EXECUTIVE SUMMARY

The Fife School district encompasses parts of Fife, Milton, Edgewood, unincorporated areas of Trout Lake, Jovita, and Fife Heights within Pierce and King County, and a portion of the Port of Tacoma. According to the Office of Financial Management (2016) more than 21,000 people are estimated to reside within the 10 square miles of the district boundaries.

The district currently educates more than 3,700 students of a diverse and growing population. As a proud member of the Schlechty Center's Standard Bearer Network, the employees, teachers, and community work toward the success of each individual student. Due to the growing population, the Fife School district elects to prepare a Six-Year Capital Plan.

The Fife School District Six-Year Capital Facilities Plan is prepared in compliance with the Growth Management Act (RCW 36.70A) for the counties of King and Pierce and the municipalities of Edgewood, Fife, and Milton for the purposes of collecting impact fees. The Capital Facilities Plan contains a six-year capital facilities plan, enrollment projections, standard of service, and overall capacity. Additional information is included to support the capital plan for the various comprehensive plans in the Fife School district.

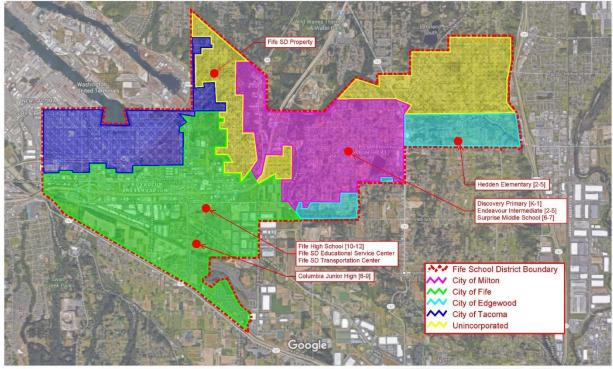

As a component of the Six-Year Capital Facilities Plan, the district has incorporated aspects of its long-range capital plan designed to reinforce the strategic mission and vision of the district and enhance the education and safety of all students. As a district that encompasses more than one jurisdiction, many aspects of information reside in multiple places and for the purposes of this plan are integrated into one data set. In addition, the district has historically seen significant growth due to its standards of service, dedication to its community, and location near to Tacoma and Seattle. As such, the Six-year Capital Facilities Plan, updated and adopted by the School District Board annually, continues to adjust to the changing needs of the community it serves.

BACKGROUND

District Introduction

The Fife School District encompasses parts of Fife, Milton, Edgewood, unincorporated areas of Trout Lake, Jovita, Fife Heights within Pierce and King County, and a portion of the Port of Tacoma. The boundaries of the district do not coincide with any single municipality or government boundary. According to the Office of Financial Management (2016) more than 21,000 people are estimated to reside within the 10 square miles of the district boundaries.

Imagery ©2017 Google, Map data ©2017 Google 2000 ft

The district currently educates more than 3,700 students in a diverse and growing population. As a proud member of the Schlechty Center's Standard Bearer Network, the district works toward the success of each individual student believing that "all students deserve our attention, the opportunity to be engaged in high quality work, support and encouragement as they progress in our learning system" (Fife Public Schools Mission).

The Fife School district includes six schools under the following grade level configurations:

- Pre-kindergarten for special needs through first grade at Discovery Primary School
- Second through fifth grades at Endeavour Intermediate School and Alive V. Hedden Elementary School
- Sixth through seventh grades at Surprise Lake Middle School
- Eighth through ninth grades at Columbia Junior High School
- Tenth through twelfth grades at Fife High School

Capital Plan Introduction

The Fife School District Six-Year Capital Facilities Plan is prepared in compliance with the Growth Management Act (RCW 36.70A) for the counties of King and Pierce and the municipalities of Edgewood, Fife, and Milton for the purposes of collecting impact fees. The Capital Facilities Plan contains

- standard of service,
- facilities inventory,
- enrollment projections,
- capacity, and
- a six-year capital improvement plan.

Additional information is included to support the capital plan and for the various comprehensive plans in the Fife School district.

The Growth Management Act (GMA) authorizes jurisdictions to collect impact fees to supplement funding of additional public facilities needed to accommodate new development. To collect impact fees, a local jurisdiction must have adopted a GMA school impact fee ordinance, and must approve the district's Capital Facilities Plan as a component of their comprehensive plan. The district will utilize the State Subdivision Act and the State Environmental Protection Act (SEPA) to collect mitigation fees in those jurisdictions where there is no GMA impact fee ordinance.

STANDARD OF SERVICE

Fife School district is committed to providing "...an engaging and safe environment where learning is linked to life" (Fife Public Schools Mission Statement). As a Standard Bearer district, Fife is a leader in school reform and is committed to giving all students the "...opportunity to be engaged in high quality student work, support and encouragement as they progress in our learning system" (Fife Public Schools Strategic Plan Adopted 2015). As part of the district's commitment to a high standard of learning, each school building develops a School Improvement Plan identifying the strategic goals of the building as well as their alignment to the district's strategic plan.

Keeping class sizes at an optimal level is a critical component in reaching these goals. Due to incredible community support, and increased basic education funding from the State, the district is able to set this standard at approximately 18-25 students per class, with first priority at the primary grade levels (K – 4). Students are provided traditional basic education programs which include reading, writing, math, social studies, science, physical education, health, music and art. Additionally, there are scheduled times in computer labs and a number of special programs such as special education, English Language Learners (ELL), preschool, remediation and other programs designed to serve special populations.

Every year, the school district board adopts its annual budget approving the number of teachers to meet the target class sizes. The district budgets to maximize support from Washington State according to the formulas of RCW 28A.150.260. Due to growth in the district, some class sizes are larger than the district's target to accommodate incoming students.

ELEMENTARY SCHOOLS

There are three elementary schools in the district serving special needs pre-kindergarten, kindergarten and first grades in Discovery Primary, and second through fifth grades in Hedden Elementary and Endeavour Intermediate. As noted earlier, the district's standard of service aims to keep class sizes for elementary students small ranging from 18-25 students per a class with a prioritization on kindergarten through fourth grades being closer to 18 students per room. In addition, the special needs pre-kindergarten students require smaller student to teacher ratios. However, due to their unique programmatic needs, these rooms are not included in the projected capacity needs.

MIDDLE SCHOOL AND JUNIOR HIGH

The basic education programs for the middle school and junior high school are similar in many of their components including mathematics, science, language arts, health, and physical education. The district's standard of service for middle and junior high schools tries to keep the class sizes to approximately 25 students.

FIFE HIGH SCHOOL

Fife High School aims to maintain a standard of service that has twenty-five or less students in each classroom depending on the subject taught. The current grade configuration of the school is tenth through twelfth grades with ninth grade at Columbia Junior High. There is consideration of the district to reconfigure the grades in the future to a comprehensive ninth through twelfth grade as a result will be included in future plans.

CAPITAL FACILITIES INVENTORY

The Growth Management Act (GMA) (RCW 36.70A.020) states as a goal to "…ensure that those public facilities and services necessary to support development shall be adequate to serve the development at the time the development is available for occupancy and use without decreasing current service levels below locally established minimum standards." The Capital Facilities Inventory identifies the existing facilities providing services for the Fife School district. Facility capacity and projections are addressed in the Capacity and Space Needs section.

Table 1 – Facilities Inventory

	Served	Size (Acres)	Building Area (square feet)	Portable Area (square feet)	Capacity (excluding portables)
iscovery Primary School	K-1 + Special Needs Pre-K	7.045	57,047	8,960	485

Information Required by Pierce County

Discovery Primary School

1205 – 19th Avenue, Milton, WA 98354 Built new and opened in 1992.

Alice V. Hedden Elementary School

11313 8th Street East, Edgewood, WA 98372 Built new and opened in 2001.

Endeavour Intermediate School

1304 17th Avenue, Milton, WA 98354

Originally constructed as Milton Elementary School in 1951 with additions in 1953, 1955, 1958, 1962, and 1968. Modernized in 1975. Closed one year for some demolition, total modernization and addition. Reopened in 1993 as Endeavour Intermediate School.

(grades K-1 and preschool)

(grades 2-5)

(grades 2-5)

Surprise Lake Middle School

2001 Milton Way, Milton, WA 98354 Originally constructed in 1970. Extensive modernization and addition in 1992. Main offices and Counselors offices remodeled 1998.

Columbia Junior High School

2901 54th Avenue East, Tacoma, WA 98424 Built new and opened in 2003. Performing arts auditorium, sports and athletic complex completed in 2004.

Fife High School

5616 20th Street East, Tacoma, WA 98424 Originally constructed in 1930 with additional buildings and space added in 1949, 1956, 1958, 1960, 1961, 1970 and modernization in 1975. Some demolition, extensive modernization and addition completed in 1995. Alternative High School modernized in 1997.

Transportation Center

5601 20th Street East, Tacoma, WA 98424 Built new in 1996.

Educational Services Center

5802 20th Street East, Tacoma, WA 98424 Located in a portion of the old Fife Elementary School. Modernized in 1997.

(grades 6-7)

(grades 8-9)

(grades 10-12)

ENROLLMENT PROJECTIONS

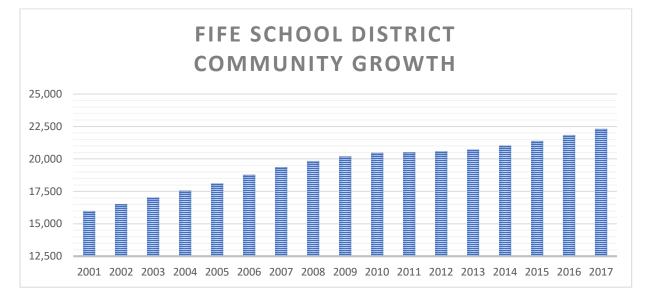

The district incorporates the Office of the Superintendent of Public Instruction's (OSPI) Cohort Survival Method as well as estimated birth rates to project student enrollment. These methods are widely used across the state and nationally and are recognized as providing accurate short-term projections. The method does not incorporate real-time population changes and the Fife School district resides within one of the fastest growing regions nationally. As such, actual student enrollment frequently exceeds the projected enrollment.

The Cohort Survival Method computes progressive ratios for each grade level and averages those ratios over the past five years. The average ratio is then multiplied by the actual current year's enrollment using the October headcount for each grade to project the enrollment in the next grade for the next year. For example, the average ratio over the past five years for second grade is multiplied by the current first grade class to project the enrollment when they enter the second grade.

This method does not take into account migration of new students moving into the district. To anticipate enrollment impacts from students moving into the district, comprehensive plans and population statistics from the counties and cities in and surrounding the district are compared to the projected student enrollment from the Cohort Survival Method to develop long-range capital plans. Due to the district's unique geography covering parts of three cities and two counties, no single source of current information is available. The Office of Financial Management (OFM) provides a school district Small Area Estimate Program (SAEP), estimated historical population counts by school district, as well as estimated historical population counts by cities and counties. These estimates are approximations and may have an error rate of 5-15% for every 1,000 in population. However, this information is useful to indicate trends in growth.

According to the school district SAEP, Fife School district grew 32.08% between 2000 and 2010 at a rate between 3-4% annually prior to the recession. Post-recession, this growth slowed significantly to an average of 1.2% with the most recent few years reporting nearly 2% in growth year over year and steadily increasing.

Graph 1 – Fife School District Historical Community Growth

OFM also provides historical estimated population counts for surrounding cities include Fife, Milton, and Edgewood. In 2016, Fife and Milton saw approximately 4% growth in their population, a rate of growth outpacing any projections for the cities or Pierce County. Between 2000 and 2010, Fife grew 92% and since 2010 has grown 8% or an average since 2000 of 4.2%. During the same time periods, Milton grew 20% and since 2010 has grown 10%. Edgewood, of which only a small northern portion is included in the Fife School district, grew 3% and 4% respectively.

In addition to a retrospective look at population and enrollment projections, OFM provides population projections every five years by county. The next population projection is anticipated to be conducted in 2017 and will likely reflect the regions greater than anticipated growth. OFM and the Puget Sound Regional Council (PRSC) provide projections for the use in comprehensive plans. As an example of the community growing faster than projected, Fife was projected to have a population of 9,515 by 2035. As of 2016, Fife exceeded this population growth and continues to grow at a higher than projected rate. The Cohort Survival Method's annual average increase in enrollment projections falls within a 1-2% growth range, however, actual population growth is outpacing these projections.

Another factor in considering population growth and therefore continued School District enrollment growth is the availability of buildable lands for housing units. Pierce County, in partnership with each city, updated the buildable land report in 2012. At that time, it was estimated that the communities within the Fife School District has the capacity to accommodate 7,527 housing units including an adjusted developable land capacity for Edgewood as described in their recently updated comprehensive plan (2015).

In addition, the entering kindergarten class requires a different projection method as there is no existing cohort. This enrollment is projected using the average historical birth rates reported by the Washington State Department of Health for Puyallup and Tacoma, cities adjacent to the Fife School district. The birth rate information for Puyallup, adjacent to the Fife School district to the east and south east, and Tacoma, adjacent to the Fife School district to the northwest and west, show an average increase of two percent (2%) and one percent (1%) respectively. For the Fife School district kindergarten projection, we are using 2% as a conservative projection when considering current building of single family and multi-family units within the district. This rate is multiplied by the prior class to project the incoming kindergarten cohort.

Birth Rate for Puyallup	Number of Births Per Every 1000 People	Average 2%
2015	38.6	2%
2014	38	5%
2013	36.3	-4%
2012	38	-2%
2011	38.6	10%
2010	35.2	
Birth Rate for Tacoma	Number of Births Per Every 1000 People	Average 1%
Birth Rate for Tacoma 2015	Number of Births Per Every 1000 People 19.6	Average 1% 0%
2015	19.6	0%
2015 2014	19.6 19.6	0% 3%
2015 2014 2013	19.6 19.6 19.1	0% 3% -3%
2015 2014 2013 2012	19.6 19.6 19.1 19.6	0% 3% -3% 2%

Table 2 - Department of Health Birth Certificates by Place of Residence

Enrollment projections are updated annually using the most recent headcount reported to the Washington State Office of the Superintendent of Public Instruction and the two methodologies identified above. Below are the current projected enrollments using these methodologies. In addition to the enrollment projections below, the school district provides pre-kindergarten services to their special needs population. These students are estimated to add between 50-60 students to the projected enrollment. As noted previously, the projected enrollment in the table below does not account for current or anticipated population changes. For the purposes of long-range capital planning, the Cohort Survival Method as well as future population changes are incorporated into future facility programmatic needs.

Table 3 – Enrollment Projections

	Actual Headcount Enrollment - October					Projec Enroll						
	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023

Total	3521	3565	3552	3591	3652	3810	3823	3855	3892	3918	3960	4006

*Projections are based on headcount as it is reported to the Office of the Superintendent for Public Instruction using the Cohort Survival Method and for the entering kindergarten class and pre-kindergarten special needs the average birth-rate.

CAPACITY AND SPACE NEEDS

The student population and needs have changed over the years requiring flexibility in the programmatic use of spaces. The district takes into account several factors when determining their capacity and space needs.

- Standard of service by elementary, middle, and high school.
- Number of teachers currently and projected to be assigned under the district's standard of service.
- Planned capacity of a facility when originally built or after the last major remodel.
- Programmatic uses within a facility that may or may not align with the original intended use of the space.
- Number of classrooms needed to meet the basic education programmatic needs within each school.

Special programs significantly affect school capacity by the need for separate space, scheduling accommodations, mandated program requirements, and population changes. Rooms designed for special use are not counted as classrooms.

The projected capacity and space needs utilizes the count of classrooms from the original built floor plans or latest major renovation less any spaces modified to accommodate program changes that remove the classroom from its intended use. For example, Discovery Primary School did not originally plan for three special education classrooms and other core services which removed six rooms from its planned built capacity. Program capacity assumes a standard level of service as adopted by the school district during their annual budget approval process while also trying to maximize state allocations of support.

The district aims to keep class sizes at a headcount between 18-25 and as such uses this range when planning for teachers. Actual student headcount varies year to year and may exceed capacity. For reference, the below table illustrates the current Washington State current allocation and proposed as voted. The Fife School District budgets to maximize this allocation. The voters of Washington State passed Initiative 1351 in 2014 reducing class sizes. As noted in RCW 28A.150.260 and 28A.400.07 the reduced class size implementation has been phased in, with targeted final noted below.

	Current State	Target by Legislature	Target in high poverty
	Allocation		districts
Grades K-3	17.00	17.0	15.0
Grades 4	27.00	25.0	22.0
Grades 5-6	27.00	25.0	23.0
Grades 7-8	28.53	25.0	23.0
Grades 9-12	28.74	25.0	23.0

*Full-time equivalent students per teacher

*Includes special needs pre-kindergarten students in enrollment headcount due to their impact on the programmatic space within Discovery Primary.

SIX-YEAR CAPITAL IMPROVEMENT PLAN

Near-term (2018-2023)

The District's voters approved a \$176 million general obligation construction bond in February 2018. The projects below will be funded from these bonds, as well as state matching funds, and other resources including impact fees. Timing is also contingent on state match funding and some projects may be deferred until funds are available.

- New Surprise Lake Middle School: This is a replacement of the existing middle school due to the age and deterioration of the facility. The projected capacity of the facility is 650 students, and is intended to allow for growth and possible grade reconfiguration in the future of sixth, seventh, and eighth grades split between Surprise Lake Middle School and Columbia Junior High. The Fife High School addition and modernization is intended to provide for possible grade reconfiguration to include capacity for ninth grade, currently at Columbia Junior High, and growth for tenth through twelfth grades. The grade reconfiguration as part of both projects, Surprise Lake and Fife High, provides capacity for grades sixth through twelfth throughout the three schools. Grade reconfigurations are not included as part of this plan, and will be discussed in future capital facilities plans if applicable.
- Addition and modernization of Fife High School: This project allows for the much-needed additional classrooms to accommodate student growth through building a new career and technical education STEAM (science, technology, engineering, arts, and math) Center of Excellence. This will be placed where the current school district Educational Service Center is located. These additional classrooms will provide for an estimated increase of 250 students.
- Relocation of Educational Service Center: To allow for the addition to Fife High School, the district Educational Service Center will need to be relocated. The final site has not yet been determined, and it is expected that the staff and offices will move to a temporary location until a permanent location is secured.
- New Elementary School: A new elementary school will be added to accommodate student growth and overcrowding at the three existing elementary schools. The new school is proposed to accommodate 550 students eliminating the need for portable classrooms currently used at these grade levels. The site for the new elementary school has not been finalized, but the desire is to place the school within the City of Fife. This would provide for an elementary school within all three of the cities of our school district.
- Reconfigure the existing elementary schools: With the addition of a fourth elementary school, it will be necessary to address school boundary revisions and possible grade reconfigurations for all elementary schools. Currently, all special needs pre-kindergarten

students, kindergarten, and first graders within the district go to Discovery Primary. Starting in second grade, the students transition to Endeavour Intermediate or Hedden Elementary based upon the district's boundaries. With this in mind, the district plans to convene a subcommittee to address these topics with the goal of meeting the needs of all students, and lessen the transitions between schools. Any grade reconfigurations will be discussed in future plans.

While addressing these capital facility projects, it is important to note there continues to be a gap in the available spaces and the programmatic needs to accommodate the continually growing student population. In the interim, spaces may need to be renovated or additional relocatable classrooms added to meet needs.

Mid – and Long-term (2024+)

The district is in process of developing a long-range capital facilities plan. The outcome will be an incremental plan to achieve the following goals.

- Create an environment where all students are being prepared for college, career, and life.
- Continue to provide a safe and engaging environment for students to learn.
- Align the School District's Strategic Plan, Building Strategic Plans, and Capital Plan for continued educational excellence for all students.
- Expand Science, Technology, Engineering, Arts, and Mathematics educational opportunities.
- Reduce the number of transitions between schools.
- Remove the need for relocatable classrooms.
- Maximize existing properties for future development.

PROJECTED CAPITAL COSTS

The Puget Sound region continues to see extraordinary growth and a shortage of labor contributing to unpredictable capital construction costs. The table below utilizes the best information available as of the fourth quarter of 2017 to estimate total project costs escalated to the approximate mid-point of the construction schedule as developed during early phases of the capital planning process. For every year there is a delay in proceeding, escalation will need to be added increasing the overall cost of construction.

Escalation is estimated to be 3.1% according to OFM. Actual construction costs have varied higher and lower than 3.1% and may impact the projects as they move forward. In addition, an allowance for site costs, interior improvements, furniture, and other related expenses are included in the projected project costs. The amounts below do not include any additional finance costs that would result in a bond and/or state match different from what is displayed.

Table 5 – Estimated Near-term Total Project Costs

Phase	Project Name	Projec	ted Total Cost	GSF	Projected Students
PHASE IA	New Middle School	\$	67,685,000	114,000	650
PHASE IA	Relocate Educational Service Center - Site To Be Determined	\$	8,698,000	17,500	
PHASE IB	District Wide Safety and Security Improvements	\$	1,865,000		
PHASE II	New Elementary School on Fife High School Campus or Property To Be Determined	\$	47,051,000	77,000	550
PHASE II	New CTE/STEAM Center of Excellence - @ Fife High School / Educational Service Center Site	\$	30,505,000	29,000	250
ONGOING	District Wide Infrastructure Improvements Project	\$	20,500,000		
		\$	176,304,000		

IMPACT FEES

Impact fees are calculated on the basis of the facilities needed to house students from new residential development. Impact fees for Fife School District are shown on page 19. Student Generation Rates (SGR) used in this plan are the averages from the following surrounding school district's current capital facilities plan: Auburn, Bethel, Puyallup, and Sumner. The individual student generation rates and averages are shown on Table 6 in the Appendix. Based on current calculations as shown in Table 7 in the Appendix, the single-family rate is calculated at \$4,946. The multiple-family rate is calculated at \$2,043.

APPENDIX

Fife School District Student Generation Rates*

APPENDIX Table 6 – Student Generation Rates

	Elementary	Middle	High	
Single Family	School	School	School	Totals
Auburn	0.1930	0.0770	0.0730	0.3430
Bethel	0.3550	0.1170	0.0900	0.5620
Puyallup	0.4130	0.1580	0.1470	0.7180
Sumner	0.3100	0.1190	0.1080	0.5370
Single Family Average	0.3178	0.1178	0.1045	0.5400
	Elementary	Middle	High	
Multi Family	School	School	School	Totals
Auburn	0.1030	0.0310	0.0440	0.1780
Bethel	0.2560	0.1020	0.1060	0.4640
Puyallup	0.1230	0.0650	0.0510	0.2390
Sumner	0.0950	0.0430	0.0330	0.1710
Multi Family Average	0.1443	0.0603	0.0585	0.2630

Student Generation Rates (SGR) used in this plan are the averages from the following surrounding school district's current capital facilities plan: Auburn, Bethel, Puyallup, and Sumner.

Capital Finance Plan Projects and Financing Plan Sources and Uses of Funds

APPENDIX Table 8 – Sources and Uses of Funds

Sources/Uses	2017-2023
Sources of Funds:	
Existing Revenue:	120,035
New Revenue:	
Bonds, Approved	163,857,829
State Match, Not approved	12,017,000
Impact Fees	309,136
Total Source of Funds:	176,304,000
Use of Funds:	
Capacity Projects:	
Additional Middle School Capacity	5,206,538
High School Addition	2,542,083
(Approx. cost for 1200 students)	
New Elementary	47,051,000
Sub Total:	54,799,622
Non-Capacity Projects:	121,504,378
Major infrastructure improvements and	
safety/security improvements, Surprise Lake	
Middle, Columbia Jr. High, Fife High and Educational Service Center project costs not	
associated with capacity increases. Also	
includes relocation of the Educational Service	
Center	
Sub Total:	121,504,378
Total Use of Funds:	176,304,000
Balance: Surplus or (Deficit)	0

Total Costs	20,778	47,935	71,443	36,147		176,304	176,304	12,017		309,136

*Due to the uncertainty about a state capital budget during the 2017/2018 school year, the state match was not included in the bond program for purposes of estimating the bond amount needed.

1. Project Costs use a 3.1% escalation to the estimated midpoint of construction as discussed in preliminary planning. Actual project costs and schedule will be determined at a future date.

2. State match is unconfirmed and may be modified.

3. Estimated expenditures are based on projected cash flow needs of the project and will need verified during design/construction.

Capital Facility Requirements to 2017-2023

APPENDIX Table 10 – Capital Facility Requirements

	Student	Built	Adj. Student	Net Reserve		ollar Cost @ \$
Time Period	Population*	Capacity	Capacity**	or Deficiency	per Student	
2017	3,810	3,335	3,169	-641	\$	66,599,482
2018-2023	4,006	3,335	3,959	-47	\$	4,907,047

Information required by Pierce County

* Includes pre-kindergarten

** Capacity after adjusting for loss classrooms due to programmatic changes.

Future capacity assumes projects move forward as planned.

School District Cost per Student Headcount

APPENDIX Table 11 - Cost per Student

District Name	Elementary School		Middle / Junior High School		Senior High School		
Fife	\$	85,547	\$	104,131	\$	122,020	

Information required by Pierce County

Calculated using the projected total project costs divided by the estimated total capacity.

Square Feet per Actual Student Headcount (October 2017)

APPENDIX Table 12 – Square Feet per Student

Grades	Current Student Enrollment	SF per Student			
K-5	1729	94			
6-7	599	120			
8-9	592	155			
10-12	838	167			

Information required by Pierce County

Projects Capacity to House Students

APPENDIX Table 13 – Projects Capacity to House Students

	2017	2018	2019	2020	2021	2022	2023
Adjusted Program Capacity	3169	3169	3169	3169	3309	4109	4109
Portable Capacity	638	638	638	638	550	88	88

Surplus / (Deficit) w Portables	-3	-17	-49	-34	278	235	190
Is for any line of the Direct Country							

Information required by Pierce County

*2020: Surprise Lake Middle School replacement will be open to accommodate 650 students. This addresses growth of 140 above its current program capacity.

*2021: Additional elementary school will open to accommodate growth for 550 students.

*2021: Fife High School addition will open to accommodate growth for approx. 250 students.

**Student projected headcount may be -/+ 1 due to rounding.

***Please refer to Table 4 for adjusted program capacity details.
