BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. Findings:

A. The Growth Management Act ("the GMA") and the King County Code ("K.C.C.") allow the adoption of comprehensive plan updates only once per year, except under certain circumstances. The amendments to policies and text in this ordinance constitute the 2022 update to the 2016 King County Comprehensive Plan, as amended.

B. The last statutorily required Comprehensive Plan update required by RCW 36.70A.130 was met with the 2012 King County Comprehensive Plan that was adopted as part of Ordinance 17485. RCW 36.70A.130 requires King County to complete the next statutorily required review of the Comprehensive Plan on or before December 31, 2024. The 2022 update adopted as part of this ordinance does not serve as the statutory update required by RCW 36.70A.130.

C. The 2016 King County Comprehensive Plan launched a Community Service Areas subarea planning program. Community Service Area ("CSA") subarea plans are scheduled to be created for the six rural CSAs and for the five large urban unincorporated potential annexation areas. The CSA subarea planning program recognizes the county's role as a local service provider in the unincorporated area, including for localized long-range planning. Many areas of unincorporated King County have not had subarea planning since the 1990s or earlier. The CSA subarea planning program will provide improved coordination, accountability and service delivery in the area of long-range planning for unincorporated areas of King County.

D. This ordinance adopts the Skyway-West Hill and North Highline Community Service Area Subarea Plans, related map amendments, and modifications to property specific zoning conditions. It also adopts map amendments in the Fall City and Maple Valley areas. Under the K.C.C., the 2022 Comprehensive Plan update is an annual update.

E. The GMA and K.C.C. 20.18.030 require that King County adopt development regulations that are consistent with and implement the Comprehensive Plan. The changes to development regulations and maps in this ordinance maintain conformity with the King County Comprehensive Plan. They bear a substantial

relationship to, are necessary for, the public health, safety and general welfare of King County and its residents.

F. The county adopted the 2020 update to the 2016 King County Comprehensive Plan as part of Ordinance 19146. The 2020 update included Workplan Action 19, directing King County to complete an Anti-displacement Strategies Report for Skyway-West Hill and North Highline.

G. In September 2021, the Skyway-West Hill and North Highline Anti-displacement Strategies Report was transmitted to the council. As stated in the report, its "recommended anti-displacement strategies provide a concrete path for King County's efforts to address historic disinvestment and structural racism in two diverse and culturally rich neighborhoods, in alignment with King County's affordable housing and equity and social justice goals."

H. As a result of the analysis, the Anti-displacement Strategies Report determined that "the combination of rising housing prices, the high rate of cost burdened households, and lower than average incomes put Skyway-West Hill and North Highline residents at increased risk of displacement."

I. To address those displacement risks, the report recommends, and this ordinance adopts, an inclusionary housing program that includes mandatory elements in the Skyway and White Center Unincorporated Activity Centers, and voluntary elements in the remainder of the Skyway-West Hill and North Highline subarea geographies.

J. The inclusionary housing program includes standards for the characteristics of affordable units, allows fee in-lieu payments in limited cases, sets appropriate affordability levels, and requires covenants and deed restrictions specifying the affordability levels and terms.

K. This ordinance also requires a community preference policy for affordable dwelling units built under the inclusionary housing program, in order to further reduce displacement risks.

L. The King County Countywide Planning Policies, King County Comprehensive Plan, Skyway-West Hill Subarea Plan, North Highline Subarea Plan and Regional Affordable Housing Task Force Final Report and Recommendations support the development and use of anti-displacement measures, including mandatory

inclusionary housing and community preference provisions.

SECTION 2. A. Attachments A, B, C and D to this ordinance are adopted as amendments to the 2016 King County Comprehensive Plan, as adopted in Ordinance 18472 and its attachments and as amended by Ordinance 1862, Ordinance 18810, Ordinance 19034 and Ordinance 19146.

SECTION 3. Ordinance 263, Article 2, Section 1, as amended, and K.C.C. 20.12.010 are hereby amended to read as follows:

Under the King County Charter, the state Constitution and the Washington state Growth Management Act, chapter 36.70A RCW, King County adopted the 1994 King County Comprehensive Plan via Ordinance 11575 and declared it to be the Comprehensive Plan for King County until amended, repealed or superseded. The Comprehensive Plan has been reviewed and amended multiple times since its adoption in 1994. Ordinance 19034 (~~and~~), Ordinance 19146 and this ordinance. The Comprehensive Plan shall be the principal planning document for the orderly physical development of the county and shall be used to guide subarea plans, functional plans, provision of public facilities and services, review of proposed incorporations and annexations, development regulations and land development decisions.

However, residences on lots less than one hundred fifty feet in width adjoining A, M or F zones or existing extractive operations shall have a setback from the rear property line equal to fifty percent of the lot width and a setback from the side property equal to twenty-five percent of the lot width.

b. Except for residences along a property line adjoining A, M or F zones or existing extractive operations, lots between one acre and two and one-half acres in size shall conform to the requirements of the R-

1 zone and lots under one acre shall conform to the requirements of the R-4 zone.

10.a. For developments consisting of three or more single-detached dwellings located on a single parcel, the setback shall be ten feet along any property line abutting R-1 through R-8, RA and UR zones, except for structures in on-site play areas required in K.C.C. 21A.14.190, which shall have a setback of five feet.

b. For townhouse and apartment development, the setback shall be twenty feet along any property line abutting R-1 through R-8, RA and UR zones, except for structures in on-site play areas required in K.C.C. 21A.14.190, which shall have a setback of five feet, unless the townhouse or apartment development is adjacent to property upon which an existing townhouse or apartment development is located.

11. Lots smaller than one-half acre in area shall comply with standards of the nearest comparable R-4 through R-8 zone. For lots that are one-half acre in area or larger, the maximum impervious surface area allowed shall be at least ten thousand square feet. On any lot over one acre in area, an additional five percent of the lot area may be used for buildings related to agricultural or forestry practices. For lots smaller than two acres but larger than one-half acre, an additional ten percent of the lot area may be used for structures that are determined to be medically necessary, if the applicant submits with the permit application a notarized affidavit, conforming with K.C.C. 21A.32.170A.2.

12. For purposes of calculating minimum density, the applicant may request that the minimum density factor be modified based upon the weighted average slope of the net buildable area of the site in accordance with K.C.C. 21A.12.087.

13. The minimum lot area does not apply to lot clustering proposals as provided in K.C.C. chapter 21A.14.

14. ~~((The base))~~ This maximum height ~~((to be used))~~ is only ~~((for projects))~~ allowed as follows:

a. in R-6 and R-8 zones, for a building with a footprint built on slopes exceeding a fifteen percent finished grade; and

b. in R-18, R-24 and R-48 zones;

(1) for properties within the Skyway-West Hill or North Highline community service area subarea geographies, only if meeting the requirements of K.C.C. chapter 21A.XX (the new chapter established in section 21 of this ordinance); or

(2) for all other properties, using residential density incentives and transfer of density credits in accordance with this title.

15. Density applies only to dwelling units and not to sleeping units.

16. Vehicle access points from garages, carports or fenced parking areas shall be set back from the property line on which a joint use driveway is located to provide a straight line length of at least twenty-six feet as measured from the center line of the garage, carport or fenced parking area, from the access point to the opposite side of the joint use driveway.

17.a. All subdivisions and short subdivisions in the R-1 zone shall be required to be clustered if the property is located within or contains:

- (1) a floodplain;
- (2) a critical aquifer recharge area;
- (3) a regionally or locally significant resource area;
- (4) existing or planned public parks or trails, or connections to such facilities;
- (5) a category type S or F aquatic area or category I or II wetland;
- (6) a steep slope; or
- (7) an urban separator or wildlife habitat network designated by the Comprehensive Plan or a

community plan.

b. The development shall be clustered away from critical areas or the axis of designated corridors such as urban separators or the wildlife habitat network to the extent possible and the open space shall be placed in a separate tract that includes at least fifty percent of the site. Open space tracts shall be permanent and shall be dedicated to a homeowner's association or other suitable organization, as determined by the

director, and meet the requirements in K.C.C. 21A.14.040. On-site critical area and buffers and designated urban separators shall be placed within the open space tract to the extent possible. 25. For cottage housing developments only:

a. The base height is twenty-five feet.

b. Buildings that have pitched roofs with a minimum slope of six ~~((and))~~ over twelve may ~~((extend up to))~~ achieve a maximum height of thirty feet at the ridge of the roof.

26. Impervious surface does not include access easements serving neighboring property and driveways to the extent that they extend beyond the street setback due to location within an access panhandle or due to the application of King County Code requirements to locate features over which the applicant does not have control.

27. a. For properties within the Skyway-West Hill or North Highline community service area subarea geographies, only in accordance with the inclusionary housing regulations in K.C.C. chapter 21A.XX (the new chapter established in section 21 of this ordinance).

Upper-level setbacks are required for any facade facing a pedestrian street for any portion of the structure greater than forty-five feet in height. The upper-level setback shall be at least one foot for every two feet of height above forty-five feet, up to a maximum required setback of fifteen feet. The first four feet of horizontal projection of decks, balconies with open railings, eaves, cornices((;)) and gutters shall be permitted in required setbacks. In the RB zone on property located within the Potential Annexation Area of a rural city, this density is not allowed.

A. The purpose of the transfer of development rights program is to transfer residential density from eligible sending sites to eligible receiving sites through a voluntary process that permanently preserves urban, rural and resource lands that provide a public benefit. The TDR provisions are intended to supplement land use regulations, resource protection efforts and open space acquisition programs and to encourage increased residential development density or increased commercial square footage, especially inside cities, where it can best be accommodated with the least impacts on the natural environment and public services by:

1. Providing an effective and predictable incentive process for property owners of rural, resource and urban separator land to preserve lands with a public benefit as described in K.C.C. 21A.37.020; and

2. Providing an efficient and streamlined administrative review system to ensure that transfers of development rights to receiving sites are evaluated in a timely way and balanced with other county goals and policies, and are adjusted to the specific conditions of each receiving site.

B. The TDR provisions in this chapter shall only apply to TDR receiving site development proposals:

1. ((s))Submitted on or after September 17, 2001, and applications for approval of TDR sending sites submitted on or after September 17, 2001; and

b. In order to qualify for this program, all units built using the development rights must be either:

(1) rental housing permanently priced to serve households with a total household income at or below ~~((forty))~~ sixty percent of ~~((the median income for the county as defined by the United States Department of Housing and Urban Development, adjusted for household size))~~ AMI. A covenant on the property that specifies the income level being served, rent levels and requirements for reporting to King County shall be recorded at final approval; or

(2) housing reserved for income- and asset-qualified home buyers with total household income at or below ~~((forty))~~ sixty percent of ~~((the median income for the county as defined by the United States Department of Housing and Urban Development, adjusted for household size))~~ AMI. d.(1) The department of natural resources and parks shall track the sale of development rights and completion of units constructed through this program. When the one hundred unit threshold is reached, the department shall, within six months of that date, transmit a report to the council that includes, but is not limited to:

(a) the location of the receiving sites where development rights under this pilot program were used;

(b) lessons learned from the pilot program, including feedback from developers who purchased development rights through the program; and

(c) a recommendation on whether to make the pilot program permanent, repeal the program~~((5))~~ or modify the program.

(2) the report shall be accompanied by a proposed ordinance effectuating the recommendation in subsection A.2.d.(1)(c) of this section.

receiving sites through an interlocal agreement or, after the county enacts legislation that complies with chapter 365-198 WAC, to incorporated receiving sites in a city that has enacted legislation that complies with chapter 365-198 WAC. The TDR bank may sell development rights only in whole increments to unincorporated King County receiving sites.

D. All offers to purchase development rights from the TDR bank shall be in writing, shall include a certification that the development rights, if used, shall be used only inside an identified city or within the urban unincorporated area, include a minimum ten percent down payment with purchase option, shall include the number of development rights to be purchased, location of the receiving site, proposed purchase price and the required date or dates for completion of the sale, not later than three years after the date of receipt by King County of the purchase offer.

The plan should provide no more than and aim to provide forty percent of the affordable dwelling units to tenants that meet the requirements for community preference;
2. An advertising and outreach plan designed to provide information to and attract potential housing applicants who would otherwise be less likely to apply, without regard to protected class status as established by federal, state and local laws. An affirmative advertising and outreach plan should generally help potential housing applicants know about vacancies, feel welcome to apply and have the opportunity to rent units; and

A. The director may, at their discretion, approve a request for alternative compliance for the inclusionary housing requirements. Requests for such modifications shall clearly set forth the facts upon which the request for relief is sought. Alternative compliance may include:

1. Providing affordable housing units off-site at another location within the same community service area subarea geography where the project is proposed;

2. Payment to the county in lieu of constructing affordable housing units to be used to create affordable housing units within the same community services area subarea geography; or

3. Such other means proposed by the applicant and approved at the discretion of the director, consistent with the following criteria for alternative compliance.

B. Alternative compliance requests may only be approved when all of the following requirements are met:

1. The applicant demonstrates that the proposed alternative compliance method provides the same number and quality affordable housing units as those provided on site;

2. The affordable housing units provided through the alternative compliance method will provide the same mix of rental or owner-occupied units as would have otherwise been provided on site; and

3. In no case shall the director approve an alternative compliance request that results in zero affordable housing units being constructed on-site.

C. If an alternative compliance request is approved that includes off-site affordable housing units, any building permits required for off-site affordable housing units shall be submitted before issuance of building permits or final subdivision approval for the subject property. Certificates of occupancy for off-site affordable housing units shall be issued before issuance of the final certificate of occupancy for the subject property.

D. If an alternative compliance request is approved that includes payment in lieu of constructing affordable housing units, the formula for payments shall be established by department of community and human services through a public rule under K.C.C. chapter 2.98. The formula should be based on the cost to the county to construct and maintain an affordable dwelling unit. The payment obligation shall be paid before issuance of any building permits or final subdivision approval for the project.

E. As part of the application review process for an inclusionary housing proposal, the director may

authorize modifications to the dimensional standards in K.C.C. Title 21A. Approval of modifications may only be granted if the applicant demonstrates that the subject property cannot otherwise reasonably achieve the minimum density.

F.1. As part of the application review process for an inclusionary housing proposal, the director may modify or waive the requirements for affordable dwelling units under this chapter if the applicant demonstrates that the cost of complying with this chapter would deprive the property owner of all economically beneficial use of the property or would create severe economic impact that unduly burdens the property owner.

2. Requests for such modifications shall clearly set forth the facts upon which the request for relief is sought.

3. Review of a modification or waiver of the requirements of this subsection F. may include the director considering the following factors, at a minimum:

- a. The severity of the economic impact caused by the application of the requirements of this chapter;
- b. A modification under subsection E. is not sufficient to alleviate the severity of economic impact caused by the application of the requirements of this chapter;
- c. The extent to which alternative uses of the property or configurations of the proposed development would alleviate the need for the requested waiver or modification;
- d. The extent to which any economic impact was due to decisions by the applicant or property owner; and
- e. Other factors relevant to whether the burden should be borne by the property owner.

4. The waiver or modification may be approved only to the extent necessary to grant relief from the deprivation of all economically beneficial use of the property or severe economic impact.

5. The following factors, on their own, shall not be a sufficient basis for the director to grant a waiver or modification for the requirements of this chapter:

- a. decrease in property value;

b. inability for a property owner to fully utilize the increase in residential development capacity through implementation of this chapter; or

c. the fact that any such increase in residential development capacity, combined with the requirements of this chapter, did not leave the property owner in a better financial position than would have been the case with no increase in residential development capacity and no application of the requirements of this chapter.

NEW SECTION. SECTION 30. There is hereby added to the chapter established in section 21 of this ordinance a new section to read as follows:

A. The executive shall track the use of the inclusionary housing regulations in this chapter. The information shall be publicly available on a county website, and shall include, at a minimum, information describing:

2. The number and location of developments that applied for any alternative compliance, the number and location of developments that were granted such alternative compliance and the terms of each alternative compliance;
3. The number of market rate units and the number of affordable units constructed, including the location of all affordable units; and
4. The amount of revenue collected through in lieu and fractional fees for each subarea geography, and the amount and location those fees were spent in the subarea geography.

B.1. In conjunction with the Comprehensive Plan update required by K.C.C. 20.18.060.B., excluding the 2024 Comprehensive Plan update, the executive shall analyze the inclusionary housing regulations to determine whether the purposes of the Comprehensive Plan and the inclusionary housing regulations are being met, and shall propose code changes to address any recommendations from that analysis as part of the

Comprehensive Plan update to improve the efficacy of the regulations.

2. If the executive or council finds that the inclusionary housing regulations are not effective at providing for affordable housing units, nothing in this section shall prevent the executive from transmitting or the council from adopting an ordinance that modifies the regulations outside of the timeline in K.C.C. 20.18.060.

C. The department shall be available to brief the local services and land use committee or its successor at least once per year on the implementation and overall efficacy of the inclusionary housing regulations and the information required by this section.
