7 **PREAMBLE:**

8 Every year, King County faces threats from flooding, the impacts of which
9 are far-reaching and pose significant threats to public health and safety
10 and economic activities throughout the county.

11 The one hundred-year floodplain in King County covers more than
12 twenty-five thousand acres or almost forty square miles. County flood
13 protection facilities protect property with an estimated assessed valuation
14 of more than seven billion dollars. The flood control needs in King
15 County are described more extensively in the 2006 King County Flood
16 Hazard Management Plan, adopted by Ordinance 15673 in January 2007.

17 One of the most fundamental functions of government is to protect
18 citizens and public and private property from the ravages of natural
19 disasters such as flooding.

20 Flood control needs exist throughout the county, and an integrated and
21 coordinated approach is needed to effectively and efficiently address those
22 needs to ensure that public safety and property are protected and our
23 region's prosperity is sustained.

24 Pursuant to chapter 86.15 RCW, the metropolitan King County council
25 created the countywide King County Flood Control Zone District in April
26 2007 to provide a comprehensive approach to flood protection.

27 Pursuant to chapter 86.15 RCW, the adopted 2006 King County Flood
28 Hazard Management Plan constitutes the initial Comprehensive Plan for
29 the King County Flood Control Zone District.

30 As part of the ordinance creating the King County Flood Control Zone
31 District, an advisory committee was created in April 2007 to provide
32 recommendations on the district's work plan and budget.

33 The King County Flood Control Zone District advisory committee met
34 between May and July 2007 and recommended the district's proposed
35 work plan and a property tax levy of ten cents per thousand dollars of
36 assessed valuation to implement the work plan and provide enhanced
37 flood protection in King County.

38 The advisory committee's recommendations will be reviewed by the King
39 County Flood Control Zone District board of supervisors as part of the
40 2008 King County budget adoption process.

41 Separate King County Flood Control Zone District operating and capital
42 funds are hereby created to provide for the receipt of revenues and the
43 disbursement of expenditures for the provision of flood hazard reduction
44 services as outlined in chapter 86.15 RCW. The funds shall be first tier
45 funds as described in this chapter. The department of natural resources
46 and parks shall be the fund manager.

47 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

48 NEW SECTION. SECTION 1. There is hereby added to K.C.C. chapter 4.08 a
49 new section to read as follows:

50 A. There is hereby created the King County flood control operating contract
51 fund. This fund shall be a first tier fund as described in this chapter.

52 B. The director of the department of natural resources and parks, or its successor
53 agency, shall be the fund manager.

54 C. The purpose of this fund is to provide for the revenues to and expenditures by
55 King County, on behalf of the King County Flood Control Zone District, as established in
56 Ordinance 15278, in performance of services associated with the operating functions of
57 the district.

58 NEW SECTION. SECTION 2. There is hereby added to K.C.C. chapter 4.08 a
59 new section to read as follows:

60 A. There is hereby created the King County flood control capital contract fund.

61 This fund shall be a first tier fund as described in this chapter.

62 B. The director of the department of natural resources and parks, or its successor
63 agency, shall be the fund manager.

64 C. The purpose of this fund is to provide for the revenues to and expenditures by
65 King County, on behalf of the King County Flood Control Zone District, as established in
66 Ordinance 15278, in the performance of services associated with the capital functions of
67 the district.
