Clerk 04/07/2011

AN ORDINANCE approving the Northeast Sammamish Sewer and Water
District Comprehensive Water System Plan, 2010.

STATEMENT OF FACTS:

1. King County has adopted K.C.C. chapter 13.24, which requires approval of comprehensive plans for water utilities that distribute or obtain water in unincorporated King County as a prerequisite for operating in unincorporated King County, receiving approval for annexation proposals, being granted right-of-way franchises and being given approval for right-of-way construction permits. K.C.C. 13.24.060 prescribes the requirements for approval of such plans, including consistency with state and local planning requirements.
2. RCW 57.16.010 requires that general comprehensive plans for water districts be submitted to, and approved by, the legislative authority within whose boundaries all or a portion of the district lies.
3. The Northeast Sammamish sewer and water district's last water system plan was prepared in 1999. Both Washington state Department of Health and King County regulations require water system plans to be updated every six years.
4. Northeast Sammamish sewer and water district ("the district") is in King County and has adopted a 2010 comprehensive water system plan ("the plan").
5. King County has adopted a comprehensive plan that includes water supply policies in its provisions for facilities and services (policies F-201 through F-244) that call for consistency

with other adopted plans, support for regional water supply planning, pursuit of reclaimed water, water conservation and protection of water resources.

6. K.C.C. chapter 13.24 requires the utilities technical review committee ("the UTRC") to review and make a recommendation to the King County executive and council on the plan and the requirements under K.C.C. chapter 13.24 and consistency with the King County Comprehensive Plan. The UTRC has reviewed the planning data and district operations and hereby finds:

- a. The plan uses population and employment forecasts developed by the Puget Sound Regional Council for the district's service area;
- b. The plan uses King County land use classifications for the portion of the district's service area located in unincorporated King County;
- c. The capital facility plan is adequate to meet anticipated facility and service needs;
- d. The plan is consistent with applicable Washington state water quality laws, including the evaluation of reclaimed water use; and
- e. The plan is consistent with other pertinent county adopted plans and policies.

7. The Washington state Department of Health's approval of the district's plan is pending King County council action.

8. The district completed a State Environmental Policy Act checklist and issued a determination of nonsignificance for the issuance of the plan on March 31, 2010.

9. The district's operations and facilities meet multiple existing statutory, administrative and planning standards. As the district's operations, facilities and planning meet the requirements of the King County Code, and are consistent with the King County Comprehensive Plan, the UTRC recommends approval of the plan.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. The Northeast Sammamish Sewer and Water District

Comprehensive Water System Plan, 2010, Attachment A to this ordinance, is hereby approved as a comprehensive water system plan.
