ER2 EXPENDITURE RESTRICTION:

Of this appropriation, \$237,000 for P20000, Public Safety and Property Protection, may not be expended or encumbered until the Flood Control Zone District Board of Supervisors approves the addition of two stormwater projects to their opportunity fund project list. P1 PROVIDED THAT:

P20000 Public Safety and Major Property Protection: \$2,292,650

This project undertakes actions to preserve public safety and/or protect property from events such as flooding, erosion, adverse water quality through sediment and related contaminant loading during stormwater events, or the deterioration of stormwater facilities designed to prevent such events. The highest priority projects in this program are those which protect the health and safety of the public, with particular emphasis given to preventing flooding inside inhabited structures and allowing emergency vehicle access. Other important projects address water quality problems which adversely affect both public safety and the ecosystem. These projects are usually identified through citizen complaints, basin planning, facility inspections, monitoring data, or reconnaissance by County engineers.

P21000 Neighborhood Drainage and Water Quality: \$1,040,000

This project addresses smaller neighborhood problems of localized flooding, erosion, sedimentation and water quality. These problems are typically identified through citizen drainage complaints or inspections of residential stormwater facilities. Actions typically include installing pipes and catch basins, upsizing culverts, removing accumulated sediment and contaminants contained therein, stabilizing drainage channels, or retrofitting stormwater flow control facilities such as retention/detention ponds. This project includes small-scale drainage improvements to reduce flooding on private property and retrofits of drainage facilities to

comply with legally mandated requirements of King County’s NPDES Phase 1 Municipal Stormwater Permit.
