The report shall examine the historic and projected workload of the office of the medical examiner in comparison to professional standards and other comparable metropolitan areas. The report shall include recommended staff and funding levels that would allow the office of the medical examiner to fulfill its mandatory responsibilities, provide excellent customer service to the criminal justice system and the public at large and ensure compliance with professional standards.

The executive shall file the report by March 15, 2007, in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff of the board of health and the law, justice and human services committee, or their successors.

The recommendations shall include a process for working collaboratively with the community on strengthening the community health safety net. The council finds that the current model for delivery of clinical services provided by the department of public health is not financially sustainable and that there are opportunities to achieve better health outcomes by coordinating with the community health care safety net to produce a more effective system of care for the increasing number of uninsured and underinsured individuals in King County.

(2) The collaborative process will result in recommendations to strengthen the community health care safety net, including recommendations regarding: (a) a vision for provision of health care to the un-and under-insured in King County; (b) improvements in access to health care for the uninsured and underinsured, the working poor, the mentally ill, and others facing barriers in receiving care; (c) the role of the department in the direct provision of health care services, and (d) options for timely and smooth transition for any changes in service delivery in order to ensure that those currently being served can continue to receive care.

(3) The PHOMP recommendations for this collaborative process shall include: (a) the scope of work identified in subsection (2) (a) through (d) of this proviso, including factors that contribute to barriers to access to care; (b) the role of the department of public health as a convener; (c) the community sectors and partners who should be involved and a timeline for transmittal of appointment motions to the council; and (d) an

estimated timeline for completion.

(4) These recommendations for this collaborative process will be developed as part of Phase II of the under the guidance of the PHOMP steering committee. The members of the panel shall be selected by the PHOMP steering committee. The panel shall work in conjunction with the PHOMP consultants and staff team in developing options for review by the PHOMP steering committee.

(5) Any report, plan and proposed ordinance required to be submitted by this proviso must be filed in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff of the board of health and the law, justice and human services committee, or their successors.

**P4 PROVIDED FURTHER THAT:**

It is the intent of the council to evaluate and develop an implementation plan for how the county can best improve the health of children, given limited resources. This work shall be conducted through the Public Health Operational Master Plan ("PHOMP") steering committee, which shall develop options for a plan for submittal to the council.

In order to support this work, by May 31, 2007, the department of public health in consultation with the PHOMP steering committee shall submit a report to the council on the health of children in King County. The report shall: (1) identify the most significant health problems and conditions affecting children currently as well as those problems and conditions that will impact their future health; (2) identify the major factors, including social, economic, dietary, demographic and environmental determinants, that contribute to these health problems; and (3) identify evidence-based best practices and innovations that can appropriately be undertaken by the department of public health and that have the greatest likelihood of having a measurable and significant impact on alleviating the contributing factors that lead to health problems for children.

If lack of access to health care is determined to be one of the major factors leading to health problems for children, the report shall also identify: (1) the barriers that prevent children from achieving consistent access to health care, including preventive, primary, specialty, emergency and hospital care; (2) the infrastructure and practices needed in the health care and insurance systems to ensure that children have consistent access to preventive care and a medical home; and (3) the options regarding the role the department of public health can play in overcoming barriers to consistent access to health care and in creating, coordinating and fostering these health care and insurance system reforms, including through working with other governments and private sector organizations.

The report required to be submitted by this proviso must be filed in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff for the board of health and the law, justice and human services committee, or their successors.

P5 PROVIDED FURTHER THAT:

Of this appropriation, \$50,000 shall not be expended or encumbered unless, by March 31, 2007, the department of public health submits a report on pedestrian fatalities in King County. The report shall evaluate the manner, cause and location of pedestrian deaths in the county and shall present options for improving pedestrian safety.

The report required to be submitted by this proviso must be filed in the form of 12 copies with the clerk of the council, who will retain the original and will forward copies to each councilmember and to the lead staff for the board of health and the law, justice and human services committee or their successors.
