#### Title: Flood District Capital Carryover

# Requesting Agency: KING COUNTY FLOOD CONTROL CONTRACT(EN\_A56100)

Reappropriate the 2017-2018 budget balance. The Water and Land Division is the contracted service provider to the King County Flood Control District. The County Council grants appropriation for this body of work, which contains both operating and capital elements, to a single operating fund (1561). Consequently, unused appropriation for the capital program does not automatically carryover, as it does for other capital programs, and must be manually reappropriated at the beginning of each new biennium.

#### Title: Legal Services for Immigrants and Refugees

#### Requesting Agency: COMMUNITY SERVICES OPERATING (EN\_A88800)

Accept revenue from the City of Seattle's Office of Immigrant and Refugee Affairs and provide appropriation for DCHS to procure services under the Expanded Legal Defense Network partnership. This VSHSL Strategy, SE6, was originally budgeted assuming DCHS would transfer the County's portion of the funding to Seattle. Since then, the partnership has decided DCHS should procure this program, so the City will transfer its portion of the funding to DCHS and DCHS will manage the entirety of the funding for this strategy, with input from and in partnership with the City.

Interfund loan interest expense is expected to be approximately \$635K over the life of the loan. The current plan is to pay the remaining loan balance back over four years from the General Fund with the last payment in 2022. The payments are \$2.3 million per year with the last year payment approximately \$1.87 million.

2017-2018 interest expense of \$273,160 included in 2019 amount.

Interest expense revenue is built into the loan amount of \$2.3 million per year.

#### Description of Request:

The Omnibus Supplemental includes requests for additional budget authority to move forward three projects and realign the budget between three other projects. The largest change is related to the Interim Base project which is requesting new appropriation of \$26.7 million to accommodate costs associated with the baselined project. Other requests include funding for Trolley Overhead work in Ballard, fall protection work, and realigning budget across the three elements of the One Center City project. Funding for these efforts will come from the Public Transporation Fund - Infrastructure capital fund and will be offset over the course of the 10 year CIP to have no financial effect.

Does this legislation require a budget supplemental? Yes.

Notes and Assumptions:

The additional costs represented in the supplemental budget will be offset over the current 10 year CIP either with debt for eligible projects or with reductions in other project spending.
