AN ORDINANCE relating to county funds; and adding a new section to K.C.C. chapter 4A.200.

STATEMENT OF FACTS:

1. In 2018, Ordinance 18793 created the department of human resources and started the process of moving employee administrative functions to one central organizational location.
2. In 2020, Ordinance 19199 moved the benefits, payroll and retirement operations section of the department of executive services to the department of human resources to complete the centralization of all employee administrative functions in order to create a single point of accountability for all human resource business functions.
3. Pursuant to K.C.C. 2.16.036.E.6., the central employee services division of the department of human resources is responsible for administering the employer responsibilities for the deferred compensation plan.
4. An administrative subfund, called the employees deferred compensation administration subfund, pays the operational costs of the deferred compensation board. The main source of revenue for the subfund is from fees charged to employees through their investments in the deferred compensation plan.
5. The employees deferred compensation administration subfund is currently an administrative subfund of the general fund and managed by the director of the department of executive services.
6. Creation of a new deferred compensation fund to be managed by the department of human

resources will support the centralization of all employee administrative functions.
