ER2 EXPENDITURE RESTRICTION

Of this appropriation for capital project 1123944, Property Tax Accounting System, \$7,000,000 shall be expended or encumbered solely for the procurement phase of the project up until the identification of the preferred or highest-ranked main contractor or vendor to replace the existing property tax accounting system that is at risk of failure. No moneys restricted by this expenditure restriction shall be used to award a contract until Proviso P3 of this section is satisfied.

ER3 EXPENDITURE RESTRICTION:

Of the appropriation to the parks capital fund, \$75,000 shall be expended or encumbered solely for a study on connecting the interurban trail at the border of King County and Snohomish County.

ER4 EXPENDITURE RESTRICTION:

Of the appropriation to the parks capital fund, \$25,000 shall be expended or encumbered solely to undertake a study, in consultation with the city of Kent, relating to options for a nonvehicular and nonequestrian trail connection on department of natural resources and parks land parcel 9127 from the future East Hill North Community Park site to SE 224th Street.

P1 PROVIDED THAT:

Of this appropriation, \$1,000,000 for capital project 1143934, South Plant Co-Digestion ("WTD capital

project"), and \$9,500,000 for capital project 1143795, Solid Waste Co-digestion Pre-processing Facility ("SWD capital project"), shall not be expended or encumbered until the executive transmits a commercial organics co-digestion planning report and a motion that should acknowledge receipt of the report, and a motion acknowledging receipt of the report is passed by the council. The motion should reference the subject matter, the proviso's ordinance number, ordinance section and proviso number in both the title and body of the motion.

A. For the purposes of this proviso, "feedstock" means the organics collected from generators of organic waste materials and is used as an input for a processing facility.

B. The department of natural resources and parks, solid waste division ("SWD") and wastewater treatment division ("WTD"), shall coordinate on the development of the commercial organics co-digestion planning report. The report shall include, but not be limited to, the following:

1. A description of the public engagement process used by SWD that includes a list of the stakeholders approached, how these stakeholders were engaged and a summary of the stakeholder concerns. The public engagement process shall include, but not be limited to, outreach to entities that provide organics collection to commercial customers or that provide organics processing;

2. An analysis from SWD that describes how the SWD capital project is expected to impact existing entities that provide organics collection to commercial customers or that provide organics processing while respecting the open-market system for commercial organics collection currently in place; i.e., rate subsidies should not be considered. The analysis shall include identification of any potential adverse impacts to these entities, including those resulting from competition for feedstock, and recommended strategies to mitigate the adverse impacts identified;

3. A discussion from SWD that provides justification for moving forward with this SWD capital project instead of other potential actions to enhance or expand the regional organics collection and processing system. The discussion shall specifically consider: (1) providing additional supports to existing entities that provide organics collection to commercial customers or that provide organics processing in order to expand

regional capacity; or (2) moving forward with the exploratory partnership between the county and the Port of Seattle on sustainable aviation fuel if organics are identified in the ongoing feasibility study as potential aviation fuel feedstock;

4. An analysis from SWD for how it intends to flow control open market organic recyclables for digestion with respect to the current open market system;

5. An analysis from WTD that evaluates whether the utilization of anaerobic digesters at the South Treatment Plant in Renton for the co-digestion of organics with wastewater solids is likely to impact the designation and value of environmental credits referred to as Renewable Information Numbers ("RINS") attached to the sale of South Plant biomethane, and how any such an impact relates to provisions of the agreement for sale of South Plant biomethane and associated environmental credits; and

6. Separate project plans for the WTD and SWD capital projects, or a joint project plan that encompasses both projects. The separate project plans or the joint project plan shall be informed by the public outreach process described in subsection B.1. of this proviso and the analyses required by subsection B.2, 3., and 4 of this proviso. The separate project plans or the joint project plan shall include, but not be limited to, the following:

a. the WTD and SWD analyses on the best use of the commercial organics anticipated to be available as RCW 70A.205.545 is implemented;

b. the business case for the county providing justification for the county's investment in the WTD and SWD capital projects;

c. whether the SWD capital project will be operated by a third party or SWD, as well as the justification supporting the selected operator choice;

d. whether land acquisition will be needed to site the SWD capital project or whether existing county-owned land such as the Renton Recycling and Transfer Station will be used;

e. how the feedstock will be secured for the SWD capital project and whether acceptance of organics

will be limited to the SWD service area. If acceptance of organics will not be limited to the SWD service area, the separate project plan for the SWD capital project or the joint project plan shall include a plan for mitigating the potential that the SWD capital project would be supported by revenues from county disposal fee payers but used by nonfee payers;

f. whether all, a portion or none, of the pre-processed organics at the SWD capital project will go to the WTD capital project and a plan for how any pre-processed materials would be transported to the WTD capital project, as well as any supporting analysis;

g. a plan from WTD for mitigating any risks resulting from the impacts identified in the evaluation provided for in subsection B.4. of this proviso related to potential changes in RINS classifications resulting from utilization of WTD's South Plant digesters for co-digesting organics;

h. updated estimated capital and operating costs for both the WTD and SWD capital projects with any assumptions in the cost estimates clearly articulated;

i. a description of any proposed cost recovery or cost sharing arrangements for the WTD capital project and SWD capital project; and

j. next steps for both the WTD and SWD capital projects that include a high-level timeline with significant project actions and milestones.

The executive should electronically file the commercial organics co-digestion report and motion required by this proviso no later than November 1, 2024, with the clerk of the council, who shall retain an electronic copy and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the transportation, economy and environment committee or its successor.

**P2 PROVIDED THAT:**

by the council. The motion should reference the subject matter, the proviso's ordinance number, ordinance section and proviso number in both the title and body of the motion.

The CJ Enterprise Data Hub implementation plan should be developed based on information gathered during Phases 1 and 2 of the CJ Enterprise Data Hub project and shall include, but not be limited to, the following:

- D. A discussion of the policy questions and objectives that the project will be designed to address, a description of the criminal justice data categories that would be included in the data hub and plans for creating a publicly accessible dashboard; and
- E. A plan for implementing the project, including identification of potential funding sources and a project timeline.

The executive should electronically file the plan and motion required by this proviso no later than June 30, 2023, with the clerk of the council, who shall retain the original and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the budget and fiscal management committee, or its successor.

**P3 PROVIDED FURTHER THAT:**

performance, strategy and budget files a capital project notice to release moneys withheld by proviso letter with the clerk of the council, who shall retain an electronic copy and provide an electronic copy to all councilmembers and the lead staff for the budget and fiscal management committee or its successor; (3) when the clerk of the council receives the capital project notice to release moneys withheld by proviso letter, the clerk of the council shall list the capital project notice to release money withheld by proviso letter under other business on the next two consecutive council agendas; and (4) no councilmember objects at either council meeting.
