AN ORDINANCE authorizing the King County executive to transfer and assign
an easement to the Cedar River water and sewer district.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. Findings:

A. In 2004, King County acquired a utility easement from the Fairwood Golf and Country Club in Renton, Washington, to install and construct a wastewater interceptor pipeline together with all connections, manholes and appurtenances thereto as part of the Fairwood Interceptor project.

B. The Cedar River water and sewer district ("the district") operates and maintains a local sewage collection system which includes the area of the Fairwood Golf and Country Club. The district's local sewer

collection system also includes a separate wastewater pipeline referred to as Trunk D which connects the district's sewer collection system in Fairwood to the county's Madsen Creek Interceptor pipeline.

C. King County and the district believe that it is in the best interest of their respective ratepayers that King County formally transfer to the district the ownership and responsibility for that portion of the county's wastewater interceptor pipeline located in the Fairwood Golf and Country Club property together with an assignment of the utility easement for that portion of the interceptor pipeline.

D. Pursuant to K.C.C. 4.56.115, the King County executive is authorized to grant or assign utility easements necessary for utility purposes other than to serve county property so long as the utility easements will not interfere with or hinder the use of the property and so long as the grant of utility easements is first approved by the council.

E. Pursuant to K.C.C. 4.56.140, the county may dispose of county real property interests to another governmental agency by direct negotiation, upon such terms as may be agreed upon and for such consideration as may be deemed by the county to be adequate.

SECTION 2. The King County executive is hereby authorized to execute the grant, conveyance and assignment of utility easement in substantially the same form as Attachment A to this ordinance in favor of the district for that portion of the interceptor pipeline described in Attachment A to this ordinance.
