21                   2.49.090.

22                   **STATEMENT OF FACTS:**

23                   1. The King County council established the cultural development  
24                   authority of King County in 2002 by adopting Ordinance 14482 in order to  
25                   continue support for cultural resources, including arts, heritage, historic  
26                   preservation and public art.

27                   2. The purpose of supporting cultural resources, according to Ordinance  
28                   14482, is to create a vibrant cultural community that enhances King  
29                   County's livability and reputation as a national and international cultural  
30                   center.

31                   3. The cultural development authority of King County, known as  
32                   4Culture, makes the region vibrant by administering and supports  
33                   programs for King County's arts, heritage, preservation and public art.

34                   4. 4Culture's work includes: funding individual artists, artist groups and  
35                   arts organizations that provide access to art experiences for all King  
36                   County residents and visitors; helping communities recognize, preserve  
37                   and explore our shared heritage; supporting the preservation of historic  
38                   places that give King County its character; and commissioning and  
39                   collecting for the King County Public Art Collection, bringing artists'  
40                   thinking to the shared spaces and offering consulting to the region.

41                   5. 4Culture provides annual arts and heritage grants to over four hundred  
42                   individuals and organizations in King County, putting public resources to

43 use all over King County.

44 6. The 4Culture board, executive director, staff and advisory committees  
45 have demonstrated a commitment to addressing racial, geographic and  
46 income-related funding inequities and creating an environment in which  
47 all King County residents participate actively in cultural opportunities.

48 7. In May 2011, the Washington state Legislature passed ESSB 5834,  
49 which guaranteed that lodging taxes would fund King County cultural  
50 programs for the long-term by allocating 37.5 percent of lodging taxes  
51 beginning in 2021 for arts and culture.

52 8. The King County council has determined that public funding for  
53 cultural programs necessitates greater oversight and accountability to the  
54 public. To increase oversight and accountability, the council wishes to  
55 have the opportunity to annually review and accept the cultural  
56 development authority's budget while maintaining the authority's existing  
57 ability to implement grant awards, projects and programs independently.

341 heritage program revenues, but sustained support shall receive at least twenty percent of

342 the seventy percent;

343           2. For special projects, thirty percent of remaining heritage program revenues,

344 and

345           ~~((H.))~~ F. Hotel-motel revenues from the arts and cultural development fund shall

346 not be used to support services and programs to be provided by the King County

347 landmarks commission for land use regulation and archaeological resource management

348 purposes as described in K.C.C. chapter 20.62.

349           SECTION 17. Ordinance 14482, Section 58, as amended, and K.C.C. 4.40.015

350 are hereby amended to read as follows:

351           A. All capital improvement projects that are publicly accessible and visible, or

352 for which there is a need for mitigation, shall contribute to the county's public art

353 program.

354           1. The amount of the annual appropriation for public art shall be equal to one

355 percent of the eligible project costs of those capital improvement projects that meet the

356 criteria of public visibility and accessibility or need for mitigation. For the purposes of

357 calculation, eligible project categories shall include capital improvement program

358 projects for new construction, reconstruction or remodeling of buildings, parks and trails,

359 commemorative structures, pedestrian and vehicular bridges, surface water management

360 projects, wastewater treatment projects, transit facility construction projects and solid

361 waste transfer stations.

362           2. The following project categories shall be considered ineligible and may be

363 excluded from the public art program calculation base: roads; airport runways; sewers;

364 and solid waste landfills. This ineligibility shall not preclude a client department, in

365 cooperation with the cultural development authority, from proposing a public art project  
366 for a road, airport runway, sewer or solid waste landfill project that presents an  
367 opportunity for the inclusion of public art.

368           3. At a minimum, the amount budgeted for public art in a capital improvement  
369 project shall be equal to one percent of the following project elements: conceptual  
370 design, design, contracted design, preliminary engineering, construction, contingency,  
371 county force design and project administration and construction engineering. Costs  
372 associated with the predesign phase of the county's capital planning projects meeting the  
373 above criteria and anticipated to result in construction, shall be included in the calculation  
374 for public art.

375           4. The following project elements may be excluded from the budget calculation  
376 for public art: acquisition equipment and furnishings; and county force acquisition.  
377 Asbestos abatement may also be excluded from the budget calculation for art when the  
378 costs for asbestos abatement have been calculated and a line item budgeted for asbestos  
379 abatement as been established within the project budget.

380           5. In all cases, where a capital improvement project has a scope of work that  
381 includes both eligible and ineligible project elements and eligible and ineligible project  
382 categories, the budget for public art shall be calculated, at a minimum, in the eligible  
383 portions of the project.

384           B. At the time a capital improvement project is proposed, the client department  
385 shall calculate and include a budgeted line item for public art in each eligible project  
386 described in this section. The executive's budget representative shall confirm the  
387 calculations with the cultural development authority and include the agreed-upon

388 appropriations for public art in the executive's proposed budget. The amounts budgeted  
389 for public art in particular projects may be adjusted to reflect council changes to the  
390 county capital improvement program budget or supplemental budgets. The appropriation  
391 for public art shall be transferred to the arts and cultural development fund and from there  
392 to the cultural development authority as soon as the appropriation is made for the capital  
393 improvement project, and as soon as funds are available, except as otherwise provided in  
394 K.C.C. 2.49.170.

395 C. The source of the funds shall not affect the calculation for public art for a  
396 capital improvement project unless the conditions under which the revenue is made  
397 available prevent its use for artistic purposes. In this case, the revenue shall be excluded  
398 from the eligible project costs on which the one percent calculation for art is based.

399 D. A policy is hereby established to direct the pooling of all public art program  
400 revenues on a departmental basis. Interest generated by public art revenues shall not be  
401 pooled on a departmental basis. However, interest from all revenues shall be pooled  
402 collectively and used for the purposes established in this section.

403 Pooling affords the opportunity to look at the needs of the county as a whole and  
404 use the public art revenues only in those projects that may have the greatest impact on  
405 communities or offer the best opportunities for artist involvement. Pooling on a  
406 departmental basis affords the opportunity for the cultural development authority and  
407 client departments to work collaboratively on projects that reflect the missions and goals  
408 of individual departments and to ensure that public art projects are adequately funded.  
409 The decision regarding capital improvement projects that will include a public art project  
410 shall be determined jointly by the cultural development authority and the client

411 department according to the procedures and criteria in this section and K.C.C. 2.46.150.

412 E. Revenues shall support the following uses:

413 1. The selection, acquisition and display of works of art, that may be an integral  
414 part of the project or placed in, on or about the project or other public space;

415 2. Artist fees, design, planning and predesign service contracts and  
416 commissions;

417 3. Expenses for technical assistance provided by either architects or engineers,  
418 or both, and to artists in order to design, document or certify the artwork;

419 4. Repair and maintenance of public artworks accessioned into the county's  
420 public art collection to the extent permissible under generally accepted accounting  
421 principles, grants, contracts and law;

422 5. Public art program administrative expenses relating to acquiring, developing  
423 or maintaining public art to the extent permissible under generally accepted accounting  
424 principles, grants, contracts and law;

425 6. Participation by citizens or costs of communicating with and receiving input  
426 from citizens, working with professional artists, introduction of public art to children, and  
427 education of the public about the county's rich cultural and artistic heritage;

428 7. Documentation and public education material for the public art program;

429 8. Liability insurance for artists; and

430 9. Pilot projects approved by the cultural development authority.

431 SECTION 18. Ordinance 17527, Section 57, as amended, and K.C.C. 4.40.110

432 are hereby amended to read as follows:

433 In the case of any county construction project that meets the eligibility criteria for

---

434 public art established in K.C.C. 4.40.015 that involves the use of general obligation bond  
435 proceeds, the resolution, resolutions, ordinance or ordinances submitted to the voters or  
436 the council shall include an allocation for public art equal to one percent of the eligible  
437 project cost. Bond revenues for public art shall be transferred to the cultural development  
438 authority as described in K.C.C. 4.40.015 to the extent consistent with arbitrage

439 requirements and other legal restrictions, except as otherwise provided in K.C.C.  
440 2.49.170.
