Clerk 6/5/2007

AN ORDINANCE making a net supplemental appropriation of \$1,386,000 to various current expense fund agencies and \$5,392,687 to various non-CX agencies; and amending the 2007 Budget Ordinance, Ordinance 15652, Sections 6, 8, 31, 32, 38, 41, 43, 44, 46, 48, 50, 58, 70, 72, 73, 76, 82, 83, 100, 106, 109, 111 and 119, as amended.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

<u>SECTION 1.</u> **Findings.** The council makes the following findings of fact:

In October 2006, the council adopted priorities for the 2007 budget via Motion 12367 entitled Priorities for People. Those priorities were referred to in the findings in Ordinance 15652 which adopted the 2007 county budget. The budget funded a council initiative for 2007 to engage county citizens in developing countywide priorities for 2008. That initiative has been completed and the council has accepted and forwarded to the executive the final report on that initiative prepared by the citizen engagement consultant. The next step in priority development involves council discussions of the consultant's report and documents and communicating the council's final 2008 budget priorities to the executive by August 1, 2007. As a means of providing funding for council priorities that might be identified through this process, the council finds that the one-time anticipated revenue to the county from sale of the county's property known as the Kingdome North Lot, less funds set aside for arts and cultural development under K.C.C. 4.56.130, should be designated as a reserve for this purpose in the general fund financial plan.

SECTION 2. From the current expense fund there is hereby approved and adopted a total of \$1,386,000

ER1 EXPENDITURE RESTRICTION:

Of this appropriation, \$100,000 shall be expended to fund one FTE and related costs solely for the purposes of maintaining the communicable disease epidemiology program.

## **ER2 EXPENDITURE RESTRICTION:**

Of this appropriation, \$410,000 shall be expended to fund 4.1 FTEs and related costs solely for the purposes of maintaining the epidemiology, planning and evaluation program.

## ER3 EXPENDITURE RESTRICTION:

Of this appropriation: (1) \$53,000 shall be expended solely for community health centers of King County; (2) \$70,000 shall be expended solely for the Pike Place Market clinic; and (3) \$35,000 shall be expended solely for the Puget Sound neighborhood health center.

## P1 PROVIDED THAT:

Of this appropriation, \$50,000 shall not be expended or encumbered until the executive submits a report to the council with recommendations on the medical examiner. The report shall examine the historic and projected workload of the office of the medical examiner in comparison to professional standards and other comparable metropolitan areas. The report shall include recommended staff and funding levels that would allow the office of the medical examiner to fulfill its mandatory responsibilities, provide excellent customer service to the criminal justice system and the public at large and ensure compliance with professional standards.

The executive shall file the report by March ((45)) 30, 2007, in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff of the board of health and the law, justice and human services committee, or their successors.

## P2 PROVIDED FURTHER THAT:

Of this appropriation, \$50,000 shall not be expended or encumbered unless by April 1, 2007, the department of public health has submitted to the council for its review a report detailing an implementation plan for the unallocated budget reduction of \$3,200,000. The department shall document any proposed program reductions or changes, any plans to identify new revenues, any underexpenditure by program and how

other efficiencies might reduce expenditures or increase revenues. The report shall quantify the amounts identified for each programmatic or other change and also show the potential impacts of the reductions on services, including, but not limited to, showing populations, geographic areas or lines of business that would be affected by reductions or program changes.

The report required to be submitted by this proviso must be filed in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff for the board of health and the law, justice and human services committee, or their successors.

## P3 PROVIDED FURTHER THAT:

Of this appropriation, \$50,000 shall not be expended or encumbered unless by May 31, 2007, the executive has submitted to the council for review and approval by ordinance and to the board of health for review a plan for the restructuring of personal health care and clinical services provided by the department of public health. The council finds that the current model for delivery of clinical services provided by the department of public health is not financially sustainable and that there are opportunities to achieve better health outcomes by coordinating with the community health care safety net to produce a more effective system of care.

The clinical services restructuring plan shall include: (1) an assessment of the capacity of the current community health care safety net, including the public health centers; (2) a review of each clinical service area, including access and outreach, to determine whether the service fulfills a public health need; (3) for each service that does fulfill a public health need, an examination of the appropriate role of the department of public health in meeting that need; (4) an evaluation of alternative models through which the department of public health can fulfill its roles, such as by providing the service directly, contracting with other organizations to provide the service, making financial contributions to other organizations or providing or financing of facilities; and (5) in order that the current level of services can continue to be provided, options for timely and smooth transition of those clinical services for which it is determined the department of public health does not have a

direct service role.

This plan shall be developed as part of Phase II of the Public Health Operational Master Plan ("PHOMP") under the guidance of the PHOMP steering committee. The PHOMP steering committee shall prepare the plan in consultation with an expert panel familiar with King County's community health care safety net. The members of the panel shall be selected by the PHOMP steering committee. The panel shall work in conjunction with the PHOMP consultants and staff team in developing options for review by the PHOMP steering committee.

Any report, plan and proposed ordinance required to be submitted by this proviso must be filed in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff of the board of health and the law, justice and human services committee, or their successors.

## P4 PROVIDED FURTHER THAT:

It is the intent of the council to evaluate and develop an implementation plan for how the county can best improve the health of children, given limited resources. This work shall be conducted through the Public Health Operational Master Plan ("PHOMP") steering committee, which shall develop options for a plan for submittal to the council.

In order to support this work, by May 31, 2007, the department of public health in consultation with the PHOMP steering committee shall submit a report to the council on the health of children in King County. The report shall: (1) identify the most significant health problems and conditions affecting children currently as well as those problems and conditions that will impact their future health; (2) identify the major factors, including social, economic, dietary, demographic and environmental determinants, that contribute to these health problems; and (3) identify evidence-based best practices and innovations that can appropriately be undertaken by the department of public health and that have the greatest likelihood of having a measurable and significant impact on alleviating the contributing factors that lead to health problems for children.

If lack of access to health care is determined to be one of the major factors leading to health problems for children, the report shall also identify: (1) the barriers that prevent children from achieving consistent access to health care, including preventive, primary, specialty, emergency and hospital care; (2) the infrastructure and practices needed in the health care and insurance systems to ensure that children have consistent access to preventive care and a medical home; and (3) the options regarding the role the department of public health can play in overcoming barriers to consistent access to health care and in creating, coordinating and fostering these health care and insurance system reforms, including through working with other governments and private sector organizations.

((In addition, of this appropriation, \$250,000 shall only be expended or encumbered for costs related to an access and outreach pilot project to enroll eligible children in state and federal health insurance programs. By January 15, 2007, the executive shall transmit to the council for review and approval by motion evaluation eriteria to measure and track the outcomes of this project, including the impact of the project on children's health and the success of the project in connecting children to consistent access to preventive care and a medical home. By thirty days after the end of each quarter, the executive shall transmit to the council a status report that measures the project against the adopted evaluation criteria.))

The report required to be submitted by this proviso must be filed in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff for the board of health and the law, justice and human services committee, or their successors.

## P5 PROVIDED FURTHER THAT:

Of this appropriation, \$50,000 shall not be expended or encumbered unless, by March 31, 2007, the department of public health submits a report on pedestrian fatalities in King County. The report shall evaluate the manner, cause and location of pedestrian deaths in the county and shall present options for improving pedestrian safety.

The report required to be submitted by this proviso must be filed in the form of 12 copies with the clerk

of the council, who will retain the original and will forward copies to each councilmember and to the lead staff for the board of health and the law, justice and human services committee or their successors.

The alternatives analysis report shall include scope, schedule and itemized engineer's estimate information for no less than four project alternatives including construction of a sidewalk. The alternatives analysis report shall also include identification of potential funding sources for the pedestrian facility project.

The alternatives analysis report and motion is due on ((February 28)) March 30, 2007, and must be filed in the form of 11 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff of the transportation committee, or its successor.
