ER1 EXPENDITURE RESTRICTION:

Of this appropriation, \$50,000 shall be expended solely to expand the consultant scope of work for CIP Project 377119, Network Infrastructure Optimization Project, Fund 3771. The consultant's scope of work shall include development of the following deliverables: (1) development of entrepreneurial opportunities to better utilize the I-Net infrastructure; (2) alternative product development that will look at developing alternative I-Net products; and (3) a sourcing opportunity assessment that will look at alternatives to operating I-Net by the county, including public partnerships, facilities management and outsourcing.

ER2 EXPENDITURE RESTRICTION:

The appropriation for new capital project (A00XXX) Waterfront Streetcar (WFSC) Barn Relocation Study should be expended to: (1) evaluate new ridership markets resulting from expansion of the WFSC system or relocation of the streetcar barn; (2) identify potential funding partners; and (3) develop options for refurbishing the existing facility. The executive shall file written project status reports at the end of the first and second quarters and a final report and recommendation by the end of the third quarter with the clerk of the council for distribution to the lead staff of the budget and fiscal management committee or its successor.

ER3 EXPENDITURE RESTRICTION:

Of this appropriation, CIP Project A00510 shall be expended only on design and construction of a permanent dock facility in West Seattle to support the Elliott Bay Water Taxi service that meets the requirements of the Americans with Disabilities Act.

ER4 EXPENDITURE RESTRICTION:

Of this appropriation, \$25,000 in CIP Project 316xxx, Seahurst Environmental Center, may be expended or encumbered only after the Seahurst Environmental Center has secured an equal amount of cash or in-kind contributions in private or nonprofit donations.

P1 PROVIDED THAT:

No portion of the funds appropriated for CIP Project A00453, Radio & AVL System Replacement, shall be expended on the issuance of a project request for proposals until the executive has submitted a report of a least-cost engineering analysis of the proposed radio and AVL systems. The analysis and report shall be prepared by the current lead consultant for the project who shall be directed to look for opportunities to reduce costs in all elements of the project and to identify what, if any, effect those reductions could be expected to have upon the functionality of the system. The report shall be submitted by March 1, 2004.

This report must be filed with the clerk of the council. The original and 15 copies must be filed with the clerk who will retain the original and forward copies to each councilmember and to the lead staff of the budget and fiscal management committee or its successor.

P2 PROVIDED FURTHER THAT:

The transit program shall provide twenty-seven high-quality retired passenger vans for exclusive use by nonprofit organizations or local governments that are able to address the mobility needs of low-income, elderly, disabled or young county residents. The council shall allocate vans by motion. Each agency selected to receive a van must enter into an agreement with King County that provides, among other things, that the agency shall defend and indemnify the county against any liability, be sufficiently insured to support the indemnity and defense obligation, and be able to maintain and operate the van for its remaining useful life. The council finds that such provision of vans supports the county's public transportation function by: reducing single occupancy trips, pollution and traffic congestion; supplementing the services provided by the county's paratransit system; and increasing mobility for the transit dependent for whom regular transit may not always be a convenient option.

P3 PROVIDED FURTHER THAT:

Of this appropriation, \$67,000 shall only be expended after the council has approved by motion a vision and goals statement and a quantifiable business case for reorganization of information technology functions countywide.

The business case shall include at least two options for reorganizing information technology functions countywide: a status quo option; and an option with some level of outsourcing and centralization. The business case shall also include a quantifiable cost-benefit analysis and a countywide information technology organizational structure for each option. The business case shall include a preferred option and identify the criteria used to select the preferred option. The primary criterion used in selecting the preferred option shall be to reduce information technology management costs countywide. The executive shall transmit the vision and goals statement, quantifiable business case and motion by June 1, 2004.

The vision and goals statement, quantifiable business case and motion must be filed in the form of 15 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff for the labor, operations and technology committee or its successor.

P4 PROVIDED FURTHER THAT:

Of this appropriation \$250,000 in project XXXXX shall be expended solely on lighting and public safety improvements at the Green Lake park and ride lot. The transit division shall coordinate the scope and implementation of this project with the King County cultural development authority.

P6 PROVIDED FURTHER THAT:

Of this appropriation, \$200,000 in CIP Project 316XXX, Ravensdale Site Acquisition, may be expended or encumbered only for the purchase of the eight acres of Plum creek property immediately north of Gracie Hansen park in Ravensdale authorized for purchase in the parks capital improvement budget, after the council approves by motion a report detailing the plans to develop, operate and maintain the property.

The parks department should submit its report by September 1, 2004. The report should at a minimum

detail plans for development of ballfields and parking facilities on the eight acres and show how the site will be operated and maintained. It should also describe any agreements entered into with private-sector community groups for any of the activities specified in this proviso.

The report and motion must be filed in the form of 15 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff for the natural resources, parks and open space committee or its successor.

SECTION 2. Attachment I to this ordinance hereby amend Attachment B to Ordinance 14797, as amended, by adding thereto and inserting therein the projects listed in Attachment I to this ordinance.

SECTION 3. Ordinance 14797, Section 125, as amended, is hereby amended by adding thereto and inserting therein the following:
