City of Auburn has plenty of parking available, but posts it for 4 hours max. In the evening, it can take over an hour between UW and the international district on an express bus. Since final train heading south leaves at 6:12, I must leave work by 5:05 to ensure catching the train. Having a 7:00p.m. train would provide a backup and allow me to work later, mitigating commute traffic.	11/18/2014 7:52 AM
826	Yes, but they don't run often which makes commuting hard sometimes. longer waits in the rain and cold weather or over filled buses which make some riders have to wait for the next bus making them late.	11/18/2014 7:51 AM
827	Yes, could have more busses.	11/18/2014 7:44 AM
828	Yes, but I wish there was a faster route.	11/18/2014 7:36 AM

829	They get me where I want to go, but often the buses are packed full and I have to wait for the next bus several times a week. There is no shelter for the bus stop on Rainier Ave S at S Stevens, right outside the Mount Baker Station. The 7 & 9 buses along Rainier Ave S are always dirty and feel unsafe.	11/18/2014 7:32 AM
830	For an effective commute in the morning, there is one transit option - taking the 2nd #316 (starts at Meridian Ave N and N 175th at 6:25 AM then transfer to the #355 at N 85th St & Wallingford Ave N . for the 6:51 AM bus. Please note, the #316 does not have a stop near N85th on Wallingford Ave N, so need to get off at N 82nd and walk back - there used to be a stop at N 85th which still has the concrete frame for the bus stop. Going home, can take the #316 directly from the Freeway stop #5419 at NE 45th. Bus is seldom on time & the tracker system a joke so just go stand at the stop and get my walking in pacing the bus stop. I normally get in about 6,000 steps waiting for the bus. On nice days, I take the #355 to N 85th and walk to North Seattle Community College where I catch either the # 345, #346 or the elusive #316. I could use the #66/#67 to Northgate Transit then to the #345/#346, but the connections always seem to just miss.	11/18/2014 7:21 AM
831	yes except the current bus routes and schedules take too long or don't match up with the ferry schedule and adds to my commute time	11/18/2014 7:15 AM
832	My commute is about 1 hour 45 min in the morning and 2-2 1/2 hours at night. The bus/train get me to where I'm going, but it is a significant amount of time out of my day that is my commute.	11/18/2014 7:15 AM
833	Mostly, they do. It would be better if the Sound Transit 556 bus came through UW to Issaquah a little earlier in the day. Currently, the first time it hits campus is about 2:35. If there could be one sometime between 1:30 and 2:00, that would be very beneficial.	11/18/2014 7:07 AM
834	Not on Time, I have to be at work at 6:00 and the Sounder's first run is 5:23 and therefore I have to catch the 566 to Bellevue and then the 271 which still gets me here 5 minutes late	11/18/2014 6:56 AM
835	Why don't trains and buses connect? Every time I come from the airport, I get off the train and my bus has left 10 seconds before. Why don't they coordinate and make the bus wait for the train ? At night you take the train from the airport to downtown, and then I have to wait 30 minutes for the next bus.	11/18/2014 6:24 AM
836	I hitchhike daily Would love to see this city move beyond the private automobile - be a beacon to the world	11/18/2014 5:55 AM
837	Yes but busses are often delayed and standing-room only.	11/18/2014 4:59 AM
838	U-pass works fine, except for Sunday mornings and holidays, when I would have to wait 30 min for a bus after working the night shift...so I just drive on those nights	11/18/2014 2:48 AM
839	I never learned to drive, so I rely on transit a great deal. I can usually get where I want to go within Seattle, though it can be slow. The Eastside is a bit more challenging, but it's usually possible to get where I want during the day. Night and weekend transit to/from the Eastside is often limited. Far East King County (Duvall, Carnation, Sammamish) is pretty impossible on Metro. I often have to take a taxi if time is of the essence, or for locations outside of Seattle, Downtown Bellevue, or Downtown Redmond.	11/18/2014 2:15 AM
840	They work well, usually have to take connecting buses. Campus parkway and 15th & Ave northbound is usually my stopover station.	11/17/2014 11:39 PM
841	The transit is convenience and works great and able to reach to many places that I want to go.	11/17/2014 11:39 PM
842	Hard to move neighborhood to neighborhood. For example, there is no direct line between Greenland and lake city.	11/17/2014 11:38 PM
843	For the most part, though not always reliable.	11/17/2014 11:29 PM
844	Eventually.	11/17/2014 11:23 PM
845	they work for me and take me where I want	11/17/2014 11:18 PM
846	More direct routes from UW to second hill in Capitol Hill	11/17/2014 11:09 PM
847	Generally, yes. The 48 is probably the most used and most effective route in my everyday life. It stops a block from my house and I can get to school, work, to friends, north and south of me. The 71, 72, 72 express busses are also equally important for me. I can also take them to get to school and to downtown.	11/17/2014 11:05 PM
848	Mostly all right; it's difficult to get from Greenwood to Capitol Hill.	11/17/2014 10:54 PM
849	So far so good, I am happy with how I can use Metro and Sound Transit, but I think they can better serve underprivileged communities.	11/17/2014 10:53 PM
850	Yes.	11/17/2014 10:49 PM

851	Yes	11/17/2014 10:40 PM
852	for the most part yes	11/17/2014 10:37 PM
853	Yes. If I need to go downtown or to my doctors, I take local buses and I am pleased with the times. I find my service needs to be fairly simplistic ... I live in a place that has good services to school (UW) and downtown. When I was attending Bellevue College last year, it was cheaper and faster to use my car, go Prius! It literally cut my commute time by half. It is stupid that I often had to wait 10-15 minutes, more than doubling my travel times to get to school in Bellevue.	11/17/2014 10:32 PM
854	yes, from p&r	11/17/2014 10:29 PM
855	Please refer to the answer to Q3.	11/17/2014 10:24 PM
856	It works well. I do get to where I want to go.	11/17/2014 10:06 PM
857	Yes, but the 48 takes a long time if I am taking it during off-peak hours.	11/17/2014 10:05 PM
858	Going to greenwood is inconvenient, and Ballard too. It takes a long time. Downtown isn't so easy either. Would appreciate later bus service on weekends.	11/17/2014 10:04 PM
859	They do not work for me, hence I drive alone to and from work! #277 is still being kept (I have no idea why and no one is able to share why!!) at a old-time standard when people worked from 9-4!! It stops at 11ish one way and 5ish the other way!!!!!! Extend the hours to a full and complete day and all of us would gladly use it at all times and would even be willing to pay higher fares for our comfort!	11/17/2014 10:03 PM
860	My bus options do get me where I want to go, but in traffic, it can take quite a long time (90 minutes).	11/17/2014 10:03 PM
861	Generally, they work well. The 71-73 busses work particularly well between the University District, where I work, and downtown. The D bus has been great for Ballard to downtown, but as noted above, losing the No. 61 (or the all day 17) has been a huge loss. My husband isn't really able to regularly walk from hour home to the 44 or 48 so that impedes our ability to use the bus to get to work at the University.	11/17/2014 10:03 PM
862	Except for the few weeks where the 255 wasn't running on the weekends without notification, everything is good. But having buses from West of UW campus to the Uvillage on weekends and nights would be awesome.	11/17/2014 10:03 PM
863	I use primarily the bus. If it is late or the routes are unavailable, I use Uber/Lyft, or a taxi, which I find frustrating and expensive. I'd rather take the bus because it is cheaper and often convenient.	11/17/2014 10:02 PM
864	The transit system options work great... for now. Unfortunately the 271 is getting cut in January and that is the bus i take to Issaquah Transit Center	11/17/2014 10:01 PM
865	they take me from my place to UW from bellevue, they get me where I want to go.	11/17/2014 9:46 PM
866	The hours are not great. I often need buses in the 8am-10am time frame or the 7pm-8pm time frame and many routes are either infrequent or nonexistent at those hours.	11/17/2014 9:45 PM
867	We chose our apartment because it allowed us to easily walk or bus to work and had good access to transit hubs like UW and downtown. I use public transit when 1) The trip with be not much over 30mins 2) The service is frequent and predictable enough that I can be somewhat flexible in when I decide to go home 3) The stops are within a 10min walk of my house/destination. 4) I would have to pay to park or if parking is un-reliable 5) I don't have a lot of stuff to carry I recently decided to get my own car after not having one for 10 years because the lack of transit options was negatively affecting my life. It was difficult to visit some friends and family because transit was inconvenient because the destinations were far away (Eastlake to Mountlake Terrace) or the distance was short but required transfers and backtracking and a lot of extra time(Eastlake to Madrona). Grocery shopping to my preferred store (PCC) is also much faster via car	11/17/2014 9:39 PM
868	yes	11/17/2014 9:32 PM
869	The options I use do typically get me where I need to go, but they often take double or triple the time it would take to drive myself to where I'm going. This makes it much harder to visit friends or do activities outside of the Seattle city limits. They're also often crowded, especially in the U-District.	11/17/2014 9:29 PM
870	King Metro transit is great. Gets me everywhere I need to go.	11/17/2014 9:23 PM
871	yes, they are quite convenient but take a long time.	11/17/2014 9:20 PM
872	The service is okay. Sometimes very crowded, but I can get to where I need to go. Usually never late to my destination.	11/17/2014 9:18 PM

873	I take Metro nearly everyday but walk .75 to 1 mile to my final destination. RT 64x is very slow and long. gets stuck on I-5, stops a number of times before serving 35th Ave NE. Up to an hour on bus vs 15 minutes in car...	11/17/2014 9:14 PM
874	Best way to reach from Kent to UW campus plus takes less time.	11/17/2014 9:13 PM
875	I answered that in the previous page.	11/17/2014 9:12 PM
876	The options I used work well.	11/17/2014 9:12 PM
877	yes	11/17/2014 9:10 PM
878	They usually do, but on weekends I have to make a couple transfers to get from the U-district to tacoma.	11/17/2014 9:02 PM
879	I do not like having to cross NE 45th street at the intersection of 45th street and Union Bay PI NE to get to my house. The bus use to go up NE 45 pl to 35th ave NE. This allowed me to get off the bus much closer to my house.	11/17/2014 9:01 PM
880	Currently, transit options aren't offered when I need them and I have had to go from using metro buses to carpooling or driving.	11/17/2014 8:50 PM
881	I don't drive, and except for late buses and overcrowding, transit here works well for me. When I have to go places that are further away from the main transportation lines, like Belltown or Loyal Heights, the bus stops are typically several blocks further from my destination than I'm used to. The walk to and from the downtown transit tunnel and Colman Dock is a little far and steep for comfort, not to mention the unfortunate situation of the Marion Street pedestrian bridge. Light rail to the airport works great, as do the various intercity Sound Transit routes I've taken.	11/17/2014 8:46 PM
882	Evening wait times and capacity are problematic in transit from the U-district to Wallingford/Ballard	11/17/2014 8:46 PM
883	To/from downtown works well and to/from UW is also pretty good. Getting from one Seattle neighborhood to another is harder.	11/17/2014 8:42 PM
884	For the most part, they work pretty well. I wish the buses that go from Kirkland to UW were more frequent, though, and I miss the 265 as well.	11/17/2014 8:26 PM
885	the north-south lines are okay, but there are not nearly enough east-west lines. it's really difficult to get from one quarter of the city to another.	11/17/2014 8:21 PM
886	Mostly, I wish it was a little easier to get from Madison/23rd to Harborview and the VA hospital	11/17/2014 8:17 PM
887	Yes, I feel quite comfortable not owning a car.	11/17/2014 8:16 PM
888	There 's 2 transfers on the weekends. I hope I don't have to take 2 buses on the weekends. I live in Redmond. I take 542 on weekdays and 545 on weekends.	11/17/2014 8:06 PM
889	Yes but....going north to south is typically much easier than going east/west. Traffic congestion, a lack of E/W traffic arterials, and a reliance on mass transit that fights traffic is frustrating. Additionally, some routes require transfers that may be full at peak ridership and eventually it becomes easier and sometimes faster to just walk or to take transit part-way and then walk from there instead of riding all the way to my destination.	11/17/2014 8:00 PM
890	While living in the U District, transit works very well for me. It works terribly in the suburbs.	11/17/2014 7:59 PM
891	Very Well. Almost always very smooth rides and quick.	11/17/2014 7:55 PM
892	Yes, they get me to where I want to go.	11/17/2014 7:53 PM
893	Not really. Not easily or in a timely fashion.	11/17/2014 7:51 PM
894	Yes	11/17/2014 7:51 PM
895	Yes	11/17/2014 7:44 PM
896	generally, but they're often not on time, and the wait between buses is long enough that most people won't use them because it's quicker to drive.	11/17/2014 7:43 PM
897	Currently, using the 48 Bus route, after my husband drops me off at the Mt. Baker Transit Center, I go to work at UWMC. I then ride back to the Mt. Baker Transit Center and my husband picks me up. Once the Link Rail to UW is completed, I will take the Link Rail from Columbia City to UW.	11/17/2014 7:40 PM
898	They work great. I think that there could be fewer stops though.	11/17/2014 7:40 PM

899	Yes, the CommTrans 871 takes me exactly where I need to go. The Sound Transit express buses usually get me where I need to go.	11/17/2014 7:39 PM
900	They take a long time, sometimes.	11/17/2014 7:39 PM
901	Yes	11/17/2014 7:28 PM
902	Sometimes. Currently I have to drive to a bus in order to access non commuter hour transit because of cuts to the 28	11/17/2014 7:27 PM
903	The transit options are pretty decent and they typically allow me to get where I need to go, however, I wish I would be able to get to my destination faster and I also wish that service was available at later times.	11/17/2014 7:24 PM
904	At times- lots of either early buses that do not wait or significant delays, both of which cause scheduling troubles. Also major cuts in routes makes it difficult to find a bus at a convenient time and has caused a greater need for transfer and longer time to transport.	11/17/2014 7:19 PM
905	most bus stops are relatively close to the chosen point of destination and so there is usually less than 15 minutes of walking from the bus stop to the destination.	11/17/2014 7:17 PM
906	They are the only form of transportation that I have and they work perfectly.	11/17/2014 7:12 PM
907	With the bus cuts, it takes a lot longer to get to the places I need/want to go and I have to add in more transfers. A lot of the busses I use regularly have reduced hours so I have to be more conscientious about leaving and returning. They worked better before but they're not terrible now.	11/17/2014 7:10 PM
908	Yes, but on the #44 the bus is sometimes so full that I have to wait for one or two buses until there is one I can board at night.	11/17/2014 7:08 PM
909	They work fine however some routes should run more often.	11/17/2014 6:59 PM
910	They take me where I want to go but it takes a few connections to get there.	11/17/2014 6:48 PM
911	They work reasonably well, as my destinations tend to be around high density areas. On weekends coverage isn't as convenient as I'd like, but it's acceptable. Yes, the transit options get me where I would like to go.	11/17/2014 6:48 PM
912	For getting to the UW and to downtown, transit has been great! Getting to the VA Hospital and South Lake Union has proven difficult and time consuming. There should be more direct options for these locations, such as extending the 48 from the UW to Beacon Hill up to the hospital or light rail station. It would be nice to have a bus, other than the over-crowded 70 that goes from the UW directly to South Lake Union, perhaps with fewer stops on Eastlake and one that extends over to Denny/ Seattle Center.	11/17/2014 6:41 PM
913	I ride Metro bus and Sound Transit go to doctor, counselor (Sound Mental Health) I use currently Metro Transit every Monday..	11/17/2014 6:38 PM
914	Yes.	11/17/2014 6:34 PM
915	Not great but OK	11/17/2014 6:34 PM
916	For the most important	11/17/2014 6:24 PM
917	Generally, with a reasonable amount of walking.	11/17/2014 6:19 PM
918	Buses are rarely on time, but get me where I want to go	11/17/2014 6:10 PM
919	Generally, yes, but with a lot of walking. Crowding on the evening 48 bus is very frustrating.	11/17/2014 6:07 PM
920	Yes, but at very specific times.	11/17/2014 5:59 PM
921	Bus, pretty well	11/17/2014 5:57 PM
922	Yes	11/17/2014 5:54 PM
923	The Express buses work well for me to get to campus however they have been very crowded or overloaded at peak times lately.	11/17/2014 5:53 PM
924	I can get to UW Seattle from Kent.	11/17/2014 5:48 PM
925	I was sad when 205 was discontinued from Mercer Island and UW. My feelings in general: I can usually get where I want to go but the experience is miserable (always have to stand or wait for a 2nd bus because the first is full).	11/17/2014 5:46 PM

926	yes, but I wish I could get from Capitol Hill to Ballard more easily and to the airport with less connections in between	11/17/2014 5:41 PM
927	sometimes. often the 8 is overcrowded at peak times and is running very late.	11/17/2014 5:32 PM
928	The biggest problem is that they don't always run very late. For the most part they work for me. There are places I cannot easily get to via public transit.	11/17/2014 5:29 PM
929	They work if I plan far enough in advance. The inefficiency of the busses (35-40 minutes on the bus sometimes vs. 15 minutes driving alone on the exact same driving route) and infrequency of departure times means I have to leave home up to an hour earlier to take the bus vs. driving alone. So, they do get me there, but it takes a whole lot longer, therefore means I have to get up much earlier. However, the bus is not an option for me when I have late night classes as the routes become so infrequent or nonexistent in the late evenings, so I am forced to drive.	11/17/2014 5:27 PM
930	The 197 does not run enough. It would be nice to have a bus that leaves the twin lakes park and ride until 9 or 10 am. It would also be nice to have the bus from the UW run until 8 or 9 pm.	11/17/2014 5:26 PM
931	Yes	11/17/2014 5:23 PM
932	They do get me where I want to go, though I do need to transfer at the Bellevue Transit Center, and they don't always connect well with the other bus I have to take.	11/17/2014 5:21 PM
933	I took a Metro bus for 9 years when I lived in Columbia City and worked on First Hill. Then I carpooled for 10 years when I lived further south, near Othello and MLK. Now that I live near Seward Park Ave. S. and S. Othello, I drive every day. Currently, if I commuted via Metro buses, I would currently need to take 2 buses. Currently, if I commuted via Link Light Rail, I would need to take two buses (1 at each end). FYI - The # 48 bus route needs to be split up - so that the Laurelhurst segment is separate from the Rainier Valley segment. The # 48 bus route heading South has historically been notoriously late at the U-District stops, and sometimes takes a full hour to show up (missing a route).	11/17/2014 5:20 PM
934	They work extremely well. The 44 route brings me from my house to University of Washington campus where I work.	11/17/2014 5:19 PM
935	The ones I use currently work	11/17/2014 5:16 PM
936	Yes, they go everywhere that I need to go.	11/17/2014 5:12 PM
937	Getting to Sea-Tac airport now is a huge problem. I have to take Light Rail and two to three buses in addition to get home. It has taken me 3+ hours to make it to my home in Sandpoint using Link Light rail and transferring. That discourages me from using mass transit to get to the airport.	11/17/2014 5:10 PM
938	Yup	11/17/2014 5:08 PM
939	Sort of. There aren't a lot of choices.	11/17/2014 5:08 PM
940	They could be more consistent in arrival times. Gets me close enough to where i want to go	11/17/2014 5:07 PM
941	They generally work effectively. The 44 bus is always overly crowded in the mornings though so my commute to school often involves walking instead.	11/17/2014 5:03 PM
942	Sometimes. There is no good way to bus from Sunset Hill to Capitol Hill.	11/17/2014 5:02 PM
943	Yes (Eastgate P-R to Downtown) Eastgate P-R to Sea-Tac more directly would be great.	11/17/2014 5:01 PM
944	Commuting between Lake City and	11/17/2014 5:00 PM
945	My # 74 bus to work is always overcrowded, standing only, and uncomfortable to ride in. It is also stressful waiting for the bus because I never know whether or not I will get a seat from downtown. In order to confirm that I can get a seat I usually walk several blocks out of my way to catch the bus one station earlier. The #30 used to take me to Fremont, Seattle Center, but no longer goes there.	11/17/2014 4:58 PM
946	Generally, they work okay. There is still room for improvement with bus connections with Washington State Ferries. Commuting on Vashon via public transit on Saturday, Sunday (no services), or off-peak commute hours is challenging. Also, it is more difficult to get from the Faunteroy Ferry terminal to the airport than previously (when 590 connected).	11/17/2014 4:58 PM
947	They get me where I want to go, but timing multiple transit methods can be tricky-especially on weekends	11/17/2014 4:54 PM
948	Yes	11/17/2014 4:54 PM
949	For most of the time, yes.	11/17/2014 4:50 PM

950	Yes, nearly always.	11/17/2014 4:49 PM
951	okay	11/17/2014 4:49 PM
952	Connections to light rail are poor. Transfers are unreliable and slow. For example, I prefer driving from Madison Park to UW instead of taking bus because of poor connections and irregular services in the evening.	11/17/2014 4:46 PM
953	They generally work well. Certain routes (especially the 25) run too seldom and sometimes I can't tell if I missed the bus. One bus away doesn't seem to work as well on certain routes.	11/17/2014 4:45 PM
954	Most of the time they work for me, though sometimes I have to get to a location really early so that I don't get there late since I can't bet that a bus will be on time.	11/17/2014 4:44 PM
955	Yes, but slowly and sometimes with multiple stops. Buses are not always on schedule.	11/17/2014 4:42 PM
956	yes	11/17/2014 4:41 PM
957	The service cuts to route 30 and the fact that it's being cut entirely in less than a year are inconvenient for me.	11/17/2014 4:40 PM
958	Yes they do.	11/17/2014 4:39 PM
959	Desperately need route up and down 45th from UDistrict directly to UVillage without having to go down to Route 25 via Stevens Way.	11/17/2014 4:38 PM
960	The work OK. It's hard to get from Ballard to anywhere South of downtown or to Cap Hill.	11/17/2014 4:36 PM
961	I do but it takes a lot of time.	11/17/2014 4:35 PM
962	It usually gets me to most destinations without much trouble.	11/17/2014 4:33 PM
963	They do. Just that often times there are not enough buses and options to travel with metro.	11/17/2014 4:30 PM
964	They get me to where I want to go, but it is not ideal for how much money I pay for a UPASS, and that I have had to change my work hours to accommodate the bus delays and how long it takes.	11/17/2014 4:24 PM
965	yes	11/17/2014 4:24 PM
966	Generally, but getting from my house to the airport takes 2 buses and 1 light rail ride, so not exactly convenient	11/17/2014 4:24 PM
967	I love Metro and for the most part have nothing but nice things to say. Metro has gotten much better but this last scare made me wish that I had not voted to make it part of King County so many years ago. I am very flexible about what I call a ride home. I would prefer to be walking in my neighborhood rather than spending more time waiting downtown for the best bus to arrive. It was kind of sad for me when the bus tunnel opened and the route 66 was split off from the 71,72,73 series. But waiting in the bus tunnel is much better than waiting on the street for many reasons - safety and lack of exposure to the elements.	11/17/2014 4:21 PM
968	Yes, however inadequate parking available at Redmond Transit Center; on several occasions have planned to take the bus but had to drive due to full parking garage. Not really Metro's issue, but has impeded bus ridership.	11/17/2014 4:20 PM
969	For the most part, yes. I have to drive once a week because when I get done with activities in the University Village area in the evening, it is too difficult to get back home to the Federal Way Transit center and it takes too long. The other 4 days I take the bus, but it often too crowded.	11/17/2014 4:19 PM
970	They usually do, but if you miss one bus you usually have to wait half an hour for the next one. Sometimes they just don't show up at all.	11/17/2014 4:18 PM
971	my vanpool is excellent - the bus system in Seattle is very good....	11/17/2014 4:18 PM
972	Yes.	11/17/2014 4:15 PM
973	Pretty well. Bus 70 is very convenient except (1) Campus Parkway is well north of UW Hospital, where I work; and (2) it is often delayed in the evening (5-7 pm), I think because of SLU traffic on Fairview. Maybe it could go on Eastlake instead?	11/17/2014 4:11 PM
974	They do go where I want to go, however, they don't always run when I would like to take them. I really wish the 30 route was still available to take after peak hours.	11/17/2014 4:11 PM
975	Yes, at my current job at Harborview the 355 is perfect (this was not on the list). The elimination of the 48 Express was a huge inconvenience when I was commuting to campus everyday.	11/17/2014 4:09 PM

976	Metro is useful within Seattle. There is not enough service around my apartment, 4233 7th ave ne. All of the useful bus routes are at least .75 miles away. Metro is not useful in the suburbs, most notably Kent and Fairwood. Buses to kent are slow and most only stop at Kent station. I would like to get closer to my house, 21434 129th Pl SE 98031. The Sounder is my favorite method of transit. The bus from UW to northgate, and from Bellevue to UW (271), takes insanelly long.	11/17/2014 4:08 PM
977	Not very well. Transit options rarely take into account people who have to work off-shifts.	11/17/2014 4:06 PM
978	Close/near to the destination	11/17/2014 4:05 PM
979	I live on the number 14 line, which was cancelled. I am disabled to the point I cannot walk far, and this puts me at a great disadvantage for using Metro anymore. The steepness of hills should be taken into consideration since many older and disabled persons cannot navigate Seattle's hills without transit.	11/17/2014 4:03 PM
980	It's easy to a find a route I need but sometimes there are difficult time intervals for transfers, specifically when I'm downtown. Otherwise, the buses can be used to get basically anywhere in the county just fine.	11/17/2014 4:03 PM
981	yes. but hours are limited to rush hours between my home and down town (Bus Rout 102). also it take more than hour and a half to each way.	11/17/2014 4:02 PM
982	yes they do. most of the buses i take are direct except to go home from UW. I take one of the 70's to downtown then take the light rail if someone can pick me up or I take the 121, 122, or 131.	11/17/2014 4:02 PM
983	Works ok now, wish there were more options in case I miss the bus.	11/17/2014 4:02 PM
984	I bike as much as possible, but frequently hop the bus when the weather is terrible, I don't feel like riding, I get a flat, or I'm going to the airport.	11/17/2014 4:01 PM
985	they work great. Taking the bus in the mornings is a breeze. The problem is that I don't like to take it home in the evening because I don't feel safe, because there are always people onboard who seem like they are really on the edge.	11/17/2014 3:59 PM
986	I would like to see some options for commuters traveling to South Sound. I would like to see Sound Transit attends to commuters from the North's needs.	11/17/2014 3:57 PM
987	Mostly.	11/17/2014 3:54 PM
988	They don't work. I have no choice but to drive my car. You need more options parking at the rail stations for non day shift workers.	11/17/2014 3:53 PM
989	they are generally good but the I5 between Northgate and University of Washington should have commuter lanes.	11/17/2014 3:53 PM
990	Bus service has been cut back, resulting in overcrowded buses even on the earlier runs. There is no way to easily go east/west from Magnolia (to Ballard, Fremont, U District, Sand Point)	11/17/2014 3:53 PM
991	They work fairly well. The #44 is pretty much always packed in the mornings, however. I have had a couple incidents where the bus just could not stop at my stop because it was just way too full. Fortunately, it runs every 10 minutes, but this can be frustrating at times, as you do have to account for the possibility that the bus will run right past the bus stop. For days that parking is free at UW, I just take my car because the 44 does not come that close to my house, its about .75 mile away from the closest 44 bus stop.	11/17/2014 3:52 PM
992	Yes but not as quick during rush hour, esp between uw/north seattle to downtown seattle	11/17/2014 3:52 PM
993	The 65 and 75 buses leaving the UW in the evening (ie 5-6:30) are incredibly crowded. I am the second stop on the route and seldom get a seat. Often I can not even get on the bus it is so crowded.	11/17/2014 3:52 PM
994	Yes, they are very effective at getting me where I need to go in a reasonable amount of time.	11/17/2014 3:52 PM
995	From northwest Ballard (Sunset Hill area) there are very few transit options to get to other parts of the city. I need to walk 10-15 blocks (OK for me, but not easy for older or disabled individuals) and then often need to take several connecting stops. Based on how often the buses run, it takes a long time to get anywhere. Thus, I'm forced to drive and then have to deal with traffic.	11/17/2014 3:51 PM
996	The water taxi's limited service combined with the limited service of bus routes that serve Admiral and Alki make it difficult to get home in the evenings sometimes.	11/17/2014 3:50 PM
997	Yes	11/17/2014 3:50 PM

998	It is often difficult to get on the routes I use. I only use routes 71x, 72x and 73x to get to/from downtown Seattle and the UW. As you know, these routes are heavily used by students, staff and others going to the UW. It is especially heavy during rush hour (am & pm) and I've been left by buses more times than I can count because there is not enough room on the bus. Although it is understandable that this is for everyone's safety, it is still very frustrating and inconvenient to see the bus pass causing one to be late to work/school. The buses should pass through every 5 min. instead of 10 during peak hours.	11/17/2014 3:49 PM
999	Most often they work for me when I have the time. I do wish there were more frequent and reliable ways to travel to and from South King County.	11/17/2014 3:44 PM
1000	Usually	11/17/2014 3:44 PM
1001	Somewhat reliable. Sometimes buses leave early or late, though, which makes it hard to rely on them if there's an event at work that I cannot be late for.	11/17/2014 3:43 PM
1002	My transit needs are met really well. I do think the 2 could run more often, but it's ok.	11/17/2014 3:41 PM
1003	I take the 48 bus infrequently even though I live two blocks from a bus stop (which is not covered) on 23rd and East Pine. I drive because the bus stop is uncovered (which is unpleasant when it rains) and because I often work late so I like knowing I can drive home when I need to leave. On the other hand parking at the UW gets more and more expensive and is a growing disincentive for driving.	11/17/2014 3:41 PM
1004	Yes, but it would be nice if they would divert at times. If traffic is bad, I wish my transit systems would have different routes.	11/17/2014 3:41 PM
1005	Sometimes it works great. For example, getting from our home in Lake City to school/work at the UW is convenient. Going east-to-west across the city is (for practical purposes) impossible, so we end up driving, though we would prefer not to. That issue in particular (the fact that crossing I-5 is apparently some sort of unsolved physics problem) is the TOP reason we finally bought a car, after 8 years living car-free in Seattle.	11/17/2014 3:39 PM
1006	Fine. I am concerned that bus service will be dropped once light rail gets to Northgate. I'm half way between 65th and Northgate, so it would take too much time to walk to either.	11/17/2014 3:39 PM
1007	Alright. 271 is super inefficient, 554 to 71/72/73 is the best option for me to get from eastgate to udistrict.	11/17/2014 3:39 PM
1008	Nearly always, but if not, I greatly enjoy walking.	11/17/2014 3:36 PM
1009	to the university, yes	11/17/2014 3:35 PM
1010	Yes!	11/17/2014 3:35 PM
1011	I <3 the 41.	11/17/2014 3:33 PM
1012	Usually	11/17/2014 3:32 PM
1013	I'm a fairly willing walker, so they work pretty well for me. I would like more service and less transfers (obviously) but in general I am able to find decent options.	11/17/2014 3:31 PM
1014	I walk to work and school, and ride my bike most other places. I use transit to get to the airport and for recreational purposes. For the most part, they do get me where I need to go.	11/17/2014 3:31 PM
1015	For the most part yes	11/17/2014 3:29 PM
1016	Mostly. I would like a bus route that goes from 15th Ave. NE & NE 55th (or somewhere in N. U district) directly down to U village. Currently I have to take 2 buses.	11/17/2014 3:29 PM
1017	I'm very fortunate to live across from the Aurora Village Transit Center, and I usually am able to go north or south very easily. The transit options work wonderfully well for me.	11/17/2014 3:28 PM
1018	I currently drive alone.	11/17/2014 3:27 PM
1019	yes	11/17/2014 3:26 PM
1020	They work for me very well as someone without a car for most of the year.	11/17/2014 3:25 PM
1021	yes	11/17/2014 3:24 PM
1022	They work great as they drop me off close to my destination and I do not have to walk far.	11/17/2014 3:23 PM
1023	They work pretty well. They go where I want to go, with relatively frequent service.	11/17/2014 3:20 PM
1024	Yes, the transit options work beautifully for me, and yes, they get me where I want to go.	11/17/2014 3:18 PM

1025	For the most part yes. I can easily get from Uw to Redmond. But I need to be picked up and dropped off from Sammamish, in order to reach the bus.	11/17/2014 3:18 PM
1026	Mostly, even if they're not always as direct as I'd like	11/17/2014 3:18 PM
1027	Yes.	11/17/2014 3:17 PM
1028	Yes, but there is some challenges with getting home from University of Washington to Tacoma/Lakewood after ST 586 stops running around 6:30pm. I usually need to leave campus around 7:30 pm, and it is always an adventure to get to Tacoma.	11/17/2014 3:14 PM
1029	Yes, the budget cuts have increased waiting times though	11/17/2014 3:14 PM
1030	Need more buses to connect the East side and the University District/downtown - buses are always full in the morning and you often have to wait for a few buses before one is empty enough to get on. Only one bus connects South Mercer Island to the P&R - bus does not come often enough	11/17/2014 3:14 PM
1031	Transit options work great; they get me where I want to go or within walking distance in a timely manner.	11/17/2014 3:14 PM
1032	I don't go to Discovery Park or Magnusson park or Ballard much because they are hard to get to. I have to leave ridiculously early to get from Capitol Hill to Harborview via bus; it's faster to walk but it's a far walk. I wish it were faster to bus places, but I end up taking Lyft a lot because I am in a hurry between one thing and another. Taking the bus from Capitol Hill to and from downtown or the U-district is pretty easy and works well.	11/17/2014 3:13 PM
1033	Eventually. Having lived in Chicago and San Francisco, King County's Metro could learn a few tricks.	11/17/2014 3:13 PM
1034	I drive for now but would prefer to take public transit.	11/17/2014 3:13 PM
1035	Yes but hard to get to uw gym when taking 43 or 48 makes for a long walk	11/17/2014 3:13 PM
1036	They work well; all I would request is more frequent schedules :)	11/17/2014 3:12 PM
1037	Mostly, yes. The 48 northbound from UW has gotten pretty crowded in the afternoon/evening - especially after the express routes were cut.	11/17/2014 3:12 PM
1038	Route number 167 is very useful to people like me who live in Renton. During school year, we have 4 buses in the morning and 5 buses in the afternoon. Most of the buses are crowded. Yes, they bring me to work and take me back. After 5:06 pm there is no bus. That is inconvenient. If there is a last bus around 6 pm. that can be helpful to students and employees alike.	11/17/2014 3:11 PM
1039	I rely on the bus to get to work in the U-District. There is one bus (355X) that can take me directly from my work to my home, but it is very unreliable in the evening. Since the 355X is frequently late, I often take alternate routes that require me to transfer later on.	11/17/2014 3:11 PM
1040	Usually get me where, I need to go but they are typically crowded and stuck in traffic. I have been stranded at late hours unable to get home.	11/17/2014 3:11 PM
1041	Generally yes but I try really hard to avoid transferring because inevitably one bus is early or another is late and I miss my connection.	11/17/2014 3:11 PM
1042	Trips are long, especially considering how needed it is for hospitals. Busses are frequently late. Overcrowded especially with school kids using it as a substitute for Seattle providing school buses.	11/17/2014 3:11 PM
1043	No, the current transit options do not work for me. The service from Lake Forest Park to UWMC (connection of bus) does not operate until after 6am.	11/17/2014 3:09 PM
1044	Yes. I mainly use the 271 from Bellevue to U District and back and it is terrific. There are times when I would like a faster way to get from U District to downtown Seattle.	11/17/2014 3:09 PM
1045	For the most part, yeah. It's getting harder with the transit cuts, but I know that's a larger issue.	11/17/2014 3:09 PM
1046	East-West routes are, and always have been pretty painful in Seattle. This needs long term improvement, but more frequent runs would help, somewhat.	11/17/2014 3:08 PM
1047	They work pretty well, though I often need to use multiple buses or walk for >15 minutes to get where I'm going.	11/17/2014 3:07 PM
1048	Usually. Sometimes the schedule is not very convenient	11/17/2014 3:07 PM
1049	They work fine, though in the mornings/afternoons/evenings they can be very over crowded.	11/17/2014 3:06 PM

1050	Transit currently takes about the same time as driving due to traffic congestion. Riding the Sounder from Auburn Station to King Street is 2-3x faster than driving the same distance of roadways. HOWEVER, the express 71, 72 routes take 2-3x more time than driving would. So it's kind of a crapshoot.	11/17/2014 3:04 PM
1051	Mostly. Would like to see better options in/out of Queen Anne as I consider future moves.	11/17/2014 3:04 PM
1052	Traveling time has increased as direct routes have been cut (so have to transfer now) and Service availability has also been restricted due to cur in non-peak time service. They do get me to my destination, save for Greenlake.	11/17/2014 3:02 PM
1053	Mostly. I use the bus 95% of the time. Service could be increased to make it a more viable option for most city residents.	11/17/2014 3:02 PM
1054	My transit options improved when I moved from Wedgwood to Wallingford (more buses to more destinations). From Wedgwood, it was very time consuming to get downtown or to travel east/west. I eagerly anticipate the U-District Link Light Rail because it will make commuting to and from SeaTAC more efficient.	11/17/2014 3:01 PM
1055	Great. Yes.	11/17/2014 3:01 PM
1056	They work fine	11/17/2014 3:01 PM
1057	They work very well and get my to my destination. Even routes that do not drop me off at my exact destination are able to get me close enough within walking distance that I can arrive there within 5-10 minutes.	11/17/2014 3:00 PM
1058	Pretty well. There are often 30-40 minute gaps between all of the possible options from a given stop. Put another way, it'd be nice if the lines that service a given stop were offset so that you didn't have to wait 30 minutes for a bus. For example, why do the 73 and 373 arrive at pretty much *every* stop within minutes of each other? Why not offset them by 15 minutes?	11/17/2014 2:59 PM
1059	They are great. I can save on gas and be able to go work and school.	11/17/2014 2:59 PM
1060	Yes	11/17/2014 2:59 PM
1061	I can go most places. I just have problems going east-west across north Seattle. Getting to Ballard seems particularly difficult.	11/17/2014 2:59 PM
1062	Transit options work very well overall for my needs.	11/17/2014 2:57 PM
1063	Yes.	11/17/2014 2:57 PM
1064	Yes.	11/17/2014 2:54 PM
1065	yes mostly	11/17/2014 2:53 PM
1066	My cuttent bike/bus/bus route is ok. Glad route 271 was saved.	11/17/2014 2:53 PM
1067	I often have to take several buses to get where I need to go, and sometimes I just don't go because of how long the commute would take. I don't usually have enough time in a day to devote 3 hours to waiting for buses or trains getting to and from somewhere.	11/17/2014 2:52 PM
1068	They do, but I wish there was a bus from the ferry that gets closer to the campus.	11/17/2014 2:51 PM
1069	Yes.	11/17/2014 2:50 PM
1070	The 48 is a miserable route. Since the express went away, it is ALWAYS standing room only after work. The buses are ALWAYS late. It's awful. It sometimes takes me 1.5hrs to go from UWMC to my house in Loyal heights. It's really unacceptable but I don't drive and I'm stuck	11/17/2014 2:49 PM
1071	More inter-neighborhood connectivity beyond Udist and Downtown needed.	11/17/2014 2:48 PM
1072	It is really hard to commute via bus from Queen Anne to the Udistrict. If I commute via bus it takes at least an hour to get there because I have to go downtown to transfer first. It often takes at least an hour and a half to get home due to traffic getting into the bus tunnel. If I drive it usually only takes about 20 minutes. The buses to UW are also ALWAYS packed. I usually have to stand the whole way there and back or are turned away because the bus is too full.	11/17/2014 2:45 PM
1073	For the most part yes. However, since recent cuts, accessing residences North of University Village has been near impossible on weekends.	11/17/2014 2:45 PM
1074	I end up walking to Rainier Ave often as the 50 bus is no that convent.	11/17/2014 2:44 PM
1075	yes	11/17/2014 2:42 PM

1076	They get me there but buses are often over crowded and if there's bad traffic, they're stuck going a particular route instead of taking side streets or alternate routes like you could in a car.	11/17/2014 2:42 PM
1077	They work relatively well, however, often times buses that go through the University of Washington campus are very late.	11/17/2014 2:42 PM
1078	Have to change buses. Would be better to have a direct connectivity.	11/17/2014 2:42 PM
1079	It is not optimal - it takes too long, is unpredictable (buses frequently do not arrive on time or at all or the bus size is too small for the passenger load).	11/17/2014 2:41 PM
1080	They work pretty ok. Anytime i need to go from ballard to capitol hill or further than downtown, it does take a good while.	11/17/2014 2:40 PM
1081	Yep! routes 71, 72, 73 and especially the express buses for those routes are awesome!	11/17/2014 2:40 PM
1082	yes	11/17/2014 2:39 PM
1083	For the most part, the transit options work fine. However, I often can't find buses that run near me late enough at night, and that's frustrating, because it's my primary mode of transportation, and I can't afford to take cabs regularly.	11/17/2014 2:39 PM
1084	Yes. But from the ferry terminal to pioneer square station is a far walk.	11/17/2014 2:39 PM
1085	Yes.	11/17/2014 2:39 PM
1086	Currently, I am satisfied. I can go almost everywhere I want.	11/17/2014 2:38 PM
1087	yes	11/17/2014 2:37 PM
1088	They work, but they are very cumbersome and time consuming. They currently cost too much time in the day. One of the major problems I see is that the different forms of transportation do not connect with each other well and thus much time is lost on the transfers.	11/17/2014 2:35 PM
1089	Most of the time I can get where I need to go on the buses, however if I want to go outside the city it takes much longer and I tend to drive instead. For example it takes 30 minutes to drive from u district to Woodinville, but that same trip would take me an hour and a half on the bus.	11/17/2014 2:33 PM
1090	Yes	11/17/2014 2:33 PM
1091	Difficult in the morning... Good in the afternoon	11/17/2014 2:33 PM
1092	Generally pleased with transit service	11/17/2014 2:32 PM
1093	The bus is not very reliable in terms of being on time, having enough space for everyone at the bus stop to load, coming at short and regular intervals. It makes getting around the city take a very long time.	11/17/2014 2:31 PM
1094	I live in Belltown now and so no direct routes from here to the University. When I was in Cap Hill it was different	11/17/2014 2:31 PM
1095	For the most part. The buses I use the most (30,74,75) are having their routes changed and it's made my commute much harder.	11/17/2014 2:30 PM
1096	Yes,	11/17/2014 2:29 PM
1097	Slow, esp. for the 372, which is touted as an express but is far from an express through Lake City. Takes an hour and a half to get from Bothell to Sea-Tac---way too long. 372 is regularly so crowded that I have to fight to get on/off the bus.	11/17/2014 2:28 PM
1098	Yes.	11/17/2014 2:28 PM
1099	Yes- transit locations are good but could be more frequent weekday nights (i.e. when getting home later than 6pm from work)	11/17/2014 2:28 PM
1100	Yes, albeit slow.	11/17/2014 2:28 PM
1101	Transit is often slow and the schedule is not always reliable (for example, the OneBusAway app will first show a 2 minute delay, which will gradually stretch to a 19 minute delay). Buses are EXTREMELY crowded as they near the UW district, from too many university students piling on to take the bus 3 stops.	11/17/2014 2:27 PM
1102	Between UW and the Lynnwood Transit center, my options are very good assuming I was able to park near the Lynnwood Transit Center. Around Seattle mostly work.	11/17/2014 2:26 PM

1103	Gets me to work on time	11/17/2014 2:26 PM
1104	It gets me where I want to go but the 73 bus is always full and late.	11/17/2014 2:24 PM
1105	Yes, they work well.	11/17/2014 2:24 PM
1106	excellent. Community Transit is stellar, king county metro is not.	11/17/2014 2:24 PM
1107	They get me to the UW campus and back home in the SeaTac neighborhood. The travel time though is 1.75 hours each way to and from work. This is over 3 hours of travel time a day. It would be great if there was a Metro bus that traveled on 34th ave south	11/17/2014 2:23 PM
1108	They're fine for getting to work at the University of Washington, although particularly between 4-6pm, the 372 is always standing room only--at they later campus stops northbound, I would not always be able to get on the bus. During the morning commute time (6-9 pm), I have seen 372 busses drive the NE 80th & 25th NE stop already full. At other times, especially with the 72 bus, and especially at night, timely service rarely happens.	11/17/2014 2:22 PM
1109	Yes but could be faster and more reliable	11/17/2014 2:21 PM
1110	They mostly work, though not often seamlessly. One of my key observations is that, at times, buses are not available when you most need them. For example, when I attend a night baseball game or an evening performance at a downtown theater, I often find myself waiting a long time in the dark for a bus. Seems like there should be more coordination between major events and bus availability.	11/17/2014 2:20 PM
1111	Walk, bus or take Link to Mount Baker bus bay and then #48 Metro to work. The opening of the Link light rail service has added 1/2 hour to my commute time because #48 no longer serves the MLK corridor. I live 1 mile from Mount Baker station. To save time, I often drive part of the way and catch the #48 in the Central District or on Capitol Hill. My commute will be much shorter when the new light rail stations open in 2016.	11/17/2014 2:20 PM
1112	The mornings are very crowded, and as the weather gets colder, waiting half an hour for a bus gets less appealing, but I recently moved to Seattle from a smaller, rural community, so having reliable, fairly all-encompassing public transport at all is a big step up.	11/17/2014 2:20 PM
1113	Pretty well, yes they take me where I want to go	11/17/2014 2:19 PM
1114	Yes...However, having parking available to use light rail from distance would be nice	11/17/2014 2:19 PM
1115	My car works every morning, however I would love to not drive it as much. In regards to mass transit, the answer to the 2nd question is no.	11/17/2014 2:18 PM
1116	Generally. Wish there were a direct bus from Fremont to Capitol Hill.	11/17/2014 2:18 PM
1117	They don't take me to the airport from the UW	11/17/2014 2:18 PM
1118	For the most part, though the accessibility of places due to current transportation options definitely shapes whether or not I think going somewhere is worth my time/energy/cost.	11/17/2014 2:17 PM
1119	Sometimes.	11/17/2014 2:17 PM
1120	The transit options are not ideal for me. I find that, coming from my home in the Madison Park neighborhood, getting many places requires at least one change of bus, and the trip would take so long that I end up driving. I also tend to fit several activities in several neighborhoods into my days--a doctor's appointment in Ballard, therapy in Eastlake, work at UW, teaching at night in Capitol Hill--and the bus cannot take me everywhere quickly enough.	11/17/2014 2:16 PM
1121	Yes and No. Downtown buses are crowded and not all use the tunnel which makes connections challenging. I would like to be able to ride the Sounder from Edmonds and then take light rail to the UW main campus. The Sounder is not currently feasible.	11/17/2014 2:16 PM
1122	Yes, I am very happy about bus service for the most part.	11/17/2014 2:16 PM
1123	They get me where I need to go. Riding the bus is where I get to most of the places that I need to go and I rely on it heavily.	11/17/2014 2:16 PM
1124	Most of the time	11/17/2014 2:15 PM
1125	I find it difficult to get from first hill to pioneer square without walking a significant part of the journey, however, i think that will be resolved once the street car is in place. it would be nice to have a between downtown and houghton park and ride. otherwise, my metro routes work well for me.	11/17/2014 2:14 PM

1126	I moved over a year ago to have a shorter commute. But due to lack of parking or reasonable commute options by bus, I drive through Downtown to get to U-District/Sandpoint area for a 9-12 mile commute one way. It used to take me 3 hours a day to commute, but now it takes me 2 hours a day sometimes longer because if there are accidents or rain or ice or snow, it seems to be backed up and take an extra 30 minutes each way on bad days.	11/17/2014 2:12 PM
1127	It's okay. Ideally, I would love to have a transportation route that would take me directly to work from but that's not an option as I would have to make several transfers. But I still get the where I want to go.	11/17/2014 2:12 PM
1128	The 255 is the best -- bus tunnel to Montlake Fwy stop -- but runs relatively infrequently. There's no great option from the ferry (closer than the bus tunnel) to UWMC/Health Sciences. When UW is in he 70 buses are now so crowded that it's sometimes impossible to get on one in the tunnel or at Campus Pkwy -- and when you can board, it's a miserable, crowded ride.	11/17/2014 2:11 PM
1129	Infrequent, indirect. It takes far too long to get anywhere and if I have two destinations in one day, that is prohibitively long. Few of the entries to transit are within easy walking distance of my destinations, particularly not my home. I took a bus to a Mariners game and was astonished that the bus had stopped running before the game ended. My bad for not confirming but honestly never thought the service would stop that early.	11/17/2014 2:10 PM
1130	They work but they keep me here after I'm done. My personal problem is I'm done with class by 10:30 and have no way back to tacoma until almost 1. I would very much enjoy being home before noon by bus that runs at 10:30 or even 11:30.	11/17/2014 2:09 PM
1131	Yes	11/17/2014 2:09 PM
1132	It is not easy/quick to get from where I am to where I need to go. I need to get from the NW Hospital area to the University District. It is currently much faster to drive in a SOV than it is to use the bus.	11/17/2014 2:08 PM
1133	Yes, but it generally takes at least an hour to get anywhere.	11/17/2014 2:08 PM
1134	Yes, I am able to transfer downtown but its a bit of a pain and I sometimes miss my connection.	11/17/2014 2:07 PM
1135	In general, fairly well. I would appreciate it if some buses came more frequently and reliably, especially if I am trying to make a transfer to another line. Some routes are not timed well to make a timely transfer. Earlier/later transit options would be nice too.	11/17/2014 2:07 PM
1136	right now they work well and get me where I need to go quickly and efficiently	11/17/2014 2:07 PM
1137	I live within 3 miles of my workplace, so transit options generally work very well for me. The exception is that buses are typically not on schedule and the One Bus Away app only does so well in predicting when the next one will arrive. Buses to downtown Seattle also come with the caveat of heavy traffic, which usually means doubling predicted travel time.	11/17/2014 2:06 PM
1138	Yep. I can't complain. A little walking (just about 10 minutes) never hurts.	11/17/2014 2:06 PM
1139	yes	11/17/2014 2:06 PM
1140	Sometimes	11/17/2014 2:06 PM
1141	I get close enough	11/17/2014 2:05 PM
1142	These dilapidated old turnip trucks with windows do, in fact, "get one where one needs to get". It is just a little galling that a "budget crisis" is claimed (as perhaps reason for not replacing or even *repairing* old equipment); meanwhile, technologically impressive machines are added almost daily to lines having equally impressive names like "D Line" and so forth. No, one is actually able to "get" to one's destination.	11/17/2014 2:04 PM
1143	Honestly, I walk to and from my home on Capital Hill to Harborview or to UWMC - depends on where my work takes me. I did ride the 12 but it was so crowded after a bit I just felt better walking. Sure, the 12 or the 43 or 48 can get me to either near Harborview or right in front of UWMC in 10 minutes or less. When I walk it is 30 minutes. I like the exercise and I don't have to deal with over crowded buses.	11/17/2014 2:04 PM
1144	The bus is my primary form of transportation and is generally very good. It would be nice to have a bus that went from downtown to Mary Gates Way area without having to switch, or from Capitol Hill to this area. Also, the 8 is often so crowded in the mornings and afternoons during peak use that it cannot stop to pick up additional riders, making it less reliable as a mode to get to work.	11/17/2014 2:04 PM
1145	I am lucky that I am positioned between many buses and am able to go where I need to go.	11/17/2014 2:04 PM
1146	I have to take two buses and it takes a very long time to get to and from work, 2x or 3x as long as in a car.	11/17/2014 2:03 PM

1147	Yes but it takes such a long time that it is a deterrent to use them. There is no direct route to my work in Bellevue across from Crossroads mall so I usually drive.	11/17/2014 2:02 PM
1148	I currently take ST586 and it's pretty packed when the UW is in session, but it's an easy commute.	11/17/2014 2:02 PM
1149	They work well commuting to and from work but running errands are too difficult via bus	11/17/2014 2:02 PM
1150	Well, but it takes a long time (car trip 20 minutes=bus 1-2 hours to UW and Fremont)	11/17/2014 2:01 PM
1151	The 372 and 68 both work well for me to get to the UW. There aren't many options to get to Capitol Hill or Ballard from where I live (Ravenna).	11/17/2014 2:00 PM
1152	Generally, yes.	11/17/2014 1:59 PM
1153	I have to walk some distance to get to a bus.	11/17/2014 1:59 PM
1154	Good	11/17/2014 1:59 PM
1155	They are very close to my house and I get to exactly where I need to be, they are very convenient and come by fast enough.	11/17/2014 1:58 PM
1156	Yes	11/17/2014 1:57 PM
1157	Yes, but 90% of the time there is only standing room and sometimes the bus is completely full	11/17/2014 1:57 PM
1158	I mainly use the bus system and its been great, except when buses are delayed.	11/17/2014 1:56 PM
1159	It is difficult to use service that goes east and west from the U district. I live on the northern edge and its a very long walk to get to campus, and connections are difficult to time the 70s or 67 to catch the relevant bus from UW campus	11/17/2014 1:56 PM
1160	They get me where I want to go; they are time-consuming, crowded and often late.	11/17/2014 1:56 PM
1161	I use the bus to go to work/school at UW because parking there is expensive and I want to help the environment anyway. The bus options I have are okay, but unreliable and sort of limited. Sometimes a bus will be delayed for 20 minutes (according to OneBusAway, at least) or randomly show up 5 minutes early and I miss it, then have to wait 20-30 minutes for the next option. I take night classes that end at 10, and end up stranded on campus pretty often. I usually call someone to pick me up, or walk by myself to get a car2go. Otherwise I'd have to walk and/or wait outside (most UW buildings close at 10) for 45+ minutes for the next bus, which would be doable in ideal conditions (daytime, good weather, not in a hurry to get home) but not in a typical after-class situation. In general, the buses I take to/from UW (even some around 10pm) can get super crowded, which is unpleasant. I would probably go out more/further from home (e.g. downtown, Capitol Hill) at night/on weekends if I knew that the bus wouldn't be unreliable/take forever, or if light rail existed.	11/17/2014 1:54 PM
1162	In general I am able to flex to accommodate the current options. However, the system suffers from problems with timeliness (reliability that the bus will be there on time) and overcrowding (often due to irregular adherence to time schedules). Reduction in services to the UW when school is NOT in session is problematic. In addition, overcrowding of existing busses during peak school times makes this mode of transportation less reliable.	11/17/2014 1:54 PM
1163	The Sound Transit Light Rail is over packed in the morning and evening to the point where I often drive. I'm not going to stand all the way to or from work. On several occasions the 71-73 express buses have been so packed to and from downtown that I've had to wait for another bus and have seen others left because the buses are simply to full.	11/17/2014 1:54 PM
1164	For what I *need*, they're great.	11/17/2014 1:54 PM
1165	Yes, but way too slowly. More frequent trips, please!	11/17/2014 1:54 PM
1166	Yes, it is working just fine right now.	11/17/2014 1:54 PM
1167	Yes, I do get where I want to.	11/17/2014 1:54 PM
1168	Yes for the most part, but limited schedules out to Lynnwood	11/17/2014 1:54 PM
1169	When they're on time, they're great. When they're late, or on Sunday, it's terrible.	11/17/2014 1:54 PM
1170	yes	11/17/2014 1:54 PM
1171	Reasonably well. Yes.	11/17/2014 1:54 PM
1172	USually.	11/17/2014 1:54 PM

1173	They work ok. For the most part, they can get me where I need to go, but the timing of buses is not always convenient.	11/17/2014 1:53 PM
1174	Yes	11/17/2014 1:53 PM
1175	It is terribly difficult and requires a lot of time and transfers to get anywhere from Wedgwood. Even taking the 372 from Ravenna and 92nd down to campus can take up to 45 minutes due to all the cut downs on buses that then overcrowd the scheduled buses that remain. I also used to attend North Seattle College, and the commute there from barely off of Lake City Way used to take upwards of an hour, and sometimes an hour and a half. I appreciate all the things Metro does to try and save service, but sometimes I find the services I need most are being cut down to the point of severe inefficiency.	11/17/2014 1:52 PM
1176	Yes, the current transit locations are perfect, just a bit unpredictable in timing (frequently 10 minutes early or late, sometimes much more)	11/17/2014 1:52 PM
1177	I try to use them as much as possible since I dislike driving in the heavy traffic here but sometimes I feel the service is so intermittent that I choose to just drive instead. I find myself driving when I have to travel east-west but most of the times on the metro when I move north-south.	11/17/2014 1:52 PM
1178	Yes. Although it would be nice if some of the routes, including the 71X/72X/73X, used faster routes (e.g. I-5) to get between downtown and UW.	11/17/2014 1:52 PM
1179	Yes. But I would like more frequent options to get from Westlake Station --> SLU and more frequent busses from around Mercer Island to the Islands' Park and Ride	11/17/2014 1:52 PM
1180	yes	11/17/2014 1:52 PM
1181	Transit through Downtown and Capitol Hill is generally easy, but it's more difficult to get to areas like Magnolia, Eastlake, and West Seattle.	11/17/2014 1:51 PM
1182	Yes, so long as I travel during the hours my commuter bus operates. If anything keeps me on campus later than 6.30, my commute time doubles or triples because the 73 lets me off a mile and a half from my house, and I either have to walk the remainder or wait for a 347/8 to arrive and bring me closer. Usually it's just as fast to walk as to wait. Also, my old bus stop, right on the corner of 15th and 145th was deleted, increasing my walk by a block - doable but frustrating.	11/17/2014 1:51 PM
1183	They work 75% of the time. Bus rides are long, however, and many times I require a transfer. On the 71 line in particular, sometimes buses flat out do not show up or are severely delayed. Biking around the city is also troublesome, we need more bike lanes!	11/17/2014 1:51 PM
1184	They almost always work!	11/17/2014 1:50 PM
1185	Getting to the airport is clumsy and slow (especially since transferring between a bus and Light Rail is a major pain in the tunnel -- why do I have to upstairs, hauling my luggage, to tap my Orca card?????). Getting to UW campus is nice and easy. I used to do that a fair amount.	11/17/2014 1:50 PM
1186	Yes, since I drive my own car.	11/17/2014 1:49 PM
1187	They are pretty good. They do get me where I want to go.	11/17/2014 1:49 PM
1188	Yes, they are very good. Saturday and Sundays are more troublesome because of the infrequency of the buses, but I can't complain.	11/17/2014 1:47 PM
1189	I do what I have to but I am not happy about it. Infrequent service, no weekend service, detours and cancelled bus routes really make it difficult - even for a person who is whole-heartedly committed to public transportation, and green and responsible living!!! When I add my kids into this mix and calculate the price that we pay as a family each time we take the bus, plus the cold and rain that we have to endure standing at each bus stop waiting for a connection, it makes me want to cry. How stupid! And how irresponsible to put access to public transportation into the hands of voters!	11/17/2014 1:47 PM
1190	Yes.	11/17/2014 1:47 PM
1191	They're okay, but it's crowded and takes forever, and it's broken down twice in the past month. Want express bus to skip wallingford	11/17/2014 1:47 PM
1192	Yes, very well.	11/17/2014 1:47 PM
1193	Yes but, it would be nice to have something more direct to the university of Washington medical center from the sounder train. Right now I have to walk at least a half a mile to catch a bus to take me to the king street station.	11/17/2014 1:46 PM

1194	They work very well for me. I take the 43 to work and home. If there is inclement weather, I can often take the 49 from Broadway and John Street.	11/17/2014 1:45 PM
1195	Between Campus Parkway and Seattle Center, route 32 provides a one-seat ride and runs until around midnight, which is good. However, it is less than half as fast as driving and has a 30-minute frequency, which is laughable for such an urban route. The 71/72/73 express trips that do not use Interstate 5 are barely any faster than the local trips. My travel needs only sometimes coincide with Interstate 5 express trips in the direction I am traveling.	11/17/2014 1:44 PM
1196	I would rather take the Sounder train from Tacoma to South Lake Union, but the train only stops in South Seattle. This does not work for me, so I have to take several buses.	11/17/2014 1:44 PM
1197	Yes, I am usually only one bus from my destination.	11/17/2014 1:43 PM
1198	I love riding my bike, but the city must continue to prioritize safe bicycling throughout the city in every decision it faces. Even just choosing to make other forms of mass transit better is good for biking because it consolidates the number of motorized vehicles on the roads. I can usually find buses that take me where I want to go, but that is because I have deliberately chosen where I live in the past 5 years (4 different locations) based on bus/bike routes.	11/17/2014 1:43 PM
1199	Most of the time. The latest route from the U-district to Edmonds runs at 5:30 pm, which is very inconvenient. The latest route from Edmonds to the U-district runs at 12:30 pm, which is also much too early. I would like to see more routes going back and forth throughout the day between Edmonds and the U-district. Getting to the Seattle Center from Eastlake is also very difficult as is. I would like to see a more direct route between these areas.	11/17/2014 1:43 PM
1200	Usually because I usually go from home to work on transit. I also use transit to go from home to downtown and home to Seattle Center	11/17/2014 1:43 PM
1201	They take twice as long and have me waiting outside in the elements. Some routes have some sketchy, threatening riders that degrade the quality of the transportation experience [used to ride the 358 and that could be a bit shady].	11/17/2014 1:43 PM
1202	Yes. I love the one bus away app.	11/17/2014 1:43 PM
1203	Need more 48 and 66/67	11/17/2014 1:43 PM
1204	They get me to most destinations within the city. But I often choose not to go places if I cannot reach them on the bus or without transferring.	11/17/2014 1:41 PM
1205	yes	11/17/2014 1:41 PM
1206	Yes, but the buses are often very crowded	11/17/2014 1:41 PM
1207	pretty much	11/17/2014 1:40 PM
1208	Generally yes! I love public transit. However I would say I don't seem to get anywhere very quickly, even on the new 'rapid ride' services.	11/17/2014 1:40 PM
1209	Often do, if have time.	11/17/2014 1:40 PM
1210	It works during the day, but I often use taxi's/uber in the evenings when I'd rather take the bus, but the service is cut off too early.	11/17/2014 1:40 PM
1211	They are incredibly efficient and well-run. Sometimes there's a walk involved to/from the nearest bus stop, but it's worth it because of the ease of the system.	11/17/2014 1:40 PM
1212	I would like to take a train	11/17/2014 1:40 PM
1213	Great, Yes	11/17/2014 1:40 PM
1214	Somewhat. My commute home is longer than it could be - I take a less direct bus because my other options are overcrowded and would result in a longer walk home.	11/17/2014 1:39 PM
1215	for the most part, yes. but biking is often faster than busing	11/17/2014 1:39 PM
1216	Mostly, yes. Trips to Des Moines take too long to be practical most day, so I drive.	11/17/2014 1:39 PM
1217	Yes. Most importantly is bus service to and from the University of Washington, and it works for me.	11/17/2014 1:39 PM

1218	I love Metro, most of the time. I commute on 73 and 373 most days. The 373 currently does not run when school is out of session. UW has more employees than students and we are heavy users of transit. The 373 should operate even when school is out. I'd settle for a reduced schedule of only rush hour service. That would be a BIG help.	11/17/2014 1:38 PM
1219	I mainly take the 197 to and from work at the UW. The buses are generally crowded and don't come frequently enough in the morning to get people to work by 8am or 7:30am if they work early. Also very crowded in the afternoon with half an hour between buses.	11/17/2014 1:38 PM
1220	It does but could take long time - length of trip and waiting	11/17/2014 1:37 PM
1221	There once was a bus direct from Mercer Island to UWMC, but that was eliminated. Now I either carpool to HMC and then take the HMC/UWMC shuttle or I make a downtown bus connection in the bus tunnel.	11/17/2014 1:37 PM
1222	Yes	11/17/2014 1:36 PM
1223	Since I need to catch two bused to get to most locations from my apartment, I would say the transit does not get me where I need to go too well. I have good buses for commuting to work, but otherwise I use other means to get around.	11/17/2014 1:36 PM
1224	Metro transit doesn't work well for me. There is no good direct express from west side of campus to downtown. I must cross campus by foot to pick up the first bus (73X). And it stops in the downtown tunnel and not to the ferry. Essentially there is no good direct option from West side of UW campus to the ferry. Hopefully light rail will improve this. But if the light rail times don't match to the ferries, or they are packed, I'll continue to drive by car/motorcycle.	11/17/2014 1:36 PM
1225	66, 70, 72, 72, 73 are great to get from my house to SLU or downtown. 43 or 49 I use to get to Capital Hill	11/17/2014 1:36 PM
1226	I feel like they only work for me and my boyfriend because we live right above Westlake. He works in Queen Anne and I work in the UDistrict and in West Seattle. Living anywhere else makes it impossible for one of us to get there by bus. We lived in the UDistrict last year and I couldn't get to West Seattle without chaining busses and he couldn't get to Queen Anne without doing the same.	11/17/2014 1:35 PM
1227	I love my commute to and from work! It is easy and fast and is so much better than driving. As far as going between neighborhoods, it can be difficult timing the transfers. That is why I try and take one bus as much as possible, as opposed to two. As far as timing of certain buses, especially once it gets later in the evening, getting back to my neighborhood (the 72 serves my area), comes only every hour or so and it can get dangerous to be waiting for so long at night.	11/17/2014 1:35 PM
1228	I am able to commute via bus.	11/17/2014 1:35 PM
1229	yes	11/17/2014 1:35 PM
1230	I am very happy in general with my transit options.	11/17/2014 1:35 PM
1231	Some of the time, eventually I can usually get where I want to go but definitely not in a timely manner. It takes 1.5-2 hours (one way) to get to work each morning, if I drove this would be a 20 min commute.	11/17/2014 1:34 PM
1232	My day-to-day transit works really well, even if they are running late, they run so frequently that it usually works out. It's more challenging for places I haven't gone as much.	11/17/2014 1:34 PM
1233	for the most part, yes	11/17/2014 1:34 PM
1234	Right now they don't. I live in Des Moines and commute to UW. I have a critical position in network engineering. There are too many transfers to utilize transit at this time.	11/17/2014 1:34 PM
1235	Sort of. I often have to make transfers, which slows down my trip.	11/17/2014 1:34 PM
1236	They're great.	11/17/2014 1:34 PM
1237	They work just fine	11/17/2014 1:34 PM
1238	Not always.	11/17/2014 1:33 PM
1239	yes...and connections seem smooth	11/17/2014 1:33 PM
1240	Yes, and it is nice that there are multiple routes that go to the same place so I don't have to wait at the bus stop as long.	11/17/2014 1:32 PM
1241	Current options are good for me, but lately too crowded. Also: I look forward to a more direct link to the airport when the light rail is finished in Capitol Hill and at the University.	11/17/2014 1:31 PM

1242	Not Monday - Friday. The transit options only work on the weekends when I stay in West Seattle or have over an hour to get where I want to go outside West Seattle.	11/17/2014 1:31 PM
1243	Yes but for 197 have to get up way tooooo early. Then the Seattle bus is ALWAYS crowded. Sometimes the line is so long that people actually have to catch the next 586 (I think. Fed Way to. Downtown is the route.) That's inconvenient. The Federal Way Transit Center park and ride is also ALWAYS full by 6am! 6am!! That means if someone comes after that, they have to park in the community areas- laser tag parking lot, Trader Joe's parking lot, etc.	11/17/2014 1:31 PM
1244	They work well. Yes.	11/17/2014 1:31 PM
1245	Sort of. It gets me to work but not to grocery stores or restaurants.	11/17/2014 1:31 PM
1246	So far so good, though it's annoying to work around which stops are accessible.	11/17/2014 1:30 PM
1247	It is okay. I wish there was a direct route to the airport, instead of having to schlep my luggage down the street and then onto the bus, and then off the bus, and then onto the train and then all the way down the LONG corridor to the airport! It's good exercise for me, but for someone who isn't as mobile or for those with disabilities, this renders the airport inaccessible to people who live in NE Seattle (Wedgwood neighborhood).	11/17/2014 1:29 PM
1248	Yes, they get me where I want to go, but I either have to walk a mile to get to my destination or I have to spend an extra half an hour waiting for another bus. Right now, Seattle's transportation options are wide, but they are each very limited. And the fact that it is getting to a point where driving a car is cheaper than riding a bus is distressing.	11/17/2014 1:29 PM
1249	Yes, though it would be nice to have more frequent buses especially during the UW breaks when the frequency is reduced.	11/17/2014 1:29 PM
1250	Transit options work well.	11/17/2014 1:29 PM
1251	Yes	11/17/2014 1:28 PM
1252	The 65 bus is great for commuting between my apartment in Wedgwood and the University of Washington campus. Getting to Northgate Mall from where I live is difficult because I have to take a lengthy transfer at Lake City. To get to the airport, I have to take 2 buses to reach downtown, then the light rail, and it takes about 2 hours. The UW light rail station could help this situation, if the buses from the northern parts of Seattle stop close to the light rail station.	11/17/2014 1:27 PM
1253	Seattle's transit options are largely adequate, although the bus network is often subject to delays due to traffic and crowded streets, and there are parts of the city which are more difficult to reach. I look forward to more rail options which are more consistent in timing.	11/17/2014 1:27 PM
1254	Yes, a little nervous with talk of metro service cuts.	11/17/2014 1:27 PM
1255	Yes, usually	11/17/2014 1:27 PM
1256	I like the bus, but I need to take 2 to get from my house to UW (the 5 and 44) It takes too long.	11/17/2014 1:26 PM
1257	Most of the time yes.	11/17/2014 1:26 PM
1258	Again, I miss the old 27 route, which was the most effective for my non-UW trips. The rest mainly now take more time or are more crowded. Even with the most recent shift the 5 pm bussing has become challenging to plan around.	11/17/2014 1:25 PM
1259	East-west options in North Seattle tend to be slow and very awkward - for instance, wedgewood to Ballard. N/S options tend to work better. Wedgewood to University District generally works well.	11/17/2014 1:25 PM
1260	Yes. It is difficult to get from Ballard to Capitol Hill - especially in the evening.	11/17/2014 1:25 PM
1261	Yes, for the most prt.	11/17/2014 1:25 PM
1262	They do get me to where I need to go. The current routes can be frustrating. But they work alright for my needs.	11/17/2014 1:25 PM
1263	The bus service is often late making me miss the Sounder train.	11/17/2014 1:24 PM
1264	For the most part yes. Sometimes I have to transfer and wait long periods, especially on weekends and evenings.	11/17/2014 1:24 PM
1265	Yes. Could use more 49 and 43 buses. And more 8.	11/17/2014 1:24 PM
1266	They get me where I want to go during peak travel times, but not often on weekends or late at night.	11/17/2014 1:24 PM

1267	Given that I use transit mainly to get to/from work, it works marginally well enough. The frustrations are seeing multiple buses (sometimes 2 #70 buses on each other's bumper arriving at Bay 2 on Campus Parkway, or within a minute of each other) of another route come and go while I wait for my bus, or getting on near Padelford only with the use of a shoehorn (packed to the point riders are sometimes left standing for the next bus). My options to get home are significantly increased since the #372 now stops at 98th and Lake City Way. Thank you, Metro! The transit options I use mostly work and I get to work and home with minor irritations.	11/17/2014 1:23 PM
1268	Yes, they do.	11/17/2014 1:23 PM
1269	I travel mostly on main transit corridors -- so for the most part they do get me where I want to go. That being said... if a destination is off a main corridor I may choose not to go there.	11/17/2014 1:23 PM
1270	For the most part, although I often have 1-2 transfers per trip and usually wait 10-20 minutes for my transfer, which causes my commute time to be fairly long, no matter where I go. For example, in a private car I could drive to my common destinations in about 20 minutes, but using public transportation it takes at least 40 minutes and sometimes over an hour.	11/17/2014 1:23 PM
1271	They get me where I need to go, but I wish there was a later bus leaving from UW to the Renton Transit Center because I catch the last one at 5:15 just as I get off of work.	11/17/2014 1:23 PM
1272	Most of the time.	11/17/2014 1:23 PM
1273	They get me where I want to go. Getting to downtown Seattle anywhere along the water front or along the tunnel stations is very easy and a central hub to meet up for events. Getting between Bellevue and Seattle is easy, getting between Seattle and Tacoma is easy, getting between Tacoma and Bellevue is inconvenient if I did not have a vanpool performing that route. This helps predominately in the mornings when I commute to work, however it does not work in the evenings when I attend school at the University of Washington, social events, work functions, or have to work late/leave early.	11/17/2014 1:22 PM
1274	For the most part, yes. Transportation to and around Mercer Island is not as reliable (although I'm aware this is a separate issue).	11/17/2014 1:22 PM
1275	I think there is too far to walk from my bus stop to my office--it is ~10 minutes. I live 3.3 miles from my office yet it takes 45 minutes to get to work (including walking to/from bus and the ride itself). This is ridiculous and makes me want to go back to driving myself.	11/17/2014 1:22 PM
1276	Yes. However I would like to be able to ride the bus from UW to 12th and Madison if possible.	11/17/2014 1:21 PM
1277	I take Metro or Sound Transit every day to commute to and from my home in Kirkland to the University of Washington Campus. During the summer, I use buses to reach my destinations for the field experiments I conduct as apart of my graduate work. During this time I may use up to 15 different lines in a single day and much of my research wouldn't be possible without them. I've never not been able to get someplace I needed to go, though occasionally the commuting times were burdensome.	11/17/2014 1:20 PM
1278	Transit options currently work well for me to get from home to work/school and back (particularly the 71). A large part of why I moved from my past residence (Madison Park) was due to the difficulty (unreliable arrival schedules, transfers, slow) using transit to get to UW.	11/17/2014 1:20 PM
1279	Yes they work fantastically.	11/17/2014 1:20 PM
1280	Usually yes.	11/17/2014 1:20 PM
1281	they are just fine. the new light linked rail through downtown seattle to UW will cut the trip on metro bus 48 by half.	11/17/2014 1:19 PM
1282	Public transportation from my home in Shoreline is not feasible. However, I am increasingly using transit between the U District and downtown to avoid parking hassles and costs.	11/17/2014 1:19 PM
1283	There is a curious lack of direct transit from Capitol Hill to Central District. Other than that, I'm satisfied.	11/17/2014 1:19 PM
1284	Sounder train to int'l district and then a 71-3X to arrive near UW. It makes for a very easy commute	11/17/2014 1:19 PM
1285	Mostly they work for me, but lately I have been dealing with some anxiety/panic attacks and crowded buses trigger that so sometimes I am late to something because I have to wait for the next bus if the buses are packed.	11/17/2014 1:18 PM
1286	yes, I can readily find a bus, although very often it is overcrowded	11/17/2014 1:18 PM
1287	Fairly well. Sometimes I am on campus after 8pm and the reduced frequency of buses means I wait longer.	11/17/2014 1:18 PM

1288	Most of the time, but the one HUGE problem is the lack of service between UW Seattle and UW Bothell on evenings and weekends.	11/17/2014 1:18 PM
1289	Some of the time.	11/17/2014 1:18 PM
1290	Get me where I need to go, but very poor on time record for buses.	11/17/2014 1:18 PM
1291	Yes but only on weekdays	11/17/2014 1:18 PM
1292	I use Metro to/from work in the U-District and to/from appointments downtown.	11/17/2014 1:17 PM
1293	Yes, the work well.	11/17/2014 1:17 PM
1294	Yes, although one main transit option (the 48) is terrifically slow -- I am usually faster biking or running!	11/17/2014 1:17 PM
1295	trolly from SLU up through eastlake would be great 70 busses are good but get stuck in mercer traffic all the time	11/17/2014 1:16 PM
1296	They work OK. Many times the bus is overly crowded during the daytime. Mostly get me to where I need to be.	11/17/2014 1:16 PM
1297	Yes. 545 is standing room only at commuting times, both morning and evening	11/17/2014 1:16 PM
1298	Yes.	11/17/2014 1:16 PM
1299	Usually. Sometimes delays/slow travel times make me wish I could drive to my destination.	11/17/2014 1:16 PM
1300	Yes	11/17/2014 1:15 PM
1301	yes	11/17/2014 1:14 PM
1302	Usually if I take the bus it gets me there, but lately I have been driving more since a) it's been cold and b) the buses are late or don't take me to my destination on time (usually heading E-->W or vice versa).	11/17/2014 1:14 PM
1303	Not to the airport Good for U district and downtown	11/17/2014 1:14 PM
1304	I would prefer a direct route from West Seattle to the University District	11/17/2014 1:14 PM
1305	Mostly. Some buses are overcrowded (often 48, 71 and 72) and drivers can't take on additional passengers.	11/17/2014 1:13 PM
1306	The 72 is invaluable. It brings me to my apartment in Wedgwood, to the University, and downtown on one line. I was very happy to hear that the 72 was being retained, as I would have had very few options as far as buses.	11/17/2014 1:13 PM
1307	They work very well for the most part to go to and from work. I like being able to get on an early morning bus, although a little earlier would be nice too!	11/17/2014 1:12 PM
1308	Currently the evening departures on CT from Univ of WA to MLT or Edmonds are limited after 5pm. And metro #373 from Aurora Village to Univ of WA takes over an hour each way typically, so the commute is *two hours* per day, which is frustrating! CT should allow ALL buses from Univ of WA to the North (past Lynnwood) stop at the MLT freeway stop so that more commuters from the UW could get off at the MLT park-n-ride. Only the 810 or 871 stop at the MLT Park-n-ride which limits the options in getting to/from MLT to UW.	11/17/2014 1:12 PM
1309	They are good but the buses are never on time. Either early or late.	11/17/2014 1:12 PM
1310	yes, and the one bus away app is usually very helpful, but occasionally it is inaccurate about bus delays	11/17/2014 1:12 PM
1311	Mostly. I work weekends as well as week days and bus service is pretty thin on weekends.	11/17/2014 1:11 PM
1312	They work very well! I take bus 48 from my house to the Medical Center for work (occasioanlly I catch bus 67). I take any of the 70s to get downtown, the 271 to Bellevue, 49 to Capitol Hill etc.	11/17/2014 1:11 PM
1313	My buses get me close to where I want to go, and I have strong legs that make up for the difference. Commuting would be much harder if I wasn't able to walk 1/4 mile with ease.	11/17/2014 1:11 PM
1314	The bus 167 is a direct bus taking us from Renton to UW.	11/17/2014 1:11 PM
1315	for the most part, i can get where i want to go, but it takes way longer than i'd like it to. for instance, if i wanted to go to a residential area in bonney lake without a car, it would be a 3 hour ride, and i'd somehow have to get from the park and ride to the house itself. it is not convenient.	11/17/2014 1:11 PM
1316	Buses are majorly delayed and/or completely full during peak hours, making it likely to be late.	11/17/2014 1:11 PM
1317	Takes too long to get downtown from Northgate area unless I take a 41. 66 is way too long.	11/17/2014 1:11 PM

1318	It does.. But I need to take a 545 go to montlake and then switch buses from montlake. Increasing the frequency of 542 could be better also in weekends	11/17/2014 1:10 PM
1319	Yes bus	11/17/2014 1:10 PM
1320	Yes but sometimes not on shedule time (late most of the times)	11/17/2014 1:10 PM
1321	They work for me	11/17/2014 1:10 PM
1322	For the most part the transit options available get me where I need to go, which is to work at the University of Washington. However, when I need to go places on the weekends or to some neighborhoods such as Capitol Hill, I often have to decline invitations because it would take too long and be too much hassle for me to take 3 different buses to get to their location safely.	11/17/2014 1:09 PM
1323	They work well, I like the current system.	11/17/2014 1:09 PM
1324	Getting to and from the University of Washington is fine from Fremont. Getting from Fremont to Capitol hill takes a long time. Getting downtown is easy. Getting to parks is pretty difficult though.	11/17/2014 1:09 PM
1325	Don't come frequently enough. Not always on time.	11/17/2014 1:09 PM
1326	Currently only to and from work during a normal business day	11/17/2014 1:08 PM
1327	Usually	11/17/2014 1:08 PM
1328	Generally, yes, but I have a car so I don't rely on transit exclusively.	11/17/2014 1:08 PM
1329	Yes, except east to west (44) is horrible. The bus is constantly overcrowded and slow, terribly slow during rush hour. Please improve east to west to UW- more routes.	11/17/2014 1:08 PM
1330	not very well	11/17/2014 1:08 PM
1331	Yes.	11/17/2014 1:08 PM
1332	Close but with multiple transfers	11/17/2014 1:08 PM
1333	I currently use a combination of Water Taxi and bike or bus and bike to get from West Seattle to U-District. Having a more direct route would be good.	11/17/2014 1:07 PM
1334	Yes, in general, I can get around with the transit options, though they aren't always the best.	11/17/2014 1:07 PM
1335	At the present time I only ride the bus after work and on the weekends because the 65 to the UW is so crowed that it is uncomfortable. I ride my bike everyday unless it snows... less stress.	11/17/2014 1:07 PM
1336	Fair. There is no direct route from where I live and many of the places I wish to travel or commute.	11/17/2014 1:07 PM
1337	For the most part.	11/17/2014 1:07 PM
1338	Yes	11/17/2014 1:07 PM
1339	They're OK, but not great.	11/17/2014 1:06 PM
1340	The rout is perfect. It gets me almost exactly from my house to school.	11/17/2014 1:06 PM
1341	Yes, I am commuting from Bainbridge Island every day. The ferry, vanpool. and Link are the most predictable and get me places on time. I take the bus or a taxi if I don't have to be somewhere on time or if the Link isn't an option.	11/17/2014 1:06 PM
1342	Usually within a few blocks. I might have to walk 5 or 6 blocks after I get off the bus.	11/17/2014 1:06 PM
1343	Mostly yes, although sometimes it takes much much longer than driving would.	11/17/2014 1:06 PM
1344	They work ok but the busses to and from the U-District are too crowded (often have to leave people at stops).	11/17/2014 1:06 PM
1345	Yes	11/17/2014 1:06 PM
1346	They work well and get me to where I want to go. I would like, however, a closer stop to the UW IMA. Walking through the construction zone from the med center to the IMA is inconvenient.	11/17/2014 1:06 PM

1347	They do, but it takes me too long to get to work. I live at 145th NE and Lake City Way, and I work in Bellevue. My bus commute takes an hour and fifteen minutes, by taking the 372 to UW campus and then transferring to the 271. I leave my house at 7:10 and arrive at work at 8:30. By car, this commute is only 20-30 minutes, depending on traffic. Also, the commute home frequently takes two hours, as the construction of a new round-about by 520 (I'm sorry I don't know the specific location) creates an enormous amount of traffic that the buses just can't get through.	11/17/2014 1:05 PM
1348	Works well but I wish there was weekend night service for 372 or 68 busses	11/17/2014 1:05 PM
1349	fine	11/17/2014 1:05 PM
1350	Fair to Good.	11/17/2014 1:04 PM
1351	Yes! Except for issues that are directly tied to funding cuts (infrequent service, lack of service later in the evening or on weekends) metro has always been great for me.	11/17/2014 1:04 PM
1352	I primarily use a combination of cycling and driving to get around. I would prefer to have more rail service region-wide.	11/17/2014 1:04 PM
1353	Transit works great for me! Except for the 70's which are often overcrowded.	11/17/2014 1:04 PM
1354	They are very convenient and will soon allow me to travel to work if cuts are not made.	11/17/2014 1:03 PM
1355	They generally get me to where I want to go, but to go to school my closest stop is over 10 minutes away and is very infrequently on time.	11/17/2014 1:03 PM
1356	Seems like getting to some places on Capitol Hill from UW should be easier (Seattle U, Swedish, Polyclinic). Buses from UW seem to all turn at Pike. Would love to use transit to get to airport more but frequently aren't running early enough for my usual early flights (frequently can only get early flights to go to east coast).	11/17/2014 1:02 PM
1357	Yes the current transit option 167 is very convenient for me aside from the fact that there are limited times it runs (4 times in the morning and afternoon) in terms of location it gets me where I need to go.	11/17/2014 1:02 PM
1358	Yes, i get to where i want to go. Sometimes, though, I'll take multiple buses to get to that destination.	11/17/2014 1:02 PM
1359	Mostly. Service from North Seattle to Capitol Hill can be really slow, especially from Ballard, Fremont or Green Lake. The 48 bus from Green Lake to UW is almost always Standing Room Only in the morning commute. It gets hard being thrown around every morning because you have to stand.	11/17/2014 1:02 PM
1360	They work pretty well, although waiting at the TC becomes pretty normal outside of peak hours	11/17/2014 1:02 PM
1361	Yes, but timing can be inconvenient.	11/17/2014 1:02 PM
1362	Yes, expect for a direct route to Capitol Hill from the U District	11/17/2014 1:02 PM
1363	Mostly they are fine. Getting to Queen Anne has always been sort of absurd. Otherwise, it's almost always two buses for anything beyond work, but reasonably reliable.	11/17/2014 1:01 PM
1364	I am based in Magnolia. The service is horrible. They took away Rt 19 and only provide service during commuting hours on Rt 24. The 31 only starts and stops in Magnolia Village which is 1/2 mile away and does not have frequent runs and does not coordinate with the Rt 24. Due to construction along the route, the 31 is now about 20 minutes late on a daily basis and sometimes never shows up. I have been forced to drive and park to catch a bus.	11/17/2014 1:01 PM
1365	Most of the time I need to take multiple buses to get where I want to go (and I am not afraid of walking). Most of the buses I take aren't of a high enough frequency to avoid having to schedule my arrival to the stop.	11/17/2014 1:01 PM
1366	There are not enough buses in the 73/373 route connecting UW and Northgate. Buses are often overcrowded and VERY often late.	11/17/2014 1:01 PM
1367	yes but slowly especially Ballard to Capitol Hill/Beacon Hill	11/17/2014 1:01 PM
1368	Mediocre. Service is not frequent enough and does not run late enough.	11/17/2014 1:00 PM
1369	The bus is an okay option if I'm going to someplace where it's very inconvenient to park. Otherwise, it's easier to drive myself. Until public transit is easier than driving, traffic is going to continue to get worse.	11/17/2014 1:00 PM
1370	Yes.	11/17/2014 1:00 PM
1371	Yes! I usually commute to work on the bus every day and it's great :)	11/17/2014 1:00 PM

1372	They are adequate when I combine driving and riding the bus because the train does not (yet) reach my destination. On their own, the bus is not adequate because of time, unreliability of some routes and they can get overcrowded.	11/17/2014 12:59 PM
1373	My transit options mostly work for me. The 16 bus is a fairly reliable option to travel downtown. The 44 bus running to UW alternates between being fairly reliable and extremely unreliable: scheduled buses not showing up, buses running up to 20-30 minutes late, and overcrowding - this is particularly bad when UW is in session but can be a problem year-round. These issues make bus commuting not a realistic option when there is a tight time schedule.	11/17/2014 12:59 PM
1374	I take the 75 to get to and from UW, and I am satisfied with it, though the buses are often extremely crowded. I also use the 75/32 and 75/31 to get to Fremont and Queen Anne. And I take the 75 to the U District to transfer to other buses, like the 43, 48, 49, 72.	11/17/2014 12:59 PM
1375	The buses are slow and usually very crowded. Waiting for them in the weather, especially given the fact that they are often not on time, is uncomfortable. It takes twice as long to get nearly anywhere as it would to just drive. That said, it is usually possible to get where I need to go using the bus if I'm not in a hurry. The exception is lack of late-night service. Light rail is wonderful and I wish there were more of it; Sound Transit services are generally more pleasant and comfortable than Metro.	11/17/2014 12:59 PM
1376	As long as I am going north or south, the options are good. East - west transit is often a bit more difficult as is having to transfer. Transfers often add 30-50 minutes to trip.	11/17/2014 12:59 PM
1377	For the most part, transit options work very well for me.	11/17/2014 12:59 PM
1378	the ST 586 direct bus is perfect. I would like to use the Sounder/Link rail more often than the bus though	11/17/2014 12:59 PM
1379	Pretty much - wish I could find a bus from Northgate that runs closer to campus than Roosevelt, but that's a minor quibble (except when the weatehr is really bad)	11/17/2014 12:59 PM
1380	Generally, yes, but slowly and often with multiple transfers.	11/17/2014 12:59 PM
1381	My bus routes go exactly where I want to go. Routes 277 and 271 are my most valuable modes of transit.	11/17/2014 12:58 PM
1382	Commuting to the U-district is easy because I live near the 44 route and near the Burke-Gilman trail. However, getting further afield is a bit more difficult. Travel between Ballard and Capitol Hill on the bus is difficult. Getting to West Seattle is practically an all day affair.	11/17/2014 12:58 PM
1383	Transit works fairly well- I recently moved to an area with really good bus service (Greenlake), but I'd like to be able to get to the airport without a transfer	11/17/2014 12:58 PM
1384	The transit options I use now work ok for me, although it takes up more time considering that I have to transfer every day when commuting to the University of Washington - Seattle from Burien. They get me to the UW in about an hour, usually an hour and a half.	11/17/2014 12:57 PM
1385	They work, the coverage is good, but they're slow and usually crowded. Another problem is the long waits between buses, and having to plan transit itineraries with a large amount of extra time built in to be on the safe side if a bus comes late.	11/17/2014 12:57 PM
1386	Generally if I'm commuting to UW or Downtown the bus is good. Everyday (errands, going out for dinner) use of the bus is much trickier -- slower and involves more walking.	11/17/2014 12:57 PM
1387	Yes	11/17/2014 12:57 PM
1388	Fine	11/17/2014 12:56 PM
1389	Bus service is good if you are going downtown or to the Udistrict. Otherwise you have to detour through there, which is annoying. Biking is the fastest and most reliable in all seasons but snowy winter days. I wish it were safer. (more bike lanes, better lighting, better pothole service).	11/17/2014 12:56 PM
1390	Yes they do. I'm able to get from A to Z in just 30 minutes or more.	11/17/2014 12:56 PM
1391	The 65 is so unreliable as to be unusable. If I use the Northgate Transit Center, I can usually get where I need to go on transit, which is two different UW locations.	11/17/2014 12:56 PM
1392	My options work well at the moment. Buses are getting more crowded around the UW but it's not too bad.	11/17/2014 12:56 PM
1393	The buses are too crowded during rush hour. Route 540 only runs in 30 minute increments during rush hour which is very inconvenient for me.	11/17/2014 12:56 PM

1394	Yes but they are way over crowded!!! Especially when UW students are in school. And do not like the fact that you cut certain times when school is not in session.	11/17/2014 12:56 PM
1395	yes. I really appreciate how often buses run from Northgate an UDistrict to downtown Seattle. Lots of options.	11/17/2014 12:56 PM
1396	Occasionally, I can't use it to reach work which is in South Lake Union therefore I have to walk or Capital Hill.	11/17/2014 12:56 PM
1397	I take the 48 everyday. It gets me to where I need to go but it is extremely crowded, and often late.	11/17/2014 12:56 PM
1398	Yes	11/17/2014 12:56 PM
1399	Generally. Miss the #46 bus.	11/17/2014 12:56 PM
1400	Yes, but I wish the communication regarding delays was better.	11/17/2014 12:55 PM
1401	I have to either transfer or walk 20+ minutes then take a bus to get to work. I find there are plenty of north-south buses that go through the SLU/westlake/eastlake areas but not enough east-west buses to make getting from one side of lake union to the other easy. I often choose to drive to work (from Westlake neighborhood to UW Tower) because it takes less than half of the time it takes for me to take the bus. In addition, the buses are not consistently on time OR consistently late along Dexter (26) or Eastlake (70) - looking at the schedule is pretty much useless.	11/17/2014 12:55 PM
1402	They definitely work for me, but it concerns me that the busses have gotten much more crowded, and there are problems with the Rt. 48 busses getting bunched up so that the first one is completely full, and lots of people have to wait in the cold and dark until the next one comes along, and sometimes that one is full too. This is often true for the evening commute.	11/17/2014 12:55 PM
1403	often need to take two buses. timing between buses can be a long wait	11/17/2014 12:55 PM
1404	most of the time	11/17/2014 12:55 PM
1405	They used to, but the route was canceled	11/17/2014 12:55 PM
1406	yes	11/17/2014 12:55 PM
1407	Generally yes, but the 542 needs more service.	11/17/2014 12:55 PM
1408	Mostly good during regular business hours, more difficult as the evening gets later. However, right now I'm in close. I'm concerned what will happen if rents continue to increase and I'm forced further out of the central core.	11/17/2014 12:54 PM
1409	In general they work for me because I use them for common destinations--UW, downtown	11/17/2014 12:54 PM
1410	For the most part, they get me where I need to go, but I often supplement them with biking because it's faster than taking the bus exclusively. During the winter, it would be nice if I didn't need to do that.	11/17/2014 12:54 PM
1411	Yes	11/17/2014 12:54 PM
1412	More spots at the Renton Park and Ride. If I leave the house an hour later I have to drive to downtown renton. Also why do they make the downtown Renton commuters park at the top level, when no one parks below.	11/17/2014 12:53 PM
1413	Generally yes, but the 44 can be a huge headache. Overcrowding and watching full buses whiz past is never fun.	11/17/2014 12:53 PM
1414	They work well, but they are extremely crowded (primarily the Light Rail to International District Station and then the 71/72/73x to UW). The buses especially are packed (both directions) and I often worry that I won't get a seat.	11/17/2014 12:53 PM
1415	The transit options get me where I want to go usually, but they are often (and often very) late, and overcrowded. Metro could do more to adjust service slightly during rush hour based on UW's school schedule. In particular, an extra bus or an articulated bus between 7:30-8:00 and between 5:00-5:30 at the beginning of the term, during midterms, and during finals could make commutes easier for everyone headed near UW or through the University District.	11/17/2014 12:53 PM
1416	They work OK, they get me where I want to go	11/17/2014 12:53 PM
1417	Moderately well. They get me to downtown, but can be slow going.	11/17/2014 12:53 PM
1418	I do, but find the arrival times can be wildly inconsistent	11/17/2014 12:53 PM
1419	pretty much.	11/17/2014 12:53 PM
1420	They involve too many transfers - make routes longer and avoid transfers at the UW	11/17/2014 12:52 PM

1421	Buses are not very reliable. I do not ride often but when I do, I am often delayed, buses are late, or even never come. One Bus Away usually does a fairly good job of telling me when and how long the wait is, but this can be inaccurate and doesn't tell you if a bus scheduled to come broke down.	11/17/2014 12:52 PM
1422	Yes. I wish the timing of the 71/72/73 to downtown Seattle were more consistent; I have missed buses and appointments even when I gave myself a half hour of wait time.	11/17/2014 12:52 PM
1423	I have to transfer to get from the Greenlake Area to the far side of UW campus. I have to take 2 buses to get from Greenlake area to DT Ballard. I do like the E Line though! That's a great route.	11/17/2014 12:52 PM
1424	Yes	11/17/2014 12:52 PM
1425	They work well, and yes.	11/17/2014 12:51 PM
1426	Yes, the Metro bus route 373, but there is Standing Room Only on each bus. More frequent buses would be a great asset. And old Metro buses are Very Uncomfortable with bulky plastic seats and potholes during the entire route.	11/17/2014 12:51 PM
1427	They work for me because I live in a location with close access to several bus lines that go towards the U-district and downtown.	11/17/2014 12:51 PM
1428	yes but getting between Ballard and Capitol Hill is challenging because i have to decide in advance whether to go via downtown or via the U District	11/17/2014 12:51 PM
1429	Yes they do	11/17/2014 12:51 PM
1430	reasonably well from locations with parking and routes that don't make 50 stops	11/17/2014 12:51 PM
1431	I enjoy the many current transportation options, but worry that the light rail may not make up for the metro bus route cuts	11/17/2014 12:51 PM
1432	They usually do. There area few inconveniences or gaps in the line, but for the most part service from the UW can get me where I need to go.	11/17/2014 12:51 PM
1433	It is hard to get from my house in Wallingford to office on Capital hill, and sometimes the busses are so full in the morning that it's impractical to take my kids with me on the bus and instead we opt to drive.	11/17/2014 12:51 PM
1434	They work alright. Most of the time I park at Northgate P&R, and bus to University of Washington.	11/17/2014 12:50 PM
1435	yes, I'm happy with current schedules	11/17/2014 12:50 PM
1436	For the most part, though oftentimes it feels like I need to use a roundabout and/or very long route to get where I want to. Not all buses are as accessible as I would like them to be, as well.	11/17/2014 12:50 PM
1437	Yes. But i do need to change buses on each route I currently take.	11/17/2014 12:50 PM
1438	residence to work it's ok. not enough buses; some buses do not show up on time or at all. Have to get earlier bus to ensure not late.	11/17/2014 12:49 PM
1439	The methods that I have selected, do frequently work for me. Although when I drive alone it is not very cost efficient, as I would you so much gas only to transport myself. Bus', trains, and the light rail have very few delays and usually gets me to places by the scheduled time.	11/17/2014 12:49 PM
1440	yes	11/17/2014 12:49 PM
1441	Yes	11/17/2014 12:49 PM
1442	I can easily get from place to place within the Seattle area. However, outside of Seattle isn't that great.	11/17/2014 12:49 PM
1443	yes	11/17/2014 12:49 PM
1444	I no longer have a car since moving to Seattle. I use transit for almost everything. They do get me where I want to go for the most part. Especially if it is a heavily urban area. It is harder to travel to and from the suburbs on the East Side. Many of my friends live there now. It is not impossible, but does take much more planning.	11/17/2014 12:48 PM
1445	yes	11/17/2014 12:48 PM
1446	Yes, however my commute time has doubled.	11/17/2014 12:48 PM
1447	Since I have to take 2 buses (550 & 71/72/73) to get from Mercer Island to the U-District, it takes longer than I would like. It usually takes me an hour each way.	11/17/2014 12:48 PM

1448	I live on North Capitol Hill, and the bus service here is uneven -- doesn't come on time, runs late so I usually just drive because I have to wait so long for the bus.	11/17/2014 12:48 PM
1449	Yes, but sometimes buses skip stops if the bus is at maximum capacity and then I'm late waiting for the next bus.	11/17/2014 12:48 PM
1450	yes they work well	11/17/2014 12:48 PM
1451	King County Metro bus work for me to get to work, but definitely NOT in a timely manner. Can't wait for the light rail to be running to UW. The buses are also usually too early or late and crowded.	11/17/2014 12:47 PM
1452	Yes, they work fairly well.	11/17/2014 12:47 PM
1453	I can get there, but it's not easy. Beacon Hill to U District requires changing buses, or switching from Link to bus. Missing connections can add as much as 25 minutes to the ride. Biking is better, but parts of the route (North Capitol Hill to U Bridge) are not very safe for bikes.	11/17/2014 12:47 PM
1454	They work ok, but it is a pain to use public transport on the weekend when the frequency is much lower. I don't have a car currently and it is really hard to get to Kirkland to visit my boyfriend unless I leave from the University.	11/17/2014 12:47 PM
1455	They work really well for me	11/17/2014 12:47 PM
1456	Yes, they work well. All of the routes I use I would consider important.	11/17/2014 12:47 PM
1457	My route works for me.	11/17/2014 12:47 PM
1458	Yes, work well.	11/17/2014 12:47 PM
1459	Yes, but they are overcrowded (70-series to U District)	11/17/2014 12:47 PM
1460	Route from Greenwood to the U district is very convenient for me. I take the 48 daily.	11/17/2014 12:46 PM
1461	Usually they do. However, I think there needs to more reliability with certain routes that go on University Way and on campus like Routes 71 and 372. Sometimes the buses are very late or overcrowded.	11/17/2014 12:46 PM
1462	Usually yes. Sometimes it's confusing to map out the right places to get off and catch the next bus without waiting a long time.	11/17/2014 12:46 PM
1463	Yes.	11/17/2014 12:46 PM
1464	Since I work at UW, it's a central location to get around to and from UW. May not always be the fastest but overall convenient and reasonable	11/17/2014 12:45 PM
1465	The 41 to downtown is usually quite good. The 65 from Lake City to the UW (my workplace) is AWFUL. It is 5.5 miles from my home to the UW. It often takes 50-60 minutes for me to get from my home (65 stop is half a block away) to the UW stop near my office. This is absurd. It was better before the route was changed to accommodate Children's Hospital (diverting from the more direct route all the way down 35th). It should not take me an HOUR to get to and from work when I live this close. I can take the 372 express (5 blocks from my home), which is quite fast (usually no more than 25 minutes), but because it originates in Woodinville or Kenmore, it is so crowded by the time it gets to Lake City that I have no seat and must stand (I am 60, and people do not give up their seats very often). The 72 is fine, but does not stop near my office (about ten blocks away). Same for the 75.	11/17/2014 12:45 PM
1466	Mostly, or they get me near the destination and I travel on foot.	11/17/2014 12:45 PM
1467	They do, but they take a long time and sometimes involve a lot of walking. I often bike because the buses are too infrequent or too indirect.	11/17/2014 12:45 PM
1468	For the most part yes. Rides crosstown (East to West) are often long.	11/17/2014 12:45 PM
1469	They are great. Buses run frequently at the times I use them, and I have multiple bus options.	11/17/2014 12:45 PM
1470	It is very important for me, I can't go to college without buses.	11/17/2014 12:45 PM
1471	I love the 12. It could run more on time in the afternoons, but is is my work commute.	11/17/2014 12:45 PM
1472	Yes	11/17/2014 12:45 PM
1473	I absolutely love route 586. It is critical for me - I would probably have to quit my job if it weren't available. I find I'm generally able to find transit to get to where I need to go.	11/17/2014 12:44 PM
1474	Yes, but I don't use them regularly.	11/17/2014 12:44 PM

1475	I'll have to drive and park to a bus stop or transit area. From South Seattle/Renton to Downtown Seattle, transfer and take any of the 70's to U District (for work).	11/17/2014 12:44 PM
1476	Yes they do but really late. Wish they could be reliable on their time schedule and there was more busses in the south end of seattle like in Burien or Tukwila and parking space in the majority of the train stations.	11/17/2014 12:44 PM
1477	They work fine. I hate the 43 and the 49 because the buses are SO OLD and gross. I'd love those to be updated.	11/17/2014 12:44 PM
1478	Yes. But not on weekends.	11/17/2014 12:44 PM
1479	Yes	11/17/2014 12:44 PM
1480	They get me to work quickly (49), but I also chose where I lived based on the 49 route. I wish there was more connection from Capitol hill (north - Lynn and 10th) to other parts of the city besides downtown or UW.	11/17/2014 12:43 PM
1481	Yes, but generally not conveniently. RapidRide is a nice addition.	11/17/2014 12:43 PM
1482	They get me where I want to go, though several times for early flights I've had to travel to the airport the night before.	11/17/2014 12:43 PM
1483	They work fine for about half of the trips I want to take. It would be wonderful to be able to get between capitol hill and ballard more easily.	11/17/2014 12:43 PM
1484	They get me where I want to go EVENTUALLY. It takes an hour or more each way to get to the University of Washington from Shoreline. I really wish there were more transportation options out there for UW staff.	11/17/2014 12:43 PM
1485	Getting from the west side of Greenlake eastward takes a long time and requires either a transfer or a long walk. Since moving there, I no longer use the bus, though I did every day when I lived on the north east side of Greenlake.	11/17/2014 12:43 PM
1486	All of the buses going to within 3/4 of a mile of my home stop by 8:30pm and NONE run on the weekend. I understand that they're UW/commuter lines, but I still need to go to campus on the weekend sometimes.	11/17/2014 12:43 PM
1487	Yes.	11/17/2014 12:43 PM
1488	Fine	11/17/2014 12:43 PM
1489	Pretty well, usually. When I need to use bus service, it's usually pretty smooth	11/17/2014 12:43 PM
1490	Yes, just very slow	11/17/2014 12:43 PM
1491	Yes.	11/17/2014 12:42 PM
1492	It seems not straight forward to get SeaTac or the Seattle Center	11/17/2014 12:42 PM
1493	My options are horrible.	11/17/2014 12:42 PM
1494	They do. But sometimes the buses are full and I have to wait a few. Also they tend to go where I want for the most part.	11/17/2014 12:42 PM
1495	I take the express bus from Westlake to UW and it's great.	11/17/2014 12:42 PM
1496	As I said, I only bus to work. All the other options are too cumbersome.	11/17/2014 12:41 PM
1497	Yes. Work pretty well now.	11/17/2014 12:41 PM
1498	Generally, they get me where I want to go. Scheduling can be hard, either because the buses run too infrequently (71, 65), or are terribly unreliable (ST 512).	11/17/2014 12:41 PM
1499	I have to transfer. They are ALWAYS full, I almost never get a seat, and sometimes they are so full I cannot get on.	11/17/2014 12:41 PM
1500	Not good. It takes sometime two hours to get from UWMC to West Seattle	11/17/2014 12:41 PM
1501	They work Ok. The buses heading home are PACKED, so I often have to stand.	11/17/2014 12:41 PM
1502	right now, the 43 and 48 come right by my house and work great. When I move to 190th N and Meridian next year, it won't be so great.	11/17/2014 12:41 PM
1503	They get me to work, school, and home. Not always to other places I want to go.	11/17/2014 12:41 PM
1504	Too many transfers	11/17/2014 12:41 PM

1505	most of the time	11/17/2014 12:41 PM
1506	I get to and from work (from Ballard to U District) very easily and conveniently on the 44. If I need to go to Capitol Hill after work however, I can get there very easily from the U District but I would need to arrange for alternative transportation back to Ballard because travel times back to Ballard are less frequent and it takes about 45 minutes from Capitol Hill.	11/17/2014 12:40 PM
1507	Not on time anymore. It appears you are utilizing part time drivers or you are shuttling drivers between different routes. Some drivers seem deliberately slow as if they are unsure of what they are doing. Several drivers leave as much as 15 20 bus lengths between us and the vehicle ahead. Safety is one thing but this is to extreme.	11/17/2014 12:40 PM
1508	They are fantastic!!	11/17/2014 12:40 PM
1509	I want grade separated transit to capitol hill and downtown from the U district!	11/17/2014 12:40 PM
1510	I take the E to 46th and then switch to the 44. Generally pretty fast and efficient.	11/17/2014 12:39 PM
1511	The bus gets me to school, but not to capitol hill or pill hill.	11/17/2014 12:39 PM
1512	Adequately. Need a lot of improvement especially frequency of service, schedules to allow connections seamlessly, and announcements to inform riders of late or no-show buses.	11/17/2014 12:39 PM
1513	I ride the bus when traffic or parking is a problem. The buses should have more dedicated lanes to incentivize people to ride the bus.	11/17/2014 12:39 PM
1514	They work well.	11/17/2014 12:38 PM
1515	Good for short local trips, less reliable for transfers.	11/17/2014 12:38 PM
1516	i use the 373 to commute to work and back - daily-- i wish the metro system was more accurate when there are delays, or a schedules run is absent	11/17/2014 12:38 PM
1517	Yes but not very reliable	11/17/2014 12:38 PM
1518	They get me where I want to go but I have to walk 10 minutes to catch a bus that takes a reasonable amount of time to arrive at my work. There is one other bus option that takes twice as long but is a shorter walk.	11/17/2014 12:37 PM
1519	do not like to take transit between downtown and the University District when express buses are not running or during rush hour when there are no places to sit on bus.	11/17/2014 12:37 PM
1520	Yes. Although getting to work, the 65 is a long walk from home to bus stop, but very short to UW Medical School. The 71 is a very short walk from home, but a little longer to the Medical School. Once I am on the bus, the 65 is much faster. So it depends on the weather and how much I want to walk, plus the 65 comes more often.	11/17/2014 12:37 PM
1521	I ride the bus at least 2-4 times a day (both to commute to work and on weekends). The only places I can easily get to on weekends are Lake City/Northgate (which I don't ever go to), or the University District. I would like easier access from Sandpoint/View Ridge to Downtown during the weekends, plus I would like easier access to Greenlake and the Wedgewood area from Sandpoint on both weekdays and weekends.	11/17/2014 12:36 PM
1522	perfect. 31/32 takes me directly to and from work at the UW medical center.	11/17/2014 12:36 PM
1523	Yes	11/17/2014 12:36 PM
1524	They get me close enough to walk or right to my destination	11/17/2014 12:36 PM
1525	Yes.	11/17/2014 12:36 PM
1526	I can generally get very close to where I need to go. However, doctor appointments on First Hill can be a problem, since the routes there don't go close to front doors of hospitals/med centers.	11/17/2014 12:35 PM
1527	in general, they work well with the major exception that it takes me 3 times long (~1 hr) to get to the airport via transit than it does to drive my own car. (~ 20 min) That is nuts.	11/17/2014 12:35 PM
1528	They work well usually!	11/17/2014 12:35 PM
1529	I use the bus system the most or walk. The buses usually get me where I want to go, but it often takes very long and requires multiple transfers.	11/17/2014 12:35 PM
1530	Yes	11/17/2014 12:35 PM
1531	I need to transfer to get to where I need to go.	11/17/2014 12:35 PM

1532	They do not work to take me from home to work because I have to transfer downtown, which takes 1 hour 30 minutes. This is much too long to travel one-way for the 11 miles between home and work.	11/17/2014 12:34 PM
1533	I LIKE TO CATCH BUS 43 FOR TRANSFER AT THE U DISTRICT IN THE EARLY MORNING, BUT BUS 73 IS A FEW MINUTES LATER. I DO GET WHERE I GO, BUT ARRIVE WORK LATER IF I MISSED BUS 43 AT 6:35AM IN THE EVENING, I CATCH BUS 373 HOME. AND IT IS OK. TOO BAD 373 DOES NOT HAVE AN EARLIER BUS THAN 6AM	11/17/2014 12:34 PM
1534	Not really. 3 buses (2 transfers) between my house (4032 50th Ave S) and UW. Buses from UW (71,72,73) way too crowded.	11/17/2014 12:34 PM
1535	Well, I have to walk a mile to the park & ride in Edmonds to get on a bus to get me to the U-District, and a mile home. I get where I want to go. Traffic on I-5 is always a nightmare though!	11/17/2014 12:34 PM
1536	No. The bus stops are too far from both my home and any destination I would go to. In addition, when I try to ride, the buses are overcrowded, slow, and poorly timed.	11/17/2014 12:34 PM
1537	It would be great to have a quicker way to get up to the University. I generally need at least an hour and during peak hours more like and 1 1/2 hours. The buses are very crowded coming out of West Seattle too, very unpleasant and makes cranky commuters.	11/17/2014 12:33 PM
1538	Mostly. It is a 2 hr, 3 bus/one train commute to get to Museum of Flight where my wife works. A light rail station at South Boeing Field would be nice.	11/17/2014 12:33 PM
1539	They do work, but I have to either change buses or drive to a park and ride and get a bus from there. It would be nice to have 1 leg on the trip instead of 2 or more.	11/17/2014 12:33 PM
1540	so far - yes.	11/17/2014 12:33 PM
1541	They can get me there, but the route - with 2 transfers takes much too long. As a result, I generally drive from Upper Rainier Beach to Cap Hill and catch the bus from there. If light rail stations had free park and rides, that would make it much easier to use for people who live in south seattle, but not right next to one of the 3 stops in S. Seattle	11/17/2014 12:32 PM
1542	They are ok, except for the 8, which really needs a designated lane or some way to get up and down Denny efficiently. I have sat on the 8 for over an hour going from Queen Anne & Mercer to Broadway. For the most part they work ok, other than the horrible problems on Denny.	11/17/2014 12:32 PM
1543	Yes, transit gets me where I need to go for work.	11/17/2014 12:32 PM
1544	It would be nice to have an earlier morning 197 bus to the UW -sometimes I drive in order to arrive early. the buses currently work for me, but could be more frequent	11/17/2014 12:32 PM
1545	There are no good transit options for me at this point - the trip takes way too long by bus from my neighborhood to the U District. That's why I carpool.	11/17/2014 12:32 PM
1546	They work great.	11/17/2014 12:32 PM
1547	Yes	11/17/2014 12:32 PM
1548	Yes	11/17/2014 12:32 PM
1549	Yes, they get me where I want to go.	11/17/2014 12:31 PM
1550	They do get me where I need to go. Faster service along the 23rd and Rainier corridors would be helpful. A better shelter at Rainier and S Walker for the transition from southbound 48 to southbound 7 would be helpful as well. It is a very busy transfer point during the PM commute.	11/17/2014 12:31 PM
1551	The 71X/72X/73X busses are not dependable - they usually run late or not at all. I have to allow more time to get from UW to King Street Station than it takes me to get from King Street Station to the Sumner Station via the Sounder! I shouldn't have to allow an hour to travel from UW to the downtown tunnel. Also, while supposedly the bus drivers don't have access to the tracking system on the bus, I've noticed that if a scheduled bus does not show up on (for example) OneBusAway it means that bus is running really late. I cannot believe that's coincidental.	11/17/2014 12:31 PM
1552	Yes, they get me where I want to go. Would love a quicker way to get downtown. Sometimes service is sketchy with dropped busses.	11/17/2014 12:31 PM

1553	No. There need to be buses that run along Montlake Blvd. so students can safety get from the UW's IMA (gym/activity center) to their destination. Currently, one must walk to University Village or down to Pacific Street to catch any bus. This is unsafe when it is dark.	11/17/2014 12:30 PM
1554	For the most part, ok. The holiday schedule for extended periods on the 56 are problematic.	11/17/2014 12:30 PM
1555	For the most part they do. But there are some areas of the city that are just extremely challenging to get to	11/17/2014 12:30 PM
1556	The options work okay but I wish there were more buses and options.	11/17/2014 12:30 PM
1557	Most of the time. But when you need to transfer to another bus, I always miss the connection because my bus (#72) is always late and misses the connection.	11/17/2014 12:30 PM
1558	Generally yes.	11/17/2014 12:30 PM
1559	372 to work excellent: almost door to door.	11/17/2014 12:30 PM
1560	I wish the service between NE Seattle and First Hill was more direct. Going through downtown easily doubles the time it takes for me to get to and from work. I also wish the service started earlier in the day.	11/17/2014 12:29 PM
1561	it's very hard to get to Ballard from Capitol Hill using public transit. Otherwise, it works well or I walk	11/17/2014 12:29 PM
1562	Yes, but wish the 556 would run more frequently. If I miss one bus then have to wait about 40mins for the next one.	11/17/2014 12:29 PM
1563	Yes. The trouble I have with the 48 is that - due to traffic - it is usually late, then three 48 buses show up at UW at the same time. With child care pick up and a busy job, a timely bus really makes a huge difference!	11/17/2014 12:29 PM
1564	Yes.	11/17/2014 12:28 PM
1565	They don't, at least not in a timely manner, which is why I'm currently driving a single-occupant car. I'm looking forward to Link being available at UW and Northgate.	11/17/2014 12:28 PM
1566	yes, but I can drive to other Park and Rides to go to other palces so that I do not extend my cummte time even more	11/17/2014 12:28 PM
1567	yes	11/17/2014 12:28 PM
1568	yes	11/17/2014 12:28 PM
1569	Yes, but I live very close to work on a major busway that is covered by 3 major routes allowing me options every 15 minutes or less. My choice of living location is extremely influenced by the availability of bus service. For instance, I would not consider living in a house or apartment that is too far from the city center, as the options for transit diminish significantly with distance. Paradoxically, this also makes it more expensive to live, as closer locations to the city center and good transit options are significantly more costly in terms of rent. SO I am faced with a trade off - live far away and pay for a car, or live close to town and use transit with no car.	11/17/2014 12:27 PM
1570	Most often transit works well for me. It usually takes twice as long as if I were driving or carpooling, and adds two hours to my workday for a commute from South Beacon Hill to the U District.	11/17/2014 12:27 PM
1571	When I can make the proper connections they work well. In 2016 when the UW Link station opens I'll have fewer connections to make.	11/17/2014 12:27 PM
1572	Yes, ultimately they work. I would like to see less crowding and ideally a faster commute.	11/17/2014 12:27 PM
1573	I spend 3-4 hours a day commuting approxiamtely 46 miles. It is ridiculous and the I5 traffic makes my times unreliable. I have missed many important meetings. Also my bus is so crowded it is uncomfortable cant we make the seats bigger?	11/17/2014 12:27 PM
1574	Bus works great for me.	11/17/2014 12:27 PM
1575	They work okay but having light rail be a great option especially to Sea-Tac airport from U-district.	11/17/2014 12:27 PM
1576	They work great. Bus is standing room only in the mornings by the time it gets to 65th Ave NE many mornings.	11/17/2014 12:27 PM
1577	It works well. Sometimes I think a light rail would be faster.	11/17/2014 12:27 PM
1578	Most of the places I need to go to are available using a prefered method. We are trying to use our car less and walk or bike when possible. Getting to Northwest Hospital by bus is very inconvenient as there is only one route that services it. The other options requires a long walk from Aurora Avenue (E Line) which isn't great for handicapped, elderly, or sick people!	11/17/2014 12:26 PM

1579	They work ok but hard to "read" to figure out what time and what bus to get to where I want to go	11/17/2014 12:26 PM
1580	Poorly. Not worth the time.	11/17/2014 12:26 PM
1581	For the most part I can get around on buses.	11/17/2014 12:26 PM
1582	All good.	11/17/2014 12:26 PM
1583	They get me where they want to go, but often I wind up waiting a significant period for a bus only to see multiple busses grouped together.	11/17/2014 12:26 PM
1584	I used to be a daily Metro user because it was super convenient for me before I began to work at the UW 16 years ago. There is no direct route for me to the UW at this time. Transferring = time. Using transit requires a 15 minute walk for me in rain and cold to the light rail station. We need park and rides like the Tukwila station. When the light rail is finished, especially with the Brooklyn stop, I will use it if I can and it is not overcrowded and is quicker than driving, which should be no problem during rush hours.. (I assume that more cars will be added to the trains.) Until then, despite the cost of parking at the UW, I will continue to drive.	11/17/2014 12:25 PM
1585	They usually work well- except when there are large traffic jams or inclement weather.	11/17/2014 12:25 PM
1586	They are mostly okay, but I'd like better single-seat rides to Ballard and Wallingford from the east side of Capitol Hill. I'd also like better bus connectivity from Mt Baker Light Rail to the 48 & 8.	11/17/2014 12:25 PM
1587	yes but too slowly	11/17/2014 12:25 PM
1588	Yes.	11/17/2014 12:25 PM
1589	I find that in general, east/west connections in Seattle are much more challenging than north/south. For instance, I live on 15th and 70th NW. To get home from the UW, I have to take either the 44 or the 48 and then walk or take another bus north/south 15 blocks. There are no east/west bus connections between 45th/Market and 85th -- that's 40 blocks!	11/17/2014 12:25 PM
1590	Yes for going downtown or to work.	11/17/2014 12:24 PM
1591	The current transit options work well for the most part. I am able to get everywhere I need and want to go. It can take longer than I would like and the busses are very often overcrowded.	11/17/2014 12:24 PM
1592	The 542 from Redmond to the UW has a very limited commuter hours schedule. But I also would like to take this route on the weekends.	11/17/2014 12:24 PM
1593	Not really. It's a huge hassle to use public transit after route 205 and others were cut by Metro. I don't see the link rail improving the issues, but rather exacerbating them.	11/17/2014 12:24 PM
1594	They work just find for me.	11/17/2014 12:24 PM
1595	yes for the most part. Sometimes they are just very slow.	11/17/2014 12:24 PM
1596	Yes, but the 120 bus route from downtown Seattle to Delridge way SW is very often too overcrowded - I sometimes let 2 or 3 buses pass me at the stop before I get on the bus because it is too crowded and standing room only. Also, if I miss route 50 from the VA Hospital, I have to wait 30 minutes for the next bus which is very inconvenient. I sometimes take bus 43 or 71,72,73x from UW to downtown, but I don't during the summer because it is too hot and crowded (i will walk/bus to the Montlake freeway station and take a SoundTransit since it has air conditioning).	11/17/2014 12:23 PM
1597	I currently am in a vanpool to and from work everyday. But if I need to get to an appointment during the day, it is sometimes hard to get anywhere in a timely manner. I currently do not have any vehicle options; and it's 1.75 miles from home to the closest P&R which only runs during peak hours, or connects to a local bus that has limited scheduling. So I have to make sure I schedule my appointments and meetings on days I work.	11/17/2014 12:23 PM
1598	Pretty close - but I chose my home based on it's proximity to public transit. Connecting from Cap Hill to Greenlake continues to be a problem. OneBusAway app has been instrumental - the time schedules are either very unreliable or very out of date at my most frequented stops.	11/17/2014 12:23 PM
1599	Yes.	11/17/2014 12:23 PM
1600	Since the recent service cuts, I am moderately dissatisfied with the reliability and efficiency of bus service.	11/17/2014 12:23 PM
1601	They work fine when they are on time. Traffic has become horrible, which affects the bus routes	11/17/2014 12:23 PM
1602	Currently, though I only have to walk a short distance to each stop, I have to transfer two times each way to get to/from work.	11/17/2014 12:23 PM

1603	They don't get me to Queen Anne directly from the U District. The busses sometimes leave early.	11/17/2014 12:23 PM
1604	They get me where I need to go but are very slow. For example, taking the bus from Lake City to UW takes twice as long as driving. Also, the nearest bus stop from my house (Briarcrest neighborhood in Shoreline) is over a mile away so when I ride the bus, I first drive to a neighborhood with convenient parking near the busline that I need to take.	11/17/2014 12:23 PM
1605	They work well for me, though the 71/72/73X busses get so crowded with all of the people that study and work at UW	11/17/2014 12:23 PM
1606	Biggest problem is reliability and rude drivers. Not all drivers are rude but those that are, are terrible. Often the bus smells, either of the homeless or pot. I don't know if the driver is smoking pot on their break or if the bus is never cleaned but it is disgusting. Also, sometime kids will smoke pot on the bus and the driver never stops them and doesn't kick them off the bus. If I pay to ride the bus, I should have clean air to breathe.	11/17/2014 12:22 PM
1607	Most of the time. The most frustrating routes are the 48 and 64. Often I use ST542 to get to and from work at the University because the 48 is so very unreliable. The same goes for the 64, especially at the end of the day for the last couple of runs. Often it simply does not show up and that leaves me stuck on First Hill.	11/17/2014 12:22 PM
1608	197 would be the best since it does not stop after it picks up at Kent Des Moines Park and Ride. However, you may not have a seat since we are the last stop before the UDistrict. It may be the fastest but not the most comfortable. I take the first bus and it is always full. They also do not run when school is not in session which is a joke, since many UW staff still work when school is out.	11/17/2014 12:22 PM
1609	The bus is fine, but I avoid it if I have to transfer busses. It usually takes a lot longer to get somewhere if you have to transfer. Something that is only 15-20 min by car will take an hour + to get there if you have to transfer.	11/17/2014 12:22 PM
1610	yes	11/17/2014 12:22 PM
1611	I love public transit - all forms. I think it's great, although I know many were forced into their cars when Link opened and their bus lines were cut. This was a terrible flaw in implementation. Sometimes even routes that would have taken them TO Link were cut.	11/17/2014 12:21 PM
1612	yes	11/17/2014 12:21 PM
1613	Coming to work, sometimes the 372 is full or nearly full by the time it gets to NE92nd and Ravenna (my stop). Otherwise, this is a very convenient bus for me. Going home, sometimes OneBusAway doesn't track 372s well (they show as very delayed, then disappear, or suddenly are early, so I miss them)	11/17/2014 12:21 PM
1614	Yes, but hate crowded buses	11/17/2014 12:21 PM
1615	The 26 bus does not get me to Husky Stadium, where I go every day. I have to bike there instead. I would like the 26 bus to connect to the Link Light Rail at Husky Stadium.	11/17/2014 12:21 PM
1616	Mostly!	11/17/2014 12:21 PM
1617	Yes they work. However, they take a very long time and are often very crowded or delayed.	11/17/2014 12:21 PM
1618	Sure	11/17/2014 12:21 PM
1619	I would they only partially work. I can get to and from work (Ballard-UW) but the recent Metro cutbacks have made going anywhere else on transit nearly impossible.	11/17/2014 12:20 PM
1620	they work fairly well. New schedules add 20-30 minutes to commutes since there is always a transfer involved. I did quit my gym as it became too inconvenient to get to Ballard from work and then back home.	11/17/2014 12:20 PM
1621	Ok - transfers are poor and different bus lines pass the same stop at the same time, leave 30+ minutes between busses (eg 68 and 372 on 25th Ave NE) 44 works well from Wallingford Center to UW Medical Center when it is not election time and they are running long busses, not short busses for political reasons. . . Transfer from 44 to Rapid Ride E at Aurora Ave and N 46th Street is inconvenient.	11/17/2014 12:20 PM
1622	I drive from Port Orchard to the Tacoma Dome bus station, then catch ST 586 to the UW. I've tried carpooling, ferries, and solo driving. Those options did not make sense from a financial standpoint. My current commute is the most cost effective, although takes roughly 2 hours each way.	11/17/2014 12:20 PM
1623	the biggest drawback I have come up against is in finding parking at either tukwila link light rail station, or at the s. renton park and ride. I can get where I need to go once I have someplace to leave the car.	11/17/2014 12:20 PM
1624	I moved from Maple Leaf to Wedgwood because of bus service cuts. I depend heavily on metro (I don't have a car).	11/17/2014 12:20 PM

1625	They get me there, but it takes twice as long as driving.	11/17/2014 12:20 PM
1626	Metro bus gets me there...but it is very slow and crowded.	11/17/2014 12:20 PM
1627	Yes, but it takes about 1.25 hours to go 12 miles (west seattle to u-district).	11/17/2014 12:20 PM
1628	Mostly. However, I'd just like to say that the 43 route needs improvement. I get on in the u-district at the beginning of the route, and everything's fine--until the UW Medical Center. The traffic is extra-horrible at the intersection of 15th and Pacific. Then we have to stop to let on 8000 people from the medical center--that's usually OK if the 48 comes first and picks some of them up, but the truth is that they all get off work at the same time. Then getting to Montlake bridge from the Medical Center takes 10 minutes or longer--we need a transit lane right there! Those lone drivers going to and from Redmond should NOT be rewarded for their selfish, wasteful behavior, especially when they're in the way of thousands of responsible people on buses who would like to get across the dang bridge. From there out it's fine, but I just don't think the traffic in that area is very well planned--it rewards creeps who drive alone on 520.	11/17/2014 12:19 PM
1629	It's sort of a tautological question since I only use transit if it will work to get me where I want to go. If it can't, I get there some other way. The biggest problem is the unpredictability of routes, and how infrequently they run. 15 minutes is really the maximum frequency to feel like a route is reliable, and even many of those routes often don't run every 15 minutes. The correlate problem is that up-to-date wait times aren't provided at most stops. Waiting for a late bus is much more manageable if I can see exactly how late it is, and choose other options if necessary. The second correlate is that late buses tend to get overcrowded, and then get even more late to cope with the competing demands and slower entry and exit times. In general, morning routes are more predictable than late routes.	11/17/2014 12:19 PM
1630	I drive a personal vehicle because the bus route is not conducive to my commuting requirements.	11/17/2014 12:19 PM
1631	They work okay, but I am considering buying a parking pass at UW so I can drive more frequently.	11/17/2014 12:19 PM
1632	For the most part - I have a car so if there's a time when I can't get where I need to go by bus, I usually just drive. I mostly just take transit to work or to any event where I know parking is going to be expensive / a hassle.	11/17/2014 12:19 PM
1633	I commute via Community Transit from Snohomish County to/from campus each day. I enjoy riding the bus and it has worked well, my only complaint is the amount of time traffic has been impacting the trip time as of late.	11/17/2014 12:19 PM
1634	yes	11/17/2014 12:19 PM
1635	Yes, except I have to drive to Mariner P&R	11/17/2014 12:19 PM
1636	The main problem is that I need to transfer to get to my destination, and the waits are unacceptably long. In Europe, it is generally accepted that one should wait no more than 5-10 minutes at a bus stop. That should be the case in Seattle.	11/17/2014 12:18 PM
1637	Yes, the Sound Transit bus takes me exactly where I want to go. Every morning, I take a 4-minute car ride or 12-minute bicycle ride from my apartment to the South Bellevue Park & Ride. Then I take a 30-minute bus ride on ST 556 to 15th & Pacific in the U-District, which is directly in front of my work site. This is actually much quicker than driving to work at the University of Washington since parking costs at the UW are prohibitively expensive and employee parking is a 10-minute walk from the work site.	11/17/2014 12:18 PM
1638	Yes - work well for me and my stops/schedules, however, sometimes they are full and unable to pick up all individuals who wish to get on the bus (31 or 32 heading west) after 5pm. 90% of the time they are full and are delayed with individuals pleading for everyone to squeeze in to make room for more. This creates timely delays and frustration for all.	11/17/2014 12:18 PM
1639	For the most part, I am very lucky to live in an area of the city (U district) that is well served by the bus. Sometimes buses are crowded or slow, but they usually get me where I want to go.	11/17/2014 12:18 PM
1640	my best routes were cancelled or reduced in the Sept 2014 Metro cutbacks. I now must make time-consuming transfers on the 520 bridge or use a combination of metro bus and the Harborview shuttle. I look forward to the link between campus and downtown for a faster daily route.	11/17/2014 12:18 PM
1641	The Metro bus works and gets me where I need to go eventually. While I rely on the buses to commute to and from work daily, as well as for most other activities, the delays and service cuts make it very difficult. The signs on the Metro buses that say "We'll get you there!" would be more accurate if they said, "We'll get you there, eventually".	11/17/2014 12:18 PM
1642	Usually.	11/17/2014 12:18 PM
1643	Yes except I frequently walk instead of the bus during peak hours because the buses are sooo overcrowded	11/17/2014 12:18 PM

1644	Scheduling of routes in NE Seattle to UW is ridiculous. SouthboundWestbound morning buses headed to the UW, all arrive at once, with the first one packed full and the rest empty. Northbound/Eastbound in the evening rush have short buses packed like sardines instead of using longer buses, and buses aren't timed to the UW work day ending at 5:00.	11/17/2014 12:18 PM
1645	for the most part I can get where I need to go, but it often takes significantly longer than driving.	11/17/2014 12:18 PM
1646	My primary Metro route #39 was discontinued to get to route 48 and now I would have to use route #50 and 7 just to get to route 48. Three buses to go about 10 miles is stupid.	11/17/2014 12:18 PM
1647	They work pretty well as long as I use the Greenlake Park N Ride. The route 68 tends to run very late in the afternoons so it is very frustrating to try and take that home.	11/17/2014 12:18 PM
1648	Work well, some times buses are crowded but overall good experience.	11/17/2014 12:18 PM
1649	The busses do, but I feel they are inefficient. Sometimes walking is almost as fast.	11/17/2014 12:18 PM
1650	Excellent! The buses are always available and make transit easy.	11/17/2014 12:18 PM
1651	Most of the time the bus gets me where I need to go, but sometimes the schedules don't reflect my needs. In those cases, I must try and arrange other options or adjust my schedule in ways that are not productive.	11/17/2014 12:17 PM
1652	Overall, yes. But adding more buses to existing routes would help a great deal. Often, when I need to transfer between buses, there is a long wait.	11/17/2014 12:17 PM
1653	373 is fine	11/17/2014 12:17 PM
1654	Yes. I definitely appreciate the bus system as it takes me everywhere that I need to go and it's a lot cheaper than driving.	11/17/2014 12:17 PM
1655	During the week service works best, but weekends are really challenging and it takes a long time to get anywhere.	11/17/2014 12:17 PM
1656	Mostly, except: 1. The 70/66 toward downtown on Eastlake in the morning (8-9) are often too full and don't pick up riders. In the evenings they're incredibly late and often don't pick up riders going the other direction. 2. It's such a pain to get between Capitol Hill and Eastlake: it takes ~45 minutes by transit, but only about 5 by car.	11/17/2014 12:17 PM
1657	Some buses, ie. the 72 are overcrowded through the U District and not frequent enough. This makes commuting via transit very long. I take the bus to work on Lake City Way, but I have to drive to the bus stop because its a long way from my home and there is no bus service through my neighborhood, Lake Forest Park.	11/17/2014 12:17 PM
1658	Well. Yes.	11/17/2014 12:17 PM
1659	They take too long. I have to use two separate buses. The #2 bus is often late and very crowded. I also take the 40 from SLU.	11/17/2014 12:17 PM
1660	Yes	11/17/2014 12:17 PM
1661	Yes, it get's me to work and home from Monday - Friday. I hope my bus 167 won't be deleted. We fought so hard to keep it going. It's always packed with students and staff at UW.	11/17/2014 12:16 PM
1662	I have fabulous transit options. From my home in Kenmore, WA I just cross the street and can take a bus to UW Campus, Downtown Seattle, or Bellvue. I LOVE Metro!	11/17/2014 12:16 PM
1663	Yes	11/17/2014 12:16 PM
1664	I take the bus 5 days a week to and from the University District to Issaquah Transit Center. The bus gets me to and from work, but the 556 bus route is quite long during the evening commute because the bus gets on I-5 before coming to the U-District, then gets on 520, then goes through Bellevue Transit Center and Bellevue Way. During the evening commute, this bus is an average 20 minutes each day. I'm even taking the 4:07pm from the U-District. I would love to catch the light rail from the U-District that won't be effected by traffic to downtown Seattle and then catch any one of the numerous Metro buses from downtown Seattle to the Eastside.	11/17/2014 12:16 PM
1665	I can take C line to downtown and then transfer to 71, 72 or 73 but the transfer delay is typically 20 minutes which makes this a long commute.	11/17/2014 12:16 PM
1666	yes	11/17/2014 12:16 PM
1667	for the most part yes.	11/17/2014 12:15 PM
1668	Very good for getting to and from work at UW. I rely heavily on routes 373 and 68.	11/17/2014 12:15 PM

1669	Some work well and some don't. The bus (route 26) is often anywhere from 8-20 minutes late in the morning, so I often miss my transfer to the route 44. The 44 runs often but is usually crowded and sometimes passes up the bus stop due to being full. Often we can see that people haven't moved all the way to the back of the bus when it goes by so there actually is room, the driver just can't tell. The express buses are convenient to downtown but also often very crowded. The biggest problem I see is that there are too many people trying to ride not enough buses. Then I see a route like the 26 where there are never more than 8 people on a huge articulated bus every morning. It doesn't seem like the coach size and rider frequency is being considered on routes like this.	11/17/2014 12:15 PM
1670	It's okay. Wish there were a direct bus from my home (4th st and Nile ave in Renton) to UW Tower	11/17/2014 12:15 PM
1671	Wish there was a bus or train from Everett directly to the UW.	11/17/2014 12:15 PM
1672	Yes - although there have been issues when the bus is late.	11/17/2014 12:15 PM
1673	Yes, with the exception of good links downtown and to the airport from Wedgwood area (non rush hour)	11/17/2014 12:15 PM
1674	Because the 556 does not run during the daytime, I have problems getting back to Issaquah during the middle of the day. I understand that my 2nd option, the 271, will no longer go to Issaquah beginning in February. While I know that I could go to Seattle and transfer or go to Eastgate and transfer to an Issaquah bus, this is not a great option for someone who has difficulty in walking such as I do.	11/17/2014 12:14 PM
1675	The current transit system allows me to get from home (West Seattle) to work (University District) in about an hour. The majority of that travel time is due to transfer waiting time. For the most part I am able to get to anywhere I need to go, however due to location of stops, transfer times, and sometimes overcrowding, driving remains a much faster option.	11/17/2014 12:14 PM
1676	They could be better.	11/17/2014 12:14 PM
1677	Yes, I don't have a car and rely on mass transit. For such a progressive city Seattle is so far behind when it comes to transit infrastructure, but for the most part I get where I need to go. I usually have to walk a bit.	11/17/2014 12:14 PM
1678	Yes; Connections are not always good	11/17/2014 12:14 PM
1679	They usually get me where I need to go, but much more slowly than driving, and I sometimes also have to take multiple buses.	11/17/2014 12:14 PM
1680	They work fine. I wish buses from the greenlake park and ride came earlier (specifially the 540). I start work at 0630. So, I ride my bike to the UW and catch the 255.	11/17/2014 12:14 PM
1681	It depends on how many buses it takes to get to my destination. If it's more than one bus, it's usually far more convenient and time effective to take my car instead.	11/17/2014 12:14 PM
1682	It's a long commute to and from work. Usually 1.5 hours each way. So it's easier to drive in. By driving in it only takes 30-45 minutes each way.	11/17/2014 12:14 PM
1683	The evening bus is overcrowded and often stuck in traffic at intersections...especially on rainy Fridays. It means I miss my ferry. The commute can be 3 hours.	11/17/2014 12:14 PM
1684	I wish it was shorter. My commute is 1.5 hours or longer.	11/17/2014 12:14 PM
1685	ok---fairly slow due to to overcrowding and time needed for load/unload	11/17/2014 12:14 PM
1686	Mostly, yes. 44 needs more attention.	11/17/2014 12:14 PM
1687	We usually carpool into and from work from NE 195th St and 35th Ave NE (Lake Forest Park) to South Lake Union (850 Republican Street). This has worked well for us in the past, using express lanes and carpool lanes, but recently the traffic around Mercer St has been a nightmare. Our commute has gone from an average of 20 minutes to an average of 40.	11/17/2014 12:13 PM
1688	Yes	11/17/2014 12:13 PM
1689	Capitol Hill is lucky enough to be fairly connected, so yes. Unless I want to go to Fremont, the ID, Georgetown, or Pioneer Square, in which case I am in for a ridiculously long and multi-bus ride.	11/17/2014 12:13 PM
1690	Miss the 48 Express; 48 local much slower, especially on the way home.	11/17/2014 12:13 PM
1691	Challenging to get to Airport from 15300 Bothell Way.	11/17/2014 12:13 PM
1692	great--except that they SHRUNK the regular bus I ride (167) and it is elbow to elbow, sometimes with senior citizens standing because the students don't think to give up their spots for them! Unbelievable.	11/17/2014 12:13 PM

1693	For the most part my needs are met. Commuting on the bus could always be faster if less frequently used stops were eliminated.	11/17/2014 12:13 PM
1694	I primarily use the Metro bus and I like the convenience and frequency of the routes near my house.	11/17/2014 12:13 PM
1695	Sort of, not as efficient as I would like	11/17/2014 12:13 PM
1696	Options work fine--they are slow, but then again, so is traffic.	11/17/2014 12:13 PM
1697	generally fine except for unreliable 65 buses in peak periods	11/17/2014 12:13 PM
1698	I have to transfer buses and sometimes, in the evening, it takes over 2 hours to commute back to home.	11/17/2014 12:13 PM
1699	No.	11/17/2014 12:12 PM
1700	Yes, they get me there. I am curious to see how the new train station at Husky Stadium will work.	11/17/2014 12:12 PM
1701	Eventually, but I would use them A LOT more if they ran more frequently and had more direct connections.	11/17/2014 12:12 PM
1702	No. Getting out of West Seattle has been getting worse for years, and trends will only continue with increased apartment/condo development and no alternative to cars and buses over the West Seattle bridge. The Link from downtown to the UW will help make the trip a little more feasible, but it will continue to be close to an hour commute or more.	11/17/2014 12:12 PM
1703	Transit options work for most of my routes except Fremont to the airport.	11/17/2014 12:12 PM
1704	yes	11/17/2014 12:12 PM
1705	yes, but what happened to the 40? That was a good alternative through busy Fremont. AND, why is the number 26 bus perpetually late by thirty minutes or more during the evening commute?	11/17/2014 12:12 PM
1706	They work ok. The express buses to and from the Udist are always over crowded and uncomfortable. Would prefer not to have to transfer between light rail to bus as I do now.	11/17/2014 12:12 PM
1707	I use it everyday. However, park n rides in Redmond are drying up. Rapid ride along Rt 202/Red-Wood Rd would allow us to skip car altogether	11/17/2014 12:12 PM
1708	Generally the transit options I use work very well.	11/17/2014 12:12 PM
1709	They are ok. Sometimes if like to go down to Madison park without switching so many buses though	11/17/2014 12:12 PM
1710	YES and very close so I feel safe at night.	11/17/2014 12:12 PM
1711	They work pretty well, but it takes much much longer to get there via transit that via car options	11/17/2014 12:12 PM
1712	My transit option work well. I get to where I want to go.	11/17/2014 12:11 PM
1713	More time options for Metro bus lines 72 and 73X on weekends would be helpful, especially downtown stops.	11/17/2014 12:11 PM
1714	Yes but it takes a LONG time to get down town (to the Public Health Dept) from the UW or my home in Ravenna. The biggest obstacle is the Ave. My biggest issue with transit is that I can never plan my meetings well as I never know how long it will take me to get places by public transit. I hope that will change once we have a light rail system that will not be stuck in traffic the way busses are stuck in traffic.	11/17/2014 12:11 PM
1715	Yes	11/17/2014 12:11 PM
1716	Decent enough.	11/17/2014 12:11 PM
1717	more frequent buses to and from the U-district; buses are usually overcrowded, esp. around 2:30pm	11/17/2014 12:11 PM
1718	Yes for the most part.	11/17/2014 12:11 PM
1719	Good for commuting. I don't use public transportation otherwise.	11/17/2014 12:10 PM
1720	Transit from East Side works well, with the exception of mid-day trips. If I have a doctor's appointment, I have to re-route and it takes me 45 minutes longer. Otherwise, transit gets me where I need or want to go.	11/17/2014 12:10 PM
1721	They are adequate but often delayed (usually only a few minutes but regularly by 15 minutes or more). I don't have a lot of options so the buses I do take require me to walk about a half mile on either end (from my home to/from the nearest stop and from my office to/from the nearest stop). This adds ~20 minutes a day to my commute.	11/17/2014 12:10 PM
1722	too slow from ballard to u district. miss the 46	11/17/2014 12:10 PM

1723	They work well. I wish I didn't have to transfer to get to work, but it is unavoidable once Metro cut the bus that came directly to the UDistrict from Kent.	11/17/2014 12:10 PM
1724	Doing Vanpool after Metro Route #133 was cancelled. Vanpool is fine, but, no flexibility on time to come and go.	11/17/2014 12:10 PM
1725	yes	11/17/2014 12:10 PM
1726	It would be great to have a more direct route from West Seattle to the U District!	11/17/2014 12:10 PM
1727	Somewhat. For the bus, I can easily get back and forth from UW to home, but from home or UW to my son's preschool on Queen Anne or to the Science Center generally requires a good bit of walking and a transfer. Biking is fine, but I don't really have the power to get up Queen Anne Hill with my son on the bike, so I have to drive to make my time constraints work. For driving, my kids' nanny needs my car during the day, so I generally carpool if I need to drive, but my carpool partner doesn't work on Monday, so Monday's can be a challenge if I'm not able to bike for some reason.	11/17/2014 12:09 PM
1728	Very well, there is more limited service right now, but overall, I still get to where I need to go. I have to walk farther now (particularly downtown) to find a bus to take me where I am headed.	11/17/2014 12:09 PM
1729	They work well, and any delays are usually consistent. Sometimes buses are not available at the times I need them later at night, but the waits are not long. Now I use the bus more for work than anything else, and I am able to get there quickly.	11/17/2014 12:09 PM
1730	Yes, thank you!	11/17/2014 12:09 PM
1731	They get me where I need to go.	11/17/2014 12:09 PM
1732	Most of the time ok	11/17/2014 12:09 PM
1733	Yes, work just fine.	11/17/2014 12:09 PM
1734	Normally yes, but thanks to the bus reductions it's getting harder to get where i need to go on time or home on weekends in a reasonable length of time (8 was cut back, 48 is packed standing room only to/from work, etc.)	11/17/2014 12:08 PM
1735	I use the 48 to get to and from work 5 days a week. In the mornings the 48 is always late. Always, and it ranges from 2 - 20 minutes, most of the time being 6-8 minutes late.	11/17/2014 12:08 PM
1736	The 31 is critical for difficult E-W travel to/from the U District, and still will be after light rail comes!	11/17/2014 12:08 PM
1737	I would say for the most part they get me where I want to go. Getting to Harborview Hospital from the U district would be very difficult if not for the UW's Health Sciences Express buses.	11/17/2014 12:08 PM
1738	Yes	11/17/2014 12:08 PM
1739	I currently ride my bike most days, as it's the most reliable and quickest way to get to work. I occasionally ride the light rail to Westlake station, but catching a bus from there is a bit of a nightmare.	11/17/2014 12:08 PM
1740	More or less.	11/17/2014 12:07 PM
1741	Yes	11/17/2014 12:07 PM
1742	The 36 is always so crowded its standing room early on my work commute. Sometimes that bus passes me by on my way home from work.	11/17/2014 12:07 PM
1743	Yes. It takes time though.	11/17/2014 12:07 PM
1744	bus is convenient from work to home, less so from home to work since the bus stop shelter was torn down	11/17/2014 12:05 PM
1745	Most of the time.	11/17/2014 12:02 PM
1746	I don't use them because they don't work for me.	11/17/2014 11:40 AM
1747	Buses get me where I need to go, but are too slow, too unreliable and too jam-packed to get me to give up my car	11/17/2014 11:34 AM
1748	They get there but with too many transfers & time waiting for them. I have significantly cut my travel to certain services and stores because it's not worth the hassle of getting there and back. This wasn't such a problem a few years ago (3 years, I think).	11/17/2014 11:32 AM
1749	The transit options work, but the reliability has gone down in about the last year.	11/17/2014 11:26 AM
1750	They work pretty well.	11/17/2014 11:22 AM

1751	Mostly but busing from the Central District takes a very long time as buses visit all the hospitals. I would love some express options.	11/17/2014 11:20 AM
1752	They get me there, but VERY slowly. The lack of dedicated bus lanes means we're going just as slow as cars. I wish there was a way to get from Northgate to SandPoint easier.	11/17/2014 11:03 AM
1753	I often miss connections and have to wait if going anywhere other than the bus tunnel.	11/17/2014 10:46 AM
1754	They work fine (as long as the 8 to Central District isn't canceled). They usually get me where I need to go.	11/17/2014 10:19 AM
1755	I prefer to use the bus to get to work because parking my own vehicle is very expensive. However, the bus is becoming more unreliable, because of traffic and increased ridership, so it is becoming stressful to take the bus. Though I get where I want to go, I never know if I will be late or not. Getting the bus home is also becoming a stresser, because those buses are also unreliable and frequently late. Now that it is colder and darker when I get off of work I never know how long I will have to wait outside for a bus. For most errands I usually drive or walk, because it is more convenient and reliable.	11/17/2014 9:01 AM
1756	I use a vanpool now but I have to drive down Aurora a good bit to get to the pickup point. I would much rather catch a vanpool at Swamp Creek or thereabouts but have had no success finding a ride there. It would be great to have a direct commuter route from the Swamp Creek area to First Hill. I'm sure there would be plenty of takers. The different hospitals could publicize the availability of this. .	11/17/2014 8:33 AM
1757	Usually	11/17/2014 8:29 AM
1758	In terms of location, I am happy with the transit options available. Where I run into trouble is with the timing and frequency of certain runs, particularly in the early morning and on weekends.	11/17/2014 7:04 AM
1759	They work quite well, but the bus frequency could be better	11/16/2014 9:16 PM
1760	Mostly, yes. Snohomish County is currently not offering Sunday service, and I understand that they will next June. That would be great, for I sometimes DO need to travel to/from Whidbey on a Sunday. I think we've got a fairly decent transit system, which I use almost exclusively because it IS easier, quite decent and very reliable, with the exceptions all occurring during heavy commute hours	11/16/2014 8:59 PM
1761	I live downtown, near the convention place transit center, so it's pretty convenient for me to get most places using transit.	11/16/2014 7:53 PM
1762	as long as i drive to the northgate transit center, I CAN TAKE # 41 .. THIS IS MUCH FASTER THAN USING MY LOCAL BUS ROUTES #73,77,66 which provide intermittant service in order for me to reach my place of employment before 8am weekdays.	11/16/2014 7:06 PM
1763	yes	11/16/2014 4:13 PM
1764	I have good access to downtown via the 132. I have not-so-good connectivity to anywhere in South King County other than downtown Burien. The 132 is long overdue for connecting to TIBS, which provides a much faster connection to many more destinations, as well as to Burien via the frequent F Line.	11/16/2014 2:52 PM
1765	Pretty good.	11/16/2014 2:19 PM
1766	The ones I use work. But I limit my activities and my job options to transit options that work. There are so many other places I want to go that I can't/don't because there are no options or it literally takes 4 hours to do. I am currently looking for a new job and even though I live near a transit center, my options are really only downtown and Issaquah.	11/16/2014 11:12 AM
1767	Bus service to and from work is good and convenient.	11/16/2014 11:10 AM
1768	I wish the current Link went directly into the stadiums.	11/16/2014 10:34 AM
1769	Yes	11/16/2014 9:35 AM
1770	Yes! But, I worry that for low income folks, public transit in Seattle isn't comprehensive, affordable, or practical enough and I'd be happy to have taxes higher to help pay for that.	11/16/2014 8:11 AM
1771	Sometimes must take 2 buses which lengthens the time of travel from 30 minutes to sometimes 1 hour.	11/15/2014 11:02 PM
1772	traveling east on denny is difficult at night.	11/15/2014 5:37 PM
1773	Yes, but it until we have a First Hill streetcar it is too complicated to get from Capitol Hill to Pioneer Square.	11/15/2014 3:11 PM
1774	Yes, they mostly work well. I look forward to the Link connection from Roosevelt to the airport.	11/15/2014 2:16 PM

1775	Yes (most of my trips do not require transfers) It would be nice to have Seattle service run more frequently during evening hours and later at night.	11/15/2014 11:46 AM
1776	I can generally get where a I need to go. We don't drive our car to work, but rather rely on the bus and sometimes car2go/uber. We usually have to use car2go or uber if we get stuck at work past 6:30, since the express northbound buses (77, 73/72X) don't run after that. It is a painful and slow experience to try to get home on the "local" 73 or 72. Also, the #8 bus up Denny is often so slow, I walk instead of taking the bus. We really need a bus lane on Denny.	11/15/2014 11:08 AM
1777	Yes.	11/15/2014 10:24 AM
1778	I used to take bus and light rail to the airport but it is too slow.	11/15/2014 10:14 AM
1779	Great for getting me downtown (via 76) during peak hours. 80% of my days fit this pattern. For the other 20%, I can also take the 71/72/73 which get me where I need but they are more crowded and take a lot longer. On evenings and weekends, most of the time I can't get to the cross-town locations I would like to go to by bus -- or there isn't frequent enough service to make it feasible -- so I end up driving (though for close locations I am happy to walk or bike).	11/15/2014 8:48 AM
1780	Generally very good depending where I am going	11/15/2014 8:41 AM
1781	Yes	11/15/2014 8:33 AM
1782	They work well. Would be nice to make it easier to get from Lake Union/Fred Hutch area to Capitol Hill without going to central downtown first and picking up a connection going to Capitol Hill. The busses going from Capitol Hill Dearborn area on the weekends are very limited with the 9 not running on the weekends, but will hopefully improve when the streetcar goes online. Overall the transit system works well.	11/15/2014 7:42 AM
1783	Transit currently works with a transfer through downtown. I live on Mercer Island and I am a grad student at UW. I take the 550 from the MI park and ride to downtown and transfer to a 71/72/73. This is a really slow process and I miss the 205. Additionally, because the park and ride fills up by 7:30, I am forced to go in earlier than needed or I just drive in alone at times.	11/14/2014 11:08 PM
1784	They work relatively well, In the morning I catch an express bus from Kingsgate P&R (vicinity) to either Evergreen Point Freeway Station or the Montale Freeway Station depending on bus connections for a transfer to the UW Tower. On the commute home I catch a bus from the UW Tower to the Montale Freeway Station to catch an express bus to the Kingsgate P&R (vicinity)	11/14/2014 8:49 PM
1785	Works great for work commute and occasional commute to the eastside to visit friends.	11/14/2014 7:10 PM
1786	I wish there was more service to Tacoma such as udistrict express buses later into the evening and train service both later and on weekends. Other than that service is convenient for my destinations	11/14/2014 6:39 PM
1787	Yes, I use the bus for weekday commuter hours mostly, and the bus is very fast once I get on. It is a little bit of a long walk from my house but that is fine, the worst thing is when the bus is full and doesn't pick me up. I don't mind if the bus is crowded as long as it lets me on, although as I mentioned my trip is pretty short I don't find the bus to be convenient enough for one-off weekend or weeknight trips, maybe j just because i don't know all the routes well enough, and I don't want to be waiting at stops and walking around a lot at nighttime.	11/14/2014 5:59 PM
1788	The weakest option right now is Metro bus; it simply does not serve the areas I most frequently travel well. Routes are either too distant for convenient use or too infrequent. Biking, walking are great for immediate neighborhood; car2go and my own car cover a lot of the rest.	11/14/2014 5:11 PM
1789	over crowded and frequently late because of over crowding. Also, traffic congestion	11/14/2014 5:04 PM
1790	The newer route from NE to Seattle Center are terrible! Takes so much longer and is too infrequent. We sometimes drive west and park near a friend's to take the D. Alas we sometimes drive now too. It is so confusing with the 65, 75, 31, 32 all mixed up. Downtown and U district are pretty easy by bus. But I never think about going anywhere else by bus. Greenlake, Leschi. I would take bus if more convenient.	11/14/2014 4:31 PM
1791	Yes, I take the bus everyday to and from work. Except for at night, the only option is to take a taxi to get home after drinking.	11/14/2014 4:10 PM
1792	Often overcrowded going from Ballard to Downtown	11/14/2014 3:50 PM
1793	Yes, I work and live very close to everything though, so it's not a problem for me to around within that area (Downtown and Capitol Hill). It's almost impossible to get to my Dad's house in Woodinville by bus.	11/14/2014 2:59 PM
1794	Bellevue to UW takes a long time	11/14/2014 2:24 PM

1795	Work great!	11/14/2014 12:25 PM
1796	Frustrating that there are limited options to get to the Central District, and that there is no direct service from the south end to Capitol Hill on weekends	11/14/2014 11:46 AM
1797	For the most part.	11/14/2014 11:25 AM
1798	Mostly they do, but sometimes they require a lot of walking or hill-climbing, and my disability makes that difficult.	11/14/2014 11:15 AM
1799	pretty much.	11/14/2014 11:11 AM
1800	Poorly. Bus service in my part of the city is infrequent enough that I can only get a few places conveniently, and even then only if I plan carefully. Transfers would be fine if the timing worked out, but I ALWAYS end up waiting forever for a transfer. I'd often prefer to ride transit over dealing with traffic myself, but taking the bus outside my neighborhood often takes 2-3 times longer. Right this minute, Google Maps says a drive to the airport would take 27 minutes, but the fastest transit option is 1 hour 47 minutes. In a case like that, transit could be free and I still wouldn't use it.	11/14/2014 11:03 AM
1801	I get to Seattle from Redmond fine but have to walk from Yale street or downtown to my home at the end of Summit Ave E. It would be nice if you can't reinstate the route 47 that there was a park and ride close to that area.	11/14/2014 11:02 AM
1802	Only to the UW and downtown. Fremont is difficult from Ravenna (I turned down a dream job there because I couldn't count on arriving by bus on time) and Greenwood is ridiculous.	11/14/2014 10:57 AM
1803	They do. I miss the loss of the 243 route so I can get to downtown Bellevue, but I can still get there.	11/14/2014 10:56 AM
1804	Service cuts to the 30/74 have greatly impacted my transit options, particularly at night.	11/14/2014 10:55 AM
1805	They do, but service is often limited so I have to plan accordingly. Often due to the limited service options during certain hours of the day I'm forced to drive to work so I can be on my own schedule.	11/14/2014 10:49 AM
1806	yes, but difficulty getting home.	11/14/2014 10:49 AM
1807	Yes, but the Pike/Pine corridor is terribly underserved during peak hours. For an area with so many people and so many transit riders, this makes no sense!	11/14/2014 10:44 AM
1808	They get me there, but transferring is problematic. Buses are not scheduled to connect with other routes (esp 27 & 14 with the 48).	11/14/2014 9:43 AM
1809	They do, however, I need to add time to my commute as often times the return trips between 3:00 and 4:00 are none existant on some of the routes or there are no routes after peak hours.	11/14/2014 9:37 AM
1810	Yes	11/14/2014 9:29 AM
1811	Yes.	11/14/2014 9:10 AM
1812	Northeast Seattle is hit or miss. There are good options for getting downtown, but currently no good way to get to Montlake (for busses to the eastside on 520) or Husky Stadium (for the eventual light rail)	11/14/2014 9:08 AM
1813	Yes, but I wish they didn't get stuck in traffic all of the time. Its really frustrating--especially in downtown Seattle. Sometimes it takes 45 minutes to get from 2nd and University to the 99 on ramp past Denny Ave.	11/14/2014 7:50 AM
1814	Most times yes, but surface roads are slow, traffic on freeways is stop & go where there aren't H. O. V. lanes and often have to wait long long times especially in winter & on weekends	11/14/2014 7:36 AM
1815	Yes	11/14/2014 7:03 AM
1816	not anymore. Taking away the 47 added 20m to my commute	11/14/2014 2:36 AM
1817	Time is the limiting factor with all of my transit trips - If I travel at off peak times, it is more timely and convenient for me to drive my personal vehicle as opposed to wait for an infrequent bus.	11/14/2014 12:32 AM
1818	So-so. Buses are unreliable.	11/13/2014 11:50 PM
1819	I only ever take it downtown or to the airport. Yes.	11/13/2014 11:03 PM
1820	Travelling to the airport is not so good -- the Link light rail doe snot yet go far enough (it will shortly)	11/13/2014 10:57 PM
1821	I wish there were a direct route from the Tukwila park and ride to the University of Washington.	11/13/2014 10:05 PM
1822	Currently I transfer from 71 to 271 to get from NE Seattle to Bellevue each day for employment. As it stands, it works very well, take approx 1 hour total to commute from Wedgwood to Bellevue	11/13/2014 7:16 PM

1823	Why is building the light rail SO slow? Why will it take 9 MORE years to get it to the Eastside?	11/13/2014 6:44 PM
1824	Capitol Hill to Ballard or Fremont is difficult. And the 8 is unusable during evening rush hour.	11/13/2014 6:20 PM
1825	They do.	11/13/2014 5:58 PM
1826	Yes	11/13/2014 5:58 PM
1827	Mostly, yes!	11/13/2014 5:54 PM
1828	For the most part, yes.	11/13/2014 5:41 PM
1829	Yes, the routes are great however there should be attention given to the timing of the 30 and the 74x. I believe that you would see more riders on the 30 if it were spaced farther from the 74x. Most times it is only a minute behind or literally behind the 74x on its route. The 30 is a great option during non-peak hours to get to and from the U-district and Sand Point.	11/13/2014 4:54 PM
1830	Partially - Yes if I need to get downtown, Capitol Hill, Fremont or Ballard from the U-District(My main destinations) But buses are often late, even during non-peak hours. I often put off traveling during peak hours because so many of the buses coming to/from University District are packed, uncomfortable, late, etc.	11/13/2014 4:23 PM
1831	Frequency of service during off-peak hours tends to be my barrier	11/13/2014 3:58 PM
1832	Yes, but the ride could be faster and less busy with commuters especially on the way back home.	11/13/2014 3:36 PM
1833	Eventually	11/13/2014 3:31 PM
1834	Usually within a few blocks.	11/13/2014 3:25 PM
1835	takes too long, not often enough	11/13/2014 3:24 PM
1836	Sometimes	11/13/2014 3:15 PM
1837	I mostly use the bus to go to work in Lynnwood from UW (taking 512). Sometimes, I go to Bellevue after work, but the 535 is limited (only goes until a certain hour), and not that frequent. I would like to go to Northgate mall, but there is no good bus route to there.	11/13/2014 3:07 PM
1838	Yes, but the wait on many lines is too long during evenings and weekends. The lack of an Express light rail is significant when going to the airport - it's much slower than the bus used to be!	11/13/2014 2:55 PM
1839	I mainly use 2 routes to and from Lake City where I live and UW Medical Center where I work. They work pretty well for the most part; definitely get me where I want to go.	11/13/2014 2:39 PM
1840	They do, but often very slowly and way overcrowded.	11/13/2014 2:39 PM
1841	I keep trying to use public transit and bike paths but eventually fall back to driving. Buses are to irregular and slow in non peak hours. Biking is fantastic if origin and destination are on a bike path but I usually have to ride on the street for a long duration and I give up when I realize I am risking my life. I can always get to where I need to go using transit, but when it adds a half hour or hour to my commute, I simply have to choose to drive.	11/13/2014 2:29 PM
1842	Yes, most of the time.	11/13/2014 2:24 PM
1843	I can get where I'm going 'cause I am long familiar. I appreciate enhancements like Trip Planner and One Bus Away, and the printed city routes map. I dunno 'bout users less familiar.	11/13/2014 2:13 PM
1844	Great	11/13/2014 2:09 PM
1845	Generally, yes.	11/13/2014 1:52 PM
1846	Mostly.	11/13/2014 1:41 PM
1847	The bus takes longer than driving. I want rail expansion.	11/13/2014 1:41 PM
1848	Link is great for going to the airport, but it's hard to get to from cap hill. Buses are slow, unreliable schedules, and subject to traffic. We need a proper subway system like real cities...	11/13/2014 1:26 PM
1849	UW yes, Magnolia/Ballard/Greenwood is inconvenient and long from cap hill. Seattle center is slow and unpredictable because of Denny and the 8	11/13/2014 1:18 PM
1850	the 8 drives me crazy, first all the construction on Mercer messed up Denny Way for months, I often take the 10 or 43 to downtown and then grab a bus on third to belltown. the 8 needs more frequent service - often too full, and passes me by	11/13/2014 1:16 PM

1851	They work very poorly, so I almost never ride the bus. It often takes 2 or 3 buses, with waits in between. I am not willing to spend 90 minutes getting somewhere I can drive to in 15.	11/13/2014 1:13 PM
1852	Currently they work quite well, but that has a lot to do with the fact that I can walk to work in 35 minutes and live on a well served route (36, 60). Because that is not likely to be the case next year, I fear that my vote to increase metro funding in Seattle was perhaps not the best decision on my part. I will likely have to move quite far away, and that will necessitate the purchase of a car, so I will soon be part of the problem, though I really tried to be part of the solution.	11/13/2014 1:08 PM
1853	Mostly bike, bus or lightrail when the weather's bad	11/13/2014 1:02 PM
1854	They are ok. Getting rid of the 47 was really awful for me. It's also not very convenient to get to the lightrail anymore. Even with the capitol hill stop, from the north on summit area, it's a 12 minute walk to get to there, which isn't feasible with a suitcase and no great bus option.	11/13/2014 12:56 PM
1855	The options are limited, but they do work, as long as I can walk 5-6 blocks and don't mind standing on most of my buses. However, I am pregnant, which makes standing on buses very annoying. Between nausea and loss of balance, standing-room-only buses are very frustrating and challenging. Buses also do not run very late from the U district to the North East (311, 257), so I cannot change my work hours to accommodate the needs of my office.	11/13/2014 12:39 PM
1856	driving by myself works for me I pay for gas parking and wear and tear on my car but i can come and go as I please.	11/13/2014 12:33 PM
1857	They work fine. I did not see Bus Route 36, please don't take that route away!	11/13/2014 12:29 PM
1858	North U district to Seattle Center is an awful commute needing a transfer. Also the 48 and 70s are too infrequent and unreliable.	11/13/2014 12:18 PM
1859	I usually bike or drive because the bus takes too long from U District to Balalrd	11/13/2014 12:04 PM
1860	Yes, but have to walk quite a ways.	11/13/2014 11:53 AM
1861	Generally I get where I need to go during the work week. I usually have to take two buses and transiting to second bus. I'll increase using Link once it gets to the University. But I will still need to take a bus to get to and from the University. So that means making a transfer.	11/13/2014 11:16 AM
1862	Eventually -- since you've cut the #79 it now takes me close to an hour to get to work in the morning and 1.5 hours to get home Especially egregious given I live less than 7 miles from where I work	11/13/2014 11:08 AM
1863	They mainly work well. I sometimes have trouble with the ferry system times working with the Metro bus times.	11/13/2014 10:55 AM
1864	ok - just not quickly - I always have a book to read	11/13/2014 10:42 AM
1865	They tend to work. I used to use Metro trip planner all the time, and still do so for new destinations, but often rely on One Bus Away these days to judge which bus to take or know how long I'll wait.	11/13/2014 10:24 AM
1866	Yes	11/13/2014 10:14 AM
1867	They are ok, but only because I live and work very close to transit.	11/13/2014 10:12 AM
1868	They do. Options from Green Lake to Redmond are perfect.	11/13/2014 9:49 AM
1869	I bike and it works well. The Burke can get busy and 8th is a little close with the cars.	11/13/2014 9:49 AM
1870	Mostly, but direct service to downtown has been canceled over weekends and mid-day during week (peak only).	11/13/2014 9:46 AM
1871	Yes, they currently work well for me for my daily commute. Opening up Capitol Hill and University Link will add more options to my existing commute options (i.e. bike to University & ride to Cap Hill/Down Town).	11/13/2014 9:35 AM
1872	They work OK. But there's a lot of walking to get to stops.	11/13/2014 9:18 AM
1873	Reasonably well.	11/13/2014 9:13 AM
1874	Generally, yes. I'm lucky to be able to walk long distances, so this isn't an issue for me with using transit to get around.	11/13/2014 9:05 AM
1875	I take the 71X, 72X, 73X from my apartment in Chinatown to Campus Parkway. I do this every single day. Even when the UW Stadium station opens, I will still value having an express bus from Chinatown/International District Station to Campus Parkway. As a student, having the late-night buses is also important for my demanding schedule.	11/13/2014 9:02 AM

1876	I usually have to take several busses to get where I want to go. Direct routes don't seem to exist like they used to.	11/13/2014 8:34 AM
1877	close enough	11/13/2014 8:34 AM
1878	Yes, nearly all the time	11/13/2014 8:33 AM
1879	The buses take too long, especially with increasingly bad traffic. There's one main reason to NOT take a bus: lack of parking at your destination.	11/13/2014 8:31 AM
1880	Yes, the transit gets me where I needs to go.	11/13/2014 8:25 AM
1881	Getting downtown is easy An east-west route on 65th would be good	11/13/2014 8:21 AM
1882	Since moving to capitol hill, services have been fantastic! I love that I can go places on Sundays and stay out after 7pm during the week. After gibing up my car and while still living in Lynnwood, it was terrible. I work in Kirkland and the evening commute could take 2+ hours if there was rain or traffic. I've been able to get everywhere I want to go from Seattle.	11/13/2014 8:03 AM
1883	Having to transfer buses at Westlake is horrible. I can take any of the 71, 72 73, or 76 northbound, but I typically have to wait 20 minutes at rush hour for ANY of these to come through. Once one does come, about half the time it is too full for me or 90% of the people waiting to get on. The lack of wi-fi, cell service, or any indication of when buses are coming in the transit tunnels is impractical and unsafe. It is also not family friendly as those who need to pick up children have inadequate information to determine whether they should take their chances in the bus tunnel, or take an alternative surface route. I leave work in Queen Anne at 4:30pm and I typically arrive home in Roosevelt at 5:45pm, which is extraordinarily long for a 7mile commute, especially given that I live at 65th and 15th which supposedly is on many bus lines (doesn't matter how many lines it's on if the buses come so infrequently and unreliably).	11/13/2014 7:41 AM
1884	I live on the 30/74 route which comes too infrequently to make it a get-up-and-go service to anywhere. However, once I reach the U-District, services to most everywhere blossom. I'm hoping that, with inauguration of the light rail to the U-District, a frequent, regular jitney circle route service serving the lower Ravenna Park and U-Village areas will connect us to the light rail on an extended hour basis.	11/13/2014 2:07 AM
1885	They don't work for me right now. I would have to take 3 different buses to get to where I need to go.	11/13/2014 12:23 AM
1886	Bus works OK. Gets me where I want to go most of the time, but often the time it takes to do that is so great I'll find another option (Uber or car2go, usually).	11/12/2014 10:28 PM
1887	They work great!	11/12/2014 10:17 PM
1888	Yes! I plan my trips around taking the bus and it is generally easy to do. I don't own a car, so this may influence my opinion.	11/12/2014 10:11 PM
1889	In general there is a transit option to get to most places I want to go.	11/12/2014 10:05 PM
1890	They work well enough for me.	11/12/2014 10:02 PM
1891	They generally work well although the busses can be crowded. I am usually able to catch a bus nearby and take it to near my destination.	11/12/2014 9:47 PM
1892	Despite traffic disrupting Metro time schedules and connections, only sometimes, Metro is reliable.	11/12/2014 9:35 PM
1893	The get me where I need to go but tend to be heavily overcrowded during rush hour.	11/12/2014 9:33 PM
1894	They are pretty good for the most part.	11/12/2014 9:18 PM
1895	Bike is always most efficient. Bus only works to/from particular destinations, usually along north/south lines (cap hill to u district, but not Madrona to greenlake, for instance). Mostly I use car2go if I can't bike.	11/12/2014 9:15 PM
1896	I drive to work downtown because my hours vary, and late evening buses are scarce or I go to a yoga class in Fremont before work, so the bus doesn't work. We'd love to do light rail transit to and from Safeco Field for Mariners games, but that option is not currently available. Ditto attending the opera at Seattle Center or the symphony at Benaroya Hall. Or getting to the airport. Currently I have parking downtown so I can park there and take light rail to the airport, but when I retire in the next couple of years, I won't have parking downtown.	11/12/2014 8:52 PM
1897	Yes	11/12/2014 8:43 PM
1898	Yes, right now it brings me where I need to go	11/12/2014 7:55 PM
1899	Yes, for the most part. My biggest frustration is the slowness of buses during rush hour.	11/12/2014 5:58 PM

1900	I use the 8 most frequently. It is always late, slow and packed.	11/12/2014 5:47 PM
1901	Good. Please don't change. Only problem is getting to/from the airport for very early flights and/or late arrivals. Would be nice if it ran earlier and later.	11/12/2014 5:46 PM
1902	I drive on the ferry to get to work. Transit options useful on weekends, holidays or vacation when going downtown.	11/12/2014 5:29 PM
1903	Transit options thus far are mediocre because of the long waits and unreliable bus schedules. Transit does get me where I want to go	11/12/2014 5:16 PM
1904	yes. I wish the 372 operated on the weekends, that is my most commonly used route for a variety of reasons	11/12/2014 5:06 PM
1905	For the most part	11/12/2014 4:39 PM
1906	Current connections get me where I want to go, but would choose more often to take transit to Capitol Hill, First Hill, and Sea Tac Airport if I could transfer at Husky Stadium instead of downtown Seattle.	11/12/2014 4:35 PM
1907	I use light rail and streetcar. They work well with two exceptions - when the streetcar gets blocked by something being stuck on its tracks, and the exceedingly heavy traffic the streetcar hits on fairview, going towards westlake. The streetcar moves so slowly in the afternoon on fairview that walking is faster. So no, that doesn't work well. Streetcars would work better with their own right-of-way.	11/12/2014 4:35 PM
1908	I would love to take the light rail more often but they currently don't go to the places I frequent in Ballard, West Seattle, Bellevue and Northgate. I have no issues with bus service but would rather take the faster and more frequent light rail when it becomes available.	11/12/2014 4:33 PM
1909	Yes, First Hill Express is key for all of us working up here and coming from the south end.	11/12/2014 4:25 PM
1910	Pretty well; I do get where I want to go, but it's all a matter of timing. If I want to get to Capitol Hill from Ballard I have to take two buses - so I do if I have no time constraints, or I use Car2Go if I'm in a hurry.	11/12/2014 4:23 PM
1911	A few of the places. They get me to UW Seattle Campus, to the Ferry Terminal, but not really anywhere else in a timely manner. I would use public transportation much more if it was more readily accessible, ran more often and took less time to get to my destinations.	11/12/2014 4:09 PM
1912	Downtown and Campus are fine. East-west not so good. No direct bus from wedgwood or ravenna goes to Husky stadium.	11/12/2014 4:08 PM
1913	yes	11/12/2014 4:00 PM
1914	Yes, they work well.	11/12/2014 3:52 PM
1915	yes but it takes a long time. some bus comes at the stop earlier and have to wait the for the next 20-30 minutes.	11/12/2014 3:46 PM
1916	yes	11/12/2014 3:37 PM
1917	ok, but always late, and would be great to have more options not during peak hours.	11/12/2014 3:36 PM
1918	Most of the time.	11/12/2014 3:27 PM
1919	They almost always work for me. The only problem is that when you live in the CD, you almost always have to go downtown before you can go to Bellevue. This means from the CD to Lincoln Square takes over an hour.	11/12/2014 3:23 PM
1920	My most used routes are the 1/14 (one turns into the other, depending on my commute direction) and the 8. None of these routes come often enough. The 8 is particularly bad - very long gaps between arrivals, and the bus is rarely even close to being on schedule. I have waited 40+ minutes for an 8 bus on several occasions, but there is no other route that connects Capitol Hill to the Jackson & 23rd area.	11/12/2014 3:18 PM
1921	I can generally get where I need to go in an acceptable amount of time as long as all the bus lines run on 10-15 min. intervals. Buses that run on 20+ min. intervals are generally overcrowded and too difficult to time for transfers. I do occasionally have to travel between different sites for work; if I had to do that frequently, transit wouldn't be a viable option due to travel times. Transit within a given quadrant of the city is generally workable. Trying to get north of the ship canal from south of downtown, or trying to get south of the ship canal from north of downtown is unworkable on a daily basis. It's also been my experience that bus travel times are very unreliable in the core neighborhoods of Downtown, Queen Anne, Capitol Hill, Ballard, Wallingford, Greenwood, and the U-District due to surface traffic	11/12/2014 3:12 PM
1922	They work fine and get me where I need but they are always, every day, every time, either direction, about 8-12 minutes late and One Bus Away does not always reflect that. It would be more convenient to have a faster service with less stops straight from downtown, through Capitol Hill and up to University Village.	11/12/2014 3:10 PM

1923	Yes, quite convenient for commuting to work and accessing entertainment options.	11/12/2014 3:07 PM
1924	no.	11/12/2014 2:56 PM
1925	They don't. I drive downtown because it would take me two buses and too long to get there.	11/12/2014 2:56 PM
1926	Yes.	11/12/2014 2:55 PM
1927	The bus/light link rail works very well. I get where I want to go!	11/12/2014 2:54 PM
1928	Journeys that aren't to/from downtown are often a lot more complicated than I'd like.	11/12/2014 2:53 PM
1929	The number 28 (Laurelhurst) not running on weekends is problematic for me.	11/12/2014 2:52 PM
1930	Yes	11/12/2014 2:48 PM
1931	They get me from point A to point B, in a slow manner but I usually get there.	11/12/2014 2:34 PM
1932	Work very well	11/12/2014 2:34 PM
1933	yes, although some could be better.	11/12/2014 2:09 PM
1934	I live downtown and getting around is really easy.	11/12/2014 1:42 PM
1935	Somewhat - need greater access to light rail stations from transit centers	11/12/2014 1:38 PM
1936	Good	11/12/2014 1:26 PM
1937	Yes, although busing can take too long during peak hours.	11/12/2014 1:25 PM
1938	Yes. Right now I'm able to stay on one bus from my house to work (75 -> 31).	11/12/2014 1:19 PM
1939	Too slow to go from Madrona to Fremont with transfer downtown or near University of Washington	11/12/2014 1:17 PM
1940	bus service to cap hill is tricky - particularly coming home in the evening. Would love a more reliable option.	11/12/2014 1:12 PM
1941	I REALLY miss the 306 bus - deleting it was a major error based on faulty ridership "data." This has caused a significant deterioration of the service on the 309, 312, and 522 buses - which badly needs to be addressed. This specifically impacts Seattle city residents most of all.	11/12/2014 1:07 PM
1942	Pretty much, for myself personally.	11/12/2014 1:02 PM
1943	I LOVE LINK!!! currently I use it to go downtown and to the airport primarily. I also use it to go attend games in SODO. I wish it went more places. I like it's going to Cap Hill and the U dist. It should also go to Southcenter, Northgate, West Seattle, Ballard/Wallingford/Fremont etc.	11/12/2014 12:58 PM
1944	Metro, light rail They are good and inexpensive But they do not cover all the areas.	11/12/2014 12:40 PM
1945	Yes I do.	11/12/2014 12:39 PM
1946	Metro bus. Yes.	11/12/2014 12:39 PM
1947	Sometimes. The bus line closest to me shut down and it's a pain getting to places other than downtown or U district	11/12/2014 12:37 PM
1948	Mostly. Sometimes with a huge time expense.	11/12/2014 12:36 PM
1949	They take too long to get to the Eastside or get stuck in traffic in the city, specially the 8.	11/12/2014 12:36 PM
1950	mostly. I drive for destinations that are too far to walk. I'd like to more easily reach Seattle Center by transit (other than bus), and Gasworks Park area....the Waterfront	11/12/2014 12:28 PM
1951	Yes	11/12/2014 12:26 PM
1952	Right now, I usually walk 35/40 minutes to work, and then again going home. It is more reliable than catching the 8 and transferring to another bus to get to work. I will sometimes take the 8 going home to avoid an uphill climb, but the 8 is always overcrowded, and usually late due to traffic. I don't feel safe riding the bus when it is overcrowded. Otherwise, taking the bus or train is an OK option, as long as it's not during rush hour. It usually takes a very long time to get anywhere.	11/12/2014 12:24 PM
1953	Yes, but the buses never come on time..especially the 14.	11/12/2014 12:11 PM

1954	Not close enough. Nothing goes directly from Capitol Hill to the International District which is my daily commute to work.	11/12/2014 12:05 PM
1955	Can't get to outlying theatres safely or expeditiously. Ballard works splendidly, please always keep the #44. Fremont to Cap Hill direct would be nice. I like Fremont but generally don't go because it is awkward. Same with Queen Anne. (Would open up nighttime venues for me.) I would love to be able to bus to Ikea. I never go because I can't. Also can't seem access very easily the area where they have all the bigbox electronic shops down near South Center or what, for my computer needs. Glad for the Office Max on Cap Hill at least, but it's not enough. Downtown and U District from cap hill rocks.	11/12/2014 11:57 AM
1956	They are reasonable. They do get me where i want to go but the lack of flexibility in bus schedules getting to and from Seatac-Kent can be frustrating sometimes.	11/12/2014 11:55 AM
1957	For day-to-day activities like my daily commute, Metro works well enough. I ride the 43 or 48 between Capitol Hill and the University District, so there are lots of buses and fairly frequent service. For things like running errands on weekends, riding Metro would take 2-3 times as long as driving, especially when I'm going to multiple locations, places that require transferring, or places where buses only run once or twice an hour. In these cases, I use Zipcar to save time. Likewise, for trips between Capitol Hill and West Seattle, how long the trip will take is so unpredictable that I often drive. I've had that trip take 45 minutes and I've had it take 90 minutes, with both made in similar traffic conditions. Finally, for late-night trips, I often take a taxi. There have been too many times when a nice night out was soured by waiting at a stop or riding on a bus where other riders made me feel uncomfortable and concerned for my personal safety.	11/12/2014 11:53 AM
1958	it works fine.	11/12/2014 11:49 AM
1959	The bus routes from First Hill to the north end are not direct enough in the afternoon, between 2 and 6. It can take over 2 hours to get home.	11/12/2014 11:45 AM
1960	Usually. Most buses are late and very crowded. (The only exception to this is the 1 which is always on time and has reasonable crowding! Woo!) It is very slow and awkward to get from the south end of Seattle to Capitol Hill. The best route usually involves a 15-20 minute walk (why!?) Half the time when I attempt to take the 10 or 43 up, I abandon and walk due to over crowding (after waiting an extra 15 minutes because the bus is late).	11/12/2014 11:38 AM
1961	No, I end up driving from home (Laurelhurst neighborhood) to Wedgewood neighborhood to catch an express bus. Or often, I get driven to campus to catch a bus downtown	11/12/2014 11:35 AM
1962	The Sounder Train and route 211 was a fantastic route for me. But now there is not enough parking at Kent Station to accommodate ridership and route 211 was cancelled. So now I need to take a bus then walk to another bus, which isnt convenient. Yes they get me there, efficiently - no.	11/12/2014 11:32 AM
1963	Yes	11/12/2014 11:26 AM
1964	generally, but the options to downtown directly from Wedgewood are not as plentiful, or as frequent as when I lived in the Central Area	11/12/2014 11:22 AM
1965	Yes, they get me where I want to go, but the hours are limited. Also they take a long time and I hate waiting for transfers in the cold or rainy weather!!!	11/12/2014 11:16 AM
1966	Yes, the routes I take from Lake City to downtown are helpful. Since they go on the express lanes, they are usually able to avoid the worst of the commute traffic.	11/12/2014 11:13 AM
1967	YES	11/12/2014 11:13 AM
1968	I don't use them very often.	11/12/2014 11:01 AM
1969	Most of the time, yes.	11/12/2014 10:52 AM
1970	Yes, but would like more direct buses from Kingsgate Park&Ride to UW. The 255 takes too long.	11/12/2014 10:46 AM
1971	Tend to be over crowded at peak times.	11/12/2014 10:32 AM
1972	Usually.	11/12/2014 10:24 AM
1973	I get where I need to be.	11/12/2014 10:16 AM
1974	I get to where I want to go, however, some routes are unreliable.	11/12/2014 10:12 AM

1975	For the most part, yes. I live in the Central District and do not own a car, but can get most places I need to go. Usually I need to walk about half an hour if I am going directly north, like into Capitol Hill, because there isn't really a bus that goes that way. I also go to Tacoma often via bus. I have also needed to borrow a car when going to a particularly residential area of Rainier Beach. Sometimes, especially on weekends, I find that buses have stopped running and I need to walk back or take an uber. I do wish buses ran later into the night, especially on weekends, for safety reasons.	11/12/2014 9:47 AM
1976	Buses late going into downtown from Ballard, I blame this on Supervisors who just don't do the job they out there for or using the blind eye method ?	11/12/2014 9:46 AM
1977	Generally yes. But, in the afternoon, Route 32 runs late almost every day. This is my only option. Runs 1 bus every 1 half hour.	11/12/2014 9:38 AM
1978	Destination yes, frequency no.	11/12/2014 9:37 AM
1979	Great! I wish there was a more direct bus from Redmond transit center to Renton transit center	11/12/2014 9:11 AM
1980	I want metro to be better because then I'd use it more. Right now, many parts of town are very inconvenient to go to.	11/12/2014 8:51 AM
1981	YES	11/12/2014 8:48 AM
1982	There are not enough busses. It's easy to get from my home to downtown, difficult to get to neighborhoods that are close but to the west (Fremont, Ballard, ect)	11/12/2014 8:47 AM
1983	They sure do, unless the bus driver takes the wrong turn and misses my stop, then they do on the next go round.	11/12/2014 8:41 AM
1984	Most of the time I am very happy with the service of Metro and Sound Transit, Once in a while I find a destination I can not get too because the bus/ link don't go there (such as the Terminal Building at King County Airport).	11/12/2014 8:33 AM
1985	They work ok, but it seems like all the buses to the top of Capitol Hill depart from the bottom at the same time.	11/12/2014 8:32 AM
1986	Route 10 to SCCC, Airport [light rail], Anywhere on Aurora - these all work well 48 to 520 & U District, UofW Campus 8 to Seattle Center or south is a good route but NEVER seems to run on time Want to go but can't: Fremont & Ballard! It is a really tough cross-town drive and a pain on the bus. It would be really nice to go out at night in those neighborhoods. Also, there are a lot of music classes & other cultural events there. Also, Chinatown - I have no idea how to get there on the bus but love to visit new stores, museum	11/12/2014 8:17 AM
1987	The Rapid Ride C Line and/or 55 get me from home to work and back again. The Rapid Ride C line is always standing room only my the last stop in West Seattle.	11/12/2014 7:55 AM
1988	Problem: I am a Running Start Student at Seattle Central College. Everyday I ride bus #9 to Seattle Central and back home (I live on the corner of 50th Ave S and Genesee). The #50 metro bus comes infrequently and the #9 metro bus every 10-15 minutes. It is not timed correctly for me to ride the #50 to then connect with the #9 without a long wait. The #9 bus shelter is no longer lit during the dark months. Why?? The large parking lot adjacent to the #9 bus shelter has lots of light poles, however, they are never on. This presents a safety hazard at the shelter on the east side of Rainier Ave S, at the corner of Genesee (bus shelter)	11/12/2014 7:46 AM
1989	I do OK. Light rail will be a big help.	11/12/2014 7:42 AM
1990	I live in Columbia City and work downtown. The light rail is great for this, However, getting from Cap Hill to Columbia City can take some time. Some options involve more than one bus or walking several blocks to get a bus. And transit further north and back to Columbia City is worse. Light rail keeps on schedule and is reliable. However, anytime I take the bus #8 (up to Cap Hill or beyond) there are significant delays no matter what time of day, although mostly around rush hour. Same for #9 express.	11/12/2014 7:31 AM
1991	yes because I drive myself	11/12/2014 7:01 AM
1992	Mostly.	11/12/2014 3:49 AM
1993	I used the 5 to go up to Shoreline college for a quarter- that was great. They do go where I want to go. Having previously lived in Washington D.C. and Portland, OR I really miss the subway and light rail. They are more frequent, predictable, more comfortable, and are not affected by traffic.	11/12/2014 2:08 AM
1994	no really, sometime i need to find a car2go	11/12/2014 1:18 AM
1995	They work fine.	11/12/2014 1:11 AM
1996	yes, most of the time, apart from several chances when they were rerouted or late with vague information shown.	11/12/2014 1:07 AM

1997	Okay, but it is often much faster and cheaper to drive to many places, would like to see express buses that do more than just go downtown	11/12/2014 12:13 AM
1998	It is frustrating that so few buses connect with ferry terminal, and that none of them link to ferry arrival times. Late at night walking to the ferry terminal from streets such as 1st Avenue/Pine is very unsafe. A bus that stops right near ferry terminal would solve this problem.	11/12/2014 12:12 AM
1999	The 545 gets me to downtown Seattle very easily. I wish there was better transit in south king county. I have a lot of friends there- but the sound transit bus that goes from over lake to Kent only runs on weekdays. It's a nightmare to bus to south king county most of the time.	11/12/2014 12:09 AM
2000	Yes and no. Easy to get downtown. Hard to get anywhere else. I love taking the bus to issaquah and bellevue tho, is much faster and a pleasant ride. Just hard to get to the stops!	11/12/2014 12:02 AM
2001	I can go pretty much everywhere but have to take at least 2-3 buses to get there	11/11/2014 11:59 PM
2002	Most of the time, yes. I hate Car2Go, though. I like taking the bus most of the time, and taking the link train to the airport is super easy and I love it.	11/11/2014 11:54 PM
2003	Yes	11/11/2014 11:44 PM
2004	Yes, but not close enough to my house to take it during dark hours.	11/11/2014 11:25 PM
2005	Not always, because it requires a transfer. I want to take one bus, and please note I am willing to walk up to 3/4 of a mile but still doesn't get me close enough	11/11/2014 11:01 PM
2006	No, generally I need to walk 8-10 blocks total to/from the bus. The #8 is particularly difficult to use when I have less than 60 minutes to commute to the office. I often have time to walk 2 miles, and I still beat the bus.	11/11/2014 10:18 PM
2007	Slowly with traffic and crowding delays. Always a transfer. Not enough late hour buses to get home.	11/11/2014 9:38 PM
2008	It takes forever to travel east and west around the city	11/11/2014 9:30 PM
2009	They use to work better before you killed the MT243 (single ride commute morning and evening). NOT HAPPY ABOUT THAT! That said, I'm making combinations of MT routes 65, 72, 75, 372 and 271 work depending on what's available when. They get me where I want to go ... and provide somewhat increased choice of when I travel ... but they take longer, require transfers and are often VERY crowded. Oh, and the 271 from Bellevue to the U district can be hella slow (crawling) along 84th Ave NE to reach SR520 in the late afternoon/early evening commute. UGH.	11/11/2014 9:14 PM
2010	mediocre service coverage and frequency	11/11/2014 9:11 PM
2011	I used to be able to take a 75 and it turned into a 330 bus to Shoreline Community College. I no longer have a convenient option to get from Magnuson Park area to Shoreline City Hall for work. I can get downtown and to the U District easily. I cannot easily get to Seatac on public transportation; I get friends to drive me to Light Rail to get there.	11/11/2014 9:08 PM
2012	The 64 works great, goes straight downtown. But needs to be more frequent. The 71 and 76 are OK but it takes way too long. Too many turns in sparsely used stops East of 35th Ave NE. It feels very roundabout and milk-run. People could just walk to either 35th, 75th, or Sand Point Way if routes went along there for short runs to a main line. Then if the transit was frequent and reliable, then we could use transfers as well.	11/11/2014 8:45 PM
2013	great for work, wish there were more option during off-peak hours	11/11/2014 8:16 PM
2014	Works ok. They do get me where i want to go - would prefer less transfers or more direct/faster routes.	11/11/2014 8:12 PM
2015	Fairly well. 8's Denny Way gridlock is bad--need to fix this! Another cross-town route between the 8 and the 44 is needed. Make it work. Be bold.	11/11/2014 8:03 PM
2016	Yes want more aervice	11/11/2014 7:51 PM
2017	Yes, however i would like transfers to be smoother. would like a bus to go down Montlake.	11/11/2014 7:47 PM
2018	Yes the 550 is great, especially since its an express bus, it rarely gets caught in traffic (mornings) and it comes very often in the mornings for me. And it makes stops that are very close to my house. I also take the 49 a lot, It makes a lot of stops in places I need them to be, but it doesnt come as often as I would like (especially mornings)	11/11/2014 7:23 PM
2019	Work well. I am happy.	11/11/2014 7:03 PM
2020	They work, but as a nature of being buses, they often are unreliable or the timing is surprising. That's why I really really hope you keep expanding rail transit--it is the only hope!	11/11/2014 6:45 PM

2021	I am frustrated that there is no direct route from Rainier Beach to Georgetown. I have to go all the way downtown and back again, but Georgetown is only 3 or 4 miles from where I live. Taking the bus to far-away neighborhoods would be better served by light rail, such as West Seattle, Fremont, and Ballard.	11/11/2014 6:45 PM
2022	I am looking forward to a fast convenient trip to Downtown Seattle without going through the University.	11/11/2014 5:35 PM
2023	It's great some times but not consistently.	11/11/2014 5:34 PM
2024	I can nearly always get where I need to go with current available options but with significant delays. It takes about 3 times as long to get anywhere with public transit as it does by private car. Commuting by public transit requires a significant time commitment that is frequently inconvenient and impractical.	11/11/2014 5:24 PM
2025	They work ok - they could be more dependable with more departures so that the buses aren't overfilled.	11/11/2014 4:35 PM
2026	close enough	11/11/2014 4:30 PM
2027	yes	11/11/2014 4:24 PM
2028	Yes, but taking the bus from downtown to Capitol Hill is slower/the same as walking.	11/11/2014 4:14 PM
2029	Taking the bus would take three times longer than driving. Now that I can easily afford parking downtown or at the stadium I no longer take the bus due to how long it takes compared to driving.	11/11/2014 4:09 PM
2030	Generally yes. However, my company is considering consolidating all staff at Eastgate, which would result in a 1:20+ commute each way from home. So transit is not sufficient for this scenario. However, travel times increase dramatically in the evening due to bus frequency, resulting in the need to use Uber or other services when I stay downtown past about 7 PM.	11/11/2014 4:00 PM
2031	They get me where I want to go, but only during peak hours. I'd like to be able to have a direct route or to easily travel outside of peak hours. Right now I have to walk or wait (or both) alone in the dark because transit routes aren't ideal.	11/11/2014 3:55 PM
2032	They are okay. Buses are often late or there seems to be a long wait in-between buses. In cases there are too many transfers of routes.	11/11/2014 3:38 PM
2033	Excellent - I can get to where I need to go.	11/11/2014 3:31 PM
2034	By Bus was recently cut so I have to take Car2Go to work everyday or spend an extra 30 minutes each way of my commute.	11/11/2014 3:27 PM
2035	I mostly cycle from bryant to downtown for work. I do also take the bus. I would love to see a more frequent bus service (every 15 minutes) up and down 35th and between Bryant and the u district.	11/11/2014 3:24 PM
2036	Used to take the bus but did not like the full buses, transfer and waiting times. A distance of 5 miles easily took 40 minutes. That was okay if I had a seat and could work but not if the bus is full.	11/11/2014 3:23 PM
2037	Don't take the buses away just because the light rail is expanding! Some of us don't like to travel underground.	11/11/2014 3:22 PM
2038	to UW ok to Ave (downtown) ok to airport (currently) not ok, must transfer on Ave and again to light rail	11/11/2014 3:15 PM
2039	Metro to/from work (Dexter -> Downtown), Metro to/from family & friends (Eastside) The lack of late hour express service (252/257/311 vs 255) from downtown Seattle to the freeway stations on I-405 north of 520 is a significant impediment to me spending evenings out in downtown Seattle after I get off work.	11/11/2014 3:14 PM
2040	Slow in the evening, but otherwise fine.	11/11/2014 3:11 PM
2041	Few options exist near my home, only one main bus route (7) in walking distance and it only goes downtown.	11/11/2014 3:09 PM
2042	Going downtown is extremely slow during rush hours. I avoid cross-town routes such as the 44 and 8 unless there's no other option.	11/11/2014 2:36 PM
2043	Yes, but some bus routes are painfully slow during parts of the day. Driving is still faster than problematic routes like the 8.	11/11/2014 2:01 PM
2044	I like the routes I use. I do wish on sundays there was more frequency with all routes, as sunday is a day i use the bus the most for errands.	11/11/2014 2:00 PM
2045	For the most part, they're fantastic. A little worried about cuts.	11/11/2014 1:40 PM
2046	Buses/trains/light rail all take way longer than sitting in traffic in my car.	11/11/2014 1:37 PM
2047	Yep! They work for my needs.	11/11/2014 1:35 PM

2048	269 is always late (sometimes up to 20 minutes!) and has since discouraged me from wanting to commute with buses. If the buses were reliable and on time, I would use them more often.	11/11/2014 1:34 PM
2049	Yes, except on days when they utilize snow routes, It is not convenient.	11/11/2014 1:32 PM
2050	They work well within certain hours. I rely heavily on the 64 but cannot use it if I stay at work past 5:45, or if I take my kids to school because the last 64 leaves for downtown before 8 a.m. near my home. When I cannot take the 64, I either have to make transfers (which often do not work out due to buses being late) or I have to walk 20+ minutes to/from a bus stop.	11/11/2014 1:28 PM
2051	I live on the route 47 and look forward to its return next year.	11/11/2014 1:24 PM
2052	I work in Eastlake and live on Capitol Hill. It is difficult to utilize public transportation for this route because it requires you to go downtown first.	11/11/2014 1:13 PM
2053	For financial reasons, I essentially only use the Metro bus, and very rarely use other options. Yes, I get to where I need to go, but feel like it takes too long, too much of the time.	11/11/2014 1:10 PM
2054	sometimes their frequency is insufficient. Also, bus delays are _very_ inconvenient.	11/11/2014 1:05 PM
2055	They do.	11/11/2014 12:54 PM
2056	Ok, but too long	11/11/2014 12:40 PM
2057	Yes, they work sufficiently to get me to my destination but could be improved. I travel between U-district/Downtown/Capitol Hill via Metro transit regularly. (15 rides/wk)	11/11/2014 12:33 PM
2058	Yes they do, but I would go more places if they ran more frequently around the area I live, which is the CD.	11/11/2014 12:30 PM
2059	My main bus route I use daily is the 5. It is always very full now that other lines have been cut -- so full that I very often have to wait for multiple busses for one to let me on during peak hours (8:15am). Would really like to get routes that go diagonally across town (ie Ballard to Capitol Hill)	11/11/2014 12:29 PM
2060	My family utilizes bus #25 to get home from school, s a yellow school bus is not available for where we live. The 25 works well for us, as the stop is directly outside the school, so there is no need to walk too far to wait for the bus, especially as the days get shorter.	11/11/2014 12:15 PM
2061	mostly. not easy to get to elliot bay or ballard from 8th and virgina or redmond	11/11/2014 12:08 PM
2062	In general they work very well. Travel to and from Capitol Hill or First Hill is a challenge due to slow travel time. Travel between downtown and the University District can be a challenge because of insufficient capacity.	11/11/2014 12:01 PM
2063	My typical bus is the 10, It works alright, however it is very slow. Due to the number of stops it can take me 30 minutes to get to work at 9:30am by taking the bus downtown, and walking the rest of the way. Where I catch the 10 there are stops nearly every block. I feel like this would be much improved by reducing the number of stops to every other block, and hopefully increasing the frequency at which the bus runs.	11/11/2014 11:58 AM
2064	Get me where I'm going for the most part. With a bike you can get anywhere in about an hour.	11/11/2014 11:55 AM
2065	We RERETIRED	11/11/2014 11:53 AM
2066	Works pretty well, other than the buses around Seattle Central college are sometimes very crowded, standing room only with students	11/11/2014 11:50 AM
2067	I have to transfer once, but since a few routes have been cut, now the Route 3 & 4 are overly crowded where I have to catch the next one which is often late.	11/11/2014 11:45 AM
2068	Mostly. The biggest difficulty is getting to the eastside easily, or crossing town directly (e.g., Capitol Hill to Ballard, Fremont or to Queen Anne).	11/11/2014 11:39 AM
2069	yes	11/11/2014 11:33 AM
2070	Yes, generally, they work well.	11/11/2014 11:32 AM
2071	I use metro buses mostly. The 3 and the 4 buses need to be updated, with more reliable service. They are constantly late and breaking down.	11/11/2014 11:31 AM
2072	Yes. I'm retired and have the time. I also can walk 1 - 2 miles.	11/11/2014 11:30 AM
2073	Biking is best	11/11/2014 11:26 AM
2074	yes	11/11/2014 11:22 AM

2075	yes - crowded at rush hour	11/11/2014 11:21 AM
2076	Mostly works fine	11/11/2014 11:21 AM
2077	I use the 522, 41 and monorail. I use the D line when I work past 1am since the 522 and 41 don't run that late.	11/11/2014 11:17 AM
2078	Sometimes	11/11/2014 11:13 AM
2079	For the most part yes, if I want to travel within proximity to downtown. Though buses run often, the 8 is problematic as the volume of riders exceeds the bus capacity in the mornings and afternoons, and so the bus skips stops often.	11/11/2014 11:04 AM
2080	Sort of -- I have organized my life partly by where it's easy to bus to.	11/11/2014 10:55 AM
2081	Yes.	11/11/2014 10:55 AM
2082	Yes and no. They were better before the buscuts ythis year-- the bus to my work no longer runs on the weekends when I need it, route 30.	11/11/2014 10:38 AM
2083	My old route was cut so now I have to take multiple busses and am furthur away from my destinations	11/11/2014 10:29 AM
2084	Yes. Most of the time.	11/11/2014 10:29 AM
2085	They get me where i need to go, but are frequently late or way over capacity	11/11/2014 10:21 AM
2086	The current routes work for me, but more frequent buses would be very helpful. The buses are often crowded and sometimes have to pass people at bus stops when they are too full.	11/11/2014 10:21 AM
2087	It's limiting. Living on Capitol Hill (without a car) trips to shopping areas (Westwood Village, Northgate) have to be scheduled when large amounts of time are available. I usually end up putting off trips until a friend with a car is going.	11/11/2014 10:16 AM
2088	They work very well and absolutely get me anywhere I need to go.	11/11/2014 10:11 AM
2089	Yes, but not as fast as they could, and the bus I take to work (8) is frequently overcrowded.	11/11/2014 10:08 AM
2090	Transit options going East-West are lacking	11/11/2014 10:07 AM
2091	I can get to where I need to go, but it usually takes two buses to get there. My destinations don't have direct routes. With the toll on the 520 and parking in Fremont, transit is still more economical than driving me for. It is also less stressful, but it definitely takes more time. I feel like I spend a lot of time waiting for buses.	11/11/2014 10:00 AM
2092	They are all a wonderful alternative to driving to work every day.	11/11/2014 9:57 AM
2093	For many of my trips, they work fine. Transit from North Seattle/Greenwood to Downtown is excellent. If there were good bus options to a Northgate Link station, I would likely prefer Link to taking a more direct bus, particularly if a transfer rate applied vs. having to buy another ticket.	11/11/2014 9:49 AM
2094	I have stopped using metro bus service. I have witnessed several altercations and I don't feel safe riding the busses.	11/11/2014 9:49 AM
2095	For the most part yes, sometimes the connections are not always ideal or require long waits--especially on Sundays and evenings. I don't own a car, so on weekends in particular I have to plan errands and trips carefully.	11/11/2014 9:29 AM
2096	mostly, but the ride to the airport is long when I have to go downtown first and transfer	11/11/2014 9:20 AM
2097	It will work great when Link opens up to the UW. Honestly, the Seattle streetcar along Broadway is a waste of money and a monument to some planner's or politician's ego. It will be slow, indirect, and never have the ridership that the geniuses in SDOT are planning. Just like their projection errors with the SLUT.	11/11/2014 9:15 AM
2098	Yes, but it still involves driving a long way to pick up the bus.	11/11/2014 9:09 AM
2099	They only get me to work and back and other than that they're basically useless. Not enough routes, not enough buses. Not enough usable destinations.	11/11/2014 9:06 AM
2100	Since moving to Ballard, I take the bus to work much less often. It is over an hour bus ride, 45 min bike ride, or a 20 min drive. I opt to drive or bike now that the bus takes significantly longer.	11/11/2014 9:03 AM
2101	Not well. Currently I have to drive to work (on Eastlake) because it takes as long to get there from Northeast Seattle (after transferring in the U District) as it would for me to walk the 3 miles.	11/11/2014 8:53 AM

2102	I use vanpool, which is terrific, since it goes directly from point A to point B directly. For buses, they work fine for going downtown or to the stadiums, but fall short when travelling from neighborhood to neighborhood. E.g., I can get from Phinney Ridge to Greenwood, Fremont, QA, SLU and Downtown, but to no other neighborhood via bus. Connections E-W to Ballard, Wallingford, Roosevelt and UDistrict are nonexistent.	11/11/2014 8:43 AM
2103	pretty good. connections from pierce transit to sound transit aren't so great.	11/11/2014 8:29 AM
2104	- Better connections between eastside routes and Link are important. Currently you need to go downtown to access service. This makes it more time consuming to travel to/from the eastside. - First Hill needs better N/S connections to Capitol Hill and SLU.	11/11/2014 8:24 AM
2105	Yes	11/11/2014 8:22 AM
2106	I take the bus to work every day. It works well, but I am lucky to live and work near major bus stops.	11/11/2014 8:10 AM
2107	I primarily use the bus to commute to and from work. My bus travels on the Ave. Too often, the trip home means not only standing but being packed in like sardines. Sometimes the bus is too full by the University tunnel stop for me to even get on the bus I need. This is very frustrating because I know the bus will empty out within the first stop or two once it gets to the U District. All of those people could have taken any of the busses going that direction but I need that specific bus. Also, during the evening commute my bus is almost never on time.	11/11/2014 7:58 AM
2108	They get me where I want to go, there are at times long and unpredictable waits when I have to take more than one bus to get somewhere. Buses have left several minutes before their scheduled departure time from the stop to 10-12 minutes after they were scheduled to leave.	11/11/2014 7:58 AM
2109	They work well.	11/11/2014 7:51 AM
2110	Not really. It takes me an hour to get from Sand Point to downtown. The best option is the 74, and it's only during commuter hours. After that, you have to transfer, which takes even longer. The NE Seattle area is also terribly connected to other parts of the city, such as Fremont, Green Lake, Ballard, Capitol Hill, etc. The east-west connections in the city are very poor- you basically have to go to UW and then transfer there to get to anywhere else in the city. Plus, the 70s that I take to get to the U-District are ALWAYS running late and always packed. Also, the only areas in Seattle that are well-connected to the north end (Everett, Lynnwood) are Downtown and U District- you can't even take a bus from Northgate P&R to Lynnwood, even though they're relatively close. I'd like to see more connection between NE Seattle and Lynnwood.	11/11/2014 7:28 AM
2111	43 - Long bumpy ride on trollies about to shake apart. I know this will change substantially when I can take Link from Capitol Hill to Husky Stadium.	11/11/2014 7:13 AM
2112	They get me pretty close to my destinations. But they are slow, particularly in the evening, and especially when they go through the tunnel.	11/10/2014 11:25 PM
2113	they work great. wish for more frequent service at times, but otherwise fine.	11/10/2014 10:30 PM
2114	Yes although busses 16 and 26E are increasingly overcrowded with standing room only during rush hours.	11/10/2014 9:16 PM
2115	They work well between Downtown and Capitol Hill. They do not work well between downtown and the VA Hospital.	11/10/2014 9:10 PM
2116	They work fairly well. It's annoying when buses are extremely delayed, (>10 minutes) or when there is a 30-minute wait time between them, but they're adequate for the most part. I would love to see continued light rail and streetcar expansion.	11/10/2014 8:24 PM
2117	I love riding the bus	11/10/2014 8:18 PM
2118	Mostly. It takes longer than I would like to get from South Lake Union to downtown where I catch a commuter bus to Lynnwood.	11/10/2014 8:17 PM
2119	Buses between Greenwood and the U District during non-commuting hours would help me, but it is overall pretty good.	11/10/2014 8:14 PM
2120	yes	11/10/2014 7:30 PM
2121	They work reasonably well. Timing for 73/77 stops SB 15th near 80th don't seem that reliable.	11/10/2014 7:25 PM
2122	Currently take the 312, which was cut due to Metro cuts. Stops at 95th and 85th on Lake City Way often now get passed by because buses are too full, plus number of times bus comes has decreased so longer waits when a bus goes by full. So my current option is not so great. I do eventually get into downtown, however my trip takes longer.	11/10/2014 7:20 PM

2123	They do, but the frequency can be unencouraging.	11/10/2014 7:17 PM
2124	For the most part, I never have to walk more than a few blocks to find a bus to take me where I want to go (or to take me to another bus to take me where I want to go). However, one bus' delay sometimes throws off the ability to transfer to another bus; when your first bus is delayed, plus the lag time in between buses, plus the second bus is delayed (not an uncommon situation), then a TON of extra time can get added onto your schedule. Sometimes, it ends up being faster to walk a 30 minute distance than wait for a 5 minute bus ride, which seems problematic. I think of what people who are not as able-bodied are supposed to do in such cases! Also, the availability of community transit (at least to Puyallup) on the weekends is sparse and that makes it difficult to travel outside of Seattle.	11/10/2014 7:03 PM
2125	I wish I had more options to go to work from Wallingford to Downtown that were quicker and less crowded. (All that Amazon hiring is making my bus stand-only most rides.) Love a lightrail extension to U-district that I could ride the 44 from Wallingford to there.	11/10/2014 6:55 PM
2126	If I take the bus to work, I need to make a transfer and they are never coordinated. It is only 4.5 miles and it takes over one hour. They get me there but just take a long time! Bring back the 45 express bus even on trip daily will help me give up my car!	11/10/2014 6:31 PM
2127	They get me to and from work quickly (capitol hill/downtown). I find getting to ballard, fremont, and the u-district more difficult than I'd like from capitol hill.	11/10/2014 6:26 PM
2128	Generally, they work pretty well. I'm fortunate to live close to where I work, so I can walk if I need to. I'll almost always walk, since my bus (2) is really crowded during commuting hours.	11/10/2014 6:15 PM
2129	They're terrible inconsistent. The 72X/73X go near my house, but they're often late and come in bunches rather than every 20-30 mins. The 72X only runs every hour on Sundays, and the 72 (non-express) takes a different route on Sundays. Getting downtown sometimes takes less than 10 minutes, and sometimes takes over 45 minutes. I have no way of knowing how long it will take. I don't bother transferring, as it takes too long. The buses going through UDistrict take forever; I will often bike through UDistrict to Campus Parkway and catch a bus from there, rather than waiting for the bus to get through UDistrict. There are many places in and near Seattle that I don't go, because transit and biking options are non-existent, unreliable, or dangerous. My wife works in Bellevue, but I never go there because no bus goes directly there. She catches the bus over there from the Montlake Bridge, which means she has to carry her bike down a steep flight of stairs. She was forced to do that while she was pregnant, which was ridiculous (luckily, she never fell).	11/10/2014 6:08 PM
2130	Yes but slowly.	11/10/2014 6:02 PM
2131	I use the 9 on weekdays but then in the evenings and weekends I have to drive to Cap Hill. 7 often comes late when I'm trying to go downtown.	11/10/2014 6:01 PM
2132	Sometimes yes. My daily route from Interbay to the University District is well-served by the 32. It is also quite easy to take the D line into downtown. However, I cannot easily get to Capitol Hill without changing buses, nor can I easily get to the express buses that travel south to Tacoma.	11/10/2014 5:46 PM
2133	Yes they do. I commute from Ballard on the 44. It can get VERY crowded. I also go downtown on the Rapid Ride. The trolley buses such as those on route #44 are really dangerous when walking to a seat. The drivers are unable to accelerate smoothly, so passengers are jerked around and fall or crash into seats and passengers as the bus lurches along.	11/10/2014 5:44 PM
2134	Extremely well.	11/10/2014 5:33 PM
2135	For the most part. Park and rides would be great, although I am sure they would fill up pretty fast in Capitol Hill	11/10/2014 5:31 PM
2136	I get to where I want to go, however that's only because I'm forced to limit where I want to go depending on the transit service to that area. Right now transit isn't nearly as frequent or reliable as I'd need to take more spur-of-the-moment trips, so I usually only use it for planned trips.	11/10/2014 5:29 PM
2137	late night service is lacking. please make busses run past 2am so people can get home from bars without having to get a taxi	11/10/2014 5:24 PM
2138	Great! Direct service from W Mercer to Seattle Childrens Hospital	11/10/2014 5:12 PM
2139	Currently use Metro bus to and from work on First Hill. Current schedule works, but long delay if bus travels through sporting event traffic back ups	11/10/2014 5:11 PM
2140	I prefer driving, Uber and Car2Go. I intend to use Pronto	11/10/2014 5:11 PM
2141	yes, some require more coordination than others	11/10/2014 5:09 PM

2142	Getting to the airport from Melrose & Denny only using transit requires a bit of planning & walking. For the most part, though transit isn't too bad.	11/10/2014 5:06 PM
2143	I can get where I want to go however not efficiently. Cuts to the # 30 bus eliminated all be rush hour options	11/10/2014 5:05 PM
2144	I am more relying on my car or uber services to get me around to places that could be faster. For example. It takes 40-60 minutes via bus and a transfer to get to ballard from cap hill and 15 minutes via car.	11/10/2014 4:55 PM
2145	They do not get my husband to his job at 500 Yale Ave N, Seattle, WA 98109 from our residence at 15th and Pine Street	11/10/2014 4:54 PM
2146	Yes, for the most part	11/10/2014 4:53 PM
2147	yes, but bus delays are sometimes taxing on my work requirements	11/10/2014 4:50 PM
2148	Pretty good. Sometimes missed transfers or a bus doesn't run often enough.	11/10/2014 4:46 PM
2149	They work OK. I use the bus to get to work everyday, but it's incredibly unreliable during rush hour, so I end up working a longer day just to avoid bein passes by the full busses. I don't have a problem getting downtown on the weekends, but it's impossible to get to any of the eastern neighborhoods efficiently, so I always end up driving when I go that way.	11/10/2014 4:38 PM
2150	For the most part. I still have a car, so unfortunately that's my default (and all of the parking nightmares herein).	11/10/2014 4:36 PM
2151	For the most part, yes. See the response to the earlier question regarding the route for the number 25.	11/10/2014 4:33 PM
2152	#2 gets me most places I want to go. Link Light Rail gets me to the airport from University station.	11/10/2014 4:31 PM
2153	Yes, but the same routes are taking longer and longer. 11 mile commute from UW to West sEattle is 1 and 3/4 hours getting home. 1 and 1/4 hour getting there.	11/10/2014 4:30 PM
2154	They do get me where I need to; I chose my housing based on a bus route that gets me there in a reasonable time (1/2 hr) with early morning/late night and full weekend options (though can be an hour plus and extremely crowded)	11/10/2014 4:28 PM
2155	I'd like a quicker route from Capitol Hill to Ballard...otherwise everything is good.	11/10/2014 4:24 PM
2156	They work fairly well from home to work, not the best to get up to capital hill. I usually will use a taxi or uber to commute up to Capital Hill from west seattle or downtown.	11/10/2014 4:18 PM
2157	Very good for Capitol Hill and UW, which is where I work and live, but not so good to get to other areas quickly, like Green Lake, Golden Gardens, and Alki Beach. Takes too long.	11/10/2014 4:12 PM
2158	Not always - my employer has two locations: one in capitol hill and one in georgetown and getting back and forth on the bus takes at least one hour. So commuting between locations for a meeting takes two hours out of our day which causes many of us to drive instead.	11/10/2014 4:07 PM
2159	In general, I make my transit options work for me. However, I choose to accept that it takes longer to get most places by bus than by car. Unless I have absolutely no other choice possible, I avoid the bus/light rail when my destination requires more than one transfer, walking more than a half mile, or more than an hour transit.	11/10/2014 4:06 PM
2160	So-so.	11/10/2014 4:05 PM
2161	Pretty good so far. Yes, I can get to and from work.	11/10/2014 3:55 PM
2162	They meet my needs fairly well. As the light rail is accessible, I have multiple options.	11/10/2014 3:53 PM
2163	Yes, the 26 is perfect for me, but I've heard the 26 local service will be cut, which will mean that I will need on rely only on the 26 Express, which only runs at certain times.	11/10/2014 3:53 PM
2164	49 Great, South Lake Union, Seattle Center no.	11/10/2014 3:50 PM
2165	For the most part they do get me where I need to go but there are a lot of gaps in the system or VERY sloe service. try going from 14 ave & Union to Redmill burger sometime. There is not much service out to the wineries in Woodnville. The landing in Renton/FRY'S	11/10/2014 3:47 PM
2166	Yes	11/10/2014 3:31 PM
2167	Most of the time, except when they don't.	11/10/2014 3:27 PM
2168	Mostly. Getting out of the city is hard, though.	11/10/2014 3:21 PM

2169	I have hope for the system. Public transit is my primary mode of transportation, so I make it work. This means a 4-hr round trip commute to my job 5 miles away from home, and I think that extending service hours on current routes would be helpful. Current transit options get me where I need to go, but on weekends it is easier to stay home than to go anywhere. I find I lose hours waiting for transit when taking a simple trip to the grocery store on weekends.	11/10/2014 3:18 PM
2170	Fairly well, could be more consistant	11/10/2014 3:18 PM
2171	For the most part, although I ensure I won't need to use transit past 8PM or so as the network has very little frequency.	11/10/2014 3:00 PM
2172	The elimination of Route 306 was a big loss to those commuters on Lake City Way, and has resulted in overcrowding and a poor experience on the Sound 522 and Metro 312. Metro's lack of daytime service on most routes is a real negative - forcing people to either drive or use CT or Sound. What kind of strategy is that?!	11/10/2014 2:59 PM
2173	I live on Capitol Hill and walk most places that I go frequently. I mostly drive to see friends in other parts of town.	11/10/2014 2:57 PM
2174	Very well	11/10/2014 2:57 PM
2175	Yep - the buses are great and I love the light rail for getting to/from the airport	11/10/2014 2:55 PM
2176	Need to transfer or walk to a bus stop quite far away and on a steep hill. Hard at night and pouring rain!	11/10/2014 2:54 PM
2177	I cycle and take my car. When I don't have those options, I begrudgingly use the bus. I use the bus when there's no parking.	11/10/2014 2:49 PM
2178	good going in to downtown for work, too crowded trying to get home. sometimes drive alone just cuz do not want to stand up all the way from downtown to Ballard in a crowded bus...	11/10/2014 2:49 PM
2179	Yes they do.	11/10/2014 2:47 PM
2180	yes. but not always in a timely manner	11/10/2014 2:47 PM
2181	I walk from Capitol Hill to the transit tunnel, then take a bus or light rail to Union Station.	11/10/2014 2:43 PM
2182	They are decent, however, in need of improvement in regards to reliability and service areas. I largely use the bus to get to work to avoid parking and traffic; it would be nice for me and Seattle as a city to use transit on the weekends to get to more recreational areas like Capitol Hill and Ballard.	11/10/2014 2:40 PM
2183	Yes	11/10/2014 2:35 PM
2184	64 Bus in the morning to downtown works well 76 Bus to Wedgewood in the evening works well	11/10/2014 2:29 PM
2185	They work fairly well. My route is extremely crowded and its hard to take the Sounder when it doesn't go into downtown.	11/10/2014 2:25 PM
2186	They work for me pretty well. The main issues I have are late buses and crowded buses. I will probably take the light rail more when it goes farther north, and I am looking forward to the Capitol Hill streetcar as another option. More express buses and dedicated lanes for transit would also be great. I-5 traffic can slow buses, even on Capitol Hill, considerably and make the commute 2 times longer.	11/10/2014 2:21 PM
2187	they work. However, it is difficult to currently use lite rail to the airport. I have to walk to the bus stop and then change to the train with my luggage. The U-district will be better if there is easy access by bus.	11/10/2014 2:21 PM
2188	Yes, except in the snow.	11/10/2014 2:21 PM
2189	They used to work for me and got me where I needed to go if I planned far enough in advance and had the time, but as services became more crowded (and in some cases service frequencies reduced) transit became less and less attractive. So I bought I car and these days more often than not choose to drive over transit.	11/10/2014 2:18 PM
2190	Yes, although closer bus stop w/an express bus route (Rapid Ride) would be better.	11/10/2014 2:18 PM
2191	It works fine, except that I have to arrive several hours earlier than I need to.	11/10/2014 2:16 PM
2192	No, I wish the #11 went straight down Madison instead of turning.	11/10/2014 2:14 PM
2193	For the most part.	11/10/2014 2:13 PM
2194	77 and 41 are excellent. 73 is ok as an Express route but otherwise terribly slow. 41 is often packed during commute hours, we leave people behind.	11/10/2014 2:12 PM

2195	The bus system has been great for me..... EXCEPT when the buses are full with SPORTS FANS.....and they get a FREE ride! Grrrrrrrr!!	11/10/2014 2:07 PM
2196	The bus works great	11/10/2014 2:06 PM
2197	Yes, but they are often very behind schedule.	11/10/2014 2:05 PM
2198	I use Link light rail to go to work but now i can't because light rail does not start earlier . I need to be at the airport by 0430 in the morning light rail gets there by 5am	11/10/2014 2:05 PM
2199	yes	11/10/2014 2:04 PM
2200	Absolutly. I use metro bus transit daily to get from Northgate Transit Center to First Hill/Downtown Seattle	11/10/2014 2:03 PM
2201	Somewhat	11/10/2014 2:03 PM
2202	Fine	11/10/2014 2:02 PM
2203	Well	11/10/2014 2:02 PM
2204	Sometimes. But it almost always requires transfers, which are not often efficient. It's sometimes faster or less stress to just walk or drive.	11/10/2014 2:01 PM
2205	The bus is adequate but not great. It is not frequent enough, often too crowded, and I'd prefer other park & ride options. I have to walk a little further than I'd like on the downtown stops, but it's OK. Not great.	11/10/2014 2:00 PM
2206	Yes	11/10/2014 2:00 PM
2207	Generally. I dislike having to connect downtown so do not use transit to get to Ballard or Queen Anne from Capitol Hill	11/10/2014 1:58 PM
2208	Yes, they work quite well and are cost effecient.	11/10/2014 1:55 PM
2209	they do not work for me, as I often make several trips (off work sites) during the day and don't have time to take the bus each place.	11/10/2014 1:54 PM
2210	yes	11/10/2014 1:51 PM
2211	Yes	11/10/2014 1:50 PM
2212	I would like more frequent buses to downtown from 15th Ave N. Bussing from Northgate to Woodinville takes too long, and too many transfers.	11/10/2014 1:50 PM
2213	They work fairly well but the delay's on the route 8 are an inconvenience. If the 8 and 9 were better coordinated for transferring at Mt. Baker Station going North that would be helpful.	11/10/2014 1:46 PM
2214	Once the street car lines are completed and connected, they will be very useful (assuming they are not stuck in traffic). The 49 is enormously useful and help us to quickly and easily access downtown, Pike/Pine and U Dist.	11/10/2014 1:42 PM
2215	Yes. However, upon entering downtown, it takes a really long time in the morning (upto 45 minutes from Stewart and Yale, to Pioneer Square)	11/10/2014 1:41 PM
2216	I live in Greenwood and teach at Seattle Central. Even though the 48 is my closest stop, transferring in the U District makes it my slowest option. If the Light Link provided fast and reliable transit between Capitol Hill and the University District, it would make my life a lot easier.	11/10/2014 1:40 PM
2217	Not working for me--having to take 3 buses to get from Capitol Hill to SoDo. I had a broken leg and had to be driven to and from work--too much walking to and from bus stops, including up and down hills.	11/10/2014 1:40 PM
2218	You need more commuter parking at the International Blvd. park and ride for the Light Rail in Tukwila and the park and ride for the Sounder station in Tukwila. If I get there after 9:00 a.m., I'm out of luck. Same with Federal Way and Tacoma.	11/10/2014 1:39 PM
2219	They do a good job getting me between home and work, although schedule reliability has been declining, and travel time taking longer.	11/10/2014 1:39 PM
2220	All things considered, my transit options work pretty well. I use transit most often to get to work downtown from my apartment on north Capitol Hill; the 49 is fairly reliable for that. It is exceptionally difficult to get from Capitol Hill to points Northwest -- for example, Greenlake, Phinney, Fremont, Ballard. It would be great to see new connecting service from the UW Link station to points West / Northwest.	11/10/2014 1:31 PM

2221	My transit options work, but the afternoon buses are rarely on time. There have been many occasions where the bus has been more than 20 minutes late (49 bus toward U-District around 4:15 in the afternoon). Yes, the bus technically gets me where I want to go, but it usually entails a lengthy wait. I do like riding the Light Link to the airport. I think it is very convenient and efficient and look forward to the opening of the Cap Hill station.	11/10/2014 1:31 PM
2222	In Northgate/Pinehurst, it's pretty convenient to go downtown Seattle.	11/10/2014 1:27 PM
2223	They work fairly well; no major issues. A fairly recent, reoccurring issue would be during rush hour - general overcrowding on the bus sometimes means they drive right past waiting customers.	11/10/2014 1:26 PM
2224	OK; service is generally good but takes a long time to get where you are going. Direct bus routes from Seattle to the Bellevue Transit Center would save lots of folks who are getting to work from waiting on what seems like 20+ stops in between here and there. I think many more people would consider taking the bus, and transit time would significantly diminish if this direct route existed.	11/10/2014 1:24 PM
2225	Mostly, I find that I have to transfer to get from Capitol Hill to Ballard, Magnuson Park, West Seattle or even to Greenlake or Roosevelt. This limits the places I travel to by bus. I typically bike to get to most destinations in the city.	11/10/2014 1:21 PM
2226	They do get me where I need to go, but usually I have to walk about 20 min (~1mi each way). The buses from SandPoint/Wedgwood come too infrequently. Especially the 71, which only comes every 30 min.	11/10/2014 1:19 PM
2227	I bus in from West Seattle, then walk or take the bus up Capitol Hill to Seattle Central College. It works, but I'm looking forward to having more rail options to minimize issues during rush hour.	11/10/2014 1:18 PM
2228	They do but they don't run frequently enough in the evening (past 7:00pm).	11/10/2014 1:15 PM
2229	Yes.	11/10/2014 1:13 PM
2230	They take a while, but they work. The transition between the street-level bus (e.g. the C line at 3rd and Pine) and lightrail/buses in Westlake station is not very well marked. I have helped tourists and visitors to find the entrances.	11/10/2014 1:13 PM
2231	Generally good. Connection from central Capitol Hill to International District is current too complicated (wait for 60, which is slow and runs infrequently, or transfer). Streetcar may improve that, as long as headways are low.	11/10/2014 1:10 PM
2232	They work okay. I ride the 545 from Capitol Hill. Sometimes take the 542 from Montlake. SR520 and I-5 are still a mess. Buses are slow and crowded.	11/10/2014 1:07 PM
2233	I tend to go where it's easier to get to by bus or train. Since I live on Capitol Hill, that means I avoid going to Ballard, Fremont, Wallingford, Crown Hill, Northgate, Lake City, etc - because it takes so long to get there by bus and there is no train. So I just don't go to those places.	11/10/2014 1:06 PM
2234	Very well. I've no complaints.	11/10/2014 1:06 PM
2235	Partially. I would really like to get to discovery park in less than an hour, and I'd like to see the 8 operate faster than walking.	11/10/2014 1:02 PM
2236	For everything but the airport, I feel generally yes.	11/10/2014 1:01 PM
2237	Too infrequent and time-consuming	11/10/2014 1:01 PM
2238	Bus #8 is AWFUL. Often full, EXTREMELY late. I often take a cab in lieu of relying on this bus. I volunteered at a transit fair at the Bill/Melinda gates Foundation a couple years ago; many of their employees said they wished the bus 8 was more reliable/faster so they could bus to work. I am hearing the same complaint from Amazon employees living in Cap Hill, who choose to use Uber or just walk instead of catching the 8.	11/10/2014 12:59 PM
2239	It's very hard to get from Capitol Hill to Queen Anne, Fremont, Wallingford, Ballard, and West Seattle (except for the 60 which is extremely circuitous) without a transfer. I'll happily walk a mile to avoid waiting for a transfer. Transfers are such a gamble.	11/10/2014 12:55 PM
2240	For the most part, but more light rail would be best. Busses get caught in traffic.	11/10/2014 12:55 PM
2241	Yes, prompt. Onebusaway is so helpful. Would be nice to get more message boards at major stops to show when next bus is expected to arrive.	11/10/2014 12:55 PM
2242	Pretty much.	11/10/2014 12:55 PM
2243	Yes. They work. I wish the 77 was more timely, but it is the best route.	11/10/2014 12:52 PM
2244	So far so great!	11/10/2014 12:49 PM

2245	The transit options I currently use works, but it takes me a long time to get where I'm going and I have to change routes several times.	11/10/2014 12:48 PM
2246	Yes, I have many options to get where I need to go. I don't drive and use King County Metro every single day. My life would be drastically negatively affected if I didn't have access to the bus.	11/10/2014 12:46 PM
2247	76 is excellent but will be obsolete with advent of light rail. Bike commuting is the best.	11/10/2014 12:43 PM
2248	Yes, MT 312 and ST 522 serve my needs well, though the Lake City Way corridor is heavily traveled and would benefit from additional service.	11/10/2014 12:38 PM
2249	Absolutely, but maybe add more frequent buses and more routes.	11/10/2014 12:37 PM
2250	Too far of a walk to the bus stop for seniors	11/10/2014 12:35 PM
2251	Not well, I am not willing to spend the time it takes to get somewhere when driving takes 1/3 the time. The primary use of transit for us is to get from Northgate to downtown and stadiums, but it takes so long and we can usually find decent parking, so it is just easier to drive. I would rather ride the bus or take a light rail so that we can drink and not worry about having someone have to drive.	11/10/2014 12:32 PM
2252	Generally can get to where I am going, though sometimes there is a very long wait or the trip requires multiple transfers. Occasionally the bus is too crowded and I have to wait for the next bus.	11/10/2014 12:29 PM
2253	More of the buses that go to Ash Way should continue on to Mariner/South Everett Freeway Station/Everett Station park and rides. More of the buses that already tend to South Everett Freeway Station/Everett Station should be DOUBLE DECKER buses. Too often, I'll see 6 Lynnwood/Ash Way buses go by for every 1 Everett Bus. EVERY BUS during rush hour is packed full like sardines. Not just standing, but PACKED IN. The Double Decker buses are rarely full and should be better utilized for the busier routes. In the past year, I've seen several buses break down. The buses need to be better maintained for these high-volume routes. I've had to depart from an Everett bus 4 times in the last year due to it breaking down at the South Everett Freeway Station. This not only causes delays, but more overcrowding where the buses are stuffed beyond safety.	11/10/2014 12:29 PM
2254	Yes they do, but I also live less than a mile from work, school, etc and live in the densest neighborhood in the city.	11/10/2014 12:27 PM
2255	Route 66 and 67 are terrible in the evenings. I can get downtown on them in the mornings just fine, but from 4-6, the stops downtown are packed, the buses do not operate on schedule, and the stop downtown isn't safe. Because of this I have started driving my car to Aurora and taking the Rapid E line downtown and back everyday. The stops are quicker, the buses more frequent.	11/10/2014 12:26 PM
2256	Lately the buses are badly overcrowded.	11/10/2014 12:24 PM
2257	I generally use Route 550 to go to work in Downtown Seattle from Rainier Avenue Freeway Station. It works pretty well, but sometimes the buses are overcrowded. On weekends it is tough to get to Capitol Hill from Rainier, because Route 9 does not run. I took Route 7 yesterday and it was very very slow getting to Capitol Hill. When the new light rail extension gets running, I would like to see more service connect to those stations and less service duplicating the same uphill route between Downtown and Capitol Hill. Maybe run more of those buses on North-South routes instead.	11/10/2014 12:19 PM
2258	They're adequate for my needs. They get me to where I want to go but not in a timely matter.	11/10/2014 12:19 PM
2259	The 48 and the 43 work well for me to get to work and back. The 11 is too infrequent and unreliable to use often to get downtown. When I plan to go downtown, I often want to take the bus but end up driving because it is running very late and the next one doesn't come for over 30 mins.	11/10/2014 12:18 PM
2260	They work OK. However, I am a resident at UWMC and HMC and often times, the early morning and late night us schedule is infrequent or I have to make connections in weird places. Late night (after 7 pm)/early morning (5-7 AM) trips sometimes would take 45-60 minutes and be very infrequent. That is a huge waste of time when driving at those times would take 12-15 minutes for me.	11/10/2014 12:17 PM
2261	Route 2 is perfect for my needs. Any alteration of route will put me into my private car.	11/10/2014 12:16 PM
2262	Yes, for the most part.	11/10/2014 12:14 PM
2263	I live in south seattle, and I really like using the light rail, but there are things that keep me from using it more often: - it is hard for me to get to/from the light rail. The bus from my neighborhood to/from the light rail doesn't run very often, especially in the evening when I am coming home. So unless I time it exactly right, I end up waiting a long time. - the bus stop near my light rail station is not well lit, and many people do not feel safe there. There have been robberies there over the past few years.	11/10/2014 12:14 PM

2264	When I first started riding Metro about 4 years ago, I could take one bus from my home to my place of work (the 30). Now I have to take three. The original 30 was a great route that was often standing room only. But then it got cut in half which cost it a lot of riders and then Metro scheduled it for elimination because the ridership had fallen. I wonder why?	11/10/2014 12:12 PM
2265	I rarely use it now but would use and airport service if it came to Northgate mall or somewhere close. I live in Greenwood.	11/10/2014 12:12 PM
2266	There is no convenient way to get from south West Seattle to Capitol Hill. Transferring adds time. I would like a no-transfer bus route from West Seattle to Capitol Hill.	11/10/2014 12:11 PM
2267	I walk to work, so I usually use public transportation to get places I need to go during my work day (doctors visits, shopping, etc). Also, I like to use public transportation to go to places that are difficult to park (downtown, fremont, ballard, capitol hill).	11/10/2014 12:07 PM
2268	Pretty well	11/10/2014 12:07 PM
2269	Most of the time they get me where I need to go but it's sometimes awkward and convoluted -- particularly getting to West Seattle or north of Ballard from Capitol Hill/Central area. I walk by default, bike if walking is impractical, and bus if biking is undesirable (heavy winds, sleet, long distances, or killer hills). I would love it if public transit were more convenient (frequent, so I don't have to check schedules; fewer transfers so I don't have to stand around in the rain waiting at transfer points; faster, so I don't have to spend as much time in transit as I do at my destination).	11/10/2014 12:03 PM
2270	I do not currently have any viable transit options to North Bend, other than an occasional carpool. Service to Everett now requires a bike ride on either end (home to bus stop and bus stop to work)	11/10/2014 12:00 PM
2271	Yes for daily commute downtown. No for everywhere else.	11/10/2014 12:00 PM
2272	Yes	11/10/2014 12:00 PM
2273	Well enough	11/10/2014 12:00 PM
2274	They do, but I have to transfer, as there is no direct option currently.	11/10/2014 11:58 AM
2275	As long as #7/49 and #8 keep running the length that they currently run, they cover the bulk of where I need to go on any given day. I currently ride the #8 from beginning to end of its entire route, for instance.	11/10/2014 11:56 AM
2276	They work very well. When I lived on Capitol Hill, the 10/11 were perfect for getting downtown for business or pleasure. Now that I live on Beacon Hill, the 50 gets me from home to the SODO busway, and a quick transfer gets me to the ID for work. If I miss the 50, I can walk a block and catch the 60, two blocks and catch the 36, or a handful of blocks to the Beacon Hill Link Station.	11/10/2014 11:55 AM
2277	The 70 routes do an excellent job, yes.	11/10/2014 11:55 AM
2278	No, they don't. If I were to take the bus, it would take me an hour to get to work. As it is now, it takes 10 minutes by car in heavy traffic. In addition, if I wanted to go to the Outlet/Supermall stores in Auburn, it would take me five hours by bus--a combination of walking a mile, taking a bus up north to Seattle, transferring there to a bus that goes back down to Auburn, and then walking another two miles to the Outlet center. If I go by car, it would take 10 to 15 minutes. I should also mention there is a Boeing plant in Auburn close to the Outlet center. Boeing employees who live in my neighborhood would also be able to take advantage of transit if it went there. However, that Boeing plant has been underserved by transit for about as long as it's been there. I'm not too surprised that Boeing decided to move a lot of its operations elsewhere, as the location does not have the transit amenities that other cities have.	11/10/2014 11:53 AM
2279	For daily commute into seattle, link light rail works fairly well. Congestion through bus tunnel creates most significant delays (buses take too long / frequently have minor breakdowns). Frequent outages of elevators / escalators causes egress backups in stations during peak commuter traffic.	11/10/2014 11:53 AM
2280	They take too long and are spaced too far apart. At rush hour in the evening, they are unpredictable.	11/10/2014 11:53 AM
2281	I had to start driving because the bus was always full at peak times and also the Greenlake (65th & I-5) park and ride parking lots filled up so early that I couldn't find parking.	11/10/2014 11:53 AM

2282	Connections are good to downtown and the University District for our neighborhood (Pinehurst/Lake City). The connections to go east (to Ballard or Crown Hill) are frustrating - the quickest way is usually to go all the way to downtown Seattle, then come back north. Even going to the Northgate Transit Center seems silly, and the connections are slower. The buses get filled at the Northgate Transit Center, with standing room only, going downtown. Coming home from downtown, the buses often get filled, even leaving people behind by the Westlake or Convention Place station.	11/10/2014 11:48 AM
2283	They take forever. If I want to get to Capitol Hill from Ballard, the 40 is a slog through Fremont and then either a hike up Denny or a long wait for an 8 or 10/11/43/49. Alternatively, I can sit on a 44 in Wallingford traffic for an hour to either wind my way through North Capitol Hill after it becomes a 43 or wait in the rain to transfer to a 49. And that's assuming the bus shows up on time.	11/10/2014 11:48 AM
2284	Yes, I ride the 15X from Crown Hill to Virginia St. or Seneca. I walk or take the 3 or 4 to Harborview.	11/10/2014 11:48 AM
2285	The transit options for me are passable at best. They get me rather far away from where I want to go, I often have to walk over a mile in the rain to get to the appropriate transfer stop. I would love more transportation options to and from University Village and	11/10/2014 11:47 AM
2286	Metro takes 1.5 hours whereas driving takes 25 minutes, so the bus gets me where I want to go but takes way too much time.	11/10/2014 11:47 AM
2287	They work well, I wish the 2 came more frequently though.	11/10/2014 11:47 AM
2288	Train to seattle, bus to 1st bus stop at 4th/Westlake then a 2nd bus to Capitol hill	11/10/2014 11:45 AM
2289	pretty well, wish for more frequent service though all days and all hours of the day. peak hours frequencies should be expanded (peak times, to me, should be 6-9 AM and 4-7 PM)	11/10/2014 11:44 AM
2290	They work to the best they can. I understand limitations facing metro.	11/10/2014 11:42 AM
2291	The options generally work well for me. The one exception is getting to University Village which is very difficult to get to.	11/10/2014 11:38 AM
2292	live in NE seattle so the busses are pretty good.	11/10/2014 11:38 AM
2293	ok yes	11/10/2014 11:38 AM
2294	Bus is ridiculously slow so I don't use unless I absolutely have to. It's really a shame that Seattle's public transportation options are so slow and unreliable. I generally bike (use my own or now Pronto) or walk or use Uber (if I have to carry a lot of things).	11/10/2014 11:38 AM
2295	Yes. Transit options are very effective for me, but when looking for a place to live, I sought out a place with high transit access.	11/10/2014 11:36 AM
2296	yes, but the buses are slow due to high traffic in the downtown area. I think if the light rail was more wide spread and if it ran on its own dedicated lines that would vastly improve transportation in a city that is growing very rapidly.	11/10/2014 11:35 AM
2297	It works great. I am always able to get where I need to.	11/10/2014 11:31 AM
2298	Only my car can get me where I need to go. The bus would take 1.5 hours to get me from Issaquah to South Lake Union so I drive to save time.	11/10/2014 11:28 AM
2299	The E line quickly and easily gets me to work and home again.	11/10/2014 11:27 AM
2300	Not as well as previously. We are in the process of losing the #30 bus which negatively impacts my commute as I start at 6 am. there should be a bus that runs East-west on 45th between the UW and Childrens - like the old 25. Also, it is really hard to manage campus commuting as the NE seattle buses all enter campus on west 15th and 43rd and exit on the East side down to U village. There should be some buses that continue north on campus and exit onto 45th from memorial way - serving the law and business schools. Also, I would rather bus to the IMA from my house, but buses no longer travel along 45th/Montake by the IMA. You have to circle	11/10/2014 11:26 AM
2301	The 316 and 76 buses are good but need to run more often / longer hours. Also it would be good to coordinate the schedules so the 316 & 76 don't come back to back as they frequently do. Currently it takes a long time to get to Capital Hill on the 43 from the Roosevelt Neighborhood	11/10/2014 11:25 AM
2302	They all work well for me.	11/10/2014 11:24 AM
2303	Yes. I tend to take transit to get to major hubs.	11/10/2014 11:23 AM

2304	I'm more likely to walk to work now that the 47 no longer runs. I can walk to Broadway for the 49 or Olive & Summit for the 43, but they are not as reliable. Do generally take the bus home when timing isn't as important.	11/10/2014 11:22 AM
2305	There isn't a straight connection between Capitol Hill and Downtown or from Capitol Hill to Phinney Ridge.	11/10/2014 11:21 AM
2306	During commute time, they work well, but off peak, the #3 & 4 routes are spotty. I wish they were more consistent.	11/10/2014 11:21 AM
2307	I have to avoid peak hours to and from work, and I have to walk a significant amount. This causes problem for getting to work on time.	11/10/2014 11:19 AM
2308	Yes, my service is generally good.	11/10/2014 11:19 AM
2309	I would really like to be able to get to Husky Stadium	11/10/2014 11:18 AM
2310	I wish that the 64 ran more often and that weekend/night hours on the 71/72/73 routes had more buses	11/10/2014 11:15 AM
2311	Yes, in general, except that it would be nice to have some direct service from Northgate to Capitol Hill.	11/10/2014 11:12 AM
2312	OK. I wish Ballard to Capitol Hill was easier. Or Capitol Hill to Fremont.	11/10/2014 11:11 AM
2313	They work well for me. Almost everywhere I need to go is within a few blocks of a bus stop.	11/10/2014 11:10 AM
2314	Generally, us.	11/10/2014 11:09 AM
2315	Mostly. I'd like more options to get up to Capitol Hill from South Seattle. Only the 9x and the 8 do that, but the 9x hardly ever runs and the 8 is SO UNRELIABLE AND SLOW!	11/10/2014 11:08 AM
2316	The bus is incredibly convenient. I love that there are so many stops available in my neighborhood and downtown.	11/10/2014 11:07 AM
2317	They work well, getting me at least near where I want to go.	11/10/2014 11:07 AM
2318	I have to walk a mile total on my current commute if I don't want to take 2 buses. They do get me where I want to go, but the mile walk to the bus stop is inconvenient.	11/10/2014 11:07 AM
2319	THEY DON'T WORK. THEY DON'T GET ME WHERE I WANT TO GO. I CANNOT TAKE THINGS TO WORK without driving in because too heavy to carry BLOCKS AND BLOCKS before 1 possible bus (the 43). Also, in the pouring down driving rain. I also have to walk BLOCKs and BLOCKS to get home IN THE DARK on after using Route 43 to Summit.	11/10/2014 11:05 AM
2320	For the most part, yes, since I recently moved to a more central location in the city. My most frequently used route is between north Capitol Hill and downtown, so I have a few bus options to get there. I guess I'd like a better option to get from my home to the Central District, as I usually end up just walking.	11/10/2014 11:04 AM
2321	North-to-South works pretty well, but our East/West transportation is rough. When I lived in Ballard, it took forever to get east to I-5 and beyond.	11/10/2014 11:04 AM
2322	They are normally effective for me, although I needed to adjust my expectations and schedule to accept them. I can get where I need to go, but I have issues outlined in the following questions.	11/10/2014 11:03 AM
2323	Taking the bus is sometimes difficult because bus stops are few and far between in some areas. It is really complicating when you have to transfer busses when you are only going a little ways. I don't want to have to walk a mile from my stop to get to my destination. But overall, most of the places I go have stops nearby.	11/10/2014 11:03 AM
2324	Most of the time.	11/10/2014 11:02 AM
2325	They do, though I wish more than two buses picked up along Madison near the park (8, 11).	11/10/2014 11:01 AM
2326	They get me in the general area of where I want to go but they take significantly longer than driving alone. (21/21X from West Seattle to Belltown.)	11/10/2014 11:01 AM
2327	I used to really like the One Bus Away to make it easier to get places, since buses downtown are never on time with the schedule. The past few months it has not been on track though. They don't specify which buses are express (for the 5), or they say there is a bus coming soon and it doesn't come (bus still says negative minutes, that it has passed when it never did). Mostly buses not being on time is a hassle. Downtown gets so crowded and the cars are not enforced at all to stay out of the bus lanes which makes it worse.	11/10/2014 10:57 AM
2328	Indirectly. Light Rail is the easiest, but doesn't reach neighborhoods like Fremont, University District, Capitol Hill, or Ballard. I usually end up walking from Downtown to places like Fremont rather than wait for a transfer bus.	11/10/2014 10:57 AM
2329	It works okay for me. Sometimes though it's more than 2 buses. in those cases I get a car2go or lyft.	11/10/2014 10:56 AM

2330	The locations are fine but the times are too limited. My Community Transit #405 strands me in Seattle until 3:30 in the afternoon each work day. Minimal options to get from Westlake bus station direct to Capitol Hill.	11/10/2014 10:55 AM
2331	Horrible if I really want to take public transportation all the way. If I drive to a park and ride (Northgate) its almost tolerable. But then I still need to drive to the park and ride. Roughly 1.5 hrs for a trip that takes 18 minutes in a car.	11/10/2014 10:55 AM
2332	Yes	11/10/2014 10:55 AM
2333	To and from downtown works okay. Currently have to walk 10-15 min. to get to a bus stop. Need more express busses around 8 am. Currently, buses I take are standing-room only before they are half-way to their destination, and sometimes have to leave people behind.	11/10/2014 10:54 AM
2334	If there were more convenient mass transit I would happily switch to doing so rather than via my own car.	11/10/2014 10:54 AM
2335	Route 41 works pretty well for me. Sometimes I have to wait for a bus longer than the scheduled time. They system works very well for traveling into and out of the city.	11/10/2014 10:53 AM
2336	great	11/10/2014 10:53 AM
2337	They work pretty well. The bus between Capitol Hill and Downtown is relatively slow. For example, I can ride my bike to work in about 15 minutes, but it takes 35 minutes to take the bus.	11/10/2014 10:52 AM
2338	No. Not entirely. We live in Belltown and often use the light rail to travel to the games at SafeCo and CenturyLink. That works well. And riding the ferry has always worked well for us. However, we do not usually use public transit to the other destinations.	11/10/2014 10:52 AM
2339	We need a 1-bus ride from 28th & Madison to Pioneer Square (currently have to transfer downtown).	11/10/2014 10:50 AM
2340	They work reasonably well, but I'd love to be able to reduce my use of Uber and increase my use of bus service.	11/10/2014 10:49 AM
2341	Okay. They get me where I want to go which is downtown. I'd like to have an option to walk from home to a bus stop. I need an bus stop at Sand Point Way and 123rd ST.	11/10/2014 10:49 AM
2342	Yes!	11/10/2014 10:49 AM
2343	From downtown to downtown yes. Difficult for suburbs, or wanting to go from Eastside downtown to another city's downtown without transiting through Seattle.	11/10/2014 10:48 AM
2344	Generally, I'm able to use transit well. However, I've noticed in the past few years that my regular routes from Eastlake to Downtown and back are really jam-packed and I often have to wait for multiple busses to get on one that isn't full, which makes commuting to work difficult. I also would really like a direct route from Eastlake to Belltown - which is currently a difficult and time consuming route, considering it's three miles total from where I work to where I live (bus to 3rd ave and walk or find another bus to go back west, and walk down to 1st ave). It takes about 45 minutes on a good day to catch a bus and arrive at work, which I could just about walk in the same amount of time.	11/10/2014 10:47 AM
2345	sometimes	11/10/2014 10:46 AM
2346	Not very well. Slow, unreliable, and often frustrating (packed,late buses that don't run often enough). Love lightrail when I get to take it (i.e., for work travel to/from the airport).	11/10/2014 10:44 AM
2347	They work fairly well except for Sundays, when the frequencies are pathetic. At the very least, every bus route should run every 30 minutes. There is also no direct bus route between Northgate Transit Center and Bellevue TC, or to Kirkland. It is a major hassle to have to go to downtown first in order to go to the Eastside.	11/10/2014 10:43 AM
2348	I am very happy with my transit option. They work for me perfectly.	11/10/2014 10:43 AM
2349	My commute to work options are great, now that the 16 and 26 are saved and scheduled for expansion. I'd love to be able to get from Capitol Hill to wallingford without a transfer.	11/10/2014 10:42 AM
2350	For the most part, yes, because I live in a central area. I am able to take the bus to and from work. However, if I need to go to First Hill for a doctor appointment and leave from work (8th and Virginia) there is no viable transit option. I can walk just as fast as transit will get me there, and sometimes I don't have that much time to spare. I usually have to spend money on a taxi or an Uber, which is not ideal.	11/10/2014 10:42 AM
2351	Yes.	11/10/2014 10:39 AM

2352	They do get me where I want to go, however I often have to take 2-3 buses and walk at least .5 miles to get to a stop. In addition, due to scheduling I sometimes need to arrive at places 30+ minutes early. In the past, having to plan extra time to walk and then manage multiple transfers has prompted me to just use services like lyft or uber as I can save a great amount of time. Overall, I enjoy metro and was saddened when the 37 (service to alki years ago) and the 47 (recently) were cut. I would also like to get to the IMA building on UW's campus, but there isn't a bus stop near so there is always a bit of walking which deters me from going.	11/10/2014 10:37 AM
2353	Not easily. I have to transfer buses to get to work and the bus only comes 2x an hour in my area. At my old address in belltown, they were coming about every 8 minutes. If we want to go to a game downtown, the bus is fairly convenient.	11/10/2014 10:36 AM
2354	The bus I use works just barely well enough for me to use it, essentially. It gets me within a 15-minute walk of work. Mostly, though, I think walking is only slightly slower in many cases, so I am planning on walking more and only riding the bus if it significantly cuts down travel time (rare). I used to be a bike commuter but stopped riding when I was hit by a car door opening into the bike lane last year. Bicycling in this city is not safe or easy enough, I'm afraid.	11/10/2014 10:35 AM
2355	Yes, I am happy with the east to west connection, however, traveling by bus on the eastside is a nightmare. Transfers make every trip take at least an hour.	11/10/2014 10:35 AM
2356	They are fine, but can be time consuming	11/10/2014 10:35 AM
2357	yes	11/10/2014 10:34 AM
2358	Streetcar - Yes.	11/10/2014 10:34 AM
2359	They get me to work and back just fine	11/10/2014 10:33 AM
2360	Nothing goes very close to where I work - I still have to walk almost a mile. I end up walking from Westlake station to 2501 Elliott Ave	11/10/2014 10:31 AM
2361	Connecting Cap Hill workers to jobs in SLU via transit is the biggest challenge after Link opens. The #8 on Denny is slower than walking -- uphill. Denny needs a transit lane.	11/10/2014 10:31 AM
2362	Most of the time.	11/10/2014 10:30 AM
2363	Due to the county's gutting of funding and pushing costs on riders instead of employers, it has been more inconvenient and more costly using public transportation.	11/10/2014 10:29 AM
2364	Buses are good between Capitol Hill, Downtown, and the U District, and the LINK to SeaTac from Downtown is really handy, but there is just no good way to get to Fremont or Ballard. With a transfer, the bus often takes an hour and a half or more.	11/10/2014 10:27 AM
2365	They are great! The #10 gets off schedule - particularly heading to Cap Hill around 8:00 in the morning. Then two buses come at nearly the same time. The #10 and #11 work best when they stagger. This has been better in the past couple of years. Previously, they would run in parallel from 15th in Cap Hill to downtown. Looking forward to Cap Hill station providing direct access to Airport and stadiums via the light rail.	11/10/2014 10:27 AM
2366	They work reasonably well during normal daytime hours (more bus-only lanes would be good though). I am constantly frustrated by how arduous it is to get anywhere after 8-9 p.m., though. If I have a dinner or concert or theater or sporting event that keeps me out into the evening (> 10 p.m.), I often drive my car to avoid having to spend time waiting 20+ minutes waiting for a connection downtown, which can genuinely feel unsafe after dark.	11/10/2014 10:26 AM
2367	Commuting from home (Madison Valley) to work (downtown) offers several options and is generally quick. Commuting from work to home offers fewer options and takes much longer. We hardly ever consider taking the bus to cultural events downtown, Seattle Center etc. because the infrequency of buses the the late evening makes it too inconvenient.	11/10/2014 10:25 AM
2368	Yes they usually work fine. Sometimes the buses take too long or are late so I have to drive or use a car sharing program.	11/10/2014 10:25 AM
2369	With the exception of cap hill/ballard-fremont connections, nearly everywhere I want to go is served, but with lower frequency than I'd like. Actually, increasing frequency could make the current situation in cap hil -> ballard much more reasonable, since double-bussing is not a problem if you don't have to wait long.	11/10/2014 10:23 AM
2370	The buses are usually late and some don't even show up.	11/10/2014 10:23 AM
2371	Fine Yes	11/10/2014 10:22 AM

2372	With too much difficulty. The train gets me to King Street station, but I work in South Lake Union. I walk, because the bus takes so long, and its dirty. But this means I have to walk past the homeless shelters, and the unsheltered homeless living under Yessler bridge and in front of the courthouse. So, I feel unsafe. I use the tunnel, but if the train comes, I have to get out at Westlake, take another bus one stop, and then continue to walk, so I may as well just walk. Also, when I am with friends (Queen Anne, University, Capitol Hill, Ballard), it is impossible to get to another neighborhood (say Northgate for a movie, or shopping in U Village) without going downtown and having to catch a bus on 3rd Avenue, which is unsafe. I'd rather take a car than transfer at 3rd and Pike. Plus the buses are slow as molasses, and the police don't keep the indigents off them.	11/10/2014 10:20 AM
2373	The 316 is a nice commuter bus that works well for me to get from daycare to work and back.	11/10/2014 10:20 AM
2374	The transit options work well for me. I find that some of the buses are prohibitively crowded at some times.	11/10/2014 10:19 AM
2375	They work fine in the morning, but the afternoon is pretty bad. On average, it takes 45 minutes to take the bus from Pioneer Square to Lower Queen Anne. It takes just as much time to walk. Sometimes I do, but depending on weather and time of year (darker earlier in winter is less safe walking home every day).	11/10/2014 10:18 AM
2376	mostly	11/10/2014 10:18 AM
2377	They do, but I always feel that at peak hours commuting hours there aren't enough busses for specific routes. For instance, going from Issaquah Transit Center to Downtown Seattle consists of a single bus ride, but the bus leaves at 4:30, 5:03, 5:30, and 6:12. This doesn't seem like it should be a convenient spread for commuters. 4:30, 4:45, 5:00, 5:15, 5:30 seems like it would be the most efficient way to get people where they need to go. So during peak hours it would be nice to either not have to rush down to the bus to make it to downtown before 6, or miss that bus by 5 minutes and wait another 20.	11/10/2014 10:17 AM
2378	I have stopped taking public transportation to work since it is so inconvenient. I live in Wallingford and work in the ID. It should take me 3 routes to get to work.	11/10/2014 10:17 AM
2379	yes but standing room only at the end of the day is hard on some people. I know you want to optimize but the optimal should be everyone has a seat, not packed to capacity on a regular basis.	11/10/2014 10:15 AM
2380	Buses are often late, and not necessarily reliable. Light rail seems to work fine.	11/10/2014 10:14 AM
2381	Yes, they work for me. The only thing baffles me when I am waiting in the ID tunnel going to UW, a 71, 72, or 73 bus will be severely late but it's starting from the ID tunnel, so why is it late? Just last week, I waited 20 minutes for a bus but I know others around me had been waiting much longer. Finally three UW-bound buses came out. I don't understand how it can be late when it's starting from that location. I don't think a lot of people understand this.	11/10/2014 10:12 AM
2382	Frequency of full buses and having to wait for the next bus is increasing. This causes variation in which bus I end up taking, but overall I can get to where I need to be.	11/10/2014 10:12 AM
2383	I wish there was a train from Everett to Seattle and Monroe to Seattle.	11/10/2014 10:11 AM
2384	Because of the delay in the first hill streetcar, transportation from south Capitol Hill near Seattle University to north/central Capitol Hill or south to ID/SODO/Rainier Beach is difficult. Difficult to get to grocery stores on weekends/evenings from that area	11/10/2014 10:11 AM
2385	Appreciatively as I have no personal vehicle, they currently do.	11/10/2014 10:09 AM
2386	Sometimes. I am a mile away from any bus hub and bus 30 has been drastically cut. I have to be innovative to get places sometimes.	11/10/2014 10:09 AM
2387	They work for commuting to work but less for recreational transportation.	11/10/2014 10:09 AM
2388	Yes	11/10/2014 10:09 AM
2389	For the most part getting to and from Downtown Seattle works. However, getting from neighborhood to neighborhood outside of downtown is difficult or takes too long. From Fremont I can ride the 43/44 to Capitol Hill, but it takes an hour. When possible I end up driving between Fremont and Capitol Hill because it takes 10-15 minutes by car.	11/10/2014 10:08 AM
2390	I see significant gaps in areas served. For example, I don't see any bus service on NE 75th Street between Sandpoint and 25th Ave NE. My view is that there's an opportunity to enable NE Seattle residents to board an express bus that serves 35th Ave NE area between Lake City Way and NE 75th, getting onto I-5 Express Lanes via Lake City Way. Also, the 76 should add a later trip to downtown (start at 8:34AM?) and add an earlier trip to Wedgwood (start at 3:10PM) as the 71/71x through University District is extremely slow due to downtown due to it's route.	11/10/2014 10:07 AM

2391	Mostly. I primarily bike from home to a Park and Ride and go where I need to get from there. Typically the busses that I take are plentiful, but parking spaces are not. I think that there should be more Park and Rides, but if that is not possible, having more parking available. I know many people that would ride the bus more often if they could easily find parking at a Park and Ride.	11/10/2014 10:07 AM
2392	They work, I primarily use the bus. However, it's frustrating that to get most places you have to stop in downtown and change buses. Please consider creating through routes that allow you to travel from neighborhood to neighborhood without changing buses! Having to switch buses is the biggest deterrent to transit use, especially when it's a) cold/raining out and b) you are a woman alone at night. Also, more benches! So few stops have places to sit.	11/10/2014 10:07 AM
2393	They work quite well, though buses are often backed up in the tunnel in the evening.	11/10/2014 10:07 AM
2394	I would like to use the water taxi but since my office pays for my orca card I don't have an eurse and can't use it. This should be fixed so that more people can use it.	11/10/2014 10:07 AM
2395	I do get where I want to go most of the time. However, I feel that Lower Queen Anne, as close as it is to downtown, still has limited options getting to Capitol Hill, Ballard, and Fremont.	11/10/2014 10:06 AM
2396	The transit options I use mostly work for me.	11/10/2014 10:05 AM
2397	Yes. I currently take bus #41 from Northgate Mall/Transit Center to Downtown Seattle daily to go to work.	11/10/2014 10:05 AM
2398	Currently yes.	11/10/2014 10:05 AM
2399	Generally work well. Once UW Link station is open a route the length of 35th NE would be ideal to get NE commuters to the train to go downtown and the airport.	11/10/2014 10:04 AM
2400	Lightrail or bussing get me near my destination, but involve a 5-20 minute walk	11/10/2014 10:03 AM
2401	They work fine, but a bit crowded between the Eastlake Neighborhood and Downtown Seattle	11/10/2014 10:03 AM
2402	As a rule but since limiting of #10 route I must now take the bus from Capitol Hill to Westlake Center and walk the remainder to 1st/Marion	11/10/2014 10:03 AM
2403	Yes, but they're often full during peak hours and uncomfortable to ride. Also, the buses don't always feel safe, particularly for women at night. I would ride the bus more at night when I go to evening class at UW but I don't feel safe enough, so I drive and pay to park.	11/10/2014 10:02 AM
2404	Currently yes, I am able to take transit from home to work. I also use metro to get to downtown meetings so I don't have to drive work just to be able to go to downtown. If my bus ran less frequent I wouldn't mind, it isn't full most of time time we are 1 to a seat (route 66 between 3:30pm and 4:15pm)	11/10/2014 10:01 AM
2405	very well in peak hours. i have no trouble getting around for most trips. East-west trips are generally difficult throughout the city, however.	11/10/2014 10:01 AM
2406	Yes	11/10/2014 10:01 AM
2407	Yes as long as metro keeps current routes	11/10/2014 10:01 AM
2408	Yes, the bus transit is good but would like there to be a Sound Transit direct stop from Capitol Hill area to Issaquah. Now I either have to walk 20 min to downtown to catch the 554 or ride another bus and transfer. Transfers decrease the likelihood I will ride a bus to/from work.	11/10/2014 10:00 AM
2409	They do I wish there were more bike racks (3 are often full)	11/10/2014 10:00 AM
2410	yes, but they are overcrowded and dangerous (with the overcrowding. too many people standing)	11/10/2014 9:58 AM
2411	They do- but in 45 minutes or more to travel through downtown.	11/10/2014 9:55 AM
2412	No.	11/10/2014 9:55 AM
2413	They get me from point A to B	11/10/2014 9:55 AM
2414	I transfer a lot. Some commutes are very, very long. Trying to leave downtown to go North is very difficult - buses are often overcrowded and don't allow people on.	11/10/2014 9:54 AM

2415	no. Capitol hill buses now just go down Pine and everyone gets off at Pine and 5th or Pine and 3rd and finds another way to get south to their work. It's ludicrous that the 10 and 11 stopped the southbound portions of their route. For the small amount of money it MAY have saved, it lost probably more than 50% of ridership because there's almost no point in riding it the 6 blocks down capitol hill when you still need to go a mile or so south on foot or via another route. I just started biking instead and I know I'm not alone. Even if it's pouring rain, the Pine buses are no longer worth riding. It blows my mind that all Metro wants to do is cut cut cut and has 0 interest in getting MORE people to ride, which would equal more bus fare and a greater demand for funding. Then again, when have they actually cared about customers?	11/10/2014 9:53 AM
2416	Yes however I need to plan my schedule around the transit involved.	11/10/2014 9:53 AM
2417	They mostly get me where I want to go, but the buses are constantly delayed and they don't run late enough.	11/10/2014 9:53 AM
2418	Getting to downtown if fine. Would like one or two more express buses later in the morning. Bus leaving downtown in the evening is often very late (or sometimes never even comes.) Would be nice if there was an east-west bus that went directly between Magnuson Park, Green Lake Park and Woodland Park/Zoo (and maybe even Ballard Pool and Golden Gardens Park.)	11/10/2014 9:50 AM
2419	ok for commuting but routes are slow and limited not frequent enough off peak with limited service between urban villages	11/10/2014 9:43 AM
2420	Yes, however, because I have to drop my kids off near school, I am unable to ride the Water Taxi regularly -- mostly in the summer since we have in home care for our kids then. During the school year, I tend to ride the C Line or 55, 56 buses.	11/10/2014 9:41 AM
2421	Generally yes, sometimes it's a little more time consuming, but overall the amount of money it saves me makes it worth it. The days I do have to drive for various reasons end up being more frustrating than waiting a few extra minutes for a bus.	11/10/2014 9:40 AM
2422	For the most part, yes	11/10/2014 9:40 AM
2423	They get me where I need to go, eventually, sometimes could take the entire day, so I opt for a car. Also, unreliable, so have to add an hour to ensure I arrive timely.	11/10/2014 9:38 AM
2424	okay. yes.	11/10/2014 9:34 AM
2425	Getting to work is very convenient on the 12 route, buses run every 10 minutes and are almost always on-time. Getting home is not quite as reliable, traffic on 1st Ave downtown between Madison and Marion clogs the 12 bus route, and bus timing is quite variable. Often, two to three buses come back-to-back rather than every 10 minutes per the schedule. Unreliable timing on buses, traffic/lights on Madison and the number of stops make the ride home take about 50% more time than the morning bus. No easy route from east Capitol Hill (23rd/24th Ave E and Montlake) to University District Mall, Magnusson Park, etc.	11/10/2014 9:32 AM
2426	The transit options from Laurelhurst do not currently work. Taking the 25 is very slow and does not get me quickly to work. I'm hoping that the 25 will turn into a feeder bus that will take me quickly to the new UW light rail station. Then I can get downtown to work much quicker than the 1 hour it takes me via transit today.	11/10/2014 9:30 AM
2427	No they don't work because the bus adds an hour to my commute at this time if I did this I would have to transfer to the number 4 bus in downtown Seattle.	11/10/2014 9:26 AM
2428	They don't work for me at all. They take far to long to get me to work. I'm hopeful that once light rail comes to NOrthgate that it might be a workable option.	11/10/2014 9:26 AM
2429	Yes! Currently the Metro 64X is PERFECT!	11/10/2014 9:19 AM
2430	Yes they mostly work for me though I like to take the 12 down Madison to get to my transfer spot and it is so so pokey during peak traffic. the right lane snags up real bad at about Boren, and some driver just stay in the right lane	11/10/2014 9:14 AM
2431	Most of the time, but sometimes getting short distances is much harder than it should be. Especially now that the 14/47 has been cut, it takes me 45 minutes to go the two miles from downtown to my house sometimes.	11/10/2014 9:13 AM
2432	The times that I've taken the bus are few and far between because I find that it takes a ridiculous amount of time to get to destination. I am better off driving or biking everywhere.	11/10/2014 9:08 AM
2433	For the most part the network gets me where I need to go, though it is consistently slow and unreliable (timewise) when I use the bus network, especially crossing the Lake Washington floating bridges. I appreciate the time I get back when	11/10/2014 9:04 AM
2434	Yes to benaroya hall. Harder to get to the airport and very difficult to get to Seattle center.	11/10/2014 9:01 AM

2435	They do get me where I need to go, but take a long time. Swedish Cherry Hill is one of the last stops on both 48 and 64X.	11/10/2014 9:01 AM
2436	I can not get to Bonney Lake for Doctors appointments. I spend 2 hours every morning to get from Sumner to UWMC. one train and two buses, two transfers I spend 2 hours every evening to get from UWMC to Sumner. one train and one bus, and one walk, I get where I want but, never quick.	11/10/2014 8:57 AM
2437	Eventually. They add 1.5hrs of commute each direction for work. I live in Ballard and work on Cherry Hill.	11/10/2014 8:56 AM
2438	Since the elimination of the #47, it has been a hardship. Please bring back the #47 route.	11/10/2014 8:55 AM
2439	Yes.	11/10/2014 8:53 AM
2440	Rt 76 and 71 work well for me. Please retain those routes. I need to get around my View Ridge neighborhood to go to the grocery store and library. I am transit dependent.	11/10/2014 8:49 AM
2441	I don't drive due to a disability plus I totally believe in mass transit so want to ride the buses. I would like to have the 27 back completely on weekends and off peak hours. It takes me downtown from Leschi where I live. I would like to the 27 extended to include stopping at the Mt Baker Rowing Club in Mt Baker.	11/10/2014 8:48 AM
2442	work well except with the train and ferry do not connect. Also there is a 5-7 min lag in train connecting with a bus in the morning if it does not come in on time (5:37 AM). I just miss the bus most mornings by 40/60 sec.	11/10/2014 8:43 AM
2443	I find that my transit options get me 'close' to where I want to go. I don't mind walking the rest. But I will say, I wish it was easier to navigate the 'trip planner' on the King County website.	11/10/2014 8:42 AM
2444	Multiple changes required to get from North Admiral area to downtown/First Hill. times don't match up well. Daughter takes bus to school- timing doesn't match very well with school start time. Too early or too late.	11/10/2014 8:40 AM
2445	The bus works, but slowly. The time it takes to commute via bus is just barely worth the price. On the other hand, driving is convenient, but traffic makes it almost impossible.	11/10/2014 8:33 AM
2446	Yes but would like expanded service/wekend schedules to be on par with weekday schedules; Occasional delays in buses (due to maintenance) makes me late for work.	11/10/2014 8:32 AM
2447	My options are great when I work downtown and it's not a holiday.	11/10/2014 8:28 AM
2448	Yes!!!!	11/10/2014 8:28 AM
2449	I commute by bus from P&R in Shoreline to work at Swedish Hospital 4 days per week. I occasionally use other routes sporadically.	11/10/2014 8:26 AM
2450	Express service works well - there is a need to expand bike and auto capacity alike in Downtown Redmond for service serving Seattle and the U-District.	11/10/2014 8:25 AM
2451	No. It is faster to walk than take the bus so I drive.	11/10/2014 8:24 AM
2452	I walk...but for the most part yes. Cuts to one of the busses in the area does limit where I want to go. The 47 no longer runs to the northeast side of capitol hill.	11/10/2014 8:21 AM
2453	To get to UW from my house in Judkins Park neighborhood, I either have to: 1. Walk 15 minutes to Jackson & 23rd to take the 48, to take to UW. This works except it's a long walk in the evening when it's dark or really crappy weather. The connecting 14 bus only runs every 30 minutes, so I usually walk 2. Take the 7 to the International stop in the Bus Tunnel. Wait with 30-70 other UW students who flood whichever 70-series shows up first. This works except for not having internet service in the tunnel -- so many of us could use that time to study/read online. The 70-series that uses I-5 is WAY better than the 70-series that has to go through Eastlake. I never understood why it went through Eastlake even when it's an express. This works except for on the reverse commute, the bus is so packed on 42nd & University Ave that oftentimes it has to drive by people.	11/10/2014 8:18 AM
2454	Ok. A little slower than I'd like. It takes me twice as long via bus vs driving alone.	11/10/2014 8:09 AM
2455	They work OK for now, but would love to see Link light rail expand to Northgate up through Everett. This would allow uninterrupted service as far north from Everett to the airport. Also, the 77 is my preferred route downtown as it's quick. Unfortunately this route is only offered during commuter hours. I'd love to see this expanded to weekends as well or during game days.	11/10/2014 8:04 AM
2456	poor, I have to walk more than a mile every morning and in the afternoon now to get a bus, that usually runs late.	11/10/2014 8:03 AM
2457	I cannot get to Seattle Center in a direct route (used to be able to take the 30, I think it was the 30). This is a major city hub and I find it surprising and disappointing that there is not direct access from NE Seattle - it requires at least 1 transfer.	11/10/2014 7:59 AM

2458	yes	11/10/2014 7:59 AM
2459	Not well. Not enoguh parking at P&R, full by 7am. no direct bus from lynnwood to cap hill, something like the 303 from Northgate.	11/10/2014 7:57 AM
2460	There is usually a way to get where I wasn't too go, but this frequently involves multiple buses and take a long time. Also, the buses often do not run on schedule, so if I need to be on time somewhere, I'll usually drive.	11/10/2014 7:56 AM
2461	I love the 9 bus to get me from home in Columbia City to the 550 @ Rainier and I-90. And also home to Capitol Hill. I'd use the 9 more if it ran later and on weekends. Though I'm looking forward to taking Link to Capitol Hill.	11/10/2014 7:52 AM
2462	Generally yes. I would like to see more frequent service from the Sand Point area to the new U-link.	11/10/2014 7:47 AM
2463	Our current transit options are terrific!	11/10/2014 7:43 AM
2464	Transit options generally work well for me if I want to go downtown, UW, or SeaTac. Otherwise, I need to mostly use my car -- something I'd like to reduce.	11/10/2014 7:38 AM
2465	Mostly. I use my bike and the bus most of the time because busses going east/west suck	11/10/2014 7:24 AM
2466	Generally, but I would never consider taking a bus anywhere further than 10 miles from point to point of we're taking appointments, shopping, etc. There are not enough routes to cover this big city and buses come too infrequently	11/10/2014 6:53 AM
2467	Ok for getting downtown but too hard for other areas	11/10/2014 5:45 AM
2468	Yes	11/10/2014 5:31 AM
2469	Ultimately, yes.	11/10/2014 4:00 AM
2470	Drive.	11/10/2014 3:04 AM
2471	Yes they do. I travel daily between the U District and Seattle Central College. A faster trip such as express version of the 49 would help make my experience better.	11/10/2014 2:29 AM
2472	Slow to seatac airport No rail over 520 to east side!?	11/10/2014 1:23 AM
2473	They work ok. The lack of dedicated transit lanes on highway and infrequent smaller buses firing off peak times means longer travel times often than in a car, however. Travel is efficient for straight north-south and east-west transit, but really sucks for any north-east to south-west or other diagonal travel.	11/10/2014 1:09 AM
2474	They work ok, but bicycle is often faster because of congested traffic. I need to use the 8 a lot but the service is abysmal. The north-south 60 bus would be useful if it ran 4x per hour instead of 1x and if it didn't stop running so darn early, so I could use it to return home. I use 12th by bicycle to get to Seattle Bouldering Project in 15 min (or I don't go if it is rainy and a friend can't drive me, because there are no direct buses from capitol hill or central district down 12th, and a 40+ min ride via downtown stops running early and takes too long.	11/10/2014 1:04 AM
2475	Well, but I don't see why there isn't more emphasis on bus priority lanes thru out the city The ST 59X routes to Tacoma get bogged down in traffic. It's time to make the HOV lanes +3, +4 whatever it takes to keep them free flowing for transit.	11/10/2014 1:03 AM
2476	sometimes	11/10/2014 12:44 AM
2477	If I want to go to the U District or DT proper, they're great. Anything going east-west is totally hopeless. I didn't WANT to replace my car that croaked, but there's no way to get so many places--or it takes 2-8 hours to get there (no exaggeration), with multiple transfers--that I got a car. And BTW, \$5 round-trip is NOT AFFORDABLE on SSDI. When is this (*@# state going to get an income tax? I have looked at lots of jobs that are impossible to get to with transit--e.g., anything heading toward Tacoma, the Nisqually Reserve, again, Puyallup... wish I could remember more. Furthermore, the buses are disgustingly overheated and overcrowded. Trying to get from the Center for Urban Horticulture on Mary Gates Way to Northgate Way and 19th Ave. NE is STANDING ROOM ONLY, which is (a) excruciating, (b) stuffy, and (c) makes me want to barf. In the winter, we're coming in from outside. We're wearing COATS, HATS, GLOVES. I am being completely earnest when I say riding on a crowded and/or overheated bus makes me want to barf. Make the crabby bus driver (and most of them are just mean, although some are great) wear a coat and spare the rest of us. Oh, here's one: I could not get from 15th & 115th to 1442 West Lake Sammamish Parkway SE. Period. Couldn't go.	11/10/2014 12:42 AM

2478	Sometimes they work well, but they are often too slow or involve too many long transfers. There would be more incentive to walk or bike if I had safe sidewalks or bike facilities and safe parking. A safe, dry and comfortable waiting place would be nice with the long wait times in my area. CT needs Sunday and Holiday, later PM service and higher frequencies. There is a total lack of service to employers in the Paine Field area. Everett Transit should merge with CT and Island Transit and stop having so many agencies. There should be better off peak and weekend service between North Seattle, South Snohomish (MLT/Lynnwood) and Eastside places through Bellevue. There should be a Lynnwood to Northgate route, Lynnwood & Bellevue to Boeing routes and SR 9 and 522 to Bothell. Sounder north trains need to go through to the south sound to provide more destinations and draw riders. Sounder should directly serve early Boeing shifts at Everett and Renton before the main commute time for current service. We need a great bicycling network too.	11/10/2014 12:37 AM
2479	yes	11/9/2014 11:47 PM
2480	They currently work well. I get to where I want and need to go.	11/9/2014 11:35 PM
2481	Make the 29 all day, or at least go in both directions during rush hour. My dad works in Ballard and we live in Queen Anne, so he drives alone most of the time when he could take the bus if it was more convenient. Also, maybe extend the trolley wire and make the 13 go to Fremont?	11/9/2014 11:17 PM
2482	They work pretty well now.	11/9/2014 10:38 PM
2483	The transit I rely on for daily commuting between my home in Seattle (Pike/Pine) and my work in downtown Everett. It used to work great, back when it was the 510, but since the change to the 512 it has been MISERABLE. The stop by my work (Wetmore & Wall) is no longer serviced, and the closest stop is now Broadway & 34th, which is located between the county mental health triage center and a sex shop. At that stop, I am regularly harassed and propositioned while I am waiting for the bus, and I DO NOT FEEL SAFE THERE. (This coming from someone who lives in Pike/Pine and prior to that bus commuted in a rough part of Washington, DC.) Since I now have to walk from the farther stop, and with the increased number of off-freeway stops on the 512, my commute is considerably longer. What used to take 45 min in the morning now takes 1:15. I went from spending about 2 hours / day on the bus when it was the 510 route to now spending 3 hours / day on the bus. Service has also been less reliable. Twice last week I waited at Olive & Terry from 7:08am for the 512 that should arrive just after 7:15am; no bus came until after 7:45am and it was so full it was standing-room only for the trip up I-5. When I asked the driver why this happened twice that week, another passenger remarked, "It's like this every day." I was late to work and missed important meetings. The havoc that the change from the 510 to the 512 has caused in my life, and the amount of time I must now spend commuting, just isn't worth it to me. I am committed to a car-free commute, and I can no longer have it in Seattle. When I got a job in Everett, I chose the location of my apartment specifically because of the 510. After many unhappy months trying the 512, I put in for a transfer and will be moving to Portland, Oregon, in December. There used to be about 5-6 of us from my office who regularly commuted from Seattle to Everett on the 510. I am the last holdout. With the change to the 512 and the closure of our stop at Wetmore & Wall, all of the others now commute by car.	11/9/2014 10:30 PM
2484	47 was the bus I rode everyday from home to work, so no, mostly transit options do not currently work for me because the route has been removed from service	11/9/2014 10:18 PM
2485	Current bus service from my neighborhood (Ravenna) forces a long, slow trek through the U-district to get anywhere. For instance, taking the bus downtown can take close to an hour for a trip that would otherwise be a 10-15 minute drive. Overcrowding on the 71/72/73 is also a constant concern. This sometimes drives me to take Car2go, Lyft, or Uber. Link provides a unique opportunity to make transit faster, and we absolutely need a system that funnels people to Link, not away from it to crawl down the Ave. Taking the bus to Redmond works well, but only because I am able to avoid the U-district by jogging down the Burke-Gilman trail to Montlake. For a person in less good physical condition, the trip would take a lot longer.	11/9/2014 9:16 PM
2486	No. all the Capitol Hill routes run in a circle. I can only go to the Macys (3rd and Pine) from Capitol Hill. There I have to change buses to get to the Seattle Art Museum or anywhere between the center of town & Pioneer Square. There is no bus that goes to Town Hall or near Town Hall without having to go downtown first.	11/9/2014 9:13 PM
2487	The 8 is terrible, but I think everyone already knew that. I don't even know if it's something you can fix. Anything that needs to cross Mercer between 3pm and 7pm is basically hopeless. Please try to get some signal priority or exclusive lanes. Why is the 9th and Pine bus stop across the street from the Convention Place station, instead of being on the same side? There are many people who want to get off a 10/11/43/49 and take a tunnel bus, the current arrangement forces them to wait for the bus to get a green light to cross 9th, then cross the street back the way they came (and hopefully the light is still green!) instead of just getting off and going down the escalator. It's very unfortunate that the 2 and 12 operate on different streets. It means that from downtown, I always need to check at both stops to figure out which one will come next, instead of just going and expecting that there will be one soon. These should just operate as frequent service on the same streets from downtown to about 12th. I am very hopeful about the First Hill Streetcar and I can't wait for it to start!	11/9/2014 8:33 PM

2488	Yes	11/9/2014 8:15 PM
2489	Getting to and from downtown--transit works great. Getting between neighborhoods is harder, takes longer, and is more inconvenient. Getting from Fremont/Wallingford/Ballard/North Fremont to Capital Hill is horrible. I am a strong believer in public transit, and I often drive because it's so inconvenient. I'd really love to see reliable and frequent east/west connections from the new UW light rail station!	11/9/2014 7:36 PM
2490	For work, they are okay (not the most reliable). To get into Downtown, the routes are good. To get from Neighborhood to Neighborhood, they suck.	11/9/2014 7:21 PM
2491	I'm mostly satisfied with transit between Capitol Hill and downtown and between Capitol Hill and the UW, though the buses are often standing room only during commute hours. But service between Capitol Hill and Queen Anne and between Capitol Hill and Ballard are infrequent, unreliable and clunky. People from larger cities (like San Francisco) tell me buses there run every 10 minutes, which makes it easy to get around the city. I would love to see that in SEattle.	11/9/2014 7:13 PM
2492	Frequently, yes. However, the 248 does not come frequently, and when it does it is often late enough that I do not get to catch it on my way home. If I took the 248 from Redmond TC, my walk home would take 10 minutes. As it stands, my walk now usually takes 45.	11/9/2014 6:48 PM
2493	When the bus doesn't work well, I can almost always walk/bike. Our City is growing up--it is good to have reliable options!	11/9/2014 6:46 PM
2494	Somewhat. Could use more frequency and more cross town connections	11/9/2014 6:46 PM
2495	They currently do, but my bus is often packed to the gills with standing room only. Plus the timing is really bad. Multiple busses going through the park and ride at the same time to Seattle when staggering the timing would make more sense.	11/9/2014 6:22 PM
2496	Our bus system very unreliable and often does not avoid congestion. I am very disappointed by Metro bus service, and have been using it for years. I am satisfied with the light rail line, I ride it to the airport often. I look forward to light rail serving more communities in Seattle, as well as the surrounding areas.	11/9/2014 5:49 PM
2497	I can get where I want to go, but not necessarily at the times I want. I'm late for work on a regular basis because the route 3 bus (the one scheduled for 6:15 am at 3rd and Pine) is chronically late.	11/9/2014 5:43 PM
2498	Currently it is time consuming to get to work from Ravenna to the VA Medical Center on Beacon Hill. I take a Metro Bus 72 downtown, transfer to Sound Transit Light Rail, then transfer again to Metro Bus 36.	11/9/2014 5:35 PM
2499	In general they work very well.	11/9/2014 5:29 PM
2500	They don't go often enough from the park and ride.	11/9/2014 5:22 PM
2501	Although I generally prefer to use transit, there are many occasions when service isn't frequent enough to make it possible or practical. When transit is a faster and/or cheaper option, I will almost always choose it. During rush hours, this is feasible to a number of in-town locations. However, since service is limited in evenings and early mornings, transit becomes less appealing for many trips to airport and entertainment venues. Although traffic congestion decreases reliability for all modes of transportation, transit may suffer even more -- if single-occupancy cars are moving slowly, buses will typically move even more slowly as they must stop to serve passengers. If we can find ways to provide more dedicated rights-of-way to transit, it will become a *much* more appealing option to many users. As light rail expands, there are many opportunities to make service better/faster/more reliable, and thus more competitive with driving.	11/9/2014 4:28 PM
2502	From Madison Valley to my work downtown I need to take two buses (11 amd 12) and the end of day 5PM service is horrible.	11/9/2014 4:15 PM
2503	Yes, though non-BRT buses are of the past, and light rail is of the present, you know? More light rail is needed in Seattle.	11/9/2014 4:11 PM
2504	Most of the time yes. But lately the 167 bus has been the shorter version, (since about September) and many riders must stand for long periods -- from U-District to Renton Park and Ride.	11/9/2014 3:54 PM
2505	Transit helps me get to congested downtown areas or neighborhoods with high parking fees. Transit helps me travel to the airport.	11/9/2014 3:47 PM
2506	They work well. It would be nice to for transit to get in and out of Downtown from the north more easily during rush hour.	11/9/2014 3:22 PM
2507	It takes me longer to ride transit to work (10 or 12 bus) than to bike; I rarely go to Georgetown because it's too hard to take transit or bike there	11/9/2014 3:07 PM

2508	Right now I am using the sound transit express bus to overtake from Capitol Hill. This is really painful and is no where near as efficient as driving. As much as I would rather ride the bus the overcrowding and missed busses due to capacity are making me switch to driving about 90% of the time compared to my previous commute to Bellevue from Capitol Hill where I bussed 90% of the time.	11/9/2014 2:31 PM
2509	With effort on my part, it is often not easy	11/9/2014 2:10 PM
2510	The 41/16/66 get me to NGTC but would prefer to travel on light rail as far and possible and shuttle /express busto NG until light rail gets there.	11/9/2014 1:51 PM
2511	Mostly. I commute in the mornings on the #12. It's great with service every 10 minutes during the commute. I usually walk home but sometimes take the 10, 11 or 43 depending. Those are pretty good.	11/9/2014 12:58 PM
2512	Yes, it works reasonably well. One very nice thing about Seattle Metro is that it is not all downtown-centric, requiring that one go downtown and back out to get anywhere -- a defect other cities suffer from. In Seattle, currently, one can pretty conveniently go direct from one area to another. Please keep that the case.	11/9/2014 12:00 PM
2513	I'd rather use the bus, and I'd like to use it more. It takes me an hour plus and two buses to get from Sand Point to Capital Hill. It takes me almost an hour and two buses to get from Sand Point to Wallingford for my part-time job.	11/9/2014 11:17 AM
2514	Yes, but slowly. Surface transit in the urban core is very slow. The #2 and the #8 are especially slow and unreliable.	11/9/2014 10:38 AM
2515	The 8, especially after the August 2014 service cuts is very late and always overcrowded during peak hours. It is easily delayed by as much as an hour when traveling from west to east on Denny if there is the slightest backup on I-5. In these cases, it's typically faster to get off the bus and walk from Elliott (work) to the Central District (home).	11/9/2014 10:34 AM
2516	Sometimes. Trips across town (east-west) are difficult, especially along the Denny corridor. Trips from one "corner" to another (crossing over Lake Union - such as from Capitol Hill to Fremont) are often excessively time-consuming.	11/9/2014 10:25 AM
2517	Yes.	11/9/2014 10:10 AM
2518	Connections are okay... A direct route from Capitol Hill to Ballard/Fremont would be extremely helpful. Getting stuck in traffic is a drag and results in bunching of busses and makes riding a bike or even walking faster in many cases during the day. Need more dedicated transit lanes [to go with more protected bike lanes].	11/9/2014 10:09 AM
2519	Most of my transit options work well - but ALL are poor when returning crosstown from evening events that typically end around 9-10 p.m. I am very grateful for Route 31, which is my major east-west link to Seattle's north end. Route 8 is also helpful. However the bus zone needs to be relocated back to First Avenue; the present location, essentially at Third Avenue, makes connections with the D line and many buses to Queen Anne and other northern areas very difficult. The time-update kiosk at 3rd and Pine, and other updating route-due-when signs along the C, D, and other lines are invaluable; thank you.	11/9/2014 10:03 AM
2520	They work horribly. The recent cutbacks have literally hobbled my ability to get anywhere, so severely it has already cost me hundreds of dollars in lost time and wages.	11/9/2014 9:57 AM
2521	Yes, they work pretty well.	11/9/2014 9:37 AM
2522	Any that's a direct bus from home (cherry hill) or downtown is great. Transfers are more iffy. The very core isn't bad, but the ability to navigate even slightly more complicated options is low, due to frequency and connectivity issues. Most of green lake is a pain to visit from cherry hill, and there's no reason that should be so.	11/9/2014 9:32 AM
2523	Poor connections between Sound Transit and Community Transit. No transit lanes on the I-5 lead to long delays on reverse commute, though extremely fast when there is no traffic. Poor transit prioritization in traffic lights and lanes lead to delays vs single occupancy vehicles.	11/9/2014 9:30 AM
2524	The bus gets me where I want to go, but it's kinda slow because the bus stops on every single block.	11/9/2014 9:27 AM
2525	Moderately happy with current services	11/9/2014 8:57 AM
2526	Going to/from Bellevue is well covered by ST and 271. Going to/from Ballard or Wallingford from Capitol Hill is not well-connected. Bus 8 needs a lot of help to stay on time and hopefully run more frequently.	11/9/2014 8:54 AM
2527	Yes, very convenient but are an expensive option. I can generally drive to my destinations for less than it would cost on transit.	11/9/2014 8:40 AM
2528	generally pretty well but I am pretty much on the beaten path. i also walk a lot.	11/9/2014 8:06 AM

2529	No direct service from Madrona/Leschi to the U-District	11/9/2014 6:35 AM
2530	Getting to work at Harborview by 6:00 AM start time from 70th and Sand Point Way NE is difficult when Metro cancels the 5:35 AM (approx time) #3 bus from 3rd and Pike during the Christmas holidays. I must take a cab to work to make it there on time.	11/9/2014 4:12 AM
2531	Yes, but it's slow	11/9/2014 3:08 AM
2532	I take the E-line, which is often slow. There are alot of stops for a "rapid ride". But when I go to Capitol Hill, service is descent and frequent. There are some stops that are too close to each other, making us stop alot.	11/9/2014 1:48 AM
2533	Geography-wise yes, except for U Village access from Capitol Hill. But any bus that does not run on a 10-minute schedule is useless for serious commuting that includes a transfer.	11/9/2014 1:21 AM
2534	Yes, but they are cutting my route on the 8	11/9/2014 12:46 AM
2535	For the most part, though transfers can add significant time to an otherwise short commute.	11/9/2014 12:41 AM
2536	Sometimes, wish there would be longer hours for certain buses like the 550 and 255	11/9/2014 12:08 AM
2537	yup - just add frequency and span	11/8/2014 10:46 PM
2538	Work ok	11/8/2014 10:46 PM
2539	Sometimes. Don't like carrying my bike up stairs at Montlake eastbound from Downtown . Age 73.	11/8/2014 10:45 PM
2540	For me, they work great, but that's because I live in a GREAT spot for public transit. I live on Capitol Hill, and I CANNOT wait for the link to take me from Capitol Hill to the airport! I travel a lot!	11/8/2014 10:33 PM
2541	Mostly	11/8/2014 10:33 PM
2542	Would like direct bus (no-transfer) bus to downtown Seattle from Laurelhurst. The 25 is too infrequent and meanders too much.	11/8/2014 10:27 PM
2543	Bike is most dependable Bus is slow	11/8/2014 10:22 PM
2544	Yes, but slow when they actually show up. The 7X is gone and the 9x is far too limited.	11/8/2014 10:17 PM
2545	No. I would like better east-west service across north Seattle. Maybe a single bus that goes from Loyal Heights/Crown Hill/Greenwood in the west to Wedgwood/Magnuson Park/NOAA in the east.	11/8/2014 10:01 PM
2546	Pretty much.	11/8/2014 9:56 PM
2547	the 77 is great. I do have trouble bussing all the way to work, since the 131 and 132 stop at places downtown that are a little too sketchy to wait for the bus in the dark. so the vanshare works, but it just adds more waiting time to the trip.	11/8/2014 9:34 PM
2548	I have to drive part way to get to the bus	11/8/2014 9:04 PM
2549	Mostly. But it be nice if 70s and 8 were not so crowded, and out of schedule.	11/8/2014 8:56 PM
2550	The simple answer... no. They often only go a few blocks away from where I want to go, and that can often be further than I can walk. They also run at inconvenient times. It seems that if I have to be someplace by a certain time the buses always get me there either 45 min early or 15 min late. I know there isn't really anything you can do about that, but it does make me not want to use the bus.	11/8/2014 8:08 PM
2551	Yes they get me where I need to go. Just takes along time.	11/8/2014 7:47 PM
2552	I try to walk and use buses as often as possible, but sometime it is difficult and timely to get some places (i.e. from Capitol Hill to Ballard) as there's not a direct bus route. In these cases I'd use a more expensive option such as Uber, or just not go. There are some neighborhoods I would like to explore more, but my lack of a car makes it too expensive or too long to get there.	11/8/2014 7:32 PM
2553	Right now, I use my car. I used to use Metro when I lived in E. Magnolia and Ballard, but now I live in NE Burien .	11/8/2014 7:12 PM
2554	Yes, my 64Express is practically door-to-door.	11/8/2014 7:02 PM
2555	They work OK.	11/8/2014 6:58 PM
2556	It is usually possible to get where I want to go, but often I have to transfer downtown or University District which adds considerable time to the trip. It doesn't seem like busses are scheduled for easy transfers, and if the first bus is late, missing the transfer wastes even more time.	11/8/2014 6:45 PM

2557	mostly. not olympia, which is a huge hole in our transit network.	11/8/2014 6:23 PM
2558	Yes, just not quickly or reliably.	11/8/2014 6:11 PM
2559	Poor bus service from upper queen Anne to University of Washington. Poor direct bus service from upper Queen Anne to Fremont	11/8/2014 6:07 PM
2560	They do. The morning bus can be frustrating as I'm the last stop before the freeway. The 76/316 after 8 am are always super crowded and sometimes have to drive by. The evening buses from 5:30 on are often off schedule (late to super late) - but maybe this has been better lately. I know this is often out of their control due to traffic, but perhaps the scheduled time should be changed to something more realistic?	11/8/2014 5:27 PM
2561	Yes.	11/8/2014 5:27 PM
2562	generally work well, except for transit to University Village	11/8/2014 5:25 PM
2563	For the most part I have no issues. Although Metro buses tend to run slow	11/8/2014 4:51 PM
2564	ST Express is, for the most part, quick and efficient from Snohomish County to downtown. Rapid Ride E, however, is slow and has reliability issues at night. There are too many stops closely spaced together in densely populated areas, such as between N 80th and N 125th. I try to use ST over Rapid Ride as much as possible.	11/8/2014 4:38 PM
2565	Yes. my buses are currently lined up with low wait time but that has not always been the case.	11/8/2014 4:36 PM
2566	Yes, currently the transit options get me were I want to go with minimal walking to the precise destination.	11/8/2014 4:32 PM
2567	use it almost every work day to starbucks then work, about 5 blocks total walking	11/8/2014 4:31 PM
2568	Yes, I am satisfied with the service	11/8/2014 3:54 PM
2569	They work ok. I wish there were more 77 buses during the morning and evening commutes. There have been many delays and incredibly crowded buses, as of late. The Light Rail sharing the tunnel with Metro buses causes MANY delays during the evening commutes.	11/8/2014 3:54 PM
2570	The number 2 bus meets most of my needs. Do wish it ran more often in the evening.	11/8/2014 3:36 PM
2571	If it's available for my trip (e.g. going to the airport), I take Link. Otherwise, when I really need to get somewhere quickly/reliably, I take TNCs (Uber/Lyft/Sidecar); if I have time to spare, then I take the bus. Link works really well where it exists. Of course, its current route has a fairly limited reach. Buses often go where I want them to go, but they're largely slow, infrequent, and unreliable. TNCs are fast and reliable, and the waiting time is short, but they're expensive, and that's almost enough to cancel out their other benefits.	11/8/2014 3:34 PM
2572	morning commute is fine evening commute has too few buses after 6:00 pm so I am less likely to take the bus	11/8/2014 3:29 PM
2573	Getting to and from work are great during the rush hour.	11/8/2014 3:25 PM
2574	Transit does not work for me getting from north Seattle to Capitol Hill. Do not wish to transfer downtown.	11/8/2014 3:15 PM
2575	Very well, but outside of peak hours arrival times are inconsistent (either due to being late, or schedule lineup)	11/8/2014 3:06 PM
2576	They work well with limited extra walking	11/8/2014 3:03 PM
2577	The current routes through Capitol Hill and the Central District are seriously lacking in reliable and convenient speed. They lack dedicated bus facilities making them stuck in the regular traffic, even though they are moving dozens more people. Additionally, there is a big lack in access for areas west of 23rd traveling north and south between Judkins and John.	11/8/2014 2:56 PM
2578	Things work for the most part except the Metro buses. They are slow, infrequent, unreliable, overcrowded, don't run late enough, etc etc etc.	11/8/2014 2:50 PM
2579	They work well	11/8/2014 2:19 PM
2580	Yes 8 is rarely on time	11/8/2014 2:18 PM
2581	sometimes I have to use secondary transportation to get to current mass transit options; once I'm at the nearest transit station it works fine! I choose mass transit because of current routes; I would use it more if more routes were available!!	11/8/2014 2:14 PM
2582	Transit works very well for me. W	11/8/2014 2:06 PM
2583	Mostly work, but if I want to do some things in the evening after work without driving my car in, public transit can be a big problem.	11/8/2014 1:51 PM

2584	The ones I currently use, like the 10, 8, 43, 12, all work well for me.	11/8/2014 1:30 PM
2585	They do generally get me where I want to go. Transferring is often painful because buses aren't frequent enough or connections aren't timed or the buses are running late. Frequency at night and on weekends is also pretty bad. Can we have more bus only lanes? Also red paint on pacific right outside the med center.	11/8/2014 1:21 PM
2586	i live 7 miles from work at SLU. It takes 20 minutes to drive, sadly, but >45 min w/bus transfer to ride the bus. Given professional (and family/daycare dropoff) intensity I can't afford 3+ hours extra per week on the bus, and negotiating transfers with my 3 year old.	11/8/2014 1:17 PM
2587	The options for most of the day work well. Decreased service on night and weekends reduces ability to rely on transit, so I use services such as Car2go and Zipcar more frequently.	11/8/2014 1:15 PM
2588	Yes	11/8/2014 1:15 PM
2589	Yes, but the bus comes at unreliable times.	11/8/2014 1:11 PM
2590	Not really.	11/8/2014 12:33 PM
2591	They go where I want to go, but it takes three busses to get there. So there can sometimes be long waits for transfers.	11/8/2014 12:22 PM
2592	Yes	11/8/2014 12:12 PM
2593	Yes, but the 30 stops running too early. Maybe Magnuson park destinations should be added to the 30 route.	11/8/2014 11:58 AM
2594	Fair. Distance between stops is haphazard, times between buses is abysmal, I can get only so far, then have to walk the rest of the way much of the time.	11/8/2014 11:57 AM
2595	Usually and eventually - stops are not coordinated for timely transfers many times the next bus I have to catch just left so I wait around for 30 mins to get the next one. Or I have to walk a couple blocks between line - like catching a bus to Capitol Hill from the tunnel after riding light rail - have to get out at Westlake and walk to 4th/Pike - I'd be really mad if I were confined to a wheelchair or had any mobility limitations. In the winter, people wear coats, so having the heat cranked up is extremely uncomfortable, so for longer rides people have to take off coats in crowded bus knocking into people and taking up extra space; conversely in summer, people don't wear big heavy coats, so having the air conditioning blasting and freezing people out is also a de traction for riding - drivers could dress accordingly and regulate air for the CUSTOMER. Also, someone should find a way to get riders to behave better while on transit.	11/8/2014 11:56 AM
2596	Yes, after a 20 minute walk	11/8/2014 11:50 AM
2597	Currently all the transit works great for me.	11/8/2014 11:48 AM
2598	I can easily get to places I go on a daily or weekly basis, but it can be difficult to get to other parts of the city (e.g. from Capitol Hill to Ballard, Northgate, Georgetown, or Columbia City).	11/8/2014 11:27 AM
2599	Yes - but I'd love more and faster options to get from cap hill to pioneer square/Georgetown so do beacon hill	11/8/2014 11:20 AM
2600	OK except for VA Medical Center (you took away the MT-60)	11/8/2014 10:50 AM
2601	Normally take the 257/252 & sometimes 311. Use 255 on weekends. These work nicely, although the last mile to work has no real transit options. 1st Ave south buses near Safeco should be restored.	11/8/2014 10:46 AM
2602	Mostly OK during the week, but I have to allow at least twice as long on the weekend to get downtown.	11/8/2014 10:42 AM
2603	For the most part they would get me where I want to go but the frequency typically stinks. Every time the bus 8 gets a good driver, some tenure BS comes up and we get some lazy old fart instead. A lot of times I just walk rather than wait for the bus - thanks King County people who do not live in the city! Jerks..I hated losing the bus 47. And the bus 8 doesn't come as frequently now. One more thing - thank goodness for One Bus Away. Since the schedules are so thoroughly unreliable, OBA is huge in knowing when to "actually" be at a bus stop.	11/8/2014 10:23 AM
2604	The 16 is frequently crowded to standing room only in the AM and doesn't run frequently in the evening. The 44 doesnt predictably turn into the 43 to get from wallingford to Capitol hill quickly.	11/8/2014 10:21 AM
2605	ST 542 gets me to work, this is working very well 49 to Capitol Hill takes too long, I hope the train will be faster, but will need a bus connection to get from Husky Stadium up the hill. There is no good connection to go to the airport now. Also hope that there will be a good bus connection from the U-District to Husky Stadium so that the airport can be reached faster.	11/8/2014 10:17 AM
2606	Most of the time, yes.	11/8/2014 10:17 AM

2607	I walk mostly anywhere I go around downtown/Capitol Hill because it's often a bit more reliable than buses, and sometimes it takes less time. I use buses when I need to go to places I can't walk to, i.e. downtown to Ballard. Generally these bus options are great. The 17X and 18X are fantastic, but they don't run that often. The 40 and Rapid Ride also get me to Ballard, but they're significantly slower than the 17X and 18X. When I go to the UW, I use the 71X, 72X, 73X, or 74X. All are awesome and quick routes, but extremely overcrowded and uncomfortable. I use the light rail to go to and from the airport.	11/8/2014 9:58 AM
2608	Yes and quickly.	11/8/2014 9:44 AM
2609	yes but I refuse to count on bus service during the rush hours. I find it more frustrating that the 71, 72, & 73 can't be counted to run on time.	11/8/2014 9:27 AM
2610	No, I only take the #25 bus to support Metro. If I drive to 6th and Seneca I can be there in as little as 25 minutes. If I take the bus it is well over an hour.	11/8/2014 9:08 AM
2611	Getting from the waterfront to SLU and/or Capitol Hill is a pain: steep grades between the ferry and transit stops and infrequent eastbound service without going all the way to Pike.	11/8/2014 8:59 AM
2612	They work well, but there are not enough options to meet demand	11/8/2014 8:50 AM
2613	It is really a pain to get to First Hill, and to Capitol Hill on the weekend coming from Beacon Hill. When will the First Hill Trolley finally be activated? That will solve a myriad of transportation problems for non-driver on the southeast side, like myself.	11/8/2014 8:47 AM
2614	It takes about twice as long as driving to work which isn't a problem. The problem with my trip is that there aren't covered stops where I need to change busses. In addition I had to search out my trip manually. Trip finder didn't figure out the #60 from Cap Hill to transfer in Georgetown to the 124.	11/8/2014 8:41 AM
2615	great service in my neighborhood with rare exception buses run on schedule	11/8/2014 8:40 AM
2616	not having to ask friends for a ride to the airport	11/8/2014 8:33 AM
2617	more or less. In the rainy months, my routes involve more walking than I would like at times.	11/8/2014 8:02 AM
2618	Work okY. Church not able to get to need more Saturday and Sunday service to run errands shop and church. Want direct Sat and sun routes from Lake City to downtown.	11/8/2014 7:53 AM
2619	I wish the 8 was a faster bus. I am excited to use the University link in 2016. Keep the 48 running as fast as possible	11/8/2014 7:51 AM
2620	Surface transit is bogged down by general peak hour traffic, need alternative transit not affected by other traffic.	11/8/2014 7:42 AM
2621	Yes	11/8/2014 7:42 AM
2622	Yes but slowly and not as frequently/reliably as would like	11/8/2014 7:38 AM
2623	My option to get to my job on the UW Campus is OK. Since the 75 route was changed and combined with the 31, the buses have been more frequently off schedule. The evening commute home around the 5 o'clock hour is terrible. Buses are late, and it is very uncomfortable waiting in the cold and darkness for 15 to 20 minutes because the 31 is late getting to the U District where it change to the 75.	11/8/2014 7:04 AM
2624	Yes but slowly.	11/8/2014 7:02 AM
2625	I get where I need to go, but not necessarily on time, and it often takes a long time, since one has to plan to take earlier buses to get places on time, and frequently one has to transfer (which doubles the risk of delays in arrival).	11/8/2014 7:01 AM
2626	Demise of the 47 and the lack of a downtown connection from Capitol hill creates problems -- many trips take me from E. Republican and Bellevue to the Federal Building - no one seat ride so I usually just walk.	11/8/2014 4:17 AM
2627	Generally well, timing can be inconsistent on buses but it works	11/8/2014 3:41 AM
2628	For the most part, Yes.	11/8/2014 1:40 AM
2629	They suck because they're unreliable one way and caught in traffic the other way	11/8/2014 12:23 AM

2630	I don't think I've ever encountered a scenario where I couldn't get where I wanted to go on the bus... but there have certainly been cases where it's not as convenient as driving. Too many transfers, or it simply takes too much long compared to driving. I feel like it's really easy to get from where I live in the Central District to various places downtown. And I LOVE the light rail to the airport. I've used it on many occasions and been so thankful for it. I do wish, sometimes, that the 11 or 12 buses started running a little bit earlier in the morning so I could get down to the light rail / bus tunnel in time for earlier morning flights. In that same vein, I rarely take the bus for nights out in other neighborhoods, because I worry about getting stranded if I'm out too late and the buses are no longer running.	11/8/2014 12:21 AM
2631	OK but could be better. 101 needs to run later and more often - tie into Link at Rainier Beach Station	11/7/2014 11:58 PM
2632	Yes, but the lack of a carpool lane on much of the 520 makes my commute home from work very long.	11/7/2014 11:57 PM
2633	Yes.	11/7/2014 11:56 PM
2634	no, they only seem to go downtown and I don't work or really do anything downtown anymore. It took me 3 hours to get to work from Shoreline to SEATAC on the bus/light rail. I only tried it once and even with the expansion joint pulled up and the traffic mess, it was only 2 hours to work. I just don't have the time to sit on a slow bus/train to get to work or I'd never have time to sleep.	11/7/2014 11:54 PM
2635	I can mostly get to where I want to go, but not often in a very timely fashion and evening transit options are sometimes limited/non-existent.	11/7/2014 11:22 PM
2636	Not bad	11/7/2014 11:13 PM
2637	Fair. They get me close enough to work but cross town trips still take too long and are inconvenient for public transit	11/7/2014 11:13 PM
2638	I bike in the rain. Would rather bus.	11/7/2014 10:42 PM
2639	Yes, but outside of Seattle it gets more difficult to conveniently use transit for my routine trips.	11/7/2014 10:39 PM
2640	I currently take 11 to work, which works ok for me. The bus is frequently overcrowded and in the evening the bus is always late. Going else where in the bus is much harder.	11/7/2014 10:32 PM
2641	Denny congestion must be addressed. buses can't get through at peak PM hours.	11/7/2014 10:03 PM
2642	Yes! Love my transit!	11/7/2014 9:57 PM
2643	Yes	11/7/2014 9:53 PM
2644	I live in the International District and work in Pioneer Square (waterfront), so I usually ride my bike or go one stop in the Tunnel.	11/7/2014 9:52 PM
2645	Yes they get me to work and back!	11/7/2014 9:45 PM
2646	I can get to most places I need to go. The main problem I have with Seattle metro is that the buses are always late and the times on the schedule are not correct.	11/7/2014 9:35 PM
2647	Yes, though I do have to walk a bit farther then I used to due to routing changes. Fewer options and more crowded coaches in the evening now that the 306 is gone.	11/7/2014 9:25 PM
2648	Capital hill to Ballard and south lake Union often slow and unreliable. Uw campus to lower Queen Anne very slow.	11/7/2014 9:10 PM
2649	They work well for commuting to work, except that Metro has reduced the frequency of trips over the years and that some of the buses are reliably LATE (71 leaving 65th and 35th at 9:26 AM has never been on time - always 5-10 minutes late; I stopped trying to take the 76 leaving ID at 5:04 PM because it never showed up before the next scheduled 76 leaving at 5:21; I stopped trying to take the 65 leaving 35th and 65th at around 9:15 AM because it was usually 15 minutes late). Getting across town to the east has never worked very well. And now that the 30 doesn't go to Seattle Center it is even worse. I used to take the 194(?) from the tunnel to SeaTac airport. Now that ST's CLLR has replaced that route it takes longer, costs more, and doesn't run early enough or late enough.	11/7/2014 9:08 PM
2650	To get to green lake, i take the 312 to 20th ave ne and ne lake city way and then walk the rest of the way, because transferring is so inefficient i can walk faster. The express bus to downtown (522) is the most efficient service, but it is hard to connect efficiently from this bus line to get around other parts of north seattle.	11/7/2014 8:51 PM

2651	Buses get me home but not with ease. Option one is to walk about a mile to catch the 14 bus (3rd and pine) but this is area doesn't feel after dark. Other option is to catch the tunnel to intl district, but tunnel buses are always full or delayed.	11/7/2014 8:50 PM
2652	167 is great for me to take from the Renton Highlands area (from either exit 6 or 9 on 405). It is faster than when I drive. It would be very hard (slow commute) if 167 was not running. I have to take at least 2 buses and I often cannot make connections between buses if have to take 271 and 566 to get to Renton. I like taking bus 75 (and 65 or others on Sand Point Way) go to/from children's hospital.	11/7/2014 8:34 PM
2653	For the most part; however I feel that over the past ten years of using Metro to work, I felt that there could be a better transit hub near Pacific Ave and Montlake Blvd. I see a lot of folks walking to and from Pacific Ave. thru U.W. campus to E. Stevens NE to transfer on a bus. It seems a better hub for transportation in this area with light rail should be examined closely.	11/7/2014 8:28 PM
2654	they used to, till the 243 was canceled & the seattle tax isn't bringing it back even though the majority of its riders are in seattle, and it was full from lake city way to btc & reverse.	11/7/2014 8:22 PM
2655	Yes, but traffic is awful in the mornings and the busses are often over capacity. I live in Lake Forest Park and use either the 522 or 312 every day to get to work. Most bus drivers are fantastic. About once a week, we get a driver lacking confidence who do not drive with a purpose. Missing lights due to a lack of purpose adds time to the ride.	11/7/2014 8:07 PM
2656	Yes, if I walk Downtown to catch them (excluding #49, which I can catch on Capitol Hill).	11/7/2014 8:06 PM
2657	I take the 41 from the Northgate park and ride to the Pioneer Square tunnel station 5 days a week. It is extremely reliable, convenient, and fast. The only inconvenience is that I have to drive to the park and ride from my house. I live on 35th ave NE near 92nd st. I used to take the 64X to work daily, but it has become so unreliable in recent months. At least once a week, the bus would not show up for the scheduled time and I had to drive to work to avoid being late.	11/7/2014 8:03 PM
2658	Not all of of the way. I have a reverse commute, because I work in the suburbs (Kenmore). I can get close, but the last couple miles are tough with transit. Frequency is also a problem. Every half hour is not bad, but it can also be a barrier for me taking the bus. If buses ran more frequently to a light rail station, and then I could take very frequent rail the rest of the way, I would be able to use transit more often.	11/7/2014 7:31 PM
2659	Transit works well to get me downtown. I love that a bus ride downtown, then light rail so easily gets me to the airport. I wish I could get to and from work in Bothell.	11/7/2014 7:25 PM
2660	yes	11/7/2014 7:20 PM
2661	Need better connections between Capitol Hill and Ballard/Wallingford/Fremont.	11/7/2014 7:16 PM
2662	I live in the U District. Getting to downtown and Cap Hill is slow and irritating. If I can get to Husky stadium (which is a little ways away) then that will become much more convenient. Also, if buses from the eastside to downtown terminate in the U District instead, I will be able to get to the eastside while passengers on those buses will be able to transfer to light rail.	11/7/2014 7:15 PM
2663	They are adequate, but I wouldn't say they get me to where I want all the time. There needs to be more emphasis on connecting bus routes directly to light rail at the appropriate time.	11/7/2014 7:00 PM
2664	My transit options are poor in Rainier Valley. The options in/to North Seattle are pretty good.	11/7/2014 6:52 PM
2665	Utilizing the park and ride, yes, transit works for me. I would love to be able to take the bus directly from my home, though.	11/7/2014 6:47 PM
2666	Generally, yes.	11/7/2014 6:22 PM
2667	Route 76 works very well in the morning to get from View Ridge to downtown. It is much slower in the evening.	11/7/2014 6:20 PM
2668	Easy to get everywhere except University Village from points south	11/7/2014 6:02 PM
2669	I think I answered this mostly in the previous questions- But I would like to mention long term goals: Expanding Link as quickly as possible at any cost is SO important. If you asked the people to help pay to speed up the process, it would happen in an instant. We're begging for an underground system. In addition to the current expansions, I believe a line from downtown to Fremont/Ballard/Green Lake would be a game changer. Also, a circle line would be incredibly successful- Downtown, Capitol Hill, UW, Wallingford, Ballard, QA, Downtown.	11/7/2014 5:54 PM
2670	More or less. Over crowding and lack of frequency stink.	11/7/2014 5:51 PM
2671	Yes they do, but the commute from SeaTac to UW is way too long.	11/7/2014 5:39 PM

2672	Transit, as it is, works really well for me, but it's mostly a product of where I live and the fact that I am able-bodied as **** (except for not being able to walk down hills).	11/7/2014 5:36 PM
2673	They used to work great. But after service cuts, now on evenings and weekends, I am now a mile from bus service.	11/7/2014 5:22 PM
2674	For the most part yes. Getting from Eastlake to say, Fremont is kind of a pain in the ass at times, but what with a great big lake right in the way I suppose that's to be expected.	11/7/2014 5:19 PM
2675	They do, but very hotly in the winter time. (Dear drivers, we are coming onto the bus with all of our winter gear on and plan to eventually get off the bus into the same cold weather with our winter gear on. It is you who should dress warmer and turn the heat down, not the other way around.)	11/7/2014 5:17 PM
2676	Generally. Existing (traditional) trolley buses are quite awful; lurching combined with bad roads. Often choose to walk rather than take trolley bus. Options more limited when not during commuting periods (e.g., weekends)	11/7/2014 5:13 PM
2677	From View Ridge, I get to Roosevelt and Downtown easily. From Downtown, I get to View Ridge and Northgate. I can't get from Northgate to View Ridge easily.	11/7/2014 5:11 PM
2678	They do NOT work in the morning. I am a barista and cannot get to my work using metro buses currently.	11/7/2014 5:08 PM
2679	Route 41: Great service. Route 5: Takes to long from north of 105th Street.	11/7/2014 5:05 PM
2680	I wish we had better service from capitol hill to Southcenter Mal	11/7/2014 5:04 PM
2681	There is a huge bottle neck getting out of Seattle in the evening. I would gladly take light rail to the street car and then from the end of the street car catch a bus to Eastlake if all the systems were more frequent and reliable. The 70 to Eastlake is duplicative of both the light rail line and the street car. Also ideally there should be a policy during snow days that the street car line be car free. The street car could be moving more people during snow storms if it weren't caught in traffic. When light rail opens, I think the 70 should be redirected to either the Capital Hill or Husky station -- it should not bother going downtown at all. It should connect the street car to light rail stations and that's all.	11/7/2014 5:01 PM
2682	Not frequent enough, too slow and not enough Night Owl service.	11/7/2014 4:54 PM
2683	I can eventually get where I need to go, but there are a number of problems depending on the day of the week and time of day that I attempt to go there.	11/7/2014 4:49 PM
2684	For my commute (2512 E Madison St to 500 4th Ave), taking the bus takes 30 minutes. In contrast, I can walk the route in 33 minutes. So, I rarely take the bus. This is because none of the route near by home (11,8,12,43,48) go to the south portion of downtown. The best current options are either 1) take the 11 to Westlake Center and transfer to another route heading south or 2) walk 5-10 minutes to a stop served by route 12, then walk another 5-10 minutes downtown from Madison St to James St. I'd really like to see a bus that goes from E Madison St & 19th Ave to James St & 3rd Ave.	11/7/2014 4:41 PM
2685	For the most part. It can be difficult to get to certain places just by bus, and it's very time consuming.	11/7/2014 4:34 PM
2686	Depending on my time and destination, I walk, use the bus, or drive. They all get me where I need to go with varying advantages and conveniences.	11/7/2014 4:31 PM
2687	No, since of the recent cutbacks. I live along the lake in Leschi, am 64 and retired. I do audit courses at UW under their ACCESS program for seniors. The get to a bus now any time other than during rush hour on weekdays, I would need to walk up a very steep hill through Frink Park to the #14 or a 20 minute walk to Madrona for the #2. I will not be able to do this in bad weather and am not sure how often I would be able to walk up the hill. What I have been doing is driving to a bus stop, which is insane in this day and age, especially in Seattle. If the #27 at least ran once or twice during non-rush hours, I would be able to adjust my trips accordingly. Alternately, how about running a small shuttle service 2-3 times a day along Lake Washington from Seward Park to the # 2 at Madrona Park ?	11/7/2014 4:28 PM
2688	Yes, but too slow and unreliable.	11/7/2014 4:27 PM
2689	YES!	11/7/2014 4:19 PM
2690	They get me there, but the schedule is horribly unreliable and I'm often late or give up and drive or ask someone to pick me up	11/7/2014 4:18 PM
2691	Cross-town connections (east-west; Ballard to anywhere but Downtown as examples) are slow and unreliable. I think transit last whenever I take a trip that does not include Downtown Seattle as one of the trip ends.	11/7/2014 4:15 PM

2692	Transit options work very well for me in Central and Downtown Seattle, although route # 11 is very unreliable. But getting anywhere on the Eastside is challenging and takes 2-3 buses and a long time, especially on weekends. There are also patches of Seattle that are not sufficiently covered by public transit, such as the waterfront or some parts of SODO.	11/7/2014 4:15 PM
2693	yes	11/7/2014 4:13 PM
2694	For the most part, although they can be very crowded and late.	11/7/2014 4:12 PM
2695	It is very time consuming to go from Fremont to capitol hill by bus, even with a light rail connection the 40 is too slow and infrequent.	11/7/2014 4:11 PM
2696	Downtown is good; but Pioneer Square area takes too long	11/7/2014 4:11 PM
2697	They do, but the speed is less than what I would prefer due to the meandering routing of the 60	11/7/2014 4:11 PM
2698	Kind of. All commuter buses are packed and the train is also packed during peak commuting times. I've been passed by full buses many times. Delays and unreliable/chronically late buses are also an issue.	11/7/2014 4:10 PM
2699	yes, but slowly,with transfers	11/7/2014 4:09 PM
2700	Route 25 does not run nearly often enough and is rarely on time! Route 49 is very slow with all the stops on Capitol Hill and is not always on time!!	11/7/2014 3:59 PM
2701	On the whole they work fairly well. I wish there was an easier way to get from Northgate to Capital Hill. I typically avoid short transfers where I have to wait as long for the bus as it would take to walk the length I need to travel. I end up walking up the very steep hill from some stop in Downtown Seattle rather than wait 15-30 mins for a bus... Walking is healthy, but transfers can be very time consuming for those who may not be physically capable I love catching the 41 downtown. I will do anything to avoid having to drive/park downtown. The 41 is wonderful (even if sometimes quite overcrowded).	11/7/2014 3:56 PM
2702	Yes, though sometimes (depending on time of day) there is standing room only on the 3 or 4. The 25 is very infrequent	11/7/2014 3:55 PM
2703	Pretty much.	11/7/2014 3:53 PM
2704	Yes, except it's not yet practical to get to the airport from my Lake City house	11/7/2014 3:49 PM
2705	They are rare and not frequent enough. There needs to be more metro, or more express buses. They are almost never on time. This is ok if it is a bit late...I DON'T MIND BEING A FEW MINUTES LATE. What is UNACCEPTABLE is when buses leave EARLY!!! Buses leaving early is the reason I got rid of my U-Pass.	11/7/2014 3:46 PM
2706	I find it difficult to get from my home in Maple Leaf, to my work at SLU. I usually take the 77, then walk from Westlake or Convention Place to SLU, but that's a pain in bad weather. The SLU Streetcar service is slow and too unpredictable. Also, after 6:25PM my options for getting home are limited: the 73 runs every 30 minutes (every hour after 8PM) and is slow (45 minutes from SLU to home).	11/7/2014 3:45 PM
2707	Mostly the buses work well. They are too crowded and schedules are unreliable around rush hour so I avoid those times as much as possible but can't always. I wish the water taxi would run during the daytime in winter.	11/7/2014 3:45 PM
2708	Generally, but there are definitely places I avoid because transfers are involved or the walk from a bus stop is far or involves steep climbs. Ideally I wish Seattle had more direct neighborhood-to-neighborhood connections and express routes rather than having to go downtown and make transfers. I wish there was more northwest-to/from-southeast coverage through capitol hill and the central district. I hate having to make a five minute drive and deal with parking just to get from one end of my neighborhood to the other, hills make it challenging to bike the route, but I've found because of transfers and waiting, taking the bus is not necessarily faster than walking - which can take 30 minutes or more.	11/7/2014 3:42 PM
2709	Sometimes the routes on 31,32 are not reliable time wise ST556 is very good	11/7/2014 3:36 PM
2710	Need service in 12th Avenue corridor.	11/7/2014 3:36 PM
2711	Transit works well for some things I do. If I want to go to a library, that is usually pretty easy to do. Also, going toward the university of Washington or to lake city are pretty easy to do. Downtown is easy to accomplish as well, though it takes at least 40 minutes and usually an hour. Most other destinations can be done by bussing, but are not realistic. I'm not going to spend about 1.5 or even 2 hours for one-way travel for most places.	11/7/2014 3:35 PM
2712	No, bus routes are not comprehensive - they miss spots where I'd like to go. Buses come to stations too infrequently. Often if you just miss a bus, you have to wait 20-30 minutes for the next one. It makes buses impossible to rely on, and I end up using Lyft or Car2Go because I need to be able to get places quickly.	11/7/2014 3:33 PM

2713	My transit options work, but service is pretty sparse before 7am. I can get around by bus easily, but of course I'd like better connections to make my trips faster. However, I understand with Seattle traffic, not even the buses can be on time.	11/7/2014 3:33 PM
2714	For the most part, yes. I purposely choose my apartment in the U District to be on fast and reliable transit, and only work at places accessible by bus/train. Best: downtown to/from everywhere, especially Capitol Hill/U-District Fine: Capitol Hill or Greenwood to/from U-District. Harder: Seattle Center/Lower Queen Anne/Ballard/Fremont to/from U-District Not really possible: Magnolia, West Seattle to/from anywhere except downtown I'm always surprised at how hard it is to get to the Seattle Center by bus or bike. The recent work on Mercer seems to have make things worse and not better.	11/7/2014 3:25 PM
2715	My main route to work (3 or 2) doesn't run frequently enough during the day - I have to leave early in order to get to work on time, making walking an option that is often faster than the bus. The route 8 would be great if it ever ran on time - but the jog it makes around yesler/jackson always makes it late. That route should continue straight on MLK Way.	11/7/2014 3:21 PM
2716	Love it, it needs more funding. More frequent rides, more buses with more space. They get me usually pretty close to where I need to be, except in North Seattle-Ballard, Wallingford, Fremont. I have to walk a bit too far there.	11/7/2014 3:20 PM
2717	ST 545	11/7/2014 3:13 PM
2718	During peak hours, no problems, otherwise, it takes twice as long to get downtown. Buses sometimes don't come, which is difficult if you are planning based on when the bus should get you to your destination.	11/7/2014 3:08 PM
2719	Only somewhat - could be much better.	11/7/2014 3:05 PM
2720	Biggest issue is the inability to accurately track and rely on service. This would dramatically increase my use of public transit.	11/7/2014 3:02 PM
2721	I miss the 30 for regular service. Otherwise great	11/7/2014 3:02 PM
2722	I would rate transit options for my usual destinations a B (if I could get to Alaska Junction with greater frequency, it'd be an A). Reliability and frequency seem to be in greatest need for Seattle transit.	11/7/2014 2:55 PM
2723	Not at a speed I find tolerable. Transit tends to be so slow, crowded and uncomfortable that I ride my bicycle whenever I can. I would very much like high quality transit that was not miserable to ride and I keep voting to raise my own taxes to pay for more transit in the hopes that high quality transit will someday be delivered.	11/7/2014 2:54 PM
2724	I chose to live near major bus routes so I could get most places by bus, as I don't drive. There are places I don't go to often because I can't get there easily or quickly by bus, especially at night and on weekends when the frequency drops and when transfers are required. Trips from one neighborhood to another, like Ballard to Capitol Hill, can take an hour or more by bus and require multiple transfers. I love taking light rail but it doesn't go to my neighborhood.	11/7/2014 2:50 PM
2725	They work well for me in general, but getting to Ballard is time consuming and delays are a pain.	11/7/2014 2:39 PM
2726	Mostly.	11/7/2014 2:39 PM
2727	Mostly, I often walk or bike when traffic slows down the system.	11/7/2014 2:35 PM
2728	work well. get where I want/need to be. good alternative if car is not available - can still get there via bus.	11/7/2014 2:35 PM
2729	Mostly, yes.	11/7/2014 2:34 PM
2730	Great	11/7/2014 2:30 PM
2731	bus times are unreliable costs a lot in time to transfer I have to be creative with combining walking, driving and busing to keep my commute to downtown under an hour	11/7/2014 2:23 PM
2732	No, I must drive and park on a residential street about 7 min from my house to be able to connect to a bus to get me to work. Buses are frequently late	11/7/2014 2:19 PM
2733	Yes. I love transit. I wish I could give you more money to build out more transit with 100% right of way. Yay link!	11/7/2014 2:11 PM
2734	They don't work that well. I have to walk long distances to get to a bus or other transit mode. The buses don't come often enough. They don't go many places I would like to go. Rush hour buses are packed and sometimes don't even stop, especially in bad weather. Overall traveling by bus is really inconvenient and unpredictable. It takes too long. Driving a car is faster and more reliable.	11/7/2014 2:11 PM
2735	Pretty much -- they're great... just need to be more frequent.	11/7/2014 2:03 PM

2736	The Tukwila Park and Ride goes to Downtown Seattle through the 150 route however, it takes a long time to commute to work. The Link Light Rail serves those who live closer to the station.	11/7/2014 2:02 PM
2737	They work pretty well, just depends on need or time of day.	11/7/2014 2:00 PM
2738	I find that transit works to get me between major neighborhoods (Ballard, Cap Hill, Downtown, U-district, etc...) however I find that there are not enough express services that bypass the core inner neighborhoods like Eastlake on their way to say South Lake Union. The 71,72,73 express being major and welcome exceptions. An expansion of the 26 express or a 16 express would be quite welcome as well. In the evenings or for trips across major transfer points I find myself using Uber or Lyft to expedite travel or bypass the friction caused by transfers. I try to avoid transfers at all costs in the evening and sundays.	11/7/2014 1:56 PM
2739	Yes	11/7/2014 1:51 PM
2740	Most of the time i avoid them because they are too slow	11/7/2014 1:42 PM
2741	Vanpool is great!!!	11/7/2014 1:35 PM
2742	Yes, the current transit service is good although conections could be better, particularly between the Eastside and non-downtown destinations (e.g. Fremont). Also, frequency needs to be higher, for example, the 271 which is a very important route is hourly way too early, and it ends at like 10 pm on Sundays.	11/7/2014 1:34 PM
2743	I am unwilling to take the bus places where I have to transfer, so I just drive there instead. The only places where I can really go directly are the UW, downtown, and Northgate.	11/7/2014 1:32 PM
2744	Yes. The 316 is a perfect route for me.	11/7/2014 1:31 PM
2745	Yes but sometimes 2 or 3 transfers and up to a mile of walking. The waits between buses can be 40-60 minutes as most of my buses run once every 30-60 minutes.	11/7/2014 1:29 PM
2746	Very good - except U Village	11/7/2014 1:25 PM
2747	Yes, but slowly (Metro) or expensively (rideshare)	11/7/2014 1:25 PM
2748	Most of the time	11/7/2014 1:25 PM
2749	The route 71 is the bus that I take most frequently. It has been hopelessly overcrowded for years. It gets me where I want to go, but I have to be careful not to make the mistake of trying to board an outbound 71 at Westlake tunnel station downtown, because it is often so overcrowded by the time it gets to that stop that the driver can not take on more passengers. Metro has been ignoring this problem for years. Why?	11/7/2014 1:24 PM
2750	Great usually. Very crowded, but the routes run frequently so I'm rarely waiting for too long.	11/7/2014 1:23 PM
2751	I can eventually get where I need to go, but it frequently takes up to an hour and three buses -- and that's just to get a couple of miles. Getting east/west is horrible -- downtown and UW are the only places it's relatively easy to get to without taking a ridiculous amount of time.	11/7/2014 1:22 PM
2752	Difficult connections from Capitol Hill to Ballard/Fremont. Travel time is far higher than via auto. Current downtown to UW travel time is very unreliable during peak, but will be solved with Link. Denny Way important transit corridor, but routinely unreliable from auto congestion	11/7/2014 1:17 PM
2753	They only work because I leave at 6 AM and get home late (8:30 PM). If I were to commute during normal rush hours, I would be on the road forever with bus stuck in traffic. At night I take one bus (48) and then walk a mile home because I don't want to wait at the bus stop because I never know how long I have to wait. Too often I notice buses back to back and then it appears that sometime a bus just simply does not show.	11/7/2014 1:16 PM
2754	I can't get to Kirkland, Issaquah or Lynnwood for Dinner and home and I'd like to be able to do that, If I could get to these location I could get by without owning a car. I'd like to be able to get between Seattle and Bellevue off peak and late night. We need more Late night buses on friday and saturday night so people have options more than risking driving drunk or not get home or pay alot of money to a tow truck operator.	11/7/2014 1:14 PM
2755	Yes but often very slowly.	11/7/2014 1:13 PM
2756	Yes, they work in general. I take the bus to and from work every weekday and take it for many personal trips in the evenings. It is difficult for me to use transit on the weekends since the schedules are so reduced (especially Sunday).	11/7/2014 1:02 PM
2757	Yes, but they're a bit slow. They also don't run regularly enough late night.	11/7/2014 12:58 PM
2758	Since the 47 was eliminated, no. When it ran, yes.	11/7/2014 12:55 PM

2759	They work pretty well, and frequently get me where I'd like to go.	11/7/2014 12:48 PM
2760	I primarily use the bus, supplemented with my car. I infrequently use car2go when I can use the bus in the morning and am uncertain of my time off. The fastest bus routes for me require a 5 - 10 block walk at both ends of the ride. I typically only use the bus to go to work or infrequently downtown. It works well for both.	11/7/2014 12:47 PM
2761	Transit works very well now for express service. Midday buses are no longer available to me. this is very disappointing	11/7/2014 12:47 PM
2762	They do, but they're slow, and multiple connections with long wait for next run makes using transit less reliable	11/7/2014 12:46 PM
2763	NO. Hurry up and finishing building the light rail up to Everett. I have only used the light rail once, to come back from the airport, and it still involved a bus transfer and significant walking. Now that I have children, I would NEVER use it again in its current form.	11/7/2014 12:43 PM
2764	Light Rail is the best. More. More. More. Buses are okay, but often unreliable and infrequent. Streetcars are pretty meh and would work much better with dedicated lanes.	11/7/2014 12:41 PM
2765	I would like better connections from Capital Hill to Benaroya Hall, Seattle Art Museum, Ferry Terminal	11/7/2014 12:40 PM
2766	Most of the time, but often late, especially the 8	11/7/2014 12:36 PM
2767	Yes	11/7/2014 12:34 PM
2768	yes, but there's room for improvement As a European, who spent most of her life taking buses, I'm surprised how slow the buses are here. There are too many stops, sometimes it's just every 2 blocks (e.g. check how many stops are located on 23rd in Montlake). Back in Europe you would not be able to see the next stop. I undersatand the convenience factor, but if the buses are so slow, who would be motivated to leave their car in the garage and spend 2-3x more time on the bus.	11/7/2014 12:33 PM
2769	Yes, because I plan the route for practical aspects.	11/7/2014 12:33 PM
2770	They get me to where I want to go.	11/7/2014 12:27 PM
2771	Often, but timing is lousy as buses can easily be 15 minutes late (or exactly on time) at my Roosevelt/56th stop, making connections really bad. If my boss wasn't cool with me not getting there on time, I couldn't commute by bus.	11/7/2014 12:26 PM
2772	Not very well. I have to transfer to get anywhere. And the buses are late and I wait forever. I used to have a bus that takes me directly from downtown to home without much walking. It was the 79. It is now long gone. I am afraid the 48 will be taken away when Link light rail comes to Roosevelt. Then I would not be able to get to church.	11/7/2014 12:25 PM
2773	I can't use transit, so my wife and I carpool. No transit does not get me where I want or need to go.	11/7/2014 12:19 PM
2774	They work well, though bus routes are often overcrowded.	11/7/2014 12:18 PM
2775	They get me close enough to where I need to go, and on time.	11/7/2014 12:16 PM
2776	Currently all of the options work well for me however getting out of downtown at rush hour can be slow	11/7/2014 12:14 PM
2777	Pretty well. I'd love a direct route from Northgate to Capitol Hill, 24-hour service to Sea-Tac (maybe extend owl 124 trips to Sea-Tac station?), and would love to see loop routes like the 10, 11, 12 connected to other routes/each other to reduce the hassle of transferring.	11/7/2014 12:11 PM
2778	Generally, they work well, particularly from one hub to another. However, using public transportation to get around on Friday/Saturday/Sunday is difficult and I don't use it if I go out.	11/7/2014 12:10 PM
2779	Taking two buses, I can get almost anywhere I need to go. On one bus, the Fremont/Ballard to Broadway/Capitol Hill trip is difficult since the 43/44 uses 23rd Ave instead.	11/7/2014 12:05 PM
2780	Too slow, inconsistent arrivals.	11/7/2014 12:01 PM
2781	Yes. Routes 74 & 76 are great routes to quickly reaching downtown during peak periods. The biggest delay is caused by slow-downs in the tunnel.	11/7/2014 12:00 PM
2782	I had to discontinue using Metro because of my inability to reach the closest stop which is in the middle of a very steep hill.	11/7/2014 12:00 PM
2783	Very Good, accept for evening events.	11/7/2014 11:59 AM
2784	The 74 is very convenient for me - bus stops near my home and delivers me to tunnel near my work.	11/7/2014 11:58 AM

2785	they work pretty well and get me where I want to go.	11/7/2014 11:57 AM
2786	Yes they work good	11/7/2014 11:55 AM
2787	The transit options usually work great for me. All the routes are in place to get me to most places I want to go without a transfer. Sometimes the routes are not reliable though and show up too late.	11/7/2014 11:54 AM
2788	Yes, but it's harder on Sundays	11/7/2014 11:52 AM
2789	They work well	11/7/2014 11:45 AM
2790	yes	11/7/2014 11:43 AM
2791	They get me where I want to go, but with less frequency than I'd like. I am curious about how Wallingford's lines will be reconfigured when Link gets to Husky Stadium.	11/7/2014 11:40 AM
2792	I walk - the most reliable.	11/7/2014 11:40 AM
2793	I end up walking to work because transit options are not effective in my neighborhood.	11/7/2014 11:30 AM
2794	Metro Bus for work. Easy commute now but when looking for a job, the #1 thing is whether there is an easy and short commute.	11/7/2014 11:28 AM
2795	to cut time or too cold to walk or too rainy	11/7/2014 11:26 AM
2796	Slowly	11/7/2014 11:25 AM
2797	I often walk because the buses have to compete with too many single-passenger vehicles clogging up the streets.	11/7/2014 11:21 AM
2798	Barley functional to get to downtown. virtually worthless for off peak rides, given headways and speed. I live in a neighborhood just north of u village. Peak rides are crowded and slow.	11/7/2014 11:20 AM
2799	good	11/7/2014 11:20 AM
2800	Nope. Not during my commute time. Makes it inconvenient.	11/7/2014 11:18 AM
2801	There are lots of places I don't go because it's too time-consuming to go there, or the transit options for the return trip are so paltry in the later hours that I don't want to risk having to stand around outside for 1/2 hour in winter waiting for the next bus.	11/7/2014 11:17 AM
2802	25 is currently a direction shot to downtown.	11/7/2014 11:15 AM
2803	I travel from 25th and John to Montlake for work. The 43 or 48 are my route choices, and they seem to work fine. However, I am frustrated that the headways are not more offset so that instead of the 43 or 48 arriving within a couple of minutes of each other, they are separated to create evenly spaced headways, and potentially less time waiting at the stop.	11/7/2014 11:14 AM
2804	They get me where I want to go for the most part.	11/7/2014 11:14 AM
2805	they work, when there are bike carrier spots open on metro and ST buses.	11/7/2014 11:05 AM
2806	Mostly. The best new connection is Pronto to Dexter/Denny where I can catch the 26/28 to fremont.	11/7/2014 11:03 AM
2807	For the most part, but I need more late night options to get home (northgate) from Columbia City Theater when I work there. I also need transportation to and from Japanese cultural performances. Currently I have to rely on other participants for rides. but my 9-5 job is taken care of. I can easily get a 41 to downtown then the D to ballard for work. BUT the 41 is always SEVERELY crowded. Drivers are constantly turning people away or not stopping at later downtown stops on the way to northgate. I have taken to walking towards the ID to catch the 41 earlier in the route so I know I can get on the next bus coming.	11/7/2014 11:02 AM
2808	Generally works well. Look forward to U-Link because 71/73/74 buses are crowded and not always reliable.	11/7/2014 11:02 AM
2809	For commuting at peak hours (between Pioneer Square and Sandpoint), I have lots of great options - 74 direct, 41 + 75, 71/2/3 + 74/30/75, and 255 + 43/48 + 75. It's usually an hour or a bit more than that each way. Would be great to have those routes go more often in off-peak hours. For weekends the buses are rare enough to be useless. I go to the farmer's market in the U District every saturday morning but never take the bus.	11/7/2014 11:01 AM
2810	Yes, but not reliably, or quickly (for public transit)	11/7/2014 10:57 AM

2811	My transit options work pretty well for my daily commute (Metro bus), but less so for recreational evening/weekend travel between neighborhoods. It is very hard to travel from Capitol Hill to the Central District, especially at night, and that has significantly reduced the amount that I go out and the money I spend on food and entertainment because that money is redirected toward more expensive private transit options (carsharing, taxis) and parking fees for my car.	11/7/2014 10:54 AM
2812	No. I would like to take public transportation to the Sounders games, and do during afternoon games, but night games are too slow. It's faster and easier to drive. And the connection from Westlake Station to busses is abysmal!!!! having to walk two and half blocks to get to a bus going back up the hill is terrible.	11/7/2014 10:54 AM
2813	I am generally able to get where I am going EXCEPT when I want to go to the Seattle Center/Lower Queen Anne area. In that case I often end up walking rather than wait for the exceedingly unreliable 8, OR go downtown from the U-district and come back via 3rd.	11/7/2014 10:49 AM
2814	Yes, but I have guests from out of town that would love a one bus option From Capitol Hill where I live to the Woodland Park Zoo & Ballard/Fremont.	11/7/2014 10:48 AM
2815	They do but they can be slow, infrequent or unreliable. Buses could come more often and stick to schedule. Especially cross town buses like the 8 which if often late. Also more frequent later night routes across town would be great. Getting from Ballard or Columbia City to Capitol Hill late night is tough.	11/7/2014 10:47 AM
2816	They do get me where I want to go, but transfers are cumbersome and buses don't come on time or frequently enough.	11/7/2014 10:46 AM
2817	see previous answer...in a nutshell, I can drive for 10 minutes to get to sodo.....or take 2 buses and 45 minutes (with transfers and wait times etc). I prefer to take public transportation, but you can see why I opt for driving occasionally. So technically they work...and I can get from home to work....but really inconvenient as far as time involved	11/7/2014 10:44 AM
2818	Somerimes	11/7/2014 10:44 AM
2819	I can mix and match transit and walking/biking with carsharing and car services. When I had less means and had to rely only on transit and walking/biking, I would avoid certain neighborhoods due to the difficulty or time it took to get there.	11/7/2014 10:41 AM
2820	Both the D Line and the 44 get me to my desired destinations, but they unfortunately are often slow and get stuck in traffic. We should have dedicated full-time, red-paint, transit lanes for both routes. Also, on another note, bus service between Ballard and Capitol Hill is very poor.	11/7/2014 10:39 AM
2821	For the most part, I can get where I need to go, but it takes a long time to get there. I find it difficult to use transit from the Seattle University area to get anywhere other than downtown.	11/7/2014 10:38 AM
2822	Usually, with a higher reliance on driving or uber-type services for neighborhoods other than downtown. Bellevue is still difficult to get to efficiently as well.	11/7/2014 10:38 AM
2823	Yes, but a lot of times buses are crowded, slow, and late which is frustrating	11/7/2014 10:34 AM
2824	Yes. Aside from overcrowding on route 41 at rush hour, works great.	11/7/2014 10:34 AM
2825	They get me where I want to go but rather slowly. It takes me somewhere between 40 mins - sometimes over an hour to get from Othello area to Seattle Central college. It's not that far between the two destinations so it's surprising how slow the commute is.	11/7/2014 10:33 AM
2826	Most of my bus options work well. There are multiple options close by and the busses run frequently. The light rail helps me see my parents in Tukwila, and inversely, it helps them see me downtown and avoid the stress and costs of parking downtown or on First/Capitol Hills. Generally speaking, I live in a transit rich neighborhood, and use multiple modes on a weekly basis. Looking forward to the First Hill line opening so I can have a direct route to Little Saigon, the ID, and Pioneer Square.	11/7/2014 10:30 AM
2827	They don't. So now I bike, or walk 20 extra minutes.	11/7/2014 10:30 AM
2828	Yes on a regular basis. However, my job requires me to be all over the Puget Sound area and the timing precludes use of public transportation.	11/7/2014 10:29 AM
2829	I'm concerned about the lack of transit on the 75th St NE east of 25th ave. I'm also concerned about poorly timed transfer in the university district and the time it takes to go through the U District.	11/7/2014 10:28 AM
2830	Work in Lower Queen Anne. Take the E to downtown, and then have to transfer. Would prefer a nonstop route. Otherwise, I drive by myself and park.	11/7/2014 10:24 AM

2831	generally and eventually.	11/7/2014 10:24 AM
2832	Link is great, although the segment from SODO station to IDS takes an unreasonably long time at crawling speeds.	11/7/2014 10:13 AM
2833	Yes but slow	11/7/2014 10:05 AM
2834	I work at Seattle Children's Hospital and live in Capitol Hill... and I spend about 2 to 2.5 hours a day commuting to work. So yes... I can get where I want to go... but very very slowly.	11/7/2014 10:04 AM
2835	Main problem is that I don't go places at night if I can't get a ride from a friend because there are too many crazy people or scary potential muggers on the bus and at bus stops, such as at Third and Pine, and the waits are too long between busses to feel safe. (The number of crazy people on the bus has dropped noticeably since the Ride Free Area was abolished, but the number of scary robbers is going up.) There are places I like to go in South Seattle, but I won't ride there after dark, which is pretty limiting in the winter.	11/7/2014 10:02 AM
2836	Slower and less dependable than bicycle in the city. Difficult to get to suburbs.	11/7/2014 9:59 AM
2837	They go where I need but are often over crowded causing them to be late and unreliable to get to work on time.	11/7/2014 9:58 AM
2838	Mostly, using a combination of bike and bus. It just takes time. The 8 is the worst route, it is usually slower than using a bike or even walking if you go at the wrong time.	11/7/2014 9:58 AM
2839	44 is slow and unreliable.	11/7/2014 9:57 AM
2840	They work reasonably well. Transit gets me where I want to go, although frequency could be better, as well as reliability.	11/7/2014 9:55 AM
2841	They do except it takes several transfers to get there which can take a long time.	11/7/2014 9:54 AM
2842	For trips to downtown, transit works fairly well. Getting out to Bothell from Wallingford, however, would count as a nightmare for most. The bus ride one way, including transfer, is from 60-90 minutes, and I walk the entire span of Wallingford to get to/from home as it is faster and more productive than waiting for the 44. I am applying for Car2Go just to get across the neighborhood faster. The 512 runs fairly quickly but the 535 does not come frequently. I understand that there's not much buses can do regarding the wasteful use of land out in suburbs such as Bothell. However, there should be at least one transit-only lane cutting east to west somewhere in Wallingford, with signal prioritization.	11/7/2014 9:53 AM
2843	Work pretty well for going to/from the stadiums. There is no bus that I can take to work because there is no CT bus that goes over 228th SE toward WA-9 in Snohomish County.	11/7/2014 9:49 AM
2844	Simple to get from Central District to Downtown (will be better once transit cuts are undone), but there is no direct connection to Capitol Hill, where many local business and community groups meet.	11/7/2014 9:46 AM
2845	I take the bus almost everywhere. It works, but particularly to/from the VA is very slow given the distance. Places we do drive, and wish we could bus in a reasonable time: -- from Capitol Hill to Ravenna/Greenlate (especially the Unitarian Church, but also just the core of the Ravenna neighborhood) -- from Capitol Hill to Georgetown (SANCA - the circus school for kids/adults - has lots of people coming/going every hour and very limited public transit access)	11/7/2014 9:45 AM
2846	Going from E to W in Seattle is time consuming, too many transfers from my home; the 43, 44 is a very crowded and outdated trolley service The 64 runs only in the morning and afternoon, so if I have an app't, it is difficult to either get there or get home When I ride my bike and want to put my bike on the bus, oftentimes there are not enough racks, and the racks are high and difficult to maneuver	11/7/2014 9:44 AM
2847	AM commutes not too bad; PM tend to be long & crowded. Difficult to travel among options. Biking/driving often faster than bus.	11/7/2014 9:42 AM
2848	Yes	11/7/2014 9:42 AM
2849	There are very few seamless connections in Ballard. The most dangerous intersection is at 15th NW and Leary Way where drivers still race through the intersection even when the Pedestrian signal is on WALK.	11/7/2014 9:40 AM
2850	Generally work well. Yes	11/7/2014 9:39 AM
2851	They work well, though more frequent service, esp. outside of rush hour would be helpful. The proposed cuts would have been terrible, though thankfully Seattle voted for transit.	11/7/2014 9:37 AM
2852	Fine for getting from Madison Park to Downtown, would prefer no longer than a 5 minute wait at major transfer points in the CD, CAp Hill and CBD.	11/7/2014 9:37 AM

2853	they don't work very good because the 107 is always running late and I'm always worried about missing the 'Link' lightrail to get to downtown to transfer to get to my destination.	11/7/2014 9:34 AM
2854	Not from my house. I have to drive to a bus stop to get where I want to go. Here are the problems with commuting directly from my home: - too many transfers required - bus service is unreliable - bus service infrequent - bus service isn't offered late - bus between downtown and U-district SO CROWDED	11/7/2014 9:33 AM
2855	They work okay during the weekday/work hours but terrible if I have to shift my hours to half-day starting around noon as I come from Sammamish. If I don't want to drive in the morning, it takes me 80 minutes to get to work (longer commute than by car or by car/bus combination but taking my car off the road and not being irate at drivers offsets the time...but it's getting to be too much time). My transfers are longer now but that is to be expected with the cuts. For the most part, I can find a bus that will get me to where I need, especially on weekdays, in Seattle, and if it is during work hours. Weeknights after dinnertime are more difficult from Downtown though. Weekends are questionable, especially if I do not go to the Downtown Seattle core. I am concerned of my safety and being at a bus stop in Downtown Seattle for an hour is dicey (I instead go to a Starbucks or department store to wait if that happens).	11/7/2014 9:28 AM
2856	I would like to rely on transit, but often the service is inadequate or gets bogged down in the same traffic. Transit options are terrible at connecting the different nodes of our city. It's very hard for me to go from Ballard to Capitol Hill or UW.	11/7/2014 9:27 AM
2857	They do, but they are VERY slow (I rely on the 8)	11/7/2014 9:26 AM
2858	Most of the time, but the buses are always overcrowded and often stuck in traffic.	11/7/2014 9:25 AM
2859	yes	11/7/2014 9:24 AM
2860	Yes	11/7/2014 9:23 AM
2861	Yes -- Route 99 is my first and best option. Please restore year-round all-day service. DSST -- I avoid Westlake because of the open-air drug dealing, menacing men hanging out on Pine Street and at the tunnel entrances, and urination that happens in the tunnel elevators. Please allocate Prop. 1 funding for 24-hr King County Sheriff presence on the surface, and frequent cleaning of elevators throughout the day.	11/7/2014 9:22 AM
2862	Yes, but getting to areas that require me to transfer buses can be time consuming and unpleasant.	11/7/2014 9:22 AM
2863	Yes, would prefer more times or a more accurate estimation of arrivals, though.	11/7/2014 9:22 AM
2864	I don't use transit anymore.	11/7/2014 9:21 AM
2865	They get me where I want to go, but they are slow. Walking is frequently faster.	11/7/2014 9:21 AM
2866	Yes, they usually get me where I need to go.	11/7/2014 9:20 AM
2867	driving 1.5 miles to Northgate Transit Center to commute to Convention Place is SOOO much easier and reliable than walking 5 blocks to stand in the rain at 95th & Aurora to catch the E bus to walk another 5 blocks. But taking the bus is better than driving and then trying to find a parking spot and/or paying big \$\$\$	11/7/2014 9:19 AM
2868	They get me where I need to go, but they are too slow.	11/7/2014 9:18 AM
2869	I get where I need to go, but it is often a frustrating experience. I ride the 44 to/from, from/to Ballard and the UDistrict everyday. The morning commute is OK, because I catch the bus close to the beginning of the route, but the evening commute (between 4:30 p.m. - 5:30 p.m.) is frequently a challenge. The bus often arrives early, so I just miss it. When the bus arrives at my stop (either 45th & Brooklyn, or 15th & 42nd) it is often so full already that I can't get on and have to wait for the next bus. It often takes an hour or more to get home, from the time I leave work until I actually get to my house. I used to use the 48 express, because that was a somewhat faster way to get from the UDistrict to my neighborhood (Sunset Hill in Ballard), but it was cut. This week when I tried to take a regular 48 to get home because I had missed the 44 (it came early again), I couldn't get on the 48 because it was too crowded. Apart from getting to work, I can no longer easily get Downtown from my neighborhood (Sunset Hill) because the 17 service has been cut (only running "peak times" on week days).	11/7/2014 9:16 AM
2870	Yes, but evenings/weekends the half-hour interval b/t buses is often a deal-breaker.	11/7/2014 9:16 AM
2871	I wish that it was easier to get to Ballard and Wallingford.	11/7/2014 9:15 AM
2872	Not really. They get me to work but nowhere else in the city. The D bus is fantastic but it's too far away for 99% of Magnolia to walk to in a timely manner. There needs to be more connections to get there (bikeshare would be perfect).	11/7/2014 9:15 AM
2873	Yes, it's direct, one-bus connection. Frequency and speed is an issue.	11/7/2014 9:12 AM

2874	The timing of transfers are always a problem on bus routes. If a bus is delayed, sometimes significant waits for the connecting bus are extremely long. I tend to use only routes that have 15 minute frequencies or less in making connections. I also use One Bus Away to expedite travel times and connections.	11/7/2014 9:10 AM
2875	The buses are always late and overcrowded, even outside of rush hour.	11/7/2014 9:08 AM
2876	Yes, the routes I use work well for me and get me where I need to go. The primary issue for me is the time it takes to travel across the city via bus. The Frequent stops, slow boarding process, and traffic congestion make bus travel extremely slow.	11/7/2014 9:07 AM
2877	Get me where I need to go, but always on schedule and busses are chronically overcrowded and dirty.	11/7/2014 9:06 AM
2878	Yes but it's a commitment because of tardiness and waits between buses. It generally takes me 45 minutes to get home from downtown to the Madison Valley area. It would be so much easier to drive or take any form of transportation...I've lived in Europe and Seattle is way behind in transportation services.	11/7/2014 9:01 AM
2879	Getting to Captial Hill i(Madison) is very difficult. As is Japanese Garden.	11/7/2014 8:59 AM
2880	The Link to the airport and stadiums is great. It is okay to Columbia City, but still somewhat far from the business district and other places you would want to be. It's rare for public transit to be faster than driving around the city, and only cheaper if I'm trying to park downtown (which I can walk to).	11/7/2014 8:58 AM
2881	They get me there, but too slowly. I use my bike instead most of the time.	11/7/2014 8:55 AM
2882	Yes but not in a timely or efficient fashion	11/7/2014 8:55 AM
2883	Yes, but schedule is not reliable	11/7/2014 8:55 AM
2884	Work great on my commute between Beacon Hill and downtown. Bad for Husky sporting events access.	11/7/2014 8:54 AM
2885	Yes	11/7/2014 8:54 AM
2886	The buses and trains get me where I'm going. It just takes forever and sometimes it's a really uncomfortable or crowded ride. I'm hoping the addition of Link Light Rail will help make getting to work more comfortable.	11/7/2014 8:52 AM
2887	44 is unreliable, slow, and prone to sending a single coach when an articulated coach is needed.	11/7/2014 8:52 AM
2888	Yes.	11/7/2014 8:51 AM
2889	Options generally work, though headways are sometimes long, and buses often get stuck in traffic around rush hour.	11/7/2014 8:49 AM
2890	I prefer to bike because the bus is very slow.	11/7/2014 8:47 AM
2891	The #9 should run on weekends.	11/7/2014 8:46 AM
2892	Generally, yes.	11/7/2014 8:46 AM
2893	Link light rail. It is almost a mile walk to take this option.	11/7/2014 8:45 AM
2894	Busses pass me by WAY TOO OFTEN when they are running "standing room only". Especially when I'm downtown after a sporting event. It's so frustrating to leave the theatre and watch bus after bus pass me by, with an apologizing look on the driver's face. I'm older, alone downtown, not feeling all that safe in the late evening, and busses pass me by. When there are big events downtown, can't you PLEASE run more busses??	11/7/2014 8:44 AM
2895	Yes in the morning and evening but at any other time e.g. non peak hours the number of buses are r few or nonexistent (e.g. 64 & 76)	11/7/2014 8:42 AM
2896	Mostly	11/7/2014 8:40 AM
2897	Yes they do.	11/7/2014 8:39 AM
2898	I use transit options for pretty much everything except commuting to work (for which the trip is dramatically slower and circuitous than the comparable car trip, and requires at least one connection). I'm well-connected to the bus network for all neighborhoods adjacent to mine, and I can get pretty much anywhere else using Uber for point-to-point trips. Link is great, but needs to run more often; I wish I had purpose to use it more, but those days are coming soon.	11/7/2014 8:38 AM
2899	Yes for Microsoft, not for the airport	11/7/2014 8:37 AM

2900	The places I go are often shaped by which busses are easy. Many of the businesses in the prior list are "wish list" and I haven't gotten there in years. When I worked on the East Side, my commute was 1.5 hours each way and that was after turning down jobs the bus just didn't reach. My first housing criteria was available bus lines. With that said, when I shape my life around which bus lines are easy, I do well on a day to day basis. My routine UDistrict and Downtown commute busses work great.	11/7/2014 8:36 AM
2901	yes but it would be nice to have light rail to west seattle--actually not sure why this was not one of the first considerations, considering that so many people use transit in west seattle, and the bridge is so crowded.	11/7/2014 8:36 AM
2902	Yes, but when U link opens, avoid duplicative service(I.E. limit some of the 71,72,73 lines to the U link station) Also, with the Capital Hill station, limit the 43 and the 10 to a new transit center near the link station.	11/7/2014 8:35 AM
2903	Generally, yes. Improved reliability, shorter trips and increased frequency would be nice.	11/7/2014 8:34 AM
2904	car works fine (point to point), but would prefer to make the average 1 hour commute via transit--without changing downtown or in any other often questionable area.	11/7/2014 8:33 AM
2905	To UW yes but buses downtown are a bit out of the way and going to Queen Anne or Ballard is almost impossible with way too many transfers	11/7/2014 8:33 AM
2906	Access to/from West Seattle during rush hour is ok. Alot of folks walk close to a mile to get to the Alaska Junction to catch the 'C' line..More needs to be done to feed the main arterials (small buses that circle the neighborhood ie the #50). Getting morning commuters east of downtown is important.	11/7/2014 8:32 AM
2907	to downtown works	11/7/2014 8:31 AM
2908	for the most part, yes. what i hate is that the schedule is always screwed and buses do NOT arrive on time, 90% of the time. it would be wonderful if buses like the 43 and the 49 traveled down 2nd, 3rd or 4th Ave and south to University or Madison to actually cover where the office buildings are. going into the bus tunnel is not a good use of time so walking (in the rain) is the only option to get those last 3-6 blocks to the office.	11/7/2014 8:30 AM
2909	My transit options work most of the time, except: 1) very long commute, usually an hour or more 2) limited routes when UW classes are not in session (but workers still need to get there!) 3) my route does not exist on weekends or after 6:30 PM weekdays, so can't use it for shopping or other activities 4) lousy coverage during snow days, it may or may not show up, may or may not be alerted to changes 5) other unforeseen schedule/route changes (e.g., traffic problem, blockage, etc.) - may or may not be alerted to it 6) lack of bus shelter	11/7/2014 8:29 AM
2910	Currently, the transit options work well for my needs commuting between Capitol Hill and downtown Seattle. However, our offices are moving to the waterfront in January and the bus service terminates either 1 mile from the waterfront (10, etc.) or .5 mile from the waterfront (#8) but the #8 route is extremely inefficient and slow. It took nearly 1 hour for me to get from Seattle Center to GroupHealth at 15th Ave E and E John St. at rush hour on a Thursday afternoon. It would probably have been almost as fast to walk!	11/7/2014 8:29 AM
2911	Around seattle yes. I commute via car to work since my job is in Bothell and bus options take 2 hours each way while driving is usually 40 minutes at most.	11/7/2014 8:29 AM
2912	There is not a direct link between Seward Park and downtown, reinstating an express, peak-hour route would benefit many and the 34X was always full. Light rail, between Columbia City and downtown, works somewhat well, but there is a need for additional cars as ridership increases.	11/7/2014 8:26 AM
2913	I use the bus but I have at least a 30-45 minute walk from the stop to my job/home. I am over 60 and have a bad knee so I am slower than a young person but it is still quite a hike from 1561 S Alaskan way to the nearest bus stop. I use Light Rail but I have the same input as above.	11/7/2014 8:26 AM
2914	Yes	11/7/2014 8:23 AM
2915	Losing outlying routes makes the system less useful, because I know if I want to I can't get to those places. And my commuting route runs infrequently, so I often find myself using a Lyft or Uber if I'm late in the morning (i.e. my bus has stopped running for the morning). In general I can get where I need to go. Timing is sometimes an issue. As is weather. Or those times I'm injured. And if I carpool with a friend for a few days, it's really easy to get out of the habit of using	11/7/2014 8:22 AM
2916	Commuting to work is pretty good, though the 76 is seriously over-crowded. Using transit outside of the commuting times is not ideal. Bussing home from sporting events is not fun.	11/7/2014 8:22 AM
2917	I use Sound Transit to Redmond every day, and it works just fine. I use 43 and 8 heavily. 8 is usually late, but that's due to heavy traffic on Denny.	11/7/2014 8:21 AM
2918	yes, but not frequently enough and can be too crowded	11/7/2014 8:20 AM

2919	They take significant time to transfer. Over crowded buses mean I cant get on when I need to use the bus. The uncertainty means that I drive most days.	11/7/2014 8:19 AM
2920	Yes!	11/7/2014 8:18 AM
2921	I usually walk when I'm able as I live in Belltown. If I'm going somewhere within the Downtown and it's flat, I'll use Pronto Cycle Share. To get to Capitol Hill or Madison Park, I'll use Metro buses. Points south of Downtown I almost exclusive utilize Link Light Rail.	11/7/2014 8:17 AM
2922	I Metro VanPool to work, which is great. I would like more rail options (ST3?) in the future.	11/7/2014 8:16 AM
2923	Yes	11/7/2014 8:16 AM
2924	I have problems getting to the airport for an early morning flight (anything before 8 a.m.) and end up having to use the Airport Shuttle. Light rail doesn't start early enough in the morning. I have trouble going to and from Madison Park on the #11 and keeping on my schedule for meetings and Dr. appointments. The buses often run every half hour; going east they are simply late; going west the bus too often doesn't show up. If I'm going to the far end of Broadway, it can take up to 45 min. by bus (have to change; this means a wait), whereas I can walk in about 25 minutes--I've simply given up on the bus.	11/7/2014 8:15 AM
2925	As a rule, yes. It is extremely helpful to have Trip Planner and One Bus Away.	11/7/2014 8:15 AM
2926	They work reasonably well.	11/7/2014 8:14 AM
2927	I would so welcome the schedules posted on poles near bus stops be maintained so I can be assured the Metro bus is in fact running and expected at a particular stop.	11/7/2014 8:12 AM
2928	Mostly	11/7/2014 8:09 AM
2929	They work ok. I actually no longer have a bus for the last mile of my commute to work north of UW Bothell So now I ride 3 busses and walk a mile to get to work. It takes about 1.5-2 hours	11/7/2014 8:07 AM
2930	Because of the availability of routes 8/11 and 43/48 with a block of me, I now seldom drive my car. Public transit is easier to take, especially to areas where parking can be a hassle.	11/7/2014 8:07 AM
2931	Yes - mostly they do. BUT, understand that I PICKED WHERE I LIVE to be able to use the systems in place AND avoid as much traffic as possible.	11/7/2014 8:04 AM
2932	Mostly, sometimes transit doesn't go where I need to go (across town, not downtown), but I can get around without owning a car by using other modes (car share, bike share)	11/7/2014 8:03 AM
2933	I don't care for the streaming busses on 3rd & Pike - crowds, homeless, dirty sidewalks, marijuana. I take an express bus to get out of there in the evening. I used to like getting on a bus in my neighborhood that would go all the way to Broadway, then I would walk to work. I would like to bus to a grocery store in my neighborhood and then bus back again.	11/7/2014 8:03 AM
2934	Honestly, buses are often slow, unpleasant, and costly compared to the alternatives. Anything under 2 miles is often faster to walk than wait for and then take a bus. During rush hour when the 10 is full and delayed, anything under 4 miles is often faster to walk (meaning walking all the way to downtown is faster and more pleasant than taking the bus to downtown from Capitol Hill). For anything requiring a transfer (like Capitol Hill to Ballard), biking is far faster than taking the bus. Finally, for a family of four, driving and parking downtown is the same price as round-trip bus tickets and a lot faster and more pleasant. These are hard problems to solve, but one thing I think Metro could consider is surge pricing. If it was free or near free to ride the bus outside of peak times, I'd ride it more and I bet other people with flexible work schedules would shift their work and meeting hours outside of rush hour times. Since Metro's costs almost certainly are entirely driven by trying to provide needed capacity for peak times like rush hour, it might cost very little to shift to a surge pricing model.	11/7/2014 8:02 AM
2935	I have a 15 minute walk on both sides of a 30 minute bus ride. I would really appreciate a way to cut down one or both of the walks.	11/7/2014 7:59 AM
2936	Yes, mostly Some parts of campus remain difficult to access	11/7/2014 7:58 AM
2937	wish they ran more often ON WEEK ENDS	11/7/2014 7:58 AM
2938	Ok but too crowded during rush hours	11/7/2014 7:56 AM
2939	They go where I want them to go, albeit slowly. Boarding at Broadway/John, my frequency is actually cut in half, as the 43 and 49 don't share any stops. I would much rather have an ultra-frequent connection to the new Capitol Hill Station rather than a less frequent but direct one-seat ride. My #49 would probably be better off as a 5-minute headway crosstown corridor combined with Route 60, as mentioned in Seattle Transit Master Plan.	11/7/2014 7:55 AM

2940	Capitol Hill to Downtown and back works well. It was better when the 47 was running. U district from Capitol Hill works well	11/7/2014 7:52 AM
2941	It works, but could be better I can always get where I want to go, it's just a question of how long it will take.	11/7/2014 7:48 AM
2942	OK but the 70's busses are way too crowded	11/7/2014 7:47 AM
2943	I can get most places. Getting from Ballard to Capitol Hill is a pain. I find that I just won't go to places if buses don't go there or if it's difficult (i.e., a long ride or transfer(s)).	11/7/2014 7:45 AM
2944	No. To get to work I gave a 10 minute walk either from where I get off the bus or to get a bus that takes me close. Often the buses leaving downtown in the evening are delayed, the schedule of the 12 means nothing! It's hard to go anywhere other than the central downtown core.	11/7/2014 7:41 AM
2945	yes	11/7/2014 7:41 AM
2946	They work for the most part.	11/7/2014 7:40 AM
2947	Generally use for getting to work downtown, so yes.	11/7/2014 7:39 AM
2948	It's hard to get from Rainier Beach to Capitol/First Hill on evenings and weekends.	11/7/2014 7:39 AM
2949	I wish the light rail went right to the terminal. As one of the many new residents of this city, we think "what was this city thinking" huge transit fail	11/7/2014 7:38 AM
2950	They do. Since we also have a car, I use it when it works better or is competitive with driving. When light rail and the street car come to the Hill I think that will be even more often. Like most cities, driving in Seattle is not terribly compelling or convenient, so I look forward to a fully built out system that can get me easily all over the city. Much prefer a rail option to bus, since the bus makes me car sick, but I do take the bus to/from downtown nearly daily. Capitol Hill to Beacon Hill is a pathway I would look at more. The street car will help some but does not go all the way to Beacon Hill. Same with the protected bikeways. Light rail is not competitive for that route - the trip will take practically as long as walking. A lot of our friends have moved from Capitol Hill to Beacon Hill, so we're back and forth often. It's a short trip, so it always feels silly to me to drive. I expect there wasn't so much back and forth between the neighborhoods in the past.	11/7/2014 7:36 AM
2951	I commute to work, visit friends, and shop locally by bus, I don't drive.	11/7/2014 7:36 AM
2952	Yes. I am very much looking forward to the Light Rail and the Streetcar for more options for transportation that would be faster depending on where I am going.	11/7/2014 7:32 AM
2953	No. There are too many routes being shortened. As I said in my previous comment. I shouldn't have to make a transfer during a simple 2-mile commute.	11/7/2014 7:29 AM
2954	They work ok.	11/7/2014 7:29 AM
2955	yes but you have to walk further to make connections an I am disabled	11/7/2014 7:27 AM
2956	More or less.	11/7/2014 7:27 AM
2957	They usually get me where I want. I would like to take the bus more, but multiple buses and infrequent arrivals make it much less appealing.	11/7/2014 7:24 AM
2958	Most places.	11/7/2014 7:20 AM
2959	Transit options are fairly efficient and useful. Some of the stops and routes are frightening (crime, primarily) and so I tend to change my plans to avoid specific routes or connections.	11/7/2014 7:16 AM
2960	They do, generally. Sometimes a bit of a walk is involved, which I'm fine with.	11/7/2014 7:15 AM
2961	Mostly, but would like the 316 to have better operating hours, and getting from Greenlake to the airport is way too slow via bus.	11/7/2014 7:11 AM
2962	Yes, but access is extremely limited to Wedgwood after 6PM when the 64 no longer runs along 35th. I am forced to take either the 71 or 76 which wind through the View Ridge neighborhood. It seems like it would serve more people if there was still a 64 that ran at night (less regularly of course). It would allow people to work later and still get home in a decent amount of time or take a bus to evening activities instead of having to drive.	11/7/2014 7:07 AM
2963	Eventually. Walking is often quicker than bus transit, quite honestly.	11/7/2014 6:59 AM

2964	Close. My biggest concern is with the Link Light Rail not operating early enough downtown in the morning to get to an early flight (at 6am). Currently the route "begins" somewhere at the stadiums, so I have to take a taxi to get to the Link.	11/7/2014 6:58 AM
2965	I want direct from lower north capitol hill to sodo. It takes me 45 min to your or more each way with bus to llight rail or busway and back. The 21 is too slow when there is stadium traffic.	11/7/2014 6:52 AM
2966	Yes	11/7/2014 6:51 AM
2967	I am lucky to live off of the 8 and 43 busses which take me most places I want to go. If these were not available, however, I would feel at a loss for reliable transportation.	11/7/2014 6:50 AM
2968	I can't use the 197 route currently as there are no seats by the time it gets to my park and ride and at 62 years old it is too hard for me to stand on the bus to and from work.	11/7/2014 6:48 AM
2969	72 doesn't come often enough and is slow. When the Northgate link is open, it would be good to have a quick way to get there from Lake City Way & 115th.	11/7/2014 6:48 AM
2970	Works reasonably well, but very crowded at peak hours and slow through the U District. Somewhat long walk from the Westlake station to my Belltown workplace, but not worth waiting for a transfer.	11/7/2014 6:42 AM
2971	Yes, the buses currently work okay for me however Light Rail comes much for frequently so that is why it makes sense to link the 101 to Light Rail in the south end and the 43 and 8 to Light Rail on Capitol Hill. Metro should pressure the City of Seattle to convert Pike and Pine on Captiol Hill into one-way streets as a continuation of how they are downtown in order to make traffic and especially bus transit more efficient.	11/7/2014 6:36 AM
2972	Yes	11/7/2014 6:33 AM
2973	The #66 Bus stops one block from my home and one block from my work. It is VERY convenient. I commute 5 days a week. Sometimes I take it to the Ferry terminal or to Northgate on weekends. It is VERY convenient for those destinations as well. I hope, when the North Link is completed, the 66 will stop at or near the train station planned for NE 65th and otherwise keep it's current route.	11/7/2014 6:26 AM
2974	They have gotten better since last year, i.e 71x is more reliable.	11/7/2014 6:25 AM
2975	I cannot get to Seattle Childrens Hospital from North East Seattle in an efficient way. Taking the bus is double the drive time.	11/7/2014 6:21 AM
2976	Yes but they take a long time. The rte 3/4 is so slow through First Hill. 27 doesn't run frequently enough.	11/7/2014 6:18 AM
2977	Great to downtown. Not so good for east west. My job is moving locations to MLK and Othello and there are not good buses running from my house to Husky Stadium light rail. Hope when it opens, buses will run on 25th going south to get to light rail	11/7/2014 6:10 AM
2978	Yes but trend to be very crowded during the commute hours.	11/7/2014 6:08 AM
2979	I take just one bus from sand point to university district (75) but 3 buses and up to 3 hrs to get to sammamish / issaquah	11/7/2014 6:06 AM
2980	Overall they work well. I miss the 243.	11/7/2014 5:51 AM
2981	good	11/7/2014 5:51 AM
2982	They get me where I want to go eventually but sometimes very slowly.	11/7/2014 5:20 AM
2983	Most of the time yes. But have problems between the times of 9 pm -7 am travel times.	11/7/2014 1:11 AM
2984	Usually some don't match up well and is sometimes quicker to walk than ride the bus	11/7/2014 12:44 AM
2985	In the summer, okay, because the weather is nice and a 25 minute walk to and from the bus stop isn't bad. In the fall and winter, I tend to drive. I don't like to walk in the rain and the cold for that long. Also, the ST550 "Express" to Bellevue is far from express. Stop too many times in the tunnel and stops to many times in downtown Bellevue. Some of the stops in downtown Bellevue are two blocks away from each other. Driving to work, door-to-door is about 25-30 minutes for me, one way. On the 550, that's more like 45-65 minutes. Add a 25 minute walk to the convention place station, and that's an awful commute.	11/7/2014 12:21 AM
2986	since I live in ID, it is convenient for me	11/7/2014 12:04 AM
2987	All my buses are wonderful! Sometimes bus 49 can be too crowded but it is my favorite bus	11/6/2014 11:57 PM

2988	I head to Queen Anne (where my parents live) and the Central District (where I work) the most often from Capitol Hill (where I live). The connections are there, but they're tenuous.	11/6/2014 11:54 PM
2989	The bus gets me where I want to go, but sometimes I have to allow a lot of time for it to do this, and have to plan on doing a lot of walking at either end of the ride.	11/6/2014 11:53 PM
2990	It is challenging to get to Capitol Hill from my location on weekends. On weekdays I can take the 9x but on weekends, especially Sundays, having to take light rail and transfer to 10,11, or 49 can take over 45 minutes.	11/6/2014 11:44 PM
2991	Metro bus, walking are both sufficient.	11/6/2014 11:38 PM
2992	For the most part. It depends on where I'm going. Some areas are more easy to access than others.	11/6/2014 11:23 PM
2993	Yes, though certain times of day (particularly afternoon rush hour ~4-6pm) it is often slow and crowded on the 44. Getting from Capitol Hill to Wallingford / Ballard (and vice versa) takes longer than I'd like.	11/6/2014 11:22 PM
2994	They are slow, undependable, and very crowded. Often work until after 6:00 pm and options are reduced Need to transfer in u district to fremont and connections are poor. Usually just miss a bus.	11/6/2014 11:15 PM
2995	Yes. Although I am concerned once the light rail comes to Capitol Hill of reduced bus service for those of us that live too far to get to the link station and for whom transferring to the link from a bus probably will not be time efficient.	11/6/2014 11:11 PM
2996	i live on 22nd ave e, near gailer. i ride the 255 from montlake to kirkland (google) weekdays. would also like to ride it to google seattle in fremont, but too many transfers. would love a good option to take it to elliott bay marina	11/6/2014 11:08 PM
2997	Like I said after I switched my schedule to night shift.	11/6/2014 11:07 PM
2998	Within a reasonable walking distance.	11/6/2014 11:01 PM
2999	They work pretty well during the day, but are terribly slow in the late evening.	11/6/2014 10:58 PM
3000	I can't get directly to Carkeek Park by bus as I am in a Wheelchair, so it is inconvenient.	11/6/2014 10:38 PM
3001	yes and no. yes they could get me there, but usually not fast enough. frequency on many routes is too low to make transfers convenient, resulting many trips being done on other modes. E.g. instead of taking the 65 to transfer to the 271, I would ride my bike to the 271, because the 65 is too infrequent unreliable, as early as 6pm.	11/6/2014 10:37 PM
3002	Issaquah to Seattle is very good, however if you want to go from Issaquah to Bothel or north, you have to transfer from Seattle, takes too long time.	11/6/2014 10:37 PM
3003	Not bad. Frequencies could be better on route 68 during peak hours. Buses are crowded between UW and NE blakeley	11/6/2014 10:32 PM
3004	Pretty well in the morning.	11/6/2014 10:27 PM
3005	Usually, but i want to use more often.	11/6/2014 10:24 PM
3006	It is a long walk to the route 40 or route 44. It takes 3 buses to get to the Puget Sound Blood Center or Group Health. The 40 has been undependable due to the constant construction on the Mercer mess, unlikely to get any better in my lifetime. I transfer the the D line for almost all my travel downtown.	11/6/2014 10:21 PM
3007	They get me there, but they're slow, unreliable, and complicated	11/6/2014 10:05 PM
3008	more or less. I sometimes walk up to a mile, but that's on me.	11/6/2014 10:03 PM
3009	Pretty much	11/6/2014 10:01 PM
3010	Yes	11/6/2014 10:00 PM
3011	They work okay, but much slower than driving in to work. Only use it if I don't have other obligations before or after work.	11/6/2014 10:00 PM
3012	Yes	11/6/2014 9:58 PM
3013	It is extremely difficult to get to Harborview MC and First Hill on weekday mornings - I have to make 2 transfers to get to First Hill & overcrowded buses mean I often have to pass up a bus and wait for the next one. Extremely steep hills preclude walking. The street car will not get close enough to First Hill destinations.	11/6/2014 9:55 PM
3014	My only difficulty is transferring from #2 or # 12 to the #28 or #D routes. In central downtown the 28 and the D have different stops until you reach Virginia. It would be nice if both these buses to East Ballard stopped at the same stops.	11/6/2014 9:55 PM

3015	Yes, although there is an unreliable gap between busses - route 8 to 11. Mostly positive.	11/6/2014 9:54 PM
3016	Fairly well, all except for University Village	11/6/2014 9:53 PM
3017	Yes, they get there. They are frequently delayed/late.	11/6/2014 9:53 PM
3018	Metro bus works well for me. Although I live in Seattle exactly 8.0 miles from work, the bus takes me to work the same amount of time as those who live in and commute from Marysville. The King County Metro buses take me to and from work mostly on-time, safely.	11/6/2014 9:49 PM
3019	Metro Bus lines usually get me where I want to go reasonably quickly. Personally, I would also like to see more accessible routes from Lake City to other areas of Downtown, such as South Lake Union or the International District.	11/6/2014 9:35 PM
3020	They work fairly well but buses too often get stuck in traffic.	11/6/2014 9:35 PM
3021	yes, but I also have the backup option of my car.	11/6/2014 9:32 PM
3022	The bus system takes a long time, and usually is behind schedule during peak hours.	11/6/2014 9:30 PM
3023	Yes, but slow -- too many stops, buses stuck in congestion with cars.	11/6/2014 9:30 PM
3024	Yes and overall very well. however I am at loss to see why on the weekends buses like the #43 run almost empty by my apartment on 23rd Avenue and John streets going towards the University district as early as 4:50 am yet those same buses don't run in the direction of downtown until 6:00 am. those first buses of the day heading downtown carry a fair amount of people too. I work weekends in retail early in the morning which is why I am aware of this.	11/6/2014 9:28 PM
3025	Transit works well for trips downtown. Trips not involving downtown don't work as well	11/6/2014 9:28 PM
3026	For the most part, yes, although I definitely feel unsafe waiting at the 3rd and Pike bus stop. I frequently get verbally harassed in this part of town and I would prefer not to transfer here. If there was a way for me to get between Denny Triangle and East Lower Queen Anne without going out of my way to avoid that stop, I would be a lot more comfortable with my commute.	11/6/2014 9:27 PM
3027	Absolutely!!	11/6/2014 9:24 PM
3028	they get me where i want to go but too slowly. buses are frequently late and too full. it takes too long to load and unload.	11/6/2014 9:18 PM
3029	In short, poorly and yes, eventually.	11/6/2014 9:10 PM
3030	Yes	11/6/2014 9:08 PM
3031	Bus and walking for now. Limited times and stops I work at the UW Medical Center varying shifts. Sometimes I am off or start at 11:30 PM and there are limited options to get home/work late at night and weekends. I would expand hours for shift workers at the UWMC who work weekends and late nights/early AM shifts. Here are the shift times for healthcare workers: 0700-1530 1500-2330 2330-0730 Weekends and Holidays too	11/6/2014 9:07 PM
3032	Generally they work.	11/6/2014 9:07 PM
3033	It would definitely be helpful if there was more transit in the Rainier Beach Area at one point there was even a bus that went from southcenter.	11/6/2014 9:02 PM
3034	During limited weekday rush hour times, yes, I get where I need to go. Outside of that time frame, no.	11/6/2014 8:58 PM
3035	Because I generally go to high traffic areas, the buses generally get me where I need to go, but with a significant delay in time. However, in getting to the veteran's affairs hospital, it becomes increasingly difficult to get to work from home in an efficient and quick manner.	11/6/2014 8:57 PM
3036	They do as of now, I don't know if they'll change after July 2015. I often have an issue with the amount of time distance the next bus may come at. It's stressful when I can't take the bus in a fairly timely fashion.	11/6/2014 8:52 PM
3037	On the route 28 there seem to be too many express buses when compared to local buses. MANY of us live in downtown Fremont or on Westlake or on Dexter or need to transfer to a connecting bus on 34th & Fremont.. The express buses COMPLETELY bypass downtown Fremont making the express buses useless to a lot of people. Probably one of the reasons the 28 & 40 local are always so overcrowded or having to pass people at stops completely during peak hours. I am not in a wheelchair but because of medical reasons can not walk very far which is why it is so for me so important that stops are close to my home & destination	11/6/2014 8:50 PM

3038	I travel a lot between Beacon Hill and Northgate. It takes up to 2 hours. I can't wait for the Link to. Go to Northgate!	11/6/2014 8:30 PM
3039	Dispite the fact that transit comes less than one block from my home and one block from my work, it still takes *way too long* to get there using the bus. I use it because parking is expensive, but driving is much faster even during rush hour.	11/6/2014 8:28 PM
3040	They're ok, but if I'm in a hurry I will drive	11/6/2014 8:28 PM
3041	They work fairly well but lack frequency and span of service and slow speed.	11/6/2014 8:24 PM
3042	They get me to work every time i go.	11/6/2014 8:17 PM
3043	Sort of.	11/6/2014 8:16 PM
3044	It is difficult to get to Ballard and Fremont from my home. More non-express buses would help me get to work faster and with fewer transfers.	11/6/2014 8:13 PM
3045	It is almost impossible to get to Ballard, and very difficult to get to Fremont. It is easy enough to get downtown, and to the University District, but not to the University Village.	11/6/2014 8:13 PM
3046	Yes but sometime crowded and bus does not stop	11/6/2014 8:09 PM
3047	Mostly, but transfer connections are often haphazard, with little or no shelter from the weather	11/6/2014 8:08 PM
3048	The Van Pool works well, but I miss having a bus option for flexibility.	11/6/2014 8:06 PM
3049	Yes	11/6/2014 8:03 PM
3050	They work, but the 43 is much less predictable.	11/6/2014 8:02 PM
3051	The 193 express has been a great commute. If the route changes I would consider alternate commuting ideas	11/6/2014 7:53 PM
3052	Good, except lately my ride to work is not good. I walk to Lake City Way to get the bus, but because I'm not one of the early stops, I am most often having to stand in the aisle for the whole ride. It is hard to balance and I'm not as young and lithe as I used to be. If I take another bus closer (#64), the amount of time to get to work is significantly longer. I'm having to do that because of the overloaded bus number 312 and 522. We have some challenges now because of a major road project on 35th Avenue NE (near 110th) which is closed which means routes have had to be re-routed. Hopefully that will improve in the near future.	11/6/2014 7:46 PM
3053	Mostly yes. Queen Anne still feels like an island in terms of reasonable access, but otherwise, yes.	11/6/2014 7:45 PM
3054	Almost impossible to get to Children's Hospital (where I work) without taking 3 buses (~1 1/2 hours, while I can drive there in 15-20 minutes)	11/6/2014 7:41 PM
3055	OK	11/6/2014 7:41 PM
3056	They get me where I need to go, but not always in a timely manner. I take the 71/72/73/74 from the U District to Downtown for work every day. In the morning the bus is almost always on time and not over-crowded. In the evening, the buses are often late, slow and packed.	11/6/2014 7:40 PM
3057	light rail is good mostly for going to the airport at this point. no stations are near enough to my home in Madrona to make it an easy option, so driving to the airport is still the most common method to get there. The number 2 is a great asset. I appreciate that it gets me downtown, which I do only for recreation, not work.	11/6/2014 7:40 PM
3058	They work, but are overcrowded and not always reliable, especially commuter routes like the 77.	11/6/2014 7:38 PM
3059	Ususally use 43/44/49/and 10 the most to get to and from the UW and Group Health on Cap Hill, or downtown	11/6/2014 7:33 PM
3060	Yes	11/6/2014 7:32 PM
3061	three routes to go from home to work with no coordination of schedules. 120 from west seattle to downtown, 73x from downtown to university, 68 or 30 to work.	11/6/2014 7:31 PM
3062	Sometimes.	11/6/2014 7:31 PM
3063	I live in north Belltown so I do well. I generally walk to prevent having to transfer (fuel to lack of timed transfers)	11/6/2014 7:28 PM
3064	Most of the time, although when one's bus just doesn't show up (WHY doesn't Transit have substitute drivers?) it makes getting to work on time an annoying challenge - and getting home an unbelievable hassle. Traffic aside, late busses are a huge annoyance. I take the bus a minimum of six days a week and often seven. I spend a lot of time waiting, so this has significant impact on my travel.	11/6/2014 7:23 PM

3065	East-west connectivity is poor, especially north of the ship canal	11/6/2014 7:21 PM
3066	Take 2/29 from Queen Anne to downtown and back, for work. Reasonably frequent and convenient. Also take public trans to and from seatac. Getting to and from downtown is the hardest part of this trip, unless it's right at peak rush hour times.	11/6/2014 7:19 PM
3067	Yes, they work, but when I-5 is slow, the freeway buses are too slow. Sound Transit is the best for getting directly from point to point.	11/6/2014 7:18 PM
3068	I use a bicycle to supplement my transit commute because it's very inefficient waiting for local buses in Kirkland and Bellevue (e.g. the 249). I also moved to Montlake because it's very time-consuming to get to the Eastside from anywhere else in the city. I-90 is too slow for reverse commuters since the express lanes go in the "wrong" direction. There's enough traffic going to the Eastside now that it would be better if the express lanes were split so they could be bidirectional.	11/6/2014 7:16 PM
3069	Yes, but only if I get a ride for about a mile or 2, or if I'm able bodied enough, since the 15 was discontinued. Right now it usually works, but as I get older, it won't someday, or in the late night it's not good.	11/6/2014 7:08 PM
3070	Yes, for the most part. More frequent off-peak trips would be good on the 75.	11/6/2014 7:06 PM
3071	Not quite. To get to work, I can take one bus to International District Station, but then have to walk the last mile to the growing business district south of the stadiums.	11/6/2014 7:02 PM
3072	having commuted from cap hill to sammamish and also to shoreline i find i can generally get where i need to go -- being able to get there efficiently is another story currently i live and work on cap hill and the 12 is perfect -- as long as the route is not essentially cut as threatened	11/6/2014 7:00 PM
3073	Yes	11/6/2014 7:00 PM
3074	For the most part.	11/6/2014 6:53 PM
3075	Yes, but I feel they could be improved.	11/6/2014 6:52 PM
3076	They work ok.	11/6/2014 6:51 PM
3077	They get me where I want to go, usually. Just not as reliably or quickly or with as much 24x7 coverage as I'd like. I wish there were buses or Link trains departing early enough from downtown to catch the first morning flights out of the airport (between 5 and 6 AM). Maybe that means a first train departing Westlake between 3-4 AM. I also wish Link connections didn't require long walks and grade changes at key transfer points (Sea-Tac Airport, King Street Station). Please invest in making those transfers faster and easier.	11/6/2014 6:50 PM
3078	40 bus works fine for getting to work. After work I find it difficult to get from Ballard to Capitol Hill or Downtown in a reasonable amount of time. I frequently bike to work, but find some destinations too distant to reach safely on a bike, especially in the rainy, dark winter.	11/6/2014 6:46 PM
3079	The transit options I use work well for me. Though when I go to Northgate I wish the 66/67 went beyond Northgate Transit Center. It's a long walk from Northgate Transit Center to the Pacific Fabric & Crafts store. It would be nice if it was more often than every 1/2 hour, but as long as it's at least every 1/2 hour I don't mind. I rarely need it, but I've wished for a way to travel to my parents house in Ballard (@ 7307 20th Ave NW) WITHOUT transferring. I think I would go there on my own sometimes if there were. As it is it's way too annoying to try to go visit my parents house on my own, so I almost never do it.	11/6/2014 6:45 PM
3080	I can get most places where I want to go, but there are places I would go more, like Beacon Hill, Rainier Beach, and Maple Leaf that I would go if it didn't take so long. I avoid lengthy bus travel on Sundays because the bus options are limited and too long.	11/6/2014 6:41 PM
3081	Work fairly well in getting me where I need to go during day time hours, but very few options in the early morning or evening hours	11/6/2014 6:39 PM
3082	Yes, just too many transfers.	11/6/2014 6:37 PM
3083	Slow for getting downtown. Hard to get to Fremont & Ballard. Hard to get to east side Slow to get to airport	11/6/2014 6:36 PM
3084	Yes -- I have bus options between work, home, and downtown that do not require transfers or more than a half a mile of walking.	11/6/2014 6:33 PM
3085	Yes.	11/6/2014 6:31 PM

3086	It takes me 2-3 busses to get to my office on Cherry Hill from my house in Haller Lake. If I work past 6, it takes 90+ minutes to get home because as the frequencies of service taper off (which they do very early), the time I'm waiting for transfers increases. I'm looking forward to the Northgate Station opening, but in the meantime if someone could look at realigning arrival/departure times of connecting routes, or increasing frequency of main routes, and also requiring the neighborhood routes to wait for the arriving main route before departing, those would all be helpful. Also, a fast direct connection from Northgate to Capitol Hill would be helpful.	11/6/2014 6:29 PM
3087	Eventually, but it usually takes too long and the 542 stops running too early in the morning.	11/6/2014 6:24 PM
3088	Yes, however the 44 continues to be unreliable due to traffic on be 45 th and n 45th	11/6/2014 6:22 PM
3089	Awkward. Many of my trips require more than one bus and up to 45 minute wait times for connections	11/6/2014 6:19 PM
3090	fine, but increasingly crowded and less frequent (79, 306, 312)	11/6/2014 6:13 PM
3091	Fine	11/6/2014 6:11 PM
3092	Yes they will work until my bus line is canceled. Light rail Dev northbound needs to be sped up! Traffic is getting worse. Improve one bus away support with realtime GPS.	11/6/2014 6:06 PM
3093	Yes, generally, though because they generally compete with traffic, they are slow.	11/6/2014 6:06 PM
3094	Mostly. It's always a little surprising how few places one can get on a single bus, but there are very few places in my regular rotation that are not convenient to Metro stops.	11/6/2014 6:00 PM
3095	Takes too long Too much walking to get to final destination Too infrequent Need more frequent weekend/late night service	11/6/2014 5:59 PM
3096	Please see my previous answers. Yet another wish would be an easy, direct way to Belltown from NE Seattle.	11/6/2014 5:55 PM
3097	The 8 is better than it was in 2006, but the ridership is huge. Please add more buses.	11/6/2014 5:55 PM
3098	By and large I have learned to use the system. There is not enough cross town traffic, and I-5 acts as a barrier. I need to go east of the freeway to get good north-south busses	11/6/2014 5:54 PM
3099	Usually	11/6/2014 5:53 PM
3100	Mainly go from home (23rd Ave E) to the work (UW). The 48 and 43 work well. I also go from home to Madison Park or Seattle Center and the 11 and 8 work well. The 10, 12 get me within walking distances of many places.	11/6/2014 5:52 PM
3101	They were much better before the metro cuts. The 2, 3, 4, & 12 all serve the South part of the Hill well, but there is no longer an easy way to get from there to Seattle Center. Also, the 8's route is too long and it is the one bus that is never on time. I find its faster to walk up the Hill from Seattle Center than to wait for the 8 that may come 20 minutes late. Also, I have that there's no direct busses to Belltown, Fremont, Wallingford, and Greenlake. I always have to drive myself to these locations as the busses are not convenient. I also really like the 43 as it has a great route that I use often.	11/6/2014 5:50 PM
3102	Metros use of Northbound I5 in the morning gets me from the International Station to UW Tower in under 30 minutes. But the return trip in the evening on East lake has clocked up to an hour some days chasing many rides to miss the 5:42 South Sounder home. I am hoping the University link station will end my us of Metro route 71, 72 and 73 for ever!	11/6/2014 5:50 PM
3103	yes. I would like a longer north-south light rail route to Northgate. I would also love a faster cross-town route. I would like a ballard bike trail from fremont to the locks and golden gardens.	11/6/2014 5:49 PM
3104	I use them, but I would like them to be more frequent and I would like to get from Cap Hill/ Central District to Ballard or Fremont or Beacon Hill without one to two transfers.	11/6/2014 5:48 PM
3105	Mostly get me where I need to go. I avoid I5 south, which makes getting to Capitol Hill from the eastside difficult. The 43 is highly irregular.	11/6/2014 5:48 PM
3106	They do, but they are not entirely convenient. As far as KC Metro and ST appear to be concerned, steady traffic seems to stop in Bellevue. During peek hours there are a good number of busses that come out to Issaquah and beyond. But outside of that they are far and few between. I have just started driving to Bellevue because all day long the 550 runs very frequently. Once in the city, options are pretty good. The SLU Street Car is pretty good. Something does need to be done about giving the street car priority during heavy traffic hours on Mercer way. That whole thing is a mess for sure. I am excited about the new ID to Capitol Hill street car. That will be useful.	11/6/2014 5:47 PM
3107	The options that I have work well, except for the number 8 bus that only shows up occasionally.	11/6/2014 5:46 PM

3108	They work for me to an extent. I can get where I need to go but then again I only take the bus when it can take me somewhere within a reasonable amount of time and within a reasonable amount of distance.	11/6/2014 5:46 PM
3109	for the most part, transit gets me where I want to go - but I don't drive, so I usually just don't go if the bus doesn't go there. I am having to do more and more walking as bus stops are removed (for "efficiency", I'm told), and I am getting older, so that is more and more of a problem.	11/6/2014 5:43 PM
3110	Generally yes. Off peak bus service could be better though (assuming increase in funding will ameliorate that)	11/6/2014 5:43 PM
3111	When you changed route to Seattle Center, you made it much slower. Love the 76. Losing the 71X, 72X and 73X in the evening is a pain. When there is a special event Metro should put on more buses. My most major complaint is buses not stopping for up to an hour because of crowds.	11/6/2014 5:41 PM
3112	Yes, but Slowly, with overly full buses that are hard to get on/off quickly.	11/6/2014 5:40 PM
3113	I am very satisfied with my current transit options.	11/6/2014 5:40 PM
3114	There is no good option to get from Jackson and 17th to Westlake & Mercer anymore. It's sad.	11/6/2014 5:38 PM
3115	Yes. Sometimes.	11/6/2014 5:35 PM
3116	Yes - I am pretty happy with my 77 on weekday mornings and really happy with my 308 at night, even though there are only three trips at night, an hour apart but well scheduled at just after 4PM,5PM & 6PM	11/6/2014 5:34 PM
3117	The link between Harborview area and Broadway is time-consuming, often off-schedule and usually over-crowded.	11/6/2014 5:34 PM
3118	We often take the 71 downtown. We find it works well heading downtown, but are frustrated when we try to come home as it is very often behind schedule. Because of this we do not take it as often as in the past. If it ran every 15 minutes, we would take it a lot more often.	11/6/2014 5:34 PM
3119	They generally work, but I often rephrase Metro's motto as, "We'll get you there... eventually." Trips are slow, and getting to many destinations in other parts of town (e.g Ballard, Phinney Ridge) requires either going out-of-direction for a transfer downtown or transferring between infrequent, unreliable services.	11/6/2014 5:33 PM
3120	Ok/yes	11/6/2014 5:33 PM
3121	Mostly.	11/6/2014 5:32 PM
3122	I work outside of normal commuter hours which can make it difficult for me to take transit as the time between busses becomes greater than 15 minutes.	11/6/2014 5:30 PM
3123	Works pretty well, except on weekends when I need to get to work at UWMC early in the morning.	11/6/2014 5:29 PM
3124	Yes, but many buses are unreliable such as the 67 and 48, which I use most often. There should be faster buses between Fremont, Ballard and Wallingford as those neighborhoods I frequent a lot.	11/6/2014 5:26 PM
3125	I commute to work using the E line, or the 316 - both of these buses work well for me. The delays in downtown Seattle on the evening commute are frustrating though. When commuting to the airport, I would like to always be able to use the light rail - but the current light rail operating schedule doesn't accommodate early (6am) flights.	11/6/2014 5:25 PM
3126	I am able to use transit to get to work, but it is hard to find convenient and good options to get to other areas of the city.	11/6/2014 5:20 PM
3127	yes	11/6/2014 5:19 PM
3128	They get me where I want to go, but not always in a timely fashion. Also, buses are way too crowded. When the aisles are completely packed with standing passengers it's just a tragedy waiting to happen. One accident coupled with the inevitable lawsuit it would bring will change Metro's policies on what a full bus is.	11/6/2014 5:18 PM
3129	Yes	11/6/2014 5:16 PM
3130	More service would be great	11/6/2014 5:15 PM
3131	Yes	11/6/2014 5:14 PM
3132	Yes, but they are fairly infrequent 30 min. between the bus I take 74. Otherwise the location of them is great would be nice to have an option thats only 15 minutes apart. Often when I catch the 71,72,73 I miss the 30 and have to walk 20+ minutes to get home in Ravenna.	11/6/2014 5:12 PM

3133	They work okay. Since I take Link Light Rail to work from Rainier Beach Station, I have to drive to the station, park in a pay lot, and then I take the Light Rail to Pioneer Square Station. I could take the 106 bus from home to the RB Station, but that would make my commute over an hour, not including the wait for the bus and the Light Rail.	11/6/2014 5:11 PM
3134	I can usually get to where I need to go, but it takes me 1 hour to ride from 23rd and Madison on Capital Hill to Meridian Ave and N 105th St. It takes me 30 minutes to bike that same route both ways. Trying to ride a bus from east Capital Hill to Ballard is almost impossible.	11/6/2014 5:11 PM
3135	They have a lot of issues in the U District, extending into Wallingford for the 44. 45th is extremely congested, and the 44 can take up to 20 minutes to make the left turn from 15th on to 45th. That said, the 44 does stop two blocks from my apartment, and less than one block from work.	11/6/2014 5:10 PM
3136	Yes	11/6/2014 5:10 PM
3137	Yes, most of the time	11/6/2014 5:09 PM
3138	Usually the options get me where I want to go. Getting there on time is another matter.	11/6/2014 5:08 PM
3139	Recently some buses have been too delayed/not shown up at all, causing an increase in my usage of a car, but I try to use public transit as my primary source of transportation. Transportation to and from the U-district seems like a major concern, as I feel that most UW students rely heavily on buses for transportation and are a significant source of income for King County Metro as they all pay for ORCA passes.	11/6/2014 5:08 PM
3140	Yes, but prefer mass light rail	11/6/2014 5:08 PM
3141	For my usual trips, transit usually works but I run into unavailability when trying to visit places or people not closer to transit.	11/6/2014 5:05 PM
3142	For the most part. Wish there were more direct routes from Capitol Hill & First Hill to Sodo & Georgetown	11/6/2014 5:04 PM
3143	Mostly. I miss the former 10-12 loop which got us to downtown shopping.	11/6/2014 5:04 PM
3144	They work well enough - acceptably/tolerably to get me where I want to go. When they are not acceptable/tolerable, I don't choose to use transit.	11/6/2014 5:02 PM
3145	Yes, but inefficient getting onto 520 at Montlake and Overlake/Microsoft	11/6/2014 5:02 PM
3146	My daily routes are covered, but going from the Greenwood neighborhood to Capitol Hill is time consuming.	11/6/2014 5:02 PM
3147	I always have to budget 1.5 hours to get anywhere.	11/6/2014 5:02 PM
3148	They don't. Service traveling west from Wedgwood is horrendous, and it was recently made even worse. Back in 2000 up until maybe 2012, I could get to Northgate & North Seattle Community College on a single (albeit extremely indirect) bus. I would catch the 65 going southbound, which then became the 67 going north. Recently, that has changed. The 65 was uncoupled from the 67, and now all trips to Northwest Seattle require transfers, substantial amounts of walking, and a significant increase in commute times.	11/6/2014 5:01 PM
3149	Yes, it works fine.	11/6/2014 5:00 PM
3150	They're ok, but the 75 bus to and from the UW often is overcrowded during peak periods.	11/6/2014 4:59 PM
3151	They worked better before the last round of cuts. I am afraid that the 12 is not going to serve the same route and I won't be able to get to my doctors. There are several Senior low income apartments on 17th Avenue near E. Madison Street. I will be a hardship for many who are unable to walk the significant grade between 15th and 17th.	11/6/2014 4:58 PM
3152	Yes, very well.	11/6/2014 4:58 PM
3153	Most of the time Metro buses work well to and from work. Would like more options to get onto the new light rail system from home in NE Seattle	11/6/2014 4:58 PM
3154	Yes, but now busses are more crowded and don't come as often. Also, there are few options to get to Husky Stadium.	11/6/2014 4:56 PM
3155	I take the 8 a lot to and from work and it is the worst bus I have ever taken in my life. It is always extremely late and extremely crowded. It has a reputation as the "Late eight", and it is well deserved. Otherwise the transit options work well for me, but I mostly use them for short trips between downtown, Capitol Hill and SLU. For going longer distances I generally drive (for example from my apt on Capitol Hill to Greenwood, Fremont, Ballard, Georgetown, Columbia City, etc.	11/6/2014 4:56 PM

3156	The day after I started working in Cottage Lake, the only bus that went there from downtown Seattle was cut. The alternative service to 19510 223rd Ave NE, Woodinville, WA 98077 is SO BAD that I actually rode my bicycle (3 hours each way) until we hired enough Seattle employees for carpools. I almost never take the bus anymore.	11/6/2014 4:55 PM
3157	Buses don't run as frequently as I'd like after commuter hours. It also takes too long to get places when you have transfers.	11/6/2014 4:55 PM
3158	The transit options are very convenient. I formulate a schedule sometimes and I get to where I need to.	11/6/2014 4:55 PM
3159	They work fairly well. I occasionally ride the bus to work from Fremont to Downtown, but usually ride my bike. The buses have been getting more crowded and slower.	11/6/2014 4:55 PM
3160	usually	11/6/2014 4:54 PM
3161	I can usually get where I want to go, but often have more of a problem getting back home. I often end up walking all the way back from downtown because the buses do not run frequently enough in the early evening (like 10 PM). I often take a taxi to the airport because the bus/light rail service around 5 AM not frequent enough--	11/6/2014 4:54 PM
3162	Eventually, I find a way of getting where I need to go; unfortunately, it can take rather long using public transit, so sometimes I have to drive even though I prefer not to. I also have a lot of activities late at night, and it is not possible to get home afterwards unless I drive.	11/6/2014 4:53 PM
3163	I am often left behind with full buses or standing room only buses (I cannot always stand for long periods of time, but am not always given a seat when I ask). Its awkward to do a lot of errands or shopping on the bus - I can't carry everything I need to get and there's not enough room for a cart or extra bags. Many of my routes don't connect well or take too long to get somewhere. Rapid Ride D is a prime example - service is less reliable and seems slower than before that route was a Rapid Ride. Also the new RR buses are extremely uncomfortable. I often chose to take a Car2Go rather than take RR-D, its awful.	11/6/2014 4:52 PM
3164	They do eventually. But they take a very long time.	11/6/2014 4:52 PM
3165	Metro is wonderful for my commuting.	11/6/2014 4:51 PM
3166	For the most part, I won't ride a bus if I have to change more than once. This limits me as I do not own a car, but I sometimes borrow one if I feel that it is faster than taking the bus. My home to work commute is simple and reliable: Capitol Hill to Downtown. I wish it was a bit easier to get to Fremont, Ballard, West Seattle, Georgetown from Capitol Hill. The First Hill Streetcar and the light rail extension will greatly expand my easy of transport.	11/6/2014 4:49 PM
3167	I live on 35th Ave NE & NE 85th and it takes 90+ minutes to get to the airport! I would be more likely to travel to airport by bus train if the commute was <60 minutes.	11/6/2014 4:49 PM
3168	Yes, for the UW or downtown, but there could be more options for going west to east and back. I live on 25th NE, and would like better access to the grocery stores Safeway and QFC, and Rite Aid on 35th Ave NE and NE 85th. There should be a bus that goes from 65th St to 35th Ave NE. I'd like better access to Magnuson Park, Greenlake, and Discovery Park. I wish there was a night bus going to the University stop for the Medical Center from 25th NE.	11/6/2014 4:48 PM
3169	Yes, but not always reliably. Sometimes the buses just don't show up.	11/6/2014 4:48 PM
3170	For the most part, but often it is the getting to the options that prevents me from using them. The less transfers the better as it adds exponential complications.	11/6/2014 4:47 PM
3171	Not well. Need more AM options for the ST 522	11/6/2014 4:46 PM
3172	Barely.	11/6/2014 4:45 PM
3173	It's easy to get from my home in Ravenna to the U District and the UW Hospital. During commuting hours, it's also pretty easy to get downtown, but it's hard to get go West (Fremont/Ballard) or to do something like go to the airport, which requires coordinating a bus with the light rail downtown.	11/6/2014 4:45 PM
3174	Generally they do---unless i miss a connection.	11/6/2014 4:44 PM
3175	Connectivity between Beacon Hill and Capitol Hill could be so much better, especially on the weekends, when the 60 bus doesn't run at night. It's ridiculous that it take over 45 minutes to get from Spokane and Beacon to Pike and Pine. I hope that Link will improve this. I also think that Link service in the south end would be much improved if there was a station between Othello and Columbia City.	11/6/2014 4:42 PM
3176	They go most places but buses are too slow to be competitive with driving for most destinations	11/6/2014 4:42 PM

3177	Transit options are really only the 36 and the 60, which doesn't run as frequently. I often have to transfer to get where I want to go.	11/6/2014 4:41 PM
3178	East-West transit service works fairly well. However I would like more reliable and more frequent service. I often use Metro Route #2 to go downtown. It would be better for me if, west of 12th, route 2 were consolidated with the routes on Madison so there could be more frequent and reliable service.	11/6/2014 4:41 PM
3179	about 80% success. Cross-town transit is still lacking.	11/6/2014 4:40 PM
3180	My commute works well for me (route 312). My other routes are the 72 and 73. When I am not traveling downtown, it begins to take a great deal of time to go anywhere. Usually the difference is on the order of 40-80 minutes by bus, 10-20 minutes by car.	11/6/2014 4:38 PM
3181	Most often, usually, alas, a two bus connection to Capitol Hill.	11/6/2014 4:38 PM
3182	Yes, I walk and bus to work (2 miles)	11/6/2014 4:37 PM
3183	Transit gets me where I need to go, IF I can get a place to park at the transit center. The fastest route from my house to either transit center takes over an hour unless I drive. Driving to the transit center is often pointless because there are no parking spots available.	11/6/2014 4:36 PM
3184	Yes. I especially like the ones that get me to a place within 30-35 minutes.	11/6/2014 4:35 PM
3185	I would give it overall a B-. Traffic is often a problem, most notably on warm sunny days or during heavy rainstorms. I get where I need to go 99% of the time but sometimes it takes too long due to bad traffic or infrequent buses.	11/6/2014 4:34 PM
3186	yes	11/6/2014 4:34 PM
3187	My transit options work fine for me except the split of the old 75 route to Ballard into two routes is not as convenient.	11/6/2014 4:34 PM
3188	For the most part, our transit options are great. Buses are too crowded and there are far too few of them along major routes. What used to take a half-hour now takes closer to an hour (this is my daily commute and has been for more than 10 years).	11/6/2014 4:34 PM
3189	Lots of time gets wasted if you have to transfer. Partularily if you have to walk some distance in-between one and the other. No-cost transfers should be applicable between rail and busses with an ORCA Card.	11/6/2014 4:32 PM
3190	Yes, but it will be greatly improved when the light rail stations are all open.	11/6/2014 4:30 PM
3191	For what little use I make of them, they're satisfactory.	11/6/2014 4:30 PM
3192	Most of the time.	11/6/2014 4:29 PM
3193	I am generally satisfied with the quality and availability of transit options available for the places I need to go.	11/6/2014 4:28 PM
3194	Pretty roundabout to make reasonable time of travel	11/6/2014 4:27 PM
3195	yes	11/6/2014 4:26 PM
3196	They work well	11/6/2014 4:25 PM
3197	Mostly, although the options are quite slow. My commute by car would be 7 miles, yet it typically takes 60 minutes door-to-door. I don't mind walking a ways, so I often take buses that get me relatively close to home, and then walk the last mile or so.	11/6/2014 4:25 PM
3198	Yes, but route 60 is inconvenient due to limited service frequency and does not run at night. It's a hassle having to find a route through downtown to get from N Beacon Hill to Capitol Hill.	11/6/2014 4:23 PM
3199	satisfactory although LINK to Capitol Hill Station will be an improvement	11/6/2014 4:23 PM
3200	Very well for the most part. Yes.	11/6/2014 4:22 PM
3201	Good, other than 31/32 overcrowded. Yes.	11/6/2014 4:22 PM
3202	They work well, please don't stop them. They get me where I need to go	11/6/2014 4:22 PM
3203	They do get me where I need to go. Just takes to long to be realistic.	11/6/2014 4:22 PM

3204	Except for to the University of Washington from Sand Point, everything requires a transfer. Hiking up a steep hill to get to a bus stop for a 71 requires too much physical exertion, especially if one has luggage or carrying other items.	11/6/2014 4:21 PM
3205	The only reasonable bus that gets me from near home to my workplace is the 68. One of the buses that was marked for deletion, although NOW it seems it is considered a high use route. The 75 also gets me there but via a much longer out-of-my-way journey through Lake City , Sandpoint and Laurelhurst. Another bus, like the 68, that is regularly standing room only when it gets to and leaves from the UW. Since I don't leave work until 6pm, and the last 68 leaving the UW is at 6pm, I nearly always have to take the longer journey home.	11/6/2014 4:20 PM
3206	They do, but it used to be much easier to go from the U-District to the Uptown Theatre, as the 30 used to go there from 50th and University Way. Now I either have to walk to one of the stops for the 32, or I have to take the 44 and transfer to the D Line, which could change my arrival time by 30 minutes. Getting back home, it's the same issue, worse if the 44 has broken down or is seriously delayed. Also, it takes me roughly an hour to get to work. The 49 is still convenient on Saturdays to get to Capitol Hill, but it is a little farther to walk to pick it up every other day. Still, not as bad as the transfers I have to make to get to the Uptown.	11/6/2014 4:19 PM
3207	Yes, but i wish there was a bus that went from Ne 65th St/ I-5 to first hill. The 64 snakes downtown which slows it down a lot especially during rush hour.	11/6/2014 4:19 PM
3208	Yes	11/6/2014 4:19 PM
3209	Work great to get downtown. Now that the #30 bus schedule has been curtailed, less service to NOAA, Magnuson and University Way NE from my home in NE Seattle.	11/6/2014 4:18 PM
3210	Transit needs to be more frequent to be most effective. Very crowded, infrequent and very slow now.	11/6/2014 4:18 PM
3211	It works very well for me now for both commuting and meetings downtown.	11/6/2014 4:18 PM
3212	I can get where I want to go, but sometimes it takes a lot longer than I would prefer.	11/6/2014 4:18 PM
3213	They get me where I want to go, but the buses to and from the UW and downtown do not run often enough.	11/6/2014 4:17 PM
3214	Sometimes. Service between Ballard and Capitol Hill and UW is always slow .	11/6/2014 4:16 PM
3215	They work pretty well but wish they could be faster.	11/6/2014 4:16 PM
3216	Yes.	11/6/2014 4:16 PM
3217	Lately I mostly used the 255 from S Kirkland Park & Ride to Westlake Station in the tunnel and then the Monorail to the Seattle Center in order to get to the Seattle Children's Theatre and it works great. I don't take another bus from downtown to get to the theater because it's just not as convenient. I also don't take the 31/32 option because it takes too long	11/6/2014 4:15 PM
3218	Very well. I have a one seat ride from home to work and that is invaluable.	11/6/2014 4:15 PM
3219	Transferring from the # 41 to Link Light Rail at the Westlake Station works well and transferring from Link Light Rail to the # 41 at the International Station also works well but it would be great if there was a bus from NE 92nd and Ravena Avenue to the new station at Husky Stadium when that opens up.	11/6/2014 4:14 PM
3220	My daily commutes have always been pretty easy, however sense we moved to the top of queen anne it has been difficult to use public transit for nightlife.	11/6/2014 4:14 PM
3221	Parking SUCKS. I am commuting from Duvall to Downtown Seattle. I would park at Bear creek park and ride every day if I could but it's full by like 7am. I can't compete with early parking people. I have to drop kids off at school then commute. Bear creek park and ride is dead to me. I have to park at the 'secret' Redmond lot near Bella Botega, or I park on the street in Redmond on 79th St, just outside Redmond s restricted downtown parking area.	11/6/2014 4:13 PM
3222	The VA-to-VA shuttle saves me about 1 hour or more when compared to the 2 buses + Link light rail trip that would get me to roughly the same place. I do like using the Monorail and downtown buses, also I prefer taking a bus to the Seattle stadiums ID/Chinatown or Capitol Hill just because it's oftentimes tough (or very expensive) to park in these areas. The LINK light rail has been great for runs to the airport or into downtown, but I no longer live in an area of Seattle where I can walk over to take the light rail. I would really love to use the Sounder Train, but it doesn't run when I need it to (Seattle to Tacoma in the AM, Tacoma to Seattle in the PM, weekend service).	11/6/2014 4:13 PM
3223	I get there, but slowly. Please don't cancel the 31! Also I would like a direct link to Ballard from Magnolia Village.	11/6/2014 4:13 PM
3224	Yes, though it can take up to 4 times as long as it would to drive	11/6/2014 4:13 PM

3225	They work fine. I wish that there were more busses that ran from 23rd Ave to downtown, and busses that ran up and down 23rd ave.	11/6/2014 4:13 PM
3226	yes	11/6/2014 4:13 PM
3227	Currently with minimal walking between routes and destination. Would like to see a more accurate phone app similar to "one Bus Away" to coordinate next bus arrival and current stops.	11/6/2014 4:11 PM
3228	My current options are quite good but the buses can get very full. If the connections are available, I plan to switch to the train.	11/6/2014 4:11 PM
3229	Yes	11/6/2014 4:11 PM
3230	Most days I drive from Issaquah to Medina and get on the 271 to the UDistrict there. There are too few transit time options to work for my schedule coming from Issaquah and the 271 route from Issaquah or Eastgate P & R is too slow (takes a very roundabout route). From Medina the 271 schedule is very frequent and runs early and late.	11/6/2014 4:11 PM
3231	Yes - except its hard to get to downtown Seattle or SeaTac airport (multiple busses/bus + train)	11/6/2014 4:11 PM
3232	mostly	11/6/2014 4:11 PM
3233	Depends. For work, they function quite well. For other tasks, like grocery shopping, recreation, sightseeing, going out on the town/out to eat, etc, it depends on the destination.	11/6/2014 4:10 PM
3234	I hate riding the bus because of the cognestion inside the bus and the traffic. The bus I take is usually standing room only for the 1.5 hours sometimes to get to the UW from down south. If I were to take the train to the light rail, it would be useful in more times were added to the train to accomodate the transport for those outside of the lightrail area especially since that will add more times and many more people.	11/6/2014 4:09 PM
3235	Generally, transit gets me to where I need to go. However, it almost always takes longer than it should. Two examples: getting from Capitol Hill to Fremont or Ballard takes a really long time, and getting from anywhere to Georgetown takes a really long time.	11/6/2014 4:09 PM
3236	yes when I have enough time. otherwise i drive my own car.	11/6/2014 4:08 PM
3237	Yes	11/6/2014 4:07 PM
3238	More routes to and from NE Seattle would be helpful.	11/6/2014 4:07 PM
3239	Most of the time.	11/6/2014 4:07 PM
3240	Route 41 is great, but chronically late and overfull	11/6/2014 4:07 PM
3241	For the most part, yes. Some nearby destinations require more transfers than I would like. I expect transfers to be necessary for some trips.	11/6/2014 4:06 PM
3242	they get me where I want to go, but 76 bus is often overcrowded as are the 74 and 71 out of the bus tunnel	11/6/2014 4:06 PM
3243	They have worked for me fairly well.	11/6/2014 4:06 PM
3244	they are pretty good. Only one option from capitol hill to get to all of the hospitals	11/6/2014 4:06 PM
3245	Yes, they work relatively well for me currently.	11/6/2014 4:06 PM
3246	Current options work well between International District and Green Lake neighborhood during commute hours. Otherwise it is slow.	11/6/2014 4:05 PM
3247	They work well. However, buses take too long to get to their destination during rush hour.	11/6/2014 4:05 PM
3248	Generally, yes, but they are often late, too infrequent, over-crowded, or take too long.	11/6/2014 4:04 PM
3249	The transit options work exceptionally well for me.	11/6/2014 4:04 PM
3250	Yes, I can get to work, but it takes a while.	11/6/2014 4:04 PM
3251	Yes, though traffic can make the trip slow at times, and wait times are long during non-commute hours.	11/6/2014 4:04 PM
3252	For the most part - it can take a bit longer than I would like to travel east-west across town north of the ship canal, but that's a different issue.	11/6/2014 4:01 PM
3253	The 25 neighborhood bus is extremely slow.	11/6/2014 4:01 PM

3254	Test test	11/6/2014 4:01 PM
3255	Not always. Sometimes the number of transfers or the amount of time waiting and/or the distances to walk are too much for me. Or the route is too slow, often leaving me with 1hr or more travel time. Yet, there are also a lot that do work within no or 2 transfers.	11/6/2014 4:00 PM
3256	Yes, though slowly for crosstown routes	11/6/2014 3:59 PM
3257	by the time I walk half a mile to the beginning of the 71 route, wait for the bus, and sit on the the bus, it takes me about an hour to get to work. And there aren't many buses when I commute (I work 11 - 8). So I drive. Also, now that I'm older, I really don't feel safe standing.	11/6/2014 3:59 PM
3258	Sort of. I walk from Downtown to Seattle University because the bus is so slow going up to capitol hill and almost always running behind. Wish the 214 bus ran more frequently and later into the night.	11/6/2014 3:58 PM
3259	Yes	11/6/2014 3:57 PM
3260	So far so good. I use the #27 all the time and if it had been cut I would have to walk much further to catch a bus. I'm glad it survived!	11/6/2014 3:57 PM
3261	connections in the U District after about 6:30 aren't good. The last #74 leaves downtown by 6:45, the #30 doesn't run after about 6:30 and the #75 service drops back to every 30 minutes so making a connection from another route can mean a lengthy wait on Campus Parkway	11/6/2014 3:56 PM
3262	I mostly go from Northgate to Eastlake and/or Downtown. I would like more direct routes to Capitol Hill and Queen Anne.	11/6/2014 3:55 PM
3263	For the most part, but sometimes schedules are not reliant	11/6/2014 3:55 PM
3264	Bus; Car2Go; Walk	11/6/2014 3:55 PM
3265	Yes.	11/6/2014 3:55 PM
3266	Pretty much	11/6/2014 3:55 PM
3267	The train and light rail works great. The bus sucks. It is only 5 miles from the train station but it always ends up being the longest part of my commute. The buses take forever in the tunnel because they can't load and unload fast enough.	11/6/2014 3:54 PM
3268	I mostly drive alone because it takes too many buses (transfers) to get where I'm going. I used to take the bus a lot more when I worked near more frequent bus lines.	11/6/2014 3:54 PM
3269	No, there's no bus anymore. Used to ride the 47.	11/6/2014 3:54 PM
3270	During commuter hours they are fine. Need more support later at night	11/6/2014 3:54 PM
3271	Timeliness of buses is an issue and with rush hour traffic it is sometimes faster to walk!	11/6/2014 3:54 PM
3272	They work great, but the UW Stadium light rail station will be even better.	11/6/2014 3:54 PM
3273	I used to bus it, but the 555 runs too rarely. 271 is great, but there is no reasonable connection between U-district and Northgate transit center and no parking in the U-district.	11/6/2014 3:53 PM
3274	yes - frequently experience delays, and occasionally can't board a bus during my commute due to overcrowding	11/6/2014 3:52 PM
3275	The ST buses to Redmond are overfull, especially the 545. i have no complaints about the 43 or the 48 which are my other usual buses. They are mostly on time and very convenient.	11/6/2014 3:52 PM
3276	For the most part, buses and light rail can get me where I want to go, but at a far slower pace than driving.	11/6/2014 3:52 PM
3277	Yes, for UW and Univ. District Yes for downtown But have to transfer for Capitol Hill, not always convenient Very hard to get to First Hill by transit from Eastside Seattle Center requires using Monorail, not practical in the evening	11/6/2014 3:51 PM
3278	They work to get me from home to work, and buy basic necessities (food, clothing, etc.). I would rate them as "basic-adequate".	11/6/2014 3:51 PM
3279	Yes.	11/6/2014 3:51 PM
3280	Reduction in the Metro #30 has been very difficult for me, especially the elimination of all weekend service. I understand why people don't want to ride the bus, when they have to wait 30+ minutes for a 75 or 30 (when it runs) and then the buses are packed. Reduction in service has made it even more difficult.	11/6/2014 3:50 PM

3281	Yes. Buses are pretty much on time, some delays, not too significant. Love the light rail to the airport, it is easy to use, available, comfortable and clean. Would love to see the light rail connect to many more locations.	11/6/2014 3:50 PM
3282	They work well enough.	11/6/2014 3:50 PM
3283	Yes, I mostly take Link light rail, and love it. But it is often very competitive to find a spot to put my bike when I take it with me in the morning. I am worried that I won't be able to take my bike once the trains go to the University. When I can't ride light rail, I take the bus or drive if there is more than one bus connection required.	11/6/2014 3:49 PM
3284	Yes but east to west/west to east is very slow and crowded.	11/6/2014 3:49 PM
3285	Yes, I ride it to work.	11/6/2014 3:48 PM
3286	I have to keep in mind when I can use a couple of the buses to NE Seattle because the route changes and I couldn't get home from a concert at the SEattle Center before my section of the bus was eliminated.	11/6/2014 3:48 PM
3287	Mostly. It will be nice when the LINK opens on Capitol Hill to the UW. It is a hassle to get to Capitol Hill having to transfer from the LINK. There is not good bus service from downtown to Capitol Hill.	11/6/2014 3:48 PM
3288	I currently use the bus to go to work. However we are moving our offices to beacon hill from downtown and many of my coworkers they live in green lake and other northern neighborhoods will have a very long commute with a transfer because of the lack of options.	11/6/2014 3:48 PM
3289	The bus works well but is very crowded in the morning. Would love if light rail or trolley like the SLU went from downtown, up Eastlake, and to the University District.	11/6/2014 3:48 PM
3290	Usually I can figure out a good route. But the arrival times are not very accurate.	11/6/2014 3:47 PM
3291	They work well besides overcrowding. The onebusaway app however gives some strange estimations on bus arrivals. I generally find it inaccurate so then I end up waiting at a bus stop for 20 minutes when I thought it would be less than 5. Sometimes buses seemingly disappear from the arrival schedule. Of course, I eventually get to where I want to go. It'll just take more time.	11/6/2014 3:47 PM
3292	They are wonderful, if a bit slow.	11/6/2014 3:47 PM
3293	The 197 works, but I get on at the last stop at Kent-Des Moines PR and its always full.	11/6/2014 3:47 PM
3294	Yes, I am able to get to my destinations with allowing plenty of time.	11/6/2014 3:46 PM
3295	Yes, but routes force transfers and wait times can be long.	11/6/2014 3:45 PM
3296	The 8 needs to run more often. Would be great if there was a dedicated transit lane on Denny Way.	11/6/2014 3:45 PM
3297	Fairly well. I get most places with little inconvenience.	11/6/2014 3:45 PM
3298	The buses are far more crowded since 9/19/14. Standing room only most trips from Seattle to kenmore or Kirkland	11/6/2014 3:45 PM
3299	Transit options for commuting down town work pretty well for me. I wish that options esp. on the commute home were more reliable. Buses can be late which is very challenging when you have a toddler who needs to get home from daycare and get ready for bed.	11/6/2014 3:44 PM
3300	They work ok but many of the buses I take tend to be unreliable and/or crowded.	11/6/2014 3:44 PM
3301	My main destinations are downtown or the U, and the options are fine.	11/6/2014 3:44 PM
3302	Car, Bike, Metro Bus	11/6/2014 3:44 PM
3303	they work pretty well, bus 16 is getting super crowded and often passes me when they are full during the 9 to 5 rush hour.	11/6/2014 3:44 PM
3304	I can get there but not in a very fast or convenient way. Fares go up, service is reduced and buses are standing room only even when it's not rush hour.	11/6/2014 3:43 PM
3305	I love using the light rail to get to the airport and I'm looking forward to its expansion.	11/6/2014 3:43 PM
3306	They're okay. Anything that takes a half hour or less from door-to-door is acceptable. Most trips, as long as they are one bus and do not need a transfer, manage around 30 minutes. Once trips start projecting to take longer than 30 minutes, that's when I either don't go anymore, or plan on driving.	11/6/2014 3:43 PM
